BEFORE THE CITY COUNCIL OF THE CITY OF CONCORD
COUNTY OF CONTRA COSTA, STATE OF CALIFORNIA

**A Resolution Authorizing the Contra Costa County Flood
Control & Water Conservation District to Establish an
Annual Parcel Assessment for Fiscal Year 2022-23 for
Drainage Maintenance and National Pollutant Discharge
Elimination System (NPDES) Program**

Resolution No. 22-14

WHEREAS, under the Federal Water Pollution Control Act, [33 U.S.C. Section 1342(p)], certain municipal storm water discharges require a permit from the appropriate federal or state authorities pursuant to the National Discharge Elimination System (NPDES) Program; and

WHEREAS, the City of Concord, in conjunction with other affected jurisdictions within Contra Costa County, applied to the State Regional Water Quality Control Board and received a Joint NPDES Permit to discharge storm water and developed a Storm Water Management Plan; and

WHEREAS, Assembly Bill 2768 (West's Water Code Appendix, Section 63-12 and 63-12.9) authorizes the Contra Costa Flood Control and Water Conservation District (DISTRICT) to establish storm water utility areas and to impose annual benefit assessments for the purpose of carrying out the activities required under the NPDES Program; and

WHEREAS, the DISTRICT has completed the process for formation of a Concord Storm Water Utility Area (SUA), including the adoption of Storm Water Assessment Drainage Ordinance No. 93-47; and

WHEREAS, the SUA and Program Group Costs Payment Agreement between the City of Concord and DISTRICT requires the City of Concord annually to determine the rate to be assessed per Equivalent Runoff Unit (ERU) for the forthcoming fiscal year; and

WHEREAS, the City Council adopted Resolution 93-14, which established the range of annual assessment to be imposed by the DISTRICT within the storm water utility area at an amount not to exceed \$35 per ERU.

//

//

**NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF CONCORD DOES
RESOLVE AS FOLLOWS:**

Section 1. Establishing the annual amount of and authorizing the Contra Costa County Flood Control & Water Conservation District to adopt SUA levies and/or assess ERUs does not constitute a "project," as defined in the California Environmental Quality Act (CEQA) of 1970, as amended, and its Guidelines, under the general rule that CEQA applies only to actions that have the potential to cause a significant effect on the environment. If such action were a "project" then, pursuant Public Resources Code Section 21065, CEQA Guidelines Sections 15060(c), 15061(b)(3), and/or 15378, such action is not subject to environmental review because it will not result in a direct or reasonably foreseeable indirect physical change in the environment, and falls within the "common sense" exemption set forth in CEQA Guidelines Section 15061(b)(3), excluding projects where "it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment." In this case, the Council is only authorizing the amount of the annual parcel assessment for the NPDES program. Additionally, pursuant to Section 15273 of the CEQA Guidelines, the establishment of charges for the purpose of meeting operating expenses is categorically exempt. Projects funded by the annual assessment will undergo CEQA review as necessary. No unusual circumstances exist and none of the exceptions under CEQA Guidelines Section 15300.2 apply. This determination reflects the City's independent judgment and analysis.

Section 2. The annual assessment imposed by the DISTRICT within the storm water utility area for Fiscal Year 2022-23 shall be \$35.00 per Equivalent Runoff Unit (ERU).

Section 3. The City Council requests the DISTRICT to adopt storm water utility area levies based on said amount per ERU.

Section 4. This resolution shall become effective immediately upon its passage and adoption.
