#### EXECUTIVE SUMMARY

The Capital Road Improvement & Preservation Program Report (CRIPP) summarizes the County's road improvement projects for the next seven years (Fiscal Years 2020/21 through 2026/27). The CRIPP is a programming document that is updated every two years to provide a strategy to program projects.

The Board of Supervisors adopted the Capital Road Improvement Policy on May 19, 1989 to guide the development and continuation of the Capital Road Improvement & Preservation Program (CRIPP). The first CRIPP was approved by the Board of Supervisors on April 17, 1990. When the Board approves the biennial CRIPP, it does not approve each individual project. The CRIPP often changes during the two-year cycle as each project is conceived, planned evaluated, designed, and ultimately constructed. The CRIPP conforms to the Countywide Congestion Management Plan prepared and administered by the Contra Costa Transportation Authority, which is also a sevenyear planning document that is produced biennially.

The following is a brief description of the CRIPP contents.

- <u>Section I</u> provides an introduction and background of the Capital Road Improvement & Preservation Program and how it relates to the overall County Road Program.
- <u>Section II</u> includes summary tables of the revenue and expenditure forecasts for the Capital Road Projects followed by a listing of each primary Capital Road Project funding source over the next seven years by and its related active project expenditures.
- <u>Section III</u> displays projects by Supervisor District with a detailed description of the active projects identified in Section II. The information provided for each active project includes a map and anticipated expenditure plan. Projects that are proposed but are not funded are listed in this section by Supervisor District **as** "unfunded" **projects**.

The appendices include the County road improvement policies, CRIPP related Board Documents and Resolutions, Area of Benefit project lists, and the Senate Bill 1 (SB1) -Road Maintenance Rehabilitation Act Resolution and project list.

The CRIPP provides a generally positive outlook over the next 7-year period as gas taxes have been increased through Senate Bill 1. However, as of the publish date of this CRIPP, the immediate effects of the expected economic downturn caused by the COVID-19 pandemic are yet unknown. It is likely that because people are driving significantly less, revenues from gas taxes will be down. One or more projects identified in this CRIPP may need to be postponed. The Public Works Transportation Engineering Division will continue to actively seek grants to offset the probable decrease in gas tax funding and the overall cost of capital projects in addition to seeking money to finance the unfunded projects listed in the document.

During the course of the next CRIPP, the County will continue to improve roadway safety through adoption of a Vision Zero Program and the complete streets initiatives where transportation is improved for all four modes of travel: pedestrian, bicycle, transit, and the automobile. The County will continue to innovate in the areas of safety and reliability.

iii

#### COUNTY OF CONTRA COSTA DISCLAIMER OF LIABILITY AND WARRANTIES

USER UNDERSTANDS AND AGREES THAT IT IS QUITE POSSIBLE THAT ERRORS AND OMISSIONS WILL OCCUR IN DATA INPUT AND/OR PROGRAMMING DONE BY COUNTY TO PROVIDE THE DATA IN THE FORM DESIRED, AND USER FURTHER UNDERSTANDS AND AGREES THAT IT IS HIGHLY PROBABLE THAT ERRORS AND OMISSIONS WILL OCCUR IN ANY RECORD KEEPING PROCESS, ESPECIALLY WHEN LARGE NUMBERS OF RECORDS ARE DEVELOPED AND MAINTAINED, AND THAT THE DATA MAY NOT MEET USER'S STANDARDS AS TO ACCURACY OR COMPLETENESS; NOTWITH- STANDING, USER AGREES TO TAKE THE DATA "AS IS," FULLY EXPECTING THAT THERE MAY WELL BE ERRORS AND OMISSIONS IN THE DATA OBTAINED FROM COUNTY.

USER FURTHER UNDERSTANDS AND AGREES THAT COUNTY MAKES ABSOLUTELY NO WARRANTY WHATSOEVER, WHETHER EXPRESSED OR IMPLIED, AS TO THE ACCURACY, THOROUGHNESS, VALUE, QUALITY, VALIDITY, MERCHANTABILITY, SUITABILITY, CONDITION, OR FITNESS FOR A PARTICULAR PURPOSE OF THE DATA OR ANY PROGRAMMING USED TO OBTAIN THE DATA, NOR AS TO WHETHER THE DATA IS ERROR-FREE, UP-TO-DATE, COMPLETE OR BASED UPON ACCURATE OR MEANINGFUL FACTS.

USER FURTHER UNDERSTANDS AND AGREES THAT IT FOREVER WAIVES ANY AND ALL RIGHTS, CLAIMS, CAUSES OF ACTION OR OTHER RECOURSE THAT IT MIGHT OTHERWISE HAVE AGAINST COUNTY FOR ANY INJURY OR DAMAGE OF ANY TYPE, WHETHER DIRECT, INDIRECT, INCIDENTAL, CONSEQUENTIAL OR OTHERWISE, RESULTING FROM ANY ERROR OR OMISSION IN DATA OR IN ANY PROGRAMMING USED TO OBTAIN THE DATA, OR IN ANY MANNER ARISING OUT OF OR RELATED TO THIS AGREEMENT OR THE DATA PROVIDED HEREUNDER. USER AGREES THAT COUNTY SHALL NOT BE LIABLE TO USER FOR ANY LIABILITY, CLAIM, LOSS, DAMAGE, INJURY OR EXPENSE OF ANY KIND CAUSED OR ALLEGED TO BE CAUSED, DIRECTLY OR INDIRECTLY, BY THE INADEQUACY OF ANY CMS OR GIS DATA OR ANY OTHER DEFICIENCY OF THE SYSTEMS, BY ANY DELAY OR FAILURE TO PROVIDE ANY SERVICE, OR BY ANY OTHER INTERRUPTION, DISRUPTION OR LOSS OF USER OPERATIONS. USER AGREES THAT IT WILL, IRRESPECTIVE OF ANY ALLEGED LIABILITY, CLAIM, LOSS, INJURY, DAMAGE OR EXPENSE CONTINUE TO PAY ALL CHARGES IN THE AMOUNTS STATED HEREIN UNTIL THIS AGREEMENT IS PROPERLY TERMINATED IN ACCORDANCE WITH ITS TERMS.

## NOTE: "THIS DATA CONTAINS COPYRIGHTED INFORMATION OF THE COUNTY OF CONTRA COSTA"

## **SECTION I**

## Introduction

## 1. INTRODUCTION TO THE 2020 CRIPP

This Capital Road Improvement & Preservation Program (CRIPP) publication is a programming document for the funding of capital road improvement projects within unincorporated Contra Costa County. Pursuant to the County Road Improvement Policy, this 2020 CRIPP schedules capital road improvement projects for fiscal years 2020/2021 through 2026/2027 and balances the estimated project costs with the projected revenues. Actual costs for Fiscal Year 2019/2020 data have been included to provide information on current fiscal year revenues and expenditures.

The CRIPP is used by the Public Works Director and staff to communicate upcoming capital road improvement projects. Section II describes the various funding sources for road projects, revenue projections and a summary of estimated project-related expenditures. For fully funded projects that are proposed to be constructed within the next seven fiscal years, estimated project costs, funding source information, and scheduling information are provided in Section III on detailed project sheets. Section III is also subdivided into Countywide area and Supervisor District. Projects covering more than one Supervisor District will be shown in their respective districts. Unfunded projects are listed after the project data sheets for each Supervisor District.

In addition to fully funded transportation capital projects, the CRIPP also includes a forecast of the budget to be spent on roadway preservation. Each year, selected roads throughout unincorporated Contra Costa County receive a surface treatment between June and October. The County Public Works Department has found that preventive maintenance using surface treatments is the most cost-effective way to extend the useful life of the County's road network.

Approval of the CRIPP by the Board of Supervisors does not automatically approve each individual project listed in the CRIPP. Each project in the CRIPP is subject to a separate public environmental review, engineering feasibility analysis, and environmental assessment. Also, each project is evaluated to be consistent with County policies, design guidelines, and regional planning documents, and other policies as may be adopted by the County where feasible. As each project is scoped and funding is sought, each project is assessed for opportunities for cost effectiveness, safety, reliability and sustainability. Since the CRIPP is a planning document, the details of each project are considered prior to the Board of Supervisors approval of each capital project just before construction.

Some projects may have cost increases and scope changes once these elements are evaluated in more detail. As information is gathered about each project, the Public Works Department may determine that the project will cost more than originally estimated for reasons not known at the time the CRIPP is published. In such cases, the Public Works Department will study various alternatives to find a solution to address the funding shortfall or by identifying other funding sources. The Public Works Department will then adjust subsequent CRIPPs to reflect any changes in project scope or cost.

## 2. <u>HISTORY OF THE CRIPP</u>

The CRIPP was established by Resolution 89/306 under the County Road Improvement Policy (attached as Appendix A). The Policy was authorized by Government Code Section 66002 and is required under the Growth Management Element of the Contra Costa Transportation and Growth Management Program approved by the voters in November 1988. This element was approved again in 2004 when Measure J, the half cent sales tax increase to fund transporation projects, was approved. Measure J funding, including the growth management program, is administerd by the Contra Costa Transporation Authority. In order to receive its share of funds from Measure J, all agencies are required by CCTA to develop and maintain a five-year CRIPP to meet and/or preserve traffic service and performance standards. In 1991, the CRIPP was expanded to cover seven years to conform to the Congestion Management Plan, and in 1992 the CRIPP update was changed to a biennial schedule.

## 3. THE COUNTY ROAD PROGRAM

The following pages describe the principal elements and activities of the County Road Program, and how the County Road Program budget is allocated.

- <u>The Capital Road Program</u> is the primary focus of this CRIPP document. The capital road program contains projects that have been scoped and included as part of the budget with a complete funding plan. Projects include safety improvements, active transportation improvements (such as bicycle and pedestrian-focused projects), pavement preservation and emergency repair projects in response to natural disasters.
- <u>Roadway Maintenance</u> ensures that the existing roadway system remains safe and convenient for public travel in a variety of modes: driving, walking and bicycling. Significant funding for the road program goes to public roadway maintenance and repair for the approximately 660 miles of the roadway network in the unincorporated areas of Contra Costa County maintained by the Public Works Department. Some of the types of work include the following:
  - Repair failed pavement and road shoulders
  - o Repair road slides
  - o Install traffic signs and striping
  - o Repair and replace guardrails
  - o Install and repair culverts and storm drain pipe
  - Remove debris from the public road right of way

- <u>Traffic-related activities</u> typically include the responsibility for traffic control devices on County roadway and activities such as the following:
  - Review plans for construction projects proposed in the County
  - Coordinate with California Highway Patrol and other Law Enforcement Agencies in regards to traffic enforcement on County Roadways
  - Respond to residents regarding traffic complaints and concerns
  - o Investigate collision reports on County roads
  - o Identify locations with recurring or high collision rates
  - Conduct Engineering and Traffic Surveys on major roadways to establish speed limits
  - Ensure necessary roadway signing, striping, and pavement markings are in place on County roadways
- <u>Transportation planning activities</u> include the following activities:
  - Developing and implementing capital improvements, maintenance projects, bicycle and pedestrian projects, and neighborhood traffic management plans,
  - Advanced planning for the County's transportation system
  - Developing long-term strategic plans to implement the circulation element of the County General Plan
  - Developing and updating the seven year CRIPP, seeking funding opportunities to support public works road related activities (e.g., traffic mitigation fee program, grant program)
  - Working with the Engineering Services Division and Community Development to review and comment on development projects' impacts to the County's road network,
  - Working with the Board of Supervisors, community and other jurisdictions to resolve transportation/traffic concerns
  - Coordinating with state, regional, and other local governments on major roadway projects important to the region (e.g. State Route 4 Bypass)

The average annual total budget for the County road program is \$62.1 million for the period FY17/18 to FY22/23. This six-year period includes actual expenses for the past 3 years and a projection of future expenditures for the next 3 years.

The average annual Capital Road Program budget accounts for approximately 42% of the total road program budget for this same six-year period (see Figure 1). The average annual budget for Maintenance activities is approximately 48% of the road program budget. Lastly, Traffic Engineering and Transportation Planning activities are 1% and 9% of the program, respectively.

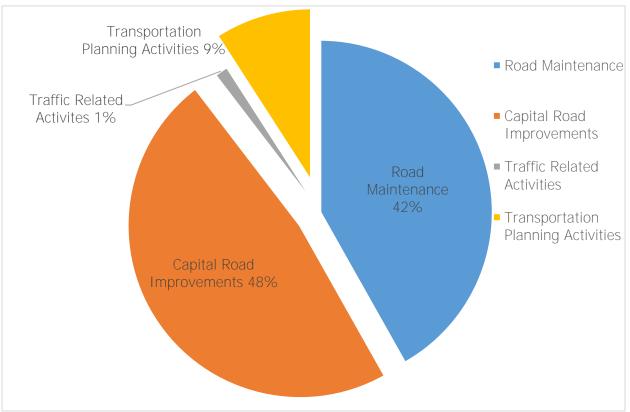

Figure 1: Average Annual County Road Program Budget Percentage (FY 17/18 to FY 22/23)

## 4. THE CAPITAL ROAD PROGRAM

<u>The Capital Road Program</u> contains projects that have been scoped and included as part of the budget with a complete funding plan. Projects include safety improvements, active transportation improvements (such as bicycle and pedestrian-focused projects), pavement preservation and emergency repair projects in response to natural disasters. Capital Road Program projects are funded by a variety of local, state and federal funding sources as discussed in Section II of this CRIPP.

Examples of Federal grants include the Active Transporation Plan (ATP) and Highway Safety Improvement Plan (HSIP). Grants may be offered through the State level with Caltrans Local Assistance or through the Regional level with from the Bay Area Metropolitan Transporation Commission (MTC). Local funds include developer fees collected through the Area of Benefit (AOB) program and Measure J funds from the countywide quarter cent increase in sales tax. Additional information on funding sources and grants can be found in Section II of this CRIPP.

The primary and most critical funding source for all roadway capital projects is gas tax as discussed below.

#### A. IMPORTANCE OF GAS TAX

The County uses the majority of the Gas Tax funds for road operation and maintenance, but the next most significant portion is used for capital projects. Gas tax funds are also the main source of funding for traffic and transportation planning activities. (Figure 2 shows how the gas tax is distributed between these four categories.)

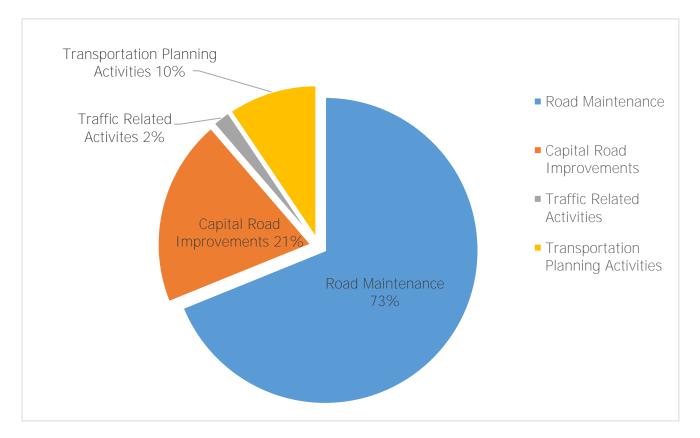

Figure 2: Gas Tax Percentage Allocation (FY 17/18 to FY 22/23)

Gas Taxes as Leverage for State and Federal Grant Programs

Gas tax is the primary source for the required local match necessary to go after state and federal grants for capital projects. Without it the County would miss an opportunity to obtain additional outside funding to help construct much needed safety, maintenance, and multi-modal transportation improvements. Gas taxes also fund staff time to prepare the actual grant application. Last year for every \$1 dollar spent on staff time to prepare grant applications, the County was able to get about \$9 dollars in return. This resulted in successfully securing \$4,449,000 at a cost of \$498,900. There are currently 26 active projects that are grant funded in the amount of \$66 million with a \$24.1 million gas tax match.

#### Gas Tax Update: Excise Taxes and Senate Bill 1

Gas Tax Funds come from the Gas Excise Tax which is based on the number of gallons of gasoline sold. The County has seen a slight increase in the Gas Excise Tax over the past several years because the number of gallons overall has increased but this increase is tempered by the use of more fuel-efficient cars and electric vehicles. Despite this increase and prior to Senate Bill 1 (SB1) described below, the amount of gas tax that the County received was not sufficient to fund ongoing maintenance and repair of roadways in the unincorporated areas.

To address the need for additional local road funds for cities and counties throughout the State, the Governor signed SB1 in 2017. SB 1, is also known as the Road Repair and Accountability Act (RRAA) of 2017. SB1 provides much needed transportation funding for California to address basic road maintenance, rehabilitation, and critical safety needs on both the state highway and local streets and road system.

The California State Association of Counties (CSAC) annually provides an estimate of the yearly revenues generated from this transportation bill. As of the publish date of the CRIPP, the economic impacts of the COVID 19 virus are not yet known and the estimates below do not yet reflect the expected decline in gas tax revenue. CSAC has estimated the County will receive a a total estimated amount of \$41million in gas tax revenue for FY19/20 with approximately \$16 million from the Road Maintenance and Rehabilitation Account (RMRA) program under SB1. Total gas tax revenues in FY20/21 are estimated to be \$41.7 million, of which the RMRA portion is \$16.4 million. Gas tax revenue to Cities and Counties will steadily grow in future years due to the built-in inflationary index.

SB1 emphasizes the importance of accountability and transparency in the delivery **of California's** transportation programs. Therefore, in order to be eligible for RMRA funding, state statute requires cities and counties to provide basic RMRA project reporting to the California Transportation Commission (Commission), which the Public Works Department does on an annual basis.

Prior to receiving an apportionment of RMRA funds from the State Controller in a fiscal year, a city or county must submit to the Commission a list of projects proposed to be funded with these funds. All projects proposed to receive funding must be included in a city or county budget that is adopted by the applicable city council or county board of supervisors at a regular public meeting.

The list of projects must include a description and location of each proposed project, a proposed schedule for the project's completion, and the estimated useful life of the improvement. The project list does not limit the flexibility of an eligible city or county to fund projects in accordance with local needs and priorities so long as the projects are consistent with RMRA priorities. Some example projects and uses for RMRA funding include, but are not limited to the following:

- Road Maintenance and Rehabilitation
- Safety Projects
- Railroad Grade Separations

- Complete Streets Components (including active transportation purposes, pedestrian and bicycle safety projects, transit facilities, and drainage and stormwater capture projects in conjunction with any other allowable project)
- Traffic Control Devices

The County Board of Supervisors adopted a list of projects to be funded with RMRA funds for the FY20/21 on April 28,2020 (See Appendix E). It should be noted that this project list is a small subset of the proposed project delivery list that is outlined in the CRIPP and only focuses on how the RMRA funds will be expended as required by the Commission.

### 5. <u>CRIPP FUTURE OUTLOOK</u>

#### A. DIFFERENCES IN PROGRAMMING OF EARLIER YEARS VERSUS LATER YEARS

The years at the beginning of the period covered by this program have more projects programmed than in later years. Additional funding will need to be sought in the later years to offset transportation needs. For example, the funds needed for maintenance activities continue to increase as more infrastructure is built, the construction costs rise, new regulatory standards are adopted, and additional maintenance activities beyond the scope of regular maintenance work are needed.

In addition, projects may have unexpected cost increases and/or project scope changes, therefore, the CRIPP will change as more is learned more about each project. As transportation issues arise, new projects will be programmed in response to these issues and supplemental funding (such as grants) will be sought to balance the new project costs. These changes will be reflected in future CRIPP publications.

#### B. SEVEN YEAR OUTLOOK

#### 1.) Revenues

The CRIPP provides a generally positive outlook over the next 7-year period, however, the immediate effects of the expected economic downturn caused by the COVID-19 pandemic are yet unknown. It is likely that because people are driving significantly less, revenues from gas taxes will be down. One or more projects identified in this CRIPP may need to be postponed. The Public Works Transportation Engineering Division will continue to actively seek grants to offset the probable decrease in gas tax funding and the overall cost of capital projects in addition to seeking money to finance the unfunded projects listed in the document.

#### 2.) Complete Streets

Figure 3: Typical Complete Streets Concept from bouldercolorado.gov

In 2016, the County Board of Supervisors adopted the Complete Streets Policy to ensure that Complete Streets infrastructure was incorporated, wherever feasible and as opportunities were presented into Capital Projects developed and constructed by the Public Works Department. The Complete Streets concept is to provide safe, comfortable, and convenient travel along and across public rights-of-way (including streets, roads, highways, bridges, paths, and other portions of the **County's transportation system) through a comprehensive integrate**d transportation network that serves all categories of users, including pedestrians, bicyclist, persons with disabilities, motorists, movers of commercial goods, users and operators of public transportation, seniors, children, youth, students, and families. Complete Streets is a design approach that requires roadways to be planned, designed, operated, and maintained to enable safe, convenient and comfortable travel and access for users of all ages and abilities, regardless of their mode of transportation.

In the past, significant resources went to developing projects that solely benefitted motorists by increasing capacity and resulting in greater vehicular speeds. In recent years, there has been more sensitivity toward the other modes of travel. The challenge for Public Works Department is to determine which roads are suitable for Complete Streets and achieve a balance between right-of-way and utility impacts, and the responsibility of managing project budget to construct the additional improvements while anticipating and projecting future maintenance costs associated with added pavement widths, streetscapes, and landscaping.

#### 3.) Vision Zero

Figure 4: County Roadways are patrolled by CHP. Collision reports produced by CHP on County roads provides a data source for our Traffic Section to regularly review potential "hot spots"; and propose potential countermeasures to reduce collision rates.

The County is looking ahead to adopt a Vision Zero program. Vision Zero is a shift in the way we think of injury and deaths on our roadways systems. Instead of thinking of them an inevitable, no collision that results in death or serious injury is considered acceptable. Vision Zero is used to **identify the six "E's": education, encouragement, engineering, enforcement, emergency services,** and evaluation that will make the roadways safer. Rather than focus all efforts in reaction to a single collision, the Vision Zero concept takes a holistic approach to proactively educate users through public service campaigns and targeted enforcement. Vision Zero requires agencies to rethink how and where to devote limited resources towards the end goal of saving lives and pain from injury on its roadway network.

#### 4.) Improving Water Quality

Figure 5: Sample Bioretention Basin Project to support our Green Infrastructure Policy

The County is looking to incorporate Green Infrastructure into future road improvement projects to comply with the State of California Regional Water Quality Control Board Municipal Regional Permit, which also represents a new challenge facing the County as it creates additional demand on the budget. The County will be considering more features such as bioretention basins and trash capture devices to improve the water quality of urban runoff into the Bay from the public road right of way. Funding for these features must be idenfied as it often relates to an increase in construction cost, as additional environmental impacts and more right-of-way may be needed, as well as an increase in annual maintenance costs.

## 6. <u>PROJECT HIGHLIGHTS</u>

Over the past two years, since the publication of the last CRIPP, the County has constructed a variety of projects ranging from safety improvements, active transportation improvements (such as bicycle and pedestrian-focused projects), to emergency repair projects. Examples of these types of projects are described below.

A. Pacheco Boulevard Sidewalk Gap Closure Phase III Project (Bike/Ped Project Gap Closure)

Figure 6: Without a continuous path, pedestrains walked in the roadway shoulder

This project on Pacheco Boulevard in Pacheco was envisioned to increase connectivity for pedestrians and bicyclists over Vine Hill Creek along the Pacheco Boulevard corridor adjacent to Las Juntas Elementary School. This project is part of a series of sidewalk gap closure projects along the Pacheco Boulevard corridor. This segment is important due to its proximity to Las Juntas Elementary School and sensitivity to a creek crossing. Surveys from parents and school administrators advocating for the project indicated that they wanted to improve safety for students walking to school.

The project was funded by an Active Transportation Program (ATP) federal grant, the Martinez Area of Benefit (AOB), Measure J, and gas taxes. The Public Works Department Design-Construction Division engineered, advertised, and in 2018, completed the project. The project has been well-received by the users of the new sidewalk.

Figure 7: Post-construction image of the new sidewalk/culvert extension

B. Rio Vista Pedestrian Connection Project (Ped Project/Water Quality Treatment)

*Figure 8: Pre-Construction Image of Pacific Avenue (above)* 

Figure 9: Post-Construction Image with bike lanes and new sidewalk with permeable concrete

The Rio Vista Pedestrian Connection Project closed a sidewalk gap on the north side of Pacifica Avenue, across from Rio Vista Elementary School, Bay Point, and brought an existing bike lane up to standard to improve the pedestrian and bicycle infrastructure in the area. The concern that initiated this project was potential risks due to traffic congestion and the large number of students that converge on Pacifica Avenue during drop-off and pick-up times.

The community-based public participation process for this project consisted of meetings with the individual school principals and the staff at the Mt. Diablo Unified School District. District 5 spearheaded this effort and was grant funded.

The project was funded by an Active Transportation Program (ATP) federal grant, Bay Point Area of Benefit (AOB), and gas taxes. The project was designed in-house by the Public Works Department **Design-Construction** Division. The project was constructed in 2018 and included pervious concrete sidewalk as part of the County's Green Infrastructure. The purpose of the permeable concrete is to help clean the storm water before it drains into a public drainage system and ultimately into the Bay.

C. Emergency Projects: Morgan Territory Road Slide Repair and Alhambra Valley Road Slide Repair

Figure 11: Washout of Alhambra Valley Road in West County

Figure 10: Post Construction Image of Alhambra Valley Road

In between the publication of the last CRIPP, two large-scale emergency projects occurred. The first was the Morgan Territory Slide repair that resulted in a stabilization of a road that was sliding. The second was the Alhambra Valley Road Washout project that resulted in the construction of a new bridge over Pinole Creek Both projects. Both projects used gas taxes to get started and to apply for emergency funding. Each project had to go through the environmental process (CEQA) and coordinate with regulatory agencies. Although they were each designed by consultants, the Design-Construction Division oversaw the work to ensure it met County standards.

These sorts of projects would normally take five or more years to program, design, and build, but due to their emergency nature and the high importance of returning public access, these bridge projects were designed and constructed in less than two years from the time of the storm event. This means that the projects were "active projects" that were never shown in the seven year CRIPP because they occurred between publications.

*Figure 13: Resident surveying the Morgan Territory Washout in Central County*

## SECTION II

**Funding Sources** 

#### CAPITAL ROAD IMPROVEMENT & PRESERVATION PROGRAM - FUNDING SOURCES

#### 1. PROJECTED ANNUAL REVENUE SUMMARY

Table A, on page 24, is a summary of future revenue based on historical trends and current AOB development applications for the Capital Road Program. Part I of Table A is a summary of the primary funding sources for the capital road program including an estimate of gas tax revenues, Measure J Return to Source Funds and Area of Benefit programs. Other funding sources such as state match program funds and federal funds are based on actual amounts the County is expected to receive for the various road projects in the program. Continued efforts to secure grants and maintain cooperative relationships with other public agencies will allow the County to make the best use of its financial resources for capital improvement projects.

Part II of Table A represents an estimate of the individual funding sources from the Area of Benefit (AOB) program. The rate at which AOB revenue is generated is tied to the land development rate. Future AOB revenue is expected to increase at a steady pace.

Part III of Table A represents the funding sources from the County Trust Funds. Funds held in County Trust Funds are only shown in the CRIPP if they are proposed to be used on specific projects within the CRIPP time period.

#### 2. ESTIMATED ANNUAL EXPENDITURES SUMMARY

Table B, on page 25, is an estimate of the future expenditures for each funding source. This table is based on the costs of the active projects within each funding source, and the expected expenditures for that funding source. If the revenues in Table A fall short of expectations, the expenditures in Table B will have to be adjusted accordingly.

## Table A: Summary of Projected Annual Revenues for Capital Projects and Pavement Surface Treatments

3. Gas Tax Funds: Gas Tax Funds, also known as the Highway Users Tax Account, are revenues paid by the State to cities and counties from the per-gallon motor vehicle fuel tax. This section is **a continuation of the Introduction's background description of the Gas Tax.** Appendix B of this CRIPP shows the County-adopted guidelines for the expenditure of Gas Tax revenues following passage of Proposition 111 in 1990.

