COMPILATION OF INCENTIVE PROGRAMS FOR CONTRA COSTA COUNTY RESIDENTS & BUSINESSES

[County Home](#) › [Departments & Offices](#) › [Departments & Offices A-D](#) › [Conservation & Development](#) › [Policy Planning](#) › [Sustainability](#) › [Sustainability Resources](#)

Sustainability Resources

Contra Costa County residents and business owners can take advantage of local, state, and federal incentive programs that make sustainable choices more affordable.

Residential Incentives

Local, state, and federal incentive programs can help you save money while making your home and transportation more sustainable.

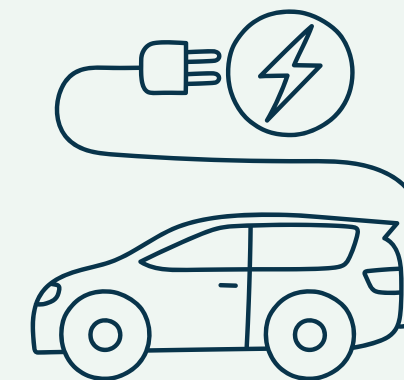

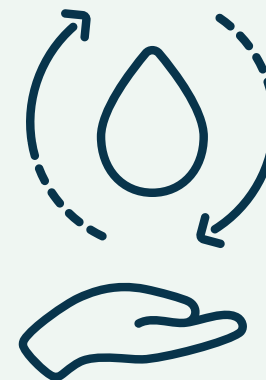

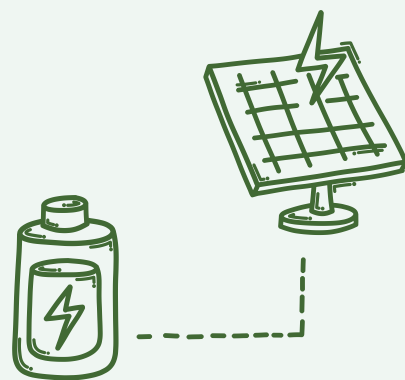

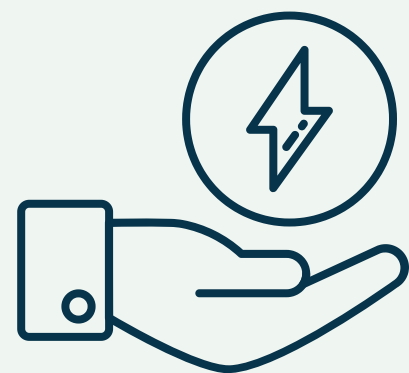

Commercial Incentives

Local, state, and federal incentive programs can help you save money while making your business more sustainable.

If you own a business in Contra Costa County that conserves energy and water, recycles and reduces waste, and doesn't pollute, consider getting certified as a green business through the [Green Business Program](#). This is a free, voluntary program and gives you credit for all the sustainable practices you're already doing!

<https://www.contracosta.ca.gov/9750/Sustainability-Resources>

INCENTIVE PROGRAM CATEGORIES

→ ENERGY EFFICIENCY AND ALL-ELECTRIC BUILDINGS

↓ SOLAR PANELS AND BATTERY STORAGE

→ WATER EFFICIENCY

→ TRANSPORTATION

Local Programs

Bay Area SunShares offers group discounts for solar panels and/or battery storage. The SunShares program runs for a limited time in the fall of each year.

If you already have solar panels and a battery storage system at your home, MCE offers a Solar Storage Credit. Learn more about the eligibility requirements and sign up to save up to \$20 per month on your electric bill.

State Programs

The Self-Generation Incentive Program (SGIP) offers rebates for installing energy storage technology in the home, including battery storage systems.

Federal Programs

Under the Inflation Reduction Act (IRA), incentives for solar panels and battery storage technology are available to homeowners. Federal income tax credits will be available through 2032. ENERGY STAR has a list of federal tax credits available to homeowners.

The Department of Energy created a guide providing an overview of the federal solar energy tax credit available to residents.

Additional Resources

Several incentive search tools and guides summarize available incentives and provide guidance about which incentives can be layered:

- California's [ClimateAction.ca.gov](https://climateaction.ca.gov) website lists state and local programs available to Californians related to home energy programs.
- Rewiring America's IRA Calculator estimates how much your household could receive in federal tax credits by installing solar panels and/or a battery storage system.
- CleanEnergy.gov offers a user-friendly, introductory walk through the tax credits and rebates available to residents through the Inflation Reduction Act.

SINGLE-FAMILY RESIDENTIAL ENERGY EFFICIENCY & ALL-ELECTRIC PROGRAM INCENTIVES

Single-Family Residential Energy Efficiency and All-Electric Program Incentive Summary Table

Project	Bay Area Regional Energy Network (BayREN) Single-Family Rebates	Inflation Reduction Act Federal Tax Credits	Inflation Reduction Act (IRA) Rebates*	Self-Generation Incentive Program (SGIP) Incentives**	Technology and Equipment for Clean Heating (TECH) Incentives
Home Energy Audit	\$200	\$150	N/A	N/A	N/A
Heat Pump Heating, Ventilation, and Air Conditioning (HVAC)	\$1,000	\$2,000	\$8,000	N/A	\$1,000
Heat Pump Water Heater	\$1,000	\$2,000	\$1,750	Incentive amount to be determined	N/A
Electrical Panel	N/A	\$600	\$4,000	N/A	N/A
General Electrical Work	N/A	N/A	\$2,500	N/A	N/A
Attic & Wall Insulation	\$2,000	\$1,200	\$1,600	N/A	N/A
Induction Cooktop	\$750	N/A	\$840	N/A	N/A
Duct Sealing & Replacement	\$1,000	N/A	N/A	N/A	N/A
Heat Pump Dryer	\$300	N/A	\$840	N/A	N/A
Windows	N/A	\$600	N/A	N/A	N/A
Doors	N/A	\$500	N/A	N/A	N/A
Solar	N/A	30%	N/A	N/A	N/A
Battery Storage	N/A	30%	N/A	Small Residential Storage: \$15/kWh Residential Storage Equity: \$85/kWh Equity Resiliency: \$1,000/kWh	N/A

Single-Family Residential Energy Efficiency and All-Electric Program Incentive Summary Table Notes: * = Program incentives are not yet available; ** = For more information on specific incentive amounts, please visit the [Self-Generation Incentive Program webpage](#); N/A = Program does not offer incentives for specific project

Note: This incentive summary table and webpage information will be updated with new program information and resources as needed.

THANK YOU
