FISCAL IMPACT:

The levy of the annual service charges in CSA M-28 will provide revenues for the continued operation and maintenance of a water supply system in CSA M-28.

BACKGROUND:

As directed by Article 1012-2.602 of the Contra Costa County Ordinance Code, the Public Works Director prepared a Fiscal Year 2016-2017 Tentative Annual Report on service charges in CSA M-28 and filed it with the Clerk of the Board of Supervisors. CSA M-28 provides continued operation and maintenance of a water supply system. The Tentative Annual Report contains a description of each parcel of real property receiving services, the basic service charge for CSA M-28 and the estimated amount of the service charge for each parcel for the fiscal year.

Upon the filing of the Tentative Annual Report, the Clerk of the Board of Supervisors fixed a time, date and place for a Board hearing on the Tentative Annual Report and for filing objections or protests thereto, and published a notice of the hearing as provided in Government Code section 6066.

Following the public hearing, the Board may adopt, revise, change, reduce, increase or modify any estimated service charge, and shall make its determination upon each estimated service charge as described in the Tentative Annual Report. The service charges in the Tentative Annual Report were computed and apportioned according to a formula that fairly distributes the service charge among all subject parcels in proportion to the estimated benefits they will receive from the services provided. Staff recommends approval of the service charges in the Tentative Annual Report without modification.

The service charges in the Tentative Annual Report are higher than the charges levied in Fiscal Year 2015-2016 because they incorporate an automatic adjustment approved by the parcel owners in CSA M-28 in 2007. The adjustment provision allowed for an increase each year based upon the San Francisco Bay Area – All Urban Consumer Price Index. The Board approved this provision on August 7, 2007.

Adoption of Resolution 2016/345 confirms the Tentative Annual Report and assesses the charges set forth therein, but does not levy the charges. The levy of the service charges occurs after the preparation of a Final Annual Report that conforms to the official assessment roll for Fiscal Year 2016-2017. The official assessment roll will be issued by the County Assessor on or about July 1, 2016.

CONSEQUENCE OF NEGATIVE ACTION:

If the Fiscal Year 2016-2017 Tentative Annual Report for CSA M-28 is not confirmed, either as filed or as modified, the service charges set forth in the Tentative Annual Report may not be levied for Fiscal Year 2016-2017. Therefore, the District would be unable to provide continued operation and maintenance of a water supply system and an alternate source of funding would have to be identified.

BACKGROUND INFORMATION

The Willow Mobile Home Park is located on Bethel Island and consists of 1 parcel (23 acres) that includes 172 mobile homes. In order for safe water services to be provided, it was recommended a CSA be formed.

On December 10, 1991 the Contra Costa Board of Supervisors approved County Resolution 91/807 which formed County Service Area (CSA) M-28 (Willow Mobile Home Park Water District). CSA M-28 was formed pursuant to the County Service Area Law to ensure the proper flow of funds for the ongoing operation, maintenance and servicing of extended community water system services within the Bethel Island Area.

CSA M-28 has been given the power to acquire, construct, operate, replace, maintain and repair a water supply and distribution system as authorized by California Government Code Section 25210.4(d) and 25120.4a(1). The funding for CSA M-28 comes from service charges which are obtained from the users of the water system, in accordance with former Government Code Section 25210.77a, Government Code Section 25210.9 and County Ordinance Section 1012-2.6.

CSA M-28 owns and operates a well and a reverse osmosis (RO) system. Water is pumped from a well and is treated through a RO system. The treated water is stored in a 20,000 gallon tank. From the tank, the water is supplied via a single point to the Willow Mobile Home Park.

In October 2014, a town hall meeting was held at the Willow Mobile Home Park to discuss the future of CSA M-28. The main issue discussed was that the current aging RO system is becoming more expensive to maintain and need of significant capital improvements. The cost of maintaining this system exceeds the annual assessment funding available. Without a major investment, it is anticipated that the RO system will fail eventually. Alternatives were introduced (status quo, increase service charge to pay for the necessary improvements, connect to Diablo Water District, and request State waiver for secondary standards). It appeared that the majority of the residents at the meeting preferred CSA M-28 to move toward reduction in service by requesting a waiver for secondary standards from the State. This alternative includes removing the RO system and providing the minimum allowable water treatment.

By removing the RO treatment, the water would only meet the primary standards and would meet most, but not all, of the secondary standards. CSA M-28 would seek a waiver from the State for the secondary standards. Of all the alternatives presented at the town hall meeting, reducing water treatment allows the rate to be the lowest. It will also allow each individual mobile home to decide what type of treatment they prefer. Whereas, maintaining a more expensive community treatment system, such as the RO, forces everyone to pay for the same level of treatment.

Subsequent to the town hall meeting, on December 16, 2014, the Board of Supervisors authorized a vote by the parcel owner. CSA M-28 requested the mobile park owner, the single rate payer to CSA M-28, to vote if he would be willing to pay for a higher rate to fix the existing RO system or reject the rate increase and move toward reduced services. The mobile home park owner informed the County that he took a survey of the mobile home park residents and his

survey indicated the mobile home park residents wanted him to vote against the rate increase. In early 2015, the mobile home park owner submitted his ballot and voted against a rate increase. On March 3, 2015, the ballot was opened and the Board determined that there was a majority protest against a rate increase and directed staff to seek a waiver from the State.

Based on the vote to reject the rate increase, CSA M-28 began the process to move toward reducing the water treatment service. As required by the regulations to obtain the waiver for secondary standards, CSA M-28 has contracted with a consultant to provide the necessary report.

Late 2015, during a staff visit to the CSA M-28's facility to perform a site review and obtain test samples, it was discovered that the RO was not operating. The previous operator had turned off the RO system without informing CSA M-28 staff. The site review revealed that the water from the well was bypassing the RO system. However, the previous operator did install a chlorine system. Although the water had not gone through the RO system, the water did receive treatment. This revised system is similar to CSA M-28's proposal to the State to replace the RO system.

Despite the fact that the revised system is similar to what the CSA M-28 staff plan to present to the State, the unilateral decision to make the changes and lack of communication by the previous operator were not acceptable to CSA M-28. CSA M-28 staff directed test samples to be taken by the consultant to make sure the water complied with the primary standards. It was anticipated that the water would because historically the raw water from the well has. This is the reason why a reduced service was a viable option being considered 2014 when the County met with the residents. The consultant reported that the water under the revised system complied with the primary standards. CSA M-28 staff also replaced the operator. Lastly, CSA M-28 staff communicated with County Environmental Health, the regulatory agency, of the discovery and the actions taken.

Changes at CSA M-28 have resulted in a new system operator and movement toward the same goals as discussed at the town hall meeting:

1) obtain waiver from regulatory agency,
2) reduce the level of community water treatment, and
3) allow each resident to establish the appropriate system at their own mobile home.

In Fiscal Year 2015-2016, CSA M-28 made improvements to the aging system and infrastructure. Some of the improvements completed included the upgrade of the auto-dialer alarm system, installation of a flow-based chlorine injection pump system, and installation of new wiring to the well pump. CSA M-28 also plans to replace the existing well pump and upgrade its emergency response options by entering into an agreement with an earby water district and contract with a water delivery (hauling company) to supply water to the Willow Mobile Home Park during emergency events.

(d)), the Tentative Annual Report has been filed with the Clerk of the Board of Supervisors, public notice has been completed as required, and the Board will conduct a Public Hearing and then make a determination on each estimated service charge in the tentative report. Contra Costa Board of Supervisors will review the Tentative Annual Report in accordance with Resolution No. 2016/345, on June 7, 2016, and conduct a Public Hearing in connection with the proceedings for CSA M-28.

Upon adoption of the Final Annual Report by the Board of Supervisors, the charges contained herein will be collected on the property tax roll of Contra Costa County in the same manner, by the same persons, at the same time as, and together with the County's property taxes.

Legal Authority

As required by County Ordinance Section 1012-2.6, former County Service Area Law (California Government Code Section 25210.77a), and current County Service Area Law (California Government Code Section 24210.3, subd. (d)), the Tentative Annual Report includes the following minimum information as shown in the Service Charge Roll:

1. a description of each parcel of real property receiving the miscellaneous extended service;
2. the basic service charge;
3. the estimated amount of the service charge for each parcel for such year; and
4. a parcel list identifying each parcel receiving services that allows parcel owners to find their property on the list and determine the proposed charge.

This annual report also includes the following additional information to allow the reader to better understand what services are being paid for, what is the total annual cost for the services provided, and how the cost of services are spread to each individual parcel:

1. Estimate of Annual Cost; and
2. Method of Apportionment.

ESTIMATE OF ANNUAL COST

A special fund has been set up for the collection of revenues and expenditures for CSA M-28. The total cost of construction, operation, and maintenance and servicing of the water system can be recovered from the collection of charges. Incidental expenses including administration, engineering fees, legal fees and all other costs associated with the construction, operation and maintenance and servicing of the water system may also be included.

When CSA M-28 was formed, a financial analysis was performed to provide the framework for an operating budget for the proposed operation, maintenance and servicing of extended community water system services. Revenues collected from the charge shall be used only for the expenditures represented in this report. Any balance remaining on July 1 at the end of the fiscal year must be carried over to the next fiscal year.

In Fiscal Year 2016-2017, CSA M-28 plans to continue the efforts to obtain the waiver from the State. Obtaining the waiver from the State is a significant effort that may include taking additional water samples, analyzing additional alternatives, compiling additional survey data, meeting with the State, etc. All the information gathered will be documented in an engineer report and presented to the State. CSA M-28 also plans to purchase a spare booster pump and upgrade the power controller box and breaker switches.

METHOD OF APPORTIONMENT

Special vs. General Benefit

On November 5, 1996 California voters approved Proposition 218 entitled "Right to Vote On Taxes Act" which added Articles XIIIC and XIIID to the California Constitution. While its title refers only to taxes, Proposition 218 establishes new procedural requirements for fees, charges and benefit assessments.

These new procedures stipulate that even if charges or benefit assessments are initially exempt from Proposition 218, future increases in the charges or benefit assessments must comply with the provisions of Proposition 218. However, if the increase in the charge or benefit assessment were anticipated in the charge or benefit assessment formula (e.g., consumer price index increase or a predetermined cap) then the increase in the charge or benefit assessment would be in compliance with the intent and provisions of Proposition 218.

Proposition 218 provides that "only special benefits are assessable" and defines a special benefit as a particular and distinct benefit conferred on real property and not a general benefit received

by the public at large. The extended public services provided within CSA M-28 are deemed a special benefit and only serve the parcels located within the boundaries of the District. Without the services, the parcel located in the unincorporated area would not receive water services. Therefore the services in CSA M-28 are 100% special benefit to the parcel within the CSA.

Methodology

The total operation and maintenance costs for the extended public services are apportioned in accordance with the methodology that is consistent with standard practices.

The maximum charge rate was previously set at $75,300 per parcel (1991 dollars). Since 1991 the Consumer Price Index (CPI) for the San Francisco Bay Area All Urban Consumers and the costs to operate and maintain the improvements increased, however the charge rate remained constant until Fiscal Year 2007-2008. In Fiscal Year 2007-2008 the charge rate was increased to $79,818 per parcel with an allowance for an increase each subsequent year based upon the San Francisco Bay Area – All Urban Consumers as of April 2007 (215.842).

Due to an aging system, the cost of operating and maintaining water facilities continues to increase. It was proposed in Fiscal Year 2010-11 that the charge rate be increased to $95,500 per parcel (8.5% increase). However, this increase was not supported by the property owner, and therefore the 8.5% increase was not imposed.

The cost of operating and maintaining water facilities continues to increase, due to an aging system. It was proposed in Fiscal Year 2014-15 that the charge rate be increased from $91,937 to $335,939 per parcel. However, this increase was not supported by the property owner, and therefore the increase was not imposed.

Rate

The February 2016 CPI Index is 262.6, therefore the maximum rate for Fiscal Year 2016-2017 can be increased 3.02% to $97,109.03 per parcel. It is proposed to levy charges at the maximum rate for Fiscal Year 2016-2017.

In Fiscal Year 2016-17, it is recommended based upon projected expenditures, that the maximum rate of $97,109.03 per parcel be collected. It is estimated $97,109.03 in revenue will be needed to provide the services referenced above in Fiscal Year 2016-17. There is one parcel that is included in the CSA. If you divide $97,109.03 by one (1) parcel, the service charge per parcel is $97,109.03.

FISCAL IMPACT:

The levy of the annual assessment charges in CSA T-1 will provide revenues for public transit services in CSA T-1.

BACKGROUND:

As directed by Article 1012-2.602 of the Contra Costa County Ordinance Code, the Public Works Director prepared a Fiscal Year 2016-2017 Tentative Annual Report on assessment charges in CSA T-1 and filed it with the Clerk of the Board of Supervisors. CSA T-1 provides public transit services. The Tentative Annual Report contains a description of each parcel of real property receiving services, the basic assessment charge for CSA T-1 and the estimated amount of the assessment charge for each parcel for the fiscal year.

Upon the filing of the Tentative Annual Report, the Clerk of the Board of Supervisors fixed a time, date and place for a Board hearing on the Tentative Annual Report and for filing objections or protests thereto, and published a notice of the hearing as provided in Government Code section 6066.

Following the public hearing, the Board may adopt, revise, change, reduce, increase or modify any estimated assessment charge, and shall make its determination upon each estimated assessment charge as described in the Tentative Annual Report. The assessment charges in the Tentative Annual Report were computed and apportioned according to a formula that fairly distributes the assessment charge among all subject parcels in proportion to the estimated benefits they will receive from the services provided. Staff recommends approval of the assessment charges in the Tentative Annual Report without modification.

The assessment charges in the Tentative Annual Report are higher than the charges levied in Fiscal Year 2015-2016 because they incorporate an automatic adjustment approved by the parcel owners in CSA T-1 in 2006. The adjustment provision allowed for an increase each year based upon the All Urban Consumers for the Bay Area: San Francisco-Oakland-San Jose Consumer Price Index. The Board approved this provision on January 17, 2006.

Adoption of Resolution 2016/346 confirms the Tentative Annual Report and assesses the charges set forth therein, but does not levy the charges. The levy of the assessment charges occurs after the preparation of a Final Annual Report that conforms to the official assessment roll for Fiscal Year 2016-2017. The official assessment roll will be issued by the County Assessor on or about July 1, 2016.

CONSEQUENCE OF NEGATIVE ACTION:

If the Fiscal Year 2016-2017 Tentative Annual Report for CSA T-1 is not confirmed, either as filed or as modified, the assessment charges set forth in the Tentative Annual Report may not be levied for Fiscal Year 2016-2017. Therefore, the District would be unable to provide public transit services and an alternate source of funding would have to be identified.

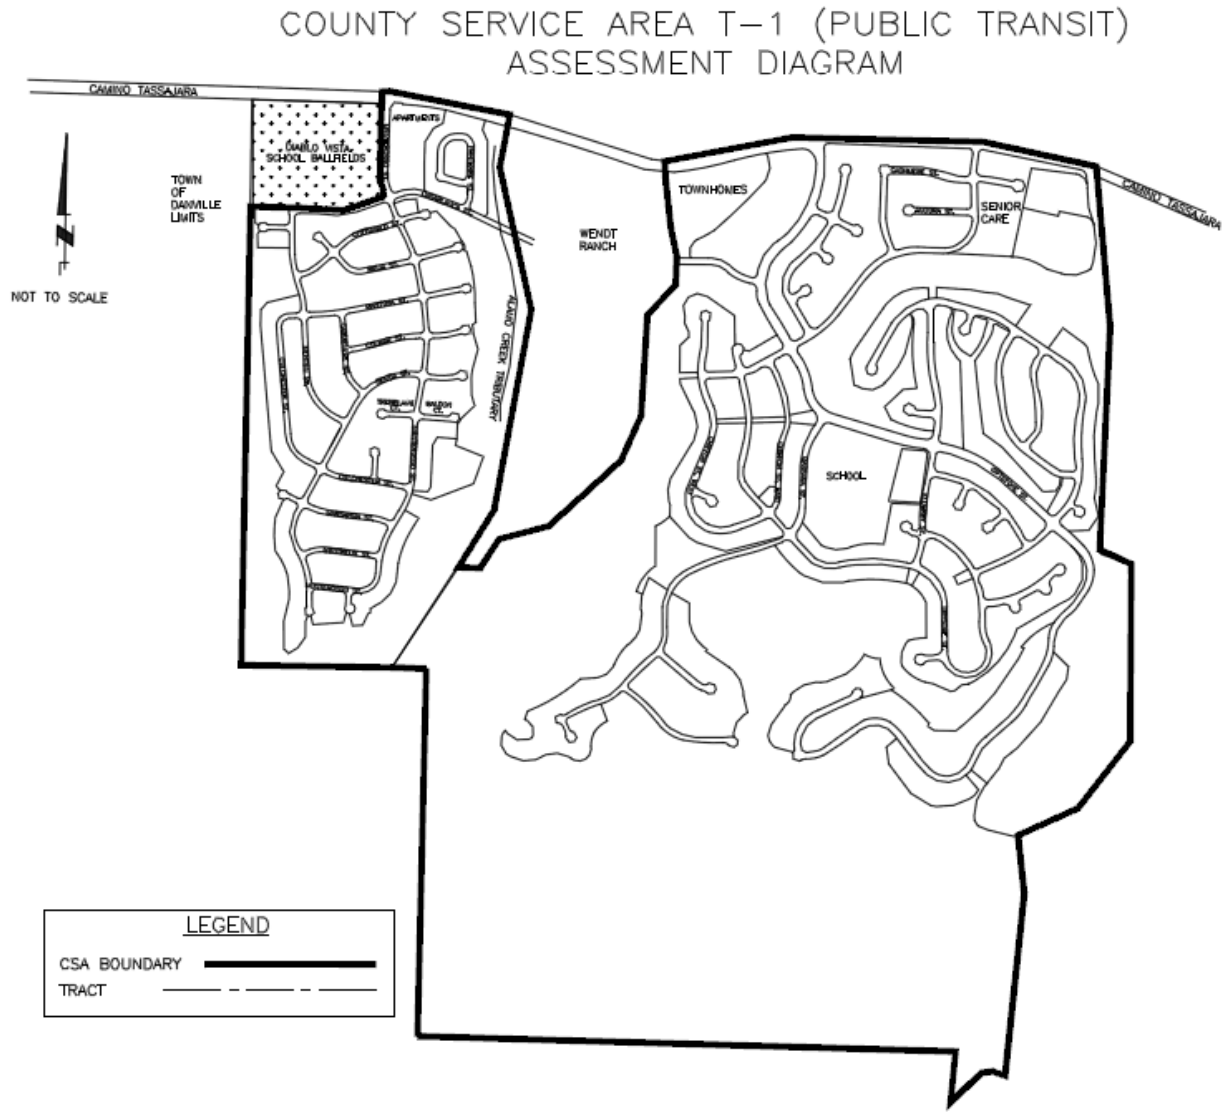
BACKGROUND INFORMATION

In 2008 a development project commonly known as the Integrated Project ("Project") was processed in the unincorporated area of Contra Costa County, just east of the Town of Danville. The project is also known as Alamo Creek/Intervening Properties Development and constitutes approximately 767 acres located south of Camino Tassajara between Hansen Lane and Finley Road. A map of the general location of this development is shown below:



Wilbur Smith Associates (WSA) completed a Transit Improvements Study of the Integrated Project in March 2005. The study acknowledged that a limited market for transit services and consequently a limited transit service is offered in the study area. The study concluded that a latent demand for transit could be satisfied if a regular commuter service were provided. Given the size of the Integrated Project and the workplace destination and commuting behavior of the adjacent census tracts as outlined by a census-based demographic analysis, a weekday rush-hour commuter service would provide the greatest benefit of transit services under consideration. Specifically, the report recommended that the proposed transit service include the Walnut Creek

Bay Area Rapid Transit (BART) station and Bishop Ranch business park as destinations. The desired level of service was based on an analysis of demand performed by WSA. Based on census information and a rider survey performed by BART in 1998, approximately 77 transit trips per day may be expected when the project development is completed. The transit trip total was calculated by WSA as follows:

- As presented in the final Environmental Impact Report (EIR) for the Integrated Project, 10,048 daily vehicle trips would be generated at the development;
- Assuming an average vehicle occupancy of 1.05 persons per vehicle and a 92.5% vehicle mode share (automobiles constitute 92.5% of transit trips to and from the households), 13,338 person trips would be generated daily by the development;
- Based on census information, 5.37% of commuter trips to and from adjacent census tracts used public transit (716 trips);
- Approximately 97% of public transit trips used rail (assumed to be exclusive to BART; 694 trips);
- Approximately 7% of BART riders at stations nearest to the project (Dublin/Pleasanton, Walnut Creek, Lafayette) used public transit to travel to and from the station (48 trips);
- Approximately 4% of transit-based commuter trips used bus service as the primary means of transportation (29 trips); and
- Total bus demand (77 trips) includes the sum of transit trips to BART stations (48 trips) and bus trips to work (29 trips).

On June 14, 2005, the Board of Supervisors approved Resolution No. 2005/357 which recommended to Local Agency Formation Commission of Contra Costa County (LAFCO) the formation of County Service Area (CSA) T-1, Public Transit in the Danville Area.

The services provided by CSA T-1 are:

1. extended public transit services.
2. implementation of Transportation Demand Management programs as discussed in this report and in the Plan for Providing Services for CSA T-1 which is on file with LAFCO.

On September 14, 2005, LAFCO conducted a public hearing and subsequently approved Resolution 05-15 which formed CSA T-1.

On October 18, 2005 Resolution 2005/674 stated that the transit services should be supported by a benefit assessment on parcels that receive this special and distinct benefit.

On January 17, 2006 the Board of Supervisors conducted a public hearing and subsequently approved Resolution 2006/21 which authorized the annual levy of assessments on the parcels located within CSA T-1 to fund extended public transit services.

CURRENT ANNUAL ADMINISTRATION

Pursuant to County Ordinance Section 1012-2.6, former County Service Area Law (California Government Code Section 25210. 77a), and current County Service Area Law (California Government Code Section 24210.3, subd. (d)), the Tentative Annual Report has been filed with the Clerk of the Board of Supervisors, public notice has been completed as required, and the Board will conduct a Public Hearing and then make a determination on each estimated service charge in the tentative report. Contra Costa Board of Supervisors will review the Tentative Annual Report in accordance with Resolution No. 2016/346, on June 7, 2016, and conduct a Public Hearing in connection with the proceedings for CSA T-1.

Upon adoption of the Final Annual Report by the Board of Supervisors, the charges contained herein will be collected on the property tax roll of Contra Costa County in the same manner, by the same persons, at the same time as, and together with the County's property taxes.

Legal Authority

As required by County Ordinance Section 1012-2.6, former County Service Area Law (California Government Code Section 25210. 77a), and current County Service Area Law (California Government Code Section 24210.3, subd. (d)), the Tentative Annual Report includes the following minimum information as shown in the Service Charge Roll:

1. a description of each parcel of real property receiving the miscellaneous extended service;
2. the basic service charge;
3. the estimated amount of the service charge for each parcel for such year; and
4. a parcel list identifying each parcel receiving services that allows parcel owners to find their property on the list and determine the proposed charge.

This annual report also includes the following additional information to allow the reader to better understand what services are being paid for, what is the total annual cost for the services provided, and how the cost of services are spread to each individual parcel:

1. Estimate of Annual Cost;
2. Method of Apportionment; and

Transit Service Implementation

Two transportation studies were previously conducted to understand potential transit usage and travel patterns in CSA T-1. The transportation studies are Alamo Creek/Intervening Properties Transit Improvement Study by Wilbur Smith Associates (WSA) in 2005 and Transit Service Survey and Report for CSA T-1 Transit District by DKS Associates in 2010.

Based on these studies, the following transit service plan is to be implemented in three phases as summarized below:

1. Short – Term (completed in 2012): Community Outreach
   The short-term strategy focused on community outreach to educate the residents about existing transportation options in Contra Costa County, and to seek their feedback. The community outreach program involved flyer preparation, flyer distribution, and resident

feedback. This outreach effort attempted to identify commuter destinations for potential vanpools, in advance of a vanpool/shuttle transit program.

2. Mid-Term (2013-2017): Vanpool/Shuttle Transit Program
Based on the feedback provided by the residents, the mid-term strategy would involve a vanpool and/or shuttle service since the market for a full scale fixed route Central Contra Costa Transit Authority (County Connection) bus is not warranted at this time.

CSA T-1's plan is to engage the residents to try public transit and build up the necessary public transit demand for a full scale fixed route bus. In response to CSA T-1's plan, County Connection agreed to provide a demand response, flexible shuttle for CSA T-1 residents during the commute hours. The service is free to the riders. The exact routes will be determined by demand. Riders must be traveling from or to CSA T-1. The service area is limited to the 1.5 mile corridors along Camino Tassajara (between CSA T-1 and I-680) and I-680 (between Walnut Creek and Pleasant Hill BART station). Riders contact County Connection to request and reserve services. Based on the demand, County Connection will determine the most efficient route for the shuttle. County Connection collects and provides ridership data. This service began on January 24, 2014. For 2014, about 16 riders per day used this service. This is the equivalent of removing approximating 32 peak hour and daily trips from local and regional roadways. For 2015, about 17 to 18 riders per day used this service. This is the equivalent of removing approximating 34 to 36 peak hour and daily trips from local and regional roadways. The riders mainly get picked up from their home in the CSA T-1 service area during the morning period and get picked up from the Walnut Creek BART station during the evening period. The average operating cost per passenger in 2015 was comparable to the average cost for County Connection's Paratransit (LINK) service. CSA T-1 observed the ridership has increased overtime and more residents are utilizing the public transit service provided by CSA T-1. However, the ridership demand has not achieved the level that warrant a full scale fixed route bus. CSA T-1 will continue this mid-term program to provide the shuttle service until there is enough public transit demand for a full scale fixed route bus. CSA T-1 has amended the service agreement with County Connection with County Connection to continue the shuttle service.

In addition to County Connection's shuttle, CSA T-1 will also fund another service with the Measure J Traffic Congestion Relief Agency (TRAFFIX). TRAFFIX is a traffic congestion relief program implemented in 2009 and operated cooperatively by Contra Costa County, City of San Ramon, San Ramon Valley Unified School District, and Town of Danville to reduce traffic congestion caused by children being driven to and from school in the San Ramon area. As mentioned above, although the demand for a full scale fixed route County Connection bus is not warranted at this time, CSA T-1 recognized there is already a demand for school bus services. While awaiting for transit demand to increase, CSA T-1's interim plan is to participate in providing school bus services as an interim method to reduce congestion. TRAFFIX provided data indicating there are approximately 205 students residing within CSA T-1 who attend Monte Vista High School. TRAFFIX considers 50 students as a full bus. If approximately 25% of the eligible students participated, a bus would be full. It was anticipated that at least 50 students would participate; resulting in a full bus. This service began in the Fall of 2014 for the 2014/15 school year. TRAFFIX reported 70 passes were sold for both the

2014/15 and 2015/16 school years. This is equivalent of removing approximately 280 trips from the roadway each school day.

3. Long-Term Goal (2017 and beyond): County Connection Service
   The long-term strategy would involve expanding the vanpool/shuttle service and providing full-scale County Connection bus service, if the existing service proves successful and more commuter transit demand is demonstrated. An approximate yearly operating cost of running a full-length bus service with County Connection is estimated to be $204,000 per bus. This estimate is based on $100 per hour for 8 hours a day during morning and evening peak commute hours for 255 days a year.

ESTIMATE OF ANNUAL COST

The FY 2015-16 projected and FY 2016-17 proposed revenues and expenditures are shown below. A special fund has been set up for the collection of revenues and expenditures for CSA T-1. Incidental expenses including administration, engineering fees, legal fees and all other costs associated with the Public Transit services may be included.

When CSA T-1 was formed, a financial analysis was performed to provide the framework for an operating budget for the proposed transit service. This was based on the estimated expenses for continuing operations provided by WSA. In preparation of the budget, several factors were considered including:

- Level of Transit Service
- Phasing of Service
- Equal benefit (and equal assessment level) to residents based on projected resident population

In order to establish a reasonable reserve in the early years following formation of the CSA, revenues have been collected since FY 2006-07.

For Fiscal Year 2016-17, it is estimated there will be a surplus of funds. These funds are being set aside into Capital Reserves to purchase vehicles or fund a full-scale fixed route County Connection bus to provide the services to this area when applicable.

Revenues collected from the charge shall be used only for the expenditures represented in this report. Any balance remaining on July 1 at the end of the fiscal year must be carried over to the next fiscal year.

METHOD OF APPORTIONMENT

Special vs. General Benefit

On November 5, 1996 California voters approved Proposition 218 entitled "Right to Vote On Taxes Act" which added Articles XIIIC and XIIID to the California Constitution. While its title refers only to taxes, Proposition 218 establishes new procedural requirements for fees, charges and benefit assessments.

These new procedures stipulate that even if charges or benefit assessments are initially exempt from Proposition 218, future increases in the charges or benefit assessments must comply with the provisions of Proposition 218. However, if the increase in the charge or benefit assessment were anticipated in the charge or benefit assessment formula (e.g., consumer price index increase or a predetermined cap) then the increase in the charge or benefit assessment would be in compliance with the intent and provisions of Proposition 218.

Proposition 218 provides that "only special benefits are assessable" and defines a special benefit as a particular and distinct benefit conferred on real property and not a general benefit received by the public at large. The extended public services provided within CSA T-1 are deemed a special benefit and only serve the parcels located within the boundaries of the District. Without the services, the homes located in the unincorporated area would not receive any transit services. Therefore the services in CSA T-1 are 100% special benefit to the parcels within the CSA.

Methodology

The total operation, maintenance and servicing cost for Public Transit are apportioned in accordance with the methodology that is consistent with standard assessment engineering practices. The method for distributing the costs to each parcel is based on the Equivalent Dwelling Unit (EDU) factor.

Since the assessment is levied on the owners of properties as shown on the tax rolls, the final charges must be assigned by Assessor's Parcel Number. If assessments were to be distributed by parcel, not considering land use, this would not be equitable because a single-family parcel would be paying the same as a 50-unit apartment parcel or a large commercial establishment. Therefore, as previously stated, the total assessment costs are distributed to each parcel of land based on the number of EDUs associated with each particular parcel.

No commercial or industrial parcels are planned be included in within CSA T-1, therefore an assessment methodology has not been created for those uses.

The methodology used to assign EDUs to other land uses in proportion to the benefit they receive relative to the single family residential parcel is shown below.

Developed Single Family Residential - The developed single family parcel has been selected as the basic unit for calculation of the benefit assessments. This basic unit shall be called an **Equivalent Dwelling Unit (EDU)**. Parcels designated as developed single family residential uses per the Contra Costa County land use code are assessed one (**1.00**) EDU. In addition, those parcels that are designated as "vacant" single family residential per the Contra Costa County land use code, but have a building permit issued prior to April 30 are assessed one (1.00) EDU.

Developed Multiple Residential – The developed multi-family designation includes parcels designated as apartments, townhomes, and condominiums per the Contra Costa County land use code. Apartments are assessed a factor of **0.723270448** EDU per dwelling unit. For example, a parcel with a 100-unit apartment would be assessed 72.33 EDUs. Townhomes and condominiums are assessed a factor of **0.795597484** EDU per dwelling unit. In addition, those parcels that are designated as "vacant" multi-family residential per the Contra Costa County land use code, but have a building permit issued prior to April 30, are assessed on a per unit basis as shown above.

Exempt Property - Consists of property not classified as Developed Residential Property and includes: commercial, industrial, recreational and institutional property; parking lots; parking garages; roadways; open space and undeveloped property on which a building permit has not been issued prior to April 30. In addition, Senior Housing is classified as exempt. Residents of Senior Housing will be provided with separate shuttle service not included within the scope of the CSA.

In Fiscal Year 2006-07 the maximum annual assessment was set at $318.00 per EDU. To determine the cost per parcel, the total budget for providing service to the current total service area was divided by the total number of EDU's within the service area. Please refer to Contra

Costa County Resolution 2006-21 for a detailed report that includes the initial calculation of this rate.

The maximum assessment may be adjusted annually to reflect 2% or the prior year's change in the Consumer Price Index (CPI) for All Urban Consumers for the Bay Area: San Francisco-Oakland-San Jose. The base CPI index to be used for future calculations is February 2006 (207.1). Any change in the assessment rate per EDU, which is the result of the change in the CPI shall not be deemed an increase in the assessment subject to the requirements of Proposition 218.

For Fiscal Year 2016-17 the allowed maximum rate is $ 408.63/EDU. This rate has been calculated as follows:

$396.66 per developed EDU in Fiscal Year 2016-17
+3.02% increase for FY 2016-17 = $408.63

In Fiscal Year 2016-17, it is recommended based upon projected expenditures, that the maximum rate of $408.63 be collected. It is estimated $471,476.00 in revenue will be needed to provide the services referenced above in Fiscal Year 2016-17. There are 1,153.79 EDUs that have had a building permit issued. If you divide $471,476.00 by 1,153.79 EDUs, the service charge per parcel is $408.63.

FISCAL IMPACT:

The levy of the annual assessment charges in CSA M-30 will provide revenues for police services, park and roadside landscape maintenance, public street maintenance and street lighting services in CSA M-30.

BACKGROUND:

As directed by Article 1012-2.602 of the Contra Costa County Ordinance Code, the Public Works Director prepared a Fiscal Year 2016-2017 Tentative Annual Report on assessment charges in CSA M-30 and filed it with the Clerk of the Board of Supervisors. CSA M-30 provides police services, park and roadside landscape maintenance, public street maintenance and street lighting services. The Tentative Annual Report contains a description of each parcel of real property receiving services, the basic assessment charge for CSA M-30 and the estimated amount of the assessment charge for each parcel for the fiscal year.

Upon the filing of the Tentative Annual Report, the Clerk of the Board of Supervisors fixed a time, date and place for a Board hearing on the Tentative Annual Report and for filing objections or protests thereto, and published a notice of the hearing as provided in Government Code section 6066.

Following the public hearing, the Board may adopt, revise, change, reduce, increase or modify any estimated assessment charge, and shall make its determination upon each estimated assessment charge as described in the Tentative Annual Report. The assessment charges in the Tentative Annual Report were computed and apportioned according to a formula that fairly distributes the assessment charge among all subject parcels in proportion to the estimated benefits they will receive from the services provided. Staff recommends approval of the assessment charges in the Tentative Annual Report without modification.

The assessment charges in the Tentative Annual Report are higher than the charges levied in Fiscal Year 2015-2016 because they incorporate an automatic adjustment approved by the parcel owners in CSA M-30 in 1997. The adjustment provision allowed for an increase each year based upon the All Urban Consumers for San Francisco-Oakland-San Jose plus two percent (2%). The Board approved this provision on May 5, 1998.

Adoption of Resolution 2016/347 confirms the Tentative Annual Report and assesses the charges set forth therein, but does not levy the charges. The levy of the assessment charges occurs after the preparation of a Final Annual Report that conforms to the official assessment roll for Fiscal Year 2016-2017. The official assessment roll will be issued by the County Assessor on or about July 1, 2016.

CONSEQUENCE OF NEGATIVE ACTION:

If the Fiscal Year 2016-2017 Tentative Annual Report for CSA M-30 is not confirmed, either as filed or as modified, the assessment charges set forth in the Tentative Annual Report may not be levied for Fiscal Year 2016-2017. Therefore, the District would be unable to provide police services, park and roadside landscape maintenance, public street maintenance and street lighting services and an alternate source of funding would have to be identified.

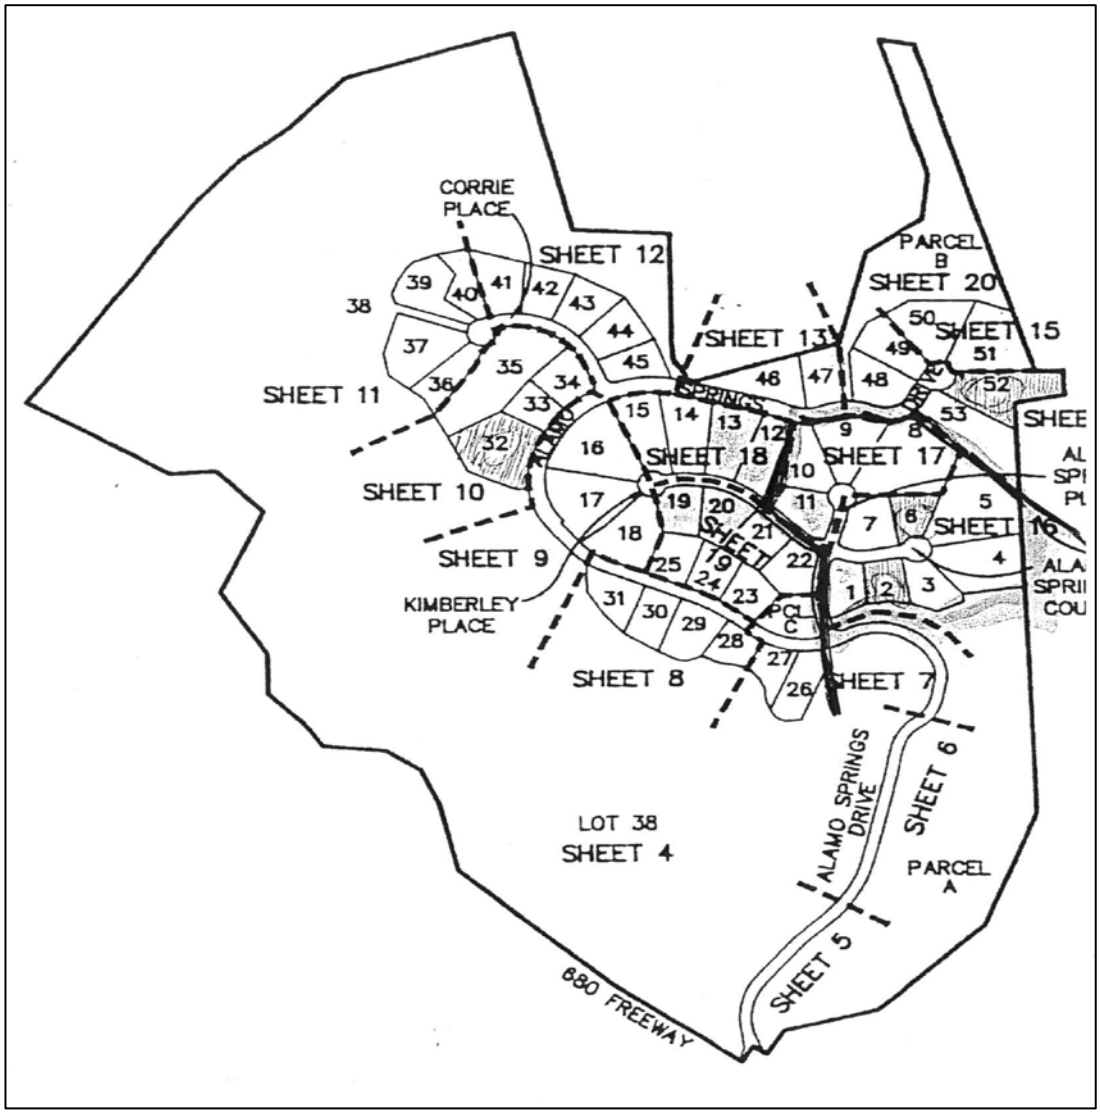
BACKGROUND INFORMATION

In August 1989, the Town of Danville ("Town") and the County of Contra Costa ("County") entered into a Memorandum of Agreement to undertake a joint-jurisdiction General Plan and project review for the Alamo Springs Project ("Project"), which is located north of Interstate 680 off of Alamo Springs Drive. The project provides for the development of 53 single family homes, of which 11 are located within the Town of Danville and 42 remain in the unincorporated portion of Contra Costa County. A map of the general location of this development is shown below:



After certification of an Environmental Impact Report (EIR) for the Project, the Board of Supervisors on December 8, and 15, 1992, approved the Project. The unincorporated area of the Project was simultaneously rezoned to a planned unit development. On January 23, 1996, the Town and County entered into a new Memorandum of Agreement, superseding the August 1989 Memorandum of Agreement, to establish procedures for joint review and approval of the project.

During the planning process, it was decided that the Town would provide extended services in the form of police, public street maintenance, park and roadside landscape maintenance to the

homes in the unincorporated area. Public Street lighting would be provided by Contra Costa County. It was decided that a benefit assessment or service charge collected on the property tax bills via a County Service Area was the best funding mechanism to pay for the increased services.

The services provided by CSA M-30 are:

1. **Police Services.** All of the police services provided to Town residents by Town police, including without limitation, community services, crime prevention, investigation, patrol, and traffic enforcement.
2. **Park and Roadside Landscape Service.** All of the park and roadside landscape services provided to Town residents including without limitation, maintenance of parks and other public facilities, such as the Danville Library and Community Center, and maintenance of all roadside and median landscaping.
3. **Public Street Maintenance.** All of the public street maintenance, including without limitation, repair and replacement of asphalt on public streets, crack sealing and other maintenance measures to protect and prolong the life of the public streets, repair and replacement of street signs, stop signs, etc.
4. **Street Lighting.** The operation, maintenance and servicing of public street lights and appurtenant facilities as required to provide safe lighting along public streets. This maintenance is provided by Contra Costa County.

On September 3, 1997, the Danville Town Council adopted Resolution No. 124-97, requesting that the Contra Costa County Local Agency Formation Commission ("LAFCO") approve formation of County Service Area (CSA) M-30. On November 17, 1997, LAFCO approved the formation of CSA M-30.

On May 5, 1998 the Board of Supervisors conducted a public hearing and subsequently approved Resolution 1998/235 which authorized the annual levy of assessments on the parcels located within CSA M-30 to fund extended public services.

CURRENT ANNUAL ADMINISTRATION

Pursuant to County Ordinance Section 1012-2.6, former County Service Area Law (California Government Code Section 25210.77a), and current County Service Area Law (California Government Code Section 24210.3, subd. (d)), the Tentative Annual Report has been filed with the Clerk of the Board of Supervisors, public notice has been completed as required, and the Board will conduct a Public Hearing and then make a determination on each estimated service charge in the tentative report. Contra Costa Board of Supervisors will review the Tentative Annual Report in accordance with Resolution No. 2016/347, on June 7, 2016, and conduct a Public Hearing in connection with the proceedings for CSA M-30.

Upon adoption of the Final Annual Report by the Board of Supervisors, the charges contained herein will be collected on the property tax roll of Contra Costa County in the same manner, by the same persons, at the same time as, and together with the County's property taxes.

Legal Authority

As required by County Ordinance Section 1012-2.6, former County Service Area Law (California Government Code Section 25210.77a), and current County Service Area Law (California Government Code Section 24210.3, subd. (d)), the Tentative Annual Report includes the following minimum information as shown in the Service Charge Roll:

1. a description of each parcel of real property receiving the miscellaneous extended service;
2. the basic service charge;
3. the estimated amount of the service charge for each parcel for such year; and
4. a parcel list identifying each parcel receiving services that allows parcel owners to find their property on the list and determine the proposed charge.

