GENERAL INFORMATION

The Board meets in all its capacities pursuant to Ordinance Code Section 24-2.402, including as the Housing Authority and the Successor Agency to the Redevelopment Agency. Persons who wish to address the Board should complete the form provided for that purpose and furnish a copy of any written statement to the Clerk.

Any disclosable public records related to an open session item on a regular meeting agenda and distributed by the Clerk of the Board to a majority of the members of the Board of Supervisors less than 72 hours prior to that meeting are available for public inspection at 651 Pine Street, First Floor, Room 106, Martinez, CA 94553, during normal business hours.

All matters listed under CONSENT ITEMS are considered by the Board to be routine and will be enacted by one motion. There will be no separate discussion of these items unless requested by a member of the Board or a member of the public prior to the time the Board votes on the motion to adopt.

Persons who wish to speak on matters set for PUBLIC HEARINGS will be heard when the Chair calls for comments from those persons who are in support thereof or in opposition thereto. After persons have spoken, the hearing is closed and the matter is subject to discussion and action by the Board. Comments on matters listed on the agenda or otherwise within the purview of the Board of Supervisors can be submitted to the office of the Clerk of the Board via mail: Board of Supervisors, 651 Pine Street Room 106, Martinez, CA 94553; by fax: 925-335-1913.

The County will provide reasonable accommodations for persons with disabilities planning to attend Board meetings who contact the Clerk of the Board at least 24 hours before the meeting, at (925) 335-1900; TDD (925) 335-1915. An assistive listening device is available from the Clerk, Room 106.

Copies of recordings of all or portions of a Board meeting may be purchased from the Clerk of the Board. Please

telephone the Office of the Clerk of the Board, (925) 335-1900, to make the necessary arrangements.

Forms are available to anyone desiring to submit an inspirational thought nomination for inclusion on the Board Agenda. Forms may be obtained at the Office of the County Administrator or Office of the Clerk of the Board, 651 Pine Street, Martinez, California.

Applications for personal subscriptions to the weekly Board Agenda may be obtained by calling the Office of the Clerk of the Board, (925) 335-1900. The weekly agenda may also be viewed on the County's Internet Web Page: www.co.contra-costa.ca.us

CONTRA COSTA COUNTY BOARD OF SUPERVISORS

Announces the 25th Annual
CESAR E. CHAVEZ
COMMEMORATIVE CELEBRATION

**STRENGTHENING AND
NOURISHING THE COMMUNITY**

Tuesday, March 27, 2018

Chavez's Life...

1927: Cesar Estrada Chavez is born on March 31, 1927 in Yuma, Arizona.

1938: The Chavez family loses its farm during the Great Depression and begins following crops as migrant farm workers in Arizona and California.

1944-45: Cesar Chavez serves in the Navy in the Pacific during World War II.

1947: Influenced by his father's involvement in labor issues, Cesar joins his first union, the National Agricultural Workers Union.

1952: Cesar is recruited to work with Saul Alinsky's Community Service Organization (CSO), designed to help Latinos who have problems with immigration and police.

1958: Cesar is named General Director of CSO.

1962: Cesar leaves CSO after it refuses to form a farm-workers union and, in Delano, starts the National Farm Workers Association, the precursor to the United Farm Workers Union (UFW).

1965, Sept. 8: Filipino grape pickers in Delano go on strike for higher wages.

1965, Sept. 16: Cesar's union joins the strike against grape growers.

1966, March 17: Cesar and 70 strikers begin a march on Sacramento to drum up support for the union effort.

1966, April 11: The Chavez-led group marches to the State Capitol swelled to as many as 10,000 supporters from around the nation.

1968, Feb. 14: Cesar begins 25-day fast to garner support for non-violence in union-organizing efforts.

1968, March 10: Cesar breaks fast in Delano with supporters, including Senator Robert F. Kennedy.

1968, March 24: Cesar announces in Los Angeles plans for a "worldwide boycott" of California grapes.

1968, July: More than 100 grape growers and shippers sue Chavez and the UFW, claiming \$25 million in losses because of the boycott.

1970: Contract agreements between UFW and most major grape growers is reached. Lettuce boycott begins.

1972: Cesar conducts a 24-day fast to protest right-to-work law.

1973: Cesar organizes the United Farm Workers of Americas Union, and a new round of boycotts begins when grape growers fail to renew contracts.

1988, August 21: Cesar ends a 36-day fast to protest pesticide use. The fast is the longest for the labor leader and leaves him severely weakened.

1993, April 23: Cesar Estrada Chavez dies in San Luis, Arizona, near where he was born 66 years ago.

2000, August: The State of California officially establishes the Cesar E. Chavez holiday.

2003: The U.S. Postal Service unveils a Cesar E. Chavez postage stamp.

2012: The US Navy Military Sealift Command christens the USNS Cesar Chavez (T-AKE-14) and activates and dedicates the ship in honor of Cesar Chavez.

Keynote Speaker

LARRY SLY

After graduating from UC Berkeley, Larry joined the Food Bank of Contra Costa and Solano and soon became the organization's Executive Director. He has guided the Food Bank's development from an organization that distributed 36,000 pounds of food in its first year to one that distributed over 20 million pounds of food last year.

Larry has served as vice chair of the board of directors of Feeding America, the national food bank network, and on the National

Council, an elected group of food bank leaders who serve as the voice of the network for Feeding America. He also serves on the board of directors of the California Association of Food Banks and chairs the Emergency Food and Shelter board that allocates Federal funds to hunger and shelter agencies in Contra Costa County. Larry has served on State advisory committees on hunger and has served on task forces for Feeding America. He is also a member of the Rotary Club of Concord.

Entertainment

MARIACHI MONUMENTAL

Founded in 2005 under the leadership of Victorio Fregoso, Mariachi Monumental is a group of eight musicians originally from the state of Jalisco, Mexico. They are residents of Oakley, Brentwood, Bay Point and Antioch. This group brings the culture and sound of their Mexican roots by performing traditional mariachi music at private and public venues.

BALLET FOLKLORICO NETZAHUALCOYOTL

Founded in 1996 by Director Netzahualcoyotl Vidal, Ballet Folklórico Netzahualcoyotl is composed of thirty students of all ages. Their goals include researching folklore and sharing with the world some of Mexico's most prized gifts: its dances, customs and traditions.

Contra County County Youth Hall of Fame

2018 Honorees

Good Samaritan: Mackinsey (Kinsey) Mascali – 12th grade, San Ramon Valley High School, San Ramon

Kinsey's desire to care for others started at seven years old when she and her sister started Packs with Love, a program to help students in the West County School District that can't afford backpacks or school supplies. They started with 50 backpacks and now give out more than 800 backpacks to those in need. She also hosts Halloween and Easter parties for kids at a local homeless shelter. In her sophomore year, Kinsey started working as a teacher's aide helping students with special needs. Wanting to make more of an impact, she taught herself Braille and took a class in sign language to better communicate with low spectrum students. Kinsey has not been without struggles of her own. When she transferred to San Ramon Valley High School, she had undiagnosed dyslexia and struggled in her studies. Once assessed, she learned strategies that have helped her to succeed.

Volunteerism: Ryan Saechao – 10th grade, Richmond High School, Richmond

Ryan Saechao spends many hours volunteering in his community. As the vice president of the Kiwins Club at his school, a student-led club dedicated to service and volunteerism, he has organized and participated in events including, feeding the homeless at a local shelter, building bikes for underprivileged kids, fundraising for medical bills for babies in intensive care, cheering on racers in breast cancer runs and facilitating free pictures with Santa Claus at the mall. He still finds time to serve as the manager of the girls' basketball team, as well as a school board student panelist, advocating for better salaries and housing for teachers. He is a sharp math student and is frequently observed assisting his classmates and explaining complex concepts. Ryan is also a talented illustrator and performer. He can dance, sing and act and is clearly more than a just a triple threat.

Teamwork: Cei-Lai Fong – 12th grade, San Ramon Valley High, San Ramon

Cei-Lai Fong has used her self-awareness and compassion to expand consciousness about the LGBTQ community at her high school. She is an active member of the District Equality Committee and a Fair Act Consultant. She has helped to expand the Gay Straight Alliance into the Gender Sexuality Alliance which now includes more than 100 students. Having experienced bullying when she was 11, she is using her platforms to advocate for the installation of gender neutral bathrooms as part of a campus remodel. In a courageous TEDx talk describing her experiences, Cei-Lai says, "I am unafraid to express myself and to use my own comfort in my identity to help others." She plans to continue her role of inspiring and championing others by studying political science or pre-law in college. She has a rigorous academic load, is involved in 4-H, water sports, and the jazz ensemble and as a highly respected member of the school community was crowned Homecoming Queen, helping to change the conversation about beauty and popularity.

Youth Hall of Fame, 2018 Honorees

Creativity: Evan Chen – 11th grade, Campolindo High School, Moraga

In 2016, Evan Chen approached staff at the Lafayette Library hoping to teach classes about computer programming. Though he was only a freshman, they were impressed with his professional proposal and his first class in SCRATCH computer language programming was launched soon after. Evan quickly expanded the subject matter and difficulty of his classes which drew participation from all over the East Bay. He also expanded geographically, offering his classes at the San Pablo Library, lending his time, passion and experience to teaching underrepresented students. By imparting his knowledge and dedication for programming and technology to communities, Evan has given his peers the tools to expand their skills and think independently and creatively.

Perseverance: Ashley Koehler – 7th grade, Antioch Middle School, Antioch

When Ashley started at her middle school, as a seventh grader, she had recently been placed into foster care. Despite a rough start, her resilience paid off and she developed a solid group of friends and became an honor roll student. Ashley has become a leader in her counseling group, touching base with new foster students as they arrive at school and inviting them to join the group. She actively helps her counselor come up with activities for the group that deal with expressing anger, anxiety, building trust, and college and career readiness. Having endured difficult circumstances with such maturity and strength, Ashley clearly has the wherewithal to achieve her dream of becoming a child psychologist and helping children survive similar experiences.

To: Board of Supervisors
From: Brian M. Balbas, Public Works Director/Chief Engineer
Date: March 27, 2018

Subject: Marsh Creek Road Bridge Replacement Project, Clayton area.

RECOMMENDATION(S):

- (1) APPROVE plans, specifications, and design for the Marsh Creek Road Bridge Replacement Project, Clayton area. County Project No. 0662-6R4079, Federal Project No. BRLS 5928 (107), (District III)
- (2) DETERMINE that the bid submitted by Bridgeway Civil Constructors, Inc. (Bridgeway), exceeded the Disadvantaged Business Enterprise (DBE) Goal for this project and that Bridgeway has submitted the lowest responsive and responsible bid for this project
- (3) AWARD the construction contract for the above project to Bridgeway in the listed amount (\$4,560,410.00) and the unit prices submitted in the bid, and DIRECT that Bridgeway shall present two good and sufficient surety bonds, as indicated below, and that the Public Works Director, or designee, shall prepare the contract.
- (4) ORDER that, after the contractor has signed the contract and returned it, together with the bonds as noted below and any required certificates of insurance or other required documents, and the Public Works Director has reviewed and found them to be sufficient, the Public Works Director, or designee, is authorized to sign the contract for this Board.
- (5) ORDER that, in accordance with the project specifications and/or

RECOMMENDATION(S): (CONTD)

upon signature of the contract by the Public Works Director, or designee, and bid bonds posted by the bidders are to be exonerated and any checks or cash submitted for security shall be returned.

(6) ORDER that, the Public Works Director, or designee, is authorized to sign any escrow agreements prepared for this project to permit the direct payment of retentions into escrow or the substitution of securities for moneys withheld by the County to ensure performance under the contract, pursuant to Public Contract Code Section 22300.

(7) DELEGATE, pursuant to Public Contract Code Section 4114, to the Public Works Director, or designee, the Board's functions under Public Contract Code Sections 4107 and 4110.

(8) DELEGATE, pursuant to Labor Code Section 6705, to the Public Works Director or to any registered civil or structural engineer employed by the County the authority to accept detailed plans showing the design of shoring, bracing, sloping, or other provisions to be made for worker protection during trench excavation covered by that section.

(9) DECLARE that, should the award of the contract to Bridgeway be invalidated for any reason, the Board would not in any event have awarded the contract to any other bidder, but instead would have exercised its discretion to reject all of the bids received. Nothing in this Board Order shall prevent the Board from re-awarding the contract to another bidder in cases where the successful bidder establishes a mistake, refuses to sign the contract, or fails to furnish required bonds or insurance (see Public Contract Code Sections 5100-5107).

FISCAL IMPACT:

The construction contract and associated fees of this project will be funded by Local Road Funds (100%). Federal Highway Bridge Program Funds may later become available to reimburse the Road Funds up to 88.53% of participating costs.

BACKGROUND:

The above project was previously approved by the Board of Supervisors, plans and specifications were filed with the Board, and bids were invited by the Public Works Director. On March 13, 2018, the Public Works Department received bids from the following contractors:

BIDDER, TOTAL AMOUNT, BOND AMOUNTS

Bridgeway Civil Constructors, Inc., \$4,560,410.00; Payment: \$4,560,410.00; Performance: \$4,560,410.00
Gordon N. Ball, Inc., \$4,892,272.65
Disney Construction, Inc., \$4,938,374.50
Golden State Bridge, Inc., \$5,243,079.59
DMZ Builders, \$5,495,800.05
MCM Construction, Inc., \$5,662,856.30
Viking Construction Company, Inc., \$5,911,967.40
Myers & Sons Construction, LP, \$5,926,506.90
Granite Rock Company, \$5,999,991.60
Proven Management, Inc., \$6,433,333.00

The bidder listed first above, Bridgeway, submitted the lowest responsive and responsible bid, which is \$331,862.65 less than the next lowest bid.

This is a federally funded project subject to a Disadvantaged Business Enterprise (DBE) contract goal and requirements. The Public Works Director reports that the lowest monetary bidder, Bridgeway, attained DBE participation of 13.73% to meet the DBE goal (12.00%) and requirements for this project. The Public Works Director recommends that the Board determine that Bridgeway has complied with the DBE requirements for this project and recommends that the construction contract be awarded to Bridgeway.

The Public Works Director recommends that the bid submitted by Bridgeway is the lowest responsive and responsible bid, and this Board concurs and so finds.

The Board of Supervisors previously adopted the Mitigated Negative Declaration and Mitigation and Monitoring Reporting Program on May 24, 2016 in compliance with the California Environmental Quality Act (CEQA), and a Notice of Determination was filed with the County Clerk on May 24, 2016.

The general prevailing rates of wages, which shall be the minimum rates paid on this project, have been filed with the Clerk of the Board, and copies will be made available to any party upon request.

The Marsh Creek Road Bridge is located on Marsh Creek Road between Clayton and Brentwood, connecting east Contra Costa County and Central Contra Costa County. The road is a public road and experiences approximately 6,000 vehicle trips per day. The road is part of the County's unincorporated road network that the County is responsible for maintaining and receives gas tax funding to do so.

CONSEQUENCE OF NEGATIVE ACTION:

Construction of this project would be delayed, and the project might not be built.

Contra
Costa
County

To: Board of Supervisors
From: Brian M. Balbas, Public Works Director/Chief Engineer
Date: March 27, 2018

Subject: Advertise Rio Vista Elementary School Pedestrian Connection Project, Bay Point area.

RECOMMENDATION(S):

APPROVE the Rio Vista Elementary School Pedestrian Connection Project and AUTHORIZE the Public Works Director, or designee, to advertise the Project, Bay Point area.
(Project No. 0662-6R4141) (District V)

FISCAL IMPACT:

The Project will be funded by 76% Active Transportation Program-Safe Routes to School Funds and 24% Local Road Funds.

BACKGROUND:

The purpose of this Project is to provide pedestrian facilities along a segment of Pacifica Avenue, which students at Rio Vista Elementary School, Shore Acres Elementary School and Riverview Middle School use to walk to and from the school sites. The project will extend the distance of sidewalk along Pacifica Avenue, provide improved access for the mobility impaired and provide paved area for bicyclists. Overall, the project will improve the surrounding neighborhood.

David J. Twa, County Administrator and Clerk of the Board of Supervisors

By: Stacey M. Boyd, Deputy

Contact: Kevin Emigh,
925.313.2233

BACKGROUND: (CONT'D)

The project will provide 525 linear feet of 5-foot-wide sidewalk, curb, gutter, driveways, driveway conforms, storm drain improvements and a 5-foot-wide bike lane on the north side of Pacifica Avenue, from Mariners Cove Drive to 525 feet west.

On October 6, 2015, the Board approved the Project as a Categorical Environmental Quality Act (CEQA), Class 1(c) Categorical Exemption, pursuant to Article 19, Section 15301 of the CEQA Guidelines.

CONSEQUENCE OF NEGATIVE ACTION:

Delay in approving the Project will result in a delay of construction and will jeopardize the funding.

**Contra
Costa
County**

To: Board of Supervisors
From: Brian M. Balbas, Public Works Director/Chief Engineer
Date: March 27, 2018

Subject: Accepting completion of public improvements for road acceptance RA07-01234, San Ramon (Dougherty Valley) area.

RECOMMENDATION(S):

ADOPT Resolution No. 2018/68 accepting completion of improvements for road acceptance RA07-01234 (cross-reference subdivision SD13-09247) for a project developed by Shapell Industries, Inc., a Delaware Corporation, as recommended by the Public Works Director, San Ramon (Dougherty Valley) area. (District II)

FISCAL IMPACT:

No fiscal impact.

BACKGROUND:

The developer has completed the improvements per the Road Improvement Agreement, and in accordance with the Title 9 of the County Ordinance Code.

CONSEQUENCE OF NEGATIVE ACTION:

The completion of improvements will not be accepted.

Resolution No. 2018/68

IN THE MATTER OF: Accepting completion of improvements for road acceptance RA07-01234 (cross-reference subdivision SD13-09247) for a project developed by Shapell Industries, Inc., a Delaware Corporation, as recommended by the Public Works Director, San Ramon (Dougherty Valley) area. (District II)

The Public Works Director has notified this Board that the improvements in road acceptance RA07-01234 (cross-reference subdivision SD13-09247) have been completed as provided in the Road Improvement Agreement with Shapell Industries, Inc., a Delaware Corporation, heretofore approved by this Board.

WHEREAS, these improvements are approximately located near Alpine Blue Drive and Poinsettia Street.

NOW, THEREFORE, BE IT RESOLVED that the improvements have been COMPLETED as of March 13, 2018, thereby establishing the six-month terminal period for the filing of liens in case of action under said Road Improvement Agreement:

DATE OF AGREEMENT: October 17, 2017

NAME OF SURETY: North American Specialty Insurance Company

BE IT FURTHER RESOLVED the payment (labor and materials) surety for \$745,650.00, Bond No. 2202339 issued by the above surety be RETAINED for the six-month lien guarantee period until September 13, 2018, at which time the Board AUTHORIZES the release of said surety less the amount of any claims on file.

BE IT FURTHER RESOLVED that public trail improvements and pedestrian bridges, dedicated for public use and conveyed by separate instrument, recorded on September 7, 2017, recording series number DOC-2017-0163144, Official Records of Contra Costa County, State of California, are ACCEPTED.

BE IT FURTHER RESOLVED that upon acceptance by the Board of Supervisors, the San Ramon City Council shall accept the improvements for maintenance and ownership in accordance with the Dougherty Valley Memorandum of Understanding.

BE IT FURTHER RESOLVED that the beginning of the warranty period is hereby established, and the \$1,507,300.00 cash deposit (Auditor's Deposit Permit No. 720350, dated September 22, 2016) made by Shapell Industries, Inc., a Delaware Corporation, and the performance/maintenance surety bond rider for \$223,695 Bond No. 2202339 issued by North American Specialty Insurance Company be RETAINED pursuant to the requirements of Section 94-4.406 of the Ordinance Code until release by this Board.

I hereby certify that this is a true and correct copy of an action taken and entered on the minutes of the Board of Supervisors on the date shown.

Contact: Lori Leontini (925)313-2352

Decrease PENALTY RIDER

PERFORMANCE BOND NO. 2202339

To be attached and form a part of Bond No. 2202339 dated the 29th day of August, 2016, executed by North American Specialty Insurance Company as surety, on behalf of Shapell Industries, Inc., a Delaware Corporation as current principal of record, and in favor of County of Contra Costa, as Oblige, and in the amount of One Million Four Hundred Ninety One Thousand Three Hundred Dollars and 00/100 (\$1,491,300.00).

In consideration of the agreed premium charged for this bond, it is understood and agreed that North American Specialty Insurance Company hereby consents that effective from the 27th day of February, 2018, said bond shall be amended as follows:

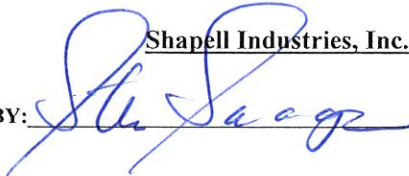

THE BOND PENALTY SHALL BE Decreased:

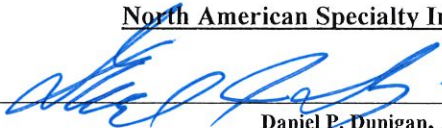

FROM: One Million Four Hundred Ninety One Thousand Three Hundred Dollars and 00/100 (\$1,491,300.00)

TO: Two Hundred Twenty Three Thousand Six Hundred Ninety Five Dollars and 00/100 (\$223,695.00)

The Decrease of said bond penalty shall be effective as of the 27th day of February, 2018, and does hereby agree that the continuity of protection under said bond subject to changes in penalty shall not be impaired hereby, provided that the aggregate liability of the above mentioned bond shall not exceed the amount of liability assumed by it at the time the act and/or acts of default were committed and in no event shall such liability be cumulative.

Signed, sealed and dated this 28th day of February, 2018.

JOINTLY OR SEVERALLY

Its true and lawful Attorney(s)-in-Fact, to make, execute, seal and deliver, for and on its behalf and as its act and deed, bonds or other writings obligatory in the nature of a bond on behalf of each of said Companies, as surety, on contracts of suretyship as are or may be required or permitted by law, regulation, contract or otherwise, provided that no bond or undertaking or contract or suretyship executed under this authority shall exceed the amount of:

ONE HUNDRED TWENTY FIVE MILLION (\$125,000,000.00) DOLLARS

This Power of Attorney is granted and, is signed by facsimile under and by the authority of the following Resolutions adopted by the Boards of Directors of North American Specialty Insurance Company and Washington International Insurance Company at meetings duly called and held on March 24, 2000 and Westport Insurance Corporation by written consent of its Executive Committee dated July 18, 2011.

"RESOLVED, that any two of the President, any Senior Vice President, any Vice President, any Assistant Vice President, the Secretary or any Assistant Secretary be, and each or any of them hereby is authorized to execute a Power of Attorney qualifying the attorney named in the given Power of Attorney to execute on behalf of the Company bonds, undertakings and all contracts of surety, and that each or any of them hereby is authorized to attest to the execution of any such Power of Attorney and to attach therein the seal of the Company; and it is

FURTHER RESOLVED, that the signature of such officers and the seal of the Company may be affixed to any such Power of Attorney or to any certificate relating thereto by facsimile, and any such Power of Attorney or certificate bearing such facsimile signatures or facsimile seal shall be binding upon the Company when so affixed and in the future with regard to any bond, undertaking or contract of surety to which it is attached."

Resolution No. 2018/68

IN THE MATTER OF: Accepting completion of improvements for road acceptance RA07-01234 (cross-reference subdivision SD13-09247) for a project developed by Shapell Industries, Inc., a Delaware Corporation, as recommended by the Public Works Director, San Ramon (Dougherty Valley) area. (District II)

The Public Works Director has notified this Board that the improvements in road acceptance RA07-01234 (cross-reference subdivision SD13-09247) have been completed as provided in the Road Improvement Agreement with Shapell Industries, Inc., a Delaware Corporation, heretofore approved by this Board.

WHEREAS, these improvements are approximately located near Alpine Blue Drive and Poinsettia Street.

NOW, THEREFORE, BE IT RESOLVED that the improvements have been COMPLETED as of March 13, 2018, thereby establishing the six-month terminal period for the filing of liens in case of action under said Road Improvement Agreement:

DATE OF AGREEMENT: October 17, 2017

NAME OF SURETY: North American Specialty Insurance Company

BE IT FURTHER RESOLVED the payment (labor and materials) surety for \$745,650.00, Bond No. 2202339 issued by the above surety be RETAINED for the six-month lien guarantee period until September 13, 2018, at which time the Board AUTHORIZES the release of said surety less the amount of any claims on file.

BE IT FURTHER RESOLVED that public trail improvements and pedestrian bridges, dedicated for public use and conveyed by separate instrument, recorded on September 7, 2017, recording series number DOC-2017-0163144, Official Records of Contra Costa County, State of California, are ACCEPTED.

BE IT FURTHER RESOLVED that upon acceptance by the Board of Supervisors, the San Ramon City Council shall accept the improvements for maintenance and ownership in accordance with the Dougherty Valley Memorandum of Understanding.

BE IT FURTHER RESOLVED that the beginning of the warranty period is hereby established, and the \$1,507,300.00 cash deposit (Auditor's Deposit Permit No. 720350, dated September 22, 2016) made by Shapell Industries, Inc., a Delaware Corporation, and the performance/maintenance surety bond rider for \$223,695 Bond No. 2202339 issued by North American Specialty Insurance Company be RETAINED pursuant to the requirements of Section 94-4.406 of the Ordinance Code until release by this Board.

I hereby certify that this is a true and correct copy of an action taken and entered on the minutes of the Board of Supervisors on the date shown.

INSTRUCTIONS FOR COMPLETING THIS FORM

This form complies with current California statutes regarding notary wording and, if needed, should be completed and attached to the document. Acknowledgments from other states may be completed for documents being sent to that state so long as the wording does not require the California notary to violate California notary law.

- State and County information must be the State and County where the document signer(s) personally appeared before the notary public for acknowledgment.
- Date of notarization must be the date that the signer(s) personally appeared which must also be the same date the acknowledgment is completed.
- The notary public must print his or her name as it appears within his or her commission followed by a comma and then your title (notary public).
- Print the name(s) of document signer(s) who personally appear at the time of notarization.
- Indicate the correct singular or plural forms by crossing off incorrect forms (i.e. ~~he/she/they~~, is /are) or circling the correct forms. Failure to correctly indicate this information may lead to rejection of document recording.
- The notary seal impression must be clear and photographically reproducible. Impression must not cover text or lines. If seal impression smudges, re-seal if a sufficient area permits, otherwise complete a different acknowledgment form.
- Signature of the notary public must match the signature on file with the office of the county clerk.
 - ❖ Additional information is not required but could help to ensure this acknowledgment is not misused or attached to a different document.
 - ❖ Indicate title or type of attached document, number of pages and date.
 - ❖ Indicate the capacity claimed by the signer. If the claimed capacity is a corporate officer, indicate the title (i.e. CEO, CFO, Secretary).
- Securely attach this document to the signed document with a staple.

Resolution No. 2018/101

IN THE MATTER OF approving the Parcel Map and Subdivision Agreement for minor subdivision MS16-0004, for project being developed by Gary and Cherl Spitz, as recommended by the Public Works Director, Alamo area. (District II)

WHERE AS, the following documents were presented for board approval this date:

I. Map

The Parcel Map of minor subdivision MS16-0004, property located in the Alamo area, Supervisorial District II, said map having been certified by the proper officials.

II. Subdivision Agreement

A subdivision agreement with Gary and Cherl Spitz, principal, whereby said principal agrees to complete all improvements as required in said subdivision agreement within 2 years from the date of said agreement. Accompanying said subdivision agreement is security guaranteeing completion of said improvements as follows:

A. Cash Bond

Performance amount: \$1,000

Auditor's Deposit Permit No. DP755290 Date: February 7, 2018

Submitted by: Gary and Cherl Spitz

B. Surety Bond

Bond Company: Developer's Surety and Indemnity Company

Bond Number: 651463P Date: February 8, 2018

Performance Amount: \$21,000

Labor & Materials Amount: \$11,000

Principal: Gary and Cherl Spitz

III. Tax Letter

Letter from the County Tax Collector stating that there are no unpaid County taxes heretofore levied on the property included in said map and that the 2017-2018 tax lien has been paid in full and the 2018-2019 tax lien, which became a lien on the first day of January 2018, is estimated to be \$17,450, with security guaranteeing payment of said tax lien as follows:

• **Tax Surety**

Bond Company: Developers Surety and Indemnity Company

Auditor's Deposit Permit Number: DP755290 Date: February 7, 2018

Amount: \$17,540.00

Submitted by/Principal: Gary Spitz and Cheryl Spitz

NOW, THEREFORE, BE IT RESOLVED:

1. That said subdivision, together with the provisions for its design and improvement, is DETERMINED to be consistent with the County's general and specific plans.
2. That said Parcel Map is APPROVED and this Board does hereby *accept subject to installation and acceptance of improvements* on behalf of the public any of the streets, paths, or easements shown thereon as dedicated to public use.
3. That said Subdivision Agreement is also APPROVED.

I hereby certify that this is a true and correct copy of an action taken and entered on the minutes of the Board of Supervisors on the date shown.

SUBDIVIDER

Gary and Cheryl Spitz

Print Name Gary Spitz

Print Title Owner Trustee

Print Name: Cheryl Spitz

Print Title: Owner Trustee

[Note: If Subdivider is a corporation, two officers must sign. The first must be the chairman of the board, president or any vice president; the second must be the secretary, assistant secretary, chief financial officer or any assistant treasurer. (Corp. Code, § 313; Civ. Code, § 1190.) If Subdivider is a limited liability company, Subdivider shall sign in the manner required of corporations, or by two managers, or by one manager, pursuant to the articles of organization (see Corp. Code, §§ 17151, 17154, 17157.) If Subdivider is a partnership, any authorized partner may sign. Signatures by Subdivider must be notarized.]

1. **PARTIES & DATE.** Effective on the above date, the County of Contra Costa, California (hereinafter "County"), and the above-mentioned Subdivider mutually promise and agree as follows concerning this Subdivision:
2. **IMPROVEMENTS.** Subdivider agrees to install certain road improvements (both public and private), drainage improvements, signs, street lights, fire hydrants, landscaping and such other improvements (including appurtenant equipment) as required in the improvement plans for this Subdivision as reviewed and on file with the Contra Costa County Public Works Department, as required by the Conditions of Approval for this Subdivision, and in conformance with the Contra Costa County Ordinance Code, including future amendments thereto (hereinafter "Ordinance Code").

Subdivider shall complete said improvements (hereinafter "Work") within the above completion period from date hereof, as required by the California Subdivision Map Act (Gov. Code, §§ 66410 et. seq.) in a good workmanlike manner, in accordance with accepted construction practices and in a manner equal or superior to the requirements of the Ordinance Code and rulings made thereunder; and where there is a conflict among the improvement plans, the Conditions of Approval and the Ordinance Code, the stricter requirements shall govern.

3. **IMPROVEMENTS SECURITY.** Upon executing this Agreement, the Subdivider shall, pursuant to Gov. Code § 66499 and the County Ordinance Code, provide as security to the County:

A. **For Performance and Guarantee:** \$ 1,000 cash, plus additional security, in the amount of \$ 21,000, which together total one hundred percent (100%) of the estimated cost of the Work. Such additional security is presented in the form of:

_____ Cash, certified check or cashier's check.
 X Acceptable corporate surety bond.
_____ Acceptable irrevocable letter of credit.

With this security, Subdivider guarantees performance under this Agreement and maintenance of the Work for one year after its completion and acceptance against any defective workmanship or materials or any unsatisfactory performance.

B. **For Payment:** Security in the amount: \$ 11,000, which is fifty percent (50%) of the estimated cost of the Work. Such security is presented in the form of:

_____ Cash, certified check, or cashier's check
 X Acceptable corporate surety bond.
_____ Acceptable irrevocable letter of credit.

With this security, Subdivider guarantees payment to the contractor, to its subcontractors and to persons renting equipment or furnishing labor or materials to them or to the Subdivider.

Upon acceptance of the Work as complete by the Board of Supervisors and upon request of Subdivider, the amounts held as security may be reduced in accordance with Sections 94-4.406 and 94-4.408 of the Ordinance Code.

4. **GUARANTEE AND WARRANTY OF WORK.** Subdivider guarantees that the Work shall be free from defects in material or workmanship and shall perform satisfactorily for a period of one (1) year from and after the Board of Supervisors accepts the Work as complete in accordance with Article 96-4.6, "Acceptance," of the Ordinance Code. Subdivider agrees to correct, repair, or replace, at Subdivider's expense, any defects in said Work.

The guarantee period does not apply to road improvements for private roads that are not to be accepted into the County road system.

5. **PLANT ESTABLISHMENT WORK.** Subdivider agrees to perform plant establishment work for landscaping installed under this Agreement. Said plant establishment work shall consist of adequately watering plants, replacing unsuitable plants, doing weed, rodent and other pest control and other work determined by the Public Works Department to be necessary to ensure establishment of plants. Said plant establishment work shall be performed for a period of one (1) year from and after the Board of Supervisors accepts the Work as complete.

6. **IMPROVEMENT PLAN WARRANTY.** Subdivider warrants the improvement plans for the Work are adequate to accomplish the Work as promised in Section 2 and as required by the Conditions of Approval for the Subdivision. If, at any time before the Board of Supervisors accepts the Work as complete or during the one year guarantee period, said improvement plans prove to be inadequate in any respect, Subdivider shall make whatever changes are necessary to accomplish the Work as promised.

7. **NO WAIVER BY COUNTY.** Inspection of the Work and/or materials, or approval of the Work and/or materials or statement by any officer, agent or employee of the County indicating the Work or any part thereof complies with the requirements of this Agreement, or acceptance of the whole or any part of said Work and/or materials, or payments therefor, or any combination or all of these acts, shall not relieve the Subdivider of its obligation to fulfill this Agreement as prescribed; nor shall the County be thereby stopped from bringing any action for damages arising from the failure to comply with any of the terms and conditions hereof.

8. **INDEMNITY.** Subdivider shall defend, hold harmless and indemnify the indemnitees from the liabilities as defined in this section:

A. The indemnitees benefitted and protected by this promise are the County and its special districts, elective and appointive boards, commissions, officers, agents and employees.

B. The liabilities protected against are any liability or claim for damage of any kind allegedly suffered, incurred or threatened because of actions defined below, and including personal injury, death, property damage, inverse condemnation, or any combination of these, and regardless of whether or not such liability, claim or damage was unforeseeable at any time before County reviewed said improvement plans or accepted the Work as complete, and including the defense of any suit(s), action(s), or other proceeding(s) concerning said liabilities and claims.

C. The actions causing liability are any act or omission (negligent or non-negligent) in connection with the matters covered by this Agreement and attributable to Subdivider, contractor, subcontractor, or any officer, agent, or employee of one or more of them.

D. Non-Conditions. The promise and agreement in this section are not conditioned or dependent on whether or not any indemnitee has prepared, supplied, or approved any plan(s) or specification(s) in connection with this Work or Subdivision, or has insurance or other indemnification covering any of these matters, or that the alleged damage resulted partly from any negligent or willful misconduct of any indemnitee.

9. **COSTS.** Subdivider shall pay, when due, all the costs of the Work, including but not limited to the costs of relocations of existing utilities required thereby; inspections; material checks and tests; and other costs incurred by County staff arising from or related to the Work, and prior to acceptance of the Work as complete or expiration of any applicable warranty periods, whichever is later.

10. **SURVEYS.** Subdivider shall set and establish survey monuments in accordance with the filed map and to the satisfaction of the County Road Commissioner-Surveyor before acceptance of the Work as complete by the Board of Supervisors.

11. **NON-PERFORMANCE AND COSTS.** If Subdivider fails to complete the Work within the time specified in this Agreement, and subsequent extensions, or fails to maintain the Work, County may proceed to complete and/or maintain the Work by contract or otherwise and Subdivider agrees to pay all costs and charges incurred by County (including, but not limited to, engineering, inspection, surveys, contract, overhead, etc.) immediately upon demand.

Once action is taken by County to complete or maintain the Work, Subdivider agrees to pay all costs incurred by County, even if Subdivider subsequently completes the Work.

Should County sue to compel performance under this Agreement or to recover costs incurred in completing or maintaining the Work, Subdivider agrees to pay all attorney's fees, staff costs and all other expenses of litigation incurred by County in connection therewith, even if Subdivider subsequently proceeds to complete the Work.

12. **INCORPORATION/ANNEXATION.** If, before the Board of Supervisors accepts the Work as complete, the Subdivision is included in territory incorporated as a city or is annexed to an existing city, except as provided in this paragraph, County's rights under this Agreement and/or any deposit, bond, or letter of credit securing said rights shall be transferred to the new or annexing city. Such city shall have all the rights of a third party beneficiary against Subdivider, who shall fulfill all the terms of this Agreement as though Subdivider had contracted with the city originally. The provisions of paragraph 8 (Indemnity) shall continue to apply in favor of the indemnitees listed in paragraph 8.A. upon any such incorporation or annexation.

13. **RECORD MAP.** In consideration hereof, County shall allow Subdivider to file and record the final map or parcel map for said Subdivision.

14. **RIGHT OF ENTRY.** Subdivider hereby consents to entry onto the Subdivision property, and onto any other property over which Subdivider has land rights and upon which any portion of the Work is to be installed pursuant to the improvement plans, by County and its forces, including contractors, for the purpose of inspection, and, in the event of non-performance of this Agreement by Subdivider, completion and/or maintenance of the Work.

**IMPROVEMENT SECURITY BOND
FOR SUBDIVISION AGREEMENT**
(Performance, Guarantee and Payment)
(Gov. Code, §§ 66499-66499.10)

1. **RECITAL OF SUBDIVISION AGREEMENT.** The Principal has executed an agreement with the County of Contra Costa (hereinafter "County") to install and pay for street, drainage and other improvements in Subdivision 16-0004 as specified in the Subdivision Agreement, and to complete said work within the time specified for completion in the Subdivision Agreement, all in accordance with State and local laws and rulings thereunder in order to satisfy conditions for filing of the Final Map or Parcel Map for said subdivision. Under the terms of the Subdivision Agreement, Principal is required to furnish a bond to secure the faithful performance of the Subdivision Agreement and payment to laborers and materialmen.

2. **OBLIGATION.** Gary and Cheryl Spitz, as Principal,
and Developers Surety and Indemnity Company, a corporation organized and existing
under the laws of the State of CA and authorized to transact surety business in California, as Surety, hereby jointly and
severally bind ourselves, our heirs, executors, administrators, successors and assigns to the County of Contra Costa, California to pay it:

(A. Performance and Guarantee) Twenty-One Thousand and no/xx Dollars
(\$ 21,000) for itself or any city assignee under the above Subdivision Agreement.

(B. Payment) Eleven Thousand and no/xx Dollars
(\$ 11,000) to secure the claims to which reference is made in Title XV (commencing with Section 3082) of Part 4 of Division III of the Civil Code of the
State of California.

3. **CONDITION.** This obligation is subject to the following condition.

A. The condition of this obligation as to Section 2.(A) above is such that if the above bounded Principal, his or its heirs, executors, administrators, successors or assigns, shall in all things stand to and abide by, and well and truly keep and perform the covenants, conditions and provisions in the said agreement and any alteration thereof made as therein provided, on his or their part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless the County of Contra Costa (or city assignee), its officers, agents and employees, as therein stipulated, then this obligation shall become null and void; otherwise it shall be and remain in full force and effect.

As part of the obligation secured hereby and in addition to the face amount specified therefor, there shall be included costs and reasonable expenses and fees, including reasonable attorney's fees, incurred by the County of Contra Costa (or city assignee) in successfully enforcing such obligation, and to be taxed as costs and included in any judgment rendered.

B. The condition of this obligation, as to Section 2.(B) above, is such that said Principal and the undersigned as corporate surety are held firmly bound unto the County of Contra Costa and all contractors, subcontractors, laborers, materialmen and other persons employed in the performance of the aforesaid Subdivision Agreement and referred to in the aforesaid Civil Code for materials furnished or labor thereon of any kind, or for amounts due under the Unemployment Insurance Act with respect to this work or labor, and that the Surety will pay the same in an amount not exceeding the amount hereinabove set forth, and also in case suit is brought upon this bond, will pay, in addition to the face amount thereof, costs and reasonable expenses and fees, including reasonable attorney's fees, incurred by the County of Contra Costa (or city assignee) in successfully enforcing such obligation, to be awarded and fixed by the court, and to be taxed as costs and to be included in the judgment therein rendered.

It is hereby expressly stipulated and agreed that this bond shall inure to the benefit of any and all persons, companies, and corporations entitled to file claims under Title 15 (commencing with Section 3082) of Part 4 of Division 3 of the Civil Code, so as to give a right of action to them or their assigns in any suit brought upon this bond.

Should the condition of this bond be fully performed, then this obligation shall become null and void; otherwise it shall be and remain in full force and effect.

C. No change, extension of time, alteration, or addition to the terms of said Subdivision Agreement or the work to be performed thereunder or any plan or specifications of said work, agreed to by the Principal and the County of Contra Costa (or city assignee) shall relieve any Surety from liability on this bond; and consent is hereby given to make such change, extension of time, alteration or addition without further notice to or consent by Surety; and Surety hereby waives the provisions of Civil Code Section 2819 and holds itself bound without regard to and independently of any action against the Principal whenever taken.

SIGNED AND SEALED on February 8, 20 18.

**POWER OF ATTORNEY FOR
DEVELOPERS SURETY AND INDEMNITY COMPANY
INDEMNITY COMPANY OF CALIFORNIA**
PO Box 19725, IRVINE, CA 92623 (949) 263-3300

KNOW ALL BY THESE PRESENTS that except as expressly limited, DEVELOPERS SURETY AND INDEMNITY COMPANY and INDEMNITY COMPANY OF CALIFORNIA, do each hereby make, constitute and appoint:

Sandra DeMartini, Linda J. Giffin, Jerry Katopodis, Peter Holley, jointly or severally

as their true and lawful Attorney(s)-in-Fact, to make, execute, deliver and acknowledge, for and on behalf of said corporations, as sureties, bonds, undertakings and contracts of suretyship giving and granting unto said Attorney(s)-in-Fact full power and authority to do and to perform every act necessary, requisite or proper to be done in connection therewith as each of said corporations could do, but reserving to each of said corporations full power of substitution and revocation, and all of the acts of said Attorney(s)-in-Fact, pursuant to these presents, are hereby ratified and confirmed.

This Power of Attorney is granted and is signed by facsimile under and by authority of the following resolutions adopted by the respective Boards of Directors of DEVELOPERS SURETY AND INDEMNITY COMPANY and INDEMNITY COMPANY OF CALIFORNIA, effective as of January 1st, 2008.

RESOLVED, that a combination of any two of the Chairman of the Board, the President, Executive Vice-President, Senior Vice-President or any Vice President of the corporations be, and that each of them hereby is, authorized to execute this Power of Attorney, qualifying the attorney(s) named in the Power of Attorney to execute, on behalf of the corporations, bonds, undertakings and contracts of suretyship; and that the Secretary or any Assistant Secretary of either of the corporations be, and each of them hereby is, authorized to attest the execution of any such Power of Attorney;

RESOLVED, FURTHER, that the signatures of such officers may be affixed to any such Power of Attorney or to any certificate relating thereto by facsimile, and any such Power of Attorney or certificate bearing such facsimile signatures shall be valid and binding upon the corporations when so affixed and in the future with respect to any bond, undertaking or contract of suretyship to which it is attached.

IN WITNESS WHEREOF, DEVELOPERS SURETY AND INDEMNITY COMPANY and INDEMNITY COMPANY OF CALIFORNIA have severally caused these presents to be signed by their respective officers and attested by their respective Secretary or Assistant Secretary this 6th day of February, 2017.

THAT Gary Spitz and Cherl Spitz, as Principal and (Surety) Developers Surety and Indemnity Company, a corporation organized and existing under the laws of the State of CA and authorized to transact surety business in California as surety are held and firmly bound unto the County of Contra Costa, State of California, in the penal sum of Seventeen Thousand Four Hundred Fifty Dollars and 00/100 Dollars (\$ 17,450.00), to be paid to said County of Contra Costa, for the payment of which will and truly be made, we and each of us bind ourselves, our heirs, executors, administrators and successors, jointly and severally, firmly by these presents.

Sealed with our Seals and dated this 14th day of February 2018.

The conditions of the above obligation is such that WHEREAS, the above bounded principal is about to file a map entitled MS # 16-0004 Parcel # 187-232-029-4

and covering a subdivision of a tract of land in said County of Contra Costa, and there are certain liens for taxes and special assessments collected as taxes, against the said tract of land covered by said map, which taxes and special assessments collected as taxes, are not as yet due or payable.

NOW, THEREFORE, if the said Gary Spitz and Cherl Spitz shall pay all of taxes and special assessments collected as taxes which are a lien against said tract of land covered by said map, at the time of the filing of said map of said tract, then this obligation shall be void and of no effect, otherwise it shall remain in full force and effect.