Note: Expenditure Total represents future cost only. For actual costs to date, please refer to the project data sheets in Section III

4. State Match Funds: State Match Funds are revenues paid by the State to counties from the State Highway Account. The funds are to be used for transportation purposes to match federally funded transportation projects. Funds received are treated as grants with up-front lump sum **payments and the unobligated balance of the County's State Matching monies is paid directly to** the County, subject to availability from the State. The County uses the State Match Funds to supplement federally funded projects.

### State Match Funds

5. Measure J (formerly Measure C): The voters approved the Contra Costa Transportation Improvement and Growth Management Program Ordinance (Measure C) in November 1988. Measure C provides for a ½-cent sales tax for transportation projects within Contra Costa County. Measure C had a twenty-year life and expired in 2009. In November 2004, voters approved the **continuation of the County's ½** - cent sales tax by passing Measure J and extended the transportation funding for 25 more years. The Measure J funds are composed of several different funding programs. Return to Source Funds and Regional Funds are described here.

- a. Measure J Return to Source Funds: A portion of the revenue is returned to local jurisdictions to be used for maintenance of existing roadways and construction of new facilities to fix capacity and safety problems in existence before 1988 (those problems that came into existence after 1988 are presumed to be the responsibility of new development). The proposed use for these funds is outlined in this CRIPP.
- b. Measure J Subregional Transportation Needs Funds: A portion of the revenue is designated for projects of a regional significance. For the portion of these funds that the County has access to, the proposed use is outlined in this CRIPP.

6. Federal, State, and Regional Grant Funds: The Public Works Department continuously submits grant applications due at various times of the year for projects throughout the County. Each type of grant has unique funding objectives. Some of these grants and their descriptions are listed in Appendix A. Most applications compete statewide for funding, from the smallest safety project to the largest road extension project. In many cases where Gas Tax funds are used, the Public Works Department looks for grants or other ways to stretch its budget and to increase the number of improvement and maintenance projects.

A quick summary of Federal, State, and Regional grants that are funding active projects in this CRIPP are listed below. To see what funds are associated with the projects in the table, please refer to the detail project sheets in Section III.

- ATP Active Transportation Program consolidated various transportation grant programs, which included various state and federal funds. The goals of the ATP include, but are not limited to, increasing the proportion of trips accomplished by walking and biking, increasing safety and mobility of non-motorized users, advancing efforts of regional agencies to achieve greenhouse gas reduction goals, enhancing public health, and providing a broad spectrum of projects to benefit many types of users including disadvantaged communities.
- HBP Highway Bridge Program is to replace or rehabilitate public bridges when State and Federal Highway Administration determine that a bridge is significantly important and qualifies under the HBP program guidelines.

- HSIP Highway Safety Improvement Program is a Federal-aid program with the goal to reduce the number of traffic fatalities and serious injuries on all public roads.
- OBAG One Bay Area Grant program is a Metropolitan Transportation Commission funding approach that target project investments in Priority Development Areas and regional capital projects that focus on 1) local street and road maintenance, 2) streetscape enhancements, 3) bicycle and pedestrian improvements, 4) transportation planning, and Safe Routes to School projects.
- TDA Transportation Development Act is an annual competitive regional fund intended for projects to improve pedestrians and bicyclist safety and accessibility.

Note: Expenditure Total represents future cost only. For actual costs to date, please refer to the project data sheets in Section III

7. Area of Benefit (AOB) Revenues: The unincorporated areas of Contra Costa County are divided into several Area of Benefits for road improvements focused on mitigating impacts of new development on the transportation network. Appendix D has a page for each AOB containing the current Ordinance Number, the project list, and an AOB map.

Within each AOB, road improvement projects to alleviate known traffic congestion or traffic safety problems have been identified and prioritized. An AOB fee is charged to all developments that create additional traffic in the area, to pay for these projects. The fee amount varies depending on which AOB the property is located in, the amount of traffic generated by the development, and the cost of the projects **identified on that AOB's Project List.** 

A seven-year revenue estimate was made for each of the AOBs using the past five-year revenue history. The development potential within their respective AOB is also taken into account after consulting with the Engineering Services and the Finance Division within the Public Works Department.

The AOB program is constantly being updated. The updates include, revising the AOB project lists, revising the fee schedules, adjusting the fee schedule for inflation, and adjusting the remaining development potential. The updates may have a significant impact on potential project funding. In addition, several AOBs are being merged or incorporated into an adjacent AOB to become more fiscally efficient. Current AOB fees can be accessed on the County web site at <u>http://www.cccounty.us/AOB</u>. The following AOBs have active capital projects and/or proposed future AOB projects.

- Alamo AOB
- Bay Point AOB
- Central County AOB
- East County (Regional) AOB
- Martinez AOB
- North Richmond AOB
- South County AOB

In the past CRIPPS, AOB Administrative expenditures were shown but are no longer considered as a capital improvement project. As a result, the following AOBs and mitigation funds have no active project and will not be shown in this section:

- Bethel Island AOB
- Briones AOB
- Bethel Island AOB
- Discovery Bay AOB
- Hercules/Crockett/Rodeo AOB
- Pacheco (West) FOAB
- Richmond/El Sobrante AOB
- South Walnut Creek AOB
- West County AOB
- Discovery Bay West Mitigation Funds

Revenue and End of Year balance for these AOBs can be found in Table A and Table B.

8. Trust Funds: When a large development makes a significant impact on the roadway system, the developer may be required to contribute to a road improvement fund to mitigate the impacts of the development. The County has three trust funds to be used for specific projects. Navy Mitigation Funds in the Bay Point Area provided \$5 million to help fund new transportation improvements and waterfront access to offset the loss of Port Chicago Highway through the Concord Naval Weapons Station. Other developer fees include the Discovery Bay West Traffic Mitigation Funds, and the Keller Canyon Mitigation Funds. Each of these funds is held in trust by the County and is listed as separate funding sources in this CRIPP.

9. Other Local Funds: These funds include monies from other partner agencies that are participating in construction of a project due to a shared responsibility of the facility. In addition, funds also come from several Regional Fee programs throughout the County where the fee program is adopted by several participating jurisdictions and is administered jointly through a separate authority. As these Regional Fee programs are not under the authority of the County, the revenue and expenditures for these programs are not included in the CRIPP. The Regional Fee programs include the East Contra Costa Regional Fee and Financing Authority (ECCRFFA), the Southern Contra Costa (SCC) Fees, West Contra Costa Transportation Advisory Committee Fee (WCCTAC), and the Tri Valley Transportation Development (TVTD) Fee.

# SECTION III

Capital Road Projects by Countywide and Supervisor Districts

## III. PROJECTS BY DISTRICT

#### CAPITAL ROAD PROJECTS

This section contains the projects, project descriptions, and proposed funding schedule. The projects are sorted geographically by County Board of Supervisor Districts (District) and each **"tabbed"** District displays project information on data sheets. Each tabbed District section contains the following information:

District-wide project overview map provides a quick reference to locate active projects.

Active project list within the District (excluding countywide projects as discussed below) with project descriptions allow the reader to view the active projects.

Active project data sheets include a project description, funding schedule, and vicinity map. In support of Road Program's four areas of focus, these projects are categorized as follows:

Project	Description
Category	
Safety	Safety projects are scoped primarily to reduce vehicle, pedestrian, and bicycle collisions. Almost all projects have a safety aspect; however to be categorized as a safety project, it must have been originally scoped to have a safety component rather than specifically for a reliability, efficiency, or accessibility component. For example, pedestrian enhancements and other non-vehicular safety projects are categorized <b>"Accessibility."</b>
Reliability	Reliability projects are scoped to improve or sustain a rating index such as pavement condition index (PCI), Bridge Sufficiency rating, Bridge Health Index, and Culvert Condition Index (under development). Pavement and bridge projects <b>are typically categorized "Reliability</b> ."
Efficiency	Efficiency projects are usually generated from Level Of Service (LOS) studies, from roadway capacity issues, or from traffic signal warrants. LOS studies are often found in Area of Benefit studies. Efficiency projects tend to be more costly to design and construct since these are more systemic improvement than localized improvements.
Mobility	Accessibility project include ADA upgrades, pedestrian and bicycle improvements, and pedestrian flashers. Complete street projects are usually placed in this category.

County-Wide Projects are introduced before District I. These projects are on-going programs that vary geographically on a yearly basis. For example, a County-Wide Curb Ramp project may focus on one area of the County, and another area in the following year.

Unfunded projects are listed last in each tabbed area. These projects have been proposed but await funding. Many of these projects are part of a long-term, regional transportation plan, so it may be many years before these projects are considered. The list is reevaluated from time to time to add new projects or to remove projects that no longer suit the County. The following is a complete project list, sorted by Active and Underfunded projects and its associated Board of Supervisor District location.

PROJECT DESCRIPTION	ACTIVE/ UNFUNDED	BOS DISTRICT
6th Street Rodeo Sidewalk Project – Parker Avenue to Garretson	Unfunded	5
7th Street Sidewalk Project – Parker Avenue to Garretson	Unfunded	5
Alhambra Valley Road Safety Improvements – (Various Locations)	Unfunded	5
Alhambra Valley Road Embankment Repair Site 1 – West of Castro Ranch Road	Active	1
Alhambra Valley Road Embankment Repair – 0.4 miles west of Bear Creek Road	Active	1, 5
Alhambra Valley Road Storm Repair Project – Ferndale Site	Active	5
Alves Lane Extension – Willow Pass Road to Pacifica Avenue (AOB)	Unfunded	5
Appian Way & Argyle Drive Signal Project	Unfunded	1
Appian Way & Pebble Drive Traffic Signal Project	Unfunded	1
Appian Way & Santa Rita Road Traffic Signal and Safety Improvements	Unfunded	1
Appian Way Complete Streets Project - San Pablo Dam Road to Valley View Road	Unfunded	1
Appian Way Complete Streets Project - Valley View Road to Pinole City Limits	Unfunded	1
Arlington Boulevard Intersection Improvements at Rincon Road/Kensington Road, Westminster Avenue, Sunset Drive, Coventry Road, Amherst Avenue, and Vine Avenue/Highland Avenue	Unfunded	1
Ayers Road & Concord Boulevard Intersection Improvements (AOB)	Unfunded	4
Ayers Road & Laurel Avenue Intersection Improvements (AOB)	Unfunded	4
Ayers Road & Myrtle Drive Intersection Improvements (AOB)	Unfunded	4
Bailey Road & Myrtle Drive Intersection Improvements (AOB)	Unfunded	4
Bailey Road and Mary Anne Lane Signal Project	Unfunded	5
Bailey Road Improvements - Myrtle Drive to Concord City Limits (AOB)	Unfunded	4

PROJECT DESCRIPTION	ACTIVE/ UNFUNDED	BOS DISTRICT
Bailey Road Overlay Project - SR4 to Keller Canyon Landfill Entrance	Unfunded	5
Bailey Road Pedestrian & Bicycle Improvements – Canal Road to Willow Pass Road (AOB)	Unfunded	5
Balfour Road & Byron Highway Intersection Improvements (AOB)	Unfunded	3
Balfour Road Shoulder Widening – Deer Valley Road to Brentwood City Limits	Unfunded	3
Bailey Road/SR4 Interchange Improvements	Active	5
Bay Point Utility Undergrounding Project	Active	5
Bear Creek Road – Road Embankment Repair	Active	1,5
Bear Creek Road & Happy Valley Road Intersection Improvements (AOB)	Unfunded	1, 2
Bear Creek Road Safety Improvements – Alhambra Valley Road to the City of Orinda	Unfunded	1, 2, 5
Bel Air Trail Crossing Project	Active	5
Bella Vista Infrastructure Improvements	Unfunded	5
Bethel Island Road & Sandmound Road Intersection Improvements	Unfunded	3
Bethel Island Road Widening - Taylor Road to Sandmound Boulevard (AOB)	Unfunded	3
Bixler Road Improvements - SR 4 to Byer Road (AOB)	Unfunded	3
Boulevard Way Bicycle and Pedestrian Project	Unfunded	2
Bridge Preventative Maintenance Program	Active	Various
Brookside Drive Complete Streets – Central Street to Union Pacific Railroad (AOB)	Unfunded	1
Buskirk Avenue Improvements - Treat Boulevard to Pleasant Hill City Limits (AOB)	Unfunded	4
Byer Road Improvements - Bixler Road to Byron Highway (AOB)	Unfunded	3
Byron Highway / Byer Road Safety Improvements	Active	3
Byron Highway / SR4 / Point of Timber Intersection Improvements (AOB)	Unfunded	3

PROJECT DESCRIPTION	ACTIVE/ UNFUNDED	BOS DISTRICT
Byron Highway Bridge Replacement over California Aqueduct (Bridge No. 28C0121)(Project Sponsor: Dept of Water Resources)	Active	3
Byron Highway Safety Improvements (Various Locations)	Unfunded	3
Byron Highway Widening - Camino Diablo to the Alameda County Line (AOB)	Unfunded	3
Byron Highway Widening (Chestnut Street to SR4)(AOB)	Unfunded	3
Byron Highway Widening (Delta Road to Chestnut Street) (AOB)	Unfunded	3
Byron Highway Widening (SR 4 to Camino Diablo)(AOB)	Unfunded	3
Camino Diablo Widening – Vasco Road to Byron Highway (AOB)	Unfunded	3
Camino Tassajara Safety Improvements – Windemere Parkway to Alameda County Line	Active	3
Camino Tassajara Safety Improvements (Various Locations)	Unfunded	3
Canal Road Sidewalk Project – 420 feet south of Winterbrook Drive to Chadwick Lane	Unfunded	5
Castro Ranch Road Widening - San Pablo Dam Road to Olinda Road	Unfunded	1
Center Avenue Bicycle and Pedestrian Improvements - Pacheco Boulevard to Marsh Drive (AOB)	Unfunded	5
Central Street Complete Street - Brookside Drive and Pittsburg Avenue (AOB)	Unfunded	1
Chesley Avenue Traffic Calming – Fred Jackson Way and AOB Boundary (AOB)	Unfunded	1
Chestnut Street Widening – Sellers Avenue to Byron Highway (AOB)	Unfunded	3
Clifton Court Road Bridge Repair (Bridge No. 28C0403)	Unfunded	3
Clipper Drive Improvements – Newport Drive to Discovery Bay Boulevard (AOB)	Unfunded	3
Colusa Avenue Complete Streets Project	Unfunded	1
Concord Avenue Shared Use Path (AOB)	Unfunded	4
Countywide Curb Ramp Project	Active	Various
Countywide Guardrail Upgrade Project	Active	Various

PROJECT DESCRIPTION	ACTIVE/ UNFUNDED	BOS DISTRICT
Crockett Area Guardrail Upgrades	Active	5
Crockett Area Overlays & Reconstruction Project	Unfunded	5
Cummings Skyway - Widen Interchange at I-80	Unfunded	5
Cummings Skyway Truck Climbing Lane Extension	Unfunded	5
Danville Boulevard & Hemme Avenue Intersection Improvements (AOB)	Unfunded	2
Danville Boulevard/Orchard Court Complete Streets Improvements (AOB)	Active	2
Deer Valley Road Safety Improvements (Various Locations)	Unfunded	3
Delta DeAnza Trail Connection – Class I bikeway Port Chicago Highway in Bay Point to Iron Horse Trail in Concord	Unfunded	5
Delta DeAnza Trail Connection – Upgrade trail crossings Driftwood Drive to Canal Road	Unfunded	5
Delta Road Sidewalk & Bike Lanes Project – Knightsen Avenue to Knightsen Elementary School	Unfunded	3
Delta Road Widening – Byron Highway to Holland Tract Road (AOB)	Unfunded	3
Delta Road Widening - Sellers Avenue to Byron Highway (AOB)	Unfunded	3
Dewing Lane Pedestrian Bridge (AOB)	Unfunded	2
Discovery Bay Boulevard & Clipper Drive Intersection Improvements (AOB)	Unfunded	3
Driftwood Drive Improvements – Port Chicago Highway to Pacifica Avenue (AOB)	Unfunded	5
Eden Plains Road Widening – Sunset Road to Marshall Court	Unfunded	3
Evora Road & Willow Pass Road Intersection Improvements	Unfunded	5
Evora Road Extension – Current western terminus of Evora Road, to Port Chicago Highway	Unfunded	5
Evora Road Widening – Willow Pass Road (Bay Point) to Willow Pass Road(Concord)	Unfunded	5
Fish Ranch Road Safety Improvements - SR 24 to Grizzly Peak Road (AOB)	Unfunded	2
Franklin Canyon Undercrossing – Sobrante Ridge to Carquinez Strait Trail	Unfunded	5

PROJECT DESCRIPTION	ACTIVE/ UNFUNDED	BOS DISTRICT
Fred Jackson Way Complete Streets Project - Between Chesley and Parr Boulevard (AOB)	Unfunded	1
Fred Jackson Way Complete Streets Project - Intersection with Chelsey Avenue (AOB)	Unfunded	1
Fred Jackson Way, First Mile/Last Mile Connection	Active	1
Fred Jackson Way/Goodrick Avenue Realignment	Unfunded	1
Freeman Road and Briones Valley Road Bridge Maintenance Project	Active	2, 3
Gateway Road Widening – Bethel Island Road to Piper Road (AOB)	Unfunded	3
Gloria Terrace Sidewalk Project – Taylor Boulevard to Reliez Valley Road	Unfunded	5
Goodrick Avenue - Fred Jackson Way to AOB Boundary (AOB)	Unfunded	1
Happy Valley Road Embankment Repair	Active	2
Hemme Avenue Sidewalk Improvements between La Sonoma Way (west side) to Iron Horse Trail (two segments)	Unfunded	2
Highland Road Improvements – Camino Tassajara to Alameda County Line	Unfunded	3
Holway Drive Safety Improvements – Main Street to Camino Diablo Road	Unfunded	3
I-680 Bikeway Signage – Rudgear Road to Danville Town Limits	Unfunded	2
Imhoff Drive Bicycle Shoulder Restriping	Active	5
Iron Horse Trail Flashers	Unfunded	2, 4
Jones Rd Bike Route Project Oak Road to Canal Trail	Unfunded	4
Kirker Pass Road Bicycle Project	Unfunded	4, 5
Kirker Pass Road Northbound Runaway Truck Ramp	Unfunded	5
Kirker Pass Road Northbound Truck Climbing Lane	Active	4, 5
Kirker Pass Road Safety Project	Active	5
Kirker Pass Road Southbound Truck Lane	Unfunded	5

PROJECT DESCRIPTION	ACTIVE/ UNFUNDED	BOS DISTRICT
Knightsen Avenue & Delta Road Intersection Improvements (AOB)	Unfunded	3
Knightsen Avenue Widening – East Cypress Road to Delta Road (AOB)	Unfunded	3
Knightsen Avenue/Eden Plains Road Widening – Delta Road to Chestnut Street (AOB)	Unfunded	3
La Paloma Road Pedestrian and Roadway Improvements	Unfunded	1
Las Juntas Way & Coggins Drive Intersection Improvements (AOB)	Unfunded	4
Local Road Pedestrian and Bicycle Upgrade at Benicia Bridge	Unfunded	5
Loftus Road Pedestrian Improvements – Canal Road to Willow Pass Road (AOB)	Unfunded	5
Lone Tree Way Bike Lane Gap Closure – Anderson Lane to Virginia Drive	Unfunded	3
Market Avenue Complete Streets – Fred Jackson Way to 7th Street (AOB)	Unfunded	1
Marsh Creek Road & Camino Diablo Intersection Improvements	Unfunded	3
Marsh Creek Road & Deer Valley Road Intersection Improvements	Unfunded	3
Marsh Creek Road and Morgan Territory Road Intersection Improvements	Unfunded	3
Marsh Creek Road Bridge Replacement (Bridge No. 28C0143 & 28C0145)	Active	3
Marsh Creek Road Improvements (AOB)	Unfunded	3
Marsh Creek Trail	Unfunded	3, 4
Marsh Drive Bridge Replacement	Active	4, 5
Marsh Drive Improvements - Center Avenue to Iron Horse Trail (AOB)	Unfunded	4, 5
Marshall Drive Sidewalk – Indian Valley Elementary School/City of Walnut Creek to El Verano Drive	Unfunded	4
Mayhew Way Bicycle and Pedestrian Improvements - 200' west of Oberon Drive to Bancroft Road (AOB)	Unfunded	4
McNabney Marsh Open Space Connection to Waterfront Road	Unfunded	5
Miranda Avenue Pathway Improvements – Stone Valley Road to Stone Valley Middle School (AOB)	Unfunded	2

PROJECT DESCRIPTION	ACTIVE/ UNFUNDED	BOS DISTRICT
Mitchell Canyon Road Bike Lanes	Unfunded	4
Monterey Street Safety Improvements – Veale Avenue to Palm Avenue	Unfunded	5
Morgan Territory Road Safety Improvements	Unfunded	3
Mountain View Boulevard Pedestrian Improvements – San Miguel Drive to Walnut Boulevard (AOB)	Unfunded	4
Norris Canyon Road Safety Improvements – West of Ashbourne Drive	Active	2
Norris Canyon Road Shoulder Widening – Ashbourne Drive to Alameda County Limits	Unfunded	2
North Richmond Improvements – Pittsburg Avenue Extension from Fred Jackson Way to 7th Street extension	Unfunded	1
North Richmond Truck Route – Parr Boulevard to Market Avenue (AOB)	Unfunded	1
Oak Road Bikeway Project – Treat Boulevard to City of Pleasant Hill	Active	4
Olinda Road Pedestrian Improvements – Valley View Road to 850 feet south of Valley View Road	Unfunded	1
Olympic Boulevard & Boulevard Way & Tice Valley Boulevard Intersection Improvements (AOB)	Unfunded	2
Olympic Boulevard & Bridgefield Road Signal Project	Unfunded	2
Olympic Corridor Pedestrian and Bicycle Improvements	Unfunded	2
Pacheco Boulevard & Center Avenue Intersection Improvements(AOB)	Unfunded	5
Pacheco Boulevard & Muir Road Intersection Improvements(AOB)	Unfunded	5
Pacheco Boulevard & North Buchanan Circle Intersection Improvements (AOB)	Unfunded	5
Pacheco Boulevard Complete Streets – Arnold Drive to Muir Road(AOB)	Unfunded	5
Pacheco Boulevard Improvements – Morello Avenue to Blum Road	Unfunded	5
Pacifica Avenue Extension – Port Chicago Highway to Alves Lane (AOB)	Unfunded	5
Parr Boulevard Complete Streets Project - Richmond Parkway to Union Pacific Railroad (AOB)	Unfunded	1
Pavement Surface Treatment Change the Data Sheet	Active	Various

PROJECT DESCRIPTION	ACTIVE/ UNFUNDED	BOS DISTRICT
Pedestrian and Bicycle Improvements on Livorna Road, Stone Valley Road, and Danville Boulevard (CTPL)	Unfunded	2
Pedestrian Improvements near Rodeo Hills Elementary School	Unfunded	5
Pedestrian Safety Improvements at Stone Valley Middle and Rancho Romero School (AOB)	Unfunded	2
Pinehurst Road Bicycle Improvements (AOB)	Unfunded	2
Pinehurst Road Sinkhole and Culvert Repair	Active	2
Pinole Valley Road Safety Improvements between Pinole City Limits and the AOB Boundary	Unfunded	1
Piper Road Widening - Gateway Road to Willow Road	Unfunded	3
Pitt Way Roadway Improvements (DCD)	Unfunded	1
Pittsburg Avenue Intersection Improvements (AOB)	Unfunded	1
Pittsburg Avenue Widening - Fred Jackson Way to Richmond Parkway (AOB)	Unfunded	1
Pleasant Hill BART Station Bicycle and Pedestrian Access	Unfunded	4
Pleasant Hill Road & Taylor Boulevard Bicycle and Pedestrian Improvements	Unfunded	5
Pleasant Hill Road Bicycle Improvements – Geary Road to Taylor Boulevard (AOB)	Unfunded	2
Pleasant Hill Road Bridge Rehabilitation (Bridge No. 28C0154)	Active	2, 5
Pleasant Hill Road Sidewalk Project – 1700 Block to Diablo View Road on west side only	Unfunded	5
Pomona Street Sidewalk Project – 3rd Avenue to Rolph Park Drive (south side of road)	Unfunded	5
Pomona Street/Winslow Avenue/Carquinez Scenic Drive Safety Alignment Study	Unfunded	5
Port Chicago Highway Bicycle and Pedestrian Improvements – Driftwood Drive to McAvoy Road (AOB)	Unfunded	5
Port Chicago Highway Realignment Project – McAvoy Road to Pacifica Avenue	Unfunded	5
Reliez Valley Road Bicycle Improvements – North of Grayson Road to Withers Avenue (AOB)	Unfunded	2, 4, 5
Rincon Road Widening and Pedestrian Improvements Project	Unfunded	1

PROJECT DESCRIPTION	ACTIVE/ UNFUNDED	BOS DISTRICT
Rodeo Downtown Infrastructure Improvements	Active	5
Rodeo Pedestrian Enhancement Project - 6th and 7th Street	Active	5
Rudgear Road & San Miguel Drive Intersection Safety Improvements (AOB)	Unfunded	4
San Miguel Drive Bicycle and Pedestrian Improvements (AOB)	Unfunded	4
San Pablo Avenue / Parker Avenue Sidewalk	Unfunded	5
San Pablo Avenue Complete Street Project	Unfunded	1
San Pablo Avenue Complete Streets Project – Rodeo to Crockett	Unfunded	5
San Pablo Dam Road & Greenridge Drive Signal Improvements	Unfunded	1
San Pablo Dam Road Safety Improvements (AOB)	Unfunded	1
San Pablo Dam Road Pedestrian Improvements – Tri Lane to Appian Way	Unfunded	1
San Pablo Dam Road Traffic Safety Improvements	Active	1
Sandmound Boulevard Improvements – Mariner Road to Cypress Road	Unfunded	3
Sandmound Boulevard Widening – Oakley City Limits to Mariner Road	Unfunded	3
Sellers Avenue & Balfour Road Intersection Improvements (AOB)	Unfunded	3
Sellers Avenue & Chestnut Avenue Intersection Improvements (AOB)	Unfunded	3
Sellers Avenue & Marsh Creek Road Intersection Improvements (AOB)	Unfunded	3
Sellers Avenue & Sunset Road Intersection Improvements (AOB)	Unfunded	3
Sellers Avenue Widening – Delta Road to Chestnut Street (AOB)	Unfunded	3
Sellers Avenue Widening – Main Canal to Marsh Creek Road) (AOB)	Unfunded	3
Springbrook Road Bicycle and Pedestrian Improvements (AOB)	Unfunded	2
SR239/Trilink: Vasco Road-Byron Highway Connector	Unfunded	3

PROJECT DESCRIPTION	ACTIVE/ UNFUNDED	BOS DISTRICT
State Route 4 & Byron Highway (South) Intersection Widening (Phase 2)(AOB)	Unfunded	3
State Route 4 & Newport Drive Traffic Signal (AOB)	Unfunded	3
State Route 4 Widening – Bixler Road to Discovery Bay Boulevard - Complete Streets and Bridge Widening (AOB)	Unfunded	3
State Route 4 Widening – Byron Highway and Regatta Drive (AOB)	Unfunded	3
Stone Valley Road at Roundhill Road Intersection Improvements	Unfunded	2
Stone Valley Road Left Turn Lane at Smith Road	Unfunded	2
Sunset Road Widening - Sellers Avenue to Byron Highway (AOB)	Unfunded	3
Tara Hills Complete Streets Project	Unfunded	1
Tara Hills Elementary School, Shannon Elementary School, Pinole Middle School Pedestrian Crossing Upgrades	Unfunded	1
Tice Valley Boulevard Bike and Pedestrian Project	Unfunded	2
Treat Boulevard & Jones Road Intersection Improvements (AOB)	Unfunded	4
Treat Boulevard Bicycle Improvements - Jones Road easterly to Walnut Creek City Limits (AOB)	Unfunded	4
Treat Boulevard Corridor Improvements	Active	2, 4
Valley View Road Widening - San Pablo Dam Road to Appian Way	Unfunded	1
Vasco Road / Camino Diablo Intersection Improvements (AOB)	Unfunded	3
Vasco Road Safety Improvements (Phase 2)	Active	3
Verde Elementary School Secondary Access (AOB)	Unfunded	1
Walnut Boulevard Pedestrian Improvements – View Lane to 250' west of Walnut Court (AOB)	Unfunded	4
Walnut Boulevard Shoulder Widening	Active	3
Walnut Creek Crosswalk Improvements - Bridgefield Road and Walden Road	Active	2,4
Waterfront Road Grade Change Project	Unfunded	5

PROJECT DESCRIPTION	ACTIVE/ UNFUNDED	BOS DISTRICT
Willow Pass Road & Bailey Road Intersection Improvements (AOB)	Unfunded	5
Willow Pass Road (West) & SR 4 Interchange Improvements (AOB)	Unfunded	5
Willow Pass Road Improvements – Bailey Road to Pittsburg City Limits (AOB)	Unfunded	5
Willow Pass Road Improvements – Evora Road to SR 4 (AOB)	Unfunded	5

**Countywide Projects** 

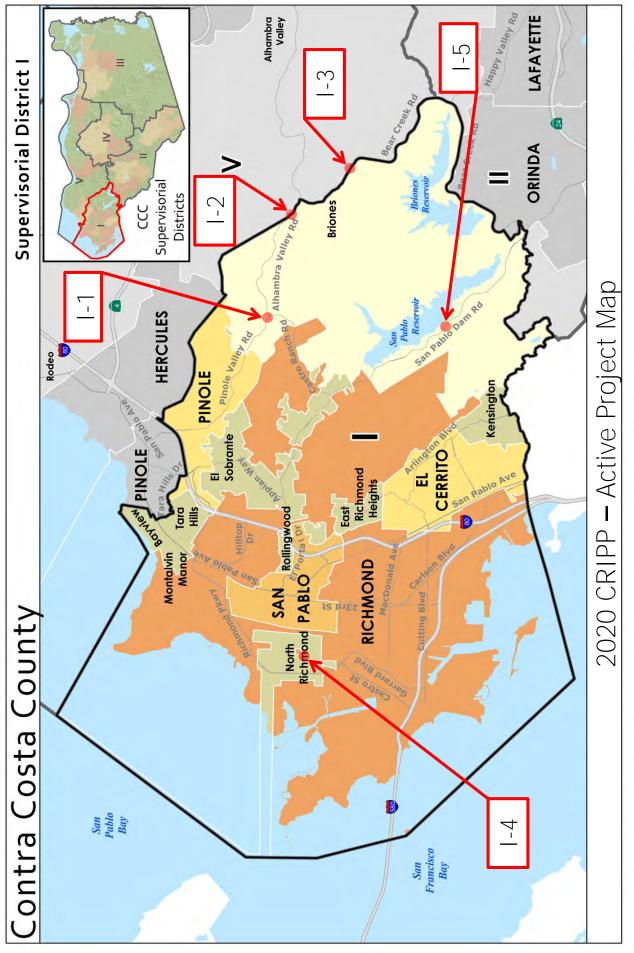

Contra Costa Capital Road		-	nt & Pre	eservati	ion Pro	ogram				
PROJECT NAME	Bridge Preventative Maintenance Project									
PROJECT DESCRIPTIONThis project is to perform maintenance such as surface treatments to various bridges in the County based on the periodic bridge inspections of County bridges. • Del Monte Drive Overhead Bridge (28C-0207) • Bear Creek Bridge (28C-0227) • Pacheco Slough Bridge 										
PURPOSE AND	Ensure th	ne mainte	nance an	d safety of	the exist	ing bridge	es throug	hout the	County.

