Subject: Measure X Committee

Discovery Bay at present can only rely on the limited available resources from the Contra Costa Sheriff's Depart and California Highway Patrol to keep our town and adjacent highway safe from marauders. We are "the last outpost" on the most eastern side of Contra Costa County and a fast getaway for anyone in town or out of town to perpetrate illegal activities that they know the CHP and sheriff are ill-equipped to handle because of less than adequate staffing. Approved funding by the Measure X committee towards additional law enforcement in our town would definitely help deter criminals from thinking our town and byways are an easy target and escape route. Additional need is a detective(s) to further investigate and apprehend anyone associated with illegal activities. Maybe just a pipe dream, but what an achievement if our County was known as a safe haven for the respectable and not the criminals because of the presence and enforcement of the sheriff and police.
