BACKGROUND:

In 2016, Governor Brown signed into law the Transparent Review of Unjust Transfers and Holds Act, commonly referred to as the "TRUTH Act." Beginning in 2018, the TRUTH Act required the governing body of local government entities, such as Contra Costa County, to hold a community forum if a "local law enforcement agency" operated by the governmental entity provided the federal Immigration and Customs Enforcement (ICE) agency with "ICE access" to individuals for civil immigration enforcement purposes during the prior calendar year. (Government Code section 7283.1(d))

The TRUTH Act defines a "local law enforcement agency" in a broader context than other areas of statute. Specifically, the Act defines a "local law enforcement agency", as a department that:

1. enforces criminal laws, regulations or local ordinances;
2. operates a jail or juvenile detention facility;
3. maintains custody of individuals in a jail or in a juvenile detention facility; OR
4. monitors compliance with probation or parole conditions

In addition, the term "ICE access" is defined by the TRUTH Act as any of the following:

1. Responding to an ICE hold, notification, or transfer request;
2. Providing ICE with advance notice of detention facility release information that is not otherwise available to the public;
3. Providing ICE with non-public information regarding detention facility release dates, home or work addresses;
4. Permitting ICE to interview an individual; OR
5. Providing ICE with probation or parole check-in dates and times

County Process to Determine Necessity of Community Forum

The County held its first TRUTH Act community forum in July 2018. At that time, because the definition of "local law enforcement agency" described above is broad and the definition of "ICE access" is so specific, the County Administrator's Office determined that each department within the County would be required to certify the following to determine whether a community forum was required to be held pursuant to statute:

1. Whether the department was a "local law enforcement agency" as defined by the TRUTH Act; and
2. If the department is a "local law enforcement agency", then did the department provide "ICE access" during the prior calendar year.

On April 19, 2021, the County Administrator again sent correspondence to department heads requesting that each certify to the above two questions and provided for a six-week due diligence period before responding. A copy of the County Administrator's letter and Certification Form are included in today's agenda packet as Attachment A.

The Sheriff's Office reported as having met the statutory definition for providing ICE access in calendar year 2020, which requires the Board of Supervisors to convene a community forum pursuant to

Government Code section 7283.1(d). No other County departments reported as having provided ICE access in calendar year 2020.

As a reminder, on July 9, 2018, the Sheriff's Office informed ICE and the United States Marshals Service (the "Service") of the determination to terminate agreements with the Service related to the housing of ICE Agency detainees. The County has not entered into subsequent contracts and does not house ICE Agency detainees within the adult or juvenile detention facility systems.

Community Forum Requirements and Request for Information

Once it has been determined that a community forum is necessary, statute provides that the community forum be scheduled with thirty-days advance notice to the public and that local law enforcement agencies participating in the forum may provide to the local governing board certain information. Specifically, participating agencies may provide the number and demographic characteristics of individuals whose information was disclosed to ICE through a hold, transfer, or notification request or through other means. Further, the data may be provided in the form of statistics or, if such statistics are not maintained, individual records, provided that personally identifiable information is redacted.

Consistent with prior years, on June 25, 2021 the East Bay Times, a newspaper of general circulation within Contra Costa County, published formal notice of the forum in compliance with the thirty-day public notice requirement. A copy of the Proof of Publication issued by the East Bay Times is attached to today's agenda packet as Attachment B.

In addition to this formal notice, the date and time of the County's community forum has been circulated with the assistance of members of the Board of Supervisors, the Budget Justice Coalition and the Office of Reentry and Justice. In addition, information regarding the forum has been listed on the front page of the County website and was distributed to local media. Flyers describing this year's Forum were made available in English and Spanish.

Public Accessibility

Following the conclusion of the 2018 TRUTH Act community forum, the Board of Supervisors directed staff to provide interpretation in Spanish at the 2019 community forum. Simultaneous interpretation of Forum proceedings in Spanish was successfully integrated at the 2019 and 2020 Forums and will be available again this year.

For today's forum, the County is providing the following enhancements to public accessibility and language access to maximize community involvement and participation during the forum:

1. **Immigration Advocacy Presentation**: Allow for a coordinated presentation by the immigration advocacy community represented by Ms. Angela Chan, Policy Director and Senior Staff Attorney for the Criminal Justice Reform Program at Asian Americans Advancing Justice - Asian Law Caucus, a national non-profit with a mission to “...*promote, advance, and represent the legal and civil rights of API communities. Recognizing that social, economic, political and racial inequalities continue to exist in the United States, Advancing Justice – Asian Law Caucus is committed to the pursuit of equality and justice for all sectors of our society with a specific focus directed toward addressing the needs of low-income, immigrant, and underserved APIs.*” A copy of the PowerPoint presentation received by Ms. Chan is included as Attachment C in English. A Spanish version is being translated and will be posted once available.

2. Written Public Comment: Allow for written public comment to be submitted and published with agenda materials. This ensures that comments submitted in written format are published for review by all parties participating in today's forum. To maintain compliance with the Better Government Ordinance, only those written comments received as of Thursday, July 22, 2021 at 3:30 pm were to be included as attachments. No written public comment was received related to this item.

3. Simultaneous Interpretation in Spanish: The County has engaged Continental Interpreting Services, Inc., a provider of interpreting and translation services and equipment rentals, to provide simultaneous interpretation of today's forum in Spanish. During the forum, two interpreters will ensure that reports and commentary delivered in English will be interpreted in Spanish via the County's stream services. In addition, during public comment, the interpreters will be available to provide consecutive interpretation from Spanish to English.

For reference, the American Translators Association defines each type of interpretation referred to above as the following:

- *Simultaneous Interpretation*: Simultaneous interpreting requires the interpreter to listen and comprehend in one language (source) while "simultaneously" providing an interpretation in a second language.
- *Consecutive Interpretation*: Consecutive interpreting requires the interpreter to hear several complete sentences in one language (source) before the speaker stops to allow the interpreter to provide an interpretation in a second language.

4. Consecutive Interpretation for Public Comment (upon request): In addition to providing simultaneous interpretation in Spanish, the County has offered to provide consecutive interpretation in other languages, upon request, for delivery of public comment to the Board of Supervisors. This language accommodation was announced through outreach previously outlined. Due to the logistics involved with securing a professional interpreter for an unknown set of languages, the County requested notice from members of the public by Thursday, July 22, 2021. As of Thursday, July 22, 2021 at 3:30pm, the County had not received a request for additional language accommodations. For these reasons, only interpretation in Spanish will be provided during public comment at today's forum, as described in paragraph 3. above.

5. Closed Captioning in Spanish: Board of Supervisors' meetings provide for closed captioning in English during live broadcast and on video posted on the County website. At today's forum, closed captioning will be provided real-time in Spanish to complement the simultaneous interpretation of the proceedings in Spanish. This will also be available on the video archive of today's forum on the County website.

6. Translation of PowerPoint Presentations: In addition to providing interpretation of the spoken word, the County has requested and made provision for the translation of PowerPoint presentations to be used at today's forum from English to Spanish. Two PowerPoint presentations are scheduled for today's forum:

- *Sheriff's Office*: Copies of the Sheriff's Office PowerPoint presentation are attached to this agenda item in both English (Attachment D) and Spanish (Attachment E).
- *Community Presentation*: The County is in receipt of the PowerPoint presentation from

Asian Americans Advancing Justice - Asian Law Caucus. A copy of the PowerPoint presentation received is included in English is in the process of being translated into Spanish.

Finally, the text of the TRUTH Act is included as Attachment F for reference.

CONSEQUENCE OF NEGATIVE ACTION:

The TRUTH Act community forum is required to be held by the governing board of a local agency pursuant to Government Code section 7283.1(d) if a local law enforcement agency within that jurisdiction has provided ICE access to an individual. The statute only requires that the community forum be convened and does not require that any action be taken by the local governing board. Should the Board choose not to hold the community forum it must be scheduled for a future date to comply with state law.

County of Contra Costa
OFFICE OF THE COUNTY ADMINISTRATOR
MEMORANDUM

DATE: APRIL 19, 2021 *Via Electronic Mail*

TO: DEPARTMENT HEADS

FROM: MONICA NINO, County Administrator
By: Timothy M. Ewell, Chief Assistant County Administrator *TME*

SUBJECT: **COMPLIANCE WITH TRUTH ACT – ASSEMBLY BILL 2792 (Chapter 768, Statutes of 2016)**

In 2016, then Governor Brown signed into law Assembly Bill 2792 (Chapter 768, Statutes of 2016) also known as the “TRUTH Act” (the “Act”). This legislation further regulated the cooperation of state and local governments with the federal government related to immigration enforcement activities.

Beginning in 2018, the Act required governing bodies of local governments to hold a “Community forum” if a law enforcement agency within that local government provided the U.S. Immigration and Customs Enforcement (ICE) agency access to undocumented immigrants during the prior calendar year. For purposes of counties, several departments may be considered “local law enforcement agencies” pursuant to the Act through enforcement of “criminal statutes, regulations, or ordinances” as part of mandated service delivery to the public. Specifically, local law enforcement agencies are defined by the Act as:

“... any agency of a city, county, city and county, special district, or other political subdivision of the state that is authorized to enforce criminal statutes, regulations, or local ordinances; or to operate jails or to maintain custody of individuals in jails; or to operate juvenile detention facilities or to maintain custody of individuals in juvenile detention facilities; or to monitor compliance with probation or parole conditions.”

Similarly, the Act defines “ICE Access” very broadly to mean:

“...for the purposes of civil immigration enforcement, including when an individual is stopped with or without their consent, arrested, detained, or otherwise under the control of the local law enforcement agency, all of the following:

- (1) Responding to an ICE hold, notification, or transfer request.*
- (2) Providing notification to ICE in advance of the public that an individual is being or will be released at a certain date and time through data sharing or otherwise.*
- (3) Providing ICE non-publicly available information regarding release dates, home addresses, or work addresses, whether through computer databases, jail logs, or otherwise.*

(4) Allowing ICE to interview an individual.

(5) Providing ICE information regarding dates and times of probation or parole check ins.

To ensure compliance with the community forum requirement of the Act, I am requesting that each department head complete the attached certification form to determine the following for the period January 1, 2020 through December 31, 2020: 1) Did your department qualify as a local law enforcement agency as defined by the Act, and 2) If yes, did your department provide ICE with access, as defined above.

Based on your responses the County Administrator's Office will be reaching out to you in preparation for a TRUTH Act Community Forum, which has been scheduled for Tuesday, July 27, 2021.

CONTRA COSTA
IMMIGRANT RIGHTS
ALLIANCE (CCIRA)

HISTORY & ACCOMPLISHMENTS

- The Contra Costa Immigrant Rights Alliance (CCIRA) was established in 2017 by legal and community-based organizations aiming to advance immigrant rights and promote resources for all Contra Costa residents regardless of immigration status.
- CCIRA was formed after an article was published in the East Bay Express about the Probation Department and the Custody Alternative Facility turning people over to ICE during appointments.
- In 2017, CCIRA successfully secured funding through a foundation-county partnership to establish Stand Together Contra Costa, a county rapid response system to respond to increasing immigration enforcement.
- In March 2018, Stand Together officially launched with a 24-hour hotline, two attorneys, and a coordinator.

HISTORY & ACCOMPLISHMENTS

- Days after the 2019 TRUTH Act Forum where members of the public spoke out against the county's collaboration with ICE, Sheriff Livingston stopped allowing ICE into private areas of county jails to conduct ICE arrests.
- After the 2020 TRUTH Act Forum, CCIRA members and members of the Sheriff's Office met on several occasions to discuss the Sheriff's policy on collaborating with ICE.
- In June 2021, CCIRA was notified that Sheriff Livingston made some changes to his policy, and adopted CCIRA's suggested policy change of ending the practice of publishing lists of release dates online.

Notice of 2021 Truth Act Forum

CCIRA was notified on July 14-- less than 2 weeks prior to today that the forum would be held on July 27th. We made several attempts to find another date that would work for both CCIRA and the Sheriff's Office, but the county refused to reschedule.

In the spirit of a true public forum, we encourage the Board of Supervisors to provide meaningful notice to known community stakeholders.

CONCERNS ABOUT ICE & LOCAL LAW ENFORCEMENT

Fosters distrust between immigrant communities and local law enforcement. Makes immigrant communities view local law enforcement and ICE as the same entity

Unnecessarily expends local resources on immigration enforcement, which is not a responsibility of the Sheriff's department

Opens local law enforcement up to liability, which means tax dollars are used to pay out settlements

Can result in the permanent separation of community members from their families and intergenerational trauma. Black, brown & API folks most harmed by mass incarceration and criminalization suffer the most.

CONCERNS ABOUT ICE & LOCAL LAW ENFORCEMENT:

Collaboration with ICE is unnecessary and costly

“In 2018 and 2019, the LA County Sheriff’s Department spent nearly \$3 million dollars transferring about 1,400 people to ICE custody for detention and possible deportation.

Statewide, nearly 4,000 people were transferred from local jails to ICE in that time period, at an estimated cost of more than \$7 million dollars.”

“In the US, Southeast Asian communities are 3 to 4 times more likely to be deported for past convictions when compared with other immigrant communities.... Between 2017 and 2018, there was a 279% spike in the deportation of Cambodian Americans and a 58% increase in the deportation of Vietnamese Americans.”

CONTRA COSTA COUNTY AND ICE

Contra Costa County and ICE Notifications

Contra Costa County Sheriff continues to respond to ICE requests for notification so that ICE can detain community members on their release dates.

This results in the unequal treatment and double punishment of community members who have completed their time in jail, and the perpetuation of trauma in immigrant and refugee communities. But for their country of birth, they would return home and begin their reentry plans.

Between Nov. 1, 2020 and January 25, 2021, the Sheriff notified ICE of release dates for 17 community members.

Contra Costa County and ICE Notifications

- Of the 17 ICE notifications the Sheriff's Office responded to, we have questions and concerns about 5 of them occurring in violation of SB 54.
- 2 of the 17 ICE notifications were for convictions that were 15+ old.
- We strongly encourage the Sheriff to stop ICE notifications because they harm immigrant communities and leave the county vulnerable to liability.

Questions for the Sheriff

- Of the 17 ICE notifications made, how many community members were picked up by ICE?
- Among those arrested by ICE, how and where were the arrests made?

Assembly Bill No. 2792

CHAPTER 768

An act to add Chapter 17.2 (commencing with Section 7283) to Division 7 of Title 1 of the Government Code, relating to local government.

[Approved by Governor September 28, 2016. Filed with
Secretary of State September 28, 2016.]

LEGISLATIVE COUNSEL'S DIGEST

AB 2792, Bonta. Local law enforcement agencies: federal immigration policy enforcement: ICE access.

Existing federal law authorizes issuance of an immigration detainer that serves to advise another law enforcement agency that the federal department seeks custody of an alien presently in the custody of that agency, for the purpose of arresting and removing the alien. Existing federal law provides that the detainer is a request that the agency advise the department, prior to release of the alien, in order for the department to arrange to assume custody in situations when gaining immediate physical custody is either impracticable or impossible.

Existing law, commonly known as the TRUST Act, prohibits a law enforcement official, as defined, from detaining an individual on the basis of a United States Immigration and Customs Enforcement hold after that individual becomes eligible for release from custody, unless, at the time that the individual becomes eligible for release from custody, certain conditions are met, including, among other things, that the individual has been convicted of specified crimes. Existing law defines specified terms for purposes of these provisions.

This bill, the Transparent Review of Unjust Transfers and Holds (TRUTH) Act, would require a local law enforcement agency, prior to an interview between the United States Immigration and Customs Enforcement (ICE) and an individual in custody regarding civil immigration violations, to provide the individual a written consent form, as specified, that would explain, among other things, the purpose of the interview, that it is voluntary, and that the individual may decline to be interviewed. The bill would require the consent form to be available in specified languages. The bill would require a local law enforcement agency to provide copies of specified documentation received from ICE to the individual and to notify the individual regarding the intent of the agency to comply with ICE requests. The bill would require that the records related to ICE access be public records for purposes of the California Public Records Act. The bill, commencing January 1, 2018, would require the local governing body of any county, city, or city and county in which a local law enforcement agency has provided ICE access to an individual during the last year, to hold at

least one public community forum during the following year, as specified, to provide information to the public about ICE's access to individuals and to receive and consider public comment. By requiring these local agencies to comply with these requirements, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

The California Constitution requires local agencies, for the purpose of ensuring public access to the meetings of public bodies and the writings of public officials and agencies, to comply with a statutory enactment that amends or enacts laws relating to public records or open meetings and contains findings demonstrating that the enactment furthers the constitutional requirements relating to this purpose.

This bill would make legislative findings to that effect.

The people of the State of California do enact as follows:

SECTION 1. This act shall be known, and may be cited, as the Transparent Review of Unjust Transfers and Holds (TRUTH) Act.

SEC. 2. (a) Transparency and accountability are essential minimum requirements for any collaboration between state and federal agencies.

(b) Recent immigration enforcement programs sponsored by the United States Immigration and Customs Enforcement (ICE) agency have suffered from a lack of transparency and accountability.

(c) For example, a federal judge found that ICE "went out of [its] way to mislead the public about Secure Communities," a deportation program in which ICE collaborated with local law enforcement agencies to identify people for deportation.

(d) The Legislature further found that Secure Communities harmed community policing and shifted the burden of federal immigration enforcement onto local law enforcement agencies.

(e) Although ICE has terminated the Secure Communities program, it continues to promote a number of similar programs, including the Priority Enforcement Program, the 287(g) Program, and the Criminal Alien Program.

(f) The Priority Enforcement Program has many similarities to Secure Communities, including the checking of fingerprints for immigration purposes at the point of arrest; the continued use of immigration detainers, which have been found by the courts to pose constitutional concerns; and the reliance on local law enforcement to assist in immigration enforcement.

(g) Just as with Secure Communities, numerous questions have been raised about whether ICE has been transparent and accountable with respect to its current deportation programs.

(h) This bill seeks to address the lack of transparency and accountability by ensuring that all ICE deportation programs that depend on entanglement with local law enforcement agencies in California are subject to meaningful public oversight.

(i) This bill also seeks to promote public safety and preserve limited local resources because entanglement between local law enforcement and ICE undermines community policing strategies and drains local resources.

SEC. 3. Chapter 17.2 (commencing with Section 7283) is added to Division 7 of Title 1 of the Government Code, to read:

CHAPTER 17.2. STANDARDS FOR PARTICIPATION IN UNITED STATES
IMMIGRATION AND CUSTOMS ENFORCEMENT PROGRAMS

7283. For purposes of this chapter, the following terms have the following meanings:

(a) “Community forum” includes, but is not limited to, any regular meeting of the local governing body that is open to the public, where the public may provide comment, is in an accessible location, and is noticed at least 30 days in advance.

(b) “Hold request” means a federal Immigration and Customs Enforcement (ICE) request that a local law enforcement agency maintain custody of an individual currently in its custody beyond the time he or she would otherwise be eligible for release in order to facilitate transfer to ICE and includes, but is not limited to, Department of Homeland Security (DHS) Form I-247D.

(c) “Governing body” with respect to a county, means the county board of supervisors.

(d) “ICE access” means, for the purposes of civil immigration enforcement, including when an individual is stopped with or without their consent, arrested, detained, or otherwise under the control of the local law enforcement agency, all of the following:

(1) Responding to an ICE hold, notification, or transfer request.

(2) Providing notification to ICE in advance of the public that an individual is being or will be released at a certain date and time through data sharing or otherwise.

(3) Providing ICE non-publicly available information regarding release dates, home addresses, or work addresses, whether through computer databases, jail logs, or otherwise.

(4) Allowing ICE to interview an individual.

(5) Providing ICE information regarding dates and times of probation or parole check-ins.

(e) “Local law enforcement agency” means any agency of a city, county, city and county, special district, or other political subdivision of the state that is authorized to enforce criminal statutes, regulations, or local ordinances; or to operate jails or to maintain custody of individuals in jails; or to operate juvenile detention facilities or to maintain custody of individuals

in juvenile detention facilities; or to monitor compliance with probation or parole conditions.

(f) “Notification request” means an Immigration and Customs Enforcement request that a local law enforcement agency inform ICE of the release date and time in advance of the public of an individual in its custody and includes, but is not limited to, DHS Form I-247N.

(g) “Transfer request” means an Immigration and Customs Enforcement request that a local law enforcement agency facilitate the transfer of an individual in its custody to ICE, and includes, but is not limited to, DHS Form I-247X.

7283.1. (a) In advance of any interview between ICE and an individual in local law enforcement custody regarding civil immigration violations, the local law enforcement entity shall provide the individual with a written consent form that explains the purpose of the interview, that the interview is voluntary, and that he or she may decline to be interviewed or may choose to be interviewed only with his or her attorney present. The written consent form shall be available in English, Spanish, Chinese, Tagalog, Vietnamese, and Korean. The written consent form shall also be available in any additional languages that meet the county threshold as defined in subdivision (d) of Section 128552 of the Health and Safety Code if certified translations in those languages are made available to the local law enforcement agency at no cost.

(b) Upon receiving any ICE hold, notification, or transfer request, the local law enforcement agency shall provide a copy of the request to the individual and inform him or her whether the law enforcement agency intends to comply with the request. If a local law enforcement agency provides ICE with notification that an individual is being, or will be, released on a certain date, the local law enforcement agency shall promptly provide the same notification in writing to the individual and to his or her attorney or to one additional person who the individual shall be permitted to designate.

(c) All records relating to ICE access provided by local law enforcement agencies, including all communication with ICE, shall be public records for purposes of the California Public Records Act (Chapter 3.5 (commencing with Section 6250)), including the exemptions provided by that act and, as permitted under that act, personal identifying information may be redacted prior to public disclosure. Records relating to ICE access include, but are not limited to, data maintained by the local law enforcement agency regarding the number and demographic characteristics of individuals to whom the agency has provided ICE access, the date ICE access was provided, and whether the ICE access was provided through a hold, transfer, or notification request or through other means.

(d) Beginning January 1, 2018, the local governing body of any county, city, or city and county in which a local law enforcement agency has provided ICE access to an individual during the last year shall hold at least one community forum during the following year, that is open to the public, in an accessible location, and with at least 30 days’ notice to provide information to the public about ICE’s access to individuals and to receive

and consider public comment. As part of this forum, the local law enforcement agency may provide the governing body with data it maintains regarding the number and demographic characteristics of individuals to whom the agency has provided ICE access, the date ICE access was provided, and whether the ICE access was provided through a hold, transfer, or notification request or through other means. Data may be provided in the form of statistics or, if statistics are not maintained, individual records, provided that personally identifiable information shall be redacted.

7283.2. Nothing in this chapter shall be construed to provide, expand, or ratify the legal authority of any state or local law enforcement agency to detain an individual based upon an ICE hold request.

SEC. 4. The Legislature finds and declares that Section 3 of this act, which adds Chapter 17.2 (commencing with Section 7283) to Division 7 of Title 1 of the Government Code, furthers, within the meaning of paragraph (7) of subdivision (b) of Section 3 of Article I of the California Constitution, the purposes of that constitutional section as it relates to the right of public access to the meetings of local public bodies or the writings of local public officials and local agencies. Pursuant to paragraph (7) of subdivision (b) of Section 3 of Article I of the California Constitution, the Legislature makes the following findings:

By requiring public meetings relating to the manner in which local law enforcement entities cooperate with federal authorities in enforcing federal immigration laws and making related documents open to public inspection, this act furthers the purposes of paragraph (7) of subdivision (b) of Section 3 of Article I of the California Constitution.

SEC. 5. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district under this act would result from a legislative mandate that is within the scope of paragraph (7) of subdivision (b) of Section 3 of Article I of the California Constitution.

FISCAL IMPACT:

The cost of preparing the zoning ordinance has been funded by the Department of Conservation and Development, Land Development Fund.

All applicable fees and costs charged by the County are borne by the project proponent, including but not limited to the application fee, all fees and costs required to complete CEQA environmental review, and all compliance review fees and deposits. The Land Use Permit will require payment of all fees for compliance reviews and inspections of the operation.

BACKGROUND:

The Agriculture Improvement Act of 2018 (the 2018 Farm Bill) removed industrial hemp from Schedule I of the federal Controlled Substances Act. Even though growing industrial hemp is currently legal under State and Federal law, the lack of local regulation has shown to be problematic as the similarities between cannabis and industrial hemp plants present challenges for law enforcement and code enforcement when determining whether a cultivation site complies with applicable law.

Industrial hemp and cannabis are derivatives of the same plant and can only be distinguished through chemical analysis for the presence of tetrahydrocannabinol (THC). If the plant has a concentration of 0.3% THC or less, it is industrial hemp. However, THC levels are difficult to test reliably until the plant is close to maturity and ready for harvest. The cultivation of industrial hemp has also shown to be a potential creator of significant impacts to neighboring properties such as light pollution, odor, and need for heightened security.

Considering these issues, and to allow time for staff to develop appropriate draft regulations, on November 17, 2020, the Board of Supervisors adopted an urgency interim ordinance imposing a temporary moratorium on industrial hemp cultivation. The Board twice extended the moratorium, which currently extends through September 30, 2021. During the moratorium the Department of Conservation and Development and the Department of Agriculture have worked collaboratively to develop regulations for industrial hemp cultivation. Staff believes that the two proposed ordinances—a zoning ordinance and an agricultural permit ordinance—will provide appropriate regulation of industrial hemp cultivation.

Industrial Hemp Cultivation Zoning Ordinance No. 2021-21

Summary

The Department of Conservation and Development has drafted a zoning ordinance that would allow industrial hemp cultivation in certain zoning districts with a land use permit. The proposed zoning ordinance is intended to address potential impacts from industrial hemp cultivation, including light pollution, odor, and need for heightened security. The required conditions of a land use permit issued under this ordinance would mitigate these potential impacts and provide the County with an enforcement mechanism in the event a permittee fails to conform to the required standards.

Under the proposed zoning ordinance, a land use permit to cultivate industrial hemp may only be issued for cultivation on a lot in an agricultural zoning district located within the boundaries of the East Contra Costa Irrigation District, the Byron-Bethany Irrigation District, or the East Contra Costa County Groundwater Subbasin. The ordinance would establish different location requirements and operational standards for indoor and outdoor cultivation.

A land use permit issued under the proposed ordinance would have an initial term of five years. A permit could be renewed if the permittee has complied with all applicable regulations and industrial hemp cultivation is authorized in Contra Costa County at the time the renewal request is made. The term

of a renewed permit would last until the permit is revoked. Generally, land use permits do not expire after a set term because they run with the land. Staff believes that an initial term of five years, with the opportunity for renewal, is appropriate here given the potential for significant impacts to neighbors and the community. If a permittee has not complied with permit conditions or the standards included in the ordinance, or if the industrial hemp cultivation is no longer authorized in the County, a request for renewal may be denied. As opposed to building construction or other development, the initial investment in an annual agricultural crop is substantially less and generally recoverable each year. Moreover, the value of agricultural land is not diminished if a land use permit for industrial hemp cultivation is not renewed as the land can be utilized for other agricultural uses. Accordingly, staff recommends an initial term of five years for land use permits issued under the proposed ordinance.

Key Provisions

A. Location Requirements: Industrial hemp may be cultivated on any lot in an agricultural district (A-2, A-3, A-4, A-20, A-40, and A-80) located within the boundaries of any of the following:

- The East Contra Costa Irrigation District.
- The Byron-Bethany Irrigation District.
- The East Contra Costa County Groundwater Subbasin.

The attached map shows the area where industrial hemp cultivation may be permitted under this ordinance per the location requirements described above.

Lastly, industrial hemp may not be cultivated outdoors at any property within the urban limit line or within one mile beyond the urban limit line.

B. Indoor/Outdoor Cultivation:

1. “Indoor cultivation” is defined as cultivation of industrial hemp within a permanent building using exclusively artificial light or within a greenhouse. Indoor cultivation does not include cultivation of industrial hemp within a hoop house or other hoop structure.
2. “Outdoor cultivation” is defined as any cultivation of industrial hemp that is not indoor cultivation. Outdoor cultivation includes cultivation of industrial hemp within a hoop structure.

C. Minimum Lot Size for Outdoor Cultivation: The minimum lot size on which to cultivate industrial hemp outdoors is five acres. Lots that are adjacent and under common ownership or control, with an aggregate size of five acres or larger, satisfy the acreage requirement of this subsection.

D. Setback Requirements:

1. Indoor Cultivation: A structure in which industrial hemp is cultivated must comply with all requirements relating to yards (front setbacks, side, and rear) that generally apply to structures in the zoning district in which the property is located.
2. Outdoor Cultivation: The cultivation area must be set back a minimum of 25-feet from any boundary line, except that no setback is required from a boundary line that abuts a property that is owned, managed, or otherwise under the control of the permittee. However, the cultivation area must be set back a minimum of 250-feet from any boundary line that abuts a residential land use

district.

E. Land Use Permit Conditions of Approval: A land use permit issued under this ordinance will include conditions of approval to mitigate the potential impacts that may result from industrial hemp cultivation:

1. Security: To mitigate possible theft of industrial hemp plants, security measures will be enforced that are inclusive of the overall process, such as how industrial hemp will be received, stored, handled, cultivated, harvested, transported, and secured.
2. Lighting: To mitigate lighting pollution, all industrial hemp cultivation lighting must be fully shielded, downward casting, and not spill over onto structures, other properties, or the night sky. Light will not be permitted to escape at a level that is visible from neighboring properties between sunset and sunrise.
3. Odor: To mitigate strong odors common to the industrial hemp plant, indoor cultivation will be conducted in a manner that prevents odors from being detected offsite, and outdoor cultivation will require implementation of a previously approved odor control plan.
4. Compliance Review: A compliance review may be performed at any time during the term of a Land Use Permit to determine whether a permittee is complying with the permit's terms and conditions, the requirements of this ordinance, and all applicable laws and regulations.

F. Permit Term and Renewal: A Land Use Permit issued under this ordinance has an initial term of five years. A permit may be renewed, only if the permittee remains compliant with all of the terms of the permit being renewed, and there are no grounds to suspend or revoke the permit, and the permittee maintains a current permit issued by the County Agricultural Commissioner. The term of a renewed permit lasts until the permit is revoked.

County Planning Commission Hearing

On June 23, 2021, the County Planning Commission held a public hearing on the proposed industrial hemp cultivation ordinance. After closing the public hearing, the Planning Commission unanimously recommended that the Board of Supervisors adopt the proposed industrial hemp cultivation ordinance.

Agricultural Industrial Hemp Permit Ordinance No. 2021-22

In addition to the proposed zoning ordinance, the County Agricultural Department has also prepared an agricultural permit ordinance that would establish standards for cultivating industrial hemp and require a person to obtain a permit from the Contra Costa County Agricultural Commissioner, in addition to all other required County and State permits and registrations, prior to cultivation. Testing, tracking, transportation, and destruction of industrial hemp plants will be regulated by the County Agricultural Department under the provisions of the agricultural permit ordinance.

Environmental Review

Under CEQA Guidelines Section 15061(b)(3), the proposed Zoning Text Amendment to adopt a County Industrial Hemp Cultivation Ordinance is exempt from CEQA because it can be seen with certainty that there is no possibility that establishing regulations for the cultivation of industrial hemp could have a significant effect on the environment. The proposed regulations will help mitigate any potential impacts

caused by the cultivation of industrial hemp, and therefore will reduce impacts on the environment.

Conclusion

The current urgency interim ordinance adopted by the Board of Supervisors extended the temporary moratorium on industrial hemp cultivation through September 30, 2021. If the Board adopts the proposed industrial hemp cultivation ordinances, these permanent regulations will replace the current temporary moratorium on industrial hemp cultivation.

CONSEQUENCE OF NEGATIVE ACTION:

If the Board does not adopt the proposed ordinances, industrial hemp cultivation will be insufficiently regulated and may continue to result in problems with enforcement. Allowing more industrial hemp registration without proper regulation may also create incompatibility issues with approved land uses and licensed cannabis crops.

- (a) A permittee has not complied with one or more of the conditions of the permit issued under this chapter.
- (b) A permit was issued under this chapter based on any false material information, written or oral, given by the permittee.
- (c) A permittee has not complied with the requirements of this chapter, any other applicable requirements of this code, or any requirements of State or Federal laws or regulations.

ORDINANCE NO. 2021-10

AN URGENCY INTERIM ORDINANCE EXTENDING A MORATORIUM ON
INDUSTRIAL HEMP CULTIVATION AND PROCESSING

The Contra Costa County Board of Supervisors ordains as follows:

Section 1. Purpose and Findings.

- A. The purpose of this urgency ordinance is to extend a temporary moratorium on industrial hemp cultivation and processing for commercial purposes while the County considers developing reasonable regulations to mitigate the impacts and regulate the location of the cultivation of industrial hemp, which is generally defined as the *Cannabis sativa L.* plant with a tetrahydrocannabinol (THC) concentration of 0.3% or less.
- B. In December 2018, H.R. 2, the Agriculture Improvement Act of 2018 (the 2018 Farm Bill), was signed into law, authorizing hemp cultivation more broadly than previously allowed by removing hemp from Schedule I of the federal Controlled Substances Act.
- C. The 2018 Farm Bill delegates to states and Indian tribes the authority to regulate and limit the production of hemp within their borders. It requires states to submit regulatory plans to the U.S. Department of Agriculture (USDA) for review and approval. The California Department of Food and Agriculture submitted a proposed state regulatory plan to the USDA for review and approval. California's proposed state regulatory plan is under review by the USDA.
- D. Under Food and Agricultural Code sections 81003 and 81004, before cultivation, a commercial grower or seed breeder of industrial hemp must register with the county agricultural commissioner. In 2020, the Contra Costa County Agricultural Commissioner registered five commercial industrial hemp growers in the unincorporated areas of Contra Costa County. A registration is valid for one year from the date of issuance.
- E. Under state law, industrial hemp is not subject to the same regulatory provisions as cannabis. Health and Safety Code section 11018.5(b) exempts industrial hemp from regulation under the Medicinal and Adult-Use Cannabis Regulation and Safety Act (Business and Professions Code, § 26000 et seq.). Accordingly, the County's cannabis regulation ordinance, Chapter 88-28 of the County Ordinance Code, does not regulate the cultivation of industrial hemp within the unincorporated areas of Contra Costa County.
- F. The methods for distinguishing industrial hemp (the non-intoxicating *Cannabis sativa L.* plant) from cannabis (the psychotropic version of the plant) are evolving. Industrial hemp and cannabis are derivatives of the same plant, *Cannabis sativa L.* Under state law, industrial hemp is distinguished from cannabis by the amount of tetrahydrocannabinol (THC), the psychoactive chemical in the plant. If the plant has a concentration of 0.3%

THC or less, it is categorized as industrial hemp. Industrial hemp and cannabis thus may be difficult to distinguish without a chemical analysis for the presence of THC content. THC levels are difficult to test reliably until the plant is close to maturity and ready for harvest. Testing is time sensitive, and it is difficult to perform and obtain results in a timely manner. The similarities in the two types of plants present challenges for law enforcement and code enforcement when determining whether a cultivation site complies with applicable law, including Ordinance Code chapter 88-28, or has paid required taxes.

- G. Industrial hemp can serve as a host to corn earworms and other insects. The pesticides that have been approved for industrial hemp may not provide the range of control needed to prevent movement of these pests from industrial hemp to nearby crops.
- H. Without local regulation, the cultivation of industrial hemp and cannabis may create incompatibility issues due to cross-pollination if male industrial hemp plants are grown or allowed to be grown close to cannabis.
- I. The cultivation of industrial hemp without local regulations may interfere with licensed and permitted cannabis cultivation operations under Ordinance Code chapter 88-28, particularly with respect to pollen drift and pest contamination.
- J. On November 17, 2020, the Board of Supervisors adopted Ordinance No. 2020-28, an urgency interim ordinance that established a moratorium on the cultivation and processing of industrial hemp. On December 15, 2020, the Board of Supervisors adopted Ordinance No. 2020-30, an urgency interim ordinance that continued a moratorium on the cultivation and processing of industrial hemp.
- K. An extended moratorium on the cultivation and processing of industrial hemp is urgent and necessary to give the County time to continue studying and determining how best to regulate the cultivation of industrial hemp and consider appropriate zoning districts and regulatory standards, including location requirements, security standards, water supply requirements, and size limits.
- L. Section 3 of this ordinance authorizes existing industrial hemp growers that meet specified criteria to continue cultivating industrial hemp at their existing sites. Allowing cultivation at existing sites under the location criteria and restrictions specified in Section 3 is appropriate because this restricted cultivation will result in minimal odor and lighting impacts on residential properties.

Section 2. Definitions. For purposes of this ordinance, the following terms have the following meanings:

- (a) “Established agricultural research institution” has the meaning set forth in Food and Agricultural Code section 81000(a)(4).

- (b) “Industrial hemp” has the meaning set forth in Food and Agricultural Code section 81000(a)(6).
- (c) “Nursery stock” has the meaning set forth in Food and Agricultural Code section 5005.

Section 3. Cultivation and Processing of Industrial Hemp Prohibited. The moratorium established by Ordinance No. 2020-28 and continued by Ordinance No. 2020-30 is extended through March 9, 2022.

- (a) During the term of this interim ordinance, including any extensions:
 - (1) No person or entity, including any established agricultural research institution, may grow or process industrial hemp for any purpose within the unincorporated area of Contra Costa County.
 - (2) No County permit, registration, or approval of any type shall be issued for industrial hemp cultivation or processing.
 - (3) No County building permit or approval of any type shall be issued for a greenhouse, hoophouse, or any other structure, used or intended to be used for industrial hemp cultivation or processing.
- (b) During the term of this interim ordinance, including any extensions:
 - (1) The Contra Costa County Agricultural Commissioner will not issue a registration to any applicant pursuant to Food and Agricultural Code sections 81003 and 81004, or otherwise.
 - (2) The Contra Costa County Agricultural Commissioner will not renew the registration of any applicant pursuant to Food and Agricultural Code sections 81003 and 81004, or otherwise.
- (c) Notwithstanding subdivisions (a) and (b) of this section, growers of industrial hemp that had, as of the adoption date of Ordinance No. 2020-28, an active registration issued by the County Agricultural Commissioner may grow industrial hemp consistent with, and subject to, the terms set forth in that registration, including, but not limited to, the location and size of the registered grow. Cultivation allowed under this Section 3(c) is allowed only for the term of that registration. The registration is not subject to renewal except as otherwise provided in Section 4 of this ordinance.
- (d) Cultivation or processing of industrial hemp in violation of this interim ordinance is a public nuisance. This ordinance may be enforced by any remedy allowed under the Contra Costa County Ordinance Code and any other remedy allowed by law.

Section 4. Exemptions.

- (a) The prohibitions set forth in Section 3 do not apply to a grower of industrial hemp that has an active registration issued by the County Agricultural Commissioner as long as the grower meets either of the following criteria:
 - (1) The grower’s existing cultivation site is located more than one mile outside the Urban Limit Line.
 - (2) The grower’s existing cultivation site is located within an existing, legally established greenhouse. A hoophouse is not a greenhouse.

- (b) A grower that meets the criteria specified in subsection (a) of this section may continue cultivation of industrial hemp under this interim ordinance if the grower meets the following requirements and complies with the following restrictions:
 - (1) The grower must obtain a new registration for a one-year term from the County Agricultural Commissioner pursuant to Food and Agricultural Code sections 81003 and 81004.
 - (2) The cultivation of nursery stock is prohibited.
 - (3) The movement of plants from the site at any time prior to harvest is prohibited.
 - (4) Artificial lighting at an industrial hemp cultivation site is prohibited.
 - (5) The grower must comply with all provisions of state and federal law, and associated regulations, that apply to industrial hemp cultivation, including requirements for cultivation, sampling, laboratory testing, harvesting, and crop destruction.

Section 5. Reports. In accordance with subdivision (d) of Government Code section 65858, ten days before this ordinance expires and any extension of it, the Department of Conservation and Development shall file with the Clerk of the Board of Supervisors a written report describing the measures taken to alleviate the conditions that led to the adoption of this urgency interim ordinance.

Section 6. Severability. If any provision or clause of this ordinance or the application thereof to any person or circumstances is held to be unconstitutional or to be otherwise invalid by any court of competent jurisdiction, such invalidity shall not affect other ordinance provisions or clauses or applications thereof that can be implemented without the invalid provision or clause or application, and to this end the provisions and clauses are declared to be severable.

Section 7. Declaration of Urgency. This ordinance is hereby declared to be an urgency ordinance necessary for the immediate preservation of the public safety, health, and welfare of the County. The facts constituting the urgency of this interim ordinance’s adoption are set forth in Section 1.

Section 8. Effective Period. This ordinance becomes effective immediately upon passage by four-fifths vote of the Board of Supervisors and shall continue in effect through March 9, 2022, pursuant to Government Code section 65858.

Section 9. Publication. Within 15 days after passage, this ordinance shall be published once with the names of the supervisors voting for and against it in the East Bay Times, a newspaper published in this County.

I. PROJECT SUMMARY

A hearing to consider a County initiated Zoning Text Amendment to regulate the cultivation of industrial hemp in the unincorporated areas of the County.

II. RECOMMENDATION

Department of Conservation and Development, Community Development Division (CDD) staff recommends that the County Planning Commission:

- A. OPEN the public hearing on a zoning ordinance regulating industrial hemp cultivation; RECEIVE testimony; and CLOSE the public hearing; and

- B. ADOPT a motion recommending that the Board of Supervisors take the following actions:
1. DETERMINE, that adoption of proposed zoning text amendment is exempt from the California Environmental Quality Act (CEQA) under CEQA Guidelines section 15061(b)(3) as it can be seen with certainty that adoption of the proposed zoning text amendment will not have a significant effect on the environment;
 2. FIND that the proposed zoning text amendment does not conflict with the County 2005-2020 General Plan;
 3. ADOPT the zoning ordinance regulating industrial hemp cultivation; and
 4. DIRECT staff to file a CEQA Notice of Exemption with the County Clerk.

III. EXECUTIVE SUMMARY

The Department of Conservation and Development has drafted an ordinance regulating the cultivation of industrial hemp. The proposed zoning ordinance would regulate industrial hemp cultivation by allowing industrial hemp cultivation in certain zoning districts with a land use permit. Industrial hemp is generally defined as the *Cannabis sativa* L. plant with a tetrahydrocannabinol (THC) concentration of 0.3% or less.

The ordinance is intended to address potential impacts from industrial hemp cultivation, including light pollution, odor, and need for heightened security. The required conditions of a land use permit issued under this ordinance would mitigate these potential impacts and provide the County with an enforcement mechanism in the event a permittee fails to conform to the required standards.

Under the proposed ordinance, a land use permit to cultivate industrial hemp may only be issued for cultivation on a lot in an agricultural zoning district located within the boundaries of the East Contra Costa Irrigation District, the Byron-Bethany Irrigation District, or the East Contra Costa County Groundwater Subbasin. The ordinance would establish different requirements and operational standards for indoor and outdoor cultivation.

A land use permit issued under the proposed ordinance would have an initial term of

five years. A permit could be renewed if the permittee has complied with all applicable regulations and industrial hemp cultivation is authorized in Contra Costa County at the time the renewal request is made. The term of a renewed permit would last until the permit is revoked. Generally, land use permits do not expire after a set term because they run with the land. Staff believes that an initial term of five years, with the opportunity for renewal, is appropriate here given the potential for significant impacts to neighbors and the community. If a permittee has not complied with permit conditions or the standards included in the ordinance, or if the industrial hemp cultivation is no longer authorized in the County, a request for renewal may be denied. As opposed to building construction or other development, the initial investment in an annual agricultural crop is substantially less and generally recoverable each year. Moreover, the value of agricultural land is not diminished if a land use permit for industrial hemp cultivation is not renewed as the land can be utilized for other agricultural uses. Accordingly, staff recommends an initial term of five years for land use permits issued under the proposed ordinance.

In addition to the zoning ordinance, the County Agricultural Department has also prepared an ordinance (Attachment 2) amending Title 5 of the County Ordinance Code that would establish standards for cultivating industrial hemp to require a person to obtain a permit from the Contra Costa County Agricultural Commissioner, in addition to all other required County and State permits and registrations prior to cultivation. Staff believes that the two ordinances, together, would provide appropriate regulation of industrial hemp cultivation.

Federal and State Law

In December 2018, the Agriculture Improvement Act of 2018 (the 2018 Farm Bill), was signed into law, authorizing hemp cultivation more broadly than previously allowed by removing hemp from Schedule I of the federal Controlled Substances Act.

Under state law, industrial hemp is not subject to the same regulatory provisions as cannabis. Health and Safety Code section 11018.5(b) exempts industrial hemp from regulation under the Medicinal and Adult-Use Cannabis Regulation and Safety Act (Business and Professions Code, § 26000 et seq.). Accordingly, the County's cannabis regulation ordinance, Chapter 88-28 of the County Ordinance Code, does not regulate the cultivation of industrial hemp within the unincorporated areas of Contra Costa County.

The methods for distinguishing industrial hemp (the non-intoxicating Cannabis sativa

L. plant) from cannabis (the psychotropic version of the plant) are evolving. Industrial hemp and cannabis are derivatives of the same plant, but industrial hemp is distinguished from cannabis by the amount of tetrahydrocannabinol (THC), the psychoactive chemical in the plant. If the plant has a concentration of 0.3% THC or less, it is categorized as industrial hemp. Industrial hemp and cannabis thus may be difficult to distinguish without a chemical analysis for the presence of THC content. THC levels are difficult to test reliably until the plant is close to maturity and ready for harvest. Testing is time sensitive, and it is important to get results in a timely manner. The similarities in the two types of plants present challenges for law enforcement and code enforcement when determining whether a cultivation site complies with applicable law, including Ordinance Code chapter 88-28, or has paid required taxes.

