County variance info

Last updated July 14, 2020 at 3:35 PM

County data monitoring

California is [monitoring COVID-19 closely](#) in each local community and keeping the public informed. We're teaming up with counties to fight it with every tool we have: [current local data](#), testing, contact tracing, infection control, emergency supplies, containment measures, and more.

Counties should be ready to restore limitations if outbreaks increase. The State Public Health Officer may take action if needed.

Effective July 13, 2020, ALL counties must close indoor operations in these sectors:

- Dine-in restaurants
- Wineries and tasting rooms
- Movie theaters
- Family entertainment centers (for example: bowling alleys, miniature golf,

[Back to top](#)

- Cardrooms

Additionally, bars, brewpubs, breweries, and pubs must close all operations both indoor and outdoor statewide, unless they are offering sit-down, outdoor dine-in meals. Alcohol can only be sold in the same transaction as a meal.

Counties that have remained on the County Monitoring List for 3 consecutive days will be required to shut down the following industries or activities unless they can be modified to operate outside or by pick-up.

- Fitness centers
- Worship services
- Protests
- Offices for non-essential sectors
- Personal care services, like nail salons, body waxing and tattoo parlors
- Hair salons and barbershops
- Malls

The following counties have remained on the County Monitoring List for 3 consecutive days:

Affected counties as of 7/13/20

The State Public Health Officer may take additional action if needed.

County attestation process

Local health jurisdictions that meet the criteria set forth by the California Department of Public Health and follow the process in the [county guidance](#) may move further ahead in the [Resilience Roadmap](#).

If a county decides to pursue a variance to move further ahead in the Resilience Roadmap, the local public health officer must:

1. Notify the California Department of Public Health (CDPH).
2. Certify through submission of a written attestation to CDPH that the county has met the readiness criteria (outlined below), including guidance to be issued by the county and detailed plans, and that the county is designed to mitigate the spread of COVID-19.

See the [list of counties](#) that have met the criteria.

The three steps below outline the county data monitoring process.
