

TESS' COMMUNITY FARM KITCHEN

Status Update 1/1/2016

We are open 5 days a week, Wednesday through Sunday from 8-6. We have classes, events, we could rent the kitchen, and we are serving Breakfast and Lunch from 8-2.

We always had our deli counter in our drawings, and Enviornmenatl Health approved us as a restaurant with our first inspection as an A+. Now, Conservation and Development wants us to stop serving unless at events, because no restaurants are permitted in the Ag Core. This should have been dealt with at the land use stage, but it was new for everyone, including me, and we just didn't think about it.

The solution is to create a "FARM TO TABLE CAFE" designation for the Planning Department as an amendment to the Farm Stand Ordinance.

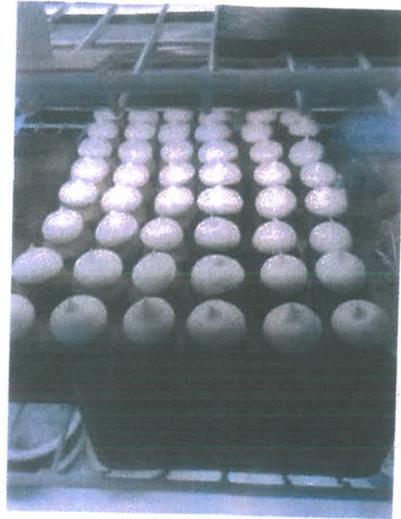

Request: I would like Tess' to stay open as it is, serving food for Breakfast and Lunch until the ordinance can be adopted.