Failure to adopt the proposed ordinances or similar regulations will leave industrial hemp cultivation insufficiently regulated and may continue to result in problems with enforcement. Allowing more industrial hemp registration without proper regulation may also create incompatibility issues with approved land uses and licensed cannabis crops.

IV. BACKGROUND

On November 17, 2020, the Board of Supervisors adopted Ordinance No. 2020-28, an urgency interim ordinance that established a moratorium on the cultivation and processing of industrial hemp. On December 15, 2020, the Board of Supervisors adopted Ordinance No. 2020-30, an urgency interim ordinance that extended the moratorium through March 10, 2021. On March 9, 2021, the Board of Supervisors adopted Ordinance No. 2021-10, which extended the temporary moratorium on industrial hemp cultivation through September 30, 2021, to allow County staff time to continue developing and to finalize reasonable industrial hemp regulations.

Under the current urgency interim ordinance (Attachment 3), no person or entity, including any established agricultural research institution, may grow or process industrial hemp for any purpose within the unincorporated area of Contra Costa County. No County permit, registration, or approval of any type will be issued for industrial hemp cultivation or processing, and no County building permit or approval of any type will be issued for any structure used or intended to be used for industrial hemp cultivation. However, subject to specified conditions, a cultivator with an active registration with the Agricultural Commissioner may continue to cultivate industrial hemp under the current interim ordinance.

Under Food and Agricultural Code sections 81003 and 81004, before cultivation, a commercial grower or seed breeder of industrial hemp must register with the County Agricultural Commissioner. In 2020, the Contra Costa County Agricultural Commissioner registered five commercial industrial hemp growers in the unincorporated areas of Contra Costa County: US4GM (southeast corner of Orwood Tract in Knightsen), Pro Tree Nursery (4425 Sellers Avenue in Brentwood), Terpene Belt Farms (corner of Herdlyn Road and Byron Hwy in Byron), US Phoenix Management Inc. (4725 and 4835 Tranquility Bay Road in Knightsen), and Yi Feng Huang (1750 Arabian Lane in Brentwood). If the proposed ordinances are adopted, only those cultivators that meet the requirements of this proposed zoning ordinance would be able to apply for a land use permit.

V. ENVIRONMENTAL REVIEW

Under CEQA Guidelines Section 15061(b)(3), the proposed Zoning Text Amendment to adopt a County Industrial Hemp Cultivation Ordinance is exempt from CEQA because it can be seen with certainty that there is no possibility that adoption of the industrial hemp ordinance could have a significant effect on the environment. The proposed Industrial Hemp Cultivation Ordinance will help mitigate any potential impacts caused by the cultivation of industrial hemp, and therefore will reduce impacts on the environment.

VI. INDUSTRIAL HEMP CULTIVATION ZONING TEXT AMENDMENT

This proposed Industrial Hemp Cultivation Zoning Ordinance (Attachment 1) will add Chapter 88-34 to the County Ordinance Code to regulate industrial hemp cultivation by allowing industrial hemp cultivation in certain zoning districts within the unincorporated areas of Contra Costa County with a Land Use Permit.

A. Location Requirements: Industrial hemp may be cultivated on any lot in an agricultural district (A-2, A-3, A-4, A-20, A-40, and A-80) located within the boundaries of any of the following:

- The East Contra Costa Irrigation District.
- The Byron-Bethany Irrigation District.
- The East Contra Costa County Groundwater Subbasin.

The map attached to this report (Attachment 4) shows the area where industrial hemp cultivation may be permitted under this ordinance.

Lastly, industrial hemp may not be cultivated outdoors at any property within the urban limit line or within one mile beyond the urban limit line.

B. Indoor/Outdoor Cultivation:

- “Indoor cultivation” is defined as cultivation of industrial hemp within a permanent building using exclusively artificial light or within a greenhouse. Indoor cultivation does not include cultivation of industrial hemp within a hoop house or other hoop structure.
- “Outdoor cultivation” is defined as any cultivation of industrial hemp that is not indoor cultivation. Outdoor cultivation includes cultivation of industrial hemp within a hoop structure.

C. Minimum Lot Size for Outdoor Cultivation: The minimum lot size on which to cultivate industrial hemp outdoors is five acres. Lots that are adjacent and under common ownership or control, with an aggregate size of five acres or larger, satisfy the acreage requirement of this subsection.

D. Setback Requirements:

- Indoor Cultivation: A structure in which industrial hemp is cultivated must comply with all requirements relating to yards (front setbacks, side, and rear) that generally apply to structures in the zoning district in which the property is located.
- Outdoor Cultivation: The cultivation area must be set back a minimum of 25-feet from any boundary line, except that no setback is required from a boundary line that abuts a property that is owned, managed, or otherwise under the control of the permittee. However, the cultivation area must be set back a minimum of 250-feet from any boundary line that abuts a residential land use district.

E. Land Use Permit Conditions of Approval: A land use permit issued under this ordinance will include conditions of approval to mitigate potential impacts of industrial hemp cultivation:

- Security: To mitigate possible theft of industrial hemp plants, security measures will be enforced that are inclusive of the overall process, such as how industrial

hemp will be received, stored, handled, cultivated, harvested, transported, and secured.

- Lighting: To mitigate lighting pollution, all industrial hemp cultivation lighting must be fully shielded, downward casting, and not spill over onto structures, other properties, or the night sky. Light will not be permitted to escape at a level that is visible from neighboring properties between sunset and sunrise.
 - Odor: To mitigate strong odors common to the industrial hemp plant, indoor cultivation will be conducted in a manner that prevents odors from being detected offsite, and outdoor cultivation will require implementation of a previously approved odor control plan.
 - Compliance Review: A compliance review may be performed at anytime during the term of a Land Use Permit to determine whether a permittee is complying with the permit's terms and conditions, the requirements of this ordinance, and all applicable laws and regulations.
- F. Permit Term and Renewal: A Land Use Permit issued under this ordinance has an initial term of five years. A permit may be renewed if the permittee remains compliant with all of the terms of the permit being renewed, and there are no grounds to suspend or revoke the permit, and the permittee maintains a current permit issued by the County Agricultural Commissioner. The term of a renewed permit lasts until the permit is revoked.
- G. Fiscal Impact: All applicable fees and costs charged by the County are borne of the project proponent, including but not limited to the application fee, all fees and costs required to complete CEQA environmental review, and all compliance review fees and deposits. The Land Use Permit will require payment of all fees for compliance reviews and inspections of the operation.

VII. STAFF ANALYSIS

- A. General Plan Consistency: The areas in which industrial hemp cultivation can be proposed to be located fall within several General Plan land use designations: Agricultural Lands (AL); Agricultural Core (AC); Delta Recreational and Resources (DR); Public and Semi-Public (PS); Parks and Recreation (PR); Open Space (OS); and Water (WA).

Uses that are allowed in the Agricultural Lands (AL), Agricultural Core (AC), and the Delta Recreational and Resources (DR) designations include agricultural production and related activities. The proposed use of industrial hemp cultivation for commercial distribution is a consistent agricultural use as industrial hemp is considered an agricultural product. Therefore, the proposed zoning ordinance is consistent with the intent and purpose of the AL, AC, and DR land use designations.

Uses that are allowed in the Public and Semi-Public (PS), Parks and Recreation (PR), Open Space (OS), and Water (WA) land use designations are normally associated with public use and not readily recognized as consistent with private agricultural production. However, all agricultural zoning districts can be found to be consistent with these land use designations per the County General Plan. Therefore, if the area where the cultivation of industrial hemp is proposed to be located is also in an area that is zoned agricultural and located in the areas permitted under this proposed zoning ordinance, then it can be found to be consistent with the intent and purpose of the PS, PR, OS, and WA land use designations.

The Land Use Element of the County General Plan also identifies policies for specific geographic areas of the unincorporated County. These specific area policies focus on providing additional policies that pertain to the unique characteristics and needs of each identified area, which includes East County. The East County Area contains Policies 3-47 through 3-77. The proposed zoning ordinance does not conflict with the specific policies designated for the East County Area.

- B. Zoning Compliancy: The zoning districts in which industrial hemp cultivation could be located includes all agricultural (A-) zoning districts, with approval of a land use permit. The agricultural zoning districts are intended to provide and protect areas for agricultural uses. The cultivation of industrial hemp is consistent with the intent and purpose of the agricultural zoning districts as industrial hemp is an agricultural product, and to plant, grow, breed, harvest, dry, cure, and trim industrial hemp plants are related agricultural activities. Therefore, the proposed zoning ordinance is consistent with the intent and purpose of all of the agricultural zoning districts after the granting of a land use permit.

In addition to creation of an Industrial Hemp Cultivation Ordinance, the zoning text amendment involves modifying the uses requiring a land use permit for each of the agricultural zoning districts: General Agricultural (A-2); Heavy Agricultural (A-3); Agricultural Preserve (A-4); Exclusive Agricultural (A-20); Exclusive Agricultural (A-40); and Exclusive Agricultural (A-80).

- C. Appropriateness of Use: If the proposed zoning ordinance is approved, the County will be able to mitigate the potential impacts caused by the cultivation of industrial hemp, and provide the County with the proper authority to enforce the regulations imposed on industrial hemp cultivation through the permit process.

The proposed requirement that industrial hemp cultivation be permittable only in agricultural zoning districts is appropriate because hemp cultivation is an intensive agricultural activity with more potential impacts to neighbors than most other crops that can be appropriate within agricultural areas but would cause greater impacts if allowed in other zoning districts. The requirement of a minimum of a 5-acre lot ensures there will be sufficient space to viably accommodate this use.

The proposed zoning ordinance would limit cultivation of industrial hemp to areas within the boundaries of the East Contra Costa Irrigation District (ECCID), the Byron-Bethany Irrigation District (BBID), or the East Contra Costa County Groundwater Subbasin (ECCCGS). This limitation is appropriate because industrial hemp cultivation requires substantial irrigation water, and this water should come from sustainable, adequately monitored and managed sources. ECCID and BBID are the only two irrigation districts that operate in the County. The ECCCGS is the only ground water basin in the County that supports cultivation to a significant degree and that will be monitored pursuant to a Groundwater Sustainability Plan as required by the Sustainable Groundwater Management Act adopted by the state in 2014.

The proposed ordinance also focuses on the potential impacts of industrial hemp cultivation such as: light pollution, odor, and possible theft of hemp plants. The requirements that pertain to these potential impacts will reduce potential negative impact on neighboring properties when executed. The ordinance also has different requirements for indoor and outdoor cultivation. The requirement for outdoor cultivation to be at least 1-mile outside the Urban Limit Line, and to have greater setbacks from a boundary line that abuts a residential zoning district, again will reduce potential negative impact on neighboring properties. To ensure these requirements remain in effect, the County reserves the right to suspend or revoke a permit for industrial hemp cultivation if not properly following the conditions of approval of the land use permit, or any County, State, or Federal regulations, under the provisions of this ordinance.

The proposed zoning ordinance will be consistent with the applicable General Plan land use designations and zoning districts. Lastly, adopting an ordinance that

requires issuance of a land use permit would allow the County to impose conditions of approval in a manner that enhances public safety and deters potential nuisances as described.

- D. Delta: The area in which industrial hemp may be cultivated is located within the Primary and Secondary Zones of the Delta Protection Act with the Delta Protection Commission (DPC), and also within the jurisdiction of the Delta Stewardship Council's (DSC) Delta Plan. As such, issuance of a land use permit under this proposed zoning ordinance will include determining compatibility with the DSC Delta Plan.

VIII. CONCLUSION

Staff has determined that the proposed Zoning Text Amendment regulating the cultivation of industrial hemp is consistent with the County General Plan and all applicable State and Federal laws and regulations. Therefore, staff recommends the County Planning Commission adopt a motion recommending that the Board of Supervisors adopt the proposed Zoning Text Amendment.

Current Urgency Interim

Ordinance No. 2021-10

ORDINANCE NO. 2021-10

AN URGENCY INTERIM ORDINANCE EXTENDING A MORATORIUM ON
INDUSTRIAL HEMP CULTIVATION AND PROCESSING

The Contra Costa County Board of Supervisors ordains as follows:

Section 1. Purpose and Findings.

- A. The purpose of this urgency ordinance is to extend a temporary moratorium on industrial hemp cultivation and processing for commercial purposes while the County considers developing reasonable regulations to mitigate the impacts and regulate the location of the cultivation of industrial hemp, which is generally defined as the *Cannabis sativa L.* plant with a tetrahydrocannabinol (THC) concentration of 0.3% or less.
- B. In December 2018, H.R. 2, the Agriculture Improvement Act of 2018 (the 2018 Farm Bill), was signed into law, authorizing hemp cultivation more broadly than previously allowed by removing hemp from Schedule I of the federal Controlled Substances Act.
- C. The 2018 Farm Bill delegates to states and Indian tribes the authority to regulate and limit the production of hemp within their borders. It requires states to submit regulatory plans to the U.S. Department of Agriculture (USDA) for review and approval. The California Department of Food and Agriculture submitted a proposed state regulatory plan to the USDA for review and approval. California's proposed state regulatory plan is under review by the USDA.
- D. Under Food and Agricultural Code sections 81003 and 81004, before cultivation, a commercial grower or seed breeder of industrial hemp must register with the county agricultural commissioner. In 2020, the Contra Costa County Agricultural Commissioner registered five commercial industrial hemp growers in the unincorporated areas of Contra Costa County. A registration is valid for one year from the date of issuance.
- E. Under state law, industrial hemp is not subject to the same regulatory provisions as cannabis. Health and Safety Code section 11018.5(b) exempts industrial hemp from regulation under the Medicinal and Adult-Use Cannabis Regulation and Safety Act (Business and Professions Code, § 26000 et seq.). Accordingly, the County's cannabis regulation ordinance, Chapter 88-28 of the County Ordinance Code, does not regulate the cultivation of industrial hemp within the unincorporated areas of Contra Costa County.
- F. The methods for distinguishing industrial hemp (the non-intoxicating *Cannabis sativa L.* plant) from cannabis (the psychotropic version of the plant) are evolving. Industrial hemp and cannabis are derivatives of the same plant, *Cannabis sativa L.* Under state law, industrial hemp is distinguished from cannabis by the amount of tetrahydrocannabinol (THC), the psychoactive chemical in the plant. If the plant has a concentration of 0.3%

THC or less, it is categorized as industrial hemp. Industrial hemp and cannabis thus may be difficult to distinguish without a chemical analysis for the presence of THC content. THC levels are difficult to test reliably until the plant is close to maturity and ready for harvest. Testing is time sensitive, and it is difficult to perform and obtain results in a timely manner. The similarities in the two types of plants present challenges for law enforcement and code enforcement when determining whether a cultivation site complies with applicable law, including Ordinance Code chapter 88-28, or has paid required taxes.

- G. Industrial hemp can serve as a host to corn earworms and other insects. The pesticides that have been approved for industrial hemp may not provide the range of control needed to prevent movement of these pests from industrial hemp to nearby crops.
- H. Without local regulation, the cultivation of industrial hemp and cannabis may create incompatibility issues due to cross-pollination if male industrial hemp plants are grown or allowed to be grown close to cannabis.
- I. The cultivation of industrial hemp without local regulations may interfere with licensed and permitted cannabis cultivation operations under Ordinance Code chapter 88-28, particularly with respect to pollen drift and pest contamination.
- J. On November 17, 2020, the Board of Supervisors adopted Ordinance No. 2020-28, an urgency interim ordinance that established a moratorium on the cultivation and processing of industrial hemp. On December 15, 2020, the Board of Supervisors adopted Ordinance No. 2020-30, an urgency interim ordinance that continued a moratorium on the cultivation and processing of industrial hemp.
- K. An extended moratorium on the cultivation and processing of industrial hemp is urgent and necessary to give the County time to continue studying and determining how best to regulate the cultivation of industrial hemp and consider appropriate zoning districts and regulatory standards, including location requirements, security standards, water supply requirements, and size limits.
- L. Section 3 of this ordinance authorizes existing industrial hemp growers that meet specified criteria to continue cultivating industrial hemp at their existing sites. Allowing cultivation at existing sites under the location criteria and restrictions specified in Section 3 is appropriate because this restricted cultivation will result in minimal odor and lighting impacts on residential properties.

Section 2. Definitions. For purposes of this ordinance, the following terms have the following meanings:

- (a) “Established agricultural research institution” has the meaning set forth in Food and Agricultural Code section 81000(a)(4).

- (b) “Industrial hemp” has the meaning set forth in Food and Agricultural Code section 81000(a)(6).
- (c) “Nursery stock” has the meaning set forth in Food and Agricultural Code section 5005.

Section 3. Cultivation and Processing of Industrial Hemp Prohibited. The moratorium established by Ordinance No. 2020-28 and continued by Ordinance No. 2020-30 is extended through March 9, 2022.

- (a) During the term of this interim ordinance, including any extensions:
 - (1) No person or entity, including any established agricultural research institution, may grow or process industrial hemp for any purpose within the unincorporated area of Contra Costa County.
 - (2) No County permit, registration, or approval of any type shall be issued for industrial hemp cultivation or processing.
 - (3) No County building permit or approval of any type shall be issued for a greenhouse, hoophouse, or any other structure, used or intended to be used for industrial hemp cultivation or processing.
- (b) During the term of this interim ordinance, including any extensions:
 - (1) The Contra Costa County Agricultural Commissioner will not issue a registration to any applicant pursuant to Food and Agricultural Code sections 81003 and 81004, or otherwise.
 - (2) The Contra Costa County Agricultural Commissioner will not renew the registration of any applicant pursuant to Food and Agricultural Code sections 81003 and 81004, or otherwise.
- (c) Notwithstanding subdivisions (a) and (b) of this section, growers of industrial hemp that had, as of the adoption date of Ordinance No. 2020-28, an active registration issued by the County Agricultural Commissioner may grow industrial hemp consistent with, and subject to, the terms set forth in that registration, including, but not limited to, the location and size of the registered grow. Cultivation allowed under this Section 3(c) is allowed only for the term of that registration. The registration is not subject to renewal except as otherwise provided in Section 4 of this ordinance.
- (d) Cultivation or processing of industrial hemp in violation of this interim ordinance is a public nuisance. This ordinance may be enforced by any remedy allowed under the Contra Costa County Ordinance Code and any other remedy allowed by law.

Section 4. Exemptions.

- (a) The prohibitions set forth in Section 3 do not apply to a grower of industrial hemp that has an active registration issued by the County Agricultural Commissioner as long as the grower meets either of the following criteria:
 - (1) The grower’s existing cultivation site is located more than one mile outside the Urban Limit Line.
 - (2) The grower’s existing cultivation site is located within an existing, legally established greenhouse. A hoop house is not a greenhouse.

- (b) A grower that meets the criteria specified in subsection (a) of this section may continue cultivation of industrial hemp under this interim ordinance if the grower meets the following requirements and complies with the following restrictions:
 - (1) The grower must obtain a new registration for a one-year term from the County Agricultural Commissioner pursuant to Food and Agricultural Code sections 81003 and 81004.
 - (2) The cultivation of nursery stock is prohibited.
 - (3) The movement of plants from the site at any time prior to harvest is prohibited.
 - (4) Artificial lighting at an industrial hemp cultivation site is prohibited.
 - (5) The grower must comply with all provisions of state and federal law, and associated regulations, that apply to industrial hemp cultivation, including requirements for cultivation, sampling, laboratory testing, harvesting, and crop destruction.

Section 5. Reports. In accordance with subdivision (d) of Government Code section 65858, ten days before this ordinance expires and any extension of it, the Department of Conservation and Development shall file with the Clerk of the Board of Supervisors a written report describing the measures taken to alleviate the conditions that led to the adoption of this urgency interim ordinance.

Section 6. Severability. If any provision or clause of this ordinance or the application thereof to any person or circumstances is held to be unconstitutional or to be otherwise invalid by any court of competent jurisdiction, such invalidity shall not affect other ordinance provisions or clauses or applications thereof that can be implemented without the invalid provision or clause or application, and to this end the provisions and clauses are declared to be severable.

Section 7. Declaration of Urgency. This ordinance is hereby declared to be an urgency ordinance necessary for the immediate preservation of the public safety, health, and welfare of the County. The facts constituting the urgency of this interim ordinance’s adoption are set forth in Section 1.

Section 8. Effective Period. This ordinance becomes effective immediately upon passage by four-fifths vote of the Board of Supervisors and shall continue in effect through March 9, 2022, pursuant to Government Code section 65858.

Section 9. Publication. Within 15 days after passage, this ordinance shall be published once with the names of the supervisors voting for and against it in the East Bay Times, a newspaper published in this County.

Industrial Hemp Cultivation Ordinance

COUNTY FILE #CDZT21-00001

Presented to Contra Costa County Planning Commission (CPC)

By the Department of Conservation and Development:

Today's Presentation

- Background on industrial hemp cultivation for California and in Contra Costa County
- Overview of Proposed Ordinance
- Recommended Commission Action

Background

- The Agriculture Improvement Act of 2018 (the 2018 Farm Bill), was signed into law, removing hemp from Schedule I of the federal Controlled Substances Act.
- Industrial hemp and cannabis are derivatives of the same plant, but industrial hemp is distinguished from cannabis if the plant has a concentration of 0.3% tetrahydrocannabinol (THC) or less. As such, industrial hemp and cannabis are difficult to distinguish without a chemical analysis for the presence of THC content.
- On March 9, 2021, the Board of Supervisors adopted Ordinance No. 2021-10, which extended the in-place temporary moratorium on industrial hemp cultivation through September 30, 2021, to allow county staff time to continue developing and to finalize reasonable industrial hemp regulations.
- Addition to this zoning ordinance, the County Agricultural Department has also prepared for adoption an ordinance amending Title 5 of the County Ordinance Code that would require a person to obtain a permit from the Contra Costa County Agricultural Commissioner.

Ordinance Overview

Standards Applicable to Industrial Hemp Cultivation

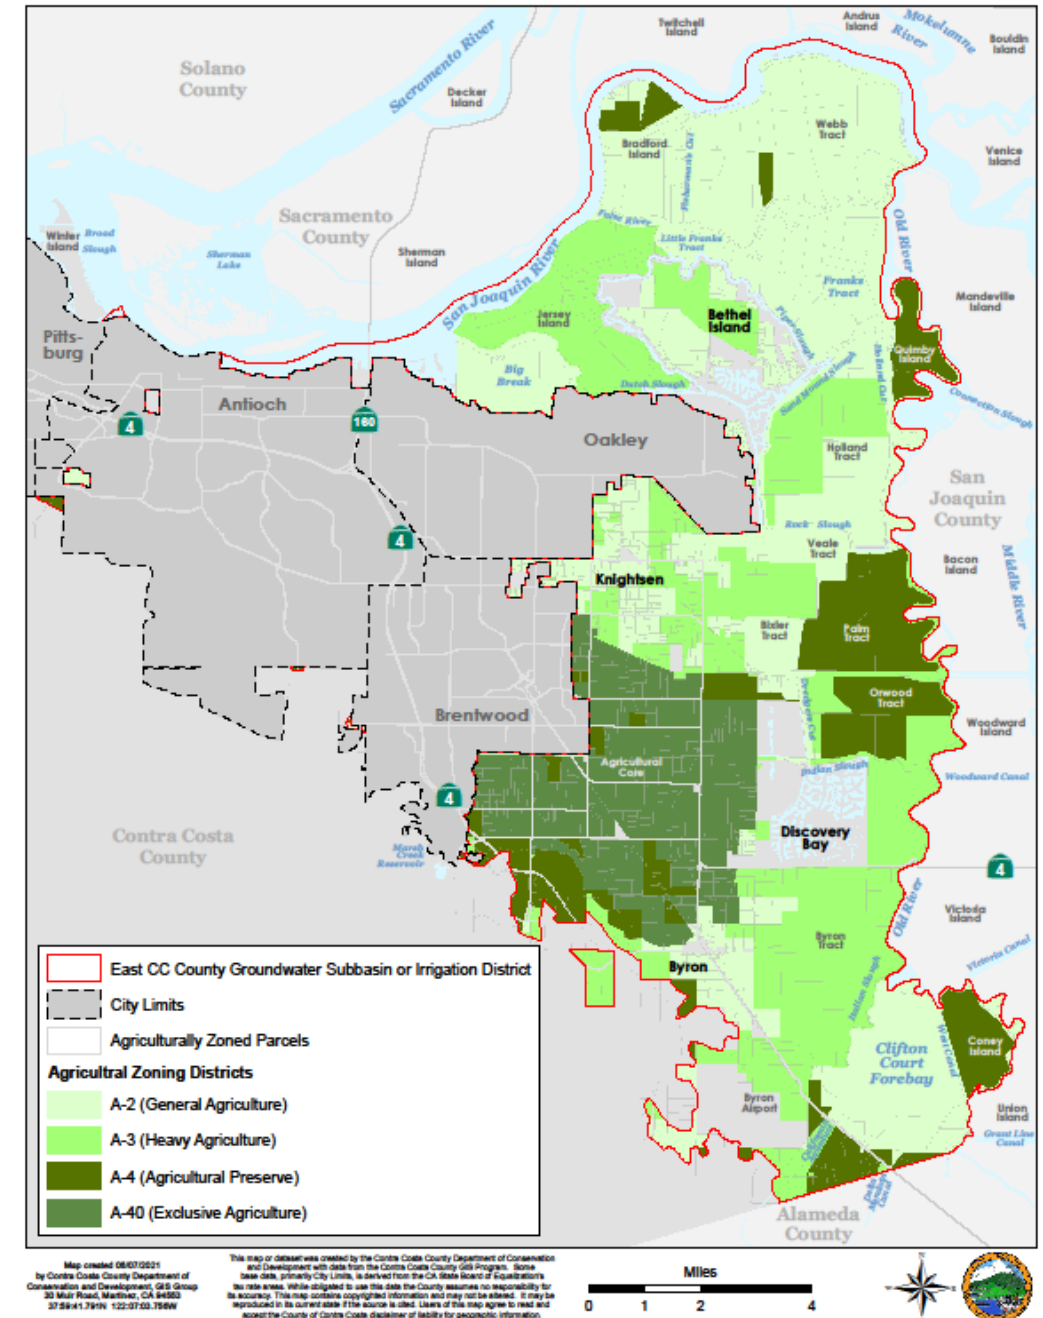

Industrial hemp may be cultivated on any lot in an agricultural district (A-_) located within the boundaries of any of the following:

- The East Contra Costa Irrigation District (ECCID)
- The Byron-Bethany Irrigation District (BBID)
- The East CCC Groundwater Subbasin (ECCCGS)

Industrial hemp cultivation requires substantial irrigation water.

ECCID and BBID are the only two irrigation districts that operate in the County.

The ECCCGS is the only ground water basin in the County that supports cultivation that will be monitored pursuant to a Groundwater Sustainability Plan as required by the Sustainable Groundwater Management Act.

Standards Applicable to Industrial Hemp Cultivation

- Industrial hemp may not be cultivated outdoors or in a hoop structure at any property within, or within one mile beyond, the urban limit line.
- The minimum lot size is 5 acres.
- Setback Requirements:
 - Indoor Cultivation: The structure(s) must comply with all setbacks that apply to the zoning district in which the property is located.
 - Outdoor Cultivation: The cultivation area must be setback 25-feet from any boundary line, and 250-feet from any boundary line that abuts a residential land use district.

Standards Applicable to Industrial Hemp Cultivation

A land use permit issued under this ordinance will include conditions of approval to mitigate the potential impacts that may be a product of industrial hemp cultivation:

- Security: To mitigate possible theft of industrial hemp plants.
- Lighting: To mitigate potential lighting pollution visible from neighboring properties.
- Odor: To mitigate strong odors common to the industrial hemp plant.
- Noise: Generators may only be used for emergencies to mitigate potential noise impacts.

Testing, and tracking of cultivation, transport and destruction of industrial hemp plants, will be conducted by the County Agricultural Department under the provisions of the Industrial Hemp Permits and Cultivation Ordinance to be added to Chapter 512-4 of the County Ordinance Code.

Land Use Permit Issuance and Renewal

- A land use permit issued under this zoning ordinance has an initial term of five years.
- An issued land use permit is required to obtain a permit issued by the County Agricultural Commissioner pursuant to Chapter 512-4 once adopted.
- Nothing in this zoning ordinance will eliminate the requirements and/or permits required by any other County or by State and Federal agencies.
- An issued land use permit may be renewed administratively and can last until the permit is revoked following the initial five-year term.
- An issued land use permit may be modified, suspended, or revoked if a permittee has not complied with the requirements of this ordinance, any other applicable requirements of County, State or Federal laws or regulations.
- A compliance review may be performed at any time during the term of the issued land use permit to determine compliancy with the permit's terms and conditions, and all applicable laws and regulations.

Staff Recommendation

Staff Recommendation to CPC

ADOPT a motion recommending that the Board of Supervisors take the following actions:

1. FIND, for the purposes of compliance with the California Environmental Quality Act (CEQA) and State and County CEQA Guidelines, that the proposed zoning text amendment establishing an industrial hemp ordinance will not have a significant effect on the environment and therefore is exempt from CEQA per Section 15061(b)(3);
2. FIND that the proposed zoning text amendment does not conflict with the County 2005-2020 General Plan;
3. ADOPT the zoning ordinance regulating industrial hemp cultivation and processing; and
4. DIRECT staff to file a Notice of Exemption with the County Clerk.

Industrial Hemp Cultivation Ordinances

CONTRA COSTA COUNTY BOARD OF SUPERVISORS

JULY 27, 2021

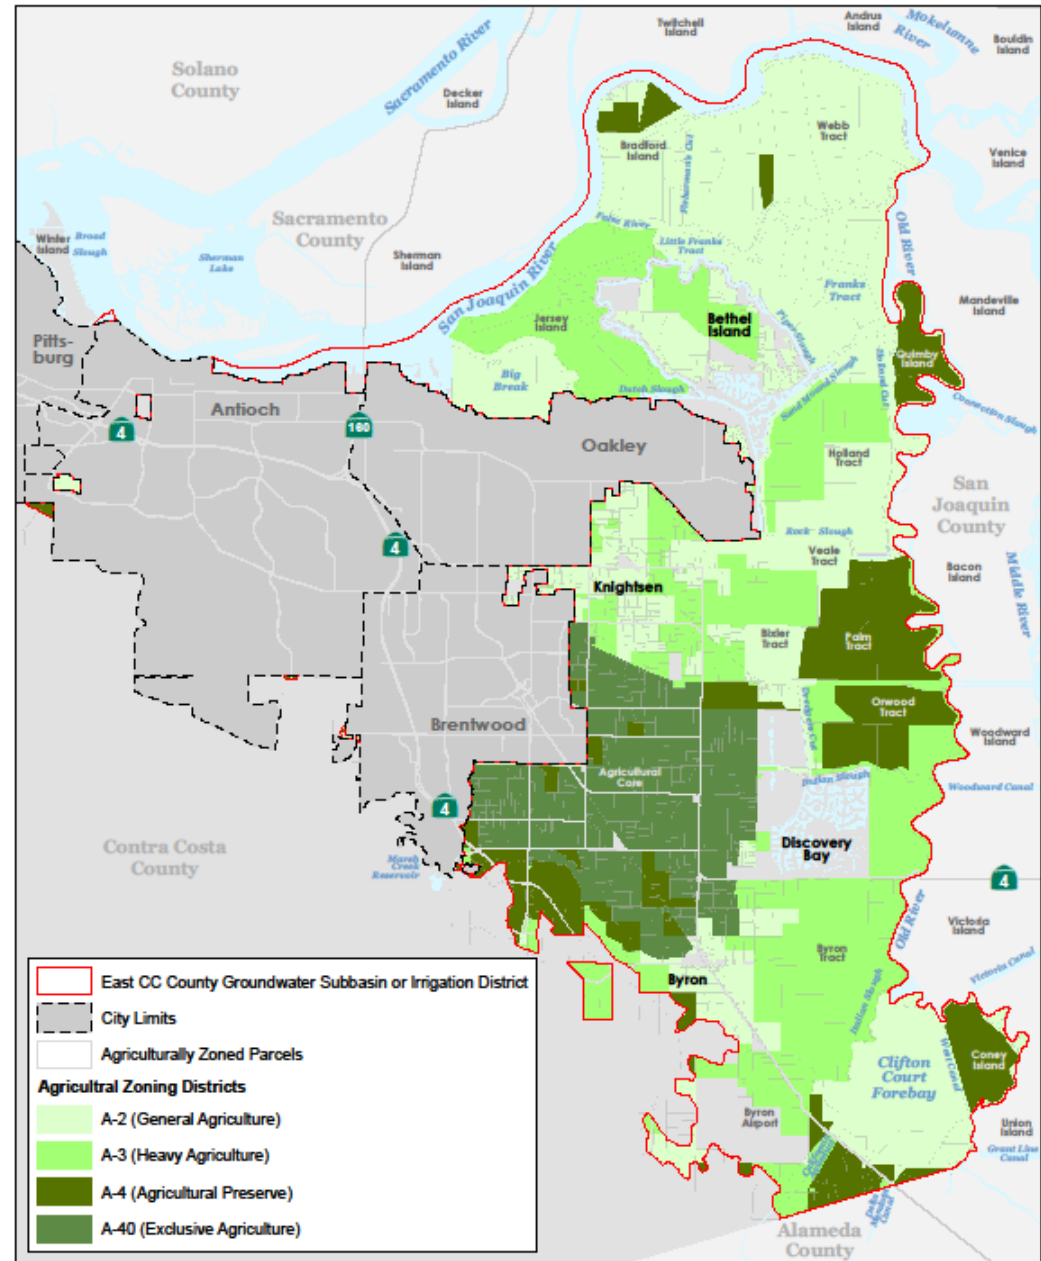

Background

- The Agriculture Improvement Act of 2018 (the 2018 Farm Bill), was signed into law, removing hemp from Schedule I of the federal Controlled Substances Act.
- Industrial hemp and cannabis are derivatives of the same plant, but industrial hemp is distinguished from cannabis if the plant has a concentration of 0.3% tetrahydrocannabinol (THC) or less. However, the concentration of THC in a plant increases as the plant matures, so accurate testing can only be performed when the plant is close to harvest.
- On November 17, 2020, the Board of Supervisors adopted an urgency interim ordinance (Ordinance No. 2020-28) imposing a moratorium on the cultivation of industrial hemp. The urgency ordinance was extended twice by the Board and is set to expire on September 30, 2021.
- CEQA. Staff has determined that the proposed ordinances are exempt from the provisions of CEQA per section 15062 (b)(3) since it can be seen with certainty that adoption of the ordinance will not result in any environmental impacts and recommends that the Board adopt the same.
- In conjunction with adoption of the Industrial Hemp Cultivation Zoning Ordinance the County Agricultural Department has also prepared for adoption today an ordinance amending Title 5 of the County Ordinance Code establishing a permitting process and standards for industrial hemp cultivators. The agricultural ordinance will require cultivators to obtain a permit from the Contra Costa County Agricultural Commissioner.

Industrial Hemp Zoning Ordinance Overview

- Land Use Permit Required
- Agricultural Zoning Districts only (A-)
- 5-Acre Minimum Lot Size
- Outdoor cultivation Prohibited Inside Urban Limit Line (ULL) or within 1-mile of ULL
- Allowed Only within the boundaries of the following:
 - East Contra Costa Irrigation District (ECCID)
 - Byron-Bethany Irrigation District (BBID)
 - East CCC Groundwater Subbasin (ECCCGS)

Additional Ordinance Standards

- Setback Requirements:

 - For outdoor cultivation, a 25-foot setback from any property line is required unless the property abuts a residential land use district, where a 250-foot setback is required.
- Initial 5-Year Permit Term (permit must be renewed after first 5-years. Renewed permit will be valid until revoked or discontinued).
- Operating Plan Required and Shall Include:
 - Odor Control Plan
 - Security Plan
 - Details on storage, handling, harvesting, etc.
- The ordinance also places limits on the use of generators and lighting.

County Planning Commission (CPC) Hearing

- Draft Zoning Ordinance heard by CPC on June 23, 2021
- No public Comments received
- No changes made to draft ordinance
- Planning Commission voted unanimously (7-0) to recommend that the Board of Supervisors adopt the ordinance

Industrial Hemp Agriculture Ordinance Overview

- Permit from the Agricultural Commissioner
 - Must be renewed annually
- Consent to inspections of premises, records, and testing of plants
- Only Female plants can be grown outdoors
- Proper signage to indicate the plants grown are Industrial Hemp
- No sale of Nursery Stock is allowed
- Notification to the Agricultural Commissioner of removal of any plants before harvest
- Theft/Vandalism must be reported to the sheriff and the Agricultural Commissioner

Conclusion

- The proposed zoning ordinance regulating the cultivation of industrial hemp, in conjunction with the proposed agricultural ordinance, will ensure that cultivation of industrial hemp in the unincorporated areas of the County will be conducted in a safe, orderly, and responsible manner. Adoption of both ordinances is recommended.

Contra
Costa
County

To: Board of Supervisors
From: Anna Roth, Health Services Director
Date: July 27, 2021

Subject: Accept Report Regarding Commercial Cannabis Health Ordinance

RECOMMENDATION(S):

ACCEPT staff report on the County’s Commercial Cannabis Health Permit Ordinance and the current prohibition on the sale of electronic smoking devices and flavored cartridges (e-juices); and PROVIDE direction to staff.

FISCAL IMPACT:

The impact on the County General Fund is anticipated to be minimal given the adoption of regulatory and inspection fees to off-set the true cost of implementation and enforcement of local health regulations.

Contra Costa Health Services anticipates some cost related to addressing and treating physical and behavioral health needs as the use of cannabis becomes more prevalent with subsequent increase in related injury, health impacts and substance misuse.

Should the County direct staff to seek policy alignment across City jurisdictions with the County Ordinance there would be cost associated with staff time and related efforts.

BACKGROUND:

On May 18, 2021, Contra Costa Health Services and the Department of Conservation and Development provided a report to the Board of Supervisors regarding the emerging cannabis industry and the current permitting of commercial cannabis activities in Contra Costa County. The Health Services update included information specific to the current prohibition on the sale and delivery of electronic smoking devices and related cannabis products under the County's Commercial Cannabis Health Permit Ordinance (Chapter 413-3 of the County Ordinance Code) and similar prohibitions on the sale of electronic smoking devices and related tobacco products under the County's Secondhand Smoke and Tobacco Product Control Ordinance (Division 445 of the County Ordinance Code).

During the May 18, 2021 report, the Board of Supervisors asked for additional information on several issues, including the status of cannabis product safety review conducted by the State, and directed staff to return with an update.

The attached staff report responds to the questions asked by the Board and provides updated information. Additionally, sections V. and VI. of the staff report provide the following policy options and considerations based on the questions raised by Board members at the May 18, 2021 meeting.

V. Policy options for the Board related to the prohibition on the sale and delivery of cannabis electronic smoking devices, e-liquids, and related flavored products

- Option 1 (Public Health staff recommended option)

Maintain the current prohibition on the sale and delivery of cannabis electronic smoking devices and cannabis e-liquids.

- Currently, the sale or delivery of any e-liquid that contains tetrahydrocannabinol or any other cannabinoid, or any electronic smoking device that can be used to deliver tetrahydrocannabinol or any other cannabinoid in aerosolized or vaporized form, is prohibited. The sale or delivery of flavored cannabis products for which the primary use is human inhalation by smoking or vaping (i.e., non-edibles) is also prohibited.

- Option 2

Direct staff to prepare an ordinance that allows the sale and delivery of all cannabis electronic smoking devices and cannabis e-liquids, except flavored cannabis vaping products.

- This option would maintain the prohibition on the sale or delivery of flavored cannabis products for which the primary use is human inhalation by smoking or vaping (i.e., non-edibles), limiting these products to those derived entirely from the raw cannabis plant and containing no added flavors.
- Maintaining the prohibition on flavored cannabis vaping products is consistent with efforts to reduce impacts to, and incidences of addiction in, children.

- Option 3

Direct staff to prepare an ordinance that allows the sale and delivery of all cannabis electronic smoking devices and cannabis e-liquids, including flavored cannabis vaping products.

- Option 4

Direct staff to prepare an ordinance that allows the sale and delivery of medicinal cannabis electronic smoking devices and cannabis e-liquids but prohibits the sale and delivery of adult-use recreational cannabis vaping products.

- The amended ordinance would need to distinguish between medicinal and adult-use recreational cannabis products, which the current ordinance does not.

VI. Additional Considerations

Direct staff to further investigate and report back on state and national regulations and product manufacturing standards for electronic smoking devices and e-liquids.

Direct staff to seek additional resources that would: 1) allow quarterly inspections of retail cannabis establishments in the unincorporated county to identify product that is not consistent with state or local policy, seeking to remove such product from the retail environment. 2) provide adequate staffing and expertise to track and advise on health-related policy and programmatic activity related to the cannabis and to work with City jurisdictions on seeking to create an alignment of local policy approach across those jurisdictions.

Consider requesting that the Department of Cannabis Control develop a more comprehensive premarket review process before product is approved for the consumer market.

CONSEQUENCE OF NEGATIVE ACTION:

Failure to accept this report may delay providing the information requested by the Board and subsequently hinder ongoing considerations related to amendments to Cannabis Health Ordinance intended to help protect youth from the influences of the commercial cannabis industry in the unincorporated areas of the County.

CHILDREN'S IMPACT STATEMENT:

The use of cannabis by youth has been documented to impact both cognitive and behavioral development. The Commercial Cannabis Health Permit Ordinance is, in part, intended to help provide additional protections for youth and sensitive populations. The Ordinance supports the following Board of Supervisors' community outcomes: "Children Ready For and Succeeding in School;" "Families that are Safe, Stable, and Nurturing;" and "Communities that are Safe and Provide a High Quality of Life for Children and Families.", primarily in that the Ordinance reflects actions to prohibit products and flavors that are appealing to youth and recommends specific warnings.

Re: Staff Report on considerations related to Commercial Cannabis Health Permit Ordinance

Date: July 27, 2021

On May 18, 2021, Contra Costa Health Services and the Department of Conservation and Development provided a report to the Board of Supervisors regarding the emerging cannabis industry and the current permitting of commercial cannabis activities in Contra Costa County. The Health Services update included information specific to the current prohibition on the sale and delivery of electronic smoking devices and related cannabis products under the County's Commercial Cannabis Health Permit Ordinance (Chapter 413-3 of the County Ordinance Code) and similar prohibitions on the sale of electronic smoking devices and related tobacco products under the County's Secondhand Smoke and Tobacco Product Control Ordinance (Division 445 of the County Ordinance Code).

During the report, the Board of Supervisors asked for additional information on several issues, including the status of cannabis product safety review conducted by the State, and directed staff to return with an update.

This report seeks to provide responses to the questions asked by the Board and provide updated information.

I. Background

In June 2017, the Board of Supervisors adopted Ordinance Nos. 2017-01 and 2017-10 to address a dramatic increase in the use of vaping products by youth attracted to flavored tobacco products. Those ordinances were adopted to reduce the accessibility and exposure of tobacco products to minors and the public generally by: prohibiting the sale of flavored tobacco products and menthol cigarettes within 1,000 feet of a public or private school, playground, park, or library; establishing restrictions on the retail sales of emerging tobacco products, such as electronic smoking devices; prohibiting tobacco retailing in pharmacies; and establishing a cap on the number of tobacco retailer's licenses issued by the County.

On May 8, 2018, the Board of Supervisors accepted the Contra Costa Health Services' staff report, which included recommendations for a health ordinance to regulate commercial activity associated with recreational adult use cannabis. The recommendations focused on protecting youth from exposure to and use of an emerging line of products, such as electronic smoking devices (vapes) as well as the flavored products associated with the use of these devices. The Board directed staff to prepare a cannabis health ordinance for the Board's consideration that, among other health protections, would prohibit the sale or delivery of flavored cannabis products for which the primary use is inhalation either by smoke or vapor from an electronic smoking device.

On August 7, 2018, the Board adopted Ordinance No. 2018-23 to require all persons engaged in commercial cannabis activities or engaged in cannabis deliveries to any location in the unincorporated area of the county to obtain a county health permit in addition to all other licenses and permits required by the County and the State. Consistent with the County's policy to protect youths from the impacts of tobacco, the ordinance established permit standards that prohibit the sale or delivery of flavored cannabis products for which the primary use is inhalation either by smoke or vapor from an electronic smoking device.

On November 19, 2019, the Board adopted Ordinance No. 2019-34 to address ongoing health concerns related to tobacco and cannabis e-liquids and electronic smoking devices. The ordinance prohibits (1) the sale of any e-liquid or electronic smoking device that is required to obtain, but has not yet obtained, a premarket review order from the U.S. Food and Drug Administration pursuant to the federal Family Smoking Prevention and Tobacco Control Act, and (2) the sale or delivery of any e-liquid that contains tetrahydrocannabinol or any other cannabinoid, or any electronic smoking device that can be used to deliver tetrahydrocannabinol or any other cannabinoid in aerosolized or vaporized form. The ordinance also aligned the County's tobacco control policy with its cannabis control policy by prohibiting the sale of flavored tobacco products and menthol cigarettes.

II. General Statement on Health

Contra Costa Health Services acknowledges that the negative impacts associated with the use of tobacco is an issue of health equity, and in response we have developed and implemented protective policies to address this. While many segments of the community have been targeted by the tobacco industry (ie., youth/young adults, women, LGBTQ+, etc.), none have experienced the aggressive marketing of tobacco products, in particularly the highly addictive menthol flavored tobacco products, more than the African American community. Over 84% African American adults and 94% of Black youth who smoke are using menthol products (Giovino, 2015). These striking statistics arise from the predatory marketing of these products in the Black Community since the 1960's where there are more advertisements, more lucrative promotions, and cheaper prices for menthol cigarettes compared to other communities (Henriksen et al., 2011; Seidenberg et al., 2010). According to the American Cancer Society's "Cancer Facts and Figures for African Americans 2013-2012, smoking-related illnesses kill more African Americans than AIDS, car crashes, murders and drug and alcohol abuse combined. In an effort to reduce disease and preventable deaths associated with combustible tobacco product use, Food and Drug Administration banned menthol as a characterize flavor in cigarettes and ban all characterizing flavors (including menthol) in cigars in April 2021.

