Subject: outraged

Greetings,

My name is Devlyn Sewell and I am an outraged voter. I can not believe you all thought, except Candice, that a 33% increase would be acceptable to your constituents. We all have been struggling with the rising costs of inflation and the tolls the state has had on our cities and towns budgets.

The City of Concord is barely holding on with the help of measure Q, a self imposed tax to keep just the basic city services functioning. Many non profits are overwhelmed with the needs of the homeless, under insured, low income, etc. The lists just goes on and on of the vast need in our communities throughout the county.

When I worked as a LVN, I received wages accordingly. I was not paid RN wages, as I did hold the certification. If you want to be paid at a judicial level, please feel free to get a law degree and earn those wages.

How could you ask for such a huge salary increase, when social security only gave our elderly and seniors a 1.7% increase??????????????????

I am ashamed of you. I will not vote for you again. I will break party lines over this act of Greed Gone Bad.

Rescinding the vote is not enough. A public apology is in order don't you think?

If you have the courage to respond please do so.

I will remember!

Thank you,

Devlyn Sewell
