8. Do you have a Familial or Financial Relationship with a member of the Board of Supervisors? (Please see Board Resolution no. 2011/55, attached): No ☒ Yes ☐

If Yes, please identify the nature of the relationship:

9. Do you have any financial relationships with the County such as grants, contracts, or other economic relations?

No ☒ Yes ☐

If Yes, please identify the nature of the relationship:

I CERTIFY that the statements made by me in this application are true, complete, and correct to the best of my knowledge and belief, and are made in good faith. I acknowledge and understand that all information in this application is publically accessible. I understand and agree that misstatements / omissions of material fact may cause forfeiture of my rights to serve on a Board, Committee, or Commission in Contra Costa County.

Sign Name;

Date:

8 Nov, 2017

Important Information

1. This application is a public document and is subject to the California Public Records Act (CA Gov. Code §6250-6270).
2. Send the completed paper application to the Office of the Clerk of the Board at: **651 Pine Street, Room 106, Martinez, CA 94553.**
3. A résumé or other relevant information may be submitted with this application.
4. All members are required to take the following training: 1) The Brown Act, 2) The Better Government Ordinance, and 3) Ethics Training.
5. Members of boards, commissions, and committees may be required to: 1) file a Statement of Economic Interest Form also known as a Form 700, and 2) complete the State Ethics Training Course as required by AB 1234.
6. Advisory body meetings may be held in various locations and some locations may not be accessible by public transportation.
7. Meeting dates and times are subject to change and may occur up to two days per month.
8. Some boards, committees, or commissions may assign members to subcommittees or work groups which may require an additional commitment of time.

**THE BOARD OF SUPERVISORS OF CONTRA COSTA COUNTY, CALIFORNIA and for
Special Districts, Agencies and Authorities Governed by the Board Adopted Resolution
no. 2011/55 on 2/08/2011 as follows:**

IN THE MATTER OF ADOPTING A POLICY MAKING FAMILY MEMBERS OF THE BOARD OF SUPERVISORS INELIGIBLE FOR APPOINTMENT TO BOARDS, COMMITTEES OR COMMISSIONS FOR WHICH THE BOARD OF SUPERVISORS IS THE APPOINTING AUTHORITY

WHEREAS the Board of Supervisors wishes to avoid the reality or appearance of improper influence or favoritism;
NOW, THEREFORE, BE IT RESOLVED THAT the following policy is hereby adopted:

- I. SCOPE: This policy applies to appointments to any seats on boards, committees or commissions for which the Contra Costa County Board of Supervisors is the appointing authority.
- II. POLICY: A person will not be eligible for appointment if he/she is related to a Board of Supervisors' Member in any of the following relationships:
 1. Mother, father, son, and daughter;
 2. Brother, sister, grandmother, grandfather, grandson, and granddaughter;
 3. Great-grandfather, great-grandmother, aunt, uncle, nephew, niece, great-grandson, and great-granddaughter;
 4. First cousin;
 5. Husband, wife, father-in-law, mother-in-law, son-in-law, daughter-in-law, stepson, and stepdaughter;
 6. Sister-in-law (brother's spouse or spouse's sister), brother-in-law (sister's spouse or spouse's brother), spouse's grandmother, spouse's grandfather, spouse's granddaughter, and spouse's grandson;
 7. Registered domestic partner, pursuant to California Family Code section 297.
 8. The relatives, as defined in 5 and 6 above, for a registered domestic partner.
 9. Any person with whom a Board Member shares a financial interest as defined in the Political Reform Act (Gov't Code §87103, Financial Interest), such as a business partner or business associate.

Electronics Engineering Associate, Senior—302.2

In collaboration, provide multifunctional technical support, applying broad engineering or scientific concepts and principles in the field of Electronics Engineering in one or more of the following areas of specialized expertise: design, engineering support, or coordination.

Establish independent courses of action. Execute complete and extensive technical or design projects, operational assignments, or major objectives within the framework of a particular phase of scientific inquiry or applied technology. Interpret and translate objectives of job requirements into technical designs, operational concepts, or applications. Compile and analyze background data and information. Independently identify and solve problems. Define, evaluate and implement alternative solutions, configurations, or courses of action. Plan, schedule, coordinate, and direct the technical and administrative support requirements and efforts of project or operational activities, ensuring the efficient use of manpower, materials, equipment, and time. May directly supervise several employees, including direct supervisory responsibility for employees at the associate level, or manage a major laboratory or operational facility. May work independently or as a member of a team.

Exercising considerable discretion and judgment, qualitatively and quantitatively analyze interpret, select, and adapt broad and abstract engineering or scientific concepts and practices which relate to the area of specialization. Design, develop, evaluate, or operate experimental apparatus, equipment, systems, operations, or facilities. Direct the successful completion of the final product or ongoing operation of the systems or processes. Execute related technical or administrative procedures or analyses. Follow through from beginning to end all or part of the technical and administrative requirements relating to a particular design, project, operation, scientific investigation, or combination thereof, where the complexity demands innovative problem solving.

Must demonstrate exceptional creativity and originality, and advanced technical expertise and knowledge of engineering or scientific principles and practices in one or more of the specified areas.

Lab People in the News

Stan Klezmer and Anton Kast Take to the Skies with the UC Flying Club

Stan Klezmer, a Berkeley Lab retiree, has a bird's-eye view of the world at the helm of one of UC Flying Club's planes.

BY JON BASHOR

Since retiring from the Lab in 1993, Stan Klezmer's future plans have been up in the air. Really. And he credits the UC Flying Club with giving him the lift he needed.

The club, established in 1939, provides affordable instruction and access to six aircraft. Membership is open to members of the UC family, including Berkeley Lab employees.

"If you ever thought about learning to fly, or if you used to and want to take it up again, the club allows you to take a flight with an instructor to see if

you're interested in pursuing it further," said Klezmer, who is also secretary to the club board of directors.

A Lab employee since 1952, Klezmer first got the flying bug some 20 years ago, although he did not pursue his pilot's license at that time. When his father died three years ago he decided to start putting some of his life's goals back in order—including trying to take up flying again.

His club affiliated instructor, who flies a Federal Express plane, took him through a refresher course. "I found I still remembered the basics—how to take off, take a heading and make a climb," says Klezmer, who

turns 66 in March.

"Now I'm very comfortable in the air, and have the keys to three planes in my pocket."

To qualify for his license, Klezmer still needs to get in some more night flying and complete his cross-country phase of learning. This involves landing and taking off at two other airports. Klezmer's plan is to take off from the club's base at Oakland airport, head up to Little River for lunch, then drop by Ukiah, Chico, Stockton, and Livermore before heading home. "The idea is just to get used to finding other airports," he says.

The club offers a choice of planes to rent, ranging from single-engine, two-seat Cessnas to a four-seat, high-performance Beechcraft Sierra. The rental fee for planes starts at a mere \$41 an hour, including fuel. This, coupled with monthly dues of \$37, makes the UC club one of the most affordable ways to learn to fly, Klezmer says. The club's non-profit status means the cost is lower than commercial outfits, and instruction can be arranged to fit nearly any schedule.

Anton Kast, a physicist in the Lab's Mathematics Department, was in his fourth year of graduate work at UC Berkeley when he joined the club "to escape my studies." Flying three times a week and studying volumes of regulations, Kast earned his pilot's license in six months and added an instrument rating after six more months.

"I always liked airplanes and wanted to fly since I was a little boy," Kast said.