**POWER OF ATTORNEY FOR
DEVELOPERS SURETY AND INDEMNITY COMPANY
INDEMNITY COMPANY OF CALIFORNIA**
PO Box 19725, IRVINE, CA 92623 (949) 263-3300

KNOW ALL BY THESE PRESENTS that except as expressly limited, DEVELOPERS SURETY AND INDEMNITY COMPANY and INDEMNITY COMPANY OF CALIFORNIA, do each hereby make, constitute and appoint:

Sandra DeMartini, Linda J. Giffin, Jerry Katopodis, Peter Holley, jointly or severally

as their true and lawful Attorney(s)-in-Fact, to make, execute, deliver and acknowledge, for and on behalf of said corporations, as sureties, bonds, undertakings and contracts of suretyship giving and granting unto said Attorney(s)-in-Fact full power and authority to do and to perform every act necessary, requisite or proper to be done in connection therewith as each of said corporations could do, but reserving to each of said corporations full power of substitution and revocation, and all of the acts of said Attorney(s)-in-Fact, pursuant to these presents, are hereby ratified and confirmed.

This Power of Attorney is granted and is signed by facsimile under and by authority of the following resolutions adopted by the respective Boards of Directors of DEVELOPERS SURETY AND INDEMNITY COMPANY and INDEMNITY COMPANY OF CALIFORNIA, effective as of January 1st, 2008.

RESOLVED, that a combination of any two of the Chairman of the Board, the President, Executive Vice-President, Senior Vice-President or any Vice President of the corporations be, and that each of them hereby is, authorized to execute this Power of Attorney, qualifying the attorney(s) named in the Power of Attorney to execute, on behalf of the corporations, bonds, undertakings and contracts of suretyship; and that the Secretary or any Assistant Secretary of either of the corporations be, and each of them hereby is, authorized to attest the execution of any such Power of Attorney;

RESOLVED, FURTHER, that the signatures of such officers may be affixed to any such Power of Attorney or to any certificate relating thereto by facsimile, and any such Power of Attorney or certificate bearing such facsimile signatures shall be valid and binding upon the corporations when so affixed and in the future with respect to any bond, undertaking or contract of suretyship to which it is attached.

IN WITNESS WHEREOF, DEVELOPERS SURETY AND INDEMNITY COMPANY and INDEMNITY COMPANY OF CALIFORNIA have severally caused these presents to be signed by their respective officers and attested by their respective Secretary or Assistant Secretary this 6th day of February, 2017.

THE BOARD OF SUPERVISORS OF CONTRA COSTA COUNTY, CALIFORNIA

and for Special Districts, Agencies and Authorities Governed by the Board

Adopted this Resolution on 03/27/2018 by the following vote:

AYE: ☐ 4 **Candace Andersen**
Diane Burgis
Karen Mitchoff
Federal D. Glover

NO: ☐

ABSENT: ☐ 1 **John Gioia**

ABSTAIN: ☐

RECUSE: ☐

Resolution No. 2018/101

IN THE MATTER OF approving the Parcel Map and Subdivision Agreement for minor subdivision MS16-0004, for project being developed by Gary and Cherl Spitz, as recommended by the Public Works Director, Alamo area. (District II)

WHERE AS, the following documents were presented for board approval this date:

I. Map

The Parcel Map of minor subdivision MS16-0004, property located in the Alamo area, Supervisorial District II, said map having been certified by the proper officials.

II. Subdivision Agreement

A subdivision agreement with Gary and Cherl Spitz, principal, whereby said principal agrees to complete all improvements as required in said subdivision agreement within 2 years from the date of said agreement. Accompanying said subdivision agreement is security guaranteeing completion of said improvements as follows:

A. Cash Bond

Performance amount: \$1,000

Auditor's Deposit Permit No. DP755290 Date: February 7, 2018

Submitted by: Gary and Cherl Spitz

B. Surety Bond

Bond Company: Developer's Surety and Indemnity Company

Bond Number: 651463P Date: February 8, 2018

Performance Amount: \$21,000

Labor & Materials Amount: \$11,000

Principal: Gary and Cherl Spitz

III. Tax Letter

Letter from the County Tax Collector stating that there are no unpaid County taxes heretofore levied on the property included in said map and that the 2017-2018 tax lien has been paid in full and the 2018-2019 tax lien, which became a lien on the first day of January 2018, is estimated to be \$17,450, with security guaranteeing payment of said tax lien as follows:

• **Tax Surety**

Bond Company: Developers Surety and Indemnity Company

Auditor's Deposit Permit Number: DP755290 Date: February 7, 2018

Amount: \$17,540.00

Submitted by/Principal: Gary Spitz and Cherl Spitz

NOW, THEREFORE, BE IT RESOLVED:

1. That said subdivision, together with the provisions for its design and improvement, is DETERMINED to be consistent with the County's general and specific plans.
2. That said Parcel Map is APPROVED and this Board does hereby *accept subject to installation and acceptance of improvements* on behalf of the public any of the streets, paths, or easements shown thereon as dedicated to public use.
3. That said Subdivision Agreement is also APPROVED.

COUNTY OF CONTRA COSTA

**COVENANT RUNNING WITH THE LAND,
STORMWATER MANAGEMENT FACILITIES OPERATION
AND MAINTENANCE AGREEMENT, AND RIGHT OF ENTRY**

PROJECT: MS15-0002

PROPERTY OWNER: Alamo Glen, LLC

ASSESSOR'S PARCEL NUMBERS: 193-210-008 and 193-861-022

**COVENANT RUNNING WITH THE LAND,
STORMWATER MANAGEMENT FACILITIES
OPERATION AND MAINTENANCE AGREEMENT,
AND RIGHT OF ENTRY**

This Covenant Running with the Land, Stormwater Management Facilities Operation and Maintenance Agreement, and Right of Entry ("Agreement") is made and entered into this _____ day of _____, 20_____, by and between Alamo Glen, LLC, and the County of Contra Costa, a political subdivision of the State of California.

DEFINITIONS

The following terms used in this Agreement have the meanings specified below:

County: The term "**County**" means the County of Contra Costa and its authorized officers, agents, and employees.

County Engineer: The term "**County Engineer**" means the Public Works Director for the County or his/her designee.

Lot: The term "**Lot**" and "**Lots**" means the individual lots or parcels shown on the Map.

Map: The term "**Map**" means the final map or parcel map of the Project filed in the Official Records of the Contra Costa County Recorder.

Maintain: The terms "**maintain**," "**maintained**," or "**maintenance**" mean taking all actions reasonably necessary to keep the Stormwater Facilities in first-class operation, condition, and repair, as described in the Stormwater Control Plan and the Operation and Maintenance Plan, which actions include but are not limited to annual inspection and reporting, painting, cleaning, refinishing, repairing, replacing, and reconstructing the Stormwater Facilities, the payment of any applicable County fees, and in the case of landscaping, plant replacement, mulch replacement, irrigating, trimming, mowing, and fertilizing the landscaping.

NPDES Permit: The term "**NPDES Permit**" means the National Pollutant Discharge Elimination System (NPDES) Permit No. CAS612008 issued to the County and other co-permittees by the San Francisco Regional Water Quality Control Board, as amended, and as may be superseded by subsequent NPDES permits that are issued from time to time.

Operation and Maintenance Plan: The term "**Operation and Maintenance Plan**" means the Stormwater Control Operation and Maintenance Plan for the Property prepared by Apex Civil Engineering & Land Surveying, Inc., and deemed consistent with the Ordinance by the County, which may only be modified when, upon written application for such changes, the County Engineer, in his/her sole discretion, provides written consent to such changes. The Operation and Maintenance Plan and any approved changes are on file at the County Public Works Department.

Ordinance: The term "**Ordinance**" means Division 1014 of Title 10 of the Contra Costa County Code (Stormwater Management and Discharge Control), as may be amended from time to time.

Project: The term "**Project**" means MS15-0002, which is being developed on the Property by the Property Owner.

Property: The term "**Property**" means that real property, including all Lots, shown on the Map and described in Exhibit A attached to this Agreement.

Property Owner: The terms "**Property Owner**" and "**Property Owners**" mean Alamo Glen, LLC, and all heirs, successors, executors, administrators, and assigns of any interest in the Property, it being the intent of the parties that the obligations under this Agreement, as provided in Civil Code Section 1468, run with the Lots shown on the Map.

Stormwater Control Plan: The term "**Stormwater Control Plan**" means the Stormwater Control Plan prepared by Apex Civil Engineering & Land Surveying, Inc., and deemed consistent with the Ordinance by the County, which may only be modified when, upon written application for such changes, the County Engineer, in his/her sole discretion, provides written consent to such changes. The Stormwater Control Plan and any approved changes are on file at the County Public Works Department.

Stormwater Facilities: The term "**Stormwater Facilities**" means the permanent stormwater management facilities and appurtenant design features located and constructed on the Property, as described in the Stormwater Control Plan and/or the Operation and Maintenance Plan.

RECITALS

This Agreement is made and entered into with reference to the following facts:

- A. The Property Owner is the owner of the Property and intends to develop the Property with impervious surfaces.
- B. The County is the owner of real property commonly known as Hap Magee Ranch Park (Assessor's Parcel Nos. 197-050-004, 197-240-003 and 197-240-004), and of real property interests in Meadow Grove Court and Royal Oaks Drive and associated storm drains that are in the vicinity of the Property, and the County is required to ensure that stormwater runoff from the Property meets the requirements of the NPDES Permit.
- C. To meet its obligations under the NPDES Permit, the County has required the Property Owner to construct the Stormwater Facilities.
- D. To meet its obligations under the NPDES Permit, the County has approved the Property Owner's Operation and Maintenance Plan and the Stormwater Control Plan for the Stormwater Facilities.
- E. To meet the County's obligations under the NPDES Permit, the County's Ordinance requires proper operation and maintenance in perpetuity of the Stormwater Facilities constructed on the Property.

- F. The Operation and Maintenance Plan and/or the Stormwater Control Plan include an annual inspection and reporting requirement and a continuing maintenance requirement for the Stormwater Facilities constructed on the Property.

AGREEMENT

NOW, THEREFORE, in consideration of the above premises, the sufficiency of which is acknowledged, the mutual covenants contained in this Agreement, and the following terms and conditions, the County and the Property Owner agree as follows:

SECTION 1

Responsibility for Operation and Maintenance: The Property Owner represents and warrants that the Stormwater Facilities have been designed and installed in strict accordance with the Stormwater Control Plan, the Operation and Maintenance Plan, and the Ordinance. No portion of the Stormwater Facilities may be altered in any manner that is inconsistent with the Stormwater Control Plan or the Operation and Maintenance Plan without the prior, written consent of the County Engineer. The Property Owner shall continuously maintain the Stormwater Facilities in first-class operating condition, in strict accordance with the Stormwater Control Plan, the Operation and Maintenance Plan, and the Ordinance, and in compliance with all applicable federal, state, and local laws and regulations, as they may be amended from time to time.

The Property Owner shall engage a licensed landscape contractor or other licensed professional acceptable to the County Engineer to undertake the following maintenance activities on the Property, unless the Property Owner receives prior, written approval of an alternative method from the County Engineer:

1. Diagnosis and correction of the Stormwater Facilities malfunctions that cannot be corrected through routine maintenance,
2. Application of fertilizer and/or pest control products within, under, or above the Stormwater Facilities,
3. Repair of private drainage system (including rain gutters, downspouts, area drains, risers, inlets, outlets, overflows, clean-outs, connectors, earthen and concrete conveyance swales, check dam/retaining walls, and catch basins),
4. Maintenance of irrigation system that may affect stormwater reaching the Stormwater Facilities,
5. Modification of site topography through yard and driveway grading that may affect stormwater reaching the Stormwater Facilities,
6. Subdrain cleaning/replacement (including perforated drain pipe), and
7. Replacement of engineered soil and mulch.

The County Engineer may, at any time, revoke approval of an alternate method for the maintenance of the Stormwater Facilities and require the Property Owner to hire a licensed landscape contractor or other licensed professional acceptable to the County Engineer to undertake any of the activities mentioned in this section.

If a dispute should arise between the Property Owner with respect to the necessity for maintenance, the standard of maintenance, the contractor(s) to be engaged to perform any repair or maintenance work, or any other matters pertaining to the operation or maintenance of the Stormwater Facilities, the dispute may be submitted to the County Engineer, in which case the decision of the County Engineer shall be final.

The County recognizes that the Operation and Maintenance Plan may provide for the allocation of Property Owner responsibilities for the maintenance of Stormwater Facilities located on various Lots. However, regardless of the allocation of maintenance responsibilities, the Property Owner of each Lot is responsible for compliance with all of the obligations contained in this Agreement, and all Property Owners will be jointly and severally liable for failure to comply with the terms and conditions set forth in this Agreement and in the Ordinance.

The County may require the Property Owner to amend the Stormwater Control Plan and/or the Operation and Maintenance Plan whenever the County deems amendments necessary to maintain compliance with the NPDES Permit. In that case, the Property Owner shall have the amendments prepared by a licensed engineer and promptly submit the amendments to the County Engineer for review and approval. All amendments proposed by the Property Owner are subject to the prior, written approval of the County Engineer. Whenever the Property Owner requests amendments to the Stormwater Control Plan and/or the Operation and Maintenance Plan, the Property Owner shall pay the County in advance for all staff time spent reviewing and taking action with respect to such request, whether or not the County Engineer approves the proposed amendments. All approved amendments to the Stormwater Control Plan and the Operation and Maintenance Plan will be kept on file at the County Public Works Department. The Property Owner shall promptly comply with all requirements of the Stormwater Control Plan and the Operation and Maintenance Plan, including any approved amendments.

SECTION 2

Inspection by Property Owner: The Property Owner shall inspect, at least annually, the Stormwater Facilities in accordance with this Agreement, including the requirements of the Operation and Maintenance Plan, the Stormwater Control Plan, and the Ordinance. The annual inspection shall include completion of the reporting form(s) required by the County, which form(s) will be provided annually to the Property Owner by the County. The Property Owner or a licensed landscape contractor or other licensed professional acceptable to the County Engineer must submit the reporting form(s) to the County Engineer no later than the deadline indicated on the form(s). Upon review, the County may require additional information from either the Property Owner or an appropriately-licensed contractor.

SECTION 3

Right of Entry and Stormwater Facilities Inspection by the County: The Property Owner hereby grants permission to the County and its contractors and other agencies with an interest in the Stormwater Facilities, such as the Contra Costa County Flood Control and Water Conservation District, the Contra Costa Mosquito and Vector Control District, and the Regional Water Quality Control Board, to enter upon the Property at any reasonable time to inspect, assess, or observe the Stormwater Facilities for the purpose of ensuring that the Stormwater Facilities are being properly maintained and are continuing to perform in an adequate manner to protect water quality and the public health and safety. This includes the right to enter upon the Property whenever the County or other agency has a reasonable basis to believe that a violation of

this Agreement, the Operation and Maintenance Plan, the Stormwater Control Plan, the Ordinance, or the NPDES Permit has occurred or is threatening to occur. It also includes the right for the County and its contractors to enter upon the Property to perform any maintenance or other obligations required of the Property Owner under this Agreement or to abate any nuisance in connection with the Stormwater Facilities. The County and the other agencies shall endeavor to provide reasonable notice to the Property Owner before entering the Property.

SECTION 4

Failure to Perform Required Stormwater Facilities Repairs or Maintenance by the Property Owner: If the Property Owner fails to maintain the Stormwater Facilities in good working order and in accordance with the approved Operation and Maintenance Plan, the Stormwater Control Plan, and the Ordinance, the County, with prior notice, may enter the Property to return the Stormwater Facilities to good working order. The County is under no obligation to maintain or repair the Stormwater Facilities, and this Agreement may not be construed to impose any such obligation on the County. If the County, under this section, performs any work to return Stormwater Facilities to good working order, the Property Owner shall reimburse the County for all the costs incurred by the County, including administrative costs. The County will provide the Property Owner with an itemized invoice of the County's costs and the Property Owner will have 30 days to pay the invoice. If the Property Owner fails to pay the invoice within 30 days, the County may secure a lien against the Property in the amount of such costs. In addition, the County may make the cost of abatement of the nuisance caused by the failure to maintain the Stormwater Facilities a special assessment against the Property, which assessment may be collected on the tax roll in accordance with applicable law. This section does not prevent the County from pursuing other remedies against the Property or the Property Owner, including but not limited to those in the Ordinance and the nuisance abatement procedures in Division 14 of Title 1 (or successor provisions) of the Contra Costa County Ordinance Code.

If the Property Owner fails to maintain the Stormwater Facilities in accordance with this Agreement, the Operation and Maintenance Plan, the Stormwater Control Plan, or the Ordinance, the Property Owner shall be responsible for: (a) the costs of any code enforcement or nuisance abatement actions commenced by the County; and (b) the payment of, or reimbursement to the County for, any fines or penalties that may be levied against the County by the Regional Water Quality Control Board or any other regulatory agency, to the extent that the fines or penalties result from the Property Owner's failure to properly maintain the Stormwater Facilities. The County may recover such costs, fines, or penalties from the Property Owner in the same manner as provided in the preceding paragraph.

SECTION 5

Indemnity: The Property Owner agrees to defend, indemnify, save, and hold harmless the County and its governing board from any and all demands, losses, claims, costs, suits, liabilities, and expenses for any property damage, personal injury, or death arising directly or indirectly from or connected with the design, construction, use, operation or maintenance of the Stormwater Facilities by the Property Owner or the presence or existence of the Stormwater Facilities on the Property, except for claims, costs, or liabilities resulting from the sole negligence or sole willful misconduct of the County. The Property Owner's obligations under this section shall include the payment of penalties, fines, attorneys' fees, experts' fees, costs, and litigation expenses, as well as liability for the release or existence of any hazardous materials on, under, or in the Property. If any action or proceeding is brought against any of the indemnitees, the

Property Owner shall reimburse the indemnitees for any expenditures, including reasonable attorneys' fees and costs, incurred by the indemnitees and, if requested by any of the indemnitees, shall defend the action or proceeding at the Property Owner's sole expense with counsel reasonably acceptable to the indemnitees.

SECTION 6

Covenant Running with the Land: The covenants of the Property Owner set forth above shall run with the land, and the burdens of the covenants shall be binding upon each and every part of the Property and the Lots and upon the Property Owner and the Property Owner's successors and assigns in ownership (on any interest in the Property) for the benefit of Hap Magee Ranch Park, Meadow Grove Court and Royal Oaks Drive and associated storm drain(s) and each and every part thereof. Said covenants shall inure to the benefit of and be enforceable by the County and its successors and assigns in ownership of each and every part of the above-referenced road(s) and storm drains.

SECTION 7

Severability: Invalidation of any one of the provisions of this Agreement shall in no way affect any other provisions and all other provisions shall remain in full force and effect.

SECTION 8

No Dedication for Public Use: The provisions of this Agreement shall not be construed to constitute a dedication for public use, either express or implied, and any actions by the County to enforce this Agreement, including without limitation code enforcement or nuisance abatement actions, shall not be deemed to involve the exercise by the County of dominion or control over the Stormwater Facilities or the Property.

SECTION 9

Notices: All notices required by this Agreement or by law shall be in writing and shall be delivered in person or sent by certified mail, postage pre-paid.

Notices required to be given to the County shall be addressed as follows:

Contra Costa County Public Works Department
Attention: County Watershed Program
255 Glacier Drive
Martinez, CA 94553

Notices required to be given to the Property Owner, including any heirs, successors, or assigns, will be sent to the mailing address for the Property Owner that is on file with the Contra Costa County Assessor. The Property Owner may request in writing that notices be sent to an additional address.

Any party may change its address or contact person by notice in writing to the other party and thereafter notices shall be addressed and transmitted to the new address and/or new contact person.

SECTION 10

Effective Date and Modification: This Agreement is effective upon the date stated at the beginning of this Agreement. This Agreement shall not be modified except by written instrument executed by the County and the Property Owner at the time of modification. Such modifications shall be effective upon the date of execution and shall be recorded.

Resolution No. 2018/105

IN THE MATTER OF approving the Parcel Map and Subdivision Agreement for minor subdivision MS15-0002, for project being developed by Alamo Glen, LLC, as recommended by the Public Works Director, Alamo area. (District II)

WHERE AS, the following documents were presented for board approval this date:

I. Map

The Parcel Map of minor subdivision MS15-0002, property located in the Alamo area, Supervisorial District II, said map having been certified by the proper officials.

II. Subdivision Agreement

A subdivision agreement with Alamo Glen, LLC, principal, whereby said principal agrees to complete all improvements as required in said subdivision agreement within 2 years from the date of said agreement. Accompanying said subdivision agreement is security guaranteeing completion of said improvements as follows:

A. Cash Bond

Performance amount: \$2,020.00

Auditor's Deposit Permit No. 7562220 Date: February 22, 2018

Submitted by: Alamo Glen, LLC

B. Surety Bond

Performance amount: \$199,980.00

Labor & Materials Amount: \$101,000.00

Auditor's Deposit Permit No. 7562220 Date: February 22, 2018

Submitted by: Alamo Glen, LLC

III. Tax Letter

Letter from the County Tax Collector stating that there are no unpaid County taxes heretofore levied on the property included in said map and that the 2017-2018 tax lien has been paid in full and the 2018-2019 tax lien, which became a lien on the first day of January 2018, is estimated to be \$36,330.00, with security guaranteeing payment of said tax lien as follows:

• **Tax Surety**

Auditor's Deposit Permit Number: DP756176 Date: February 21, 2018

Amount: \$36,330.00

Submitted by/Principal: Alamo Glen, LLC

NOW, THEREFORE, BE IT RESOLVED:

1. That said subdivision, together with the provisions for its design and improvement, is DETERMINED to be consistent with the County's general and specific plans.
2. That said Parcel Map is APPROVED and this Board does hereby *accept subject to installation and acceptance of improvements* on behalf of the public any of the streets, paths, or easements shown thereon as dedicated to public use.
3. That said Subdivision Agreement is also APPROVED.

I hereby certify that this is a true and correct copy of an action taken and entered on the minutes of the Board of Supervisors on the date shown.

SUBDIVISION AGREEMENT
(Gov. Code, §§ 66462 and 66463)

Subdivision: MS15-0002

Effective Date: _____

Subdivider: ALAMO GLEN, LLC

Completion Period: Two (2) years

THESE SIGNATURES ATTEST TO THE PARTIES' AGREEMENT HERETO:

CONTRA COSTA COUNTY

Brian Bullock, Public Works Director

By: _____

SUBDIVIDER

ALAMO GLEN, LLC

Print Name MYRON ZIMMERMAN

Print Title MANAGER

RECOMMENDED FOR APPROVAL:

By: _____
Engineering Services Division

Print Name: _____

Print Title: _____

FORM APPROVED: Silvano B. Marchesi, County Counsel

[Note: If Subdivider is a corporation, two officers must sign. The first must be the chairman of the board, president or any vice president; the second must be the secretary, assistant secretary, chief financial officer or any assistant treasurer. (Corp. Code, § 313; Civ. Code, § 1190.) If Subdivider is a limited liability company, Subdivider shall sign in the manner required of corporations, or by two managers, or by one manager, pursuant to the articles of organization (see Corp. Code, §§ 17151, 17154, 17157.) If Subdivider is a partnership, any authorized partner may sign. Signatures by Subdivider must be notarized.]

1. PARTIES & DATE. Effective on the above date, the County of Contra Costa, California (hereinafter "County"), and the above-mentioned Subdivider mutually promise and agree as follows concerning this Subdivision:

2. IMPROVEMENTS. Subdivider agrees to install certain road improvements (both public and private), drainage improvements, signs, street lights, fire hydrants, landscaping and such other improvements (including appurtenant equipment) as required in the improvement plans for this Subdivision as reviewed and on file with the Contra Costa County Public Works Department, as required by the Conditions of Approval for this Subdivision, and in conformance with the Contra Costa County Ordinance Code, including future amendments thereto (hereinafter "Ordinance Code").

Subdivider shall complete said improvements (hereinafter "Work") within the above completion period from date hereof, as required by the California Subdivision Map Act (Gov. Code, §§ 66410 et. seq.) in a good workmanlike manner, in accordance with accepted construction practices and in a manner equal or superior to the requirements of the Ordinance Code and rulings made thereunder; and where there is a conflict among the improvement plans, the Conditions of Approval and the Ordinance Code, the stricter requirements shall govern.

3. IMPROVEMENTS SECURITY. Upon executing this Agreement, the Subdivider shall, pursuant to Gov. Code § 66499 and the County Ordinance Code, provide as security to the County:

A. For Performance and Guarantee: \$ 2,020.00 cash, plus additional security, in the amount of \$ 199,980.00, which together total one hundred percent (100%) of the estimated cost of the Work. Such additional security is presented in the form of:

X Cash, certified check or cashier's check.
_____ Acceptable corporate surety bond.
_____ Acceptable irrevocable letter of credit.

With this security, Subdivider guarantees performance under this Agreement and maintenance of the Work for one year after its completion and acceptance against any defective workmanship or materials or any unsatisfactory performance.

B. For Payment: Security in the amount: \$ 101,000.00, which is fifty percent (50%) of the estimated cost of the Work. Such security is presented in the form of:

X Cash, certified check, or cashier's check
_____ Acceptable corporate surety bond.
_____ Acceptable irrevocable letter of credit.

With this security, Subdivider guarantees payment to the contractor, to its subcontractors and to persons renting equipment or furnishing labor or materials to them or to the Subdivider.

Upon acceptance of the Work as complete by the Board of Supervisors and upon request of Subdivider, the amounts held as security may be reduced in accordance with Sections 94-4.406 and 94-4.408 of the Ordinance Code.

4. GUARANTEE AND WARRANTY OF WORK. Subdivider guarantees that the Work shall be free from defects in material or workmanship and shall perform satisfactorily for a period of one (1) year from and after the Board of Supervisors accepts the Work as complete in accordance with Article 96-4.6, "Acceptance," of the Ordinance Code. Subdivider agrees to correct, repair, or replace, at Subdivider's expense, any defects in said Work.

The guarantee period does not apply to road improvements for private roads that are not to be accepted into the County road system.

5. PLANT ESTABLISHMENT WORK. Subdivider agrees to perform plant establishment work for landscaping installed under this Agreement. Said plant establishment work shall consist of adequately watering plants, replacing unsuitable plants, doing weed, rodent and other pest control and other work determined by the Public Works Department to be necessary to ensure establishment of plants. Said plant establishment work shall be performed for a period of one (1) year from and after the Board of Supervisors accepts the Work as complete.

6. IMPROVEMENT PLAN WARRANTY. Subdivider warrants the improvement plans for the Work are adequate to accomplish the Work as promised in Section 2 and as required by the Conditions of Approval for the Subdivision. If, at any time before the Board of Supervisors accepts the Work as complete or during the one year guarantee period, said improvement plans prove to be inadequate in any respect, Subdivider shall make whatever changes are necessary to accomplish the Work as promised.

7. NO WAIVER BY COUNTY. Inspection of the Work and/or materials, or approval of the Work and/or materials or statement by any officer, agent or employee of the County indicating the Work or any part thereof complies with the requirements of this Agreement, or acceptance of the whole or any part of said Work and/or materials, or payments therefor, or any combination or all of these acts, shall not relieve the Subdivider of its obligation to fulfill this Agreement as prescribed; nor shall the County be thereby stopped from bringing any action for damages arising from the failure to comply with any of the terms and conditions hereof.

8. INDEMNITY. Subdivider shall defend, hold harmless and indemnify the indemnitees from the liabilities as defined in this section:

A. The indemnitees benefitted and protected by this promise are the County and its special districts, elective and appointive boards, commissions, officers, agents and employees.

B. The liabilities protected against are any liability or claim for damage of any kind allegedly suffered, incurred or threatened because of actions defined below, and including personal injury, death, property damage, inverse condemnation, or any combination of these, and regardless of whether or not such liability, claim or damage was unforeseeable at any time before County reviewed said improvement plans or accepted the Work as complete, and including the defense of any suit(s), action(s), or other proceeding(s) concerning said liabilities and claims.

C. The actions causing liability are any act or omission (negligent or non-negligent) in connection with the matters covered by this Agreement and attributable to Subdivider, contractor, subcontractor, or any officer, agent, or employee of one or more of them.

D. Non-Conditions. The promise and agreement in this section are not conditioned or dependent on whether or not any indemnitee has prepared, supplied, or approved any plan(s) or specification(s) in connection with this Work or Subdivision, or has insurance or other indemnification covering any of these matters, or that the alleged damage resulted partly from any negligent or willful misconduct of any indemnitee.

9. COSTS. Subdivider shall pay, when due, all the costs of the Work, including but not limited to the costs of relocations of existing utilities required thereby; inspections; material checks and tests; and other costs incurred by County staff arising from or related to the Work, and prior to acceptance of the Work as complete or expiration of any applicable warranty periods, whichever is later.

10. SURVEYS. Subdivider shall set and establish survey monuments in accordance with the filed map and to the satisfaction of the County Road Commissioner-Surveyor before acceptance of the Work as complete by the Board of Supervisors.

11. NON-PERFORMANCE AND COSTS. If Subdivider fails to complete the Work within the time specified in this Agreement, and subsequent extensions, or fails to maintain the Work, County may proceed to complete and/or maintain the Work by contract or otherwise and Subdivider agrees to pay all costs and charges incurred by County (including, but not limited to, engineering, inspection, surveys, contract, overhead, etc.) immediately upon demand.

Once action is taken by County to complete or maintain the Work, Subdivider agrees to pay all costs incurred by County, even if Subdivider subsequently completes the Work.

Should County sue to compel performance under this Agreement or to recover costs incurred in completing or maintaining the Work, Subdivider agrees to pay all attorney's fees, staff costs and all other expenses of litigation incurred by County in connection therewith, even if Subdivider subsequently proceeds to complete the Work.

12. INCORPORATION/ANNEXATION. If, before the Board of Supervisors accepts the Work as complete, the Subdivision is included in territory incorporated as a city or is annexed to an existing city, except as provided in this paragraph, County's rights under this Agreement and/or any deposit, bond, or letter of credit securing said rights shall be transferred to the new or annexing city. Such city shall have all the rights of a third party beneficiary against Subdivider, who shall fulfill all the terms of this Agreement as though Subdivider had contracted with the city originally. The provisions of paragraph 8 (Indemnity) shall continue to apply in favor of the indemnitees listed in paragraph 8.A. upon any such incorporation or annexation.

13. RECORD MAP. In consideration hereof, County shall allow Subdivider to file and record the final map or parcel map for said Subdivision.

14. RIGHT OF ENTRY. Subdivider hereby consents to entry onto the Subdivision property, and onto any other property over which Subdivider has land rights and upon which any portion of the Work is to be installed pursuant to the improvement plans, by County and its forces, including contractors, for the purpose of inspection, and, in the event of non-performance of this Agreement by Subdivider, completion and/or maintenance of the Work.

THE BOARD OF SUPERVISORS OF CONTRA COSTA COUNTY, CALIFORNIA

and for Special Districts, Agencies and Authorities Governed by the Board

Adopted this Resolution on 03/27/2018 by the following vote:

AYE: ☒ 4 Candace Andersen
Diane Burgis
Karen Mitchoff
Federal D. Glover

NO: ☐

ABSENT: ☒ 1 John Gioia

ABSTAIN: ☐

RECUSE: ☐

Resolution No. 2018/105

IN THE MATTER OF approving the Parcel Map and Subdivision Agreement for minor subdivision MS15-0002, for project being developed by Alamo Glen, LLC, as recommended by the Public Works Director, Alamo area. (District II)

WHERE AS, the following documents were presented for board approval this date:

I. Map

The Parcel Map of minor subdivision MS15-0002, property located in the Alamo area, Supervisorial District II, said map having been certified by the proper officials.

II. Subdivision Agreement

A subdivision agreement with Alamo Glen, LLC, principal, whereby said principal agrees to complete all improvements as required in said subdivision agreement within 2 years from the date of said agreement. Accompanying said subdivision agreement is security guaranteeing completion of said improvements as follows:

A. Cash Bond

Performance amount: \$2,020.00

Auditor's Deposit Permit No. 7562220 Date: February 22, 2018

Submitted by: Alamo Glen, LLC

B. Surety Bond

Performance amount: \$199,980.00

Labor & Materials Amount: \$101,000.00

Auditor's Deposit Permit No. 7562220 Date: February 22, 2018

Submitted by: Alamo Glen, LLC

III. Tax Letter

Letter from the County Tax Collector stating that there are no unpaid County taxes heretofore levied on the property included in said map and that the 2017-2018 tax lien has been paid in full and the 2018-2019 tax lien, which became a lien on the first day of January 2018, is estimated to be \$36,330.00, with security guaranteeing payment of said tax lien as follows:

• Tax Surety

Auditor's Deposit Permit Number: DP756176 Date: February 21, 2018

Amount: \$36,330.00

Submitted by/Principal: Alamo Glen, LLC

NOW, THEREFORE, BE IT RESOLVED:

1. That said subdivision, together with the provisions for its design and improvement, is DETERMINED to be consistent with the County's general and specific plans.
2. That said Parcel Map is APPROVED and this Board does hereby *accept subject to installation and acceptance of improvements* on behalf of the public any of the streets, paths, or easements shown thereon as dedicated to public use.
3. That said Subdivision Agreement is also APPROVED.

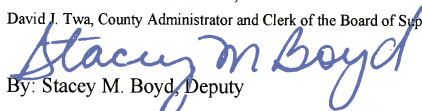

I hereby certify that this is a true and correct copy of an action taken and entered on the minutes of the Board of Supervisors on the date shown.

To: Board of Supervisors
From: Brian M. Balbas, Public Works Director/Chief Engineer
Date: March 27, 2018

Subject: ADOPT Resolution of Initiation ordering the preparation of an Engineer's Report for Countywide Landscaping District AD 1979-3 for Fiscal Year 2018-19

RECOMMENDATION(S):

ADOPT Resolution No. 2018/77 of Initiation ordering the preparation of an Engineer's Report and related proceedings for the levy and collection of the Fiscal Year 2018-19 assessments for Countywide Landscaping District AD 1979-3 (LL-2), as recommended by the Public Works Director, or designee. (All Districts)

FISCAL IMPACT:

100% Countywide Landscaping District AD 1979-3 (LL-2) funds.

BACKGROUND:

The existing Countywide Landscaping District contains thirty (30) benefit zones comprised of frontage and median landscaping, pedestrian bridges, parks and recreational facilities installed by developers as a condition of their development. The annual assessments associated with the Countywide Landscaping District 1979-3 (LL-2) fund the operation, maintenance, and capital replacement of the facilities within the various

ABSENT: John Gioia, District I Supervisor

I hereby certify that this is a true and correct copy of an action taken and entered on the minutes of the Board of Supervisors on the date shown.

ATTESTED: March 27, 2018

David J. Twa, County Administrator and Clerk of the Board of Supervisors

By: Stacey M. Boyd, Deputy

Contact: Victoria Skerritt
(925)313-2272

BACKGROUND: (CONT'D)

benefit zones.

The Landscaping and Lighting Act of 1972 requires that an annual Engineer's Report be prepared each fiscal year to identify any changes in the improvements and to set the ensuing assessment rates.

The Fiscal Year 2018-19 assessments will be calculated by considering all anticipated expenditures for operation, maintenance, utilities, administration, and capital replacement costs of such facilities. If excess revenue from a benefit zone is available from the previous fiscal year, it will be credited against the proposed expenses for that benefit zone. The assessment rates may or may not change from fiscal year to fiscal year, dependent upon projected costs to maintain the facilities within each benefit zone. However, the assessment rates cannot exceed the maximum amount set when the benefit zone was originally formed, plus an annual cost of living adjustment, if a Cost Price Index (CPI) was established when the benefits zone was originally formed.

In accordance with the Landscape and Lighting Act of 1972, the assessment amounts proposed to be levied for the Fiscal Year 2018-2019 tax year, will be shown in the Preliminary and Final Engineer's Reports, which will be filed with the Board of Supervisors in May and June 2018, respectively. The June 2018 Board meeting will be a noticed public hearing to confirm the Fiscal Year 2018-19 assessment rates.

CONSEQUENCE OF NEGATIVE ACTION:

Without Board of Supervisors' approval there would be no initiation of the process to prepare the Engineer's Report and to assess levies for the Countywide Landscape District AD 1979-3 (LL-2) for Fiscal Year 2018-2019, and thus funds would not be available to maintain the landscaping and other improvements in the benefit zones throughout the County.

ABSENT:	<input checked="" type="checkbox"/>	John Gioia
ABSTAIN:	<input type="checkbox"/>	
RECUSE:	<input type="checkbox"/>	

Resolution No. 2018/77

IN THE MATTER OF Resolution No. 2018/77 of Initiation ordering the preparation of an Engineer's Report for Countywide Landscaping District AD 1979-3 (LL-2) and related proceedings for levy and collection of assessments for Fiscal Year 2018-19, as recommended by the Public Works Director, or designee, (Countywide Landscaping District AD 1979-3 (LL-2).

WHEREAS the Board of Supervisors of Contra Costa County FINDS THAT:

1. Section 22622 of the California Streets and Highways Code requires the Board of Supervisors to adopt a Resolution of Initiation generally describing any proposed new improvements or substantial changes in existing improvements to be included in the determination of the annual assessments levied for any assessment district created under the Landscaping and Lighting Act of 1972, and
2. Section 22622 of the California Streets and Highways Code further requires that the Board of Supervisors order the preparation of an Engineer's Report prior to initiating the proceedings to set the annual levy of assessments for any such district. The Engineer's Report shall contain 1) plans and specifications for the improvements, 2) estimate of the costs for the improvements, 3) diagrams of each assessment district, and 4) description of the method used to spread the costs of improvements to the benefiting parcels.

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors ORDERS as follows:

1. The improvements to be made in the assessment district are generally described as the operation, maintenance and servicing of frontage and median landscaping, pedestrian bridges, parks and recreational facilities within street rights of way and other public areas; and
2. The Engineer of Work for the Contra Costa County Countywide Landscaping District 1979-3 (LL2) is hereby directed to file an Engineer's Report in accordance with the provisions of the Landscaping and Lighting Act of 1972.

I hereby certify that this is a true and correct copy of an action taken and entered on the minutes of the Board of Supervisors on the date shown.

Subject: APPROVE a contract with Callander Associates Landscape Architecture, Inc. for On-Call Landscape Architect Services, Countywide.

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Public Works Director, or designee, to execute a Consulting Services Agreement with Callander Associates Landscape Architecture, Inc. in an amount not to exceed \$250,000, to provide on-call landscape architecture services, for the period April 1, 2018 to March 31, 2021, Countywide. (All Districts) Project No.: Various

FISCAL IMPACT:

100% Special Revenue Funds

BACKGROUND:

The Public Works Department is involved in the development and review of landscape improvement projects throughout the County. As part of this regular work, consultant services are required to augment Public Works staff and provide special technical assistance on an on-call basis. After a solicitation process, Callander Associates was one of four firms selected to provide landscape architecture services. These services include the managing, inspecting and overseeing of developer and County landscape projects, as well as performing the duties of a landscape designer, landscape architect, landscape plan checker, landscape construction field inspector, grounds and facilities inspector and/or playground safety inspector. The consultant will be involved in projects primarily for areas within the Countywide Landscaping District (LL-2) and County Service Areas (CSAs).

6. DIRECT the Director of Conservation and Development to file a Notice of Determination with the County Clerk.

7. SPECIFY that the Chief Engineer is the custodian of the documents and other material that constitute the record of proceedings upon which the Board's decision is based and that the record of proceedings is located at 255 Glacier Drive, Martinez, CA.

8. AUTHORIZE the Chief Engineer, or designee, to arrange for payment of \$2,280.75 for California Department of Fish and Wildlife fees, a \$50 fee to the County Clerk for filing the Notice of Determination, and a \$25 fee to the Department of Conservation and Development for processing.

FISCAL IMPACT:

The estimated total cost of the Three Creeks Restoration Project, including planning, engineering, construction and project management, is \$2,738,954. The Flood Control District ("District") will have a \$25,000 share of the total cost, in the form of staff's environmental review services, to be funded by Flood Control Drainage Area 130 funds. The California Department of Water Resources ("DWR") is providing \$744,404 in grant funding, and American Rivers, Inc. ("American Rivers"), is providing \$1,969,550. Payment of the required \$2,355.75 in fees will also be funded by Flood Control Drainage Area 130 funds.

BACKGROUND:

The Project

Marsh Creek flows 30 miles from the eastern slope of Mt. Diablo through the communities of Brentwood and Oakley and into the Sacramento-San Joaquin Delta, which serves as the water supply for more than 20 million people. Marsh Creek provides habitat for numerous endangered and declining aquatic species, such as Delta smelt, Sacramento splittail, Chinook salmon, red-legged frog and western pond turtle. Several years ago, American Rivers, a nonprofit corporation that works to restore rivers and critical wildlife habitat, approached the District to propose a project to restore a segment of Marsh Creek, with the bulk of funding to be provided by public and private grants. In 2014, American Rivers and the District jointly applied for a grant from DWR for the project. The DWR grant was awarded, on August 16, 2016, the District and American Rivers jointly entered into an agreement with DWR ("Grant Agreement"), in which DWR agreed to provide a \$744,404 grant to improve habitat along a 1,400-foot reach of Marsh Creek from the Union Pacific Railroad to the confluence with Sand Creek (the "Lower Reach"). The proposed improvements to the Lower Reach would involve widening the existing creek channel to allow for the planting of native vegetation along the creek corridor. This project is known as the "Three Creeks Restoration Project." The obligations of the District and American Rivers under the Grant Agreement were expressly conditioned upon the District's completion of the environmental review and Board approval of the project.

The location and timing of the Three Creeks Restoration Project provided a unique opportunity for the District to integrate a separate, long-planned channel widening project upstream of Sand Creek. Shortly after execution of the Grant Agreement, District staff and American Rivers began discussing whether the Three Creeks Restoration Project could be combined with the channel widening project. Discussions led to planning and the design of channel improvements in segments upstream from the Lower Reach, including a segment from Sand Creek to Deer Creek (the "Middle Reach") and from Deer Creek to Dainty Avenue (the "Upper Reach"). The Three Creeks Restoration Project and the proposed

improvements in the Middle Reach and Upper Reach have become known collectively as the Three Creeks Parkway Restoration Project (“Project” hereafter). In all, the Project would include the widening and planting of approximately 4,000 feet of Marsh Creek from the Union Pacific Railroad to Dainty Avenue, and improvement of stormwater conveyance capacity in the Middle Reach and Upper Reach. It has been proposed that American Rivers would pay a share of the costs through grants from public agencies and private entities, and that the District would pay a share of the costs with Drainage Area 130 funds. The scope of the Project may need to be limited in order to not exceed the available funds. It has also been proposed that District would complete the civil/earth work within the District’s channel, while American Rivers would complete and landscaping part of the Project and provide for three years of maintenance.

Environmental Review

The Project was reviewed under the California Environmental Quality Act and an Initial Study/Mitigated Negative Declaration was prepared. On September 27, 2016, the Board considered and adopted the IS/MND and a Mitigation and Monitoring Program for the Project. Subsequently, District and American Rivers staff proposed several changes to the Project, which necessitated the preparation of an addendum to the approved IS/MND. As described in Addendum No. 1, the changes include: 1) the incorporation of an adjacent water quality basin and related access improvements within the City of Brentwood Sungold Park; 2) the use of an adjoining parcel as a potential staging area and to place excavated materials; 3) the construction of a pedestrian bridge across Marsh Creek; and 4) the use of temporary creek crossings during construction.

As discussed in Addendum No. 1, no new significant impacts or impacts of substantially greater severity would result from the construction and operation of the updated Project, and there have been no changes in circumstances in the Project area that would result in new significant environmental impacts or substantially more severe impacts. Additionally, no new information has come to light that would indicate the potential for new significant impacts or substantially more severe impacts than were analyzed in the September 27, 2016 IS/MND.

Agreement with American Rivers

Although significant progress has been made in the planning and design of the Project, American Rivers has not yet secured sufficient funding for its share of the cost. For this reason, American Rivers and the District are not prepared at this time enter into an agreement that outlines their respective cost shares and responsibilities for Project work. However, American Rivers and the District can proceed with an agreement that spells out their respective obligations under the Grant Agreement as to the work in the Lower Reach component of the Project. The attached Agreement Between Contra Costa County Flood Control & Water Conservation District and American Rivers, Inc., for the Three Creeks Restoration Project (“Agreement”), which has been executed by American Rivers and is presented for Board approval today, sets forth that American Rivers will be responsible for funding and implementing the Three Creeks Restoration Project, except for a \$25,000 cost share provided by the District to contribute toward the environmental review process.

Under the Agreement, American Rivers would be responsible for preparing construction documents, including plans and specifications, constructing all civil/earth work improvements and performing all of the landscaping and planting work, for the Lower Reach Project. The proposed agreement also includes insurance, bonding and indemnification requirements that protect the District, and mutual indemnity obligations that protect each party from liabilities caused by the actions of the other party.

District staff anticipates that if negotiations in the coming months are successful, a new agreement will

be prepared to outline responsibilities of the District and American Rivers in all three reaches of the Project. A new agreement may negate the need for, and supersede, this Agreement.

Project Approval

Notwithstanding ongoing negotiations regarding the Project, the completion of the environmental review of the Project, coupled with approval of the Agreement, provide the Board with an opportunity to approve the Project. Approval of the Project includes approval of the Three Creeks Restoration Project component of the Project. The Project approval triggers the obligations of both the District and American Rivers under the Grant Agreement, but does not commit either party to proceed with other components of the Project. Project approval is recommended at this time because of conditions imposed by the Sacramento-San Joaquin Delta Conservancy, which has approved a grant to American Rivers for the Project. District staff have been advised that unless the Project is approved, and a Notice of Determination filed, before the end of March, that grant funding may be lost.

