Hi Tim and Michelle,

Our surveyors took topo shots along the entire repair site, which totaled 495 LF. Below, you can see the property line in white, with the red portion being DWR property (228 LF, or 46% of total site) and the yellow portion being FCD property (267 LF, or 54% of total site).

I believe the simplest and cleanest way to split the cost would be based on the proportions of the total site length. The contractor's total invoice paid by the RD was \$177,182.96, which means DWR's cost share would be \$81,504.16 and FCD's cost share would be \$95,678.80.

If you concur with this assessment, you can send payment of \$95,678.80 to Pam Forbus, the RD secretary/attorney:

Reclamation District No. 2137  
343 East Main Street, Suite 815  
Stockton, CA 95202

Feel free to call with any questions or if you'd like to discuss.

Thank you,

**Brian Janowiak, P.E.**

Hi Tim,

Great news. Thank you so much.

Brian Janowiak is your contact on the specifics like the numbers.

Katie