The dangers and harm to human health from tobacco smoking are well established and strongly parallel emerging research related the inhalation/smoking of cannabis products (Bryanmiller et al., 2020).

Inhalation by use of electronic smoking devices adds an additional risk due to how the heat of vaporization can impact the chemical composition of the raw product (cannabis oils) and their associated flavors (terpenes) and the leaching of a variety of known toxins (including heavy metals) into the vaporized smoke, from the constituents in the cartridge itself. This danger is closely associated with electronic smoking devices that are prone to overheating.

By no means, does the Contra Costa Health Department condone the use of electronic smoking devices as a safe alternative to the use of cannabis by traditional smoking methods. Simply put, neither form of use is "safe" and the use of these products may well lead to a number of acute and long term impacts to cardiovascular and lung health that closely mirror the use of similar tobacco products. According to an article published January 2020 in the *Journal of the American College of Cardiology*, while the psychogenic substances in tobacco and cannabis differ, when smoked many cardiotoxic chemicals are similarly produced. Cannabis smoking can lead to increases in heart rate and blood pressure; smoking cannabis use has been linked as a trigger to myocardial infarction; and cerebrovascular events such as **ischemic strokes** have been

reported in association with cannabis use (JAM Coll Cardiol. 2020 Jan, 75 (3) 320-332). An added, more time sensitive and insidious concern is its well documented impact on mental health, substance use disorders and related psycho-social well-being (Hammond, et al, International Review of Psychiatry 2020, Vol 32, No. 3, 221-234)

After years of seeing positive trends in the reduction in youth tobacco use, the introduction of electronic smoking devices dramatically changed this trajectory. At the National level, the 2019 Monitoring the Future Survey (MTFS) reported a significant increase in Nicotine Vaping and THC vaping and indicated that **THC vaping among 12th graders is the second largest increase for any substance within the 45 years of the MTFS.**

III. Points of Clarification

1. **Status of Cannabis product safety review by the State :**

Lesson from Tobacco Control:

In recognition of the growing concerns related to the health and product safety of electronic smoking devices and related e-juices, the Federal Food and Drug Administration (FDA) put in place a pre-market product safety review process for Tobacco Products. By both Federal law and local County Ordinance, no related products can be sold until those products have been approved by the FDA for the consumer market. As of the drafting of this report, no electronic smoking device or related products have yet been approved.

At the State Level, a number of protections are in place related to the sale of flavored tobacco products and delivery (SB 793 and SB 39). SB 793 assigned by the Governor in August of 2020, prohibits the retail sale of all flavored tobacco products – **including flavored electronic cigarettes** – to address an unprecedented surge in youth nicotine consumption. Additionally, vaping devices are considered tobacco products under California law, whether used to consume nicotine, cannabis, or other substances, yet the sale of flavored e-juices (cartridges) continues in the cannabis market.

Similar legislative protections are not well established for the emerging cannabis market at either the State or Federal Level and why it is recommended to take note of lessons learned from decades of tobacco control. However the **Province of Canada and most recently Health Canada** (the Canadian counterpart to the Centers for Disease Control and Prevention (CDC) in the United States) has proposed the following: ,

- **Regulatory Efforts to address Flavors in Cannabis Products and their Appeal to Youth:**
 - In June of 2021 Health Canada proposed national regulations to address the rapid increase in youth use of cannabis. The proposed regulation that would significantly restrict flavors that can be added to all the types of extracts (concentrates) for inhalation: <https://gazette.gc.ca/rp-pr/p1/2021/2021-06-19/html/reg4-eng.html>
 - These regulatory amendments would align with those already in place in the Province of Quebec, since October of 2019. There is no such regulation at the US Federal Level, leaving it to States and local jurisdictions. A summary of proposed Canadian Regulation is as follows:
 - **Description:** The proposed amendments to the *Cannabis Regulations* would restrict the production, sale, promotion, packaging, or labelling of inhaled cannabis extracts from having a flavour, other than the flavour of cannabis. The proposed amendments would apply equally to inhaled cannabis extracts sold for medical and non-medical purposes.
 - **Rationale:** Restricting flavours in inhaled cannabis extracts is expected to make these products less appealing to youth, which would help address the rapid rise in youth vaping. This proposal is consistent with the objective of the *Cannabis Act* of protecting young persons and others from inducements to use cannabis and would align with proposed amendments to the *Tobacco and Vaping Products Act* (TVPA) and the proposed regulations for vaping products.

As was noted in the Board report May 18, 2021, the inter-related influence (Triangulum) between tobacco, cannabis, and electronic smoking devices has served to increase the use and co-use of cannabis and tobacco products. As the use of e-cigarettes has increased in popularity, so has the use of cannabis through vapingⁱ. California youth now use e-cigarettes more than cigarettes (10.9 percent vs. 2.0 percent in 2017-2018), with **cannabis use higher than overall tobacco use** (14.7 percent vs. 12.7 percent)ⁱⁱ

Additionally, The Centers for Disease Control and Prevention reported that from 2017 to 2018 youth use of any tobacco product shot up 38.3 percent among high school students alone. Researchers said the dramatic increases they found wiped out what had been a downward trend in overall youth tobacco product use. <https://www.cdc.gov/vitalsigns/youth-tobacco-use/>

Application to Cannabis Control:

In consideration of the current pre-market process for review of tobacco products similar interest has been expressed for review of electronic smoking devices and their associated cartridges (e-juices) for the consumer cannabis market. Given that cannabis is not yet fully recognized as a legal product by the Federal Government, no such process exists at the Federal level, leaving such review to the appropriate State agency.

Product Review Process at the California Department of Cannabis Control.

Note that on July 1, 2021 the Bureau of Cannabis Control (BCC) and the Manufactured Cannabis Safety Branch at the California Department of Public Health (CDPH) and a related Division in the Department of Agriculture have merged under a common Departmental Structure:

Testing of Product Constituency

All batches of cannabis products, including vape cartridges are tested prior to sale for cannabinoid content, residual pesticides, residual solvents and processing chemicals, microbial impurities, heavy metals, mycotoxins, and foreign materials. It is worthy to note that manufactured cannabis products are tested after they are packaged and labeled. www.cdph.ca.gov/mcsb, www.cannabis.ca.gov

- **Youth Appealing Products and Flavors related to e-juices (cartridges)** used in electronic smoking devices:
 - **State law** prohibits the sale of products that are overtly appealing to youth, but the process of enforcement and verification is still evolving.
 - **Pre-market Review:** As part of licensing process, manufactures of electronic smoking devices and cartridges must list the products they intend to convey to the retail market as part of their application process. However, **these products are NOT subject to a pre-market review** for their packaging, labeling or ingredients (such as flavors). This review is done after the product is on the market during the annual inspection process noted below.
 - **After-market review.** During the annual retail inspection conducted by the Department of Cannabis Control, product found to be packaged and labeled in such a manner to be overtly appealing to youth can be pulled from the market and banned from distribution and sale.
 - **Complaint Based Compliance:** The Department of Cannabis Control relies heavily on complaints associated with the manufacture and sale product that may be appealing to youth. Often complaints come from other manufactures, a form of industry self-monitoring. An on-line complaint form is the route most commonly used.

Flavors:

- **Terpenes** are a naturally occurring molecule in cannabis that are associated with both smell and taste (flavor). Terpenes are common in many plants. For example, it is the terpenes (pinene) in the resin of Christmas trees that give them their distinctive pine smell. The terpenes in cannabis including those that smell and taste of either lemon or mint. Hence, banning all flavors in vaping associated cannabis

products is challenging and the Department of Cannabis Control continues to evolve in finding a balance that is a reasonable reflection of the smells and flavors associated with naturally occurring terpenes.

- **Additive flavors and smell:** For cannabis, current State law does not prohibit the addition of flavors and smell to e-juices (cartridges) used in electronic smoking devices, as long as not packaged and marketed in such a way as to be overtly appealing to youth. Staff are not aware of legislative protections, such as SB 793, which ban flavors in tobacco products, that apply to the sale of cannabis products.
- **Electronic (Vaping) Smoking Devices & Dangers of Overheating:**
 - Overheating of the cartridges has been associated with introducing toxic metals into the liquids used in vaping devices. This was highlighted in early 2019 when “lead testing” was put into effect for cannabis vaping products in California. It was discovered that vaping devices that used metal filaments were prone to leaching lead into the oils (e-juices) in the cartridges when overheated. Subsequently, many of these devices were pulled from the market. Some manufacturers have converted to using ceramic filaments in an effort to reduce the dangers associated with overheating.
 - A particularly challenging aspect to overheating continues to be associated with the batteries used in these devices. Cheaper batteries, often manufactured in China, have proven to be a troubling aspect in the current regulatory process, as it is the contents in the vape cartridge (cannabis product), not the electronic device, the cartridge as a container, or the battery itself that is subject to regulation by the Department of Cannabis Control.

- **Flavors and Overheating:**

As one of the primary purposes of this report is to examine vaping it is critical to understand how both natural (terpenes) and added flavors are impacted by heating and to emphasize that what may be deemed safe, even by the Food and Drug Administration, for ingestible food, can by no means be extrapolated to the same constituents when they are heated, aerosolized and inhaled. The following two points are emphasized by colleagues at the Public Health Institute (PHI), under the leadership of Dr. Lynn Silver, Senior Advisor (PHI), Adjunct Professor at UCSF and former Health Officer.

- Terpenes are compounds that are naturally present in cannabis and other plants. There are a wide variety, and many contribute to aromas including limonene, pinene etc. But the fact that they are of plant origin and in some cases may be safe for eating does not mean they are safe for inhalation whether by burning or vaporizing. Some have already been found to be toxic for inhalation such as pinene.
 - Additionally, **inhalation exposure** can have different effects from oral exposure because: 1) The respiratory tract is more sensitive than the gastrointestinal tract, and 2) After oral ingestion, a substance can be detoxified through “first-pass metabolism” in the liver before reaching systemic circulation, but substances introduced into the body via inhalation go directly into systemic circulation before detoxification. The **Flavor and Extract Manufacturers Association (FEMA)**, which is the organization that has compiled and analyzed research to get thousands of terpenes Generally Recognized as Safe (GRAS) status by the Food and Drug Administration, published guidance **stating that it is false and misleading for flavor additive manufacturers and marketers to represent or suggest that flavor ingredients, like terpenes, are safe for inhalation simply because they have GRAS status for use in food.**
- **Emerging Research - (Dangers of Heating in Electronic Smoking Devices)**

A recent study published in October of 2020 examined the dangers associated with high filament temperatures in cannabis vaping devices including their association with serious lung injury (EVALI) event of 2019-20. It was noted that those devices containing vitamin E acetate (VEA) could be

mediated by chemical reactions with internal cartridge components and high filament temperatures. <https://journals.plos.org/plosone/article?id=10.1371/journal.pone.0240613>

An excerpt of the study reads as follows:

Methods

We investigate the composition and internal components of 2019 EVALI patient-associated THC vaping devices compared to other THC and nicotine devices from 2016–19, specifically the metal, ceramic, and polymer components likely to be exposed to heat. To do this, we have disassembled forty-eight components from eight used and unused vaping devices under a microscope and analyzed them using X-ray fluorescence, scanning electron microscopy, and Fourier-transform infrared microspectroscopy.

Conclusions

The two THC cartridges used by EVALI patients exhibited evidence of localized high temperatures, including charring of the ceramic heating elements and damaged wire surfaces. The newer THC cartridges possessed more ceramic and polymer insulation than older THC or nicotine devices. The combination of ceramics, metals, and high temperatures in newer THC cartridges is consistent with conditions hypothesized to produce VEA reactions during vaping. **Nickel and chromium components were detected in all devices, and others contained copper, lead, tin, gold, silicon-rich rubbers, or fluorinated microplastics.** These components have the potential to thermally degrade and volatilize if heated sufficiently. These findings do not imply that harmful exposures would occur under all usage conditions and are most relevant to harm reduction efforts based on avoiding higher internal temperatures. This study was limited to a small sample of cartridges obtained from investigations. Future work should test more device types and internal temperatures under controlled usage conditions.

*Note: While this study sample was small it highlights how much more research is need on the interaction between the vaping cartridges, the oils they contain and the flavors that are either natural or added and their use in electronic smoking devices before we fully understand their risk to consumers and what is deemed a safe exposure limit for vaporized inhalation. Of important note is that **there is little, if any, State Regulation in this specific area of concern.** The safety of these compounds for inhalation remains unclear.

2. Status of the policy approach related to cannabis products across the multiple jurisdictions in Contra Costa County:

Given the decades of history and progress made to align local tobacco control policy across the multiple city jurisdictions with that of the County it was recognized that little, to date, has been done to explore similar alignment related to the emerging cannabis industry in Contra Costa County. Further, that this lack of alignment creates an environment of unfair competition between business/retail entities who are permitted to operate across the multiple jurisdictions of the County.

This assessment, while accurate, should be qualified by noting that, unlike tobacco control efforts, there is no dedicated team or additional resources or staffing that has been assigned to address this gap. This is one of the reasons staff recommends a cautious approach to cannabis product policy at the County level and to consider lessons learned from the Tobacco industry when seeking to apply product protections, related to cannabis at the local level.

Once a cannabis policy and control team has been established, and with the approval of the Board of Supervisors, such alignment of policy efforts across the county could be addressed.

3. Does the ban on sale of cannabis vaping products apply to those who retail medical marijuana? If so, can we consider an exclusion, specific to medical marijuana?

The County's current ban on sale and delivery of cannabis vaping products applies to both medical and recreational adult-use cannabis. The Board could exclude the sale and delivery of medical cannabis from the ban by adopting an ordinance amending the County's commercial cannabis health ordinance. If the Board directs staff to exclude medical cannabis from the ban, staff will draft the required ordinance. It is advised that they are regulated equally.

4. Do the legal challenges related to local regulation of cannabis delivery (mobile delivery) being faced in Santa Cruz impact our ability to regulate delivery in the unincorporated county?

In a recent Fresno County Superior Court case, Santa Cruz County and 24 cities challenged the validity of a Bureau of Cannabis Control regulation that provides that a delivery employee may deliver cannabis to any jurisdiction within the State of California. The county and cities argued that the regulation conflicted with provisions of the Medicinal and Adult-Use Cannabis Regulation and Safety Act that guarantee local control over commercial cannabis activities. In November 2020, the judge dismissed the lawsuit after the BCC conceded that the regulation does not prevent a local agency from requiring permits or completely prohibiting delivery within the agency's jurisdiction. The court's ruling stated that the BCC regulation does not preempt local ordinances regarding cannabis delivery and does not preclude enforcement of local ordinances. (Fresno County Sup. Ct., Case No. 19CECG01224.) Contra Costa County's commercial cannabis health ordinance is not affected by the outcome of the litigation.

5. What revenues, if any, have been received by Contra Costa County related to the sale, delivery, distribution, manufacturing or growing of cannabis? If revenues have been received, how have they been used or allocated?

The County has realized some modest cannabis tax revenue, to date, as of May 2020. Below is the breakdown by fiscal year.

- *FY 20/21: \$55,041 through May 12, 2021
**($\$60,000$ was budgeted to offset a portion of a new Business Tax Specialist position and tax software system in the TTC Dept)*
 - FY 19/20 \$43,367 accrued to General Fund balance
 - FY 18/29 \$13,819 accrued to General Fund balance
- Total \$112,227**

IV. Summary of Health Concerns related to lung health and use of electronic smoking devices and the intersection with the 2019-2020 cases of serious lung injury (E-cigarette or vaping associated lung injury (EVALI)).

On August 9th of 2019, the California Department of Public Health (CDPH) issued a Health Alert related to Sever Acute Pulmonary Disease associated with vaping cannabis/cannabidiol oil - EVALI (e-cigarette or vaping associated lung injury). According to the CDC, 82% reported using THC-containing products (January 14, 2020) Nationwide, 50% of EVALI patients who reported using THC-containing products provided data on product source (as of January 7, 2020):

Multiple cases were cited in California and across the nation with patients in acute respiratory distress requiring hospitalization. CDPH monitored EVALI cases and from June 2019 to February 2020 CDPH identified 210 EVALI cases which included 4 deaths. Many but not all of these cases were associated with vaping of THC from unlicensed sources, some cases could be attributed to products purchased in the legal commercial market. In April 2020, CDPH received new reports from 5 California jurisdictions of 8 EVALI cases that were hospitalized in April 2020. There were the first reported cases since SARS-CoV-2 identified as cause of COVID-19. The median age of the 8 patients was 17 years, all had tested negative for SARS-CoV-2 and reported having recently vaped THC. Due to the similar symptoms caused by EVALI and COVID-19, it remains unclear whether EVALI cases have been underreported. Health providers are advised to maintain clinical suspicion of EVALI during pandemic. CDPH advisories continue to state that e-cigarette use, or vaping is hazardous to your health and urge everyone to quit vaping no matter the substance or source ⁱⁱⁱ.

Significance of EVALI Health Crisis

Summary of EVALI Statistics From CDC: As of February 18, 2020, a total of 2,807 hospitalized e-cigarette, or vaping, product use-associated lung injury (EVALI) cases or deaths have been reported to CDC from 50 states, the District of Columbia, and two U.S. territories (Puerto Rico and U.S. Virgin Islands).

1. Sixty-eight deaths have been confirmed in 29 states and the District of Columbia (as of February 18, 2020), including 4 in California.
2. Among the 2,668 hospitalized EVALI cases or deaths reported to CDC (as of January 14, 2020):
3. 66% were male
4. The median age of deceased patients was 49.5 years and ranged from 15-75 years (as of February 18, 2020).
5. The median age of patients was 24 years and ranged from 13–85 years.
6. By age group category:
7. 15% of patients were under 18 years old;
8. 37% of patients were 18 to 24 years old;
9. 24% of patients were 25 to 34 years old; and
10. 24% of patients were 35 years or older.

Type of Products Used: 2,022 hospitalized patients had data on substance use, of whom (as of January 07, 2020):

- **82% reported using THC-containing products;** 34% reported exclusive use of THC-containing products.
- 57% reported using nicotine-containing products; 13% reported exclusive use of nicotine-containing products.

Product Source for THC- containing Products: (See Figure 1)

50% of EVALI patients who reported using THC-containing products provided data on product source (as of January 7, 2020):

- **16% reported acquiring products only from commercial sources** (recreational and/or medical dispensaries, vape or smoke shops, stores, and pop-up shops).
- **6% reported acquiring products from both commercial and informal sources.**
- 78% reported acquiring products only from informal sources (family/friends, dealers, online, or other sources).

FIGURE 1. Reported product sources,*,§ by age group, ¶, among hospitalized e-cigarette, or vaping, product use–associated lung injury (EVALI) patients — United States, August 2019–January 2020**

- One limitation of the CDC investigation is that **data on product source was missing for 50% of THC-containing product users**. CDC continues to recommend that the best way for persons to ensure that they are not at risk is to consider refraining from the use of all e-cigarettes, or vaping products.

Causative Research:

Research published in the *New England Journal of Medicine* (Feb 20, 2020), found Vitamin E-acetate in the bronchoalveolar-lavage fluid of 48 of 51 (94%) EVALI patients studied. Of these patients THC was detected in 94% and Nicotine in 64% <https://www.nejm.org/doi/full/10.1056/NEJMoa1916433>

As noted above, **overheating of electronic smoking devices** has been associated with the leaching of various toxic substances into the liquids of cartridges used in these products.

It is further acknowledged that staff with the Department of Cannabis Control report that the majority of EVALI cases in California, associated with cannabis vaping products, were from the illicit cannabis market vs. the legal regulated marketplace.

However, this and other research noted above highlights the critically important point, that when a substance is overheated and vaporized (in this case some, but not all, contained Vitamin E-Acetate) it alters the substance itself in such a manner as to be harm to human health.

Associated Harms of Vaping:

- Several studies have found associations between cannabis vaping and respiratory issues among youth. A recent University of Michigan study using a national probability sample over 14,000 adolescents (12-17 years of age) found that youth who vape cannabis are at roughly 2 times greater risks for respiratory symptoms indicative of lung injury than teens who smoke cigarettes or cannabis, or vape nicotine (Boyd, et al. 2021).
- Another example is a 2020 cross-section study (Braymiller et al.) published in the *Journal of the American Medical Association* which found an association between levels of cannabis vaping and symptoms of bronchitis. The study found that cannabis vaping at any level of use was associated with increased odds of bronchitis symptoms with a stronger association found for use on 1 to 2 days in the past 30 days.

- It is relevant to note that vaping introduces ultra-fine particles into the lung, that are significantly smaller, and potentially more harmful than the 2.5 microns often associated with extremely poor air quality.
 - Information from the 2017-2019 California Healthy Kids Survey, *Marijuana Use Among California Secondary Student-Report* reveal concerning trends in youth use of cannabis and associated vaping products. Over 16% of 11th graders indicated they had used cannabis in the past 30 days and 84% of those users had vaped cannabis through an electronic smoking device.
 - Cannabis vaping at any level was associated with increased odds of bronchitis symptoms, and cannabis vaping 3 or more times in the last month was associated with increased odds of wheeze, even after simultaneously adjusting for nicotine vaping, cigarette smoking, and combustible cannabis use ^{iv}.
 - In a 2017 American Medical Association article by renowned researcher Stanton Glantz and colleagues it was noted that nationally in 2016 more adolescents used marijuana than tobacco; 25% vs. 11% for high school seniors; 16% vs. 5% for high school sophomores. Further the article noted that other than nicotine and cannabinoids that tobacco and marijuana smoke are similar and that the California Environmental Protection Agency has identified marijuana smoke as human carcinogen based on the smoke's toxicology.

It is from this cautionary approach and emerging scientific evidence, that Contra Costa Health Services recommended many of the specific health regulations designed to help protect youth, and other sensitive populations from the potential adverse effects of cannabis use.

V. Policy options for the Board related to the prohibition on the sale and delivery of cannabis electronic smoking devices, e-liquids, and related flavored products

- OPTION 1 (Public Health staff recommended option)
Maintain the current prohibition on the sale and delivery of cannabis electronic smoking devices and cannabis e-liquids.
 - Currently, the sale or delivery of any e-liquid that contains tetrahydrocannabinol or any other cannabinoid, or any electronic smoking device that can be used to deliver tetrahydrocannabinol or any other cannabinoid in aerosolized or vaporized form, is prohibited. The sale or delivery of flavored cannabis products for which the primary use is human inhalation by smoking or vaping (i.e., non-edibles) is also prohibited.
- OPTION 2
Direct staff to prepare an ordinance that allows the sale and delivery of all cannabis electronic smoking devices and cannabis e-liquids, except flavored cannabis vaping products.
 - This option would maintain the prohibition on the sale or delivery of flavored cannabis products for which the primary use is human inhalation by smoking or vaping (i.e., non-edibles), limiting these products to those derived entirely from the raw cannabis plant and containing no added flavors.
 - Maintaining the prohibition on flavored cannabis vaping products is consistent with efforts to reduce impacts to, and incidences of addiction in, children.
- OPTION 3
Direct staff to prepare an ordinance that allows the sale and delivery of all cannabis electronic smoking devices and cannabis e-liquids, including flavored cannabis vaping products.

- **OPTION 4**
Direct staff to prepare an ordinance that allows the sale and delivery of medicinal cannabis electronic smoking devices and cannabis e-liquids but prohibits the sale and delivery of adult-use recreational cannabis vaping products.
 - The amended ordinance would need to distinguish between medicinal and adult-use recreational cannabis products, which the current ordinance does not.

VI. Additional Considerations

- Direct staff to further investigate and report back on state and national regulations and product manufacturing standards for electronic smoking devices and e-liquids.
- Direct staff to seek additional resources that would: 1) allow quarterly inspections of retail cannabis establishments in the unincorporated county to identify product that is not consistent with state or local policy, seeking to remove such product from the retail environment. 2) provide adequate staffing and expertise to track and advise on health-related policy and programmatic activity related to the cannabis and to work with City jurisdictions on seeking to create an alignment of local policy approach across those jurisdictions.
- Consider requesting that the Department of Cannabis Control develop a more comprehensive premarket review process before product is approved for the consumer market.

TOBACCO, CANNABIS, AND VAPING TRIANGULUM

E-CIGARETTES AND OTHER VAPING DEVICES HAVE CREATED A LARGE AREA OF OVERLAP BETWEEN TOBACCO AND CANNABIS.

VOLKOW N. MONITORING THE FUTURE SURVEY RAISES WORRIES ABOUT TEEN MARIJUANA VAPING. DECEMBER 18, 2019.

AS E-CIGARETTE USE HAS GROWN IN POPULARITY, SO HAS CANNABIS USE, INCLUDING CANNABIS VAPING.

MENG Y, PONCE NA. THE CHANGING LANDSCAPE: TOBACCO AND MARIJUANA USE AMONG YOUNG ADULTS IN CALIFORNIA. UCLA CENTER FOR HEALTH POLICY RESEARCH; JUNE 2020.

CALIFORNIA YOUTH NOW USE E-CIGARETTES MORE THAN CIGARETTES (10.9% VS. 2.0 % IN 2017-18), WITH CANNABIS USE HIGHER THAN OVERALL TOBACCO USE (14.7 % VS. 12.7%).

AN ISSUE OF HEALTH INEQUITY

- MARGINALIZED COMMUNITIES (I.E. WOMEN, LGBTQ+, YOUTH/YOUNG ADULTS, ETC.) HAVE HISTORICALLY BEEN TARGETED BY THE TOBACCO INDUSTRY FOR MARKETING AND ADVERTISEMENT OF THEIR PRODUCTS.

- THE AFRICAN AMERICAN COMMUNITY HOWEVER, HAS BEEN AGGRESSIVELY TARGETED FOR THE MORE ADDICTIVE AND HARMFUL MENTHOL FLAVORED TOBACCO PRODUCTS RESULTING IN A VARIETY OF NEGATIVE HEALTH IMPACTS....

TOBACCO AND CANNABIS VAPE PRODUCTS ARE OFTEN APPEALING TO YOUTH

Both Vape Devices Offer Sleek, Discreet Designs That Youth Find Very Attractive

HEALTH IMPACTS OF VAPING CANNABIS AND TOBACCO

- Health impacts of smoking tobacco are well established and parallel emerging research on smoking cannabis.

(BryanMiller et al., 2020)

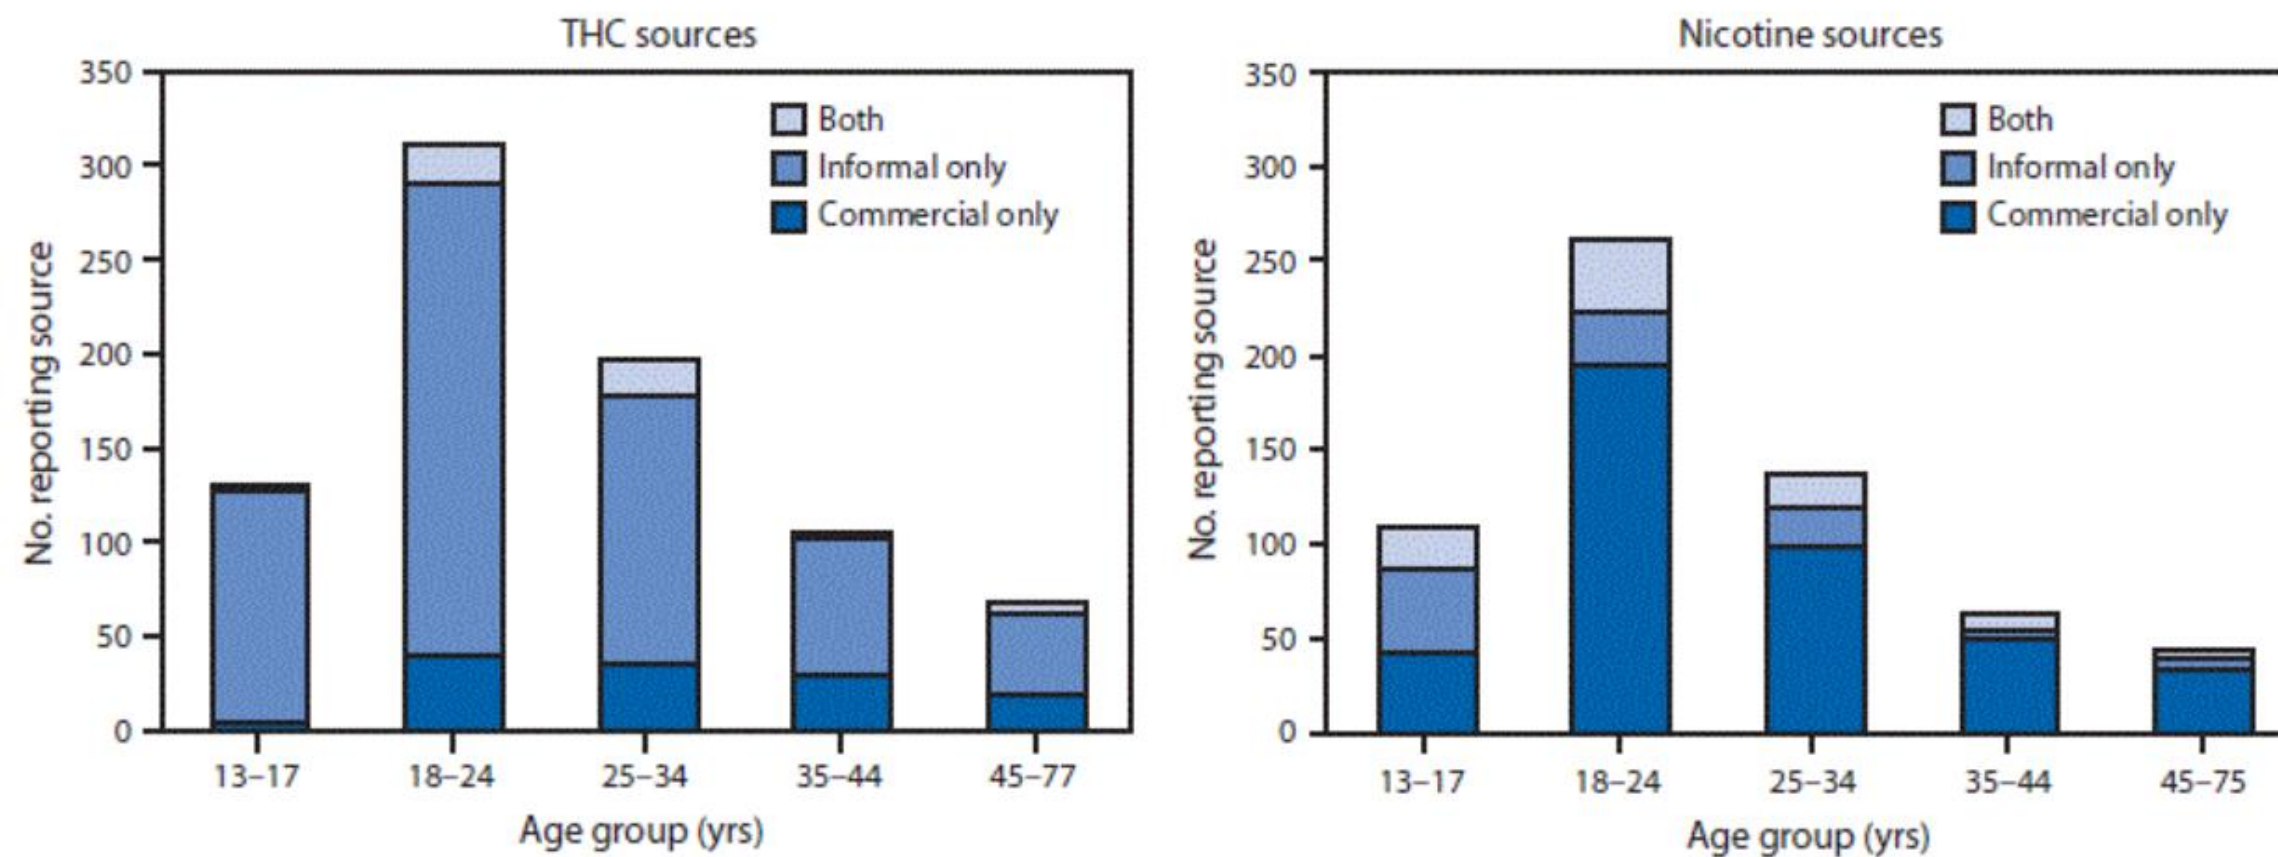

- Contrary to public opinion, vaping cannabis is not a "safer", less harmful alternative than vaping nicotine or smoking combustible tobacco products.
- There are strong correlations between the use of cannabis and cardiovascular and psycho-social health impacts.

POTENTIAL IMPLICATIONS OF TOBACCO CONTROL AND CANNABIS POLICIES

THE ANATOMY OF A VAPE PEN

- FDA Pre-Market Product Safety Review
- The Appeal And Dangers of Flavors
- Product Testing
- Dangers of Overheating

Medical Inhalers vs. Medical Marijuana

- The use of medical inhalers, (regulated by the Federal Food and Drug Administration) which offer metered dosing, should not be construed in such a manner as to apply to the use of electronic smoking devices or vaporizers in the consumer cannabis market.
- The later is not regulated by the FDA, or to staff's knowledge, any state agency for metered dosing.

30 more flavors policies are adopted throughout the State.

Contra Costa Board of Supervisors amend and expand flavors sales restriction County-wide, among the first to adopt PKMTA authorization requirement for e-cigs.

California signs bill to ban the sale of flavored tobacco products, including menthol cigarettes.

The FDA restricts the sale of flavored cigars and menthol cigarettes.

Policy Options

Option #1

Sustain the current prohibition on the sale and delivery of electronic smoking devices and related e-juices.

Option #2

Direct Staff to prepare an ordinance that allows the sale and delivery of electronic smoking devices and cannabis e-liquids except flavored cannabis vaping products (Hence, maintains the prohibition on the sale and delivery of flavored vaping products.)

Option #3

Direct staff to prepare an ordinance that allows the sale and delivery of all cannabis smoking devices and cannabis e-liquids, including flavored cannabis vaping products.

Policy Options

Option #4

Direct staff to prepare an ordinance that allows the sale and delivery of electronic smoking devices and cannabis e-liquids by those retailers licensed as medical dispensaries but prohibits the sale and delivery of adult use (recreational) cannabis vaping products.

Option #4...cont.

This amended ordinance would need to distinguish between medicinal and adult-use recreational cannabis products, which the current ordinance does not.

Additional Considerations

Consideration #1	Option #2	Option #3
<p>If desired, direct staff to further investigate and report back on state and national regulation and product manufacturing standards specific to electronic smoking devices and e-liquid cartridges.</p>	<p>Direct Health Services to seek resources that would allow for quarterly inspections of cannabis retailers and provides adequate staff to track and advise on health policy and programmatic activity related to the cannabis and to work with local City jurisdictions on alignment of local policy.</p>	<p>If desired, seek to request that the California Department of Cannabis Control develop a more comprehensive premarket review process for manufactured cannabis products.</p>

RECOMMENDATION(S): (CONTD)

(5) ORDER that, in accordance with the project specifications and/or upon signature of the contract by the Public Works Director, or designee, bid bonds posted by the bidders are to be exonerated and any checks or cash submitted for security shall be returned.

(6) ORDER that, the Public Works Director, or designee, is authorized to sign any escrow agreements prepared for this project to permit the direct payment of retentions into escrow or the substitution of securities for moneys withheld by the County to ensure performance under the contract, pursuant to Public Contract Code Section 22300.

(7) DELEGATE, pursuant to Public Contract Code Section 4114, to the Public Works Director, or designee, the Board's functions under Public Contract Code Sections 4107 and 4110.

(8) DELEGATE, pursuant to Labor Code Section 6705, to the Public Works Director, or to any registered civil or structural engineer employed by the County, the authority to accept detailed plans showing the design of shoring, bracing, sloping, or other provisions to be made for worker protection during trench excavation covered by that section.

(9) DECLARE that, should the award of the contract to W. R. Forde be invalidated for any reason, the Board would not in any event have awarded the contract to any other bidder, but instead would have exercised its discretion to reject all of the bids received. Nothing in this Board Order shall prevent the Board from re-awarding the contract to another bidder in cases where the successful bidder establishes a mistake, refuses to sign the contract, or fails to furnish required bonds or insurance (see Public Contract Code Sections 5100-5107).

FISCAL IMPACT:

The Project will be funded 43% Federal/State Emergency Relief funds and 57% Local Road funds.

BACKGROUND:

The above project was previously approved by the Board of Supervisors, plans and specifications were filed with the Board, and bids were invited by the Public Works Director. On July 7, 2021, the Public Works Department received bids from the following contractors:

BIDDER, TOTAL AMOUNT, BOND AMOUNTS

W. R. Forde Associates, Inc.: \$ 437,420.00; Payment: \$ 437,420.00; Performance: \$ 437,420.00; Kerex Engineering, Inc.: \$ 594,800.00

The first bidder listed above, W. R. Forde Associates, Inc, submitted the lowest responsive and responsible bid, which is \$157,380.00 less than the next lowest bid.

This is a federally funded project subject to a Disadvantaged Business Enterprise (DBE) contract goal and requirements. The Public Works Director reports that the lowest monetary bidder, W. R. Forde Associates, Inc, attained DBE participation of 0.00% and submitted adequate documentation of good faith efforts to meet the DBE goal (20.00%) and requirements for this project. The Public Works Director recommends that the Board determine that W. R. Forde Associates, Inc. has demonstrated adequate good faith efforts to meet the DBE goal for this project and has complied with the DBE requirements for this project and recommends that the construction contract be awarded to W. R. Forde Associates, Inc.

The Board of Supervisors previously determined that the project is exempt from the California Environmental Quality Act (CEQA) as a Class 1(c) Categorical Exemption, and a Notice of Exemption was filed with the County Clerk on May 7, 2019.

The general prevailing rates of wages, which shall be the minimum rates paid on this project, have been filed with the Clerk of the Board, and copies will be made available to any party upon request.

CONSEQUENCE OF NEGATIVE ACTION:

Construction of the project would be delayed, and the project might not be built.

Subject: Declaring Grove Avenue stop controlled at 5th/Fifth Street, North Richmond area.

RECOMMENDATION(S):

ADOPT Traffic Resolution No. 2021/4503 declaring a stop control (two-way) on Grove Avenue (Road No. 0565H) at its intersection with 5th/Fifth Street (Road No. 0565AA), as recommended by the Public Works Director, North Richmond area. (District I)

FISCAL IMPACT:

No fiscal impact.

BACKGROUND:

The intersection of Grove Avenue at 5th/Fifth Street in North Richmond, is currently uncontrolled. Upon request by members of the North Richmond community and the District 1 Supervisor Staff, the County's Public Works Department Traffic Engineering staff initiated an investigation to determine if a two-way stop control of the intersection was warranted. The investigation included an examination of the existing intersection geometry, sight line limitations, collision history, traffic counts, pedestrian usage, as well as any other pertinent factors.

Based on this investigation, it has been determined that a stop control (two-way) on Grove Avenue at its intersection with 5th/Fifth Street is supported by a warrant. Therefore, the Public Works Department recommends that a stop control be declared

To: Board of Supervisors
From: Brian M. Balbas, Public Works Director/Chief Engineer
Date: July 27, 2021

Subject: Contract Amendment with WSP USA Inc., Countywide.

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Public Works Director, or designee, to execute a Consulting Services Agreement (contract) amendment with WSP USA Inc., to extend the term from July 31, 2021 through July 31, 2022, for on-call construction management services, with no change to the payment limit of \$350,000, Countywide. (All Districts)

FISCAL IMPACT:

There is no fiscal impact as the amendment is to extend the term only. Work performed under this on-call contract is funded by developer fees, local, state and federal funds for local road, flood control, and airport projects.

BACKGROUND:

The Public Works Department is involved in various projects in the County which require construction management services for road, flood control, and airport projects. After a solicitation process in 2018, this firm was selected as one of the seven firms to provide construction management services on an “on-call” basis and was awarded an on-call consulting services agreement for construction management services at the July 24, 2018, Board of Supervisors

meeting.

Since the original consulting services agreement was executed, the Consultant has provided on-call construction management services on multiple projects. While most of these projects have been completed, the Storm Damage Repair Project: Alhambra Valley Road at Ferndale, 0672-6U6211; Alhambra Valley Road west of Castro Ranch Road, 0672-6U6225; Bear Creek Road Embankment Repairs, 0672-6U6226 (project) are on-going and requires Consultant's services beyond the Agreement's July 31, 2021, expiration. These construction management services are needed to support the construction phase of the project and began on June 1, 2021, with pre-construction and construction services. Construction completion is expected by the end of 2021. The County will need construction management services from WSP USA Inc., for this project through July 31, 2022, which includes project closeout services after completion of construction. An extension of the on-call agreement is needed through July 31, 2021, to align with the County's needs for construction management services for the project. The current on-call agreement payment limit of \$350,000 is sufficient for the proposed work and will not need to be amended.

This contract includes services provided by represented classifications, and the County has met its obligations with the respective labor partner(s).

CONSEQUENCE OF NEGATIVE ACTION:

Without approval from the Board of Supervisors, this contract amendment will not be in effect. This will result in delays to the Storm Damage Repair Project and added costs as the County solicits for new professional services which will duplicate previous work.

- B. The County is the owner of the portion of Brookside Drive adjacent to the Property in the unincorporated area of Richmond in Contra Costa County, and the County is required to ensure that stormwater runoff from the Property meets the requirements of the NPDES Permit.
- C. To meet its obligations under the NPDES Permit, the County has required the Property Owner to construct the Stormwater Facilities.
- D. To meet its obligations under the NPDES Permit, the County has approved the Property Owner's Operation and Maintenance Plan and the Stormwater Control Plan for the Stormwater Facilities.

- E. To meet the County's obligations under the NPDES Permit, the County's Ordinance requires proper operation and maintenance in perpetuity of the Stormwater Facilities constructed on the Property.
- F. The Operation and Maintenance Plan and/or the Stormwater Control Plan include an annual inspection and reporting requirement and a continuing maintenance requirement for the Stormwater Facilities constructed on the Property.

AGREEMENT

NOW, THEREFORE, in consideration of the above premises, the sufficiency of which is acknowledged, the mutual covenants contained in this Agreement, and the following terms and conditions, the County and the Property Owner agree as follows:

SECTION 1

Responsibility for Operation and Maintenance: The Property Owner represents and warrants that the Stormwater Facilities have been designed and installed in strict accordance with the Stormwater Control Plan, the Operation and Maintenance Plan, and the Ordinance. No portion of the Stormwater Facilities may be altered in any manner that is inconsistent with the Stormwater Control Plan or the Operation and Maintenance Plan without the prior, written consent of the County Engineer. The Property Owner shall continuously maintain the Stormwater Facilities in first-class operating condition, in strict accordance with the Stormwater Control Plan, the Operation and Maintenance Plan, and the Ordinance, and in compliance with all applicable federal, state, and local laws and regulations, as they may be amended from time to time.

The Property Owner shall engage a licensed landscape contractor or other licensed professional acceptable to the County Engineer to undertake the following maintenance activities on the Property, unless the Property Owner receives prior, written approval of an alternative method from the County Engineer:

1. Diagnosis and correction of the Stormwater Facilities malfunctions that cannot be corrected through routine maintenance,
2. Application of fertilizer and/or pest control products within, under, or above the Stormwater Facilities,
3. Repair of private drainage system (including rain gutters, downspouts, area drains, risers, inlets, outlets, overflows, clean-outs, connectors, earthen and concrete conveyance swales, check dam/retaining walls, and catch basins),
4. Maintenance of irrigation system that may affect stormwater reaching the Stormwater Facilities,
5. Modification of site topography through yard and driveway grading that may affect stormwater reaching the Stormwater Facilities,
6. Subdrain cleaning/replacement (including perforated drain pipe), and
7. Replacement of engineered soil and mulch.

The County Engineer may, at any time, revoke approval of an alternate method for the maintenance of the Stormwater Facilities and require the Property Owner to hire a licensed landscape contractor or other licensed professional acceptable to the County Engineer to undertake any of the activities mentioned in this section.

If a dispute should arise between the Property Owner with respect to the necessity for maintenance, the standard of maintenance, the contractor(s) to be engaged to perform any repair or maintenance work, or any other matters pertaining to the operation or maintenance of the Stormwater Facilities, the dispute may be submitted to the County Engineer, in which case the decision of the County Engineer shall be final.

The County recognizes that the Operation and Maintenance Plan may provide for the allocation of Property Owner responsibilities for the maintenance of Stormwater Facilities located on various Lots. However, regardless of the allocation of maintenance responsibilities, the Property Owner of each Lot is responsible for compliance with all of the obligations contained in this Agreement, and all Property Owners will be jointly and severally liable for failure to comply with the terms and conditions set forth in this Agreement and in the Ordinance.

The County may require the Property Owner to amend the Stormwater Control Plan and/or the Operation and Maintenance Plan whenever the County deems amendments necessary to maintain compliance with the NPDES Permit. In that case, the Property Owner shall have the amendments prepared by a licensed engineer and promptly submit the amendments to the County Engineer for review and approval. All amendments proposed by the Property Owner are subject to the prior, written approval of the County Engineer. Whenever the Property Owner requests amendments to the Stormwater Control Plan and/or the Operation and Maintenance Plan, the Property Owner shall pay the County in advance for all staff time spent reviewing and taking action with respect to such request, whether or not the County Engineer approves the proposed amendments. All approved amendments to the Stormwater Control Plan and the Operation and Maintenance Plan will be kept on file at the County Public Works Department. The Property Owner shall promptly comply with all requirements of the Stormwater Control Plan and the Operation and Maintenance Plan, including any approved amendments.

