Subject: Measiure X

It's baffling to me why seniors and disabled folks in our county don't get the attention they need to address their mobility. Our County has so many transportation options and they all appear to work in their own silos without any leadership to work on ways to improve transit options for this rapidly growing population. Our county is so spread out, and there is no way one transit company can meet the needs of these folks. I strongly urge the funding that forms Measure X make accessible transportation one of its top priorities! The aging and disabled populations are not going to disappear. Let's provide the services they need!! This email letter is being written by a 84 year old senior citizen. I care about my aging colleagues and sincerely hope funds from Measure X will care as well!
