

**FINAL ANNUAL REPORT
FISCAL YEAR 2017-2018**

**CONTRA COSTA COUNTY SERVICE AREA M-28
(Willow Mobile Home Park Water District)**

July 18, 2017

Board of Supervisors

John Gioia, District 1
Candace Andersen, District 2
Diane Burgis, District 3
Karen Mitchoff, District 4
Federal Glover, District 5

Prepared by
**Contra Costa County
Public Works Department**

BACKGROUND INFORMATION

The Willow Mobile Home Park is located on Bethel Island and consists of 1 parcel (23 acres) that includes 172 mobile homes. In order for safe water services to be provided, it was recommended a CSA be formed.

On December 10, 1991 the Contra Costa Board of Supervisors approved County Resolution 91/807 which formed County Service Area (CSA) M-28 (Willow Mobile Home Park Water District). CSA M-28 was formed pursuant to the County Service Area Law to ensure the proper flow of funds for the ongoing operation, maintenance and servicing of extended community water system services within the Bethel Island Area.

CSA M-28 has been given the power to acquire, construct, operate, replace, maintain and repair a water supply and distribution system as authorized by California Government Code Section 25210.4(d) and 25120.4a(1). The funding for CSA M-28 comes from service charges which are obtained from the users of the water system, in accordance with former Government Code Section 25210.77a, Government Code Section 25210.9 and County Ordinance Section 1012-2.6.

CSA M-28 owns and operates a well and a reverse osmosis (RO) system. Water is pumped from a well and is treated through a RO system. The treated water is stored in a 20,000 gallon tank. From the tank, the water is supplied via a single point to the Willow Mobile Home Park.

In October 2014, a town hall meeting was held at the Willow Mobile Home Park to discuss the future of CSA M-28. The main issue discussed was that the current aging RO system is becoming more expensive to maintain and need of significant capital improvements. The cost of maintaining this system exceeds the annual assessment funding available. Without a major investment, it is anticipated that the RO system will fail eventually. Alternatives were introduced (status quo, increase service charge to pay for the necessary improvements, connect to Diablo Water District, and request State waiver for secondary standards). It appeared that the majority of the residents at the meeting preferred CSA M-28 to move toward reduction in service by requesting a waiver for secondary standards from the State. This alternative includes removing the RO system and providing the minimum allowable water treatment.

By removing the RO treatment, the water would only meet the primary standards and would meet most, but not all, of the secondary standards. CSA M-28 would seek a waiver from the State for the secondary standards. Of all the alternatives presented at the town hall meeting, reducing water treatment allows the rate to be the lowest. It will also allow each individual mobile home to decide what type of treatment they prefer. Whereas, maintaining a more expensive community treatment system, such as the RO, forces everyone to pay for the same level of treatment.

Subsequent to the town hall meeting, on December 16, 2014, the Board of Supervisors authorized a vote by the parcel owner. CSA M-28 requested the mobile park owner, the single rate payer to CSA M-28, to vote if he would be willing to pay for a higher rate to fix the existing RO system or reject the rate increase and move toward reduced services. The mobile home park owner informed the County that he took a survey of the mobile home park residents and his

***CSA M-28 Willow Mobile Home Park Water District Final Annual Report
Fiscal Year 2017-18***

survey indicated the mobile home park residents wanted him to vote against the rate increase. In early 2015, the mobile home park owner submitted his ballot and voted against a rate increase. On March 3, 2015, the ballot was opened and the Board determined that there was a majority protest against a rate increase and directed staff to seek a waiver from the State.

Based on the vote to reject the rate increase, CSA M-28 began the process to move toward reducing the water treatment service. As required by the regulations to obtain the waiver for secondary standards, CSA M-28 has contracted with a consultant to provide the necessary report.

Late 2015, during a staff visit to the CSA M-28's facility to perform a site review and obtain test samples, it was discovered that the RO was not operating. The previous operator had turned off the RO system without informing CSA M-28 staff. The site review revealed that the water from the well was bypassing the RO system. However, the previous operator did install a chlorine system. Although the water had not gone through the RO system, the water did receive treatment. This revised system is similar to CSA M-28's proposal to the State to replace the RO system.

