Qualifications and Volunteer Experience

Please explain why you would like to serve on this particular board, committee, or commission.

I understand the importance that housing is for each and every single Californian. As a senior in college I worked at the family law center at the courthouse in Oakland, where one of my primary duties was helping struggling families stay in their homes. This work meant a lot to me because I remember the housing insecurity my family and I grew up with as children, where we lived in various places throughout our childhood, yet when my parents got on their feet, the 2008 crash happened and our home was foreclosed. This pushed me to get involved in housing law and policy, including working on homeless and housing issues in the California State Senate, volunteering to work on legal housing matters as a law student, and helping write housing policy for various campaigns and elected officials. Additionally, I have experience fundraising and handling budgets for small organizations. I believe my personal experience, my desire to serve my community, and my track record in the field of homelessness and housing issues makes me an ideal candidate for this commission.

Describe your qualifications for this appointment. (NOTE: you may also include a copy of your resume with this application)

I spent three years working as a legislative staffer for Senator Steve Glazer, where my priority policy focus was housing. This means that I was familiar with all the new changes to laws relating to housing and homelessness, including legislation relating to zoning and making it easier to build various forms of housing, legislation related adjacently to homelessness including procurement and social services, bond funds that went to various forms of housing, and different budgetary items that went directly to funding homeless and housing projects. Moreover, I helped write Andrew Yang's housing policy platform for his bid to become Mayor of New York City, which included proposals to make it easier to build housing for the homeless and converting underused hotels into shelter. In law school, I have used my legal education to work on issues relating to housing and homelessness. I helped conduct the legal work for the housing authority of a local city and provided legal services to help develop an inclusionary zoning ordinance for another city in New Jersey.