SECTION 2

Inspection by Property Owner: The Property Owner shall inspect, at least annually, the Stormwater Facilities in accordance with this Agreement, including the requirements of the Operation and Maintenance Plan, the Stormwater Control Plan, and the Ordinance. The annual inspection shall include completion of the reporting form(s) required by the County, which form(s) will be provided annually to the Property Owner by the County. The Property Owner or a licensed landscape contractor or other licensed professional acceptable to the County Engineer must submit the reporting form(s) to the County Engineer no later than the deadline indicated on the form(s). Upon review, the County may require additional information from either the Property Owner or an appropriately-licensed contractor.

SECTION 3

Right of Entry and Stormwater Facilities Inspection by the County: The Property Owner hereby grants permission to the County and its contractors and other agencies with an interest in the Stormwater Facilities, such as the Contra Costa County Flood Control and Water Conservation District, the Contra Costa Mosquito and Vector Control District, and the Regional Water Quality Control Board, to enter upon the Property at any reasonable time to inspect, assess, or observe the Stormwater Facilities for the purpose of ensuring that the Stormwater Facilities are being properly maintained and are continuing to perform in an adequate manner to protect water quality and the public health and safety. This includes the right to enter upon the Property whenever the County or other agency has a reasonable basis to believe that a violation of this Agreement, the Operation and Maintenance Plan, the Stormwater Control Plan, the Ordinance, or the NPDES Permit has occurred or is threatening to occur. It also includes the right for the County and its contractors to enter upon the Property to perform any maintenance or other obligations required of the Property Owner under this Agreement or to abate any nuisance in connection with the Stormwater Facilities. The County and the other agencies shall endeavor to provide reasonable notice to the Property Owner before entering the Property.

SECTION 4

Failure to Perform Required Stormwater Facilities Repairs or Maintenance by the Property Owner: If the Property Owner fails to maintain the Stormwater Facilities in good working order and in accordance with the approved Operation and Maintenance Plan, the Stormwater Control Plan, and the Ordinance, the County, with prior notice, may enter the Property to return the Stormwater Facilities to good working order. The County is under no obligation to maintain or repair the Stormwater Facilities, and this Agreement may not be construed to impose any such obligation on the County. If the County, under this section, performs any work to return Stormwater Facilities to good working order, the Property Owner shall reimburse the County for all the costs incurred by the County, including administrative costs. The County will provide the Property Owner with an itemized invoice of the County's costs and the Property Owner will have 30 days to pay the invoice. If the Property Owner fails to pay the invoice within 30 days, the County may secure a lien against the Property in the amount of such costs. In addition, the County may make the cost of abatement of the nuisance caused by the failure to maintain the Stormwater Facilities a special assessment against the Property, which assessment may be collected on the tax roll in accordance with applicable law. This section does not prevent the County from pursuing other remedies against the Property or the Property Owner, including but not limited to those in the Ordinance and the nuisance abatement procedures in Division 14 of Title 1 (or successor provisions) of the Contra Costa County Ordinance Code.

If the Property Owner fails to maintain the Stormwater Facilities in accordance with this Agreement, the Operation and Maintenance Plan, the Stormwater Control Plan, or the Ordinance, the Property Owner shall be responsible for: (a) the costs of any code enforcement or nuisance abatement actions commenced by the County; and (b) the payment of, or reimbursement to the County for, any fines or penalties that may be levied against the County by the Regional Water Quality Control Board or any other regulatory agency, to the extent that the fines or penalties result from the Property Owner's failure to properly maintain the Stormwater Facilities. The County may recover such costs, fines, or penalties from the Property Owner in the same manner as provided in the preceding paragraph.

SECTION 5

Indemnity: The Property Owner agrees to defend, indemnify, save, and hold harmless the County and its governing board from any and all demands, losses, claims, costs, suits, liabilities, and expenses for any property damage, personal injury, or death arising directly or indirectly from or connected with the design, construction, use, operation or maintenance of the Stormwater Facilities by the Property Owner or the presence or existence of the Stormwater Facilities on the Property, except for claims, costs, or liabilities resulting from the sole negligence or sole willful misconduct of the County. The Property Owner's obligations under this section shall include the payment of penalties, fines, attorneys' fees, experts' fees, costs, and litigation expenses, as well as liability for the release or existence of any hazardous materials on, under, or in the Property. If any action or proceeding is brought against any of the indemnitees, the Property Owner shall reimburse the indemnitees for any expenditures, including reasonable attorneys' fees and costs, incurred by the indemnitees and, if requested by any of the indemnitees, shall defend the action or proceeding at the Property Owner's sole expense with counsel reasonably acceptable to the indemnitees.

SECTION 6

Covenant Running with the Land: The covenants of the Property Owner set forth above shall run with the land, and the burdens of the covenants shall be binding upon each and every part of the Property and the Lots and upon the Property Owner and the Property Owner's successors and assigns in ownership (on any interest in the Property) for the benefit of the portion of Brookside Drive adjacent to the Property in the unincorporated area of Richmond in Contra Costa County each and every part thereof. Said covenants shall inure to the benefit of and be enforceable by the County and its successors and assigns in ownership of each and every part of the above referenced road(s) and storm drains.

SECTION 7

Severability: Invalidation of any one of the provisions of this Agreement shall in no way affect any other provisions and all other provisions shall remain in full force and effect.

SECTION 8

No Dedication for Public Use: The provisions of this Agreement shall not be construed to constitute a dedication for public use, either express or implied, and any actions by the County to enforce this Agreement, including without limitation code enforcement or nuisance abatement actions, shall not be deemed to involve the exercise by the County of dominion or control over the Stormwater Facilities or the Property.

SECTION 9

Notices: All notices required by this Agreement or by law shall be in writing and shall be delivered in person or sent by certified mail, postage pre-paid.

Notices required to be given to the County shall be addressed as follows:

Notices required to be given to the Property Owner, including any heirs, successors, or assigns, will be sent to the mailing address for the Property Owner that is on file with the Contra Costa County Assessor. The Property Owner may request in writing that notices be sent to an additional address.

Any party may change its address or contact person by notice in writing to the other party and thereafter notices shall be addressed and transmitted to the new address and/or new contact person.

SECTION 10

RECITALS

This Agreement is made and entered into with reference to the following facts:

- B. The County is the owner of a 195-foot portion of the southerly lane of Pittsburg Avenue, the easterly end of which is approximately 76 feet west of the intersection of Central Street and Pittsburg Avenue in the North Richmond Area of unincorporated Contra Costa County, and the County is required to ensure that stormwater runoff from the Property meets the requirements of the NPDES Permit.
- C. To meet its obligations under the NPDES Permit, the County has required the Property Owner to construct the Stormwater Facilities.
- D. To meet its obligations under the NPDES Permit, the County has approved the Property Owner's Operation and Maintenance Plan and the Stormwater Control Plan for the Stormwater Facilities.
- E. To meet the County's obligations under the NPDES Permit, the County's Ordinance requires proper operation and maintenance in perpetuity of the Stormwater Facilities constructed on the Property.

- F. The Operation and Maintenance Plan and/or the Stormwater Control Plan include an annual inspection and reporting requirement and a continuing maintenance requirement for the Stormwater Facilities constructed on the Property.

AGREEMENT

NOW, THEREFORE, in consideration of the above premises, the sufficiency of which is acknowledged, the mutual covenants contained in this Agreement, and the following terms and conditions, the County and the Property Owner agree as follows:

SECTION 1

Responsibility for Operation and Maintenance: The Property Owner represents and warrants that the Stormwater Facilities have been designed and installed in strict accordance with the Stormwater Control Plan, the Operation and Maintenance Plan, and the Ordinance. No portion of the Stormwater Facilities may be altered in any manner that is inconsistent with the Stormwater Control Plan or the Operation and Maintenance Plan without the prior, written consent of the County Engineer. The Property Owner shall continuously maintain the Stormwater Facilities in first-class operating condition, in strict accordance with the Stormwater Control Plan, the Operation and Maintenance Plan, and the Ordinance, and in compliance with all applicable federal, state, and local laws and regulations, as they may be amended from time to time.

The Property Owner shall engage a licensed landscape contractor or other licensed professional acceptable to the County Engineer to undertake the following maintenance activities on the Property, unless the Property Owner receives prior, written approval of an alternative method from the County Engineer:

1. Diagnosis and correction of the Stormwater Facilities malfunctions that cannot be corrected through routine maintenance,
2. Application of fertilizer and/or pest control products within, under, or above the Stormwater Facilities,
3. Repair of private drainage system (including rain gutters, downspouts, area drains, risers, inlets, outlets, overflows, clean-outs, connectors, earthen and concrete conveyance swales, check dam/retaining walls, and catch basins),
4. Maintenance of irrigation system that may affect stormwater reaching the Stormwater Facilities,
5. Modification of site topography through yard and driveway grading that may affect stormwater reaching the Stormwater Facilities,
6. Subdrain cleaning/replacement (including perforated drain pipe), and
7. Replacement of engineered soil and mulch.

The County Engineer may, at any time, revoke approval of an alternate method for the maintenance of the Stormwater Facilities and require the Property Owner to hire a licensed landscape contractor or other licensed professional acceptable to the County Engineer to undertake any of the activities mentioned in this section.

If a dispute should arise between the Property Owner with respect to the necessity for maintenance, the standard of maintenance, the contractor(s) to be engaged to perform any repair or maintenance work, or any other matters pertaining to the operation or maintenance of the Stormwater Facilities, the dispute may be submitted to the County Engineer, in which case the decision of the County Engineer shall be final.

The County recognizes that the Operation and Maintenance Plan may provide for the allocation of Property Owner responsibilities for the maintenance of Stormwater Facilities located on various Lots. However, regardless of the allocation of maintenance responsibilities, the Property Owner of each Lot is responsible for compliance with all of the obligations contained in this Agreement, and all Property Owners will be jointly and severally liable for failure to comply with the terms and conditions set forth in this Agreement and in the Ordinance.

The County may require the Property Owner to amend the Stormwater Control Plan and/or the Operation and Maintenance Plan whenever the County deems amendments necessary to maintain compliance with the NPDES Permit. In that case, the Property Owner shall have the amendments prepared by a licensed engineer and promptly submit the amendments to the County Engineer for review and approval. All amendments proposed by the Property Owner are subject to the prior, written approval of the County Engineer. Whenever the Property Owner requests amendments to the Stormwater Control Plan and/or the Operation and Maintenance Plan, the Property Owner shall pay the County in advance for all staff time spent reviewing and taking action with respect to such request, whether or not the County Engineer approves the proposed amendments. All approved amendments to the Stormwater Control Plan and the Operation and Maintenance Plan will be kept on file at the County Public Works Department. The Property Owner shall promptly comply with all requirements of the Stormwater Control Plan and the Operation and Maintenance Plan, including any approved amendments.

SECTION 2

Inspection by Property Owner: The Property Owner shall inspect, at least annually, the Stormwater Facilities in accordance with this Agreement, including the requirements of the Operation and Maintenance Plan, the Stormwater Control Plan, and the Ordinance. The annual inspection shall include completion of the reporting form(s) required by the County, which form(s) will be provided annually to the Property Owner by the County. The Property Owner or a licensed landscape contractor or other licensed professional acceptable to the County Engineer must submit the reporting form(s) to the County Engineer no later than the deadline indicated on the form(s). Upon review, the County may require additional information from either the Property Owner or an appropriately-licensed contractor.

SECTION 3

Right of Entry and Stormwater Facilities Inspection by the County: The Property Owner hereby grants permission to the County and its contractors and other agencies with an interest in the Stormwater Facilities, such as the Contra Costa County Flood Control and Water Conservation District, the Contra Costa Mosquito and Vector Control District, and the Regional Water Quality Control Board, to enter upon the Property at any reasonable time to inspect, assess, or observe the Stormwater Facilities for the purpose of ensuring that the Stormwater Facilities are being properly maintained and are continuing to perform in an adequate manner to protect water quality and the public health and safety. This includes the right to enter

upon the Property whenever the County or other agency has a reasonable basis to believe that a violation of this Agreement, the Operation and Maintenance Plan, the Stormwater Control Plan, the Ordinance, or the NPDES Permit has occurred or is threatening to occur. It also includes the right for the County and its contractors to enter upon the Property to perform any maintenance or other obligations required of the Property Owner under this Agreement or to abate any nuisance in connection with the Stormwater Facilities. The County and the other agencies shall endeavor to provide reasonable notice to the Property Owner before entering the Property.

SECTION 4

Failure to Perform Required Stormwater Facilities Repairs or Maintenance by the Property Owner: If the Property Owner fails to maintain the Stormwater Facilities in good working order and in accordance with the approved Operation and Maintenance Plan, the Stormwater Control Plan, and the Ordinance, the County, with prior notice, may enter the Property to return the Stormwater Facilities to good working order. The County is under no obligation to maintain or repair the Stormwater Facilities, and this Agreement may not be construed to impose any such obligation on the County. If the County, under this section, performs any work to return Stormwater Facilities to good working order, the Property Owner shall reimburse the County for all the costs incurred by the County, including administrative costs. The County will provide the Property Owner with an itemized invoice of the County's costs and the Property Owner will have 30 days to pay the invoice. If the Property Owner fails to pay the invoice within 30 days, the County may secure a lien against the Property in the amount of such costs. In addition, the County may make the cost of abatement of the nuisance caused by the failure to maintain the Stormwater Facilities a special assessment against the Property, which assessment may be collected on the tax roll in accordance with applicable law. This section does not prevent the County from pursuing other remedies against the Property or the Property Owner, including but not limited to those in the Ordinance and the nuisance abatement procedures in Division 14 of Title 1 (or successor provisions) of the Contra Costa County Ordinance Code.

If the Property Owner fails to maintain the Stormwater Facilities in accordance with this Agreement, the Operation and Maintenance Plan, the Stormwater Control Plan, or the Ordinance, the Property Owner shall be responsible for: (a) the costs of any code enforcement or nuisance abatement actions commenced by the County; and (b) the payment of, or reimbursement to the County for, any fines or penalties that may be levied against the County by the Regional Water Quality Control Board or any other regulatory agency, to the extent that the fines or penalties result from the Property Owner's failure to properly maintain the Stormwater Facilities. The County may recover such costs, fines, or penalties from the Property Owner in the same manner as provided in the preceding paragraph.

SECTION 5

Indemnity: The Property Owner agrees to defend, indemnify, save, and hold harmless the County and its governing board from any and all demands, losses, claims, costs, suits, liabilities, and expenses for any property damage, personal injury, or death arising directly or indirectly from or connected with the design, construction, use, operation or maintenance of the Stormwater Facilities by the Property Owner or the presence or existence of the Stormwater Facilities on the Property, except for claims, costs, or liabilities resulting from the sole negligence or sole willful misconduct of the County. The Property Owner's obligations under this section shall include the payment of penalties, fines, attorneys' fees, experts' fees, costs, and litigation expenses, as well as liability for the release or existence of any hazardous materials

on, under, or in the Property. If any action or proceeding is brought against any of the indemnitees, the Property Owner shall reimburse the indemnitees for any expenditures, including reasonable attorneys' fees and costs, incurred by the indemnitees and, if requested by any of the indemnitees, shall defend the action or proceeding at the Property Owner's sole expense with counsel reasonably acceptable to the indemnitees.

SECTION 6

Covenant Running with the Land: The covenants of the Property Owner set forth above shall run with the land, and the burdens of the covenants shall be binding upon each and every part of the Property and the Lots and upon the Property Owner and the Property Owner's successors and assigns in ownership (on any interest in the Property) for the benefit of a 195-foot portion of the southerly lane of Pittsburg Avenue, the easterly end of which is approximately 76 feet west of the intersection of Central Street and Pittsburg Avenue in the North Richmond Area of unincorporated Contra Costa County, and each and every part thereof. Said covenants shall inure to the benefit of and be enforceable by the County and its successors and assigns in ownership of each and every part of the above referenced real property.

SECTION 7

Severability: Invalidity of any one of the provisions of this Agreement shall in no way affect any other provisions and all other provisions shall remain in full force and effect.

SECTION 8

No Dedication for Public Use: The provisions of this Agreement shall not be construed to constitute a dedication for public use, either express or implied, and any actions by the County to enforce this Agreement, including without limitation code enforcement or nuisance abatement actions, shall not be deemed to involve the exercise by the County of dominion or control over the Stormwater Facilities or the Property.

6. IMPROVEMENT PLAN WARRANTY. Subdivider warrants the improvement plans for the Work are adequate to accomplish the Work as promised in Section 2 and as required by the Conditions of Approval for the Subdivision. If, at any time before the Board of Supervisors accepts the Work as complete or during the one year guarantee period, said improvement plans prove to be inadequate in any respect, Subdivider shall make whatever changes are necessary to accomplish the Work as promised.

7. NO WAIVER BY COUNTY. Inspection of the Work and/or materials, or approval of the Work and/or materials or statement by any officer, agent or employee of the County indicating the Work or any part thereof complies with the requirements of this Agreement, or acceptance of the whole or any part of said Work and/or materials, or payments therefor, or any combination or all of these acts, shall not relieve the Subdivider of its obligation to fulfill this Agreement as prescribed; nor shall the County be thereby stopped from bringing any action for damages arising from the failure to comply with any of the terms and conditions hereof.

8. INDEMNITY. Subdivider shall defend, hold harmless and indemnify the indemnitees from the liabilities as defined in this section:

A. The indemnitees benefitted and protected by this promise are the County and its special districts, elective and appointive boards, commissions, officers, agents and employees.

B. The liabilities protected against are any liability or claim for damage of any kind allegedly suffered, incurred or threatened because of actions defined below, and including personal injury, death, property damage, inverse condemnation, or any combination of these, and regardless of whether or not such liability, claim or damage was unforeseeable at any time before County reviewed said improvement plans or accepted the Work as complete, and including the defense of any suit(s), action(s), or other proceeding(s) concerning said liabilities and claims.

C. The actions causing liability are any act or omission (negligent or non-negligent) in connection with the matters covered by this Agreement and attributable to Subdivider, contractor, subcontractor, or any officer, agent, or employee of one or more of them.

D. Non-Conditions. The promise and agreement in this section are not conditioned or dependent on whether or not any indemnitee has prepared, supplied, or approved any plan(s) or specification(s) in connection with this Work or Subdivision, or has insurance or other indemnification covering any of these matters, or that the alleged damage resulted partly from any negligent or willful misconduct of any indemnitee.

9. COSTS. Subdivider shall pay, when due, all the costs of the Work, including but not limited to the costs of relocations of existing utilities required thereby; inspections; material checks and tests; and other costs incurred by County staff arising from or related to the Work, and prior to acceptance of the Work as complete or expiration of any applicable warranty periods, whichever is later.

10. SURVEYS. Subdivider shall set and establish survey monuments in accordance with the filed map and to the satisfaction of the County Road Commissioner-Surveyor before acceptance of the Work as complete by the Board of Supervisors.

11. NON-PERFORMANCE AND COSTS. If Subdivider fails to complete the Work within the time specified in this Agreement, and subsequent extensions, or fails to maintain the Work, County may proceed to complete and/or maintain the Work by contract or otherwise and Subdivider agrees to pay all costs and charges incurred by County (including, but not limited to, engineering, inspection, surveys, contract, overhead, etc.) immediately upon demand.

Once action is taken by County to complete or maintain the Work, Subdivider agrees to pay all costs incurred by County, even if Subdivider subsequently completes the Work.

Should County sue to compel performance under this Agreement or to recover costs incurred in completing or maintaining the Work, Subdivider agrees to pay all attorney's fees, staff costs and all other expenses of litigation incurred by County in connection therewith, even if Subdivider subsequently proceeds to complete the Work.

12. INCORPORATION/ANNEXATION. If, before the Board of Supervisors accepts the Work as complete, the Subdivision is included in territory incorporated as a city or is annexed to an existing city, except as provided in this paragraph, County's rights under this Agreement and/or any deposit, bond, or letter of credit securing said rights shall be transferred to the new or annexing city. Such city shall have all the rights of a third party beneficiary against Subdivider, who shall fulfill all the terms of this Agreement as though Subdivider had contracted with the city originally. The provisions of paragraph 8 (Indemnity) shall continue to apply in favor of the indemnitees listed in paragraph 8.A. upon any such incorporation or annexation.

13. RECORD MAP. In consideration hereof, County shall allow Subdivider to file and record the final map or parcel map for said Subdivision.

14. RIGHT OF ENTRY. Subdivider hereby consents to entry onto the Subdivision property, and onto any other property over which Subdivider has land rights and upon which any portion of the Work is to be installed pursuant to the improvement plans, by County and its forces, including contractors, for the purpose of inspection, and, in the event of non-performance of this Agreement by Subdivider, completion and/or maintenance of the Work.

FISCAL IMPACT: (CONT'D)

(inclusive of ad-valorem, service charges, and other) was \$1,777,084.85 for Fiscal Year 2020-2021 and will be \$1,782,840.46 for Fiscal Year 2021-2022. In Fiscal Year 2020-2021 the basic service charge was \$14.94/year per equivalent dwelling unit for a single-family home and will remain the same for Fiscal Year 2021-2022.

BACKGROUND:

On June 8, 2021, the Board of Supervisors conducted a public hearing and adopted Resolution No. 2021/141 confirming the Fiscal Year 2021-2022 Tentative Annual Report on proposed service charges for CSA L-100. CSA L-100 provides street lighting services.

On July 1, 2021, the County Assessor released the official assessment roll for Contra Costa County for Fiscal Year 2021-2022. Thereafter, pursuant to Section 1012-2.612 of the County Ordinance Code, the Public Works Director directed staff to determine whether the Tentative Annual Report required revision to conform to the official assessment roll. Any change to an estimated basic service charge or estimated service charge notated in the Tentative Annual Report may only be accommodated as a result of changes in ownership, changes of address, the subdivision of an existing parcel or changes in the class or land use of a parcel. Upon review of the official assessment roll, staff determined that revisions to the Tentative Annual Report were required to conform to the official assessment roll. These included changes in the use code of parcels. The Tentative Annual Report as revised is the Final Annual Report. See Attachment 1.

The Board may confirm the Final Annual Report by resolution. Resolution No. 2021/198 serves to confirm the Final Annual Report and constitutes the levy of the service charge for Fiscal Year 2021-2022.

CONSEQUENCE OF NEGATIVE ACTION:

If a resolution confirming the Fiscal Year 2021-2022 Final Annual Report is not adopted, service charges for CSA L-100 would not be levied or collected in Fiscal Year 2021-2022 and street lighting would have to be selectively eliminated throughout the County to meet decreased funding levels.

BACKGROUND INFORMATION

On October 31, 1978, the Board of Supervisors instructed the Public Works Director to develop an alternate means to supplement ad valorem property taxes to fund street lighting in unincorporated County Service Areas. This report recommends the levying of a street lighting charge as provided in the County Service Area Law, Government Code, Sections 25210.1 and following, and in accordance with Ordinance No. 79-42, adopted by the Board of Supervisors on March 27, 1979.

County Service Area (CSA) L-100 was formed on September 10, 1986, as a dependent special district of the County and as the consolidation of four street-lighting CSAs. The purpose for consolidating the four CSAs into one district was to provide more efficient and cost-effective street-lighting services throughout the County by having one new county service area with a single management structure and operational area throughout the County and in order to finance the cost of lighting services more equitably utilizing a common service charge structure.

CSA L-100 provides street lighting operations and maintenance services throughout the County's unincorporated developed areas and pays for utility costs.

CURRENT ANNUAL ADMINISTRATION

Pursuant to County Ordinance Section 1012-2.6, former County Service Area Law (California Government Code Section 25210.77a), and current County Service Area Law (California Government Code Section 24210.3, subd. (d)), the Tentative Annual Report has been filed with the Clerk of the Board of Supervisors, public notice has been completed as required, and the Board will conduct a Public Hearing and then make a determination on each estimated service charge in the tentative report. Contra Costa Board of Supervisors reviewed the Tentative Annual Report in accordance with Resolution No. 2021/141, on June 8, 2021, and conducted a Public Hearing in connection with the proceedings for CSA L-100.

Upon adoption of the Final Annual Report by the Board of Supervisors, the charges contained herein will be collected on the property tax roll of Contra Costa County in the same manner, by the same persons, at the same time as, and together with the County's general taxes.

Legal Authority

As required by County Ordinance Section 1012-2.6, former County Service Area Law (California Government Code Section 25210.77a), and current County Service Area Law (California Government Code Section 24210.3, subd. (d)), the Final Annual Report includes the following minimum information as shown in the Service Charge Roll:

1. A description of each parcel of real property receiving the miscellaneous extended service;
2. The basic service charge;
3. The estimated amount of the service charge for each parcel for such year; and
4. A parcel list identifying each parcel receiving services that allows parcel owners to find their property on the list and determine the proposed charge.

This annual report also includes an estimate of the annual costs and the method of apportionment as additional information to allow the reader to better understand what services are being paid for, what is the total annual cost for the services provided, and how the cost of services is spread to each individual parcel.

Street Light Capital Project Implementation

As of late 2015, Contra Costa County has completed the conversion of County-owned standard street lights from high-pressure sodium vapor to light-emitting diode (LED) lights.

In Fiscal Year 2021-2022, CSA L-100 plans on continuing an inspection program to assess, identify, and replace obsolete, damaged, and leaning street light poles. In addition, the district currently administers an active Asset Management project that integrates the accounting, inspection, and on-going repair of street light assets. CSA L-100 is also implementing an analysis of the long-term fiscal requirements for the area so that it remains financially stable while providing the proper levels of service.

ESTIMATE OF ANNUAL COST

The Fiscal Year 2020-2021 projected and Fiscal Year 2021-2022 proposed revenues and expenditures are shown below. A special fund has been set up for the collection of revenues and coding of expenditures for CSA L-100. The total cost to provide the street lighting services can be recovered from the collection of service charges. Incidental expenses including administration, engineering fees, legal fees, and all other costs associated with the street lighting services may also be included.

When CSA L-100 was formed, a financial analysis was performed to provide the framework for an operating budget for the proposed street lighting operations and maintenance services. Revenues collected from the charge shall be used only for the expenditures represented in this report. Any balance remaining on July 1 at the end of the fiscal year must be carried over to the next fiscal year.

METHOD OF APPORTIONMENT

Special vs. General Benefit

On November 5, 1996, California voters approved Proposition 218 entitled "Right to Vote On Taxes Act" which added Articles XIIC and XIID to the California Constitution. While its title refers only to taxes, Proposition 218 establishes new procedural requirements for fees, charges, and benefit assessments.

Although the District's annual service charges are generally collected on the property tax rolls, the District's service charges are not "taxes." Service charges are distinct from the regular one percent (1%) property tax and property tax debt override in that assessment rates are not levied on an ad valorem basis. The service charges contained in this report are considered assessments under Proposition 218.

Proposition 218 procedures stipulate that even if charges or benefit assessments are initially exempt from Proposition 218, future increases in the charges or benefit assessments must comply with the provisions of Proposition 218. However, if the future increase in the charge or benefit assessment were anticipated in the charge or benefit assessment formula when approved by property owners (e.g., consumer price index increases or a predetermined cap), then the future increase in the charge or benefit assessment would be in compliance with the intent and provisions of Proposition 218.

Proposition 218 provides that "only special benefits are assessable" and defines a special benefit as a particular and distinct benefit conferred on real property and not a general benefit received by the public at large. Parcels located within the boundaries of the CSA will be charged for the operation, maintenance, and capital replacement costs associated with street lighting improvements as described herein, if they receive a special and direct benefit from the improvements. Furthermore, the identification and separation of general benefits from the special benefits follows for CSA L-100.

In the absence of the annual service charge, the street light improvements within CSA L-100 would not be provided, therefore the enhanced public services provided within CSA L-100 confer a special benefit on the properties within the boundaries of CSA L-100 because only the parcels located within the boundaries of the CSA are served. Without the services, the property located in the unincorporated area would receive no street lighting and no special benefits. Therefore, the services in CSA L-100 are 100 percent special benefit to the parcels within the CSA.

Special benefits conferred on property within the CSA from the public street lighting improvements include:

- Providing for safe vehicular and pedestrian access to property,
- Providing improved livability, appearance, and desirability of property within the CSA, and
- Providing safety and security to property due to enhanced illumination of the property.

Properties outside of CSA L-100 do not enjoy the close proximity to the street light improvements provided by the CSA and therefore property outside the boundaries of the CSA do not receive the special benefits. Although these improvements may be available to the public at large, the public street lighting within the CSA was specifically designed, located, and created to provide additional and improved public resources for the direct advantage of property inside the CSA, and not the

public at large. The boundaries of the CSA have been narrowly drawn to include only those parcels that receive a direct advantage from the improvements.

In addition to the special and direct benefits the property owners receive within the CSA from the street lighting improvements, it has been determined that no general benefits are associated with street lighting within CSA L-100. Furthermore, any benefits conferred by the street lights to the public at large are considered to be incidental, negligible, and non-quantifiable benefits. The street light improvements described herein within this report, confer special benefits that affect the assessed property in a way that is distinct from their effects on other parcels and which real property in general and the public at large do not share.

Methodology

The total operation and maintenance costs for the extended public services are apportioned in accordance with the methodology that is consistent with standard practices.

The proper functioning of street lighting is imperative for the welfare and safety of the property owners throughout the County. Proper operation, maintenance, and servicing of a street-lighting system benefits properties by providing increased illumination for ingress and egress, safety for traveling at night, improved security, protection of property and the reduction of traffic accidents.

The degree of benefit is determined by the use of each individual parcel, the intensity of illumination provided, the number of pedestrians generated, and the enhanced security during hours of darkness. The method for distributing the costs to each parcel is based on the Equivalent Dwelling Unit (EDU) factor. The single-family residential parcel is considered one unit of benefit (1.00 EDU). All other land uses have been analyzed to determine the benefit they receive from the intensity of illumination provided, the number of pedestrians generated by their property and the enhanced security to their property during hours of darkness.

The single-family residential parcel has been selected as the basic unit for the calculation of service charge since it represents approximately 72 percent of the parcels within the County. Therefore, the single-family residential parcel is defined as one Equivalent Dwelling Unit (EDU). The methodology used to assign EDUs to the land uses in proportion to the benefit they receive relative to the single family residential parcel is based on the intensity of the street lighting illumination adjacent to the parcel, the amount of pedestrian traffic generated from the parcel, and the security received from the street lighting to the parcel.

charge was \$110,824.84 for Fiscal Year 2020-2021 and will be \$112,561.78 in Fiscal Year 2021-2022. This increase is based on the change in the Consumers Price Index (CPI) for the San Francisco Bay Area (All Urban Consumers). The annual service charges for CSA M-28 will be levied on one parcel in Fiscal Year 2021-2022.

BACKGROUND:

Since 1991 CPI for the San Francisco Bay Area (All Urban Consumers) and the costs to operate and maintain the water supply system improvements have increased; however the charge rate remained constant until Fiscal Year 2007-2008. In Fiscal Year 2007-2008 the charge rate was increased per parcel with an allowance for an adjustment each subsequent year based upon the All Urban Consumers CPI.

On June 8, 2021, the Board of Supervisors conducted a public hearing and adopted Resolution No. 2021/142 confirming the Fiscal Year 2021-2022 Tentative Annual Report on proposed service charges for CSA M-28. CSA M-28 provides continued operation and maintenance of a water supply system.

On July 1, 2021, the County Assessor released the official assessment roll for Contra Costa County for Fiscal Year 2021-2022. Thereafter, pursuant to Section 1012-2.612 of the County Ordinance Code, the Public Works Director directed staff to determine whether the Tentative Annual Report required revision to conform to the official assessment roll. Any change to an estimated basic service charge or estimated service charge notated in the Tentative Annual Report may only be accommodated as a result of changes in ownership, changes of address, the subdivision of an existing parcel or changes in the use code of a parcel. Upon review of the official assessment roll, staff determined that no revisions were required. The Tentative Annual Report is the Final Annual Report.

The service charges in the Final Annual Report are higher than the charges levied in Fiscal Year 2020-2021 because they incorporate an automatic adjustment approved by the property owner in CSA M-28 in 2007. The annual adjustment provision allows for an increase each year based upon the change in the CPI for the San Francisco Bay Area (All Urban Consumers). For Fiscal Year 2021-2022 the increase is 1.57% over the Fiscal Year 2020-2021 service charge rates. The Board approved this provision on August 7, 2007.

The Board may confirm the Final Annual Report by resolution. Resolution No. 2021/199 serves to confirm the Final Annual Report and constitutes the levy of the service charge for Fiscal Year 2021-2022.

CONSEQUENCE OF NEGATIVE ACTION:

If a resolution confirming the Fiscal Year 2021-2022 Final Annual Report is not adopted, service charges for CSA M-28 would not be levied or collected in Fiscal Year 2021-2022 and CSA M-28 would be unable to provide continued operation and maintenance of a water supply system and an alternate source of funding would have to be identified.

BACKGROUND INFORMATION

The Willow Mobile Home Park is located on Bethel Island and consists of one (1) 23-acre parcel that includes 172 mobile homes. In order for safe water services to be provided, it was recommended that a Community Service Area (CSA) be formed.

On December 10, 1991, the Contra Costa Board of Supervisors approved County Resolution 91/807 which formed CSA M-28 (Willow Mobile Home Park Water District). CSA M-28 was formed pursuant to the County Service Area Law to ensure the proper flow of funds for the ongoing operation, maintenance, and servicing of community water system services within the Bethel Island Area.

CSA M-28 has been given the power to acquire, construct, operate, replace, maintain, and repair a water supply and distribution system as authorized by California Government Code Section 25210.4(d) and 25120.4a(1). The funding for CSA M-28 comes from service charges which are obtained from the users of the water system, in accordance with former Government Code Section 25210.77a, Government Code Section 25210.9 and County Ordinance Section 1012-2.6.

CSA M-28 owns and operates a well and a reverse osmosis (RO) system. Water is pumped from the well and is treated through a RO system. The treated water is stored in a 20,000 gallon tank. From the tank, the water is supplied via a single point to the Willow Mobile Home Park.

In October 2014, a town hall meeting was held at the Willow Mobile Home Park to discuss the future of CSA M-28. The main issue discussed was that the existing aging RO system was becoming more expensive to maintain and in need of significant capital improvements. The cost of maintaining this system exceeded the annual funding available. Without a major investment, it was anticipated that the RO system will fail eventually. Alternatives were introduced (status quo, increase service charge to pay for the necessary improvements, connect to Diablo Water District, and request State waiver for secondary standards). It appeared that the majority of the residents at the meeting preferred CSA M-28 to move toward reduction in service by requesting a waiver for secondary standards from the State. This alternative included removing the RO system and providing the minimum allowable water treatment.

By removing the RO treatment, the water would only meet the primary standards and would meet most, but not all, of the secondary standards. CSA M-28 would seek a waiver from the State for the secondary standards. Of all the alternatives presented at the town hall meeting, reducing water treatment allows the rate to be the lowest. It will also allow each individual mobile home to decide what type of treatment they prefer. Whereas, maintaining a more expensive community treatment system, such as the RO, forces everyone to pay for the same level of treatment.

Subsequent to the town hall meeting, on December 16, 2014, the Board of Supervisors authorized a vote by the parcel owner. CSA M-28 requested the mobile home park owner, the single rate payer to CSA M-28, to vote if he would be willing to pay a higher rate to fix the existing RO system or reject the rate increase and move toward reduced services. The mobile home park owner informed the County that he took a survey of the mobile home park residents and his survey indicated the mobile home park residents wanted him to vote against the rate increase. In early

Fiscal Year 2021-2022***

2015, the mobile home park owner submitted his ballot and voted against a rate increase. On March 3, 2015, the ballot was opened and the Board determined that there was a majority protest against a rate increase and directed staff to seek a waiver from the State.

Based on the vote to reject the rate increase, CSA M-28 began the process to move toward reducing the water treatment service. As required by the regulations to obtain the waiver for secondary standards, CSA M-28 contracted with a consultant to provide the necessary report.

In late 2015, when staff visited the CSA M-28's facility to perform a site review and obtain test samples, it was discovered that the RO system was not operating. The previous operator had turned off the RO system without informing CSA M-28 staff. The site review revealed that the water from the well was bypassing the RO system. However, the previous operator did install a chlorination system. Although the water had not gone through the RO system, the water did receive treatment. This revised system is similar to CSA M-28's proposal to the State to replace the RO system.

Despite the fact that the revised system is similar to what the CSA M-28 staff planned to present to the State, the unilateral decision to make the changes and lack of communication by the previous operator were not acceptable to CSA M-28. CSA M-28 staff directed test samples to be taken by the consultant to make sure the water complied with the primary standards. It was anticipated that the water would comply with primary standards because historically the raw water from the well has complied. This is the reason why a reduced service was a viable option being considered in 2014 when the County met with the residents. The consultant subsequently reported that the water under the revised system complied with the primary standards. CSA M-28 staff also replaced the operator. Lastly, CSA M-28 staff communicated with County Environmental Health, the regulatory agency, of the discovery and the actions taken.

Changes at CSA M-28 have resulted in a new system operator and movement toward the same goals as discussed at the town hall meeting:

- 1) Obtain waiver from regulatory agency,
- 2) Reduce the level of community water treatment, and
- 3) Allow each resident to establish the appropriate system at their own mobile home.

In Fiscal Year 2015-2016, CSA M-28 made improvements to the aging system and infrastructure. Some of the improvements completed included the upgrade of the auto-dialer alarm system, installation of a flow-based chlorine injection pump system, and installation of new wiring to the well pump. In Fiscal Year 2016-2017, CSA M-28 also replaced the existing well pump and upgraded its emergency response options by entering into an agreement with a nearby water district and contract with a water delivery/hauling company, to supply water to the Willow Mobile Home Park during emergency events.

In Fiscal Year 2016-2017 a draft study was completed per state requirement in order to obtain a waiver. Some of the tasks completed in this study included; conducting additional water samples and analyzing additional alternatives. Future tasks will include compiling additional survey data, meeting with the State, and constructing some capital improvements.

***CSA M-28 Willow Mobile Home Park Water District Final Annual Report
Fiscal Year 2021-2022***

In Fiscal Year 2017-2018 task orders were issued to the consultant for the preparation of a design memorandum, which documents the design philosophy for the proposed modifications, and design plans and specifications. The design memorandum was completed in January of 2020.

CSA M-28 has implemented several improvements to the facility in Fiscal Years 2018-2019 and 2019-2020 to make operations and maintenance more resilient and sustainable. These improvements include:

- Installation of a double-contained and seismically-restrained sodium hypochlorite tank with a 50-gallon reservoir capacity to assure sustained operation;
- Purchase of a second sodium hypochlorite dispensing pump as a backup;
- Purchase of a spare parts kit for the primary sodium hypochlorite dispensing pump to assure continuous operations and quick repairs;
- Improvements to electrical service to improve operational resilience; and
- Installation of a water flow meter to accurately measure the amount of groundwater pumped.

In Fiscal Year 2020-2021, CSA M-28 installed an emergency generator connection to the aging water treatment system so that a generator can be used to provide electrical power in case of a power outage or emergency. Facility improvements are ongoing and will continue in 2021.

There has not been any impact to the operations of CSA M-28 due to COVID-19.

CURRENT ANNUAL ADMINISTRATION

Pursuant to County Ordinance Section 1012-2.6, former County Service Area Law (California Government Code Section 25210.77a), and current County Service Area Law (California Government Code Section 24210.3, subd. (d)), the Tentative Annual Report has been filed with the Clerk of the Board of Supervisors, public notice has been completed as required, and the Board will conduct a Public Hearing and then make a determination on each estimated service charge in the tentative report. Contra Costa Board of Supervisors reviewed the Tentative Annual Report in accordance with Resolution No. 2021/142, on June 8, 2021, and conducted a Public Hearing in connection with the proceedings for CSA M-28.

Upon adoption of the Final Annual Report by the Board of Supervisors, the charges contained herein will be collected on the property tax roll of Contra Costa County in the same manner, by the same persons, at the same time as, and together with the County's property taxes.

Legal Authority

As required by County Ordinance Section 1012-2.6, former County Service Area Law (California Government Code Section 25210.77a), and current County Service Area Law (California Government Code Section 24210.3, subd. (d)), the Final Annual Report includes the following minimum information as shown in the Service Charge Roll:

1. A description of each parcel of real property receiving the miscellaneous extended service;
2. The basic service charge;
3. The estimated amount of the service charge for each parcel for such year; and
4. A parcel list identifying each parcel receiving services that allows parcel owners to find their property on the list and determine the proposed charge.

This annual report also includes an estimate of annual costs and the method of apportionment as additional information to allow the reader to better understand what services are being paid for, what is the total annual cost for the services provided, and how the cost of services is spread to each individual parcel.

ESTIMATE OF ANNUAL COST

The Fiscal Year 2020-2021 projected and Fiscal Year 2021-2022 proposed revenues and expenditures for CSA M-28 are shown on the following page. A special fund has been set up for the collection of revenues and coding of expenditures for CSA M-28. The total cost of construction, operation, and maintenance and servicing of the water system can be recovered from the collection of charges. Incidental expenses including administration, engineering fees, legal fees, and all other costs associated with the construction, operation and maintenance, and servicing of the water system may also be included.

When CSA M-28 was formed, a financial analysis was performed to provide the framework for an operating budget for the proposed operation, maintenance and servicing of extended community water system services. Revenues collected from the charge shall be used only for the expenditures represented in this report. Any balance remaining on July 1 at the end of the fiscal year must be carried over to the next fiscal year.

In Fiscal Year 2021-2022, CSA M-28 plans to continue the efforts to obtain the waiver from the State. Obtaining the waiver from the State is a significant effort that may include taking additional water samples, analyzing additional alternatives, compiling additional survey data, meeting with the State, etc. All the information gathered will be documented in an Engineer's Report and presented to the State.

BOUNDARY MAP

The general boundaries of the CSA are shown herein. The lines and dimensions of each parcel within the CSA are those lines and dimensions shown on the maps of the Contra Costa County Assessor for the year in which this report was prepared and are incorporated by reference herein and made part of this report.

A copy of the Boundary Map is shown on the following page.

Contra Costa County Service Area (CSA) M-28 (Willow Mobile Home Park Water District) Boundary Map

METHOD OF APPORTIONMENT

Special vs. General Benefit

On November 5, 1996, California voters approved Proposition 218 entitled "Right to Vote On Taxes Act" which added Articles XIIC and XIID to the California Constitution. While its title refers only to taxes, Proposition 218 establishes new procedural requirements for fees, charges, and benefit assessments.

Proposition 218 procedures stipulate that even if charges or benefit assessments are initially exempt from Proposition 218, future increases in the charges or benefit assessments must comply with the provisions of Proposition 218. However, if the future increase in the charge or benefit assessment were anticipated in the charge or benefit assessment formula when approved by property owners (e.g., consumer price index increases or a predetermined cap) then the future increase in the charge or benefit assessment would be in compliance with the intent and provisions of Proposition 218.

Proposition 218 provides that "only special benefits are assessable" and defines a special benefit as a particular and distinct benefit conferred on real property and not a general benefit received by the public at large. Parcels located within the boundaries of the CSA will be charged for the operation, maintenance, and capital replacement associated with the water system serving the Bethel Island community, as described herein within the report, if they receive a special and direct benefit from the services. Furthermore, the identification and separation of general benefits from the special benefits follows for CSA M-28.

Special benefits are conferred on property within the CSA from the water system by enhancing the desirability of property within the CSA due to lower costs associated with the treatment of drinking water, removing contaminants from the water being provided to the property, increases in health and wellness, and an improved quality of life.

Properties outside of CSA M-28 are not served by the water system being operated and maintained from service charge revenues, therefore property outside the boundary of the CSA do not receive special benefits. The services within the CSA was specifically designed and created to provide additional and improved public resources for the direct advantage of property inside the CSA, and not the public at large.

In addition to the special and direct benefits the property owners receive within the CSA from the water system, it has been determined that no general benefits are associated with the water system provided within CSA M-28 because the conferred special benefits that are provided to the charged property are not provided to property outside of the CSA or the public at large.

The annual service charges pay for the operation of the water system provided within CSA M-28. The enhanced water system provided to property within CSA M-28 confer a special benefit and only serve those parcels within the boundary of the CSA. Without the services, the property located in the unincorporated area would not have a localized water system to treat their water. Therefore, the services in CSA M-28 are 100% special benefit to the parcels within the CSA.

**CSA M-28 Willow Mobile Home Park Water District Final Annual Report
Fiscal Year 2021-2022**

Methodology

The total operation and maintenance costs for the extended public services are apportioned in accordance with the methodology that is consistent with standard practices.

The maximum charge rate was previously set at \$75,300 per parcel (1991 dollars). Since 1991 the Consumer Price Index (CPI) for the San Francisco Bay Area All Urban Consumers and the costs to operate and maintain the improvements increased, however the charge rate remained constant until Fiscal Year 2007-2008. In Fiscal Year 2007-2008 the charge rate was increased to \$79,818 per parcel with an allowance for an increase each subsequent year based upon the San Francisco Bay Area – All Urban Consumers as of April 2007 (215.842).

Due to an aging system, the cost of operating and maintaining water facilities continues to increase. It was proposed in Fiscal Year 2010-2011 that the charge rate be increased to \$95,500 per parcel (8.5% increase). However, this increase was not supported by the property owner, and therefore the 8.5% increase was not imposed.

The cost of operating and maintaining water facilities continues to increase, due to an aging system. A rate increase was proposed again in Fiscal Year 2014-2015, so that the charge rate be increased from \$91,937 to \$335,939 per parcel. However, this increase was not supported by the property owner, and therefore the increase was not imposed.

