## Christopher Doan

### **Biography and Qualifications:**

Active in the aviation business at the Board of Director level, I retired from full time corporate service in 2017 after 50th years of active involvement in the industry. That year I was honored to receive the Lifetime Achievement Award from Aviation Week & Space Technology for my contribution to the industry.

From 2005-2015, I was Chairman & CEO of TeamSAI Consulting which focused exclusively on aviation maintenance and operations as well as airport operations. Following 10 years of steady growth with TeamSAI, the company was acquired by Oliver Wyman and merged with the CAVOK Group. This transaction brought together two of the largest and most capable consulting and technical advisory firms in aviation and further demonstrated our joint commitment to being at the forefront of the industry. It created a powerhouse of over 130 dedicated, full-time consultants and specialists who assist airlines, MRO providers, lessors, investors, airports and other stakeholders on mission critical issues surrounding certification, safety and operational performance, execution and investment.

The corporate cultures aligned well resulting in a thoughtful, collaborative, and highly valued support reputation that both companies enjoyed separately.

I have a proven industry track record of driving results throughout my career which involved senior executive experiences in consulting, airline operations, MRO and manufacturing leadership. As an insightful and motivating leader, I have focused most of my career on improving troubled operations in a broad array of assignments. I was always a motivating, communicative leader of high integrity and a knowledgeable strategist and tactician. Over my career, I had a reputation for instilling a compelling vision, turning around operations, and adding value to bottom line results.
