Dear California Water Commission (CWC) Commissioners Quintero, Baker, Ball, Byrne, Curtin, Del Bosque, Keig, Herrera, Orth, staff and the public,

My name is Leland Frayseth, I am a 30+ year Contra Costa Water District (CCWD) customer, I am interested in water, water cost and water quality issues. Last night CCWD's board of directors voted to spend half a million dollars to repair mudslide damage to Los Vaqueros Road. In the Supplemental EIS/EIR Los Vaqueros 275,000 AF expansion they wrote based upon aerial surveys there were no new landslides since publication of the previous EIS/EIR, that is baloney. Please view the following 11 March 2017 Copernicus Programme European Space Agency satellite images from Google Earth. Mudslides can be identified by the black plastic held down by rocks. I hope you will find this sufficient basis to reject the Los Vaqueros Proposition 1 funding application.

Thank you, Leland Frayseth

Los Vaqueros South Side & Marina Remains Closed

Los Vaqueros Road remains closed today, Feb. 22. Mudslides along Los Vaqueros Road closed the south side of the Los Vaqueros Watershed near Livermore on Feb. 21. This includes the Marina and most fishing access. The north side remains open.