CONSEQUENCE OF NEGATIVE ACTION:

If the Agreement and Project are not approved, grant funding for the Three Creeks Restoration Project will be lost and the Project will not be implemented.

Revised Agreement for Three Creeks Restoration Project

**AGREEMENT
BETWEEN CONTRA COSTA COUNTY FLOOD CONTROL
& WATER CONSERVATION DISTRICT AND AMERICAN RIVERS, INC.,
FOR THE THREE CREEKS PARKWAY RESTORATION PROJECT**

This Agreement Between Contra Costa County Flood Control & Water Conservation District and American Rivers, Inc., For The Three Creeks Parkway Restoration Project (“Agreement”) is entered into on _____, 2018 (the “Effective Date”), by the Contra Costa County Flood Control & Water Conservation District, a body corporate and politic created under laws of the State of California (“District”), and American Rivers, Inc., a non-profit corporation organized and existing under laws of the District of Columbia (“American Rivers”). The parties hereto may be referred to collectively as the “Parties” or individually as a “Party.”

RECITALS

- A. American Rivers is a non-profit corporation headquartered in the District of Columbia whose purpose is the restoration of rivers and critical wildlife habitat.
- B. District, created by the Contra Costa County Flood Control and Water Conservation District Act (West’s Wat. Code Appen., § 63-1 et seq.) (“the Act”), is the owner of portions of Marsh Creek, a watercourse that runs 30 miles from the eastern slope of Mt. Diablo to the San Joaquin Delta, including the portions of Marsh Creek referenced herein.
- C. District has legal authority to enter into this Agreement under Section 5(b) of the Act. (West’s Water Code Appen., § 63-5.)
- D. On or about August 16, 2016, District, American Rivers and the Department of Water Resources of the State of California (“DWR”) entered into Grant Agreement No. 4600011176 (“Grant Agreement”), in which DWR agreed to provide a grant in an amount not to exceed \$744,404 to fund a portion of an estimated \$2,738,954 in costs associated with the “Three Creeks Restoration Project” (hereafter “Grant Project”). American Rivers is the sponsor of the Grant Project, and District is the co-sponsor. American Rivers and District are collectively referred to in the Grant Agreement as the “Grantee.”
- E. The Grant Project generally involves the planning, design, environmental review, excavation, and planting of a segment of the Marsh Creek channel in the Brentwood area, along with associated project and construction management activities, community involvement, monitoring and maintenance. The channel segment in question begins at the Union Pacific Railroad crossing over Marsh Creek and ends at the Marsh Creek confluence with Sand Creek, and will be referred to as the “Lower Reach.” As set forth

in the Grant Agreement, construction would involve the removal of approximately 12,000 cubic yards of earth along 1,400 linear feet of the east bank of the creek, creating approximately one acre of new floodplain surfaces up to 40 feet in width. The new floodplains and east bank of the channel segment would then be planted with native riparian vegetation. Thereafter, the new vegetation would be monitored and maintained under a plan to be developed and agreed upon by the Parties.

- F. The Grant Project is one of two projects in which the District is involved concerning Marsh Creek. The other is a project to increase stormwater conveyance capacity by widening the Marsh Creek channel upstream of the creek segment described in Recital E. In 2000, District completed the first phase of what, at that time, was a two-phase project to widen the channel from its confluence with Deer Creek to Summer Circle. The first phase segment began at Dainty Avenue and ended at Summer Circle. The second phase segment is to begin at the Deer Creek confluence and end at Dainty Avenue. This segment will be referred to as the “Upper Reach.”
- G. District and American Rivers now propose to link the channel widening project with the Grant Project. This would involve, first, adding a third creek segment to the widening project, beginning at the terminus of the Grant Project segment – the Sand Creek confluence – and ending at the Deer Creek confluence. This segment will be referred to as the “Middle Reach.” The originally planned 15 feet of widening would then be expanded to approximately 30 feet to accommodate the planting of native riparian vegetation.
- H. Under the revised proposal, in the Middle Reach, approximately 2,500 cubic yards of earth would be excavated along 800 linear feet of creek bank, creating floodplains up to 15 feet in width. Similar to the Grant Project, native riparian plantings would be planted and established. Other work and improvements are also proposed for the Middle Reach, including (1) the relocation of the Marsh Creek trail; (2) acquisition of fee title to an approximately one-half acre portion of a 10.2 acre parcel on the west side of Marsh Creek, between Sand Creek and Deer Creek, formerly known as the “Griffith Parcel” and now commonly known as the “Hancock Parcel” (APN 017-110-011), which is needed for the widening of this creek segment; acquisition of land rights to use other undeveloped portions of the Hancock Parcel as a staging area and for placement of excavated material; and (3) construction of a clear-span pedestrian bridge. The work and improvements described in this Recital will be collectively referred to as the “Middle Reach Work.” Similar to the Grant Project, the plantings in the Middle Reach would be monitored and maintained under a plan to be agreed upon by the Parties.
- I. In the Upper Reach, the revised proposal calls for approximately 10,500 cubic yards of earth to be excavated along 1600 linear feet of creek bank, creating floodplains up to 15 feet in width, and native riparian plantings would be planted, established, monitored and maintained in accordance with an agreed-upon plan. Other work and improvements in the Upper Reach include (1) construction of a retaining wall on the west bank at Central

Avenue and (2) relocation of the Marsh Creek trail. The work and improvements described in this Recital will be collectively referred to as the “Upper Reach Work.” Similar to the Grant Project, the plantings in the Upper Reach would be monitored and maintained under a plan to be agreed upon by the Parties.

- J. The planning, design, environmental review and construction of the Middle Reach Work and the Upper Reach Work, and the associated monitoring and maintenance, will be referred to as the “Marsh Creek Widening Project.”
- K. District and American Rivers also propose to revise the improvements planned for the Lower Reach from what is described in the Grant Agreement. Under this proposal, approximately 4,655 cubic yards of earth would be excavated along 1600 linear feet of the east bank of the channel and approximately 8,065 cubic yards would be excavated to incorporate an existing water quality basin into the Project. Additional improvements would include a new unpaved foot-trail within the new floodplain, and improvements to the City of Brentwood’s Sungold Park, including a trail, landscaping and a creek overlook area. The modifications described in this Recital will be referred to as the “Lower Reach Work Modifications.”
- L. The Grant Project, Marsh Creek Widening Project and Lower Reach Work Modifications are collectively known as the “Three Creeks Parkway Restoration Project” and will be referred to in this Agreement as the “Project.”
- M. The purpose of this Agreement is to set forth the respective obligations of the Parties that would become effective upon the District’s approval of the Project.

NOW, THEREFORE, for and in consideration of the mutual promises and agreements contained herein, the Parties agree as follows.

AGREEMENT

- 1. Term. This Agreement becomes effective on the Effective Date and continues in full force and effect until terminated in accordance with Section 19.
- 2. Condition Precedent. Party obligations set forth in this Agreement take effect only upon District’s approval of the Project.
- 3. American Rivers Grant Project Obligations.
 - a. American Rivers will be solely responsible to DWR for ensuring compliance with, and shall comply with, all obligations of American Rivers and District, either individually or collectively as the Grantee, that are set forth in the Grant Agreement, including without limitation all tasks described in the Work Plan attached to the Grant Agreement as Exhibit A, except as otherwise set forth in this Agreement.

b. American Rivers will promptly provide District with copies of all reports submitted by American Rivers to DWR under the Grant Agreement.

4. Environmental Review. District will serve as lead agency and satisfy all applicable environmental review requirements applicable to the Project under the California Environmental Quality Act (CEQA).

5. Design.

a. Plans and specifications.

(1) Preparation. American Rivers will prepare two sets of final (100%) plans, specifications and cost estimates for the Project. One set of plans, specifications and cost estimates will pertain to the civil/earth work generally described in Exhibit A, attached hereto and incorporated herein by reference, and will be referred to as the “Civil Set.” The second set of plans, specifications and cost estimates will pertain to the landscaping work generally described in Exhibit B, attached hereto and incorporated herein by reference, and will be referred to as the “Landscaping Set.” Plans and specifications must conform to industry standards and be in accordance with this Agreement, the current Contra Costa County Public Works Department Standard Plans, the Caltrans Standard Plans (2015), and the State of California Standard Specifications (2015).

(2) Warranty. American Rivers warrants that the plans will be adequate to accomplish the Project, and if they prove to be inadequate in any respect, American Rivers shall make whatever changes are necessary to accomplish the Project, subject to District review and approval.

(3) District Review and Approval. American Rivers will obtain District’s approval of the Civil Set and Landscape Set before solicitation of any bids or selection of any contractors to perform any Project Work. The plans and specifications contained in the approved Civil Set will be referred to as the “Civil Plans.” The approved plans and specifications contained in the approved Landscaping Set will be referred to as the “Landscaping Plans.” The improvements set forth in the Civil Plans will be referred to as the “Civil/Earth Work.” The improvements set forth in the Landscaping Plans will be referred to as the “Landscaping Work.” The Civil/Earth Work and Landscaping Work may be referred to collectively as the “Project Work.”

b. Changes.

(1) After Civil Plans have been approved by District, field orders or change orders that affect the original design upon which the Civil Plans are based, the intent of the original design, or American Rivers’ share of costs, require American Rivers’ advance approval in writing. Civil/earth work that is not set forth in the approved Civil Plans, but is agreed to in advance in writing by the Parties, will be referred to as “Additional Civil/Earth Work.”

(2) After Landscaping Plans have been approved by District, field orders or change orders that affect the original design upon which the Landscaping Plans are based, the intent of the original design, or costs, require District's advance approval in writing. Landscaping work that is not set forth in the approved Landscaping Plans, but is agreed to in advance in writing by the Parties, will be referred to as "Additional Landscaping Work."

(3) American Rivers will not change the Project's design professionals without first obtaining District's written consent.

6. Acquisitions.

a. District will utilize its best efforts to obtain fee title to an approximately half-acre portion of the Hancock Parcel that is approximately 30 feet in width and shares the length of the eastern boundary of the parcel, from Sand Creek to Deer Creek (the "Hancock Property"). Notwithstanding anything in this Agreement to the contrary, in the event the District fails to obtain the Hancock Property, District will have no obligation to construct any portion of the Middle Reach Work.

b. District will utilize its best efforts to acquire rights to use a different, undeveloped portion of the Hancock Parcel for the purpose of contractor staging and disposal of excavated material.

c. District will utilize its best efforts to acquire all rights of entry necessary to complete the Project.

d. Costs of acquisition of the above land and land rights will be paid as specified in Section 13 of this Agreement.

7. Contracting.

a. Selection.

(1) Civil/Earth Work. District will select and retain one or more contractors to perform the Civil/Earth Work, and provide any other labor or materials required to complete the Civil/Earth Work, in accordance with the Grant Agreement and all applicable legal requirements.

(2) Landscaping Work. American Rivers will select and retain one or more contractors to perform the Landscaping Work, and provide any other labor or materials required to complete the Landscaping Work, in accordance with the Grant Agreement and all applicable legal requirements. American Rivers will obtain District's approval of the contractor prior to execution of a contract between American Rivers and the contractor.

(3) Changes. American Rivers will not allow the substitution of Project contractors or subcontractors except with District's prior written consent.

b. Contracts.

(1) District contracts. To assist American Rivers in obtaining disbursements of funding under the Grant Agreement, in all of District's contracts for construction of Civil/Earth Work, District will require the contractor(s) to submit line item invoices that identify, by reference to the applicable reach and nearest station of Marsh Creek, the location of each unit of work.

(2) American Rivers contracts. In all of its contracts for construction of any Landscaping Work, American Rivers will include the following provision:

“Pursuant to Labor Code section 1773, the Director of the Department of Industrial Relations has ascertained the general prevailing rates of wages per diem, and for holiday and overtime work, in the locality in which the Project work is to be performed for each craft, classification, or type of worker needed to execute the Project work. Contractor shall pay, and require all subcontractors to pay, at least these prevailing wage rates to all persons on the Project work.”

8. Improvement Security. Prior to the commencement of any Project Work, American Rivers will provide as security to District:

a. Performance and Guarantee: Security in an amount equal to the sum of (1) 100% of the estimated cost of construction of the Landscaping Work and (2) \$3,062,083, which is 100% of the estimated Civil/Earth Work costs to be reimbursed to District under Section 14.a. Such security shall consist of a corporate surety bond, in a form acceptable to District, issued by a surety admitted in California and naming District as co-obligee on the bond. With this security, American Rivers guarantees performance under this Agreement and acceptance against any defective materials or any unsatisfactory performance.

b. Payment: Security in an amount equal to 100% of the estimated cost of the Landscaping Work. Such security shall consist of a corporate surety bond, in a form acceptable to District, issued by a surety admitted in California and naming District as co-obligee on the bond. With this security, American Rivers guarantees payment to the contractor(s), to subcontractors, and to persons renting equipment or furnishing labor or materials to them or to American Rivers.

9. Insurance.

a. In all of its contracts for any Project Work, American Rivers will include provisions that require the contractor(s) to do all the following:

(1) Obtain, and maintain until completion of the Landscaping Work, Commercial General Liability Insurance, including blanket contractual (or contractual liability) coverage, broad form property damage coverage, and coverage for owned and non-owned

automobiles, with a minimum combined single-limit coverage of \$1 million for all damages due to bodily injury, sickness or disease, or death to any person, and damage to property, including the loss of use thereof, arising out each accident or occurrence;

(2) Obtain, and maintain until completion of the Landscaping Work, Workers' Compensation Insurance pursuant to state law; and

(3) Provide endorsements, certificate(s) of insurance, or other evidence of insurance satisfactory to District, listing the coverages required under this Subsection, and naming District, Contra Costa County ("County"), City of Brentwood, East Bay Regional Park District and their governing bodies, officers, agents, and employees as additional insureds, and requiring 30 days' written notice to District and County of policy lapse or cancellation.

b. In addition, American Rivers will:

(1) Obtain prior to the commencement of any Landscaping Work, and maintain until District's acceptance of all Landscaping Work, Commercial General Liability Insurance, including blanket contractual (or contractual liability) coverage, broad form property damage coverage, and coverage for owned and non-owned automobiles, with a minimum combined single-limit coverage of \$1 million for all damages due to bodily injury, sickness or disease, or death to any person, and damage to property, including the loss of use thereof, arising out of each accident or occurrence;

(2) Obtain prior to the commencement of any Landscaping Work, and maintain until District's acceptance of all Landscaping Work, Workers' Compensation Insurance pursuant to state law; and

(3) Provide to District endorsements, certificate(s) of insurance, or other evidence of insurance satisfactory to District listing the coverages required under this Subsection, and naming District, County, City of Brentwood, East Bay Regional Park District and their governing bodies, officers, agents, and employees as additional insureds, and requiring 30 days' written notice to District and County of policy lapse or cancellation.

c. Before allowing its contractor(s) to begin any Landscaping Work, American Rivers will submit to District the evidence of insurance required under Subsections 9.a. and 9.b. and will obtain District's approval to begin work.

10. Indemnification.

a. Indemnification by Contractors. In all of its contracts for any Landscaping Work, American Rivers will include the following indemnification provisions:

(1) Contractor promises to and shall defend, indemnify, save, and hold harmless the indemnitees from the liabilities as defined in this section.

(2) The indemnitees benefitted and protected by this promise are District, County, City of Brentwood and East Bay Regional Park District and their respective elective and appointive boards, commissions, officers, agents and employees.

(3) The liabilities protected against are any and all claims, demands, causes of action, damages, costs, expenses, actual attorney's fees, losses, or liabilities arising out of or in connection with the actions defined below for personal injury, sickness, disease, emotional injury, death, property damage (including loss of use), trespass, nuisance, inverse condemnation, patent infringement, or any combination of these, regardless of whether or not such liability, claim, or damage was foreseeable at any time before District approved the improvement plans or accepted the improvements as completed, and including the defense of any suit(s) or action(s) at law or equity concerning these.

(4) The actions causing liability are any act or omission (negligent or non-negligent) in connection with the matters covered by this contract and attributable to Contractor, subcontractor(s), supplier(s), trucker(s), anyone for whose acts Contractor may be liable, or any officer(s), agent(s), or employee(s) of one or more of them.

(5) The promise and agreement in this section is not conditioned or dependent on whether or not any indemnitee has prepared, supplied, or approved any plan(s), drawing(s), specification(s), or special provision(s) in connection with this work or has insurance or other indemnification covering any of these matters.

(6) Except as prohibited by Civil Code section 2782, Contractor's obligations under this section shall exist regardless of the existence or degree of fault of District or any other indemnitee.

(7) Contractor's obligations under this section shall extend to claims arising after the work is completed and accepted if the claims are related to alleged acts or omission that occurred during the course of the work. District's inspection is not a waiver of full compliance with these requirements.

(8) Contractor and Contractor's insurance carrier(s) shall respond within 15 days to the tender of any claim for defense and indemnity by District or County, unless this time has been extended by the indemnitee.

(9) With respect to third-party claims against Contractor, Contractor waives all rights of any kind to express or implied indemnity against the indemnitees.

(10) Nothing in this section is intended to establish a standard of care owed to any third party or to extend to any third party the status of third-party beneficiary.

b. Indemnification by American Rivers.

(1) To the extent not covered by the defense and indemnification provided by its contractor(s), American Rivers will defend, indemnify, save, and hold harmless District and

County and their officers, agents, and employees the same as required of the contractor(s) as described in Subsection 10.a., except that American Rivers' obligations shall also include any act or omission (negligent or non-negligent) attributable to American Rivers or its officers, agents or employees.

(2) American Rivers will defend, indemnify, save, and hold harmless District and its officers, agents, and employees from and against any and all claims, demands, causes of action, damages, costs, expenses, actual attorney's fees, losses, or liabilities arising from American Rivers' acts or omissions under this Agreement or the Grant Agreement.

c. Indemnification by District.

District will defend, indemnify, save, and hold harmless American Rivers and its officers, agents, and employees from and against any and all claims, demands, causes of action, damages, costs, expenses, actual attorney's fees, losses, or liabilities arising from District's acts or omissions under this Agreement or the Grant Agreement.

11. Permits.

a. American Rivers will apply for one or more encroachment permits from District to authorize the performance of the Landscaping Work, and all monitoring and maintenance thereof to be performed by American Rivers.

b. District will apply for all required permits, certifications and approvals for the Project from federal and state agencies, and local agencies other than District. American Rivers will prepare and provide to District all applications and other documents necessary for District to apply for and obtain the above described permits, certifications and approvals.

c. Permit costs will be paid in accordance with Section 13 of this Agreement.

12. Improvements.

a. Civil/Earth Work. After the issuance of all permits, certifications and approvals required for the Civil/Earth Work, District, by and through itself and its contractor(s), will complete the Civil/Earth Work in accordance with the Civil Plans, and will complete the Civil/Earth Work and any Additional Civil/Earth Work in a good and workmanlike manner, in accordance with accepted construction practices, the County Public Works Department Standard Plans and the Caltrans Standard Specifications (2015). Where there is a conflict between any of the foregoing, the stricter requirements shall govern.

b. Landscaping Work. After the issuance of all permits, certifications and approvals required for the Landscaping Work, American Rivers, by and through itself and its contractor(s), will complete the Landscaping Work in accordance with the Landscaping Plans, and will complete the Landscaping Work and any Additional Landscaping Work in a good and workmanlike manner, in accordance with accepted construction practices, the County Standard

Plans and the Caltrans Standard Specifications (2015). Where there is a conflict between any of the foregoing, the stricter requirements shall govern.

c. Guarantee and Warranty. American Rivers guarantees that all Landscaping Work will be free from defects in materials or workmanship and shall perform satisfactorily for a period of three years from after the Board of Supervisors accepts the Landscaping Work as complete. American Rivers agrees to promptly correct, repair, or replace, at its sole expense, any and all defects in the Landscaping Work, including without limitation any and all dead or dying vegetation.

d. No Waiver. Inspection of the Landscaping Work or materials, or approval of the Landscaping Work or materials, or statement by any officer, agent, or employee of District or County indicating that the Landscaping Work or any part of it complies with the requirements of this Agreement, or acceptance of the whole or any part of the Landscaping Work or materials, or any combination or all of these acts, shall not relieve American Rivers of its obligation to fulfill this Agreement as prescribed. Nor shall District be estopped by any such acts from bringing any action for damages arising from the failure to comply with any of the terms and conditions of this Agreement.

13. Costs.

a. American Rivers' Responsibility. Except for costs for which District is responsible as set forth in Section 13.b., American Rivers will be responsible for, and pay when due, all costs of the Project ("Project Costs"). Project Costs include, without limitation, any and all costs incurred by American Rivers and District, either prior to or after the Effective Date, in the planning, coordination, design, environmental review and mitigation, permitting, construction, monitoring and maintenance activities and acquisitions associated with the Project.

b. District's Responsibility.

(1) Environmental Review Costs. District is responsible for a total of 50 percent of the environmental review costs related to the Project. Of this amount, \$25,000 will be allocated to the Grant Project, in accordance with the Grant Agreement. American Rivers is responsible for the remaining share of the environmental review costs.

(2) Acquisition Costs. District will be responsible for 50 percent of the cost of acquisition of the Hancock Property. All other costs of acquisition of the Hancock Property, and all other costs of acquisition of the land rights referenced in Sections 6.b. and 6.c., will be the responsibility of American Rivers.

(3) Permitting Costs. District will be responsible for 50 percent of the cost of all permits obtained by District for the Project. American Rivers will be responsible for the remaining share.

(4) Civil/Earth Work Costs.

(a) District will pay, when due, all costs owed to persons who contract with the District to perform Civil/Earth Work or Additional Civil/Earth Work on the Project.

(b) District is responsible for a share of the cost of completion of the Civil/Earth Work within the Middle Reach and Upper Reach of the Project (“District Civil/Earth Work Cost Share”). American Rivers will be responsible for the remaining share. American Rivers will also be responsible for the entire cost of completion of Civil/Earth Work within the Lower Reach. District’s share will be calculated as follows:

(i) During construction of the Civil/Earth Work in the Middle Reach and Upper Reach, the District Civil/Earth Work Cost Share will be calculated based on assigned percentages for each item of work performed, as set forth in Exhibit C, attached hereto and incorporated by reference. Assigned percentages have been determined based on estimated work quantities and an agreed-upon analysis of the Party’s proportional shares of the Middle Reach Work and Upper Reach Work.

(ii) After the Parties have agreed that the Civil/Earth Work in the Middle Reach and Upper Reach is complete, District will recalculate the percentages shown in Exhibit C, using actual quantities instead of estimated quantities, and then use those percentages to calculate District’s adjusted share of the actual Civil Earth/Work costs incurred in the Middle Reach and Upper Reach (“Adjusted District Civil/Earth Work Cost Share”). If the Adjusted District Civil/Earth Work Cost Share is more than the sum of Civil/Earth Work costs related to the Middle Reach and Upper Reach that have been previously reimbursed to District, American Rivers will promptly pay the difference to District. If the Adjusted District Civil/Earth Work Cost Share is less than the sum of Civil/Earth Work costs related to the Middle Reach and Upper Reach that have been previously reimbursed to District, District will promptly pay the difference to American Rivers.

(c) District will be responsible for the share of the cost of completion of Additional Civil/Earth Work that the Parties agree in advance in writing that the District should pay. American Rivers will be responsible for the remaining share. The procedure set forth in Section 13.b.(4)(b)(ii) does not apply to Additional Civil/Earth Work costs.

(5) Project Management Costs. District will be responsible for 100 percent of its project management costs related to Civil/Earth Work in the Middle Reach and Upper Reach.

(6) Construction Management Costs. District will be responsible 34.7 percent of its construction management costs related to Civil/Earth Work in the Middle Reach and Upper Reach. American Rivers will be responsible for the remainder of District’s construction management costs.

(7) Design Engineering Costs. District will be responsible for 29.4 percent of the cost of design engineering incurred by American Rivers that pertain to the Middle Reach and Upper Reach. American Rivers will be responsible for the remainder of its design engineering costs.

14. Reimbursements.

a. Reimbursements to District. All Project Costs incurred by District, other than Project Costs for which District is responsible under Section 13.b., are reimbursable to District (“Reimbursable Costs”). District will provide American Rivers with quarterly invoices that set forth District’s Reimbursable Costs. District’s invoices will be a format acceptable to American Rivers, and include such detail that American Rivers requests to substantiate its requests to DWR and other entities for grant disbursements. Prior to any work on the Project, American Rivers will provide District with a written explanation of the required invoice details and format. Within 60 days of receipt of an itemized invoice from District that identifies Reimbursable Costs, American Rivers will remit payment in full to District. American Rivers’ obligation to reimburse District exists without regard to the status of requests by American Rivers to DWR or any other entities for grant disbursements or other monies to pay for these costs. In the event that American Rivers disputes a District invoice, the Parties agree to work together cooperatively to resolve the dispute and, if necessary, utilize alternative dispute resolution processes before seeking judicial intervention.

b. Reimbursements to American Rivers.

(1) American Rivers will provide District with an invoice for District’s share of American Rivers’ design engineering costs described in 13.b.(6). District will pay the invoice by deducting the balance due from one or more invoices to be provided by District to American Rivers under Section 14.a.

(2) If the environmental review costs incurred by American Rivers exceed its 50 percent share as described in Section 13.b.(1), American Rivers will provide District with an invoice for the difference, together with an accounting of all Project environmental review costs incurred by the Parties. District will pay the invoice by deducting the balance due from one or more invoices to be provided by District to American Rivers under Section 14.a.

15. Completion Deadline. Time is of the essence. American Rivers shall complete the Landscaping Work in accordance with the approved schedule under the Grant Agreement and in no event later than March 1, 2022. If American Rivers fails to complete the Landscaping Work by that date, and the Parties have not agreed in writing to an extension, District may proceed to complete the Landscaping Work, and in that event, American Rivers shall pay all costs of completing the Landscaping Work.

16. Monitoring and Maintenance.

a. Written Plan.

(1) Prior to the commencement of any Project Work, and in consultation with District, American Rivers will prepare and obtain District's approval of an Operations and Maintenance Manual and Monitoring Plan ("Plan") for the Project. The Plan will include all monitoring and maintenance tasks set forth in the Grant Agreement and, at a minimum, describe all of the following to the satisfaction of the Parties:

(a) Monitoring Component

- (i) Documentation of Project Area
- (ii) Development of vegetation monitoring plan
- (iii) Monitoring of topographic changes on floodplain channel
- (iv) Ten-year vegetation and geomorphic monitoring plan
- (v) Training of volunteers
- (vi) Routine monitoring requirements
- (vii) Party responsibilities

(b) Maintenance Component

- (i) Minimum maintenance during three-year establishment
- (ii) Retention of contractor to maintain and replace vegetation during three-year establishment and warranty period
- (iii) Terms of \$150,000 long-term maintenance endowment
- (iv) Party responsibilities

b. Monitoring. The Parties will comply with their respective monitoring obligations under the approved Plan and as specifically set forth below:

c. Maintenance. The Parties will comply with their respective maintenance obligations under the approved Plan, including but not limited to the following:

(1) Commencing with approval of the Project by the District Board, American Rivers will provide three years of Project planting maintenance, including the limitation of invasive weeds and replacement of unsuccessful plantings with the same or similar species. District will assume all maintenance obligations following the three-year period.

(2) Prior to approval of the Project, American Rivers will establish and fund a \$150,000 endowment for the purpose of funding long-term maintenance of Project plantings, to be controlled by District and utilized in accordance with the terms set forth in the Plan.

17. Documents; Accounting. Within 30 days of a written request by District, American Rivers will provide a written accounting of Project costs incurred in the preceding 30 days or other period of time specified by District, in a format acceptable to District.

18. Modification. This Agreement may be modified or amended only in a writing executed by the Parties.

19. Termination. This Agreement may be terminated by mutual, written consent of the Parties. Subsection 10.b. and 10.c. of this Agreement shall survive the termination of this Agreement.

20. Notices. All notices under this Agreement (including requests, demands, reports, approvals or other communications) will be in writing. A notice will be deemed to have been duly given and received when delivered by hand to the respective Party to whom the notice is directed, or when deposited by registered or certified mail, postage prepaid, in a sealed envelope addressed to the Party at its address as set forth below:

American Rivers: American Rivers, Inc.
 120 Union Street
 Nevada City, CA 95959
 Attn: John Cain, Director of Conservation, CA Flood Management

District: Contra Costa County Flood Control and Water Conservation District
 255 Glacier Drive
 Martinez, CA 94553
 Attn: Tim Jensen, Assistant Chief Engineer

A party may designate, by written notice to the other, a different address for notice.

21. Waiver. No waiver of any provision of this Agreement will be binding unless executed in writing by the Party making the waiver. No waiver of any provision of this Agreement will be deemed, or constitute, a waiver of any other provision, whether or not similar, nor will any waiver constitute a continuing waiver.

22. Assignment. This Agreement may not be assigned, assumed, pledged, or hypothecated without the advance, written consent of the other Party. Any attempt to circumvent this requirement shall be void and unenforceable.

23. No Third Party Beneficiaries. This Agreement is not intended to confer upon any person other than the Parties any rights or remedies thereunder and no person or entity other than the Parties shall have standing to enforce this Agreement.

24. Entire Agreement. This Agreement, together with the Grant Agreement, contains the entire understanding of the Parties relating to the subject matter of this Agreement, and supersedes all prior and contemporaneous agreements, representations and understandings of the Parties. Any alleged promise or representation by either Party shall be unenforceable unless it is set forth in this Agreement or in another written agreement or permit signed by the Parties.

25. Counterparts. This Agreement may be executed in counterparts and so executed shall constitute an Agreement which shall be binding upon all Parties hereto. A photocopy of the fully executed Agreement shall have the same force and effect as the original.

26. Signatures. By affixing his/her signature below, each of the persons signing this Agreement warrants and represents that he/she has read and understands this Agreement, that in signing on behalf of a Party he/she has full and complete authority from that Party to bind said Party to perform and comply with each and every term, obligation, condition and covenant set forth in this Agreement, and that the Party on behalf of whom he/she signs agrees to be bound by its terms.

Exhibit A

Project Civil/Earth Work

The Project's Civil/Earth Work will include approximately 26,000 cubic yards of excavation along approximately 4,000 linear feet of Marsh Creek, creating up to 1.0 acre of frequently inundated floodplain, 1.87 acres of woody riparian vegetation and 1.87 acres of grasslands and native scrub in the Lower Reach, Middle Reach and Upper Reach segments of the creek collectively. Improvements will be consistent with the Project descriptions set forth in the approved Mitigated Negative Declaration/Initial Study for the Project and Addendum 1 thereto. Specific work in each segment will include all of the following:

Lower Reach Work

- Excavation of approximately 13,000 cubic yards of earth along approximately 1,600 linear feet of the eastern bank, with no more than 4.25 acres of total area disturbed
- Creation of floodplains/benches 10 to 40 feet wide, with slopes of typically 3:1 or less, but never more than 2:1 maximum
- Creation of creekside mulch path in vicinity of a .7-acre linear water quality/detention basin located between Carmel Estates/Sungold Park and Marsh Creek ("Basin")
- Removing fences around the Basin and reinstallation of fence along western length of Basin
- Construction of new trail/access road in City of Brentwood Sungold Park
- Lowering eastern berm of Basin
- Construction of creek overlook with seating and interpretive area
- Reconfiguration of trail and access road at Sungold Park.
- Installation of permanent slope protection in the form of erosion control matting, armor, biotechnical methods or appropriate ground cover

Middle Reach Work

- Excavation of approximately 2,500 cubic yards of earth along 88 linear feet along both banks, with no more than 1.0 acre of total area disturbed
- Creation of floodplain benches of varying widths with slopes ranging from 2:1 to 3:1
- Construction of clear-span pedestrian bridge just upstream of Marsh Creek confluence with Sand Creek, near northeastern corner of Griffith parcel, approximately 10 feet wide and 1000 feet long

- Relocation of Marsh Creek trail to new top of eastern bank
- Construction of temporary creek crossings to facilitate construction access between east side of Marsh Creek and Griffith Parcel, consisting of culverts up to 60 feet in length

Upper Reach Work

- Approximately 10,500 cubic yards of excavation along 1,600 linear feet, with no more than 2.1 acres of total area disturbed
- Creation of flood plains/benches with widths ranging from 3 to 15 feet and slopes of 2:1 or 3:1
- Relocation of Marsh Creek trail to new top of eastern bank
- Installation of 250-foot retention wall along west bank at Central Boulevard
- Installation of permanent slope protection such as erosion control matting or other biotechnical methods on all benches and slopes

Exhibit B

Project Landscaping Work

Landscaping improvements by American Rivers are proposed in the Lower Reach, Middle Reach and Upper Reach of the Project. Improvements will be consistent with the Project descriptions set forth in the approved Mitigated Negative Declaration/Initial Study for the Project and Addendum 1 thereto, and include all of the following:

- The planting of native wetland forbs, grasses, shrubs and trees within approximately 3.5 acres along approximately 4,000 linear feet of Marsh Creek, as follows:
 - The planting of riparian trees along the banks, including valley oak, sycamore, live oak, blue oak, box elder, buckeye, cottonwood and willow.
 - The planting of slopes and banks with grassland and scrub species, including creeping wild rye, California brome, purple needlegrass, dense-flowered lupine, mugwort, common fiddleneck, elegant clarkia and California poppy.
 - The planting of floodplain areas with seasonal wetland species, including creek clover, Baltic rush and deer sedge.
- The installation of interpretive signs

H:\Flood Control District\ExhibitB.3.6.18.docx

Exhibit C

The following table sets forth descriptions of labor and materials required to complete the Civil/Earth Work in the Middle Reach and Upper Reach of the Three Creeks Restoration Project. Costs of the Civil/Earth Work will be shared between District and American Rivers. Cost shares have been determined for each of the following items. For the purpose of calculating reimbursable shares to be invoiced during construction, District's share of costs for each item will be determined by multiplying the actual cost of the item by the applicable percentage shown below for that item. The remaining share would be reimbursable by American Rivers. These cost shares apply only to bid items in quantities that do not exceed the quantities set forth in the Civil Set.

Example: District will be responsible for 67 percent of the cost of the channel excavation within the Middle Reach and Upper Reach (Item 10). The remaining share would be reimbursable by American Rivers.

Item No.	Item Description	District's Share (%)
1	Mobilization	35%
2	Traffic Control System	35%
3	Job Site Management	35%
4	Prepare Water Pollution Control Program	35%
5	Temporary Silt Fence	100%
6	Temporary Construction Roadway (Stream Crossing)	100%
7	Remove Concrete	0%
8	Clearing And Grubbing	33%
9	Surplus Soil Placement	25%
10	Channel Excavation	67%
11	Rock Excavation	100%
12	Structure Excavation (Riprap Trench)	100%
13	Structure Excavation (Rock Slope Protection)	100%
14	Site Boulders	0%
15	Rootwad	0%
16	6" Plastic Pipe (Schedule 40)	0%

C-14

**AGREEMENT
BETWEEN CONTRA COSTA COUNTY FLOOD CONTROL
& WATER CONSERVATION DISTRICT AND AMERICAN RIVERS, INC.,
FOR THE THREE CREEKS RESTORATION PROJECT**

This Agreement Between Contra Costa County Flood Control & Water Conservation District and American Rivers, Inc., For The Three Creeks Restoration Project ("**Agreement**") is entered into on _____, 2018 (the "**Effective Date**"), by the Contra Costa County Flood Control & Water Conservation District, a body corporate and politic created under laws of the State of California ("**District**"), and American Rivers, Inc., a non-profit corporation organized and existing under laws of the District of Columbia ("**American Rivers**"). The parties hereto may be referred to collectively as the "**Parties**" or individually as a "**Party**."

RECITALS

- A. American Rivers is a non-profit corporation headquartered in the District of Columbia whose purpose is the restoration of rivers and critical wildlife habitat.
- B. District, created by the Contra Costa County Flood Control and Water Conservation District Act (West's Wat. Code Appen., § 63-1 et seq.) ("**the Act**"), is the owner of portions of Marsh Creek, a watercourse that runs 30 miles from the eastern slope of Mt. Diablo to the San Joaquin Delta, including the portions of Marsh Creek referenced herein.
- C. District has legal authority to enter into this Agreement under Section 5(b) of the Act. (West's Wat. Code Appen., § 63-5.)
- D. On or about August 16, 2016, District, American Rivers and the Department of Water Resources of the State of California ("**DWR**") entered into Grant Agreement No. 4600011176 ("**DWR Grant Agreement**"), a copy of which is attached hereto as Exhibit A and incorporated herein by this reference. In the DWR Grant Agreement, DWR agreed to provide a grant in an amount not to exceed \$744,404 to fund a portion of an estimated \$2,738,954 in costs associated with the "**Three Creeks Restoration Project**" (hereafter "**Project**"). American Rivers is the sponsor of the Project, and District is the co-sponsor. American Rivers and District are collectively referred to in the DWR Grant Agreement as the "Grantee." A copy of the DWR Grant Agreement is attached hereto as Exhibit A and incorporated herein by this for reference.
- E. In addition to the funding to be provided under the DWR Grant Agreement, American Rivers has secured \$1,969,550 in funding from other public agencies and private sources (collectively "**Other Granting Agencies**") to apply toward costs of the Project. Under the DWR Grant Agreement, the remaining \$25,000 is to be funded by District.

- F. The Project generally involves the planning, design, environmental review and compliance, excavation, and planting of a segment of the Marsh Creek channel in the Brentwood area, along with associated project and construction management activities, community involvement, monitoring and maintenance. The channel segment in question begins at the Union Pacific Railroad crossing over Marsh Creek and ends at the Marsh Creek confluence with Sand Creek, and will be referred to as the “**Lower Reach.**”
- G. As set forth in the DWR Grant Agreement, construction within the Lower Reach would involve the removal of approximately 12,000 cubic yards of earth along 1,400 linear feet of the east bank of the creek, creating approximately just over one acre of new floodplain surfaces in widths varying from 20 feet to 40 feet. Excavation of the floodplains will include the removal of soil down to approximately 10 feet below the existing elevation and grading the creek bank to create a flatter 3:1 slope between the upland and newly created floodplain areas.
- H. Following completion of the civil/earth work described in Recital G, the new floodplains and east bank of the channel within the Lower Reach would be densely planted with native vegetation to create just over an acre of riparian habitat. Riparian trees that include valley oak, sycamore, live oak, blue oak, box elder, buckeye, cottonwood and willow would be planted along the banks. Slopes and banks would be planted with grassland and scrub species, including creeping wild rye, California brome, purple needlegrass, dense-flowered lupine, mugwort, common fiddleneck, elegant clarkia and California poppy. Floodplain areas would be planted with seasonal wetland species, including creek clover, Baltic rush and deer sedge.
- I. Following completion of the landscaping work described in Recital H, the new vegetation within the Lower Reach would be monitored and maintained for three years in accordance with a plan to be developed and agreed upon by the Parties.
- J. The purpose of this Agreement is to set forth the respective obligations of the Parties under the DWR Grant Agreement, which would become effective upon District’s approval of the Project.

NOW, THEREFORE, for and in consideration of the mutual promises and agreements contained herein, the Parties agree as follows.

AGREEMENT

1. Term. This Agreement becomes effective on the Effective Date and continues in full force and effect until terminated in accordance with Section 18.
2. Condition Precedent. Party obligations set forth in this Agreement take effect only upon District’s approval of the Project.

3. American Rivers Project Obligations.

a. American Rivers will be solely responsible to DWR for ensuring compliance with, and shall comply with, all obligations of the Parties, either individually or collectively as the Grantee, that are set forth in the DWR Grant Agreement, including without limitation all tasks described in the Work Plan attached to the DWR Grant Agreement as Exhibit A, except for the obligations of District set forth in Section 4 and Section 13.b. of this Agreement, and the obligations of District set forth in the Operations and Maintenance Manual and Monitoring Plan described in Section 16.a.(1) of this Agreement.

b. American Rivers will promptly provide District with copies of all reports submitted by American Rivers to DWR under the DWR Grant Agreement.

4. Environmental Review. District will serve as lead agency and satisfy all applicable environmental review requirements applicable to the Project under the California Environmental Quality Act.

5. Design.

a. Plans and specifications.

(1) **Preparation.** American Rivers will prepare two sets of final (100 percent) plans, specifications and cost estimates for the Project. One set of plans, specifications and cost estimates will pertain to the work described in Recital G, and will be referred to as the **“Civil Set.”** The second set of plans, specifications and cost estimates will pertain to the work described in Recital H, and will be referred to as the **“Landscaping Set.”** Plans and specifications must conform to industry standards and be consistent with this Agreement, the current Contra Costa County Public Works Department Standard Plans, the Caltrans Standard Plans (2015), and the State of California Standard Specifications (2015).

(2) **District Review and Approval.** American Rivers will submit the Civil Set and Landscape Set to District for review, and obtain District’s approval of the Civil Set and Landscape Set prior to the selection of any contractors to perform any work on the Project. The District’s Assistant Chief Engineer (**“District’s Representative”**) is authorized to approve the Civil Set and Landscape Set on behalf of the District. If, in the course of review, District’s Representative identifies a deficiency in either the Civil Set or the Landscaping Set, District’s Representative will notify American Rivers of the deficiency, and American Rivers will work with District’s Representative and American Rivers’ design professionals to rectify the deficiency to the satisfaction of District’s Representative. The plans and specifications contained in the approved Civil Set will be referred to as the **“Civil Plans.”** The approved plans and specifications contained in the approved Landscaping Set will be referred to as the **“Landscaping Plans.”** The improvements set forth in the Civil Plans will be referred to as the **“Civil/Earth Work.”** The improvements set forth in the Landscaping Plans will be referred to as the **“Landscaping Work.”** The Civil/Earth Work and Landscaping Work may be referred to collectively as the **“Project Work.”**

b. Changes.

(1) After Civil Plans have been approved by District, field orders or change orders that affect costs, or the original design upon which the Civil Plans are based, or the intent of the original design, require the advance written approval of District's Representative after consultation with American Rivers.

(2) After Landscaping Plans have been approved by District, field orders or change orders that affect costs, or the original design upon which the Landscaping Plans are based, or the intent of the original design, require the advance written approval of District's Representative after consultation with American Rivers.

(3) American Rivers will not change the Project's design professionals without first obtaining the consent of District's Representative.

6. Construction Bids; Contractors; Contracts.

a. American Rivers will comply with any and all applicable bidding and other legal requirements in the selection of contractors to perform any Project Work.

b. American Rivers will obtain District's prior written approval of the selection of contractors to perform Civil/Earth Work, and all contracts for the performance of Civil/Earth Work. American Rivers will obtain District's prior written approval of the selection of contractors to perform Landscaping Work, and all contracts for the performance of Landscaping Work. District's Representative is authorized to approve American Rivers' contractor selections on behalf of District.

c. American Rivers will not allow the substitution of Project contractors or subcontractors except with District's prior written consent

d. District will be named as a third party beneficiary in all contracts for construction of Project Work.

7. Prevailing Wages. In all of its contracts for construction of any Project Work, American Rivers will include the following provision:

"Pursuant to Labor Code section 1773, the Director of the Department of Industrial Relations has ascertained the general prevailing rates of wages per diem, and for holiday and overtime work, in the locality in which the Project Work is to be performed for each craft, classification, or type of worker needed to execute the Project work. Contractor shall pay, and require all subcontractors to pay, at least these prevailing wage rates to all persons on the Project Work."

8. Improvement Security.

a. In all of its contracts for any Civil/Earth Work, American Rivers will include a provision that requires the contractor(s) to provide the following security to District prior to the contractor's commencement of the Civil/Earth Work.

(1) Performance and Guarantee: Security in an amount equal to 100 percent of the contractor's estimated cost of construction of the Civil/Earth Work. Such security shall consist of a corporate surety bond, in a form acceptable to District, issued by a surety admitted in California and naming District as co-obligee on the bond. With this security, the contractor will guarantee performance of the Civil/Earth Work under its contract with American Rivers, and acceptance against any defective materials or any unsatisfactory performance.

(2) Payment: Security in an amount equal to 100 percent the contractor's estimated cost of construction of the Civil/Earth Work. Such security shall consist of a corporate surety bond, in a form acceptable to District, issued by a surety admitted in California and naming District as co-obligee on the bond. With this security, the contractor will guarantee payment to subcontractors and to persons renting equipment or furnishing labor or materials to them or to the contractor.

b. In its contract(s) for construction of the Landscaping Work, American Rivers will require the contractor(s) to provide the following security to District prior to the commencement of the Landscaping Work:

(1) Performance and Guarantee: Security in an amount equal to 100 percent of the contractor's estimated cost of construction of the Landscaping Work. Such security shall consist of a corporate surety bond, in a form acceptable to District, issued by a surety admitted in California and naming District as co-obligee on the bond. With this security, the contractor will guarantee performance of the Landscaping Work under its contract with American Rivers, under this Agreement and acceptance against any defective materials or any unsatisfactory performance.

(2) Payment: Security in an amount equal 100 percent to the contractor's estimated cost of construction of the Landscaping Work. Such security shall consist of a corporate surety bond, in a form acceptable to District, issued by a surety admitted in California and naming District as co-obligee on the bond. With this security, the contractor will guarantee payment to subcontractors and to persons renting equipment or furnishing labor or materials to them or to the contractor.