Board of Supervisor District I

Note: 1) Projects are identified with Supervisor District number and project number for its District.

2) County-wide Projects are not shown on this map. 3) District I contains 119.63 miles of the 662.23 miles of County maintained roadway as of 1/1/2019.

## CRIPP PROJECT DESCRIPTIONS FOR DISTRICT I

ACTIVE PROJECTS – These projects are fully funded and will be constructed in the near future. These active projects are mapped on the previous page.

- I-1. <u>Alhambra Valley Road Embankment Repair Site 1 West of Castro Ranch</u> <u>Road</u> – This project proposes to repair the roadway embankment and restore the roadway shoulder. Construction is expected in 2020. Measure J and Gas Taxes fund this project.
- I-2. <u>Alhambra Valley Road Embankment Repair</u> 0.4 miles west of Bear Creek Road – This project proposes to repair an existing slide along Alhambra Valley Road (approximately 0.4 miles west of Bear Creek Road). Currently the one-way traffic control is established around the eroded embankment. Construction is expected in 2020. Measure J and Gas Taxes fund this project.
- I-3. <u>Bear Creek Road Road Embankment Repair</u> This project proposes to repair the roadway embankment along Bear Creek Road. Currently the one-way traffic control is established around the eroded embankment. Construction is expected in 2020. Gas Taxes fund this project.
- I-4. <u>Fred Jackson Way First Mile/Last Mile Connection Project (CTPL)</u> This project is to construct complete street improvements along Fred Jackson Way from Brookside Drive to Grove Avenue. Construction is expected in 2021. Funding Sources include the Federal Active Transportation Program (ATP), Transportation for Livable Communities (TLC), State Coastal Conservancy, and North Richmond AOB funds. This project was previously named Fred Jackson Way Improvements Grove Avenue to Brookside Drive.
- I-5. <u>San Pablo Dam Road Traffic Safety Improvements</u> This project is to install centerline rumble strips along 3.4 miles of San Pablo Dam Road from the Richmond City limit near Kennedy Grove Park to Bear Creek Road/Wildcat Canyon Road. This project is intended to improve driver safety and reduce the number of lane crossover collisions. Construction is schedule for 2020. Funding sources include Highway Safety Improvement Program (HSIP) and Gas Tax Funds.

PROJECT NAME Alhambra Valley Road Embankment Repair

PROJECT NAME Bear Creek Road - Road Embankment Repair

PROJECT This project proposes to repair the roadway embankment along Bear Creek Road. Currently DESCRIPTION the one-way traffic control is established around the eroded embankment. Construction is expected in 2020. Gas Taxes fund this project.

PURPOSE AND<br/>NEEDThe purpose of this project is to repair two embankment sites adjace to the northbound<br/>lane of Bear Creek Road. Erosion has occurred at both embankments, resulting in massive<br/>deterioration of the road shoulders. The damage has already encroached into the traveled<br/>way at Embankment 1.

Reparing the two embankments will restore the roadway shoulder and prevent further erosion. The northbound traveled lane at Embankment 1 is currently closed off due to deteriorated pavement, and will be restored to allow two-way traffic flow to resume.

PROJECT NAME Bear Creek Road – Road Embankment Repair

PROJECT NAME Fred Jackson Way, First Mile/Last Mile Connection

PROJECT This project is to construct complete street improvements along Fred Jackson Way from DESCRIPTION Brookside Drive to Grove Avenue. Construction is expected in FY2021. Funding Sources include the Federal Active Transportation Program (ATP), Transportation for Livable Communities (TLC), State Coastal Conservancy, and North Richmond AOB funds. This project was formerly named Fred Jackson Way Improvements – Grove Avenue to Brookside Drive.

PURPOSE ANDThe purpose of the project is to implement a complete street project and improve<br/>connectivity and safety for pedestrians and bicyclists in North Richmond. Currently, from<br/>Grove Avenue to Wildcat Creek, there are substandard sidewalks with utility poles blocking<br/>pedestrian access, and pedestrians often walk on the street as a result. From Wildcat Creek<br/>to Brookside Drive, there are no sidewalks or bike lanes.

PROJECT NAME San Pablo Dam Road Traffic Safety Improvements

PROJECT This project is to install centerline rumble strips along 3.4 mile of San Pablo Dam Road from DESCRIPTION The Richmond City limit near Kennedy Grove Park to Bear Creek Road/Wildcat Canyon Road. This project is to improve driver safety and reduce the number of lane crossover accidents. Construction is schedule for 2020. Funding sources include Highway Safety Improvement Program (HSIP) and Gas Tax Funds.

PURPOSE AND<br/>NEEDProject is to improve the public safety by constructing rumble strips and upgrading the<br/>visibility of regulatory and warning signs along the rural, two lane segment of San Pablo<br/>Dam Road. There were four separate fatal collisions in 2015 dealing with lane crossovers.<br/>San Pablo Dam Road also ranks 4th in the County for roadways with the highest volume of<br/>collisions. A total of 25 collisions occurred between 2011 and 2015.

# Contra Costa County Capital Road Improvement & Preservation Program PROJECT NAME San Pablo Dam Road Traffic Safety Improvements PROJECT LOCATION SAN PABLO DAM ROAD BEAR CREEK ROAL WILDCAT CANYON ROAD Source: County GIS Legend: **County Maintained Roads**

UNFUNDED PROJECTS - This is a comprehensive list of projects that have been conceived but not funded. This project list originated from the following sources: Area of Benefit (AOB) project lists, the Regional Transportation Plan (RTP), Comprehensive Transportation Project List (CTPL) through Contra Costa Transportation Authority (CCTA), Transportation Expenditure Plan (TEP), Department of Conservation and Development (DCD) and a Public Works List that was generated from community input/need. District I includes the North Richmond AOB, Central County AOB, and West County AOB.

- 1-6. Appian Way & Argyle Drive Signal Project (CTPL) - This project proposes to install a new traffic signal at the intersection of Appian Way and Argyle Drive.
- 1-7. Appian Way & Pebble Drive Traffic Signal Project (CTPL) - This project proposes to install a new traffic signal at the intersection of Appian Way and Pebble Drive.
- I-8. Appian Way & Santa Rita Road Traffic Signal Project (CTPL) - This project proposes to install a new traffic signal at the intersection of Appian Way and Santa Rita Road.
- 1-9. Appian Way Complete Streets Project - San Pablo Dam Road to Valley View Road (RTP) (CTPL) - This Complete Streets Project proposes to improve pedestrian and bicycle safety along Appian Way from San Pablo Dam Road to Valley View Road.
- Appian Way Complete Streets Project Valley View Road to Pinole City I-10. Limits (RTP) (CTPL) - This Complete Streets Project proposes to improve pedestrian and bicycle safety along Appian Way from Valley View Road to the Pinole city limit.
- Arlington Boulevard Intersection Improvements at 1-11. Rincon Road/Kensington Road, Westminster Avenue, Sunset Drive, Amherst Avenue, and Vine Avenue/Highland Coventry Road, <u>Avenue</u> - This project proposes to construct safety improvements at the intersections streets listed above.
- I-12. Bear Creek Road & Happy Valley Road Intersection Improvements (Central County AOB) - This project proposes to install all-way stop at the Tintersection of Happy Valley Road and Bear Creek Road.
- I-13. Bear Creek Road Safety Improvements Alhambra Valley Road to the City of Orinda (CTPL) - This project proposes to improve roadway safety along Bear Creek Road.

- I-14. <u>Brookside Drive Complete Streets Central Street to Union Pacific</u> <u>Railroad (North Richmond AOB)</u> – This project proposes to widen Brookside Drive from Central Street to the Union Pacific Railroad and provide complete street improvements.
- I-15. <u>Castro Ranch Road Widening San Pablo Dam Road to Olinda Road</u> (<u>CTPL</u>) – This project proposes to widen Castro Ranch Road and install sidewalk improvements from San Pablo Dam Road to Olinda Road.
- I-16. <u>Central Street Complete Street Brookside Drive and Pittsburg Avenue</u> (North Richmond AOB) – This project proposes to construct complete streets along Central Avenue between Brookside Drive and Pittsburg Avenue.
- I-17. <u>Chesley Avenue Traffic Calming Fred Jackson Way and the AOB</u> <u>boundary (North Richmond AOB)</u> – This project proposes to provide traffic calming roadway features along Chesley Avenue between Fred Jackson Way and the North Richmond AOB boundary.
- I-18. <u>Colusa Avenue Complete Streets Project (CTPL)</u> This Complete Streets Project proposes to improve pedestrian and bicycle safety along a 0.5-mile stretch of Colusa Avenue.
- I-19. <u>Fred Jackson Way Complete Streets Project between Chesley and Parr</u> <u>Boulevard (North Richmond AOB)</u> – This project proposes to install pedestrian and bicycle improvements along Fred Jackson Way between Chesley and Parr Boulevard. This project is intended **to meet the County's Complete Street Policy.**
- I-20. <u>Fred Jackson Way Complete Streets Project Intersection with Chesley</u> <u>Avenue (North Richmond AOB)</u> – This project proposes to install traffic calming improvements at the intersection of Fred Jackson Way and Chesley Avenue. This project is intended **to meet the County's Complete Street Policy.**
- I-21. <u>Fred Jackson Way/Goodrick Avenue Realignment (CTPL)</u> This project proposes to realign these streets to form one intersection instead of two offset intersections.
- I-22. <u>Goodrick Avenue Fred Jackson Way to AOB Boundary (North Richmond AOB)</u> This project would enhance vehicle, bicycle, and pedestrian safety by providing bike lanes and sidewalks along Goodrick Avenue.
- 1-23. <u>La Paloma Road Pedestrian and Roadway Improvements (CTPL)</u> This project proposes to install traffic safety and pedestrian improvements along La Paloma Road.

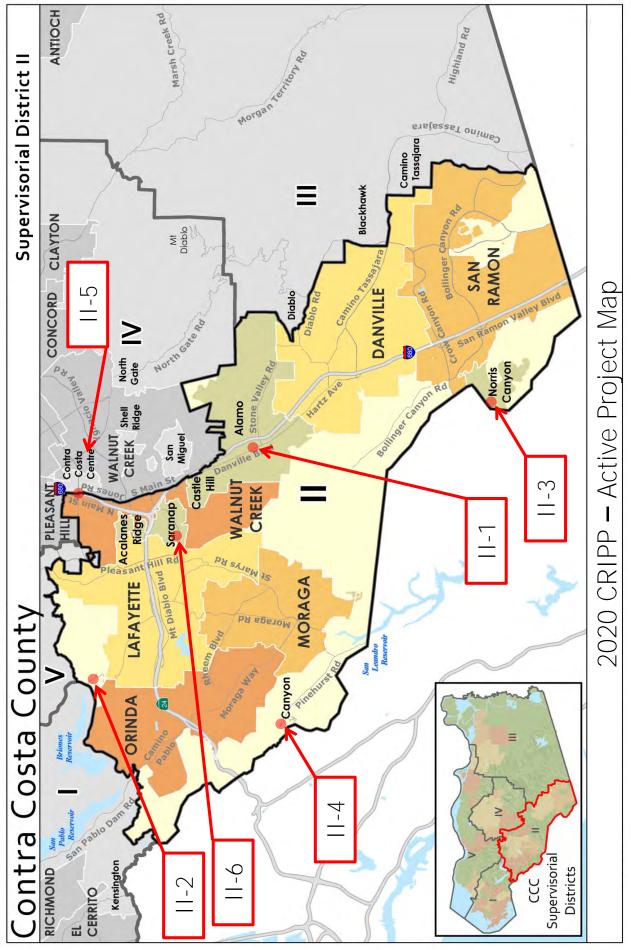

- I-24. <u>Market Avenue Complete Streets Fred Jackson Way to 7<sup>th</sup> Street (North Richmond AOB)</u> This project proposes to install pedestrian improvements and traffic calming improvements along Market Avenue between Fred Jackson and 7<sup>th</sup> Street.
- I-25. <u>North Richmond Improvements Pittsburg Avenue Extension from Fred</u> <u>Jackson Way to 7<sup>th</sup> Street Extension (CTPL)</u> – This project proposes to extend Pittsburg Avenue from Fred Jackson Way to the projection of 7<sup>th</sup> Street.
- I-26. <u>North Richmond Truck Route Parr Boulevard to Market Avenue (North Richmond AOB) (CTPL)</u> This project proposes to reduce truck traffic in the residential area of North Richmond by upgrading existing roadways or constructing new roads to accommodate truck traffic from Parr Boulevard to Market Avenue.
- I-27. <u>Olinda Road Pedestrian Improvements Valley View Road to 850 feet</u> <u>south of Valley View Road (CTPL)</u> – The project proposes to close a gap of sidewalk along Olinda Road in order to provide pedestrian facilities to De Anza High School and Olinda Elementary School.
- 1-28. <u>Parr Boulevard Complete Street Project Richmond Parkway to Union</u> <u>Pacific Railroad (North Richmond AOB) (CTPL)</u> – This project proposes to widen Parr Boulevard from Richmond Parkway to the UPRR crossing and provide complete street improvements.
- 1-29. <u>Pinole Valley Road Safety Improvements between Pinole City Limits</u> <u>and the AOB Boundary (AOB)</u> – This project proposes safety improvement on Pinole Valley Road between the Pinole City Limits and the AOB Boundary.
- I-30. <u>Pitt Way Roadway Improvements (DCD)</u> This project proposes to construct a new collector roadway along Pitt Way from San Pablo Dam Road to Hillcrest Road in the future town square area of El Sobrante.
- I-31. <u>Pittsburg Avenue Intersection Improvements (North Richmond AOB)</u> This project proposes to construct intersection improvements at the intersection of Pittsburg Avenue and Richmond Parkway.
- 1-32. <u>Pittsburg Avenue Widening Fred Jackson Way to Richmond Parkway</u> (North Richmond AOB) – This project proposes to widen and construct complete street improvements on Pittsburg Avenue from Fred Jackson Way to Richmond Parkway.
- I-33. <u>Rincon Road Widening and Pedestrian Improvements Project (CTPL)</u> This project proposes to widen Rincon Road and construct pedestrian improvements between the two Arlington Avenue intersections.

- I-34. <u>San Pablo Avenue Complete Streets Project (CTPL)</u> This project proposes to upgrade San Pablo Avenue to multi-modal roadway from Tara Hills Drive to the City of Pinole.
- I-35. <u>San Pablo Dam Road & Greenridge Drive Signal Improvements (CTPL)</u> This project proposes to install a new traffic signal at the intersection of San Pablo Dam Road and Greenridge Drive.
- I-36. <u>San Pablo Dam Road Pedestrian Improvements Tri Lane to Appian Way</u> (CTPL) – This project proposes to install pedestrian improvements along San Pablo Dam Road from Tri Lane to Appian Way. This project may be incorporated into the other San Pablo Dam Road projects.
- I-37. <u>San Pablo Dam Road Safety Improvements (AOB)</u> This project proposes to construct safety improvements and bicycle improvements along San Pablo Dam Road and within the West County AOB limits.
- I-38. <u>Tara Hills Drive Complete Streets Project (CTPL)</u> This project proposes to install bicycle and pedestrian improvements along Tara Hills Drive from San Pablo Avenue to the end of Tara Hills Drive and Cornelius Drive to the City of Pinole.
- 1-39. <u>Tara Hills Elementary School, Shannon Elementary School, Pinole</u> <u>Middle School Pedestrian Crossing Upgrades</u> – This project is improve pedestrian crossing at several schools in the Tara Hills area.
- I-40. <u>Valley View Road Widening San Pablo Dam Road to Appian Way (CTPL)</u> This project proposes to widen Valley View Road from San Pablo Dam Road to Appian Way.
- I-41. <u>Verde Elementary School Secondary Access (North Richmond AOB)</u> This project proposes to provide a secondary access to Verde Elementary. Currently, vehicular traffic can only enter from Giaramita Street and its bridge.

Board of Supervisor District II

# CRIPP PROJECT DESCRIPTIONS FOR DISTRICT II

ACTIVE PROJECTS – These projects are fully funded and will be constructed in the near future. These active projects are mapped on the previous page.

- II-1. <u>Danville Boulevard/Orchard Court Complete Streets Improvements</u> (Alamo AOB) – This project is to construct a roundabout at the Danville Boulevard/Orchard Court intersection and install complete street improvements along Danville Boulevard between Jackson Way and Stone Valley Road in Downtown Alamo. Construction is scheduled for the summer of 2021. Funds collected from developers, Federal Highway Safety Improvement Program (HSIP), and Measure J, fund this project.
- II-2. <u>Freeman Road and Briones Valley Road Bridge Maintenance Project –</u> This project is to perform bridge maintenance by removing and application of paint to the steel bridge structure. Construction schedule is pending the award of the federal grant. A federal grant and Gas Taxes fund this project.
- II-3. <u>Happy Valley Road Embankment Repair</u> This project is to repair an existing slide along Happy Valley Road and restore the roadway to its original pavement width. Construction is expected in 2020. A federal grant and Gas Taxes fund this project.
- II-4. <u>Norris Canyon Road Safety Improvements West of Ashbourne Drive</u> This project is to widen a rural section of roadway for shoulders and bike lane. Construction is projected for 2022. This project is funding by Gas Tax Funds.
- II-5. <u>Pinehurst Road Sinkhole and Culvert Repair</u> This project is to repair the undermining of the culvert and roadway. Construction is scheduled for 2020. A federal grant and Gas Taxes fund this project.
- II-6. <u>Pleasant Hill Road Bridge Rehabilitation (Bridge No. 28C0154)</u> This project is to extend the service life of the Pleasant Hill Road Bridge over Taylor Boulevard. Construction is estimated for 2022. Highway Bridge Program (HBP) and Gas Taxes fund this project.
- II-7. <u>Treat Boulevard Corridor Improvements</u> This project is to improve safety and connectivity for pedestrian and bicyclist along Treat Boulevard between North Main Street and Jones Road. Construction is scheduled for 2024. The State Transportation Improvement Program (STIP) and Gas Taxes fund this project.

II-8. <u>Walnut Creek Crosswalk Improvements</u> – This project is to improve pedestrian safety at two crosswalk locations near unincorporated Walnut Creek. One of the two crossings is located in District II at the intersection of Olympic Boulevard and Bridgefield Road. The project is scheduled for construction in the summer of 2020. The Highway Safety Improvement Program (HSIP), Transportation Development Act (TDA), and Gas Taxes fund this project.

PROJECT NAME Danville Boulevard/Orchard Court Complete Streets Improvements

PROJECTThis project is to construct a roundabout at the Danville Boulevard/Orchard CourtDESCRIPTIONintersection and install complete street improvements along Danville Boulevard between<br/>Jackson Way and Stone Valley Road in Downtown Alamo. Construction is schedule for<br/>construction in the summer of 2021. This project is funded by Highway Safety<br/>Improvement Program (HSIP), Measure J, and Developer Fees.

PURPOSE AND The Danville Boulevard/Orchard Court intersection is ranked within the top five locations in the County with the highest number of bicycle and/or pedestrian collisions at an intersection. The increased amount of motorized and non-motorized users is due to this corridor being part of Downtown Alamo, with the Alamo Plaza shopping center on one side and another shopping center across the street. Mature trees in the sidewalk have damaged the existing sidewalks and made them uneven. The project aims to improve safety through the corridor for all users by improving sidewalks to meet ADA requirements and reducing conflicts at this intersection.

PROJECT NAME Freeman Road and Briones Valley Road Bridge Maintenance Project

reliability

PROJECT In District II, Freeman Road Bridge Maintenance Project over Las Trampas Creek is to clean DESCRIPTION and repaint all structural steel members, replace joint seals at the abutments, backfill any eroded embankment slope paving with concrete, and seal the concrete curbs and roadway deck.

In District III, Briones Valley Road Preventative Maintenance project includes repainting the bridge superstructure and replacing or tightening all bolted connections between the deck and steel plates.

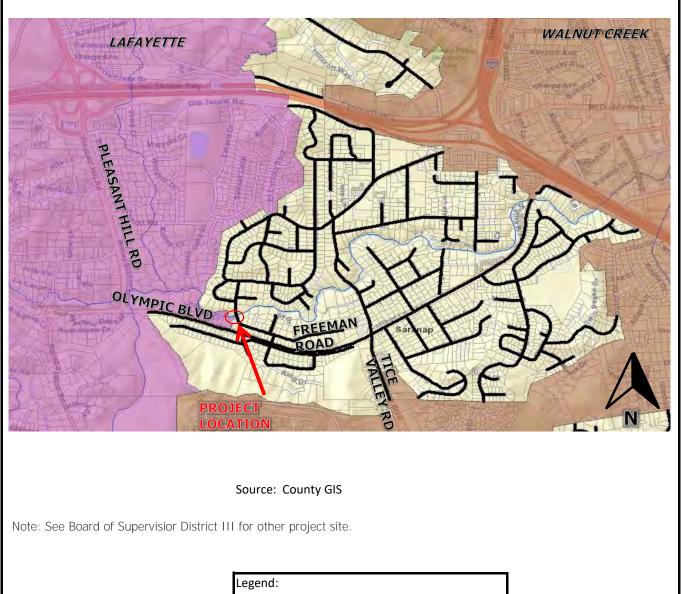

PURPOSE AND This is a bridge maintenance project to paint the bridge for long-term upkeep of the bridge. NEED

PROJECT NAME Happy Valley Road – Embankment Repair

PROJECT NAME Norris Canyon Road Safety Improvements

PROJECT The project will improve safety on Norris Canyon Road by widening a segment west of DESCRIPTION Ashbourne Drive to the County/City limits and installing a safety rail/guard rail on the south side of the roadway. Installation of a guardrail is warranted where the roadway is immediately adjacent to San Catanio Creek. To minimize environmental impact and avoid filling the creek bank to construct road shoulders, the proposed safety project includes construction of a retaining wall on the northside of the roadway to allow for widened shoulders and support a safety rail to keep motorists from leaving the roadway.

PURPOSE ANDCurrently the travel lanes vary between 7' and 10' wide with little to no shoulder for<br/>vehicles. There is a 1:1 slope on the north and south sides of the roadway. By widening the<br/>most narrow section of roadway, vehicles will comfortably be able to drive on Norris Canyon<br/>Road without having to stop and let other vehicles through the narrow sections first. The<br/>guardrail is also needed to ensure vehicles don't run off the road into San Catanio Creek.<br/>The creek bed is nearly a 20' drop from the travel way at a 1:1 slope. The guardrail will<br/>keep vehicles on the roadway and prevent potentially severe injury. Pavement widening will<br/>provide a wider travel way and shoulders.

PROJECT NAME Treat Boulevard Corridor Improvements

PROJECTThis project is to improve safety and connectivity for pedestrian and bicyclist along TreatDESCRIPTIONBoulevard between North Main Street and Jones Road.

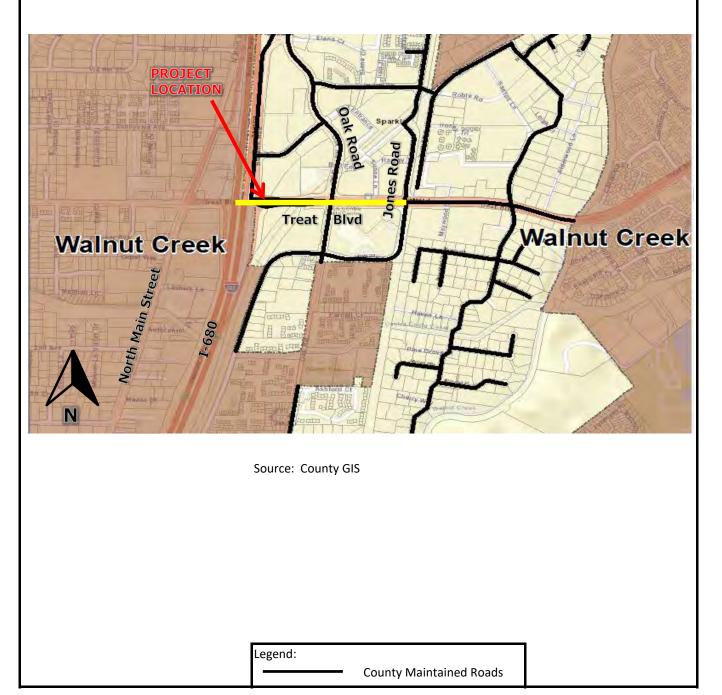

PURPOSE AND<br/>NEEDThe purpose of this project is to improve safety and connectivity for pedestrians and<br/>bicyclists along Treat Blvd. Treat Blvd currently creates challenges for the users of transit as<br/>the wide roadways (up to nine lanes) and intersections become barriers for pedestrians to<br/>cross. Without bicycle infrastructure, the first/last mile for transit users becomes even more<br/>constrained.