This annual report also includes the following additional information to allow the reader to better understand what services are being paid for, what is the total annual cost for the services provided, and how the cost of services are spread to each individual parcel:

1. Estimate of Annual Cost; and
2. Method of Apportionment.

ESTIMATE OF ANNUAL COST

The Fiscal Year 2015-16 projected and Fiscal Year 2016-17 proposed revenues and expenditures are shown in below. A special fund has been set up for the collection of revenues and expenditures for CSA M-30. Incidental expenses including administration, engineering fees, legal fees and all other costs associated with the extended services may also be included.

When CSA M-30 was formed, a financial analysis was performed to provide the framework for an operating budget for the proposed services. This was based on the estimated expenses for each service component (police, parks and roadside landscape, street maintenance, and street lighting). Revenues collected from the benefit assessment or service charge shall be used only for the expenditures represented in this report. Any balance remaining on July 1 at the end of the fiscal year must be carried over to the next fiscal year.

METHOD OF APPORTIONMENT

Special vs. General Benefit

On November 5, 1996 California voters approved Proposition 218 entitled "Right to Vote On Taxes Act" which added Articles XIIIC and XIIID to the California Constitution. While its title refers only to taxes, Proposition 218 establishes new procedural requirements for fees, charges and benefit assessments.

These new procedures stipulate that even if charges or benefit assessments are initially exempt from Proposition 218, future increases in the charges or benefit assessments must comply with the provisions of Proposition 218. However, if the increase in the charge or benefit assessment were anticipated in the charge or benefit assessment formula (e.g., consumer price index increase or a predetermined cap) then the increase in the charge or benefit assessment would be in compliance with the intent and provisions of Proposition 218.

Proposition 218 provides that "only special benefits are assessable" and defines a special benefit as a particular and distinct benefit conferred on real property and not a general benefit received by the public at large. The extended public services provided within CSA M-30 are deemed a special benefit and only serve the parcels located within the boundaries of the District. Without the services, the 42 homes located in the unincorporated area would receive standard County police services, limited park and roadside landscape services, limited public street maintenance and no County public street lighting. Standard County police services are characterized by 1.1 officers per 1,000 residents, and traffic enforcement would be provided by the California Highway Patrol on an as requested basis. Therefore the services in CSA M-30 are 100% special benefit to the 42 parcels within the CSA.

Methodology

The total operation and maintenance costs for the extended public services are apportioned in accordance with the methodology that is consistent with standard practices.

Since the service charge is levied on the owners of properties as shown on the tax rolls, the final charges must be assigned by Assessor's Parcel Number. The 42 parcels of the Project that make up CSA M-30 are all designated for residential use. The projects CC&R's require that most parcels be developed with a main residential unit of at least 3,500 square feet. While the parcel sizes vary, they all have substantially the same size building pads. It is anticipated that homes built on these lots will be similar in size and that the size of families who live in these homes will be similar. For these reasons, the need for, and the use of each of the Services (miscellaneous police, park and roadside landscaping maintenance, public street maintenance and County public street lighting) will be substantially the same for each parcel. Therefore, the same service charge will be levied on each developed parcel within CSA M-30. In order for a parcel to be classified as developed, a building permit must be issued prior to April 30.

The methodology for calculating the service charge per parcel for each of the Services is similar.

In Fiscal Year 1997/98 the service charge per parcel was set at $467.13 per parcel. To determine the cost per parcel, the total budget for providing service to the current total service area was divided by the total number of parcels or units within the current service area. Please refer to

Contra Costa County Resolution 1998-235 for a detailed report that includes the initial calculation of this service charge.

The maximum service charge may be adjusted annually to reflect the prior year's change in the Consumer Price Index (CPI) for All Urban Consumers for San Francisco-Oakland-San Jose plus two percent (2%). The base CPI index to be used for future calculations is April 1997 (159.6). Any change in the rate per developed parcel, which is the result of the change in the CPI shall not be deemed an increase in the service charge subject to the requirements of Proposition 218.

Rate

For Fiscal Year 2016-17 the allowed maximum rate is $1,119.74 per developed parcel. This rate has been calculated as follows:

$1,065.62 per developed parcel in Fiscal Year 2015-16
+3.02% CPI increase for FY 2016-17 = $1,097.80
+2.00% increase for FY 2016-17 = $1,119.74

In Fiscal Year 2016-17, it is recommended based upon projected expenditures, that the maximum rate of $1,119.74 be collected. It is estimated $44,789.60 in revenue will be needed to provide the services referenced above in Fiscal Year 2016-17. There are 40 parcels that have had a building permit issued. If you divide $44,789.60 by 40 homes, the service charge per parcel is $1,119.74.

FISCAL IMPACT:

The levy of the annual street lighting service charges will provide revenues for the continued operation and maintenance of street lighting in CSA L-100.

BACKGROUND:

As directed by Article 1012-2.602 of the Contra Costa County Ordinance Code, the Public Works Director prepared a Fiscal Year 2016-2017 Tentative Annual Report on service charges in CSA L-100 and filed it with the Clerk of the Board of Supervisors. CSA L-100 provides street lighting services. The Tentative Annual Report contains a description of each parcel of real property receiving services, the basic service charge for CSA L-100 and the estimated amount of the service charge for each parcel for the fiscal year.

Upon the filing of the Tentative Annual Report, the Clerk of the Board of Supervisors fixed a time, date and place for a Board hearing on the Tentative Annual Report and for filing objections or protests thereto, and published a notice of the hearing as provided in Government Code section 6066.

Following the public hearing, the Board may adopt, revise, change, reduce, increase or modify any estimated service charge, and shall make its determination upon each estimated service charge as described in the Tentative Annual Report. The service charges in the Tentative Annual Report were computed and apportioned according to a formula that fairly distributes the service charge among all subject parcels in proportion to the estimated benefits they will receive from the services provided. Staff recommends approval of the service charges in the Tentative Annual Report without modification. The service charges are unchanged from the service charges levied in CSA L-100 in Fiscal Year 2015-2016.

Adoption of Resolution 2016/348 confirms the Tentative Annual Report and assesses the service charges set forth therein, but does not levy the charges. The levy of the service charges occurs after the preparation of a Final Annual Report that conforms to the official assessment roll for Fiscal Year 2016-2017. The official assessment roll will be issued by the County Assessor on or about July 1, 2016.

CONSEQUENCE OF NEGATIVE ACTION:

If the Fiscal Year 2016-2017 Tentative Annual Report for CSA L-100 is not confirmed, either as filed or as modified, the service charges set forth in the Tentative Annual Report may not be levied for Fiscal Year 2016-2017. Street lighting would have to be selectively eliminated throughout the County to meet decreased funding levels.

Public Works Department

BACKGROUND INFORMATION

The Board of Supervisors, on October 31, 1978, instructed the Public Works Director to develop an alternate means to supplement ad valorem property taxes to fund street lighting in unincorporated County Service Areas. This report recommends the levying of a street lighting charge as provided in the County Service Area Law, Government Code, Sections 25210.1 and following, and in accordance with Ordinance No. 79-42, adopted by the Board of Supervisors on March 27, 1979.

County Service Area (CSA) L-100 was formed on September 10, 1986 as a dependent special district of the County and as the consolidation of four street lighting CSAs. The purpose for consolidating into one district was to provide more efficient and cost effective street lighting services throughout the County by having one new county service area with a single management structure and operational area throughout the County and in order to more equitably finance the cost of lighting services by a common service charge structure.

CSA L-100 provides street lighting operations and maintenance services throughout the County's unincorporated developed areas and pays for utility costs.

CURRENT ANNUAL ADMINISTRATION

Pursuant to County Ordinance Section 1012-2.6, former County Service Area Law (California Government Code Section 25210. 77a), and current County Service Area Law (California Government Code Section 24210.3, subd. (d)), the Tentative Annual Report has been filed with the Clerk of the Board of Supervisors, public notice has been completed as required, and the Board will conduct a Public Hearing and then make a determination on each estimated service charge in the tentative report. Contra Costa Board of Supervisors will review the Tentative Annual Report in accordance with Resolution No. 2016/348, on June 7, 2016, and conduct a Public Hearing in connection with the proceedings for CSA L-100.

Upon adoption of the Final Annual Report by the Board of Supervisors, the charges contained herein will be collected on the property tax roll of Contra Costa County in the same manner, by the same persons, at the same time as, and together with the County's general taxes.

Legal Authority

As required by County Ordinance Section 1012-2.6, former County Service Area Law (California Government Code Section 25210. 77a), and current County Service Area Law (California Government Code Section 24210.3, subd. (d)), the Tentative Annual Report includes the following minimum information as shown in the Service Charge Roll:

1. a description of each parcel of real property receiving the miscellaneous extended service;
2. the basic service charge;
3. the estimated amount of the service charge for each parcel for such year; and
4. a parcel list identifying each parcel receiving services that allows parcel owners to find their property on the list and determine the proposed charge.

This annual report also includes the following additional information to allow the reader to better understand what services are being paid for, what is the total annual cost for the services provided, and how the cost of services are spread to each individual parcel:

1. Estimate of Annual Cost; and
2. Method of Apportionment

Street Light Capital Project Implementation

In FY 2015-16 the Street Light Design Guidelines, Safety Lighting, Maintenance and Repair Practices was reviewed and updated. As of late 2015, Contra Costa County has completed the conversion of County-owned standard street lights from high pressure sodium vapor to light emitting diode (LED) lights. PG&E continues their LED conversion program and will change the remaining portion of PG&E-owned standard street lights to LED in West Contra Costa County in 2016.

In FY 2015-16, a Capital Improvement Plan (CIP) was prepared by W-Trans, CSA L-100 street light consultant. W-Trans concluded that the CSA funds will be needed when CSA L-100 facilities are to be replaced in the future. It further concluded that the current annual assessment collected per street light appears appropriate, and it is recommended that funds continue to be collected at the same levels.

In FY 2016-17, CSA L-100 plans to complete the recommended repairs and explore the technology upgrade options as indicated in the CIP. Additionally, CSA L-100 plans to explore the feasibility of converting decorative street lights from high pressure sodium vapor to LED lights.

ESTIMATE OF ANNUAL COST

The Fiscal Year 2015-16 projected and Fiscal Year 2016-17 proposed revenues and expenditures are shown below. A special fund has been set up for the collection of revenues and expenditures for CSA L-100. The total cost to provide the street lighting services can be recovered from the collection of service charges. Incidental expenses including administration, engineering fees, legal fees and all other costs associated with the street lighting services may also be included.

When CSA L-100 was formed, a financial analysis was performed to provide the framework for an operating budget for the proposed street lighting operations and maintenance services. Revenues collected from the charge shall be used only for the expenditures represented in this report. Any balance remaining on July 1 at the end of the fiscal year must be carried over to the next fiscal year.

METHOD OF APPORTIONMENT

Special vs. General Benefit

On November 5, 1996 California voters approved Proposition 218 entitled "Right to Vote On Taxes Act" which added Articles XIIIC and XIIID to the California Constitution. While its title refers only to taxes, Proposition 218 establishes new procedural requirements for fees, charges and benefit assessments.

These new procedures stipulate that even if charges or benefit assessments are initially exempt from Proposition 218, future increases in the charges or benefit assessments must comply with the provisions of Proposition 218. However, if the increase in the charge or benefit assessment were anticipated in the charge or benefit assessment formula (e.g., consumer price index increase or a predetermined cap) then the increase in the charge or benefit assessment would be in compliance with the intent and provisions of Proposition 218.

Proposition 218 provides that "only special benefits are assessable" and defines a special benefit as a particular and distinct benefit conferred on real property and not a general benefit received by the public at large. The extended public services provided within CSA L-100 are deemed a special benefit and only serve the parcels located within the boundaries of the District. Without the services, the homes located in the unincorporated area would receive no street lighting. Therefore the services in CSA L-100 are 100% special benefit to the parcels within the CSA.

Methodology

The total operation and maintenance costs for the extended public services are apportioned in accordance with the methodology that is consistent with standard practices.

The proper functioning of street lighting is imperative for the welfare and safety of the property owners throughout the County. Proper operation, maintenance, and servicing of a street lighting system benefits properties by providing increased illumination for ingress and egress, safety for traveling at night, improved security, protection of property and the reduction of traffic accidents.

The degree of benefit is determined by the use of each individual parcel, the intensity of illumination provided, the number of pedestrians generated and the enhanced security during hours of darkness. The method for distributing the costs to each parcel is based on the Equivalent Dwelling Unit (EDU) factor. The single-family residential parcel is considered one unit of benefit (1.00 EDU). All other land uses have been analyzed to determine a benefit they receive from the intensity of illumination provided, the number of pedestrians generated by their property and the enhanced security to their property during hours of darkness.

The single-family residential parcel has been selected as the basic unit for the calculation of assessment since it represents approximately 72% of the parcels within the County. Therefore the single-family residential parcel is defined as one Equivalent Dwelling Unit (EDU). The methodology used to assign EDUs to the land uses in proportion to the benefit they receive relative to the single family residential parcel is based on the intensity of the street lighting illumination adjacent to the parcel, the amount of pedestrian traffic generated from the parcel, and the security received from the street lighting to the parcel.

FISCAL IMPACT:

The levy of the annual assessment charges in CSA M-31 will provide revenues for transportation demand management services in CSA M-31.

BACKGROUND:

As directed by Article 1012-2.602 of the Contra Costa County Ordinance Code, the Public Works Director prepared a Fiscal Year 2016-2017 Tentative Annual Report on assessment charges in CSA M-31 and filed it with the Clerk of the Board of Supervisors. CSA M-31 provides transportation demand management services. The Tentative Annual Report contains a description of each parcel of real property receiving services, the basic assessment charge for CSA M-31 and the estimated amount of the assessment charge for each parcel for the fiscal year.

Upon the filing of the Tentative Annual Report, the Clerk of the Board of Supervisors fixed a time, date and place for a Board hearing on the Tentative Annual Report and for filing objections or protests thereto, and published a notice of the hearing as provided in Government Code section 6066.

Following the public hearing, the Board may adopt, revise, change, reduce, increase or modify any estimated assessment charges, and shall make its determination upon each estimated assessment charge as described in the Tentative Annual Report. The assessment charges in the Tentative Annual Report were computed and apportioned according to a formula that fairly distributes the assessment charge among all subject parcels in proportion to the estimated benefits they will receive from the services provided. Staff recommends approval of the assessment charges in the Tentative Annual Report without modification.

The assessment charges in the Tentative Annual Report are higher than the charges levied in Fiscal Year 2015-2016 because they incorporate an automatic adjustment approved by the parcel owners in CSA M-31 in 2002. The adjustment provision allowed for an increase each year based upon the All Urban Consumers for the Bay Area: San Francisco-Oakland-San Jose Price Index. The Board approved this provision in 2002.

Adoption of Resolution 2016/349 confirms the Tentative Annual Report and assesses the charges set forth therein, but does not levy the charges. The levy of the assessment charges occurs after the preparation of a Final Annual Report that conforms to the official assessment roll for Fiscal Year 2016-2017. The official assessment roll will be issued by the County Assessor on or about July 1, 2016.

CONSEQUENCE OF NEGATIVE ACTION:

If the Fiscal Year 2016-2017 Tentative Annual Report for CSA M-31 is not confirmed, either as filed or as modified, the assessment charges set forth in the Tentative Annual Report may not be levied for Fiscal Year 2016-2017. Therefore, the District would be unable to provide transportation demand management services and an alternate source of funding would have to be identified.

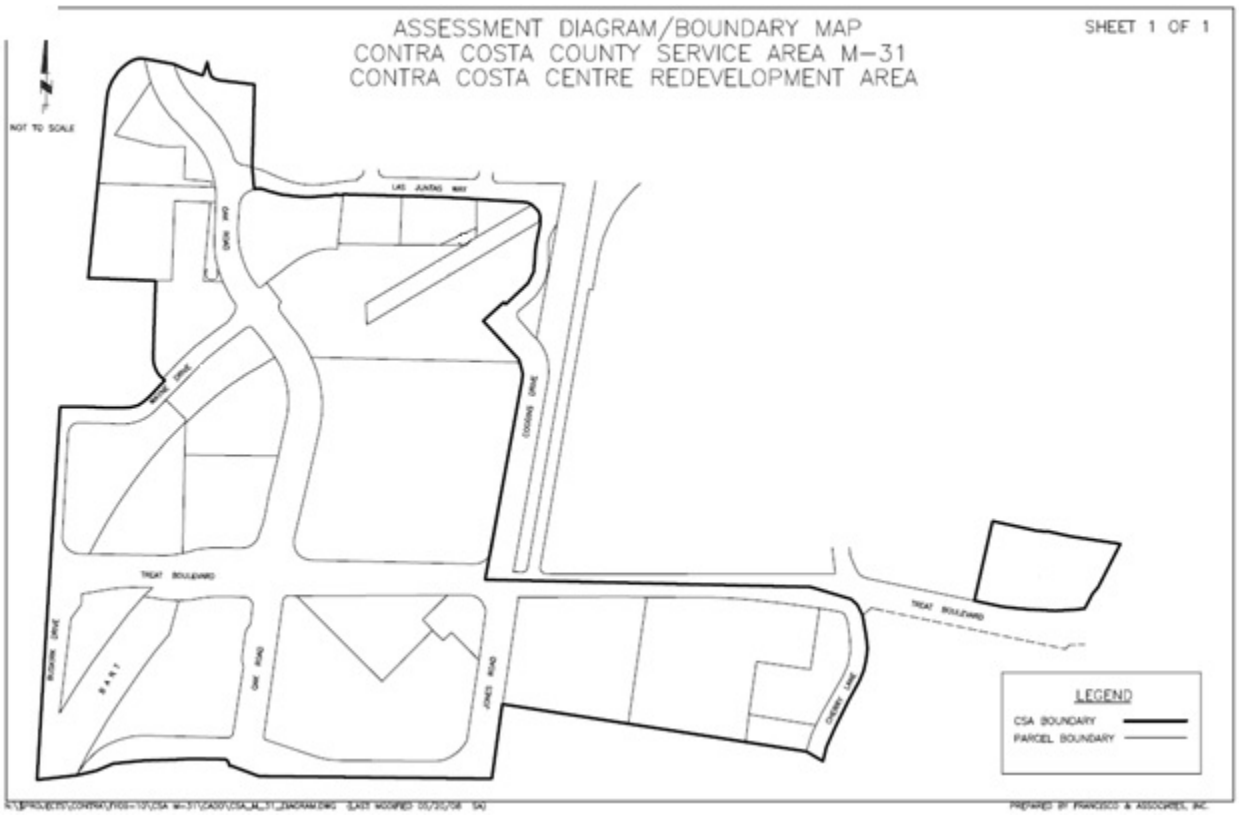
BACKGROUND INFORMATION

In 2002 it was recognized that the area commonly known as Contra Costa Centre Transit Village, in the unincorporated portion of Contra Costa County would be redeveloping. As part of this process the new development would create a need for transit services. Contra Costa Centre Transit Village is located east of Interstate 680. A map of the general location of this area is shown below.



The Contra Costa Centre Transit Village benefits residents and employees to have a variety of travel mode options. A core element of the travel mode options for residents and employees, and a key traffic mitigation measure in the California Environmental Quality Act (CEQA) documents certified at the time of adoption and amendment of the Contra Costa Centre Transit Village Specific Plan was the establishment of Transportation Demand Management (TDM) programs. TDM programs include car pooling, vanpooling, ridesharing, flex time, staggered work hours, guaranteed ride home, telecommuting, etc. The property owners within Contra Costa Centre Transit Village collectively had a mandate to achieve at least 30% TDM performance (i.e. 30% or more of the area employees arrive at work via something other than a single-occupied car).

The Contra Costa Centre Transit Village Association is the collective mechanism by which the developer/property owner's obligation for TDM programs is undertaken. The Contra Costa Centre Transit Village Association is a private non-profit corporation whose membership consists of the property owners in the area. The Contra Costa Centre Transit Village Association has been in existence since the mid-1980s.

On April 23, 2002, the Board of Supervisors approved Resolution Nos. 2002/256 and 2002/257 which recommended to the Local Agency Formation Commission of Contra Costa County (LAFCO) the formation of County Service Area (CSA) M-31, Contra Costa Centre Transit Village.

The property located within CSA M-31 receives a special and distinct benefit over and above the general benefits received by the public at-large in the form of extended transportation demand management services. These extended transportation services consist of the implementation of Transportation Demand Management programs as discussed in this report and in the Plan for Providing Services for CSA M-31 which is on file with LAFCO. Resolution 2002/256 further stated that CSA M-31 services should be supported by a benefit assessment or special tax levy on parcels that receive this special and distinct benefit from the CSA M-31 services.

On June 11, 2002 the Board of Supervisors conducted a public hearing and subsequently approved Resolution 2002/362 which authorized the annual levy of benefit assessments on the parcels located within CSA M-31 to fund Transportation Demand Management programs.

On July 10, 2002, LAFCO conducted a public hearing and subsequently approved Resolution 02-19 which formed CSA M-31.

Each year since Fiscal Year 2002-03 benefit assessments or service charges have been levied within CSA M-31.

On June 3, 2008 by Resolution No. 2008/366 the Board of Supervisors approved the annexation of Subdivision 05-8950 (Pleasant Hill BART Redevelopment Property) into CSA M-31. This annexation was subsequently approved by LAFCO Resolution 08-19 on August 13, 2008.

The following is a list of programs and services that have been proposed to be funded in Fiscal Year 2016-17 by CSA M-31:

1) Transit Subsidy Program: Load on Clipper card $70 value BART fare for $35. Must pledge to take BART to work a minimum of three days per week.
    - 75 participants for eight months
2) Carpool Incentive Program: Provide two $15 Chevron gas cards per carpool per month for eight months.
    - 25 participants for eight months
3) Bus Subsidy Program: Receive a $60 value County Connection bus pass or reimbursement of other transit bus pass for $30.
    - 20 participants for eight months
4) Bike/Walk to Work Incentive Program: Bike or walk to work at least three times per week for two months, a minimum of 12 times per month, and receive $30 incentive.
    - 10 participants
5) Guaranteed Ride Home Program: This program is managed by Contra Costa Centre Transit Village. The program is an "insurance policy" against being stranded without a way to get home for commuters who take a commute alternative (carpool, vanpool, public transit, bicycle or walk) to work and have a qualified emergency which does not allow them to use the commute alternative to return home.

5) Transportation Survey: Program managed by Contra Costa Centre Transit Village. Program conducts a survey to the approximately 6,000 employees in the 13 buildings at the Transit Village.
6) Mid-Day Shuttle: The mid-day shuttle, a clean air natural gas shuttle, runs from 10:30 am – 2:10 pm, Monday through Friday, with stops at all Centre buildings and between the Contra Costa Centre Transit Village, the Countrywood Shopping Mall and Kohl's free of charge.
7) Green Fleet Program: The Contra Costa Centre Transit Village (CCCTV) provides employees with access to local vehicles (e.g. Segways, bicycles, electric bicycles, electric and hybrid cars) to use through the Contra Costa Centre Transit Village and vicinity during the workday. Employees are able to check-out vehicles online or electronically at various kiosk locations. Green Fleet program is free to CCCTV employees.
8) Marketing Plan: Contra Costa Centre Transit Village markets the program through newsletters, posters, brochures and promotional handouts. Additionally, they meet with employers and employees directly, and host events and transportation fairs to ensure Centre area workers are informed of the various commute alternatives, subsidies and incentives available to them through the Contra Costa Centre Transit Village Transportation Demand Management Program.

These TDM services may be amended annually, including the addition or deletion of the services as required to meet the 30% TDM performance goal as determined by Contra Costa County in consultation with the Contra Costa Centre Transit Village Association or its successor.

CURRENT ANNUAL ADMINISTRATION

Pursuant to County Ordinance Section 1012-2.6, former County Service Area Law (California Government Code Section 25210. 77a), and current County Service Area Law (California Government Code Section 24210.3, subd. (d)), the Tentative Annual Report has been filed with the Clerk of the Board of Supervisors, public notice has been done as required, and the Board will conduct a Public Hearing and then make a determination on each estimated service charge in the tentative report. Contra Costa Board of Supervisors will review the Tentative Annual Report in accordance with Resolution No. 2016/349, on June 7, 2016, and conduct a Public Hearing in connection with the proceedings for CSA M-31.

Upon adoption of the Final Annual Report by the Board of Supervisors, the charges contained herein will be collected on the property tax roll of Contra Costa County in the same manner, by the same persons, at the same time as, and together with the County's property taxes.

Legal Authority

As required by County Ordinance Section 1012-2.6, former County Service Area Law (California Government Code Section 25210. 77a), and current County Service Area Law (California Government Code Section 24210.3, subd. (d)), the Tentative Annual Report includes the following minimum information as shown in the Service Charge Roll:

1. a description of each parcel of real property receiving the miscellaneous extended service;
2. the basic service charge;
3. the estimated amount of the service charge for each parcel for such year; and
4. a parcel list identifying each parcel receiving services that allows parcel owners to find their property on the list and determine the proposed charge.

This annual report also includes the following additional information to allow the reader to better understand what services are being paid for, what is the total annual cost for the services provided, and how the cost of services are spread to each individual parcel:

1. Estimate of Annual Cost; and
2. Method of Apportionment.

ESTIMATE OF ANNUAL COST

The Fiscal Year 2015-16 projected and Fiscal Year 2016-17 proposed revenues and expenditures are shown below. A special fund has been set up for the collection of revenues and expenditures for CSA M-31. The total cost to provide the TDM services can be recovered from the collection of service charges. Incidental expenses including administration, engineering fees, legal fees and all other costs associated with the TDM services may also be included.

When CSA M-31 was formed for the on going funding of the Contra Costa Centre Transit Village's Transportation Demand Management Program, a financial analysis was performed to provide the framework for an operating budget for the proposed extended transportation demand management services. This was based on the estimated expenses for each TDM service program component (carpooling, vanpooling, ridesharing, flex time, staggered work hours, guaranteed ride home, telecommuting, etc.). Revenues collected from the benefit assessment or service charge shall be used only for the expenditures represented in this report. Any balance remaining on July 1 at the end of the fiscal year must be carried over to the next fiscal year.

METHOD OF APPORTIONMENT

Special vs. General Benefit

On November 5, 1996 California voters approved Proposition 218 entitled "Right to Vote On Taxes Act" which added Articles XIIIC and XIIID to the California Constitution. While its title refers only to taxes, Proposition 218 establishes new procedural requirements for fees, charges and benefit assessments.

These new procedures stipulate that even if charges or benefit assessments are initially exempt from Proposition 218, future increases in the charges or benefit assessments must comply with the provisions of Proposition 218. However, if the increase in the charge or benefit assessment were anticipated in the charge or benefit assessment formula (e.g., consumer price index increase or a predetermined cap) then the increase in the charge or benefit assessment would be in compliance with the intent and provisions of Proposition 218.

Proposition 218 provides that "only special benefits are assessable" and defines a special benefit as a particular and distinct benefit conferred on real property and not a general benefit received by the public at large. The extended public services provided within CSA M-31 are deemed a special benefit and only serve the parcels located within the boundaries of the District; no TDM services will be provided to the general public. Without the services, the parcels located in the unincorporated area would receive no TDM services. Therefore the services in CSA M-31 are 100% special benefit to the parcels within the CSA.

Methodology

The total operation and maintenance costs for the extended public services are apportioned in accordance with the methodology that is consistent with standard practices.

Developed Residential Property: Developed Residential Property consists of property which has had a residential building permit issued prior to April 30 and is classified by the County Assessor's office as single-family residential, multi-family residential, apartment, condominium, townhome, townhouse, co-op, cluster home or any other type of property which has been developed for residential use for which occupants live and occupy for extended periods of time. Developed Residential Property does not include hotel and motel use.

Developed Commercial Property: Developed Commercial Property consists of property which has had a commercial building permit issued prior to April 30 and is classified by the County Assessor's office as commercial property. Developed Commercial Property includes, but is not limited to, retail stores and shopping centers, office buildings, conference centers, hotels and motels, or any other type of property which has been developed for commercial use.

Exempt Property: Exempt property consists of property not classified as Developed Residential Property or Developed Commercial Property. However, Exempt Property does include property that had been previously classified as Developed Residential Property or Developed Commercial Property which has subsequently had the building structure located on the parcel demolished prior to April 30. This parcel would then remain as an Exempt Property until such time another building permit is issued prior to April 30 to reclassify the parcel as Developed Residential Property or Developed Commercial Property. Exempt Property also includes: parking lots, parking garages, roadways, open space and undeveloped property for which a building permit has not been issued prior to April 30.

The methodology for calculating the service charge per parcel for the Services is explained below.

Developed Residential Property - It is anticipated that not all of the TDM programs will be provided to the Developed Residential Property owners. The most viable programs to reduce the number of single occupied vehicular trips are the Shuttle Program in conjunction with the Marketing Program. The cost to provide these programs to the Developed Residential Property owners at build-out was estimated to be $28,386.36 per year (in FY 2007-08 dollars). Since each residential unit is similar in size and receives the same degree of benefit from the residential TDM programs, each residential unit is charged an equal share of the Residential TDM program costs. It is anticipated that there will be 522 residential units at build-out. Therefore, in Fiscal Year 2007-08 the maximum annual assessment was set at $54.38 per residential unit.

Developed Commercial Property - It is anticipated that all TDM programs will be provided to the Developed Commercial Property owners. The cost to provide these TDM services to Developed Commercial Property owners at build-out was estimated to be $238,121.84 per year (in FY 2007-08 dollars). For Developed Commercial Property the amount of building floor area directly correlates to the number of potential employees located on each parcel. These total floor area numbers are used to calculate the proportional special benefit received by each Developed Commercial Parcel within the District. Building floor area is defined by the gross square footage of the buildings exclusive of parking. The building square footage is shown on the Assessment List on the following page and serves as the basis for calculation of the annual assessments for Developed Commercial Property. It is anticipated that there will be 2,487,190 sq. ft. of commercial development at build-out. Therefore, in Fiscal Year 2007-08 the maximum annual assessment rate per sq. ft. was set at $0.0957 per sq. ft.

Assessment Rate

The maximum assessment rates may be adjusted annually to reflect the prior year's change in the Consumer Price Index (CPI) for All Urban Consumers for the Bay Area: San Francisco-Oakland-San Jose. The base CPI is June 2007 (216.123). Any change in the assessment rate, which is the result of the change in the CPI shall not be deemed an increase in the assessment subject to the requirements of Proposition 218.

For Fiscal Year 2016-17 the allowed maximum rate is shown below and has been calculated as follows:

The February 2016 CPI is 262.600; this is a 3.02% increase over the February 2015 CPI.

Developed Residential

$64.14/residential unit in Fiscal Year 2015-16
+3.02% CPI increase for FY 2016-17 = $66.07

Developed Commercial

$0.1129/square foot in Fiscal Year 2015-16
+3.02% CPI increase for FY 2016-17 = $0.1163

In Fiscal Year 2016-17, it is recommended based upon projected expenditures, that the maximum rate of $66.07/residential unit and $0.1163/square foot be collected. It is estimated $289,138.72 in revenue will be needed to provide the services referenced above in Fiscal Year 2016-17.

From: Julia R. Bueren, Public Works Director/Chief Engineer

Date: June 7, 2016

Subject: APPROVE and AUTHORIZE the Execution of CCO #1 for the On-Call Contract(s) for Various Road and Flood Control Maintenance Work, Countywide.

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Public Works Director, or designee, to execute Contract Change Order No. 1 (CCO #1) to the contract with GradeTech, Inc., and Hess Concrete Construction Co., Inc., to change the not-to-exceed contract amount from $400,000 to $700,000 each for the On-Call Contract(s) for Various Road and Flood Control Maintenance Work, Countywide.

FISCAL IMPACT:

CCO #1 will increase the not-to-exceed amount for each contract from $400,000 to $700,000. This work is funded by Local Road and Flood Control funds.

BACKGROUND:

On March 15, 2016, the County awarded two on-call contract(s) for various road and flood control maintenance work to supplement the maintenance crews' routine and emergency work, for a total allotted amount of $800,000, in the following priority order:

GradeTech, Inc., in a not-to-exceed amount ($400,000) and the unit prices submitted in the bid ($1,254.51 Total Unit Price);

Hess Concrete Construction Co., Inc., in a not-to-exceed amount ($400,000) and the unit prices submitted in the bid ($1,511.50 Total Unit Price);

BACKGROUND: (CONT'D)

The on-call contracts became effective on March 15, 2016 and expire March 15, 2017.

In February 2016, a sink hole developed on Hazel Avenue between Ralston Avenue and Sonoma Street in the East Richmond Heights area. The sink hole developed due to the deterioration of an aging corrugated metal storm drain pipe under the road. To accommodate the unforeseen emergency storm drain repair work on Hazel Avenue, it is necessary to increase the not-to-exceed amount of GradeTech, Inc.'s contract from $400,000 (as awarded) to $700,000. CCO #1 has been prepared to cover the proposed increase and to authorize payment for road and flood control maintenance work performed on or after June 1, 2016 for both GradeTech, Inc. and Hess Concrete Construction Co., Inc.

To enable timely payment to GradeTech, Inc., and Hess Concrete Construction Co., Inc., the Public Works Director recommends that the Board approve CCO #1 and authorize the Public Works Director, or designee, to sign it for the County. The increased contract amount for GradeTech, Inc., and Hess Concrete Construction Co., Inc., will increase the total allotted amount for road and flood control maintenance work to $1,400,000.

CONSEQUENCE OF NEGATIVE ACTION:

These contracts have a term of one year and once the available contract capacity is used, there is no remaining contract capacity for on-call routine and emergency work for the remainder of the term. Failure to approve CCO #1 would prevent the Public Works Department from completing routine and emergency road and flood control maintenance work in a timely manner and preclude payment to GradeTech, Inc. and Hess Concrete Construction Co., Inc. for compensation due to them for completing road and flood control maintenance work.

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Purchasing Agent, on behalf of the Director of Airports, to execute a Purchase Order amendment with Ascent Aviation Group, Inc., to increase the payment limit by $75,000, for a new total of $305,000, for aviation fuel at the Byron Airport, with no change to the original term September 1, 2015 through August 31, 2016.

FISCAL IMPACT:

The Airport Enterprise Fund will cover the purchase costs and will then resell the aviation fuel to airport tenants and other users to generate income.

BACKGROUND:

Contra Costa County Airports is responsible for an aircraft fueling facility at Byron Airport that provides 100LL aviation fuel for its tenants and visiting aircraft. Most general aviation aircraft can only use 100LL aviation fuel. Byron Airport has seen an increase in fuel sales due to its more competitive pricing. In fact, fuel sales from 2014 to 2015 increased more than 50% and the sales to date for 2016 (January to April) are 20% higher than the same period in

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Purchasing Agent, on behalf of the County, to accept a partial settlement in the class action lawsuit, *In Re Lithium Ion Batteries Antitrust Litigation* (U.S.D.C. Case No. 13-md-02420-YGR, N.D. Cal.), as recommended by the Purchasing Agent.

FISCAL IMPACT:

The County will be eligible to file a claim for its proportional share of settlement funds after this lawsuit concludes. The exact fiscal impact is unknown and will depend on (1) the dollar value of the County's purchases of covered batteries and products during the specified period, (2) the number of claims submitted by other class members, and (3) the total amount of settlement funds contributed by all defendants.

BACKGROUND:

In Re Lithium Ion Batteries Antitrust Litigation (U.S.D.C. Case No. 13-md-02420-YGR, N.D. prices of lithium ion batteries and products containing the batteries between January 1, 2000, and May 31, 2011. The lawsuit was filed on behalf of consumers that purchased those batteries and products during that period.

The County received a notice that the plaintiff class has agreed to settle the lawsuit against defendants Sony Corporation and its related entities. The lawsuit will continue against the remaining defendants. This settlement will require the Sony defendants to pay a total of $19 million into a settlement fund. Those funds will not be distributed to class members until the conclusion of the lawsuit against the remaining defendants. If the County participates and the Court approves this partial settlement, the County will be eligible to file a claim to seek a proportional share of the settlement funds when this lawsuit is over.

The Court has granted preliminary approval of the settlement with the Sony defendants. If the County opts out of the settlement, it will not be eligible to make a claim for its share of settlement funds from the Sony defendants. Participating in the settlement will terminate the lawsuit against the Sony defendants that was brought on behalf of the County, and it will prevent the County from independently litigating against the Sony defendants over claims that were raised or could have been raised in the lawsuit.

For these reasons, the Purchasing Agent recommends that the Board of Supervisors authorize the County's participation in this partial settlement.

CONSEQUENCE OF NEGATIVE ACTION:
The County would not be eligible to be paid its proportional share of settlement funds.

BACKGROUND:
Attorney Amy Shen, defense counsel for the County, has advised the County Administrator that within authorization an agreement has been reached settling the workers' compensation claim of Kim Haramaki v. I have submitted to the Clerk of the Board my application for re-appointment to the Contra Costa Airport Land Use Commission along with other supporting documents.

I regret that I am unable to attend the interview session that is scheduled for Monday, May 23rd at 11:00 a.m. I am flying out of San Francisco that morning heading to Canada and Alaska for about 2 weeks. I will be back on Wednesday, June 8th.

ALUC Staff, the ALUC Chair and the other ALUC Commissioners can vouch for my contribution to this Commission. I am sure that Supervisors Mitchoff and Piepho can also provide input. I have worked closely with Keith Freitas, Director of Airports and he can also provide input. Lastly my strong relationships with pilot clubs (like MDPA, Maurice Gunderson is the President) and with key businesses (like the Patriot Jet Team, Randy Howell) demonstrate my ability to work across organizations to achieve best results for the people of Contra Costa.

I am confident that you will make a good decision. If I am chose to serve another term, you can count on me to balance the concerns of all groups to drive for a successful outcome for the people of Contra Costa.

Subject: EHSD Capital Projects

RECOMMENDATION(S):
Employment and Human Services (0503)/Plant Acquisition (0111): APPROVE FY 2015/16 Appropriation Adjustment No. 5076 in the amount of $938,000 to transfer appropriations from EHSD - Aging & Adult Services to the Public Works Department for four capital projects, as recommended by the Employment and Human Services Director.

FISCAL IMPACT:
EHSD County Aid appropriations will be reduced by $938,000 and transfer to Public Works for Capital Projects. This consists of 100% County revenue and no additional County general fund costs will result from these adjustments.

BACKGROUND:
The Public Works Department has identified the need to upgrade the HVAC units at 40 Douglas Drive for an estimated cost of $260,000. In addition, a remodel of the bathrooms at 40 Douglas Drive is also moving forward with an estimated cost of $114,000. Public Works has also identified projects at two other locations. At 1305 Macdonald Ave in Richmond the parking lot is in need of repair for an estimated cost of $250,000. At 1650 Cavallo Rd in Antioch the modular buildings are in need of replacement (due to mold issues and general disrepair). The estimated cost to replace the existing modular units with one larger modular unit is $314,000.

CONSEQUENCE OF NEGATIVE ACTION:
Appropriations will not be properly allocated.

Subject: No Place Like Home Bond

RECOMMENDATION(S):

ADOPT a "Support in concept" the "No Place Like Home" proposal developed in the Senate to redirect a portion of Mental Health Services Act (MHSA, or Proposition 63) funding from counties to help securitize up to $2 billion in affordable housing bonds to address the persistent issue of homelessness through the State, as recommended by the County Administrator.

FISCAL IMPACT:

- $1.8 billion in a competitive grant program which is available to counties who apply jointly with a developer (MHSA Bond funds).
- $200,000,000 in a non-competitive program open to all 58 counties and funds will be prioritized to counties based on the homeless population (MHSA bond funds).
- $6.2 million from MHSA to provide technical assistance to counties.
- Up to 4% of the competitive grant program for a default reserve program at HCD which protects against any defaults under the various loans.
- Alternative process for competitive grant program for those with at least 5% of the homeless population.

David J. Twa, County Administrator and Clerk of the Board of Supervisors

BACKGROUND:

In January, Senate leaders released their “No Place Like Home” proposal. Senate President pro Tempore Kevin de León and former Senator Darrell Steinberg crafted the plan to redirect a portion of Mental Health Services Act (MHSA, or Proposition 63) funding from counties to help securitize up to $2 billion in affordable housing bonds. The trailer bill language establishing the program was released on June 1, 2016.

There are a few provisions that are missing from the trailer bill language, including the provisions related to how the bonds work which will be in the next version of the anticipated trailer bill. Major provisions are as follows:

- $1.8 billion in a competitive grant program which is available to counties who apply jointly with a developer (MHSA Bond funds).
- $200 million in a non-competitive program open to all 58 counties and funds will be prioritized to counties based on the homeless population (MHSA bond funds).
- $6.2 million from MHSA to provide technical assistance to counties.
- Up to 4% of the competitive grant program for a default reserve program at HCD which protects against any defaults under the various loans.
- Alternative process for competitive grant program for those with at least 5% of the homeless population.

The Governor has endorsed the "No Place Like Home" proposal. However, his Department of Finance has worked with the Senate to reduce the proportion of the $2 billion in bonds that would be distributed on a competitive basis. The Governor has asked for up to $500 million in noncompetitive funding for counties to use for rental subsidies and other innovative housing efforts. Of that $500 million, a portion would also be available for technical assistance to counties. Lastly, the Governor agreed that leveraging MHSA funding is the best route to kick-starting construction or rehabilitation at the local level.

It should be noted that the Senate’s original proposal also included an increase in the state’s Supplemental Security Income/State Supplementary Payment (SSI/SSP) rates, which provide monthly funding to those who are aged, blind, or disabled. Further, it would have supported the existing Housing Support Program, which is administered by counties within the CalWORKs program, and a new “Bringing Families Home” program to provide family housing. None of these proposals are in the current Senate-Governor "No Place Like Home" concept.

CSAC does not have a position on the proposals at this time and is in the process of developing strategy and positions. A joint Health and Human Services Policy Committee and Housing, Land Use, and Transportation Policy Committee meeting was held on June 1, 2016, with County staff participating in the call.

County staff notes the following: "As proposed, all counties have to pay a portion of the bond debt service even if they’re not awarded any MHSA Grant Funds. The debt service should be covered by the counties proportionate to the amount of funds received.

In addition, there is not a source of operating subsidy, which is critical to long term viability of the developments. As proposed, $2 billion will provided through a bond issue, which means funds will be restricted for capital costs. The biggest impediment to serving the proposed population is operating costs. There aren’t enough federal subsidies (Section 8) to subsidize the number of clients that the Initiative intends to house."

Staff recommends that the Board of Supervisors support the "No Place Like Home" proposal, in concept. The issues identified by staff related to the debt service and operating subsidies should be addressed before an unqualified "support" position is offered.

Attachments include the proposal language (Attachment A), as well as Background material and attachments to the CSAC joint committee meeting (Attachment B).