9. Insurance.

a. In all of its contracts for any Project Work, American Rivers will include provisions that require the contractor(s) to do all the following:

(1) Obtain, and maintain until completion of the Project Work, Commercial General Liability Insurance, including blanket contractual (or contractual liability) coverage, broad form property damage coverage, and coverage for owned and non-owned automobiles,

with a minimum combined single-limit coverage of \$1 million for all damages due to bodily injury, sickness or disease, or death to any person, and damage to property, including the loss of use thereof, arising out each accident or occurrence;

(2) Obtain, and maintain until completion of the Project Work, Workers' Compensation Insurance pursuant to state law; and

(3) Provide endorsements, certificate(s) of insurance, or other evidence of insurance satisfactory to District, listing the coverages required under this Subsection, and naming District, Contra Costa County ("County"), City of Brentwood, East Bay Regional Park District and their governing bodies, officers, agents, and employees as additional insureds, and requiring 30 days' written notice to District and County of policy lapse or cancellation.

b. In addition, American Rivers will:

(1) Obtain prior to the commencement of any Project Work, and maintain until District's acceptance of all Project Work, Commercial General Liability Insurance, including blanket contractual (or contractual liability) coverage, broad form property damage coverage, and coverage for owned and non-owned automobiles, with a minimum combined single-limit coverage of \$1 million for all damages due to bodily injury, sickness or disease, or death to any person, and damage to property, including the loss of use thereof, arising out of each accident or occurrence;

(2) Obtain prior to the commencement of any Project Work, and maintain until District's acceptance of all Project Work, Workers' Compensation Insurance pursuant to state law; and

(3) Provide to District endorsements, certificate(s) of insurance, or other evidence of insurance satisfactory to District listing the coverages required under this Subsection, and naming District, County, City of Brentwood, East Bay Regional Park District and their governing bodies, officers, agents, and employees as additional insureds, and requiring 30 days' written notice to District and County of policy lapse or cancellation.

c. Before allowing its contractor(s) to begin any Project Work, American Rivers will submit to District the evidence of insurance required under Subsections 9.a. and 9.b. and will obtain District's approval to begin work.

10. Indemnification.

a. Indemnification by Contractors. In all of its contracts for any Project Work, American Rivers will include the following indemnification provisions:

(1) Contractor promises to and shall defend, indemnify, save, and hold harmless the indemnitees from the liabilities as defined in this section.

(2) The indemnitees benefitted and protected by this promise are District, County, City of Brentwood and East Bay Regional Park District and their respective elective and appointive boards, commissions, officers, agents and employees.

(3) The liabilities protected against are any and all claims, demands, causes of action, damages, costs, expenses, actual attorney's fees, losses, or liabilities arising out of or in connection with the actions defined below for personal injury, sickness, disease, emotional injury, death, property damage (including loss of use), trespass, nuisance, inverse condemnation, patent infringement, or any combination of these, regardless of whether or not such liability, claim, or damage was foreseeable at any time before District approved the improvement plans or accepted the improvements as completed, and including the defense of any suit(s) or action(s) at law or equity concerning these.

(4) The actions causing liability are any act or omission (negligent or non-negligent) in connection with the matters covered by this contract and attributable to Contractor, subcontractor(s), supplier(s), trucker(s), anyone for whose acts Contractor may be liable, or any officer(s), agent(s), or employee(s) of one or more of them.

(5) The promise and agreement in this section is not conditioned or dependent on whether or not any indemnitee has prepared, supplied, or approved any plan(s), drawing(s), specification(s), or special provision(s) in connection with this work or has insurance or other indemnification covering any of these matters.

(6) Except as prohibited by Civil Code section 2782, Contractor's obligations under this section shall exist regardless of the existence or degree of fault of District or any other indemnitee.

(7) Contractor's obligations under this section shall extend to claims arising after the work is completed and accepted if the claims are related to alleged acts or omission that occurred during the course of the work. District's inspection is not a waiver of full compliance with these requirements.

(8) Contractor and Contractor's insurance carrier(s) shall respond within 15 days to the tender of any claim for defense and indemnity by District or County, unless this time has been extended by the indemnitee.

(9) With respect to third-party claims against Contractor, Contractor waives all rights of any kind to express or implied indemnity against the indemnitees.

(10) Nothing in this section is intended to establish a standard of care owed to any third party or to extend to any third party the status of third-party beneficiary.

b. Indemnification by American Rivers.

(1) To the extent not covered by the defense and indemnification provided by its contractor(s), American Rivers will defend, indemnify, save, and hold harmless District and County and their officers, agents, and employees the same as required of the contractor(s) as

described in Subsection 10.a., except that American Rivers' obligations shall also include any act or omission (negligent or non-negligent) attributable to American Rivers or its officers, agents or employees.

(2) American Rivers will defend, indemnify, save, and hold harmless District and its officers, agents, and employees from and against any and all claims, demands, causes of action, damages, costs, expenses, actual attorney's fees, losses, or liabilities arising from American Rivers' acts or omissions under this Agreement or the DWR Grant Agreement.

c. Indemnification by District.

District will defend, indemnify, save, and hold harmless American Rivers and its officers, agents, and employees from and against any and all claims, demands, causes of action, damages, costs, expenses, actual attorney's fees, losses, or liabilities arising from District's acts or omissions under this Agreement or the DWR Grant Agreement.

11. Permits. American Rivers will be responsible for obtaining all permits and approvals from any and all permitting authorities, including District and County, necessary to complete the Project. American Rivers will strictly comply with the terms and conditions of an encroachment permit to be issued by District prior to the start of construction, and shall include a provision in all construction contracts requiring the contractor(s) to strictly comply with that and all other permits and approvals.

12. Improvements.

a. Civil/Earth Work. After the issuance of all permits, certifications and approvals required for the Civil/Earth Work, American Rivers, by and through its contractor(s), will complete the Civil/Earth Work in accordance with the Civil Plans, and will complete the Civil/Earth Work in a good and workmanlike manner, in accordance with accepted construction practices, the County Public Works Department Standard Plans and the Caltrans Standard Specifications (2015). Where there is a conflict between any of the foregoing, the stricter requirements shall govern.

b. Landscaping Work. After the issuance of all permits, certifications and approvals required for the Landscaping Work, American Rivers, by and through its contractor(s), will complete the Landscaping Work in accordance with the Landscaping Plans, and will complete the Landscaping Work in a good and workmanlike manner, in accordance with accepted construction practices, the County Standard Plans and the Caltrans Standard Specifications (2015). Where there is a conflict between any of the foregoing, the stricter requirements shall govern.

c. Guarantee and Warranty.

(1) Civil/Earth Work. American Rivers guarantees that the Civil/Earth Work by its contractor(s) will be free from defects in materials or workmanship and perform satisfactorily for a period of one year from after District accepts the Civil/Earth Work as complete. District's acceptance will not be unreasonably withheld. District's Representative is

authorized to accept the Civil/Earth Work on behalf of District. In the event that District determines that corrections, repairs or replacements are necessary, District will so notify American Rivers no later than 45 days following American Rivers' request for acceptance of the Civil/Earth Work. American Rivers, by and through its contractor(s), agrees to promptly correct, repair, or replace, at its sole expense, any defects in the Civil/Earth Work.

(2) **Landscaping Work.** American Rivers guarantees that the Landscaping Work by its contractor(s) will be free from defects in materials or workmanship and perform satisfactorily for a period of one year from after District accepts the Landscaping Work as complete. District's acceptance will not be unreasonably withheld. District's Representative is authorized to accept the Landscaping Work on behalf of District. In the event that District determines that corrections, repairs or replacements are necessary, District will so notify American Rivers no later than 45 days following American Rivers' request for acceptance of the Landscaping Work. American Rivers, by and through its contractor(s), agrees to promptly correct, repair, or replace, at its sole expense, any defects in the Landscaping Work.

d. **No Waiver.** Inspection of the Project Work or materials, or approval of the Project Work or materials, or statement by any officer, agent, or employee of District or County indicating that the Project Work or any part of it complies with the requirements of this Agreement, or acceptance of the whole or any part of the Project Work or materials, or any combination or all of these acts, shall not relieve American Rivers of its obligation to fulfill this Agreement as prescribed. Nor shall District be estopped by any such acts from bringing any action for damages arising from the failure to comply with any of the terms and conditions of this Agreement.

13. Costs.

a. **American Rivers' Responsibility.** Except for costs for which District is responsible as set forth in Section 13.b., American Rivers will be responsible for, and pay when due, all costs of the Project ("Project Costs"). Project Costs include, without limitation, any and all costs incurred by American Rivers and District, either prior to or after the Effective Date, in the planning, design, environmental review, compliance and mitigation, permitting, construction, monitoring and maintenance activities and acquisitions associated with the Project.

b. **District's Responsibility.** District is responsible for a \$25,000 share of the environmental review costs associated with the Project, in accordance with the DWR Grant Agreement. American Rivers is responsible for the remaining share of the environmental review costs.

c. **Other Project Costs.** The Parties have incurred costs related to the Project that are not described in Section 13.a. or Section 13.b. ("**Other Project Costs**"), including, but not necessary limited to, the costs of coordination between District and American Rivers through such activities as the preparation and review of correspondence, participation in telephone calls, attendance at meetings and site visits. Responsibility for Other Project Costs has not been determined as of the Effective Date. The Parties agree that, no later than 30 days following the date of execution by American Rivers of a contract for Civil/Earth Work, the Parties shall meet

and present proposals regarding the responsibility for Other Project Costs, and work cooperatively toward a binding agreement that assigns such responsibility.

14. Reimbursements to District. Project Costs incurred by District in its environmental review of the Project that exceed \$25,000 are reimbursable to District (“**Reimbursable Costs**”). Within 90 days of the Effective Date, American Rivers will provide District with an invoice format and identify all cost details that American Rivers deems to be necessary to substantiate its requests to DWR and Other Granting Agencies for funding disbursements to pay Project Costs. District may submit to American an invoice for Reimbursable Costs that conforms to the invoice format provided by American Rivers and includes the required cost details (“**Conforming Invoice**”). Within 30 days of receipt of funding from DWR or Other Granting Agencies to pay the Reimbursable Costs set forth in a Conforming Invoice, or within 60 days of receipt of the Conforming Invoice, whichever is earlier, American Rivers will remit payment in full to District. Notwithstanding the foregoing, if American Rivers disputes a charge contained in a District invoice, the Parties agree to work together cooperatively to resolve the dispute and, if necessary, utilize alternative dispute resolution processes before seeking judicial intervention.

15. Completion Deadline. American Rivers shall complete the Project Work in accordance with the approved schedule under the DWR Grant Agreement, as may be amended from time to time. If American Rivers fails to timely complete the Project Work, the Parties will confer regarding the delay and work cooperatively to establish a new schedule. In the event that the Parties do not agree on a new schedule, District may proceed to complete the Project Work, and in that event, American Rivers shall pay all costs of completing the Project Work.

16. Monitoring and Maintenance.

a. Written Plan.

(1) Prior to the commencement of any Project Work, and in consultation with District, American Rivers will prepare and obtain District’s approval of an Operations and Maintenance Manual and Monitoring Plan (“Plan”) for the Project. The Plan will include all monitoring and maintenance tasks set forth in the DWR Grant Agreement and, at a minimum, describe all of the following to the satisfaction of the Parties:

- (a) Monitoring Component
 - (i) Documentation of Project Area
 - (ii) Development of vegetation monitoring plan
 - (iii) Monitoring of topographic changes on floodplain channel
 - (iv) Ten-year vegetation and geomorphic monitoring plan
 - (v) Training of volunteers
 - (vi) Routine monitoring requirements
 - (vii) Party responsibilities
- (b) Maintenance Component
 - (i) Minimum maintenance during three-year establishment
 - (ii) Retention of contractor to maintain and replace vegetation during three-year establishment and warranty period

- (iii) Terms of a \$150,000 long-term maintenance endowment
- (iv) Party responsibilities

b. Monitoring. The Parties will comply with their respective monitoring obligations under the approved Plan.

c. Maintenance. The Parties will comply with their respective maintenance obligations under the approved Plan, including but not limited to the following:

(1) Commencing with District's acceptance of the Landscape Work, American Rivers will provide three years of Project planting maintenance, including the limitation of invasive weeds and replacement of unsuccessful plantings with the same or similar species. District will assume all maintenance obligations following successful completion of the three-year period.

(2) Prior to commencement of the Landscaping Work, American Rivers will establish and fund a \$150,000 endowment for the purpose of funding long-term maintenance of Project plantings, to be utilized in accordance with the terms set forth in the Plan.

17. Modification. This Agreement may be modified or amended only in a writing executed by the Parties.

18. Termination. This Agreement may be terminated by mutual, written consent of the Parties. Subsection 10.b. and 10.c. of this Agreement shall survive the termination of this Agreement.

19. Notices. All notices under this Agreement (including requests, demands, reports, approvals or other communications) will be in writing. A notice will be deemed to have been duly given and received when delivered by hand to the respective Party to whom the notice is directed, or when deposited by registered or certified mail, postage prepaid, in a sealed envelope addressed to the Party at its address as set forth below:

American Rivers: American Rivers, Inc.
120 Union Street
Nevada City, CA 95959
Attn: John Cain, Director of Conservation, CA Flood Management

District: Contra Costa County Flood Control and Water Conservation District
255 Glacier Drive
Martinez, CA 94553
Attn: Tim Jensen, Assistant Chief Engineer

A party may designate, by written notice to the other, a different address for notice.

20. Waiver. No waiver of any provision of this Agreement will be binding unless executed in writing by the Party making the waiver. No waiver of any provision of this Agreement will be

deemed, or constitute, a waiver of any other provision, whether or not similar, nor will any waiver constitute a continuing waiver.

21. Assignment. This Agreement may not be assigned, assumed, pledged, or hypothecated without the advance, written consent of the other Party. Any attempt to circumvent this requirement shall be void and unenforceable.

22. No Third Party Beneficiaries. This Agreement is not intended to confer upon any person other than the Parties any rights or remedies thereunder and no person or entity other than the Parties shall have standing to enforce this Agreement.

23. Entire Agreement. This Agreement, together with the DWR Grant Agreement, contains the entire understanding of the Parties relating to the subject matter of this Agreement, and supersedes all prior and contemporaneous agreements, representations and understandings of the Parties. Any alleged promise or representation by either Party shall be unenforceable unless it is set forth in this Agreement or in another written agreement or permit signed by the Parties.

24. Counterparts. This Agreement may be executed in counterparts and so executed shall constitute an Agreement which shall be binding upon all Parties hereto. A photocopy of the fully executed Agreement shall have the same force and effect as the original.

25. Signatures. By affixing his/her signature below, each of the persons signing this Agreement warrants and represents that he/she has read and understands this Agreement, that in signing on behalf of a Party he/she has full and complete authority from that Party to bind said Party to perform and comply with each and every term, obligation, condition and covenant set forth in this Agreement, and that the Party on behalf of whom he/she signs agrees to be bound by its terms.

**GRANT AGREEMENT BETWEEN THE STATE OF CALIFORNIA THE NATURAL RESOURCES AGENCY
DEPARTMENT OF WATER RESOURCES AND
AMERICAN RIVERS AND CONTRA COSTA FLOOD CONTROL & WATER CONSERVATION DISTRICT 4600011176
FOR A GRANT UNDER THE URBAN STREAMS RESTORATION PROGRAM
CALIFORNIA WATER CODE §7048**

THIS AGREEMENT is entered into by and among the Department of Water Resources (DWR) of the State of California, herein referred to as the "State," the Project Sponsor, American Rivers, Inc. ("American Rivers"), and Project Co-sponsor Contra Costa County Flood Control & Water Conservation District ("District"). The Project Sponsor and Co-sponsor will be collectively referred to as "Grantee" throughout this Grant Agreement. The State and Grantee do hereby agree as follows:

1. **PURPOSE.** The purpose of this Grant Agreement is to provide Urban Stream Restoration Program (USRP) grant funds pursuant to California Water Code (CWC) Section 7048 and implementing regulations and as provided for by the Safe Drinking Water, Clean Water, Watershed Protection, and Flood Protection Act of 2000 (Proposition 13) for planning and implementation of a project affecting an Urban Stream which will reduce flooding and erosion damage, protect or restore natural ecological values of streams, and promote community involvement, education, or stewardship on Marsh Creek in Contra Costa County.
2. **TERM OF GRANT AGREEMENT.** The term of this Grant Agreement begins on the date this Grant Agreement is executed by State, and terminates on June 30, 2018, or when all of the Parties' obligations under this Grant Agreement are fully satisfied, whichever occurs earlier. The execution date is the date the State signs this Grant Agreement indicated on page 9.
3. **TOTAL PROJECT COST.** The reasonable cost of the project described in Exhibit A ("Project") is estimated to be \$2,738,954.
4. **GRANT AMOUNT.** The amount payable by State under this Grant Agreement shall not exceed \$744,404. Subject to the availability of funds, State shall provide a grant to Grantee to assist in financing the Project.
5. **GRANTEE COST SHARE.** No cost share is required for USRP grants. If Project costs exceed grant amount, the Grantee agrees to fund the difference between the estimated Total Project Cost in its grant application and the Grant Amount specified in Paragraph 4.
6. **GRANTEE RESPONSIBILITY.** Subject to the conditions precedent to performance set forth in Exhibit A, Grantee shall faithfully and expeditiously perform or cause to be performed the Project in accordance with Exhibits A through F, attached hereto and incorporated herein by this reference, and comply with all of the terms and conditions of this Grant Agreement, CWC Section 7048, Chapter 2.4 of Title 23 of the California Code of Regulations and all other applicable provisions of the CWC and California Public Resources Code. Any planning and design assistance provided to Grantees by DWR is provided pursuant to CWC Section 7048.
7. **BASIC CONDITIONS.** State shall have no obligation to disburse money for the Project under this Grant Agreement unless and until Grantee has satisfied the following conditions.
 - a) An urban water supplier that receives grant funds governed by this Grant Agreement shall maintain compliance with the Urban Water Management Planning Act (CWC§10610 et. seq.)
 - b) For the term of this Grant Agreement, Grantee submits timely Quarterly Progress Reports as required by Paragraph 18, "Submission of Reports."
 - c) Grantee submits deliverables as specified in Paragraph 21 of this Grant Agreement and in Exhibit A.
 - d) Prior to the commencement of construction or implementation activities, Grantee shall submit the following to the State:
 - i. When applicable, final plans and specifications certified by a California Registered Civil Engineer as to compliance for each approved project as listed in Exhibit A of this Grant Agreement.

- ii. A monitoring and maintenance plan as required by Paragraph 21, "Project Monitoring and Maintenance Plan Requirements."
- e) Work that is subject to CEQA and/or environmental permitting shall not proceed under this Grant Agreement until the following actions are performed:
 - i. Grantee submits all applicable environmental permits as indicated on the Environmental Information Form to the State,
 - ii. Documents that satisfy the CEQA process are received by the State,
 - iii. State has completed its CEQA compliance review as a Responsible Agency, and
 - iv. Grantee receives written concurrence from the State of Lead Agency's CEQA document(s) and State notice of verification of environmental permit submittal.

State's concurrence with Lead Agency's CEQA documents is fully discretionary and shall constitute a condition precedent to any work (i.e., construction or implementation activities) for which it is required. Once CEQA documentation has been completed, State will consider the environmental documents and decide whether to continue to fund the Project or to require changes, alterations or other mitigation. The parties acknowledge that any changes or alterations to the Project required by State may necessitate amendments to this Agreement. Grantee must demonstrate compliance with all applicable provisions of CEQA, including any tribal consultation requirements. Grantee must also demonstrate that it has complied with any and all applicable requirements of the National Environmental Policy Act by submitting copies of any environmental documents, including environmental impact statements, Finding of No Significant Impact, mitigation monitoring programs, and environmental permits as may be required prior to beginning construction/implementation.

8. BUDGET LINE ITEM FLEXIBILITY.

- a) Line Item Adjustment(s). Subject to the prior review and approval of the State's Project Manager, adjustments between existing line item(s) may be used to defray allowable direct costs up to twenty percent (20%) of the Grant Amount, including any amendment(s) thereto. A line item adjustment in excess of twenty percent (20%) or the cumulative total of line item adjustments that exceed \$200,000 shall require a formal Agreement amendment. If the Line Item Budget includes an amount for Personnel Services, that amount is based on the hours, classifications, and rates submitted by the Grantee in its application. Any changes to the hours, classifications, and rates must be approved, in advance and in writing, by the State's Program Manager.
- b) Procedure to Request an Adjustment. Grantee may submit a request for an adjustment in writing to the State's Program Manager at the address set forth in this Grant Agreement for State's Project Manager. Such adjustment may not increase or decrease the total Grant Amount. The Grantee shall submit a copy of the original Agreement Budget sheet reflecting the requested changes. Changes shall be noted by striking the original amount(s) followed with revised change(s) in bold and underlined. Budget adjustments deleting a budget line item or adding a new budget line item requires a formal amendment and are not permissible under this provision. The State may also propose adjustments to the budget.

9. DISBURSEMENT OF GRANT FUNDS. Following the review of each invoice, State will disburse to Grantee the amount approved, subject to the availability of funds through normal State processes. Notwithstanding any other provision of this Grant Agreement, no disbursement shall be required at any time or in any manner which is in violation of, or in conflict with, federal or state laws, rules, or regulations, or which may require any rebates to the federal government, or any loss of tax-free status on state bonds, pursuant to any federal statute or regulation. For each project, funds will be disbursed by State in response to each approved invoice in accordance with Exhibit C. Any and all money disbursed to Grantee under this Grant Agreement and any and all interest earned by Grantee on such money shall be used solely to pay Eligible Project Costs.

10. ELIGIBLE PROJECT COST. Grantee shall apply State funds received to eligible project costs only, in accordance with applicable provisions of the law, and Exhibit C (Budget). Eligible project costs include the reasonable costs of studies, engineering, design, land and easement acquisition, legal fees, preparation of

environmental documentation, environmental mitigations, monitoring, and project construction. Work performed on the Project after May 22, 2015 (the "Award Date"), shall be eligible for reimbursement. Reasonable administrative expenses may be included as Project Costs and will depend on the complexity of the project preparation, planning, coordination, construction, acquisitions, implementation, and maintenance. Reimbursable administrative expenses are the necessary costs incidentally but directly related to the project including an appropriate pro-rata allocation of overhead and administrative expenses that are regularly assigned to all such projects in accordance with the standard accounting practices of the Grantee.

Advanced funds will not be provided, unless as provided for in property right acquisition, explained in Paragraph 11. Costs that are not eligible for reimbursement include but are not limited to:

- a) Costs, other than those noted above, incurred prior to the Award Date of the Grant.
- b) Purchase of equipment not an integral part of a project.
- c) Establishing a reserve fund.
- d) Purchase of water supply.
- e) Replacement of existing funding sources for ongoing programs.
- f) Support of existing agency requirements and mandates (e.g. punitive regulatory agency requirements).
- g) Purchase of land in excess of the minimum required acreage necessary to operate as an integral part of a project, as set forth and detailed by engineering and feasibility studies, or land purchased prior to the effective date of the grant award with the State.
- h) Payment of principal or interest of existing indebtedness or any interest payments unless the debt is incurred after execution of this Grant Agreement, the State agrees in writing to the eligibility of the costs for reimbursement before the debt is incurred, and the purposes for which the debt is incurred are otherwise eligible costs.
- i) Overhead not directly related to project costs.
- j) Regular operation and maintenance costs.

11. PROPERTY RIGHTS ACQUISITIONS. Grantee may acquire real property rights for the purpose of the protection, restoration, and enhancement of urban stream channels. Whenever any real property fee title or interest is to be acquired with grant funds, the following shall apply:
- a) State will not make payments for property rights acquisitions in excess of fair market value; additionally the state will not participate in any transactions in excess of fair market value.
 - b) Acquisitions will be backed by 1) an appraisal supporting the purchasing price, and 2) written concurrence from DWR or the State of California Department of General Services (DGS), attesting to the appraisal's compliance with applicable DGS standards and requirements. For low value property interests, State, in its sole discretion, may waive any of the foregoing submittal requirements.
 - c) Grantee shall submit a preliminary title report, vesting documents, and a fully conformed appraisal report to State pursuant to the Appraisal Report Provisions. The report shall be prepared and signed by a qualified general appraiser, who is licensed by the California Department of Real Estate Appraisers and demonstrates compliance with the Uniform Standards for Professional Appraisal Practices.
 - d) The property rights shall be acquired from a willing seller and in compliance with current laws governing acquisition of properties by public agencies.
 - e) Grantee shall provide sufficient notice to adjacent landowners and other members of the public to enable public input on interests that may be affected by the acquisition and changes in land use.
 - f) Grantee shall use, manage, and maintain the property in a manner consistent with the purpose of the acquisition, for at least 20 years. Grantee further assumes all management and maintenance costs associated with the acquisition, including the costs of ordinary repairs and replacements of a recurring nature, and costs of enforcement of regulations. State shall not be liable for any cost of such management or maintenance.
 - g) Grantee shall identify all riparian rights that will be affected by a real property acquisition and propose appropriate treatment of such rights.

- h) Fee title shall generally be acquired by the local agency Sponsor. However, if the Co-sponsor has non-profit 501(c)(3) status, it may acquire fee title. In the latter case, fee title shall be transferred within 180 days after completion of the on-site work to the local agency Sponsor, which hereby agrees to accept such transfer.
- i) An Irrevocable Offer to dedicate real property interest for public use that is less than a fee title, such as an easement or license, shall be recorded concurrently with the instrument that conveys the real property interest to the Project Sponsor or Co-sponsor.
- j) Grantee shall complete an Example Land Acquisition Cost Schedule, which includes budget items relevant to the acquisition.
- k) Method of payment. Funds provided by State for real property acquisitions shall be deposited by State with an escrow holder acceptable to State and with escrow instructions regarding funding and disbursement provided by State. If the escrow does not close by the date set forth in State's escrow instructions, or such other date as may be agreed to by the parties, the funds shall be returned to State.
- l) Grantee shall supply a copy of any recorded vesting documents to State after close of escrow.

12. METHOD OF PAYMENT. After the disbursement requirements in Paragraph 7 "Basic Conditions" are met, State will disburse the whole or portions of the Grant commitment to Grantee at the address set forth in Paragraph 28, following receipt from Grantee of an invoice for costs incurred, and timely Quarterly Progress Reports as required by Paragraph 18, "Submission of Reports." Invoices submitted by Grantee shall include the following information:

- a) Costs incurred for work performed in implementing the Project during the period identified in the particular invoice.
- b) Costs incurred for any interests in real property (land or easements) that have been necessarily acquired for the Project during the period identified in the particular invoice for the construction, operation, or maintenance of a project. For real property acquisition components of projects, see Paragraph 11, Property Rights Acquisitions.
- c) Appropriate receipts and reports for all costs incurred.
- d) Invoices shall be submitted on forms provided by State and shall meet the following format requirements:
 - i. Invoices must contain the date of the invoice, the time period covered by the invoice, and the total amount due.
 - ii. Invoices must be itemized based on the categories specified in Exhibit C. The amount claimed for salaries/wages/consultant fees must include a calculation formula (i.e., hours or days worked times the hourly or daily rate = the total amount claimed).
 - iii. One set of sufficient evidence (i.e., receipts, copies of checks, time sheets) must be provided for all costs included in the invoice.
 - iv. Each invoice shall clearly delineate those costs claimed for reimbursement from the State's grant amount, and those costs that represent Grantee's costs.
 - v. Original signature and date (in ink) of Grantee's Project Manager.
- e) Payment will be made no more frequent than monthly, in arrears, upon receipt of an invoice bearing the Grant Agreement number. Submit the original "wet signature" copy of the invoice form to the following address:
Environmental Program Manager
Integrated Regional Water Management (IRWM)
Urban Streams Restoration Program
901 P Street, Room 411A
Sacramento, California 95814
- f) State reserves the right to retain a maximum of five percent (5%) of the funds requested by the Grantee's reimbursement until State's receipt of the Final Report as required by Paragraph 18 and Exhibit E or as otherwise authorized by the State.

- g) State may reject an invoice if:
 - a. It is submitted without signature
 - b. It is submitted under signature of a person other than Grantee's duly authorized representative
 - c. Grantee fails to timely submit a final invoice within the time period specified in Paragraph 2. State will notify Grantee of any costs so rejected, and the reasons therefore. State may withhold up to 100 percent of payment for a specific statement of cost if the progress of the Project is not satisfactory. An invoice containing a mathematical error will be corrected by State, after notification to Grantee, and will thereafter be treated as if submitted in the corrected amount. State will provide Grantee with notification of the corrected invoice.
- h) State will notify Grantee, whenever, upon review of an invoice, State determines that any portion or portions of the costs claimed:
 - i. Are ineligible to be paid under Federal or State law, or the terms of this Grant Agreement
 - ii. Do not constitute Eligible Project Costs approved by State for funding under the terms of this Grant agreement
 - iii. Are not supported by invoices or receipts acceptable to State. Grantee may, within thirty (30) days of the date of receipt of such notice, submit additional documentation to State to cure such deficiency(ies). If Grantee fails to timely submit adequate documentation curing the deficiency(ies), State will adjust the pending invoice by the amount of the ineligible and/or unapproved cost(s).

13. WITHHOLDING OF GRANT DISBURSEMENT BY STATE. If State determines that the Project is not being implemented in accordance with the provisions of this Grant Agreement, or that Grantee has failed in any other respect to comply with the provisions of this Grant Agreement, and if Grantee does not remedy any such failure to State's satisfaction, State may withhold from Grantee all or any portion of the Grant Amount and take any other action that it deems necessary to protect its interests. Where a portion of the grant has been disbursed to the Grantee and State notifies Grantee of its decision not to release funds that have been withheld pursuant to Paragraph 9, the portion that has been disbursed shall thereafter be repaid immediately with interest at the California general obligation bond interest rate at the time the State notifies the Grantee, as directed by State. State may consider Grantee's refusal to repay the requested disbursed grant amount a contract breach subject to the default provisions in Paragraph 14, "Default Provisions." If State notifies Grantee of its decision to withhold the entire funding amount from Grantee pursuant to this paragraph, this Grant agreement shall terminate upon receipt of such notice by Grantee and the State shall no longer be required to provide funds under this Grant Agreement and the Grant Agreement shall no longer be binding on either party.

14. DEFAULT PROVISIONS. Grantee will be in default under this Grant Agreement if any of the following occurs:
- a) Breach of this Grant Agreement, or any supplement or amendment to it, or any other agreement between Grant Recipient and State evidencing or securing Grant Recipient's obligations.
 - b) Making any false warranty, representation, or statement with respect to this Grant Agreement.
 - c) Failure to operate or maintain project in accordance with this Grant Agreement.
 - d) Failure to make any remittance required by this Grant Agreement.

Should an event of default occur, State may do any or all of the following:

- a) Declare the Grant be immediately repaid, with interest, which shall be equal to State of California general obligation bond interest rate in effect at the time of the default.
- b) Terminate any obligation to make future payments to Grantee.
- c) Terminate the Grant Agreement.
- d) Take any other action that it deems necessary to protect its interests.

15. PERMITS, LICENSES, APPROVALS, AND LEGAL OBLIGATIONS. Grantee shall be responsible for obtaining any and all permits, licenses, and approvals required for performing any work under this Grant Agreement, including those necessary to perform design, construction, or operation and maintenance of the Project.

Grantee shall be responsible for observing and complying with any applicable federal, state and local laws, rules or regulations affecting any such work, specifically those including, but not limited to, environmental, procurement, and safety laws, rules, regulations, and ordinances. Grantee shall provide copies of permits and approvals to the State prior to commencement of implementation activities.

16. RELATIONSHIP OF PARTIES. Grantee is solely responsible for design, construction, and operation and maintenance of the Project. Review or approval of plans, specifications, bid documents, or other construction documents by State is solely for the purpose of proper administration of grant funds by State and shall not be deemed to relieve or restrict responsibilities of Grantee under this Grant Agreement.
17. GRANTEE REPRESENTATIONS. Grantee accepts and agrees to comply with all terms, provisions, conditions, and commitments of this Grant Agreement, including all incorporated documents, and to fulfill all assurances, declarations, representations, and statements made by Grantee in the application, documents, amendments, and communications filed in support of its request for Safe Drinking Water, Clean Water, Watershed Protection, and Flood Protection Act of 2000 financing.
18. SUBMISSION OF REPORTS. The submittal and approval of all reports is a requirement for the successful completion of this Grant Agreement. Reports shall meet generally accepted professional standards for technical reporting and shall be proofread and corrected for content, numerical accuracy, spelling, and grammar prior to submittal to State. All reports shall be submitted to the State's Project Manager, and shall be submitted in both electronic and hard copy forms. If requested, Grantee shall promptly provide any additional information deemed necessary by State for the approval of reports. Reports shall be presented in the formats described in the applicable portion of Exhibit E. The timely submittal of reports is a requirement for initial and continued disbursement of State funds. Submittal and subsequent approval by the State, of a Final Report is a requirement for the release of any funds retained for such project.
 - a) Quarterly Progress Reports: Grantee shall submit Quarterly Progress Reports to meet the State's requirement for disbursement of funds. Quarterly Progress Reports shall, in part, provide a brief description of the work performed, Grantees activities, milestones achieved, work planned for the next quarter, any accomplishments, and any problems encountered in the performance of the work under this Grant Agreement during the reporting period. The first Quarterly Progress Report should be submitted to the State no later than September 30, 2016, with future reports then due on successive three-month increments based on the invoicing schedule and this date.
 - b) Final Reports: Upon completion of the Project, Grantee shall provide a final written report in a format as directed by the State in Exhibit E, that includes (but is not limited to) the following:
 - i. A description of conditions before the Project was commenced.
 - ii. A summary of the restoration and planning work and techniques used.
 - iii. A description of the results of the Project.
 - iv. An analysis of the techniques used, and a description of planned long-term monitoring.
 - v. Photographs of progress and utilization of restoration techniques and activities.
 - vi. Photographs of community participation in planning or implementation activities (i.e. design charettes, community meetings, site tours, volunteer workers) if part of the Project.
 - vii. Photographs on-site before, during and after implementation to document Project conditions. Specific geographic positions through maps and/or GPS readings of where the photos were taken (photo-points), so images can be produced from the same vantage point in subsequent years to document long-term vegetation growth, channel formation, and geomorphic response to bankfull and flood flows.
19. PROJECT PERFORMANCE AND ASSURANCES. Grantee agrees to faithfully and expeditiously perform or cause to be performed all Project work described in Exhibit A under this Grant Agreement and implement the Project in accordance with applicable provisions of the law. Grantee and its representatives shall fulfill its obligations under the Grant Agreement, and shall be responsible for the performance of the Project. In

the event State finds it necessary to enforce this provision of this Grant Agreement in the manner provided by law, Grantee agrees to pay all costs incurred by State.

20. LABOR COMPLIANCE. The Grantee will be required to keep informed of and take all measures necessary to ensure compliance with applicable California Labor Code requirements, including, but not limited to, Section 1720 et seq. of the California Labor Code regarding public works, limitations on use of volunteer labor (California Labor Code Section 1720.4) and payment of prevailing wages for work done and funded pursuant to this Agreement, including any payments to the Department of Industrial Relations under California Labor Code Section 1771.3.
21. PROJECT MONITORING AND MAINTENANCE PLAN REQUIREMENTS. Grantee agrees to use, manage, and maintain the property acquired, developed, rehabilitated or restored with the grant funds provided in this Grant Agreement consistent with the purposes of the program. A monitoring and maintenance plan shall be submitted to the State prior to disbursement of grant funds for construction or monitoring activities listed in this Grant Agreement. Monitoring and maintenance plans should include the following information: baseline conditions, a brief discussion of monitoring techniques to be used, frequency of actions and adaptive management, and the location of monitoring points and maintenance activities.
- Grantee or their successors may, with the written approval of State, transfer this responsibility to use, manage, and maintain the property.
22. STATEWIDE MONITORING REQUIREMENTS. Grantee shall ensure that all groundwater projects and projects that include groundwater monitoring requirements are consistent with the Groundwater Quality Monitoring Act of 2001 (Part 2.76 (commencing with Section 10780) of Division 6 of CWC) and, where applicable, that projects that affect water quality shall include a monitoring component that allows the integration of data into statewide monitoring efforts, including where applicable, the Surface Water Ambient Monitoring Program carried out by the State Water Resources Control Board.
23. NOTIFICATION OF STATE. Grantee shall promptly notify State, in writing, of the following items:
- Events or proposed changes that could affect the Work Plan, Budget, Schedule, or work performed under this Grant Agreement. Grantee agrees that no substantial change in the scope of the Project will be undertaken until written notice of the proposed change has been provided to State and State has given written approval for such change. Substantial changes generally include changes to the wording/scope of work, schedule or term, and budget.
 - Any public or media event publicizing the accomplishments and/or results of this Grant Agreement and provide the opportunity for attendance and participation by State's representatives. Grantee shall make such notification at least fourteen (14) calendar days prior to the event.
 - Completion of work. Grantee shall notice the State of the Final inspection of the Project and provide State the opportunity to participate in the inspection. Grantee shall make such notification at least fourteen (14) calendar days prior to the final inspection.
24. NOTICES. Any notice, demand, request, consent, or approval that either party desires or is required to give to the other party under this Grant Agreement shall be in writing. Notices may be transmitted by any of the following means:
- By delivery in person.
 - By certified U.S. mail, return receipt requested, postage prepaid.
 - By "overnight" delivery service; provided that next-business-day delivery is requested by the sender.
 - By electronic means.
 - Notices delivered in person will be deemed effective immediately on receipt (or refusal of delivery or receipt). Notices sent by certified mail will be deemed effective given ten (10) calendar days after the date deposited with the U. S. Postal Service. Notices sent by overnight delivery service will be deemed effective one business day after the date deposited with the delivery service. Notices sent electronically will be effective on the date of transmission, which is documented in writing.

Notices shall be sent to all of the addresses below. Either party may, by written notice to the other, designate a different address that shall be substituted for the one below.

Department of Water Resources
Arthur Hinojosa

Washington, DC 20005

25. PERFORMANCE EVALUATION. Upon completion of this Grant Agreement, Grantee's performance will be evaluated by the State and a copy of the evaluation will be placed in the State file and a copy sent to the Grantee.
26. AMENDMENTS. The provisions of this Grant Agreement may be amended only by a written agreement between State and Grantee.
27. SURVIVAL. Any provision of this Grant Agreement that imposes an obligation after the termination or expiration of this Agreement shall survive the termination or expiration of this Grant Agreement.
28. PROJECT REPRESENTATIVES. The Project Representative for the State during the term of this Grant Agreement will be:
Department of Water Resources
Arthur Hinojosa
Chief, Division of IRWM
P.O. Box 942836
Sacramento CA 94236-0001
Phone: (916) 653-4736

Disbursements by the State under Paragraph 12 of this Grant Agreement will be sent to:

American Rivers, Inc.
Kristin May
Chief Financial Officer
1101 14th Street, NW Suite 1400
Washington, DC 20005
Phone: (202) 347-7550
e-mail: kmay@americanrivers.org

Direct all inquiries to the Project Manager;

The Project Manager for the State is:

Department of Water Resources, IRWM
Kevin Marr, Environmental Scientist

Mailing Address:

901 P Street, Room 411A

Sacramento, CA 95814

Phone: (916) 651-9621

e-mail: kevin.marr@water.ca.gov

The Project Manager for the Grantee is:

American Rivers, Inc.

John Cain, Director of Conservation, CA Flood Management

Mailing Address:

120 Union Street

Nevada City, CA 95959

Phone: (510) 809-8010

e-mail: jcain@americanrivers.org

The State may change its Project Representative, and either party may change its Project Manager, upon written notice to the other parties.

29. STANDARD PROVISIONS. The following Exhibits are attached and made a part of this Grant Agreement by this reference:

Exhibit A – Work Plan

Exhibit B – Schedule

Exhibit C – Budget

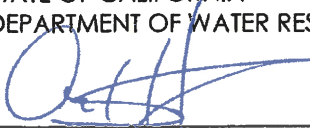

Exhibit D – Standard Conditions

Exhibit E – Report Formats and Requirements

Exhibit F – State Audit Document Requirements

IN WITNESS WHEREOF, the parties hereto have executed this Grant Agreement.

**EXHIBIT A
WORK PLAN**

AMERICAN RIVERS

Three Creeks Restoration Project

Project Goals and Objectives

The objective of this Project is three-fold: 1) to restore and enhance the ecological viability of the riparian ecosystem along Marsh Creek, 2) to improve flood protection, and 3) to promote public awareness and local stewardship of Marsh Creek. The Project involves excavating a new floodplain and expanding the channel along 1,400 linear feet of Marsh Creek in Brentwood, CA to create enough room for both improved flood protection and establishment of three acres of riparian vegetation. The Project will also engage local residents through active stewardship (including volunteer opportunities and site visits) and by enhancing recreational opportunities along the creek.

Project Administration

Conditions: Notwithstanding any provision in the Grant Agreement to the contrary, the obligations of Grantee under the Grant Agreement are conditioned upon (1) completion by the Contra Costa County Flood Control & Water Conservation District (District) of an environmental review of the Project and all other required Project-related actions and proceedings under the California Environmental Quality Act (CEQA); and (2) District's approval of the Project. The parties acknowledge that District has discretion to approve, modify or disapprove the Project, and that modifications of the Project by District may necessitate amendments to the Grant Agreement, including this Work Plan. District's approval of the Project may include the approval and execution of an agreement between District and American Rivers, Inc. (American Rivers) that sets forth their respective roles and responsibilities under this Grant Agreement.

American Rivers shall serve as the lead administrative and budgeting contact with the CA Department of Water Resources (DWR) for the Project under this Grant Agreement. American Rivers shall serve as DWR's sole contact for invoicing and payment purposes under Section 12 of the Grant Agreement.

Project Background

Marsh Creek is currently a perennial stream that extends 30 miles from the eastern slope of Mount Diablo to the San Joaquin Delta. Marsh Creek is currently a trapezoidal flood control channel with steep (2:1 slope) earthen banks, a partially armored (rip rap) bottom, and non-native, weedy vegetation. The creek was channelized by the Soil Conservation Service in the early 1960s to provide flood protection and erosion control for an agricultural landscape, but recent urbanization has increased both flood peaks and the need for improved flood protection. New residents and changing values have also changed expectations about how Marsh Creek should look and function. For over fifty years the District has prevented the establishment of any riparian vegetation in accordance with the original project operations and maintenance manual to maintain the flood control functions of the channel. Today, hundreds of residents walk along Marsh Creek daily and desire a more natural creek that is capable of supporting a diversity of native plant and animal species.

The Project is a unique opportunity to excavate a new floodplain and expand the channel along 1,400 linear feet of creek between Sand Creek and the Union Pacific Railroad crossing to create enough room for both improved flood protection and establishment of riparian vegetation. American Rivers and the District are working together with the Friends of Marsh Creek Watershed, the City of Brentwood, and an adjacent developer to integrate the Project into linear parks and a subdivision planned for adjacent parcels. The Project and adjacent parks will transform this easily accessible area near downtown Brentwood into a natural destination spot for the community members of Brentwood, Oakley and the surrounding region. It will become a place where community members will travel to discover and enjoy the natural beauty of Marsh Creek, where they can stop and enjoy the shade, and look for river otters and spawning salmon.

Project Description

The Project to be funded under Grant Agreement No. 4600011176 includes the planning, design, environmental review, and construction, of the widening and planting of a section of the Marsh Creek channel located in Brentwood, Contra Costa County. The Project also includes project management activities, community involvement and post-construction monitoring and maintenance. A detailed list of Project tasks to be completed is set forth below.

The northern (downstream) Project limit is the Union Pacific Railroad and the southern (upstream) Project limit is the confluence with the District's Sand Creek Flood Control Channel. The Project site lies along the western boundary of the Palmilla Subdivision located on Walnut Boulevard (Assessor Parcel Nos. 017-170-007 and 017-170-008).

During the design phase, construction plans and specifications will be developed and prepared for bidding. Biological, cultural and geotechnical studies will also need to be conducted by consultants or obtained from other agencies, and an environmental review by the District that complies with the California Environmental Quality Act will need to be completed. Regulatory permits will also need to be obtained. Overall project management and administration will be required to coordinate these phases of the Project as well as the construction phase of the Project.

Construction will involve the removal of approximately 12,000 cubic yards of earth along 1,400 linear feet of the east bank of Marsh Creek in varying widths -- from 20 to 40 feet -- creating just over an acre of new floodplain. Excavation for the floodplain will include removing soil down to approximately 10 feet below the existing elevation and grading the creek bank to create a flatter 3:1 slope (vs. the existing 2:1 slope) between the upland and the newly created floodplain. After excavation and grading work, the new floodplain and east bank of Marsh Creek will be densely planted with native riparian and upland grasses, forbes, shrubs, and trees, creating just over an acre of riparian habitat.

After construction, the Project will include three years of monitoring and maintenance of the new vegetation.

Tasks and Deliverables

Task 1: Project Management and Administration

American Rivers will take the lead in fiscal management and reporting, developing and managing subcontracts, convening Project team meetings, developing and disseminating Project information, and coordinating with DWR. American Rivers will also report on Project performance.

Deliverables

- Quarterly and final task and financial reports
- Contracts for any subcontracted work related to design, monitoring, cost estimating, and bid package development
- Quarterly invoices
- Quarterly project partner meetings

Task 2: Planning, Design, Permitting, and CEQA

Planning – American Rivers will obtain a survey of the creek and will retain Restoration Design Group (RDG) to design the Project. RDG will be required to create schematic (35-50% complete) and final (100% complete) designs based on conceptual Project designs prepared by RDG. RDG will also conduct hydraulic modeling, produce a hydraulic report to assess channel capacity and calculate manning's n, and finalize a planting plan for the Project site.