PROJECT NAME Walnut Creek Crosswalk Improvements

UNFUNDED PROJECTS - This is a comprehensive list of projects that have been conceived but not funded. This project list originated from the following sources: Area of Benefit (AOB) project lists, the Regional Transportation Plan (RTP), Comprehensive Transportation Project List (CTPL) through Contra Costa Transportation Authority (CCTA), Transportation Expenditure Plan (TEP), and a Public Works List that was generated from community input/need. District II includes Alamo AOB, South Walnut Creek AOB, South County AOB, and Central County AOB.

- 11-9. Bear Creek Road & Happy Valley Road Intersection Improvements (Central County AOB) - This project proposes to construct all-way stop control at the T-intersection.
- II-10. Bear Creek Road Safety Improvement Alhambra Valley Road to the City of Orinda (CTPL) – This project proposes to construct safety improvements along Bear Creek Road from Alhambra Valley Road to the City of Orinda.
- II-11. Boulevard Way Bicycle and Pedestrian Project (CTPL) This project proposes to construct bicycle and pedestrian improvements along Boulevard Way.
- II-12. Danville Boulevard & Hemme Avenue Intersection Improvements (Alamo AOB) - This project proposes to extend the existing northbound left turn lane on Danville Boulevard at the intersection of Danville Boulevard and Hemme Ave. This is also located near Rancho Romero Elementary School.
- II-13. <u>Dewing Lane Pedestrian Bridge (Central County AOB)</u> This project proposes to construct a pedestrian bridge over Las Trampas Creek in the vicinity of Dewing Lane (unincorporated Walnut Creek).
- II-14. Fish Ranch Road Safety Improvements SR 24 to Grizzly Peak Road (CTPL) (Central County AOB) - This project proposes to enhance vehicle and bicycle safety by widening Fish Ranch Road to provide roadway shoulders between Grizzly Peak Road to State Route 24.
- II-15. Hemme Avenue Sidewalk (Alamo AOB) This project proposes to extend the existing sidewalk on the north side of Hemme Avenue from Barbee Lane to La Sonoma Way, just west of Rancho Romero Elementary School.
- II-16. Hemme Avenue Sidewalk (CTPL) This project proposes to extend the existing sidewalk on the north side of Hemme Avenue from the Rancho Romero Elementary School to the Iron Horse Trail.
- II-17. I-680 Bikeway Signage Rudgear Road to Danville Town Limits (CTPL) -This project proposes to install signage for bicyclists in unincorporated portions of the I-680 Bikeway.

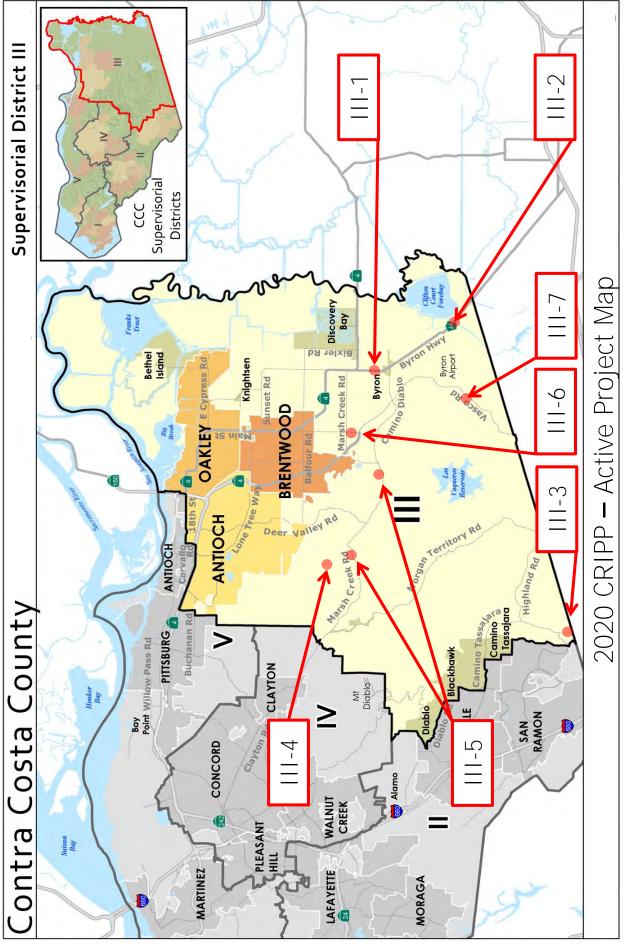

- II-19. <u>Miranda Avenue Pathway Improvements Stone Valley Road to Stone Valley Middle School (Alamo AOB)</u> This project proposes to construct sidewalk improvements along Miranda Avenue from Stone Valley Middle School to Stone Valley Road.
- II-20. <u>Norris Canyon Road Shoulder Widening Ashbourne Drive to Alameda</u> <u>County Limits (CTPL)</u> – This project proposes to widen the shoulders along Norris Canyon Road from Ashbourne Drive to the Alameda County Line.
- II-21. <u>Olympic Boulevard & Boulevard Way & Tice Valley Boulevard Intersection</u> <u>Improvements (Central County AOB)</u> – This project proposes to construct intersection modifications to improve the traffic circulation for the south leg of the intersection of Olympic Boulevard and Tice Valley Boulevard.
- II-22. <u>Olympic Boulevard & Bridgefield Road Signal Project (CTPL)</u> This project proposes to construct a traffic signal at the intersection of Olympic Boulevard and Bridgefield Road. (See also Active Project #II-4).
- II-23. <u>Olympic Corridor Pedestrian and Bicycle Improvements (Central County</u> <u>AOB)</u> – This project proposes to construct pedestrian and bicycle improvements along the Olympic Boulevard Corridor to connect South Walnut Creek.
- II-24. <u>Pedestrian and Bicycle Improvements on Livorna Road, Stone Valley</u> <u>Road, and Danville Boulevard (CTPL)</u> – This project proposes to construct pedestrian and bicycle improvements along Livorna Road, Stone Valley Road, and Danville Boulevard.
- II-25. <u>Pedestrian Safety Improvements at Stone Valley Middle and Rancho</u> <u>Romero School (Alamo AOB)</u> – This project proposes to construct pedestrian and bicycle improvements near Stone Valley Middle School and Rancho Romero Elementary School. (Also see Hemme Avenue Sidewalk project and Miranda Avenue Pathway Improvements – Stone Valley Road to Stone Valley Middle School project)
- II-26. <u>Pinehurst Road Bicycle Improvements (Central County AOB)</u> This project proposes to construct bicycle turnouts/rest stops every half-mile along Pinehurst Road and Canyon Road.

- II-27. <u>Pleasant Hill Road Bicycle Improvements Geary Road to Taylor</u> <u>Boulevard (Central County AOB)</u> – This project proposes to construct curb, gutter and sidewalk and prohibit curbside parking to create bicycle lanes along Pleasant Hill Road.
- II-28. <u>Reliez Valley Road Bicycle Improvements North of Grayson Road to</u> <u>Withers Avenue (Central County AOB)</u> – This project proposes to construct bicycle lanes by widening the shoulders along Reliez Valley Road. There are drainage modifications and parking considerations to be resolved.
- II-29. <u>Springbrook Road Bicycle and Pedestrian Improvements (Central County AOB)</u> This project proposes to construct sidewalk improvements and stripe shoulder along Springbrook Road starting near Gilmore Court to about Regency Court.
- II-30. <u>Stone Valley Road at Roundhill Road Intersection Improvements (CTPL)</u> This project proposes to construct crosswalk improvements at the Roundhill Road Intersection.
- II-31. <u>Stone Valley Road Left Turn Lane at Smith Road (CTPL)</u> This project proposes to install a left turn lane at Smith Road.
- II-32. <u>Tice Valley Boulevard Bike and Pedestrian Project (Central County AOB)</u> This project proposes to construct bicycle and pedestrian improvements along Tice Valley Boulevard. (Also see Tice Valley Linear Park in completed projects)

Board of Supervisor District III

Note: 1) Projects are identified with Supervisor District number and project number for its District.

- 2) County-wide Projects are not shown on this map. 3) District III contains 218.91 miles of the 662.23 miles of County maintained roadway as of 1/1/2019.

Contra Costa County Public Works Department

# CRIPP PROJECT DESCRIPTIONS FOR DISTRICT III

ACTIVE PROJECTS – These projects are fully funded and will be constructed in the near future. These active projects are mapped on the previous page.

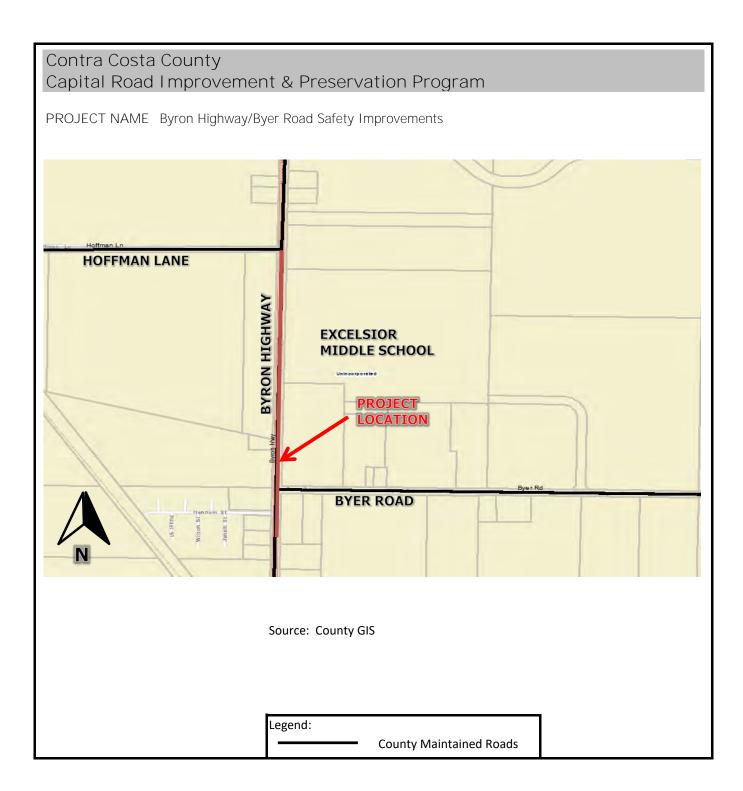

- III-1. Byron Highway / Byer Road Safety Improvements (Discovery Bay AOB and East County Regional AOB) - This project is to install safety improvements along the frontage of Excelsior Middle School. These improvements include the construction of a left turn pocket from southbound Byron Highway to eastbound Byer Road, a two-way left turn lane on Byron Highway, and widening of the roadway shoulders. Construction is scheduled for 2021. Highway Safety Improvement Program (HSIP), Discovery Bay AOB, Gas Taxes, and East County Regional AOB fund this project.
- III-2. Byron Highway Bridge Replacement over California Aqueduct Bridge No. 28C0121 (Project Sponsor: Dept. of Water Resources) - This project is to replace the Byron Highway Bridge, approximately 1.4 miles northwest of the Alameda County Line. Construction is projected for 2022. This project is funded with Highway Bridge Program (HBP) and Gas Taxes, and is co-sponsored with the Department of Water Resources.
- III-3. Camino Tassajara Safety Improvements Windemere Parkway to Alameda County Line – This project is to realign and widen the Camino Tassajara at the S-curve at the County Line, south of Windemere Parkway to include additional travel lanes, bike lines, and Class I trail between the City of Dublin and County. Construction is scheduled for 2023. This project is co-sponsored with the City of Dublin. Developer Fees fund this project.
- III-4. Freeman Road and Briones Valley Road Bridge Maintenance Project This project is to perform bridge maintenance by removing and application of paint to the steel bridge structure.
- III-5. Marsh Creek Road Bridge Replacement Bridge No. 28C0143 & 28C0145 - This project is replace two bridges on Marsh Creek Road, located approximately 3.0 miles east of Deer Valley Road and 7.3 miles east of Morgan Territory Road. Preliminary engineering is currently underway. Construction is scheduled in 2021. Highway Bridge Program (HBP), East County Regional AOB, and Gas Taxes fund this project.
- III-6. Walnut Boulevard Shoulder Widening This project is to construct bicycle roadway improvements along Walnut Boulevard (East County) from Marsh Creek Road to Vasco Road. Construction is projected for 2021. Transportation Development Act (TDA) and Gas Taxes fund this project.

III-7. <u>Vasco Road Safety Improvements (Phase 2)</u> – This project proposes to widen the roadway and construct a median barrier for about 1.5 miles of Vasco Road, approximately 3.0 miles to 5.5 miles north of the Alameda/Contra Costa County Line. Regional Measure 3, Gas Taxes, and Measure J fund this project.

PROJECT NAME Camino Tassajara Safety Improvements – South of Windemere Parkway to County Line

PROJECT NAME Freeman Road and Briones Valley Road Bridge Maintenance Project

reliability

PROJECT In District II, Freeman Road Bridge Maintenance Project over Las Trampas Creek is to clean DESCRIPTION and repaint all structural steel members, replace joint seals at the abutments, backfill any eroded embankment slope paving with concrete, and seal the concrete curbs and roadway deck.

In District III, Briones Valley Road Preventative Maintenance project includes repainting the bridge superstructure and replacing or tightening all bolted connections between the deck and steel plates.

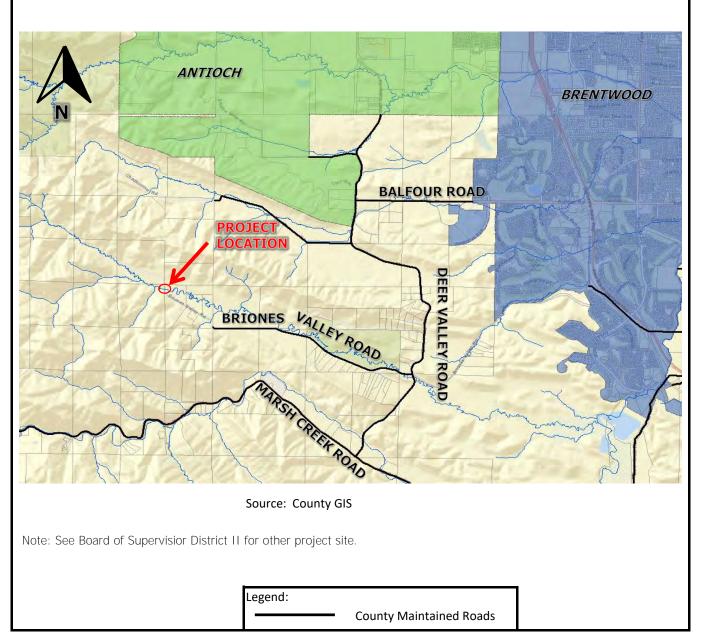

PURPOSE AND This is a bridge maintenance project to paint the bridge for long-term upkeep of the bridge. NEED

PROJECT NAME Marsh Creek Road Bridge Replacement (Bridge No. 28C0143 & 28C0145)

PROJECT NAME Vasco Road Safety - Phase 2

PROJECTThis project proposes to widen the roadway and construct a median barrier for about 1.5DESCRIPTIONmiles of Vasco Road, approximately 3.0 miles to 5.5 miles north of the Alameda/Contra<br/>Costa County Line.

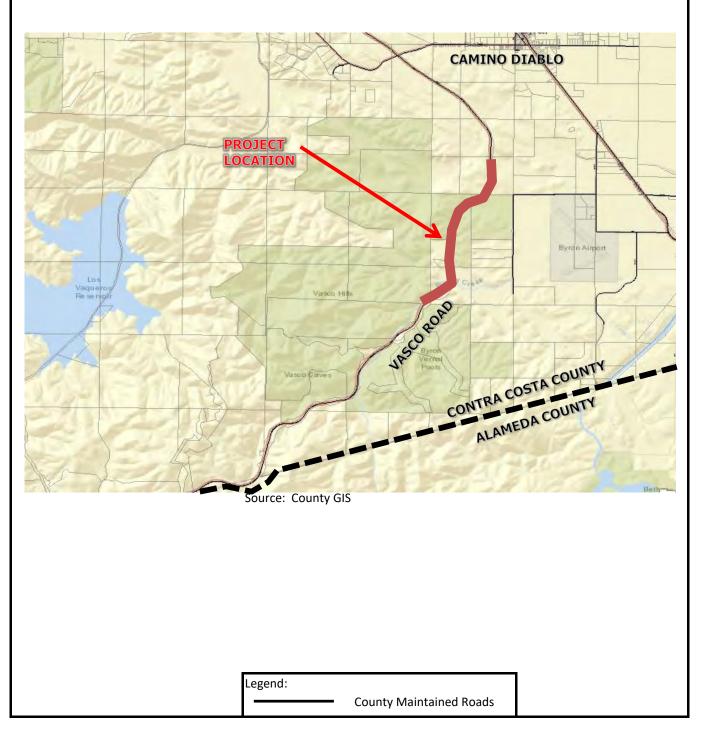

PURPOSE AND<br/>NEEDVasco Road is a major rural arterial that is heavily traveled by commuters and has a history<br/>of severe collisions. The project will improve safety on Vasco Road by reducing cross median<br/>crashes. These long term upgrades and improvements will provide substantial safety<br/>improvements to the roadway.

PROJECT NAME Walnut Boulevard Shoulder Widening

UNFUNDED PROJECTS - This is a comprehensive list of projects that have been conceived but not funded. This project list originated from the following sources: Area of Benefit (AOB) project lists, the Regional Transportation Plan (RTP), Comprehensive Transportation Project List (CTPL) through Contra Costa Transportation Authority (CCTA), Transportation Expenditure Plan (TEP), and a Public Works List that was generated from community input/need. District III includes the Discovery Bay AOB, East County Regional AOB, and Bethel Island AOB.

- III-8. Balfour Road & Byron Highway Intersection Improvements (East County Regional AOB) - This project proposes to install a traffic signal and exclusive leftturn lanes at the intersection of Balfour Road and Byron Highway. Left turn lanes will be installed with Balfour Road Shoulder widening (see also Balfour Road Shoulder Widening - Sellers Avenue to Bixler Road).
- III-9. Balfour Road Shoulder Widening Deer Valley Rd to Brentwood City Limits - This project proposes to widen about 1.2 miles of Balfour Road between Deer Valley Road and Brentwood City Limits.
- III-10. Bethel Island Road & Sandmound Road Intersection Improvements- This project proposes to construct intersection improvements at the intersection of Bethel Island Road and Sandmound Boulevard.
- III-11. Bethel Island Road Improvements Taylor Road to Sandmound Boulevard (Bethel Island AOB) - This project proposes to add bicycle and pedestrian improvements along Bethel Island Road between Sandmound Boulevard and Taylor Road.
- III-12. Bixler Road Improvements SR 4 to Byer Road (Discovery Bay AOB) This project proposes to widen Bixler Road to include shoulders and bike lane from State Route 4 south to Byer Road.
- III-13. Byer Road Improvements Bixler Road to Byron Highway (Discovery Bay AOB) – This project proposes to widen Byer Road to include shoulder and bike lanes from Byron Highway east to Bixler Road.
- III-14. Byron Highway / SR4 / Point of Timber Intersection Improvements (East <u>County Regional AOB</u>) – This project proposes intersection improvements at the intersection of Byron Highway, State Route 4, and Point of Timber. These improvements include installation of a traffic signal and the addition of an exclusive left turn lane and an exclusive right turn lane.

- III-15. Byron Highway Safety Improvements (Various Locations) This project proposes to construct safety improvements at various locations along Byron Highway to include shoulder widening, drainage improvements, and intersection improvements.
- III-16. Byron Highway Widening Camino Diablo to the Alameda County Line (East County Regional AOB) - This project proposes to widen 5 miles of roadway shoulders on Byron Highway from Camino Diablo to the Alameda County Line.
- III-17. Byron Highway Widening Chestnut Street to State Route 4 (East County Regional AOB) - This project proposes to widen shoulders for 1.6 miles of Byron Highway from Chestnut Street to State Route 4.
- III-18. Byron Highway Widening Delta Road to Chestnut Street (East County Regional AOB) - This project proposes to widen shoulders for 2.5 miles of Byron Highway from Delta Road to Chestnut Street.
- III-19. Byron Highway Widening SR 4 to Camino Diablo (East County Regional <u>AOB</u>) – This project proposes to widen shoulders along Byron Highway from State Route 4 south to Camino Diablo.
- III-20. Byron Highway Extension to Bethel Island Delta Road to Bethel Island (CTPL) - This project proposes to extend Byron Highway northward, from its current northern terminus at Delta Road, to the East Cypress Road/Bethel Island Road intersection. Project will include the construction of a bridge over Rock Slough.
- III-21. Camino Diablo Widening Vasco Road to Byron Highway (East County <u>Regional AOB</u>) – This project proposes to widen shoulders on Camino Diablo from Vasco Road east to Byron Highway.
- III-22. Camino Tassajara Safety Improvements (Various Locations) This project proposes to construct roadway and intersection improvements along Camino Tassajara to include shoulder widening and drainage improvements (Also see Active Project III-3).
- III-23. Chestnut Street Widening Sellers Avenue to Byron Highway (East County Regional AOB) - This project proposes to widen shoulders along Chestnut Street from Sellers Avenue east to Byron Highway.
- III-24. Clifton Court Road Bridge Repair (Bridge No. 28C0403) This project is to repair and maintain the bridge on Clifton Court Road.
- III-25. Clipper Drive Improvements Newport Drive to Discovery Bay Boulevard (Discovery Bay AOB) - This project proposes to construct traffic calming measures along Clipper Drive from Newport Drive east to Discovery Bay Boulevard.

- III-26. Deer Valley Road Safety Improvements (Various Locations) This project proposes to construct safety improvements along Deer Valley Road at various locations.
- III-27. Delta Road Sidewalk & Bike Lanes Project Knightsen Avenue to Knightsen Elementary School (CTPL) - This project proposes to construct sidewalk and Class II bike lanes along Delta Road.
- III-28. Delta Road Widening Byron Highway to Holland Tract Road (East County Regional AOB) - This project proposes to widen shoulders for about 1.7 miles of Delta Road from Byron Highway to Holland Tract Road.
- III-29. Delta Road Widening Sellers Avenue to Byron Highway (East County Regional AOB) - This project proposes to widen shoulders for about 2.0 miles of Delta Road from Sellers Avenue to Byron Highway.
- III-30. Discovery Bay Boulevard & Clipper Drive Intersection Improvements (Discovery Bay AOB) – This project proposes to modify intersection traffic control to improve level of service at the intersection of Discovery Bay Boulevard and Clipper Drive.
- III-31. Eden Plains Road Widening Sunset Road to Marshall Court (CTPL) This project proposes to widen Eden Plains Road to two-lane arterial standard design, with two 12-foot lanes and paved shoulders on both sides of the street.
- III-32. Gateway Road Project Bethel Island Road to Piper Road (Bethel Island AOB) - This project proposes to provide walkable shoulders and bikeway for about 1.0 mile of Gateway Road from Bethel Island Road to Piper Road.
- III-33. Highland Road Improvements Camino Tassajara to Alameda County Line – This project proposes to construct safety improvements along Highland Road from Camino Tassajara to the Alameda County Line.
- III-34. Holway Drive Safety Improvements Main Street to Camino Diablo Road (CTPL) - This project proposes to connect sidewalks, curb ramps, and crosswalks.
- III-35. Knightsen Avenue & Delta Road Intersection Improvements (East County <u>Regional AOB</u>) – This project proposes to install a new traffic signal and exclusive left turn lanes at the intersection of Knightsen Avenue and Delta Road.
- III-36. Knightsen Avenue Widening East Cypress Road to Delta Road (East County Regional AOB) - This project proposes to widen shoulders for about 1.6 miles of Knightsen Avenue from East Cypress Road to Delta Road.

- III-37. <u>Knightsen Avenue/Eden Plains Road Widening Delta Road to Chestnut</u> <u>Street (East County Regional AOB)</u> – This project proposes to widen shoulders for about 2.6 miles of Knightsen Avenue/Eden Plains Road from Delta Road to Chestnut Street.
- III-38. Lone Tree Way Bike Lane Gap Closure Anderson Lane to Virginia Drive (CTPL) This project proposes to provide Class II bike lanes.
- III-39. <u>Marsh Creek Road & Camino Diablo Intersection Improvements</u> This project proposes to construct safety improvements at the intersection of Marsh Creek Road and Camino Diablo.
- III-40. <u>Marsh Creek Road & Deer Valley Road Intersection Improvements</u> This project proposes to widen the roadway and construct turn pockets at the intersection of Marsh Creek Road and Deer Valley Road.
- III-41. <u>Marsh Creek Road and Morgan Territory Road Intersection Improvements</u> (CTPL) – This project proposes to widen the travel lanes and the shoulders.
- III-42. <u>Marsh Creek Road Improvements (East County Regional AOB)</u> This project is to construct various roadway and intersection improvements along Marsh Creek Road to include shoulder widening to enhance bicycle use and drainage improvements. (Also see Marsh Creek Road Realignment & Safety Improvements, III-43)
- III-43. <u>Marsh Creek Trail</u> This project is to close the 15-mile bike and pedestrian gap along Marsh Creek Road between Clayton and Brentwood. This project is to construct a bicycle and pedestrian facility from the City of Clayton to East Bay **Regional Park District's Round Hill Park. The existing trail in Brentwood is to be** extended by others to Round Hill Park. The overall intent is to provide a commuter bicycle trail, which connects Central County to East County. Project continues into District IV.
- III-44. <u>Morgan Territory Road Safety Improvements (various locations</u>) This project proposes to construct safety improvements at various locations along Morgan Territory Road.
- III-45. <u>Piper Road Project Gateway Road to Willow Road (Bethel Island AOB)</u> This project proposes to provide bicycle and pedestrian improvements on Piper Road (Bethel Island) from Gateway Road to Willow Road.