Given the timing of State Budget discussions and negotiations, it is not possible to schedule this item for Board committee consideration.

No Place Like Home Trailer Bill
UCC Summary – June 1, 2016

Mental Health Services Act
Adds permanent supportive housing to the list of uses for the Mental Health Services Act (MHSA).

No Place Like Home Advisory Committee

This proposal creates the No Place Like Home Advisory Committee. The committee will assist and advise the HCD on the implementation of the program, review and approve the department's guidelines, review HCD's progress in distributing funds, and provide advice and guidance more broadly on statewide homelessness issues.
Membership on the committee is as follows:

- The Director of HCD.
- The Director of DHCS.
- The Secretary of Veterans Affairs.
- The Treasurer.
- A member of the Mental Health Services Oversight and Accountability Commission
- A chief administrative officer of a county or a member of a county board of supervisors, to be appointed by the Governor.
- A director of a county behavioral health department, to be appointed by the Governor.
- An administrative officer of a city, to be appointed by the Governor.
- A representative of an affordable housing organization, to be appointed by the Speaker of the Assembly.
- A representative of a community mental health organization, to be appointed by the Senate Rules Committee.
- A representative of a continuum of care organization, to be appointed by the Governor.

Competitive Program - $1.8 billion

This proposal provides that HCD shall administer a competitive grant program and distribution program awarding funding among counties and developers to finance the construction, rehabilitation or preservation of permanent supportive housing for individuals with mental health supportive needs who are homeless or at risk of homelessness.

$1.8 billion is provided to the competitive program.

Requirements are as follows:

- A county and developer shall apply as co-applicants.
- Funded developments shall integrate the target population with the general public.
- Funded developments shall utilize low barrier tenant selection practices that prioritize vulnerable populations and offer flexible, voluntary, and individualized supportive services.

HCD will provide guidelines for the operation of the program which may provide for alternative housing models, such are shared housing models of fewer than five units. The guidelines must include establishing income and rent standards.

Application requirements
In considering applications, HCD shall restrict eligibility to applicants that meet the following:

- The county commits to provide mental health supportive services inside the supportive housing development for at least 20 years.
- The county has developed a county plan to combat homelessness, which includes a description of homelessness countywide, any special challenges or barriers to serving this population, county resources applied to the issue, community-based resources, an outline of partners and collaborations and proposed solutions.
- The county commits to provide mental health supportive services and other services, including drug treatment services from any other available funding sources including, but not limited to MHSA, Drug Medi-Cal Treatment Program, realignment funds, funds received from private nonprofit organizations, and other county

funds.
- Meet other threshold requirements including, but not limited to, developer capacity to develop, own, and operate a permanent supportive housing development for the target population, and the application proposes a financially feasible development with reasonable development costs.

Evaluation of Applications
HCD shall evaluate applications using, at a minimum, the following criteria:

- The extent to which assisted units are restricted to persons who are chronically homeless or at risk of chronic homelessness within the target population.
- The extent to which non-state funds are leveraged for capital costs.
- The extent to which projects achieve deeper affordability through the use of non-state project based rental assistance, operating subsidies, or other funding.
- Project readiness.
- The extent to which applicants offer a range of on and off-site supportive services to tenants, including mental health services, behavioral health services, primary health, employment and other tenancy support services.

Alternative Process

This proposal allows HCD to establish an alternative process for allocating funds as grants directly to counties with at least five percent of the state's homeless population and that demonstrates the capacity to directly administer loan funds for permanent supportive housing serving the target population. HCD must adopt guidelines establishing the parameters of the process and requirements for local administration of funds. Funds not committed to projects within two years following award to counties shall be returned to the state for the competitive program.
HCD shall consider the following when selecting participating counties:

- Demonstrated ability to finance permanent supportive housing with local and federal funds, and monitor requirements for the life of the loan.
- Past history of delivering supportive services to the target population.
- Past history of committing project-based vouchers to supportive housing.
- Ability to prioritize the most vulnerable within the target population through coordinated entry system.

HCD must award grants in at least four grant rounds for approximately 4 years.
This proposal would also provide that HCD may establish maximum loan-to-value requirements for some or all of the types of projects that are eligible for funding under this section. HCD must also establish per-unit and per-project loan limits for all project types.

Non-Competitive Program

In addition to the competitive grant program, HCD shall distribute two hundred million from the fund on a first come-first served basis. Funds to be awarded shall be available to all counties within the state proportionate to the number of homeless persons within each county. Funds not committed within 18 months following the first allocation shall be used in the competitive grant program

This proposal also provides that moneys shall be distributed either in accordance with the procedures for awarding funds to local agencies established by the existing MHSA housing program administered by DHCS and CalHFA or alternative procedures developed by HCD for distributing these moneys that enhance the efficiency and goals of the distribution program.

Technical Assistance Funds

This proposal would allocate $6.2 million from the Mental Health Services Fund to HCD to provide technical and grant preparation assistance to counties. Eligible uses of technical and grant preparation assistance shall include, but is not limited to, assistance in performing one or more of the following activities:

- Applying for program funds.
- Implementing activities funded by moneys distributed under this part, including the development of supportive

housing for the target population.

- Coordinating funded activities with local homelessness systems.
- Delivering a range of supportive services to tenants.
- Collecting data, evaluation program activities, and sharing data among multiple systems, such as MHSA.

HCD shall provide grant funds to a county upon application as follows:

- To a large county and to Los Angeles County, HCD shall provide $150,000.
- To a medium county, HCD shall provide $100,000.
- To a small county, HCD shall provide $75,000.

Default Reserve Funds

This proposal provides that HCD may designate up to four percent of the funds allocated for the competitive grant program, in order to cure or avert a default on the terms of any loan or other obligation by the recipient of financial assistance, or bidding at any foreclosure sale where the default or foreclosure sale would jeopardize HCD's security in the rental housing development assisted under this proposal.

HCD may also use default reserve funds to repair or maintain any rental housing development assistance to protect HCD's security interest.

The payment or advance of funds by HCD under this subdivision are exclusively within HCD's discretion, and no person shall be deemed to have any entitlement to the payment or advance of those funds.

FISCAL IMPACT:

If this action is approved, there is an annual cost of approximately $3,762 which include pension costs of $1,203. The cost is completely offset by Federally Qualified Health (FQHC) revenues.

BACKGROUND:

The Health Services Department is requesting to establish the classification of Public Health Lead Mobile Clinic Operator in the School Based Clinic Services Program within Public Health Division. The program provides medical services to qualifying students up to 19 years enrolled in any of the County's school district partners including West Contra Costa, Mt. BACKGROUND: (CONT'D)
immunizations, vision and hearing, treatment of minor and acute illnesses, and confidential reproductive health services.

Over the years, the School Based Clinic Services Program has grown from one to seven large mobile medical vehicle clinics that are deployed to schools and community sites. These mobile clinics require periodic inspections by the California Highway Patrol and vehicle maintenance to ensure safety operations. The Department has relied solely on a Public Health Mobile Clinic Operator to assume the responsibility of coordinating the mandated inspections, vehicle maintenance schedules and all necessary repairs. This significant assignment is vital in order to minimize the "downtime" of each of the mobile clinics. Hence, the Department is requesting to reclassify position #13663 and its incumbent as he has been performing this higher level duty and needs to be appropriately classified and compensated. Moreover, the Human Resources Department recently conducted a desk study of all Driver Clerks assigned in the school based clinics which resulted in their reclassification to a newly established classification of Public Health Mobile Clinic Operator. In addition, the study revealed that this incumbent is relied upon to provide lead direction in relation to the mechanical operation, maintenance service and repair scheduling of all mobile clinics and also served as the liaison with outside vehicle repair contractors and with the County's Fleet Services staff.

Upon approval, there is an annual cost of approximately $3,762 with pension costs already included. The entire cost is 100% offset by Federally Qualified Health Care revenues.

CONSEQUENCE OF NEGATIVE ACTION:

If this action is not approved, there is not one dedicated staff designated the full responsibility of coordinating the service and maintenance of the mobile vehicle clinics in Public Health, which can result in "downtime" and consequently, loss of school-based clinic services in the community.

FISCAL IMPACT:
No Library Fund match.

BACKGROUND:
The Keller Canyon Mitigation Fund is overseen by Supervisor Federal Glover's office. It is a fund that is distributed annually to nonprofits and public agencies to support the following categories: youth services, code enforcement, public safety, community beautification, and community services. All nonprofits and public agencies receiving funds must support residents in the primary or secondary impact areas identified by Supervisor Glover's office (primarily Bay Point, Pittsburg, and Antioch). The Pittsburg, Bay Point and Antioch Libraries have all been previous recipients of Keller Canyon Mitigation Trust Fund grants. The funds have had a significantly positive impact through various funded public programs.

The Contra Costa County Library's goal is to provide a safe and welcoming place for the public to enjoy library services. As stated in the Library's current strategic plan, "The Library delivers a consistent, high-quality, and inviting experience at all points of contact." Providing security services at the Antioch Libraries will contribute to creating a safe and welcoming environment.

CONSEQUENCE OF NEGATIVE ACTION:

and weatherization services to county residents who are income-eligible to receive said services. The funding sources include Low Income Home Energy Assistance Program (LIHEAP), the Energy Crisis Intervention Program (ECIP), and the Department of Energy (DOE).

The county receives the money via the Employment & Human Services Department (EHSD). EHSD, in turn, partners with the county Department of Conservation and Development to provide energy saving home improvements to low-income families throughout unincorporated Contra Costa County, as well as the County's nineteen cities.

The energy savings measures may provide homes with hot water heaters, furnaces, refrigerators, microwaves, doors, windows, fluorescent light bulbs, weather stripping, ceiling fans, and attic insulation. Homes receive a blower door test (a diagnostic tool to locate and correct air infiltration), and homes with gas appliances receive a combustion appliance safety test that checks for carbon monoxide gas leakage. Homes with gas appliances are provided with a carbon monoxide alarm.

The program uses income based eligibility. The income levels are based on the Federal Fiscal Year 2016 Poverty Guidelines. Once eligibility is determined, clients with no hot water, no heat, or are in danger of having their power shut off are served as emergencies. Service is then based on clients with the lowest income, highest energy burden and families with at least one resident who is considered vulnerable population.

Approval of this board order will allow state provision of funds for the 2016-17 year.

CONSEQUENCE OF NEGATIVE ACTION:
If not approved, County may not receive funding to operate the weatherization program.

CHILDREN'S IMPACT STATEMENT:
The Employment & Human Services Department, Community Services Bureau energy program supports one Contra Costa County community outcome - Outcome #4: "Families that are Safe, Stable and Nurturing." This outcome is supported by the provision of home energy assistance to keep households warm in winter and to increase household energy efficiency.

evidence, and innovation to create strategies and interventions that are effective and economical. This data-driven approach enables jurisdictions to understand the full nature and extent of the crime challenges they are facing and to target resources to the highest priorities. The Smart Suite of programs, which includes the Smart Reentry Program2, represents a strategic approach that brings more "science" into criminal justice operations by leveraging innovative applications of analysis, technology, and evidence-based practices (EBPs) with the goal of improving performance and effectiveness while containing costs. The Smart Suite assists criminal justice practitioners in building their capacity to develop research-based strategies and focus on program fidelity to increase chances of success. This requires practitioner agencies to partner with researchers using an "action research" approach to enhance the collection and review of data, which in turn can serve as a strong foundation for outcome evaluations of program interventions. In "action research," researchers work closely with practitioners to most effectively address specific public safety/criminal justice related problems (e.g., high gun violence rate, poor police legitimacy). The goal of this program is to support jurisdictions to develop and implement comprehensive and collaborative strategies that address the challenges posed by reentry to increase public safety and reduce recidivism for individuals reentering communities from incarceration who are at medium to high risk for recidivating. This process should provide the individual with appropriate evidence-based services—including reentry planning that addresses individual criminogenic needs identified through information obtained from an empirically validated risk/needs assessment that also reflects the risk of recidivism for each individual. The reentry plan should reflect both specific and ongoing pre-release and post-release needs, and a strategy for ensuring that these needs are met throughout the duration of the reentry process.

CONSEQUENCE OF NEGATIVE ACTION:

If the Probation does not apply for this grant, it will not be eligible to receive up to $1,000,000 in Federal funds for offender reentry services.

Transferred the location of incarceration for individuals convicted of lower-level specified non-violent, non-serious, non-sex offences from state prison to local county jail pursuant to Penal Code 1170 (h) and provides for an expanded role for their post-release Mandatory Supervision;

- Transferred responsibility from the State to the County for post-release supervision of those released from prison after having served a sentence for a non-violent, non-serious, and non-sex offense by creating a new category of supervision called Post-Release Community Supervision (PRCS);
- Transferred the housing responsibility for parole and PRCS revocations to local jail custody.

AB 109 also tasked the local Community Corrections Partnership (CCP) with recommending to the County Board of Supervisors a plan for implementing criminal justice realignment. The Board of Supervisors adopted the Contra Costa County Realignment Plan on October 4, 2011 (Agenda Item No. D.5), as recommended by the Executive Committee of the CCP.

The Executive Committee of the CCP is composed of the County Probation Officer (Chair), Sheriff-Coroner, a Chief of Police (represented by the Richmond Police Chief), District Attorney, Public Defender, Presiding Judge of the Superior Court or designee (represented by the Court Director of Business Planning, Information and Programs), and County Behavioral Health Director.

For fiscal year 2016/17, the CCP-Executive Committee approved the 2016/17 AB109 Public Safety Realignment budget at the January 22, 2016 regular meeting and submitted to the Public Protection Committee for review and approval. On February 8, 2016, the Public Protection Committee approved the 2016/17 AB109 Public Safety Realignment budget. On May 10, 2016, the Board of Supervisors adopted the Recommended Budget for Contra Costa County for FY 2016/17, including the AB109 Public Safety Realignment budget.

Today's action approves and authorizes the extension and amendment of contracts with Reach Fellowship International and Men and Women of Purpose to provide employment and education liaison services for the AB 109 Public Safety Realignment Program, specifically for the Central/East Network Reentry System of Services, increasing the payment limit of each contract by $50,000 to a new payment limit of $100,000 for each contract ($200,000 in total) and to extend the term from June 30, 2016 through June 30, 2017.

CONSEQUENCE OF NEGATIVE ACTION:

Not only do the Explorers have better gas mileage than the Crown Victoria and the Caprice, these vehicle are much easier to get in and out of for armed staff. Over the last four years, armed staff have increased. Additional cars are being requested for safety reasons. It is not appropriate for armed staff to use personal vehicles or smaller vehicles in Probation's Fleet (ex: Toyota Prius). Probation will be adding three Ford Explorers to the Fleet; one for each region of the County.

Contra Costa County

To: Board of Supervisors

From: William Walker, M.D., Health Services Director

Date: June 7, 2016

Subject: Approve Purchase Order with Philips Healthcare Inc.

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Purchasing Agent, on behalf of the Health Services Department, to execute a Purchase Order with Philips Healthcare Inc., in the amount of $136,388.71 for the purchase of ventilators at the Contra Costa Regional Medical Center (CCRMC) and Contra Costa Health Centers for the period from May 1, 2016 through November 30, 2016.

FISCAL IMPACT:

100% funding is included in the Hospital Enterprise Fund I Budget

BACKGROUND:

CCRMC and Contra Costa Health Centers have ventilators that are no longer supported by the manufacturer which requires the rental of equipment from a 3rd party vendor. Philips Healthcare provides the most versatile and reliable ventilator to improve patient care and treatment of respiratory afflictions. This will enable CCRMC and Contra Costa Health Centers to greatly reduce or eliminate the need to rent the required equipment to treat our patient population.

Subject: CherryRoad Technologies, Inc., Contract Amendment No. 6

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Chief Information Officer, or designee, to execute a contract amendment with CherryRoad Technologies, Inc., effective June 7, 2016, to increase the payment limit by $302,640 to a new payment limit of $6,923,490 for additional technical assistance to upgrade the County's PeopleSoft software system.

FISCAL IMPACT:

The $6,923,490 is budgeted under Org #1695 FY 2014-2015, FY 2015-2016, and FY 2016-2017, supported through countywide inter-departmental charges to all departments.

BACKGROUND:

The PeopleSoft Human Capital Management (HCM) system is currently used to process the County's payroll, in addition to maintaining human resources and employee benefits records. The original contract with CherryRoad Technologies, Inc., provided for the contractor to perform a fit/gap analysis, infrastructure assessment and initial upgrade tasks to upgrade PeopleSoft HCM version 8.8 to version 9.2, at a cost up to $1,200,000.

The County and contractor first amended the contract in September 2015 to provide that the Contractor would host nine application test environments, at a cost of up to $150,000.

The County and contractor amended the contract a second time in November 2015 to begin the upgrade tasks to upgrade PeopleSoft HCM version 8.8 to version 9.2 at a cost of up to $4,334,950.

BACKGROUND: (CONT'D)

The County and contractor amended the contract a third time in December 2015 to purchase licenses and implement the Taleo Recruitment and Onboarding application, which will be hosted by Oracle on its servers and interface with the PeopleSoft HCM system at a cost of up to $467,360.

The County and contractor amended the contract a fourth time February 2016 to acquire additional Contractor systems analysis services at a cost of up to $307,420.

The County and contractor amended the contract a fifth time in April 2016 to acquire an additional contractor resource that would lead the Organization Change Management at a cost of $161,120.

The proposed sixth amendment is to extend the services of the contractor to support the PeopleSoft Upgrade project's new implementation of Benefits Administration Module through testing, production support, and employee benefits Open Enrollment at the cost of $223,440. Additionally, the proposed sixth amendment extends the contractor's hosting of nine application test environments through December 2016, at the cost of $79,200.

In accordance with Administrative Bulletin No 611.0, County Departments are required to obtain Board approval for single item purchases over $100,000. The County Administrator’s Office has reviewed this request and recommends approval.

CONSEQUENCE OF NEGATIVE ACTION:

Failure to approve the contract amendment will decrease the success of the PeopleSoft upgrade project, with a lack of organization and communication between the departments, which may affect payroll.

Subject: Purchase Order for Staples Advantage

RECOMMENDATION(S):
APPROVE and AUTHORIZE the Purchasing Agent, or designee, to execute a program agreement and blanket purchase order with Staples Contract and Commercial, Inc., in an amount not to exceed $8,000,000, for office supplies for the period September 1, 2016 through August 31, 2018, with two additional one-year options to renew.

FISCAL IMPACT:
Office supply costs paid by County Departments. (100% County User Departments)

BACKGROUND:
Contra Costa County Purchasing Services is requesting approval of a Program Agreement and Blanket Purchase Order to be used by County Departments for the ordering of office products and supplies. Staples Contract and Commercial, Inc., doing business as Staples Advantage is one of two companies selected to provide products to the County. Prices are based on the National Joint Powers Alliance (NJPA) agreement No. 010615. Blanket Purchase Order covering all departments allows the County to consolidate purchases and maximize savings.

CONSEQUENCE OF NEGATIVE ACTION:
Without a blanket purchase order, departments would select their own office supply vendors thereby increasing costs and duplicating effort.

Subject: Contract - ECS Imaging

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Conservation and Development Director, or designee, to execute a contract with ECS Imaging, Inc., in an amount not to exceed $301,600 to provide technical assistance and services related to the conversion of department electronic data into Laserfiche Document Management System, for the period July 1, 2016 through June 30, 2017.

FISCAL IMPACT:

No impact to the County General Fund. Land use and building permit fees will cover the costs for these specialized electronic file indexing services.

BACKGROUND:

The Department of Conservation and Development (DCD) contracted with ECS Imaging, Inc., to reorganize and index data, documents, and images of more recent building permit files that had been scanned into electronic format. These efforts enabled DCD to expeditiously fulfill the public's request to review land use and building permit files by reducing the time staff spent to produce requested files. DCD continues to have several years of older land use and building permit files that must be both scanned and then indexed correctly to assure that searching the electronic files results in accurate retrieval of data, documents and images for staff and for the public. ECS Imaging, Inc., verifies data and images returned from scanning and performs regular quality control review to maintain the accuracy of indexing. DCD has consulted with Local 2700 regarding the use of ECS Imaging, Inc., for these indexing services and has concurrence to renew the contract for a one year term to June 30, 2017. phase out the scanning/indexing services contract provided by ECS Imaging, Inc., and gradually transition this work to full-time county employees under the classification of Information Services Assistant II.

CONSEQUENCE OF NEGATIVE ACTION:

Land use project and building permit information will not be available in electronic format in an organized, cataloged electronic document management system. Additional staff time and costs will have to be devoted to researching the physical location of the archived/boxed paper file(s) at offsite storage locations to produce requested files to be reviewed. These actions will cause significant delay for DCD to respond to internal staff and Public Records Act requests in a timely manner.

RECOMMENDATION(S):
APPROVE and AUTHORIZE the Chief Information Officer, or designee, to execute a Sales, Software License and Services Agreement including indemnity obligations, with Kronos, Incorporated, in an amount not to exceed $115,688.29 for software licensing, technical support and maintenance for the County's automated time keeping system for the period July 1, 2016 through June 30, 2017.

FISCAL IMPACT:
$115,688.29. The cost is budgeted under Fiscal Year 16/17, Employee Benefits Org# 1695.

BACKGROUND:
On March 19, 1996 the Board of Supervisors approved a hardware and software package to replace the current Human Resources, Payroll and Employee system. The Department of Information Technology initiates renewal of software license maintenance from Kronos, Incorporated, on behalf of Human Resources' Employee Benefits Division. The software support services covers Kronos' WorkForce product.

Due to the age of the 1996 Agreement, County is re-documenting the license and support via the new Sales, Software and License Agreement. The new agreement requires the County to indemnify the Contractor for any losses arising out of the County's violation of applicable laws in using the software.

In accordance with Administrative Bulletin No 611.0, County Departments are required to obtain Board approval for single item purchases over $100,000. The County Administrator’s Office has reviewed this request and recommends approval.

APPROVE and AUTHORIZE the Conservation and Development Director, or designee, to execute a contract amendment with Ambient Air, LLC (Contract # C49628) to increase the payment limit by $105,000 to a new payment limit of $200,000 to purchase items and/or services needed to provide home weatherization services to low income residents throughout Contra Costa County, with no change to the original contract period of December 1, 2015 through July 31, 2017.

FISCAL IMPACT:
The additional purchase amount ($105,000) is fully reimbursable through contracts with the State of California Department of Community Services and Development to expend various State and federal grant funds for a variety of weatherization projects throughout the county.

BACKGROUND:
The Department of Conservation and Development (DCD) has partnered with the Employment and Human Services Department (EHSD) for the past 20 years to provide energy saving home improvements to low income families throughout unincorporated Contra Costa County, as well as the 19 cities in the county.

This funding is provided by State and federal grant programs including, but not limited to, the Low Income Home Energy Assistance Program (LIHEAP), the Energy Crisis Intervention Program (ECIP), the Department of Energy (DOE), and the Cap and Trade Auction Funds for the Low Income Weatherization Program

(LIWP) to reduce Greenhouse Gas Emissions.

With these grants, the Weatherization Program may provide homes with hot water heaters, furnaces, refrigerators, microwaves, doors, windows, LED (light emitting diode) light bulbs, LED night lights, Tier 2 advanced power strips, occupancy sensors, weather-stripping, ceiling fans, and attic insulation.

Homes receive a blower door test (a diagnostic tool to locate and correct air infiltration), and homes with gas appliances receive a combustion appliance safety test that checks for carbon monoxide gas leakage. Homes with gas appliances are provided with a carbon monoxide alarm.

Ambient Air, LLC, will repair, replace or provide heating and air conditioning systems to low income households through the weatherization program. This service is required by the contract between the County and the State Department of Community Services and Development. The increase in the budget is needed to expend additional funding from the State to the County.

Under its grant funding contract, the Weatherization Program is required to meet minimum unit production goals (number of homes weatherized) by the end of its grant contract term, July 31, 2017. Failure to maintain the required production goals may result in the State reallocating our share of funding to other counties and could jeopardize our future funding. These contracts will allow the Weatherization Program to have ready access to heaters and other necessary supplies and equipment to weatherize homes and meet production goals.

CONSEQUENCE OF NEGATIVE ACTION:
The purchase of replacement of heating systems, repairs to these systems and other services necessary to implement the Weatherization Program would not occur.

CHILDREN'S IMPACT STATEMENT:
Approval of this item will enable the Weatherization Program replace or repair heaters that improve health, safety, comfort and quality of life for children residing in the households served.

Allocation Information

To determine each Area Agency on Aging's (AAA) Title III/VII allocation, CDA used the methodology as follows:

Allocation Information *continued*

Federal Title III/VII Funding

- Used population factors consistent with federal requirements.
- Used the best available data to determine each Planning and Service Area's (PSA) relative proportion of persons with characteristics corresponding to each population factor.
- Used the following data sources to determine number of persons statewide and in each PSA with characteristics corresponding to each population factor:

Population Factors	Data Source
Non-Minority 60+	2010 Census - Department of Finance Projections, 2015
Minority 60+	2010 Census - Department of Finance Projections, 2015
Low Income	2010 Census - AOA updated database 2015
Geographic Isolation	2010 Census
Medi-Cal eligible	Department of Health Care Services, 2015

State Funding

- First, allocated GF to match designated federal funds as mandated by federal regulations, and
- Second, allocated the remaining GF for Maintenance of Effort to bring AAAs to a funding level consistent with the previous year's total allocation for selected funds. CDA makes this Maintenance of Effort adjustment to the degree possible with available funds per Welfare and Institutions (W&I) Code Section 9112(c).

Ombudsman Funding

- Allocated each AAA with $35,000 in baseline funding, *unless*
  - The number of long-term care facility beds (i.e., skilled nursing facility, intermediate care facility, and residential care facility) in its PSA is below 500 beds, *and*
  - The number of long-term care facilities is fewer than 10;
  - AAAs that fell below this threshold received a lower baseline allocation.
- Allocated the balance of federal funds pursuant to W & I Code Section 9179.5 using the following factors:

Factor	Percentage
Number of Long-Term Care Facilities	50 percent
Number of Long-Term Care Beds	40 percent
Square Miles in PSA	10 percent

Ombudsman Funding, *continued*

Legislation that provided the on-going State Health Facilities Citation Penalties Account provided for the allocation basis of Skilled Nursing Facility Beds in each Ombudsman area of authority.

Since the passing of the 2015-16 Budget Act, the Program has been augmented with General Fund and Public Health Licensing and Certification Program Funds. These funds are allocated using the same data.

In the event of any litigation, claim, negotiation, audit exception, or other action involving the records, all records relative to such action shall be maintained and made available until every action has been cleared to the satisfaction of the State and is so stated in writing to the Contractor.

E. Adequate source documentation of each transaction shall be maintained relative to the allowability of expenditures reimbursed by the State under this Agreement. If the allowability of expenditures cannot be determined because records or documentation of the Contractor are nonexistent or inadequate according to guidelines set forth in 2 CFR 200.302 and CFR 75.302, the expenditures will be questioned in the audit and may be disallowed by CDA during the audit resolution process.

F. All records containing confidential information shall be handled in a confidential manner in accordance with the requirements for information integrity and security, and in accordance with guidelines set forth in this Article, and Article XVIII. 3. Is used to conduct business under this Agreement.

C. Additions, improvements, and betterments to assets meeting all of the conditions in Section B above must also be reported. Additions typically involve physical extensions of existing units. Improvements and betterments typically do not increase the physical size of the asset. Instead, improvements and betterments enhance the condition of an asset (e.g., extend life, increase service capacity, and lower operating costs). Examples of assets that might be improved and bettered

ARTICLE VII. PROPERTY (Continued)

include roads, bridges, curbs and gutters, tunnels, parking lots, streets and sidewalks, drainage, and lighting systems.

D. Intangibles are property which lack physical substance but give valuable rights to the owner. Examples of intangible property include patents, copyrights, leases, and computer software. By contrast, hardware consists of tangible equipment (e.g., computer printer, terminal, etc.). Costs include all amounts incurred to acquire and to ready the intangible asset for its intended use. Typical intangible property costs include the purchase price, legal fees, and other costs incurred to obtain title to the asset.

E. The Contractor shall keep track of property purchased with funds from this Agreement, and submit to CDA annually with the Closeout, in electronic form, a cumulative inventory of all property furnished or purchased by either the Contractor or the Subcontractor with funds awarded under the terms of this Agreement or any predecessor Agreement for the same purpose. The Contractor shall use the electronic version of the Report of Property Furnished/Purchased with Agreement Funds (CDA 32) to report property to CDA, unless otherwise directed by CDA.

The Contractor shall email to CDA the electronic version of the Request to Dispose of Property (CDA 248). CDA will then instruct the AAA on disposition of the property. Once approval for

ARTICLE VII. PROPERTY (Continued)

disposal has been received from CDA, the item(s) shall be removed from the Contractor's inventory report.

2. The Contractor must remove all confidential, sensitive, or personal information from CDA property prior to disposal, including removal or destruction of data on computing devices with digital memory and storage capacity. This includes, but is not limited to magnetic tapes, flash drives, personal computers, personal digital assistants, cell or smart phones, multi-function printers, and laptops.

G. The Contractor shall immediately investigate and within five (5) days fully document the loss, destruction, or theft of such property.

I. The Contractor shall exercise due care in the use, maintenance, protection, and preservation of such property during the period of the project, and shall assume responsibility for replacement or repair of such property during the period of the project, or until the Contractor has complied with all written instructions from CDA regarding the final disposition of the property.

J. In the event of the Contractor's dissolution or upon termination of this Agreement, the Contractor shall provide a final property inventory to the State. The State reserves the right to require the Contractor to transfer such property to another entity, or to the State.

K. To exercise the above right, no later than one hundred twenty (120) days after termination of this Agreement or notification of the Contractor's dissolution, the State will issue specific written disposition instructions to the Contractor.

L. The Contractor shall use the property for the purpose for which it was intended under the Agreement. When no longer needed for that use, the Contractor shall use it, if needed, and with written approval of the State for other purposes in this order:

1. For another CDA program providing the same or similar service.

2. For another CDA-funded program.

M. The Contractor may share use of the property and equipment or allow use by other programs, upon written approval from CDA. As a condition of the approval, CDA may require reimbursement under this Agreement for its use.

ARTICLE VII. PROPERTY (Continued)

N. The Contractor or subcontractors shall not use equipment or supplies acquired under this Agreement with federal and/or State monies for personal gain or to usurp the competitive advantage of a privately-owned business entity.

O. If purchase of equipment is a reimbursable item, the equipment to be purchased will be specified in the budget.

P. The Contractor shall include the provisions contained in this Article in all its subcontracts awarded under this Agreement.

ARTICLE VIII. ACCESS

The Contractor shall provide access to the federal or State contracting agency, the California State Auditor, the Comptroller, General of the United States, or any of their duly authorized federal or State representatives to any books, documents, papers, and records of the Contractor or subcontractor which are directly pertinent to this specific Agreement for the purpose of making an audit, examination, excerpts, and transcriptions. The Contractor shall include this requirement in its subcontracts.

ARTICLE IX. MONITORING AND EVALUATION

A. Authorized State representatives shall have the right to monitor and evaluate the Contractor's administrative, fiscal and program performance pursuant to this Agreement. Said monitoring and evaluation may include, but is not limited to, administrative processes, fiscal, data and procurement components. This will include policies, procedures, procurement, audits, inspections of project premises, interviews of project staff and participants and, *when applicable,* inspection of food preparation sites.

B. The Contractor shall cooperate with the State in the monitoring and evaluation processes, which include making any administrative, program and fiscal staff available during any scheduled process.

C. The Contractor shall monitor contracts and subcontracts to ensure compliance with laws, regulations, and the provisions of contracts that may have a direct and/or material effect on each of its major programs.

ARTICLE X. AUDITS

A. Contractors that expend $750,000 or more in federal funds shall arrange for an audit to be performed as required by the Single Audit Act of 1984, Public Law 98-502; the Single Audit Act Amendments of 1996, Public Law 104-156; 2 CFR 200.501 to 200.521; and 45 CFR 75.501 to 75.521. A copy shall be submitted to the:

California Department of Aging
Attention: Audit Branch
1300 National Drive, Suite 200
Sacramento, California 95834

The copy shall be submitted within thirty (30) days after receipt of the Auditor's report or nine (9) months after the end of the audit period, whichever occurs first, or unless a longer period is agreed to in advance by the cognizant or oversight agency.

For purposes of reporting, the Contractor shall ensure that State-funded expenditures are displayed discretely along with the related federal expenditures in the single audit report's "Schedule of Expenditures of Federal Awards" (SEFA) under the Catalog of Federal Domestic Assistance (CFDA) number.

D. The Contractor shall have the responsibility for resolving its contracts with subcontractors to determine whether funds provided under this Agreement are expended in accordance with applicable laws, regulations, and provisions of contracts or agreements.

Contract resolution includes:

1. Ensuring that subcontractors expending $750,000 or more in federal awards during the Subcontractor's fiscal year have met the audit requirements of 2 CFR 200.501 - 200.521 and 45 CFR 75.501 - 75.521 as summarized in Section D and E of this Article.

ARTICLE X. AUDITS (Continued)

3. Reconciling expenditures reported to the Contractor to the amounts identified in the single audit or other type of audit if the Subcontractor was not subject to the single audit requirements. For a subcontractor who was not required to obtain a single audit and did not obtain another type of audit, the reconciliation of expenditures reported to CDA must be accomplished through performing alternative procedures (e.g., risk assessment [2 CFR 200.331] [45 CFR 75.352], documented review of financial statements, and documented expense verification, including match, etc.).

4. When alternative procedures are used, the Contractor shall perform financial management system testing, which provides, in part, for the following:

   a. Accurate, current, and complete disclosure of the financial results of each federal award or program.

   b. Records that identify adequately the source and application of funds for each federally funded activity.

   c. Effective control over, and accountability for, all funds, property, and other assets to ensure these items are used solely for authorized purposes.

5. The Contractor shall document system and expense testing to show an acceptable level of reliability, including a review of actual source documents.

ARTICLE X. AUDITS (Continued)

6. Determining whether the results of the reconciliations performed necessitate adjustment of the Contractor's own records.

E. The Contractor shall ensure that subcontractor single audit reports meet 2 CFR 200, Subpart F - Audit Requirements and 45 CFR 75, Subpart F – Audit Requirements requirements:

1. Performed timely – not less frequently than annually and a report submitted timely. The audit is required to be submitted within thirty (30) days after receipt of the Auditor's report or nine (9) months after the end of the audit period, whichever occurs first. [2 CFR 200.512] [45 CFR 75.512]

2. Properly procured – use procurement standards for auditor selection. [2 CFR 200.509] [45 CFR 75.509]

3. Performed in accordance with Generally Accepted Government Auditing Standards. [2 CFR 200.514] [45 CFR 75.514]

G. The Contractor shall prepare a summary worksheet of results from the contract resolutions performed of all subcontractors. The summary worksheet shall include, but not be limited to, contract amounts; amounts resolved; amounts of match verified, resolution of variances; recovered amounts; whether an audit was relied upon or the Contractor performed an independent expense verification review (alternative procedures) of the Subcontractor in making a determination; whether audit findings were issued; and, if applicable, issuance date of the management letter; and any communication or follow-up performed to resolve the findings.

ARTICLE X. AUDITS (Continued)

H. A reasonably proportionate share of the costs of audits required by, and performed in accordance with the Single Audit Act Amendments of 1996, as implemented by requirements of this part, are allowable. However, the following audit costs are unallowable:

1. Any costs when audits required by the Single Audit Act, 2 CFR 200, Subpart F – Audit Requirements and 45 CFR 75, Subpart F – Audit Requirements have not been conducted or have been conducted but not in accordance therewith; and

2. Any costs of auditing a non-federal entity that is exempted from having an audit conducted under the Single Audit Act, 2 CFR 200, Subpart F – Audit Requirements and 45 CFR 75, Subpart F – Audit Requirements because its expenditures under federal awards are less than $750,000 during the non-federal entity's fiscal year.

   a. The costs of a financial statement audit of a non-federal entity that does not currently have a federal award may be included in the indirect cost pool for a cost allocation plan or indirect cost proposal.

This cost is allowable only if the agreed-upon procedures engagements are conducted in accordance with Generally Accepted Government Auditing Standards (GAGAS) attestation standards, paid for and arranged by the pass-through entity, and limited in scope to one or more of the following types of compliance requirements: activities allowed or not allowed; allowable costs/cost principles; eligibility; and reporting.

million dollars. There are a total of five MHSA components which have been enacted out over time by the State with the goal of creating a better program of mental health services and supports in California's public mental health systems. The five components include: Community Services and Supports; Prevention and Early Intervention; Workforce Education and Training; Capital Facilities and Technology; and Innovation. There are multiple programs operated within each component. This is a state mandated program under Welfare & Institutions Code.

Mental Health Services Act Plan Update

Fiscal Year 2016 - 2017

Introduction

We are pleased to present Contra Costa County Behavioral Health Services (CCBHS) Fiscal Year 2016-17 Plan Update to the integrated Mental Health Services Act (MHSA) Three Year Program and Expenditure Plan (Three Year Plan). This Three Year Plan started July 1, 2014, and integrates the components of Community Services and Supports (CSS), Prevention and Early Intervention (PEI), Innovation (INN), Workforce Education and Training (WET), and Capital Facilities/Information Technology (CF/TN).

This Plan Update describes programs that are funded by MHSA, what they will do, and how much money will be set aside to fund these programs. Also, the Plan Update will describe what will be done to evaluate their effectiveness and ensure they meet the intent and requirements of the Mental Health Services Act.

California approved Proposition 63 in November, 2004, and the Mental Health Services Act became law. The Act provides significant additional funding to the existing public mental health system, and combines prevention services with a full range of integrated services to treat the whole person. With the goal of wellness, recovery and self-sufficiency, the intent of the law is to reach out and include those most in need and those who have been traditionally underserved. Services are to be consumer driven, family focused, based in the community, culturally and linguistically competent, and integrated with other appropriate health and social services. Funding is to be provided at sufficient levels to ensure that counties can provide each child, transition age youth, adult and senior with the necessary mental health services and supports set forth in their treatment plan. Finally, the Act requires this Three Year Plan be developed with the active participation of local stakeholders in a community program planning process.

Plan Changes for FY 2016-17. Significant changes to the Three Year Plan that are incorporated in this year's Plan Update include:

- A description of this year's Community Program Planning Process (pages 26 to 29).
- Changes to the Adult Full Service Partnership program (pages 34 to 36).
- The implementation of the Assisted Outpatient Treatment Program (pages 36 to 37), and description of its proposed evaluation (page 45).
- Changes to the description of the Miller Wellness Center (pages 42 to 43).
- Adjustments to CSS (page 46), and INN (pages 61 to 65) component budget line items to more closely align with projected expenditures. Component totals are not affected.
- A description of the passage and potential impact of new PEI (page 47) and INN regulations (page 61).
- *The Budget* (pages 73 to 74) reflects increased projected revenues to reflect current estimates. Funding summaries indicate sufficient MHSA funds are available to fully fund authorized budgeted amounts for FY 2016-17.

Vision

The Mental Health Services Act serves as a catalyst for the creation of a framework that calls upon members of our community to work together to facilitate change and establish a culture of cooperation, participation and innovation. We recognize the need to improve services for individuals and families by addressing their complex behavioral health needs. This is an ongoing expectation. We need to continually challenge ourselves by working to improve a system that pays particular attention to individuals and families who need us the most, and may have the most difficult time accessing care.

Our consumers, their families and our service providers describe mental health care that works best by highlighting the following themes:

Access. Programs and care providers are most effective when they serve those with mental health needs without regard to Medi-Cal eligibility or immigration status. They provide a warm, inviting environment, and actively and successfully address the issues of transportation to and from services, wait times, availability after hours, services that are culturally and linguistically competent, and services that are performed where individuals live.

Capacity. Care providers are most appreciated when they are able to take the time to determine with the individual and his or her family the level and type of care that is needed and appropriate, coordinate necessary health, mental health and ancillary resources, and then are able to take the time to successfully partner with the individual and his or her family to work through the mental health issues.

Integration. Mental health care works best when health and behavioral health providers, allied service professionals, public systems such as law enforcement, education and social services, and private community and faith-based organizations work as a team. Effective services are the result of multiple services coordinated to a successful resolution.

We honor this input by envisioning a system of care that supports independence, hope, and healthy lives by making accessible behavioral health services that are responsive, integrated, compassionate and respectful.

The Community Program Planning Process

The County has utilized the community program planning process to 1) identify issues related to mental illness that result from a lack of mental health services and supports, 2) analyze mental health needs, and 3) identify priorities and strategies to meet these mental health needs.

In 2006, CCBHS completed its first community program planning process under MHSA, and received funding for the Community Services and Supports component of the Act. The Prevention and Early Intervention component was approved in 2010, and the remaining components of Workforce, Education and Training, Innovation, Capital Facilities and Information Technology soon followed. Additional programs and services were incrementally approved and added each succeeding year as service needs were identified by means of the community program planning process.

CCBHS has consolidated all of these components into a single Plan, and its current MHSA funded programs and services were included in the Fiscal Year 2013-14 Plan Update.

In addition to the above community program planning processes, CCBHS continues to provide support and seeks counsel from an active stakeholder body, entitled the Consolidated Planning Advisory Workgroup (CPAW). Over the years these stakeholder representatives have provided input to the Behavioral Health Services Director as each MHSA component was developed and implemented. For the Three Year Plan, CPAW has recommended that the Plan provide a more comprehensive approach that links MHSA funded services and supports to prioritized needs, evaluates their effectiveness and fidelity to the intent of the Act, and informs future use of MHSA funds. Thus the Plan can provide direction for continually improving not only MHSA funded services, but also influencing the County's entire Behavioral Health System.

Overview. With one million residents Contra Costa County is comprised of three distinct regions in the West, Central and Eastern parts of the county. It is estimated that potentially 60,000 of these individuals may be adults who have a serious mental illness, or are children and youth who have been diagnosed with a serious emotional disorder. Many of these individuals are faced with the compounding debilitating effects of poverty; the daily struggle with the basic necessities of food, clothing, employment, transportation, health care and a safe place to live. With the addition of MHSA funded services and supports CCBHS now provides services to approximately 20,000 individuals who have a serious mental illness or serious emotional disturbance, and who cannot afford private mental health treatment. This ranks Contra Costa County's

performance for providing services to this potentially eligible population in the top 25% of counties throughout the state. However, it is reasonable to conclude that the County will continue to operate in an environment where there are more people in need of public mental health services than there are resources to meet this need.

Community Program Planning Process for Fiscal Year 2014-15

A comprehensive community program planning process was initiated in Fiscal Year 2013-14 in order to inform the direction of the Three Year Plan.

Assessment of Need. During the months of September and October of 2013, CCBHS initiated an assessment of need process in order to provide a preliminary identification of issues related to mental illness, and to assess mental health needs.