Rate

The February 2021 CPI Index is 304.387, therefore the maximum rate for Fiscal Year 2021-2022 can be increased 1.57% to \$112,561.79 per parcel. CSA M-28 proposes to levy charges at the maximum rate for Fiscal Year 2021-2022.

In Fiscal Year 2021-2022, it is recommended based upon projected expenditures, that the maximum rate of \$112,561.79 per parcel be collected. The estimated \$112,561.79 in revenue will be needed to provide the services referenced above in Fiscal Year 2021-2022. There is one parcel that is included in the CSA. If the charge of \$112,561.79 is divided by one (1) parcel, the service charge per parcel is \$112,561.79.

SERVICE CHARGE ROLL

A list, which shows the parcel to be charged for Fiscal Year 2021-2022, including a description of the parcel to be charged is shown below.

lighting services. The CSA M-30 total annual service charge was \$55,328.80 for Fiscal Year 2020-2021 and will be \$57,320.00 in Fiscal Year 2021-2022. This increase is based on the approved annual escalator outlined in the CSA M-30 formation documents. The annual escalator is equal to the annual change in the Consumer Price Index (CPI) for the San Francisco Bay Area (All Urban Consumers) plus two (2) percent. There are 40 developed parcels in the CSA. The service charge per parcel for CSA M-30 was \$1,383.22 for Fiscal Year 2020-2021 and will be \$1,433.00 for Fiscal Year 2021-2022.

BACKGROUND:

The maximum service charge may be adjusted annually to reflect the prior year's change in the Consumer Price Index (CPI) for All Urban Consumers plus two percent (2%).

On June 8, 2021, the Board of Supervisors conducted a public hearing and adopted Resolution No. 2021/143 confirming the Fiscal Year 2021-2022 Tentative Annual Report on proposed service charges for CSA M-30. CSA M-30 provides police services, park and roadside landscape maintenance, public street maintenance and street lighting services.

On July 1, 2021, the County Assessor released the official assessment roll for Contra Costa County for Fiscal Year 2021-2022. Thereafter, pursuant to Section 1012-2.612 of the County Ordinance Code, the Public Works Director directed staff to determine whether the Tentative Annual Report required revision to conform to the official assessment roll. Any change to an estimated basic service charge or estimated service charge notated in the Tentative Annual Report may only be accommodated as a result of changes in ownership, changes of address, the subdivision of an existing parcel or changes in the use code of a parcel. Upon review of the official assessment roll, staff determined that no revisions were required. The Tentative Annual Report is the Final Annual Report.

The Board may confirm the Final Annual Report by resolution. Resolution No. 2021/200 serves to confirm the Final Annual Report and constitutes the levy of the service charge for Fiscal Year 2021-2022.

CONSEQUENCE OF NEGATIVE ACTION:

If a resolution confirming the Fiscal Year 2021-2022 Final Annual Report is not adopted, service charges for CSA M-30 would not be levied or collected in Fiscal Year 2021-2022. Therefore, CSA M-30 would be unable to provide police services, park and roadside landscape maintenance, public street maintenance and street lighting services and an alternate source of funding would have to be identified.

BACKGROUND INFORMATION

In August 1989, the Town of Danville (“Town”) and the County of Contra Costa (“County”) entered into a Memorandum of Agreement to undertake a joint-jurisdiction General Plan and project review for the Alamo Springs Project (“Project”), which is located north of Interstate 680 off Alamo Springs Drive. The project originally provided for the development of 53 single-family homes, of which 11 were to be located within the Town of Danville and 42 were to remain in the unincorporated portion of Contra Costa County.

After certification of an Environmental Impact Report (EIR) for the Project, the Board of Supervisors on December 8, and 15, 1992, approved the Project. The unincorporated area of the Project was simultaneously rezoned to a planned unit development. On January 23, 1996, the Town and County entered into a new Memorandum of Agreement, superseding the August 1989 Memorandum of Agreement, to establish procedures for joint review and approval of the project.

During the planning process, it was decided that the Town would provide extended services in the form of police, public street maintenance, park and roadside landscape maintenance to the homes in the unincorporated area. Public Street lighting would be provided by Contra Costa County. It was decided that a benefit assessment or service charge collected on the property tax bills via a County Service Area (CSA) was the best funding mechanism to pay for the increased services.

On September 3, 1997, Danville Town Council adopted Resolution No. 124-97, requesting Contra Costa County Local Agency Formation Commission (“LAFCO”) approve formation of County Service Area (CSA) M-30. On November 17, 1997, LAFCO approved formation of CSA M-30.

On May 5, 1998, the Board of Supervisors conducted a public hearing and subsequently approved Resolution 1998/235, which authorized the annual levy of service charges on the parcels located within CSA M-30 to fund extended public services.

The services provided by CSA M-30 are:

1. **Police Services.** All police services provided to residents by Town police, including without limitation, community services, crime prevention, investigation, patrol, and traffic enforcement.
2. **Park and Roadside Landscape Services.** All park and roadside landscape services provided to residents including without limitation, maintenance of parks and other public facilities, such as the Danville Library and Community Center, and maintenance of all roadside and median landscaping.
3. **Public Street Maintenance.** All public street maintenance, including without limitation, repair and replacement of asphalt on public streets, crack sealing, and other maintenance measures to protect and prolong the life of the public streets, repair and replacement of street signs, stop signs, etc.
4. **Street Lighting.** The operation, maintenance and servicing of public streetlights and appurtenant facilities as required to provide safe lighting along public streets. Maintenance is provided by Contra Costa County.

There has not been any impact to the operations of CSA M-30 due to COVID-19.

CURRENT ANNUAL ADMINISTRATION

Pursuant to County Ordinance Section 1012-2.6, former County Service Area Law (California Government Code Section 25210.77a), and current County Service Area Law (California Government Code Section 24210.3, subd. (d)), the Tentative Annual Report has been filed with the Clerk of the Board of Supervisors, public notice has been completed as required, and the Board conducted a Public Hearing and then made a determination on each estimated service charge in the tentative report. The Board of Supervisors reviewed the Tentative Annual Report in accordance with Resolution No. 2021/143, on June 8, 2021, and conducted a Public Hearing in connection with the proceedings for CSA M-30.

Upon adoption of the Final Annual Report by the Board of Supervisors, the charges contained herein will be collected on the property tax roll of Contra Costa County in the same manner, by the same persons, at the same time as, and together with the County's property taxes.

Legal Authority

As required by County Ordinance Section 1012-2.6, former County Service Area Law (California Government Code Section 25210.77a), and current County Service Area Law (California Government Code Section 24210.3, subd. (d)), the Final Annual Report includes the following minimum information as shown in the Service Charge Roll:

1. A description of each parcel of real property receiving the miscellaneous extended service;
2. The basic service charge;
3. The estimated amount of the service charge for each parcel for such year; and
4. A parcel list identifying each parcel receiving services that allows parcel owners to find their property on the list and determine the proposed charge.

This annual report also includes an estimate of annual costs and the method of apportionment as additional information to allow the reader to better understand what services are being paid for, what is the total annual cost for the services provided, and how the cost of services is spread to each individual parcel.

ESTIMATE OF ANNUAL COST

The Fiscal Year 2020-2021 projected and Fiscal Year 2021-2022 proposed revenues and expenditures are shown below. A special fund has been set up for the collection of revenues and coding of expenditures for CSA M-30. Incidental expenses including administration, engineering fees, legal fees, and all other costs associated with the extended services may also be included.

When CSA M-30 was formed, a financial analysis was performed to provide the framework for an operating budget for the proposed services. This analysis was based on the estimated expenses for each service component (police, parks, roadside landscape, street maintenance, and street lighting). Revenues collected from the benefit assessment or service charge shall be used only for the expenditures represented in this report. Any balance remaining on July 1 at the end of the fiscal year must be carried over to the next fiscal year.

BOUNDARY MAP

The general boundaries of the CSA are shown herein. The lines and dimensions of each parcel within the CSA are those lines and dimensions shown on the maps of the Contra Costa County Assessor for the year in which this report was prepared and are incorporated by reference herein and made part of this report.

METHOD OF APPORTIONMENT

Special vs. General Benefit

On November 5, 1996, California voters approved Proposition 218 entitled "Right to Vote On Taxes Act" which added Articles XIII C and XIII D to the California Constitution. While its title refers only to taxes, Proposition 218 establishes new procedural requirements for fees, charges and benefit assessments.

Proposition 218 procedures stipulate that even if charges or benefit assessments are initially exempt from Proposition 218, future increases in the charges or benefit assessments must comply with the provisions of Proposition 218. However, if future increases in the charge or benefit assessment were anticipated in the charge or benefit assessment formula when approved by property owners (e.g., consumer price index increases or a predetermined cap) then the future increase in the charge or benefit assessment would be in compliance with the intent and provisions of Proposition 218.

Proposition 218 provides that "only special benefits are assessable" and defines a special benefit as a particular and distinct benefit conferred on real property and not a general benefit received by the public at large. The extended public services provided within CSA M-30 are deemed a special benefit and only serve the parcels located within the boundaries of the District. Without the services, the homes located in the unincorporated area would receive standard County police services, limited park and roadside landscape services, limited public street maintenance, and no County public street lighting. Standard County police services are characterized by 1.1 officers per 1,000 residents, and traffic enforcement would be provided by the California Highway Patrol on an as requested basis. Therefore, the services in CSA M-30 are 100% special benefit to the parcels within the CSA.

Methodology

The total operation and maintenance costs for the extended public services are apportioned in accordance with the methodology that is consistent with standard practices.

Since the service charge is levied on the owners of properties as shown on the tax rolls, the final charges must be assigned by Assessor's Parcel Number. The parcels of the Project that make up CSA M-30 are all designated for residential use. The projects Covenants, Conditions and Restrictions (CC&R's) require that most parcels be developed with a main residential unit of at least 3,500 square feet. While the parcel sizes vary, they all have substantially the same size building pads. It is anticipated that homes built on these lots will be similar in size and that the size of families who live in these homes will be similar. For these reasons, the need for, and the use of each of the services (miscellaneous police, park and roadside landscaping maintenance, public street maintenance and County public street lighting) will be substantially the same for each parcel. Therefore, the same service charge will be levied on each developed parcel within CSA M-30. In order for a parcel to be classified as developed, a building permit must be issued prior to April 30.

***CSA M-30 Alamo Springs Final Annual Report
Fiscal Year 2021-2022***

The methodology for calculating the service charge per parcel for each of the services is similar. In Fiscal Year 1997-98 the service charge per parcel was set at \$467.13 per parcel. To determine the cost per parcel, the total budget for providing service to the current service area was divided by the total number of parcels or units within the current service area. Please refer to Contra Costa County Resolution 1998-235 for a detailed report that includes the initial calculation of this service charge.

The maximum service charge may be adjusted annually to reflect the prior year's change in the Consumer Price Index (CPI) for All Urban Consumers for San Francisco-Oakland-San Jose plus two percent (2%). The base CPI index used in annual calculations began with April 1997 (159.6). However, starting in Fiscal Year 2010-2011, the annual CPI was changed to February for administrative purposes and the annual change in the February CPI shall be used in each subsequent year. Any change in the rate per developed parcel, which is the result of the change in the CPI shall not be deemed an increase in the service charge subject to the requirements of Proposition 218.

Rate

For Fiscal Year 2020-2021 the allowed maximum rate was \$1,383.22 per developed parcel. The Fiscal Year 2021-2022 rate has been calculated as follows:

\$1,383.22 per developed parcel in Fiscal Year 2020-2021
+1.57% CPI increase for FY 2021-2022 = \$1,404.90
+2.00% increase for FY 2021-2022 = \$1,433.00.

In Fiscal Year 2021-2022, it is recommended, based upon projected expenditures, that the maximum rate of \$1,433.00 be collected. It is estimated \$57,320.00 in revenue will be needed to provide the services referenced above in Fiscal Year 2021-2022. There are 40 parcels that have had a building permit issued. If you divide \$57,320.00 by 40 homes, the service charge per parcel is \$1,433.00.

FISCAL IMPACT: (CONT'D)

Year 2020-2021 and will be \$350,796.94 in Fiscal Year 2021-2022. This increase is based on the change in the Consumer Price Index (CPI) for the San Francisco Bay Area (All Urban Consumers). The service charges for CSA M-31 were \$75.41/developed residential unit and \$0.1327 per developed commercial square foot in Fiscal Year 2020-2021. The service charges for CSA M-31 are \$76.59/developed residential unit and \$0.1348 per developed commercial square foot in Fiscal Year 2021-2022.

BACKGROUND:

The maximum service charges may be adjusted annually to reflect the prior year's change in the Consumer Price Index (CPI) for All Urban Consumers.

On June 8, 2021, the Board of Supervisors conducted a public hearing and adopted Resolution No. 2021/144 confirming the Fiscal Year 2021-2022 Tentative Annual Report on proposed service charges for CSA M-31. CSA M-31 provides transportation demand management services.

On July 1, 2021, the County Assessor released the official assessment roll for Contra Costa County for Fiscal Year 2021-2022. Thereafter, pursuant to Section 1012-2.612 of the County Ordinance Code, the Public Works Director directed staff to determine whether the Tentative Annual Report required revision to conform to the official assessment roll. Any change to an estimated basic service charge or estimated service charge notated in the Tentative Annual Report may only be accommodated as a result of changes in ownership, changes of address, the subdivision of an existing parcel or changes in the class or land use of a parcel. Upon review of the official assessment roll, staff determined that no revisions were required. The Tentative Annual Report is the Final Annual Report.

The Board may confirm the Final Annual Report by resolution. Resolution No. 2021/201 serves to confirm the Final Annual Report and constitutes the levy of the service charge for Fiscal Year 2021-2022.

CONSEQUENCE OF NEGATIVE ACTION:

If a resolution confirming the Fiscal Year 2021-2022 Final Annual Report is not adopted, service charges for CSA M-31 would not be levied or collected in Fiscal Year 2021-2022. Therefore, the District would be unable to provide transportation demand management services and an alternate source of funding would have to be identified.

BACKGROUND INFORMATION

In 2002 it was recognized that the area commonly known as Contra Costa Centre Transit Village, in the unincorporated portion of Contra Costa County, would be redeveloped, creating a need for new transit services. Contra Costa Centre Transit Village is located east of Interstate 680.

The Contra Costa Centre Transit Village benefits residents and employees with a variety of travel mode options. A core element of the travel mode options for residents and employees, and a key traffic mitigation measure in the California Environmental Quality Act (CEQA) documents certified at the time of adoption and amendment of the Contra Costa Centre Transit Village Specific Plan, was the establishment of Transportation Demand Management (TDM) programs. TDM programs include carpooling, vanpooling, ridesharing, flex time, staggered work hours, guaranteed ride home, telecommuting, etc. The property owners within Contra Costa Centre Transit Village collectively had a mandate to achieve at least 30% TDM performance (i.e. 30% or more of the area employees arrive at work via something other than a single-occupied car).

The Contra Costa Centre Transit Village Association is the collective mechanism by which the developer/property owner's obligation for TDM programs is achieved. The Contra Costa Centre Transit Village Association is a private non-profit corporation whose membership consists of the property owners in the area. It has been in existence since the mid-1980s.

On April 23, 2002, the Board of Supervisors approved Resolution Nos. 2002/256 and 2002/257 which recommended to the Local Agency Formation Commission of Contra Costa County (LAFCO) the formation of County Service Area (CSA) M-31, Contra Costa Centre Transit Village.

The properties within CSA M-31 receive a special and distinct benefit over and above the general benefits received by the public at-large in the form of extended TDM services. These extended transportation services consist of the implementation of TDM programs as discussed in this report and in the Plan for Providing Services for CSA M-31, which is on file with LAFCO. Resolution 2002/256 further stated that CSA M-31 services should be supported by a benefit assessment, service charge or special tax levy on parcels that receive this special and distinct benefit from the CSA M-31 services.

On June 11, 2002, the Board of Supervisors conducted a public hearing and subsequently approved Resolution 2002/362 which authorized the annual levy of benefit assessments or service charge on the parcels located within CSA M-31 to fund TDM programs.

On July 10, 2002, LAFCO conducted a public hearing and subsequently approved Resolution 02-19 which formed CSA M-31.

For each year since Fiscal Year 2002-2003, benefit assessments or service charges have been levied within CSA M-31.

On June 3, 2008, by Resolution No. 2008/366, the Board of Supervisors approved the annexation of Subdivision 05-8950 (Pleasant Hill BART Redevelopment Property) into CSA M-31. This annexation was subsequently approved by LAFCO Resolution 08-19 on August 13, 2008.

The following is a list of programs and services that have been proposed to be funded in Fiscal Year 2021-2022 by CSA M-31:

- 1) Transit Subsidy Program: Load on Clipper card \$50 value BART fare for \$20. Must pledge to take BART to work a minimum of three days per week.
 - 80 participants for nine months
- 2) Carpool Incentive Program: Provide two \$15 Chevron gas cards per carpool per month for nine months.
 - 20 participants for nine months
- 3) Bus Subsidy Program: Purchase a \$60 value monthly County Connection bus pass or reimbursement of other transit bus pass for \$30.
 - 15 participants for nine months
- 4) Bike/Walk to Work Incentive Program: Bike or walk to work at least three times per week per month, a minimum of 12 times each month, and receive a \$15 voucher.
 - 10 participants for nine months
- 5) Guaranteed Ride Home Program: This program is managed by Contra Costa Centre Transit Village. The program is an “insurance policy” against being stranded without a way to get home for commuters who take a commute alternative (carpool, vanpool, public transit, bicycle or walk) to work and have a qualified emergency which does not allow them to use the commute alternative to return home.
- 6) Mid-Day Shuttle: The mid-day shuttle, a clean air natural gas shuttle, runs from 10:30 a.m. – 2:10 p.m., Monday through Friday, with stops at all Centre buildings between the Contra Costa Centre Transit Village, the Countrywood Shopping Mall and Kohl’s, free of charge.
- 7) Green Fleet Program: The Contra Costa Centre Transit Village (CCCTV) provides employees with access to local vehicles (e.g. bicycles, electric bicycles, electric and hybrid cars) to use through the Contra Costa Centre Transit Village and vicinity during the workday. Employees are able to check-out vehicles online or electronically at various kiosk locations. The Green Fleet programs are free to CCCTV employees.
- 8) Marketing Plan: The Contra Costa Centre Transit Village markets the program through newsletters, posters, brochures and promotional handouts. Additionally, they meet with employers and employees directly, and host events and transportation fairs to ensure Centre area workers are informed of the various commute alternatives, subsidies and incentives available to them through the Contra Costa Centre Transit Village TDM Program.

These TDM services may be amended annually, including the addition or deletion of the services as required to meet the 30% TDM performance goal as determined by Contra Costa County in consultation with the Contra Costa Centre Association or its successor.

COVID-19 Impact

Contra Costa Centre Association closed TDM services on March 16, 2020 to comply with the Contra Costa County Health Officer Order regarding COVID-19. On June 1, 2020, Contra Costa Centre Association reopened TDM services with the following procedures in place:

- Shuttle service resumed with the two seats nearest the driver roped off to provide social distancing;

- The shuttle driver will wear a mask and will disembark prior to passenger boarding to minimize contact;
- Shuttle passengers are required to wear masks;
- The shuttle driver will frequently wipe down contact surfaces with disinfectant wipes;
- The fleet of electric vehicles has been sent out for deep cleaning and subsequent users will be provided with sanitary wipes to clean contact surfaces;
- Disinfectant wipe will be provided to bicycle users;
- Issuance of transportation passes and subsidies, which formerly took place in the Contra Costa Centre office, will now take place outside the office on the sidewalk at the office entrance;
- Social distancing markers on the sidewalk will be provided to keep users at the appropriate spacing; and
- New signage will be posted in the Contra Costa Centre lobby informing users of the above-noted changes.

Based on the available reserves, CSA M-31 will be able to sustain operations and manage its budget despite the implementation of safety procedures due to COVID-19.

CURRENT ANNUAL ADMINISTRATION

Pursuant to County Ordinance Section 1012-2.6, former County Service Area Law (California Government Code Section 25210.77a), and current County Service Area Law (California Government Code Section 24210.3, subd. (d)), the Tentative Annual Report has been filed with the Clerk of the Board of Supervisors, public notice has been completed as required, and the Board conducted a Public Hearing and then made a determination on each estimated service charge in the tentative report. Contra Costa Board of Supervisors reviewed the Tentative Annual Report in accordance with Resolution No. 2021/144, on June 8, 2021, and conducted a Public Hearing in connection with the proceedings for CSA M-31.

Upon adoption of the Final Annual Report by the Board of Supervisors, the charges contained herein will be collected on the property tax roll of Contra Costa County in the same manner, by the same persons, at the same time as, and together with the County's property taxes.

Legal Authority

As required by County Ordinance Section 1012-2.6, former County Service Area Law (California Government Code Section 25210.77a), and current County Service Area Law (California Government Code Section 24210.3, subd. (d)), the Final Annual Report includes the following minimum information as shown in the Service Charge Roll:

1. A description of each parcel of real property receiving the miscellaneous extended service;
2. The basic service charge;
3. The estimated amount of the service charge for each parcel for such year; and
4. A parcel list identifying each parcel receiving services that allows parcel owners to find their property on the list and determine the proposed charge.

This annual report also includes an estimate of annual costs, the method of apportionment as additional information to allow the reader to better understand what services are being paid for, what is the total annual cost for the services provided, and how the cost of services are spread to each individual parcel.

Fiscal Year 2021-2022**

ESTIMATE OF ANNUAL COST

The Fiscal Year 2020-2021 projected and Fiscal Year 2021-2022 proposed revenues and expenditures are shown below. A special fund has been set up for the collection of revenues and the coding of expenditures for CSA M-31. The total cost to provide the TDM services can be recovered from the collection of these service charges. Incidental expenses including administration, engineering fees, legal fees, and all other costs associated with the TDM services may also be included.

When CSA M-31 was formed for the ongoing funding of the Contra Costa Centre Transit Village's TDM Program, a financial analysis was performed to provide the framework for an operating budget for the proposed extended transportation demand management services. This was based on the estimated expenses for each TDM service program component (carpooling, vanpooling, ridesharing, flex time, staggered work hours, guaranteed ride home, telecommuting, etc.). Revenues collected from the benefit assessment or service charge shall be used only for the expenditures represented in this report. Any balance remaining on July 1 at the end of the fiscal year must be carried over to the next fiscal year.

BOUNDARY MAP

The general boundaries of the CSA are shown herein. The lines and dimensions of each parcel within the CSA are those lines and dimensions shown on the maps of the Contra Costa County Assessor for the year in which this report was prepared and are incorporated by reference herein and made part of this report.

METHOD OF APPORTIONMENT

Special vs. General Benefit

On November 5, 1996, California voters approved Proposition 218 entitled "Right to Vote On Taxes Act" which added Articles XIII C and XIII D to the California Constitution. While its title refers only to taxes, Proposition 218 establishes new procedural requirements for fees, charges and benefit assessments.

Proposition 218 procedures stipulate that even if charges or benefit assessments are initially exempt from Proposition 218, future increases in the charges or benefit assessments must comply with the provisions of Proposition 218. However, if the future increase in the charge or benefit assessment were anticipated in the charge or benefit assessment formula when approved by property owners (e.g., consumer price index increases or a predetermined cap) then the future increase in the charge or benefit assessment would be in compliance with the intent and provisions of Proposition 218.

Proposition 218 provides that "only special benefits are assessable" and defines a special benefit as a particular and distinct benefit conferred on real property and not a general benefit received by the public at large. Parcels located within the boundaries of the CSA will be assessed for the operation and services associated with the TDM Program as described herein within the report, if they receive a special and direct benefit from the services. Furthermore, the identification and separation of general benefits from the special benefits follows for CSA M-31.

Special benefits are conferred on property within the CSA from the TDM Program and associated services by enhancing the desirability of property within the CSA due to the additional methods of vehicular and pedestrian access available to property, by increasing access to transit related services, providing economic opportunities, driving community growth and revitalization, and by reducing levels of traffic congestion within the CSA.

Properties outside of CSA M-31 do not enjoy the Transportation Demand Management Program and the associated services by the CSA and therefore property outside the boundaries of the CSA do not receive the special benefits. The services within the CSA was specifically designed and created to provide additional and improved public resources for the direct advantage of property inside the CSA, and not the public at large. The boundaries of the CSA have been narrowly drawn to include only those parcels that receive a direct advantage from the services.

In addition to the special and direct benefits the property owners receive within the CSA from the services, it has been determined that no general benefits are associated with TDM services within CSA M-31 because the conferred special benefits that are provided to the assessed property are not provided to other parcels and which real property in general and the public at large do not share.

The annual service charge pays for the TDM Program and associated services provided within CSA M-31. The enhanced public services provided within CSA M-31 confer a special benefit to property in the CSA. Transportation Demand Management services associated with CSA M-31 are only provided to parcels within the CSA and are not provided to the general public. Without the charges, the parcels located in the unincorporated area would receive no Transportation Demand Management Program services. Therefore, the services provided in CSA M-31 are 100% special benefit to the parcels within the CSA.

Methodology

The total operation and maintenance costs for the extended public services are apportioned in accordance with the methodology that is consistent with standard practices.

Developed Residential Property: Developed Residential Property consists of property which has had a residential building permit issued prior to April 30 and is classified by the County Assessor's office as single-family residential, multi-family residential, apartment, condominium, townhome, townhouse, co-op, cluster home, or any other type of property which has been developed for residential use for which occupants live and occupy for extended periods of time. Developed Residential Property does not include hotel and motel use.

Developed Commercial Property: Developed Commercial Property consists of property which has had a commercial building permit issued prior to April 30 and is classified by the County Assessor's office as commercial property. Developed Commercial Property includes, but is not limited to, retail stores and shopping centers, office buildings, conference centers, hotels and motels, or any other type of property which has been developed for commercial use.

Exempt Property: Exempt Property consists of property not classified as Developed Residential Property or Developed Commercial Property. However, Exempt Property does include property that has been previously classified as Developed Residential Property or Developed Commercial Property which has subsequently had the building structure located on the parcel demolished prior to April 30. This parcel would then remain as an Exempt Property until such time another building permit is issued prior to April 30 to reclassify the parcel as Developed Residential Property or Developed Commercial Property. Exempt Property also includes: parking lots, parking garages, roadways, open space and undeveloped property for which a building permit has not been issued prior to April 30.

The methodology for calculating the service charge per parcel for the Services is explained below.

Developed Residential Property - It is anticipated that not all of the TDM programs will be provided to the Developed Residential Property owners. The most viable programs to reduce the number of single occupied vehicular trips are the Shuttle Program in conjunction with the Marketing Program. The cost to provide these programs to the Developed Residential Property owners at build-out was estimated to be \$28,386.36 per year (in FY 2007-2008 dollars). Since each residential unit is similar in size and receives the same degree of benefit from the residential TDM programs, each residential unit is charged an equal share of the Residential TDM program costs. It is anticipated that there will be 522 residential units at build-out. Therefore, in Fiscal Year 2007-08 the maximum annual charge was set at \$54.38 per residential unit.

Developed Commercial Property - It is anticipated that all TDM programs will be provided to the Developed Commercial Property owners. The cost to provide these TDM services to Developed Commercial Property owners at build-out was estimated to be \$238,121.84 per year (in Fiscal Year 2007-08 dollars). For Developed Commercial Property, the amount of building floor area directly correlates to the number of potential employees located on each parcel. These total floor area numbers are used to calculate the proportional special benefit received by each Developed Commercial Parcel within the District. Building floor area is defined by the gross square footage of the buildings exclusive of parking. The building square footage is shown on the Service Charge List in the following pages and serves as the basis for calculation of the annual charges for Developed Commercial Property. It is anticipated that there will be 2,487,190 square feet of commercial development at build-out. Therefore, in Fiscal Year 2007-08 the maximum annual charge rate was set at \$0.0957 per square foot.

Service Charge Rate

The maximum charge rates may be adjusted annually to reflect the prior year's change in the Consumer Price Index (CPI) for All Urban Consumers for the Bay Area: San Francisco-Oakland-San Jose. The base CPI is June 2007 (216.123). Any change in the rate, which is the result of the change in the CPI shall not be deemed an increase in the service charge subject to the requirements of Proposition 218.

For Fiscal Year 2021-2022 the allowed maximum rate is shown below and has been calculated as follows:

The February 2021 CPI is 304.387; this is a 1.57% increase over the February 2020 CPI.

Developed Residential

\$75.41/residential unit in Fiscal Year 2020-2021
+1.57% CPI increase for FY 2021-2022 = \$76.59

Developed Commercial

\$0.13270/square foot in Fiscal Year 2020-2021
+1.57% CPI increase for FY 2021-2022 = \$0.13480

In Fiscal Year 2021-2022, it is recommended based upon projected expenditures, that the maximum rate of \$76.59/residential unit and \$0.1348/square foot be collected. It is estimated \$350,796.94 in revenue will be needed to provide the services referenced above in Fiscal Year 2021-2022.

FISCAL IMPACT: (CONT'D)

and will be \$627,149.20 in Fiscal Year 2021-2022. The increase is based on the Consumer Price Index (CPI) for the San Francisco Bay Area (All Urban Consumers). The number of parcels levied increased from 1,172 in Fiscal Year 2020-2021 to 1,187 in Fiscal Year 2021-2022. The service charge was \$466.36/developed equivalent dwelling unit in Fiscal Year 2020-2021 and will be \$475.69/developed equivalent dwelling unit in Fiscal Year 2021-2022.

BACKGROUND:

The maximum service charge may be adjusted annually to reflect 2% or the prior year's change in the Consumer Price Index (CPI) for All Urban Consumers, whichever is greater.

On June 8, 2021, the Board of Supervisors conducted a public hearing and adopted Resolution No. 2021/145 confirming the Fiscal Year 2021-2022 Tentative Annual Report on proposed service charges for CSA T-1. CSA T-1 provides public transit services.

On July 1, 2021, the County Assessor released the official assessment roll for Contra Costa County for Fiscal Year 2021-2022. Thereafter, pursuant to Section 1012-2.612 of the County Ordinance Code, the Public Works Director directed staff to determine whether the Tentative Annual Report required revision to conform to the official assessment roll. Any change to an estimated basic service charge or estimated service charge notated in the Tentative Annual Report may only be accommodated as a result of changes in ownership, changes of address, the subdivision of an existing parcel or changes in the land use code of a parcel. Upon review of the official assessment roll, staff determined that no revisions to the Tentative Annual Report were required to conform to the official assessment roll. The Tentative Annual Report is the Final Annual Report. See Attachment 1.

The Board may confirm the Final Annual Report by resolution. Resolution No. 2021/202 serves to confirm the Final Annual Report and constitutes the levy of the service charge for Fiscal Year 2021-2022.

CONSEQUENCE OF NEGATIVE ACTION:

If a resolution confirming the Fiscal Year 2021-2022 Final Annual Report is not adopted, service charges for CSA T-1 would not be levied or collected in Fiscal Year 2021-2022. Therefore, the District would be unable to provide public transit services and an alternate source of funding would have to be identified.

BACKGROUND INFORMATION

In 2008 a development project commonly known as the Integrated Project (“Project”) was permitted in the unincorporated area of Contra Costa County, just east of the Town of Danville. The project is also known as Alamo Creek/Intervening Properties Development and constitutes approximately 767 acres located south of Camino Tassajara between Hansen Lane and Finley Road.

Wilbur Smith Associates (WSA) completed a Transit Improvements Study of the Project in March 2005. The study acknowledged that a limited market for transit services and consequently a limited transit service is offered in the study area. The study concluded that a latent demand for transit could be satisfied if a regular commuter service were provided. Given the size of the Integrated Project and the workplace destination and commuting behavior of the adjacent census tracts as outlined by a census-based demographic analysis, a weekday rush-hour commuter service would provide the greatest benefit of transit services under consideration. Specifically, the report recommended that the proposed transit service include the Walnut Creek Bay Area Rapid Transit (BART) station and Bishop Ranch business park as destinations. The desired level of service was based on an analysis of demand performed by WSA. Based on census information and a rider survey performed by BART in 1998, approximately 77 transit trips per day were expected when the project development was completed. The transit trip total was calculated by WSA as follows:

- As presented in the final Environmental Impact Report (EIR) for the Project, 10,048 daily vehicle trips would be generated at the development;
- Assuming an average vehicle occupancy of 1.05 persons per vehicle and a 92.5% vehicle mode share (automobiles constitute 92.5% of transit trips to and from the households), 13,338 person trips would be generated daily by the development;
- Based on census information, 5.37% of commuter trips to and from adjacent census tracts used public transit (716 trips);
- Approximately 97% of public transit trips used rail (assumed to be exclusive to BART; 694 trips);
- Approximately 7% of BART riders at stations nearest to the project (Dublin/Pleasanton, Walnut Creek, Lafayette) used public transit to travel to and from the station (48 trips);
- Approximately 4% of transit-based commuter trips used bus service as the primary means of transportation (29 trips); and
- Total bus demand (77 trips) includes the sum of transit trips to BART stations (48 trips) and bus trips to work (29 trips).

On June 14, 2005, the Board of Supervisors approved Resolution No. 2005/357 which recommended to Local Agency Formation Commission of Contra Costa County (LAFCO) the formation of County Service Area (CSA) T-1, Public Transit in the Danville Area.

The services provided by CSA T-1 are:

1. Extended public transit services.
2. Implementation of Transportation Demand Management programs as discussed in this report and in the Plan for Providing Services for CSA T-1 which is on file with LAFCO.

On September 14, 2005, LAFCO conducted a public hearing and subsequently approved Resolution 05-15 which formed CSA T-1.

On October 18, 2005, Resolution 2005/674 stated that the transit services should be supported by a benefit assessment or service charge on parcels that receive this special and distinct benefit.

On January 17, 2006, the Board of Supervisors conducted a public hearing and subsequently approved Resolution 2006/21 which authorized the annual levy of assessments or service charges on the parcels located within CSA T-1 to fund extended public transit services.

CURRENT ANNUAL ADMINISTRATION

Pursuant to County Ordinance Section 1012-2.6, former County Service Area Law (California Government Code Section 25210.77a), and current County Service Area Law (California Government Code Section 24210.3, subd. (d)), the Tentative Annual Report was filed with the Clerk of the Board of Supervisors, public notice has been completed as required, and the Board conducted a Public Hearing and then made a determination on each estimated service charge in the tentative report. Contra Costa Board of Supervisors reviewed the Tentative Annual Report in accordance with Resolution No. 2021/145, on June 8, 2021, and conducted a Public Hearing in connection with the proceedings for CSA T-1.

Upon adoption of the Final Annual Report by the Board of Supervisors, the charges contained herein will be collected on the property tax roll of Contra Costa County in the same manner, by the same persons, at the same time as, and together with the County's property taxes.

Legal Authority

As required by County Ordinance Section 1012-2.6, former County Service Area Law (California Government Code Section 25210.77a), and current County Service Area Law (California Government Code Section 24210.3, subd. (d)), the Final Annual Report includes the following minimum information as shown in the Service Charge Roll:

1. A description of each parcel of real property receiving the miscellaneous extended service;
2. The basic service charge;
3. The estimated amount of the service charge for each parcel for such year; and
4. A parcel list identifying each parcel receiving services that allows parcel owners to find their property on the list and determine the proposed charge.

This annual report also includes an estimate of annual costs and the method of apportionment as additional information to allow the reader to better understand what services are being paid for, what is the total annual cost for the services provided, and how the cost of services is spread to each individual parcel.

Transit Service Implementation

Two transportation studies were previously conducted to understand potential transit usage and travel patterns in CSA T-1. The transportation studies are Alamo Creek/Intervening Properties Transit Improvement Study by WSA in 2005 and Transit Service Survey and Report for CSA T-1 Transit District by DKS Associates in 2010.

Based on these studies, the following transit service plan is to be implemented in three phases as summarized below:

1. **Short – Term (completed in 2012): Community Outreach**
The short-term strategy focused on community outreach to educate the residents about existing transportation options in Contra Costa County, and to seek their feedback. The community outreach program involved flyer preparation, flyer distribution, and resident feedback. This outreach effort attempted to identify commuter destinations for potential vanpools, in advance of a vanpool/shuttle transit program.

2. Mid-Term: Vanpool/Shuttle Transit Program

Based on the feedback provided by the residents, the mid-term strategy would involve a vanpool and/or shuttle service since the market for a full scale fixed route Central Contra Costa Transit Authority (County Connection) bus is not warranted at this time.

CSA T-1’s plan is to engage the residents to try public transit and build up the necessary public transit demand for a full-scale fixed bus route. In response to CSA T-1’s plan, County Connection agreed to provide a demand response and a flexible shuttle for CSA T-1 residents during the commute hours. The exact routes were to be determined by demand. Riders must be traveling from or to CSA T-1. The service area is limited to the 1.5-mile corridors along Camino Tassajara (between CSA T-1 and I-680) and I-680 (between Walnut Creek and Pleasant Hill BART stations). Riders contact County Connection to request and reserve services. Based on the demand, County Connection will determine the most efficient route for the shuttle.

The table below summarizes the ridership data since the service began on January 24, 2014. It shows a constant increase in riders annually and the positive effect the public transit of CSA T-1 has on removing peak hours and daily trips from local and regional roadways.

Summary of ridership data per year*		
Year of Service	Riders per day	Estimated number of peak hours & daily trips removed from roadways
2014	16	16
2015	17 to 18	17 to 18
2016	19	19
2017	21	21
2018	24	24
2019	25	25
2020	4.5	4.5

* Ridership data is provided by County Connection.

The riders get picked up from their home in the CSA T-1 service area during the morning period and get picked up from the Walnut Creek BART station during the evening period. The average operating cost per passenger is comparable to the average cost for County Connection’s Paratransit (LINK) service. With the exception of the 2020-2021 COVID-19 pandemic, CSA T-1 has observed the ridership increase overtime, as more residents are utilizing the public transit service provided by CSA T-1. However, the ridership demand has not achieved the level that warrants a full-scale fixed bus route. CSA T-1 will continue this mid-term program to provide the shuttle service until there is enough public transit demand for a full-scale fixed bus route. CSA T-1 has amended the service agreement with County Connection to continue the shuttle service.

In addition to County Connection’s shuttle, CSA T-1 will also fund another service with the Measure J Traffic Congestion Relief Agency (TRAFFIX). TRAFFIX is a traffic

congestion relief program implemented in 2009 and operated cooperatively by Contra Costa County, City of San Ramon, San Ramon Valley Unified School District, and Town of Danville to reduce traffic congestion caused by children being driven to and from school in the San Ramon area. As mentioned above, although the demand for a full-scale fixed route County Connection bus is not warranted at this time, CSA T-1 recognized there is already a demand for school bus services. While waiting for transit demand to increase, CSA T-1's interim plan is to participate in providing school bus services as an interim method to reduce congestion. TRAFFIX provided data indicating there are approximately 205 students residing within CSA T-1 who attend Monte Vista High School. TRAFFIX considers 50 students as a full bus. If approximately 25 percent of the eligible students participated, a bus would be full. It was anticipated that at least 50 students would participate, resulting in a full bus. This service began in the Fall of 2014 for the 2014-2015 school year. TRAFFIX reported 70 passes were sold for both the 2014-2015 and 2015-2016 school years. This is the equivalent of removing approximately 280 trips from the roadway each school day. In 2017, funds were allocated to fund a second TRAFFIX bus to provide services to the CSA T-1 area. This decision was based on the increased demand for seats in the route. Recent rider counts by the TRAFFIX show an average of 59 riders in the morning and 95 riders in the evenings per typical 66 bus runs for the period of August 2018 through December 2018. In December 2018, there were approximately 170 riders enrolled on a wait list for the limited number of bus passes. As a result of an increase in demand for services in 2019, the County added a third TRAFFIX bus to provide services to the CSA T-1 area.

COVID-19 Impact

- a. Shuttle service ridership was greatly reduced during the 2020-2021 COVID-19 pandemic.
 - b. Although the ridership sharply declined during the 2020-2021 COVID-19 pandemic, County Connection shuttle busses have been operating. Based on current operations, the County does not expect a significant impact to the County Connection shuttle busses for the coming year; however, some additional costs for PPE may have to be passed on to CSA T-1.
 - c. During the pandemic in 2020, no school busses circulated due to the San Ramon Valley Unified School District following state guidelines regarding school attendance and resulting in school closures. San Ramon Valley Unified School District reported that Middle and High Schools reopened for attendance on March 17, 2021 and it is anticipated that the TRAFFIX school bus program will reopen at partial and eventually full capacity as well. Bus pass sales started again the week of March 15, 2021.
3. **Long-Term Goal (2018 and beyond): County Connection Service**
The long-term strategy would involve expanding the vanpool/shuttle service and providing full-scale County Connection bus service if the existing service proves successful and more commuter transit demand is demonstrated. An approximate yearly operating cost of running a full-length bus service with County Connection is estimated to be \$204,000 per bus. This estimate is based on \$100 per hour for 8 hours a day during morning and evening peak commute hours for 255 days a year.

ESTIMATE OF ANNUAL COST

The Fiscal Year 2020-2021 projected and Fiscal Year 2021-2022 proposed revenues and expenditures are shown on the following page. A special fund has been set up for the collection of revenues and coding of expenditures for CSA T-1. Incidental expenses including administration, engineering fees, legal fees, and all other costs associated with the Public Transit services may be included.

When CSA T-1 was formed, a financial analysis was performed to provide the framework for an operating budget for the proposed transit service. This was based on the estimated expenses for continuing operations provided by WSA. In preparation of the budget, several factors were considered including:

- Level of transit service
- Phasing of service
- Equal benefit (and equal charge) to residents based on projected resident population

In order to establish a reasonable reserve in the early years following formation of the CSA, revenues have been collected since Fiscal Year 2006-2007.

For Fiscal Year 2021-2022, it is estimated there will be a surplus of funds. These funds are being set aside into Capital Reserves to purchase vehicles or fund a full-scale fixed route County Connection bus to provide the services to this area when applicable.

Revenues collected from the charge shall be used only for the expenditures represented in this report. Any balance remaining on July 1 at the end of the fiscal year must be carried over to the next fiscal year.

METHOD OF APPORTIONMENT

Special vs. General Benefit

On November 5, 1996, California voters approved Proposition 218 entitled "Right to Vote On Taxes Act" which added Articles XIII C and XIII D to the California Constitution. While its title refers only to taxes, Proposition 218 establishes new procedural requirements for fees, charges, and benefit assessments.

Proposition 218 procedures stipulate that even if charges or benefit assessments are initially exempt from Proposition 218, future increases in the charges or benefit assessments must comply with the provisions of Proposition 218. However, if the future increase in the charge or benefit assessment were anticipated in the charge or benefit assessment formula when approved by property owners (e.g., consumer price index increases or a predetermined cap) then the future increase in the charge or benefit assessment would be in compliance with the intent and provisions of Proposition 218.

Proposition 218 provides that "only special benefits are assessable" and defines a special benefit as a particular and distinct benefit conferred on real property and not a general benefit received by the public at large. Parcels located within the boundaries of the CSA will be charged for the operation and services associated with the transit services provided as described herein within the report, if they receive a special and direct benefit from the services. Furthermore, the identification and separation of general benefits from the special benefits follows for CSA T-1.

Special benefits are conferred on property within the CSA from transit services by enhancing the desirability of property within the CSA due to the additional methods of vehicular and pedestrian access available to and from property, by providing increased access to transit related services, providing economic opportunities, driving community growth and revitalization, and by reducing levels of traffic congestion within the CSA.

Properties outside of CSA T-1 in other parts of the County may not enjoy the transit services made available by the CSA and therefore property outside the boundaries of the CSA do not receive the special benefits. The services within the CSA were specifically designed and created to provide additional and improved public resources for the direct advantage of property inside the CSA, and not the public at large.

In addition to the special and direct benefits the property owners receive within the CSA from the services, it has been determined that no general benefits are associated with the transit services provided within CSA T-1 because the conferred special benefits that are provided to the charged property are not provided to the public at large.

The annual service charge pays for the transit related services provided within CSA T-1. The enhanced public services provided within CSA T-1 confer a special benefit and only serve the parcels with the ability to utilize the transit related services provided. Without the services, the property located in the unincorporated area would not receive any transit services. Therefore, the services in CSA T-1 are 100 percent special benefit to the parcels within the CSA.

Methodology

The total operation, maintenance and servicing cost for Public Transit are apportioned in accordance with the methodology that is consistent with standard assessment engineering practices. The method for distributing the costs to each parcel is based on the Equivalent Dwelling Unit (EDU) factor.

Since the service charge is levied on the owners of properties as shown on the tax rolls, the final charges must be assigned by Assessor's Parcel Number. If service charges were to be distributed by parcel, not considering land use, this would not be equitable because a single-family parcel would be paying the same as a 50-unit apartment parcel or a large commercial establishment. Therefore, as previously stated, the total costs are distributed to each parcel of land based on the number of EDUs associated with each particular parcel.

No commercial or industrial parcels are planned be included within CSA T-1, therefore a methodology has not been created for those uses.

The methodology used to assign EDUs to other land uses in proportion to the benefit they receive relative to the single-family residential parcel is shown below.

Developed Single Family Residential - The developed single-family parcel has been selected as the basic unit for calculation of the benefit assessments or service charges. This basic unit shall be called an **Equivalent Dwelling Unit (EDU)**. Parcels designated as developed single family residential uses per the Contra Costa County land use code are charged one (**1.00**) EDU. In addition, those parcels that are designated as “vacant” single family residential per the Contra Costa County land use code but have a building permit issued prior to April 30 are charged one (1.00) EDU.