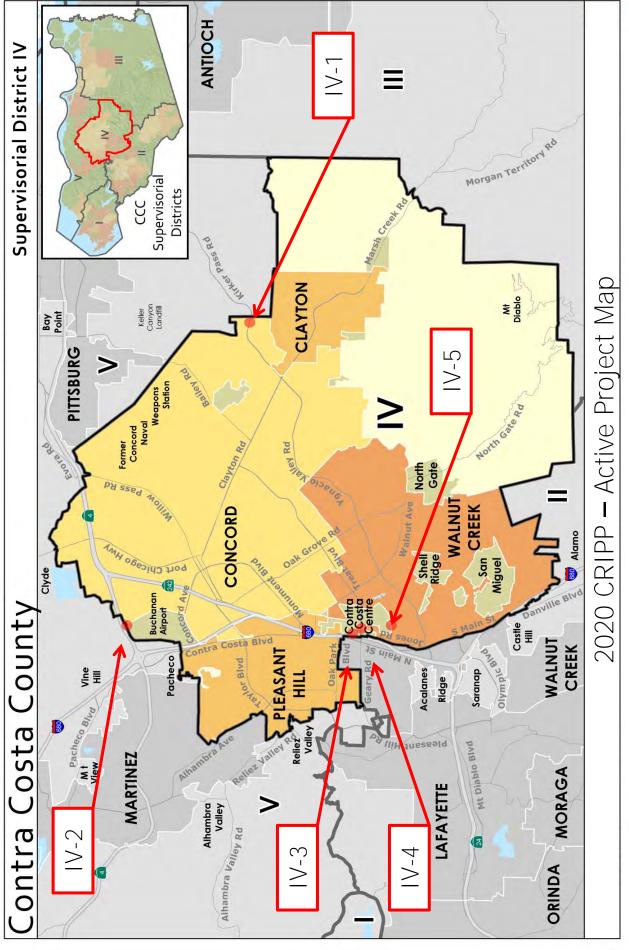

- III-46. <u>Sandmound Boulevard Improvements Mariner Road to Cypress Road</u> (Bethel Island AOB) – This project proposes to install bicycle and pedestrian improvements along 1.1 miles of Sandmound Boulevard from Mariner Road to Cypress Road.
- III-47. <u>Sandmound Boulevard Widening Oakley City Limits to Mariner Road</u> (Bethel Island AOB) – This project proposes to widen travel lanes and improve shoulders for about 0.3 miles of Sandmound Boulevard from Oakley City Limits to Mariner Road.
- III-48. <u>Sellers Avenue & Balfour Road Intersection Improvements (East County</u> <u>Regional AOB)</u> – This project proposes to install a new traffic signal and exclusive left-turn lanes at the intersection of Sellers Avenue and Balfour Road.
- III-49. <u>Sellers Avenue & Chestnut Avenue Intersection Improvements (East County Regional AOB)</u> This project proposes to install a new traffic signal and exclusive left-turn lane at the intersection of Sellers Avenue and Chestnut Avenue.
- III-50. <u>Sellers Avenue & Marsh Creek Road Intersection Improvements (East County Regional AOB)</u> This project proposes to install a new traffic signal at the intersection of Sellers Avenue and Marsh Creek Road in cooperation with Caltrans.
- III-51. <u>Sellers Avenue & Sunset Road Intersection Improvements (East County Regional AOB)</u> This project proposes to install a new traffic signal and exclusive left-turn lanes at the intersection of Sellers Avenue and Sunset Road.
- III-52. <u>Sellers Avenue Widening Delta Road to Chestnut Street (East County Regional AOB)</u> This project proposes to widen about 2.5 miles of Sellers Avenue from Delta Road to Chestnut Street.
- III-53. <u>Sellers Avenue Widening Main Canal to Marsh Creek Road (East County Regional AOB)</u> This project proposes to widen shoulders for about 1.5 miles of Sellers Avenue from the ECCID canal south to Marsh Creek Road.
- III-54. <u>SR239/Trilink: Vasco Road-Byron Highway Connector</u> This project proposes to construct a new roadway as part of the future Route 239 connector between Vasco Road and Byron Highway.
- III-55. <u>State Route 4 & Byron Highway (South) Intersection Widening Phase 2</u> (East County Regional AOB) – This project proposes to widen the existing pavement on Byron Highway's portion of the intersection to provide turn lanes onto State Route 4.

- III-56. <u>State Route 4 & Newport Drive Signal (Discovery Bay AOB)</u> This project proposes to install a new traffic signal at the intersection of State Route 4 and Newport Drive in cooperation with Caltrans. Community support is a key aspect to this project.
- III-57. <u>State Route 4 Widening Bixler Road to Discovery Bay Boulevard –</u> <u>Complete Streets and Bridge Widening (Discovery Bay AOB)</u> – This project proposes to widen about 1.2 miles of State Route 4 from Bixler Road to Discovery Bay Boulevard in cooperation with Caltrans.
- III-58. <u>State Route 4 Widening Byron Highway to Regatta Drive (Discovery Bay</u> <u>AOB)</u> – This project proposes to widen State Route 4 between Byron Highway and Regatta Drive.
- III-59. <u>Sunset Road Widening Sellers Avenue to Byron Highway (East County Regional AOB)</u> This project proposes to widen shoulders for about 2.0 miles of Sunset Road from Sellers Avenue to Byron Highway.
- III-60. <u>Vasco Road / Camino Diablo Intersection Improvements (East County Regional AOB)</u> This project is to modify the intersection at Vasco Road and Camino Diablo. Improvements include dual left turn lanes on westbound Camino Diablo, dual right turn lanes on eastbound Camino Diablo, lengthen the 4-lane section on Vasco Road near the intersection, and maintain the exclusive right lane on northbound Vasco Road.

Board of Supervisor District IV

Note: 1) Projects are identified with Supervisor District number and project number for its District.

2) County-wide Projects are not shown on this map. 3) District IV contains 40.07 miles of the 662.23 miles of County maintained roadway as of 1/1/2019.

Contra Costa County Public Works Department

## CRIPP PROJECT DESCRIPTIONS FOR DISTRICT IV

ACTIVE PROJECTS – These projects are fully funded and will be constructed in the near future. These active projects are mapped on the previous page.

IV-1. <u>Kirker Pass Road Northbound Truck Climbing Lane</u> – This project is to construct a truck-climbing lane in the northbound direction from Clearbrook Drive to the northern Hess Road intersection. The project started construction in 2019. State Transportation Improvement Program (STIP), Gas Taxes, and Measure J fund this project.

In addition, this project is to conduct pavement rehabilitation on a portion of Kirker Pass Road from the City of Concord/County boundary to approximately 4,200 feet of the northern Hess Road intersection. This project is scheduled for construction in 2020 after the Northbound Truck Climbing Lane Project. The One Bay Area Grant (OBAG) and Gas Taxes fund this project.

- IV-2. <u>Marsh Drive Bridge Replacement</u> This project is to remove and replace the existing Marsh Drive Bridge in cooperation with the City of Concord. Construction is scheduled for 2021. Highway Bridge Program (HBP) and Gas Taxes fund this project.
- IV-3. <u>Oak Road Bikeway Project</u> This project is to improve bicyclist safety by providing Class II bicycle lanes and related improvements on Oak Road between Treat Boulevard and Buskirk Avenue in unincorporated Walnut Creek. Construction is scheduled for 2021. Transportation Development Act (TDA) and Gas Taxes fund this project.
- IV-4. <u>Treat Boulevard Corridor Improvements</u> This project is to improve safety and connectivity for pedestrian and bicyclist along Treat Boulevard between North Main Street and Jones Road. Construction is scheduled for 2024. State Transportation Improvement Program (STIP) and Gas Taxes fund this project.
- IV-5. <u>Walnut Creek Crosswalk Improvements</u> This project is to improve pedestrian safety at two crosswalk locations in unincorporated Walnut Creek. One of the crossings, located in District IV, is at the intersection of Walden Road and Westcliffe Lane. The project is schedule for construction in the summer of 2020. The Highway Safety Improvement Program (HSIP), Transportation Development Act (TDA), and Gas Taxes fund this project.

PROJECT NAME Treat Boulevard Corridor Improvements

PROJECTThis project is to improve safety and connectivity for pedestrian and bicyclist along TreatDESCRIPTIONBoulevard between North Main Street and Jones Road.

PURPOSE AND<br/>NEEDThe purpose of this project is to improve safety and connectivity for pedestrians and<br/>bicyclists along Treat Blvd. Treat Blvd currently creates challenges for the users of transit as<br/>the wide roadways (up to nine lanes) and intersections become barriers for pedestrians to<br/>cross. Without bicycle infrastructure, the first/last mile for transit users becomes even more<br/>constrained.

PROJECT NAME Treat Blvd Corridor Improvements

PROJECT NAME Walnut Creek Crosswalk Improvements

PROJECT This project is to improve pedestrian safety at two crosswalk locations in the vicinity of unincorporated Walnut Creek. One of the two crossings is located in District II at the intersection of Olympic Boulevard and Bridgefield Road. The other project site is located in District IV at Walden Road and Westcliffe Lane. The project is schedule for construction in the summer of 2020. This project is funded by the Highway Safety Improvement Program (HSIP), Transportation Development Act (TDA), and Gas Tax Funds.

PURPOSE AND<br/>NEEDImprove pedestrian safety at two pedestrian crosswalk locations in unincorporated Walnut<br/>Creek.

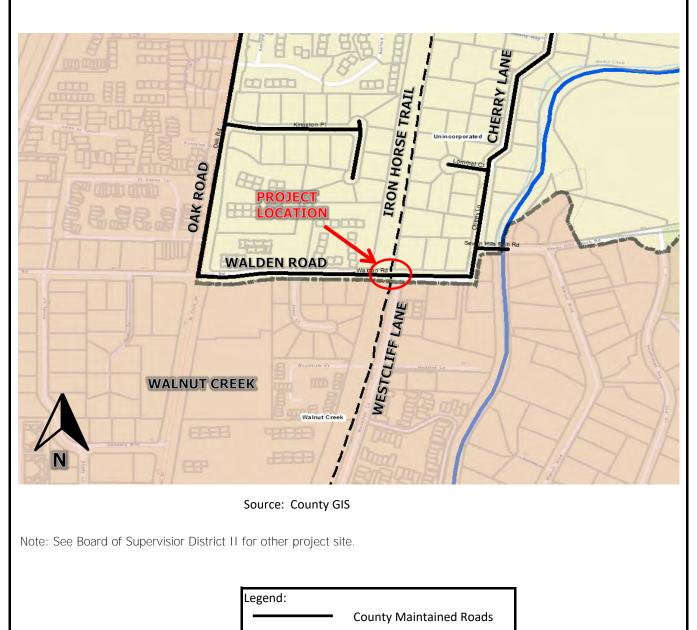

The purpose of this project is to improve pedestrian safety at two crosswalk locations in **unincorporated Walnut Creek—the intersection of Olympic Boulevard and Bridgefield Road** and the intersection of Walden Road and Westcliffe Lane.

PROJECT NAME Walnut Creek Crosswalk Improvements

UNFUNDED PROJECTS – This is a comprehensive list of projects that have been conceived but not funded. This project list originated from the following sources: Area of Benefit (AOB) project lists the Regional Transportation Plan (RTP), Comprehensive Transportation Project List (CTPL) through Contra Costa Transportation Authority (CCTA), Transportation Expenditure Plan (TEP), and a Public Works List that was generated from community input/need. District IV includes Pacheco AOB, Central County AOB, East County Regional AOB, and South Walnut Creek AOB.

- IV-6. <u>Avers Road & Concord Boulevard Intersection Improvements (Central County AOB)</u> This project proposes to add a southbound right-turn lane and sidewalk at the intersection of Ayers Road and Concord Boulevard.
- IV-7. Ayers Road & Laurel Avenue Intersection Improvements (Central County <u>AOB</u>) – This project proposes to widen the approaches to the intersection at Ayers Road and Laurel Drive and to install new curb, gutter, sidewalk, and traffic signal. Improvements require coordination with the City of Concord.
- IV-8. <u>Bailey Road & Myrtle Drive Intersection Improvements (Central County</u> <u>AOB</u>) – This project proposes to improve the safety at the intersection at Bailey Road and Myrtle Drive by widening Bailey Road for a new through-lane and westbound left turn pocket.
- IV-9. <u>Bailey Road Improvements Myrtle Drive to Concord City Limits (Central County AOB)</u> This project proposes to add shoulders north and south of Myrtle Drive to the Concord City Limits.
- IV-10. <u>Buskirk Avenue Improvements Treat Boulevard to Pleasant Hill City</u> <u>Limits (Central County AOB)</u> – This project proposes to widen the roadway along Buskirk Avenue from Treat Boulevard to the Pleasant Hill City limit.
- IV-11. <u>Concord Avenue Shared Use Path (Pacheco AOB)</u> This project proposes to construct a 10' wide Class I shared use path on the south side of Concord Avenue from Contra Costa Boulevard to the Iron Horse Trail.
- IV-12. <u>Iron Horse Trail Flashers (CTPL)</u> This project proposes to add pedestrian crossing flashers along the Iron Horse Trail to improve pedestrian safety at trail crossings.
- IV-13. Jones Road Bike Route Project Oak Road to Canal Trail (CTPL) This project proposes to provide a Class III bike route.
- IV-14. <u>Kirker Pass Road Bicycle Project (CTPL)</u> This project proposes to provide Class II bike lanes from the City of Pittsburg to the City of Concord.

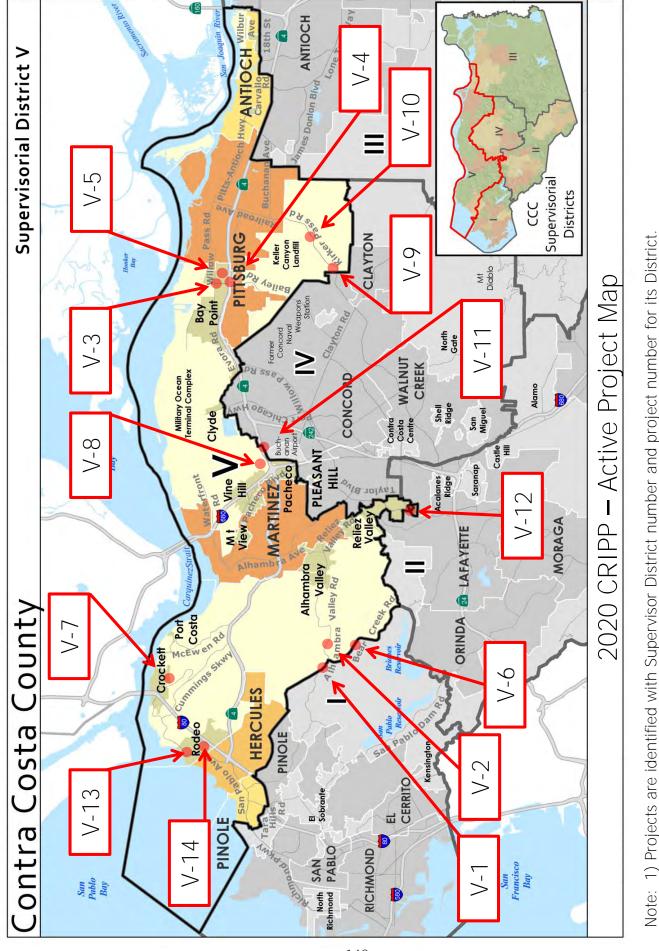

- IV-15. <u>Las Juntas Way & Coggins Drive Intersection Improvements (Central County AOB)</u> This project proposes to improve the intersection level of service through intersection modifications at Las Juntas Way and Coggins Drive near the Pleasant Hill Bart Station.
- IV-16. <u>Marsh Creek Trail (CTPL)</u> This project proposes to construct a bicycle and pedestrian facility and close the 15-mile bike and pedestrian gap along Marsh Creek Road between Clayton and Brentwood. The existing trail in Brentwood is to be extended by others to Round Hill Park. The overall intent is to provide a commuter bicycle trail which connects Central County to East County (Also see District III).
- IV-17. <u>Marsh Drive Improvements Center Avenue to Walnut Creek Bridge</u> (Pacheco AOB) – This project proposes to widen or restripe the roadway to provide shoulders/bike lanes on both sides of Marsh Drive from Center Avenue up to the Walnut Creek Bridge (near the Iron Horse Trail).
- IV-18. <u>Marshall Drive Sidewalk Indian Valley Elementary School / City of</u> <u>Walnut Creek to El Verano Drive (CTPL)</u> – This project proposes to construct sidewalk on both sides of Marshall Drive. This is about a one-mile segment of roadway.
- IV-19. <u>Mayhew Way Bicycle and Pedestrian Improvements 200' west of Oberon</u> <u>Drive to Bancroft Road (Central County AOB)</u> – This project proposes to construct bicycle and pedestrian improvements along Mayhew Way from Bancroft **Road to 200' west of Ober**on Drive (Pleasant Hill City Limit).
- IV-20. <u>Mitchell Canyon Road Bike Lanes</u> This project proposes to widen about one mile of roadway to install Class II bike lanes to connect the City of Clayton and the Mitchell Canyon Staging area for Mount Diablo State Park. Areas of limited sight distance make it difficult for cars to anticipate bicyclist on the narrow two-lane roadway.
- IV-21. <u>Mountain View Boulevard Pedestrian Improvements San Miguel Drive</u> to Walnut Boulevard (Central County AOB) – This project proposes to construct pedestrian and bicycle facilities along Mountain View Boulevard from San Miguel Drive to Walnut Boulevard.
- IV-22. <u>Pleasant Hill BART Station Bicycle and Pedestrian Access (CTPL)</u> This project proposes to construct and improve bicycle and pedestrian access to the Pleasant Hill BART Station.
- IV-23. <u>Reliez Valley Road Bicycle Improvements North of Grayson Road to</u> <u>Withers Avenue (Central County AOB)</u> – This project proposes to install bicycle improvements along Reliez Valley Road between Grayson Road to Withers Avenue.

- IV-24. <u>Rudgear Road & San Miguel Drive Intersection Safety Improvements</u> (Central County AOB) – This project proposes to construct safety and efficiency improvements at the intersection of Rudgear Road and San Miguel Drive.
- IV-25. <u>San Miguel Drive Bicycle and Pedestrian Improvements (Central County</u> <u>AOB)</u> – This project proposes to construct a pedestrian path along the west side of San Miguel Drive from Blackwood Drive to Rudgear Road.
- IV-26. <u>Treat Boulevard & Jones Road Intersection Improvements (Central County AOB)</u> This project proposes to modify the intersection in order to improve the level of service at the intersection of Treat Boulevard and Jones Road. On the southbound approach, an additional southbound left turn bay is proposed. On the northbound approach, a separate northbound right turn lane is proposed.
- IV-27. <u>Treat Boulevard Bicycle Improvements Jones Road easterly to Walnut</u> <u>Creek City Limits (Central County AOB)</u> – This project proposes to improve bicycle accessibility and safety along Treat Boulevard.
- IV-28. <u>Walnut Boulevard Pedestrian Improvements View Lane to 250' west of</u> <u>Walnut Court (Central County AOB)</u> – This project proposes to construct pedestrian and bicycle facilities along Walnut Boulevard from View land to 250' west of Walnut Court.

Board of Supervisor District V

<sup>1)</sup> Projects are identified with Supervisor District number and project number for its District.

<sup>2)</sup> County-wide Projects are not shown on this map. 3) District V contains 181.49 miles of the 662.23 miles of County maintained roadway as of 1/1/2019.

#### **CRIPP PROJECT DESCRIPTIONS FOR DISTRICT V**

**ACTIVE PROJECTS** – These projects are fully funded and will be constructed in the near future. These active projects are mapped on the previous page.

- V-1. Alhambra Valley Road Embankment Repair 0.4 miles west of Bear Creek Road – This project proposes to repair an existing slide along Alhambra Valley Road (approximately 0.4 miles west of Bear Creek Road). Currently the one-way traffic control is established around the eroded embankment. Construction is expected in 2020. Measure J and Gas Taxes fund this project.
- V-2. <u>Alhambra Valley Road Storm Repair Project Ferndale Site</u> This project is to repair storm damage to Alhambra Valley Road. Construction is schedule for 2020. Measure J and Gas Taxes fund this project.
- V-3. **Bay Point Utility Undergrounding Project** This project is to relocate overhead utilities into a trench along Bailey Road and Willow Pass Road. Construction started in 2018 and expected to be completed in 2021. Navy Mitigation, Gas Taxes, and Rule 20A work credits through PG&E fund this project.
- V-4. **Bailey Road/SR4 Interchange Improvements** This project is to modify the intersection at State Route 4 and Bailey Road. Improvements will encourage pedestrian safety by changing the traffic circulation at the off-ramps. An additional traffic signal will be installed for the new interchange configuration. Bicyclist will also benefit from the intersection revisions. Construction is scheduled for 2020. Funding is provided by Active Transportation Program (ATP), Bay Point AOB, Measure J, Navy Mitigation Fund, and Gas Tax Funds.
- V-5. **Bear Creek Road Road Embankment Repair** This project proposes to repair the roadway embankment along Bear Creek Road. Currently the one-way traffic control is established around the eroded embankment. Construction is expected in 2020. Gas Taxes fund this project.
- V-6. **Bel Air Trail Crossing Project** This project is to construct safety improvements at the Bel Air Trail Crossing on Madison Avenue which is behind the Bel Air Elementary School in Bay Point. Sidewalk (gap closure) improvements will also take place along Madison Avenue where there is only a dirt shoulder. Construction is scheduled for 2020. Transportation Development Act and Gas Taxes fund this project.

- V-7. <u>Crockett Area Guardrail Upgrades</u> This project is to remove existing guardrails and end treatments and replace them with current Caltrans standard guardrails and end treatments on arterials and major collector roadways in the unincorporated Crockett area. Construction is scheduled for 2022. Gas Taxes and the Highway Safety Improvement Program (HSIP) fund this project.
- V-8. Imhoff Drive Bicycle Shoulder Restriping This project will stripe shoulders to create Class II bike lanes for bicyclists to utilize for travel for 0.3 miles along Imhoff Drive between Blum Road and the State Route 4 Bikeway east of Waterbird Way within the existing roadway. Construction is scheduled for 2022. The Transportation Development Act (TDA) and Gas Taxes fund this project.
- V-9. <u>Kirker Pass Road Northbound Truck Climbing Lane</u> This project is to widen Kirker Pass Road to add a northbound truck-climbing lane. Construction started in 2019. State Transportation Improvement Program (STIP), Measure J, and Gas Taxes fund this project.

In addition, this project is to conduct pavement rehabilitation on a portion of Kirker Pass Road from the City of Concord/County boundary to approximately 4,200 feet of the northern Hess Road intersection. This project is scheduled for construction in 2020 after the Northbound Truck Climbing Lane Project. The One Bay Area Grant (OBAG) and Gas Taxes fund this project.

- V-10. <u>Kirker Pass Road Safety Project</u> This project is to improve driver safety and awareness and reduce the severity of collision events along 3.1-mile segment of Kirker Pass Road between the city borders of Concord and Pittsburg. Construction is scheduled for 2022. Gas Taxes and Federal Highway Safety Improvement Program (HSIP) fund this project.
- V-11. Marsh Drive Bridge Replacement This project is to remove and replace the existing Marsh Drive Bridge in cooperation with the City of Concord. Construction is scheduled for 2021. Highway Bridge Program (HBP) and Gas Taxes fund this project.
- V-12. Pleasant Hill Road Bridge Rehabilitation (Bridge No. 28C0154) This project is to extend the service life of the Pleasant Hill Road Bridge over Taylor Boulevard. Construction is schedule for 2022. Highway Bridge Program (HBP) and Gas Taxes fund this project.
- V-13. **Rodeo Downtown Infrastructure Improvements** This project is to construct sidewalks and curb ramps along Pacific Avenue and a section along Parker Avenue near 7<sup>th</sup> Street. Project is to improve pedestrian access to Rodeo Creek Trail on Investment Street and fill in sidewalk gap segments. Construction is scheduled for 2020. Department of Conservation and Development, Transportation Development Act, and Gas Taxes fund this project.

V-14. **Rodeo Pedestrian Enhancement Project** – 6<sup>th</sup> and 7<sup>th</sup> Street – This project will install two ADA curb ramps on Parker Avenue at 6<sup>th</sup> Street and three rapid repeating flash beacons. Along 7<sup>th</sup> Street, pedestrian crossing enhancements are to be constructed in front of Saint Patrick School. Construction is scheduled for 2021. This project is funded by the Transportation Development Act and Gas Tax Funds.

PROJECT NAME Alhambra Valley Road Embankment Repair

PROJECT This project proposes to repair an existing slide along Alhambra Valley Road (approximately 0.4 miles west of Bear Creek Road). Currently the one-way traffic control is established around the eroded embankment. Construction is expected in 2020. Measure J and Gas Taxes fund this project.

PURPOSE AND<br/>NEEDPurpose is to re-established the roadway to accommodate two-lanes of traffic and widen the<br/>roadway for shoulders

PROJECT NAME Alhambra Valley Road Storm Repair Project - Ferndale Site

5

PROJECTThis project is to repair storm damage to Alhambra Valley Road. Construction is schedule for<br/>2020. Measure J and Gas Taxes fund this project.

PURPOSE AND<br/>NEEDTo reconstruct the road embankment and restore the eastbound lane of Alhambra Valley<br/>Road which was washed out/slid in the January 2017 storm events.

Currently, Alhambra Valley Road has been reduced to a single lane. The eastbound lane has been closed off with concrete K-Rail adn stop signs ahve been installed on both sides of partial lane closure to allow one-way traffic. The proposed project will restore the eastbound lane of the road to traffic and allow unimpeded traffic flow.

PROJECT NAME Bailey Road/SR 4 Interchange Improvements

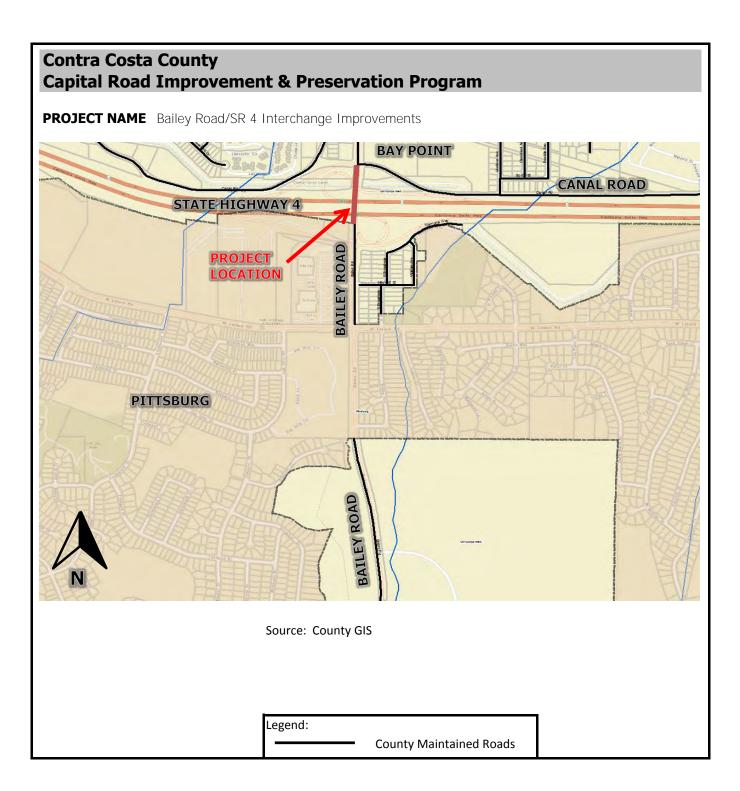

PROJECTThis project will improve safety and circulation of pedestrians and bicyclists along BaileyDESCRIPTIONRoad through the State Route 4 (SR4) interchange. Construction is scheduled for 2020.Funding is provided by Active Transportation Program (ATP), Bay Point AOB, Measure J,<br/>Navy Mitigation Fund, and Gas Tax Funds.

PURPOSE AND<br/>NEEDThe project will improve safety and circulation of pedestrians and bicyclists along Bailey<br/>Road through the State Route 4 (SR4) Interchange. Bailey Road is a principal arterial road<br/>that connects residents to the Pittsburg/Bay Point BART station, Bel Air Elementary School,<br/>Delta De Anza Regional Trail and nearby commercial areas.

PROJECT NAME Bay Point Utility Undergrounding Project

PROJECT NAME Bear Creek Road - Road Embankment Repair

PROJECT This project proposes to repair the roadway embankment along Bear Creek Road. Currently DESCRIPTION the one-way traffic control is established around the eroded embankment. Construction is expected in 2020. Gas Taxes fund this project.

PURPOSE AND<br/>NEEDThe purpose of this project is to repair two embankment sites adjace to the northbound<br/>lane of Bear Creek Road. Erosion has occurred at both embankments, resulting in massive<br/>deterioration of the road shoulders. The damage has already encroached into the traveled<br/>way at Embankment 1.

reliability

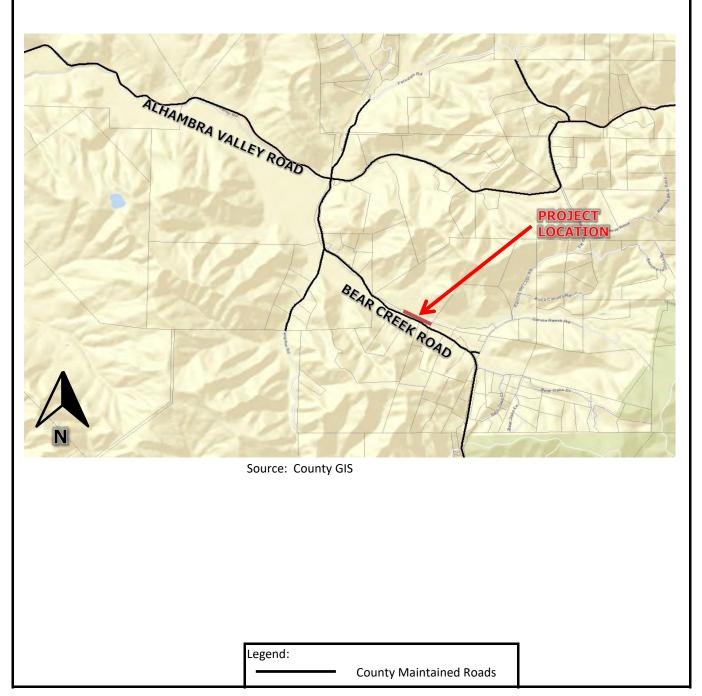

Reparing the two embankments will restore the roadway shoulder and prevent further erosion. The northbound traveled lane at Embankment 1 is currently closed off due to deteriorated pavement, and will be restored to allow two-way traffic flow to resume.

