Subject: Measure X

Dear Lisa

As a resident of Brentwood I want you to know that with regard to allocating Measure X fund, Fire Protection is the No 1 priority by far. We are in an appalling situation in east county with constantly rising insurance rates, relentless growth with a woefully inadequate fire services. It is your moral responsibility to see that the wishes of the voters that supported Measure X precisely to fund fire services is respected. I know of no one who voted for X that did so for other priorities. As far as I am concerned, allocate 100% of the funds to fire services as nothing else deserves any such consideration.