Developed Multiple Residential – The developed multi-family designation includes parcels designated as apartments, townhomes, and condominiums per the Contra Costa County land use code. Apartments are charged a factor of **0.723270448** EDU per dwelling unit. For example, a parcel with a 100-unit apartment would be charged 72.33 EDUs. Townhomes and condominiums are charged a factor of **0.795597484** EDU per dwelling unit. In addition, those parcels that are designated as “vacant” multi-family residential per the Contra Costa County land use code, but have a building permit issued prior to April 30, are charged on a per unit basis as shown above.

Exempt Property - Consists of property not classified as developed residential property and includes commercial, industrial, recreational, and institutional property; parking lots; parking garages; roadways; open space and undeveloped property on which a building permit has not been issued prior to April 30. In addition, Senior Housing is classified as exempt. Residents of Senior Housing will be provided with separate shuttle service not included within the scope of the CSA.

In Fiscal Year 2006-2007 the maximum annual service charge was set at \$318.00 per EDU. To determine the cost per parcel, the total budget for providing service to the current total service area was divided by the total number of EDU’s within the service area. Please refer to Contra Costa County Resolution 2006-21 for a detailed report that includes the initial calculation of this rate.

The maximum rates may be adjusted annually to reflect 2% or the prior year’s change in the Consumer Price Index (CPI) for All Urban Consumers for the Bay Area: San Francisco-Oakland-San Jose, whichever is greater. The base CPI index to be used for future calculations is February

***CSA T-1 Public Transit Final Annual Report
Fiscal Year 2021-2022***

2006 (207.1). Any change in the rate per EDU, which is the result of the change in the CPI shall not be deemed an increase in the subject to the requirements of Proposition 218.

For Fiscal Year 2021-2022 the allowed maximum rate is \$475.69/EDU. This rate has been calculated as follows:

\$466.36 per developed EDU in Fiscal Year 2020-21
+2% increase for FY 2021-22 = \$475.69

In Fiscal Year 2021-2022, it is recommended based upon \$625,649.20 in revenue will be needed to provide the services referenced above in Fiscal Year 2021-2022. There are 1,315.27 EDUs that have had a building permit issued. If you divide \$625,649.20 by 1,315.27 EDUs, the service charge per parcel is \$475.69. Please note, the charge per parcel may not foot due to required County rounding adjustments.

BACKGROUND: (CONT'D)

September 1, 2000, the ninety-three (93) t- and shade hangars at Buchanan Field reverted to the County ownership pursuant to the terms of the above lease.

On November 14, 2006, the Contra Costa County Board of Supervisors approved the form of the T-Hangar and Shade Hangar Rental Agreement for use with renting the County's t-hangars, shade hangars, medium hangars, and executive hangars at Buchanan Field Airport.

On February 16, 2007, the additional seventeen (17) hangars at Buchanan Field reverted back to the County pursuant to the above referenced lease. This row included six (6) large hangars which were not covered by the approved T-Hangar and Shade Hangar Rental Agreement.

On February 23, 2007, Contra Costa County Board of Supervisors approved the new Large Hangar Rental Agreement for use with the large East Ramp Hangars.

On January 16, 2009, Contra Costa County Board of Supervisors approved an amendment to the T-Hangar and Shade Hangar Rental Agreement and the Large Hangar Rental Agreement (combined "Hangar Rental Agreements") which removed the Aircraft Physical Damage Insurance requirement. The Hangar Rental Agreements are the current forms in use for rental of all the County hangars at Buchanan Field Airport.

CONSEQUENCE OF NEGATIVE ACTION:

A negative action will cause a loss of revenue to the Airport Enterprise Fund.

Resolution

2021/224

*The Board of Supervisors of
Contra Costa County, California*

In the matter of:

Resolution No. 2021/224

In the Matter of Recognizing the 75th Anniversary of Central Contra Costa Sanitary District (Central San)

WHEREAS, Central San was created on July 15, 1946, following a public vote and a resolution of the Contra Costa County Board of Supervisors; and

WHEREAS, prior to the founding of Central San, most of central county depended on septic systems that were often inefficient due to the area's heavy clay soil, leading to overflowing septic tanks and the threat of waterborne diseases like typhoid; and

WHEREAS, for 75 years Central San has been working to protect public health and the environment, and today collects and cleans more than 13 billion gallons of wastewater every year; and

WHEREAS, over the years, Central San has grown along with the communities it serves, from its original service area population of just 15,000 people, to serving nearly half a million residents and more than 3,000 businesses in central Contra Costa County; and

WHEREAS, Central San maintains more than 1,500 miles of neighborhood sewer pipes, 18 pumping stations, and a regional wastewater treatment plant, all of which it operates around the clock 365 days a year, providing safe and reliable service for customers; and

WHEREAS, in addition to wastewater treatment, Central San provides other services to our community, including producing more than 500 million gallons of recycled water every year for landscape irrigation and industrial use, helping to save precious local drinking water supplies; and

WHEREAS, Central San's Household Hazardous Waste Collection Facility has collected more than 45 million pounds of hazardous waste since it opened in 1997, helping keep pollutants out of our sewers, storm drains, and landfills; and

WHEREAS, Central San provides hands-on science education for 6,000 local students ever year, helping to inspire the next generation of environmental stewards; and

WHEREAS, Central San has long been a leader and innovator among clean water utilities, helping to pioneer such innovations as ultraviolet light wastewater disinfection, overflow protection devices, television pipeline inspection, and trenchless sewer construction, and by 1978 operating one of the world's first computer-controlled wastewater treatment plants; and

WHEREAS, Central San has a proven record of excellence, achieving more than two decades of 100% compliance with its National Pollutant Discharge Elimination System Permit and qualifying for its 23rd consecutive Peak Performance Platinum Award—the longest successful streak of any wastewater agency in California and among the top 10 in the nation; and

WHEREAS, as an independent special district, Central San was created by and for the people and is overseen by a publicly elected Board of Directors, who over the years have demonstrated their commitment to sound fiscal management, transparency, and good governance; and

WHEREAS, safe, reliable, and resilient wastewater systems are critical to our health, economy, and quality of life in Contra Costa County.

NOW, THEREFORE, BE IT RESOLVED that the Contra Costa County Board of Supervisors congratulates Central San on its 75th Anniversary and thanks Central San employees and retirees for their years of essential service to our community.

Subject: Appropriation and Revenue Adjustment - Fire Station Construction Projects

RECOMMENDATION(S):

APPROVE FY 2020/21 Appropriation and Revenue Adjustment No. 005059 authorizing new revenue in the amount of \$1,146,111 from Contra Costa County 2021 Lease Revenue Bonds and appropriating it in the CCCFPD Capital Construction Fund (7025) for the Fire Station 9 (Concord) and Fire Station 86 (Bay Point) construction projects.

FISCAL IMPACT:

Authorizes \$1,146,111 in new revenue in FY 2020/21 from 2021 lease revenue bonds and appropriates it for capital construction costs.

BACKGROUND:

In 2021 Contra Costa County (County) issued lease revenue bonds that incorporated projects for the County, the Airport, and the Contra Costa County Fire Protection District (District). For the District, bond revenue is approved for new fire station construction projects, specifically Fire Station 9 in Pacheco/Concord and Fire Station 86 in Bay Point. The District received its second disbursement from the 2021 lease revenue bonds. This action authorizes the new revenue and appropriates it to the Fire Station 9 and 86 construction projects.

CONSEQUENCE OF NEGATIVE ACTION:

The District will not have adequate budget appropriations to cover FY 2020-21 project expenditure.

As part of a reorganization of the reporting structure of the County Administrator's Office the existing classification of Chief of Labor Relations, previously in the Human Resources Department, is a more appropriate position than that of Labor Relations Manager. RECOMMENDATION(S):

ADOPT Personnel Adjustment Resolution No. 25762 to cancel one (1) Sheriff's Communication Center Director (64NC)(represented) vacant position No. 2964 at Salary Plan and Grade V#5 1001 (\$8,316 - \$10,361), and add one (1) Lieutenant (6XHA)(represented) position at Salary Plan and Grade V#X 2023 (\$10,809 - \$13,796) to the Sheriff's Office - Technical Services Division.

FISCAL IMPACT:

An annual increase of \$191,637 to the Office of the Sheriff budget, of which \$120,725 is pension cost. Revenue from contracted dispatch services will offset the increased cost of the personnel action. (100% Office of the Sheriff Budget)

BACKGROUND:

Replacing the vacant Sheriff's Communication Center Director position with a Lieutenant will eliminate delays in hiring a qualified person to manage the Communication Center, as Lieutenants can be reassigned at any time, which provides the required flexibility in staffing. Historically, the Sheriff's Office has assigned Lieutenants to manage the Communication Center. It is in the best interest of the Office of the Sheriff and the community to reestablish that same staffing model in order to ensure the operation meets the 911 emergency response needs of the community.

Subject: Salary reallocation for the Public Defender Chief Investigator position

RECOMMENDATION(S):

ADOPT Position Adjustment No. 25739 to reallocate the salary of the Public Defender Chief Investigator (6EH1) (unrepresented) position from B85 1805 (\$97,153.002 - \$118,090.077) to \$125,269.879-\$152,266.320 in the Office of the Public Defender's.

FISCAL IMPACT:

100% of the funding for this salary reallocation will come from the County General Fund. This will result in increase of approximately \$45,000 in salary and benefit costs in FY 21/22.

BACKGROUND:

Based upon a salary survey results, the current salary scale for the Public Defender Chief Investigator position is the lowest in the Public Defender Offices in the nearby and comparable Bay Area counties. We are requesting that the Public Defender Chief Investigator salary be adjusted to be in line with those of comparable Bay Area counties. This position is currently vacant and this increase will strengthen the department's ability to recruit and retain qualified employees for this crucial position.

a division manager. Supervision of division staff is shared between a Network Manager and an Information Systems (IS) Project Manager. The incumbent in the IS Project Manager position has thirty years of service and intends to retire in March 2022.

In reviewing roles, responsibilities and long-term needs for the IT Division and the Public Works Department, the department concluded that an IT Division Manager (IS Manager II) is necessary to provide oversight and long-term planning for the division, implementation of a Strategic Plan for the division and will oversee major projects and programs. The IT Division Manager will assume all the tasks of the current IS Project Manager including supervision of business systems and GIS staff; they will also provide supervision of the Network Manager. The Department has been notified that the IS Project Manager is retiring in March 2022 and the Department will request to cancel the position at that time. Since this IS Project Manager position is specialized and has only been performed by one person, a succession plan which includes a period of overlap with the new IS Manager is needed for training.

BACKGROUND: (CONT'D)

Following the beginning of the COVID-19 pandemic, the Library worked on evaluating its staffing and scheduling plans to best meet the needs of patrons. Following this evaluation, the Library determined that its community libraries should each have at least a Tuesday through Saturday schedule. As part of that determination, the Library has been working to adjust schedules of its vacant positions to align with this new scheduling plan.

The Library has determined that the part-time Community Library Manager position located in Kensington would better serve the needs of the public if it were full-time. This will allow for more time for the manager to be on-site and available both in the community library and to attend various meetings and events.

CONSEQUENCE OF NEGATIVE ACTION:

If this position change is not approved, the Library will have difficulties with recruitment and retention, as well as providing services to the public.

BACKGROUND: (CONT'D)

Systems Administration and Support Unit began reviewing the roles, responsibilities and upcoming projects for 2021. Based on the Department's review of the assigned duties, level of responsibility and the change of technology requirements, it has been determined that the Network Administrator I classification is the most appropriate to perform this work. The Network Administrator I will need to implement information technology projects that require project management skills and are more complex than the knowledge and skills of the Network Technician II classification, that is currently vacant. The Network Administrator I will assist with the implementation and maintenance of Office365 throughout the Department, which includes migration from the current on-premises environment to cloud-based systems. The position will also support the network security, which includes patch management for all department devices, and antivirus/malware detection, as well as support for license management of all Department software.

CONSEQUENCE OF NEGATIVE ACTION:

Failure to approve this action will result in the inability for the Department to recruit and/or assign work to the appropriate job classification.

and, at the County's election, for an additional ten-year renewal period.

The ground is owned by the Ambrose Recreation and Park District. The County owns the portable buildings used for the Head Start program.

CONSEQUENCE OF NEGATIVE ACTION:

Not authorizing the ground lease for the continued operation for EHSD-Community Services Bureau for Head Start at this location would be a disruption for the community that uses the facility and would require finding another suitable location, at increased rent, together with the associated expenses of moving and constructing new tenant improvements.

3103 WILLOW PASS ROAD
BAY POINT, CALIFORNIA

This ground lease (“Ground Lease”) is dated _____ and is between Ambrose Recreation and Park District, a special district existing under the laws of the State of California (“**Lessor**”) and the County of Contra Costa, a political subdivision of the State of California (“**County**”).

If County determines that the Premises are in need of maintenance, construction, remodeling or similar service that is beyond Lessor’s responsibilities under this Ground Lease, at County’s request, Lessor shall perform such service at County’s expense. In performing the service, Lessor shall consult with County and use either licensed insured contractors or employees of Lessor. Lessor shall obtain County’s prior written approval of the scope, terms, and cost of any contracts; however, such County approval may not be unreasonably withheld or delayed or otherwise be inconsistent with Lessor’s procurement requirements or State law.

10. Alterations; Fixtures and Signs. County may (i) make any lawful and proper minor alterations to the Premises and (ii) attach fixtures and non-commercial signs (“**County Fixtures**”) in or upon the Premises. Any County Fixtures will remain the property of County and may be removed from the Premises by County at any time during the Term. County is responsible for the cost of all alterations and County Fixtures. All alterations

and County Fixtures are subject to Lessor's prior written approval and must comply with existing code requirements.

11. Insurance.
 - a. Liability Insurance. Throughout the Term, County shall maintain in full force and effect, at its sole expense, a general self-insurance program covering bodily injury (including death), personal injury, and property damage, including loss of use. County shall provide Lessor with a letter of self-insurance affirming the existence of the aforementioned self-insurance program.
 - b. Self-Insurance Exclusion. County's self-insurance does not provide coverage for (i) areas to be maintained by Lessor under this lease, or (ii) negligence, willful misconduct, or other intentional act, error or omission of Lessor, its officers, agents, or employees.
12. Surrender of Premises. Upon expiration or termination of this Ground Lease, County shall surrender possession of the Premises to Lessor.
13. Removal/Sale of the Building. County shall retain ownership of the Building throughout the Term and, except as provided herein, following the expiration or termination of this Ground Lease. Upon the expiration or sooner termination of this Ground Lease, County may elect to (i) remove the Building at its cost and expense, or (ii) offer to sell the Building to Lessor for its fair market value. The fair market value of the Building is to be determined by appraisal. Ownership of the Building may not be transferred without the prior approval of the United States Department of Health and Human Services. conditions of this Ground Lease. In an emergency, Lessor, or its designated representative or contractor, may enter the Premises without prior notice to County.

17. Perilous Conditions. If the County's Director of Public Works becomes aware of a perilous condition on the Premises that, in his or her opinion, substantially and significantly threatens the health and safety of County employees and/or invitees (a "**Perilous Condition**"), the Director of Public Works, or his or her designee, will immediately notify Lessor of the Perilous Condition and Lessor shall use best efforts to immediately eliminate the Perilous Condition.

Lessor shall immediately address any condition reasonably constituting an emergency, whether Lessor learns of the condition through County or otherwise.

If Lessor fails to address a Perilous Condition within twenty-four (24) hours after County's notice or to immediately address an emergency situation, County may attempt to resolve the Perilous Condition or emergency situation. Except as otherwise provided herein, Lessor shall reimburse County for any costs incurred by County in addressing the Perilous Condition or emergency situation promptly upon receipt of County's invoice, which shall include documentation supporting all costs listed in the invoice. County is responsible for the cost of eliminating any Perilous Condition that is caused or created by County, its employees, agents, contractors, Program Participants or other invitees.

18. Destruction. If damage occurs that causes a partial destruction of the Building during the Term from any cause and repairs, if repairs cannot be made in sixty (60) days, County will have the option to terminate the lease. This lease will terminate in the event of the total destruction of the Building.
19. Hazardous Material. Lessor warrants to County that Lessor does not have any knowledge of the presence of Hazardous Material (as defined below) or contamination of the Premises in violation of environmental laws. Lessor shall defend, save, protect and hold County harmless from any loss arising out of the presence of any Hazardous Material on the Premises that was not brought to the Premises by or at the request of County, its agents, contractors, invitees or employees. Lessor acknowledges and agrees that County has no obligation to clean up or remediate, or contribute to the cost of clean up or remediation, of any Hazardous Material unless such Hazardous Material is released, discharged or spilled on or about the Premises by County or any of its agents, employees, contractors, invitees or other representatives. The obligations of this Section shall survive the expiration or earlier termination of this lease.

"Hazardous Material" means any substance, material or waste, including lead based paint, asbestos and petroleum (including crude oil or any fraction thereof), that is or becomes designated as a hazardous substance, hazardous waste, hazardous material, toxic substance, or toxic material under any federal, state or local law, regulation, or ordinance.

20. Indemnification.

- a. County. County shall defend, indemnify and hold Lessor harmless from County's share of any and all claims, costs and liability for any damage, injury or death of or to any person or the property of any person, including attorneys' fees, caused by the willful misconduct or the negligent acts, errors, or omissions of County, its officers, agents or employees in using the Premises pursuant to this Ground lease, or the County's performance under this Ground Lease, except to the extent caused or contributed to by the negligent acts, errors, or omissions of Lessor, its officers, agents, or employees.
- b. Lessor. Lessor shall defend, indemnify and hold County harmless from Lessor's share of any and all claims, costs and liability for any damage, injury or death of or to any person or the property of any person, including attorneys' fees, caused by the willful misconduct or the negligent acts, errors or omissions of Lessor, its officers, agents, employees, with respect to the Premises, or Lessor's performance under this Ground Lease, or by the structural, mechanical or other failure of buildings owned or maintained by Lessor, except to the extent caused or contributed to by the negligent acts, errors, or omissions of County, its officers, agents, or employees.

21. Default.

The occurrence of any of the following events is a default under this lease:

- a. County.
 - i. County's failure to pay Rent within ten (10) business days after receipt of a written notice of failure (a "**Notice**") from Lessor to County; provided, however, that County will have additional time if its failure to pay Rent is due to circumstances beyond its reasonable control, including, without limitation, failure of the County's Board of Supervisors to adopt a budget. In no event may such additional time exceed seventy-five (75) days from receipt of a Notice.
 - ii. County's failure to comply with any other material term or provision of this Ground Lease if such failure is not remedied within thirty (30) days after receipt of a Notice from Lessor to County specifying the nature of the breach in reasonably sufficient detail; provided, however, if such default cannot reasonably be remedied within such 30 day period, then a default will not be deemed to occur until the occurrence of County's failure to comply within the period of time that may be reasonably required to remedy the default, up to an aggregate of ninety (90) days, provided County commences curing such default within 30 days and thereafter diligently proceeds to cure such default.
- b. Lessor. Lessor's failure to perform any obligation under this Ground Lease if such failure is not remedied within 30 days after receipt of a Notice from County to Lessor specifying the nature of the breach in reasonably sufficient detail; provided,

however, if such breach cannot reasonably be remedied within such 30 day period, then a default will not be deemed to occur until the occurrence of Lessor's failure to perform within the period of time that may be reasonably required to remedy the breach, up to an aggregate of 90 days, provided Lessor commences curing such breach within 30 days and thereafter diligently proceeds to cure such breach.

22. Remedies.

- a. Lessor. Upon the occurrence of a default by County, Lessor may, after giving County written notice of the default, and in accordance with due process of law, reenter and repossess the Premises and remove all persons and property from the Premises.
- b. County. Upon the occurrence of a default by Lessor, County may (i) terminate this lease by giving written notice to Lessor and quit the Premises without further cost or obligation to County or (ii) proceed to repair or correct the failure and, at County's option, either deduct the cost thereof from Rent due to Lessor, or invoice Lessor for the cost of repair, which invoice Lessor shall pay promptly upon receipt.

BACKGROUND:

Employment and Human Services Department (EHSD), Community Services Bureau (CSB), received notification of funding from California Department of Community Services and Development on November 4, 2020. As the County's Community Action Agency, the Department's Community Services Bureau regularly receives Community Services Block Grant (CSBG) funding to operate self-sufficiency programs under the advisement of the County's Economic Opportunity Council. The self-sufficiency programs have the goal of ameliorating poverty in Contra Costa County through programs that address housing, comprehensive health services, economic development and food security. Examples of programs to receive funding include those that provide employment training, housing payment assistance, wrap-around health services, and food distribution.

The board approved receipt of funding for the 2021-2022 program year on January 5, 2021 (c.60). This board order is to approve an amendment to the revenue agreement to accept amendment language from the State as received by the department on March 30, 2021. The state has instructed agencies who will not utilize 100 percent of their allocation within the period of performance or by December 31, 2021 to submit an extension by November 16, 2021.

CONSEQUENCE OF NEGATIVE ACTION:

EHSD will be hampered in its ability to operate self-sufficiency programs in the community, and to establish partnerships with community based agencies and public organizations.

FISCAL IMPACT: (CONT'D)

\$184,783, 100% Federal; No County match. County portion is \$23,796 to the Sheriff-Coroner. County will receive 5% of city allocations for serving as the fiscal agent for the County. (CFDA 16.738)

County Allocation: \$23,796

Antioch Allocation: \$46,515

Richmond Allocation: \$77,500

Concord Allocation: \$36,972

Total grant award: \$184,783.

County will receive 5% of pass through of the grant allocation for grant management and administration. County's 5% portion of the Cities allocation totals \$8,049.35.

BACKGROUND:

The Edward Byrne Memorial Justice Assistance Grant (JAG) Program is the primary provider of federal criminal justice funding to state and local jurisdictions. The JAG FY2021 Grant is a formula grant with emphasis on assisting local efforts to prevent or reduce crime and violence. The eligible jurisdictions within Contra Costa County have a scheduled allocation totaling \$184,783 with \$23,796, allocated to the County. The \$23,796 county allocation will be to the Office of the Sheriff. Established to streamline justice funding and grant administration, the JAG Program allows states, tribes, and local governments to support a broad range of activities to prevent and control crime based on their own local needs and conditions. The Bureau of Justice Statistics (BJS) calculates a minimum base allocation for each state. Once the state funding is calculated, 60 percent of the allocation is awarded to the state and 40 percent to eligible units of local government. Local governments are awarded amounts based on their share of the total violent crime reported within the state. Based on a formula allocation, Contra Costa County has been designated as a disparate jurisdiction because a city within the county is scheduled to receive 150% more than the county, while the county bears more than 50% of the costs associated with the prosecution and incarceration of that city's Part 1 violent crime. Jurisdictions certified as disparate must identify a fiscal agent that will submit a joint application for the total eligible allocation. The Office of the Sheriff has been designated as the fiscal agent for this grant and will manage and oversee the distribution of the funds for all participating agencies within the county. As Fiscal Agent, the Office of the Sheriff will receive 5% (\$8,049.35) of the pass through of the grant allocation (5% from each jurisdictions' allocation) to cover management and administration of the grant, to include personnel and operational costs directly related to grant management.

CONSEQUENCE OF NEGATIVE ACTION:

The Sheriff's Office will be unable to apply for and accept the grant from the U.S. Department of Justice.

Subject: DISCLOSURE COUNSEL CONTRACT - SCHIFF HARDIN LLP

RECOMMENDATION(S):

APPROVE and AUTHORIZE the County Administrator, or designee, to execute a contract with Schiff Hardin LLP in an amount not to exceed \$150,000 for bond disclosure counsel services for the period of July 27, 2021 through June 30, 2024.

FISCAL IMPACT:

The cost of tax and bond counsel services is covered in the cost of issuance included in each bond issue. Fees will be capped at a maximum dollar amount based on the type of bond issuance (e.g. lease revenue bond, tax revenue anticipation notes, etc.). This allows the County to plan for costs of issuance related to it's future bond transactions.

BACKGROUND:

On May 21, 2021, the County issued a Request for Proposals (RFP) for tax, bond and disclosure counsel services. After review by Debt Affordability Advisory Committee (DAAC), Schiff Hardin LLP was recommended to the County Administrator for consideration of a contract award to provide disclosure counsel services to the County through June 30, 2024 with two, optional one-year extensions based on performance through June 30, 2026.

In addition, Schiff Hardin LLP is extremely familiar with the County and able to prepare the required legal and other disclosure documents related to these bond issues quickly and accurately. The firm is also familiar with the County's outstanding bonds and have proven to be an invaluable resource to staff responsible for the ongoing management of the County's debt portfolio.

In addition to the firm's direct experience with the County, Schiff Hardin has worked on financings with the Successor Agency to the Richmond Redevelopment Agency, the California Infrastructure and Economic Development Bank, the State of California Public Works Board and the California Housing and Community Development Department. BACKGROUND:

This contract meets the social needs of the County's population by providing housing navigation support services to Contra Costa County families that are homeless. This contractor has been providing services under this contract since November 2016. The expected program outcomes include an increase in positive social and emotional development as measured by the Child and Adolescent Functional Assessment Scale (CAFAS).

On October 23, 2018, the Board of Supervisors approved Contract #25-077-3 with Contra Costa Interfaith Transitional Housing, Inc. in an amount not to exceed \$615,183 to provide housing navigation services to the County's Emergency Shelter System, part of the CARE Centers and CARE Capable Centers for the Homeless CES, for the period from October 1, 2018 through September 30, 2019.

On August 6, 2019, the Board of Supervisors approved Amendment Agreement #25-077-4 to increase the payment limit by \$635,581, from \$615,183 to a new contract payment limit of \$1,250,764, and to extend the termination date from September 30, 2019 to June 30, 2020.

On November 10, 2020, the Board of Supervisors approved Amendment Agreement #25-077-6 to increase the payment limit by \$778,304, from \$2,926,247 to a new payment limit of \$3,704,551, and to extend the termination date from June 30, 2021 to September 30, 2021.

The department and the contractor have renegotiated the contract terms to allow the contractor to continue to provide housing navigation services while discontinuing probation housing case management services. Approval of Contract #25-077-9 will allow this contractor to continue to exclusively provide housing navigation services to County's CES through June 30, 2022.

CONSEQUENCE OF NEGATIVE ACTION:

If this contract is not approved, families that are homeless will not have access to this contractor's housing navigation services.

FISCAL IMPACT:

The cost of tax and bond counsel services is covered in the cost of issuance included in each bond issue. Fees will be capped at a maximum dollar amount (for both tax and bond counsel services) based on the type of bond issuance (e.g. lease revenue bond, tax revenue anticipation notes, etc.). BACKGROUND:

On May 21, 2021, the County issued a Request for Proposals (RFP) for tax, bond and disclosure counsel services. After review by Debt Affordability Advisory Committee (DAAC) and firm interviews, Stradling Yocca Carlson & Rauth was recommended to the County Administrator for consideration of a contract award to provide bond and tax counsel services to the County through June 30, 2024 with two, optional one-year extensions based on performance through June 30, 2026.

The County anticipates issuing bonds during this time period to fund new capital projects and refund existing debt at lower interest rates, especially if the current federal prohibition on advance refundings is lifted as part of congressional action on infrastructure. In addition to assistance with bonds, the services of Stradling Yocca Carlson & Rauth are needed on an occasional basis to prepare presentations to rating agencies and complete other *ad hoc* projects in support of County business. It is important to retain a firm with these particular skills to ensure that the County is able to take advantage of potential refunding opportunities as they arise and stay updated on both market trends and other public finance related legal issues.

The firms experience with housing related financing was of particular interest to the DAAC and County Administrator due to the significant amount of federal and state funds available for housing development in the near term. In addition, there is increased interest by cities statewide in using Enhanced Infrastructure Financing Districts (EIFDs) to fund regional infrastructure projects. Having a firm that has experience in housing and innovative financing mechanisms will be important for this contract cycle.

CONSEQUENCE OF NEGATIVE ACTION:

The County would not have the necessary legal representation on the issuance and sale of bonds.

ADOPT Resolution 2021/239 confirming Final Report for CSA EM-1 (Emergency Medical Services) and setting assessments to be collected with the FY 2021-22 property taxes.

FISCAL IMPACT:

There is no General Fund impact. Proposed FY 2021-22 assessments for CSA EM-1 total \$4,894,021.29.

BACKGROUND:

On June 22, 2021, the Board held a public hearing on the Tentative Report for CSA EM-1 and adopted Resolution No. 2021/181 declaring the Board's intent to levy assessments set forth in that report. Pursuant to Ordinance Code Section 1012-2.612, the attached Final Report for CSA EM-1 updates the Tentative Report based solely upon changes in ownership, changes of address, subdivision of existing parcels, and changes in the class of use of parcels.

Revenues from the CSA EM-1 assessments are used to provide an enhanced countywide emergency medical service system as approved by the voters with the passage of Measure H in November 1988. Enhanced EMS services include (1) increased paramedic coverage; (2) added emergency medical training and equipment for firefighters; and (3) an improved EMS communications system.

County Service Area EM-1 (Zones A and B)

Final Report

Fiscal Year 2021-22

County Service Area EM-1 has been established to provide enhanced emergency medical services as a miscellaneous extended service within two designated zones:

Zone A: Those parcels located within the territory of the San Ramon Valley Fire Protection District.

Zone B: Those parcels located within Contra Costa County, but not within Zone A, above.

ASSESSMENTS will be levied on each parcel based upon a formula using the following factors:

BENEFIT UNIT: A number of BENEFIT UNITS has been assigned to each parcel based upon the Assessor's Use Code classification. For example, a single-family residence (Use Code 11) is assigned one BENEFIT UNIT. Parcels with other Use Code classifications are assigned a number of BENEFIT UNITS based upon the relative benefit from the miscellaneous extended services provided under CSA EM-1. Exhibit A is a Table of BENEFIT UNITS showing the number of BENEFIT UNITS assigned parcels for each Use Code classification.

RATE: The RATE is the dollar amount of the ASSESSMENT levied per BENEFIT UNIT. Separate RATES have been established for each zone based upon the miscellaneous extended services to be provided within that zone.

The formula for calculating the ASSESSMENT on each parcel is as follows:

$ASSESSMENT = BENEFIT UNITS \times RATE$

Zone A

The RATE that has been established for Zone A is:

\$3.94 per BENEFIT UNIT

Exhibit B is the "Zone A - Table of Assessments," showing the ASSESSMENT established for each parcel according to its USE CODE. A description of each parcel and the USE CODE number assigned thereto is contained in Exhibit C.

The total ASSESSMENTS for Zone A are \$237,891.29 based upon 51,729 ASSESSED PARCELS.

Zone B

The RATE that has been established for Zone B is:

\$10.00 per BENEFIT UNIT

Exhibit D is the "Zone B - Table of Assessments," showing the ASSESSMENT established for each parcel according to its USE CODE. A description of each parcel and the USE CODE number of assigned thereto is contained in Exhibit E.

The total ASSESSMENTS for Zone B are \$4,656,130.00 based upon 299,235 ASSESSED PARCELS.

Subject: Review and Approve Bylaws governing the Juvenile Justice Coordinating Council

RECOMMENDATION(S):

REVIEW and APPROVE bylaws governing the Juvenile Justice Coordinating Council.

FISCAL IMPACT:

No Fiscal Impact

BACKGROUND:

The Juvenile Justice Coordinating Council (JJCC) advises the Board of Supervisors on the development and implementation of a multi-agency juvenile justice plan with several critical components to specifically target at-risk juveniles, juvenile offenders and their families. The JJCC also coordinates the work of governmental and non-governmental organizations engaged in activities designed to reduce juvenile crime and delinquency countywide through information sharing and appropriate data outcomes. The Board of Supervisors has yet to review the JJCC bylaws that provide advisory rules and administrative provisions for conducting business, although they have been regularly reviewed and amended by the JJCC. This action will formally adopt the latest version of the bylaws as approved by the JJCC on April 14, 2021, with clear language around conflicts of interest to comport with Fair Political Practices Commission (FPPC) regulation Title 2 in the California Code.

RECOMMENDATION(S):

APPROVE the allocation of \$299,010 from Fiscal Year 2019/20 Housing Opportunities for Persons with HIV/AIDS (HOPWA) funds to the County Health Services HIV/AIDS program for HOPWA eligible supportive services.

FISCAL IMPACT:

The City of Oakland (City) is the HOPWA grant recipient for Alameda and Contra Costa counties. The City allocates HOPWA funds between the counties based on the number of HIV/AIDS cases. low-income persons living with HIV/AIDS in both the incorporated and unincorporated areas of the County. HOPWA eligible supportive services include medical case management, meals/nutritional services, mental health services, and transportation.

The County Health Services Department (CCHS) HIV/AIDS program has worked with the HOPWA program since its inception in the mid 1990s. Activities include housing advocacy and housing information services, including client intake, housing needs assessment, assistance with locating affordable housing, assistance with housing-related benefit applications, development and implementation of client housing plans, emergency assistance funds, follow-up to ensure receipt of benefits and housing, and referral to other services.

At Contra Costa County, the Department of Conservation and Development (DCD) and CCHS jointly coordinate periodically to identify and address the housing-related service needs of low-income persons living with HIV/AIDS in Contra Costa County. Funding allocations for both housing development and services are based on factors such as client needs and timely expenditure of HOPWA funds. Per the executed funding agreement dated July 1, 2019 with the City and the County, FY 2019/20 HOPWA funds are eligible to be used for HOPWA eligible activities through June 30, 2022, and funds remain unallocated from 2019/20. Beginning July 1, 2021, CCHS is proposing to use \$299,010 in HOPWA funds for HOPWA supportive services, including medical case management, mental health services, food, and transportation vouchers. The purpose of this board order is to allocate HOPWA funds accordingly and to inform the City, as HOPWA Grantee, the County's approval of use of such HOPWA funding and to allow the City to complete its Substantial Amendment process to the City's FY 2019/20 Annual Action Plan, if applicable. The HOPWA-eligible services to be augmented by this funding include:

- Medical Case Manager (MCM): The MCM would work with low-income, HOPWA-eligible clients enrolled in Ryan White Services (a distinct federal funding source to support services for persons with HIV/AIDS), to connect them to medical care, assist with addressing barriers to care, and connecting clients to available services. Services currently provided directly by CCHS or through subcontractors include housing advocacy and short-term rental assistance, medical transportation, food boxes/home-delivered meals, medical nutrition therapy, ambulatory/outpatient care for individuals without health insurance, health insurance enrollment, dental care, and psychosocial support services.
- Mental Health Clinical Specialist (MHCS): The MHCS would provide individual and group counseling options for clients experiencing mental health or substance use challenges. This is a service category that has seen consistent demand from clients and MCMs, but there has not been sufficient Ryan White funding to meet the need.
- Food Vouchers and Transportation Vouchers: To supplement existing food and transportation gift card purchases for clients facing food and/or transportation insecurity.

CONSEQUENCE OF NEGATIVE ACTION:

If the Board does not approve the allocation of HOPWA funds to CCHS, funding for additional HOPWA supportive services would not be available and low-income persons living with HIV/AIDS in the County would lose vital housing and supportive services.

Subject: APPROVE an Amendment to the JEPA between Contra Costa County and City of Richmond for maintenance and repair of the North Richmond Pump Station

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Public Works Director, or designee, to execute the Second Amendment to the Joint Exercise of Powers Agreement (JEPA) between the County of Contra Costa and the City of Richmond to increase the County payment amount by \$1,000,000 to a total of \$1,800,000 for repairs to the North Richmond Pump Station, North Richmond area.

FISCAL IMPACT:

This cost is to be 61% funded through Facility Lifecycle Improvement Program budget and 39% City of Richmond funds.

BACKGROUND:

Built in 1974, the North Richmond Pump Station (Pump Station) provides flood protection of the North Richmond community which had a history of flooding. The community is composed of properties in the City of Richmond and unincorporated County.

A Joint Exercise of Powers Agreement was executed on April 16, 1974, between the County and City of Richmond to split the cost of maintaining the Pump Station – City 39% and County 61%, since the Pump Station provides flood protection for residents of both jurisdictions.

The Pump Station has four original engine driven pumps. Engine

BACKGROUND: (CONT'D)

No. 4 became inoperable many years ago and was scavenged for parts over the years to keep the other three engines running. Towards the end of 2019, Engine No. 2 had major damage, rendering it inoperable. At the beginning of 2020, Engine No. 1 also suffered major damage and no longer operable.

With only one running pump, the Pump Station is only capable of a fraction of the pumping capacity needed to prevent flooding of the North Richmond community. Since continued repair of the existing vintage Caterpillar industrial engines is not practical and nearly impossible, due to lack of parts, the only viable option is to replace the engines.

With only one operational pump, there is great urgency to get the engines replaced before the beginning of the next rainy season, which typically is October. The County has ordered the replacement Caterpillar engines and associated equipment with delivery expected in September.

With a declaration of emergency by the City of Richmond, the City can quickly move forward with hiring a vendor to provide the engineering, fabrication, installation, and commissioning of the new equipment. The City does not have the funds available unless the County advances monies to the City so they can pay the vendor.

The First Amendment to the JEPA provides that the County will make payments to the City's contractor up to \$800,000 and that the City will reimburse County for the City's 39% share of the project over a four year period.

This Second Amendment increases the amount the County will pay to the City's contractor from \$800,000 to \$1,800,000. The entire project cost will total an estimated \$3,800,000 with the County's share totaling approximately \$2,300,000. The City's share of the entire project cost is now estimated to be \$1,500,000 and will be repaid to the County over four years.

As of June 2021, three of the four pump engines have been replaced. The additional amounts provided under the Second Amendment are necessary to address project complexities not anticipated and complete the project before the rainy season.

CONSEQUENCE OF NEGATIVE ACTION:

If this amendment is not approved, the installation of new pump engines will be delayed beyond the start of rainy season and the Pump Station will not have the pumping capacity to prevent flooding in the North Richmond community.

**SECOND AMENDMENT TO JOINT EXERCISE OF POWERS -
NORTH RICHMOND STORM DRAIN PROJECT – MAINTENANCE AGREEMENT**

This Second Amendment To Joint Exercise of Powers - North Richmond Storm Drain Project – Maintenance Agreement (this “First Amendment”) dated July 14, 2020, between Contra Costa County, a political subdivision of the State of California (“County”), and the City of Richmond, California, a municipal corporation (“City”) amends the Joint Exercise of Powers – North Richmond Storm Drain Project – Maintenance, dated April 16, 1974 (the “Agreement”), between County and City.

RECITALS

A. City and County entered into the Agreement for the purpose of setting forth the respective responsibilities of City and County City regarding the construction, operation, and maintenance of a storm drainage system and pump station in the North Richmond area of the County.

B. Under the Agreement, County is responsible for operating and maintaining the pump station, and City and County share in the cost of the operation and maintenance of the pump station.

C. In recent years the pump station engines have required expensive repairs to continue operating, have outlived their useful life, and need to be replaced at a cost significantly higher than historical annual maintenance costs.

D. City has agreed to enter into a contract with a contractor to perform the pump engine replacement work on behalf of the City and the County (the “Repair Contract”).

E. City and County desire to amend the Agreement to provide for County to pay a portion of the amounts coming due under the Repair Contract, and for City to reimburse County over a period of years for the amounts County will pay for the replacement of the pump engines.

NOW, THEREFORE, for good and mutual consideration, the sufficiency of which is acknowledged, City and County hereby amend the Agreement as follows:

AMENDMENT

1. Section 6 – Payment. Section 6 (Payment) of the Agreement is hereby amended to add the following paragraphs to the end of the section:

“The City has contracted with a contractor for the pump station engine repairs (the “Repair Contract”). County agrees to make payments to the Repair Contract contractor for the pump station engine repairs made under the Repair Contract up to \$1,800,000. City shall cause the Repair Contract contractor to name County as an additional insured and bond beneficiary under the Repair Contract. County has the right to inspect the Repair Contract work and related documentation.

Notwithstanding the foregoing, with respect to the pump station engine repairs made in 2020-21, County will advise City of the total cost of the pump engine replacement project (the “Project Cost”) within sixty (60) days after the project’s completion. Each time City makes its regular annual payment to County for its share of maintenance costs pursuant to

this Section 6, City shall also pay County twenty-five percent (25%) of the City's Share (as defined below) of the Project Cost until all of the City's Share has been paid. As used herein, the term "City's Share" means thirty-nine percent (39%) of the Project Cost. Upon City's request, County shall provide City with the project records and costs pertaining to the pump engine replacement project."

IN WITNESS WHEREOF, and intending to be bound as of the date first set forth above, each of the parties has caused this First Amendment to be signed by its duly authorized representatives set forth below.

Corporate Sustainability Policy

Ever since 1941, KI made a promise: to act as a steward of the environment. Since then, KI has been dedicated to serving its customers, its community, and future generation in a way that will protect the world in which we live. KI believes that, big or small, every action that safeguards and restores the environment is significant. KI is committed to making this happen by creating and providing products that advance environmental and human health, social responsibility, and economic prosperity.

1.0 ECONOMIC SUSTAINABILITY

KI manufactures innovative furniture and movable wall system solutions for education, healthcare, government, and corporate markets. Our customers count on us for information in making smart decisions that support the way they work – and their bottom line. At KI, we believe that our commitment to customer satisfaction and our ability to listen, share expert advice, meet specific needs, and be flexible is what will keep us in business for decades to come.

As an employee-owned company with worldwide operations, economic sustainability is one of our primary goals. We also strive to establish long-term profitability while contributing to the financial welfare of our owners, employees, and to the communities where we are located.

As a part of our ISO 9001-2008 certification, KI has developed processes to identify various strategies that make it possible to utilize available resources to our best advantage. Efforts to promote usage of those resources are both efficient and responsible, which in turn, provides long-term benefits. These benefits include a profitable business model at KI, and moreover, lessen environmental concerns that could negatively impact the local community. To support this, we make sure every manufacturing process, whether it's constructing a chair or marketing our products, reduces or eliminates the impact on the environment. We incorporate renewable and recyclable materials, such as bio-based foam or recycled aluminum framework, in all of our products as much as we can, and we design all of our products for longevity by using recyclable components that are easy to disassemble, repair, and recycle at the end of the life cycle. For the long haul, attention to this type of detail is intended to increase the strength of KI as a viable operation.

2.0 ENVIRONMENTAL SUSTAINABILITY

KI is committed to continually exploring viable product designs that will aid in the achievement of sustainable principles and provide customers with sustainable solutions as required for their workplace needs.

Representing the furniture manufacturing industry, KI, its leadership, and its employees work in cooperation with environmental professionals and their projects to examine how the company's product offerings embrace the following critical areas: energy efficiency, human and environmental health, durability, performance and maintenance, embodied energy and pollution, and resource limitation and waste management.

Through KI's Design for the Environment program (DfE), KI developed an approach which continually reinforces its commitment to sustainable design and manufacturing processes. This approach is as follows:

- KI regularly reviews all of its manufacturing facilities and continues to look at processes to be more environmentally friendly, including such things as painting processes, adhesives, metal cleaning, finishes, and packaging. This is intended to not only improve the indoor air quality to the end user, but also to address waste minimization, recycling and the use of alternative non-hazardous materials.
- KI purposely uses raw materials that have a positive and/or minimal impact on the environment. While many decisions may be motivated by a desire to protect the environment, KI takes into account the effects of raw materials on land use and substitution, as well as the broad range of environmental impacts inherent to the life cycle of its products.
- KI persistently pursues the development of products and constituents with the largest percentage of recycled content and those which can be easily repaired, disassembled, and recycled.
- KI continually searches for vendors and alternative options that offer the largest percentage of recycled content, utilizing both pre-consumer and post-consumer constituents.

At KI, we believe that quality products can be manufactured without sacrificing employee engagement, community support, corporate ethics or the health and safety of our employees. KI recognizes the importance of educating itself and its employees on inclusiveness and other aspects of social responsibility as a part of its commitment to the “triple bottom line” concept of sustainability.

KI’s environmental stewardship principles are as follows:

Design for the Environment. This program will be conducted at a minimum of two stages during product development: (1) during the feasibility stage and (2) during the business plan stage. KI will consider the following elements as part of the design process to improve products’ recyclability and biodegradability, to minimize energy and water use, and to reduce the environmental impact at the end of the standard life cycle.

Design for Durability and Non-Obsolescence. Design and manufacturing teams will ensure that all products have a long and useful life; can withstand repeated service, repair, and handling; and have standardized product parts and components available to facilitate maintenance, servicing and reassembly. KI products are built to last and are backed by warranty, which is valid for as long as the product is owned by the original buyer. The warranty covers defects in materials and craftsmanship found during normal usage.

Harmful Chemicals. KI strives to minimize the impact of harmful chemicals associated within its manufacturing processes and products to safeguard the health of humans, wildlife and the greater environment. KI assesses and manages all chemicals associated with products, processes, and maintenance operations to comply with all applicable federal, state, and local environmental regulations. KI will also take additional steps to identify, reduce and eliminate chemicals of concern.

Energy Conservation. KI’s environmental mission involves efforts to minimize the embodied energy in its raw materials and to conserve energy in its manufacturing processes, its products and its transportation. Through a continuous improvement process, KI strives to advance energy efficiency, reduce cost, optimize capital investment, reduce environmental and greenhouse gas emissions, and conserve natural resources. KI will promote efficient use of energy while complying with relevant federal, state, and local regulations.

KI manages energy efficiency by adhering to the following initiatives:

- Establish and implement effective energy management programs that support the organization’s strategic plan.
- Design, manufacture, and re-engineer products and processes to reduce our energy impact.
- Expect and encourage all employees to promote energy conservation while at work, home, and the communities where KI conducts business.
- Nurture relationships with government and utility companies on energy programs to reduce energy consumption and pollution.
- Set and use energy efficiency objectives and targets to drive performance improvements from a management, design, and operations perspective.

Solid Waste Management. KI strives to reduce 100% of its contribution to solid waste generated from fabrication or assembly of product components. Reductions in landfill waste will be achieved through

increased material efficiency and the creation of value for waste materials through reuse of recycling efforts.