PROJECT NAME Bel Air Trail Crossing Project

PROJECTThis project is to construct safety improvements at the Bel Air Trail Crossing on MadisonDESCRIPTIONAvenue which is behind the Bel Air Elementary School in Bay Point. Sidewalk (gap closure)improvements will also take place along Madison Avenue where there is only a dirt shoulder.<br/>Construction is scheduled for 2020. Transportation Development Act and Gas Taxes fund<br/>this project.

PURPOSE AND NEED The purpose of this project is to improve pedestrian access and safety at the Bel Air Trail crossing. Bel Air Elementary School has a rear entrance that leads to the Bel Air Trail, a **County maintained trail. Madison Avenue and Bel Air Trail Crossing is a "known" drop off point to get to the school's rear entrance. During drop off and pick up times at school,** double parking often becomes problematic due to U-turn movements by vehicles and double parking. This type of vehicle activity makes it difficult to see students who are using the trail crossing. There is also a sidewalk gap along Madison Avenue along the Bel Air trail corridor where vehicles tend to restrict and block the pedestrian path of travel to and from the school. As a result, pedestrians are walking on the shoulder or pinched between the parked vehicles and the trail fencing.

PROJECT NAME Imhoff Drive Bicycle Shoulder Restriping

PROJECTThis project will stripe shoulders to create Class II bike lanes for bicyclists to utilize for travel<br/>for 0.3 miles along Imhoff Drive between Blum Road and the State Route 4 Bikeway east of<br/>Waterbird Way within the existing roadway. Construction is scheduled for 2022. The<br/>Transportation Development Act (TDA) and Gas Taxes fund this project.

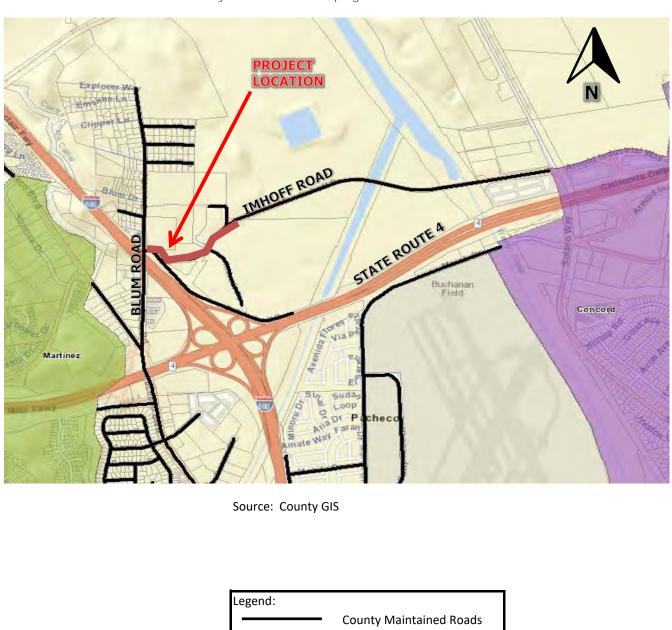

PURPOSE AND NEED The purpose of this project is to improve bicyclist safety along Imhoff Drive between Blum Road and the State Route 4 Bikeway, which starts approximately 200 feet east of Waterbird Way, in unincorporated Martinez. There are no bicycle facilities along Imhoff Drive between Blum Road and the State Route 4 Bikeway. This project will allow bicyclists to safely access the State Route 4 Bikeway, which connects the City of Martinez to the City of Concord. This roadway segment is included in the 2009 Contra Costa Countywide Bicycle and Pedestrian Plan.

PROJECT NAME Kirker Pass Road Safety Project

PROJECT This project is to improve driver safety and awareness and reduce the severity of collision DESCRIPTION events along 3.1-mile segment of Kirker Pass Road between the city borders of Concord and Pittsburg. Improvements include guardrail installation, street lights at the intersections at Hess Road, and median reflectors. Construction is scheduled for 2022. Gas Taxes and Federal Highway Safety Improvement Program (HSIP) fund this project.

PURPOSE ANDThe purpose of the Kirker Pass Road Safety Improvements project is to improve driver<br/>safety and awareness and reduce the severity of collision events .

From 2014 to 2018, Kirker Pass Road ranks as one of the County roadways with the highest rate of severe-injury collisions, which resulted in 117 accidents, five of them being fatal collisions.

PROJECT NAME Rodeo Downtown Infrastructure

PROJECTThis project is to construct sidewalks and curb ramps along Pacific Avenue and a section<br/>along Parker Avenue near 7th Street. Project is to improve pedestrian access to Rodeo<br/>Creek Trail on Investment Street and fill in sidewalk gap segments. Construction is<br/>scheduled for 2020. Department of Conservation and Development, Transportation<br/>Development Act, and Gas Taxes fund this project.

PURPOSE AND The project proposes to improve pedestrian infrastructure between the Rodeo Creek trailhead on Investment Street, along Pacific Avenue from Parker Avenue to the existing trail entrance at San Pablo Avenue. Pedestrian facilities in the downtown area and between these two trails have several gaps and outdated or non-existent ADA-compliant sidewalks and curb ramps. The project will fill these gaps to provide continuous pedestrian infrastructure.

safety

PROJECT NAME Rodeo Pedestrian Enhancement Project

PROJECT This project will install two ADA curb ramps on Parker Avenue at 6th Street and three rapid repeating flash beacons. Along 7th Street, pedestrian crossing enhancements are to be constructed in front of Saint Patrick School. Construction is scheduled for 2021. This project is funded by the Transportation Development Act and Gas Tax Funds.

PURPOSE ANDThe purpose of this project is to improve pedestrian safety at the intersection of ParkerNEEDAvenue and 6th Street and in front of Saint Patrick School on 7th Street in Rodeo.

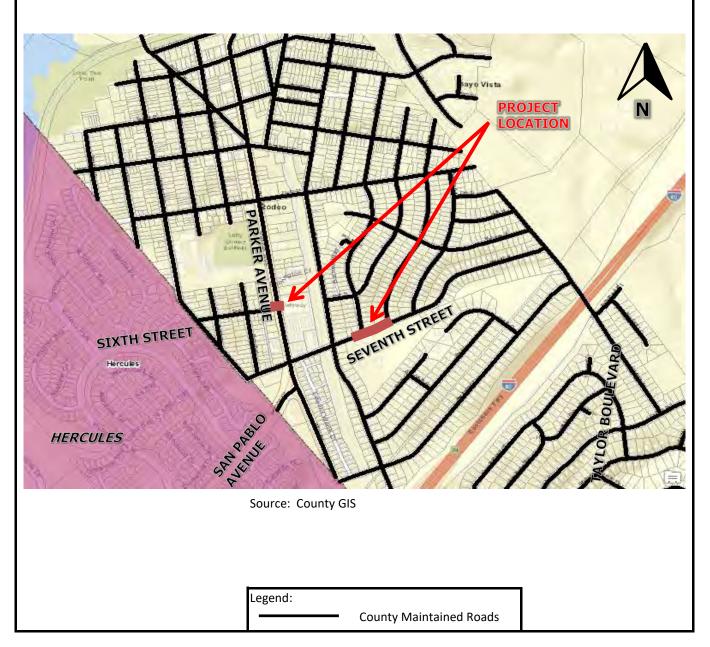

The need is based on the numerous requests for pedestrian safety improvements due to ongoing issues of motorists not yielding to pedestrians at 6th Street and speeding in front of St. Patrick School.

PROJECT NAME Rodeo Pedestrian Enhancement Project

UNFUNDED PROJECTS - This is a comprehensive list of projects that have been conceived but not funded. This project list originated from the following sources: Area of Benefit (AOB) project lists, the Regional Transportation Plan (RTP), Comprehensive Transportation Project List (CTPL) through Contra Costa Transportation Authority (CCTA), Transportation Expenditure Plan (TEP), and a Public Works List that was generated from community input/need. District V includes Martinez AOB, Pacheco AOB, and Bay Point AOB.

- V-15. <u>6<sup>th</sup> Street, Rodeo Sidewalk Project (CTPL)</u> This project proposes to provide sidewalk along one side of 6<sup>th</sup> Street between Parker Avenue and Garretson Avenue.
- V-16. 7th Street, Rodeo Sidewalk Project (CTPL) This project proposes to provide sidewalk along one side of 7<sup>th</sup> Street between Parker Avenue and Garretson Avenue.
- V-17. Alhambra Valley Road Safety Improvements Various Locations This project proposes to construct safety improvements along Alhambra Valley Road.
- V-18. Alves Lane Extension Willow Pass Road to Pacifica Avenue (Bay Point AOB) - This project proposes to construct a new roadway extension and modify the existing traffic signal at Alves Lane and Willow Pass Road.
- V-19. Bailey Road and Mary Anne Lane Signal Project (CTPL) This project proposes to install a traffic signal at Bailey Road and Mary Anne Lane.
- V-20. Bailey Road Overlay Project SR4 to Keller Canyon Landfill Entrance. -This project includes pavement rehabilitation on the County-maintained portion of Bailey Road. This project will be scheduled for construction as soon Maintenance deems it appropriate. Funding is through the Keller Canyon Mitigation Fund for pavement rehabilitation and Gas Tax Funds.
- V-21. Bailey Road Pedestrian & Bicycle Improvements Canal Road to Willow Pass Road (Bay Point AOB) - This project proposes to construct pedestrian and bicycle improvements along Bailey Road from Canal Road to Willow Pass Road. (see also Active Project #V-3 Bay Point Undergrounding Project)
- V-22. Bear Creek Road Safety Improvements Alhambra Valley Road to the City of Orinda (CTPL) - This project proposes to construct roadway safety improvements along Bear Creek Road between Alhambra Valley Road to the City of Orinda.
- V-23. Bella Vista Infrastructure Improvements (CTPL) This project proposes to construct capital improvements in accordance with the Bella Vista Infrastructure Study.

- V-24. <u>Canal Road Sidewalk Project 420 feet South of Winderbrook Drive to</u> <u>Chadwick Lane (CTPL)</u> – This project proposes to construct sidewalk along a segment of Canal Road between Chadwick Lane and 420 feet south of Winterbrook Drive.
- V-25. <u>Center Avenue Bicycle and Pedestrian Improvements Pacheco</u> <u>Boulevard to Marsh Drive (Pacheco AOB) (CTPL)</u> – This project proposes to construct bike lanes, widen the roadway by reducing the existing sidewalk, and construct new sidewalk to provide a continuous path of travel along Center Avenue.
- V-26. <u>Crockett Area Overlays & Reconstruction Project</u> This project proposes to conduct pavement overlays and reconstruction in the Crockett area.
- V-27. <u>Cummings Skyway Widen Interchange at I-80 (CTPL)</u> This project proposes to widen the interchange between I-80 and Cummings Skyway.
- V-28. <u>Cummings Skyway Truck Climbing Lane Extension (RTP)</u> This project proposes to extend the existing eastbound truck-climbing lane on Cummings Skyway.
- V-29. <u>Delta De Anza Trail Connection Class I bikeway from Evora Road in Bay</u> <u>Point to Port Chicago Highway in Concord to Iron Horse Trail (CTPL)</u> – This project is a combination of two CTPL projects, which proposes a Class I bikeway. The first segment is from Evora Road in Bay Point to Port Chicago Highway (Concord), and the second segment is from Port Chicago Highway (Concord) to the Iron Horse Trail.
- V-30. <u>Delta De Anza Trail Connection (CTPL)</u> This project proposes to upgrade trail crossings from Driftwood Drive to Canal Road.
- V-31. <u>Driftwood Drive Improvements Port Chicago Highway to Pacifica</u> <u>Avenue (Bay Point AOB)</u> – This project proposes to construct six-foot shoulders and six-and-a-half wide sidewalks on both sides of Driftwood Drive.
- V-32. <u>Evora Road & Willow Pass Road Intersection Improvements (CTPL)</u> This project proposes intersection improvements to facilitate movement to and from State Route 4, including signal modifications and new signal installation.
- V-33. <u>Evora Road Extension Western Terminus to Port Chicago Highway</u> (<u>CTPL</u>) – This project proposes to extend Evora Road westward to Port Chicago Highway.

- V-34. Evora Road Widening Willow Pass Road in Bay Point to Willow Pass Road in Concord (CTPL) – This project proposes to widen Evora Road to four lanes from Bay Point to Concord.
- V-35. <u>Franklin Canyon Undercrossing Sobrante Ridge to Carquinez Strait Trail</u> (CTPL) – This project proposes to construct a Franklin Canyon undercrossing to facilitate regional trail access.
- V-36. <u>Gloria Terrace Sidewalk Project Taylor Boulevard to Reliez Valley Road</u> (CTPL) – This project proposes to provide a sidewalk or walkable shoulders on Gloria Terrace.
- V-37. <u>Kirker Pass Road Bicycle Project (CTPL)</u> This project proposes to provide Class II bike lanes from the City of Pittsburg to the City of Concord.
- V-38. <u>Kirker Pass Road Northbound Runaway Truck Ramp (CTPL)</u> This project proposes to construct a northbound runaway truck ramp along Kirker Pass Road prior to the City of Pittsburg.
- V-39. <u>Kirker Pass Road Southbound Truck Lane (RTP)</u> This project proposes to construct a southbound trunk climbing lane along Kirker Pass Road.
- V-40. <u>Local Road Pedestrian and Bicycle Upgrade at Benicia Bridge</u> This project proposes to construct and upgrade pedestrian and bicycle improvements leading up to Benicia Bridge.
- V-41. Loftus Road Pedestrian Improvements Canal Road to Willow Pass Road (Bay Point AOB) – This project proposes pedestrian and bicycle improvements on both sides of Loftus Road.
- V-42. <u>Marsh Drive Improvements Center Avenue to Walnut Creek Bridge</u> <u>Pacheco AOB</u> – This project proposes to widen or restripe the roadway to provide shoulders/bike lanes on both sides of Marsh Drive from Center Avenue up to the Walnut Creek Bridge (near the Iron Horse Trail).
- V-43. <u>McNabney Marsh Open Space Connection to Waterfront Road Project</u> <u>(CTPL)</u> – This project proposes to provide an entrance to the McNabney Marsh Open Space from Waterfront Road.
- V-44. <u>Monterey Street Safety Improvements Veale Avenue to Palm Avenue</u> <u>(CTPL)</u> – This project proposes to pipe an existing ditch, conduct drainage improvements and provide walkable shoulders.

- V-45. <u>Pacheco Boulevard & Center Avenue Intersection Improvements</u> (<u>Pacheco AOB</u>) – This project proposes to construct modifications to the intersection of Pacheco Boulevard and Center Avenue.
- V-46. <u>Pacheco Boulevard & Muir Road Intersection Improvements (Pacheco AOB)</u> This project proposes to construct intersection modifications at Pacheco Boulevard and Muir Road.
- V-47. <u>Pacheco Boulevard & North Buchanan Circle Intersection Improvements</u> (Pacheco AOB) – This project proposes to signalize the intersection at Pacheco Boulevard and Carolos Drive/North Buchanan Circle.
- V-48. <u>Pacheco Boulevard Complete Streets</u> <u>Arnold Drive to Muir Road</u> (<u>Pacheco AOB</u>) – This project proposes to construct new bike lanes along Pacheco Boulevard from Arnold Drive to Muir Road.
- V-49. <u>Pacheco Boulevard Improvements Morello Avenue to Blum Road (RTP)</u> (TEP) – This project proposes to improve the Pacheco Boulevard Corridor with Complete Streets concept. This project will be in cooperation with the City of Martinez.
- V-50. <u>Pacifica Avenue Extension Port Chicago Highway to Alves Lane (Bay</u> <u>Point AOB)</u> – This project proposes to construct a new roadway and modification of the existing traffic signal at Pacifica Avenue and Port Chicago Highway.
- V-51. <u>Pedestrian Improvements Near Rodeo Hills Elementary School</u> This project proposes to construct pedestrian improvements in the vicinity of the Rodeo Hill Elementary School in Rodeo.
- V-52. <u>Pleasant Hill Road & Taylor Boulevard Bicycle and Pedestrian</u> <u>Improvements (Central County AOB)</u> – This project proposes to construct improvements to the intersection of Pleasant Hill Road and Taylor Boulevard.
- V-53. <u>Pleasant Hill Road Sidewalk Project 1700 block to Diablo View Road on</u> <u>west side only (CTPL)</u> – This project proposes to construct a sidewalk on the west side of Pleasant Hill Road.
- V-54. <u>Pomona Street Sidewalk Project (CTPL)</u> This project proposes to construct a sidewalk along the south side of Pomona Street from 3<sup>rd</sup> Street to Rolph Avenue.
- V-55. <u>Pomona Street/Winslow Avenue/Carquinez Scenic Drive Safety</u> <u>Alignment Study</u> – This project proposes to conduct a safety alignment study along Pomona Street, Winslow Avenue, and Carquinez Scenic Drive.

- V-56. <u>Port Chicago Highway Bicycle and Pedestrian Improvements Driftwood</u> <u>Drive to McAvoy Road (Bay Point AOB)</u> – This project proposes to construct a bike lane/shoulder along both sides of Port Chicago Highway, and a sidewalk along the south side.
- V-57. <u>Port Chicago Highway Realignment Project McAvoy Road to Pacifica</u> <u>Avenue (Bay Point AOB)</u> – This project proposes to realign the sharp horizontal curve in Port Chicago Highway, add an eastbound left turn pocket at McAvoy Road, and add sidewalks along both sides of Port Chicago Highway.
- V-58. <u>Reliez Valley Road Bicycle Improvements North of Grayson Road to</u> <u>Withers Avenue (Central County AOB)</u> – This project proposes to construct bicycle improvements along Reliez Valley Road from Grayson Road to Withers Avenue.
- V-59. <u>San Pablo Avenue/Parker Avenue Sidewalk (CTPL)</u> This sidewalk project proposes to provide a pedestrian connection between Rodeo and the City of Hercules.
- V-60. <u>San Pablo Avenue Complete Streets Project Rodeo to Crockett (RTP)</u> This project proposes to construct complete streets improvements along San Pablo Avenue from Rodeo to Crockett.
- V-61. <u>Waterfront Road Grade Change Project</u> This project proposes to raise the roadway in anticipation of global sea level rise. McNabney Marsh and other wetlands that occasionally spill onto and flood Waterfront Road.
- V-62. <u>Willow Pass Road & Bailey Road Intersection Improvements (Bay Point</u> <u>AOB</u>) – This project proposes to widen Willow Pass Road to accommodate an additional westbound turn lane and a new eastbound right turn lane.
- V-63. <u>Willow Pass Road (West) & SR4 Interchange Improvements (Bay Point</u> <u>AOB)</u> – This project proposes to install new traffic signals at interchange of Willow Pass Road (West) and State Route 4 westbound and eastbound off ramps.
- V-64. <u>Willow Pass Road Improvements Bailey Road to Pittsburg City Limits</u> (Bay Point AOB) – This project proposes to restripe Willow Pass Road to provide four travel lanes and an application of slurry.
- V-65. <u>Willow Pass Road Improvements Evora Road to SR4 (Bay Point AOB)</u> This project proposes to widen Willow Pass Road and modify the Willow Pass Road/Evora traffic signal.

# Appendix B: County Road Improvement Policy

TO: BOARD OF SUPERVISORS

FROM: SUPERVISORS TOM TORLAKSON AND ROBERT SCHRODER TRANSPORTATION COMMITTEE

DATE: MAY 9, 1989

SUBJECT: ADOPTION OF THE COUNTY ROAD IMPROVEMENT POLICY

Specific Request(s) or Recommendation(s) & Background & Justification

#### I. RECOMMENDATION

Adopt the attached County Road Improvement Policy and direct the Public Works Director and the Director of Community Development to start developing the five year County Road Improvement Program for the Board's consideration in time for the 1990/91 fiscal year budget process.

II. FINANCIAL IMPACT

Public Works and Community Development staff time will be needed to prepare the County Road Improvement Program Annual Report and Recommendations.

III. REASONS FOR RECOMMENDATION/BACKGROUND

This policy is developed to guide the development of the Contra Costa County Road Improvement Program.

The County Road Improvement Program (CRIP) is needed for the following reasons:

 The Growth Management Program of Measure "C" requires each participating local agency to develop a Growth Management Element of its General Plan to be applied in the development review process and to develop a five year CRIP to meet and/or maintain Traffic Services and Performance Standards.

Orig. Div.: Trans. Comm. cc: County Administrator Public Works Director Director of Community Development County Gounsel B

May 9, 1989 PHIL BATCHELOR, CLERK OF THE BOARD OF SUPERVISORS AND COUNTY ADMINISTRATOR

e, d 60 DEPUTY CLERK

Signature:

Board of Supervisors May 9, 1989 Page Two

- 2. Government Code Section 66002 authorizes a local agency, such as the County, to adopt a transportation capital improvement plan to identify the use of developer fees.
- 3. Development of stable funding sources for transportation and project delivery are of interest to the Board of Supervisors. The CRIP, and the process in developing the CRIP will allow the Board to focus on these issues.

The County Transportation Committee approved the adoption of the CRIP on April 25, 1989.

#### IV. CONSEQUENCES OF NEGATIVE ACTION

Assuming that the Board will develop and adopt the Growth Management Element of the General Plan, without this policy, there will not be any directions to staff as to the development of the five year CRIP. THE BOARD OF SUPERVISORS OF CONTRA COSTA COUNTY, CALIFORNIA

Adopted this Order on May 9, 1989 by the following vote:

AYES: Supervisors Powers, Fahden, Schroder, McPeak, Torlakson

NOES: None

ABSENT: None

ABSTAIN: None

RESOLUTION NO. 89/306

SUBJECT: COUNTY ROAD IMPROVEMENT POLICY

This policy shall be known as the County Road Improvement Policy. It will guide the development of the Contra Costa County Road Improvement Program (CRIP) as authorized by Government Code Section 66002 and as required under the Growth Management Element of the Contra Costa Transportation Improvement and Growth Management Program ordinance approved by the voters in November 1988 (Measure "C").

Under Section 15061(b)(3) of the California Environmental Quality Act (CEQA), it can be seen with certainty that there is no possibility that the approval of this policy may have a significant effect on the environment and therefore, the approval of this policy is not subject to CEQA.

The Board of Supervisors FINDS and DECLARES as follows:

- A shortfall in road maintenance funding in the past has created a \$20 million backlog of road reconstruction and rehabilitation, and this backlog is increasing at a rate of several million dollars a year.
- 2. The existing revenue from gasoline tax only provides about 50 percent of the funding needed to adequately maintain the County's road system.
- 3. The existing urban traffic congestion has substantially reduced the quality of life in Contra Costa County.
- 4. This urban traffic congestion degrades the air quality of Contra Costa County and wastes scarce energy resources.
- 5. Solutions to the urban traffic congestion problem require coordination and cooperation between the State; regional, and local governments as well as the transit providers. It is the intent of the Board of Supervisors to work closely with the cities in the County, the transit providers, the Metropolitan Transportation Commission, and the State so that the CRIP will become parts of the region's effort to solve the congestion problems in the region.
- 6. The intent of the funds set aside for local streets and roads from Measure "C" is to correct existing maintenance and capacity problems:
- 7. The Growth Management Program of Measure "C" requires each participating local agency to develop a Growth Management Element of its General Plan to be applied in the development review process and to develop a five year CRIP to meet and/or maintain Traffic Service and Performance Standards.
- 8. The 1979 Bridge and Thoroughfare Policy of the Board of Supervisors requires new development to mitigate traffic impacts created by the development.

Board of Supervisors May 9, 1989 Page Two

- Government Code Section 66002 authorize a local agency, such as the County, to adopt a transportation capital improvement plan to identify the use of developer fees.
- There is a need to develop additional and stable funding sources for County road maintenance, reconstruction and capital improvement needs.
- Road improvement projects require years of advance planning, coordination and cooperation between various agencies before construction.
- 12. The Contra Costa CRIP and the transportation systems management efforts of the County are intended to compliment each other to improve the quality of life, air quality and safety, and to reduce traffic congestion in the County.

NOW, THEREFORE, the Board of Supervisors RESOLVES as follows:

The Board of Supervisors hereby adopts the County Road Improvement Policy set forth in this Resolution. The Policy shall consist of the following elements: I) Program Priority, II) Program Level and III) Program Procedure.

I. PROGRAM PRIORITY

Road funds shall be budgeted and expended to maximize the use of Federal and State funds and shall be based on the following order of priorities.

- A. Maintenance of streets and roads.
- B. Construction and installation of traffic safety improvements.
- C. Reconstruction and rehabilitation of roads.
- D. Relief of traffic congestion which developed prior to November 1988.
- E. Relief of traffic congestion resulting from development after November 1988.

#### II. PROGRAM LEVELS

Road funds are derived from many sources, and the Board of Supervisors intends that the following priorities shall be used in expending the different sources of road funds:

- A. Highway User Fees (Gas Tax)
  - 1. Road operation and maintenance
  - 3. Traffic safety and hazard elimination projects

Sufficient funds shall be budgeted for operation and maintenance at a level not falling below that of FY 1988. If funds are available after operation, and maintenance, they shall be budgeted for safety and hazard elimination projects.

In the event that additional user fees become available, either from State or Federal pass-through or from a locally or regionally imposed user fee, the additional revenue shall be used first to remove the shortfall in maintenance funding, then it shall be used to fund other programs in accordance with the priorities set forth in Section I. Board of Supervisors May 9, 1989 Page Three

- B. Measure "C" Revenue Priorities.
  - A minimum program level of \$300,000 a year for road safety and hazard elimination projects less any funds from gasoline tax, federal and state grants.
  - 2. Reconstruction of County roads.
  - 3. Rehabilitation of County roads.
  - Traffic congestion relief of problems which existed before November 1988.

Priority shall be given to low cost system management projects that will improve air quality and encourage the use of carpools, van pools, and mass transit.

C. Area of Benefit Revenues.

Developer fees generated through areas of benefit shall be used to fund projects designed to mitigate the traffic impact of developments as identified in the area of benefit program report and as mandated in the growth management program of Measure "C".

D. Additional Funding Sources.

The Board of Supervisors recognizes that existing funding is inadequate to address the County's road maintenance and capital needs. The Public Works Director is hereby directed to develop additional stable funding sources for maintenance, to reduce the reconstruction and rehabilitation backlog, and to improve the County's road system. The Public Works Director is further directed to maximize the use of Federal and State funds. The Public Works Director shall report to the Board periodically on progress in developing additional funding sources.

#### III. PROGRAM PROCEDURE

- A. As specified in Section 913 of the County Ordinance Code, the Director of Community Development and the Public Works Director shall jointly develop areas of benefit to require payments by developments into trust accounts for improvements to major thoroughfares and bridges as mitigation for their traffic impacts. The areas of benefit shall be developed to implement the circulation element of the County's General Plan. The circulation element of the General Plan is hereby considered to be the long range CRIP.
- B. The following procedure shall be used to develop the five year CRIP.
  - 1. The five year CRIP is a short range implementation plan of the Circulation Element and Growth Management Element of the General Plan.
  - 2. Each year no later than June 15, the Director of Community Development shall provide the Public Works Director with a forecast of development trends in the unincorporated areas in Contra Costa County for the five succeeding years.
  - 3. The Public Works Director and the County Administrator shall compile information on fund estimates from State gasoline tax, local funds, State and Federal grants, developer fees and other sources.

