

Support Safer Roads and Protect Local Transportation Improvements

Californians depend on a safe and reliable transportation network to support our quality of life and a strong economy. In April 2017, California passed Senate Bill 1 (SB 1) which provides more than \$5 billion annually to make road safety improvements, fill potholes, repair local streets, freeways, tunnels, bridges and overpasses and invest in public transportation in every California community. Road safety and transportation improvement projects are already underway across the state, but this long-awaited progress could come to a halt unless voters take action in 2018.

The Coalition to Protect Local Transportation Improvements has formed to support Proposition 69 which protects transportation funds from being diverted and to oppose the November 2018 measure that would repeal new transportation funds. Here's how you can help:

SUPPORT PROP 69:

June 2018 ballot measure prohibits the Legislature from diverting new transportation funds and ensures they can only be used for transportation projects.

- ✓ Extends constitutional protections to the new revenues generated by SB 1 that aren't currently protected.
- ✓ Guarantees transportation funds can only be used for transportation improvement purposes.
- ✓ Will not raise taxes. Protects transportation taxes and fees we already pay.

OPPOSE REPEAL OF SB 1:

November 2018 ballot measure would repeal SB 1 and rob our communities of vital road safety and transportation improvement projects.

Certain politicians are currently collecting signatures to try to repeal the Road Repair and Accountability Act of 2017 (SB 1) and stop critical investments in future transportation improvement projects. Our broad coalition opposes this measure now because its passage would:

- ✗ **Jeopardize public safety.** This measure would halt roadway improvements at the state and local level that will save lives and increase safety for the traveling public. According to the National Highway Traffic Safety Administration, poor roadways were a contributing factor in more than half of the 3,623 roadway fatalities on California roads in 2016.

OPPOSE the November 2018 ballot measure that would repeal SB 1 and rob our communities of vital road safety and transportation improvement projects.

- ✗ Stop transportation improvement projects already underway in every community.** This measure would eliminate funds already flowing to every city and county to fix potholes, make safety improvements, ease traffic congestion, upgrade bridges, and improve public transportation. 4,000 local transportation improvement projects are already underway across the state thanks to SB 1.
- ✗ Make traffic congestion worse.** Our freeways and major thoroughfares are among the most congested in the nation, and Californians spend too much time stuck in traffic away from family and work. This measure would stop projects that will reduce traffic congestion.
- ✗ Cost drivers and taxpayers more money in the long-run.** The average driver spends \$739 per year on front end alignments, body damage, shocks, tires and other repairs because of bad roads and bridges. Additionally, it costs eight times more to fix a road than to maintain it. By delaying or stopping projects, this measure will cost motorists more money in the long run.
- ✗ Hurt job creation and our economy.** Reliable transportation infrastructure is critical to get Californians to work, move goods and services to the market, and support our economy. This measure would eliminate more than 680,000 good-paying jobs and nearly \$183 billion in economic growth that will be created fixing our roads over the next decade.
