

City/County Street Light Survey

I am writing to you because we are surveying all of the 19 cities in the County about the City/County PG&E Street Light Coordination Meetings.

The goal of this survey is to determine if Cities and the County should continue to meet to discuss street light issues and if so, to determine how to best to conduct the meetings, who should attend, how often should meetings be held, identifying topics to discuss, would another format, e.g. an annual street light symposium, be of value, and more. Your input is greatly appreciated.

When PG&E was recently ready to roll out the LED replacement project, a meeting held in March 2015 at Public Works was well attended by the Cities. Quarterly street light coordination meetings have been attended by City staff but at lower levels of participation. Questions have surfaced as to the need to have the meetings, the frequency and format of the meetings, and the topics discussed at the meetings.

The attached survey includes questions have been designed in order to address the PG&E City/County Street Light Coordination meetings. At the end of the survey, there is space to add any thoughts or suggestions from your City.