Staff conducted a series of site visits to interview both individuals who provide services and individuals who receive services. These consumers, their families and mental health professionals were considered “key informants” who could provide a preliminary assessment of public mental needs throughout the county. A stratified sampling of 25 CCBHS programs were selected to ensure representation from 1) all three regions of the county, 2) all four age groups (children, transition age youth, adults and older adults, 3) both county and contract operated services, and 4) all types of services, to include clinics, full service partnership programs, housing programs, wellness and recovery centers, prevention and early intervention programs, and CCBH administrative staff.

The method for participation was small group discussions that were supplemented by surveys in English and Spanish that could be completed and mailed in by individuals who either chose to provide written input, or were not available for scheduled discussions. The agenda for the group discussions and format for the written surveys were the same; namely, the participants were asked to discuss 1) what the program, service provider or agency does well, 2) what the program, service provider or agency needs to improve upon, and 3) what needed mental health services and supports are missing.

Over 300 consumers, family members, line staff, supervisors and senior staff actively participated in the discussions and/or completed surveys. Host agency staff arranged for consumers and family members to participate with them (in some cases separately) in the discussions, although all individuals were considered stakeholders without designation of affiliation during the discussions.

A summary of the discussions and surveys was completed for each of the 25 sites, and the detailed results of this preliminary needs assessment was made available for the subsequent consumer, family member and service provider focus groups and the community forums that were conducted in January through March of 2014.

Focus Groups and Community Forums. Resource Development Associates (RDA) was contracted with to provide independent facilitation of the focus group and community forum phases of the community program planning process. Individuals with lived mental health consumer experience co-facilitated these group discussions with RDA staff in order to foster a safe environment for individuals to freely discuss issues they may not otherwise feel comfortable discussing.

Focus Groups. 232 consumers and family members and 50 service providers met in small groups, provided their perceptions of priority mental health needs, and suggested ideas to address these needs. Eighteen consumer and family focus groups were conducted in all three regions of the County, with recruitment to each age group, underserved communities, persons experiencing homelessness, persons monolingual in Spanish, and individuals identifying as lesbian, gay, bi-sexual, transgender, or questioning their sexual identity. Four service provider focus groups were conducted, covering all geographic regions. RDA developed reports with participant feedback on strengths, gaps, barriers and proposed solutions for service access, quality, and sufficiency of services.

Community Forums. Approximately 150 members of the public participated in three community forums that were held in the western, central and eastern parts of the county. RDA presented the accumulated input from the needs assessment and focus group events, and solicited additional feedback.

Finally, RDA presented the results of the needs assessment, focus groups and community forums to the Consolidated Planning Advisory Workgroup, with the Mental Health Commission invited to attend. This event was also open to the public, and all in attendance were invited to provide input.

The full preliminary needs assessment report and Resource Development's subsequent report on the community program planning process can be found at: http://cchealth.org/mentalhealth/pdf/2014-0417-CCMHSA-Consoildated-Report.pdf .

Results. The following are broad themes taken from these detailed reports that enable informed decision-making regarding program direction and evaluation efforts. Stakeholders participating in the community program planning process identified the following significant shortfalls as priority needs, and weighed in on strategies to improve access to services, quality and levels of service provided, integration of effort, accountability, and stakeholder participation in planning and evaluation. Each theme includes a cross reference of where relevant program or plan elements are contained in the Plan. This Plan's chapter on Evaluating the Plan outlines a process by which each of the funded programs and plan elements will be assessed for the extent to which they address these needs.

Access.

- **Getting to and from services.** The cost of transportation and the County's geographical challenges make access to services a continuing priority. Flexible financial assistance with both public and private transportation, training on how to use public transportation, driving individuals to and from appointments, and bringing services to where individuals are located, are all strategies needing strengthening and coordinating.
    - Relevant program/plan elements: Transportation assets and flexible funds to assist consumers get to and from services are included in supports provided in Full Service Partnerships. MHSA purchased vehicles to augment children, adult and older adult county operated clinic transportation assets, and additional staff are being hired through MHSA funding to drive consumers to and from appointments. A proposed Innovation Component program is being developed to provide a comprehensive, multi-faceted approach to transportation needs.
- **Navigating the system.** Mental health and its allied providers, such as primary care, alcohol and other drug services, housing and homeless services, vocational services, educational settings, social services and the criminal justice system provide a complexity of eligibility and paperwork requirements that can be defeating. Just knowing what and where services are can be a challenge. Easy access to friendly, knowledgeable individuals who can ensure connection to appropriate services is critical. Suggested strategies include expanding the system navigation capacity by use of trained peer and family partners (both paid and volunteer), strengthening system emphasis on active collaboration among service providers, and improving timely response and efficiency of the County's telephone access line.
    - Relevant program/plan elements: Family partners are stationed at the children's county operated clinics to assist family members participate in wraparound services. Clinicians are stationed at adult operated clinics to assist consumers with rapid access and connectivity to services. The Women Embracing Life and Learning (WELL) program in the Innovation component has a public health nurse assist participants navigate health and behavioral health resources. The Workforce Education and Training Component contracts with NAMI to provide family to family training. Outside the scope of this Plan Behavioral Health Services has focused attention on improving the County's Access Line as a single source of entry to mental health, alcohol and other drugs, and homeless services.
- **Cultural/linguistic appropriate outreach and engagement.** Focus groups underscored that mental health stigma and non-dominant culture differences continue to provide barriers to seeking and sustaining mental health care.

Emphasis should continue on recruiting and retaining cultural and linguistically competent service providers (especially psychiatrists), training and technical assistance emphasis on treating the whole person, and the importance of providing on-going staff training on cultural specific treatment modalities. Also, culture-specific service providers providing outreach and engagement should assist their consumers navigate all levels of service that is provided in the behavioral health system. Transition age youth, to include lesbian, gay, bi-sexual, transgender and questioning youth, who live in at-risk environments feel particularly vulnerable to physical harassment and bullying. Stakeholders continued to emphasize MHSA's role in funding access to all levels of service for those individuals who are poor and not Medi-Cal eligible.

- o Relevant program/plan elements: Prevention and Innovation programs provide outreach and engagement to individuals and underserved populations who are at-risk for suffering the debilitating effects of serious mental illness. These programs are culture specific, and will be evaluated by how well they assist individuals from non-dominant cultures obtain the cultural and linguistically appropriate mental health care needed. The full service partnership programs in the Community Services and Supports component are to provide bi-lingual staff on their teams. The training and technical assistance category of the Workforce Education and Training component utilizes MHSA funding to sensitize service providers to the issues impacting cultural awareness and understanding, and mental health access and service delivery for underserved cultural and ethnic populations.

Capacity.

- **Serve those who need it the most.** Through MHSA funding the County has developed designated programs for individuals with serious mental illness who have been deemed to be in need of a full spectrum of services. These are described in the full service partnership category of the Community Services and Supports component. In spite of these programs, stakeholders report that a number of individuals who have been most debilitated by the effects of mental illness continue to cycle through the most costly levels of care without success. Strategies put forth are to enact Assembly Bill 1421 (Laura's Law), and implement elements of the law that more assertively applies a comprehensive, multi-disciplinary service response, such as that described in the assisted out-patient treatment model. Also, stakeholders recommended that full service partner programs develop outcome data that could help determine and improve the level to which the most severely disabled are served.

- Relevant program/plan elements: In FY 2014-15, the County Board of Supervisors passed a resolution to enact Assembly Bill 1421, or Laura's Law, and authorized MHSA funding for the accompanying assisted out-patient treatment model to be implemented in FY 2015-16. Also in FY 2014-15 two new full service partnership programs, one for transition age youth and one for adults, were started in the Eastern part of the county. Their impact should be felt in coming years. The chapter entitled Evaluating the Plan describes a comprehensive program and fiscal review process that includes addressing whether programs serve those who need the service and achieve the outcomes that have been agreed upon.

- **Crisis response.** Response to crisis situations occurring in the community needs to be improved for both adults and children. Crisis response now primarily consists of psychiatric emergency services located at the Contra Costa Regional Medical Center (CCRMC). There are few more appropriate and less costly alternatives. Suggested strategies included implementing the much anticipated crisis residential facility and assessment and recovery center being built and co-located with the CCRMC, developing mobile crisis teams, improving partnership with law enforcement, and building coordinated follow-up and support for individuals and their families after a crisis event. Stakeholders emphasized that crisis response from mental health providers needs to be available outside normal business hours.
    - Relevant program/plan elements: Hope House, a crisis residential facility, is now fully operational, and the Miller Wellness Center (formerly known as the assessment and recovery center), opened its behavioral health wing in FY 2014-15. CCBHS has been awarded state MHSA funding for a mobile, multi-disciplinary team for adults and older adults to be first responders to a psychiatric emergency occurring in the community. Seneca Family of Agencies contracts with the County as part of the Children's Services full service partnership program, and provides a mobile response team for coordinating crisis support activities on behalf of youth and their families.
- **Housing and Homeless Services.** The chronic lack of affordable housing make this a critical factor that affects the mental health and well-being of all individuals with limited means. However, it is especially deleterious for an individual and his/her family who are also struggling with a serious mental illness. Stakeholders suggested a range of strategies that would increase housing availability, such as increasing transitional beds, housing vouchers, supportive housing services, permanent housing units with mental health supports, staff assistance to locate and secure housing in the community, and coordination of effort between Homeless Services and CCBHS.

- Relevant program/plan elements: Unfortunately, sufficient affordable housing for all consumers of CCBHS is beyond the financial means of the County's Behavioral Health Services budget. It is estimated that up to 3,800 individuals in the County are homeless on any given night. However, the MHSA funded Housing Services category of the Community Services and Supports component is coordinating staff and resources with Homeless Services of the Behavioral Health Division in order to improve and maximize the impact of the number of beds and housing units available, shorten wait times, and improve mental health treatment and life skills supports needed for consumers to acquire and retain housing. In addition, evaluation efforts will focus attention on efforts to improve the overall quality of housing and supports, and to seek opportunities to move housing units within county boundaries.

- **Assistance with meaningful activity.** Stakeholders underscored the value of engaging in meaningful activity as an essential element of a treatment plan. Youth in high risk environments who are transitioning to adulthood were consistently noted as a high priority. For pre-vocational activities, suggested strategies include providing career guidance, assistance with eliminating barriers to employment, and assistance with educational, training and volunteer activities that improve job readiness. Stakeholders highlighted the need for better linkage to existing employment services, such as job seeking, placement and job retention assistance. For daily living skills, suggested strategies include assistance with money and benefits management, and improving health, nutrition, transportation, cooking, cleaning and home maintenance skill sets.
    - Relevant program/plan elements: The prevention component lists a number of programs providing outreach and engagement to transition age youth. An Innovation project from Vocational Services staff of CCBHS is implementing a new and different pattern of service that will expand Contra Costa Vocational Services capacity to provide more pre-vocational services to enable greater access to existing employment services. Resource planning and management specialists, or money managers, are being added to the three adults clinics to assist consumers better manage financial and in-kind resources. All full service partnership programs are to provide money management services. Approved for plan development in the Innovation component are the addition of peer and family partners to provide health and wellness coaching.
- **Children in-patient beds.** In-patient beds and residential services for children needing intensive psychiatric care are not available in the county, and are difficult to find outside the county. This creates a significant hardship on families who can and should be part of the treatment plan, and inappropriately strains care

providers of more temporary (such as psychiatric emergency services) or less acute levels of treatment (such as Children's' clinics) to respond to needs they are ill equipped to address. Additional funding outside the Mental Health Services Fund would be needed to add this resource to the County, as in-patient psychiatric hospitalization is outside the scope of MHSA.

- **Supporting family members and significant others.** Critical to successful treatment is the need for service providers to partner with family members and significant others of loved ones experiencing mental illness. Stakeholders continued to underscore the need to provide families and significant others with education and training, emotional support, and assistance with navigating the system.
    - Relevant program/plan elements: Children's Services utilizes family partners to actively engage families in the therapeutic process, and is implementing the evidence based practices of multi-dimensional family therapy and multi-systemic therapy, where families are an integral part of the treatment response. Adult Services provides family advocacy services out of their Central Adult Mental Health Clinic. In the Prevention and Early Intervention Component the County provides clinicians dedicated to supporting families experiencing the juvenile justice system due to their adolescent children's involvement with the law. Five Prevention programs provide family education designed to support healthy parenting skills. Project First Hope provides multi-family group therapy and psycho-education to intervene early in a young person's developing psychosis. Two Innovation programs, Rainbow Community Center and Community Violence Solutions, have a family support component. The Workforce Education and Training Component describes NAMI's Family-to Family training, where emotional support and assistance with how to navigate the system is provided.
- **Support for peer and family partners.** CCBHS was acknowledged for hiring individuals who bring lived experience as consumers and/or family members of consumers. Their contributions have clearly assisted the County to move toward a more client and family member directed, recovery focused system of care. However, these individuals have noted the high incidence of turnover among their colleagues due to exacerbation of mental health issues brought on by work stressors, and lack of support for career progression. Individuals in recovery who are employed need ongoing supports that assist with career progression, and normalizes respites due to relapses.
    - Relevant program/plan elements: CCBHS has received state MHSA funding to strengthen its certification training for consumers who are preparing for a service provider role in the behavioral health system.

These funds are to expand the curriculum to include preparing family members as well, provide ongoing career development and placement assistance, and develop ongoing supports for individuals with lived experience who are now working in the system. This is described in the Workforce Education and Training Component.

- **Care for homebound frail and elderly.** Services for older adults continue to struggle with providing effective treatment for those individuals who are homebound and suffer from multiple physical and mental impairments. Often these individuals cycle through psychiatric emergency care without resolution.
    - Relevant program/plan elements: The Prevention and Early Intervention component describes a contract agency and a county operated plan element to provide services designed to support isolated older adults. The Innovation component describes a project in development that would train and field in-home peer support workers to engage older adults who are frail, homebound and suffer from mental health issues.
- **Intervening early in psychosis.** Teenagers and young adults experiencing a first psychotic episode are at risk for becoming lifelong consumers of the public mental health system. Evidence based practices are now available that can successfully address this population by applying an intensive multi-disciplinary, family based approach. A suggested strategy is to expand the target population now served by Project First Hope from youth at risk for experiencing a psychotic episode to include those who have experienced a "first break".
    - Relevant program/plan elements: The Early Intervention category of the Prevention and Early Intervention component describes Project First Hope. This county operated program is in its second year in operation. Consideration will be given for expansion to youth experiencing a first psychotic break, should the program demonstrate success and funds be available.

Integration.

- **Between levels of care.** Levels of care range from in-patient hospitalization to intensive case management to therapy and medication to self-care recovery services. Stakeholders (both care providers and receivers) consistently cited the difficulty in moving from one level of care to another. Consumers often cited the disincentive to getting better, as it meant loss of care altogether. Consumers and their families indicated that this system inattention to level of care movement often interfered with the important work of minimizing or eliminating the level of psychotropic medications needed to maintain recovery and wellness. Often a "meds only" service response was not responsive to appropriate lower levels of medication and/or psychosocial support alternatives. Care providers indicated

that they faced the choice of either ending service or justifying continuance of a more intensive level of care than was needed. Continuity of care from a more intensive to a less intensive level and vice-versa need to be improved. Suggestions included using contracts and memorandums of understanding as a means of incentivizing professionals at different care levels to collaborate and facilitate the process of recovery.

  - Plan Response. This is a system-wide emphasis that affects all programs and plan elements. The chapter entitled Evaluating the Plan describes the method by which every program and plan element will be evaluated as to the degree to which it meets the needs of the community and/or population. The degree to which there is successful integration between levels of care will be addressed in each written report, with program response and plan(s) of action required where attention is needed.

- **Between service providers.** Integrating mental health, primary care, drug and alcohol, homeless services and employment services through a coordinated, multi-disciplinary team has been proven effective for those consumers fortunate to have this available. Often cited by consumers and their families was the experience of being left on their own to find and coordinate services, and to understand and navigate the myriad of eligibility and paperwork issues that characterize different service systems. Also cited was the difficulty of coordinating education, social services and the criminal justice systems to act in concert with the behavioral health system. Suggested strategies were to emphasize and normalize system collaboration and navigation as an expected service from the most senior leaders down through managers to service providers. Also recommended was to add paid and volunteer peer and family partners to facilitate both care providers working together and assist care receivers to navigate these systems.
  - Plan Response. The Plan funds a number of multi-disciplinary teams that models effective integration of service providers for select groups of clients. However, this is a system issue that affects all programs and plan elements. The chapter entitled Evaluating the Plan describes the method by which every program and plan element will be evaluated as to the degree to which it communicates effectively with its community partners. The degree to which there is successful communication, cooperation and collaboration will be addressed in each written report, with program response and plan(s) of action required where attention is needed.

Accountability and Stakeholder Participation.

The stakeholder community has requested CCBHS to provide more transparent and ongoing program and fiscal information and decision-making in order to better understand what is working well, what needs to improve, and what needs to change in order to address identified priority needs. This would enable a better working partnership in planning, implementation and evaluation between consumers, their families, service providers, and administration.

- Plan Response. The chapter entitled Evaluating the Plan outlines a comprehensive program and fiscal review of every MHSA funded program and plan element that will be conducted in the next three years. These reviews and written reports will provide a transparent means for better aligning resources with needs on an ongoing basis. A monthly program and budget report has been developed and now provides an ongoing means of program and fiscal communication between administration and stakeholders.

Community Program Planning Process for Fiscal Year 2015-16

The Community Program Planning Process for Fiscal Year 2015-16 built upon the previous year's comprehensive needs assessment and community engagement process by engaging stakeholders in an active public dialogue of both needs identified from the previous year, and introducing emerging public mental health needs. Also input was solicited in anticipation of implementing an Assisted Outpatient Treatment program in Fiscal Year 2015-16.

A community forum was held on February 25, 2014 in which 143 consumers and family members, the Consolidated Planning and Advisory Workgroup, the Mental Health Commission, National Alliance on Mental Illness – Contra Costa, provider organizations and CCBHS staff planned, facilitated and participated in the event. Breakout sessions discussed and prioritized identified and emerging mental health service needs, strategies to address these needs, and provided input on implementing an Assisted Outpatient Treatment program.

In addition to the Community Forum stakeholders provided written input online, and the results of this alternate method of feedback are included below.

Finally, included below is input from five Community Living Room Partnership Conversations held throughout the County that addressed health and behavioral health service needs and suggested strategies. These conversations were designed to include consumer, family members and service provider invitees to discuss needs and solutions that encompassed primary care, mental health, housing and homeless services, and alcohol and other drug services.

1. Identified Needs and Strategies to Meet These Needs

Participants who attended the Community Forum were afforded the opportunity to discuss identified needs from last year's community program planning process, and then each participant assigned five dot markers to the listed needs. The following identified needs from last year's community program planning process are listed in order of dot markers assigned, with summaries of suggested strategies that participants provided to meet these needs:

- Housing and homeless services (42 dots assigned).
    - Housing first – housing should be the first priority for mental health treatment response. Addressing this priority with providing adequate, affordable and appropriate housing can positively impact so many other needs.
    - Lack of affordable housing needs a much better coordinated response in matching availability with need. Utilize electronic technology to maintain an up to date data base and assign people to beds by having real time visibility of need versus availability; much like the hospitality industry does today.
    - Living homeless, dealing with substance addiction and battling mental illness are examples of conditions that make one feel less a person. Respectful human contact can be all that is needed.
    - Homelessness affects children's mental health and performance in school. Educators need more training and partnership with mental health providers.
    - Need more flexibility in housing resources, such as funds for application costs, transportation, maintenance costs in order to get and keep housing.
    - Need more transitional housing; we have supported housing and shelter beds.
    - Mental health consumers with a criminal record cannot get housing.
    - Convert vacant existing public buildings, such as at the Concord Naval Weapons Station, for temporary housing.
- Assistance with meaningful activity (29 dots assigned).
    - People need training on activities of daily living and life coaching as part of their treatment plan so that they can gain self-sufficiency and better manage their resources.
    - Need to link preparation for employment activities with mental health treatment.
    - Assist people get involved in volunteer activities as a bridge to employment.
    - There needs to be a clubhouse model service in West and East County.

    - Integrate recreational therapy activities as part of the mental health treatment plan.
- Integration between service providers (25 dots assigned).
    - Necessary services do exist, but they are either unknown, hard to access, inconvenient to access, not integrated, or otherwise confusing.
    - Integration of health services and behavioral health services is vital, as lack thereof leads to system confusion, ineffective treatment, and is dangerous to a person's recovery.
    - People have to start all over again when they go to a new provider. Have the current provider go with the client to ensure a warm hand-off to a new provider.
    - Allow staff from contract agencies to communicate electronically with county operated service providers and each other to share information and coordinate services.
- Crisis response (24 dots assigned).
    - Need a much larger and more immediate mobile response to persons in crisis.
    - The 5150 and psychiatric emergency service (PES) response continually needs to be re-evaluated to ensure the most kind and humane response possible,
    - School counselors need to be better trained to deal with students in emotional crisis.
    - Ambulances are expensive and traumatizing. Provide less expensive transportation in a crisis situation, if appropriate.
- Intervening early in psychosis (22 dots assigned).
    - Kids can be helped at an early age. Reluctance to assign a diagnostic label prevents help at the right time, as Medi-Cal only funds if medical necessity is documented with a diagnosis of seriously emotionally disturbed.
    - Train teachers how to identify a child with mental health problems.
    - We need to engage at risk young adults in healthy activities before they become seriously mentally ill.
- Children inpatient beds (21 dots assigned).
    - There are no children's in-patient psychiatric beds in the County. Kids are sent far away. This separates them from their families and prevents access.
    - Consider strengthening lower levels of care, such as group homes, to lessen the incidence of children needing to be put in locked facilities.
    - Put an emphasis on services to children and foster care providers where children are seen as at risk, but not yet placed in a locked facility.

- Support for peer and family partners (19 dots assigned).
    - Create more positions for peer and family member providers, develop career progression capacity, and assist them in promotional opportunities.
    - Pay them a living wage.
- Navigating the system (18 dots assigned).
    - Need more information on available resources. Most people don't realize resources are there until they have been through a mental health issue.
    - Knowing what resources and how to navigate them is a very difficult task, even by service providers employed by the system.
    - There is no navigation between the mental health and education system.
    - Work on improving system navigation on multiple levels, including system mapping and guidance, resource collection and distribution, and ensuring that there is no wrong door to services, to include the person's front door.
    - Create an easy to understand and use flow chart to help people get to the right place.
- Cultural/linguistic appropriate outreach and engagement (18 dots assigned).
    - There are still cultural/ethnic groups who do not receive sufficient mental health services, such as transgender women.
    - Need to develop culturally appropriate means for identifying and reaching out to those communities who do not participate in treatment or current forums to identify their mental health needs.
    - Make mental health care more accessible and less stigmatizing to individuals who identify as lesbian, gay, bi-sexual, transgender, or who question their sexual identity.
- Access to services (17 dots assigned).
    - Busses take hours. Take people to and from their mental health appointments.
    - Have health care needs coordinated with mental health needs so that there are not multiple trips.
    - Peer providers should be available to coach consumers how to take public transportation, to include riding along with them.
    - Need an easier access to all services. It takes too long.
    - Allow consumers to access the electronic mental health record system to make appointments and receive follow up reminders.
    - Develop a system wide transportation response that can coordinate and more efficiently apply resources.
- Supporting family members and significant others (14 dots assigned)
    - Provide more and better education and communication regarding mental health treatment and medications provided.

    - Provide peer mentoring and counseling to family members and significant others.
    - Need more family support advocacy in East and West County.
    - Provide suicide prevention training for family members, such as identifying early warning signs, how to get help, and follow up.
- Serve those who need it the most (12 dots assigned)
    - Need a better response to those who are dangerous to themselves and their family and friends, and won't take treatment. Hopefully implementing Laura's Law here will address this.
    - Police responders should be trained to safely respond to people who are severely compromised with mental health issues.
- Integration between levels of care (11 dots assigned)
    - Need an agreed upon means to support people from pre-break through hospitalization.
- Care for homebound frail and elderly (9 dots assigned)
    - Mobile teams consisting of mental health treatment providers, health care workers and peer providers should provide care to the homebound elderly in their homes.

2. Emerging Needs and Strategies to Meet These Needs

Participants discussed service needs that were not listed from last year, and provided suggested strategies to meet these needs.

- Trauma informed care
    - Returning veterans are falling through the cracks. Need to partner with veteran's programs to ensure our returning service men and women get the care they need.
    - Provide grief support for families undergoing loss.
    - Assist coping with the trauma of neighborhood and gang violence and immigration issues.
- Education through social media
    - Utilize today's social media technology to provide community education on reducing stigma and discrimination.
    - Keep 211 information current and spread awareness of this resource.
- Improved program response
    - As programs demonstrate they are not addressing the needs for which they are funded then take away the funding and give it to other programs.
- Increased funding
    - The need for public mental health care keeps increasing, but public funding does not keep up. Stakeholders should coordinate efforts to

influence the political process to bring in more dollars to meet this increasing need.
    - There is inadequate reimbursement for providing services, with too much time taken to complete claim forms for billing.
    - Need more funding to attract the most qualified professionals.
- Persons with developmental and mental health issues
    - Service providers of persons with the co-occurring issues of mental health and developmental disabilities, such as autism and Down's syndrome, often do not provide a coordinated response that efficiently and effectively applies appropriate resources. Systems that serve these individuals need to facilitate dialogue, cooperation and remove system barriers to coordinated service delivery.
- Youth with co-occurring mental health and substance abuse issues
    - Transition age youth often experience the compounding adverse effects of alcohol and other drugs with mental health issues. Mental health providers and substance abuse counselors should develop a developmentally appropriate coordinated response to this at risk population.
- Support our behavioral health workers
    - Develop and support all behavioral health workers, with emphasis on those working in the most chronically stressful environments. Provide pay commensurate with skills needed, a healthy work environment, and the leadership and support needed for our workforce to provide the best care possible.

3. Implementing an Assisted Outpatient Treatment (AOT) Program

Participants in the community forum provided input on how they would like an assisted outpatient treatment program designed. They responded to the following questions:

- How would you suggest we engage persons who are eligible for AOT?
    - Have a mobile team capable of responding to crisis situations, and capable of determining whether an individual is a threat to him/herself or others.
    - Outreach to potentially eligible individuals needs to be caring and client centered.
    - Outreach staff need to be experienced in recognizing and treating symptoms of trauma, and experienced with persons under the influence of multiple psychoactive substances.
    - Staff need to be competent in responding to unique cultural and ethnic differences. Capacity in non-dominant languages needs to be available.

- Prioritize engaging those individuals who pose a danger to others.
- Prioritize those individuals from Contra Costa who are being released from out of county locked psychiatric facilities.
- Partner with law enforcement and emergency medical treatment (EMT) staff, and ensure they are trained in mental health crisis intervention (CIT).
- Develop and implement a training curriculum for all staff at potential places of referral regarding AOT and protocol for referral.
- Train all affected parties on 5150 statute, and follow up to ensure provisions are uniformly applied.
- Develop positive working relationships with places where potentially eligible individuals would be identified, such as psychiatric emergency services (PES) and inpatient psychiatric hospitalization (4-C).
- Client rights and the benefits of AOT need to be clearly and consistently communicated.
- AOT staff should develop a partnership with Adult Protective Services.
- Multi-media communication of the program should educate the community and positively communicate rights and benefits that reflect actual practice.
- Outreach should also engage the individual's family and support network to assist the individual participate in treatment.
- Peer and family provider staff should be available to assist the individual throughout the process, to include system navigation and transportation assistance.
- Establish a staffed AOT hot line, and ensure 211 information is current. Hot line and 211 response should support family members and significant others who are dealing with current and potentially eligible individuals.
- Literature should be available in jails, homeless shelters and other places where potentially eligible individuals reside.
- Keep outreach and engagement records to inform subsequent efforts.

- <u>How would you like the assessment and court process designed?</u>
  - Ensure all parties involved in the court process are trained in AOT.
  - Either use the existing Behavioral Health Court or model the approach after the Behavioral Health Court in Contra Costa.
  - Mitigate the effects of the courtroom environment by considering holding the court process in a more normalized environment.
  - Ensure a multi-disciplinary team is involved in the assessment process, to include primary care, substance abuse professionals and peer and family member providers.
  - Ensure the assessment process evaluates the source of the referral in order to ensure the motivation of the referral source and veracity of information provided supports an appropriate referral.

    - Ensure peer provider support and patient rights advocacy is provided throughout the process. Use volunteers if necessary.
    - The presiding judge(s) is critical. He/she needs to be well trained in AOT, culturally competent and compassionate.
- <u>What services would you want emphasized?</u>
    - Provide services in accordance with the minimum standards specified in the evidence based practice of the Assertive Community Treatment Team model.
    - In addition to mental health treatment and case management services provide housing first, ensure peer and family member supports throughout, quality health care, substance abuse assessment and services, and attention to addressing developmental disability issues.
    - Services need to be trauma informed and culturally and linguistically competent.
    - Staff need to be experienced in connecting to what motivates an eligible individual in order to establish treatment goals and plans in which the individual will actively participate.
    - Involve the consumer's family members and significant others in the treatment process as much as is practicable, with emphasis toward mending relationships and developing natural supports.
    - Include transition planning to ensure the right level of care is provided at the right time, and the consumer is appropriately connected to lower levels of care as they improve.
    - Providers need to continually assess potential harm to consumer, family members and staff, and develop protocols to maximize safety.
    - Employ stringent confidentiality measures throughout the process, with care toward minimizing stigma and potential further criminalization.
    - Make clear the process by which to opt out of treatment and obtain legal representation.
    - Establish stakeholder oversight, and develop clear program and fiscal outcome measures.

Community Program Planning Process for Fiscal Year 2016-17

The Community Program Planning Process for Fiscal Year 2016-17 began in August 2015 by utilizing the Consolidated Planning and Advisory Workgroup (CPAW) as a forum for planning community engagement. Recommendations included an emphasis on 1) engaging those stakeholders who normally have not previously participated, 2) partnering with prevention and early intervention (PEI) programs for help in reaching out and engaging populations traditionally underserved by public mental health, and 3) using creative events or venues to surface age related and culturally specific priority

needs and strategies to meet those needs. PEI program representatives subsequently worked with CPAW to develop a schedule of 23 different events throughout the County during the months of October, November and December of 2015. These events were hosted by PEI providers, and were held in various locations and settings where individuals currently receive services. Examples of venues were focus groups, town hall meetings and forums, and generally adding a community engagement process to existing, planned events, such as graduations, holiday parties, and regularly scheduled meetings. This process effectively reached and received input from previously underrepresented populations, such as homebound elderly adults, parents and families of at-risk children, isolated communities, and individuals identifying as LGBTQ and Native American. The entire community of stakeholders were invited to participate. A PEI Roundtable meeting took place in December that actively engaged consumers and family members, county behavioral health services staff, and PEI providers in developing suggested strategies to meet the needs surfaced in the 23 events.

In addition to the activities listed above, a survey form was available both at the events and on line for stakeholders in order to supplement the qualitative input obtained.

645 surveys were completed by individuals, including service providers, consumers, family members and community members, who participated in the above events as well as the on line survey. In general, the top prioritized needs from this year's community engagement process (events and surveys) were identified as:

- Affordable housing as part of the treatment plan,
- Better information and help in accessing services and resources in the community,
- Better communication and coordination between service providers,
- Transportation assistance in getting to and from services, and
- Services that are culturally and linguistically competent.

Improvements suggested were:

- To provide more PEI services of the kind that responders were receiving,
- Greater outreach to the community,
- Quicker mental health response to requests for service,
- Services that are provided in the language/dialect spoken by the person receiving services,
- Services that are more culturally sensitive,
- Less staff turnover.

Suggested strategies were:

- Increased access to mental health services by having care providers stationed at the sites where people are already accessing other types of services, such as PEI programs, schools, independent living centers, senior centers,
- Provide more cultural competency training, particularly in terms of language interpreters,
- Institute monitors for translation services,
- Set up a county wide Uber or Lyft account to increase access to transportation,
- Expand free ride window for county transit busses (currently senior and disabled discounts only apply for transit from 10-2),
- Provide trainings on how consumers and family members can learn about, access and advocate for resources and services,
- Host events, such as a resource fair, that bring together providers, consumers and family members to learn about each other and have purposeful discussions regarding how to collaborate to provide more and better services.

Of note are survey aggregate responses that may be of use in establishing system benchmarks for this County's PEI programs:

- 76% identified mental health services as an important service to be provided; 62% identified primary care provision, 45% identified participation in local community organizations, and 33% identified participation in social/vocational services as important. Respondents could identify more than one area as important.
- Of those who had tried to access mental health services:
    - 54% accessed services in less than two weeks
    - 31% accessed services over two weeks later
    - 15% did not receive services at all
- 62% of PEI program participants indicted that they were receiving mental health services
- 26% indicated that they had declined mental health services because they:
    - Did not want help of that nature (42%)*
    - Were too embarrassed to ask (33%)*
    - Services were not in their community (29%)*
    - Services were not in their language (26%)*

*Respondents could indicate more than one reason.

The full report on the current year's community program planning process can be found at: http://cchealth.org/mentalhealth/pdf/2014-0417-CCMHSA-Consoildated-Report.pdf .

Summary. The community program planning process identifies current and ongoing mental health service needs, and provides direction for MHSA funded programs to

address these needs. It also informs planning and evaluation efforts that can influence how and where MHSA resources can be directed in the future.

The full complement of MHSA funded programs and plan elements described in this document are the result of current as well as previous community program planning processes. Thus, this year's planning process builds upon previous ones. It is important to note that stakeholders did not restrict their input to only MHSA funded services, but addressed the entire public health and behavioral health system. The MHSA Three Year Program and Expenditure Plan operates within the laws and regulations provided for the use of the Mental Health Services Act Fund. Thus, the Three Year Plan contained herein does not address all of the prioritized needs identified in the community program planning process, but does provide a framework for improving existing services and implementing additional programs as funding permits.

The following chapter contains programs and plan elements that are funded by the County's MHSA Fund, and will be evaluated by how well they address the Three Year Plan's Vision and identified needs as prioritized by the Community Program Planning Process.

The Plan

Community Services and Supports

Community Services and Supports is the component of the Three-Year Program and Expenditure Plan that refers to service delivery systems for mental health services and supports for children and youth, transition age youth (ages 16-25), adults, and older adults (over 60). Contra Costa County Behavioral Health Services utilizes MHSA funding for the categories of Full Service Partnerships and General System Development.

First approved in 2006 with an initial State appropriation of $7.1 million, Contra Costa's budget has grown incrementally to $31.568 million annually in commitments to programs and services under this component. The construction and direction of how and where to provide funding began with an extensive and comprehensive community program planning process whereby stakeholders were provided training in the intent and requirements of the Mental Health Services Act, actively participated in various venues to identify and prioritize community mental health needs, and developed strategies by which service delivery could grow with increasing MHSA revenues. The programs and services described below are directly derived from this initial planning process, and expanded by subsequent yearly community program planning processes, to include current year.

Full Service Partnerships

Contra Costa Behavioral Health Services both operates and contracts with mental health service providers to enter into collaborative relationships with clients, called full service partnerships. Personal service coordinators develop an individualized services and support plan with each client, and, when appropriate, the client's family to provide a full spectrum of services in the community necessary to achieve agreed upon goals. Children (0 to 18 years) diagnosed with a serious emotional disturbance, transition age youth (16 to 25 years) diagnosed with a serious emotional disturbance or serious mental illness, and adults and older adults diagnosed with a serious mental illness are eligible. These services and supports include, but are not limited to, crisis intervention/stabilization services, mental health treatment, including alternative and culturally specific treatments, peer support, family education services, access to wellness and recovery centers, and assistance in accessing needed medical, substance abuse, housing, educational, social, vocational rehabilitation and other community

services, as appropriate. A qualified service provider is available to respond to the client/family 24 hours a day, seven days a week to provide after-hours intervention.

In order to provide the full spectrum of needed services, the County makes available a variety of services that may be provided outside the particular agency who enters into a full service partnership agreement with a client. These additional services are included here as part of providing the full spectrum of services in the Full Service Partnership category. These services are utilized by full service partners on a pro-rated basis in order to direct as required by statute the majority of Community Services and Supports funds to those individuals who need services from a full service partnership.

The following full service partnership programs are now established:

Children. The Children's Full Service Partnership Program is comprised of four elements, 1) personal services coordinators, 2) multi-dimensional family therapy for co-occurring disorders, 3) multi-systemic therapy for juvenile offenders, and 4) county operated children's clinic staff.

1) Personal Service Coordinators. Personal service coordinators are part of a program entitled Short Term Assessment of Resources and Treatment (START). Seneca Family of Agencies contracts with the County to provide personal services coordinators, a mobile response team, and three to six months of short term intensive services to stabilize the youth in their community and to connect them and their families with sustainable resources and supports. Referrals to this program are coordinated by County staff on a countywide assessment team, and services are for youth and their families who are experiencing severe stressors, such as out-of-home placement, involvement with the juvenile justice system, co-occurring disorders, or repeated presentations at the County's Psychiatric Emergency Services.
2) Multi-dimensional Family Therapy (MDFT) for Co-occurring Disorders. Lincoln Child Center contracts with the County to provide a comprehensive and multi-dimensional family-based outpatient program for adolescents with a mental health diagnosis who are experiencing a co-occurring substance abuse issue. These youth are at high risk for continued substance abuse and other problem behaviors, such as conduct disorder and delinquency. This is an evidence based practice of weekly or twice weekly sessions conducted over a period of 4-6 months that target the youth's interpersonal functioning, the parents' parenting practices, parent-adolescent interactions, and family communications with key social systems.
3) Multi-systemic Therapy (MST) for Juvenile Offenders. Community Options for Families and Youth (COFY) contracts with the County to provide home-based multiple therapist-family sessions over a 3-5 month period. These sessions

are based on nationally recognized evidence based practices designed to decrease rates of anti-social behavior, improve school performance and interpersonal skills, and reduce out-of-home placements. The ultimate goal is to empower families to build a healthier environment through the mobilization of existing child, family and community resources.

4) Children's Clinic Staff. County clinical specialists and family partners serve all regions of the County, and contribute a team effort to full service partnerships. Clinical specialists provide a comprehensive assessment on all youth deemed to be most seriously emotionally disturbed. The team presents treatment recommendations to the family, ensures the family receives the appropriate level of care, and family partners helps families facilitate movement through the system.

The Children's Full Service Partnership Program is summarized below. Note that the total contract amount of these programs are funded by a combination of Medi-Cal reimbursed specialty mental health services and MHSA funds. Amounts listed are the MHSA funded portion of the total contract:

Program/Plan Element	**County/Contract**	**Region Served**	**Number to be Served Yearly**	**MHSA Annual Funds Allocated**
Personal Service Coordinators	Seneca Family Agencies	Countywide	45	562,915
Multi-dimensional Family Therapy	Lincoln Center	Countywide	60	874,417
Multi-systemic Therapy	Community Options for Family and Youth	Countywide	66	650,000
Children's Clinic Staff	County Operated	Countywide	Support for full service partners	798,488
		Total	**171**	**$2,885,820**

Transition Age Youth. Eligible youth (ages 16-25) are individuals who are diagnosed with a serious emotional disturbance or serious mental illness, and experience one or more of the risk factors of homelessness, co-occurring substance abuse, exposure to trauma, repeated school failure, multiple foster care placements, and experience with the juvenile justice system. Fred Finch Youth Center contracts with the County to serve West and Central County. This program utilizes the assertive community treatment model as modified for young adults that includes a personal service coordinator working in concert with a multi-disciplinary team of staff, including

peer and family mentors, a psychiatric nurse practitioner, staff with various clinical specialties, to include co-occurring substance disorder and bi-lingual capacity. In addition to mobile mental health and psychiatric services the program offers a variety of services designed to promote wellness and recovery, including assistance finding housing, benefits advocacy, school and employment assistance, and support connecting with families.

Youth Homes contracts with the County to serve Central and East County. This program emphasizes the evidence based practice of integrated treatment for co-occurring disorders, where youth receive mental health and substance abuse treatment from a single treatment specialist, and multiple formats for services are available, to include individual, group, self-help and family.

The Transition Age Youth Full Service Partnership Program is summarized below:

Program	**County/Contract**	**Region Served**	**Number to be Served Yearly**	**MHSA Annual Funds Allocated**
Transition Age Youth Full Service Partnership	Fred Finch Youth Center	West and Central County	70	1,400,642
Transition Age Youth Full Service Partnership	Youth Homes	Central and East County	30	665,000
		Total	**100**	**$2,065,642**

Adult. Adult Full Service Partnerships provide a full range of services to adults over the age of 18 who are diagnosed with a serious mental illness, are at or below 300% of the federal poverty level, and are uninsured or receive Medi-Cal benefits. Three contractors to the County will provide full service partnerships in Fiscal Year 2016-17, and utilize a modified assertive community treatment model. This is a model of treatment made up of a multi-disciplinary mental health team, including a peer specialist, who work together to provide the majority of treatment, rehabilitation, and support services that clients use to achieve their goals. Historically, Rubicon Programs contracted with the county to provide full services partnerships for West County clients. Rubicon Programs announced they will be ending their provision of mental health treatment services by the end of Fiscal Year 2015-16. Consequently, CCBHS solicited proposals from suitably qualified community-based providers to provide FSP services to eligible adults in West Contra Costa County. Based upon the results of the Request for Proposals process, CCBHS will be contracting with Portia Bell Hume Behavioral Health and Training Center to provide FSP services in West County. CCBHS Administration is currently working with Rubicon and the Hume Center to effect a smooth program transition in the latter part of Fiscal Year 2015-16.

Anka Behavioral Health takes the lead in providing full service partnership services to Central County. The Hume Center contracts with the County to provide full service partnerships for East County, while Familias Unidas contracts with the County to provide the lead on full service partnerships for West County's Hispanic population.

Anka Behavioral Health additionally serves those adults who have been charged with non-violent felonies or misdemeanors, who experience a serious mental illness/serious emotional disturbance, and are on probation. Contra Costa Behavioral Health's Forensic Team refers those individuals who have been screened for services and need the full spectrum of care of a full service partnership program. In FY 2014-15 Anka began receiving referrals directly from the Forensics Team for individuals involved with the criminal justice system. Previously, the Contra Costa's Behavioral Health Court directly provided referrals to Anka.

During FY 2014-15, the heretofore Bridges to Home partnership between Rubicon programs, Anka Behavioral Health and Community Health for Asian Americans (CHAA) was restructured. Rubicon Programs took responsibility for serving full service partners in West County, and Anka Behavioral Health took responsibility for serving full service partners in Central County. CHAA re-directed staff to provide contract specialty mental health services for the County outside of MHSA funding.