Permitting – A consultant will be retained to prepare resource agency permit applications in consultation with the District. Permits will be obtained from the District, CA Department of Fish & Wildlife, U.S. Army Corps of Engineers, the Central Valley Regional Water Quality Control Board, and others as required.

CEQA Compliance – The District will serve as the lead agency under CEQA. A consultant will be retained to develop CEQA documents in consultation with the District. Consultants will also be retained to conduct or obtain biological, cultural, and geotechnical studies.

Deliverables:

- Detailed site survey
- Hydraulic modeling and report
- Project design
 - Schematic (35-50% complete)
 - Final design (100% complete)
- Planting plan
- Surveys (biological, geotechnical, cultural)s)
- CEQA review documents
- Permit applications (1600, 401, 404, encroachment permit, grading permit)s)
- Permits (1600, 401, 404, encroachment permit, grading permit)

Task 3: Implementation/Construction

Contractors will be retained to clear and grade the Project site and plant three acres of native riparian plantings. Approximately 12,000 cubic yards along 1,400 linear feet of the east bank of Marsh Creek will be excavated to create a new 20- to 40-foot wide floodplain surface along the east bank. Borrow material will be removed and deposited on another parcel under a separate agreement. Both sides of the channel will be hydro-seeded to create a dense ground cover of native grasses and forbs combined with a relative open canopy of native riparian shrubs and trees.

Deliverables:

- Bid package(s)
- Contracts with contractors
- Grading of Project site (excavation and fine grading)
- Final Inspections; Certification of Registered Civil Engineer
- Planting of Project site with native vegetation according to the planting plan
- install signs

Task 4: Monitoring and Maintenance

Monitoring – The Project site will be documented before, during and after construction. A consultant will be retained to develop a vegetation monitoring plan to measure success and replace any defective plant material. Topographic changes on the floodplain channel will be monitored. Volunteers will be taught how to conduct basic vegetation and geomorphic monitoring, identify invasive weeds, and organize an invasive control plan as necessary. The District will conduct routine monitoring in compliance with the maintenance plan described below.

Maintenance – A long-term maintenance plan will be developed in consultation with District. A landscape maintenance contractor will be retained to provide three years of vegetation maintenance to limit invasive weeds and replace unsuccessful plant material. A long-term maintenance endowment will be established. District will provide a baseline level of maintenance of the channel. Guidelines for both maintenance and monitoring will be compiled into one comprehensive Operation and Maintenance Manual and Monitoring Plan.

Deliverables:

- Operation and Maintenance Manual and Monitoring Plan
- Draft agreement(s) regarding management and maintenance of the site and adjacent park lands for consideration of other parties that use or manage the project site or adjacent lands.
- Contract with landscape maintenance contractor.
- Maintenance and monitoring training
- Maintenance endowment
- Two vegetation planting and maintenance events at Project site
- Three annual monitoring and maintenance reports

Task 5: Community Outreach and Involvement

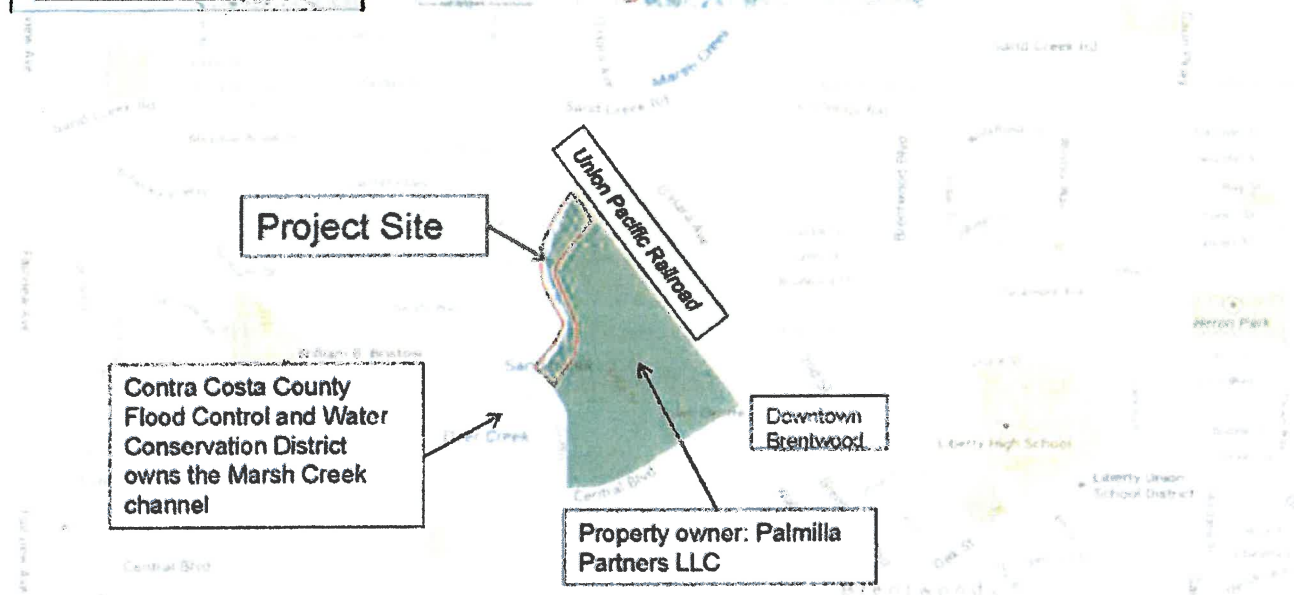

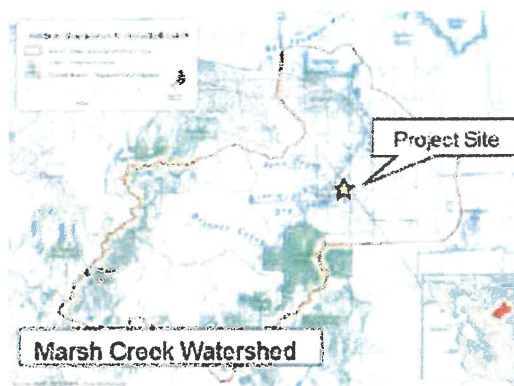

Local community members will be given an opportunity to participate in the planning, implementation, maintenance and monitoring of the project site. Signs will be installed to interpret the Project for the public and acknowledge DWR's role.

Deliverables:

- Design presentation at two meetings of Friends of Marsh Creek Watershed (FOMCW)
- Six updates in FOMCW monthly newsletter
- One community site walk
- Two newspaper articles in local and regional newspapers, two interpretive signs acknowledging DWR and state bond funds

Project Location: 719 Monte Verde Lane, Brentwood, CA 94513 (GPS: 37.942294, -121.707694; [Google Maps](#))

**EXHIBIT C
BUDGET**

Three Creeks Restoration Project Budget Final: 10/06/15				
Project Tasks	Total Project Costs	USRP Grant Funds	Local Funds	Other Funds*
Task 1. Project Management & Administration	\$40,749	\$14,749	\$0	\$26,000
Task 2. Design, CEQA, Permitting, Bidding	\$243,965	\$106,965	\$25,000	\$112,000
Task 3. Implementation**	\$2,211,921	\$559,371	\$0	\$1,652,550
Task 4. Monitoring and Maintenance	\$217,229	\$52,229	\$0	\$165,000
Task 5. Community Involvement	\$25,090	\$11,090	\$0	\$14,000
Total Project Costs	\$2,738,954	\$744,404	\$25,000	\$1,969,550

*Other funding sources include the Bechtel Foundation, The Restoration Agreement Funds, NFWF, EPA, Developer obligations; local funds are from the Contra Costa County Flood Control & Water Conservation District.

**The Project award was reduced by an amount of \$82,713 from the application request

EXHIBIT D

STANDARD CONDITIONS

D.1 ACCOUNTING AND DEPOSIT OF GRANT DISBURSEMENT:

- a) **SEPARATE ACCOUNTING OF GRANT DISBURSEMENT AND INTEREST RECORDS:** Grantee shall account for the money disbursed pursuant to this Grant Agreement separately from all other Grantee funds. Grantee shall maintain audit and accounting procedures that are in accordance with generally accepted accounting principles and practices, consistently applied. Grantee shall keep complete and accurate records of all receipts, disbursements, and interest earned on expenditures of such funds. Grantee shall require its contractors or subcontractors to maintain books, records, and other documents pertinent to their work in accordance with generally accepted accounting principles and practices. Records are subject to inspection by State at any and all reasonable times.
- b) **FISCAL MANAGEMENT SYSTEMS AND ACCOUNTING STANDARDS:** The Grantee agrees that, at a minimum, its fiscal control and accounting procedures will be sufficient to permit tracing of grant funds to a level of expenditure adequate to establish that such funds have not been used in violation of state law or this Grant Agreement.
- c) **REMITTANCE OF UNEXPENDED FUNDS:** Grantee, within a period of sixty (60) calendar days from the final disbursement from State to Grantee of grant funds, shall remit to State any unexpended funds that were disbursed to Grantee under this Grant Agreement and were not needed to pay Eligible Project Costs.

D.2 ACKNOWLEDGEMENT OF CREDIT: Grantee shall include appropriate acknowledgement of credit to the State and to all cost-sharing partners for their support when promoting the Project or using any data and/or information developed under this Grant Agreement. During construction of the Project, Grantee shall install a sign at a prominent location which shall include a statement that the Project is financed under the Safe Drinking Water, Clean Water, Watershed Protection, and Flood Protection Act of 2000, administered by State of California, Department of Water Resources. Grantee shall notify State that the sign has been erected by providing them with a site map with the sign location noted and a photograph of the sign.

D.3 AMENDMENT: No amendment or variation of the terms of this Grant Agreement shall be valid unless made in writing, signed by the parties and approved as required. No oral understanding or agreement not incorporated in the Grant Agreement is binding on any of the parties

D.4 AMERICANS WITH DISABILITIES ACT: By signing this Grant Agreement, Grantee assures State that it complies with the Americans with Disabilities Act (ADA) of 1990, (42 U.S.C., 12101 et seq.), which prohibits discrimination on the basis of disability, as well as all applicable regulations and guidelines issued pursuant to the ADA.

D.5 AUDITS: State reserves the right to conduct an audit at any time between the execution of this Grant Agreement and the completion of the Project, with the costs of such audit borne by State. After completion of the Project, State may require Grantee to conduct a final audit, at Grantee's expense, such audit to be conducted by and a report prepared by an independent Certified Public Accountant. Failure or refusal by Grantee to comply with this provision shall be considered a breach of this Grant Agreement, and State may take any action it deems necessary to protect its interests.

Pursuant to Government Code Section 8546.7, the parties shall be subject to the examination and audit of State for a period of three years after final payment under this Grant Agreement with respect of all matters connected with this Grant Agreement, including but not limited to, the cost of administering this Grant Agreement. All records of Grantee or subcontractors shall be preserved for this purpose for at least three (3) years after Project completion. See Exhibit F for a listing of documents/records that State Auditors would need to review in the event of a grant being audited.

D.6 BUDGET CONTINGENCY/LIMIT ON STATE FUNDS

If the Budget Act of the current year covered under this Grant Agreement does not appropriate sufficient funds for the Urban Streams Restoration Program, this Grant Agreement shall be of no force and effect. This provision shall be construed as a condition precedent to the obligation of State to make any payments under this Grant Agreement. In this event, State shall have no liability to pay any funds whatsoever to Grantee or to furnish any other considerations under this Grant Agreement and Grantee shall not be obligated to perform any provisions of this Grant Agreement. Nothing in this Grant Agreement shall be construed to provide Grantee with a right of priority for payment over any other Grantee. If funding for any fiscal year after the current year covered by this Grant Agreement is reduced or deleted by the Budget Act for purposes of this program, State shall have the option to either cancel this Grant Agreement with no liability occurring to State, or offer a Grant Agreement amendment to Grantee to reflect the reduced amount.

D.7 CHILD SUPPORT COMPLIANCE ACT: For any Grant Agreement in excess of \$100,000, the Grantee acknowledges in accordance with Public Contract Code Section 7110, that:

- a) The Grantee recognizes the importance of child and family support obligations and shall fully comply with all applicable state and federal laws relating to child and family support enforcement, including, but not limited to, disclosure of information and compliance with earnings assignment orders, as provided in Chapter 8 (commencing with section 5200) of Part 5 of Division 9 of the Family Code; and
- b) The Grantee, to the best of its knowledge is fully complying with the earnings assignment orders of all employees and is providing the names of all new employees to the New Hire Registry maintained by the California Employment Development Department.

D.8 COMPETITIVE BIDDING AND PROCUREMENTS: Grantee shall comply with all applicable laws and regulations regarding securing competitive bids and undertaking competitive negotiations in Grantee's contracts with other entities for acquisition of goods and services and construction of public works with funds provided by State under this Grant Agreement.**D.9 COMPUTER SOFTWARE:** The Grantee certifies that it has appropriate systems and controls in place to ensure that state funds will not be used in the performance of this Grant Agreement for the acquisition, operation, or maintenance of computer software in violation of copyright laws.**D.10 CONFLICT OF INTEREST**

- a) **Current State Employees:** No State officer or employee shall engage in any employment, activity, or enterprise from which the officer or employee receives compensation or has a financial interest and which is sponsored or funded by any State agency, unless the employment, activity, or enterprise is required as a condition of regular State employment. No State officer or employee shall contract on his or her own behalf as an independent contractor with any State agency to provide goods or services.
- b) **Former State Employee:** For the two-year period from the date he or she left State employment, no former State officer or employee may enter into a contract in which he or she engaged in any of the negotiations, transactions, planning, arrangements, or any part of the decision-making process relevant to the contract while employed in any capacity by any State agency. For the twelve-month period from the date he or she left State employment, no former State officer or employee may enter into a contract with any State agency if he or she was employed by that State agency in a policy-making position in the same general subject area as the proposed contract within the twelve-month period prior to his or her leaving State service.

D.11 DISPOSITION OF EQUIPMENT: Grantee shall provide to State, not less than 30 days prior to submission of the final project invoice, a final inventory list of equipment purchased with grant funds provided by State. Grantee shall consult with State on the scope of the inventory not less than 60 days prior to the submission of the final project invoice. The inventory shall include all items with a current estimated fair market value of more than \$5,000 per item. Within 60 days of receipt of such inventory, State shall provide Grantee with a list of the items on the inventory that State will take title to. All other items shall become the property of Grantee. State shall arrange for delivery from Grantee of items that it takes title to. Cost of transportation, if any, shall be borne by State.**D.12 DISPUTES:** In the event of an invoice dispute, payment will not be made until the dispute is resolved and a corrected invoice submitted. Failure to use the address exactly as provided may result in return of the

invoice to the Grantee. Payment shall be deemed complete upon deposit of the payment, properly addressed, postage prepaid, in the United States mail. Any claim that Grantee may have regarding the performance of this Grant Agreement including, but not limited to claims for additional compensation or extension of time, shall be submitted to the Director, Department of Water Resources, within thirty (30) calendar days of Grantee's knowledge of the claim. State and Grantee shall then attempt to negotiate a resolution of such claim and process an amendment to the Grant Agreement to implement the terms of any such resolution.

D.13 DRUG-FREE WORKPLACE CERTIFICATION

Certification of Compliance: By signing this Grant Agreement, Grantee, certifies and will cause its contractors under this Grant Agreement to certify, under penalty of perjury under the laws of State of California, compliance with the requirements of the Drug-Free Workplace Act of 1990 (Government Code Section 8350 et seq.) and have or will provide a drug-free workplace by taking the following actions:

- a) Publish a statement notifying employees, contractors, and subcontractors that unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance is prohibited and specifying actions to be taken against employees, contractors, or subcontractors for violations, as required by Government Code Section 8355(a).
- b) Establish a Drug-Free Awareness Program, as required by Government Code Section 8355(b) to inform employees, contractors, or subcontractors about all of the following:
 1. The dangers of drug abuse in the workplace,
 2. Grantee's policy of maintaining a drug-free workplace,
 3. Any available counseling, rehabilitation, and employee assistance programs, and
 4. Penalties that may be imposed upon employees, contractors, and subcontractors for drug abuse violations.
- c) Provide as required by Government Code Section 8355(c), that every employee, contractor, and/or subcontractor who works under this Grant Agreement:
 1. Will receive a copy of Grantee's drug-free policy statement, and
 2. Will agree to abide by terms of Grantee's condition of employment, contract or subcontract.

D.14 FINAL INSPECTIONS AND CERTIFICATION OF REGISTERED CIVIL ENGINEER: Upon completion of a construction project and as determined by State, Grantee shall provide for a final inspection and certification by a California Registered Civil Engineer that the project has been completed in accordance with submitted final plans and specifications and any modifications thereto and in accordance with this Grant Agreement and to the State's satisfaction.

D.15 GOVERNING LAW: This Grant Agreement is governed by and shall be interpreted in accordance with the laws of the State of California.

D.16 INCOME RESTRICTIONS: The Grantee agrees that any refunds, rebates, credits, or other amounts (including any interest thereon) accruing to or received by the Grantee under this Grant Agreement shall be paid by the Grantee to the State, to the extent that they are properly allocable to costs for which the Grantee has been reimbursed by the State under this Grant Agreement.

D.17 INDEPENDENT CAPACITY: Grantee, and the agents and employees of Grantee, if any, in the performance of the Grant Agreement, shall act in an independent capacity and not as officers, employees, or agents of the State.

D.18 INSPECTIONS: State shall have the right to inspect the work being performed at any and all reasonable times during the term of the Grant Agreement. This right shall extend to any local project sponsor, subagreements, and Grantee shall include provisions ensuring such access in all its contracts or subcontracts entered into pursuant to its Grant Agreement with State. Grantee acknowledges that records related to the Project may be subject to disclosure under the Public Records Act (California Government Code Section 6250 et. seq.) unless an exemption applies. State shall have the right to inspect the Grantee's office at any and all reasonable times after completion of the project to ensure compliance with the terms and conditions of this Grant Agreement. During regular office hours, State shall have the right to inspect

and to make copies of any books, records, or reports of the Grantee relating to this Grant Agreement. Grantee shall maintain and shall make available at all times for such inspection accurate records of its costs, disbursements, and receipts with respect to its activities under this Grant Agreement. Failure or refusal by Grantee to comply with this provision shall be considered a breach of this Grant Agreement, and State may withhold disbursements to Grantee or take any other action it deems necessary to protect its interests.

- D.19 NONDISCRIMINATION:** During the performance of this Grant Agreement, Grantee and its contractors shall not unlawfully discriminate, harass, or allow harassment against any employee or applicant for employment because of sex, race, color, ancestry, religious creed, national origin, physical disability (including HIV and AIDS), mental disability, medical condition (cancer), age (over 40), marital status, and denial of family care leave. Grantee and contractors shall ensure that the evaluation and treatment of their employees and applicants for employment are free from such discrimination and harassment. Grantee and contractors shall comply with the provisions of the Fair Employment and Housing Act (Government Code Section 12990 (a-f) *et seq.*) and the applicable regulations promulgated there under (California Code of Regulations, Title 2, Section 7285 *et seq.*). The applicable regulations of the Fair Employment and Housing Commission implementing Government Code Section 12990 (a-f), set forth in Chapter 5 of Division 4 of Title 2 of the California Code of Regulations, are incorporated into this Grant Agreement by reference and made a part hereof as if set forth in full. Grantee and its contractors shall give written notice of their obligations under this clause to labor organizations with which they have a collective bargaining or other agreement. Grantee shall include the nondiscrimination and compliance provisions of this clause in all contracts to perform work under the Grant Agreement.
- D.20 NO THIRD PARTY RIGHTS:** The parties to this Grant Agreement do not intend to create rights in, or grant remedies to, any third party as a beneficiary of this Grant Agreement, or of any duty, covenant, obligation or undertaking established herein.
- D.21 PROHIBITION AGAINST DISPOSAL OF PROJECT WITHOUT STATE PERMISSION:** Grantee shall not sell, abandon, lease, transfer, exchange, mortgage, hypothecate, or encumber in any manner whatsoever all or any portion of any real or other property necessarily connected or used in conjunction with the Project without prior permission of State. Grantee shall not take any action concerning the performance of this Grant Agreement, including but not limited to actions relating to user fees, charges, and assessments that could adversely affect the ability of Grantee to meet its obligations under this Grant Agreement, without prior written permission of State. State may require that the proceeds from the disposition of any real or personal property acquired through this Grant Agreement be remitted to State.
- D.22 REMEDIES, COSTS, AND ATTORNEY FEES:** The Grantee agrees that any remedy provided in this Grant Agreement is in addition to and not in derogation of any other legal or equitable remedy available to the State as a result of breach of this Grant Agreement by the Grantee, whether such breach occurs before or after completion of the Project, and exercise of any remedy provided by this Grant Agreement by the State shall not preclude the State from pursuing any legal remedy or right which would otherwise be available. In the event of litigation between the parties hereto arising from this Grant Agreement, it is agreed that the prevailing party shall be entitled to such reasonable costs and/or attorney fees as may be ordered by the court entertaining such litigation.
- D.23 RETENTION:** Notwithstanding any other provision of this Grant Agreement, State shall, for each project, withhold five percent (5.0%) of the funds requested by Grantee for reimbursement of Eligible Costs until the project is completed and Grantee has met requirements of Paragraph 18, "Submissions of Reports." Grantee may submit a request to the State to exempt the Grantee from the retention requirement, or request payment of retention at the close of specific tasks shown in Exhibit A. Waiving the Grantees retention requirement is at the sole discretion of the State.
- D.24 RIGHTS IN DATA:** The Grantee agrees that all data, plans, drawings, specifications, reports, computer programs, operating manuals, notes, and other written or graphic work produced in the performance of this Grant Agreement shall be in the public domain. The Grantee may disclose, disseminate and use in whole or in part, any final form data and information received, collected, and developed under this Grant Agreement, subject to appropriate acknowledgement of credit to the State for financial support. The

Grantee shall not utilize the materials for any profit-making venture or sell or grant rights to a third party who intends to do so.

D.25 SEVERABILITY OF UNENFORCEABLE PROVISION: If any provision of this Grant Agreement is held invalid or unenforceable by a court of final jurisdiction, all other provisions of this Grant Agreement shall be construed to remain fully valid, enforceable, and binding on the parties.

D.26 STATE REVIEWS AND INDEMNIFICATION: The parties agree that review or approval of Project applications, documents, permits, plans and specifications or other Project information by the State is for administrative purposes only and does not relieve the Grantee of the responsibility to properly plan, design, construct, operate, maintain, implement, or otherwise carry out the Project. To the extent permitted by law, the Grantee agree to indemnify, defend and hold harmless the State and the State against any loss or liability arising out of any claim or action brought against the State from and against any and all losses, claims, damages, liabilities or expenses, of every conceivable kind, character and nature whatsoever arising out of, resulting from, or in any way connected with:

- a) The Project or the conditions, occupancy, use, possession, conduct or management of, work done in or about, or the planning, design, acquisition, installation, or construction, of the Project or any part thereof;
- b) Performing any of the terms contained in this Grant Agreement or any related document;
- c) Any violation of any applicable law, rule or regulation, any environmental law (including, without limitation, the Federal Comprehensive Environmental Response, Compensation and Liability Act, the Resource Conservation and Recovery Act, the California Hazardous Substance Account Act, the Federal Water Pollution Control Act, the Clean Air Act, the California Hazardous Waste Control Law and CWC Section 13304, and any successors to said laws), rule or regulation or the release of any toxic substance on or near the System; or
- d) Any untrue statement or alleged untrue statement of any material fact or omission or alleged omission to state a material fact necessary to make the statements required to be stated therein, in light of the circumstances under which they were made, not misleading with respect to any information provided by the Grantee for use in any disclosure document utilized in connection with any of the transactions contemplated by this Grant Agreement. Grantee agrees to pay and discharge any judgment or award entered or made against the State with respect to any such claim or action, and any settlement, compromise or other voluntary resolution. The provisions of this section shall survive the term of the Grant Agreement.

D.27 SUCCESSORS AND ASSIGNS: This Grant Agreement and all of its provisions shall apply to and bind the successors and assigns of the parties. No assignment or transfer of this Grant Agreement or any part thereof, rights hereunder, or interest herein by the Grantee shall be valid unless and until it is approved by State and made subject to such reasonable terms and conditions as State may impose.

D.28 TERMINATION, IMMEDIATE REPAYMENT, INTEREST: This Grant Agreement may be terminated by written notice at any time prior to completion of the Project, at the option of the State, upon violation by the Grantee of any material provision after such violation has been called to the attention of the Grantee and after failure of the Grantee to bring itself into compliance with the provisions of this Grant Agreement within a reasonable time as established by the State. In the event of such termination, the Grantee agrees, upon demand, to immediately repay to the State an amount equal to the amount of grant funds disbursed to the Grantee prior to such termination. In the event of termination, interest shall accrue on all amounts due at the highest legal rate of interest from the date that notice of termination is mailed to the Grantee to the date of full repayment by the Grantee.

D.29 UNENFORCEABLE PROVISION: In the event that any provision of this Grant Agreement is unenforceable or held to be unenforceable, then the parties agree that all other provisions of this Grant Agreement have force and effect and shall not be affected thereby.

D.30 WAIVER OF RIGHTS: None of the provisions of this Grant Agreement shall be deemed waived unless expressly waived in writing. It is the intention of the parties here to that from time to time either party may waive any of its rights under this Grant Agreement unless contrary to law. Any waiver by either party of rights

arising in connection with the Grant Agreement shall not be deemed to be a waiver with respect to any other rights or matters, and such provisions shall continue in full force and effect.

D.31 WITHHOLDING OF GRANT DISBURSEMENTS: The State may withhold all or any portion of the grant funds provided for by this Grant Agreement in the event that the Grantee has materially violated, or threatens to materially violate, any term, provision, condition, or commitment of this Grant Agreement; or the Grantee fails to maintain reasonable progress toward completion of the Project.

EXHIBIT E
REPORT FORMAT AND REQUIREMENTS

These reporting outlines should be followed. Submitting reports in an alternative format requires State approval.

QUARTERLY PROGRESS REPORT

Grantee shall submit Quarterly Progress Reports on a consistent basis to meet the State's requirement for disbursement of funds. The quarterly progress report should describe the work performed during the reporting period. For each project, describe the work performed including:

PROJECT INFORMATION (INCLUDE ANY OF THE BELOW THAT WERE APPLICABLE DURING THE REPORTING PERIOD)

- Legal matters.
- Engineering matters.
- Environmental matters.
- Status of permits, easements, rights-of-way, and approvals as may be required by other State, federal, and/or local agencies.
- Major accomplishments during the quarter (i.e. tasks completed, milestones met, meetings held or attended, press releases, etc).
- Discussion of data submittal effort(s) for the previous quarter, including a description of the data submitted and date(s) of submittal.
- Issues/concerns that have, will, or could affect the schedule or budget, with a recommendation on how to correct the matter.
- Description of any differences between the work performed and the work outlined in the project work plans.

COST INFORMATION

- Provide a Table showing all costs incurred during the quarter by the Grantee, and each contractor working on the project. The Table should include all costs as they relate to the Work Plan tasks.
- A discussion on how the actual budget is progressing in comparison to the project budget included in the Work Plan.
- A revised budget, including an explanation of why the revisions were necessary, by task, if changed from latest budget shown in Exhibit C, Budget. Note, a revised budget may require an official amendment to the Agreement before it is accepted as final.

SCHEDULE INFORMATION

- A schedule showing actual progress verse planned progress as shown in Exhibit B.
- A discussion on how the actual schedule is progressing in comparison to the schedule in Exhibit B.
- A revised schedule, by task, if changed from latest schedule in Exhibit B. Note, a revised schedule may require an official amendment to the Agreement before it is accepted as final.

ANTICIPATED ACTIVITIES NEXT QUARTER

- Provide a description of anticipated activities for the next quarterly reporting period.

FINAL REPORT

A Final Report is required for the project identified in the Work Plan, Exhibit A. This report will include the following Sections:

EXECUTIVE SUMMARY

The Executive Summary consists of a maximum of ten (10) pages summarizing project information (see report status section below for topics). The Executive Summary should include the following:

- Brief description of work proposed to be done in the original USRP Grant application.
- Description of actual work completed and any deviations from the work plan identified in the Grant Agreement. List any official amendments to the Agreement, with a short description of the amendment

METHODS/ANALYSIS/CONSTRUCTION/RESULTS

- A description of conditions before the project was executed.
- An analysis of the techniques used, and a description of planned long-term monitoring.
- If applicable, describe the findings of any study and whether the study determined the engineering, hydrologic, hydrogeologic, environmental, economic and financial feasibility of the project.
- A description of the results of the project.
- Photographs of restoration techniques and activities; and community participation (i.e. design charettes, community meetings, site tours, volunteer workers) if part of the project.
- Photographs during and after construction to document project conditions. Include specific geographic positions through mapped photo points and/or GPS readings, so images can be produced from the same vantage point in subsequent years to document long-term vegetation growth, channel formation, and geomorphic response to bankfull and flood flows.

REPORTS AND/OR PRODUCTS

- Provide a copy of any final technical report or study, produced for this project.
- Provide a copy of the final Monitoring and Maintenance Plan for this project.
- Provide a map and shapefile(s) showing the location of the completed project. A description of the geographic projection and datum used for the shapefile must be submitted with the shapefile; (e.g. NAD '83 datum and either a UTM 10 or UTM 11 projection, dependent on the project's location).
- Provide an electronic copy of any as-built plans (media: DVD-ROM; PDF format).
- For projects involving a modeling component, Grantee shall provide the major input data files, parameters, calibration statistics, and output files.
- Provide copies of any data collected along with location maps.

COST & DISPOSITION OF FUNDS INFORMATION

- A summary Table of invoices showing:
 - The date each invoice was submitted to State.
 - The amount of the invoice.
 - The date the check was received.
 - The amount of the check (If a check has not been received for the final invoice, then state so).
- A spreadsheet summary of the original budget costs by task versus the final project costs

ADDITIONAL INFORMATION

- A final project schedule showing actual progress verse planned progress.
- Certification from a California Registered Civil Engineer that the project was conducted in accordance with the approved Work Plan and any approved modifications thereto.
- Submittal schedule for Monitoring Reports to be undertaken beyond the grant period and an outline of the proposed reporting format.

ELECTRONIC REPORT FORMATTING

Grantee agrees that work funded under this Grant Agreement will be provided in an electronic format to State. Electronic submittal of final reports, plans, studies, data, and other work performed under this grant shall be as follows:

- Text preferably in MS WORD or text PDF format.
- Files generally less than 10 MB in size.
- Files named so that the public can determine their content.

EXHIBIT F**STATE AUDIT DOCUMENT REQUIREMENTS**

The following provides a list of documents typically required by State Auditors and general guidelines for Grantee. List of documents pertains to both Grant, and Grantee's Cost Share, and details the documents/records that State Auditors would need to review in the event of this Grant Agreement is audited. Grantee should ensure that such records are maintained for each funded project.

List of Documents for AuditInternal Controls:

1. Organization chart (e.g., Agency's overall organization chart and organization chart for this Grant Agreement's funded projects).
2. Written internal procedures and flowcharts for the following:
 - a. Receipts, deposits and disbursements
 - b. State reimbursement requests
 - c. Grant expenditure tracking
 - d. Guidelines, policy, and procedures on grant funded Program/Project
3. Audit reports of the Agency internal control structure and/or financial statements within the last two years.
4. Prior audit reports on grant funded Program/Project.

Agreements and Contracts:

1. Original signed Grant Agreement, any amendment(s) and budget modification documents.
2. A listing of all bond-funded grants received from the State.
3. A listing of all other funding sources for the project.
4. All subcontractor and consultant contracts and related or partners documents, if applicable.

Invoices:

1. Invoices from vendors and subcontractors for expenditures submitted to the State for payments under this Grant Agreement.
2. Documentation linking subcontractor invoices to State reimbursement, requests and related budget line items under this Grant Agreement.
3. Reimbursement requests submitted to the State for this Grant Agreement.

Cash Documents:

1. Receipts (copies of warrants) showing payments received from the State.
2. Deposit slips (or bank statements) showing deposit of the payments received from the State.
3. Cancelled checks or disbursement documents showing payments made to vendors, subcontractors, consultants, and/or agents under this Grant Agreement.
4. Bank statements showing the deposit of the receipts.

Accounting Records:

1. Ledgers showing entries for receipts and cash disbursements.
2. Ledgers showing receipts and cash disbursement entries of other funding sources.
3. Bridging documents that tie the general ledger to requests for grant reimbursement.

Administration Costs: Supporting documents showing the calculation of administration costs.

Personnel:

1. List of all contractors and Agency staff that worked on this grant funded project.
2. Payroll records including timesheets for contractor staff and the Agency personnel who provided services charged to this Grant Agreement.

Project Files:

1. All supporting documentation maintained in the project files.
2. All correspondence related to this Grant Agreement.

Addendum No. 1

Three Creeks Parkway Restoration Project

Mitigated Negative Declaration

The following Addendum has been prepared in compliance with CEQA.

1.0 INTRODUCTION

The Three Creeks Parkway Restoration Project in Brentwood, Contra Costa County is a project that is jointly proposed by the Contra Costa County Flood Control and Water Conservation District (“the District” or “CCCFCWCD”) for flood protection and American Rivers, a national non-profit organization that protects wild rivers, restores damaged rivers and conserves clean water for people and nature. The California Environmental Quality Act (CEQA) (Pub. Resources Code, Section 21000, et seq.) requires local governments to conduct environmental review on public and private development projects. On September 27, 2016, the Contra Costa County Board of Supervisors adopted an Initial Study/Mitigated Negative Declaration for the project (“2016 IS/MND”) (State Clearinghouse No. 2016082008) (on file with the District) on the basis of an Initial Study that was prepared and circulated for 30 days, pursuant to Section 15063 of the *CEQA Guidelines* (Title 14, California Code of Regulations, Sections 15000 et seq.). The project evaluated included proposed improvements to an approximately 4,000 linear foot section of Marsh Creek for flood conveyance capacity by widening the channel with a floodplain and floodplain benches and restoration of native vegetation of the creek banks and floodplain (“original project”). While the IS/MND was adopted by the County Board of Supervisors, the proposed project was not approved at that time.

Since then, there have been a few additions to the original project design. These include: (1) the incorporation of an existing water quality basin adjacent to the lower reach of Marsh Creek and improvements to the adjacent City of Brentwood Sungold Park, (2) the use of an adjoining parcel adjacent to the middle reach as a staging area and to place excavated materials, (3) the construction of a clear-span pedestrian bridge, and (4) the use of temporary creek crossings during construction (“updated project”). These proposed additions include a total of approximately 13.45 acres on three parcels that abut the original project area for the evaluation of the updated project.

2.0 PURPOSE OF ADDENDUM

The purpose of this Addendum is to analyze potential impacts that may result from the proposed additions to the original project and to document that the 2016 IS/MND for the original project adequately addresses the potential environmental impacts of the updated project pursuant to CEQA (Pub. Resources Code, Section 21000, et seq.), and that no subsequent or supplemental environmental document is required.

CEQA Guidelines Section 15164(b) states that an addendum to an adopted negative declaration may be prepared if only minor technical changes or additions are necessary or none of the conditions described in Section 15162 calling for the preparation of a subsequent EIR or negative declaration have occurred.

CEQA Guidelines Section 15162(a) provides guidance in this matter and states that “when an EIR has been certified or a negative declaration adopted for a project, no subsequent EIR shall be prepared for that project unless the lead agency determines, on the basis of substantial evidence in the light of the whole record, one or more of the following:

- (1) Substantial changes are proposed in the project which will require major revisions of the previous EIR or negative declaration due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects;
- (2) Substantial changes occur with respect to the circumstances under which the project is undertaken which will require major revisions of the previous EIR or Negative Declaration due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; or
- (3) New information of substantial importance, which was not known and could not have been known with the exercise of reasonable diligence at the time the previous EIR was certified as complete or the Negative Declaration was adopted, shows any of the following:
 - (A) The project will have one or more significant effects not discussed in the previous EIR or negative declaration;
 - (B) Significant effects previously examined will be substantially more severe than shown in the previous EIR;
 - (C) Mitigation measures or alternatives previously found not to be feasible would in fact be feasible, and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative; or
 - (D) Mitigation measures or alternatives which are considerably different from those analyzed in the previous EIR would substantially reduce one or more

significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative.”

CEQA Guidelines Section 15164(d) provides that the decision-making body shall consider the addendum in conjunction with the adopted negative declaration prior to making a decision on the project.

Based on the analysis in this Addendum No. 1, the District concludes that the updated project would not result in any new significant adverse impacts, nor an increase in the severity of significant impacts previously identified in the 2016 IS/MND for the original project. Nor would the updated project require the adoption of any new or considerably different mitigation measures or alternatives. Therefore, this Addendum No. 1 is the appropriate form of environmental review required under CEQA and has been prepared to satisfy the requirements of *CEQA Guidelines* Sections 15162 and 15164.

3.0 PROJECT DESCRIPTION

3.1 Summary of the Original Project

The original project is a multi-benefit flood control and creek restoration project to improve flood conveyance capacity and restore native vegetation along an approximately 4,000 linear foot section of Marsh Creek which includes widening the channel with a floodplain and floodplain benches and planting with native vegetation. When implementation is complete, the project would include up to 1.0 acre of frequently inundated floodplain (seasonal wetland), 1.87 acres of woody riparian vegetation, and 1.87 acres of grasslands and native scrub. The project would also enhance habitat and recreation within the watershed.

3.2 Proposed Additions to the Original Project

The District and American Rivers propose to update the original project to incorporate an existing water quality basin and make improvements to the adjacent City of Brentwood Sungold Park, use an adjoining parcel as a staging area and to place excavated materials, construct a clear-span pedestrian bridge across Marsh Creek, and to use temporary creek crossings during construction (**Figure 1**).

As detailed in **Table 1**, the amount of excavation has slightly decreased since the original project due to changes in assumptions regarding how wide the channel could be excavated and project refinements as the design advanced. In addition, with regard to the proposed project

additions, about 5,000 cubic yards of material would be excavated to incorporate the water quality basin. Thus, an increase of 2,000 cubic yards would be excavated as compared to the original project. A total of approximately 26,000 cubic yards of excavated materials would be placed on the Griffith parcel under the updated project.

(1) Lower Reach - Incorporation of Water Quality Basin

There is an existing 0.7-acre linear water quality/detention basin (Assessor Parcel 017-670-040) located between Carmel Estates/Sungold Park and Marsh Creek to detain runoff from the Carmel Estates residential development for treatment before discharge into Marsh Creek (**Figure 2**). The detention basin is enclosed on all sides by a fence. This basin would be incorporated into the project by adding native vegetation including trees and shrubs, creating a creekside mulch path, removing the fences, and lowering the eastern berm of the basin and western bank of the creek (**Figure 2A**). This would allow flood waters from the creek to spill into the basin as needed. The western fence may be reinstalled along the western length of the basin. In addition, a new trail, which would also serve as a District maintenance access road, would be added to the adjacent City of Brentwood Sungold Park (017-670-039, 017-450-065). Other improvements, such as landscaping and a creek overlook with seating and an interpretive area, would be added to showcase the environmental benefits of the project (**Figure 2A**). The total area of improvements would be approximately 3.25 acres.

(2) Middle Reach – Staging Area and Excavated Material Placement on the Griffith Parcel

The Griffith parcel (also known as DLT Ventures or the Hancock parcel) is a 10.2 acre undeveloped property located between Sand and Deer Creeks adjacent to the west side of the middle reach of Marsh Creek (017-110-011) (**Figure 3**). The Griffith parcel is bounded on the north, south, and east by channelized creek and to the west by private residential property. These lands are strictly uplands and are located above the top of bank of all three creeks. The vacant Griffith parcel would be used as a staging area and the placement of excavated material (26,000 cubic yards) for the updated project. The excavated material would be spread across the parcel to elevate the ground surface (**Figure 3A**).

(3) Middle Reach – Pedestrian Bridge

The updated project anticipates the pedestrian bridge would be installed just upstream of Marsh Creek's confluence with Sand Creek near the northeastern corner of the Griffith parcel (**Figure 3**). It is anticipated that the bridge would be 10 feet wide and approximately 100 feet long and would clear-span the creek (there would be no footings in the creek).

(4) Temporary Creek Crossings

The updated project anticipates up to six temporary creek crossings to facilitate construction access between the excavation areas on the east side of Marsh Creek and the Griffith parcel on the west side of Marsh Creek. Temporary creek crossings are proposed across Marsh Creek near the water quality basin in the lower reach, and across Sand, Marsh and Deer creeks to the Griffith parcel on the west bank (**Figure 1**). While Figure 1 shows four crossings locations, the actual number, locations, and design will be determined by the project contractor.

The creek crossings would be installed by placing a temporary culvert in the channel and then placing fill (i.e., clean gravel) that is wrapped in geotextile fabric over the culvert. The fabric would keep the fill separated from the creek environment and would make the removal clean and quick, as the fill would be kept separate from the creek bed materials. The fill material utilized would be free of silt or other contaminants. Each culvert could be up to 60 feet in length. Total area of each crossing would be approximately 2,500 square feet and each crossing would require approximately 600 cubic yards of fill material. The culverts would extend below the ordinary high water mark (OHWM) but fill would be expected to remain mostly above.

The creek crossings would be in place only during the grading operations. Upon completion of grading, the earthen fill, fabric, and pipe would be removed and the original channel conditions restored. As explained further in **Section 4.2** below, any surface flows in these channels at the time of installation would be uninterrupted and Best Management Practices (BMPs) would be in place to ensure there is no release of sediment downstream. However, at least one creek crossing is proposed to remain in place through restoration planting to connect the Griffith parcel on the west side of Marsh Creek with the east side of the creek.