Water Management. KI's primary source of water is the municipal water systems where its facilities are located. KI continues to implement reductions in its annual water consumption and discharges by modifying or improving its manufacturing processes and implementing water efficiency technologies.

Transportation. KI has a Smart Way certified fleet and utilizes only Smart Way certified carriers. KI has an anti-idling policy in place stating that no diesel engine should idle for longer than five minutes, except by exception. By doing this, KI is lowering maintenance costs and reduces the carbon footprint of the KI Fleet.

3.0 SOCIAL RESPONSIBILITY

KI was founded on the belief that human-centered design can impact the lives of people and ultimately the world, including the lives of future generations. Today, KI is committed to incorporating a human-centered, socially responsible approach to everything it does: from hiring to manufacturing, from designing to purchasing, and from workforce engagement to community outreach. It is an ongoing process that requires the active, vigilant, and creative participation of all involved. KI set its standards and measures its success through social responsibility principles.

KI's social responsibility principles are as follows:

Corporate Ethics Policy. KI is committed to conducting business activities lawfully and with honesty and integrity. To accomplish this goal, all employees receive training with regard to KI's position on basic ethical issues, so that they can act in accordance with those policies. KI's code of conduct specifies these standards and rules, which are designed to provide employees with guidelines for their business conduct.

Insider Trader. KI's assets are to be used solely for the company's benefit. These assets include physical assets and intangible assets, such as intellectual property, as well as all information about the company's business, including technologies, business strategies and plans, and financial data.

Employees shall not transfer the company's assets to others except in the ordinary course of business. Employees may have access to confidential information regarding the company's business, its customers, suppliers and competitors. Employees shall not use such information for personal financial gain through the trading of securities or other personal financial transactions. Employees shall not transfer company information onto any asset not owned by KI (i.e., home computer).

Receipt of Money, Goods and Other Things of Value. KI gains and maintains its business because of the quality and value of its products and services and the respect and confidence instill in its customers. The following policies are designed to ensure that this principle is followed:

Gifts of Employees

- Employees shall not accept gifts of money from any person or entity desiring to do business with KI.

- Employees shall not solicit non-monetary gifts, gratuities, tickets, entertainment or other personal benefits or favors from KI's customers or suppliers or those seeking such relationships.
- Employees and members of their immediate families are prohibited from soliciting or accepting any direct or indirect kickback, rebate or other benefit which results from the company's purchase of goods or other business action. If a supplier or carrier makes an offer of this type, employees are to decline it and report it to the materials manager at his/her plant for necessary follow-up. Occasionally, suppliers may offer advertising or promotional items of nominal value (less than \$10) where acceptance of the gift is required by applicable norms. If this situation occurs, employees are to promptly disclose the activity to their manager who will assist in determining the ultimate disposition of the item.

Payments by Employees

- Employees shall not directly or indirectly make or offer payments of money, gifts, services, entertainment or anything of value to any government official or employee.
- No employee or their party acting on behalf of KI may make any payment or offer any benefit of any kind, other than those included in the standard marketing policies of the company and which are available to all customers on an equal basis, to any customer or potential customer as an inducement to buy KI's products or services.
- Offering entertainment to individuals doing business or seeking to do business with the company must be reasonable and approved in advance by the employee's manager.
- All agreements with agents, sales representatives or consultant must be in writing and must clearly state the services to be performed, the basis for earning the commission or fee involved, the applicable rate or fee, and the fact that the agreement is subject to public disclosure.

Health and Safety Policy. Because KI considers employees to be the company's most valuable asset, we maintain high quality safety program for the protection of each employee. In keeping with this, KI is committed to maintaining compliance with all applicable local and national regulations that govern the company's performance in the area of employee health and safety.

The primary goal of KI's safety program is to prevent and eliminate serious injuries and consequences of all accidents. Efforts of the company alone will not prevent accidents. All KI employees receive general and specific training on various safety procedures, thus rendering safety the responsibility of every employee.

KI employees are required to follow safe practices and report any hazard directly and immediately to their department manager/facilitator. Any employee performing an unsafe act is a hazard and may be subject to disciplinary action.

Labor and Human Rights Policy. KI fosters a creative and stimulating work environment and empowers all employees to provide the highest possible level of service to the customer. Like the markets the company serves, KI encourages an innovative and entrepreneurial spirit. It is KI's commitment to provide employees with a competitive compensation and benefit package, career advancement opportunities, training programs, wellness activities, and a fun and exciting environment in which to work.

KI is dedicated to ensuring that the human rights of its employees are protected and respected, on a local and global scale, which includes the prohibition of forced, involuntary or child labor. In line with these guiding principles, KI expects the same level of responsibility to human rights protections from its global supply network.

Inclusiveness Policy. KI is committed to maintain a work environment that is characterized by mutual respect, professionalism, and absence of harassment and bullying. In keeping with this commitment, all managers, employees, vendors and customers are expected to adhere to a standard of conduct which exemplifies and supports a professional work environment free from all forms of discrimination.

It is KI's policy to provide equal employment opportunity for all qualified individuals without regard to race, color, religion, sex, gender identity, age, national origin, disability, veteran status, marital status, sexual orientation, military status, genetic information or any other protected class.

To this end, KI supports and cooperates with all applicable laws, regulations and executive orders in all of the company's employment policies, practices and decisions. KI takes affirmative action to assure that equal opportunity for employment is provided with regard to all personnel actions, including but not limited to:

- Recruiting, testing, selection, hiring, promotion and other employment decisions.
- Compensation, benefits, transfers, training, social and recreational programs, job assignments, layoffs, recalls, education and other terms and conditions of employment.

KI's Equal Employment Opportunity policy and affirmative action obligations include full support from Richard Resch, CEO and Chairman of the board. The corporate human resources business partner serves as the equal opportunity coordinator for KI and has the overall responsibility for training KI employees on this subject and assuring compliance with this policy. All employees are responsible for supporting the concept of equal opportunity and affirmative action and are expected to take prompt and appropriate action to prevent harassment or discrimination at KI, whether by company employees, customers or vendors.

Community Outreach and Involvement. KI is committed to being a good corporate citizen and will continue to give back to the communities in which it operates. KI's primary giving includes health and wellness-related organizations, as well as organizations that benefit youth and education. KI supports activities deemed worthwhile through time, talent, products and money as appropriate.

An annual budget is developed each year for charitable contributions. Each of the following areas will have budgets allocated accordingly: KI product requests, KI store merchandise requests, and monetary requests.

Key charities will be selected during the budgeting process, and funds or products will be identified as potential commitments for the upcoming year. KI makes a long-term commitment to support key charities for civic, social and public goodwill and will review this list annually as community priorities change.

- G. Describe any diversity programs or partner's supplier does business with and how Participating Agencies may use diverse partners through the Master Agreement. Indicate how, if at all, pricing changes when using the diversity program.

MINORITY BUSINESS

As an equal opportunity employer, KI implements fair labor and business practices across all levels of the organization. Promoting a balanced playing field in the marketplace, KI follows basic guidelines when selecting subcontractors. Ensuring fair procurement of products and services, KI participates in the development, preparation and execution of individual subcontracting plans and monitors performance relative to each plan. The company's support of minority and women-owned enterprises is demonstrated through outreach efforts, internal guidelines and processes, contractual language and incentive plans. Some of the specific ways KI can meet supplier diversity initiatives include.

Outreach efforts to obtain sources:

- Contracting minority and small business trade associations
- Contracting business development organizations
- Requesting sources from the Small Business Administration's Procurement Marketing and Access Network (Pro-Net) System.
- Attending small, minority and women-owned small business procurement conferences and trade fairs.

Internal efforts to guide and encourage purchasing personnel:

- Presenting workshops, seminars and training programs
- Establishing, maintaining and using small, hubzone, small disadvantaged and women-owned small business source lists, guides and other data for soliciting subcontracts.
- Monitoring activities to evaluate compliance with the subcontracting plan

KI also participates and cooperates in pertinent studies and/or surveys as well as periodic compliance reporting which show compliance with subcontracting plans.

For detailed information regarding KI's minority business interactions, please refer to KI's Small, Small Disadvantaged, and Women-Owned Small Business Subcontracting Plan enclosed within this section of the proposal.

- H. Describe any historically underutilized business certifications supplier holds and the certifying agency. This may include business enterprises such as minority and women owned, small or disadvantaged, disable veterans, etc.

What Makes Us Different

By sharing our thought leadership and experience, we help you to make well-informed, educated decisions about your furniture investment as well as the overall space it will be in. That's why we will lead with a question instead of a catalog. We want to hear what you have to say about your company's goals, how your employees or students want to work or learn, your expectations...even what you want people to feel when they walk into your space. What is important to you is important to us.

We've made conscious decisions to structure our business – from the front office to the manufacturing floor – in a way that allows us to respond to you. Our proven track record and repeat business demonstrates the depth and duration of our efforts to build relationships. Following are a few more reasons customers keep coming back to KI for furniture solutions:

EMPLOYEE OWNED

Unlike the vast majority of furniture manufacturers, KI is 100% employee owned. And when you own something, you treat it differently. Everyone in the organization from the executive office to the production floor is a stakeholder in the company. And while the benefits of employee ownership for the company and the employee are well known, there are less visible advantages for the customer as well.

- Empowered Employees – We encourage every single employee to view themselves as an owner and entrepreneur. Our employees have the autonomy and flexibility to streamline processes, implement innovative ideas and make decisions on behalf of what is best for the customer. They understand that your happiness leads to their success.
- Consistency – Mergers and acquisitions regularly occur in the furniture industry, distracting employees by disrupting culture and adversely affecting policies, procedures and employment. Employee ownership ensures continuity and stability for both employees and customers.
- Increased Investment – In addition to tax savings, the employee ownership structure can result in additional savings from having a workforce that is invested in being productive and finding innovative ways to save money and bring value to the customer. Those dollars can be reinvested into technology improvements, increased services and other initiatives that benefit our customers.

We are invested in your success, so we will always be transparent in what we can or can't do for you. We will stay on schedule. We will hold to our quote, no hidden fees. We know that your credibility is on the line, so we will always be forthright about our intentions.

OUR COMMITMENT TO YOU:

MARKET OF ONE® PHILOSOPHY

At KI, we believe that the only customer who matters is you – you are our Market of One. So we've structured everything from our service and support teams to the manufacturing floor to be nimble and adaptable to your needs. We're the right place for furniture, service and fulfillment options that align with your brand, your culture and your work environment.

- Product Portfolio – While we offer a robust line of furniture, we're also adept at customizing existing products to better fit your needs. We can also collaborate with you, your architect or interior designer to design a piece of furniture from scratch to meet very specific needs unique to your business.
- Dedicated Service – You will have a team of experienced professionals assisting you through the furniture procurement journey. In addition, you have 24/7/365 access to your order information from any electronic device via ki.com/orderstatus.
- Fulfillment Freedom – While we offer space planning, shipping and installation services, we will never limit you to working with agencies owned or affiliated strictly with KI. Rather, we will gladly collaborate and coordinate with any partner, dealer and/or installation entity you choose.

Unlike our peers, KI does not prescribe to pre-set distribution channels. Rather, we deploy local KI representatives to work directly with you. KI's approach provides alternative procurement methods that allow you, not the manufacturer, to determine the best means to manage ordering and fulfillment activities. It also provides you the opportunity to reduce costs via bypassing the traditional dealer/"middleman" model, if required.

This client-centric business model is the engine that continues to drive KI's growth and client satisfaction. Ultimately, clients appreciate the flexibility to make purchasing and fulfillment decisions according to their needs versus what may be most expedient for the manufacturer.

PERSONALIZED SOLUTIONS

While work tasks may be similar from business to business, we believe every customer is unique with its own brand, culture and ways of working. Since our company's inception, we've responded to customer requests to customize existing products or design new products to better fit their needs.

That responsiveness shaped how we work with our customers as well as the physical layout of our manufacturing facilities. Today, more than 20 percent of all KI sales are personalized solutions compared to an industry standard of approximately 1 percent. If a personalized solution is desired, you will have access to the Tailored Product Group. This team is dedicated to tailoring product solutions and assisting with space planning ideas to meet any requirements or solve issues unique to your project.

- J. Explain in detail how the sales teams will work with the OMNIA Partners, Public Sector team to implement, grow and service the national program.

KI has an internal support team of Market Development representative and Inside Sales representative that scour the industry looking for opportunities to participate on upcoming projects. Within many of these conversations our Representatives will determine the Customers' needs and paths in which they are able to purchase products, such as through the Omnia Cooperatives. KI also employs a network of Regional sales Leaders and representatives that work hand in hand with Dealer representatives to allow onsite support to the customer's. All of these individuals engage in sales support training at KI's corporate headquarters in which they review sales strategies and contracts that they can take advantage of in order to provide the Customers with their eligibility and options for the most competitive pricing and ease of doing business. KI also offers invitations to all of KI contracted sales representatives to our National Sales Meeting that go over product enhancements, new products and Sales Strategies. With such a robust sales network these individuals can align themselves with Omnia partner's regional representation in order to build a synergy that will enhance the Customers overall experience.

When KI is awarded a purchasing contract the entire sales community is notified and briefed on the opportunity. KI then loads the entire agreement and discounting into our quoting database so that all of our price quotation users have access to the contract and when the contract is referenced the contract discounting auto-fills in the quote by product SKU. This allows for accurate and up to date pricing and compliance for the sales teams and customer.

- K. Explain in detail how Supplier will manage the overall national program throughout the term of the Master Agreement, including ongoing coordination of marketing and sales efforts, timely new Participating Public Agency account set-up, timely contract administration, etc.

KI's contract division within the corporate headquarters assists with educating/customer support on all purchasing contracts that KI holds. This team will also work with the Omnia Cooperative teams on any administration duties such as addition and removal of products, discounting, added approved dealers and extensions. This team is a valuable source for maintaining compliance to the contract and educating Sales teams and Customers of their eligibility and how to utilize these great opportunities. Due to their familiarity with the contracts they also complete the sales reporting and administration fees in a timely manner.

- L. State the amount of Supplier's Public Agency sales for the previous fiscal year. Provide a list of Supplier's top 10 Public Agency customers, the total purchases for each for the previous fiscal year along with a key contact for each.

As a privately held company, the financial information is held confidential. Furthermore, the Companies standard practices and in some cases contractual obligations restrain the Company from displaying the customer's, their contacts and spending history in any solicitations or between other contract holders with the Company out of the respect for their confidentiality.

- M. Describe Supplier's information systems capabilities and limitations regarding order management through receipt of payment, including description of multiple platforms that may be used for any of these functions.

ELECTRONIC DATA INTERCHANGE (EDI)

KI believes EDI is a valuable tool in providing better service to customers. Documents previously processed manually can be exchanged through EDI quickly, without errors and at a reduced expense for both parties. EDI also allows the exchange of shipping and sales information. This information exchange allows both parties to improve their business interactions.

EDI System Configuration

At KI, the EDI system resides on an AS/400 in the corporate headquarters. KI has a separate test system on a separate AS/400 to use during the initial test period. The company's EDI system is fully integrated with its own applications in most cases. Some documents, such as purchase order changes, cannot be effectively automated within KI applications. In these cases, the information is printed, and a customer service representative reviews and responds to the information.

Enveloping: ISA

Data element separators/terminators: KI can use any delimiters requested. However, KI prefers to use non-printable characters.

Test/Production Flag

All interchanges sent by KI will be marked as Test or Production. Interchanges received in the KI mailbox will only be processed as production documents if they are marked "P" unless the trading partner specifies that "T" interchanges should be processed as well.

Transmission Schedule

KI usually transmits and receives according to the following schedule (all times are Central Standard):

7:30 a.m. -- Receive documents in mailbox and send acknowledgments

3:30 p.m. -- Receive documents in mailbox and send acknowledgments

Nightly (11 p.m. to 3 a.m.) -- Send invoices, advance ship notices and remittance advices

Acknowledgments

KI promptly acknowledges all documents received. If you do not receive an acknowledgment within 24 hours of sending the document, please contact the EDI coordinator at KI.

KI sends 997 functional acknowledgments, which acknowledge receipt of the document. Receiving a 997 does not mean the document's instructions or terms are accepted. A purchase order sent to KI is accepted when a shipping notice, purchase order acknowledgment or invoice is sent in return. Please note KI's terms and conditions.

Transmission Methods and Cost

KI maintains a mailbox on the Advantis network. KI can interconnect with other VANs through Advantis. The KI policy is not to support direct connections with trading partners. KI will pay for transmission to and from the KI mailbox and expects the trading partner to pay for transmissions to and from the trading partner's mailbox.

To increase efficiency and keep transmission costs at a minimum for both parties, KI recommends the EDI transmission contain as little information as possible. For example, addresses should only be sent when they are new or have changed. Note and text, which are not machine processable, are discouraged.

Checks Against Duplication of Orders

If a document is sent to KI with a duplicate interchange control number, it will not be processed. A duplicate interchange control number is a control number used by the same trading partner ID within the last three months. The EDI coordinator at KI will call the sending party to notify them of a duplicate. If requested, the documents can then be processed. If a document is sent more than once, but different control numbers are used, it may not be identified as a duplicate. Therefore, it may be processed as an original document. If an order is received by different media, for example phoned/faxed in and then sent EDI, KI has no control to prevent duplication. Phoned or faxed orders should not be sent EDI.

Ensuring Receipt of All Documents

KI checks the interchange control numbers received from each trading partner weekly. KI expects these control numbers to be sequential and gap-free. If KI believes a group of documents is missing, the EDI coordinator will call the trading partner.

Electronic Funds Transfer (EFT)

KI is set up to receive EFTs.

- N. Provide the Contract Sales (as defined in Section 10 of the OMNIA Partners, Public Sector Administration Agreement) that Supplier will guarantee each year under the Master Agreement for the initial three years of the Master Agreement (“Guaranteed Contract Sales”).

\$ _____ .00 in year one

\$ _____ .00 in year two

\$ _____ .00 in year three

Much like Omnia’s description and inability to guarantee volume to any Company as written in section 1.2, The companies contract sales projection as detailed in section M. can only be a projection for the Master Agreement. KI will not agree to be held to any guaranteed contract sales under the solicitation or contract if awarded.

To the extent Supplier ~~guarantees~~ projected minimum Contract Sales, the administration fee shall be calculated based on the greater of the actual Contract Sales shipped and factored on the product cost only and the Guaranteed Contract Sales. (Freight, install and commissions excluded).

- O. Even though it is anticipated many Public Agencies will be able to utilize the Master Agreement without further formal solicitation, there may be circumstances where Public Agencies utilizing the Master Agreement will issue their own solicitations. The following options are available when responding to a solicitation for Products covered under the Master Agreement.
- i. Respond with Master Agreement pricing (Contract Sales reported to OMNIA Partners, Public Sector).
 - ii. If competitive conditions require pricing lower than the standard Master Agreement not-to-exceed pricing, Supplier may respond with lower pricing through the Master Agreement. If Supplier is awarded the contract, the sales are reported as Contract Sales to OMNIA Partners, Public Sector under the Master Agreement.
 - iii. ~~Respond with pricing higher than Master Agreement only in the unlikely event that the Public Agency refuses to utilize Master Agreement (Contract Sales are not reported to OMNIA Partners, Public Sector).~~
 - iii. Should the Public Agency refuse to use the Master Agreement the Company will review the Public Agents terms and conditions and work out pricing and terms solely between the Company and the Public Agency.
 - iv. ~~If alternative or multiple proposals are permitted, respond with pricing higher than Master Agreement, and include Master Agreement as the alternate or additional proposal.~~
 - iv. If a Public Agency contacts the Company for solicitation or contract options, the company will provide the Public agency options. The Public Agency may provide their decision with no intervention from any other party should they have decided to pick one fulfillment option over another.

Detail Supplier's strategies under these options when responding to a solicitation.

As our red-lines indicate above, If a Public Agency would approach KI to do business or through their own solicitation, KI would advise agency of all contract options available to them. Letting the agency select and receive approval from their board before proceeding.

V. DESCRIPTION OF METHOD USED TO DEVELOP SUBCONTRACTING GOALS:

KI used the following method to develop the subcontracting goals:

The full range of products and services as defined by the North American Industrial Classification System (NAICS) and authorized by the Regulatory and Statistical Analysis Division, Office of Information and

Regulatory Affairs, Office of Management and Budget were used to develop the Small, Small Disadvantaged, Women-owned Small Business, HUBZone Small Business, Veteran-owned Small Business and Service-disabled Veteran-owned Small Business concerns subcontracting goals. We also based our goals on previous year's purchasing records and information and on previously approved subcontracting plans as well as direction from our administrative contracting officer.

VI. DESCRIPTION OF METHOD USED TO IDENTIFY POTENTIAL SOURCES:

KI identifies potential subcontractors using the following source lists and organizations:

We require that all suppliers complete a vendor registration and information form. We enter this information into our computer database, which enables us to analyze our purchases and which types of business concerns are involved as we purchase our goods and supplies for the manufacture of our products. We located potential suppliers through mass mailing lists of prime contractors, through lists of subcontractors published by State organizations, through business guides and trade journals, through industry trade shows, meetings, seminars, buyers and suppliers shows, through solicitations, request for quotations, and invitations to bid and by requesting sources from the Small Business Administration's Dynamic Small Business Search database (http://dsbs.sba.gov/dsbs/dsp_dsbs.cfm).

VII. INCLUSION OF INDIRECT COSTS IN ESTABLISHING GOALS:

Implementation of House Bill 1295

Certificate of Interested Parties (Form 1295):

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least \$1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016.

The Texas Ethics Commission was required to adopt rules necessary to implement that law, prescribe the disclosure of interested parties form, and post a copy of the form on the commission's website. The commission adopted the Certificate of Interested Parties form (Form 1295) on October 5, 2015. The commission also adopted new rules (Chapter 46) on November 30, 2015, to implement the law. The commission does not have any additional authority to enforce or interpret House Bill 1295.

Filing Process:

Starting on January 1, 2016, the commission made available on its website a new filing application that must be used to file Form 1295. A business entity must use the application to enter the required information on Form 1295 and print a copy of the completed form, which will include a certification of filing that will contain a unique certification number. An authorized agent of the business entity must sign the printed copy of the form. The completed Form 1295 with the certification of filing must be filed with the governmental body or state agency with which the business entity is entering into the contract.

The governmental entity or state agency must notify the commission, using the commission's filing application, of the receipt of the filed Form 1295 with the certification of filing not later than the 30th day after the date the contract binds all parties to the contract. This process is known as acknowledging the certificate. The commission will post the acknowledged Form 1295 to its website within seven business days after receiving notice from the governmental entity or state agency. The posted acknowledged form does not contain the declaration of signature information provided by the business.

A certificate will stay in the pending state until it is acknowledged by the governmental agency. Only acknowledged certificates are posted to the commission's website.

By submitting a proposal, the Offeror is accepted these Special Conditions required by the Federal Emergency Management Agency (FEMA).

Conflicts of Interest

No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a FEMA award if he or she has a real or apparent conflict of interest. Such a conflict would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties, has a financial or other interest in or a tangible personal benefit from a firm considered for award. 2 C.F.R. § 200.318(c)(1); See also Standard Form 424D, ¶ 7; Standard Form 424B, ¶ 3.

i. FEMA considers a “financial interest” to be the potential for gain or loss to the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties as a result of the particular procurement. The prohibited financial interest may arise from ownership of certain financial instruments or investments such as stock, bonds, or real estate, or from a salary, indebtedness, job offer, or similar interest that might be affected by the particular procurement.

ii. FEMA considers an “apparent” conflict of interest to exist where an actual conflict does not exist, but where a reasonable person with knowledge of the relevant facts would question the impartiality of the employee, officer, or agent participating in the procurement.

c. Gifts. The officers, employees, and agents of Region 4 ESC nor the Participating Public Agency (“NFE”) must neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. d. Violations. The NFE’s written standards of conduct must provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the NFE. 2 C.F.R. § 200.318(c)(1). - (4) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.
- (5) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.
- (6) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions as may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(7) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, That in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency the contractor may request the United States to enter into such litigation to protect the interests of the United States."

4. Davis Bacon Act and Copeland Anti-Kickback Act.

- a. Applicability of Davis-Bacon Act. The Davis-Bacon Act only applies to the emergency Management Preparedness Grant Program, Homeland Security Grant Program, Nonprofit Security Grant Program, Tribal Homeland Security Grant Program, Port Security Grant Program, and Transit Security Grant Program. **It does not apply to other FEMA grant and cooperative agreement programs, including the Public Assistance Program.**
- b. All prime construction contracts in excess of \$2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. §§ 3141-3144 and 3146-3148) as supplemented by Department of Labor regulations at 29 C.F.R. Part 5 (Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction)). See 2 C.F.R. Part 200, Appendix II, ¶ D.
- c. In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week.
- d. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.
- e. In contracts subject to the Davis-Bacon Act, the contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). The Copeland Anti- Kickback Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the

compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA.

- f. The regulation at 29 C.F.R. § 5.5(a) does provide the required contract clause that applies to compliance with both the Davis-Bacon and Copeland Acts. However, as discussed in the previous subsection, the Davis-Bacon Act does not apply to Public Assistance recipients and subrecipients. **In situations where the Davis-Bacon Act does not apply, neither does the Copeland “Anti-Kickback Act.”** However, for purposes of grant programs where both clauses do apply, FEMA requires the following contract clause:

“Compliance with the Copeland “Anti-Kickback” Act.

- (1) Contractor. The contractor shall comply with 18 U.S.C. § 874, 40U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.
- (2) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as the FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses
- (3) Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. § 5.12.”

5. Contract Work Hours and Safety Standards Act.

- a. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.
- b. Where applicable (see 40 U.S.C. § 3701), all contracts awarded by the non-Federal entity in excess of \$100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations at 29 C.F.R. Part 5. See 2 C.F.R. Part 200, Appendix II, ¶ E.
- c. Under 40 U.S.C. § 3702, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the workweek.
- d. The requirements of 40 U.S.C. § 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or

articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

- e. The regulation at 29 C.F.R. § 5.5(b) provides the required contract clause concerning compliance with the Contract Work Hours and Safety Standards Act:

"Compliance with the Contract Work Hours and Safety Standards Act.

- (1) Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.
- (2) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1) of this section, in the sum of \$10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this section.
- (3) Withholding for unpaid wages and liquidated damages. The (write in the name of the Federal agency or the loan or grant recipient) shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2) of this section.
- (4) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier

subcontractor with the clauses set forth in paragraphs (1) through (4) of this section.”

6. Rights to Inventions Made Under a Contract or Agreement.

- a. Stafford Act Disaster Grants. This requirement **does not apply to the Public Assistance**, Hazard Mitigation Grant Program, Fire Management Assistance Grant Program, Crisis Counseling Assistance and Training Grant Program, Disaster Case Management Grant Program, and Federal Assistance to Individuals and Households – Other Needs Assistance Grant Program, as

FEMA awards under these programs do not meet the definition of “funding agreement.”

b. If the FEMA award meets the definition of “funding agreement” under 37 C.F.R. § 401.2(a) and the non-Federal entity wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that “funding agreement,” the non-Federal entity must comply with the requirements of 37 C.F.R. Part 401 (Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements), and any implementing regulations issued by FEMA. See 2 C.F.R. Part 200, Appendix II, ¶ F.

- c. The regulation at 37 C.F.R. § 401.2(a) currently defines “funding agreement” as any contract, grant, or cooperative agreement entered into between any Federal agency, other than the Tennessee Valley Authority, and any contractor for the performance of experimental, developmental, or research work funded in whole or in part by the Federal government. This term also includes any assignment, substitution of parties, or subcontract of any type entered into for the performance of experimental, developmental, or research work under a funding agreement as defined in the first sentence of this paragraph.

7. Clean Air Act and the Federal Water Pollution Control Act. Contracts of amounts in excess of \$150,000 must contain a provision that requires the contractor to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act (42 U.S.C. §§ 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. §§ 1251-1387). Violations must be reported to FEMA and the Regional Office of the Environmental Protection Agency. See 2 C.F.R. Part 200, Appendix II, ¶ G.

- a. The following provides a sample contract clause concerning compliance for contracts of amounts in excess of \$150,000:

“Clean Air Act

(1) The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.

(2) The contractor agrees to report each violation to the (name of the state agency or local or Indian tribal government) and understands and agrees that the (name of the state agency or local or Indian tribal

government) will, in turn, report each violation as required to assure notification to the (name of recipient), Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

(3) The contractor agrees to include these requirements in each subcontract exceeding \$150,000 financed in whole or in part with Federal assistance provided by FEMA.

Federal Water Pollution Control Act

(1) The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

(2) The contractor agrees to report each violation to the (name of the state agency or local or Indian tribal government) and understands and agrees that the (name of the state agency or local or Indian tribal government) will, in turn, report each violation as required to assure notification to the (name of recipient), Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

(3) The contractor agrees to include these requirements in each subcontract exceeding \$150,000 financed in whole or in part with Federal assistance provided by FEMA.”

8. Debarment and Suspension.

- a. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.
- b. Non-federal entities and contractors are subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and Suspension* (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security's regulations at 2 C.F.R. Part 3000 (Non procurement Debarment and Suspension).
- c. These regulations restrict awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities. See 2 C.F.R. Part 200, Appendix II, ¶ H; and *Procurement Guidance for Recipients and Subrecipients Under 2 C.F.R. Part 200 (Uniform Rules): Supplement to the Public Assistance Procurement Disaster Assistance Team (PDAT) Field Manual Chapter IV, ¶ 6.d, and Appendix C, ¶ 2 [hereinafter PDAT Supplement]*. A contract award must not be made to parties listed in the SAM Exclusions. SAM Exclusions is the list maintained by the General Services Administration that contains the names of parties debarred, suspended, or otherwise excluded by

agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. SAM exclusions can be accessed at www.sam.gov. See 2 C.F.R. § 180.530; *PDAT Supplement*, Chapter IV, ¶ 6.d and Appendix C, ¶ 2.

- d. In general, an “excluded” party cannot receive a Federal grant award or a contract within the meaning of a “covered transaction,” to include subawards and subcontracts. This includes parties that receive Federal funding indirectly, such as contractors to recipients and subrecipients. The key to the exclusion is whether there is a “covered transaction,” which is any non-procurement transaction (unless excepted) at either a “primary” or “secondary” tier. Although “covered transactions” do not include contracts awarded by the Federal Government for purposes of the non-procurement common rule and DHS’s implementing regulations, it does include some contracts awarded by recipients and subrecipient.
- e. Specifically, a covered transaction includes the following contracts for goods or services:
 - (1) The contract is awarded by a recipient or subrecipient in the amount of at least \$25,000.
 - (2) The contract requires the approval of FEMA, regardless of amount.
 - (3) The contract is for federally required audit services.
 - (4) A subcontract is also a covered transaction if it is awarded by the contractor of a recipient or subrecipient and requires either the approval of FEMA or is in excess of \$25,000.
- d. The following provides a debarment and suspension clause. It incorporates an optional method of verifying that contractors are not excluded or disqualified:

“Suspension and Debarment

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by (insert name of subrecipient). If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to (name of state agency serving as recipient and name of subrecipient), the Federal

Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.”

9. Byrd Anti-Lobbying Amendment.

- a. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.
- b. Contractors that apply or bid for an award of \$100,000 or more must file the required certification. See 2 C.F.R. Part 200, Appendix II, ¶ 1; 44 C.F.R. Part 18; *PDAT Supplement*, Chapter IV, 6.c; Appendix C, ¶ 4.
- c. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. § 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award. See *PDAT Supplement*, Chapter IV, ¶ 6.c and Appendix C, ¶ 4.
- d. The following provides a Byrd Anti-Lobbying contract clause:

“Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)

Contractors who apply or bid for an award of \$100,000 or more shall file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient.”

10. Procurement of Recovered Materials.

- a. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.
- b. A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, Pub. L. No. 89-272 (1965) (codified as amended by the Resource Conservation and Recovery Act at 42 U.S.C. § 6962). See 2 C.F.R. Part 200, Appendix II, ¶ J; 2 C.F.R. § 200.322; *PDAT Supplement*, Chapter V, ¶ 7.
- c. The requirements of Section 6002 include procuring only items designated in guidelines of the EPA at 40 C.F.R. Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds \$10,000 or the value of the quantity acquired by the preceding fiscal year exceeded \$10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.
- d. The following provides the clause that a state agency or agency of a political subdivision of a state and its contractors can include in contracts meeting the above contract thresholds:

“(1) In the performance of this contract, the Contractor shall make maximum use of products containing recovered materials that are EPA- designated items unless the product cannot be acquired—

11. Additional FEMA Requirements.

- a. The Uniform Rules authorize FEMA to require additional provisions for non-Federal entity contracts. FEMA, pursuant to this authority, requires or recommends the following:
- b. Changes.

To be eligible for FEMA assistance under the non-Federal entity’s FEMA grant or cooperative

agreement, the cost of the change, modification, change order, or constructive change must be allowable, allocable, within the scope of its grant or cooperative agreement, and reasonable for the completion of project scope. FEMA recommends, therefore, that a non-Federal entity include a changes clause in its contract that describes how, if at all, changes can be made by either party to alter the method, price, or schedule of the work without breaching the contract. The language of the clause may differ depending on the nature of the contract and the end-item procured.

c. Access to Records.

All non-Federal entities must place into their contracts a provision that all contractors and their successors, transferees, assignees, and subcontractors acknowledge and agree to comply with applicable provisions governing Department and FEMA access to records, accounts, documents, information, facilities, and staff. See DHS Standard Terms and Conditions, v 3.0, ¶ XXVI (2013).

d. The following provides a contract clause regarding access to records:

“Access to Records. The following access to records requirements apply to this contract:

(2) The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

(3) The contractor agrees to provide the FEMA Administrator or his authorized representatives access to construction or other work sites pertaining to the work being completed under the contract.”

12. DHS Seal, Logo, and Flags.

- a. All non-Federal entities must place in their contracts a provision that a contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval. See DHS Standard Terms and Conditions, v 3.0, ¶ XXV (2013).
- b. The following provides a contract clause regarding DHS Seal, Logo, and Flags: “The contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre- approval.”

13. Compliance with Federal Law, Regulations, and Executive Orders.

- a. All non-Federal entities must place into their contracts an acknowledgement that FEMA financial assistance will be used to fund the contract along with the requirement that the contractor will comply with all applicable federal law, regulations, executive orders, and FEMA policies, procedures, and directives.
- b. The following provides a contract clause regarding Compliance with Federal Law, Regulations, and Executive Orders: "This is an acknowledgement that FEMA financial assistance will be used to fund the contract only. The contractor will comply will all applicable federal law, regulations, executive orders, FEMA policies, procedures, and directives."

14. No Obligation by Federal Government.

- a. The non-Federal entity must include a provision in its contract that states that the Federal Government is not a party to the contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract.
- b. The following provides a contract clause regarding no obligation by the Federal Government: "The Federal Government is not a party to this contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract."

15. Program Fraud and False or Fraudulent Statements or Related Acts.

- a. The non-Federal entity must include a provision in its contract that the contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to its actions pertaining to the contract.
- b. The following provides a contract clause regarding Fraud and False or Fraudulent or Related Acts: "The contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the contractor's actions pertaining to this contract."

Additional contract clauses per 2 C.F.R. § 200.325

For applicable construction/reconstruction/renovation and related services: A payment and performance bond are both required for 100 percent of the contract price. A "performance bond" is one executed in connection with a contract to secure fulfillment of all the contractor's obligations under such contract. A "payment bond" is one executed in connection with a contract to assure payment as required by law of all persons supplying labor and material in the execution of the work provided in the contract.

FEDERAL FUNDS CERTIFICATIONS

FEDERAL CERTIFICATIONS
ADDENDUM FOR AGREEMENT FUNDED BY U.S. FEDERAL GRANT

TO WHOM IT MAY CONCERN:

Participating Agencies may elect to use federal funds to purchase under the Master Agreement. This form should be completed and returned.

DEFINITIONS

Contract means a legal instrument by which a non-Federal entity purchases property or services needed to carry out the project or program under a Federal award. The term as used in this part does not include a legal instrument, even if the non-Federal entity considers it a contract, when the substance of the transaction meets the definition of a Federal award or subaward

Contractor means an entity that receives a contract as defined in Contract.

Cooperative agreement means a legal instrument of financial assistance between a Federal awarding agency or pass-through entity and a non-Federal entity that, consistent with 31 U.S.C. 6302-6305:

- (a) Is used to enter into a relationship the principal purpose of which is to transfer anything of value from the Federal awarding agency or pass-through entity to the non-Federal entity to carry out a public purpose authorized by a law of the United States (see 31 U.S.C. 6101(3)); and not to acquire property or services for the Federal government or pass-through entity's direct benefit or use;
- (b) Is distinguished from a grant in that it provides for substantial involvement between the Federal awarding agency or pass-through entity and the non-Federal entity in carrying out the activity contemplated by the Federal award.

Federal awarding agency means the Federal agency that provides a Federal award directly to a non-Federal entity

Federal award has the meaning, depending on the context, in either paragraph (a) or (b) of this section:

- (a)(1) The Federal financial assistance that a non-Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability; or
- (2) The cost-reimbursement contract under the Federal Acquisition Regulations that a non-Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability.
- (b) The instrument setting forth the terms and conditions. The instrument is the grant agreement, cooperative agreement, other agreement for assistance covered in paragraph (b) of § 200.40 Federal financial assistance, or the cost-reimbursement contract awarded under the Federal Acquisition Regulations.
- (c) Federal award does not include other contracts that a Federal agency uses to buy goods or services from a contractor or a contract to operate Federal government owned, contractor operated facilities (GOCOs).
- (d) See also definitions of Federal financial assistance, grant agreement, and cooperative agreement.

Non-Federal entities adopt small purchase procedures in order to expedite the purchase of items costing less than the simplified acquisition threshold. The simplified acquisition threshold is set by the Federal Acquisition Regulation at 48 CFR Subpart 2.1 (Definitions) and in accordance with 41 U.S.C. 1908. As of the publication of this part, the simplified acquisition threshold is \$150,000, but this threshold is periodically adjusted for inflation. (Also see definition of § 200.67 Micro-purchase.)

Subaward means an award provided by a pass-through entity to a subrecipient for the subrecipient to carry out part of a Federal award received by the pass-through entity. It does not include payments to a contractor or payments to an individual that is a beneficiary of a Federal program. A subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract.

In addition, contractors must be required to pay wages not less than once a week. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The contractor or subcontractor, where applicable, will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the agency contracting officer advising the labor union or workers' representative of the contractor's commitments under this act and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Public Agency Instructions

This page provides guidance to public agencies entering into contracts with business entities that are required to file Political Contribution Disclosure forms with the agency. **It is not intended to be provided to contractors.** What follows are instructions on the use of form local units can provide to contractors that are required to disclose political contributions pursuant to N.J.S.A. 19:44A-20.26 (P.L. 2005, c. 271, s.2). Additional information on the process is available in Local Finance Notice 2006-1 (http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html). Please refer back to these instructions for the appropriate links, as the Local Finance Notices include links that are no longer operational.

1. The disclosure is required for all contracts in excess of \$17,500 that are **not awarded** pursuant to a “fair and open” process (N.J.S.A. 19:44A-20.7).
2. Due to the potential length of some contractor submissions, the public agency should consider allowing data to be submitted in electronic form (i.e., spreadsheet, pdf file, etc.). Submissions must be kept with the contract documents or in an appropriate computer file and be available for public access. **The form is worded to accept this alternate submission.** The text should be amended if electronic submission will not be allowed.
3. The submission must be **received from the contractor and** on file at least 10 days prior to award of the contract. Resolutions of award should reflect that the disclosure has been received and is on file.
4. The contractor must disclose contributions made to candidate and party committees covering a wide range of public agencies, including all public agencies that have elected officials in the county of the public agency, state legislative positions, and various state entities. The Division of Local Government Services recommends that contractors be provided a list of the affected agencies. This will assist contractors in determining the campaign and political committees of the officials and candidates affected by the disclosure.
 - a. The Division has prepared model disclosure forms for each county. They can be downloaded from the “County PCD Forms” link on the Pay-to-Play web site at <http://www.nj.gov/dca/divisions/dlgs/programs/lpcl.html#12>. They will be updated from time-to-time as necessary.
 - b. A public agency using these forms **should edit them to properly reflect the correct legislative district(s)**. As the forms are county-based, **they list all legislative districts** in each county. **Districts that do not represent the public agency should be removed from the lists.**
 - c. Some contractors may find it easier to provide a single list that covers all contributions, regardless of the county. These submissions are appropriate and should be accepted.
 - d. The form may be used “as-is”, subject to edits as described herein.
 - e. The “Contractor Instructions” sheet is intended to be provided with the form. It is recommended that the Instructions and the form be printed on the same piece of paper. The form notes that the Instructions are printed on the back of the form; where that is not the case, the text should be edited accordingly.
 - f. The form is a Word document and can be edited to meet local needs, and posted for download on web sites, used as an e-mail attachment, or provided as a printed document.
5. It is recommended that the contractor also complete a “Stockholder Disclosure Certification.” This will assist the local unit in its obligation to ensure that contractor did not make any prohibited contributions to the committees listed on the Business Entity Disclosure Certification in the 12 months prior to the contract (See Local Finance Notice 2006-7 for additional information on this obligation at http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html). A sample Certification form is part of this package and the instruction to complete it is included in the Contractor Instructions. NOTE: This section is not applicable to Boards of Education.

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Contractor Instructions

Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a “fair and open” process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s.2 (N.J.S.A. 19:44A-20.26). This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

- any State, county, or municipal committee of a political party
- any legislative leadership committee*
- any continuing political committee (a.k.a., political action committee)
- any candidate committee of a candidate for, or holder of, an elective office:
 - of the public entity awarding the contract
 - of that county in which that public entity is located
 - of another public entity within that county
 - or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county

The disclosure must list reportable contributions to any of the committees that exceed \$300 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- individuals with an “interest” ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
- all principals, partners, officers, or directors of the business entity or their spouses
- any subsidiaries directly or indirectly controlled by the business entity
- IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs).

When the business entity is a natural person, “a contribution by that person’s spouse or child, residing therewith, shall be deemed to be a contribution by the business entity.” [N.J.S.A. 19:44A-20.26(b)] The contributor must be listed on the disclosure.

Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report.

The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor’s responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement.

The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed cover sheet) may be used as the contractor’s submission and is disclosable to the public under the Open Public Records Act.

The contractor must also complete the attached Stockholder Disclosure Certification. This will assist the agency in meeting its obligations under the law. **NOTE: This section does not apply to Board of Education contracts.**

* N.J.S.A. 19:44A-3(s): "The term "legislative leadership committee" means a committee established, authorized to be established, or designated by the President of the Senate, the Minority Leader of the Senate, the Speaker of the General Assembly or the Minority Leader of the General Assembly pursuant to section 16 of P.L.1993, c.65 (C.19:44A-10.1) for the purpose of receiving contributions and making expenditures."

PRODUCT PRICING

ALL PRICES LISTED IN KI PRICE LISTS ARE FREIGHT EXCLUDED OR DELIVERED PRICING.

KI price lists and any prices contained therein are subject to change without notice. Prices applicable to all Customer orders shall be those in effect at the time KI receives a complete order from Customer unless: Customer and KI have in place a written special pricing or master supply agreement, which agreement specifies the prices to be paid by Customer; or Customer requests a product shipping date to occur more than one hundred twenty (120) days after KI's receipt of Customer's order (in which case KI shall have the option to apply to Customer's order the price list in effect as of Customer's requested shipping date). The most current KI price lists are maintained electronically and can be found at www.ki.com/price-lists

Any discounts are ineffective if, as a result of the discounts, the final selling price of any product offered in a KI quote would be lower than the corresponding price for that product under KI's multiple award schedule contracts with the United States General Services Administration (GSA). If the final selling price for any KI product in a quote would be below KI's price to GSA, KI will offer that product at the same price that KI offers to GSA. No other terms or conditions of KI's GSA contracts would apply to such sales.

FREIGHT AND DELIVERY

Freight Terms

KI reserves the right to select the "best way" shipment methods and means (including, but not limited to, determination of the carrier, method of shipment, and routing). Standard delivery shall be dock-to-dock delivery and shall occur Monday through Friday, 7:00 a.m. to 3:00 p.m. for truckload or 9:00a.m. to 5:00 p.m. for less than truckload or parcel. Products quoted as "Delivered Pricing" shall be "F.O.B. Origin," and freight charges are based on shipments to the 48 U.S. contiguous states. For shipments destined to other U.S. states or foreign territories, delivery will be made to a prearranged port. Customer shall prepay all freight charges and any extra expenses resulting from any request by Customer for after-hours, holiday, weekend, or specific time delivery, or special carrier, shipping method, (e.g. air freight, exclusive use vehicle) packaging, and/or routing. Contact KI for quote.

CAUTION: After obtaining a clear receipt for shipment, the delivering carrier is no longer responsible for damage or shortages.

Title, Risk of Loss

Title to product shall pass to Customer upon delivery by KI to the carrier. For purposes of risk of loss, all shipments are "F.O.B Origin"; and Customer acknowledges that once KI delivers the product to the carrier, risk of loss shall pass to the Customer.

Shipment Damage Claims

All products are packaged to comply with carrier requirements and leave KI's manufacturing facilities in good condition. Customer shall be responsible to:

- Carefully inspect merchandise upon delivery. Make notation of package conditions and describe any type of damage observed on the carrier's delivery receipt.

- If the delivery receipt has been signed free and clear and damage is discovered after carrier has left, the customer shall report the concealed damage and request an inspection to the local carrier terminal within (5) five business days of receipt date.
- Retain all shipping cartons for inspection by the carrier agent.
- All damaged product and packaging must be kept at point of delivery.

