

Routes to become a Delegate to the California Constitutional Convention

County Delegates

How it works...

Each California County will have one delegate for every 175,000 residents. If a County has a population of less than 175,000, they will have one delegate. Recent population estimates show that there would be 221 County Delegates.

Step One

In each County there will be a Delegate Selection Committee made up of five people: Two members of the Board of Supervisors, two mayors and a school board or board of education member.

Step Two

The County Delegate Selection Committee of each County will hold public meetings to select, by majority vote, County delegates to the convention. Any person interested can and should apply.

The three cities that have a population of over one million (Los Angeles, San Diego & San Jose) will have their share of delegates chosen at the city level by the members of the City Council, under the same process the County Delegate Selection Committee. In addition, the four federally recognized Indian Tribes will also appoint their own delegates.

California Constitutional Convention

Assembly District Delegates

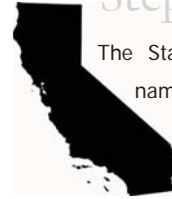

How it works...

Each California Assembly District will have three delegates. In total, there will be 240 Assembly District Delegates.

Step One

The State Auditor randomly selects the names of 400 people in each Assembly District across California.

Step Two

Those 400 people, per district, will receive information by mail about becoming a delegate. If they are interested in serving, they respond to the Auditor.

Step Three

Of those who responded favorably, 50 individuals per assembly district will be invited to attend a presentation to learn more about duties and responsibilities of a delegate. At the meeting of 50, following discussion and deliberation, they will vote for three in their own ranks to represent the Assembly District as delegates to the Constitutional Convention.