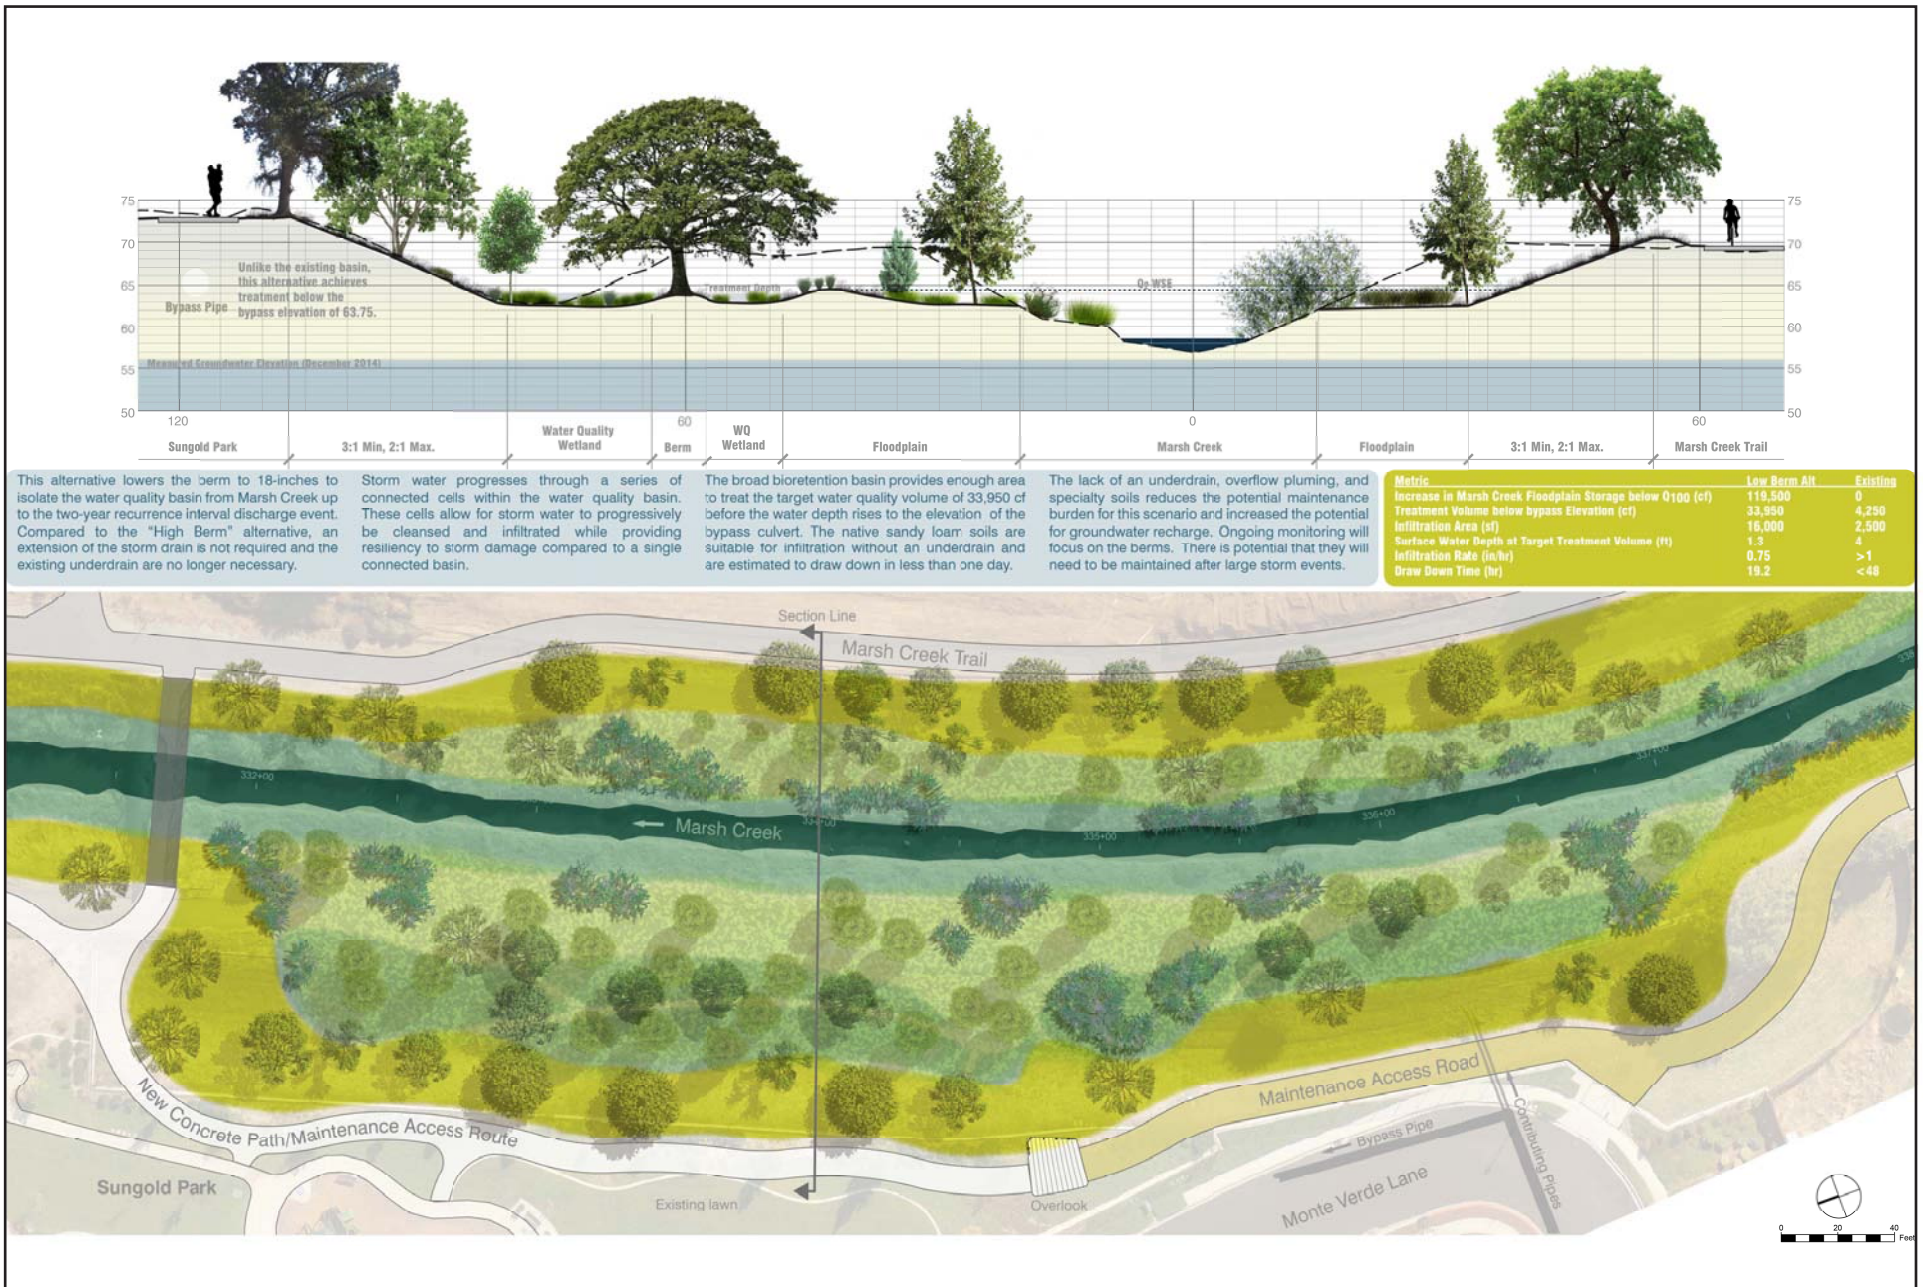

The proposed additions would not affect the duration of project construction; as with the original project, the updated project would still be constructed over a period of approximately two months during the dry season (between April and October) when creek flows are low and the chance of precipitation is low. Plant restoration would occur afterwards (i.e., November to February).

4.0 ENVIRONMENTAL IMPACTS OF THE PROPOSED PROJECT ADDITIONS

The 2016 IS/MND evaluated the potential environmental impacts of the original project under the 17 resource topics included in the CEQA Environmental Checklist. An examination of the proposed additions shows that the updated project would have the potential to affect the previous analysis for six of the 17 resource topics. Those six topics include air quality, biological resources, cultural resources, geology and soils, greenhouse gas emissions, and noise. These six resource topics are examined further in detail in this Addendum. For the remaining 11 resource topics (aesthetics, agriculture and forestry resources, hazards and hazardous materials, hydrology/water quality, land use/planning, mineral resources, population/housing, public services, recreation, transportation/traffic, utilities/service systems), a brief explanation is provided below as to why they do not need to be examined in detail.

Aesthetics

Incorporation of the water quality basin, improvements to the adjacent City of Brentwood Sungold Park, and construction of the pedestrian bridge would not degrade the character of the project area but instead would enhance the aesthetic quality of the area. As the Griffith parcel is currently fallow and undeveloped, placing fill onto the parcel would not cause any significant visual changes. The proposed temporary creek crossings would be in place only during construction and the original channel conditions would be restored after the work is completed. Therefore, the updated project would not result in new or more severe aesthetic impacts; no further discussion in the Addendum is required.

Agriculture and Forestry Resources

The Farmland Mapping and Monitoring Program (FMMP) identifies the project site as Urban and Built-Up Land¹ (California Department of Conservation 2014) and thus, as with the original project, the updated project would not result in the conversion of land designated either as Prime Farmland, Unique Farmland, or Farmland of Statewide Importance to non-agricultural

¹ Land occupied by structures with a building density of at least 1 unit to 1.5 acres, or approximately 6 structures to a 10-acre parcel. This land is used for residential, industrial, commercial, construction, institutional, public administration, railroad and other transportation yards, cemeteries, airports, golf courses, sanitary landfills, sewage treatment, water control structures, and other developed purposes.

use. Therefore, the updated project would not result in new or more significant impacts on farmland; no further discussion in the Addendum is required.

Hazards and Hazardous Materials

According to an EnviroStor database search for known hazardous materials contamination, conducted on October 10, 2017, the project site is not located on a property associated with a hazardous site listed under Government Code Section 65962.5, also known as the Cortese List and thus as with the original project, the updated project would not create a significant hazard to the public or the environment associated with a hazardous site listed under Government Code Section 65962.5. Therefore the updated project would not result in new or more significant impacts related to hazardous materials; no further discussion in the Addendum is required.

Hydrology/Water Quality

Similar to the original project, the updated project would be constructed over a period of approximately two months during the dry season (between April and October) when creek flows are low and the chance of precipitation is low. The updated project would be subject to National Pollutant Discharge Elimination System (NPDES) requirements, and would be required to develop and implement a Stormwater Pollution Prevention Plan (SWPPP). The SWPPP would identify measures (or BMPs) to be implemented during construction activities to control erosion and release of sediment and other pollutants. The SWPPP would also ensure that construction activities would not cause an exceedance of the Central Valley Regional Water Quality Control Board's (RWQCB) water quality standards. The updated project would not increase the amount of impervious surfaces over what was analyzed in the 2016 IS/MND. Therefore, the updated project would not increase the volume of runoff. Additionally, incorporation of the existing water quality basin would improve the water quality of Marsh Creek. Thus, the updated project would not result in new or more significant impacts related to hydrology and water quality; no further discussion in the Addendum is required.

Land Use and Planning

According to the City of Brentwood General Plan Land Use Map (2014), Marsh Creek is mapped as a waterway, Sungold Park is designated as Park (P), and the Griffith parcel and the area containing the water quality basin are designated as Residential-Low Density (R-LD). The updated project would not change the existing or the designated land uses of the affected parcels. Placing excavated fill onto the Griffith parcel would be consistent with the intended land use of the parcel since it would be utilized for development of low density residential housing. Utilizing the vacant and developed Griffith parcel as a temporary staging area would

not result in adverse land use impacts. Thus, the updated project would not result in new or more significant land use impacts; no further discussion in the Addendum is required.

Mineral Resources

There are no known mineral resources on the additional lands of the updated project site. No mineral extraction occurs or is known to have occurred on the updated project site. Therefore, the updated project would not result in new or more severe impacts related to mineral resources; no further discussion in the Addendum is required.

Population/Housing, Public Services, Recreation, Transportation/Traffic, Utilities/Service Systems

Incorporation of the water quality basin and the other proposed additions to the original project would not increase the area population and thus would not result in an increased demand for parks, public services, utilities, or energy resources nor result in increased traffic. The use of the Griffith parcel for a staging area and placement of excavated materials would, in fact, reduce vehicle trips during construction that would have resulted from traveling to a further staging area or off-hauling of excavated materials under the original project. Thus, the updated project would not result in new or more significant impacts related to any of these resource areas; no further discussion in the Addendum is required.

The impacts of the updated project as they relate to air quality, biological resources, cultural resources, geology and soils, greenhouse gas emissions, and noise are examined further in detail below.

4.1 AIR QUALITY

4.1.1 Findings of the Adopted IS/MND

The 2016 IS/MND concluded that with mitigation, the original project would not result in significant air quality impacts or conflict with existing or future air quality planning efforts as follows:

- Construction emissions associated with excavation activities of approximately 24,000 cubic yards of material and associated off-haul trips for the original project were determined to be substantially below thresholds of significance for criteria pollutants. However, construction would result in significant short-term air quality impacts associated with particulate matter (dust). The 2016 IS/MND includes Mitigation Measure

AIR-1 to reduce impacts from dust generated by project construction to a less than significant level.

- Due to the size and nature of the original project, the potential was low for community health risk and hazards from construction-phase emissions of toxic air contaminants (TACs). However, sensitive receptors such as residences and a daycare center are located less than 50 feet, therefore the impact from TACs could be potentially significant and Mitigation Measure AIR-2 was set forth to ensure the impact would be less than significant. The daycare center has since been closed down and is no longer operating at this site.
- The impact from operational emissions of the original project would be less than significant as the land use would remain the same and minimal vehicle trips would be added related to monitoring and maintenance activities.
- Construction and operation would not cause or be affected by odors with incorporation of Mitigation Measure AIR-1 and AIR-2.
- Increases in temporary and long-term air pollutant emissions due to the original project would not result in a cumulatively considerable net increase of any of the pollutants for which the project region is in nonattainment status for federal or state ambient air quality standards with incorporation of Mitigation Measure AIR-1 and AIR-2.

4.1.2 Impact Analysis of Updated Project

The updated project would result in excavation of approximately 26,000 cubic yards of material, 2,000 cubic yards more than the original project. The original project planned for off-hauling the excavated materials approximately 5 miles off-site to the Dutch Slough project site in Oakley, but instead would be placed onto the adjacent Griffith parcel for the updated project.

Construction Phase Impacts

As stated above, the 2016 IS/MND found that construction phase emissions of the original project would be substantially below thresholds of significance for criteria pollutants. Due to the size and nature of the proposed small pedestrian bridge and up to six temporary creek crossings as well as the placement of excavated materials on Griffith parcel, the incremental emissions from additional construction activities would not be substantial enough to increase the total criteria pollutant emissions such that they would exceed the thresholds of significance

for criteria pollutants. Additionally, the 2016 IS/MND analysis of construction emissions included emissions that would be generated from the hauling of excavated materials to a site 5 miles away. With the updated project, even though an additional 2,000 cubic yards of materials would be excavated, instead of being off-hauled, all of the excavated materials would be deposited onto the adjacent Griffith parcel. Thus, the incremental emissions from additional excavation and ground disturbance would be offset by the elimination of off-hauling trips.

As with the original project, due to the scale and short duration of construction activities, there would be a low community health risk and hazard from construction-phase emissions of TACs associated with the updated project. However due to the proximity of sensitive receptors (residences) near the water quality basin and park improvement sites, Mitigation Measure AIR-2 would be implemented to ensure the impact would be less than significant.

In summary, the updated project would not substantially increase construction phase air quality impacts above what was analyzed in the 2016 IS/MND and the same mitigation measures would be implemented to ensure that the impact from the construction of the updated project would be less than significant.

Operational Impacts

Similar to the original project, the updated project would result in no change in land use and no significant permanent increase in vehicle trips. Therefore, similar to the conclusions of the 2016 IS/MND, operational emissions associated with the updated project would not change substantially from existing conditions, and would not exceed the applicable BAAQMD thresholds of significance for operational emissions. The impact from air pollutant emissions during operation would be less than significant.

Finding: The potential impacts of the updated project related to air quality would be similar to those analyzed in the 2016 IS/MND and no new or substantially increased substantially significant impacts would result. Thus, similar to the original project, the updated project would implement the mitigation measures for the original project to ensure construction-related impacts are reduced to a less-than-significant level. No new mitigation is required.

4.2 BIOLOGICAL RESOURCES

4.2.1 *Findings of the Adopted IS/MND*

The 2016 IS/MND concluded that with mitigation, the original project impacts would result in less-than-significant impacts on biological resources as follows:

- No special-status plant species are expected to occur on the project site due to the level of disturbance, the types of soils, lack of suitable habitat or substrate, and geographic isolation from known populations, and therefore, the impact was found to be less than significant.
- The potential exists for nine special-status wildlife species to occur on the project site and numerous other bird species that are protected under the Migratory Bird Treaty Act (MBTA) and California Fish and Game Code (CFGF) to be present – silvery legless lizard, California red-legged frog, Pacific (western) pond turtle, Chinook salmon, steelhead (Central Valley distinct population segment [DPS]), burrowing owl, white-tailed kite, loggerhead shrike, Swainson’s hawk, and many other migratory bird species. Implementation of Mitigation Measures BIO-1, BIO-2, and BIO-3 would reduce impacts to a less-than-significant level.
- Impact on sensitive natural communities and riparian habitat would be less than significant.
- Marsh Creek is expected to qualify as a water of the U.S. and a water of the State. Thus, impacts would result to jurisdictional waters and Mitigation Measure BIO-4 would be implemented to reduce the impact to less than significant.
- Implementation of Mitigation Measure BIO-2 would ensure that temporary impacts to wildlife movement would be less than significant.
- Would not conflict with local policies, ordinances protecting biological resources, or provisions of an adopted HCP/NCCP.

4.2.2 *Impact Analysis of Updated Project*

The updated project would have similar impacts as the original project. In August 2017, Wood Biological Consulting performed a site reconnaissance survey of the additional areas of disturbance for the updated project, including the water quality basin, the area where there

would be improvements to Sungold Park, and the Griffith parcel as summarized below. The survey report is on file with the District.

Special-Status Plant Species

The survey report concluded that there was potential of occurrence for two additional special-status plant species based on an updated search of the California Natural Diversity Database (CNDDDB). Similar to the conclusions of the 2016 IS/MND, the survey report concluded that the presence of all special-status plants can be ruled out due to a lack of suitable habitat or substrate, geographic isolation from known populations, or the fact that they would have been detectable during the survey performed. Therefore, as with the original project, the updated project would not result in an impact on special-status plant species.

Special-Status Wildlife Species

The survey report concluded that there was potential of occurrence for five additional special-status wildlife species based on an updated search of the CNDDDB. Similar to the conclusions of the 2016 IS/MND, implementation of the updated project could affect four federally and/or state listed, candidate or fully protected wildlife species including California red-legged frog, Central Valley steelhead, Swainson's hawk, and white-tailed kite, and five special-status wildlife species, including burrowing owl, Chinook salmon, loggerhead shrike, Pacific pond turtle, and silvery legless lizard. Mitigation Measures BIO-1 through BIO-3 in the 2016 IS/MND would still apply to the updated project to reduce the impact to a less-than-significant level.

Jurisdictional Waters

As noted in the 2016 IS/MND, Marsh Creek is expected to qualify as a water of the U.S. and a water of the State and some of the modifications to Marsh Creek would affect jurisdictional waters. Mitigation Measure BIO-4 is set forth to minimize the impact. Incorporation of the water quality basin would not involve work in an area involving jurisdictional waters. The pedestrian bridge would not impact the creek below the OHWM and it is anticipated that jurisdictional waters would not be affected by the future bridge as it would be clear-span. Placement of excavated materials on the Griffith parcel and using the parcel as a staging area would also not affect jurisdictional waters. Work in the stream channel to install temporary creek crossings could still result in a potential significant impact to jurisdictional waters. Similar to the original project, Mitigation Measure BIO-4 would be implemented to ensure impacts to jurisdictional waters would be reduced to a less-than-significant level.

Wildlife Corridors

The 2016 IS/MND evaluated the potential for the original project to affect wildlife movement, including the potential effects of work in the creek channel on fish movement. The culverts for the proposed temporary land bridges would be positioned in the active channel. However, to maintain channel flows, similar to the original project, Mitigation Measure BIO-4 will be implemented which requires construction in the active channels to be restricted to the dry season (April 15 through October 15). Thus, the culverts for the temporary creek crossings would be installed during the dry season when there are no or low flows and the impact on migratory fish would be less than significant. Furthermore, Mitigation Measure BIO-4 requires all work within the stream channel to be subject to BMPs, which would ensure there would be no release of sediment downstream.

Other Biological Resources

Due to the nature of the proposed project additions, the conclusions of the 2016 IS/MND would remain the same for the updated project in regards to sensitive natural communities, local policies or ordinances, and adopted HCP/NCCP. All impacts would be less than significant or less than significant with implementation of applicable mitigation measures found in the 2016 IS/MND.

Finding: The potential impacts of the updated project on biological resources would be the same as those analyzed in the 2016 IS/MND. As with the original project, the mitigation measures listed in the 2016 IS/MND would be implemented to ensure impacts would be less than significant. Therefore, no new or substantially increased significant impacts would result from the updated project beyond those discussed in the 2016 IS/MND. No new mitigation is required.

4.3 CULTURAL RESOURCES, INCLUDING TRIBAL CULTURAL RESOURCES

4.3.1 Findings of the Adopted IS/MND

The 2016 IS/MND concluded that with mitigation, the original project would not result in significant impacts on cultural resources as follows:

- The original project does not contain any historical resources.
- With regard to archaeological resources, no recorded archaeological resources are known from the project area and there is no evidence of prehistoric, historic deposits, or

prehistoric cultural soils on the project site. However, the banks of Marsh Creek and areas immediately adjacent to Marsh Creek are considered sensitive for prehistoric archaeological deposits and human remains. Thus, Mitigation Measure CUL-1 was set forth to reduce the impacts to unknown historic and prehistoric archaeological resources and human remains to a less than-significant level.

- Excavation on the project site could potentially unearth and inadvertently damage paleontological resources. Mitigation Measure CUL-2 was set forth to reduce the impact on paleontological resources to a less-than-significant level.
- No known tribal cultural resources were identified through contacts with the Native American tribes identified by Native American Heritage Commission (NAHC), and that with implementation of Mitigation Measures CUL-1 and CUL-2, the original project would not affect any unknown tribal cultural resources in the area and therefore, the impact was less than significant.

4.3.2 Impact Analysis of Updated Project

The updated project includes the addition of 13.45 acres of land that abut the original project footprint. William Self Associates (WSA) Staff Archaeologist Patrick Zingerella conducted a pedestrian archaeological examination of the additional areas affected by the updated project on August 28, 2017 (WSA 2017). The survey report is on file with the District. There are no structures on the additional project lands. Therefore, there is no potential for the updated project to affect historic resources. No prehistoric or historic deposits were observed and no evidence of prehistoric cultural soils (midden) was observed during the archaeological survey. Therefore, as with the original project, there would be no significant impacts on any known archaeological resources due to the updated project. However, there would still be a potential to encounter buried archaeological resources or human remains during excavation and grading and Mitigation Measure CUL-1 would apply to the updated project to avoid a significant impact on any resources that are encountered.

The District will need to obtain a permit from the U.S. Army Corps of Engineers (USACE) and other applicable agencies for work within the creek. As part of the review process, the USACE consults with applicable federal agencies. In conjunction with consultation with the State Historic Preservation Office (SHPO), pursuant to Section 106 of the National Historic Preservation Act, the SHPO recommended to the USACE to prepare a monitoring and post-review discovery treatment plan consistent with 36 CFR 800.13(a). Mitigation Measure CUL-1

required initial monitoring by a qualified archaeologist to determine an appropriate level of monitoring for the duration of the project. Since receiving the response from the SHPO requesting a monitoring and post-review discovery treatment plan, Mitigation Measure CUL-1 has been updated to be consistent with the direction provided by the SHPO. The updated Mitigation Measure CUL-1 is presented below with the new text added to the mitigation measure shown in double underline and deleted text shown in strikethrough. In addition, Mitigation Measure CUL-2 would apply to the updated project to avoid a significant impact on any paleontological resources that are encountered. Therefore, the updated project would not significantly impact any known or unknown cultural resources in the area, including tribal cultural resources, and there would be a less than significant impact.

Updated Mitigation Measure CUL-1:

To manage any discoveries during construction, all construction crew workers shall following the procedures detailed in the Monitoring and Post Review Discovery Treatment Plan for the Three Creeks Parkway Restoration Project, Contra Costa County, California.

This document includes provisions for crew training, determines an appropriate level of monitoring for the duration of the project, describes the identification of archaeological resources, and the protocols to follow in the case of accidental discoveries.

~~Crew training, initial monitoring by a qualified archaeologist to determine an appropriate level of monitoring for the duration of the project, and additional spot checks pending the results of the initial monitoring shall be conducted prior to and during ground disturbing activities.~~

~~A qualified archaeologist shall be present on the project site to monitor ground disturbing activities and inspect excavated soils to identify any cultural resources and human remains as deemed appropriate by the qualified archaeologist.~~

~~All construction crew workers shall attend a training session led by a qualified archaeologist that discusses (1) the reasons for archaeological resource monitoring; (2) regulatory policies protecting resources and human remains; (3) basic identification of archaeological resources; and (4) the protocol to follow in case of a discovery of such resources.~~

In accordance with CEQA Guideline §15064.5 (f), should any previously unknown historic or prehistoric resources, including but not limited to charcoal, obsidian or chert flakes, grinding bowls, shell fragments, bone, pockets of dark, friable soils, glass, metal, ceramics, wood, privies, trash deposits or similar debris, be discovered during ground disturbing activities, work within 25 feet of these materials should be stopped until a qualified professional archaeologist has an opportunity to evaluate the potential significance of the find and to consult with the lead agency about what appropriate mitigation would be appropriate to protect the resource.

In the event that human remains, or possible human remains, are encountered during project-related ground disturbance, in any location other than a dedicated cemetery, there shall be no further excavation or disturbance of the site or any nearby area reasonably suspected to overlie adjacent remains until the coroner of the county in which the human remains are discovered has determined, that the remains are not subject to the provisions of Section 27492 of the Government Code or any other related provisions of law concerning investigation of the circumstances, manner and cause of death, and the recommendations concerning treatment and disposition of the human remains have been made to the person responsible for the excavation, or to his or her authorized representative, in the manner provided in Section 5097.98 of the Public Resources Code.

The County Coroner, upon recognizing the remains as being of Native American origin, is responsible to contact the NAHC within 24 hours. The Commission has various powers and duties, including the appointment of a Most Likely Descendant (MLD) to the project. The MLD, or in lieu of the MLD, and the NAHC, have the responsibility to provide guidance as to the ultimate disposition of any Native American remains.

Finding: The potential impacts of the updated project on cultural resources would be the same as those analyzed in the 2016 IS/MND, because similar to the original project, the updated project site has no structures that would be considered historic. The site is considered sensitive for archaeological resources due to its location along Marsh, Sand, and Deer Creeks. As with the original project, the mitigation measures listed above would be implemented to avoid significant impacts on previously unknown archaeological resources, human remains, and paleontological resources encountered during construction. With implementation of mitigation measures above, the updated project would not affect any known tribal cultural resources. Therefore, no new or substantially increased significant impacts on cultural and paleontological

resources would result from the updated project beyond those discussed in the 2016 IS/MND. No new mitigation is required.

4.4 GEOLOGY AND SOILS

4.4.1 Findings of the Adopted IS/MND

The 2016 IS/MND concluded that with mitigation, the original project would not result in significant impacts related to geology and soils as follows:

- Although the project site lies within a seismically active region, there are no known active faults crossing the project site and the site is not located within an Earthquake Fault Zone. Therefore, ground rupture is unlikely at the project site and the impact would be less than significant.
- The project site could experience ground shaking due to an earthquake of moderate to high magnitude generated within the San Francisco Bay Region and there could be a potentially significant impact. Implementation of Mitigation Measure GEO-1 would reduce the potential for slope deformation in the event of an earthquake and a less than significant impact from seismic ground shaking would occur. Implementation of Mitigation Measure GEO-1 would also ensure that the impact from expansive soils would be less than significant.
- Impact from liquefaction would be less than significant and no impact from landslides would occur.
- Potential soil erosion from construction activities would be controlled with compliance of the NPDES related to construction site runoff and therefore impacts would be less than significant. Further, erosion would be reduced following project completion due to project improvements such as restoration planting of the creek and water quality basin and therefore would be less than significant. The 2016 IS/MND found that the project site is not underlain by unstable soils and the impact would be less than significant.
- No septic tanks or alternative wastewater disposal systems are included in the original project, and there would be no impact.

4.4.2 Impact Analysis of Updated Project

Similar to the original project, the updated project would implement Mitigation Measure GEO-1, which would require all proposed improvements included in the updated project to be constructed in compliance with recommendations specified in Section 3.3 of the Geotechnical Report (ENGEO 2015; on file with the District). Implementation of Mitigation Measure GEO-1 would reduce impacts from seismic ground shaking and expansive soils to a less than significant level. As mentioned above, a SWPPP would be implemented which would include BMPs to control erosion and release of sediment and other pollutants from the project additions. Thus, similar to the conclusions of the 2016 IS/MND, the impact related to soil erosion during construction would be less than significant. All other impacts, similar to the conclusions of the 2016 IS/MND, would be less than significant.

Finding: The potential impacts of the updated project related to geology and soils would be the same as those analyzed in the 2016 IS/MND for the original project. The impacts would be less than significant with the implementation of the recommendations specified in Mitigation Measure GEO-1. Therefore, no new or substantially increased significant impacts would result from the updated project beyond those discussed in the 2016 IS/MND. No new mitigation is required.

4.5 GREENHOUSE GAS EMISSIONS

4.5.1 Findings of the Adopted IS/MND

The 2016 IS/MND concluded that the original project would not result in significant impacts related to greenhouse gas (GHG) emissions as follows:

- Estimation of greenhouse gas (GHG) emissions from operation of construction equipment and from construction worker vehicles and haul truck trips would generate approximately 44.6 MTCO₂e during construction, which would not result in a significant impact in global climate change.
- The number of periodic vehicle trips for monitoring the success of the restoration plantings and long-term creek maintenance would be minimal and would not substantially increase operational GHG emissions and therefore impacts would be less than significant.

4.5.2 Impact Analysis of Updated Project

Construction of the updated project would slightly increase GHG emissions above what was analyzed in the 2016 IS/MND due to additional excavation and grading to incorporate the water quality basin, improvements to Sungold Park, construction of a pedestrian bridge, and the installation of up to six temporary creek crossings. However, GHG emissions would also decrease as the excavated materials would be placed on the adjacent Griffith parcel and the initially planned 5-mile off-haul trips would be eliminated. Therefore, similar to the conclusions of the 2016 IS/MND, the impact of the updated project's construction-phase GHG emissions would remain less than significant. The impact from operational emissions of the updated project would also remain unchanged from the previous analysis and would be less than significant.

Findings: The potential impacts of the updated project-related to GHG emissions are similar to those analyzed in the 2016 IS/MND. As with the original project, all impacts from GHG emissions would be less than significant. Therefore, no new or substantially increased significant impacts would result from the updated project beyond those discussed in the 2016 IS/MND. No new mitigation is required.

4.6 NOISE

4.6.1 Findings of the Adopted IS/MND

The 2016 IS/MND concluded that with mitigation, the original project would not result in significant impacts related to noise and vibration as follows:

- Noise from construction equipment could impact the surrounding residences, school and daycare center, and park facilities that are located less than 50 feet from various work areas along the creek section. The daycare center located adjacent to the project site has since been closed down. With implementation of Mitigation Measure NOISE-1, which requires compliance with the Brentwood Noise Ordinance and limits construction activities to daytime hours, the impact would be less than significant.
- Due to the nature of construction activities and the distance to the nearby receptors, the impact from construction phase groundborne vibration would be less than significant.
- There would be no increase in operational noise in the project area due to the original project and a less-than-significant impact would occur.

- The original project is not located within two miles of any public airport or private airstrip and would not expose people residing or working in the project area to excessive noise levels.

4.6.2 Impact Analysis of Updated Project

Construction Noise Impacts

Construction noise due to the updated project would slightly increase above what was analyzed in the 2016 IS/MND due to additional excavation and grading to incorporate the water quality basin, improvements to Sungold Park, construction of a pedestrian bridge, the installation of up to six temporary creek crossings, and the hauling of excavated materials to the Griffith parcel. However, the noise increase would be minimal and would not significantly increase noise levels above what was analyzed in the 2016 IS/MND. Furthermore, the updated project would implement Mitigation Measure NOISE-1, and the impact from construction noise would remain less than significant.

Similar to the original project, the updated project would not require pile-driving, blasting, or other activities that could cause substantial groundborne vibration. Haul trucks could result in some level of vibration while hauling materials to the Griffith parcel. However, the trucks would not travel outside the project site on roadways that are adjacent to sensitive receptors. Thus, similar to the conclusions of the 2016 IS/MND, the updated project would result in a less-than-significant impact from groundborne vibrations.

Operational Noise Impacts

Impacts from operational noise of the updated project would remain the same as with the original project and a less-than-significant impact would occur.

Finding: The potential noise impacts of the updated project are similar to those analyzed in the 2016 IS/MND for the original project. For reasons stated above, the updated project's potential impacts related to noise would be less than significant with mitigation measures incorporated. Therefore, no new or substantially increased significant impacts would result from the updated project beyond those discussed in the 2016 IS/MND. No new mitigation is required.

5.0 CONCLUSION

Based on the above analysis and discussion, no substantive revisions are needed to the 2016 IS/MND, because no new significant impacts or impacts of substantially greater severity would

result from the construction and operation of the updated project. Furthermore, there have been no changes in circumstances in the project area that would result in new significant environmental impacts or substantially more severe impacts; and no new information has come to light that would indicate the potential for new significant impacts or substantially more severe impacts than were analyzed in the 2016 IS/MND. Therefore, no further evaluation is required, and no Subsequent EIR is needed pursuant to State *CEQA Guidelines* Section 15162, and an Addendum to an adopted negative declaration has therefore appropriately been prepared, pursuant to Section 15164.

Pursuant to CEQA Guidelines § 15164(c), this Addendum will not be circulated for public review, but will be included in the public record file for the project approval.

CONTRA COSTA COUNTY ADDENDUM FINDINGS

MITIGATED NEGATIVE DECLARATION

THREE CREEKS PARKWAY RESTORATION PROJECT

The following information is added to the previously adopted IS/MND and is presented to comply with Section 15091 of the CEQA Guidelines for the IS/MND:

1. **Environmental Effect:** Modifications to the proposed project as described in this **Addendum** are minor technical changes or additions to the project and, based on the analysis in the **Addendum**, including the analysis of Air Quality, Biological Resources, Cultural Resources, Geology/Soils, Greenhouse Gas Emissions and Noise impact, will not result in any additional environmental effects not previously discussed.

Findings: There are no significant environmental impacts associated with the minor technical changes or additions for the proposed activity for which this **Addendum** was prepared.

2. **Statement of Facts:**

- a. The updated project to be developed pursuant to this **Addendum** to the IS/MND for the Three Creeks Parkway Restoration Project is substantially similar to the original project analyzed in the IS/MND.
- b. The IS/MND for the Three Creeks Parkway Restoration Project consists of the IS/MND, comments received, responses to the comments raised, and this **Addendum**. The IS/MND was completed in compliance with CEQA.
- c. There are no substantial changes in the updated project, pursuant to CEQA Guidelines Section 15162 (a)(1), that require major revisions of the IS/MND due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects. The updated project is substantially similar to the original project analyzed in the MND.
- d. There are no substantial changes with respect to the circumstances, pursuant to CEQA Guidelines Section 15162 (a)(2), under which the updated project is undertaken which require major revisions of the previous IS/MND due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects. Those

circumstances remain substantially similar to the circumstances analyzed in the IS/MND.

- e. There is no new information of substantial importance, pursuant to CEQA Guidelines Section 15162 (a)(3), which shows that the updated project will have one or more significant effects not previously discussed in the IS/MND.
- f. None of the conditions calling for the preparation of a subsequent or supplemental EIR have occurred (see items 1 c - e above). Therefore, it is appropriate to adopt this **Addendum** to the IS/MND to make the minor technical changes and additions discussed in the **Addendum** (CEQA Guidelines 15164). This **Addendum** shall be considered along with the IS/MND prior to the Board of Supervisors making a decision on the minor technical changes or additions to the project, and in considering these changes or additions, the Board is considering the identical or substantially similar underlying project.

The findings are supported by substantial evidence in the administrative record and are based on the IS/MND for the Three Creeks Parkway Restoration Project, which was subject to public review.

In accordance with CEQA Guidelines Section 15164(d), the County Board of Supervisors shall consider this **Addendum** along with the IS/MND prior to making a decision on the project. According to CEQA Guidelines Section 15164(c) an Addendum does not require circulation for public review but can be included in or attached to the Final IS/MND. This **Addendum** is attached to the Final IS/MND for the Three Creeks Parkway Restoration Project (CP# 16-39; SCH# 2016082008).

4.0 MITIGATION MONITORING AND REPORTING PROGRAM

The California Environmental Quality Act (CEQA) requires that a Lead Agency establish a program to monitor and report on mitigation measures adopted as part of the environmental review process to avoid or reduce the severity and magnitude of potentially significant environmental impacts associated with project implementation. CEQA (Public Resources Code Section 21081.6 (a) (1)) requires that a Mitigation Monitoring and Reporting Program (MMRP) be adopted at the time that the public agency determines to approve a project for which an EIR or a Negative Declaration (ND) has been prepared, to ensure that mitigation measures identified in the EIR or ND are fully implemented.

The MMRP for the Three Creeks Parkway Restoration project is presented in **Table 4.0-1, Mitigation and Monitoring Reporting Program**. **Table 4.0-1** includes the full text of project-specific mitigation measures identified in the Initial Study/Mitigated Negative Declaration and Addendum No. 1. The MMRP describes implementation and monitoring procedures, responsibilities, and timing for each mitigation measure, including:

Number: Identifies the number of the mitigation measure.

Mitigation Measure: Provides full text of the mitigation measure as provided in the final Initial Study/Mitigated Negative Declaration and Addendum No. 1.

Monitoring/Reporting Action(s): Designates responsibility for implementation of the mitigation measure and when appropriate, summarizes the steps to be taken to implement the measure.

Mitigation Timing: Identifies the stage of the project during which the mitigation action will be taken.

Monitoring Schedule: Specifies procedures for documenting and reporting mitigation implementation.

The Contra Cost County Flood Control and Water Conservation District and American Rivers may modify the means by which a mitigation measure will be implemented, as long as the alternative means ensure compliance during project implementation. The responsibilities of mitigation implementation, monitoring, and reporting extend to several district departments and offices. The manager or department lead of the identified unit or department will be directly responsible for ensuring the responsible party complies with the mitigation. The Contra Costa County Flood Control and Water Conservation District is responsible for the overall administration of the program and for assisting relevant departments and project managers in their oversight and reporting responsibilities. The Contra Costa County Flood

Control and Water Conservation District is also responsible for ensuring the relevant parties understand their charge and complete the required procedures accurately and on schedule.

Table 1
Mitigation Monitoring and Reporting Program

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
AIR QUALITY				
AIR-1:	<p>The construction contractor(s) shall implement the following BMPs during project construction:</p> <ul style="list-style-type: none"> • All exposed surfaces (e.g., parking areas, staging areas, soil stockpiles, graded areas, and unpaved access roads) shall be watered two times per day. • All haul trucks transporting soil, sand, or other loose material off-site shall be covered. • All visible mud or dirt track-out onto adjacent public roads shall be removed using wet power vacuum street sweepers at least once per day. The use of dry power sweeping is prohibited. • All vehicle speeds on unpaved roads shall be limited to 15 mph. • All roadways, driveways, and sidewalks to be paved shall be completed as soon as possible and feasible. • Idling times shall be minimized either by shutting equipment off when not in use or reducing the maximum idling time to five minutes (as required by the California airborne toxics control measure Title 13, Section 2485 of California Code of Regulations [CCR]). Clear signage shall be provided for construction workers at all access points. • All construction equipment shall be maintained and properly tuned in accordance with manufacturer's specifications. All equipment shall be checked by a certified mechanic and determined to be 	<p>Contra Costa County Flood Control and Water Conservation District</p> <p>Include in construction contract(s)</p>	Monitor compliance during construction	Confirm and document during construction

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<p>running in proper condition prior to operation.</p> <ul style="list-style-type: none"> Post a publicly visible sign with the telephone number and person to contact at the Lead Agency regarding dust complaints. This person shall respond and take corrective action within 48 hours. The Air District's phone number shall also be visible to ensure compliance with applicable regulations. 			
AIR-2:	All diesel-powered off-road equipment larger than 50 horsepower and operating on the site for more than two days continuously during the duration of construction shall, at a minimum, meet U.S. EPA emissions standards for Tier 2 engines or equivalent.	<p>Contra Costa County Flood Control and Water Conservation District</p> <p>Include requirement in construction contract(s)</p>	During construction	Confirm and document during construction
BIOLOGICAL RESOURCES				
BIO-1:	<p>To avoid and minimize impacts to California red-legged frog, Pacific (Western) pond turtle, and silvery legless lizard during construction activities, the project will implement the following measures:</p> <ol style="list-style-type: none"> <u>Coverage under the HCP/NCCP</u>. The project proponent shall apply for coverage under the HCP/NCCP. Participation in the HCP/NCCP, including implementation of appropriate avoidance and minimization measures and payment of applicable fees would provide the project proponent with incidental take coverage for California red-legged frog, Pacific (Western) pond turtle, and silvery legless lizard. <u>Seasonal Avoidance</u>. If required by the Streambed Alteration Agreement or Water Quality Certification, work shall be limited to the dry season, from April 15 to October 15. <u>Minimize Nighttime Work</u>. If required by the Streambed Alteration Agreement or Water Quality Certification, nighttime construction shall be restricted to avoid effects on nocturnally active species such as California red-legged frog. 	<p>Contra Costa County Flood Control and Water Conservation District</p> <p>File application, obtain HCP/NCCP coverage, and implement measures by including them in the construction contract(s)</p>	Prior to start and during construction	Confirm and document during construction

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<p>4. <u>Environmental Awareness Program</u>. Prior to the commencement of construction activities, a qualified biologist shall present an environmental awareness program to all construction personnel working on site. At a minimum the training should include a description of special-status species that could be encountered, their habitats, regulatory status, protective measures, work boundaries, lines of communication, reporting requirements, and the implications of violations of applicable laws.</p> <p>5. <u>Wildlife Exclusion Fencing</u>. Prior to the start of construction, wildlife exclusion fencing (WEF) shall be installed as warranted and consistent with the HCP/NCCP to isolate the work area from any habitats potentially supporting special-status animals or through which such species may move. The final project plans shall indicate where and how the WEF is to be installed. The bid solicitation package special provisions shall provide further instructions to the contractor about acceptable fencing locations and materials. The fencing shall remain throughout the duration of the work activities, be regularly inspected and properly maintained by the contractor. Fencing and stakes shall be completely removed following project completion.</p> <p>6. <u>Best Management Practices (BMPs)</u>. Prior to the initiation of work, BMPs shall be in place to prevent the release of any pollutants or sediment into the creek, storm drains, or tributaries; all BMPs shall be properly maintained. Leaks, drips, and spills of hydraulic fluid, oil, or fuel from construction equipment shall be promptly cleaned up to prevent contamination of water ways. All workers shall be properly trained regarding the importance of preventing and cleaning up spills of contaminants. Protective measures should include, at a minimum: No discharge of pollutants from vehicle and equipment cleaning should be allowed into any storm drains or watercourses.</p> <p>a. Spill containment kits should be maintained onsite at all times during construction operations and/or staging or fueling of equipment.</p>			

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<p>b. Coir rolls or straw wattles should be installed along or at the base of slopes during construction to capture sediment.</p> <p>7. <u>Erosion Control</u>. Graded areas shall be protected from erosion using a combination of silt fences, fiber rolls along toes of slopes or along edges of designated staging areas, and erosion control netting (such as jute or coir) as appropriate on sloped areas.</p> <p>8. <u>Construction Site Restrictions</u>. The following site restrictions shall be implemented to avoid adversely affecting sensitive habitats and harm or harassment to listed species:</p> <p>a. Any fill material shall be certified to be non-toxic and weed free.</p> <p>b. All food and food-related trash items shall be enclosed in sealed trash containers and removed completely from the site at the end of each day.</p> <p>c. No pets from project personnel shall be allowed anywhere in the project site during construction.</p> <p>d. No firearms shall be allowed on the project site except for those carried by authorized security personnel, or local, State or Federal law enforcement officials.</p> <p>e. All equipment shall be maintained such that there are no leaks of automotive fluids such as gasoline, oils or solvents and a Spill Response Plan shall be prepared. Hazardous materials such as fuels, oils, solvents, etc. shall be stored in sealable containers in a designated location that is isolated from wetlands and aquatic habitats.</p> <p>f. Servicing of vehicles and construction equipment including fueling, cleaning, and maintenance should occur only at sites isolated from any aquatic habitat unless separated by topographic or drainage barrier or unless it is an already existing gas station. Staging areas may occur closer to the project activities as required.</p>			

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<p>9. <u>Proper Use of Erosion Control Devices</u>. Plastic mono-filament netting (e.g., that used with erosion control matting) or similar material shall not be used within the project area; wildlife can become entangled or trapped in such non-biodegradable materials. Acceptable substitutes include coconut coir matting, tackified hydroseeding, blown straw, or other organic mulching material.</p> <p>10. <u>Protocol for Species Observation – Pacific (Western) pond turtle and silvery legless lizard</u>. If a Pacific (Western) pond turtle or silvery legless lizard is encountered in the project site, work in the area of the finding must cease immediately until the animal either moves out of harm's way of its own accord or is safely relocated well upstream or downstream of the project site. Only a qualified biologist with a scientific collection permit issued by the CDFW may handle and relocate Pacific (Western) pond turtle or silvery legless lizard. Any sightings and relocation of Pacific (Western) pond turtle and silvery legless lizard should be reported to the CDFW and the CNDDB.</p>			
BIO-2:	<p>To minimize and avoid impacts to Chinook salmon and steelhead, the following measures will be implemented:</p> <p>1. <u>Seasonal Avoidance</u>. In-stream work shall be limited to June 1 to October 31.</p> <p>2. <u>In-Stream Activities</u>: If in-stream construction or dewatering is required, the following precautionary measures should be implemented:</p> <ol style="list-style-type: none"> A preconstruction survey of the aquatic environment shall be performed by a qualified biologist. A qualified biologist shall present an environmental awareness program working on site. A qualified biologist should monitor all in-stream activities. If dewatering is proposed, a qualified biologist should monitor the installation of coffer dams. During dewatering, a qualified biologist should check for stranded aquatic wildlife. 	<p>Contra Costa County Flood Control and Water Conservation District</p> <p>Retain qualified biologist to implement the measures.</p>	Prior to start and during construction	Confirm and document during construction

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<p>Dewatering pumps must be fitted with intake screens with a mesh no greater than 5 mm (0.2 in) and BMPs will be installed to minimize sediment transport during installation of coffer dams.</p> <p>e. Native species (non-special-status fish species) should be relocated upstream or downstream of the cofferdams by a permitted biologist. Non-native species should be euthanized in accordance with the guidance of the CDFW. All wildlife encounters should be documented and reported to the CDFW. If listed salmonids are present, the NMFS shall be consulted to determine the appropriate measures to ensure conformance with ESA.</p>			
BIO-3:	<p>In order to avoid impacts to nesting Swainson's hawk, white-tailed kite, burrowing owl, loggerhead shrike, and other bird species protected under the MBTA and CFGC during project implementation, the measures outlined below shall be implemented.</p> <ol style="list-style-type: none"> <u>Environmental Awareness Program</u>. Prior to the commencement of construction activities, a qualified biologist shall present an environmental awareness program to all construction personnel working on site. At a minimum the training shall include a description of special-status species that could be encountered, their habitats, regulatory status, protective measures, work boundaries, lines of communication, reporting requirements, and the implications of violations of applicable laws. <u>Swainson's hawk</u> is a federally listed threatened species and is covered under the HCP/NCCP. Nonetheless, every effort should be made to ensure that no take of Swainson's hawk occurs. Therefore, the measures outlined below should be implemented. <ol style="list-style-type: none"> The project proponent should apply for coverage under the HCP/NCCP. Participation in the HCP/NCCP would provide the applicant with incidental take coverage for Swainson's hawk and satisfy any requirements for mitigation for loss of habitat. 	<p>Contra Costa County Flood Control and Water Conservation District</p> <p>Retain qualified biologist to implement the measures.</p>	Prior to start and during construction	Confirm and document during construction

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<p>b. Prior to any ground disturbance during the nesting season (March 15-September 15), a qualified biologist shall conduct a preconstruction survey no more than one month prior to construction to determine if there are any active Swainson's hawk nests within 305 meters (1,000 feet) of the project site.</p> <p>c. If there are no occupied nests within this buffer, no further action is needed.</p> <p>d. If an active nest is present within this buffer, the measures outlined below shall be followed.</p> <ul style="list-style-type: none"> • Construction activities are not permitted within 305 meters (1,000 feet) of an occupied nest to prevent nest abandonment. However, if site-specific conditions or the nature of the activity warrant a small buffer, a qualified biologist should coordinate with CDFW and USFWS to determine the appropriate buffer size. • Construction activities may proceed prior to September 15 if the young Swainson's hawks have fledged, as determined by a qualified biologist. <p>3. White-tailed kite is a state-listed fully protected species; it is not covered under the HCP/NCCP and incidental take of the species is not allowed. To ensure that no take of white-tailed kite or other migratory raptors occurs, the measures outlined below shall be implemented.</p> <p>a. Prior to any ground disturbance during the nesting season (February 1-August 31), a qualified biologist shall conduct a preconstruction survey no more than two weeks prior to construction to determine if there are any active nests of white-tailed kite or other migratory raptors within 76 meters (250 feet) of the project site.</p> <p>b. Prior to the removal or significant pruning of any trees, they shall be inspected by a qualified biologist for the presence of raptor nests. This is required during both the breeding season</p>			

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<p>and non-breeding season. If a suspected raptor nest is discovered, the CDFW shall be notified. Pursuant to CFGC Section 3503.5, raptor nests, whether or not they are occupied, may not be removed until approval is granted by the CDFW.</p> <p>c. If there are no occupied nests within this buffer, no further action is needed.</p> <p>d. If an active nest is present within this buffer, the measures outlined below shall be implemented.</p> <ul style="list-style-type: none"> • Construction activities are not permitted within 76 meter (250 feet) of an occupied nest to prevent nest abandonment. However, if site-specific conditions or the nature of the activity warrant a small buffer, a qualified biologist should coordinate with the CDFW and/or USFWS to determine the appropriate buffer size. Nest monitoring may be warranted for activities that would occur within a smaller buffer. • Construction activities may proceed prior to August 31 if the young white-tailed kites or other raptor species have fledged, as determined by a qualified biologist. <p>4. Burrowing owl is a State species of special concern and a covered species under the HCP/NCCP. To ensure that no take of burrowing owl occurs, the measures outlined below shall be implemented.</p> <p>a. Prior to any ground disturbance during the nesting season (February 1-August 31), a CDFW-approved biologist shall conduct a preconstruction survey of all suitable burrowing owl habitat that would be affected by the project. The survey shall be performed no more than 30 days prior to construction to determine if there are any active nests of burrowing owl within 153 m (500 ft) of the project site, access permitting.</p> <p>b. If there are no occupied nests within this buffer, no further action is needed.</p> <p>c. If an active nest is present within this buffer, the measures</p>			

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<p>outlined below shall be implemented.</p> <ul style="list-style-type: none"> • If an occupied burrowing owl nest site is present within the limits of work, construction may not proceed. The taking of burrowing owls or occupied nests is prohibited under CFGC. Nest sites must be flagged and protected by a designated disturbance-free buffer zone of at least 76 meters (250 feet). • Construction activities are not permitted within 76 meters (250 feet) of an occupied nest to prevent nest abandonment. • Construction may proceed if a qualified biologist monitors the nest and determines that the adults have not begun egg-laying and incubation or that the juveniles have fledged. • Burrowing owls may be passively excluded from occupied burrows outside of the breeding season (i.e., September 1-January 31), in consultation with the CDFW. All owls should be passively excluded from burrows within 49 meters (160 feet) of the work site. Passive exclusion is achieved by installing one-way doors in the burrow entrances. Doors should be in place for at least 48 hours and the site should be monitored daily for at least one week to confirm that the burrow has been abandoned. <p>5. Loggerhead shrike is a state species of special concern; it is not covered under the HCP/NCCP and incidental take of the species is not allowed. To ensure that no take of loggerhead shrike or any other migratory passerines occurs, the measures outlined below shall be implemented.</p> <p>a. If ground-disturbing activities (i.e., site clearing, disking, grading, etc.) can be performed outside of the nesting season (i.e., between September 1 and January 31), no additional surveys are warranted.</p>			

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<p>b. Prior to any ground disturbance during the nesting season (February 1-August 31), a qualified biologist should conduct a preconstruction survey no more than two weeks prior to construction to determine if there are any active nests of loggerhead shrike or any other migratory passerines nests within 30 meters (100 feet) of the project site.</p> <p>c. If there are no occupied nests within this buffer, no further action is needed.</p> <p>d. If an active nest is present within this buffer, the following measures shall be implemented.</p> <ul style="list-style-type: none"> • Construction activities are not permitted within 30 meters (100 feet) of an occupied nest to prevent nest abandonment. However, if site-specific conditions or the nature of the activity warrant a smaller buffer, a qualified biologist should coordinate with the CDFW and USFWS to determine the appropriate buffer size. Nest monitoring may be warranted for activities that would occur within a smaller buffer. • Construction activities may proceed prior to August 31 if the young birds have fledged, as determined by a qualified biologist. 			

