

Contra Costa County Flood Control and Water Conservation District
Drainage Fee Program
Annual Report

In Support of Mitigation Fee Act/Assembly Bill 1600
Fiscal Year 2019/20

Amended December 2021

Contra Costa County Flood Control and Water Conservation District

Drainage Fee Program Annual Report

Upon Review of the Drainage Fee Report (Report) for fiscal year 2019/20, it was determined by the Contra Costa County Flood Control and Water Conservation District (FC District) staff that incorrect figures were reported on both the Fund Balance Table (Attachment B – Table 1) and the Project Expenditures Table (Attachment B – Table 2). To rectify this mistake, FC District staff has amended and attached both a new Fund Balance Table and a new Project Expenditures Table to this report for the purposes of accuracy and transparency.

In completing the Report for fiscal year 2019/20, the reported fund balance data was from the previous year – 2018/19. Subsequently, the Fund Balance Table found in the initial Report for fiscal year 2019/20 was not representative of the period. The Fund Balance Table attached in this Report has been amended to be representative of 2019/20.

Further, the figures in the Project Expenditures Table for the Report for fiscal year 2019/20 did not include the total cost for all services and materials. The Project Expenditures Table attached in this Report has been amended to be representative of the total cost.

Flood Control and Water Conservation District's Role

The FC District Act (FCD Act) authorizes the FC District to set up Drainage Areas and associated fees (Section 12.2, FCD Act). The FC District is not the approving local agency of development projects. The approving local agency is either the City in which the development is located or the County when the development is located in an unincorporated area. However, the FC District does recommend that the approving local agency collect a fee to support drainage infrastructure if the development is within a formed Drainage Area. The fee is described in each Drainage Area's ordinance, which is approved by the County Board of Supervisors. The FC District has an agreement with each City allowing each City to collect the fee on behalf of the FC District during the typical land development process and approval.

For the purposes of transparency and record-keeping, FC District staff produces this Drainage Fee Annual Report as a best practice. The FC District uses requirements listed in California Government Code Section 66006 and below as the guide for this report.

Legal Requirements for Development Impact Fees

California Government Code Section 66006 provides that each local agency that imposes development impact fees must prepare an annual report that includes specific information about these fees. In addition, Assembly Bill 1600 imposes certain accounting and

reporting requirements with respect to the fees collected. The fees, for accounting purposes, must be segregated from the general funds of the County and from other funds or accounts containing fees collected for other improvements. Interest on each development fee fund or account must be credited to that fund or account and used only for the purposes for which the fees were collected.

For each separate development impact fee fund that the local agency maintains, California Government Code Section 66006(b)(1) requires the local agency to make available to the public, within 180 days after the end of each fiscal year, the following information for that fiscal year:

- A. A brief description of the type of fee in the account or fund.
- B. The amount of the fee.
- C. The beginning and ending balance of the account or fund.
- D. The amount of the fees collected and interest earned.
- E. An identification of each public improvement on which fees were expended and the amount of expenditures on each improvement, including the total percentage of the cost of the public improvement that was funded with fees.
- F. An identification of an approximate date by which the construction of the public improvement will commence if the local agency determines that sufficient funds have been collected to complete financing on an incomplete public improvement.
- G. A description of each inter-fund transfer or loan made from the account or fund, including the public improvement on which the transferred or loaned fees will be expended, and in the case of an inter-fund loan, the date on which the loan will be repaid and the rate of interest that the account or fund will receive on the loan.
- H. The amount of refunds made due to sufficient funds being collected to complete financing on incomplete public improvements and the amount of reallocation of funds made due to administrative costs of refunding unexpended revenues exceeding the amount to be refunded.

Drainage Area

A Drainage Area is a geographic area of Contra Costa County in which the County imposes a Drainage Fee on new development to fund new development's share of the improvements required to satisfy drainage demands within that geographic area. The County currently has approximately 50 Drainage Areas (the number may vary from year to year) for which fees are collected.

Report Format

Attachment A to this report contains the "Fee Schedule" that identifies the drainage fees collected on new development within each Drainage Area during the calendar year.

Attachment B to this report is a financial report that provides accounting information, as required by Government Code section 66006(b)(1). Attachment B includes two primary tables:

- Table 1 is a “Fund Balance” Table that identifies the beginning and ending fund balance, amount of fees collected, total revenue, and total expenses for each Drainage Area during the fiscal year.
- Table 2 is a “Project Expenditures” Table that identifies each project and the project’s expenditures on which fees were expended within each Drainage Area during the fiscal year.

Attachment C to this report is a “Revolving Fund Balance” Table showing outstanding loans during the fiscal year.

Attachment D to this report is a map of the Drainage Areas covered by this report. The current project list for each Drainage Area is included in the most recent Program Report for the Drainage Area, a copy of which may be obtained from the FC District.

Attachment A