Despite the fact that the revised system is similar to what the CSA M-28 staff plan to present to the State, the unilateral decision to make the changes and lack of communication by the previous operator were not acceptable to CSA M-28. CSA M-28 staff directed test samples to be taken by the consultant to make sure the water complied with the primary standards. It was anticipated that the water would because historically the raw water from the well has. This is the reason why a reduced service was a viable option being considered 2014 when the County met with the residents. The consultant reported that the water under the revised system complied with the primary standards. CSA M-28 staff also replaced the operator. Lastly, CSA M-28 staff communicated with County Environmental Health, the regulatory agency, of the discovery and the actions taken.

Changes at CSA M-28 have resulted in a new system operator and movement toward the same goals as discussed at the town hall meeting:

- 1) obtain waiver from regulatory agency,
- 2) reduce the level of community water treatment, and
- 3) allow each resident to establish the appropriate system at their own mobile home.

In Fiscal Year 2015-2016, CSA M-28 made improvements to the aging system and infrastructure. Some of the improvements completed included the upgrade of the auto-dialer alarm system, installation of a flow-based chlorine injection pump system, and installation of new wiring to the well pump. In Fiscal Year 2016-2017 CSA M-28 also replaced the existing well pump and upgraded its emergency response options by entering into an agreement with a nearby water district and contract with a water delivery (hauling company) to supply water to the Willow Mobile Home Park during emergency events.

In Fiscal Year 2016-2017 a draft study was completed per state requirement in order to obtain a waiver. Some of the tasks completed in this study included; taking additional water samples and analyzing additional alternatives. Future tasks will include compiling additional survey data, meeting with the State and constructing some capital improvements.

Fiscal Year 2017-18*

A map of the general location of CSA M-28 is shown below:

CURRENT ANNUAL ADMINISTRATION

Pursuant to County Ordinance Section 1012-2.6, former County Service Area Law (California Government Code Section 25210.77a), and current County Service Area Law (California Government Code Section 24210.3, subd. (d)), the Tentative Annual Report has been filed with the Clerk of the Board of Supervisors, public notice has been completed as required, and the Board will conduct a Public Hearing and then make a determination on each estimated service charge in the tentative report. Contra Costa Board of Supervisors will review the Tentative Annual Report in accordance with Resolution No. 2017/123, on June 6, 2017, and conduct a Public Hearing in connection with the proceedings for CSA M-28.

Upon adoption of the Final Annual Report by the Board of Supervisors, the charges contained herein will be collected on the property tax roll of Contra Costa County in the same manner, by the same persons, at the same time as, and together with the County's property taxes.

Legal Authority

As required by County Ordinance Section 1012-2.6, former County Service Area Law (California Government Code Section 25210.77a), and current County Service Area Law (California Government Code Section 24210.3, subd. (d)), the Tentative Annual Report includes the following minimum information as shown in the Service Charge Roll:

1. a description of each parcel of real property receiving the miscellaneous extended service;
2. the basic service charge;
3. the estimated amount of the service charge for each parcel for such year; and
4. a parcel list identifying each parcel receiving services that allows parcel owners to find their property on the list and determine the proposed charge.

This annual report also includes the following additional information to allow the reader to better understand what services are being paid for, what is the total annual cost for the services provided, and how the cost of services are spread to each individual parcel:

1. Estimate of Annual Cost; and
2. Method of Apportionment.

ESTIMATE OF ANNUAL COST

A special fund has been set up for the collection of revenues and expenditures for CSA M-28. The total cost of construction, operation, and maintenance and servicing of the water system can be recovered from the collection of charges. Incidental expenses including administration, engineering fees, legal fees and all other costs associated with the construction, operation and maintenance and servicing of the water system may also be included.

When CSA M-28 was formed, a financial analysis was performed to provide the framework for an operating budget for the proposed operation, maintenance and servicing of extended community water system services. Revenues collected from the charge shall be used only for the expenditures represented in this report. Any balance remaining on July 1 at the end of the fiscal year must be carried over to the next fiscal year.