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
BIO-4:	<p>In order to avoid, minimize and compensate for unavoidable impacts on waters of the U.S./waters of the State, the measures outlined below shall be implemented.</p> <ol style="list-style-type: none"> 1. Impacts on waters of the U.S. will be avoided by restricting grading to an elevation above the OHWM; avoidance of impacts to waters of the State is not feasible. Long-term impacts shall be minimized by limiting the use of hardened structures (e.g., grouted riprap) in preference of bio-engineering solutions as much as is practicable. Surface water connections must not be permanently blocked or interrupted and the installation of drop-structures or other features that create barriers to wildlife movement shall be avoided. 2. Prior to construction, the project proponent will need to secure authorization from the USACE, RWQCB, and CDFW in conformance to the Clean Water Act and Lake and Streambed Alteration Program. 3. Participation in the HCP/NCCP is expected to satisfy the requirements of the regulatory agencies for compensatory mitigation for unavoidable impacts on stream channels, wetlands and riparian habitat. A Planning Survey Report shall be completed and submitted to the East Contra Costa County Habitat Conservancy. The submittal shall include detailed drawings illustrating all temporary and permanent impacts. 4. Per the terms of the adopted HCP/NCCP, a wetland mitigation fee or on-site habitat restoration will mitigate the impacts. If accepted by the regulatory agencies, no additional mitigation for wetland impacts is typically required. HCP/NCCP fee payment will occur at project contract award. 5. For all work within and adjacent to the stream channel and riparian habitat, best management practices (BMPs) must be incorporated into the project design to minimize environmental effects. These include the following: <ul style="list-style-type: none"> • Construction in the active channels shall be restricted to the dry 	<p>Contra Costa County Flood Control and Water Conservation District</p> <p>Obtain permits; obtain coverage under HCP/NCCP; include BMPs in construction contract (s)</p>	Prior to start and during construction	Confirm and document during construction

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<p>season (April 15-October 15).</p> <ul style="list-style-type: none"> • Personnel conducting ground-disturbing activities within or adjacent to the buffer zone of wetlands, ponds, streams, or riparian woodland/scrub shall be trained by a qualified biologist in these avoidance and minimization measures and the permit obligations. • If dewatering is necessary, water released downstream of work areas must be as clean or cleaner than flows entering the work area. Sediment-laden water shall be either pumped onto upland sites for infiltration or into Baker tanks for settling, prior to being released back into the channel. Cofferdams shall consist of clean, silt-free sand or gravel in sand bags, or a comparable material. All coffer dam materials must be promptly removed when no longer needed. • High visibility temporary construction fencing should be erected between the outer edge of the limits of construction and adjacent streams or habitats to be preserved. Temporary construction fencing will be removed upon the completion of work. • Grading or construction near channels shall be isolated with silt fencing or other BMPs to prevent sedimentation. BMPs shall be regularly inspected. • Vehicles and equipment shall be parked on existing roads or previously disturbed areas. • Equipment working in channels must be in good working order and free of leaks of fuel, oil, and hydraulic fluids. Drip pans shall be placed under vehicles and equipment over waterways and spill clean-up materials should be kept onsite at a convenient location. • Equipment maintenance and refueling shall be performed well away from the top of bank of any channel; storm drain inlets shall be protected from an accidental release of contaminants. 			

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<ul style="list-style-type: none"> Concrete washings or other contaminants must not be permitted to enter the stream channel or any storm drain inlet. Any concrete structures or cured-in-place pipe linings shall be allowed to cure before coming in contact with surface flows. Construction debris and materials shall be stockpiled away from watercourses. Appropriate erosion-control measures (e.g., coconut coir matting, tackified hydroseeding, blown straw or other organic mulching material) shall be used on site to reduce siltation and runoff of contaminants into wetlands, ponds, streams, or riparian woodland/scrub. Plastic mono-filament netting (e.g., that used with erosion control matting) or similar material should not be used within the action area; wildlife can become entangled or trapped such non-biodegradable materials. Erosion-control measures shall be placed between the outer edge of the buffer and the project site. Fiber rolls used for erosion control shall be certified as free of noxious weed seed. Construction staging areas past the channel banks must be located away from any wetlands or other sensitive habitats as identified by a qualified biologist. Newly graded earthen channel slopes shall be revegetated with a native seed mix developed by a qualified restorationist. Seed mixtures applied for erosion control shall not contain invasive nonnative species, and be composed of native species or sterile nonnative species. Straw or mulch shall also be applied to all bare surfaces. The seed mix and mulch shall be applied prior to the onset of the first winter-season rains. Herbicide shall not be applied within 30 meters (100 feet) of wetlands, ponds, streams, or riparian habitat. However, where appropriate to control serious invasive plants, herbicides that have been approved by the U.S. EPA for use in or adjacent to 			

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<p>aquatic habitats may be used as long as label instructions are followed and applications avoid or minimize impacts on covered species and their habitats. In seasonal or intermittent stream or wetland environments, appropriate herbicides may be applied during the dry season to control nonnative invasive species. Herbicide drift should be minimized by applying the herbicide as close to the target area as possible and by avoiding applying during windy days.</p> <ul style="list-style-type: none"> Additional measures may be outlined in the conditions of the permits issued by the USACE, RWQCB, CDFW, and the Habitat Conservancy. All permit conditions must be conformed to. 			
CULTURAL RESOURCES				
CUL-1:	<ul style="list-style-type: none"> <u>To manage any discoveries during construction, all construction crew workers shall following the procedures detailed in the Monitoring and Post Review Discovery Treatment Plan for the Three Creeks Parkway Restoration Project, Contra Costa County, California.</u> <u>This document includes provisions for crew training, determines an appropriate level of monitoring for the duration of the project, describes the identification of archaeological resources, and the protocols to follow in the case of accidental discoveries.</u>Crew training, initial monitoring by a qualified archaeologist to determine an appropriate level of monitoring for the duration of the project, and additional spot checks pending the results of the initial monitoring shall be conducted prior to and during ground disturbing activities. A qualified archaeologist shall be present on the project site to monitor ground disturbing activities and inspect excavated soils to identify any cultural resources and human remains as deemed 	<p>Contra Costa County Flood Control and Water Conservation District</p> <p>Retain qualified archaeologist to implement identified measures; also include in construction contract(s)</p>	Prior to start and during construction	Confirm and document during construction

FILE COPY

Project Title: **Three Creeks Parkway Restoration**
Project No. **7521 -6D8176, CP# 16-39**

Project Applicant: **Contra Costa County Flood Control and Water Conservation District**

Project Location: **Marsh Creek (Dainty Avenue to Union Pacific Railroad tracks), Brentwood, Contra Costa County**

Project Description The Contra Costa County Flood Control and Water Conservation District (District) in partnership with American Rivers, a national non-profit organization that protects wild rivers, restores damaged rivers and conserves clean water for people and nature, proposes to improve flood conveyance capacity, to meet the District's standards for 100-year flood protection, and restore native vegetation along an approximately 4,000 linear foot section of Marsh Creek. When implementation is complete, the project would include up to 1.0 acre of frequently inundated floodplain (seasonal wetland), 1.87 acres of woody riparian vegetation, and 1.87 acres of grasslands and native scrub. The project would also enhance habitat and recreation within the watershed. The segment just upstream of Dainty Avenue (Phase I) was widened in 2000 by the District; native riparian vegetation may also be planted in this section as part of this project to provide a continuous riparian corridor with the existing riparian vegetation upstream of this segment. Placement of boulders and large woody debris would be placed in some portions of the low-flow channel to create in-stream habitat as well as rock to protect the banks and culvert outfalls. Real Property transactions, including right-of-way acquisition and temporary construction easements for access and staging areas and permanent easements for access and maintenance may be necessary in support of this project. Construction is anticipated to begin summer 2018 and may take up to two construction seasons to complete. Excavation and grading activities would occur during the dry season (July to October) with plant restoration occurring afterwards (November to December).

The District prepared an IS/MND which was adopted by the Contra Costa County Board of Supervisors on September 27, 2016. Since then, there have been a few additions to the original project design, including (1) the incorporation of an existing water quality basin adjacent to the lower reach of Marsh Creek and improvements to the adjacent City of Brentwood Sungold Park, (2) the use of an adjoining parcel adjacent to the middle reach as a staging area and to place excavated materials, (3) the construction of a clear-span pedestrian bridge, and (4) the use of temporary creek crossings during construction totaling approximately 13.45 acres on three parcels that abut the project segment. These proposed additions were re-evaluated under applicable sections of Appendix G of the CEQA Guidelines to determine if the additions resulted in a substantial change that would require major revisions of the IS/MND. Re-evaluation of the additions did not result in significant impacts that would warrant changes to the IS/MND and therefore a CEQA Addendum was prepared.

The project was approved on:

1. The project [☐ will ☒ will not] have a significant effect on the environment.
2. ☐ An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.
☒ A Mitigated Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures [☒ were ☐ were not] made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan [☒ was ☐ was not] adopted for this project.
5. A statement of Overriding Considerations [☐ was ☒ was not] adopted for this project.
6. Findings [☒ were ☐ were not] made pursuant to the provisions of CEQA.

Notice of Determination sent to Office of Planning and Research.*

This is to certify that the Mitigated Negative Declaration with comments and responses and record of project approval is available to the General Public at:

Date: September 27, 2016

Subject: ADOPTION OF Mitigated Negative Declaration and Mitigation Monitoring and Reporting Program for the Three Creeks Parkway Restoration Project (CEQA)

RECOMMENDATION(S):

1. CONSIDER the proposed Initial Study/Mitigated Negative Declaration for the Three Creeks Parkway Restoration Project (Project) together with any comments received during the public review process.
2. FIND on the basis of the whole record, including the proposed Initial Study/Mitigated Negative Declaration and any comments received and staff responses thereto, that there is no substantial evidence that the Project will have a significant effect on the environment, and that the Mitigated Negative Declaration reflects the independent judgment and analysis of the lead agency, Contra Costa County Flood Control & Water Conservation District (District).
3. ADOPT the Mitigated Negative Declaration and Mitigation Monitoring and Reporting Program for the Project.
4. SPECIFY that the Contra Costa County Conservation and Development Director is the custodian of the documents and other material that constitute the record of proceedings upon which the Board's decision is based, and that the record of proceedings is located at 30 Muir Road, Martinez, CA.

FISCAL IMPACT:

The cost of the environmental review of this Project totaled approximately \$80,000, to be funded by the District with Flood Control Zone 1 funds (50 percent) and American Rivers, Inc. (American Rivers) State Grant Funds and other private funds (50 percent).

BACKGROUND:

During the 1960s and early 1970s, approximately 7.9 miles of Marsh Creek from the mouth of the creek near Big Break in Oakley to the Dry Creek confluence in Brentwood were channelized into steep earthen and armored trapezoidal flood control channels to provide conveyance capacity and riparian vegetation was removed. The channel was designed for a 50-year flood event in an agricultural setting. Over the last 25 years, the population of the lower Marsh Creek watershed has increased dramatically, transforming the watershed into a dense residential and commercial area, covering open space with impervious surfaces, substantially increasing runoff volume and degrading water quality. The District has constructed detention basins on each of Marsh Creek's three tributaries (Dry, Deer, and Sand Creeks) to accommodate increased run-off associated with urban development and impervious surfaces; however, urban and agricultural runoff remain issues.

The Three Creeks Parkway Project described in the Initial Study/Mitigated Negative Declaration (IS/MND) combines two separate projects. The first is the Three Creeks Restoration Project on Marsh Creek, in which the District partnered with American Rivers to apply for and receive \$744,404 in DWR Urban Streams Grant Funding. The project limits of that project are from the Union Pacific Railroad tracks crossing of Marsh Creek to its confluence with Sand Creek (identified as the Lower Reach in the IS/MND). The second project is Phase 2 of the Marsh Creek Widening Project. The District is the sponsor of that project, and American Rivers is providing the District with State grant funds and other private funds to provide a multi-benefit flood control project. The project limits of the second project are from Sand Creek to just upstream of Dainty Avenue (identified as the Middle and Upper Reaches in the IS/MND). The two projects were addressed together because they are adjacent and cumulative impacts needed to be considered.

The objective of the Project would be to improve the ecological functions of Marsh Creek by reducing flow velocities, creating wetlands, and restoring riparian habitat. Although much of the watershed has been constrained by urbanization, the Project site is the longest remaining stretch of undeveloped land along the creek where there is still an opportunity to widen the channel and provide a more natural creek system that is connected to the historic floodplain that can be enjoyed by trail users.

The District, in partnership with American Rivers, developed the proposal to widen and restore approximately 4,000 linear feet of the Marsh Creek channel identified in three reaches (Upper, Middle, Lower) from Dainty Avenue downstream to the Union Pacific Railroad tracks with a floodplain (or in sections where more constrained, floodplain benches) that will meet the District's standards for 100-year flood protection and restore native riparian vegetation and enhance habitats and recreation. The segment just upstream of Dainty Avenue was widened in 2000 by the District. Native riparian vegetation may also be planted in this segment as part of the Project to provide a continuous riparian corridor with the existing riparian vegetation upstream of this segment.

The Project calls for widening the creek above the low-flow channel, but some areas will require work within the low-flow channel in order to create in-stream habitat using boulders and large woody debris, and to place rock slope protection. The Project would also include slight relocation of the existing East Bay Regional Park District Marsh Creek trail along the top of the eastern bank to the new top of grade from Dainty Avenue to Sand Creek (in the Upper and Middle Reaches). The trail from Sand Creek to the railroad tracks (in the Lower Reach) is to be relocated by the adjacent subdivision developer (Pulte) separately from the Project; however, the Project would reduce the gradient of the steep slope between the creek and the trail in this reach and would provide a new unpaved foot trail within the floodplain benches. The relocated trail section within the Upper Reach would be routed to pass under the Central Boulevard bridge.

Approval of the Project is not recommended at this time because the District and American Rivers have not yet completed their negotiation of a separate agreement that outlines their respective obligations under the DWR

completed their negotiation of a separate agreement that outlines their respective obligations under the DWR Urban Streams grant agreement (for the Three Creeks Restoration Project) and terms and conditions that will apply to the work that American Rivers plans to perform. Without this agreement, the District would become obligated to perform the obligations of both parties under the grant agreement upon approval of the Project. District staff also anticipates the need for an agreement that sets forth the District's and American Rivers' roles under the Marsh Creek Widening Phase 2 Project. District staff anticipates returning to the Board in February 2017 to seek Board approval of the agreement(s) and the Project.

CONSEQUENCE OF NEGATIVE ACTION:

If the Mitigated Negative Declaration and Mitigation Monitoring and Reporting Program are not adopted before October 1, 2016, American Rivers may lose conditionally-approved grant funding for the Project.

RECOMMENDATIONS:

☐ Categorical Exemption: 1530x [Class x]

☐ Negative Declaration

☐ Environmental Impact Report Required

☒ Mitigated Negative Declaration

The project will not have a significant effect on the environment. The recommendation is based on the following: There is no substantial evidence that the project or any of its aspects may cause a significant effect on the environment pursuant to Section 15063(b)(2) of the CEQA guidelines.

What changes to the project would mitigate the identified impacts: N/A

USGS Quad Sheet: <u>Brentwood</u>	Base Map Sheet #: <u>L25</u>	Parcel #: <u>Numerous – listed in CEQA document</u>
-----------------------------------	------------------------------	---

GENERAL CONSIDERATIONS:

1. **Location:** The project is located in Brentwood [Figure 1].

2. **Project Description:** The Contra Costa County Flood Control and Water Conservation District (District) in partnership with American Rivers, a non-profit organization that protects rivers and restores damaged rivers, proposes to widen approximately 4,000 linear feet of the Marsh Creek channel in three reaches from Dainty Avenue downstream to an existing pedestrian bridge just before the Union Pacific Railroad (UPRR) tracks with a floodplain (or sections where more constrained, floodplain benches) which will meet the District's standards for 100-year flood protection, and restoring native riparian vegetation that will enhance habitat and recreation (Figure 2). The segment just upstream of Dainty Avenue (Phase I) was widened in 2000 by the District; native riparian vegetation may also be planted in this section as part of this project to provide a continuous riparian corridor with the existing riparian vegetation upstream of this segment and the proposed restoration of the project.

The Upper Reach (Dainty Avenue to Deer Creek) is approximately 1,600 linear feet and is constrained by development on both sides. Channel widening in this section would include excavation of both banks to construct a number of floodplain benches on both sides of the creek of varying widths with slopes ranging from 2:1 to 3:1 (Figure 4). The benches would be located above the ordinary high water mark (OHWM).

The Middle Reach (Deer Creek to Sand Creek) is approximately 800 feet in length and is also constrained. Channel widening would involve excavation of both banks to construct a number of floodplain benches of varying widths with slopes ranging from 2:1 to 3:1 (Figure 6). The benches would be located above the OHWM.

The Lower Reach (Sand Creek to UPRR) is approximately 1,600 feet in length and is less constrained and will include more substantial widening of the channel. The project would excavate the east bank of the creek down to the OHWM to create a 10 to 40-foot wide floodplain with slopes typically 3:1 or less (Figure 8).

The new floodplain would be graded to inundate during the storm events with the low-flow channel continuing to function much as it does today. Some work in the low-flow channel may be performed and would include creation of instream habitat in the low-flow channel by placing boulders and large woody debris, and the placement of rock slope protection in some portions of the low-flow channel in the Upper

Contra Costa County

and Middle Reaches.

The project will also include relocation of the existing East Bay Regional Park District (EBRPD) Marsh Creek trail to the new top of the eastern bank along the Middle and Upper Reaches whereas the trail in the Lower Reach will be relocated by the adjacent subdivision developer (Pulte) which is not part of this project however the project would reduce the gradient of the steep slope between the creek and the trail and would provide a new unpaved foot trail within the floodplain benches. The relocated trail section within the Upper Reach would be routed to pass under the Central Avenue road bridge.

Throughout the project reach, minor modifications to sewer manholes may be required to accommodate changes in ground elevation. In all cases, grading will be performed around manholes so that potential spills from manholes would initially drain away from Marsh Creek.

The project falls within the HCP service area and the project development team has been coordinating with the Habitat Conservancy staff.

Construction is anticipated to begin summer 2017. Excavation and grading activities would occur during the dry season (July to October) with plant restoration occurring afterwards (November to December) and may take up to two construction seasons to complete.

Real Property transactions, including right-of-way acquisition and temporary construction easements for access and staging areas and permanent easements for access and maintenance may be necessary in support of this project.

General Plan Conformance may be necessary from the City of Brentwood.

3. Does it appear that any feature of the project will generate significant public concern?

☐ Yes ☒ No ☐ maybe (Nature of concern):

4. Will the project require approval or permits by other than a County agency?

☒ Yes ☐ No

5. Is the project within the Sphere of Influence of any city? No

INTRODUCTION

Initial Study

The Three Creeks Parkway Restoration project is a proposal put forth by the Contra Costa County Flood Control and Water Conservation District and American Rivers to widen and improve an approximately 4,000-foot section of Marsh Creek in the City of Brentwood to provide additional flood conveyance capacity and restore riparian habitat along the creek. Pursuant to Section 15063 of the *State CEQA Guidelines* (Title 14, California Code of Regulations, Sections 15000 et seq.), an Initial Study is a preliminary environmental analysis that is used by the lead agency (the public agency principally responsible for approving or carrying out the proposed project) as a basis for determining what level of environmental review is appropriate (Environmental Impact Report, a Mitigated Negative Declaration, or a Negative Declaration) for a project. The *State CEQA Guidelines* require that an Initial Study contain a project description, description of environmental setting, identification of environmental effects by checklist or other similar form, explanation of environmental effects, discussion of mitigation for significant environmental effects, evaluation of the project's consistency with existing, applicable land use controls, and the name of persons who prepared the study.

As shown in the Determination in Section IV of this document, and based on the analysis contained in this Initial Study, it has been determined that the proposed project would not result in any significant impacts that cannot be mitigated to less than significant levels. Therefore, preparation of a Mitigated Negative Declaration is appropriate.

Public and Agency Review

This Initial Study/Proposed Mitigated Negative Declaration will be circulated for public and agency review from August 3, 2016 to September 2, 2016. Copies of this document are available for review at the Contra Costa County Public Works Department at the address below and the County's webpage: <http://www.co.contra-costa.ca.us/4629/Public-Notices>.

Comments on this Initial Study/Proposed Mitigated Negative Declaration must be received by 5:00 PM on September 2, 2016 and can be sent by regular mail or emailed to:

Contra Costa County Flood Control and Water Conservation District
255 Glacier Drive
Martinez, CA 94553
Attn: Claudia Gemberling

Organization of the Initial Study

This Initial Study is organized into the following sections.

Section 1 – Project Information: provides summary background information about the proposed project, including project location, lead agency, and contact information.

Section 2 – Project Description: includes a description of the proposed project, including the need for the project, the project's objectives, and the elements included in the project.

Section 3 – Environmental Factors Potentially Affected: identifies what environmental resources, if any, would involve at least one significant or potentially significant impact that cannot be reduced to a less than significant level.

Section 4 – Determination: indicates whether impacts associated with the proposed project would be significant, and what, if any, additional environmental documentation is required.

Section 5 – Evaluation of Environmental Impacts: contains the Environmental Checklist form for each resource and presents an explanation of all checklist answers. The checklist is used to assist in evaluating the potential environmental impacts of the proposed project and determining which impacts, if any, need to be further evaluated in an EIR.

Section 6 – References: lists documents used in the preparation of this document.

Section 7 – Initial Study Preparers: lists the names of individuals involved in the preparation of this document.

Technical studies prepared for this Initial Study are available at Contra Costa County Public Works Department at the address noted above.

2. PROJECT DESCRIPTION

2.1 Introduction

The Three Creeks Parkway Restoration project is a multi-benefit flood control and creek restoration project proposed by the Contra Costa County Flood Control and Water Conservation District (“District” or “CCCFCWCD”) and American Rivers, a non-profit organization that protects wild rivers and restores damaged rivers. It proposes to improve flood conveyance capacity and restore native vegetation along an approximately 4,000 linear feet section of Marsh Creek located in Brentwood by widening the channel with a floodplain (or sections where more constrained, floodplain benches) and planting with native vegetation. When implementation is complete, the project site will include up to 1.0 acres of frequently inundated floodplain (seasonal wetland), 1.87 acres of woody riparian vegetation, and 1.87 acres of grasslands and native scrub. The project will also enhance habitat and recreation within the watershed.

In addition to the District and American Rivers, other project partners include the City of Brentwood, the Friends of Marsh Creek Watershed (FOMCW), East Contra Costa County Habitat Conservancy (ECCCCHC), and East Bay Regional Park District (EBRPD).

2.2 Project Location and Surrounding Land Uses

Marsh Creek watershed, located about 35 miles east of San Francisco, is uniquely situated between the Bay-Delta and the Diablo Range, providing an important ecological corridor in a burgeoning urban area. Marsh Creek flows 30 river miles from the eastern slope of Mount Diablo State Park in central Contra Costa County to the San Joaquin Delta at Big Break in Oakley. Major tributaries to Marsh Creek include Dry, Deer, and Sand Creeks. Through the existing EBRPD park facilities and trails, Marsh Creek also provides a cultural and physical connection to the Delta, allowing East County residents to walk and bike from Big Break and its aquatic recreation facilities, through Oakley to downtown Brentwood. Thus, Marsh Creek provides one of the longest, non-motorized pathways in Contra Costa County.

The project site is located along Marsh Creek in the City of Brentwood (**Figure 1**). The upper/southern limit of the project is just north of Dainty Avenue Bridge while the lower/northern limit is the pedestrian bridge across Marsh Creek about 175 feet south of the Union Pacific Railroad (UPRR) tracks. Marsh Creek trail, a regional trail owned by EBRPD is located on the east bank of Marsh Creek within the project area. As shown in **Figure 2**, the project is divided into three reaches:

Upper Reach

Upper Reach is the upper 1,600 linear-foot section of the creek from near Dainty Avenue Bridge up to Deer Creek confluence.

The area to the east and west of the Upper Reach is developed with residential neighborhoods (**Figure 3**).¹ A vacant 0.4-acre City-owned parcel is located on the east side of the Upper Reach just

¹ Future parks shown in **Figure 3** are not part of the proposed project and will not be analyzed in this Initial Study. CEQA analysis of the future City parks were conducted by adjacent development properties.

Looking upstream from UPRR tracks

The Three Creeks Parkway Restoration Project will restore native vegetation and functional floodplains along 4,000 linear feet of Marsh Creek. American Rivers and the Friends of Marsh Creek Watershed are working with the Contra Costa County Flood Control District (CCCFCD) to integrate the project into adjacent city parks, the Pulte development (formerly Palmilla) and potentially DLT Ventures (Griffith).

south of Central Boulevard. Willow Wood School/Dainty Center (Preschool-7th grade/infant care) is located to the east of the Upper Reach between Central Boulevard and Dainty Avenue. There is a vacant strip of land to the west between the creek and Central Boulevard owned by the District and City of Brentwood. Residential neighborhoods are present to the west of Central Boulevard and Marsh Creek up to Deer Creek (**Figure 3**).

Middle Reach

Middle Reach is the 800 linear-foot section of the creek between Deer Creek confluence and just south of Sand Creek confluence.

Lands to the east of the Middle Reach are developed with residential subdivisions whereas the land to the west (Griffith parcel) is undeveloped at this time (**Figure 3**).

Lower Reach

Lower Reach is the 1,600 linear-foot section of the creek from just south of the Sand Creek confluence to the pedestrian bridge (**Figure 3**).

Lands to the east of the Lower Reach are undeveloped at this time although a linear city park is planned adjacent to the creek and the remaining area is the site of the approved Pulte residential subdivision (formally known as Palmilla subdivision). Single-family homes (Carmel Estates) and a city park (Sungold Park) are located to the west of the Lower Reach.

2.3 Project Need and Objectives

During the 1960s and early 1970s, approximately 7.9 miles of Marsh Creek from the mouth of the creek near Big Break on San Joaquin Delta in Oakley to the Dry Creek confluence in Brentwood were channelized into earthen and armored trapezoidal flood control channels. To provide conveyance capacity, the flood control channel was designed with steep banks, all riparian vegetation along the channel was removed, and the earthen channel was vegetated with non-native grasses. The channel was designed for a 50-year flood event in an agricultural setting.

Since the flood control channel was constructed, the upper watershed has remained mostly protected parklands and open space, but the lower watershed has urbanized rapidly. Over the last 25 years, the population of the Marsh Creek watershed has increased six fold. This development has transformed the watershed into a dense residential and commercial area, covering open space with impervious surfaces, substantially increasing runoff volume and degrading water quality. The District has constructed detention basins on each of Marsh Creek's three tributaries (Dry, Deer, and Sand Creeks) to accommodate increased run-off associated with urban development and impervious surfaces; however, urban and agricultural runoff remain issues.

An Engineer's Report prepared by the District in January 1990 identified the need to widen 7,000 feet of Marsh Creek to reduce flooding in the lower portion of the watershed. Based on the report, the District prepared a plan to widen the creek in three phases, with Phase I involving creek widening from Summer Circle to near Dainty Avenue Bridge, Phase II ("Upper Reach") involving widening from near Dainty Avenue Bridge to Deer Creek confluence, and Phase III ("Middle Reach") widening the creek between Deer Creek and Sand Creek. In March 1990 the "Draft Environmental Impact Report for the Marsh Creek

Watershed, Regional Drainage Plan” was published and a Final EIR was subsequently approved. Following this approval, Phase I was completed in 2000, which included the installation of a new concrete culvert at Dainty Avenue and creek widening that was almost entirely on the east bank.

Downstream of Phase I, Marsh Creek does not meet the District’s standards for flood protection, exposing adjacent homes and businesses to flood risk. When looking at the capacity within the channel the District requirement for containment is controlled by the 50-year water surface elevation level (WSEL) plus freeboard or the 100-year WSEL, whichever one is higher. District analysis indicates that for the channel downstream of Phase I project, the 50-year WSEL plus freeboard will be greater than the 100-year WSEL and dictates the channel design. The project will widen the downstream sections of the creek so that the 100-year storm water surface elevation level and the 50-year storm plus WSEL would be contained within the creek channel.

Both the channelization that was implemented in the 1960s and early 1970s and the removal of riparian vegetation for flood management have limited the ecological functions of the creek. These factors have severely limited habitat complexity, structure, shade, riparian inputs, and floodplain wetlands. High velocities during annual peak flow events, which are exacerbated by increased peak run-off from newly urbanized surfaces, presumably flush most of the egg and larval stages of aquatic species downstream. Poor water quality from urban run-off is made worse by the lack of wetlands, shade, and microbial activity. Relatively high temperatures combined with low dissolved oxygen levels have caused four major fish kills on Marsh Creek over the last nine years. The combination of fish kills and poor habitat complexity limits the productivity, diversity, and resilience of the creek ecosystem. The project proposes to improve the ecological functions of the creek by reducing flow velocities, creating wetlands, and restoring riparian habitat. Although much of the watershed has been constrained by urbanization, the Three Creeks Parkway Restoration project site is the longest remaining stretch of undeveloped land along the creek where there is still an opportunity to widen the channel and provide a more natural creek system that is connected to the historic floodplain.

Lastly, the project would improve recreational amenities. Currently the Marsh Creek Trail located along the east bank of Marsh Creek passes through a primarily treeless stretch of land. With the restoration of riparian vegetation along the creek banks, the project would provide areas where trail users can stop in the shade and enjoy the beauty of the creek which will improve the experience of the trail users.

2.4 Project Components

This project is an innovative non-structural approach to flood management and habitat restoration. Instead of trying to control the creek in a narrow zone with levees and floodwalls, it focuses on giving the creek more room to safely convey flood waters while also providing habitat for aquatic and terrestrial species. **Table 1** below presents basic information about the project. Details of the project components follow the table.

Table 1
Project Data

Element	Upper Reach	Middle Reach	Lower Reach
Length	1,600 feet	800 feet	1,600 feet
Total Area Disturbed	2.1 acres	1.0 acre	4.25 acres
Soil Excavation	5,500 cu yards	3,500 cu yards	15,000 cu yards
Floodplain or bench width	3-15 feet	3-15 feet	10-30 feet
Bench slopes to top of bank	2:1 or 3:1	2:1 or 3:1	3:1 or less typical, 2:1 max.
Temporary Staging/Access Areas ¹	Within creek parcels (017-17C-004, 017-20C-XXX) or adjacent City-owned parcel (017-210-004, 017-201-038, 017-260-080, 017-280-113) ²	Within creek parcel (017-17C-004) or adjacent parcel (017-110-011) ²	Within creek parcels (017-17C-004) or adjacent private parcels (017-170-008, 017-170-007)
Permanent Access/Maintenance Easements ¹	017-260-080 017-280-113 017-201-038 017-210-029	017-110-011	017-170-007 017-170-008

¹ Some or all of the non-County-owned parcels would potentially require a temporary construction easement for access and staging and/or permanent easement for access and/or maintenance.

² Parcel numbers and ownership information shown on **Figures 4, 6, and 8**.

2.4.1 Channel Widening

The main function of expanding the channel is to create enough conveyance capacity to allow for the planting of woody riparian vegetation (trees) while also safely conveying large flood flows. The project would increase the cross-sectional area of the stream channel by excavating 24,000 cubic yards (5,500 for upper, 3,500 for middle, and 15,000 for lower reach,) of earth along approximately 4,000 linear feet of both banks of Marsh Creek to create new floodplain.

Upper Reach

As noted earlier, the Upper Reach is approximately 1,600 feet of the channel between just north of Dainty Avenue bridge and Deer Creek confluence. The reach is constrained by development on both sides and channel widening in this section would include excavation of both banks to construct a number of floodplain benches on both sides of the creek of varying widths with slopes ranging from 2:1 to 3:1 (**Figure 4**). The benches would be located above the ordinary high water mark (OHWM). The construction of the floodplain benches would satisfy the District's freeboard requirements for an earthen

THIS PAGE INTENTIONALLY LEFT BLANK

SOURCE: Restoration Design Group, Inc. 2016

FIGURE 4

channel. **Figure 5** presents existing and modified creek cross-sections for this reach.

Once the benches are constructed, permanent slope protection such as erosion control matting or other biotechnical methods would be installed on all benches and slopes for slope stabilization and to prevent long-term effects of erosion. The selected erosion control material would provide soil stabilization and promote vegetation growth.

Widening the channel cross-section is expected to decrease velocities and erosion potential. However, detailed hydraulic modeling that will be completed to inform the final design may indicate that some bank armoring is necessary where the expanded channel will taper down to the existing channel at the downstream project boundary. In one location along the Upper Reach, the project would require a retaining wall along approximately 250 feet on the left (west) bank due to the presence of Central Boulevard in Brentwood that will extend approximately 5 feet above ground. The retaining wall would rise from the back of the floodplain and would not touch the low flow channel. The project also includes replacement and repair of grouted rock at the Deer Creek confluence.

Middle Reach

The Middle Reach, which is about 800 feet in length, would be widened along the west bank as part of the proposed project. As the Middle Reach is also constrained, channel widening would involve excavation of both banks to construct a number of floodplain benches of varying widths as shown in **Figure 6**, with slopes ranging from 2:1 to 3:1. The benches would be located above the OHWM. The construction of the floodplain benches would satisfy the District's freeboard requirements for an earthen channel. **Figure 7** presents existing and modified creek cross-sections for this reach.

Lower Reach

The Lower Reach, which is about 1,600 feet in length, is less constrained, and more substantial widening of the channel is planned for this area. The project would excavate the east bank of the creek down to the OHWM to create a 10 to 40-foot wide floodplain with slopes typically 3:1 or less, but never more than 2:1 (**Figure 8**). **Figure 7** presents existing and modified creek cross-sections for this reach. If bank protection is necessary at some locations, the project would use biotechnical methods or large rocks to create an aesthetically pleasing bank.

Although erosion is currently not a problem, the project would reduce the potential for erosion by lowering water stage, reducing the velocity by widening the cross-sectional velocity of the channel, and establishing native riparian vegetation where compatible with the flood management objectives. To prevent weathering and erosion of slopes, permanent slope protection in the form of erosion control matting, armor, biotechnical methods, or appropriate ground cover would be installed, and the material would provide soil stabilization and promote vegetation growth.

2.4.2 Low-Flow Channel

The existing low-flow channel within project limits is engineered with rock grade control structures and banks. The existing, engineered channel has proven stable over the last 40 years and the rock grade

THIS PAGE INTENTIONALLY LEFT BLANK

control structures create a sequence of pools and riffles that provide some habitat for aquatic species. The excavation for floodplain widening typically will not touch the low-flow channel below the OHWM. The new floodplain would be graded to inundate during the storm events with the low-flow channel continuing to function much as it does today. Some work in the low-flow channel may be performed and would include creation of instream habitat in the low-flow channel by placing boulders and large woody debris, and the placement of rock slope protection in some portions of the low-flow channel in the Upper and Middle Reaches.

2.4.3 Sewer Line Relocation

A City of Brentwood sewer main is located on the west side of the Upper Reach (as shown in **Figures 4 and 5**). For most of the length, the sewer is within the Central Boulevard right of way. However, a portion of this sewer is located within one of the District's parcels where flood control improvements would be constructed. The sewer line is over 15 feet deep, at least 4 feet below the flow line of the creek. As the sewer line is below the maximum depth of excavation, it would not be relocated.

Near Sand Creek confluence in the Middle and Lower Reach, the sewer main crosses under the creek and continues north along the east bank of the Lower Reach. In the Lower Reach, the sewer line is located within the area that would be excavated to create the right (east) bank floodplain. The sewer line would most likely not be relocated to the east on the Pulte residential subdivision project site. The City of Brentwood has requested that the floodplain widening be stopped short of the existing sewer alignment so it does not need to be relocated. Throughout the project reach, minor modifications to sewer manholes may be required to accommodate changes in ground elevation. In all cases, grading will be performed around manholes so that potential spills from manholes would initially drain away from Marsh Creek.

2.4.4 Establishment of Wetlands

The newly created flood benches and floodplain would be inundated when flows in the creek rise during typical storm events that recur nearly annually. The floodplain and benches would be expected to be inundated frequently enough that they will support wetlands. The project would create approximately 3.6 acres of frequently inundated floodplain (seasonal wetland). However, to minimize mosquito breeding in the aquatic environment, floodplain and benches would be sloped at two percent to drain flood flows back to the creek and prevent ponding that would allow mosquitoes to breed.

2.4.5 Revegetation Activities

Where possible, existing trees along the creek would be protected and retained. Following the construction of channel widening activities, depending on location, the project area would be planted with native wetland forbs, grasses, shrubs, and trees. Riparian trees would be planted along the banks and would include valley oak, sycamore, live oak, blue oak, box elder, buckeye, cottonwood, and willow. Slopes and banks would be planted with grassland and scrub species, which would include creeping wild rye (*Leymus triticoides*), California brome (*Bromus carinatus*), purple needlegrass (*Nassella pulchra, deawned*), dense-flowered lupine (*Lupinus microcarpus* var. *densiflorus*), mugwort (*Artemisia douglasiana*), common fiddleneck (*Amsinchkia menziesii* var. *intermedia*), elegant clarkia (*Clarkia unguiculata*), and California poppy (*Eschscholzia californica*). Areas of the floodplain would be planted with seasonal wetland species that will include, but not be limited to, creek clover (*Trifolium obtusiflorum*), Baltic rush (*Juncus balticus*), and deer sedge (*Carex praegracilis*).

In 2000, the District completed Phase I widening of Marsh Creek from Dainty Avenue upstream to approximately Summer Circle (**Figure 2**). While additional widening of this segment is not proposed for this project due to constraints from the adjacent subdivisions, native shrubs and trees may be planted to provide a continuous riparian corridor with the existing riparian vegetation upstream of this segment and the proposed restoration of the project.

2.4.6 Recreational Improvements

The project would enhance opportunities for strolling, hiking, and biking along Marsh Creek. Marsh Creek trail would be relocated to the new top of the eastern bank along Upper and Middle Reach as part of the proposed project. The relocated trail section within the Upper Reach would be routed to pass under the Central Avenue road bridge. The trail section along the eastern bank of the Lower Reach would be relocated by the Pulte developer and this trail relocation is not within the scope of this project. However, the project would reduce the gradient of the steep slope between the creek and the trail and would provide a new unpaved foot trail within the created floodplain. Pervious pavement is being considered for use on the relocated trail. The City of Brentwood Parks, Trails, and Recreation Master Plan (2002) shows a future pedestrian bridge connecting the current Marsh Creek Regional Trail to the Griffith (DLT Ventures) property in the Middle Reach that would allow people to safely access and cross the creek as well as access possible future trails along Sand Creek and/or Deer Creek. These components are not part of this project. The City of Brentwood will be updating its Master Plan and the location of these features may be adjusted appropriately.

The lower 1,600 feet of the project would be integrated into a new linear city park, which would provide passive recreation amenities and native landscaping consistent with creek restoration. Consistent with the standards of the East Contra Costa County Habitat Conservation Plan (HCP), native trees would be planted within a 60-linear foot band of two city parks, along the west side of Pulte development within the HCP/NCCP required setback to provide a natural buffer adjacent to the creek. The project would also include interpretive signs along Marsh Creek.

2.5 Project Construction Activities and Schedule

The proposed project has most of the permanent right of way required for construction. However, as indicated in **Table 1**, temporary construction easements or small permanent takes may be needed from the City of Brentwood and other property owners in order to access adjacent parcels during construction. Construction is anticipated to begin summer 2017. Excavation and grading activities would occur during the dry season (July to October) with plant restoration occurring afterwards (November to December) and may take up to two construction seasons to complete.