The Adult Full Service Partnership Program is summarized below:

Program/Plan Element	**County/Contract**	**Region Served**	**Number to be Served Yearly**	**MHSA Annual Funds Allocated**
Full Service Partnership	Hume Center	West County East County	60 50	928,813 907,493
Full Service Partnership • Includes Forensic clients	Anka Behavioral Health	Central County Countywide	50	768,690
Full Service Partnership	Familias Unidas	West County	30	207,096
		Total	**190**	**$2,812,092**

Additional Services Supporting Full Service Partners. The following services are utilized by full service partners, and enable the County to provide the required full spectrum of services and supports.

Adult Mental Health Clinic Support. Contra Costa Mental Health has dedicated clinicians at each of the three adult mental health clinics to provide support, coordination and rapid access for full service partners to health and mental health clinic services as needed and appropriate. Rapid Access Clinicians offer drop-in screening and intake appointments to clients who have been discharged from the County Hospital or Psychiatric Emergency Services but who are not open to the county mental health system of care. Rapid Access Clinicians will then refer clients to appropriate services and, when possible, follow-up with clients to ensure a linkage to services was made. If a client meets eligibility criteria for Full Service Partnership services, the Rapid Access Clinician will seek approval to refer the client to Full Service Partnership services. Clinic management act as the gatekeepers for the Full Service Partnership programs, authorizing referrals and discharges as well as providing clinical oversight to the regional Full Service Partnership programs. Full Service Partnership Liaisons provide support to the Full Service Partnership programs by assisting the programs with referrals and discharges, offering clinical expertise, and helping the programs to navigate the County systems of care.

The two Wellness Nurse positions initially funded through the Adult Mental Health Clinic Support plan element have been moved to the Innovation component to provide clinical direction to the Coaching to Wellness project which will help consumers maximize their well-being and minimize the negative side effects of any psychotropic medications that may be prescribed.

Program/Plan Element	County/Contract	Region Served	Number to be Served Yearly	MHSA Annual Funds Allocated
FSP Support, Rapid Access	County Operated	West, Central, East County	Support for Full Service Partners	1,553,687
		Total		**$1,553,687**

Assisted Outpatient Treatment. In February 2015, the Contra Costa Board of Supervisors passed a resolution authorizing $2.25 million of MHSA funds to be utilized on an annual basis for providing mental health treatment as part of an assisted outpatient treatment (AOT) program. The County will implement the standards of an assertive community treatment team as prescribed by Assembly Bill 1421, and thus meet the acuity level of a full service partnership. This program will provide an experienced, multi-disciplinary team who will provide around the clock mobile, out-of-office interventions to adults, a low participant to staff ratio, and will provide the full

spectrum of services, to include health, substance abuse, vocational and housing services. Persons deemed eligible for assisted outpatient treatment will be served, whether they volunteer for services, or are ordered by the court to participate. CCBHS underwent a competitive bid process to select a suitably qualified community-based organization to provide Assertive Community Treatment (ACT) to eligible adults in Contra Costa County; as a result, CCBHS entered into contract with Mental Health Systems, Inc. Services began during FY 2015-16.

Contra Costa Mental Health has dedicated clinicians and administrative support within the Forensic Mental Health Clinic to serve on the AOT Care Team in the following capacity: provide the lead in receiving referrals in the community, conduct outreach and engagement to assist a referred individual, conduct the investigation and determination of whether a client meets eligibility criteria for AOT, prepare Court Petitions with supporting documentation and ongoing affidavits, testify in court, coordinate with County Counsel, Public Defender and law enforcement jurisdictions, act as liaison with ACT contractor, and participate in the development of the treatment plan.

The Assisted Outpatient Treatment Program is summarized below:

Program/Plan Element	**County/Contract**	**Region Served**	**Number to be Served Yearly**	**MHSA Annual Funds Allocated**
Assisted Outpatient Treatment Assertive Community Treatment	Mental Health Systems, Inc.	Countywide	75	1,900,000
Assisted Outpatient Treatment Clinic Support	County Operated	Countywide	Support for Assisted Outpatient Treatment	350,000
		Total	**75**	**$2,250,000**

Wellness and Recovery Centers. Recovery Innovations contracts with the County to provide wellness and recovery centers situated in West, Central and East County to ensure the full spectrum of mental health services is available. These centers offer peer-led recovery-oriented, rehabilitation and self-help groups, which teach self-management and coping skills. The centers offer wellness recovery action plan (WRAP) groups, physical health and nutrition education, advocacy services and training, arts and crafts, and support groups.

Program/Plan Element	County/Contract	Region Served	Number to be Served Yearly	MHSA Annual Funds Allocated
Recovery and Wellness Centers	Recovery Innovations	West, Central, East County	200	875,000
		Total	**200**	**$875,000**

Hope House - Crisis Residential Program. The County contracts with Telecare to operate a recently constructed MHSA financed 16 bed residential facility. This is a voluntary, highly structured treatment program that is intended to support seriously mentally ill adults during a period of crisis and to avoid in-patient psychiatric hospitalization. It also serves consumers being discharged from the hospital and long term locked facilities that would benefit from a step-down from institutional care in order to successfully transition back into community living. Services are designed to be up to a month in duration, are recovery focused with a peer provider component, and will be able to treat co-occurring disorders, such as drug and alcohol abuse.

The Crisis Residential Program is summarized below:

Program	County/Contract	Region Served	Number to be Served Yearly	MHSA Annual Funds Allocated
Hope House - Crisis Residential Program	Telecare	Countywide	200	2,017,019
		Total	**200**	**$2,017,019**

MHSA Housing Services. MHSA funded housing services supplements services provided by CCBHS and the County's Homeless Services Division, and is designed for those low income adults with a serious mental illness or children with a severe emotional disorder and their families who are homeless or at imminent risk of being homeless. The annual budget for this program provides affordable housing, and is comprised of five elements, 1) supportive housing, 2) augmented board and care facilities, 3) temporary shelter beds, 4) permanent housing units, and 5) a centralized county operated coordination team.

1. Supportive Housing. Shelter, Inc. contracts with the County to provide a master leasing program, in which adults or children and their families are provided tenancy in apartments and houses throughout the County. Through a combination of self-owned units and agreements with landlords Shelter, Inc. acts as the lessee to the owners and provides staff to support individuals and their families move in and maintain their homes independently. In addition to Shelter,

Inc., Bonita House is proposing to develop a supportive housing program, entitled the “Knightsen Farm”, in the Eastern part of the County. As a result of stakeholder support, a $220,000 placeholder in the annual housing services budget has been added, while feasibility and program design are determined.

2. Augmented Board and Care. The County contracts with a number of licensed board and care providers and facilities to provide additional staff care to enable those with serious mental illness to avoid institutionalization and enable them to live in the community. Of these 26 augmented board and care providers, seven were added due to MHSA funding.
3. Temporary Shelter Beds. The County’s Homeless Services Division operates a number of temporary bed facilities in West and Central County for transitional age youth and adults. In 2010, CCBHS entered into a Memorandum of Understanding with the Homeless Services Division that provides additional funding to enable up to 64 individuals with a serious mental illness per year to receive temporary emergency housing for up to four months.
4. Permanent Housing Units. Having participated in a specially legislated state run MHSA Housing Program through the California Housing Finance Agency (CalHFA) the County, in collaboration with many community partners, embarked on a number of one-time capitalization projects to create 50 permanent housing units for individuals with serious mental illness. These individuals receive their mental health support from Contra Costa Behavioral Health Services contract and county service providers. The sites include Villa Vasconcellos in Walnut Creek, Lillie Mae Jones Plaza in North Richmond, The Virginia Street Apartments in Richmond, Tabora Gardens in Antioch, Robin Lane apartments in Concord, Ohlone Garden apartments in El Cerrito, Third Avenue Apartments in Walnut Creek, Garden Park apartments in Concord, and scattered units throughout the County operated by Anka Behavioral Health.

General System Development

General System Development is the service category in which the County uses Mental Health Services Act funds to improve the County's mental health service delivery system for all clients who experience a serious mental illness or serious emotional disturbance, and to pay for mental health services for specific groups of clients, and, when appropriate, their families. Since the Community Services and Supports component was first approved in 2006, programs and plan elements included herein have been incrementally added each year by means of the community program planning process. These services are designed to support those individuals who need services the most.

Funds are now allocated in the General System Development category for the following programs and services designed to improve the overall system of care:

Older Adult Mental Health Program. First implemented in 2008, there are now two programs serving the older adult population over the age of 60, 1) Intensive Care Management, and 2) IMPACT (Improving Mood: Providing Access to Collaborative Treatment).

1) Intensive Care Management. Three multi-disciplinary teams, one for each region of the County provide mental health services to older adults in their homes, in the community, and within a clinical setting. The primary goal is to support aging in place and to improve consumers' mental health, physical health and overall quality of life. Each multi-disciplinary team is comprised of a psychiatrist, a nurse, a clinical specialist, and a community support worker. The teams deliver a comprehensive array of care management services, linkage to primary care and community programs, advocacy, educational outreach, medication support and monitoring, and transportation assistance.
2) IMPACT. IMPACT is an evidence-based practice which provides depression treatment to older adults in a primary care setting who are experiencing co-occurring physical health impairments. The model involves short-term (8 to 12 visits) problem solving therapy and medication support, with up to one year follow-up as necessary. MHSA funded mental health clinicians are integrated into a primary treatment team.

The Older Adult Mental Health Program is summarized below:

Family partners are individuals with lived experience as parents of children and adults with serious emotional disturbance or serious mental illness who assist families with advocacy, transportation, navigation of the service system, and offer support in the home, community, and county service sites. Family partners participate as team members with the mental health clinicians who are providing treatment to children and their families. Mental Health Specialists are non-licensed care providers who can address culture and language specific needs of families in their communities. These professionals arrange and facilitate team meetings between the family, treatment providers and allied system professionals.

Children's Wraparound Support is summarized below:

Miller Wellness Center. The County has completed construction on a separate building near the Contra Costa Regional Medical Center that houses an assessment and recovery center. This county operated mental health treatment program for both children and adults is co-located with a primary care site, and will be utilized to divert adults and families from the psychiatric emergency services (PES) located at the Regional Medical Center. Through a close relationship with Psychiatric Emergency Services children and adults who are evaluated at PES can quickly step down to the services at the Miller Wellness Center if they do not need hospital level of care. The Miller Wellness Center will also allow for urgent same day appointments for individuals who either are not open to the Contra Costa Behavioral Health System of Care, or have disconnected from care after previously been seen. Clinic Support. The Community Program Planning Process that supported the 2012-13 MHSA Plan Update recommended adding County positions to supplement clinical staff implementing treatment plans at the three adult clinics and three children's clinics. These are:

1) Resource Planning and Management. Dedicated staff at the three adult clinics assist consumers with money management and the complexities of eligibility for Medi-Cal, Medi-Care, Supplemental Security Income (SSI) and Social Security Disability Insurance (SSDI) benefits. One money management specialist is allocated for each clinic, and work with and are trained by financial specialists.
2) Transportation Support. The Community Program Planning Process identified transportation to and from clinics as a critical priority for accessing services.

Toward this end one-time MHSA funds were utilized in Fiscal Years 2013-14 and 14-15 to purchase additional county vehicles to be located at the clinics. Community Support Workers, one for each adult clinic, have been added to the three clinics to be dedicated to the transporting of consumers to and from appointments.

These individuals were determined to be high users of psychiatric emergency services and other public resources, but very low users of the level and type of care needed. Quality Assurance and Administrative Support. In 2008, the County first added needed positions via MHSA funding to perform various administrative support and quality assurance functions for statutory, regulatory and contractual compliance, as well as management of quality of care protocol. County staff time and funding to

support the community program planning process are also included here. Utilizing the state's allowance guide of 15% of total MHSA budget for this support element, the County's total percentage has varied from 10% to 12% each year. County positions have been incrementally justified, authorized and added each year as the total MHSA budget has increased.

Contra Costa County's Board of Supervisors directed that the Health Service Department develop an evaluation design for the Assisted Outpatient Treatment (AOT) program to determine the difference, if any, in program impact and cost savings to the County for individuals ordered to participate in services versus those individuals who voluntarily participate in the same level and type of service. The implementation of AOT is a three-year term project, with continuance contingent upon demonstration of the efficacy of court ordered outpatient treatment. Resource Development Associates was selected as the Principal Investigator through a competitive bid process to apply their proposed independent, objective social research design to Contra Costa's AOT Program. The evaluation is expected to start during FY 2015-16.

Prevention and Early Intervention

Prevention and Early Intervention is the component of the Three-Year Program and Expenditure Plan that refers to services designed to prevent mental illnesses from becoming severe and disabling. This means providing outreach and engagement to increase recognition of early signs of mental illness, and intervening early in the onset of a mental illness. New regulations for Prevention and Early Intervention went into effect on October 6, 2015. Programs in this component must now do one of the following: 1) outreach for increasing recognition of early signs of mental illness; 2) prevention; 3) early intervention; 4) access and linkage to treatment; and 5) stigma and discrimination reduction. Each county must include at least one of each of these five program types in its Prevention and Early Intervention component. Additionally, counties may include one or more programs in the following categories: 1) suicide prevention; and 2) improving timely access to mental health services for underserved populations. All of the programs contained in this component help create access and linkage to mental health treatment, with an emphasis on utilizing non-stigmatizing and non-discriminatory strategies, as well as outreach and engagement to those populations who have been identified as traditionally underserved.

First approved in 2009, with an initial State appropriation of $5.53 million Contra Costa's Prevention and Early Intervention budget has grown incrementally to $8.037 million annually in commitments to programs and services. The construction and direction of how and where to provide funding for this component began with an extensive and comprehensive community program planning process that was similar to that conducted in 2005-6 for the Community Services and Support component. Underserved and at risk populations were researched, stakeholders actively participated in identifying and prioritizing mental health needs, and strategies were developed to meet these needs. The programs and services described below are directly derived from this initial planning process, and expanded by subsequent yearly community program planning processes, to include current year. In the FY 16-17 Annual Update, Prevention and Early Intervention programs follow the convention established in the MHSA Three Year Plan for FYs 14-15 through 16-17 and are categorized as either prevention or early intervention programs. However, CCBHS is currently working with existing Prevention and Early Intervention providers and stakeholders to assign the Prevention and Early Intervention programs outlined in this MHSA Plan Update to the program categories delineated in the Prevention and Early Intervention Regulations. The results of this process will be described in the MHSA Three Year Plan for FYs 17-18 through 19-20.

    b. The County fields a mental health clinical specialist to augment the psychiatric emergency services unit and the adult clinics for responding to those individuals identified as at risk for suicide. This clinician receives referrals from psychiatrists and clinicians of persons deemed to be at risk, and provides a short term intervention and support response, while assisting in connecting the person to more long term care.
    c. A multi-disciplinary, multi-agency Suicide Prevention Committee has been established, and has published a countywide Suicide Prevention Strategic Plan. This ongoing committee will now oversee the implementation of the Plan by addressing the strategies outlined in the Plan. These strategies include i) creating a countywide system of

suicide prevention, ii) increasing interagency coordination and collaboration, iii) implementing education and training opportunities to prevent suicide, iv) implementing evidence based practices to prevent suicide, and v) evaluating the effectiveness of the County's suicide prevention efforts.

The allocation for this prevention activity is summarized below:

Program/Plan Element	County/Contract	Region Served	Number to be Served Yearly	Yearly Funds Allocated
Suicide Prevention	Contra Cost Crisis Center	County wide	25,000	292,850
Suicide Prevention	County Operated	County wide	50	123,493
Suicide Prevention	County Supported	County wide	N/A	Included in PEI administrative cost
		Total		**$416,343**

5) Administrative support and evaluation of prevention and early intervention programs. A program supervisor and two planner/evaluator positions have been allocated by the County to provide administrative support and evaluation of programs and plan elements that are funded by MHSA. The allocation for this activity is summarized below:

Plan Element	County/Contract	Region Served		Yearly Funds Allocated
Administrative Support	County Operated	Countywide		123,493
Planning/Evaluation	County Operated	Countywide		246,986
		Total		**$370,479**

Early Intervention

Early intervention means services that provide treatment and other interventions to address and promote recovery and related functional outcomes, and to mitigate the negative outcomes that result from untreated mental illness. The County operated First Hope Program serves youth who are at risk for, or show early signs of psychosis. Referrals are accepted from all parts of the County, and through a comprehensive assessment process young people, ages 12-25, and their families are helped to

determine whether First Hope is the best treatment to address the psychotic illness and associated disability. A multi-disciplinary team provides intensive care to the individual and their family, and consists of psychiatrists, mental health clinicians, occupational therapists and employment/education specialists. These services are based on the Portland Identification and Early Referral (PIER) Model, and consists of multi-family group therapy, psychiatric care, family psycho-education, education and employment support, and occupational therapy.

The allocation for this program is summarized below:

Program	County/Contract	Region Served	Number to be Served Yearly	Yearly Funds Allocated

Innovation

Innovation is the component of the Three Year Program and Expenditure Plan that funds new or different patterns of service that contribute to informing the mental health system of care as to best or promising practices that can be subsequently added or incorporated into the system. The innovative programs for Contra Costa Mental Health are developed by an ongoing community program planning process that is sponsored by the Consolidated Planning Advisory Workgroup through its Innovation Committee.

New Innovation Regulations went into effect on October 1, 2015. As before, innovative programs accomplish one or more of the following objectives; i) increase access to underserved groups, ii) increase the quality of services, to include better outcomes, iii) promote interagency collaboration, and iv) increase access to services. While Innovation programs have always been time-limited, the Innovation Regulations have placed a five-year time limit on Innovation programs. During FYs 15-16 and 16-17, CCBHS staff and stakeholders will ensure all existing Innovation programs comply with the Innovation Regulations.

Approved Programs

The following programs have been approved, implemented, and funds have been allocated for Fiscal year 2016-17:

1) Mental Health and Social Supports for Lesbian, Gay, Bi-sexual, Transgender, Questioning (LGBTQ) Consumers. Rainbow Community Center has contracted with the County to continue to develop a behavioral/mental health model to serve youth, TAY and adult consumers who identify themselves as lesbian, gay, bi-sexual, transgender or questioning their sexual identity or gender. Previously, this program worked to identify unmet needs and tested the effectiveness of various modes of engagement, assessment and service provision, and developed best practices for engaging and serving LGBTQ consumers and broadening and strengthening their social supports (peers, family, schools, faith communities). A key component of the project included building learning collaboratives of local community members and organizations who worked to improve linkage and care services for LGBTQ community members in schools, faith communities, and service provider settings. The project developed proposed models of LGBTQ counseling, support groups, youth and TAY development activities, and specialty mental health services tailored to meet needs of LGBTQ community members. Three categories

of interventions will be sustained with future funding in order to inform the mental health system of care as to best practices and to assist in replication: i) promote inclusive climates with faith communities and service providers, ii) individual counseling (clinic and school-based) and support group services to promote healthy LGBTQ identity development, iii) specialty mental health services for consumers who have been marginalized and have a serious mental illness, and iv) development of evaluation methodology for school and agency-based mental health services. The counseling and mental health programs have begun to serve TAY and adults and older adults as well as youth.

2) Women Embracing Life and Learning (WELL). This project is a collaboration between Contra Costa Behavioral Health, Public Health Nursing and the Women, Infant and Child (WIC) program. This new pattern of service integrates a coordinated approach to addressing perinatal and post-partum depression among women in order to improve health outcomes and prevent serious mental illness. The Central County WIC office screens for symptoms of depression, refers women at risk to the multi-disciplinary team, and the team provides one-on-one and group counseling, medication support as appropriate, and referral and linkage to additional treatment as needed.
3) Trauma Recovery Project. The County is providing staff to lead trauma recovery groups within the County's adult mental health clinics for individuals who are both suffering from post-traumatic stress disorder (PTSD) and are receiving mental health services for a serious mental illness. The groups adhere to the trauma recovery group practice for treatment of PTSD. This is a promising practice that utilizes cognitive restructuring, and seeks to reduce involuntary hospitalizations and psychiatric emergency services for this at-risk population.
4) Reluctant to Rescue. Community Violence Solutions contracts with the County to provide outreach and engagement to exploited youth who engage in street socialization, commercial sex work or survival sex. Staff adapt their outreach to engaging youth where they are located, providing safe, accessible drop-in centers, and providing mental health and support services. This project is developing promising practices to identify exploited and at-risk youth, coordinate with and educate public entities, such as law enforcement, and mobilize resources to assist youth leave exploited situations.
5) Recovery Through Employment Readiness. The community program planning process has placed an urgent priority on the County providing pre-vocational and employment services to a large number of mental health consumers who are not currently receiving this service. An analysis indicates that Contra Costa Vocational Services currently partners with the

California Department of Rehabilitation to provide a “place and train” model of employment services. This model screens applicant for readiness to enter competitive employment, and then provides job placement and supported employment services to facilitate job retention. However, a large number of individuals who need training, education and other pre-employment services are being screened out. A new and innovative model is being developed to combine a “train and place” approach with the existing “place and train” approach in order to serve a larger number of consumers who represent a broader spectrum of readiness for employment.

6) Wellness Coaches (Coaching to Wellness). Individuals who have experience as a consumer and/or family member of the mental health system have been trained to provide mental health and health wellness coaching to recipients of integrated health and mental health services within Contra Costa Mental Health. These peer providers are part of the County’s Behavioral Health Services integration plans that are currently being implemented. The Wellness Coaches are paired with Wellness Nurses, and are assigned to the adult mental health clinics. The Coaches have received training specific to the skill sets needed to improve health and wellness outcomes for consumers. Coaching to Wellness began implementation in FY 15-16.
7) Partners in Aging. Older adults who are frail, homebound and suffer from mental health issues experience higher rates of isolation, psychiatric emergency interventions, and institutionalization that could be prevented. An Innovation Project is being developed that would train and field in-home peer support workers to engage older adults who have been identified by Psychiatric Emergency Services as individuals who need additional staff care in order to avoid repeated crises, engage in ongoing mental health treatment, increase their skills in the activities of daily living, and engage appropriate resources and social networks. Partners in Aging was approved by the Mental Health Oversight and Accountability Commission in FY 15-16 and will begin implementation during the second half of FY 15-16.

The allocation for these programs are summarized below:

Emerging Program

The following concept has been designated to be an Innovation Project, and is on track to be fully developed, approved and implemented during the period of this Three Year Plan:

- o Overcoming Transportation Barriers. Transportation challenges provide a constant barrier to accessing mental health services. A comprehensive study was completed via the County's community program planning process, and a number of needs and strategies were documented. Findings indicated a need for multiple strategies to be combined in a systemic and comprehensive manner. These strategies

include training consumers to independently navigate public transportation, providing flexible resources to assist with transportation costs, educating consumers regarding schedules, costs and means of various modes of public transportation, transport consumers to and from mental health appointments and develop shuttle routes, accommodate special transportation needs, and create a centralized staff response to coordinate efforts and respond to emerging transportation needs. During this Three Year Plan an Innovation Project will be developed to address these needs and provide a means to inform the overall mental health system of care regarding solutions for improving transportation access to mental health care.

The above concept has been recommended by the Innovation Committee for development and submittal to the Mental Health Services Oversight and Accountability (MHSOAC) for approval. It is a result of recommendations from previous community program planning processes. The detailed project description of *Overcoming Transportation Barriers* will be submitted to the MHSOAC for approval in a separate document. Additional concepts for Innovation Projects will be entertained and vetted through the Innovation Committee on an ongoing basis. These submitted concepts will be consistent with the priorities of this year's community program planning process.

The Mental Health Services Act states that five percent of MHSA funds will be for Innovation Projects. In order to meet this five percent requirement additional funds will be set aside for the emerging project listed above.

Workforce Education and Training

Workforce Education and Training is the component of the Three Year Program and Expenditure Plan that provides education and training, workforce activities, to include career pathway development, and financial incentive programs for current and prospective Contra Costa Behavioral Health Services employees, contractor agency staff, and consumer and family members who volunteer their time to support the public mental health effort. The purpose of this component is to develop and maintain a diverse mental health workforce capable of providing consumer and family-driven services that are compassionate, culturally and linguistically responsive, and promote wellness, recovery and resilience across healthcare systems and community-based settings.

The County's Workforce, Education and Training Component Plan was developed and approved in May 2009, with subsequent yearly updates. The following represents funds and activities allocated in the categories of 1) Workforce Staffing Support, 2) Training and Technical Assistance, 3) Mental Health Career Pathway Programs, 4) Residency, Internship Programs, and 5) Financial Incentive Programs.

1) Workforce Staffing Support. Workforce education and training staff are designated to develop and coordinate all aspects of this component. This includes conducting a yearly workforce needs assessment, coordinating education and training activities, acting as an educational and training resource by participating in the Greater Bay Area Regional Partnership and state level workforce activities, providing staff support to County sponsored ongoing and ad-hoc workforce workgroups, developing and managing the budget for this component, applying for and maintaining the County's mental health professional shortage designations, applying for workforce grants and requests for proposals, coordinating intern placements throughout the County, and managing the contracts with various training providers and community based organizations who receive funding for graduate level interns.

The County's funding allocation for this category is summarized below:

Plan Element	County/Contract	Region Served	Number to be Served Yearly	MHSA Annual Funds Allocated
Administrative Support	County Operated	Countywide	N/A	184,426
		Total		**$184,426**

2) Training and Technical Assistance. Various individual and group staff trainings will be funded that support the values of the Mental Health Services Act. As a part of the MHSA community program planning process and training surveys,

stakeholders identified the need for training to increase knowledge related to cultural communities, such as disadvantaged populations, and the lesbian, gay, bi-sexual, transgender communities, and those who question their sexual identity. Additionally, stakeholders expressed the need to develop activities to reduce stigma. In response the County will host a variety of culture-specific training events focused on cultural groups, such as Asian Americans, Latinos, and African Americans.

In addition, the following specific contracts will be let out; i) payment to the Contra Costa National Alliance on Mental Illness (NAMI) to provide Family-to-Family training in Spanish that assists families support their loved ones navigate the public mental health system, ii) training for law enforcement officers to respond safely and compassionately to crisis situations involving persons with mental health issues.

The County's funding allocation for this category is summarized below:

Plan Element	**County/Contract**	**Region Served**	**Number to be Served Yearly**	**MHSA Annual Funds Allocated**
Staff Training	Various vendors	Countywide	To be determined	156,500
Family to Family	NAMI	Countywide	48	20,000
Law Enforcement	Various	Countywide	70	5,000
		Total		**$181,500**

3) Mental Health Career Pathway Programs. Funding is annually allocated to enable a designated Contra Costa County high school to develop and deliver a mental health class curriculum and provide stipend work experiences. By introducing high school students to mental health through this curriculum, students increase their knowledge of mental health concepts and potential careers in the public mental health system. Staff assist students connect with colleges that support a career ladder in the public mental health system.

Contra Costa Behavioral Health Services has successfully created a number of peer and family provider positions in its system of care, and, through its SPIRIT program has recruited and prepared individuals with lived experience for entry level positions as peer providers. However, the County's assessment of workforce needs has determined that these individuals could benefit from ongoing support and assistance with career development and advancement through the system. Also, training is needed for individuals with lived experience

as a family member to enter the workforce as a family partner. Toward this end, the County applied for and received a $436,386 grant through the statewide workforce, education and training funds administered by the Office of Statewide Health Planning and Development. These funds are to expand the curriculum to include training to be a family partner, supporting ongoing career development and placement assistance, and developing ongoing supports for individuals with lived experience who are now working in the system.

The County's funding allocation for this category is summarized below:

Program	**County/Contract**	**Region Served**	**Number to be Served Yearly**	**MHSA Annual Funds Allocated**
High School Academy	Contra Costa Unified School District	Countywide	15	3,000
		Total		**$3,000**

4) Residency, Internship Programs. Contra Costa County supports internship programs which place graduate level students in various county operated and community based organizations. Particular emphasis is put on the recruitment of individuals who are bi-lingual and/or bi-cultural, and individuals with consumer and/or family member experience. CCBHS provides funding to enable up to 75 graduate level students to participate in paid internships in both county operated and contract agencies that lead to licensure as a Marriage and Family Therapist (MFT), Licensed Clinical Social Worker (LCSW), Clinical Psychologist and Mental Health Nurse Practitioner. These County financed internships are in addition to the state level workforce education and training stipend programs that are funded by the California Office of Statewide Health Planning and Development. This state funded stipend program requires that participants commit to working in community public mental health upon graduation. The County's assessment of workforce needs has determined that a combination of state and locally financed internships has enabled the County and its contractors to keep pace with the annual rate of turnover of licensed staff.

The County's funding allocation for this category is summarized below:

Program	County/Contract	Region Served	Number to be Served Yearly	MHSA Annual Funds Allocated
Graduate Level Internships	County Operated	Countywide	25	169,945
Graduate Level Internships	Contract Agencies	Countywide	50	100,000
		Total	**75**	**$269,945**

5) Financial Incentive Programs. The County participates in the state level workforce, education and training funded Mental Health Loan Assumption Program. Administered by the Office of Statewide Health Planning and Development, this program makes annual payments of up to $10,000 to an educational lending institution on behalf of an employee who has incurred debt while obtaining education. The recipient is required to work in the public mental health system for each year (up to five years) in a capacity that meets the employer's workforce needs. Contra Costa County has been allocated $309,733 from the state level WET fund to apply toward this program. The County plans to maximize the impact of this retention strategy by incrementally increasing the number of awards provided yearly for county and contract agency employees who work in the Contra Costa Behavioral Health Services system of care.

Capital Facilities/Information Technology

The Capital Facilities/Information Technology component of the Mental Health Services Act enables counties to utilize MHSA funds on a one-time basis for major infrastructure costs necessary to i) implement MHSA services and supports, and ii) generally improve support to the County's community mental health service system.

Capital Facilities. The County completed an extensive community program planning process related to capital facility outlays and received approval from the State in 2010 to spend up to $4 million for construction of a facility to house an assessment and recovery center (Miller Wellness Center). In the fiscal year 2011-12 MHSA Plan Update the construction of a 16 bed crisis residential facility (Hope House) was approved and added as a Capital Facilities project. This was funded by transferring $3 million from the County's Prudent Reserve. Construction of both the Hope House and Miller Wellness Center was completed in the Spring of 2014. Behavioral health programs are operational in both facilities, with services described in the Community Services and Supports component of the Three Year Plan.

Information Technology. Contra Costa received approval from the State in 2010 to utilize up to $6 million in MHSA funds to develop and implement an electronic mental health record system. The approved project is intended to transform the current paper and location-based system with an electronic system where clinical documentation can be centralized and made accessible to all members of a consumer's treatment team, with shared decision-making functionality. It would replace the existing claims system, where network providers and contract agencies would be part of the system and be able to exchange their clinical and billing information with the County. The proposed system would allow doctors to submit their pharmacy orders electronically, and permit sharing between psychiatrists and primary care physicians to allow knowledge of existing health conditions and drug inter-operability. It would also allow consumers to access part of their medical record, make appointments, and electronically communicate with their treatment providers.

Subsequent to approval for this project Contra Costa Health Services, to include Contra Costa Regional Medical Center, the ambulatory care clinics and the Contra Costa Health Plan, converted existing systems to an integrated electronic medical record system, entitled EPIC. This conversion of the larger health care system initiated an analysis to determine the feasibility of using the EPIC system for behavioral health services. The analysis indicated significant functionality gaps in the clinical documentation and billing for specialty mental health services, as it utilized a different billing format. Closing the gap required significant development efforts by EPIC system

staff. Initiation of the electronic mental health record system was delayed until EPIC was fully operational in Contra Costa's Health Service Division, and functionality between EPIC's capacity and the electronic mental health record's objectives could be determined. This was solved by the certification of EPIC's Tapestry module, and work began in FY 2013-14. The Epic Tapestry project will have the capacity to communicate and share information with EPIC and other systems currently in use by contract providers and other entities involved in the treatment and care of clients. The project is scheduled to be completed in two years. As per the 2010 proposal, funding from the County's Health Services Department would be sought for any costs that exceed the originally approved $6 million.

Information Technology Project funds estimated to be available for Fiscal Year Fiscal Year 2016-17: $849,936.

The Budget

The Contra Costa County Board of Supervisors authorized use of MHSA funds not to exceed $43.1 million annually for the remaining Fiscal Year 2016-17. Previous chapters provide detailed projected budgets for individual MHSA plan elements, programs, categories and components for FY 2016-17. The following table summarizes the total MHSA spending authority by component for the third year of the Three Year Plan.

	CSS	PEI	INN	WET	CF/TN	TOTAL
FY 16/17	31,568,631	8,037,813	2,019,495	638,871	849,936	43,114,747

Appendix E, entitled *Funding Summaries,* provides a revised FY 2014-15 through FY 2016-17 Three Year Mental Health Services Act Expenditure Plan. This funding summary matches budget authority with projected revenues, and shows sufficient MHSA funds are available to fully fund all programs and plan elements for the duration of the three year period. The following fund ledger depicts projected available funding versus total budget authority:

Fiscal Year 2016/17

C.Estimated FY 16/17 Unspent Fund Balance	27,662,822	4,084,136	4,429,579	122,129	(201,157)	36,097,509

Prudent Reserve: $7,125,250

Notes.

1. The Mental Health Services Act requires that 20% of the total new funding for the County go for the PEI component. The balance of new funding is for the CSS component. From the total of CSS and PEI components, five percent of the total new funding is to go for the Innovation (INN) component, and is to be equally divided between the CSS and PEI allotment. The estimated new funding for each fiscal year reflects this distribution.
2. The County may set aside up to 20% of the average amount of funds allocated to the County for the previous five years for the Workforce, Education and Training (WET) component, Capital Facilities, Information Technology (CF/TN) component, and a prudent reserve. For this three year period the County is not allocating any new funding for these areas, as the existing balances are estimated to be sufficient to fund estimated expenditures. However, it is anticipated that continuation of part or all of the existing WET programs and any new CF/TN projects for the next three year period (FY 2017-20) may require use of funding set aside under this provision.
3. The MHSA requires that counties set aside sufficient funds, entitled a prudent reserve, to ensure that services do not have to be significantly reduced in years in which revenues are below the average of previous years. The County's prudent reserve balance through June 30, 2017 is estimated to be $7,125,250. This figure is in addition to the estimated available funds.
4. For the CF/TN component it is projected that the one-time costs of implementing a mental health electronic record system will utilize the entire component fund balance by the end of this three year period. Any costs that are incurred above the total funds set aside for this project will be considered separately as a new and additional funding obligation.

Toward Balancing the Budget. In FY 2014-15 it was determined that actual MHSA expenditures in FY 2013-14, while not exceeding budget authority, did exceed actual MHSA revenues received. Extrapolating this shortfall forward in future years indicated that available unspent MHSA funds from previous years could eventually be exhausted, and sufficient MHSA funds might not exist in future Three Year Plans to fully fund all authorized MHSA programs and plan elements. However, projected expenditures for FY 2014-15 indicated that revenues exceeded expenditures. Coupled with a revised upward estimate of MHSA revenues in fiscal years 2016-17 and 2017-18 it is determined that current total budget spending authority will not need to be reduced in order to fully fund MHSA programs and plan elements in the next Three Year Plan.

Evaluating the Plan

Contra Costa Behavioral Health Services is committed to evaluating the effective use of funds provided by the Mental Health Services Act. Toward this end a comprehensive program and fiscal review process has been implemented to a) improve the services and supports provided, b) more efficiently support the County's MHSA Three Year Program and Expenditure Plan, and c) ensure compliance with statute, regulations and policies.

During each three year period, each of the contract and county operated programs and plan elements receiving MHSA funds will undergo a program and fiscal review. This entails interviews and surveys of individuals both delivering and receiving services, review of data, case files, program and financial records, and performance history. Key areas of inquiry include:

- Delivering services according to the values of the Mental Health Services Act.
- Serving those who need the service.
- Providing services for which funding was allocated.
- Meeting the needs of the community and/or population.
- Serving the number of individuals that have been agreed upon.
- Achieving the outcomes that have been agreed upon.
- Assuring quality of care.
- Protecting confidential information.
- Providing sufficient and appropriate staff for the program.
- Having sufficient resources to deliver the services.
- Following generally accepted accounting principles.
- Maintaining documentation that supports agreed upon expenditures.
- Charging reasonable administrative costs.
- Maintaining required insurance policies.
- Communicating effectively with community partners.

Each program or plan element receives a written report that addresses each of the above areas. Promising practices, opportunities for improvement, and/or areas of concern will be noted for sharing or follow-up activity, as appropriate. The emphasis will be to establish a culture of continuous improvement of service delivery, and quality feedback for future planning efforts.

In addition, a monthly MHSA Financial Report is generated that depicts funds budgeted versus spent for each program and plan element included in this Plan. This enables ongoing fiscal accountability, as well as provides information with which to engage in sound planning.

Acknowledgements

We acknowledge that this document is not a description of how Contra Costa Behavioral Health Services has delivered on the promise provided by the Mental Health Services Act. It is, however, a plan for how the County can continually improve upon delivering on the promise. We have had the honor to meet many people who have overcome tremendous obstacles on their journey to recovery. They were quite open that the care they received literally saved their life. We also met people who were quite open and honest regarding where we need to improve. For these individuals, we thank you for sharing.

We would also like to acknowledge those Contra Costa stakeholders, both volunteer and professional, who have devoted their time and energy over the years to actively and positively improve the quality and quantity of care that has made such a difference in people's lives. They often have come from a place of frustration and anger with how they and their loved ones were not afforded the care that could have avoided unnecessary pain and suffering. They have instead chosen to model the kindness and care needed, while continually working as a team member to seek and implement better and more effective treatment programs and practices. For these individuals, we thank you, and feel privileged to be a part of your team.

Mental Health Service Maps

Mental Health Services Act funded programs and plan elements are only a portion of the total funding that supports public mental health services provided by Contra Costa County employees and staff employed by contractors. The backbone of the CCMH system of care is its three county operated Children's and three county operated Adult clinics that serve the Western, Central and Eastern regions of the county.

The following six service maps provide a visual picture, or architecture, of the constellation of types of Contra Costa Mental Health's programs, and thus enable the viewer to see the inclusion of MHSA funded services as part of the entire system of care.

Anka Behavioral Health, Inc.

Point of Contact: Chris Withrow, Chief Executive Officer.
Contact Information: 1850 Gateway Boulevard, Suite #900, Concord CA 94520, (925) 825–4700, cwithrow@ankabhi.org

1. **General Description of the Organization**

   Anka's mission is to eliminate the impact of behavioral health problems for all people. Anka serves more than 15,000 individuals annually and employs nearly 1,000 professional, specialized staff members. Anka's philosophy is to treat the whole person by fully integrating care of both mind and body, always using clinically-proven, psycho-social models designed to promote health and wellness while containing costs.

2. **Program: Adult Full Service Partnership - CSS**

   The Adult Full Service Partnership (FSP) joins the resources of Anka Behavioral Healthcare and Costa County Behavioral Health Services, and utilizes a modified assertive community treatment model.

   Anka's FSP program includes collaborative services with the Contra Costa Adult Forensic Team to case manage consumers who are on Contra Costa County Probation. The program serves adults who reside in Contra Costa County, who have been charged with non-violent felonies or misdemeanors, and who experience a serious mental illness/serious emotional disturbance. Previously, the Contra Costa's Behavioral Health Court directly provided referrals to Anka.

   a. Scope of Services: Services use an integrated multi-disciplinary team approach, based on a modified Assertive Community Treatment (ACT) model of care. Services include outreach and engagement, case management, outpatient mental health services, including services for individuals with co-occurring mental health and alcohol and other drug problems, crisis intervention, medication support, housing support, flexible funds, vocational services, educational services, and recreational and social activities. Anka staff are available to consumers on a 24/7 basis.
   b. Target Population: Adults between the ages of 26 to 59 in Central County who are diagnosed with a serious mental illness, are at or below 300% of the federally defined poverty level, and are uninsured or receive Medi-Cal benefits.
   c. Payment Limit: $768,690
   d. Number served: In FY14/15 Anka Central FSP served 58 individuals.
   e. Outcomes: Below are the FY 14/15 outcomes for Anka Central FSP.
      - Reduction in incidence of psychiatric crisis
      - Reduction of the incidence of restriction

Pre- and post-enrollment utilization rates for 58 Anka Central FSP participants enrolled in the FSP program during FY 14-15.

	No. pre-enrollment	No. post-enrollment	Rate pre-enrollment	Rate post-enrollment	% change
PES episodes	154	132	0.346	0.240	- 30.6
Inpatient episodes	34	11	0.061	0.026	- 57.4
Inpatient days	288	66	0.513	0.109	- 78.8

** Data on service utilization were collected from the county's internal billing system, PSP. To assess the effect of FSP enrollment on PES presentations and inpatient episodes, this methodology compares clients' monthly rates of service utilization pre-enrollment to clients' post-enrollment service utilization rates. Using PES usage as an example, the calculations used to assess pre- and post-enrollment utilization rates can be expressed as:*

(No. of PES episodes during pre- enrollment period)/ (No. of months in pre-enrollment period) =Pre-enrollment monthly PES utilization rate

(No. of PES episodes during post-enrollment period)/ (No. of months in post-enrollment period) =Post-enrollment monthly PES utilization rate

Contra Costa Mental Health has dedicated clinical staff at each of the three adult mental health clinics to provide support, coordination and rapid access for full service partners to health and mental health clinic services as needed and appropriate. Rapid Access Clinicians offer drop-in screening and intake appointments to clients who have been discharged from the County Hospital or Psychiatric Emergency Services but who are not open to the county mental health system of care. Rapid Access Clinicians will then refer clients to appropriate services and, when possible, follow-up with clients to ensure a linkage to services was made. If a client meets eligibility criteria for Full Service Partnership services, the Rapid Access Clinician will seek approval to refer the client to Full Service Partnership services. Clinic management act as the gatekeepers for the Full Service Partnership programs, authorizing referrals and discharges as well as providing clinical oversight to the regional Full Service Partnership programs. Full Service Partnership Liaisons provide support to the Full Service Partnership programs by assisting the programs with referrals and discharges, offering clinical expertise, and helping the programs to navigate the County systems of care.

2. **Program: Multisystemic Therapy (MST) – Full Service Partnership (FSP) - CSS**

   Multisystemic Therapy ("MST") in an intensive family and community based treatment that addresses the multiple determinants of serious anti-social behavior. The MST approach views individuals as being surrounded by a network of interconnected systems that encompasses individual, family, and extra familial (peers, school, community) factors. Intervention may be necessary in any one or a combination of these systems, and using the strengths of each system to facilitate positive change. The intervention strives to promote behavioral change in the youth's natural environment. Family sessions are provided over a three to five month period. These sessions are based on nationally recognized evidence based practices designed to decrease rates of anti-social behavior, improve school performance and interpersonal skills, and reduce out-of-home placements. The ultimate goal is to empower families to build a healthier environment through the mobilization of existing child, family, and community resources.

Community Violence Solutions

Point of Contact: Cynthia Peterson, Director of the Rape Crisis Center.
Contact Information: 2101 Van Ness Street, San Pablo, CA 94806, (510)-307-4121, cpeterson@cvsolutions.org

1. **General Description of the Organization**

   Community Violence Solutions (CVS) is dedicated to working in partnership with the community to end sexual assault and family violence through prevention, crisis services, and treatment. Formerly called Rape Crisis Center, CVS was founded by the Greater Richmond Interfaith Program in 1974. Since then, CVS has expanded its services to all of Contra Costa and Marin Counties.

