 - October 2022: Energy Conservation
 - December 2022: Avoid Waste
 - February 2023: Non-Toxic Cleaners
 - April 2023: Prevent Pollution
- Follow-up assignments

Initial Feedback from Champions

I am spending this much time on the G3 program each month.

I feel that my office/department is becoming more aware of opportunities for County government to address climate change.

Bike to Work Week

Interdepartmental Competition

- 22 Total Participants from the following departments:
 - Agriculture/Weights & Measures
 - Animal Services
 - Conservation and Development
 - County Administration
 - Health Services
 - Library
 - Probation
 - Public Defender
 - Public Works

- Conservation and Development won the Bike to Work Week Interdepartmental Competition, with 8 participants (approximately 5% of department staff).

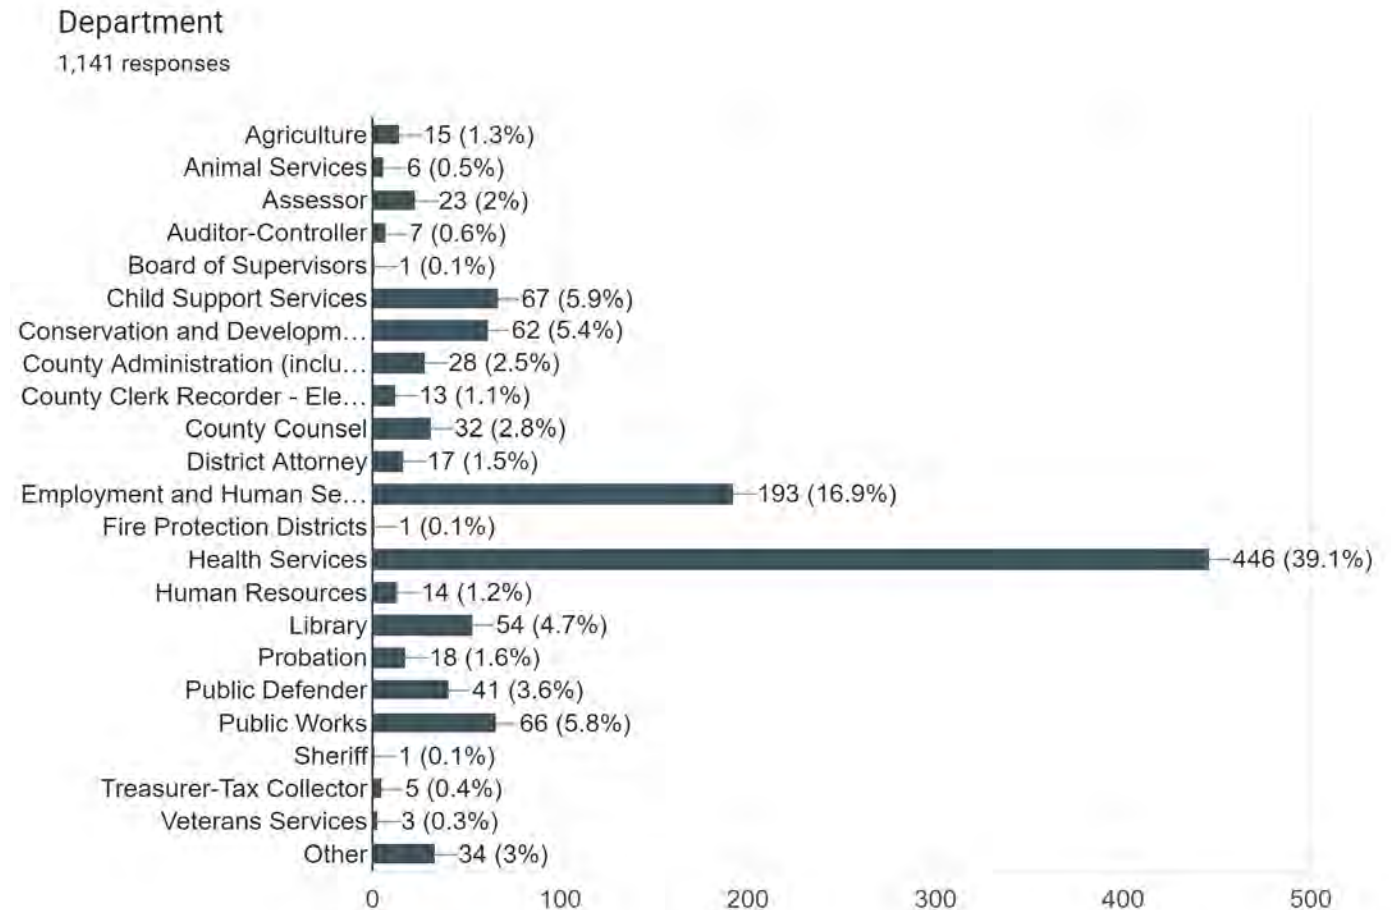

Bike to Work Week

Input Received from the Bike Survey

- **HIGHLIGHTS:** Feel enjoyment from riding a bike, get out and breathe fresh air, get exercise, feel more energetic at work, demonstrate that biking to the working is a feasible commute option, encourage coworkers to ride a bike to work
- **CHALLENGES:** Safety from cars on the street, desire for more bike lanes or even a protected/separated bike lane/path
- **CHALLENGE:** Only some County offices have bike racks, including secure bike parking spaces, and even fewer offices have lockers/showers
- **HIGHLIGHT:** A number of participants were either G3 Champions or learned about the competition through the G3 Champions

Electric Vehicle Education

- 100 people attended July 12 Lunch and Learn, with more who wanted to participate
- 1,167 responses to employee survey! (not all people answered every question)

How likely do you think that your next personal vehicle will be all electric?

1,156 responses

Would you like to learn more about electric vehicles for your personal use?

1,141 responses

**CONTRA COSTA COUNTY EMPLOYEES
WANT TO DRIVE ELECTRIC!**

If you already own an EV, what are the barriers that keep you from charging at a County facility?

695 responses

- The charging cost is too high.
- There aren't enough available chargers when I want to charge.
- The chargers aren't fast enough.
- There are no chargers at my work site
- There are no barriers that keep me from charging at CCC.

If you switch to an EV, how often would you use the chargers in County parking lots?

1,150 responses

- Every day
- A few times a week
- A few times a month
- Never
- I'm not planning on buying an EV.

COUNTY EMPLOYEES WOULD USE CHARGERS AT WORK
