Authorized Requestor Signature: \_\_\_\_\_

*Michael Roark*

1. P.O. Requisition No: ~~Click here to enter text.~~ New

2. Item. Fiber Interconnect

3. ☐ Single Item ☒ Multiple Like Items ☐ Integrated System

4. How does this purchase meet the Departments operational needs? EHSD needs additional Fiber Interconnect licences to connect our new Cisco UCS virtual server Hosts to the NetApp Storage Array. Our existing licence count is quickly approaching the system's capacity. Adding this additional capacity will enable EHSD to continue to grow its virtual server environment.

5. Estimated cost: \$97686.89

6. Funding Source: 45% State, 45% Federal, 10% County Funds

7. Chief Information Officer Approval (Needed for acquisition of computer hardware, services, software)  
Computer Hardware, Services, and Software meet minimum use guidelines.

Signature: \_\_\_\_\_

*Ed Wood*

Date: \_\_\_\_\_

8. County Administrator Approval

Signature: \_\_\_\_\_

*Ruth Sanchez*

Date: \_\_\_\_\_

3/11/15

*Sc*

9. Please return approval to Authorized Requestor as noted at top.

**SUPPLEMENTAL APPROVAL FORM FOR ITEMS OVER \$25,000**

(If over \$100,000- Board of Supervisors Approval needed)

Department: EHSD

Date: 3/5/2015

Authorized Requestor: Dave Eisenlohr  
Address: 300 Ellinwood Way

Phone: 7-3001  
Email: deisenlohr@ehsd.cccounty.us

Authorized Requestor Signature:  deisenlohr  
Mar 5 2015 11:20 AM

1. P.O. Requisition No: None

2. Item. Development Servers

3. ☐ Single Item ☒ Multiple Like Items ☐ Integrated System

4. How does this purchase meet the Departments operational needs? This purchase will enable EHSD to upgrade its training facilities and conference rooms with smartboards. Originally bid out by GSD, EHSD piloted several of these devices in multiple locations, including conference rooms and classrooms. The SmartBoards were well received. Staff development has asked that these be rolled out to all training facilities as they enhance the training experience. Use in conference room was likewise appreciated. The benefits allow use as whiteboards, web conferencing displays, and standard displays. An overlay function permits display of web pages and applications and allows users to notate the display using touch tools and record those changes. This enhances many design processes and conference room discussions.

5. Estimated cost: \$167,098

6. Funding Source: 45% State, 45% Federal, 10% County Funds

7. Chief Information Officer Approval (Needed for acquisition of computer hardware, services, software)  
Computer Hardware, Services, and Software meet minimum use guidelines.

Signature:  Date: 3/5/15

8. County Administrator Approval

Signature:  Date: 3/9/15  

9. Please return approval to Authorized Requestor as noted at top.