2. **Program: Reluctant to Rescue (Innovation)**

   The intent of this project is to "increase the quality of services, including better outcomes". Community Violence Solutions (CVS) named the project "Reluctant to Rescue" because it recognized the highly complex dynamic situations that often prevent the "rescue" of youth victimized by sexual exploitation. Through this project, CVS is exploring the effectiveness of various service modalities by addressing two of its operating assumptions. First, commercially sexually exploited (CSEC) youth are nearly always traumatized sexual assault victims; yet, exploited youth do not always see themselves as victims and, as a result, often do not respond to the same approaches as other sexual assault victims. Interventions might be more effective if they: a) assisted youth in recognizing the physical risks and health problems associated with the sex trade and b) addressed the youth's ability to earn a living through paid job training. Addressing trauma and other psychosocial issues may need to occur later in the intervention. Second, the ways and reasons youth enter a situation of exploitation are often not same reasons they remain in this "work". Therefore, interventions should address these changes. Staff adapt their outreach to engage youth where they are located, providing safe, accessible drop-in centers, and providing mental health and support services. This project is developing promising practices to identify exploited and at-risk youth, coordinate with and educate public entities, such as law enforcement, and mobilize resources to assist youth leave exploited situations.

   b. Scope of Services: The project recognizes youth as experts in their own experiences and relies on their feedback and expressions of need to inform the development of services and multiple service routes. Accordingly, the project initially approaches the issue of sex for pay with respectful inquiry instead of specific ideas of intervention and service. Youth share information through guided interviews and focus groups. The proposed project seeks to gain detailed information directly from the youth in order to help develop interventions that address complex motivations for entering and continuing in sexual exploitation.

CVS utilizes the youth-generated information to inform curriculum development and intensive training with a core group of CSEC parents, guardians, and foster parents who are open to increasing their skills and willing to care for these challenging and challenged youth. CVS coordinates all aspects of the project and, as appropriate, brings community partners in to deliver specific services requested by youth. Two drop-in centers are staffed and respond to needs of youth expressed in the qualitative data collected during Phase I of the project. CVS contracts with specific individuals and/or other agency providers to serve identified needs.

c. Target Population: Sexually exploited youth (ages 16 to 25 years) and youth at risk of sexual exploitation.
d. Annual Payment Limit: $126,000
e. Number served: For FY 14/15: 64 youth
f. Outcomes:
   - Reduction in incidence of incarceration
   - Reduction in depression symptoms

   Community Violence Solutions collected baseline data using the Children and Adolescent Needs and Strengths Assessment (CANS) in FY 12/13; however, due to the transient nature of the target population, in FY 14/15 it was determined that the CANS is not the appropriate screening tool to use. The agency is developing a new outcome measurement tool and outcomes will be included in upcoming Plan Updates.

2. **Program: Suicide Prevention Crisis Line**

a. Scope of Services: Contra Costa Crisis Center provides services to prevent suicides throughout Contra Costa County by operating a nationally certified 24-hour suicide prevention hotline. As a result of these service activities, people who call the crisis line and are assessed to be at medium to high risk of suicide will receive additional follow-up services, including confirming survival/safety rate of 99% one month later. The Crisis Center will continuously recruit and train crisis line volunteers to a minimum pool of 25 multilingual/culturally competent individuals within the contract year, and the number of hours that a minimum of one Spanish-speaking counselor is on duty will be 60-80 per week. Resource Development Associates

Point of Contact: Roberta Chambers

Contact Information: 230 4th Street, Oakland, CA 94607 (510) 488-4345

rchambers@resourcedevelopment.net

1. **General Description of the Organization**

   Resource Development Associates (RDA) has over thirty years of experience evaluating complex and multi-systems initiatives within California's mental health system as well as evaluation that explores the intersection between the mental health and justice systems. Through these experiences, we have researched and developed numerous strategies and practices related to: a collaborative approach to evaluation; supporting new programs during the formative phase as well as existing programs with evaluation implementation; timely and ongoing reporting of data for continuous quality improvement and compliance; and outcome measurement that helps counties and programs understand individual, program, and systems level outcomes. For this evaluation, we seek to explore not only what the programs are achieving in terms of outcomes but also how the programs are achieving the observed results.

2. **Program: Assisted Outpatient Treatment (AOT) Program Evaluation - CSS**

   Resource Development Associates will 1) design and implement a program evaluation that determines the difference, if any, in program impact and cost savings to the County for individuals who are ordered to participate in behavioral health services versus those individuals who voluntarily participate in the same level and type of services, and 2) provide a comprehensive report to the County and the State Department of Health Care Services on or before May 1st of each contract year. The variables for reporting are detailed in Welfare and Institutions Code Section 5348(d) (1-14), and require both quantitative and qualitative variables (including conducting interviews with behavioral health consumers and their families).

   a. Scope of Services: The total study period will be three years, with three cohorts representing the above groups established. Individuals will be matched by age, gender, race/ethnicity, diagnoses, level of severity of psychiatric disability, income level, and length of active participation in the program. For program and fiscal impact, cohorts will be compared at pre- and post-program intervention on the performance and cost indicators of 1) change in level of functioning, to include successful step down to lower levels of care, 2) number and cost of psychiatric crises interventions, such as the County's Psychiatric Emergency Service (PES), 3) days and cost of psychiatric hospital confinement (State and/or local) and incarceration, 4) incidence of engagement in significant, meaningful participation in the community, 5) engagement in conservatorship, and 6) return to previous level of functioning prior to AOT intervention (recidivism). For cost

savings, cohorts will be compared at pre- and post-program intervention on County dollars spent on each cohort.

b. Target Population: Adults diagnosed with serious mental illness and co-occurring substance abuse disorders, who a) establish an AOT court settlement agreement, b) are court-ordered to receive these services, or c) meet the criteria for FSP services and agree to voluntarily accept services as provided by Mental Health Systems, Inc. and in partnership with Contra Costa Behavioral Health Services.
c. MHSA Payment Limit: For FY 15-16: $ 101, 875; For FY 16-17: $99,375
d. Outcomes: RDA seeks to answer the following overarching questions related to the implementation of Assisted Outpatient Treatment/Assertive Community Treatment:
    1. How faithful are ACT services to the ACT model?
    2. What are the outcomes for people who participate in AOT, including the DHCS required outcomes?
    3. What are the differences in demographics, service patterns, psychosocial outcomes, and cost between those who agree to participate in ACT services without court involvement and those who participate with an AOT court order or voluntary settlement agreement?
    4. What are the differences in demographics, service utilization, psychosocial outcomes, and cost between those who engage in existing full service partnership services and those who receive ACT services?

2. **Program: Short Term Assessment of Resources and Treatment (START) - Full Service Partnership - CSS**

   Seneca Family of Agencies (SFA) provides an integrated, coordinated service to youth who frequently utilize crisis services, and may be involved in the child welfare and/or juvenile justice system. START provides three to six months of short term intensive services to stabilize the youth in their community, and to connect them and their families with sustainable resources and supports. The goals of the program are to 1) reduce the need to utilize crisis services, and the necessity for out-of-home and emergency care for youth enrolled in the program, 2) maintain and stabilize the youth in the community by assessing the needs of the family system, identifying appropriate community resources and supports, and ensuring their connection with sustainable resources and supports, and 3) successfully link youth and family with formal services and informal supports in their neighborhood, school and community.

   a. Scope of Services
      - Services include:
        - Outreach and engagement
        - Linkage
        - Case management
        - Plan development
        - Crisis Intervention
        - Collateral
        - Flexible funds
        - Contractor must be available to consumer on 24/7 basis

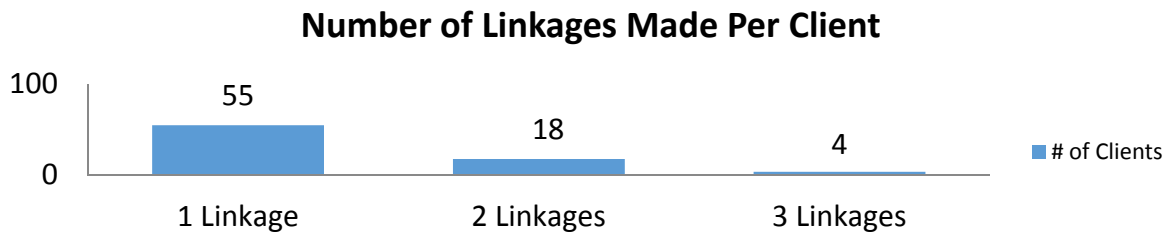
   b. Target Population: The target population for the program includes youth 18 years and under with a history of multiple psychiatric hospitalizations and crisis interventions, imminent risk of homelessness, who have a serious mental illness and/or are seriously emotionally disturbed, and are not being served, or are being underserved, by the current mental health system. Youth in the program can be Medi-Cal eligible or uninsured.

   c. Payment Limit: $ 562,915

d. Number served: Number served in FY 14/15 -- Total 116 (115 unduplicated): West 41 (40 unduplicated), Central 27, and East 48

- Outcomes: 79 of the 116 enrolled clients were discharged in FY 14/15. The data below reflects all clients discharged within this fiscal year. Discharge and CALOCUS data on the clients who will close in FY 15/16 will be included in next year's report.
- Linkages
  During the fiscal year 22 clients discharged unplanned. These clients were discharged due to reasons such as moving out of the area, declining further support, aging out, not engaging, changes in client legal offenses, or becoming no longer eligible for services.

  The START team attempted to link clients with many different resources during the service period. A total of 77 primary linkages were made to our clients. Most clients had just 1 linkage, but as you can see below, a few clients were linked with secondary, tertiary, and quaternary resources.

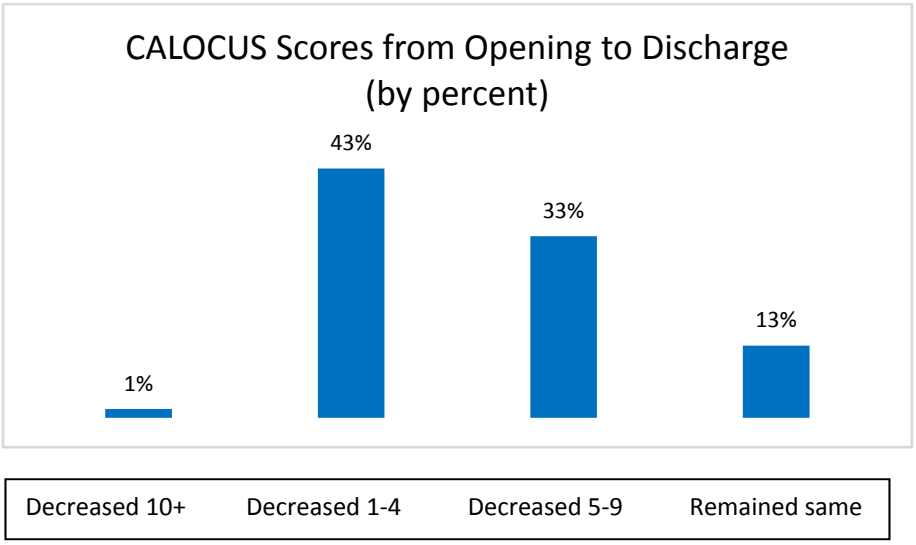


The linkages above are in no particular order, as the first linkage might not have ranked more importance than the second linkage. Some clients might have had a successful relationship maintained with their second or third linkage, but not with their first. The data listed under planned discharges shows more on this information. Overall, seventy-five percent (75%) of the linkages were successful, meaning that the client remained connected to the linked resource 30 days post-discharge from START.

Eight clients also had "other" linkages to resources that are not in the above data. These linkages consist of crisis support lines (2), recreational activities (4), pro-social activities (1), peer supports and mentoring agencies (3), and job corporations (1).

- CALOCUS Scores
  We reviewed the CALOCUS scores at opening or time of referral and at time of discharge for 79 clients. Of the 79 clients, 71 clients (90%) had a CALOCUS score that decreased or remained the same.

- One client's score decreased by more than 10 points.
- Twenty-six clients' (33%) scores decreased by 5-9 points.
- Thirty-four clients' (43%) scores decreased by 1-4 points.
- 10 clients (13%) scores remained the same.
- The successful data is depicted in graph below:



- Reduction in incidence of psychiatric crisis
- Reduction of the incidence of restriction

Table 1. Pre- and post-enrollment utilization rates for 99 START participants enrolled in the FSP program during FY 14-15.

	No. pre-enrollment	No. post-enrollment	Rate pre-enrollment	Rate post-enrollment	% change
PES episodes	118	42	0.157	0.054	- 65.6
Inpatient episodes	18	11	0.021	0.014	- 33.3
Inpatient days	149	64	0.149	0.080	- 46.3

** Data on service utilization were collected from the county's internal billing system, PSP. To assess the effect of FSP enrollment on PES presentations and inpatient episodes, this methodology compares clients' monthly rates of service utilization pre-enrollment to clients' post-enrollment service utilization rates. Using PES usage as an example, the calculations used to assess pre- and post-enrollment utilization rates can be expressed as:*

(No.of PES episodes during pre- enrollment period)/(No.of months in pre-enrollment period) =Pre-enrollment monthly PES utilization rate

(No.of PES episodes during post-enrollment period)/(No.of months in post-enrollment period) =Post-enrollment monthly PES utilization rate

  FY 14/15, 68% of MHSA Consumers residing in master leased housing remained stably housed for 24 months or longer (Note: SHELTER, Inc. was awarded a contract expansion in February 2014 which increased capacity from 109 to 120. The addition of new Consumers to housing during the second half of the contract year had an impact on this outcome. At the time of the contract expansion the number served was 101. A major change occurred in the Adult FSP programs; the Bridges to Home collaboration ended and Rubicon Programs closed its Central Contra County office and stopped sending referrals for vacant housing. Some Consumers graduated from the FSP programs and no longer qualified for Clinic based Mental Health case management because their symptoms improved. Some Consumers were solely receiving medication management through County Mental Health Clinics. The reduction in case management support resulted in some Consumers not being able to maintain their housing. Several new FSP Providers were brought in and referrals for housing resumed late in the last quarter which all had an impact on this outcome.

  REVISED GOAL: 70% of MHSA Consumers residing in master leased housing shall remain stably housed for 18 months or longer

  This outcome is being revised taking into account a higher than expected number of newly housed Consumers due to the contract expansion. Additionally there are Consumers who have graduated from their FSP, and/or are receiving light case management, and/or

are receiving medication management from a County Mental Health Clinics. All of these factors impact housing retention.

- FORMER GOAL: 90% of MHSA Consumers residing in Shelter, Inc. owned property shall remain stably housed for 16 months or longer.

  FY 14/15 71% of MHSA Consumers residing in SHELTER, Inc. owned housing remained stably housed for 16 months or longer. The Bridges to Home FSP collaborative dissolved and Rubicon Programs closed its Central Contra County office which had an impact on consumers living in Central and East County where a majority of SHELTER, Inc. owned properties were set aside for MHSA Consumers.

  REVISED GOAL: 70% of MHSA Consumers residing in Shelter, Inc. owned property shall remain stably housed for 12 months or longer.

  This outcome has been revised taking into account that the a majority of the new housing placements in SHELTER, Inc. owned properties occurred at the later part of the contract year in 2014. Additionally, new FSP programs with differing service models have impacted housing retention.

Glossary

Assembly Bill 1421. AB 1421, also known as **Laura's Law**, enacted in 2002, would create an assisted outpatient treatment program for any person who is suffering from a mental disorder and meets certain criteria. The program would operate in counties that choose to provide the services. Adoption of this law enables a court, upon a verified petition to the court, to order a person to obtain and participate in assisted outpatient treatment. The bill provides that if the person who is the subject of the petition fails to comply with outpatient treatment, despite efforts to solicit compliance, a licensed mental health treatment provider may request that the person be placed under a 72-hour hold, based on an involuntary commitment. The law would be operative in those counties in which the county board of supervisors, by resolution, authorized its application and made a finding that no voluntary mental health program serving adults, and no children's mental health program, would be reduced as a result of the implementation of the law.

Assertive Community Treatment (ACT). Assertive Community Treatment is an intensive and highly integrated approach for community mental health service delivery. It is an outpatient treatment for individuals whose symptoms of mental illness result in serious functioning difficulties in several major areas of life, often including work, social relationships, residential independence, money management, and physical health and wellness. Its mission to promote the participants' independence, rehabilitation, and recovery, and in so doing to prevent homelessness, unnecessary hospitalization, and other negative outcomes. It emphasizes out of the office interventions, a low participant to staff ratio, a coordinated team approach, and typically involves a psychiatrist, mental health clinician, nurse, peer provider, and other rehabilitation professionals.

Assisted Outpatient Treatment (AOT). Assisted Outpatient Treatment is civil court ordered mental health treatment for persons demonstrating resistance to participating in services. Treatment is modeled after assertive community treatment, which is the delivery of mobile, community-based care by multidisciplinary teams of highly trained mental health professionals with staff-to-client ratios of not more than one to ten, and additional services, as specified, for adults with the most persistent and severe mental illness. AOT involves a service and delivery process that has a clearly designated personal services coordinator who is responsible for providing or assuring needed services. These include complete assessment of the client's needs, development with the client of a personal services plan, outreach and consultation with the family and other significant persons, linkage with all appropriate community services, monitoring of the quality and follow through of services, and necessary advocacy to ensure each client receives those services which are agreed to in the personal services plan. AOT is cited as part of Assembly Bill 1421, or Laura's Law.

Augmented Board and Care. Board and care facilities licensed by the State also contract with Contra Costa Mental Health to receive additional funding to provide a

therapeutic environment and assist residents gain their independence through recovery and wellness activities. Extra staff time is devoted to creating a home-like atmosphere, often with shared housekeeping activities, and provide or coordinate a variety of therapeutic, educational, social and vocational activities. Persons who experience severe and persistent mental illness are eligible.

Behavioral Health System (BHS). This term refers to the grouping of Contra Costa Mental Health, Homeless Services, and Alcohol and Other Drug Services under one division of the Health Services Department.

Capital Facilities/Information Technology (CF/TN). Capital Facilities and Information Technology is the title of one of five components of the Mental Health Services Act. This component enables a county to utilize MHSA funds for one-time construction projects and/or installation or upgrading of electronic systems, such as mental health records systems.

Case Management. Case Management refers to a service in which a mental health clinician develops and implements a treatment plan with a consumer. This treatment plan contains a diagnosis, level of severity, agreed upon goals, and actions by the consumer, the case manager, and other service providers to reach those goals. The mental health clinician provides therapy and additionally takes responsibility for the delivery and/or coordination of both mental and rehabilitation services that assist the consumer reach his/her goals.

Clinical Specialist. Clinical Specialist, in the context of this document, refers to a licensed or registered intern in the specialties of social work, marriage and family therapy, psychology, psychiatric nurse practitioner, licensed professional clinical counselor, or psychiatrist. A Clinical Specialist is capable of signing a mental health consumer's treatment plan that can enable the County to bill Medi-Cal for part of the cost to deliver the service.

Clubhouse Model. The Clubhouse Model is a comprehensive program of support and opportunities for people with severe and persistent mental illness. In contrast to traditional day-treatment and other day program models, Clubhouse participants are called "members" (as opposed to "patients" or "clients") and restorative activities focus on their strengths and abilities, not their illness. The Clubhouse is unique in that it is not a clinical program, meaning there are no therapists or psychiatrists on staff. All participation in a clubhouse is strictly on a voluntary basis. California approved Proposition 63 in November, 2004, and the Mental Health Services Act became law. The Act provides significant additional funding to the existing public mental health system, and combines prevention services with a full range of integrated services to treat the whole person. With the goal of wellness, recovery and selfsufficiency, the intent of the law is to reach out and include those most in need and those who have been traditionally underserved. Services are to be consumer driven, family focused, based in the community, culturally and linguistically competent, and integrated with other appropriate health and social services. Funding is to be provided at sufficient levels to ensure that counties can provide each child, transition age youth, adult and senior with the necessary mental health services, medications and support set forth in their treatment plan. Finally, the Act requires this Three Year Plan be developed with the active participation of local stakeholders in a community program planning process.

Community Services and Supports

Community Services and Supports is the component of the Three-Year Program and Expenditure Plan that refers to service delivery systems for mental health services and supports for children and youth, transition age youth (ages 16-25), adults, and older adults (over 60). Contra Costa County Mental Health utilizes MHSA funding for the categories of Full Service Partnerships and General System Development.

First approved in 2006 with an initial State appropriation of $7.1 million Contra Costa's budget has grown incrementally to $31.5 million annually in commitments to programs and services under this component. The construction and direction of how and

where to provide funding began with an extensive and comprehensive community program planning process whereby stakeholders were provided training in the intent and requirements of the Mental Health Services Act, actively participated in various venues to identify and prioritize community mental health needs, and developed strategies by which service delivery could grow with increasing MHSA revenues.

Public Hearing Presentation - MHSA Fiscal Year 2016-17 Plan Update

Contra Costa Behavioral Health Services is pleased to present the Draft Mental Health Services Act Plan Update for Fiscal Year 2016-17. We welcome your input this evening.

The 16-17 Plan Update proposes to set aside $43.1 million for fiscal year 2016-17 in order to fund over 80 programs and plan elements. This includes $31.6 million annually to fund 36 programs and plan elements in the Community Services and Supports component that will serve approximately 2,000 individuals who are experiencing a serious mental illness. Our Prevention and Early Intervention component plans to set aside $8 million annually to fund 28 programs serving approximately 13,000 persons, and are designed to prevent mental illness from becoming severe and debilitating. $2 million is budgeted annually for eight Innovative projects, and up to $638,000 is set aside for programs to recruit, train and retain our public mental health workforce. Finally, our Capital Facilities/ Information Technology component will utilize the remaining funds allocated for implementation of the electronic mental health records project.

This is a Plan Update, and, as such, updates the Three Year Program and Expenditure Plan that was approved in 2014. Changes to the Three Year Plan that are included in this Draft Plan Update are:

- A description of this year's Community Program Planning Process, where our Prevention and Early Intervention programs hosted multi-venue outreach events to encourage our underserved populations the opportunity to voice priority needs and suggested strategies to meet those needs.
- Describes changes to the Full Service Partnership program in West County, where Rubicon Programs is phasing out of providing mental health services, and Portia Bell Hume Behavioral Health and Training Center will be assuming responsibility for Full Service Partner services in West County for Fiscal Year 2016-17.
- The implementation of the Assisted Outpatient Treatment Program through a partnership of County and Mental Health Systems staff.
- Adjustments to CSS and INN component budget line items to more closely align with projected expenditures. Component totals are not affected.
- Changes to the description of the Miller Wellness Center.

- Updates progress on implementation of the previously approved Innovation Projects of Wellness Coaches, Partners in Aging, and Overcoming Transportation Barriers.
- Provides a description of the passage and potential impact of new PEI and INN regulations.
- The Budget chapter reflects increased projected revenues for FY 16-17 to reflect most recent estimates provided by the State. Funding summaries indicate sufficient MHSA funds are available to fully fund authorized budgeted amounts for FY 2016-17.
- Program and Plan Element Profiles have been updated, to include outcomes reported by programs for Fiscal Year 2014-15.
- An alphabetized Program and Plan Element Profile Table of Contents has been added.

Again, we welcome both Public and Commission input this evening. We are pleased to have already received a number of written submissions during our 30 day public comment period. The Draft Plan Update will be sent to the Board of Supervisors for review once we have included our written response to any substantive recommendations for revisions received by either the Public or the Commission.

III. Overview of Fiscal Year 2016-2017 Mental Health Services Act (MHSA) Three Year Program and Expenditure Plan Update

As an introduction to the taking of Public Comments, MHSA Program manager Warren Hayes gave a brief overview of the Three Year Program and Expenditure Plan Update. He referred to materials that were available in the meeting packet.

IV. Public Comments on Plan

1) Eddie Morris: I am a resident of Contra Costa County, Richmond. I'm a Director of Mental Health in Men and Women of Purpose, and I'm part of the group that we have developed in Contra Costa for mental health first aid. We would like to advocate for more services in West County. The reason why we advocate – that's not the only job that I cover. I worked on different jobs, and I worked at John George as a milieu therapist and telecare, so I'm quite sure everybody here is quite familiar with that environment. So I'm right on the front line on observing mental health on a day-to-day basis. So West County is so deprived of the services needed, because we've had a series of different events that have occurred over the past couple of months and more likely it's directed toward mental health. I'm trying not to go past two minutes, but I'm doing the best I can. We want to increase the behavioral health care and wraparound services for West County for trauma victims to assist them from the first line with a Crisis Unit Team. We want to offer a series of different beds to be offered. We would picture four beds that would be offered in a type of way that could them with detoxification. And it's a long list of things that we really have to offer, but this is the main priority, that the West County services are really depleted, as most of the services are out here. If someone is in West, they have to go to John Muir. By that time, the psychiatric disorder has been probably covered up a lot of different areas, that that's related to a ____ moment by then. So we as this group are really trying to work hard to solicit funds to assist us with these series of different projects that's about to occur.
2) Kathleen Sullivan: Good evening. My name is Kathleen Sullivan, and I am, as well, part of a coalition that is from West County that is here to advocate for services for our West County community. I currently work in the Housing arena, work in public housing, and many of you in the East and Central community may not know, but we have had an uptake in violence in our community, and I work on a property where it was that we've had gunfire that has happened quite a lot over the last seven to

eight months, and that's when it is I came on board to start looking into what was available for mental health. And it was a travesty, that there was no emergency response services available, there was no, in calling out, who we ended up having to come and do on-site with residents mental health support was a local community-based mental health organization, and that's _____(11:27). It was not without looking into the school system, looking into the police department, even looking into the County. There was no one there. So I'm not talking about what I heard; I'm talking about what outreach was done by me to look for services. So as a result, I have participated in Mental Health 101 training myself, I have brought some other people in. We are really clear that we have trauma issues that are happening, not only with adults and children, unaddressed, that the resources to come into our community are not available in the way that they should be, and this has been an ongoing condition. The disproportionate amount of money that comes to West County versus goes into other areas of the County, my research says this has been going on for way too long. So we've got issues of trauma; we've got issues where it is that we need additional beds for adults and children. The one really serious point of fact I was given is the number of beds, that there are 80 beds in the State of California, hospital beds for behavioral health. We need some more beds in the county, period, much less what we see is available just limited in the State of California. I heard a number mentioned about how much money was spent in behavioral health and what's proposed; I can't even believe it. I can't even believe the amount of money that was just quoted that's going to be spent in 16-17 and know about kids hitting the deck traumatized and can't get services in West County. So we have made some proposals about some things that need to be changed, and your budget is not reflecting, right now with what I've heard, and I will look through it, but it's not reflecting responding to emergency needs, emergency trauma, beds, alcohol and drug recovery beds, beds for children. It's not reflecting that for our West County residents, and so I hear this word, "consumers," who are you talking about? Who are the consumers you're talking about? You meet with the coalition, we've got about eight or nine people here, we can let you know what the depravity of the consumers in West County really looks like.

3) Donnell Jones: I, too, am a part of this coalition in Richmond that has come here tonight to advocate for more funds around mental health and the trauma that is seen. I did know for a fact that Kathleen, I helped to coordinate the cease-fire efforts in Richmond along with RPD, and I understand that there is some conversations about having some cease-fire out in East County as well. I just want to piggyback on what she said about the trauma. When you have 7- and 8-year-olds, and 15-year olds, and 13-year-olds, and 20-year-olds whose lives over the past 10 years have seen nothing but crime and gun violence in their areas, there's some residual effects and there are some by-products of that. I don't know if any of you have ever been around gunfire, but it is traumatizing. My family and I, I moved away for quite some time. I grew up in Richmond area, but I moved away. The ministry took me away. I'm a pastor as well. The ministry took me away for about 19 years, and upon my return, I moved back into my family's home, and we weren't

there for two months before a young man was killed in the Eastshore Park area, just right down the street from my house. Well, my children were privileged, so to speak. They were sheltered in a parsonage in Birmingham, Alabama; in Jacksonville, Florida; in Riverside, California; those places where I pastored and moved across the state as an itinerant pastor. They had never experienced anything like that. And I saw my own children, who came to bed at night, my son, my daughter, with earplugs in their ears because they did not want to hear that. And they were traumatized, would not want to go outside and play, and so that's a child who hasn't lived in this apartment complex that was highly attacked with gun violence ____ surrounding that house. We do advocate for more. It's really a sad commentary to only have 80 beds for traumatized kids across the State of California. It is really a bad commentary to have to see all of the moneys that are going throughout the County and none is in West County for this very dismal amount. So we are here tonight to just say, "Please consider West County as you are doing your budget."

4) Katherine Wade: Good evening, everyone. Being an ex-employee for Contra Costa County Mental Health, I used to work for the Office for Consumer Empowerment. I basically helped develop services under MHSA, which was Prop 63, and to read about place care providers where people are already accessing other types of services and it's evident that West County does not have those services, so I guess there still won't be providers sent to West County as it has been. When I went out years ago, took Target cards and Safeway cards into all the communities in West County to get information about the unserved and underserved population, African-Americans and Latinos came up. Shortly after, all of that disappeared. I don't know where the funding went. I'm still an advocate in West County. I lost two of my fiancés to homicide in West County, and I have actually brought a pair of my son's father's shoes from 24 years ago, but I said that was doing too much. But just speaking here today and letting you know that when you talk about providing more cultural competency training to include training for language interpreters, it's not just about language interpreters; it's about people who have been traumatized in a community and just remembering a training that I went to, and I did a skit where someone called me and someone had gotten murdered, because that's the norm in my community, and after the training, the next day, the trainers came and said some of the participants there, that I scared them. Now, most of the participants were Europeans and other cultures, probably two were African-American, and I'm saying to myself, "How can you do this job effectively if you're afraid of what's really going on in these people's lives?" So I want to say here today, I'm still advocating for people in West County for different services, and you talk about PES overcrowded; of course, PES is overcrowded, because you closed down our hospital in West County, and then your priorities are taking money that was reserved from AB109 to expand the jail for mental health services? Get your priorities straight, West County, because this is a very diverse community.
5) Ralph Hoffman: Another name for MHSA or Prop 63 is, it's funded by what's called a millionaire's tax. If there ever was a time we need another millionaire's tax, it's in this very polarized economy that we have here today. I would suggest Supervisor

Andersen, first of all, is Chair of the Board of Supervisors, and she also is running unopposed, because she's so popular in her own district. Her district, the San Ramon Valley, has no homeless, so they've solved the homeless problem there. But what we need is another millionaire's tax that will fund more homes for very low, low, and moderate income people, particularly in West County or East County, where the problem is really severe. Right now it's funded partly by in-lieu fees on apartments and condos, and the also the Interfaith Council of Churches lending or giving money for affordable housing, nowhere is it near enough. So I would suggest that we lobby Governor Brown and the State Legislature for another millionaire's tax devoted to solving the homelessness problem. Because when we solve the homelessness problem, I think we will cut down on the violence in these communities in West County and East County and other parts of the county.

6) Antwan Cloird: I am also a Board Commissioner for Contra Costa County District 1 on AOD, and I'm just here as a community person who lives in West County. So my title doesn't mean anything when I watch my people suffer; when y'all get paid and they get played. I grew up in Richmond; I've been there 45 years. I am dual-diagnosed. My mother sent me to Beaumont, California, for me to get services, because there were no services. I'm talking about when I was a kid. ____ My mother was able to get me to a diagnostic center in San Francisco, and for those who've been around here, knew about the diagnostic center. And I come from a Black rural area, and I was the only Black kid in that hospital getting some services. Our people don't have that opportunity now. They're stuck in a facility where the boards are facing inside, not out, so they can keep you in and not let anybody else come in. So the mindset of our community is, so what? So when I got these calls around these kids getting shot, I went personally as a Board member, saying, "What's all that?" They tell me Rubicon. Rubicon hasn't had any mental health in years. They're saying, "These people have it." When I found out who really had that money, it was all given to Rise. Rise does not come to the 'hood. They just don't. When they called us, I had Mr. Morris going there. I said, "I don't know what you'd like to do, but you need to go do exactly what I do, but these kids and these families need help now." And so we've been in there doing what we do, and that's how this coalition got started, because you know what? We're tired of getting played. We're tired of seeing y'all got something over there and we don't have a hospital. I had a young man get shot right around the corner from my house and died, getting into the helicopter. When the helicopter got ready to land, it kept on going, because he died, but he got shot right around the corner, 15 steps from my front door. Another young kid who got shot on the pathway was homeless, a 14-year-old kid homeless, got shot in the face. I had to go to the funeral. So I'm telling you what I deal with. Y'all are sitting here in your chair and go wherever you want to go, but when you come to the 'hood, it's real. It's real in the 'hood; it's real in West County. They don't save blood, they spill blood, and my kids are the trauma victims of this. Absence of their families, their loved ones, the negative impact of conversations that go on, and they've got to be nurtured. My kids have got to be nurtured not to think in that same mindset and lifestyle that they have been living in, because there

is a way to get a second chance at a first-class life.

7) Michael Baldwin: I am with the coalition team. The main thing is, I'm a mental health patient and I need help. I tore my knee, and about nine months after that, they closed down the hospital. I have been trying to get SSI and all kinds of things. And from that, I have no answers. I have been denied, and I'm upset, not only, it's not about me, but it's about my community. There's nothing in Richmond that can help us. There is no hospital. If a young man or women, or even an older person, gets hurts or gets in danger or is in critical need, they have to go 15, 20, maybe 25 miles to get medical services. That is not tolerated. It's like going to ____ Do we not matter, or are your priorities in order? That's the question. We need mental health services in West County; not in San Ramon, not in Concord, but West County.
8) Michelle Milam: As a lifelong resident of Richmond, my name is Michelle Milam, and I work in law enforcement. I am part of the coalition. One of the things that we see frequently when there is an uptick in violence is children being affected by violence. I don't know how many times I have talked to a mother who had to bury their teenaged child, and there were a whole group of other children who witnessed the violence. Our officers go and respond to the scene, but we don't offer mental health services. We have the _____ (MET?) Team that can help with those kinds of things, but the emergency or the urgent care wraparound services, somebody to be able to talk to that family and work with that family immediately, to work with those children immediately, is direly needed. It's no different than the way domestic violence used to be. We think about these things differently, in that in that first 48-72 hours, that's a critical moment, and right now, if they are signed up for health care, an Affordable Care plan, they might wait a month to see somebody. I can't imagine someone seeing someone shot, which I have seen, and waiting a month to be able to see or get some emergency services. This is something that's really desperately needed in our communities. It's something our officers see every day. We send our officers to get health care because they have post-traumatic stress from going and responding to those scenes. They're professionals, so of course they have to deal with their job, but these are people who are living around it every single day and seeing it every single day, and their children. It's important for the behavioral health to be in West County because these are children who need the services. And it's important that we say not just mental health, but behavioral health, because it's the self-medicating. We've gone out on street corners with our clergy as part of our Cease-Fire Partnership, and you see people drinking out of liquor bottles, why? Because they're self-medicating. And a lot of times we don't think of that as a real issue with behavioral health, but it most certainly is. So I just ask you, think about your own children, think about the things that you face when you go home, and if it's anything less than what we want for our own children, then it's impetus upon us to change it if we're in policy positions or positions of change to make a difference.

V. Commissioner Comment on Plan

1) Lauren Rettagliata: I really appreciate the members of the public who came and spoke with us, and they really gave us some very good information, so thank you

very much. I wanted to speak about the MHSA Plan. Anybody who has given money through MHSA is supposed to have documented outcomes. I've been reading these MHSA plans for three years now, and there is a long list, and I'll send them to you Warren; I'm sure you're aware of them, too; agencies that we are funding that for the past three years that I've been on the Board have never had outcomes listed. Also, many of our own mental health clinics, the primary care clinics and the mental health clinics, they don't have outcomes listed. They have what I call statements, that they're going to do this and they're going to do that. There was one outstanding agency that gave a really good report, and that was Seneca Family Agency. Whether they're doing what they say they're doing or not, that report, if you look at it, actually tells you what an outcome should look like and what we should require at the County for those people. I also have some questions about Hope House and First Hope. These are wonderful programs, but the one thing I think we as a community need to ask is, are we getting our federally qualified health care dollars back from the federal government? Are we putting in MHSA dollars when we should, instead, be getting back federally qualified health care dollars? There are others. The two that I found that were the most glaring, that we should ask questions on, are Hope House and First Hope. These are wonderful programs, but, when we've got to keep it in our community, we have to expand them in our community, and expansion can happen if we get the federal health care dollars. I want to also speak about full-service partners. The full-service partnerships – I want to thank the full-service partnerships for giving us honest outcomes. Their outcomes were not perfect. They were far from perfect, from what we should be getting from full-service partners, so I think we as a community have to ask, are we giving, what do we do as a community to make sure that a full-service partnership gets the outcomes it is getting in other counties in our state? Because our outcomes are not there. Also, I did do a quick review on the augmented board and care section, and I ask that you have your staff look at that. There was Pleasant Hill Home, I just pulled out one, where in our book it says we're giving them $90,000, but when I went back and looked at the agenda for the Board of Supervisors, they were approved for $120,000. So let's take a look at these.

2) Sam Yoshioka: What I'd like to point out is the fact that originally in the MHSA plan and funding, we had a psychiatric health facility in that proposal, and for some reason out of the three projects, which is the crisis residential, the Hope House; the ARC, Assessment Recovery Center, which is in with the Miller Center; the psychiatric health facility was never funded. Well, it was funded but was not implemented. And I think we need to look at that project again. The very fact that in the white paper it does mention where a consumer went to 4C or was referred to 4C and was not admitted because that consumer did not have a medical issue. That consumer just had psychiatric issues, and that's where the psychiatric health facility comes into play. The question I have is, how many of the consumers in Contra Costa County are sent outside the county, and is it worthwhile to bring people back if you have psychiatric health care facility to take care of these people that are outside the county. [sic] I propose that we bring that back on the front burner for

consideration. A quick note that I'd like to mention is that at the MHSA meeting, or the CPAW meeting, one of the stakeholders mentioned that their mother had problems reading the assessment or the needs survey, and just about a week later, I was talking to a friend who volunteers at the Election Department and I was told that their ballot, if you have problems reading, they have a reader that you can insert the ballot and it will come on the screen in a larger form so they can read and vote. Now, the question I have is that we have these technologies in other departments, and why not in the Health Services Department? We should be able to be inclusive and provide accessibility for those who are underserved because of disability, and also for the people with hearing disability, you have the technology now to translate what is being said in a print form on the screen so you can read if you have problems hearing. We have this technology, and I suggest that we consider looking into these things to make it more accessible for the disabled.

3) Gina Swirsding: One of the areas I'm extremely concerned about, which is not only occurring in West County but throughout the county, is the issues of consumers who are dual-diagnosed who have drug and alcohol problems. Many of them – actually, it's a problem throughout the state, that when they are in programs for drugs and alcohol, many of them don't remain in there or are pushed out because of their mental illness, where you have more who just have the alcohol and drugs, they remain. I just have heard the stories over and over again: We have family members who have mental illness plus drug and alcohol problems, and there are not the services for drug and alcohol for these patients. Then on top of it all, in the psychiatric ward on the psychiatric side, there are many psychiatrists out there in the community who will not even take people who are taking drugs or alcohol. They have to be clean. And this also includes outpatient programs. So I am extremely concerned that a lot of these patients are self-medicating themselves, and they also have a problem with denial. There needs to be some kind of program within the County that deals with people with mental illness plus drug and alcohol, dealing with that problem. Because to mix your drugs with alcohol, or drugs, is bad news. So this is what I'm concerned about. I just want to say this is throughout the County; it's not just in West County; it's in East County, it's in Central County and South County.
4) Barbara Serwin: I have just a few questions. I'd just like to know more about a few of the high-level financial pieces to the program. I was very curious about the unspent funds and what the exact amount is. I'm not sure; I kind of think it's in the report – kind of the history of how these unspent funds developed over what timeframe and are they still developing, or it sounds like they might be leveling out expenses versus revenues coming in versus the expenses. How do they expect to use them, over what timeframe, and what are the criteria for spending the unspent funds? I see that there are a couple of programs, WET and the Capital Expenditures, and the IT Expenditures. Then speaking of IT, there are $850,000 applied to Epic Tapestry implementation of electronic information systems for the behavioral health systems, and I'm wondering in the upcoming fiscal year what those funds specifically are targeted for. Just generally speaking, how we're assessing the

progress, what are our benchmarks and success criteria for the information technology implementation. Lastly, I'm curious about our reserve amount and how that's determined.

VI. Mental Health Commission discussion regarding recommendations to the County Mental Health Administration and the Board of Supervisors

Barbara: Now, our last agenda item is the Mental Health Commission discussion regarding the recommendations that have come through the comments that have been made by the public and the Commission and recommendations to the County Mental Health Administration and the Board of Supervisors.

Karen: What we've done in the past is categorized them and the things that the commission would like to discuss and recommend, that really some concentration be placed on, so I've written down the categories as people spoke, and I may have missed some individual things, and Melinda will pick those up. But basically I wrote down as the people were speaking, I put a "1" next to them if they were from the Richmond Coalition, and then as they came up with something different from the last person, I tried to cover everything. So under #1 issue were more services in West County, wraparound services, additional beds for adults and children, especially with the emphasis on children, but it is for adults and children; emergency response services, emergency trauma services, AOD treatment services, helping families and children, and a mention that Rise was not meeting that need, no hospital, medical health needs, children being affected by violence, behavioral health as well as mental health Is there anything else that was not covered in that that was from the coalition?

- You said "More services in West County. Shouldn't that be, "More mental health services in West County?"
- Karen: I assumed that when I'm taking my notes, but yes, I will put that.
- Then, too, me being a survivor and having to raise children by myself with their fathers' being murdered in Richmond, I had to actually leave West County to start my services, because when I went to the doctor, he said, "Do you drink alcohol?" I answered yes, I was an alcoholic. So he said, "When you deal with your alcohol issues," like Sam said, "come to get treatment."
- Karen: So it's treatment out of West County.
- It's being culturally competent. Becoming culturally competent.
- Karen: You did say that, and I didn't know how to put that. So culturally competent, okay. I'm not trying to add to the comment period.
- When you say that we have no substance abuse services, no detox in West County, and we don't have that.
- Karen: I put AOD treatment services. You will have opportunity to expand, and I gave them your papers that you wrote out. I was given copies of those papers. If you want to turn in your comments, the things that you actually brought with you to comment on, you can do that. Put your name on them, and I'll include that all with the information for the transcriptionist. So that was that on #1 that was presented by the coalition, issues that were presented by them.