Board of Supervisors May 9, 1989 Page Four

- 4. The fund estimate shall be presented to the Transportation Committee of the Board of Supervisors for review and approval by September 15 of each year.
- 5. After fund estimate approval, the Public Works Director shall prepare, with input from the Director of Community Development and communities in the County, the fifth year additions to the CRIP. All new project additions and revisions will take into consideration this policy, funding limitations, development trends, and the Growth Management Program of Measure "C".
- 6. Before January 1 of every year the Public Works Director shall prepare a report to the Transportation Committee which will include the following:
  - a. The draft five year CRIP.
  - b. Comparison of the current year's project delivery schedule against the current CRIP.
  - c. Identification of the shortfalls in funding by program categories.
  - d. Information about the progress in development of additional funding sources.
- 7. The Director of Community Development shall provide an analysis of the proposed CRIP with respect to any applicable Growth Management Program of Measure "C" and the General Plan.
- Upon approval of the draft report by the Transportation Committee, it shall be circulated for comment and review.
- 9. The Transportation Committee shall hold a public hearing on the draft CRIP at the conclusion of the public review period.
- 10. The Transportation Committee shall present the CRIP findings and recommendations to the Board of Supervisors for their action no later than March 1 of each year.

The Board of Supervisors hereby directs the Community Development Department to file a Notice of Exemption with the County Clerk.

This policy was reviewed by the County Transportation Committee on February 27 and approved for adoption on April 25, 1989.

> I hereby certify that this is a true and correct copy of an action taken and entered on the minutes of the Board of Supervisors on the date shown.

Board of Supervisors on the date shown. ATTESTED: <u>Marce 9 1989</u> PHIL BATCHELOR, Clerk of the Board of Supervisors and County Administrator

e Edwards, Deputy

RESOLUTION NO. 89/306

### <u>Appendix C: Guidelines for Expenditure of Gas Tax Revenue</u> (Proposition 111 Funds)

C-2

#### TO: BOARD OF SUPERVISORS

FROM: TRANSPORTATION COMMITTEE

DATE: December 3, 1991

SUBJECT: Report on Additional Revenue from Proposition 111

SPECIFIC REQUEST(S) OR RECOMMENDATION(S) & BACKGROUND AND JUSTIFICATION

I. Recommended Action:

-

- 1. Accept the following report from the Transportation Committee on the additional local gas tax revenue from Proposition 111.
- 2. Approve expenditure of the local gas tax revenue from Proposition 111 according to the following guidelines:
  - 70 percent of Proposition 111 revenue for pavement maintenance;
  - 20 percent of Proposition 111 revenue for capital improvements; and
  - 10 percent of Proposition 111 revenue for safety projects
- 3. Direct the County Administrator to review the funding of the Congestion Management Program and Growth Management Program with any future updates of the Countywide Fee Study, and, if appropriate, to recommend adjusting development fees to include the Congestion Management and Growth Management compliance costs.
- II. Financial Impact:

No overall impact to the General Fund with this recommendation. There are "maintenance of effort" requirements included in Proposition 111 which requires maintaining General Fund appropriation for transportation related programs at the same level as the past several years.

#### III. Reasons for Recommendations and Background:

PROPOSITION 111 WILL GENERATE AN ADDITIONAL \$2 MILLION IN REVENUE FOR FISCAL YEAR 1990-1991 AND 2.5 MILLION IN 1991-1992.

Proposition 111, in conjunction with AB 471 (1990) and SB 300 (1990), increased the gas tax by five cents on August 1, 1990 and will add an additional one cent each year for the next four years beginning January 1, 1991. In addition, Proposition 111 increased commercial vehicle weight fees by 40 percent beginning in August 1, 1990 with an additional 10 percent increase on January 1, 1995.

It is estimated that we will receive an additional \$2,000,000 in gas tax revenue in fiscal year 1990/91. That will increase to \$2,500,000 in fiscal year 91/92, \$3,000,000 in fiscal year 92/93, \$3,500,000 in fiscal year 93/94 and \$4,000,000 in fiscal year 94/95. Fiscal year 94/95 will see the last increase in the gas tax which will bring it up to a full 18 cents per gallon. Proposition 111 will provide the County's road program with a significant increase in revenue in the years to come. This report analyzes the impacts of Proposition 111 and recommends guidelines for the use of the funds.

THE COUNTY MUST COMPLY WITH NEW PLANNING REQUIREMENTS IN ORDER TO RECEIVE PROPOSITION 111 FUNDS.

As a requisite to receiving the increased gas tax revenue, Proposition 111 requires preparation of a Congestion Management Program (CMP) for each county that has an urbanized area of 50,000 in population. Contra Costa County qualifies under this definition. The CMP for the County must include each city in the County and be updated annually. The CMP is similar to the Growth Management Program under Measure "C" (1988) which is administered by the Contra Costa Transportation Authority (CCTA). As a result, the County, along with the Cities, has designated the Contra Costa Transportation Authority as the CMP Agency. This way, the CMP for Contra Costa County can be prepared with very little additional cost.

Measure "C" allows the County to use the return to source revenues to administer, monitor and report on the Growth Management program of the Measure. The Board has approved the use of Measure "C" funds for that purpose. Proposition 111 is silent on the funding of CMP compliance costs. This funding void may be corrected by AB 434 which would increase vehicle registration fees to implement certain transportation control projects and provide funding for related planning and technical studies necessary to implement the Clean Air Act. Whether AB 434 gets approved and whether local governments will receive any funding to cover congestion management planning requirements of Proposition 111, not covered by AB 434 or other proposed legislation, should be incorporated into any future updates of the Countywide Fee Study. The Measure C compliance costs were not included in the Countywide Fee Study recently adopted by the Board. These compliance costs, which are incurred as a result of development in the County, should also be included in any future updates of the Fee Study.

WITHOUT THE PASSAGE OF PROPOSITION 111, OUR ROAD MAINTENANCE AND ROAD ENGINEERING EXPENDITURES WOULD HAVE EXCEEDED OUR GAS TAX REVENUES IN 1994.

The first thing to look at when considering the use of the increased gas tax, is the relationship between our current road fund expenditures and our current road fund revenues, along with the growth projections for each of them. Our current maintenance budget is about 8.3 million dollars per year, while our road engineering budget (including Traffic) is about 1.1 million dollars per year. Both of these budgets have been increasing at about five percent per year over the past several years. On the revenue side, things are a little different in terms of growth. The gas tax is apportioned to the County under Streets and Highways Code Sections 2104, 2105 and 2106. Sections 2104 and 2106 apportion the "historic" gas tax, which is the gas tax revenue prior to the passage of Proposition 111. Section 2105 will apportion the increased gas tax revenue from Proposition 111. The 2106 apportionment, which makes up about 10 percent of our historic gas tax revenue, has remained more or less constant over the last several years. The increases in 2106 funds have been offset by fund reductions due to City annexations in County areas and the resultant reduction in the Countys assessed valuation. The 2104 apportionment, which makes up about 90 percent of our current gas tax revenue, has increased slightly over the last several years. The average increase was 1.04 percent over the last three years. The bulk of our revenue, therefore, has been increasing at one percent per year, while our expenditures have been increasing at five percent per year. Prior to Proposition 111

we estimated that by 1994, our maintenance and engineering expenditures would equal our revenue projection, leaving no money for our small capital and safety improvements program. Beyond 1994 we would be in the negative column. This gloomy forecast however has changed now with the passage of Proposition 111.

# OUR GAS TAX REVENUE INCREASES ONE PERCENT PER YEAR WHILE OUR EXPENDITURES INCREASE FIVE PERCENT PER YEAR.

For our revenue estimates we have assumed the gas tax will continue to grow at one percent per year. We have also assumed our maintenance and engineering budgets will continue to grow at five percent per year to keep up with inflation. The difference between our total revenue and our expenditures on general road maintenance, road engineering and compliance costs, is the amount available to program for preventative pavement maintenance and capital and safety projects. Table 1 shows our revenue stream, expenditure stream and the resultant amount available for programming for the next 10 years. The revenue side is made up of three components; the historical road fund, Proposition 111 funds and Measure "C" return to source monies. The "historical" road fund includes the revenue from the tax rate imposed on the sale of gasoline and diesel fuel prior to Proposition 111 (historic gas tax), plus future revenue from traffic fines and forfeitures, rental income, and interest income. The bulk of the historic road fund and Proposition 111 funds are estimated assuming a one percent per year increase, which is what we experienced the last three years. Measure "C" is estimated to keep up with an assumed inflation rate of five percent plus three percent actual growth. The Measure "C" forecasts, however, may change in the future as a result of annexations or incorporation.

The expenditure side shows the cost of general road maintenance and road engineering. General road maintenance does <u>not</u> include any preventative maintenance work but provides for routine maintenance to keep the County's 750 miles of roads and 90 bridges safe and functional. Road engineering includes traffic engineering and operations, preparation of the road budget, project programming, alignment studies, project development, project coordination with interested and impacted entities, grant applications, and traffic studies. Planning compliance costs are also shown in Table 1 as an expenditure. These are the costs associated with meeting the Measure "C" growth management requirements and Proposition 111 congestion management requirements, in order to receive Measure "C" return to source monies and Proposition 111 funds. This compliance effort includes maintaining and refining the Circulation/Transportation Element and the County Transportation database, transit planning, TSM, project planning, project development, project programming/prioritization, and monitoring intersection service levels on regional routes. Total expenditures would be reduced if the planning compliance costs were funded by developer fees.

The amount available for programming shown in Table 1 reflects total funds available for preventative pavement maintenance, capital and safety improvements. It does <u>not</u> show anything deducted specifically for safety or capital improvement programs. The data in Table 1 is also shown on Figure 1 in the form of a graph. The dashed lines represent general road maintenance, road engineering and compliance cost expenditures. The solid lines represent revenues from the historic road fund, Proposition 111 funds and Measure "C" return to source monies. The shaded area between the total expenditures and total revenues represents the total funds available for programming. Figure 1 graphically shows that the rate of increase of our revenue is less than the rate of increase of our expenditures.

There has been recent legislative action that will impact our road related revenue stream. The State legislature recently approved a realignment in the State budget that will divert the "fines and forfeitures" revenue that historically went to the Countys: "In exchange, the State will be supporting the court system. This can be seen on Table I where after fiscal year 1991/92 the revenue is reduced by the \$500,000 we received each year as "fines and forfeitures."

TO ELIMINATE OUR CURRENT BACKLOG OF ROADS THAT ARE BEYOND PREVENTATIVE MAINTENANCE WOULD COST \$32 MILLION DOLLARS.

The passage of Proposition 13 in 1978 reduced the amount available for our preventative

pavement maintenance program. As a result, we had to prioritize the expenditure of our maintenance dollars for preventative maintenance. Some roads were treated and some were not. Several years after Proposition 13 we began to keep track of the deficiencies in our pavement management program and identified a backlog of roads that were beyond preventative maintenance. This was the subject of a report produced in March 1985, which identified aback log of \$5,800,000. The report also projected a backlog in fiscal year 89/90 of \$35,000,000 (in 1985 dollars), if the annual road maintenance funding was not increased. The pavement maintenance funding in 1985 was \$2,000,000 per year, which is roughly what we spend today on preventative maintenance. The \$35,000,000 backlog for fiscal year 1989/90 projected in the 1985 report would equate to \$45,000,000 in todays dollars. Information gathered for the 1989-90 Grand Jury investigation of our maintenance program revealed that our 1989-90 backlog was \$32 million. This is less than the projected estimate in our 1985 report, which is due to a reduction in maintained road mileage (853 miles in 1985 vs. 745 in 1989), with the incorporation of Orinda in 1986, and some annexations between then and now. In addition, the passage of SB 300 (1986) several years ago provided a one time windfall of about \$3,000,000 for our pavement maintenance budget.

OUR BACKLOG PROJECTED TO THE YEAR 2000 COULD BE REDUCED TREMENDOUSLY IF MEASURE "C" RETURN TO SOURCE MONIES AND PROPOSITION 111 FUNDS ARE USED TO BOLSTER OUR PAVEMENT MAINTENANCE PROGRAM.

Table 2 shows our annual maintenance backlog with the allocation of 70% of Proposition 111 revenues towards pavement maintenance funding, in conjunction with Measure "C" return to source monies. This shows that by fiscal year 1999/2000, our backlog will be \$275,000,000. Obviously, this size of backlog in the year 2000 is unacceptable and we will need to look for additional funding sources to further reduce the backlog to an acceptable level. However, if no Proposition 111 revenue or Measure "C" return to source monies are infused into our pavement maintenance program at this time, then our backlog in the year 2000 would be \$370,000,000; an increase of approximately 35%.

The revenue estimates shown in Table 2 assume a one percent growth in the gas tax each year and a eight percent growth in the sales tax (Measure "C"). As can be seen, the new source of revenues will not solve our backlog problem. However, it is also evident that if none of the Proposition 111 revenues or Measure "C" monies are spent on our pavement maintenance program, then our backlog will grow tremendously.

WHAT ARE THE CONSEQUENCES OF NOT INVESTING IN OUR PAVEMENT MAINTENANCE PROGRAM?

Most roads are designed for a twenty year life. If no maintenance is performed on a new road, it will, in general, provide good service for ten to fifteen years, at which time failure of the pavement section begins. Between fifteen and twenty years the pavement deteriorates at a rapid rate. By the 20th year the road will have to be repaved or reconstructed, at which time the life/deterioration cycle starts all over again if no maintenance is performed. Our pavement management system is set up to recognize when various roads need a seal coat. Seal coats are applied just prior to the beginning stages of pavement deterioration. When the seal coat is applied prior to the initial stages of pavement deterioration, the pavement life is extended for another five to seven years, at which time another seal coat is applied. By performing these preventative treatments to the pavement, the pavement life can be extended ten to twelve years before the road needs to be repaved. A newly paved road therefore, could last thirty years with preventative maintenance instead of twenty years without maintenance. It costs 50% more to overlay or reconstruct a road every twenty years with no intervening preventative maintenance, than it does to perform preventative maintenance and extend its useful life to thirty years. The consequences, therefore, of not investing in our preventative pavement maintenance program is to incur major capitol investment needs to rebuild our road system, rather than a continuous reduced level of funding for preventative maintenance.

THE RECENT GRAND JURY REPORT RECOMMENDS USING MEASURE "C" RETURN TO SOURCE MONIES FOR PAVEMENT MAINTENANCE.

The Board considered the expenditure of Measure "C" return to source monies with the County Road Improvement Policy. This policy, adopted by the Board on May 9, 1989, prioritizes the expenditure of Measure "C" monies as follows:

- A minimum program level of \$300,000 a year for road safety and hazard elimination projects, less any funds from gasoline tax, federal and state grants.
- 2. Reconstruction of County roads.
- 3. Rehabilitation of County roads.
- 4. Traffic congestion relief of problems which existed before November 1988.

As long as a minimum budget is maintained for safety projects, then the emphasis for expenditure of Measure C funds lies in the pavement maintenance program to reduce the backlog.

The 1989-90 Contra Costa County Grand Jury submitted a report entitled "County Road Preventative Maintenance." This report reveals that the road system in the County is deteriorating at an alarming rate due to declining road maintenance, which has been brought on by escalating maintenance costs and lack of adequate maintenance funding. Their report recommends that the Board of Supervisors pursue ways to generate additional revenue for road maintenance including "priority use of the County's Measure "C" allocation".

PROPOSITION 111 FUNDS, SHOULD BE USED ALONG WITH MEASURE "C" RETURN TO SOURCE MONIES TO BOLSTER OUR PAVEMENT MANAGEMENT SYSTEM AND REDUCE OUR BACKLOG.

The Transportation Committee has discussed the expenditure of Proposition 111 funds and urges the Board to adopt a guideline for expending the new Proposition 111 revenues. For the greatest return on the dollar, the bulk of the revenue should be spent on the pavement maintenance program, however, there is also a desire that some should be expended for safety improvements and for capital improvements. As a result, the Transportation Committee recommends that Proposition 111 funds be spent in the following manner:

- 1. 70 percent of Proposition 111 revenue for pavement maintenance
- 2. 20 percent of Proposition 111 revenue for capitol improvements
- 3. 10 percent of Proposition 111 revenue for safety projects

First priority for the additional maintenance revenue will go to arterials and major thoroughfares. Second priority for the additional maintenance revenue is to prevent roads not on the backlog from deteriorating to a backlog condition. The third priority is to remove roads from the backlog.

Currently, we budget approximately \$300,000 for safety projects and \$300,000 for capital projects from the road fund. The expenditure guideline recommended above would increase our safety projects budget to approximately \$500,000 and our capital budget to approximately \$660,000 for fiscal year 90/91. Table 3 shows the breakdown of funding that would be provided for each of these three programs over the next 10 years if our Proposition 111 revenue was distributed as recommended above. It should be noted that these recommendations go hand in hand with the Grand Jury report on County Road Maintenance.

The above expenditure recommendations combine the gas tax and Measure "C" resources, which together will satisfy the list of improvements identified separately in the County Road Improvement Policy as gas tax expenditure priorities and Measure "C" expenditure priorities. In other words, the combined Proposition 111 and Measure "C" expenditures shown in Table 3 will satisfy the intent of the County Road Improvement Policy, which had identified separate expenditures for Measure "C" revenues and gas tax revenues.

SPENDING PROPOSITION 111 FUNDS AND MEASURE "C" RETURN TO SOURCE MONIES ON REBUILDING OUR ROAD SYSTEM WILL GIVE THE PUBLIC THE GREATEST AMOUNT OF ROADWORK FOR THE DOLLAR.

Not only is expending revenue on our pavement maintenance program a sound investment in our road system, but it is also highly visible to the public and will significantly improve the appearance, durability, and the ride quality of roads in each Supervisorial District. The recommendations made in this report would improve ninety-eight miles of County roads in the form of chip seals and slurry seals, and six miles in the form of overlays or reconstruction over the next two years, if two thirds of the funds were allocated to surface treatments and one third to overlays and reconstruction:

Discussions these days often center around the level of service of our roads in terms of capacity. Nobody discusses the level of service of our roads in terms of maintenance or serviceability. A road that is not maintained and is allowed to deteriorate will effectively have its capacity reduced as cars are forced to reduce their speed due to a broken and rough pavement surface. As the road deteriorates, the safe speed and the capacity of the road decreases. Several years ago MTC did a study which revealed that poor pavement conditions cost the public \$60 per vehicle per year in terms of additional wear and tear. With the County's 640,000 registered vehicles, that equates to a total cost of \$38,400,000.

#### IV. Consequences of Negative Action:

There would be no guidelines established for the expenditure of revenue from Proposition 111 and the level of service of our road system would suffer.

Expenditure By Program Over The Next Ten Years

NOTE:

All figures in \$1000 The amount of Proposition 111 revenues available for programming is shown apportioned 70% to the pavement management program, 10% to the safety improvements program, and 20% to the capital program. To show the impact of Proposition 111 funds, all expenditures shown in Table I are deducted from the Historic Road Funds and from Measure C. Compliance costs are deducted from Measure C only.

Appendix D: Board Order Approving the 2020 Capital Road Improvement and Preservation Program and the month 2020 TWIC Report

C-2

(This page is intentionally left blank until the Board of Supervisors approves the 20**20** CRIPP)

C-4

# Appendix E: Area of Benefit Maps and Project Lists

### HOW DOES THE AREA OF BENEFIT PROGRAM FIT INTO THE CRIPP?

As explained in the CRIPP Introduction and Background section, the CRIPP is a planning document for known potential projects in the next 7 years.

The Area of Benefit Program (AOB) is just one potential funding source for County road projects. Some of these road improvement projects are funded by AOB revenues, provided those projects are on the approved AOB project list.

Projects on the AOB project lists will appear in either the active project list or underfunded list. Some of the projects on the AOB project lists fall outside of the seven-year, active-project, planning window, but are included in the underfunded CRIPP project lists.

Each AOB project list was approved with each respective AOB ordinance. In order to update an AOB project list, a separate update process will need to occur. Projects within each AOB program may be removed or added when each AOB ordinance is updated and adopted by the Board of Supervisors. The update of a CRIPP is not the process in which the County updates an AOB.

For reference, the following information for each adopted Area of Benefit is included:

- Ordinance number
- Approved/Proposed Project List
- Boundary for the Area of Benefit

The AOB program consists of 15 separate areas. At any given time, several of these areas may be in the process of a program update. These updates may include revisions to the AOB project list; thus, a draft of a pending project list may be included in this section of the CRIPP but are yet to be approved by the Board of Supervisors.

For more information about the Areas of Benefit, contact the AOB manager at (925) 313-2000 or visit the AOB website, <u>http://www.cccounty.us/AOB</u>.

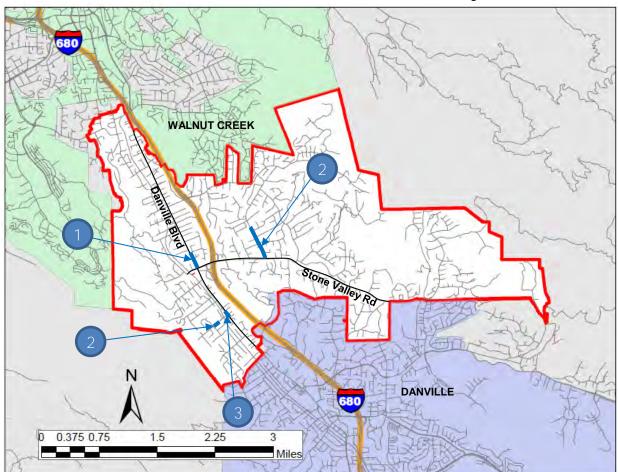

### Alamo Regional Area of Benefit

Project List Schedule

Current Ordinance 2016-25

Item	Location	Description	Project Status
		Construct roundabout and complete streets features	Incomplete
2		<ul> <li>Construct pedestrian safety improvements at Stone Valley Middle School, Alamo Elementary School, and Rancho Romero Schools.</li> <li>1) Hemme Avenue Sidewalk (between Rancho Romero Elem. and La Sonoma Way)</li> <li>2) Miranda Avenue Natural Pathway (betw. Stone Valley Middle and Stone Valley Road)</li> <li>3) Livorna Road Sidewalk Improvements – (Completed)</li> </ul>	Incomplete
3	Danville Boulevard at Hemme Avenue	Intersection Safety improvements.	Incomplete

For more AOB information, visit <u>http://www.cccounty.us/AOB</u>

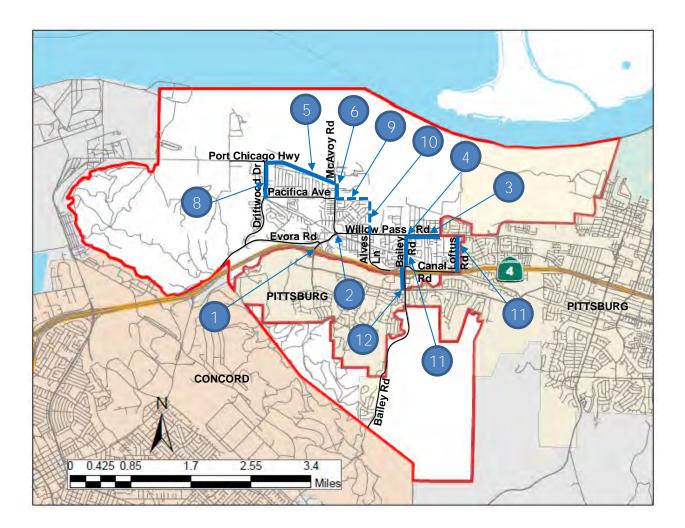

## **Alamo Area of Benefit Boundary**

### Bay Point Area of Benefit Project List Schedule Current Ordinance 2016-18

Item	Location (Nexus Id)	Description	Project Status
1	Willow Pass Road (1.1)	Signalize EB and WB off-ramps at west interchange of SR4	Incomplete
2	Willow Pass Road (1.2)	Intersection improvements at Willow Pass Road and Evora Road to facilitate traffic flow to WB SR 4.	Incomplete
3	Willow Pass Road (2.1)	Restriping from Bailey Road to Pittsburg City Limits to improve capacity.	Incomplete
4	Willow Pass Road (2.2)	Bailey Road intersection improvements.	Incomplete
	Port Chicago Highway (3.1)	Widen to accommodate bicycle and pedestrian improvements from Driftwood Drive to west of McAvoy Road.	Incomplete
	Port Chicago Highway (3.2)	Realign from west of McAvoy Road to Pacifica Avenue.	Incomplete
7	Port Chicago Highway & Willow Pass Rd Intersection (4)	Construct multi-modal safety improvements through intersection from Lynbrook Drive to Weldon Street.	Complete
8	Driftwood Drive (5)	Construct pedestrian and bicycle safety improvements from Port Chicago Highway to Pacifica Avenue.	Incomplete
9	Pacifica Avenue (6)	Extend roadway from Port Chicago Highway to Alves Lane extension.	Incomplete
10	Alves Lane (7)	Extend roadway from Willow Pass Road to Pacifica Avenue extension.	Incomplete
11	Loftus Road (8)	Construct bicycle and pedestrian safety improvements from Canal Road to Willow Pass Road.	Incomplete
11	Bailey Road (9)	Bicycle and pedestrian improvements from Willow Pass Road to Canal Road.	In Design Phase
12	Bailey Road (10)	Bicycle and pedestrian improvements from Canal Road to BART.	In Design Phase

For more AOB information, visit <u>http://www.cccounty.us/AOB</u>

# **Bay Point Area of Benefit Boundary**

#### **Bethel Island Area of Benefit**

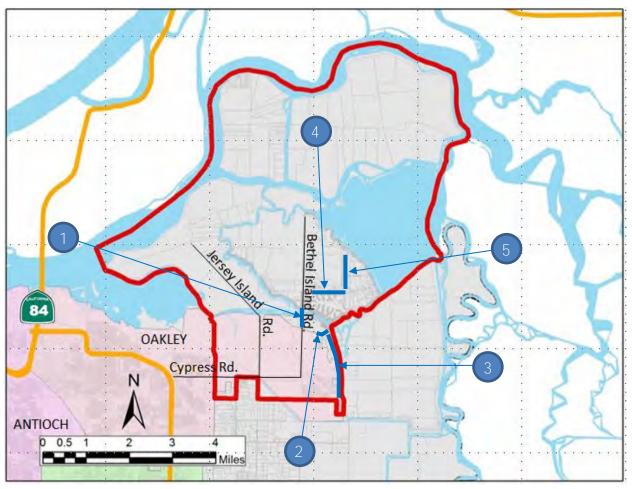

#### Project List Schedule

Current Ordinance 2016-12

Item	Location	Description	Project Status
1	Bethel Island Road	Add bicycle and pedestrian improvements from Taylor Road to Sandmound Boulevard	Incomplete
	Sandmound Boulevard	Add bicycle and pedestrian improvements from Oakley City Limits to Mariner Road	Incomplete
3	Sandmound Boulevard	Add bicycle and pedestrian improvements from Mariner Road to Cypress Road.	Incomplete
4	Gateway Road	Add bicycle and pedestrian improvements from Bethel Island Road to Piper Road	Incomplete
5	Piper Road	Add bicycle and pedestrian improvements from Gateway Road to Willow Road	Incomplete