In Fiscal Year 2017-2018, CSA M-28 plans to continue the efforts to obtain the waiver from the State. Obtaining the waiver from the State is a significant effort that may include taking additional water samples, analyzing additional alternatives, compiling additional survey data, meeting with the State, etc. All the information gathered will be documented in an engineer report and presented to the State. CSA M-28 also plans to purchase a spare booster pump and upgrade the power controller box and breaker switches.

Some of the conditions from the State in order to obtain a waiver will require capital improvements to CSA M-28 facilities. The cost of immediate capital improvements exceeds the proposed annual service charges. The Annual Report proposes that these capital improvements to CSA M-28 be funded by the County General Fund in Fiscal Year 2017-2018. This revenue was received in Fiscal Year 2016-2017. The annual service charge from the single parcel owner would not be sufficient to provide water services and complete all capital improvement efforts at CSA M-28.

METHOD OF APPORTIONMENT

Special vs. General Benefit

On November 5, 1996 California voters approved Proposition 218 entitled "Right to Vote On Taxes Act" which added Articles XIIC and XIID to the California Constitution. While its title refers only to taxes, Proposition 218 establishes new procedural requirements for fees, charges and benefit assessments.

These new procedures stipulate that even if charges or benefit assessments are initially exempt from Proposition 218, future increases in the charges or benefit assessments must comply with the provisions of Proposition 218. However, if the increase in the charge or benefit assessment were anticipated in the charge or benefit assessment formula (e.g., consumer price index increase or a predetermined cap) then the increase in the charge or benefit assessment would be in compliance with the intent and provisions of Proposition 218.

Proposition 218 provides that "only special benefits are assessable" and defines a special benefit as a particular and distinct benefit conferred on real property and not a general benefit received

**CSA M-28 Willow Mobile Home Park Water District Final Annual Report
Fiscal Year 2017-18**

by the public at large. The extended public services provided within CSA M-28 are deemed a special benefit and only serve the parcels located within the boundaries of the District. Without the services, the parcel located in the unincorporated area would not receive water services. Therefore the services in CSA M-28 are 100% special benefit to the parcel within the CSA.

Methodology

The total operation and maintenance costs for the extended public services are apportioned in accordance with the methodology that is consistent with standard practices.

The maximum charge rate was previously set at \$75,300 per parcel (1991 dollars). Since 1991 the Consumer Price Index (CPI) for the San Francisco Bay Area All Urban Consumers and the costs to operate and maintain the improvements increased, however the charge rate remained constant until Fiscal Year 2007-2008. In Fiscal Year 2007-2008 the charge rate was increased to \$79,818 per parcel with an allowance for an increase each subsequent year based upon the San Francisco Bay Area – All Urban Consumers as of April 2007 (215.842).

Due to an aging system, the cost of operating and maintaining water facilities continues to increase. It was proposed in Fiscal Year 2010-11 that the charge rate be increased to \$95,500 per parcel (8.5% increase). However, this increase was not supported by the property owner, and therefore the 8.5% increase was not imposed.

The cost of operating and maintaining water facilities continues to increase, due to an aging system. It was proposed in Fiscal Year 2014-15 that the charge rate be increased from \$91,937 to \$335,939 per parcel. However, this increase was not supported by the property owner, and therefore the increase was not imposed.

Rate

The February 2017 CPI Index is 271.626, therefore the maximum rate for Fiscal Year 2017-2018 can be increased 3.44% to \$100,446.82 per parcel. It is proposed to levy charges at the maximum rate for Fiscal Year 2017-2018.

In Fiscal Year 2017-18, it is recommended based upon projected expenditures, that the maximum rate of \$100,446.82 per parcel be collected. It is estimated \$100,446.82 in revenue will be needed to provide the services referenced above in Fiscal Year 2017-18. There is one parcel that is included in the CSA. If you divide \$100,446.82 by one (1) parcel, the service charge per parcel is \$100,446.82.

SERVICE CHARGE ROLL

A list, which shows those parcels to be charged for Fiscal Year 2017-2018, including a description of each parcel to be charged is shown below.

<u>Parcel Number</u>	<u>Proposed FY 2017-2018 Amount</u>
029-020-004-7	\$100,446.82