Number 2 was having a tax for the homeless as an issue to help cut down, one of the

things that it would do is help cut down on violence, but the tax in order to get homeless services, not just in West County but where needed.
Number 3, Lauren had a combination of documented outcomes not tested on the MHSA, Hope House, First Hope; using the federal dollars instead of the MHSA dollars; FSP. You said something about the outcomes.

- Lauren: I can send you my written comments.
- Karen: Well, these are needed. If you have them written, give them to Melinda.
- Lauren: I don't have them written right now.
- Karen: Send them to Lisa or Warren, not to me, at this point.

And then look at the augmented board and care, so that was issue number 3.
Issue #4, Sam spoke about the MHSA Plan, a psychiatric health facility was not implemented, how many consumers are sent outside the county, the Needs Survey being hard to read, ballots with larger print, why aren't we using the technology that we have available, so access to large-print, handicapped accessibility. Visual, audio, language, whatever the people need in accessibility. Understanding when I say language, I don't mean just Spanish and English, I mean language they can understand that is not County legalese but language they can understand also on the information. Gina spoke about dual diagnosis, meaning AOD not development and mental health. People are pushed out because of mental health. They can't get a psychiatrist or enter programs, that we need to have an AOD-plus-mental-health program. Does that capture?

- Gina: Yeah. It would be something that's geared to the mentally ill that we have.
    - Karen: But AOD and with all three of the diagnoses. We need to have a triple instead of a dual diagnosis, then.

Barbara spoke about having several questions on the financial end, high-level financial pieces, history of unspent funds, still developing, how do we use them, the criteria, ID implementation plans, how we are assessing the projects with criteria, how to determine the resources amount. And you can add anything to that.

- Barbara: I would just, how is the Epic Tapestry implementation of information systems for behavioral health systems, what is the amount going to be applied for this year, and how is success being measured? Then just lastly, how are reserve funds determined, the amount?
- Doug: Unspent funds, I believe. Unspent as opposed to reserve.
- Barbara: I was also asking about the reserve.
- Doug: What I'm saying, they are two different things.

Karen: So those are your issues for the Commission to make a recommendation on. You're not voting to okay the plan. That's not your place. The thing is making recommendations on the plan. Those were presented by the public, issues presented by the public, and the Commissioners.
Barbara: We have had these high-level topics presented with a lot of detail under them. Do we have any recommendations from Commissioners on specific recommendations that we would like to make to address the issues that have been described to us this

evening? I can speak to my own, if I may, is that acceptable? That we look into how our unspent funds are being used, how they are being evaluated, how they are being selected.
Lauren: I had two things that could really be looked at and answered, and that is on our federally qualified reimbursement dollars that we're getting. Can we make adjustments in the MHSA Plan if it is possible to have part of these costs covered through Medi-Cal and Medicare payments, and also I would like to ask that no further contracts be awarded to any entity if they have not provided outcomes to us, that the Board of Supervisors hold the line and not approve future funding if they are not meeting the requirements of the MHSA Act.
Doug: I heard from West County that the focus be beyond the Laura's Law issue, focusing on the most seriously mentally ill among us in the County, because that's where the greatest wastage of dollars occurs in the County budget.
Barbara: Could you repeat that again?
Doug: I said that there could be a focus toward serving the most mentally ill in the county, because that's where the greatest forced use of County mental health dollars occurs.
Diana: I feel that we owe West County the opportunity to take a look at what's going on there in terms of what services, what we can do with the services issues. I don't think we can just leave it sitting here. We know it's a problem. I just don't know quite how to voice it in such a way to create an action item on it, I guess you could say.
Karen: We can't do that here. We can receive the public comment, but we can't respond to it. This goes into the Plan; however, believe me, they have been heard, and it will come up in Commission meetings. There have been some things that can go right into Quality of Care, right into MHSA, and so on. But the purpose of this is to get this information for recommendations on that. So all of these issues, there are a lot of them that I want to shout out and say go there, do this. But we can't respond to a public comment other than for clarification. I'm sorry.
Gina: Under the law of MHSA, if you read the law, it's a requirement that they have to hear what the public has to say, so that's why they have this open time of writing your comments in and for the citizens to come out here and speak. It's something that the Board of Supervisors and those in management needing to hear this voice. This is that process for MHSA funding. It's a vital part, and it's done in every county.
Greg: You know, it's a thing that it's not a question of where the funding, where we put it, but how can we get more? I think that's the biggest issue here is, after hearing the stories of West County, I think that's the #1 priority in this whole, out of every comment that I've heard so far, because we're talking about murder, we're talking about child abuse, we're talking about problems that are much beyond any other problem that I've seen in all the comments that I've heard so far, and I think that we need to find a way to get more money. Start writing letters to senators or congressmen and find out how we can get more money to put into the systems that need the most help. I just think that it's important that we focus on the people that need the help the most.
Barbara: I also go back to one of my own, that I'm very, I come from a technology background and I'm always very concerned with how technology costs a lot, and

understandably so, but for the funds that are being put into it, how we're measuring the success of those outcomes, and are we reaching those milestones.
Karen asked last year's MHC Chair, Lauren Rettagliata, for clarification on next steps. Lauren, from last year, did you just vote and say yes, we want to recommend that, that, and that?
Lauren: We voted that there had been a public hearing and that we had taken the recommendations, and the recommendations would all be forwarded to the MHSA division of Behavioral Health for answers and incorporation into the plan.
Barbara: Before we do that, I wanted to put out there to the public, is there any concern that you voiced that you believe has not been covered by the Commission in terms of recommendations? We really don't want to leave here with any of your concerns that have not really been brought into recommendation form.
Connie: Just one thing I would like to add about alcohol and drug detox treatment. It really needs to be medically supervised. Very often than not, it's just putting someone in a group home of sorts and letting peer pressure. People with really severe drug and alcohol issues really need competent, well-trained and supervised medical detox, and they also need; very, very much need real health screening to find out how their health is, what kinds of follow-up services do they need from every sector of services.
Eddie Morris: I'm going to put another hat on. My organization is Men with a Purpose. We find out that our assessments through our jail, assessments that we do on our population, that there are more dual-diagnosis individuals that come out of that system, and when they come out, they are really working hard with mental health, and I thank mental health for trying to get these gentlemen on medication as quickly as they leave out. We don't want any recidivism, because there's a real -- Connie, when she first started, we sat down, and that was one of the main things with Contra Costa Regional Medical Center. They have people who go inside, so basically when the participants get out, they have a get-out date, and so when they get out, they try to make sure they have their medication before they exit, and that's very vital, and even after. So just a note, because it's a lot. These people are employable; they just have to be balanced. Their medication has to be balanced, right? So once you balance it, you can move forward with their treatment and onward for their success, not just to hold them hostage with that high dosage, but to lower the dosage so they can still function and be productive members of society even though they have a mental health condition. They shouldn't hold them hostage when they can be a positive member of society. I think the approach should change a little bit so y'all can give people hope so they can be employed. Because in their minds they think they're not employable because they have a condition, but they are employable. They just need their medication to be at a level where they can function.
Gina: I do want to make a note about South County about homelessness, because there are a lot of homeless, even people who live in South County live there. What they do is, in the winter they live in the hills in South County, and then in the summer they move over the hill. In winter, they get the protection, and then they move. This is something I have learned with some of the homeless people who have mental illness. So I wanted to say that it is a problem, even in South County.

(Member of public): I just wanted to mention one more thing that I forgot to say, and that is that there is some exploration around doing what I recall called place-based mental health support, where you take the mental health support services into the community. So we're exploring that possible model in Richmond, and I think that we need to take a look a little closer at taking mental health services into the housing developments, into those properties themselves, and offering groups and those services directly on properties. What I have heard from some of the mental health professionals is that them sitting in the building and you making the phone call and getting connected, and here's where you go at such-and-such a time for your appointment, is not a working model. So I'm just putting it out there, that that conversation has been going on in Richmond. I'm hoping that we do something in that area, but I think it needs to be addressed at you guyses' level as a shift in how you deliver services.
Katherine Wade: I was a Community Support Worker, too, and West County was my region when I worked for Contra Costa County, so they do have Community Support Workers under the mental health umbrella. I don't know what they're doing at this point, but I just want to say, after losing my second fiancé in West County, I developed agoraphobia. I have had agoraphobia for, I think, four years. And had it not been for my support services, my mother coming from Mississippi, and my family being involved, my children would have been placed with Social Services. So when you think about people in West County and their suffering PTSD, agoraphobia, mood disorder, all the diagnoses you can think of experiencing trauma, from children, babies left without their parents up to adults not having their children any more and having to raise their grandchildren, there is a big issue in West County. And even looking at this panel here today, I don't see the cultural diversity. I really don't see the cultural diversity, and I know this is a conservative county, because I worked for it, and I always went to bat for the underserved and unserved populations regardless of what culture they came from, so I'm just saying that today to put it on your mind; I've been healed. When I got myself healed receiving psychiatric services, I come from a Christian family, but God is God, spirituality, but mental health services helped me heal so that I could function and take care of my children and my family and going on to live my life and be productive. So what I want to leave with you today is, hurt people hurt people; healed people heal people. I would love to see healing in West County, knowing that I was a part of Prop 63 that was turned into the MHSA.
Karen: The Chair of the Mental Health Commission, Duane Chapman, is not here today because he is ill, just so you know, Duane is the Chair. He has a really big heart for West County. He really is very sorry that he is not here. There are vacancies on the Commission.
Gina: We have a seat in West County that could be filled by someone. Oh, and there's other parts of the County that are missing, too.
Barbara: So I have a question. Are there any other recommendations? This is the final call for Commissioners to pull out recommendations from these last comments that we have heard. Now that we've had additional public comment, whether there are recommendations, additional recommendations that any Commissioner would like to make to address these comments if they have not already been addressed by

recommendations that they have made so far.
Gina: It is my understanding that we got a grant for crisis intervention, and it was supposed to go.
Barbara: Is this a recommendation?
Gina: It's a recommendation.
Karen: From what was already said, there was not any comment about crisis intervention here today.
Lauren: Do we need a motion to close the meeting?
Barbara: Lauren, I was just giving Commissioners an opportunity for any final recommendations based on what was just said. I wanted to make a recommendation, speaking to your point, and it's going to be hard for me to articulate, I think, but, that we look at what is happening in our jails in terms of how those who are incarcerated who are mentally ill, how they are released back into the community with adequate medication, and it being provided in a timely way and being tracked, and that we look at ways to support their transition in terms of employment. Lauren, would you please make a motion, since I think you know which motion we need to make?

- Lauren: I move that we as a Mental Health Commission have done our duty to listen to the public comments and to give our own comments to the Behavioral Health Administration so that we complete our duties as required under the Mental Health Services Act. Gina seconded the motion.
  Discussion: No further discussion.
  Vote: By a unanimous vote of 8-0-0, the Mental Health Commission voted to forward all recommendations to the MHSA division of Behavioral Health for answers and incorporation into the plan.
  Ayes: (8)Candace, Doug, Diana, Tess, Lauren, Barbara, Gina, Sam.
  Nays: (0)
  Abstain: (0)
  Absent: (3) Peggy, Duane and Greg (who left the meeting prior to the vote)

Contra Costa Mental Health Administration Responses to Public Comments, Public Hearing/Mental Health Commission Comments and Recommendation

PUBLIC COMMENT – The following is a summary of the 23 written comments received during the 30-day comment period.

a. Comment. West Contra Costa County residents, particularly children, youth and families, experience a disproportionate level of trauma due to gun violence. We want increased behavioral health care and wrap around services in West County, to include urgent care, after hours psychiatric emergency services, and a quick, coordinated first response between community and professional staff. We want to ensure that West County trauma survivors have access to high quality, innovative and culturally appropriate services that fit the needs of people impacted by trauma.
b. Comment. There is a need for crisis intervention in West County after a tragedy has occurred in a community where there are witnesses to that tragedy. There is no help for the witnesses seeing the tragedy. There is no follow-up help either. There should be a place for community healing, support and referral out for professional mental health services.
c. Comment. We would like to have a mental health crisis team in West County to come out following a traumatic event. Many of my African American family members have been victims of violence, and not much in the way of services have been offered.
d. Comment. Many of my friends were shot and killed. The doctor that I saw treated me like I was a bad person. We need services for African American folks, and need to be viewed as human beings.
e. Comment. We want to eliminate barriers to accessing existing behavioral health services, and increase education, training and outreach to West County.

Response. We agree that Contra Costa Behavioral Health Services (CCBHS), to include MHSA funded programs, should be part of a quality mental health response to traumatic violence experienced by the community. Starting in July, all of our Prevention and Early Intervention programs who provide outreach and engagement to at-risk and underserved populations will be required to provide access and linkage to mental health care. There are several programs in Western Contra Costa County who are responsive to at-risk youth, as well as provide culturally relevant programming specific to racial/ethnic groups, such as African American, Native American, Hispanic and Asian Americans. Moving forward we are working to strengthen the partnership between these programs and our mental health clinics where more intensive treatment is available. Also, we are currently in the process of planning to train and certify a number of our mental health professionals to offer Mental Health First Aid training to community groups who have a special interest in responding to trauma events. A component of the training will be strengthening the ability to identify the need for more intensive mental

health care as well as the ability to connect individuals to the right resources. We are anticipating that Mental Health First Aid Training will be available sometime this fall. Contra Costa Behavioral Health Services recognizes the importance of making the system of care trauma-informed. Accordingly, CCBHS will be offering a Trauma-Informed Systems training in May. Additionally, CCBHS participates in the Bay Area Trauma-Informed Regional Collaborative which has developed plans to regionally coordinate trauma-informed practices, knowledge, and approaches. Finally, CCBHS has implemented several programs specifically targeting clients who have experienced trauma, including Trauma-Focused Cognitive Behavioral Therapy for children and Trauma Recovery Group for adults.

f. Comment. I am a homeless African American from West County. We need more homeless, crisis and mental health services specifically for African Americans. We need our own people to help us.
g. Comment. Mental health and addiction treatment for our youth and families matters, and should be reflected in the upcoming budget.

Response. Contra Costa Behavioral Health Services has been working to integrate its Alcohol and Drug Abuse Services, Housing and Homeless Services, and its Mental Health Services into a unified team approach for individuals with addiction, housing and mental health service needs. The MHSA Community Services and Supports component has several Full Service Partnership Programs that are regionally based, and field multi-disciplinary teams specific to the mental health, substance abuse and housing supports needs of children, youth, adults and older adults experiencing serious mental illness.

h. Comment. Doctor's Hospital closed and citizens in Richmond do not get the same services when in crisis, and are not treated the same as in Central or East County.
i. Comment. We want expanded children's in-patient psychiatric beds and more beds to provide mental health services for youth who would otherwise enter the criminal justice system.

Response. The closing of Doctor's Hospital in San Pablo and its emergency services effectively reduced the number of primary care hospital beds and emergency response for residents of West County. However, Doctor's Hospital did not offer in-patient psychiatric care or psychiatric emergency services. Contra Costa County, as do other counties, competes for a very limited number of in-patient psychiatric beds, especially children's beds. Often children are sent to facilities located in other counties, or in some cases other States, many at quite a distance from Contra Costa County. This issue is being studied by the County for potential solutions. Unfortunately, the Mental Health Services Act requires funds to be specifically earmarked for voluntary mental health

services provided in the community, and are not a resource for ongoing support of locked psychiatric facilities.

PUBLIC HEARING COMMENTS

a. Comment. I am a resident of Richmond. I'm a Director of Mental Health in Men and Women of Purpose, and I'm part of the group that we have developed in Contra Costa for Mental Health First Aid. We would like to advocate for more services in West County. The reason why we advocate – that's not the only job that I cover. I worked on different jobs, and I worked at John George as a milieu therapist and Telecare, so I'm quite sure everybody here is quite familiar with that environment. So I'm right on the front line on observing mental health on a day-to-day basis. So West County is so deprived of the services needed, because we've had a series of different events that have occurred over the past couple of months and more likely it's directed toward mental health. We want to increase the behavioral health care and wraparound services for West County for trauma victims to assist them from the first line with a crisis unit team. We want to offer a series of different beds to be offered. We would picture four beds that would be offered in a type of way that could help them with detoxification. And it's a long list of things that we really have to offer, but this is the main priority, that the West County services are really depleted, as most of the services are out here. If someone is in West, they have to go to John Muir. By that time, the psychiatric disorder has been probably covered up a lot of different areas. So we as this group are really trying to work hard to solicit funds to assist us with these series of different projects that's about to occur.

b. Comment. I am, as well, part of a coalition that is from West County that is here to advocate for services for our West County community. I currently work in the housing arena, work in public housing, and many of you in the East and Central community may not know, but we have had an uptick in violence in our community, and I work on a property where it was that we've had gunfire that has happened quite a lot over the last seven to eight months, and that's when it is I came on board to start looking into what was available for mental health. And it was a travesty, that there were no emergency response services available. We ended up having to come and do on-site with residents mental health support. It was not without looking into the school system, looking into the police department, even looking into the County. There was no one there. So I'm not talking about what I heard; I'm talking about what outreach was done by me to look for services. So as a result, I have participated in Mental Health 101 training myself. I have brought some other people in. We are really clear that we have trauma issues that are happening, not only with adults and children, unaddressed, that the resources to come into our community are not available in the way that they should be, and this has been an ongoing condition. The disproportionate amount of money that comes to West County versus goes into other areas of the County, my research says this has been going on for way too long. So we've got issues of trauma; we've got issues where it is that we need additional beds for adults and children. The one really serious point of fact I was given is the number of beds - that there are 80 beds in the State of California, hospital beds for behavioral health. We need some more beds in the county. I

heard a number mentioned about how much money was spent in behavioral health and what's proposed. I can't even believe it. I can't even believe the amount of money that was just quoted that is going to be spent in 16-17 and know about kids hitting the deck traumatized and can't get services in West County. So we have made some proposals about some things that need to be changed, and your budget is not reflecting right now with what I've heard. I will look through it, but it's not reflecting responding to emergency needs, emergency trauma, beds, alcohol and drug recovery beds, beds for children. It's not reflecting that for our West County residents. I hear this word, "consumers". Who are you talking about? You meet with the coalition, we've got about eight or nine people here, we can let you know what the depravity of the consumers in West County really looks like.

c. Comment. I, too, am a part of this coalition in Richmond that has come here tonight to advocate for more funds around mental health and the trauma that is seen. I helped to coordinate the cease-fire efforts in Richmond along with the Richmond Police Department, and I understand that there are some conversations about having some cease-fire out in East County as well. When you have children and youth whose lives over the past ten years have seen nothing but crime and gun violence in their areas, there's some residual effects, and there are some by-products of that. I don't know if any of you have ever been around gunfire, but it is traumatizing. My family and I moved away for quite some time. I grew up in Richmond area, but I moved away. The ministry took me away. I'm a pastor as well. The ministry took me away for about 19 years, and upon my return, I moved back into my family's home, and we weren't there two months before a young man was killed in the Eastshore Park area, just right down the street from my house. Well, my children were privileged, so to speak. They were sheltered in a parsonage in Birmingham, Alabama, in Jacksonville, Florida and in Riverside, California. Those were places where I pastored and moved across the state as an itinerant pastor. They had never experienced anything like that. And I saw my own children come to bed at night with earplugs in their ears because they did not want to hear that. And they were traumatized, would not want to go outside and play. We do advocate for more. It's really a sad commentary to only have 80 beds for traumatized kids across the State of California. It is really a bad commentary to have to see all of the moneys that are going throughout the County and none is in West County for this very dismal amount. So we are here tonight to just say, "Please consider West County as you are doing your budget."

d. Comment. Being an ex-employee for Contra Costa County Mental Health, I used to work for the Office for Consumer Empowerment. I basically helped develop services under MHSA, and I read about care providers where people are already accessing services, and it's evident that West County does not have those services. So I guess there still won't be providers sent to West County. When I went out years ago, took Target cards and Safeway cards into all the communities in West County to get information about the unserved and underserved population, African-Americans and Latinos came up. Shortly after, all of that disappeared. I don't know where the funding went. I'm still an advocate in West County. I lost two of my

fiancés to homicide in West County. But just speaking here today and letting you know that when you talk about providing more cultural competency training to include training for language interpreters, it's not just about language interpreters; it's about people who have been traumatized in a community and just remembering a training that I went to, and I did a skit where someone called me and someone had gotten murdered, because that's the norm in my community. After the training the trainers came to me and said I scared some of the participants. Now, most of the participants were Europeans and other cultures, probably two were African-American, and I'm saying to myself, "How can you do this job effectively if you're afraid of what's really going on in these people's lives?" So I want to say here today, I'm still advocating for people in West County for different services, and you talk about Psychiatric Emergency Services being overcrowded. Of course, PES is overcrowded, because you closed down our hospital in West County, and then your priorities are taking money that was reserved from AB109 to expand the jail for mental health services? Get your priorities straight, West County, because this is a very diverse community.

e. Comment. I am a Board Commissioner for Contra Costa County District 1 on AOD, and I'm just here as a community person who lives in West County. So my title doesn't mean anything when I watch my people suffer - when y'all get paid and they get played. I grew up in Richmond; I've been there 45 years. I am dual-diagnosed. My mother sent me to Beaumont, California, for me to get services, because there were no services. I'm talking about when I was a kid. My mother was able to get me to a diagnostic center in San Francisco, and for those who've been around here, you know about the diagnostic center. And I come from a Black rural area, and I was the only Black kid in that hospital getting some services. Our people don't have that opportunity now. They're stuck in a facility where the boards are facing inside, not out, so they can keep you in and not let anybody else come in. So the mindset of our community is, so what? So when I got these calls around these kids getting shot, I went personally as a Board member, saying, "What's all that?" They tell me Rubicon. Rubicon hasn't had any mental health services in years. They're saying, "These people have it." When I found out who really had that money, it was all given to RYSE. RYSE does not come to the 'hood. They just don't. When they called us, I said, "I don't know what you'd like to do, but you need to go do exactly what I do. These kids and families need help now." And so we've been in there doing what we do, and that's how this coalition got started, because you know what? We're tired of getting played. We're tired of seeing y'all got something over there and we don't have a hospital. I had a young man get shot right around the corner from my house and died, getting into the helicopter. When the helicopter got ready to land, it kept on going, because he died. He got shot right around the corner, 15 steps from my front door. Another young kid who got shot on the pathway was homeless, a 14-year-old kid homeless, got shot in the face. I had to go to the funeral. So I'm telling you what I deal with. Y'all are sitting here in your chair and go wherever you want to go, but when you come to the 'hood, it's real. It's real in the 'hood; it's real in West County. They don't save blood, they spill blood, and my kids are the trauma victims of this. Absence of their families, their loved ones, the negative impact of

conversations that go on, and my kids have got to be nurtured not to think in that same mindset and lifestyle that they have been living in. Because there is a way to get a second chance at a first-class life.

f. Comment. I am with the coalition team. The main thing is, I'm a mental health patient and I need help. I tore my knee, and about nine months after that, they closed down the hospital. I have been trying to get SSI and all kinds of things. And from that, I have no answers. I have been denied, and I'm upset. It's not about me, but it's about my community. There's nothing in Richmond that can help us. There is no hospital. If a young man or women, or even an older person, gets hurts or gets in danger or is in critical need, they have to go 15, 20, maybe 25 miles to get medical services. That is not tolerated. Do we not matter? Are your priorities in order? That's the question. We need mental health services in West County; not in San Ramon, not in Concord, but West County.

g. Comment. I am a lifelong resident of Richmond and work in law enforcement. I am part of the coalition. One of the things that we see frequently when there is an uptick in violence is children being affected by violence. I don't know how many times I have talked to a mother who had to bury their teenage child, and there were a whole group of other children who witnessed the violence. Our officers go and respond to the scene, but we don't offer mental health services. We have the Mental Health Emergency Team that can help with those kinds of things, but the emergency or the urgent care wraparound services, somebody to be able to talk to that family and work with that family immediately, to work with those children immediately, is direly needed. It's no different than the way domestic violence used to be. We think about these things differently, in that in that first 48-72 hours, that's a critical moment, and right now, if they are signed up for health care they might wait a month to see somebody. I can't imagine someone seeing someone shot, which I have seen, and waiting a month to be able to see or get some emergency services. This is something that's really desperately needed in our communities. It's something our officers see every day. We send our officers to get health care because they have post-traumatic stress from going and responding to those scenes. They're professionals, so of course they have to deal with their job, but these are people who are living around it every single day and seeing it every single day. It's important for behavioral health to be in West County because these are children who need the services. And it's important that we say not just mental health, but behavioral health, because it's the self-medicating. We've gone out on street corners with our clergy as part of our Cease-Fire Partnership, and you see people drinking out of liquor bottles. Why? Because they're self-medicating. And a lot of times we don't think of that as a real issue with behavioral health, but it most certainly is. So I just ask you, think about your own children, think about the things that you face when you go home, and if it's anything less than what we want for our own children, then it's impetus upon us to change it if we're in policy positions or positions of change to make a difference.

h. Comment. Another name for MHSA is the "millionaire's tax." If there ever was a

time we need another millionaire's tax, it's in this very polarized economy that we have here today. What we need is another millionaire's tax that will fund more homes for very low, and moderate income people, particularly in West County or East County, where the problem is really severe. Right now it's funded partly by in-lieu fees on apartments and condos, and also the Interfaith Council of Churches lending or giving money for affordable housing. Nowhere is it near enough. So I would suggest that we lobby for another millionaire's tax devoted to solving the homelessness problem. Because when we solve the homelessness problem, I think we will cut down on the violence in these communities in West County and East County and other parts of the county.

Response. The above individual comments at the Public Hearing were provided by the same individuals who submitted written input during the 30 day Public Comment period. The issues raised in both venues are consistent with each other. Therefore, Behavioral Health Administration's responses to the issues summarized for the Public Comment period also apply to the Public Hearing comments.

MENTAL HEALTH COMMISSION COMMENTS

Upon completion of the Public Comment period the Mental Health Commission provided individual comment and discussion. A summary of the topics are as follows:

- All programs listed in the MHSA Plan should have outcomes listed.

Response. All MHSA funded programs that generate reportable outcomes are listed in the Plan Update. However, many MHSA funded plan elements that supplement non-MHSA funded programs, such as county operated clinics, do not list outcomes, as the MHSA funded portion of the program is only one element of the varied programing contributing to program outcomes.

- All MHSA funded programs should generate as much federal financial participation as possible, such as Medi-Cal and Federally Qualified Health Center reimbursement. These funds should then be returned to the County's budget for mental health.

Response. The County generates as much federal financial participation as possible, and all of these reimbursed federal dollars are utilized to support balancing the mental health budget.

- Reported outcomes for our Full Service Partnership programs are far from perfect. How do they compare with other counties in the state?

Response. The last published report on statewide outcomes for Full Service Partnership programs indicate that Contra Costa County's Full Service Partnership programs met or exceeded the statewide average for partners who met their goal at discharge, decreased arrests, decreased mental health or substance abuse emergency events, and decreased psychiatric hospitalizations.

- Take a look at the Plan Update amounts budgeted for the augmented board and care versus the Board Orders. There seem to be discrepancies.

Response. Budgeted amounts for augmented board and care contracts are dynamic in nature, as they are adjusted during the year due to bed availability. However, the FY 16-17 budget amounts have been adjusted to reflect as closely as possible projected expenditures for the upcoming year.

- Some years ago stakeholders supported the construction of a psychiatric hospital facility via the MHSA Capital Facilities component. However, this was not implemented. We should re-visit this, as we are sending many of our consumers out of the county.

Response. This concept was not funded at the time because stakeholders recommended prioritizing building the George Miller Wellness Center and the Hope House. The upcoming MHSA Three Year Community Program Planning Process will be considering support for new capital facility projects, as projects such as these need a more extended feasibility study period.

- We should also consider purchasing the latest technologies that provide reasonable accommodation for individuals who have visual difficulties with normal print size.

Response. The upcoming MHSA Three Year Community Program Planning Process will be considering support for new Information Technology projects. For this fiscal year all Information Technology funds are projected to be spent on the completion of the Electronic Mental Health Record Project.

- I am concerned that people who experience mental illness and also have a substance abuse disorder are categorically ruled out because mental health programs won't treat people who are using alcohol and/or drugs, or drug and alcohol programs won't treat substance abuse disorders with concurrent mental health problems. It is very dangerous for people taking medication for their mental illness who also use alcohol and/or drugs to self-medicate.

Response. The Behavioral Health Administration shares this very legitimate concern, and is working toward eliminating this bias as part of program development within behavioral health services. The supported model is a multi-disciplinary team approach where health care, mental health and drug and alcohol issues are treated at the same time.

- We would like to know a lot more about the amount that is unspent from previous years; how much is it, what can it be spent for, how is this decided?

Response. The Consolidated Planning Advisory Workgroup is planning to study this issue in detail in the upcoming months as preparation for the Community Program Planning Process for the new MHSA Three Year Plan. Mental Health Commission members are most welcome to participate in this study. The Plan Update provides a conservative estimate of funds available in the Budget Chapter. However, a more precise amount will be available as the current fiscal year ends. Both the Workforce Education and Training and the Capital Facilities/Information Technology components are projected to fully utilize all available funds, and thus program decisions and funding amounts for these components will need to be determined for the new Three Year Plan.

- How are we assessing progress, what are our benchmarks and success criteria for the Epic Tapestry implementation, and what will the remaining funds be specifically targeted for?

Response. The Epic Tapestry project utilizes a detailed, ongoing progress report format that matches time line to deliverables. Participating staff report on a regular basis to various entities, to include a monthly update to the Consolidated Planning Advisory Workgroup (CPAW)'s System of Care Committee. As of April 11, the Epic Tapestry pilot went live, to include testing Customer Relationship Management, Referrals/Authorization Management, Accounts Payable, In-Basket Messaging, and a Provider Portal. These systems will be tested by over 125 users in the Access Care Management Unit, Adult and Child Mental Health Clinic Rapid Access Teams, Mental Health Administration, Patient Accounting, Patient Financial Services, and over 240 external Network Providers. Remaining MHSA funds earmarked for this project will be utilized to complete this pilot and to support expanding this application module within Epic ccLink to the entire Contra Costa Behavioral Health System.

MENTAL HEALTH COMMISSION RECOMMENDATION

The Mental Health Commission thanks all those present today for their participation in the review of the 2016-2017 MHSA Update of our three year plan. This hearing fulfills the Commissions duties under the Mental Health Services Act requirements. The Commission directs that all recommendations made at this hearing be addressed in the Updated Plan submitted to the Board of Supervisors for adoption.

Response. The Behavioral Health Services Administration appreciates the support provided by the Commission to collaboratively comply with Welfare and Institutions Code (WIC) Section 5848(b); namely, to conduct a public hearing on the draft MHSA Three-Year Program and Expenditure Plan Update, and to respond to any substantive recommendations for revisions provided during either the thirty day comment period or public hearing.

Subject: Reimbursement Resolution for a Multifamily Residential Rental Housing Development in Antioch

RECOMMENDATION(S):

ADOPT Resolution No. 2016/389 conditionally providing for the issuance of revenue bonds in an aggregate amount not to exceed $50,000,000 to finance the acquisition, construction and rehabilitation of Delta Courtyard Apartments, a multifamily residential rental housing development, located at 701 Wilbur Avenue and 810 Wilbur Avenue (APNs 065-110-007 and 065-110-006) in the City of Antioch, California (the "Development"), and approving related actions.

FISCAL IMPACT:

None. In the event that the bonds are issued, the County is reimbursed for costs incurred in the issuance process. Annual expenses for monitoring of Regulatory Agreement provisions ensuring certain units in the Development will be rented to low income households are accommodated in the bond issue. The bonds will be solely secured by and payable from revenues (e.g. Development rents, reserves, etc.) pledged under the bond documents. No County funds are pledged to secure the bonds.

BACKGROUND:

Contra Costa County, through the Department of Conservation and Development, operates a multifamily mortgage revenue bond financing program. The purpose of the program is to increase or preserve the supply of affordable rental housing available to low and very low income households. The County program may be undertaken within the unincorporated County and within the cities located in the County that have agreed to let the County operate the program in their jurisdiction.

BACKGROUND: (CONT'D)

>

Pacific West Communities, Inc. (the "Sponsor"),requested to participate in the County's multifamily mortgage revenue bond financing program. The Sponsor proposes to form a new limited partnership with a to-be-named tax credit investor as a limited partner to develop the facility. The proposed development meets the eligibility criteria for bond financing and the County policy for this program. The proposed development consists of a 126 unit multifamily rental housing facility located on two parcels at 701 Wilbur Avenue and 810 Wilbur Avenue (APNs 065-110-007 and 065-110-006) in the City of Antioch, California.

A requirement of federal tax law is that the prospective financing be subject to a conditional statement of intent to issue bonds to reimburse expenses incurred prior to the date the bonds are issued, i.e. a reimbursement resolution must be adopted by the Board of Supervisors. Also, the California Debt Limit Allocation Committee, that allocates tax-exempt bond authority to the bond issue, requires that a reimbursement resolution be adopted before an application may be made for such an allocation. The adoption of a reimbursement resolution will not obligate the County or the owner without future discretionary actions, but will indicate the intent of the County to issue the bonds if all conditions in the reimbursement resolution have been satisfied .

CONSEQUENCE OF NEGATIVE ACTION:

Without the reimbursement resolution, the Sponsor will not be able to commence with the process of applying to the California Debt Limit Allocation Committee for multifamily housing revenue bond authority through the County.

Resolution No. 2016/389

Resolution of the County of Contra Costa Setting Forth the County's Official Intent to Issue Revenue Bonds to Finance a Multifamily Residential Rental Housing Development – Delta Courtyard Apartments

WHEREAS, the Board of Supervisors of the County of Contra Costa (the "County") has determined that there is a shortage of safe and sanitary housing within the County, and that it is in the best interest of the residents of the County and in furtherance of the health, safety and welfare of the public for the County to assist in the financing of multifamily rental housing developments; and

WHEREAS, pursuant to Division 31 of the Health and Safety Code of the State of California, and particularly Chapter 7 of Part 5 thereof (the "Act"), the County is empowered to issue and sell revenue bonds for the purpose of making mortgage loans or otherwise providing funds to finance the acquisition, construction and rehabilitation of multifamily rental housing, including units for lower income households and very low income households; and

WHEREAS, Pacific West Communities, Inc. has requested that the County consider the issuance and sale of tax-exempt revenue bonds (the "Bonds") pursuant to the Act for the purpose of lending the proceeds thereof to Antioch Pacific Associates, a California Limited Partnership (the "Borrower"), to finance the acquisition and construction by the Borrower of a 126 unit multifamily rental housing facility to be located on two parcels, including one at 701 Wilbur Avenue and one at 810 Wilbur Avenue (APNs 065-110-007 and 065-110-006), each in the City of Antioch, California, currently identified as Delta Courtyard Apartments (the "Development"), to be owned by the Borrower and to be operated initially by US Residential Group, LLC (USRG), or another entity selected by the Borrower; and

WHEREAS, Pacific West Communities, Inc. has requested an expression of the Board of Supervisors willingness to authorize the issuance of the Bonds at a future date after the documentation relating to the financing has been prepared and completed, and the County's requirements for the issuance of such Bonds have been satisfied; and

WHEREAS, the Board of Supervisors now wishes to declare its intention to authorize the issuance of the Bonds, provided certain conditions are met, for the purpose of financing costs of the Development, in an aggregate principal amount not to exceed $50,000,000.

NOW, THEREFORE, BE IT RESOLVED, by the Board of Supervisors of the County of Contra Costa as follows:

Section 1. The Board of Supervisors hereby determines that it is necessary and desirable to provide financing for the Development pursuant to the Act by the issuance of the Bonds in an aggregate principal amount not to exceed fifty million dollars ($50,000,000). The issuance of the Bonds shall be subject to the following conditions: (i) the County by resolution of the Board of Supervisors shall have first agreed to acceptable terms and conditions for the Bonds (and for the sale and delivery thereof), and for an indenture and all other agreements with respect to the Bonds; (ii) all requisite governmental approvals for the Bonds shall

have first been obtained; (iii) the Bonds shall be payable from revenues received with respect to a loan to the Borrower made with the proceeds of the Bonds, and neither the full faith nor the credit of the County shall be pledged to the payment of the principal of or interest on the Bonds; (iv) any occupancy and other requirements of the Internal Revenue Code of 1986, as amended (the "Code ") are satisfied or otherwise provided for with respect to Bonds, the interest on which is intended to be excluded from gross income for federal tax purposes; (v) any occupancy and other requirements of the Act with respect to the Development are satisfied or otherwise provided for; and (vi) any occupancy and other requirements of the County applicable to the Development are satisfied or otherwise provided for.

Section 2. The Chair of the Board of Supervisors, the Vice-Chair of the Board of Supervisors, County Administrator, the County Director of Conservation and Development, the County's Assistant Deputy Director of Conservation and Development, the County's Community Development Bond Program Manager, County Counsel and the other officers of the County are hereby authorized and directed to take whatever further action consistent with this Resolution may be deemed reasonable and desirable, including participating in the preparation of any resolution, indenture, bond purchase agreement, official statement and/or other documents or agreements necessary or appropriate to effect the Bond financing, and any actions necessary to obtain an allocation of the State of California's private activity bond volume cap for the Bonds under Section 146 of the Code and Section 8869.85 of the Government Code, including obtaining a deposit from Pacific West Communities, Inc. or other representative of the Borrower and submitting an application for such volume cap to the California Debt Limit Allocation Committee, all to the extent required for the issuance of the Bonds.

Section 3. It is the purpose and intent of the County that this Resolution constitute a declaration of official intent to issue the Bonds for the Development for purposes of Sections 103 and 141 to 150 of the Code. The County reasonably expects that certain costs of the Development will be reimbursed with proceeds of the Bonds for expenditures made prior to the issuance of the Bonds.

Section 4. This Resolution shall take effect immediately upon its passage and adoption.

RECOMMENDATION(S):

CONTINUE the emergency action originally taken by the Board of Supervisors on November 16, 1999 regarding the issue of homelessness in Contra Costa County.

FISCAL IMPACT:

None.

BACKGROUND:

Government Code Section 8630 required that, for a body that meets weekly, the need to continue the emergency declaration be reviewed at least every 14 days until the local emergency is terminated. In no event is the review to take place more than 21 days after the previous review.

On November 16, 1999, the Board of Supervisors declared a local emergency, pursuant to the provisions of Government Code Section 8630 on homelessness in Contra Costa County.

With the continuing high number of homeless individuals and insufficient funding available to assist in sheltering all homeless individuals and families, it is appropriate for

RECOMMENDATION(S):

ACCEPT and APPROVE the following Employment and Human Services Department (EHSD) title and subject changes to Family and Human Services (FH&S) Committee referrals:

1. Eliminate the "Office of the Future" report from **Referral #44 - Challenges for EHSD** and expand the referral to include the "Continuum of Care Reform (Foster Care)" topic; and
2. Reduce the frequency of **Referral #108 – Call Center Oversight and the Health Care Reform Update** from biannual to annual and eliminate the referral after June 30, 2017; and

4. Refer a new report regarding the **"impacts of technology on access to public benefits"** to the Employment and Human Services Department so that the Family and Human Services Committee and the Board of Supervisors can receive annual updates on the department's reworking of its business processes and development of technologies to make remote access of public benefits more common; and

RECOMMENDATION(S): (CONT'D)
>

5. Expand **Referral #110 – Innovative Community Partnerships** to include the subject of "Whole Family Services".

FISCAL IMPACT:

No Fiscal impact.

BACKGROUND:
The department has been reworking business processes and developing technologies through the "Office of the Future" model and reporting on this model through the Family and Human Services Committee's Referral #44 (Challenges for EHSD) to the full Board. However, the department's approach to developing technologies has changed and believes that this subject would be better suited as its own referral, as stated in the fourth recommendation of this board order. Rather than having FH&S Referral #44 focus on technologies, the department would like to keep FH&S and the Board informed on foster care system reform that has shifted its focus to family and relative care and will have significant impacts and pose challenges on the Employment and Human Services department. Therefore, the department is requesting to eliminate the "Office of the Future" report from Referral #44 - Challenges for EHSD and expand it to include "Continuum of Care Reform (Foster Care)".

Currently F&HS Referral #108 – Call Center Oversight and the Health Care Reform Update is a biannual report. In May, EHDS received notification from the State that the California Health Benefit Exchange contract would not be renewed after June 30, 2017, the contract's current termination date. Additionally, Health Care Reform has leveled off and the department is preparing for this year's open enrollment period, which begins in October. The department will not be able to provide any new information until after the open enrollment period ends and complete data is available. Therefore, the department is requesting to reduce the frequency of F&HS Referral #108 – Call Center Oversight and the Health Care Reform Update to annual for 2016 and eliminate the referral after June 30, 2017. Should significant matters come up while the department works collaboratively with the State and other County departments on the ramp down of the Contra Costa County Covered California Call Center, the department will be sure to report to F&HS and the full Boards timely as appropriate and warranted.

The department is requesting to expand Referral #93 – Independent Living Skills Program to include additional youth services updates and retitle the referral to "Youth Services Report", so that the department has the opportunity to report on all youth services offered in the community through EHSD, including Workforce Investment and Opportunity Act (WIOA) and CalWorks youth services.

Although the department has requested to eliminate "The Office of the Future" from referral #44, it recognizes that it will continue to rework its business processes and development of new technologies. Therefore, the department is recommending a new referral to F&HS, regarding the "Impact of Technology on Access to Public Benefits". As technology evolves and our clients each year are younger users of mobile devices, EHSD will continue to identify and implement effective technologies that make remote access of public benefits more common.

And lastly, the department is requesting to expand Referral #110 – Innovative Community Partnerships to add "Whole Family Services". This major EHSD initiative refocuses our client-facing benefit eligibility staff to assess the status and needs of the "whole family" while they are also determining benefit eligibility. Key to this is working with community partners to form a network of family resource centers in current place-based centers such as SIT and SparkPoint sites, Family Justice Centers, First 5 centers, et al.

CONSEQUENCE OF NEGATIVE ACTION:
Some Family and Human Services Committee referrals will not be up-to-date with legislative, programmatic and operational changes that impact the Employment and Human Services Department.

Subject: Authorization to Release Funds from the County Fish and Wildlife Propagation Fund to Host the 16th Annual Fall Forum

RECOMMENDATION(S):

1. APPROVE and AUTHORIZE the Fish and Wildlife Committee to host the 16th annual Fall Forum event for law enforcement agencies to discuss fish and wildlife conservation and enforcement of fish and wildlife regulations in Contra Costa County.

2. AUTHORIZE and REQUEST the Auditor-Controller to release an amount not to exceed $2,000 from the Fish and Wildlife Propagation Fund for costs associated with hosting the 16th annual Fall Forum.

FISCAL IMPACT:

No impact to the General Fund. A portion of the fines collected from violations of fish and game regulations in the County is deposited in the Fish and Wildlife Propagation Fund (Fund), which as of May 24, 2016 has a current available balance of $244,741. State law defines how money in this fund may be spent. The Board of Supervisors is responsible for authorizing specific expenditures. The recommended expenditure is for the purpose of education and outreach on wildlife protection issues, which is consistent with the criteria for expenditures established by the State Law. Donations of items and time have also been obtained to help defray the cost of the Fall Forum.