For more AOB information, visit <u>http://www.cccounty.us/AOB</u>

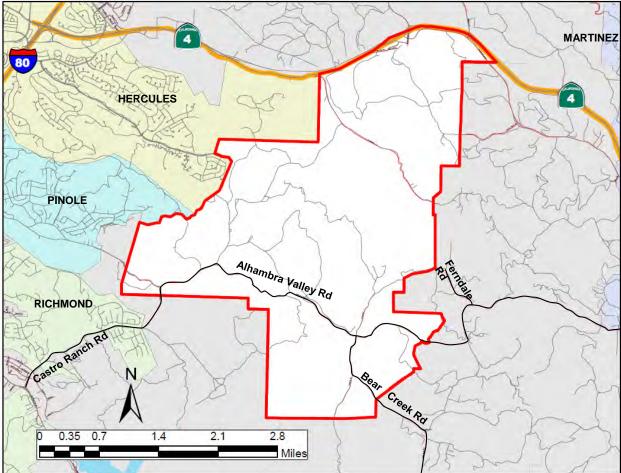

# **Bethel Island Area of Benefit Boundary**

#### Briones Area of Benefit Project List Schedule Current Ordinance 88-27

-	ltem	Location	Description	Project Status	
	1	Alhambra Valley Road	Realign curves at Ferndale Road (mile post 5.6), Main Road (mile post 6.2), and 4000 feet northwest of Bear Creek road (mile post 2.9)	Incomplete	
	For more AOP information wight http://www.cocounty.uc/AOP				

For more AOB information, visit <u>http://www.cccounty.us/AOB</u>

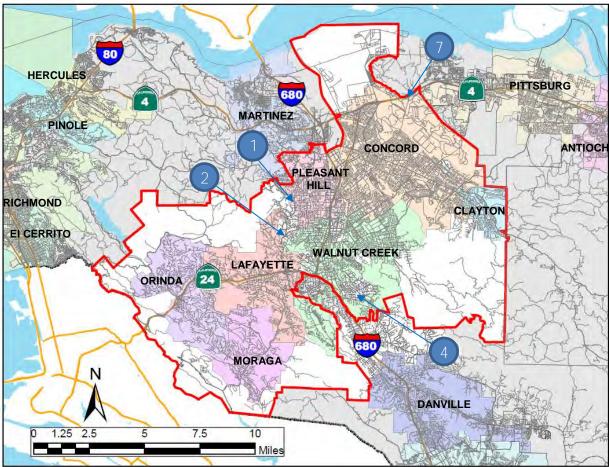

# **Briones Area of Benefit Boundary**

#### Central County Area of Benefit Project List Schedule Current Ordinance 95-32

Item	Location	Description	Project Status
1	Taylor Boulevard	Safety and capacity improvements from Pleasant Hill Road to Boyd Road	Incomplete
2	Pleasant Hill Road / Taylor Boulevard	Safety and Capacity improvements to existing intersection	Incomplete
3	Bailey Road	Remove and replace existing bridge. New bridge adequate for standard two-lane arterial	Complete
4	Rudgear Road / San Miguel Drive  / Walnut Boulevard / Mountain View Boulevard	Safety Improvements	Incomplete
5	San Pablo Dam Road / Bear Creek Road	Construct Signal (County share)	Complete
6	Paso Nogal / Golf Club Road	Improve intersection	Complete
7	Evora Road Extension	Construct new road from Willow Pass Road (Concord) to Port Chicago Highway	Incomplete

For more AOB information, visit <a href="http://www.cccounty.us/AOB">http://www.cccounty.us/AOB</a>

# **Central County Area of Benefit Boundary**

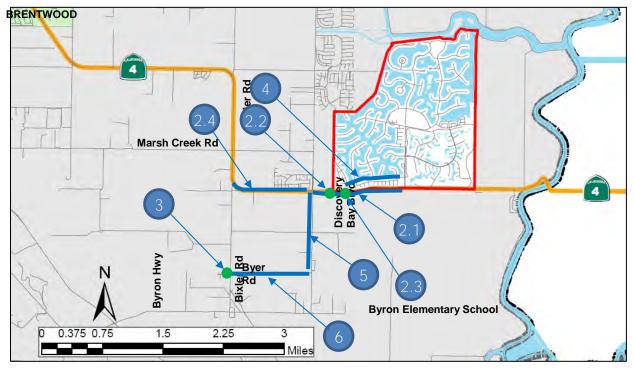

#### Discovery Bay Area of Benefit Project List Schedule Current Ordinance 2018-16

ltem	Location	Description	Project Status
1	Discovery Bay Boulevard	Construct intersection improvements at Clipper Drive	Incomplete
2.1		Widen and provide pedestrian and bicycle improvements between Bixler Road and Discovery Bay Boulevard	Incomplete
2.2	State Route 4	Rebuild bridge to accommodate four lanes between Bixler Road and Discovery Bay Blvd	Incomplete
2.3		Construct intersection improvements at Newport Drive	Incomplete

# West County Area of Benefit Boundary

# Appendix F: Road Maintenance and Rehabilitation Account Information

F-2

To: Board of Supervisors

From: Brian M. Balbas, Public Works Director/Chief Engineer

Date: April 28, 2020

Contra Costa County

Subject: FY 2020/2021 Road Maintenance and Rehabilitation Account Project List for Unincorporated Contra Costa County.

#### **RECOMMENDATION(S):**

ADOPT Resolution No. 2020/121 approving a list of projects for Fiscal Year 2020/21 funded by Senate Bill 1 (SB1): The Road Repair and Accountability Act of 2017, Road Maintenance and Rehabilitation Account funds, and DIRECT staff to submit the list to the California Transportation Commission. (All Districts)

#### FISCAL IMPACT:

100% allocation to the Road Fund from Road Maintenance and Rehabilitation Account program under Senate Bill 1 (SB1) in the approximate amount of \$16.4 million.

### **BACKGROUND:**

California cities and counties are seeing a significant influx of new revenue to invest in the local street and road system from Senate Bill 1 (Beall and Frazier), a landmark transportation funding package that was signed by Governor Brown on April 28, 2017. This measure was in response to California's significant funding shortfall to maintain the state's multimodal transportation network.

SB1 increased several taxes and fees to raise over \$5 billion annually in new transportation

revenues. SB1 also includes inflationary adjustments in the revenue to local agencies so that the purchasing power of the funds does not decrease as it has in the past. SB1 prioritizes funding towards maintenance, rehabilitation and safety improvements on state highways, local streets and roads, and bridges and to improve the state's trade corridors, transit, and active transportation facilities.

SB1 Funds were available to cities and counties starting in FY 2017/2018 and are comprised of two parts - an increase in the annual gas tax revenue that local agencies have historically been receiving and a new funding source called Road Maintenance and Rehabilitation Account (RMRA) program funds. The California State Association of Counties (CSAC) annually provides an estimate of the total gas tax revenues the County can expect to see from transportation bill, including the total estimated revenue from RMRA program funds. CSAC estimates the County will receive about \$41.7 million in total transportation funding for FY 20/21 from SB1, approximately double what the County received just a few years ago. About \$16.4 million of that amount is from the RMRA program. This amount will continue to grow in future years with the built-in inflationary index.

SB1 emphasizes the importance of accountability and transparency in the delivery of California's transportation programs. Therefore, in order to be eligible for RMRA funding,

state statute requires cities and counties to provide basic RMRA project reporting to the California Transportation Commission (CTC).

Prior to receiving an apportionment of RMRA funds from the State Controller in a fiscal year, a city or county must submit to the CTC a list of projects proposed to be funded with these funds. All projects proposed to receive funding must be reviewed and approved by the applicable city council or county board of supervisors at a public meeting.

The list of projects must include a description and location of each proposed project, a proposed schedule for the project's completion, and the estimated useful life of the improvement. The project list does not limit the flexibility of an eligible city or county to fund projects in accordance with local needs and priorities so long as the projects are consistent with RMRA priorities as outlined in the applicable code sections. Some example projects and uses for RMRA funding include, but are not limited to the following:

- Road Maintenance and Rehabilitation
- Safety Projects
- Railroad Grade Separations
- Complete Streets Components (including active transportation purposes, pedestrian

and bicycle safety projects, transit facilities, and drainage and stormwater capture projects in conjunction with any other allowable project)

• Traffic Control Devices

Streets and Highways Code Section 2030(b)(2) states that funds made available by the program may also be used to satisfy a match requirement in order to obtain state or federal funds for projects authorized by this subdivision.

Staff has developed a recommended list of projects the Board of Supervisors to consider for submitting to CTC.

The following criteria will be used by staff when developing the current and future project lists for RMRA funds:

- Eligibility criteria for RMRA funds
- Emergency storm damage projects that exceeded existing road fund revenue capacity
- Maintenance and rehabilitation priorities
- Roadway safety

- Expiring grants where local funds are necessary to complete the funding package
- Geographic equity
- Projects where expenditures had already occurred for design of the project and had been shelved due to declining gas tax revenues
- Multi-modal benefits in accordance with the Board of Supervisor's Complete Streets policy
- Positive impact to Road Program performance metrics
- Clearing the queue of delayed projects that were a result of declining gas tax revenues
- Meeting customer expectations

With the passage of SB1, the County will now receive about \$41.7 million in total transportation funding in FY 20/21, with approximately \$16.4 million of that amount from the RMRA program. The County currently uses the majority of the Gas Tax funds towards public roadway maintenance and repair for approximately 660 miles of the roadway network in the unincorporated areas of Contra Costa County to ensure a safe and convenient public travel in a variety of modes: driving, walking and bicycling. These funds are also used to improve traffic safety throughout the County by using it as the local match to leverage funds from state and federal grant programs.

The majority of the RMRA funds are designated for maintenance activities but the range of proposed projects in future years is expected to broaden as the amount of RMRA funds increases. It should be noted that project list below is a small subset of projects in overall road program and only focuses on how the RMRA funds will be expended as required by the Commission.

# <u>Proposed Project No. 1: Road Drainage Maintenance (RMRA = \$1.2 million)-</u> <u>Countywide</u>

- <u>Ditch Cleaning</u> This routine maintenance item is to perform drainage ditch cleaning to remove debris and vegetation which may obstruct the passage of stormwater and cause local flooding. (RMRA = \$400,000) County Project No.: 0672-6U2303
- <u>Clean Catch Basin</u> This routine maintenance item is to perform cleaning of sediment and prevent obstructions of catch basins (drainage inlets) and related pipe systems. The County has over twenty thousand catch basins throughout the unincorporated portions of the County. (RMRA = \$500,000) County Project No.: 0672-6U2308
- <u>Inspect Catch Basin</u> This routine maintenance item is to perform inspections of catch basins and associated systems. This includes a visual inspection of the drainage inlet and any clean water inserts. Follow-up video inspections may be required for deeper inlets and/or suspected structural issue concerning the inlets. (RMRA = \$300,000) County Project No.: 0672-6U2316

# <u>Proposed Project No.2: Traffic Safety Devices Maintenance (RMRA = \$950,000) -</u> <u>Countywide</u>

- <u>Traffic Signing</u> This routine maintenance item is to perform sign repair, replacement, and installation along the unincorporated County roadways. (RMRA = \$450,000) County Project No.: 0672-6U2504
- <u>Traffic Striping</u> This routine maintenance item is to perform new painting, routine painting and replacement of pavement striping along the unincorporated County roadways to enhance public safety. (RMRA = \$500,000) County Project No.: 0672-6U2505

# <u>Proposed Project No. 3: Pavement Repairs and Preparation (RMRA = \$4.2 million)-</u> <u>Countywide</u>

- <u>Pot Hole Patching</u> This routine maintenance item is to perform spot pavement repairs of pot holes along the unincorporated County roadways to eliminate surface hazards. (RMRA = \$500,000) County Project No.: 0672-6U2101
- <u>Pavement Fabric Patching</u> This routine maintenance item is to perform pavement fabric patching along the unincorporated County roadways to correct minor pavement defects and prevent further cracking. An area of existing damaged

asphalt will be removed and excavated to allow a fabric patch to be placed. The roadway base will be compacted and leveled to support the new fabric layer and asphalt layer. (RMRA = \$500,000) County Project No.: 0672-6U2102

- <u>Pavement Failure Repair Backhoe</u> This routine maintenance item is to conduct pavement failure repair along the unincorporated County roadways. This task requires the removal of a larger area of cracked or damaged pavement with a backhoe. The roadway base will be compacted and overlaid with new asphalt. (RMRA = \$500,000) County Project No.: 0672-6U2103
- <u>Pull Box Paving</u> This is a roadway paving operation to place asphalt on localized roadway depressions to provide a smooth riding surface for the motorized public along the unincorporated County roadways. (RMRA = \$525,000) County Project No.: 0672-6U2104
- <u>Hand Patching</u> This is similar to pot hole patching to conduct spot pavement repairs along unincorporated County roadway, but on a smaller scale. (RMRA = \$500,000) County Project No.: 0672-6U2105
- <u>Crack Sealing</u> This pavement preservation task is to seal cracks in the roadway. Cracks are typically filled in to seal the roadway structural section from water penetration. The goal is to prolong the service life of the pavement and/or prepare the roadway surface for an overlay. (RMRA = \$600,000) County Project No.: 0672-6U2106
- <u>Leveling</u> This task is associated with leveling of large settlements, depressions, surface irregularities and recent large pavement repairs. This is to provide a smooth riding surface for the motorized public along unincorporated County roadways. (RMRA = \$475,000) County Project No.: 0672-6U2107
- <u>Pavement Failure Repair Grinder</u> This task is to remove badly cracked or broken pavement. The roadway is then replaced with new asphalt and roadway base rock. This task supports pavement preservation operations and also extends the service life of the roadway pavement. (RMRA = \$600,000) County Project No.: 0672-6U2123

### **Proposed Project No. 4: County-Wide Surface Treatments (RMRA = \$6.9 million)**

# **Countywide:**

• <u>Double Chip Seal Project (2019)</u> – This project will apply a double chip seal to various roads as a pavement preservation project in the unincorporated Contra Costa County. Locations will include Orinda (Bear Creek Road), Franklin Canyon, Knightsen/Brentwood, Bryon and San Ramon areas. Work will also include surface preparation and pavement striping and markings. (RMRA = \$2.200,000) County Project No. 0672-6U2182

• <u>Asphalt Rubber Cape Seal Project</u> - The project will apply an asphalt rubber chip seal covered with a type II slurry seal to various roadways in the El Sobrante, North Richmond, and Alamo areas. Work will also include surface preparation and pavement striping and markings. (RMRA = \$4,750,000) County Project No. 0672-6U2184

# **Proposed Project No. 5: Kirker Pass Road Northbound Truck Lanes (\$3.1 million)**

• The project consists of pavement widening for a truck climbing lane with 8 foot paved shoulders; relocation of HMA dike, concrete ditches, and other drainage features; retaining wall construction; installation of signage and striping; construction of two C.3 bioretention areas; relocation of existing roadside features, and pavement rehabilitation on Kirker Pass Road which consists of 0.1 feet grind and overlay of open grade rubberized hot mix asphalt (HMA). There are significant roadway conforms at Hess Road due to change in grade. (RMRA = \$3,100,000) County Project No. 0662-6R4052

With the annual reporting requirement, the Department will begin strategizing how the County can allocate the new funding to achieve the Road Program's mission and improve the program's key performance metrics for safety, efficiency, reliability and accessibility.

# CONSEQUENCE OF NEGATIVE ACTION:

If a project list is not approved by the Board of Supervisors and submitted to the CTC by the May 1, 2020 deadline, the County will not be eligible to receive its portion of RMRA funds and the projects listed above will not be constructed.

Resolution No. 2020/121

IN THE MATTER OF ADOPTING a list of projects for Fiscal Year 2020/21 funded by Senate Bill 1 (SB 1): The Road Repair and Accountability Act of 2017.

WHEREAS, SB 1, the Road Repair and Accountability Act of 2017 (Chapter 5, Statutes of 2017) was passed by the Legislature and Signed into law by the Governor in April 2017 in order to address the significant multi-modal transportation funding shortfalls statewide; and

WHEREAS, SB 1 includes accountability and transparency provisions that will ensure the residents of our County are aware of the projects proposed for funding in our community and which projects have been completed each fiscal year; and

WHEREAS, the County must adopt by resolution a list of all projects proposed to receive funding from the Road Maintenance and Rehabilitation Account (RMRA), created by SB 1, which must include a description and the location of each proposed project, a proposed schedule for the project's completion, and the estimated useful life of the improvement; and

WHEREAS, the County, will receive an estimated \$16.4 million in RMRA funding in Fiscal Year 2020/21 from SB 1; and

WHEREAS, this is the fourth fiscal year in which the County is receiving SB 1 funding and will enable the County to continue essential road maintenance and rehabilitation projects, safety improvements, repairing and replacing aging bridges, and increasing access and mobility options for the traveling public that would not have otherwise been possible without SB 1; and

WHEREAS, the County has undergone a public process to ensure public input into our community's transportation priorities/the project list; and

WHEREAS, the County used a Pavement Management System to develop the SB I project list to ensure revenues are being used on the most high-priority and cost-effective projects that also meet the communities' priorities for transportation investment; and

Whereas, the funding from SB 1 will help the County maintain and rehabilitate its roadways at a significantly higher level, add active transportation infrastructure throughout the County this fiscal year and hundreds of similar projects into the future; and

WHEREAS, the SB 1 project list and overall investment in our local streets and roads infrastructure with a focus on basic

#### Proposed Project No. 3: Pavement Repairs and Preparation (RMRA = \$4.2 million)- Countywide

Description:

Pot Hole Patching – This routine maintenance item is to perform spot pavement repairs of pot holes along the unincorporated County roadways to eliminate surface hazards. (RMRA = \$500,000) County Project No.: 0672-6U2101

<u>Pavement Fabric Patching</u> – This routine maintenance item is to perform pavement fabric patching along the unincorporated County roadways to correct minor pavement defects and prevent further cracking. An area of existing damaged asphalt will be removed and excavated to allow a fabric patch to be placed. The roadway base will be compacted and leveled to support the new fabric layer and asphalt layer. (RMRA = \$500,000) County Project No.: 0672-6U2102

**Pavement Failure Repair - Backhoe** – This routine maintenance item is to conduct pavement failure repair along the unincorporated County roadways. This task requires the removal of a larger area of cracked or damaged pavement with a backhoe. The roadway base will be compacted and overlaid with new asphalt. (RMRA = \$500,000) County Project No.: 0672-6U2103

<u>Pull Box Paving</u> – This is a roadway paving operation to place asphalt on localized roadway depressions to provide a smooth riding surface for the motorized public along the unincorporated County roadways. (RMRA = \$525,000) County Project No.: 0672-6U2104

Hand Patching – This is similar to pot hole patching to conduct spot pavement repairs along unincorporated County roadway, but on a smaller scale. (RMRA = \$500,000) County Project No.: 0672-6U2105

<u>Crack Sealing</u> – This pavement preservation task is to seal cracks in the roadway. Cracks are typically filled in to seal the roadway structural section from water penetration. The goal is to prolong the service life of the pavement and/or prepare the roadway surface for an overlay. (RMRA = \$600,000) County Project No.: 0672-6U2106

Leveling – This task is associated with leveling of large settlements, depressions, surface irregularities and recent large pavement repairs. This is to provide a smooth riding surface for the motorized public along unincorporated County roadways. (RMRA = \$475,000) County Project No.: 0672-6U2107

Pavement Failure Repair – Grinder – This task is to remove badly cracked or broken pavement. The roadway is then replaced with new asphalt and roadway base rock. This task supports pavement preservation operations and also extends the service life of the roadway pavement. (RMRA = \$600,000) County Project No.: 0672-6U2123

RMRA Priority: Road Maintenance and Rehabilitation

Location:

Location:

Kirker Pass Road from Concord Pavilion to about 4,200 feet north of North Hess Road

Proposed Schedule for Completion:

• Construction year - FY 20/21

Estimated Useful Life:

• 40 years (roadway widening)

15 years (pavement surface treatment)

Appendix G: Complete Streets Policy

G-2

This Complete Streets Policy was adopted by Resolution No. 2016/374 by the Board of Supervisors of Contra Costa County on July 12, 2016.

#### COMPLETE STREETS POLICY OF CONTRA COSTA COUNTY

#### **A.** Complete Streets Principles

1. **Complete Streets Serving All Users.** Contra Costa County expresses its commitment to creating and maintaining Complete Streets that provide safe, comfortable, and convenient travel along and across rights-of-way (including streets, roads, highways, bridges, paths, and other portions of the transportation system) through a comprehensive, integrated transportation network that serves all categories of users, including pedestrians, bicyclists, persons with disabilities, motorists, movers of commercial goods, users and operators of public transportation, seniors, children, youth, students and families.

2. **Context Sensitivity.** In planning and implementing street projects, departments and agencies of Contra Costa County shall maintain sensitivity to local conditions in both residential and business districts as well as urban, suburban, and rural areas, and shall work with residents, merchants, school representatives, and other stakeholders to ensure that a strong sense of place ensues. Improvements that will be considered include sidewalks, shared use paths, separated bikeways/cycle tracks, bicycle lanes, bicycle routes, paved shoulders, street trees and landscaping, planting strips, accessible curb ramps, crosswalks, refuge islands, pedestrian signals, signs, street furniture, bicycle parking facilities, public transportation stops and facilities, transit priority signalization, traffic calming circles, transit bulb outs, road diets and other features assisting in the provision of safe travel for all users and those features and concepts identified in the Contra Costa County Complete Streets General Plan Amendment of April 2008.

3. **Complete Streets Routinely Addressed by All Departments.** All departments and agencies of Contra Costa County shall work towards making Complete Streets practices a routine part of everyday operations, approach every relevant project, program, and practice as an opportunity to improve streets and the transportation network for all categories of users/modes, and work in coordination with other departments, agencies, and jurisdictions to maximize opportunities for Complete Streets, connectivity, and cooperation. Example activities include, but are not necessarily limited to the following: pavement resurfacing, restriping, accessing above and underground utilities, signalization operations or modifications, maintenance of landscaping/related features, and shall exclude minor (catch basin cleaning, sign replacement, pothole repair, etc.) maintenance and emergency repairs.

4. **All Projects and Phases.** Complete Streets infrastructure sufficient to enable reasonably safe travel along and across the right of way for each category of users shall be incorporated into all planning, funding, design, approval, and implementation processes for any construction, reconstruction, retrofit, maintenance, operations, alteration, or repair of streets (including streets, roads, highways, bridges, and other portions of the transportation system), except that specific infrastructure for a given category of users may be excluded if an exemption is approved via the process set forth in section C.1 of this policy.

#### **B.** Implementation

1. **Plan Consultation and Consistency.** Maintenance, planning, and design of projects affecting the transportation system shall be consistent with the Contra Costa County General Plan, as well as other applicable bicycle, pedestrian, transit, multimodal, best practices, and other relevant documents. Where such consistency cannot be achieved without negative consequences, consistency shall not be required if the head of the relevant departments, or designees, provides written approval explaining the basis of such deviation.

2. **Street Network/Connectivity.** As feasible, and as opportunities arise, Contra Costa County shall incorporate Complete Streets infrastructure into existing streets to improve the safety and convenience of users, with the particular goal of creating a connected network of facilities accommodating each category of users, increasing connectivity across jurisdictional boundaries, and for accommodating existing and anticipated future areas of travel origination or destination. A well connected network should include non-motorized connectivity to schools, parks,

commercial areas, civic destinations and regional non-motorized networks on both publically owned roads/land and private developments (or redevelopment areas).

3. **Countywide Bicycle Advisory Committee (CBAC) Consultation.** The CBAC may review the design principles used by staff to accommodate motor vehicle, bicycle, pedestrian, and transit modes of travel when reviewing projects. The CBAC will be engaged early in the planning and design stage to provide an opportunity for comments and recommendations regarding Complete Street features of major public transportation projects.

4. **Evaluation**. The County will establish a means to collect data and evaluate the implementation of complete streets policies. For example tracking the number of miles of paths, bike lanes and sidewalks, numbers of street crossings, signage etc.

#### **C. Exceptions**

1. **Required Findings and Leadership Approval for Exemptions.** Plans or projects that seek exemptions from incorporating Complete Streets design principles must provide a written explanation of why accommodations for all modes were not included in the project. An exemption may be granted by the Director of Public Works or Director of Conservation and Development upon finding that inclusion of Complete Streets design principles are not possible or appropriate under one or more of the following circumstances: 1) bicycles or pedestrians are not permitted on the subject transportation facility pursuant to state or local laws; 2) inclusion of Complete Streets design principles would result in a disproportionate cost to the project; 3) there is a documented absence of current and future need and demand for Complete Streets design elements on the subject roadway; and, 4) one or more significant adverse effects would outweigh the positive effects of implementing Complete Streets design elements. Plans or projects that are granted exceptions must be made available for public review.

#### THE BOARD OF SUPERVISORS OF CONTRA COSTA COUNTY, CALIFORNIA

and for Special Districts, Agencies and Authorities Governed by the Board

Adopted this Resolution on 07/12/2016 by the following vote:

#### Resolution No. 2016/374

# Resolution of the Contra Costa County Board of Supervisors supporting the adoption of a Complete Streets Policy, and stating that the next substantial revision of Contra Costa County General Plan Transportation and Circulation Element shall incorporate Complete Streets policies and principles consistent with the California Complete Streets Act of 2008 (AB 1358)

WHEREAS, the term "Complete Streets" describes a comprehensive, integrated transportation network with infrastructure and design that allows safe and convenient travel along and across streets for all users, including pedestrians, bicyclists, persons with disabilities, motorists, movers of commercial goods, users and operators of public transportation, seniors, children, youth, students, and families;

WHEREAS, Contra Costa County acknowledges the benefits and value for the public health and welfare of reducing vehicle miles traveled and increasing transportation by walking, bicycling, and public transportation;

WHEREAS, Contra Costa County recognizes that the planning and coordinated development of Complete Streets infrastructure provides benefits for local governments in the areas of infrastructure cost savings, public health, mobility diversification, and environmental sustainability;

WHEREAS, the State of California has emphasized the importance of Complete Streets by enacting the California Complete Streets Act of 2008 (also known as AB 1358), which requires that when cities or counties revise general plans, they identify how they will provide for the mobility needs of all users of the roadways, as well as through Deputy Directive 64, in which the California Department of Transportation explained that it "views all transportation improvements as opportunities to improve safety, access, and mobility for all travelers in California and recognizes bicycle, pedestrian, and transit modes as integral elements of the transportation system";

WHEREAS, the California Global Warming Solutions Act of 2006 (known as AB 32) sets a mandate for the reduction of greenhouse gas emissions in California, and the Sustainable Communities and Climate Protection Act of 2008 (known as SB 375) requires emissions reductions through coordinated regional planning that integrates transportation, housing, and land-use policy, and achieving the goals of these laws will require significant increases in travel by public transit, bicycling, and walking;

WHEREAS, numerous California counties, cities, and agencies have adopted Complete Streets policies and legislation in order to further the health, safety, welfare, economic vitality, and environmental wellbeing of their communities;

WHEREAS, the Contra Costa County General Plan establishes the Complete Streets philosophy by way of the April 2008 Complete Streets Amendments which accomplishes the following:

- Specifies that 'all users' includes pedestrians, bicyclists, transit vehicles and users, and motorists, of all ages and abilities.
- Aims to create a comprehensive, integrated, connected network.
- Recognizes the need for flexibility: that all streets are different and user needs will be balanced.
- Is adoptable by all agencies to cover all roads.
- Applies to both new and retrofit projects, including design, planning, maintenance, and operations, for the entire right of way.
- Makes any exceptions specific and sets a clear procedure that requires high-level approval of exceptions.
- Directs the use of the latest and best design standards.
- Directs that complete streets solutions fit in with context of the community.

• Establishes performance standards with measurable outcomes.

WHEREAS, Contra Costa County therefore, in light of the foregoing benefits and considerations, wishes to further improve its commitment to Complete Streets and desires that its streets form a comprehensive and integrated transportation network promoting safe, equitable, and convenient travel for all users while preserving flexibility, recognizing community context, and using the latest and best design guidelines and standards;

NOW, THEREFORE, BE IT RESOLVED by the Board of Supervisors of Contra Costa County, State of California, as follows:

1. That Contra Costa County adopts the Complete Streets Policy attached hereto as Exhibit B, and made part of this Resolution, and that said exhibit is hereby approved and adopted.

2. That the next substantial revision of the Contra Costa County General Plan Transportation and Circulation Element shall incorporate Complete Streets policies and principles consistent with the California Complete Streets Act of 2008 (AB 1358) and with the Complete Streets Policy adopted by this resolution.

I hereby certify that this is a true and correct copy of an action taken and entered on the minutes of the Board of Supervisors on the date shown.
