TREX ARTISAN GLASS RAIL
Product Information

TREX ARTISAN SERIES RAILING™

Setting a New Standard for Quality & Performance. The clean look of painted wood is one of the hottest trends in deck design. Choose traditional balusters or contemporary glass paneling to create a deck that combines beauty and performance. Unlike wood, Trex® Railing won't rot, splinter, warp or deteriorate, so there's no need for sanding, staining or painting. And, it offers more workability than vinyl.

In a Class by Itself. Trex is the only manufacturer to offer the TrexExpress™ Railing Assembly System. This system provides the measurements to secure support brackets and sets the rail height for an easily constructed, elegant deck. The result: a fast railing assembly system that saves time and money, making Trex Artisan Series Railings the perfect choice.

- » Low maintenance - durable, weatherproof composite is easy to care for.
- » Easy to install - assembles quickly with the TrexExpress™ Railing Assembly System.
- » Sturdy railing system - Crafted with Fibrex®, a patented technology licenses from Andersen Corporation, it eliminates vibrations, squeaks and rattles.
- » Finished quality - innovative design and fit create a premier look.
- » Backed by a 25-year limited residential warranty.
