

**ORDER OF THE HEALTH OFFICER OF THE COUNTY OF CONTRA COSTA**

**UPDATED MASS QUARANTINE ORDER**

**NO. HO-COVID19-29**

**DATE OF ORDER: SEPTEMBER 14, 2020**

**Please read this Order carefully. Violation of or failure to comply with this Order is a misdemeanor punishable by fine, imprisonment, or both. (California Health and Saf. Code, § 120295.)**

**SUMMARY OF THE ORDER**

**California is in a State of Emergency because of the Coronavirus Disease 2019 (COVID-19) pandemic.** The spread of the novel coronavirus that causes COVID-19 is a substantial danger to the health of the public within the County of Contra Costa (“County”). COVID-19 can easily spread between people who are in close contact with one another. This Order is issued based on scientific evidence and best practices as currently known and available to protect vulnerable members of the public from avoidable risk of serious illness or death resulting from exposure to COVID-19. The age, condition, and health of a significant portion of the population of the County place it at risk for serious health complications, including death, from COVID-19. There is growing evidence of transmission risk from infected persons before the onset of symptoms. Thus, all individuals who contract COVID-19, regardless of their level of symptoms (none, mild or severe), may place other vulnerable members of the public at significant risk. Currently, there is no vaccine available to protect against COVID-19 and no standard treatment.

To help slow COVID-19’s spread, protect vulnerable individuals, and prevent the healthcare system in the County from being overwhelmed, it is necessary for the Health Officer of the County of Contra Costa to require the quarantine of persons exposed to a person diagnosed with COVID-19. Quarantine separates individuals who were exposed to COVID-19 from others, until it is determined that they are not at risk for spreading the disease.

This Order supersedes the July 5, 2020, Order of the Health Officer of the County of Contra Costa, No. HO-COVID19-23, directing close contacts of persons diagnosed with COVID-19 to quarantine themselves. Under this Order, an exception to the quarantine requirement that previously applied only to health care workers and first responder agency workers now applies to all essential critical infrastructure workers.

UNDER THE AUTHORITY OF SECTIONS 101040 AND 120175 OF THE CALIFORNIA HEALTH AND SAFETY CODE, THE HEALTH OFFICER OF THE COUNTY OF CONTRA COSTA (“HEALTH OFFICER”) ORDERS:

1. Health Officer Order No. HO-COVID19-23 is hereby superseded.
2. All persons who have had close contact with a person with COVID-19 (“Case), as described below in Section 3, must quarantine themselves. These persons are required to follow all instructions in this Order and the Public Health guidance documents referenced in this Order.
3. For the purposes of this Order, a person is considered to have had close contact with a Case if, during the Case’s infectious period, the person was within six feet of the Case for 15 minutes or longer. Examples may include persons who:
  - a. Live in, have visited, or have stayed overnight at the Case’s residence; or
  - b. Are intimate sexual partners of the Case; or
  - c. Worked within six feet of the Case; or
  - d. Provide or provided care to the Case without wearing a mask, a face shield or goggles, gown, and gloves; or
  - e. Have been identified as close contacts by the Contra Costa County Health Services Department.
  - f. Have been released from a California Department of Corrections and Rehabilitation Facility where a Case was reported among staff or detainees within 30 days before the person’s release.

For purposes of this Order, a Case is infectious from 48 hours before his or her symptoms began (or, in the absence of symptoms, from 48 hours before the date of administration of a positive test for the presence of COVID-19) and until he or she is released from isolation.

4. Instructions. All persons who have had close contact with a Case must immediately take the following actions:
  - a. Stay in their home or another residence through 14 days from the last date that they were in contact with the person infected or likely to be infected with COVID-19. Persons are

required to quarantine themselves for the entirety of the 14-day incubation period because they are at high risk for developing and spreading COVID-19.

b. Quarantined persons may not leave their place of quarantine or enter any other public or private place except to receive necessary medical care or during an emergency that requires evacuation to protect the health and safety of the person.

c. Carefully review and closely follow all requirements listed in the “Home Quarantine Instructions For Close Contacts,” posted at <https://www.coronavirus.cchealth.org/for-covid-19-patients>.

d. If a quarantined person becomes sick with fever, cough, or shortness of breath (even if their symptoms are very mild), he or she shall isolate themselves at home and away from other people and follow the “Self-Isolation Instructions for Confirmed Cases Instructions,” posted at <https://www.coronavirus.cchealth.org/for-covid-19-patients>. This is because the person is likely to have COVID-19 and if so, can spread it to vulnerable individuals. If a medical professional examines a quarantined person and determines that his or her symptoms are not due to COVID-19, the person may discontinue home isolation but shall continue to follow the home quarantine order and instructions.

5. Exception. Notwithstanding the foregoing, persons who are employed in any of the critical infrastructure sectors identified by the Cybersecurity & Infrastructure Security Agency (see <https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19>), have been determined by their respective employers to be essential workers, and who are household members, intimate partners, or caregivers of a person with COVID-19, are not subject to this Order under the following circumstances:

a. The worker informs his or her employer about the worker’s close contact to a lab-confirmed Case;

b. The worker is asymptomatic, and the worker’s employer determines, based on staffing needs, that the worker needs to report to work; AND

c. The worker returns to work.

6. The Health Officer may take additional action(s), which may include civil detention or requiring one to stay at a health facility or other location, to protect the public’s health if an individual who is subject to this Order violates or fails to comply with this Order.

7. This Order shall become effective at 12:01 a.m. on September 15, 2020, and will continue to be in effect until it is extended, rescinded, superseded, or amended in writing by the Health Officer.

8. Copies of this Order shall promptly be: (1) made available at the Office of the Director of Contra Costa Health Services, 1220 Morello Avenue, Suite 200, Martinez, CA 94553; (2)

posted on the Contra Costa Health Services website (<https://www.cchealth.org>); and (3) provided to any member of the public requesting a copy.

9. If any provision of this Order or its application to any person or circumstance is held to be invalid, then the remainder of the Order, including the application of such part or provision to other persons or circumstances, shall not be affected and shall continue in full force and effect. To this end, the provisions of this Order are severable.

10. Questions or comments regarding this Order may be directed to Contra Costa Health Services at (844) 729-8410.

**IT IS SO ORDERED:**

  
\_\_\_\_\_  
Chris Farnitano, M.D.  
Health Officer of the County of Contra Costa

Dated: September 14, 2020