KI shall not be liable for loss or damage to product that occurs in transit, and Customer's sole remedy for any such damages shall be to seek appropriate recourse against the carrier. For more information visit <http://damagedproductprocess.com>

Shortage Claims

Shortage must be noted at time of delivery to be considered a carrier claim.

KI will evaluate Customer reported shortage claims within (10) ten days immediately following delivery. Shortage claims reported beyond (10) ten days after delivery will not be honored.

Returns

Product conforming to the specifications contained in KI's acknowledgement to Customer may not be returned to KI without KI's written consent, which consent may be conditioned upon Customer's agreement to pay re-handling and/or restocking charges and/or to prepay all freight charges on the return shipment.

Requests for Specific Delivery Time(s)

KI considers requests for delivery times and for drop shipments to job sites, and will undertake reasonable efforts to indicate any such request(s) to product carriers. KI may, in its sole discretion, extend to Customer the option of a carrier-guaranteed set delivery time at an additional cost to Customer. KI's liability for any damages incurred for any late deliveries, including labor and other expenses resulting from any such delays, shall be limited to a refund of the charge for the aforementioned guaranteed set delivery time.

Accessorial Fees

Customer shall be responsible for the payment of all accessorial fees, including, but not limited to, charges necessitated by any of the following:

- A need for special delivery equipment, including lift gates
- Inside delivery
- The absence of a loading dock
- Redirection or re-consignment of product
- Detention charges
- Street unloads
- Improper refusal of product

Storage of Product

If, following KI's acknowledgement of Customer's purchase order, Customer requests a delay in shipment for any period greater than one (1) day from the scheduled ship date, Customer shall be responsible for the payment of the following storage fees:

- Orders less than a full trailer (11 pallets or 24 feet or less): \$5.00 per day per pallet.
- Full trailer: \$60.00 per day per trailer.

Any long-term storage (i.e. storage outside standard shipping and installation storage) must be climate controlled. Temperature must range between 60 and 80 degrees Fahrenheit and

humidity must be controlled between 45 and 65 percent relative humidity.

Split Deliveries

Orders can be split shipped (including C.O.M. as it arrives) only with faxed or written authorization.

Re-delivery of Freight

When re-delivery of merchandise is required because the customer is not ready to accept merchandise, and no notification of this fact is given to the factory at least one week prior to the scheduled ship date, the actual costs for freight, restocking and re-handling, plus 5% of the order value, will be billed to the customer.

PAYMENT TERMS

Net Thirty Days

Payment on all KI invoices shall be made in U.S. dollars within thirty (30) days of the date of each such invoice and without offset, back charges, retention, or withholding of any kind. Unpaid and delinquent invoices shall accrue interest at the rate of one and one-half percent (1.5%) per month, or the highest rate permitted by law, whichever is less.

Leasing Provisions

KI offers a lease finance option. The first and last monthly payments are required at the time of signing. Lease quotations subject to National Cooperative Leasing credit approval. Rates are based upon current market and subject to change without notice. Contact KI for a quote.

Custom Deposits

Customer may be required to pay a deposit for the purchase of any custom or nonstandard products identified in Customer's purchase order. Any such deposit shall accompany Customer's purchase order.

New Accounts

New accounts require the approval of a KI sales representative, credit references, and a valid tax-exempt or resale certificate (where applicable).

Security Interest in Products

KI shall retain a purchase money security interest in all products sold to Customer and for which Customer has not made full payment. Customer agrees to execute any and all instruments necessary to document the creation of this security interest and/or to perfect the same. Customer further agrees to assemble and deliver to KI all products subject to this security interest in the event Customer defaults on Customer's payment obligations to KI.

Collection Costs

In the event Customer defaults on Customer's payment obligations to KI, and KI employs the services of an attorney or collection agency to enforce these obligations, Customer shall reimburse KI for all of KI's actual collection costs and expenses (including actual attorneys' fees and court costs) upon demand.

To: Board of Supervisors
From: Monica Nino, County Administrator
Date: July 27, 2021

Subject: REVISED EMPLOYEE RETIREMENT PLAN CONTRIBUTION RATES FOR FISCAL YEAR 2021/2022 FOR
CENTRAL CONTRA COSTA SANITATION DISTRICT

RECOMMENDATION(S):

ADOPT Resolution No. 2021/226 as approved by the Retirement Board, which revises retirement plan contribution rates for Central Contra Costa Sanitary District effective July 1, 2021 through June 30, 2022.

FISCAL IMPACT:

See 'Background' below.

BACKGROUND:

On June 25, 2021, Central Contra Costa Sanitary District made a \$70,763,669 prepayment towards their entire December 31, 2019 Unfunded Actuarial Accrued Liability (UAAL). Along with a reduction in the UAAL, the prepayment decreases the District's required UAAL contribution rate.

At its July 14, 2021 meeting, the Retirement Board reviewed and accepted the actuary's calculation of resulting reduction in the District's amended employer contribution rates, effective on July 1, 2021. A copy of the actuary's letter is available from CCCERA upon request.

By: , Deputy

BACKGROUND: (CONT'D)

Attached are the amended rates are effective July 1, 2021 through June 30, 2022 and will replace those that have previously been adopted by the County Board of Supervisors on November 3, 2020.

- The rates are BEFORE ANY EMPLOYER SUBVENTION of the employee contribution.
- The rates quoted here are the employer required rates without taking into consideration any employer subvention of employee contributions.
- The rates are BEFORE ANY INCREASE IN EMPLOYEE RATE to pay a portion of the employer contribution.
- If an employee's rate needs to be increased to pay a portion of the employer contribution, both employee and employer rates would need to be adjusted accordingly.

CONSEQUENCE OF NEGATIVE ACTION:

Rates will not reflect those adopted by the Contra Costa County Employees Retirement Board.

By: , Deputy

cc: Robert Campbell, Auditor-Controller, All County Departments (via CAO)

BACKGROUND: (CONT'D)

Insert under Section 4.b. Order of Business, Second Meeting of the Month, provisions to discuss unfinished administrative business and new administrative business.

Sec. III. Membership, Electronic Signatures

Insert a provision under Government Code Section 31527(i) to allow the use and acceptance of members' electronic signatures, if the electronic signatures and documents are submitted using technology the Board deems sufficient. This new Regulations provision will require that a separate policy be adopted by the Board to set forth a process by which CCCERA will ensure the integrity, security, and authenticity of the technology used. After the policy is adopted, electronic signatures and documents submitted using the approved technology will be given the same force as a signed, valid original document.

At a future date, the referenced policy will be provided for board consideration and information will be provided about the technology to be used for electronic signature and documents transmittal.

Sec. IV. Contributions and Reporting, Due Dates

Insert language to clarify that reports are due as stipulated in the regulations, unless specified in a written agreement between CCCERA and the participating employer.

Both redline and clean copy versions of the policy are attached.

- A. All officers and employees of the County or districts shall be members of the association as provided in Article 4 under Sections 31550-31567 of the County Employees' Retirement Law of 1937 (Gov. Code Secs. 31450, et seq. "CERL"), unless excluded from membership by this Section.
- B. The following employees shall be excluded from membership:
 - (i) Temporary, seasonal or independent contract employees who are employed or re-employed for temporary service or at certain specified periods each year.
 - (ii) Intermittent or permanent-intermittent employees who are appointed to serve less than 80% of the full number of working hours required of regular employees or who actually serve less than 80% of such full number of working hours in one year as certified by their appointing authority.
 - (iii) Part-time employees whose service for the County or district is less than fifty (50) percent of the full number or working hours required of full-time employees at that employer.
 - (iv) Project employees, unless the appointing authority certifies that the project is expected to be of one year or more in duration on a greater than part-time basis.
 - (v) Provisional employees, unless they otherwise meet the requirements for reciprocal benefits with other retirement systems under Article 15 of CERL.
- C. In making its determination regarding an employee's inclusion in or exclusion from membership, the Board will not rely solely upon the term given to the type of employment. Rather, the Board will rely upon such additional facts such as the nature of the employment, its expected or actual duration, and its relationship to what is considered full-time, permanent employment.

2. Exclusion from Membership – by Compensation

Except as otherwise herein provided, all employees of the County or district who receive compensation amounting to less than one-hundred (\$100) dollars per month, and in the case of employees paid on other than a monthly basis an average of one-hundred (\$100) dollars per month for the preceding year, including maintenance valued according to the schedule adopted by the governing

body, are hereby excluded and exempted from membership in the Retirement Association. Any member of the Retirement Association whose salary is reduced to an amount less than one-hundred (\$100) dollars per month shall have the option of continuing or discontinuing his/her active membership in the Association.

3. Exclusion from Membership – by Waiver

Newly hired employees age 60 and older may waive membership as authorized by Gov. Code Section 31552. Any such waiver of membership shall be effective only if it is submitted to the CCCERA Chief Executive Officer within 90 days of the employee's date of hire; provided, however, that the Chief Executive Officer may, in his/her sole and reasonable discretion, waive the time limitation if the newly hired employee establishes good cause for such a waiver.

4. Certifications

Every employee of the County or district within the county whose employees are members of the Association shall, upon entry into the Association, complete a sworn statement as provided for in Gov. Code Section 31526(b). A certified copy of the member's birth certificate or other evidence of birth may be required by the Board.

It shall be the employer's responsibility to assure compliance with this section. The Board shall assess the employer five hundred (\$500) dollars per employee for every month or fraction thereof that the required certification is not submitted. The Board shall notify the employer in writing of the imposition of assessment at least thirty days before the assessment.

5. Electronic Signatures

Pursuant to Government Code Section 31527(i), the Board may use and accept a document requiring a signature that is submitted by a member using an electronic signature, if the document and electronic signature are submitted using technology the Board deems sufficient, as set forth in a policy adopted by the Board, to ensure its integrity, security, and authenticity. A document submitted pursuant to the Board-adopted policy shall be given the same force as a signed, valid original document.

IV. CONTRIBUTIONS AND REPORTING

1. Leave of Absence

When a leave of absence without pay is less than a full calendar month, the full monthly contribution, if available from the member's salary, shall be deducted from the member's earnable compensation and service credit shall be given for a full calendar month. If the amount of the member's salary for the applicable period is less than the contributions due, then no deduction shall be made for service credit. (Gov. Code section 31527, subd. (a).)

Members on stipendiary educational leaves shall continue to make contributions.

2. Due Dates

Each employer shall report to the Association in a manner and frequency as determined by the Board sufficient for the Board to credit contributions and service to each member's record.

Unless otherwise specified in a written agreement between CCCERA and the participating employer, reports shall be due no later than the tenth of each month for the previous month's payroll and shall be accompanied by member and employer contributions. If the tenth of the month falls on a weekend or holiday, the due date shall be the last working day before the tenth. Reports, which are unreadable or incorrect, shall not be accepted and shall be returned to the employer.

Reports and contributions received after the due date shall be considered late and subject to a late reporting penalty equal to: the prime rate in effect on the due date computed on a daily, non-compounding basis and applied to the contributions due.

3. Drops in Payroll

Whenever the employer's reportable payroll drops to a level which is lower than 70% of its payroll during the same period in the preceding year, the Board may investigate the cause. Whenever the employer's reportable payroll drops to a level which is lower than 50% of its payroll during the same period in the preceding year, the Board shall investigate the cause. If the Board determines that the cause is other than temporary it shall determine the amount of contributions due from the employer to continue paying its share of any unfunded liability. This amount shall then be due from the employer in addition to any contributions made on the reduced payroll.

4. Employer Certification

Each report as specified in Section IV.2 shall include or be accompanied by a certification, under penalty of perjury, as to its accuracy. The certification shall be made by a duly authorized representative of the employer.

V. SERVICE

1. Leave of Absence

When a member returns from a medical leave of absence without pay, the member shall receive credit for up to 12 months of the leave time if the member pays an amount equal to what he or she would have paid, including any amount that would have been paid by the member's employer on the member's behalf (i.e., subvented), had he or she not taken the leave together with the interest that such amount would have earned had it been on deposit. Calculation of the cost of the leave purchase and the method of payment for such leave shall be as provided in Gov. Code Section 31646.

2. Prior Service

In establishing the length of prior service for any member entitled to credit therefor, official payroll records or other official records shall be controlling. In the event that any of such records are unavailable, the Board, in its discretion, may accept affidavits of the employee, affidavits of the employee's employer, affidavits of fellow employees or such other sworn evidence as the Board determines to be pertinent.

For the purpose of these Regulations, credit for prior service for a per diem employee entitling the employee to a full year's credit towards retirement shall mean 200 or more workdays of service rendered in any one calendar year including leave of absence, vacation and sick leave duly granted, but not more than one year of credit shall be allowed for service in any one calendar year. Service of less than 200 workdays in any one calendar year shall be credited on the pro-rata basis of 250 workdays per year.

Prior service shall include all service for the employer and all service while on leave from the employer for military duty, which is prior to the establishment of the retirement system.

3. Sick Leave Credit

The following provisions govern the use of sick leave credit toward service credit at retirement under Government Code Sections 31641.01 as adopted by the County Board of Supervisors.

- A. The total hours of sick leave accumulated by the member on the date of retirement, at the rate of one day for each one day earned, shall be certified as to its accuracy in writing under penalty of perjury by the duly authorized representative of the employer.
- B. The Association shall convert the total sick leave into years and fractions of a year using the following equivalencies:
 - (i) For firefighters, accumulated sick leave hours at retirement shall be divided by 2,912 (average number of working hours per year for a firefighter).
 - (ii) For all other members, the accumulated sick leave hours at retirement shall be divided by 2,000 hours (average number of working hours per year).
- C. The formula used to determine the sick leave service credit value shall be the same as used for the member's service category at the time of retirement.

4. Service Purchase

Any member who elects to purchase prior public service under Government Code Section 31641.2, prior nonmembership service under Government Code Section 31641.5, prior service under Government Code Section 31648, or military service under Government Code Section 31649.5, shall be eligible to make the purchase anytime before applying for retirement.

Any member who elects to purchase prior public service under Government Code Section 31641.2, prior nonmembership service under Government Code Section 31641.5, prior service under Government Code Section 31648 or military service under Government Code Section 31649.5 shall be permitted to make such purchase in installment payments as provided for in Section V, paragraph 6 of these Regulations.

5. Redeposit of Withdrawn Contributions

On redeposit, a member must pay withdrawn contributions plus any interest as defined in Gov. Code Section 31472.1, subject to Section V, paragraph 8.

The redeposit will exclude contributions subvented by the employer under Gov. Code Secs. 31581.1 31581.2 and 31630, and exclude any Cost of Living (COL) contributions that were not otherwise paid by members as a result of a transfer of excess surplus funds for that year.

6. Installment Payments

Whenever a member elects to purchase prior public service (Gov. Code Sec. 31641.2), prior nonmembership service (Gov. Code Sec. 31641.5), prior military service (Gov. Code Sec. 31649.5), prior service (Gov. Code Sec. 31648), or leave of absence service (Gov. Code Sec. 31646), or elects to redeposit withdrawn service (Gov. Code Sec. 31652), and the member elects to make such purchase or redeposit in installment payments, the following shall govern:

- A. The amount of service represented by each installment payment shall be computed by dividing the amount of the installment payment by the total cost of purchase or redeposit, and multiplying the resulting percent by the total service being purchased or redeposited.
- B. The member's service credit record shall be increased to reflect each installment payment as it is received and shall be applied to the most recent service for which credit is available.
- C. The member's account balance shall be increased to reflect each installment payment as it is received. Unless otherwise certified by the employer, the installment payment will be deemed and credited as after-tax member contributions.
- D. If the member dies, requests a refund, or retires either for service or disability, no further installments shall be accepted. Any benefit payable thereafter shall recognize or include service purchased or redeposited and account balances to date.
- E. If multiple periods of service are eligible for purchase or redeposit, the cost of each period shall be separately computed and any installments shall apply to the most recent service period first.
- F. Unless otherwise prohibited by law (leave of absence without pay under Gov. Code Sec. 31646, prior public service under Gov. Code Sec. 31641.2, and prior nonmembership service under Gov. Code Sec. 31641.5), the member shall be eligible to make installment payments so long as he or she continues to be actively employed.

As for service purchased under Government Code Sections 31641.5 and 31646, such payments may be made by lump sum or by installment payments over a period not to exceed the length of time for which the member has elected to receive credit, in the manner otherwise provided for in this paragraph 6.

As for service purchased under Government Code Section 31641.2, such payments may be made during active employment as a member by lump sum or by installment payments over a period not to exceed five years.

- G. A member may elect installment payments by monthly payroll deductions on a post tax basis.
 - (i) A Purchase Contract must be signed for payroll deductions.
 - (ii) All payroll deduction Purchase contracts must be paid in full by the member's retirement date or within 120 days of termination.
 - (iii) Service credit is posted to member's account at the completion of the contractual payments.

7. Conversion of Tier II Service Credit

Once a member elects or by resolution has been placed into Tier III membership under Gov. Code Sec 31755 he or she is eligible to convert all or any part of Tier II service credit to Tier III service credit.

The member's cost shall be the difference between the total amount he or she and the employer paid into the Association under Tier II and what would have been contributed during the same time if the employee had been under Tier III, together with interest as defined in Section 31472.1, subject to Section V, paragraph 8.

8. Forgiveness of Interest

In cases where a member is redepositing withdrawn contributions, purchasing service credit or converting service credit in accordance with this Section V, interest shall not include the most recently credited interest amount if all of the following conditions are met:

- A. The member requested a calculation of the cost of the purchase or conversion more than three months prior to the June 30 or December 31 interest crediting date.
- B. The member received the requested calculation after the June 30 or December 31 interest crediting date.
- C. Within 30 days of receipt of the requested calculation the member pays all or a part of the cost with a lump sum payment.

VI. COMPENSATION

1. Compensation for Retirement Purposes.

The Board has adopted a Board Compensation Policy listing items of compensation that are included in “compensation”, “compensation earnable”, and “final compensation” as defined in Government Code Sections 31460, 31461, and 31462.1. The Retirement Association will provide each employer with a copy of the Board Compensation Policy. Each employer is required to transmit promptly to the Retirement Association, contributions on each item of compensation listed in the Compensation Policy as includible in “compensation”.

2. New or changed pay items.

Each employer shall report to the Association in writing within 30 days of any of the following events:

- A. A new pay item is created.
- B. There has been a change in either an existing pay item or the conditions under which the pay item is computed, accrued or paid.
- C. Notification received after the 30 days adoption shall be considered late and shall be assessed as defined in Section IV.2.
- D. Upon notification, the Board shall determine whether the pay item is included in “compensation” as defined in Section 31460.

VII. NORMAL RETIREMENT AGE AND BONA FIDE SEPARATIONS

Normal Retirement Age

For purposes of applying the Pension Protection Act of 2006 (“PPA”) and complying with other applicable tax-related laws (such as restrictions on in-service distributions), effective July 1, 2007, the “Normal Retirement Age” for CCCERA members shall be the age set forth in CERL retirement formula for an unreduced benefit that applies to each CCCERA member immediately preceding the effective date of his or her retirement from a CCCERA employer. For example, the Normal Retirement Age for a member who earns retirement service immediately before retirement under a “3% at 50” retirement formula (Gov. Code section 31664.1) is 50 years of age. The Normal Retirement Age for a member who earns retirement service immediately before retirement under a “2% at 55” retirement formula (Gov. Code section 31676.16) is 55 years of age.

Notwithstanding the foregoing, Normal Retirement Age for CCCERA members shall in no event be earlier than (i) age 55 for CCCERA members who are not Qualified Public Safety Employees (as defined in Internal Revenue Code section 72(t)(10)(B)) immediately prior to their retirement; and (ii) age 50 for CCCERA members who are Qualified Public Safety Employees.

The Board may change or further refine its determination of Normal Retirement Age as described herein in order to comply with any rules or regulations of the Internal Revenue Service or other applicable law. The Board’s current determinations of Normal Retirement Age are based upon the findings and conclusions set forth in Board of Retirement Resolutions 2007-1 and 2007-2.

Bona Fide Separation from Service

A) In order to comply with tax law restrictions on in-service distributions, a member who retires at an age younger than Normal Retirement Age, as defined herein, may not enter into an agreement, either oral or written, prior to the date the member's retirement commences, to be reemployed while retired by the same CCCERA employer, regardless of the length of the member's break in service after retirement. The member must acknowledge in writing to CCCERA at the time of retirement that the member has been informed of these requirements and limitations on post-retirement employment and that no prearrangement to be reemployed while retired exists.

B) A member who retires at an age younger than Normal Retirement Age, as defined herein, must have at least a continuous 90-day break in service from the date of the member's last day of employment prior to being reemployed while retired by the member’s prior CCCERA employer.

C) If a member is reemployed without compliance with subsections (A) and (B) above, the retired member's retirement benefits from CCCERA must cease as soon as practicable upon discovery by CCCERA and will not resume until the member has a bona fide separation from service or reaches Normal Retirement Age, whichever occurs first.

D) A member may return to work prior to the time specified in section (B) above for emergency situations as defined in Government Code Section 8558 and under the return to work restrictions specified in Government Code Section 7522.56 *et seq.* However, prior to returning to work, the retiree must have incurred a bona fide break in service and cannot have entered into a prearranged agreement to be reemployed by the same employer.

E) The definitions, limitations and requirements contained herein shall be provided to every CCCERA member who inquires about retirement.

VIII. WITHDRAWALS

1. Discontinued Service

The service of a member will be considered “discontinued” under Gov. Code Section 31628 only if the member has actually terminated employment and either the termination is due to lay-off or the member is not reemployed by that employer for a period of 45 days.

The service of a member will not be considered discontinued if the member continues to work for the employer or for another participating employer, even if the member’s work schedule is below the minimum number of hours required to qualify for coverage. In these cases interest will continue to be credited to the member's account.

2. Account Withdrawals

All requests to withdraw an account must be in writing.

All payments of an account balance shall be in the form of either or both of the following:

- A. A lump sum distribution
- B. A rollover to an IRA or a new employer’s Qualified Plan per current IRS guidelines.

3. Interest Crediting

Interest is credited to the account of a pending refund request on June 30th or December 31st if the funds have been on deposit for six months or more in accordance with Gov. Code Section 31591.

A member who continues employment in a non-covered position will have interest credited to his/her account.

4. Account Reinstatement

A member who has appealed a dismissal and has been reinstated by the employer is allowed to redeposit withdrawn retirement contributions, plus interest, and will be reinstated as of the original date of membership in the Association.

IX. NEW PARTICIPATING EMPLOYERS (Section 31557)

All officers and employees of any newly participating district shall become members of the Association as provided in Section 31557.

- A. An actuarial valuation shall be made to determine liability.
- B. The district shall pay the cost of the valuation.

**X. PARTICIPATING EMPLOYER WITHDRAWAL
(SECTIONS 31564 AND 31564.2)**

An employer, by resolution, may withdraw its employees from membership in the Association as provided in Government Code sections 31564 and 31564.2.

- A. Upon notification by an employer that it is considering withdrawing from the Association, the Association will provide the employer with a copy of the Association's Employer Termination Policy.
- B. An employer shall comply with the Association's Employer Termination Policy to ensure the actuarial soundness of the retirement system.

XI. DISPENSING WITH RECALCULATION FOR MINOR DISCREPANCY

1. Closed Accounts

The Board authorizes the Chief Executive Officer to refrain from collecting an under payment or refunding an overpayment of accumulated contributions from

a member who has terminated from the association and cannot be located, whenever the amount is fifty dollars (\$50) or less.

2. Active, Deferred and Retiree Accounts

The association may dispense with issuing any check whenever the retroactive liability is less than five dollars (\$5).

XII. APPLICATIONS FOR DISABILITY RETIREMENT

(Adopted: Retirement Board – June 14, 1977)

(Approved: Board of Supervisors – June 28, 1977)

1. Application Form

An application for service-connected or nonservice-connected disability retirement shall be filed on the Application for Disability Retirement form prescribed by the Board of Retirement, and shall include either a completed Physician's Statement or another form of medical report to support the Application.

2. Effective Date Of Disability Retirement Allowance

(a) The effective date of a disability retirement allowance shall be established pursuant to Gov. Code Section 31724.

(b) The applicant may apply to have the disability retirement allowance become effective earlier than the date the application is filed upon a showing the application was delayed due to administrative oversight or by the inability to determine the permanency of the disability until after the date following the last day for which the applicant received regular compensation, by completing the applicable section of the Application for Disability Retirement form. The failure of the applicant to apply for an earlier effective date at the time the application is filed shall constitute a waiver of the right to apply for an earlier effective date.

3. Denial Without Prejudice

(a) In the event the medical advisor's recommendation is to deny the disability application (without prejudice), the member may submit additional medical information to support the application and/or request a hearing within six (6) months of notice of the denial.

(b) In the event the medical advisor's recommendation is to grant the disability application, the Board of Retirement will review the recommendation and take action on the application for disability retirement. If the Board denies the

application (without prejudice), the member may request a hearing within six (6) months of notice of the denial.

4. Request For Hearing

Any applicant for disability retirement shall, upon request, be entitled to a hearing, at the sole discretion of the Board of Retirement, before the Board, or before a referee appointed by the Board pursuant to Gov. Code section 31533. Any such request for hearing shall be in writing, and shall be made within 30 days after notice of the Board's action denying the application is mailed by certified or registered mail to the applicant. An application is deemed made on the date mailed if mailed by certified or registered mail, on the date postmarked if mailed by first class mail and received, or on the date received by the Association, whichever is earlier.

5. Judicial Review

In any matter in which the party or applicant is entitled to judicial review of any action taken by the Board of Retirement, the petition to the court must be filed within 90 days from the date the notice of the Board's decision is delivered to the party or applicant, or served by certified or registered mail upon the party or applicant or the party's or applicant's attorney.

The procedure for hearings on disability retirement applications that the Board of Retirement or a Referee holds in connection with determination of disability retirement benefits under CERL shall be set forth in the Board of Retirement's separate policy regarding the same.

XIII. CONTINUED EMPLOYMENT OF PARTIALLY DISABLED EMPLOYEES

(Approved: Board of Supervisors – May 9, 1972)

Section 10.1 – Purpose

This regulation governs the procedures for the continued employment of partially disabled members pursuant to Government Code Section 31725.5 and County Ordinance Code Section 38-4.402.

Section 10.2 – Definitions

In this regulation, unless otherwise specifically provided, or required by the context, these terms have these meanings:

- A. “Reassignment” means the appointment (pursuant to the Statute, the ordinance and this regulation) of a member to a position, with duties different from, and compensation earnable higher, lower, or the same as, the position for which he is incapacitated.
- B. “Board” means the Board of Retirement (Retirement Board).
- C. “Chief Executive Officer” means the Retirement Administrator as defined in Government Code Section 31522.
- D. “Incapacitated for the performance of his/her duties” means the permanent inability of the member, due to physical or mental causes, to perform the duties of his/her specific position.
- E. “Committee” means the Rehabilitation Committee.
- F. “Governing Body” means the Board of Supervisors or the elected officials governing a district.
- G. “District” is defined in Government Code Section 31468.

Section 10.3 – Rehabilitation Committee

- A. A Rehabilitation Committee is hereby established for the purpose of recommending whether a member shall be reassigned.
- B. Except as provided by Section 10.7, this committee shall consist of the following:

- a. The permanent members are a member of the Board designated by it; and the County Administrator, Director of Personnel and County Health Officer or their designees; and the Chief Executive Officer or his/her designee, who serves as secretary without a vote.
- b. The appointing authority within the department or district to which the reassignment is proposed or his/her (its) designee.
- c. The employee and/or his/her designee, unless he waives membership.

Section 10.4 – Procedure

- A. After an application for disability is filed, the Chief Executive Officer shall consult with the Board’s medical advisor, the member employee and others as necessary, to determine whether a reassignment appears feasible (in view of the members employee’s condition) if the Board later finds the member employee to be incapacitated for the performance of his/her duties. If a reassignment appear feasible to the Chief Executive Officer, he shall convene the permanent members of the Committee and the employee or his/her designee, and they shall explore the practicabilities of returning the member employee to his/her previous position or reassigning, rehabilitating and/or retraining him/her.
- B. When a department or district is located to which a reassignment appears feasible, the appointing authority within it shall be added to the Committee (pursuant to Section 10.3B(2) above).
- C. The Committee may make its recommendation to the Board at any time before or after Board action on the application for disability retirement.

Section 10.5 – Reassignment

After the Board determines that the member employee is incapacitated for the performance of his/her duties, he shall be reassigned, in lieu of being retired for disability, if the appointing authority in the department or district in which he is to be employed and the Governing Body agree to his/her appointment and the appointment is made in accordance with any applicable merit or Civil Service system rules.

Section 10.6 – Later Retirement

If a member who has accepted reassignment is voluntarily or involuntarily separated from the service thereafter, his/her retirement benefits and rights, including those of his/her beneficiaries, shall be determined as if he were being retired on the date of this later separation for the same type of disability retirement as he would have received had he been retired originally instead of reassigned, but a new application may be filed for disability retirement based on his/her job connected injury or disease

occurring after the first application was filed, and his/her rights and benefits (including Cost-of-Living retirement adjustments) shall not be less than those to which he would be entitled if he retires for service on the date of his/her later separation.

Section 10.7

In a district for which the Board of Supervisors is not the governing body, the Chief Executive Officer shall request the district to appoint to the Committee those personnel with functions similar to those of the County Administrator and Director of Personnel; and such other personnel shall then service on the Committee in lieu of the County Administrator and Director of Personnel.

A document submitted pursuant to the Board-adopted policy shall be given the same force as a signed, valid original document.

IV. CONTRIBUTIONS AND REPORTING

1. Leave of Absence

When a leave of absence without pay is less than a full calendar month, the full monthly contribution, if available from the member's salary, shall be deducted from the member's earnable compensation and service credit shall be given for a full calendar month. Members on stipendiary educational leaves shall continue to make contributions.

2. Due Dates

Each employer shall report to the Association in a manner and frequency as determined by the Board sufficient for the Board to credit contributions and service to each member's record.

Unless otherwise specified in a written agreement between CCCERA and the participating employer, reports shall be due no later than the tenth of each month for the previous month's payroll and shall be accompanied by member and employer contributions. If the tenth of the month falls on a weekend or holiday, the due date shall be the last working day before the tenth. Reports, which are unreadable or incorrect, shall not be accepted and shall be returned to the employer.

Reports and contributions received after the due date shall be considered late and subject to a late reporting penalty equal to: the prime rate in effect on the due date computed on a daily, non-compounding basis and applied to the contributions due.

3. Drops in Payroll

Whenever the employer's reportable payroll drops to a level which is lower than 70% of its payroll during the same period in the preceding year, the Board may investigate the cause. Whenever the employer's reportable payroll drops to a level which is lower than 50% of its payroll during the same period in the preceding year, the Board shall investigate the cause. If the Board determines that the cause is other than temporary it shall determine the amount of contributions due from the employer to continue paying its share of any unfunded liability. This amount shall then be due from the employer in addition to any contributions made on the reduced payroll.

4. Employer Certification

Each report as specified in Section IV.2 shall include or be accompanied by a certification, under penalty of perjury, as to its accuracy. The certification shall be made by a duly authorized representative of the employer.

V. SERVICE

1. Leave of Absence

When a member returns from a medical leave of absence without pay, the member shall receive credit for up to 12 months of the leave time if the member pays an amount equal to what he or she would have paid, including any amount that would have been paid by the member's employer on the member's behalf (i.e., subvented), had he or she not taken the leave together with the interest that such amount would have earned had it been on deposit. Calculation of the cost of the leave purchase and the method of payment for such leave shall be as provided in Gov. Code Section 31646.

2. Prior Service

In establishing the length of prior service for any member entitled to credit therefore, official payroll records or other official records shall be controlling. In the event that any of such records are unavailable, the Board, in its discretion, may accept affidavits of the employee, affidavits of the employee's employer, affidavits of fellow employees or such other sworn evidence as the Board determines to be pertinent.

For the purpose of these Regulations, credit for prior service for a per diem employee entitling the employee to a full year's credit towards retirement shall mean 200 or more workdays of service rendered in any one calendar year including leave of absence, vacation and sick leave duly granted, but not more than one year of credit shall be allowed for service in any one calendar year. Service of less than 200 workdays in any one calendar year shall be credited on the pro-rata basis of 250 workdays per year.

Prior service shall include all service for the employer and all service while on leave from the employer for military duty, which is prior to the establishment of the retirement system.

3. Sick Leave Credit

The following provisions govern the use of sick leave credit toward service credit at retirement under Government Code Sections 31641.01 as adopted by the County Board of Supervisors.

- A. The total hours of sick leave accumulated by the member on the date of retirement, at the rate of one day for each one day earned, shall be certified as to its accuracy in writing under penalty of perjury by the duly authorized representative of the employer.

- B. The Association shall convert the total sick leave into years and fractions of a year using the following equivalencies:
 - (i) For firefighters, accumulated sick leave hours at retirement shall be divided by 2,912 (average number of working hours per year for a firefighter).
 - (ii) For all other members, the accumulated sick leave hours at retirement shall be divided by 2,000 hours (average number of working hours per year).
- C. The formula used to determine the sick leave service credit value shall be the same as used for the member's service category at the time of retirement.

4. Service Purchase

Any member who elects to purchase prior public service under Government Code Section 31641.2, prior nonmembership service under Government Code Section 31641.5, prior service under Government Code Section 31648, or military service under Government Code Section 31649.5, shall be eligible to make the purchase anytime before applying for retirement.

Any member who elects to purchase prior public service under Government Code Section 31641.2, prior nonmembership service under Government Code Section 31641.5, prior service under Government Code Section 31648 or military service under Government Code Section 31649.5 shall be permitted to make such purchase in installment payments as provided for in Section V, paragraph 6 of these Regulations.

5. Redeposit of Withdrawn Contributions

On redeposit, a member must pay withdrawn contributions plus any interest as defined in Gov. Code Section 31472.1, subject to Section V, paragraph 8.

The redeposit will exclude contributions subvented by the employer under Gov. Code Secs. 31581.1 31581.2 and 31630, and exclude any Cost of Living (COL) contributions that were not otherwise paid by members as a result of a transfer of excess surplus funds for that year.

6. Installment Payments

Whenever a member elects to purchase prior public service (Gov. Code Sec. 31641.2), prior nonmembership service (Gov. Code Sec. 31641.5), prior military service (Gov. Code Sec. 31649.5), prior service (Gov. Code Sec. 31648), or leave of absence service (Gov. Code Sec. 31646), or elects to redeposit withdrawn

service (Gov. Code Sec. 31652), and the member elects to make such purchase or redeposit in installment payments, the following shall govern:

- A. The amount of service represented by each installment payment shall be computed by dividing the amount of the installment payment by the total cost of purchase or redeposit, and multiplying the resulting percent by the total service being purchased or redeposited.
- B. The member's service credit record shall be increased to reflect each installment payment as it is received and shall be applied to the most recent service for which credit is available.
- C. The member's account balance shall be increased to reflect each installment payment as it is received. Unless otherwise certified by the employer, the installment payment will be deemed and credited as after-tax member contributions.
- D. If the member dies, requests a refund, or retires either for service or disability, no further installments shall be accepted. Any benefit payable thereafter shall recognize or include service purchased or redeposited and account balances to date.
- E. If multiple periods of service are eligible for purchase or redeposit, the cost of each period shall be separately computed and any installments shall apply to the most recent service period first.
- F. Unless otherwise prohibited by law (leave of absence without pay under Gov. Code Sec. 31646, prior public service under Gov. Code Sec. 31641.2, and prior nonmembership service under Gov. Code Sec. 31641.5), the member shall be eligible to make installment payments so long as he or she continues to be actively employed.

As for service purchased under Government Code Sections 31641.5 and 31646, such payments may be made by lump sum or by installment payments over a period not to exceed the length of time for which the member has elected to receive credit, in the manner otherwise provided for in this paragraph 6.

As for service purchased under Government Code Section 31641.2, such payments may be made during active employment as a member by lump sum or by installment payments over a period not to exceed five years.

- G. A member may elect installment payments by monthly payroll deductions on a post tax basis.
 - (i) A Purchase Contract must be signed for payroll deductions.

- (ii) All payroll deduction Purchase contracts must be paid in full by the member's retirement date or within 120 days of termination.
- (iii) Service credit is posted to member's account at the completion of the contractual payments.

7. Conversion of Tier II Service Credit

Once a member elects or by resolution has been placed into Tier III membership under Gov. Code Sec 31755 he or she is eligible to convert all or any part of Tier II service credit to Tier III service credit.

The member's cost shall be the difference between the total amount he or she and the employer paid into the Association under Tier II and what would have been contributed during the same time if the employee had been under Tier III, together with interest as defined in Section 31472.1, subject to Section V, paragraph 8.

8. Forgiveness of Interest

In cases where a member is redepositing withdrawn contributions, purchasing service credit or converting service credit in accordance with this Section V, interest shall not include the most recently credited interest amount if all of the following conditions are met:

- A. The member requested a calculation of the cost of the purchase or conversion more than three months prior to the June 30 or December 31 interest crediting date.
- B. The member received the requested calculation after the June 30 or December 31 interest crediting date.
- C. Within 30 days of receipt of the requested calculation the member pays all or a part of the cost with a lump sum payment.

VI. COMPENSATION

1. Compensation for Retirement Purposes.

The Board has adopted a Board Compensation Policy listing items of compensation that are included in “compensation”, “compensation earnable”, and “final compensation” as defined in Government Code Sections 31460, 31461, and 31462.1. VII. NORMAL RETIREMENT AGE AND BONA FIDE SEPARATIONS

Normal Retirement Age

For purposes of applying the Pension Protection Act of 2006 (“PPA”) and complying with other applicable tax-related laws (such as restrictions on in-service distributions), effective July 1, 2007, the “Normal Retirement Age” for CCCERA members shall be the age set forth in CERL retirement formula for an unreduced benefit that applies to each CCCERA member immediately preceding the effective date of his or her retirement from a CCCERA employer. For example, the Normal Retirement Age for a member who earns retirement service immediately before retirement under a “3% at 50” retirement formula (Gov. Code section 31664.1) is 50 years of age. The Normal Retirement Age for a member who earns retirement service immediately before retirement under a “2% at 55” retirement formula (Gov. Code section 31676.16) is 55 years of age.

Notwithstanding the foregoing, Normal Retirement Age for CCCERA members shall in no event be earlier than (i) age 55 for CCCERA members who are not Qualified Public Safety Employees (as defined in Internal Revenue Code section 72(t)(10)(B)) immediately prior to their retirement; and (ii) age 50 for CCCERA members who are Qualified Public Safety Employees.

The Board may change or further refine its determination of Normal Retirement Age as described herein in order to comply with any rules or regulations of the Internal Revenue Service or other applicable law. The Board’s current determinations of Normal Retirement Age are based upon the findings and conclusions set forth in Board of Retirement Resolutions 2007-1 and 2007-2.

Bona Fide Separation from Service

A) In order to comply with tax law restrictions on in-service distributions, a member who retires at an age younger than Normal Retirement Age, as defined herein, may not enter into an agreement, either oral or written, prior to the date the member's retirement commences, to be reemployed while retired by the same CCCERA employer, regardless of the length of the member's break in service after retirement. The member must acknowledge in writing to CCCERA at the time of retirement that the member has been informed of these requirements and limitations on post-retirement employment and that no prearrangement to be reemployed while retired exists.

B) A member who retires at an age younger than Normal Retirement Age, as defined herein, must have at least a continuous 90-day break in service from the date of the member's last day of employment prior to being reemployed while retired by the member’s prior CCCERA employer.

C) If a member is reemployed without compliance with subsections (A) and (B) above, the retired member's retirement benefits from CCCERA must cease as soon as practicable upon discovery by CCCERA and will not resume until the member has a bona fide separation from service or reaches Normal Retirement Age, whichever occurs first.

D) A member may return to work prior to the time specified in section (B) above for emergency situations as defined in Government Code Section 8558 and under the return to work restrictions specified in Government Code Section 7522.56 *et seq.* However, prior to returning to work, the retiree must have incurred a bona fide break in service and cannot have entered into a prearranged agreement to be reemployed by the same employer.

E) The definitions, limitations and requirements contained herein shall be provided to every CCCERA member who inquires about retirement.

VIII. WITHDRAWALS

1. Discontinued Service

The service of a member will be considered “discontinued” under Gov. Code Section 31628 only if the member has actually terminated employment and either the termination is due to lay-off or the member is not reemployed by that employer for a period of 45 days.

The service of a member will not be considered discontinued if the member continues to work for the employer or for another participating employer, even if the member’s work schedule is below the minimum number of hours required to qualify for coverage. In these cases interest will continue to be credited to the member's account.

2. Account Withdrawals

All requests to withdraw an account must be in writing.

All payments of an account balance shall be in the form of either or both of the following:

- A. A lump sum distribution
- B. A rollover to an IRA or a new employer’s Qualified Plan per current IRS guidelines.

3. Interest Crediting

Interest is credited to the account of a pending refund request on June 30th or December 31st if the funds have been on deposit for six months or more in accordance with Gov. Code Section 31591.

A member who continues employment in a non-covered position will have interest credited to his/her account.

4. Account Reinstatement

A member who has appealed a dismissal and has been reinstated by the employer is allowed to redeposit withdrawn retirement contributions, plus interest, and will be reinstated as of the original date of membership in the Association.

IX. NEW PARTICIPATING EMPLOYERS (Section 31557)

All officers and employees of any newly participating district shall become members of the Association as provided in Section 31557.

- A. An actuarial valuation shall be made to determine liability.
- B. The district shall pay the cost of the valuation.

**X. PARTICIPATING EMPLOYER WITHDRAWAL
(SECTIONS 31564 AND 31564.2)**

An employer, by resolution, may withdraw its employees from membership in the Association as provided in Government Code sections 31564 and 31564.2.

- A. Upon notification by an employer that it is considering withdrawing from the Association, the Association will provide the employer with a copy of the Association's Employer Termination Policy.
- B. An employer shall comply with the Association's Employer Termination Policy to ensure the actuarial soundness of the retirement system.

XI. DISPENSING WITH RECALCULATION FOR MINOR DISCREPANCY

1. Closed Accounts

The Board authorizes the Chief Executive Officer to refrain from collecting an under payment or refunding an overpayment of accumulated contributions from a member who has terminated from the association and cannot be located, whenever the amount is fifty dollars (\$50) or less.

2. Active, Deferred and Retiree Accounts

The association may dispense with issuing any check whenever the retroactive liability is less than five dollars (\$5).

The failure of the applicant to apply for an earlier effective date at the time the application is filed shall constitute a waiver of the right to apply for an earlier effective date.

3. Denial Without Prejudice

(a) In the event the medical advisor's recommendation is to deny the disability application (without prejudice), the member may submit additional medical information to support the application and/or request a hearing within six (6) months of notice of the denial.

(b) In the event the medical advisor's recommendation is to grant the disability application, the Board of Retirement will review the recommendation and take action on the application for disability retirement. If the Board denies the application (without prejudice), the member may request a hearing within six (6) months of notice of the denial.

4. Request For Hearing

Any applicant for disability retirement shall, upon request, be entitled to a hearing, at the sole discretion of the Board of Retirement, before the Board, or

before a referee appointed by the Board pursuant to Gov. Code section 31533. Any such request for hearing shall be in writing, and shall be made within 30 days after notice of the Board's action denying the application is mailed by certified or registered mail to the applicant. An application is deemed made on the date mailed if mailed by certified or registered mail, on the date postmarked if mailed by first class mail and received, or on the date received by the Association, whichever is earlier.

- B. Except as provided by Section 10.7, this committee shall consist of the following:
 - a. The permanent members are a member of the Board designated by it; and the County Administrator, Director of Personnel and County Health Officer or their designees; and the Chief Executive Officer or his/her designee, who serves as secretary without a vote.
 - b. The appointing authority within the department or district to which the reassignment is proposed or his/her (its) designee.
 - c. The employee and/or his/her designee, unless he waives membership.

Section 10.4 – Procedure

- A. After an application for disability is filed, the Chief Executive Officer shall consult with the Board’s medical advisor, the member employee and others as necessary, to determine whether a reassignment appears feasible (in view of the member employee’s condition) if the Board later finds the member employee to be incapacitated for the performance of his/her duties. If a reassignment appear feasible to the Chief Executive Officer, he shall convene the permanent members of the Committee and the employee or his/her designee, and they shall explore the practicabilities of returning the member employee to his/her previous position or reassigning, rehabilitating and/or retraining him/her.
- B. When a department or district is located to which a reassignment appears feasible, the appointing authority within it shall be added to the Committee (pursuant to Section 10.3B(2) above).
- C. The Committee may make its recommendation to the Board at any time before or after Board action on the application for disability retirement.

Section 10.5 – Reassignment

After the Board determines that the member employee is incapacitated for the performance of his/her duties, he shall be reassigned, in lieu of being retired for disability, if the appointing authority in the department or district in which he is to be employed and the Governing Body agree to his/her appointment and the appointment is made in accordance with any applicable merit or Civil Service system rules.

Section 10.6 – Later Retirement

If a member who has accepted reassignment is voluntarily or involuntarily separated from the service thereafter, his/her retirement benefits and rights, including those of his/her beneficiaries, shall be determined as if he were being retired on the date of this

later separation for the same type of disability retirement as he would have received had he been retired originally instead of reassigned, but a new application may be filed for disability retirement based on his/her job connected injury or disease occurring after the first application was filed, and his/her rights and benefits (including Cost-of-Living retirement adjustments) shall not be less than those to which he would be entitled if he retires for service on the date of his/her later separation.

Section 10.7

In a district for which the Board of Supervisors is not the governing body, the Chief Executive Officer shall request the district to appoint to the Committee those personnel with functions similar to those of the County Administrator and Director of Personnel; and such other personnel shall then service on the Committee in lieu of the County Administrator and Director of Personnel.