BACKGROUND:

A specific component of the Fish and Wildlife Committee's (Committee) charge is to advise the Board of Supervisors on issues related to the enforcement of regulations protecting fish and wildlife. Since 1997, the Committee has received quarterly reports with summary and detailed information on the issuance and prosecution

of citations for offenses such as poaching, fishing without a license, and illegal disposals. The Committee has participated in a number of discussions with law enforcement agencies on the challenges and needs for protecting wildlife resources from illegal activities. The annual Fall Forum event has become a successful means for improving coordination of enforcement issues and providing information on the valuable fish and wildlife resources in the County. The first Forum was held in 1999. Participants have indicated these events have been helpful in providing a forum to identify opportunities for cooperatively improving the regulatory process to protect fish and wildlife. Participants see the value in the grants funded by the Fish and Wildlife Propagation Fund which depends on proper enforcement of regulations for wildlife protection.

The Committee believes the annual Forum is a prudent use of funds that have been dedicated to protection of wildlife resources and recommends that the Forum be held again this year. Should the Board provide its authorization, the Committee intends to hold the event on Thursday, September 22, 2016 from 5:00 to 7:00 P.M. at the Martinez Sportsmen's Club in Martinez. Invited attendees would include representatives of the California Department of Fish and Wildlife, Sheriff's Department, District Attorney's Office, Superior Court, Public Defender's Office, and the East Bay Regional Park District Police. Board of Supervisors' participation would be most welcome. The event will be an open public meeting of the Committee subject to the Brown Act and Better Government Ordinance. Approximately 50 - 90 people have attended past Forums. Any interested individuals are welcome to attend. There is no charge to attend and enjoy the volunteer-cooked meal. Each year a guest speaker is invited to speak about the valuable natural resources in the County. There will be poster presentations given by recipients of grants from the Fund. San Francisco Estuary Institute staff will provide a feature presentation regarding the Lower Walnut Creek Historical Ecology Study.

On April 20, 2016, the Committee unanimously agreed to recommend that no more than $2,000 from the Fish and Wildlife Propagation Fund be used to cover any expenses that are not covered through material donations. This expenditure is consistent with Fish and Game Code Section 13103 (a), which provides that the Fish and Wildlife Propagation Fund may be spent on public education relating to the scientific principles of fish and wildlife conservation. Although the Sportsmen's Club is allowing the Committee to use their facility at no cost, there is a required $205 cleaning fee. All food preparation will be done by volunteers.

CONSEQUENCE OF NEGATIVE ACTION:
The Fall Forum would not be held or would be reduced in scope to require no expenditure.

Contra Costa County Grand Jury Report 1603

Pension Reform

If Not Now, When?

TO: BOARD OF SUPERVISORS

SUMMARY

Contra Costa County carries extremely large pension liabilities, which may get worse due to uncertainties in the financial markets. Because of a long-standing California legal precedent, pension benefits to be earned in future periods are not negotiable, while wages and other benefits are subject to negotiation during the collective bargaining process. This grand jury recommends that the County seek a change or clarification of this legal precedent in light of subsequent legislation, thereby clearing the way for fair and sensible pension reform through collective bargaining.

Absent such reform, the County faces serious financial risks, as pension liabilities appear to be on a relentless upward path. The likely consequences of increasing pension costs are service cutbacks and staff layoffs. It is even conceivable, should the pension cost problem reach crisis proportions, that the County would have to consider bankruptcy reorganization, with all the arbitrary and unfair consequences that could flow from such an action. For these reasons this grand jury believes the time to act on pension reform is now.

A Glossary of useful terms for issues discussed in this report can be found in the Appendix. Each term included in the glossary is set in *italics* the first time it appears in this report.

BACKGROUND

Defined benefit pension plans (such as the County's) are financed by means of funds invested on behalf of the individual members of the plans. Both individual members and their employers make contributions to the funds each year, ideally in amounts sufficient to pay for the pension benefits earned during that year. In addition to annual contributions to the pension funds, the funds' *investment returns* are retained and

reinvested for the benefit of the members and finance a major portion of the pension benefits. For example, the County's pension fund projects that investment returns on the fund's assets will cover more than 50% of the ultimate costs of the County's pensions. For defined benefit plans to work as designed it is critical that the annual contributions from members and employers plus investment earnings be sufficient to cover the projected future costs of the pensions. When these financial underpinnings to a pension fund fall short, the fund charges the public employer for the amount of the shortfall. These shortfalls, known as *unfunded actuarial accrued liabilities (UAALs)* have become significant debts for public jurisdictions throughout California—including the County--that offer defined benefit pension plans to their employees.

The Stanford Institute for Economic Research estimates that, as of year-end 2013, California public pension systems as a whole were short $281.5 Billion of what they require to assure the pensions will be paid when they fall due. This estimated shortfall amounts to about $22,210 for each household in California, without including the unfunded liabilities of one the largest pension funds, the California State Teachers Retirement System (CALSTRS). Paying down these unfunded pension liabilities is a major reason why pension costs have absorbed increasing percentages of county, city and state budgets over the last 15 years.

The state of California has taken some important steps to address these costs. In 2012, the governor signed into law the *PEPRA* (Public Employees' Pension Reform Act) reform bill, which made significant reductions in pension benefits to be earned by public employees hired after January 1, 2013. However, PEPRA made only modest changes in pension benefits earned by employees hired before that date. That was contrary to the recommendation of the state's Little Hoover Commission, which had warned in a 2011 report that limiting pension reform to new employees was not a sufficient remedy for the pension problem:

> "The problem, however, cannot be solved without addressing the pension liabilities of current employees. The state and local governments need the authority to restructure future, unearned retirement benefits for their employees. The Legislature should pass legislation giving this explicit authority to state and local government agencies. While this legislation may entail the courts having to revisit prior court decisions, failure to seek this authority will prevent the Legislature from having the tools it needs to address the magnitude of the pension shortfall facing state and local governments." (Emphasis added.)

In fact, overall pension costs have continued to rise since the enactment of PEPRA, though at a somewhat lower rate as more employees who were hired after January 1, 2013 enter the system. Thus, pension boards and public employers have continued to deal with rising pension liabilities by means of increasing pension contributions from members and their employers. For example, CALPERS, the state's largest pension plan, has announced plans to increase the contributions required by its members and their employers. The Contra Costa County Employees' Retirement Association

(*CCCERA*), the entity that manages the County's pension fund, effectively increased member and employer contributions in 2014 when it reduced the *assumed investment rate* on its pension fund assets from 7.75% to 7.25%. Member and employer contribution rates increase whenever the assumed rate of return on the pension fund is decreased, because actuaries must then assume that a smaller portion of the required funding for pension obligations will be covered by investment returns.

There are limited options for reducing pension-funding shortfalls:

1. Increasing contributions to the pension fund;
2. Reducing pension benefits;
3. Increasing investment returns on the assets of the pension fund.

The first two options have adverse financial impacts on one or more groups, which explains why pension reform is a difficult and contentious issue. Higher contributions from public employers come at a cost: they must be funded either by higher taxes or reduced public services; e.g., library or park cutbacks, reduced police patrols, longer medical and fire response times. Higher contributions from members mean lower take-home pay. Reductions in pension benefits adversely affect employees who view the pension benefit as an important element of their compensation for services rendered.

It is not surprising, then, that governments and plan members have often turned to higher investment returns as an apparently painless "magic bullet" to close the funding gap. Assuming a high rate of return on fund assets does not come at a cost to any group—at least initially--and does not require any reduction in benefits. However, employers and plan administrators have often made the unwarranted assumption that high investment returns will continue indefinitely. When returns inevitably fall below such unrealistic assumptions, the impact on pension liabilities is severe. In California the public employer (e.g., the County) is solely responsible for making up the shortfall.

The grand jury believes that funding for the pension liabilities the County and other districts have undertaken needs to be addressed realistically, without rosy assumptions about investment returns. Difficult as they may be, these issues must be addressed through adequate contributions to the pension funds, and by negotiations with labor groups over the levels of pension benefits to be earned in the future.

DISCUSSION

The County's Huge Pension Liability

The County has reported in its Recommended Budget for fiscal year 2016-2017 that it carried an unfunded pension liability of $1.155 Billion as of December 31, 2014. This figure also includes the unfunded pension liability of the Contra Costa County Fire Protection District (ConFire), which the County routinely includes in its pension liability reports. The unfunded pension liability is also known as the unfunded actuarial accrued

liability or (UAAL). It represents the amount of money the County has yet to set aside in order to cover employee pension benefits already earned that the County will be required to pay in the future. It also represents the amount by which the CCCERA pension fund is not fully funded with respect to the County's pension liabilities.

The money the County should set aside today to cover future pension benefit payments is actually much less than what the ultimate payouts will be, since any money contributed to the CCCERA pension fund should increase in value over time from investment returns. By the same token, the contributions held back from the pension fund do not accumulate any investment earnings that could reduce the UAAL. Unless the short-funded CCCERA pension fund can generate investment returns that exceed the 7.25% assumed annual rate, the County will have to make up the UAAL gap in the future by means of increased contributions to the pension fund. The County and ConFire also have outstanding over $329 Million in pension obligation bonds (POBs) that were issued in earlier years for the purpose of raising funds to contribute to CCCERA in order to reduce the County's UAAL obligations. Without the funds raised from the POBs, the County's pension UAAL would be substantially larger.

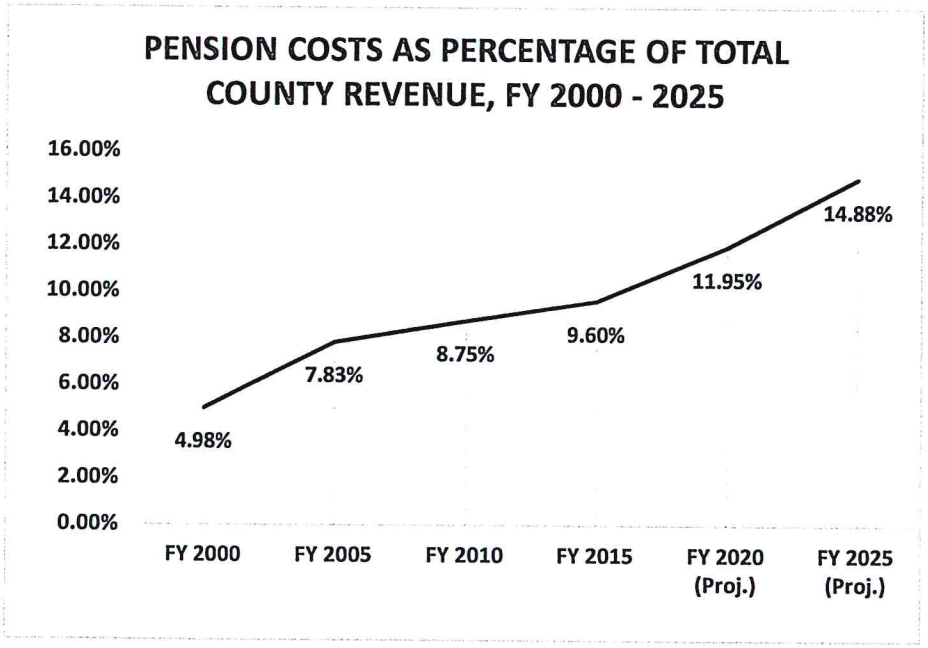
The $1.155 Billion unfunded liability figure is based on an *assumed investment rate of 7.25%* per year. CCCERA has assumed it will earn this rate of return each year on its pension fund, compounded over the entire period the County's employees are working or receiving pension benefits. However, many financial analysts question whether the 7.25% annual return assumption in today's investment environment is realistic. Private employers typically assume a much lower rate when calculating their liability in a defined benefit pension plan. AT&T, for example, discloses in its 2014 Annual Report that it assumes a compound rate of return on its pension fund assets of 5.75% per year. In CCCERA's own case, its actuary discloses in the latest actuarial report that the CCCERA pension fund has over the ten-year period ended December 31, 2014 earned an average annual return of 6.58%, rather than its currently assumed rate of 7.25%.

The County's comprehensive annual financial report (CAFR) for the fiscal period ended June 30, 2015 contains a vivid illustration of the importance of the assumed investment rate in calculating the size of the County's unfunded pension liability. The CAFR reports its net unfunded pension liability to CCCERA as $925 Million instead of $1.115 Billion, due to certain timing differences. However, the CAFR also discloses that the unfunded pension liability would increase to $1.8 Billion in the event this liability was calculated using an assumed investment rate of 6.25% per year. Thus, in an inherently uncertain financial environment, a change of only one percent per annum in the rate of return would nearly double the size of the County's unfunded pension liability!

The County's $1.155 Billion unfunded pension liability well exceeds the $539 Million it spent on public protection services in its 2015 fiscal year as well as the $445 Million it spent on public assistance during that year. However, the unfunded pension liability is not due immediately. Under the *UAAL amortization policy* adopted by CCCERA, the County is permitted to treat the unfunded liability as a long-term debt payable over a

period of 18 years.

The County's annual pension costs consist of its employer contributions to the "*normal costs*" of the pension benefits earned each year plus its amortized payment on the UAAL. The annual pension costs are a large and growing percentage of the County's total budget. During the 15-year period from fiscal year 2000 through fiscal year 2015, the County's revenues grew from $1.347 Billion to $3.217 Billion, a compound annual growth rate of 5.97% per year. By comparison, during this same period the County's pension costs (again, including those of ConFire) grew from $67.06 Million to $308.9 Million, a compound annual growth rate of 10.72% per year. Pension costs now amount to 9.6% of total County Revenues as compared to 4.98% 15 years ago. If these trends continue, pension costs will amount to approximately 11.95% of County revenues in five years, and 14.88% of revenues in 10 years, as illustrated in the chart below.



Another way to see the growth in pension costs is to compare two illustrations the County has prepared in the past five years showing the amount of pension costs incurred for every dollar of salary paid its employees. Here was the breakdown in 2010:

In Contra Costa, for every dollar being spent on salary…

… we spend 40 cents on pension

… and ANOTHER 41 cents on other benefits

Contra Costa County – May 18, 2010 – Page 42

Here is the breakdown today:

for every dollar being spent on permanent salary …

… we spend 53 cents on pension

… and ANOTHER 51 cents on other benefits

These figures and charts show the County already faces an enormous financial challenge in managing its unfunded pension liabilities. Unfortunately, the 2015 declines in the stock markets mean that the challenge is about to get larger. At a special CCCERA Board meeting on February 25, 2016, the Board's advisers reported that the return on the pension fund for the year 2015 was 1.9%, the lowest return since the Great Recession year of 2008. The 1.9% figure is well short of the 7.25% target return by 5.35 percentage points. The latest CCCERA actuarial report advises that for each percentage point the actual return falls below the 7.25% target return, the County will be required to contribute 9.9% of its CCCERA salary base to make up the funding deficit. Based on the County's current payroll of $572 Million included in the CCCERA pension plan, this lower than target investment return for 2015 will likely increase the County's unfunded pension liability by over $300 Million.

CCCERA follows a five-year "*asset smoothing policy*" for recognizing annual investment returns above or below the 7.25% target return. Thus, CCCERA's actuaries will phase in the 2015 investment return shortfall over five years and will offset it against the remaining above-target gains from 2012 and 2013 that are likewise being phased in over five years. Further, because of its UAAL amortization policy CCCERA will allow the County to pay off the 2015 phased-in shortfall over 18 years. Nevertheless, if not offset by above-target gains from other years, the additional annual cost of the 2015 deficit alone to the County could, based on CCCERA's latest actuarial report, amount to over $21 Million per year for 18 years.

This cost estimate makes no allowance for increases in the pension liability that may arise from abnormal pay raises following current contract negotiations between the County and its labor organizations. As recently reported in the press, the County has agreed to pay increases starting July 1, 2016 of 5% per year over the next three years to its deputy sheriffs, with an additional one time 2.5% increase for sheriffs with over five years of service. That rate of increase exceeds the 4.75% assumed rate of salary increase for a safety member with five or more years of service the CCCERA actuaries currently use in calculating future pension costs.

The Peculiar California Pension Rule

Because of the large increases in its pension liabilities that can arise from investment returns falling below the assumed 7.25% annual rate of return, the County is constantly at risk of debt increases that arise for reasons outside its direct control. Further, unlike all other elements of employee compensation, the County cannot manage its pension liabilities by negotiating reduced pension benefits at the collective bargaining table. That means the County is left with layoffs, service cutbacks, cuts in salary or health benefits, or tax increases as the remaining tools available to meet pension liabilities, which the County is legally obligated to pay.

Why is the amount of the pension benefit to be earned excluded from collective bargaining? The reason for this peculiar state of affairs is rooted in a series of legal

cases that began before public employees had collective bargaining rights. The first of the cases dealt with an instance of seemingly bad behavior by a city council in Long Beach, California. In the 1947 case of Kern vs. Long Beach, the city council decided to terminate a pension program for its employees just 32 days before one of its employees was due to begin receiving his pension after 20 years of city service. Not surprisingly, the California Supreme Court frowned on such apparently unfair treatment of a long-time city employee. The Court held that once a pension system was in place the employee in question was entitled to a reasonable pension for the time he or she served the city. That might well have ended matters, but the City of Long Beach proved to be a repeat offender when it later sought to impose higher costs and reduced benefits on the members of its pension plan. In the 1955 case of Allen vs. City of Long Beach, the California Supreme Court held that once an employee was enrolled in the city's pension plan, the city was not only barred from terminating pension benefits as an element of compensation for such employees, but was also prohibited from imposing any alterations in its pension plan which result in a disadvantage for employees unless accompanied by "comparable new advantages."

The 1955 decision, while likely reflecting some exasperation by the Court over what appeared to be another instance of bad behavior by the City of Long Beach, resulted in a highly inflexible legal precedent. Known as the "*California Rule*", it bars a public employer in California from ever reducing the level of pension benefits—even those yet to be earned in future periods—below those that existed on the first day of the employee's term of service.

This precedent has remained part of California law despite numerous important changes protecting the rights of public employees that have occurred in other parts of the California legal framework since 1955. The most important of these changes is the Meyers-Milias-Brown Act of 1968. That Act guarantees the right of public employees to engage in collective bargaining over the terms and conditions of their employment. Public employers have a corresponding obligation to bargain in good faith with their employees. A state agency, the Public Employment Relations Board (PERB), can impose penalties on public employers that engage in unfair labor practices or fail to engage in good faith bargaining.

The California Rule Should be Challenged

The California Rule thus stands as a peculiar exception to the standard practice of negotiating all salary and benefits for public employees at the collective bargaining table. We believe there are two important reasons to challenge the Rule's exclusion of pension benefits from collective bargaining. The first is cost savings. As Report 1503 of the 2014-2015 Grand Jury (Report 1503) pointed out, doing no more than adjusting the amount of the pension benefit all County employees earn in future years to the PEPRA levels earned by employees hired after January 1, 2013 could save the County over $95 Million a year. The second is fairness. Fairness to County employees is a key consideration in any pension reform proposal. Pursuing pension reform at the

bargaining table assures employees the following protections:

- Changes in pension benefits would only affect the benefits to be earned in future years. Pension benefits earned in previous pay periods would not be affected.
- Changes would be subject to good faith bargaining obligations on the part of the County and negotiated by labor representatives accountable to the employee groups.
- Changes could be negotiated in a way that pays particular attention to the interests of different groups of employees. For example, pension benefit reductions (and corresponding lower pension contributions deducted from a paycheck) could be limited to tiers of employees with fewer years of service. Such employees may have a greater interest in securing higher take-home pay rather than higher pension benefits that will only be paid many years distant.

The Policy Decision on Pension Reform Rests with the Board of Supervisors

The Board of Supervisors should seriously consider adopting a policy to seek judicial clarification or reform of the California Rule on pensions in light of California law that now guarantees collective bargaining for public employees. The Board is the designated authority within the County to make the required political, financial and value judgments required to go forward with such a policy. We set forth later in this report some specific ideas on how the Board might proceed to mount a legal challenge to the California Rule without putting the County's financial position at risk pending the outcome of the challenge. In its policy deliberations, we believe the Board should review carefully the following questions:

1. Is it right that the California Rule should allow pension costs to crowd out other budget priorities?
2. Is it right that the cost of pension benefits earned by County employees today should be paid by the County over 18 years, thereby assuring that a significant part of those costs will be passed on to taxpayers who are now students in junior and senior high school?
3. Is it right that the cost of pension benefits, already a huge unfunded debt, may at some point so stress the County's resources that a severe and draconian financial restructuring could become necessary, imposing hardships on retirees, employees, and County citizens?

The Crowding-Out Problem. The County faces severe budget constraints. Previous grand jury reports have cited various projects and services that have been deferred or cut back due to budget issues, including maintenance and upkeep of County facilities, plans for an improved and modernized crisis operations center, funding unmet needs in the foster care system, and building facilities for rehabilitation programs in the County jail system. Budget issues also affect employee pay. This year much attention has

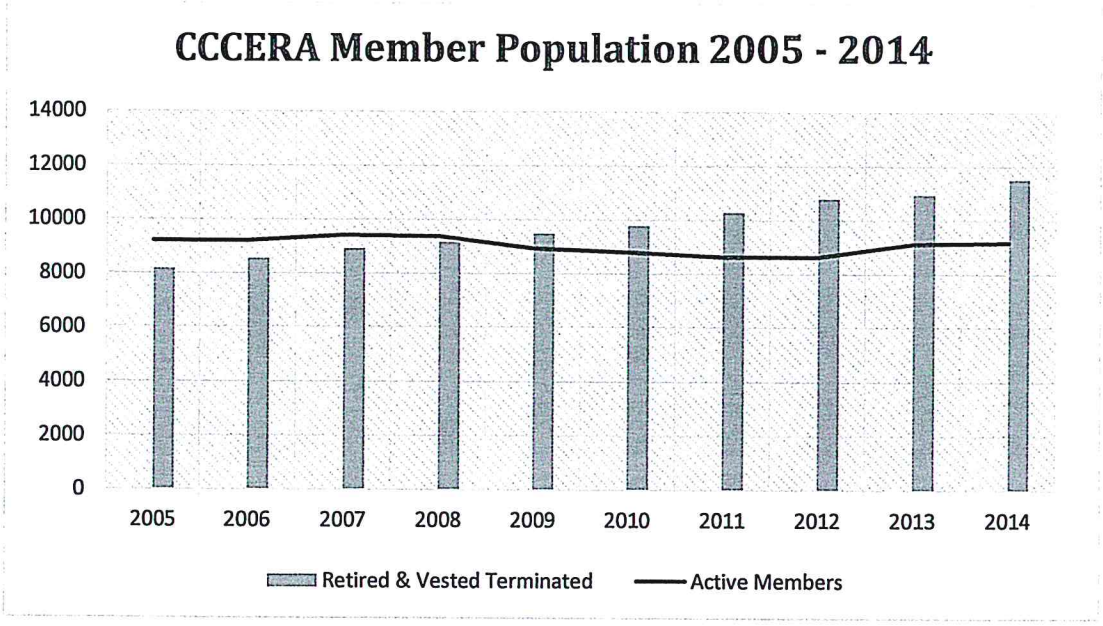
focused on the challenges the County faces in retaining an experienced pool of deputy sheriffs to maintain an adequate level of public safety services in the County. Below average pay of the County's deputy sheriffs as compared to neighboring jurisdictions seems to be at the core of the retention problem. In general, the County's employees have only had modest pay raises at best since the onset of the financial crisis in 2008 – 2009. The root of these problems is a shortage of available funds. As noted in Grand Jury Report 1503, a large pool of funds could be made available for all of these purposes (nearly $100 Million annually in that Report's estimate) if the County were able to negotiate the level of future pension benefits to be earned by all employees down to the same level as that for its PEPRA employees.

Passing on Today's Costs to the Next Generation. A large part of the County's annual pension cost is its cost (a) to reduce the UAALs generated by investment return shortfalls in the CCCERA pension fund and (b) to cover payments on long-term pension obligation bonds (POBs) that were issued in earlier years (e.g., 2003 in the case of the longest outstanding POBs) to reduce those UAALs. The UAALs are the funds still needed to cover the County's future pension obligations for services already performed. As noted above, the County is permitted to pay down its UAALs over an amortization period of 18 years.

The 18-year UAAL amortization period, combined with the use of long-term pension obligation bonds to cover unfunded pension liabilities, has troubling consequences. These pension debts cover the costs of services rendered in the past. This means that the taxpayers who pay off these debts for services rendered are not the same taxpayers who received the services. It is as if a homeowner were being asked to pay part of the cost of a gardener who had mowed the lawn ten years ago before the homeowner even bought the house. Put another way, the 18-year amortization of UAAL debt and the long-term final maturity dates for the POBs mean that young children in the County are being tabbed to pay costs for services their parents or grandparents received. That seems unfair as well as unsound, and it is unique in terms of how we generally believe wage and salary payments should be assessed. The costs should be assessed on those who received the benefit and were in a position to review the quality and type of service they received.

Potential Hardships for Employees and Retirees. Most County employees likely do not consider the risk of the County failing to pay their pensions as something to worry about. The common viewpoint is that governmental jurisdictions never go away and they have taxing power to assure that all their obligations can be met. It then becomes convenient to assume high rates of return on the pension fund ("we will earn enough on our investments to cover all the costs") or to treat the unfunded pension liability like a long-term mortgage that can be paid off over many years. However, the pension liability problem cannot be postponed forever. The County has already seen the high cost of its pension obligations crowding out budget allocations for other services and needs, including employee salary levels. Further, as the chart below shows, the membership

of CCCERA is now composed of more retirees and vested but non-contributing members than active members, and this ratio has increased every year since 2005.



As CCCERA membership matures, relatively fewer contributing members will be supporting an ever-increasing number of retirees. That means the County will be facing greater risks from changes in the investment returns on the CCCERA pension fund because the total active payroll relative to the pension liabilities will become smaller over time. Furthermore, the County faces the risk of an even sharper drop in the supporting payroll in the event one of the pension reform measures currently being promoted for the 2018 ballot becomes law. Either of those measures (discussed in more detail later in this report) would require voter approval before employees hired after January 1, 2019 could become members of the CCCERA plan under its current terms. If the entry of new employees into CCCERA were cut off, the financial contributions from active members would drop substantially. In that event the County could face substantially higher risks of increased pension costs if investment returns on the pension fund fell below the assumed annual growth rate of 7.25%.

These financial and demographic risks should be weighed carefully in the Board's policy deliberations. Rising pension costs have been a major factor in driving cities into bankruptcy. In California, this has happened to Vallejo, San Bernardino, and Stockton. If the size of the County's pension debt were to become unmanageable, the County could be forced to restructure its debts, including its pension liabilities, through bankruptcy.

The powers of a bankruptcy court are extensive. Its powers extend to restructuring pension benefits in ways that could appear arbitrary and unfair to those affected by the

bankruptcy. The court may reduce not only future unearned pension benefits but also already-earned pension benefits. Thus, the legal protection provided to pensions by the California Rule is not absolute even if it were to remain unchanged. In the Stockton Bankruptcy case decision of February, 2015, the judge emphasized that he had the power to alter pension benefits as part of his authority to confirm a fair and just reorganization plan for the city. With specific reference to the California Rule (which he referred to as the "Vested Rights Doctrine"), he had this to say:

> ". . . the Contracts Clauses of the Federal and State Constitutions, as implemented by California's judge-made "Vested Rights Doctrine," do not preclude contract rejection or modification in bankruptcy."

Accordingly, the Board's policy deliberations on seeking reform now of the California Rule through a linkage to collective bargaining should seriously consider the risks to employees and retirees should a bankruptcy filing ever become necessary. A restructuring of pension benefits in bankruptcy could impose far greater hardships on employees than what they would experience from a change to the California Rule that preserved collective bargaining protections.

The grand jury does not see bankruptcy or financial insolvency as a near-term risk for the County at this time. However, we believe the County should so manage its financial obligations that the risk of a bankruptcy, with all of its attendant hardships and inequities, will never have to be considered.

The Pivotal Role of Collective Bargaining Since 1968

Tying pension reform to collective bargaining stands on firm legal ground. Collective bargaining has now become fully embedded in the legal fabric of California as the essential means for negotiating the terms of employment between public employers and their employees. The courts have not, however, yet taken up a case seeking to reconcile the system of collective bargaining with the implied "contract" for pension benefits that was established in the 1955 Allen case. There is, nevertheless, strong evidence to suggest the 1968 Meyers-Milias-Brown Act was intended to cover all items of compensation and benefits to be earned by public employees, including pension benefits. The Act itself states that collective bargaining established for public employees "...shall include all matters relating to employment conditions and employer-employee relations, including, but not limited to, wages, hours, and other terms and conditions of employment."

In a 1998 case, Public Employees Association vs. City of Fontana, a California appellate court explained the strong policy in the law favoring collective bargaining as follows: otherwise, the "employer [would be required] to negotiate over working conditions with any number of employees, thereby defeating the Act's goals of ensuring stability in labor management relations and the right of employees to join and be represented by an employee organization." More recently, a December 29, 2015 ruling by the Public

Employment Relations Board (PERB) found that the City of San Diego had violated the terms of the Meyers-Milias-Brown Act by failing to negotiate with the employee unions over the Mayor's plan to bring a pension reform proposal to San Diego voters by means of a ballot initiative. The PERB decision included this statement:

> "The City does not dispute that pension benefits are generally a negotiable subject and, aside from its argument that the Mayor's pension reform proposal was brought as a citizens' initiative, which we reject, it has offered no other reason why PERB should disregard long-standing private and public-sector precedent treating pension benefits as negotiable." (Emphasis added.)

Preferable Methods to Seek Reform of the California Rule

The California Rule arose originally from a lawsuit filed against a local jurisdiction—the City of Long Beach. Reform of the Rule could likewise arise from a legal challenge filed by a California local jurisdiction, such as the County. Should the Board of Supervisors choose to challenge the California Rule in court, it would no doubt prefer a method that offered both a good prospect of success and that did not subject the County's financial position to substantial risk in the event the challenge was not successful. With those twin objectives in view, here are some legal options the Board might consider with their legal counsel:

1. Advancing the reform argument through amicus curiae legal briefs filed in other pending cases
2. Support for a pension reform initiative or legislation that links pension reform to collective bargaining procedures
3. Bargaining with one or more of its employee unions for changes in future pension benefit rates, subject to the condition that a court first rules that such benefits are covered by the collective bargaining law
4. Moving for a declaratory judgment after any of its labor groups have expressed opposition to negotiating on future pension benefits

Amicus Briefs. An *amicus curiae* or "friend of the court" brief enables an entity not a party to the case to make legal arguments to the court in order to apprise the court of broader public or other interests that may be at stake in the case. The County, as a member of the California State Association of Counties (CSAC), has already participated in one amicus brief relating to pension reform. CSAC filed an amicus brief in a 2014 case supporting a plaintiff's effort to block a pension reform initiative in Ventura County that sought to replace the county's defined benefit pension plan with a *defined contribution plan*. Should an appropriate case arise, the County either on its own initiative or through CSAC, could file an amicus brief urging the court to reform the California Rule so as to recognize the authority of labor organization representatives to negotiate the rates of pension benefits to be earned in future employment periods.

Initiative or Legislative Reform. The initiative process would offer an avenue for reform in the manner recommended in this report if it sought to tie pension reform to the collective bargaining system. There are currently two reform initiatives announced for the 2018 California ballot sponsored by former San Jose Mayor Chuck Reed and former San Diego Councilman Carl DeMaio. However, these initiatives do not include provisions intended to tie pension reform to collective bargaining. Rather, they would require voter approval before any employees hired after January 1, 2019 could be enrolled in a defined benefit pension plan similar to the County's current plans. They would not take any steps on pension reform for employees hired before that date.

Should a local legislator at the County's request sponsor legislation to amend the Meyer-Milias-Brown Act to make explicit that unearned pension benefits are subject to collective bargaining, an avenue could open for a straightforward legal test of the California Rule. The amendment, if passed by the legislature and signed by the governor, would likely be challenged in court by an interested labor group, and the County would have an opportunity to take part in the legal case as an amicus or interested party depending on the circumstance. In either case, the County would be participating simply as a legal participant and would not have its financial position at material risk before the case was decided.

Labor Agreements with Contingent Terms. There is precedent in the County for negotiating a term of a labor agreement related to pension benefits that is contingent on a change in the law. In a number of previous labor agreements, starting with a 2006 memorandum of understanding with the Deputy Sheriffs Association (DSA), the County agreed to a term that would have permitted employees to elect a lower rate of pension benefits to be earned over the course of the agreement. The attraction for the employee would have been a corresponding reduction in his or her required contributions to the pension fund, resulting in higher take-home pay. The term was contingent on certain changes occurring in the law, including state legislation and a private letter ruling from the IRS.

In like fashion, the County could negotiate reductions in the rates of pension benefits to be earned in the future contingent on a court first having ruled that such reductions were proper subjects of collective bargaining. This approach would require two conditions to move forward: agreement by the labor bargaining unit and a legal challenge filed against the agreement by some group or organization seeking to uphold the California Rule.

Declaratory Judgment. Should none of the labor groups choose to cooperate in a challenge to the California Rule, California law provides another alternative for the legal challenge without undue risk to the County. A *declaratory judgment action* is a legal action designed to resolve a legal question before one or both parties to a dispute have taken steps that may have damaging consequences in an uncertain legal situation. The California Code of Civil Procedure provides for such legal actions "... in cases of actual controversy relating to the legal rights and duties of the respective parties ...."

To take advantage of the declaratory judgment alternative, the County would have to show that a "case or controversy" exists with one of its labor organizations on the issue whether pension benefit rates are subject to collective bargaining. Such a case could arise if the Board declared a policy or set forth a demand that in an upcoming bargaining session labor representatives should be prepared to negotiate the rates of pension benefits to be earned along with wage rates and other benefits. Should the bargaining unit refuse to negotiate on future pension rates because of the California Rule, an "actual controversy" over legal rights and duties might exist that meets the requirements for a declaratory judgment.

There are likely other opportunities that could arise for the County to seek legal reform of the California Rule by means of an action for a declaratory judgment. The benefit of a declaratory judgment action is the opportunity it presents to mount a challenge to the California Rule without forcing the County to take action that could be very expensive to reverse or undo.

Conclusion

Fair and sensible pension reform remains an urgent priority for the County. The costs of its pension obligations continue to rise despite the PEPRA reforms of 2013. The largest liabilities on the County's most recent financial statement relate to pensions: its net pension liability of $925 Million and its outstanding pension obligation bonds of $329 Million. Despite the size of this obligation the County has only limited options to manage it. The size of the liability will depend each year on the investment results of the CCCERA pension fund. Because of legal precedent in California that has not yet been challenged, the County has not negotiated with its labor organizations over the rates of future pension benefits to be earned. Such benefits should in our judgment be included in collective bargaining negotiations. To do so, the Board should seriously consider various avenues to challenge the California Rule in court. Such a change would be supported by sound legal arguments and could yield the County, if successful, an important tool to move forward on pension reform through collective bargaining.

FINDINGS

F1. The County's largest outstanding debts relate to its pension liabilities. The unfunded pension liabilities of the County (including ConFire) as calculated by the CCCERA actuaries in September 2015 total $1.155 Billion. In addition to this UAAL figure, the County (again including ConFire) has outstanding $329 Million of long-term pension obligation bonds.

F2. The County's unfunded pension liability will increase in any year in which the rate of return on the CCCERA pension fund does not reach at least 7.25%.

F3. According to the most recent CCCERA actuarial report, for every 1% drop below the CCCERA assumed rate of return of 7.25% the County's unfunded pension liability will increase by a figure equal to 9.9% of the County payroll of employees enrolled in the CCCERA pension plan. Based on its current payroll of over $572 Million that means the reported return of 1.9% achieved by the CCCERA pension fund in 2015 could result in an increased County UAAL of over $300 Million before actuarial five-year smoothing adjustments are made.

F4. Unlike all other elements of compensation that it negotiates with the labor organizations, the County does not negotiate the rate of pension benefits employees will earn in future salary periods.

F5. The reason the County does not negotiate such pension benefits is due to a long-standing legal precedent in California, known as the California Rule, which holds that public employees are covered by an implied contract on their first day of service guaranteeing that the level of pension benefits they earn each year may not be decreased in future years unless replaced by benefits comparable in value for the employee.

F6. The California Rule is based on a case that was decided before public employees had the right to organize and engage in collective bargaining in California.

F7. The County has not taken steps to challenge or seek legal clarification of the California Rule in a California court.

F8. Negotiating the terms of future pension benefits to be earned could result in substantial cost savings for the County if permitted by a court ruling.

F9. There are legal avenues open to the County to seek judicial clarification or reform of the rule without subjecting the County to major financial risks if the challenge proves unsuccessful.

RECOMMENDATIONS

R1. The Board of Supervisors should seriously consider adopting a policy of seeking judicial clarification or reform of the California Rule.
R2. The Supervisors should consider empaneling a task force, a study group, or an internal committee to examine options for challenging the California Rule that would weigh the following considerations:

- Potential cost savings for the County;
- Potential resources to be freed up for other priorities such as service enhancements and other wage and benefit improvements;
- Opportunities to participate as an amicus curiae in existing legal cases;
- Opportunities for challenging the California Rule through legal proceedings such as a declaratory relief action that would not expose the County's financial position to undue risk in the event of an adverse result; and
- Whether the County should undertake the legal challenge alone or in cooperation with other jurisdictions or organizations with a common interest in the issue, such as the California State Association of Counties (CSAC).

R3. The Supervisors should consider issuing a formal statement on their policy toward seeking reform of the California Rule, with an explanation of how they propose to manage their unfunded pension liability in the event no steps are taken to reform or adjust the California Rule.
R4. The Supervisors should consider securing a legal opinion from outside counsel experienced in the field of pension and collective bargaining law on the merits of a legal challenge to the California Rule based on the argument that the Rule should now be modified based on California's collective bargaining system for public employees.

APPENDIX

Glossary of Terms

Actuarial Accrued Liability. This is the total amount of funding the pension fund should have on hand in order to assure that there will be sufficient funds available in the future to pay the pension benefits that have been earned by employees on the date the liability calculation is made. The actuaries calculate this liability based on certain actuarial assumptions about mortality rates, retirement rates, turnover rates, and investment returns the actuaries assume will be earned by the pension fund on a compounded basis over the long term.

Actuarial Value of Assets. This value refers to the market value of assets in the pension fund after adjusting for any investment gains or losses using the fund's asset smoothing policy.

Amicus Curiae. This term (literally translated as friend of the court) refers to an entity or organization that is not a party to a particular lawsuit but that is permitted by the court to advise it in respect to some matter of law that directly affects the case in question.

Asset Smoothing Policy. This policy refers to the practice of stretching out the recognition of annual market gains or losses on a defined benefit pension fund, as compared to the assumed investment return for the fund, over a period of years. CCCERA follows a five-year smoothing policy. For example, if the CCCERA fund falls short of its assumed investment rate of 7.25% by five percentage points, the fund would recognize that loss at a rate of 1% a year over a period of five years.

Asset Volatility Ratio. This ratio is equal to the market value of the assets in the pension fund divided by the total projected payroll used for calculating contributions to the pension fund. In the case of CCCERA that ratio is currently 9.9, meaning that for every percentage point by which its pension fund falls below its assumed investment rate, the UAAL will increase by 9.9% of projected payroll.

Assumed Investment Rate of 7.25%. This is the assumed rate of investment return on its pension fund that CCCERA uses for calculating the *normal cost* of the pension benefits earned by County employees each year. It is also the rate CCCERA uses to discount to present value the future cost of the pension benefits to be paid. The assumed investment rate is a compound annual growth rate, not simply an average annual rate. That is, in order to keep pace, in any year in which CCCERA does not earn its assumed rate of 7.25% it must make up the shortfall in a following year (either through additional earnings or employer contributions) in addition to the assumed annual rate of 7.25% for the following year.

California Rule. This term refers to a legal precedent established by a California Supreme Court decision in 1955. It held that California public employees are subject to an implied pension contract from their first day of employment forward. The pension contract provides that the rate of pension benefits to be earned in future years may never be decreased unless replaced by a benefit comparable in value for the employee. The practical effect of this precedent is that public employers in California do not negotiate pension benefit rates with their employees, in contrast to negotiations that take place over all other wages and benefits to be earned.

CCCERA – the Contra Costa County Employees' Retirement Association. This is the entity that administers pension benefits and runs the pension fund to which the County makes contributions to pay for pension benefits earned by its employees. CCCERA is organized under a law passed in 1937 that authorized California counties to set up defined benefit pension plans for their employees.

COLA – a cost of living adjustment. This is an enhancement to a pension benefit based on increases in the applicable cost of living index, subject to certain caps, usually 2% or 3% per year.

Declaratory Judgment Action. This is a legal action designed to enable parties to resolve a legal dispute before either party has taken steps that may cause or incur a liability that could lead to damages or other remedies awarded by a court.

Defined Benefit Plan. This is a pension plan that provides for a stated benefit to be paid to participants during their retirement years. Generally, the benefit is defined by a formula. For example, 3% of base salary for each year of services, so that an employee with 25 years of service at age 55 could retire under that formula with a beginning pension equal to 75% of his or her base salary. Pension benefits are usually enhanced by cost of living adjustments, also called *COLAs.* Payment of the defined benefit is guaranteed by the employer.

Defined Contribution Plan. This is a retirement plan under which the employer makes defined contributions into a retirement fund for the benefit of its employees. The amount of the ultimate benefits paid out in retirement is dependent on the investment results in the retirement fund and is not guaranteed by the employer.

Investment Return. This is the rate of earnings on the pension fund from dividends, interest, and capital gains, computed as a percentage of the average value of the fund.

Normal Cost. This is the amount of contributions to a defined benefit pension fund required each year to fund the pension benefits earned by employees during that year of service. The figure is calculated by actuaries and is based on certain actuarial assumptions about mortality rates, retirement rates, turnover rates, and investment returns the actuaries assume will be earned by the pension fund on a compounded basis over the long term.

PEPRA – The Public Employee Pension Reform Act. This Act, passed in 2012, established a new level of pension benefits for all state and other public employees in California who were hired on or after January 1, 2013. The new pension benefit levels were lower than those prevailing for existing employees, leading to a two-tiered level of benefits for employees based on their respective dates of hire.

Unfunded Actuarial Accrued Liability (UAAL). This is defined as the extent to which the *Actuarial Accrued Liability* of the pension plan exceeds the *Actuarial Value of the Assets* in the pension fund supporting the plan.

UAAL Amortization Policy. This policy stipulates the amount of the payments that must be made to the pension fund each year by the employer to pay down the UAAL in equal installments. In the case of CCCERA, the UAAL pay down period is 18 years, meaning that 1/18 of each year's net UAAL is charged to the employer each year as an additional pension cost payable to CCCERA.
