The aforesaid easement area is described as follows:

Grantor further grants to Grantee:

(a) the right of ingress to and egress from said easement area over and across said lands by means of roads and lanes thereon, if such there be, otherwise by such route or routes as shall occasion the least practicable damage and inconvenience to Grantor, provided, that such right of ingress and egress shall not extend to any portion of said lands which is isolated from said easement area by any public road or highway, now crossing or hereafter crossing said lands;

(b) the right, from time to time, to trim or to cut down any and all trees and brush now or hereafter within said easement area, and shall have the further right, from time to time, to trim

and cut down trees and brush along each side of said easement area which now or hereafter in the opinion of Grantee may interfere with or be a hazard to the facilities installed hereunder, or as Grantee deems necessary to comply with applicable state or federal regulations;

(c) the right to use such portion of said lands contiguous to said easement area as may be reasonably necessary in connection with the installation and replacement of said facilities;

(d) the right to install, maintain and use gates in all fences which now cross or shall hereafter cross said easement area; and

(e) the right to mark the location of said easement area by suitable markers set in the ground; provided that said markers shall be placed in fences or other locations which will not interfere with any reasonable use Grantor shall make of said easement area.

Grantee hereby covenants and agrees:

(a) not to fence said easement area;

(b) to promptly backfill any excavations made by it on said easement area and repair any damage it shall do to Grantor's private roads or lanes on said lands; and

(c) to indemnify Grantor against any loss and damage which shall be caused by any wrongful or negligent act or omission of Grantee or of its agents or employees in the course of their employment, provided, however, that this indemnity shall not extend to that portion of such loss or damage that shall have been caused by Grantor's comparative negligence or willful misconduct.

Grantor reserves the right to use said easement area for purposes which will not interfere with Grantee's full enjoyment of the rights hereby granted; provided that Grantor shall not erect or construct any building or other structure, or drill or operate any well, or construct any reservoir or other obstruction within said easement area, or plant any trees or vines, or construct associated supporting structures, within ten feet of the edge(s) of the pipeline(s), or diminish or substantially add to the ground cover over said facilities, or construct any fences that will interfere with the maintenance and operation of said facilities.

The provisions hereof shall inure to the benefit of and bind the successors and assigns of the respective parties hereto, and all covenants shall apply to and run with the land.
