Hi!

I own a Threading salon but have not reopened because I understand that it falls under personal services which are not allowed to reopen yet.

However, I notice many other threading salons have gone ahead and reopened when hair salons did. Specifically, Kiki Brows (Danville and San Ramon) and Shobana Beauty (San Ramon), Art of Threading (Brentwood), Eyelash Boutique (Brentwood) and many others. Some offer hair services so they stated that they were allowed to go ahead and provide waxing and threading since their hair salon offered it. Is that correct?

What are these threading salons to do now since they have already been in full swing for 2+ weeks?

Should I go ahead and open mine up too? I am eager to open us as well!

Thanks!