2.5.1 Upper Reach

Grading and earthmoving activities along the Upper Reach would take place over a period of approximately 2 weeks during the dry season. Construction equipment to be used would include tractors, backhoes, excavators, graders, and dump trucks. Staging for the Upper Reach portion of the project would be within the District-owned parcels or on a City-owned parcel to the east of the creek south of Central Boulevard. Approximately 5,500 cubic yards of soil excavated for channel expansion would require disposal. The excavated materials would be temporarily stored in the staging area and later removed for use on other nearby land development projects or would be off-hauled to the Dutch

Slough project site in Oakley where it would be used as fill. Other construction activities along this reach would include revegetation and planting, as well as the relocation of the regional trail.

2.5.2 Middle Reach

Grading and earthmoving activities along the Middle Reach would also take place over a period of approximately 1 to 2 weeks during the dry season. Construction equipment to be used would include tractors, backhoes, excavators, graders, and dump trucks. Staging for the Middle Reach portion of the project would take place on the District-owned parcels that contain the Middle Reach of the creek. Approximately 3,500 cubic yards of spoils excavated for channel expansion would require disposal. Similar to the Upper Reach, the excavated materials would be temporarily stored in the staging area and later removed for use on other nearby land development projects or would be off-hauled to the Dutch Slough project site where it would be used as fill. Other construction activities along this reach would include revegetation and planting, as well as the relocation of the regional trail.

2.5.3 Lower Reach

Construction of the Lower Reach improvements would take place over a period of approximately 4 weeks during the dry season. Staging for the Lower Reach portion of the project would take place on the District-owned parcels containing the creek or the adjacent vacant private land parcel. Construction equipment to be used would include tractors, backhoes, excavators, graders, and dump trucks. Approximately 11,000 cubic yards of spoils excavated for channel expansion would require disposal, with the remainder of the excavated materials (4,000 cubic yards) used on site. Similar to the other two reaches, the excavated materials would be temporarily stored in the staging area and later removed for use on other nearby land development projects or would be off-hauled to the Dutch Slough project site where it would be used as fill. Other construction activities along this reach would include revegetation and planting.

2.6 Long Term Maintenance

Following the construction of the proposed improvements, the project area would be maintained by the District, with EBRPD responsible for continued maintenance of the regional trail.

2.7 Permits and Approvals Required

In addition to review and approval of the proposed project by the District pursuant to CEQA, the proposed project will also require the following permits and approvals for implementation:

- Clean Water Act (CWA) Section 404 Permit from the U.S. Army Corps of Engineers for construction in the Waters of the U.S.
- CWA Section 401 Certification from the Central Valley Regional Water Quality Control Board
- Section 1602 Streambed Alteration Agreement from the California Department of Fish and Wildlife
- EBRPD Encroachment Permit
- District Encroachment Permit
- City of Brentwood Grading Permit

4. DETERMINATION

On the basis of this initial evaluation:

- ☐ The proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.
- ☒ Although the proposed project COULD have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared.
- ☐ The proposed project MAY have a significant effect on the environment and an ENVIRONMENTAL IMPACT REPORT is required.

5. EVALUATION OF ENVIRONMENTAL EFFECTS

All items on the Initial Study Checklist that have been checked “Less Than Significant Impact” or “No Impact” indicate that, upon evaluation, the District on behalf of the Contra Costa County Department of Conservation and Development has determined that the proposed project could not have a significant adverse environmental effect relating to that issue. For items that have been checked “Less Than Significant with Mitigation Incorporated,” the District has determined that the proposed project would not have a significant adverse environmental effect as the mitigation measures presented in this Initial Study would be implemented as part of the project. For each checklist item, the evaluation has considered the impacts of the project both individually and cumulatively.

THIS PAGE INTENTIONALLY LEFT BLANK

5.1 Aesthetics

5.1.1 Background

The project is located in a rapidly urbanizing area of eastern Contra Costa County, in the City of Brentwood. At the present time, the creek is a trapezoidal flood control channel with practically no riparian vegetation. The earthen channel is steep sloped and planted with non-native grasses. A narrow band of ruderal freshwater marsh habitat is present along the base of the channel banks. Marsh Creek Trail is located on top of the eastern bank of the creek. Residential subdivisions are present on both sides of the creek for most of the project's length. A vacant City-owned parcel is located on the east side of the Upper Reach just south of Central Boulevard and another city park (Sungold Park) is present on the west side of the Lower Reach. A linear park is planned adjacent to the east side of the Lower Reach. A residential subdivision project (Pulte) is approved for the area east of the Lower Reach.

5.1.2 Environmental Checklist and Discussion

AESTHETICS		Potentially Significant Impact	Less than Significant with Project- level Mitigation	Less than Significant Impact	No Impact
Would the project...					
a)	Have a substantial adverse effect on a scenic vista?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b)	Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c)	Substantially degrade the existing visual character or quality of the site and its surroundings?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
d)	Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

DISCUSSION:

Project

- a. A scenic vista is defined as a publicly accessible viewpoint that provides expansive views of a highly valued landscape. Although public views of the Upper Reach are available from Dainty Avenue and Central Boulevard, the views are generally not expansive and would not be considered a scenic vista. Expansive views of the creek and the broader landscape are available from Sungold Park to the west of the Lower Reach and from the EBPRD regional trail, especially in the area of the Middle and Lower Reaches. The implementation of the proposed project would change these views by widening the floodplain and planting riparian vegetation along the creek.

However, this change would not adversely affect the scenic views in the area but would in fact enhance the views by adding trees and other riparian vegetation along the creek banks. The impact would be *less than significant*.

- b.** There is no state designated scenic route in the immediate vicinity of the proposed project. However, some trees will be removed but the project will be restored with native riparian trees and understory vegetation. Therefore, the project impact would be *less than significant*.
- c.** The proposed project would excavate both banks of the creek, widen the channel, and restore the area by planting native plant species and riparian trees. During construction, the project area would appear disturbed and a small number of existing trees would be removed when the creek banks are excavated. However the duration of construction would be short and once the construction is completed, new trees and other native plants appropriate to the project area would be planted. Once the new plantings are established, the visual character and quality of the creek corridor would improve relative to current conditions. Impacts of the proposed project on the visual character of the project site and its surroundings would be *less than significant*.
- d.** The project does not include the installation of any temporary or permanent lighting. Construction work would be completed during daytime hours and no lighting would be required. Therefore implementation of the project would not create a new source of substantial light or glare that would adversely affect day or nighttime views in the area. There would be *no impact*.

5.2 Agricultural and Forestry Resources

5.2.1 Background

The project is located in Contra Costa County. The Farmland Mapping and Monitoring Program (FMMP) identifies the project site as Urban and Built-Up Land² (California Department of Conservation 2014).

The project site is bordered on the east by residential subdivisions, a vacant City-owned parcel, two planned parks, Willow Wood School/Dainty Center, and an approved residential subdivision. To the west, the project site is bordered by residential subdivisions and a city park. The land between Deer Creek and Sand Creek to the west of the Middle Reach is presently undeveloped land planned for future residential subdivision development (City of Brentwood General Plan 2014). All lands adjacent to the creek are designated Urban and Built-Up land by the FMMP.

5.2.2 Environmental Checklist and Discussion

AGRICULTURAL AND FORESTRY RESOURCES				
Would the project...	Potentially Significant Impact	Less than Significant with Mitigation	Less than Significant Impact	No Impact
a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Conflict with existing zoning for agricultural use, or a Williamson Act contract?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Conflict with existing zoning for, or cause rezoning of, forest land (as defined in Public Resources Code Section 12220(g)) or timberland (as defined by Public Resources Code Section 4526)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Result in the loss of forest land or conversion of forest land to non-forest use?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

² Land occupied by structures with a building density of at least 1 unit to 1.5 acres, or approximately 6 structures to a 10-acre parcel. This land is used for residential, industrial, commercial, construction, institutional, public administration, railroad and other transportation yards, cemeteries, airports, golf courses, sanitary landfills, sewage treatment, water control structures, and other developed purposes.

- e) Involve other changes in the existing environment, which, due to their location or nature, could result in conversion of Farmland to non-agricultural use or conversion of forest land to non-forest use? ☐ ☐ ☐ ☒
-

DISCUSSION:

- a. The project site is designated as Urban and Built-up Land by the FMMP. As a result, implementation of the proposed project would not result in the conversion of land designated either as Prime Farmland, Unique Farmland, or Farmland of Statewide Importance to non-agricultural use. There would be *no impact*.
- b. The project site is not under a Williamson Act contract and is not zone for agricultural use. There would be *no impact* from the implementation of the project on land under a Williamson Act contract and/or zoned for agricultural use.
- c, d. Timberland is defined in PRC Section 4526 as “land designated by the board³ as experimental forest land, which is available for, and capable of, growing a crop of trees of a commercial species used to produce lumber and other forest products, including Christmas trees.” The project site contains no mapped timberland, and there would be *no impact* from implementation of the proposed project.

Forest land is defined in PRC Section 12220(g) as “land that can support 10-percent native tree cover of any species, including hardwoods, under natural conditions, and that allows for management of one or more forest resources, including timber, aesthetics, fish and wildlife, biodiversity, water quality, recreation, and other public benefits.” The project site does not contain any forest lands. Therefore, implementation of the proposed project would not result in the loss of or conversion of forest land to non-forest use. There would be *no impact*.

- e. The project would not involve any land use changes that could indirectly lead to the conversion of Important Farmland or forest lands to other uses. Furthermore, as discussed above, most of the parcels near the project site are developed with residential subdivisions, and those properties that are currently undeveloped are designated Urban and Built-Up Land by the FMMP. There would be *no impact*.

³ Board of Forestry and Fire Protection

5.3 Air Quality

5.3.1 Background

The project area is subject to air quality planning programs developed in response to both the Federal Clean Air Act (CAA) and the California Clean Air Act (CCAA). Within the San Francisco Bay Area, air quality is monitored, evaluated, and regulated by the U.S. Environmental Protection Agency (EPA), the California Air Resources Board (CARB), and Bay Area Air Quality Management District (BAAQMD).

The project is located in eastern Contra Costa County, which, along with eight other counties, is within the San Francisco Bay Area Air Basin (SFBAAB or Air Basin).

Air pollutants are emitted by a variety of sources, including mobile sources such as automobiles; stationary sources such as manufacturing facilities, power plants, and laboratories; and area sources such as homes and commercial buildings. While some of the air pollutants that are emitted need to be examined at the local level, others are predominantly an issue at the regional level. For instance, ozone (O₃) is formed in the atmosphere in the presence of sunlight by a series of chemical reactions involving oxides of nitrogen (NO_x) and reactive organic gases (ROG). Because these reactions are broad-scale in effects, the effects of ozone typically are analyzed at the regional level (i.e., in the Air Basin) rather than the local level. On the other hand, other air pollutants such as sulfur dioxide (SO₂), respirable particulate matter (PM₁₀), fine particulate matter (PM_{2.5}), carbon monoxide (CO), lead (Pb), and toxic air contaminants (TAC) are a potential concern in the immediate vicinity of the pollutant source because the pollutants are emitted directly or are formed close to the source. TACs are also known as hazardous air pollutants. Therefore, the study area for emissions of SO₂, PM₁₀, PM_{2.5}, CO, Pb, and TAC is the local area nearest the source, such as in the vicinity of construction sites, whereas the study area for regional pollutants such as NO_x and ROG is the entire Air Basin.

Air pollutants typically are categorized as criteria pollutants or TACs. The criteria pollutants are those regulated at the federal level by U.S. EPA and at the state and regional level by CARB and BAAQMD, respectively. These include O₃, PM₁₀, PM_{2.5}, CO, nitrogen dioxide (NO₂), SO₂, and Pb. O₃ is a secondary pollutant formed during photochemical reactions with precursor pollutants. As such, O₃ is measured by assessing emissions of its precursors, ROG and NO₂. TACs are airborne pollutants for which there are no air quality standards, but are known to have adverse human health effects and therefore are regulated. TACs are generated by a number of sources, including stationary sources, mobile sources such as automobiles and heavy-duty construction equipment, particularly diesel-fueled vehicles.

Air quality in the Air Basin is monitored by the BAAQMD and CARB. Based on pollutant concentrations measured at monitoring stations within the Air Basin, the SFBAAB is classified as being either in attainment or non-attainment of federal and state air quality standards. The Air Basin is designated nonattainment for the federal O₃ 8-hour standard, the state O₃ 1-hour standard, the state PM₁₀ standard, and the state and federal PM_{2.5} standards. For all other federal and state standards, the Air Basin is in attainment or unclassified.

Some groups of people are considered more sensitive to adverse effects from air pollution than the general population. These groups are termed “sensitive receptors.” Sensitive receptors include children, the elderly, and people with existing health problems, who are more often susceptible to respiratory infections and other air quality-related health problems. Locations where these groups of people are found, such as schools, childcare centers, hospitals, and nursing homes, are all considered sensitive receptors. Air pollution impacts are assessed, in part, based on potential effects on sensitive receptors.

Several sensitive receptors are located in the vicinity of the project site. Specifically, single-family homes are located adjacent to the work areas on the east side of the creek between Dainty Avenue and Central Boulevard; on the west side of the creek between Central Boulevard and Deer Creek; and along the east side of the Middle Reach. Willow Wood School/Dainty Center is also located adjacent to the east side of the creek at the corner of Dainty Avenue and Central Boulevard.

The BAAQMD CEQA Air Quality Guidelines (“BAAQMD Guidelines”) set forth methodologies and quantitative significance thresholds that a lead agency may use to estimate and evaluate the significance of a project’s air emissions. The BAAQMD Guidelines present thresholds for evaluating both construction-phase and operational emissions, and include numeric thresholds for criteria pollutants and health-based evaluation criteria for TACs. The BAAQMD Guidelines do not recommend quantification of fugitive dust emissions but note that the impact from a project’s fugitive dust emissions during construction would be significant unless dust control measures and other best management practices are implemented. Although due to litigation related to the BAAQMD Guidelines, the BAAQMD is not recommending the use of the thresholds in its Guidelines, the thresholds are used by most Bay Area lead agencies, and have been used in this Initial Study to evaluate the project’s air quality impacts.

5.3.2 Environmental Checklist and Discussion

AIR QUALITY		Potentially Significant Impact	Less than Significant with Mitigation	Less than Significant Impact	No Impact
Would the project...					
a)	Conflict with or obstruct implementation of the applicable air quality plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b)	Violate any air quality standard or contribute substantially to an existing or projected air quality violation?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c)	Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is in non-attainment under an applicable federal or state ambient air quality standard (including releasing emissions which exceed quantitative thresholds for ozone precursors)?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
d)	Expose sensitive receptors to substantial pollutant concentrations?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

- e) Create objectionable odors affecting a substantial number of people?

☐☐☒☐

DISCUSSION:

- a. A project would be considered to conflict with or obstruct implementation of the regional air quality plans if it would be inconsistent with the emissions inventories contained in the regional air quality plans. Emission inventories are developed based on projected increases in population and vehicle miles traveled (VMT) within the region. Project-generated increases in population or VMT could, therefore, potentially conflict with regional air quality attainment plans. Due to the nature of the creek restoration activities, implementation of the proposed project would not result in increased population or related increases in vehicle miles traveled within the region. As a result, implementation of the proposed project would not be anticipated to conflict with existing or future air quality planning efforts. The proposed project would have a *less than significant* impact.
- b. Implementation of the proposed project would result in short-term emissions associated with ground disturbance and use of construction equipment and vehicles. Minimal emissions are anticipated after the activities are completed, for reasons presented below.

Construction

Construction-generated emissions are short term and of temporary duration, lasting only as long as construction activities occur, but have the potential to result in a significant air quality impact. The channel widening and restoration activities would result in temporary emissions associated with excavation and motor-vehicle exhaust from construction equipment and worker trips, as well as the movement of construction equipment especially on unpaved surfaces. Emissions of airborne particulate matter are largely dependent on the amount of ground disturbance associated with site preparation activities.

Criteria Pollutant Emissions

Emissions of criteria pollutants from mainly excavation activities, grading and off-hauling were estimated using the CalEEMod model. A conservative scenario was modeled that assumed that the Upper Reach and Lower Reach improvements would be under construction at the same time and the Middle Reach improvements would be constructed shortly thereafter. Therefore all of the construction activities would take place over a 37-day period. The estimated construction emissions are provided below in **Table 2, Estimated Construction Emissions**.

Table 2
Estimated Construction Emissions (lbs per day)

	CO	NOx	ROG	PM (fugitive dust)	PM10 (Exhaust)	PM2.5 (Exhaust)
Project	24.4	20.9	2.4	138.7	0.81	0.74
Significance Thresholds	None	54	54	None	82	54
Exceedance?	No	No	No	No	No	No

Source: Impact Sciences, Inc. 2016.

As shown in **Table 2**, if the Upper Reach and Lower Reach are concurrently under construction and the Middle Reach is constructed shortly after, the proposed project would result in emissions that would not exceed the thresholds of significance for criteria pollutants. The impact from air pollutant emissions during the construction-phase of the project would be *less than significant*.

Fugitive Dust

As mentioned above, movement of construction equipment, especially on unpaved surfaces, during construction activities and off-hauling excavated materials could temporarily generate fugitive dust, including PM10 and PM2.5 emissions. Unless properly controlled, vehicles leaving the site would deposit mud on local roadways, which could be an additional source of airborne dust after it dries. Fugitive dust emissions would vary from day to day, depending on the nature and magnitude of construction activity and local weather conditions. Fugitive dust emissions would also depend on soil moisture, silt content of soil, wind speed, and the amount of equipment operating. Larger dust particles would settle near the source, while fine particles would be dispersed over greater distances from the construction site. The BAAQMD Guidelines consider the impact from a project's construction-phase dust emissions to be less than significant if best management practices listed in the guidelines are implemented. Without these BMPs, the impact from fugitive dust emissions would be potentially significant. Thus, to ensure that construction-phase emissions are controlled and minimized, **Mitigation Measure AIR-1** is included which requires that dust control and other BMPs put forth by the BAAQMD are implemented by the proposed project.

Mitigation Measure AIR-1:

The construction contractor(s) shall implement the following BMPs during project construction:

- All exposed surfaces (e.g., parking areas, staging areas, soil stockpiles, graded areas, and unpaved access roads) shall be watered two times per day.
- All haul trucks transporting soil, sand, or other loose material off-site shall be covered.

- All visible mud or dirt track-out onto adjacent public roads shall be removed using wet power vacuum street sweepers at least once per day. The use of dry power sweeping is prohibited.
- All vehicle speeds on unpaved roads shall be limited to 15 mph.
- All roadways, driveways, and sidewalks to be paved shall be completed as soon as possible and feasible.
- Idling times shall be minimized either by shutting equipment off when not in use or reducing the maximum idling time to five minutes (as required by the California airborne toxics control measure Title 13, Section 2485 of California Code of Regulations [CCR]). Clear signage shall be provided for construction workers at all access points.
- All construction equipment shall be maintained and properly tuned in accordance with manufacturer's specifications. All equipment shall be checked by a certified mechanic and determined to be running in proper condition prior to operation.
- Post a publicly visible sign with the telephone number and person to contact at the Lead Agency regarding dust complaints. This person shall respond and take corrective action within 48 hours. The Air District's phone number shall also be visible to ensure compliance with applicable regulations.

Community Health Risk

In addition to an evaluation of the potential impacts from a project's construction-phase emissions of criteria pollutant and fugitive dust, the BAAQMD Guidelines recommend an evaluation of potential community health risk and hazards from a project's construction emissions of toxic air contaminants (TACs). For assessing community risks and hazards, a 1,000 foot radius around the project boundary is recommended in the BAAQMD Guidelines. The proposed project would involve the use of diesel-fueled construction equipment which would result in diesel particulate emissions which are considered a TAC in the vicinity of the work areas. Due to the nature of the proposed project, the fact that only a few pieces of equipment would be used on each reach (no more than 3 pieces of equipment), and the short duration of work, the potential for a significant impact is low. However, sensitive receptors such as residences and a daycare center are located less than 50 feet from where project construction activities would occur and could be potentially affected. The impact would be *potentially significant*. To avoid impacts to nearby sensitive receptors, the project will be required to implement **Mitigation Measure AIR-2** which will ensure that cleaner engines are utilized for construction equipment to reduce diesel particulate emissions.

Mitigation Measure AIR-2:

All diesel-powered off-road equipment larger than 50 horsepower and operating on the site for more than two days continuously during the duration of construction shall, at a minimum, meet U.S. EPA emissions standards for Tier 2 engines or equivalent.

Operation

Operational air emission impacts are associated with any change in permanent use of the project site as a land use change can add new on-site stationary or area sources to the project site or increase the number of vehicles trips to and from the project site. No change in land use is proposed as part of the channel widening and restoration activities. Although restoration activities may attract more people to utilize the Marsh Creek Trail, no significant permanent increase in vehicle trips to the creek would result due to the proposed project. The small number of vehicle trips associated with the monitoring and maintenance activities would not significantly increase VMT. Therefore, operational emissions associated with the proposed project would not change substantially from existing conditions, and would not exceed the applicable BAAQMD thresholds of significance for operational emissions. The impact from air pollutant emissions during operation would be *less than significant*.

- c. As described above in Response b, the proposed project would not result in temporary increases in air pollutant emissions that would exceed the applicable BAAQMD thresholds of significance for construction emissions of criteria pollutants. In addition, BMPs would be implemented to control fugitive dust and other construction-phase emissions. The proposed project would also not result in a substantial amount of air pollutant emissions during operation. As a result, increases of temporary and long-term air pollutant emissions would not result in a cumulatively considerable net increase of any of the pollutants for which the project region is in nonattainment status for federal or state ambient air quality standards. This impact would be *less than significant*.
- d. The potential for project construction activities to affect sensitive receptors is analyzed above under Response b. As noted there, although TAC emissions during construction could result in a potentially significant community health impact, it would be reduced to a *less than significant* level by **Mitigation Measure AIR-2** set forth above.
- e. Construction of the proposed project would require the use of diesel-fueled equipment, which has an associated odor. However, odors would be short term and temporary and would disperse rapidly. They would not be pervasive enough to affect a substantial number of people or to be objectionable. Consequently, construction of the proposed project would not cause or be affected by odors, and the impact would be less than significant. Furthermore, **Mitigation Measures AIR-1** and **AIR-2** would be implemented to minimize diesel exhaust emissions emitted on the project site during construction.

5.4 Biological Resources

5.4.1 Background

The project site is situated in a rapidly developing part of eastern Contra Costa County. Adjacent land uses include single-family residential neighborhoods to the north, west and south, and vacant lands zoned for residential development to the east and west. A section of the Marsh Creek Regional Trail follows the top of Marsh Creek's eastern bank.

The entire study area, which encompasses both banks of Marsh Creek over a section approximately 4,000 feet long, has been highly modified historically by flood control and agricultural activities. The upland portions of the study area were dryland farmed as recently as 2003 and were under cultivation at least as long ago as 1938; Marsh Creek has had much the same alignment going back at least as long ago as then. Although most of the Marsh Creek channel on site is lined with earthen banks, portions have been armored with grouted riprap. Multiple storm drains outfall into the channel. The left (western) bank is topped with a gravel access roadbed and backs up onto fenced back yards or adjacent residences, and a vacant field. The right (east) bank is topped with the paved Marsh Creek Regional Trail and bordered with an old barbed wire fence in the Lower Reach. The upland fields within and adjacent to the project site is former agricultural land that has gone fallow but is routinely disked for weed and fire control (Wood 2016).

No natural, unaltered plant communities are present onsite or the project vicinity. Although native plant species are present, none of the habitats present are considered indigenous and natural; each is characterized as a product of post-disturbance recolonization. The predominant vegetation type is ruderal. Anthropogenic habitat, consisting of plantings, is present along the Marsh Creek Regional Trail and on adjacent properties. A narrow band of ruderal freshwater marsh habitat is present along the base of each channel bank (Wood 2016).

Reconnaissance-level surveys were performed on May 12, 2015 and November 17, 2015 by Wood Biological Consulting. During both surveys, all habitat types at and adjacent to the study area were surveyed and classified, and plant and wildlife species observed were recorded.

Special-status Plants

Special-status plants include plant species that are listed or proposed for listing under the Federal Endangered Species Act (FESA) or California Endangered Species Act (CESA) or considered by the California Native Plant Society (CNPS) to be "rare, threatened or endangered in California" (California Rare Plant Rank 1A, 1B and 2). A total of 61 special-status plant species have been recorded in the nine U.S. Geological Survey (USGS) quadrangles surrounding the project site and were evaluated in the February 2016 Biological Resource Assessment. Of the 61 species, eight special-status plant species are mapped by the 2015 California Natural Diversity Database (CNDDB) as having been recorded from within 3.0 miles of the project site. These include brittlescale (*Atriplex depressa*), big tarplant (*Blepharizonia plumosa*), round-leaved filaree (*California macrophylla*), San Joaquin spearscale (*Extriplex joaquiniana*), stinkbells (*Fritillaria agrestis*), Brewer's western flax (*Hesperolinon breweri*), Antioch Dunes evening primrose (*Oenothera deltoides* ssp. *howellii*), and showy golden madia (*Madia radiata*).

No federally or State-listed plant species or California Rare Plant Rank 1A, 1B and 2 species were detected within the study area and none is expected to occur within the project disturbance areas due to level of historical disturbance and lack of appropriate habitat.

Special-status Wildlife Species

Special-status wildlife species include animal taxa listed or proposed for listing under the FESA or CESA; taxa considered by the California Department of Fish and Wildlife (CDFW) to be a Species of Special Concern (SSC); and taxa which meet the criteria for listing, even if not currently included on any list, as described under CEQA Section 15380. In addition, many wildlife species receive protection under the Bald and Golden Eagle Protection Act (BGEPA), the Migratory Bird Treaty Act (MBTA), and the Migratory Bird Treaty Reform Act (MBTRA). The California Fish and Game Code (CFGC) provides specific language protecting birds and raptors, “fully protected birds,” “fully protected mammals,” “fully protected reptiles and amphibians,” and “fully protected fish.” The California Code of Regulations (CCR) prohibits the take of fully protected fish, certain fur-bearing mammals, and restricts the taking of amphibians and reptiles (Wood 2016).

The potential for a total of 78 special-status wildlife species to occur in the area to be disturbed by the project was evaluated in the February 2016 Biological Resource Assessment. Based on the availability of suitable habitat, there is potential for nine special-status wildlife species to occur on site. These include silvery legless lizard, California red-legged frog, Pacific pond turtle, Chinook salmon, steelhead (Central Valley distinct population segment (DPS)), burrowing owl, white-tailed kite, loggerhead shrike, and Swainson’s hawk. Of the nine species, two of these species were observed on site during surveys: burrowing owl was observed nesting within the study area and Swainson’s hawk was observed hunting on site.

East Contra Costa County Habitat Conservation Plan/Natural Community Conservation Plan

The proposed project site is located within the East Contra Costa County Habitat Conservation Plan/Natural Community Conservation Plan (“HCP/NCCP” or “Plan”) inventory area. The Plan is intended to provide a comprehensive framework to protect natural resources in eastern Contra Costa County, while improving and streamlining the environmental permitting process for impacts of new development on Endangered and Threatened species, and other species covered by the HCP/NCCP.

The permit area for the East Contra Costa County HCP/NCCP generally includes land within the urban limit lines in the cities of Clayton, Pittsburg, Oakley, and Brentwood and Contra Costa County. The local jurisdictions who are permittees under the HCP/NCCP include the cities of Brentwood, Clayton, Oakley, and Pittsburg, Contra Costa County, Contra Costa County Flood Control and Water Conservation District, East Bay Regional Park District, and the Conservancy. Currently, all participating jurisdictions have approved the HCP/NCCP and have adopted implementing ordinances and the fee structures set forth in the HCP/NCCP.

As required by the FESA, the HCP/NCCP includes measures to avoid and minimize take of covered species, which would be included as conditions on development for applicable projects. It is the responsibility of project proponents to design and implement their projects in compliance with listed measures in the HCP/NCCP.

The proposed project's participation in the HCP/NCCP would provide a mechanism to adequately mitigate impacts to all potentially occurring covered sensitive species and habitats on the project site.

5.4.2 Environmental Checklist and Discussion

BIOLOGICAL RESOURCES	Potentially Significant Impact	Less than Significant with Mitigation	Less than Significant Impact	No Impact
Would the project...				
a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special-status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c) Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
f) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

DISCUSSION:

a. Special-status Plants

As stated above, 61 special-status plant species have been recorded within the nine USGS quad area inclusive of the project site and were evaluated in the February 2016 Biological Resource Assessment. However, none of the special-status plant species were observed during site reconnaissance surveys and are not expected to occur on the project site due to the level of disturbance, soils, lack of suitable habitat or substrate, and geographic isolation from known populations. Therefore, *no impacts* to special-status plant species would occur.

Special-status Wildlife Species

As noted above, the potential exists for nine special-status wildlife species to occur on site: silvery legless lizard, California red-legged frog, Pacific (Western) pond turtle, Chinook salmon, steelhead (Central Valley DPS), burrowing owl, white-tailed kite, loggerhead shrike, and Swainson's hawk. The potential also exists for numerous other bird species that are protected under the MBTA and CFGC to be present in the area. The potential for the project to affect these species is evaluated below.

Reptiles and Amphibians

Populations of California red-legged frog, Pacific (Western) pond turtle, and silvery legless lizard have been recorded from the project region. Although the occurrence of these species on the project site is considered unlikely, the lack of significant barriers to movement between known source populations and the project site means that the potential exists for these species to move into harm's way during project construction and direct mortalities could result. Direct and indirect impacts to California red-legged frog, Pacific (Western) pond turtle, and silvery legless lizard would be considered *significant*. Implementation of **Mitigation Measure BIO-1** would reduce impacts to these species to a *less than significant* level.

Mitigation Measure BIO-1:

To avoid and minimize impacts to California red-legged frog, Pacific (Western) pond turtle, and silvery legless lizard during construction activities, the project will implement the following measures:

1. Coverage under the HCP/NCCP. The project proponent shall apply for coverage under the HCP/NCCP. Participation in the HCP/NCCP, including implementation of appropriate avoidance and minimization measures and payment of applicable fees

would provide the project proponent with incidental take coverage for California red-legged frog, Pacific (Western) pond turtle, and silvery legless lizard.⁴

2. Seasonal Avoidance. If required by the Streambed Alteration Agreement or Water Quality Certification, work shall be limited to the dry season, from April 15 to October 15.
3. Minimize Nighttime Work. If required by the Streambed Alteration Agreement or Water Quality Certification, nighttime construction shall be restricted to avoid effects on nocturnally active species such as California red-legged frog.
4. Environmental Awareness Program. Prior to the commencement of construction activities, a qualified biologist shall present an environmental awareness program to all construction personnel working on site. At a minimum the training should include a description of special-status species that could be encountered, their habitats, regulatory status, protective measures, work boundaries, lines of communication, reporting requirements, and the implications of violations of applicable laws.
5. Wildlife Exclusion Fencing. Prior to the start of construction, wildlife exclusion fencing (WEF)⁵ shall be installed as warranted and consistent with the HCP/NCCP to isolate the work area from any habitats potentially supporting special-status animals or through which such species may move. The final project plans shall indicate where and how the WEF is to be installed. The bid solicitation package special provisions shall provide further instructions to the contractor about acceptable fencing locations and materials. The fencing shall remain throughout the duration of the work activities, be regularly inspected and properly maintained by the contractor. Fencing and stakes shall be completely removed following project completion.
6. Best Management Practices (BMPs). Prior to the initiation of work, BMPs shall be in place to prevent the release of any pollutants or sediment into the creek, storm drains, or tributaries; all BMPs shall be properly maintained. Leaks, drips, and spills of hydraulic fluid, oil, or fuel from construction equipment shall be promptly cleaned up to prevent contamination of water ways. All workers shall be properly trained regarding the importance of preventing and cleaning up spills of contaminants. Protective measures should include, at a minimum:

⁴ The HCP/NCCP requires written notification to the USFWS, CDFW, and the Habitat Conservancy prior to disturbance of any suitable breeding habitat for California red-legged frog. However, the project area does not contain any suitable breeding habitat for this species. Because the project will receive take coverage under the HCP/NCCP, preconstruction surveys are not required for California red-legged frog (non-breeding), Pacific (Western) pond turtle and silver legless lizard.

⁵ Wildlife Exclusion Fencing should provide a barrier for terrestrial wildlife gaining access to the project work areas. The fencing may vary to meet the needs of a particular species, but should be buried and/or backfilled to prevent animals passing under the fence and should be high enough to deter reptiles and amphibian or small mammals from climbing or jumping over the fence. Acceptable fencing materials including ERTEC E-Fence® (Ertec Environmental Systems LLC), plywood, corrugated metal, silt fencing or other suitable materials.

- a. No discharge of pollutants from vehicle and equipment cleaning should be allowed into any storm drains or watercourses.
 - b. Spill containment kits should be maintained onsite at all times during construction operations and/or staging or fueling of equipment.
 - c. Coir rolls or straw wattles should be installed along or at the base of slopes during construction to capture sediment.
- 7. Erosion Control. Graded areas shall be protected from erosion using a combination of silt fences, fiber rolls along toes of slopes or along edges of designated staging areas, and erosion control netting (such as jute or coir) as appropriate on sloped areas.
- 8. Construction Site Restrictions. The following site restrictions shall be implemented to avoid adversely affecting sensitive habitats and harm or harassment to listed species:
 - a. Any fill material shall be certified to be non-toxic and weed free.
 - b. All food and food-related trash items shall be enclosed in sealed trash containers and removed completely from the site at the end of each day.
 - c. No pets from project personnel shall be allowed anywhere in the project site during construction.
 - d. No firearms shall be allowed on the project site except for those carried by authorized security personnel, or local, State or Federal law enforcement officials.
 - e. All equipment shall be maintained such that there are no leaks of automotive fluids such as gasoline, oils or solvents and a Spill Response Plan shall be prepared. Hazardous materials such as fuels, oils, solvents, etc. shall be stored in sealable containers in a designated location that is isolated from wetlands and aquatic habitats.
 - f. Servicing of vehicles and construction equipment including fueling, cleaning, and maintenance should occur only at sites isolated from any aquatic habitat unless separated by topographic or drainage barrier or unless it is an already existing gas station. Staging areas may occur closer to the project activities as required.
- 9. Proper Use of Erosion Control Devices. Plastic mono-filament netting (e.g., that used with erosion control matting) or similar material shall not be used within the project area; wildlife can become entangled or trapped in such non-biodegradable materials. Acceptable substitutes include coconut coir matting, tackified hydroseeding, blown straw, or other organic mulching material.
- 10. Protocol for Species Observation – Pacific (Western) pond turtle and silvery legless lizard. If a Pacific (Western) pond turtle or silvery legless lizard is encountered in the project site, work in the area of the finding must cease immediately until the animal either moves out of harm's way of its own accord or is safely relocated well upstream or downstream of the project site. Only a qualified biologist with a scientific collection permit issued by the CDFW may handle and relocate Pacific (Western) pond turtle or silvery legless lizard. Any sightings and relocation of Pacific (Western)

pond turtle and silvery legless lizard should be reported to the CDFW and the CNDDDB.

Fish Species

Although there are no records for steelhead or Chinook salmon occurring in Marsh Creek in the 2015 CNDDDB and occurrence on site for both species is considered unlikely, recent sightings of fall-run Chinook have been reported within Marsh Creek and suitable habitat for steelhead is present in the project area. Populations of listed salmonids have not been regularly observed in Marsh Creek; any present would be considered stray migrants. Listed salmonids have the greatest potential to occur within the project area between November and June based on the timing of adult and juvenile migrations in and through the waterways of the Sacramento/San Joaquin Delta (National Marine Fisheries Service 2012). Although the vast majority of construction activities would occur above the OHWM and during the dry season, some limited work such as restoration of habitat or site-specific armoring could occur in the low-flow channel. To the extent that this work in the low-flow channel requires either dewatering or excavation, take of steelhead or Chinook could occur. Neither of these species is covered under the HCP/NCCP and direct and indirect impacts to either steelhead or Chinook would be considered *significant*. To ensure there is no take of either of these species if work in the low-flow channel becomes necessary, **Mitigation Measure BIO-2** would be implemented and impacts would be reduced to *less than significant*. In addition, consultation with the National Marine Fisheries Service (NMFS) will confirm these measures are sufficient; otherwise, additional measures may be implemented as appropriate. Once the proposed improvements are constructed, the project would not impede or interfere with fish movement. In fact the project would improve conditions for movement of fish species in this area.

Mitigation Measure BIO-2:

To minimize and avoid impacts to Chinook salmon and steelhead, the following measures will be implemented:

1. Seasonal Avoidance. In-stream work shall be limited to June 1 to October 31.
2. In-Stream Activities: If in-stream construction or dewatering is required, the following precautionary measures should be implemented:
 - a. A preconstruction survey of the aquatic environment shall be performed by a qualified biologist.
 - b. A qualified biologist shall present an environmental awareness program working on site.
 - c. A qualified biologist should monitor all in-stream activities.
 - d. If dewatering is proposed, a qualified biologist should monitor the installation of coffer dams. During dewatering, a qualified biologist should check for stranded aquatic wildlife. Dewatering pumps must be fitted with intake screens with a mesh no greater than 5 mm (0.2 in) and BMPs will be installed to minimize sediment transport during installation of coffer dams.

- e. Native species (non-special-status fish species) should be relocated upstream or downstream of the cofferdams by a permitted biologist. Non-native species should be euthanized in accordance with the guidance of the CDFW. All wildlife encounters should be documented and reported to the CDFW. If listed salmonids are present, the NMFS shall be consulted to determine the appropriate measures to ensure conformance with ESA.

Migratory and Special-status Birds

The project site trees, shrubs, vines, and grasslands provide suitable nesting habitat for four special-status bird species (Swainson's hawk, white-tailed kite, burrowing owl, and loggerhead shrike) as well as many other migratory bird species. As noted earlier, during site reconnaissance surveys, an occupied nesting burrow of burrowing owl was observed in the study area, and a foraging Swainson's hawk was observed on the ground, perching and directly overhead during the survey.

Ground disturbing activities such as grubbing, grading, trenching, and tree removal or pruning could result in direct or indirect impacts to nesting birds by causing the destruction or abandonment of occupied nests and mortality of young. In addition, noise from construction activities could disrupt active nests. Any direct or indirect impact on an active nest of the special-status bird species or species protected by the MBTA and CFGC would be a *potentially significant impact*. Implementation of **Mitigation Measure BIO-3** would reduce impacts to nesting birds to less than significant.

Mitigation Measure BIO-3:

In order to avoid impacts to nesting Swainson's hawk, white-tailed kite, burrowing owl, loggerhead shrike, and other bird species protected under the MBTA and CFGC during project implementation, the measures outlined below shall be implemented.

- 1) Environmental Awareness Program. Prior to the commencement of construction activities, a qualified biologist shall present an environmental awareness program to all construction personnel working on site. At a minimum the training shall include a description of special-status species that could be encountered, their habitats, regulatory status, protective measures, work boundaries, lines of communication, reporting requirements, and the implications of violations of applicable laws.
- 2) Swainson's hawk is a federally listed threatened species and is covered under the HCP/NCCP. Nonetheless, every effort should be made to ensure that no take of Swainson's hawk occurs. Therefore, the measures outlined below should be implemented.
 - a) The project proponent should apply for coverage under the HCP/NCCP. Participation in the HCP/NCCP would provide the applicant with incidental take coverage for Swainson's hawk and satisfy any requirements for mitigation for loss of habitat.
 - b) Prior to any ground disturbance during the nesting season (March 15-September 15), a qualified biologist shall conduct a preconstruction survey no more than one month prior to construction to determine if there are any

active Swainson's hawk nests within 305 meters (1,000 feet) of the project site.

- c) If there are no occupied nests within this buffer, no further action is needed.
 - d) If an active nest is present within this buffer, the measures outlined below shall be followed.
 - Construction activities are not permitted within 305 meters (1,000 feet) of an occupied nest to prevent nest abandonment. However, if site-specific conditions or the nature of the activity warrant a small buffer, a qualified biologist should coordinate with CDFW and USFWS to determine the appropriate buffer size.
 - Construction activities may proceed prior to September 15 if the young Swainson's hawks have fledged, as determined by a qualified biologist.
- 3) White-tailed kite is a state-listed fully protected species; it is not covered under the HCP/NCCP and incidental take of the species is not allowed. To ensure that no take of white-tailed kite or other migratory raptors occurs, the measures outlined below shall be implemented.
- a) Prior to any ground disturbance during the nesting season (February 1-August 31), a qualified biologist shall conduct a preconstruction survey no more than two weeks prior to construction to determine if there are any active nests of white-tailed kite or other migratory raptors within 76 meters (250 feet) of the project site.
 - b) Prior to the removal or significant pruning of any trees, they shall be inspected by a qualified biologist for the presence of raptor nests. This is required during both the breeding season and non-breeding season. If a suspected raptor nest is discovered, the CDFW shall be notified. Pursuant to CFGC Section 3503.5, raptor nests, whether or not they are occupied, may not be removed until approval is granted by the CDFW.
 - c) If there are no occupied nests within this buffer, no further action is needed.
 - d) If an active nest is present within this buffer, the measures outlined below shall be implemented.
 - Construction activities are not permitted within 76 meter (250 feet) of an occupied nest to prevent nest abandonment. However, if site-specific conditions or the nature of the activity warrant a small buffer, a qualified biologist should coordinate with the CDFW and/or USFWS to determine the appropriate buffer size. Nest monitoring may be warranted for activities that would occur within a smaller buffer.
 - Construction activities may proceed prior to August 31 if the young white-tailed kites or other raptor species have fledged, as determined by a qualified biologist.
- 4) Burrowing owl is a State species of special concern and a covered species under the HCP/NCCP. To ensure that no take of burrowing owl occurs, the measures outlined below shall be implemented.

- a) Prior to any ground disturbance during the nesting season (February 1-August 31), a CDFW-approved biologist shall conduct a preconstruction survey of all suitable burrowing owl habitat that would be affected by the project. The survey shall be performed no more than 30 days prior to construction to determine if there are any active nests of burrowing owl within 153 m (500 ft) of the project site, access permitting.
 - b) If there are no occupied nests within this buffer, no further action is needed.
 - c) If an active nest is present within this buffer, the measures outlined below shall be implemented.
 - If an occupied burrowing owl nest site is present within the limits of work, construction may not proceed. The taking of burrowing owls or occupied nests is prohibited under CFGC.⁶ Nest sites must be flagged and protected by a designated disturbance-free buffer zone of at least 76 meters (250 feet).
 - Construction activities are not permitted within 76 meters (250 feet) of an occupied nest to prevent nest abandonment.
 - Construction may proceed if a qualified biologist monitors the nest and determines that the adults have not begun egg-laying and incubation or that the juveniles have fledged.
 - Burrowing owls may be passively excluded from occupied burrows outside of the breeding season (i.e., September 1-January 31), in consultation with the CDFW. All owls should be passively excluded from burrows within 49 meters (160 feet) of the work site. Passive exclusion is achieved by installing one-way doors in the burrow entrances. Doors should be in place for at least 48 hours and the site should be monitored daily for at least one week to confirm that the burrow has been abandoned.
- 5) Loggerhead shrike is a state species of special concern; it is not covered under the HCP/NCCP and incidental take of the species is not allowed. To ensure that no take of loggerhead shrike or any other migratory passerines occurs, the measures outlined below shall be implemented.
- a) If ground-disturbing activities (i.e., site clearing, disking, grading, etc.) can be performed outside of the nesting season (i.e., between September 1 and January 31), no additional surveys are warranted.
 - b) Prior to any ground disturbance during the nesting season (February 1-August 31), a qualified biologist should conduct a preconstruction survey no more than two weeks prior to construction to determine if there are any active nests of loggerhead shrike or any other migratory passerines nests within 30 meters (100 feet) of the project site.

⁶ CFGC §§3503, 3503.5 and 3800

- c) If there are no occupied nests within this buffer, no further action is needed.
- d) If an active nest is present within this buffer, the following measures shall be implemented.
 - Construction activities are not permitted within 30 meters (100 feet) of an occupied nest to prevent nest abandonment. However, if site-specific conditions or the nature of the activity warrant a smaller buffer, a qualified biologist should coordinate with the CDFW and USFWS to determine the appropriate buffer size. Nest monitoring may be warranted for activities that would occur within a smaller buffer.
 - Construction activities may proceed prior to August 31 if the young birds have fledged, as determined by a qualified biologist.
- f. Sensitive natural communities recorded from the project region include alkali meadow, alkali seep, cismontane alkali marsh, coastal and valley freshwater marsh, coastal brackish marsh, northern claypan vernal pool, stabilized interior dunes, valley needlegrass grassland, and valley sink scrub (Wood 2016). However, there are no known special-status natural communities on the project site. Although the project would involve the removal of some limited riparian habitat along the creek in order to widen the channel, substantially greater riparian habitat would be created by converting the creek channel to a more natural channel and planting the banks with riparian trees and plant species. Thus, the impact of the project on sensitive natural communities and riparian habitat would be *less than significant*.
- g. During the 2015 site visits, a preliminary delineation of jurisdictional waters of the U.S. and waters of the State was performed.⁷ Marsh Creek is expected to qualify as a water of the U.S. and a water of the State. Thus, as currently proposed, the project would result in impacts to jurisdictional waters. Impacts to the channel are regulated and fall under the jurisdiction of the U.S. Army Corps of Engineers (USACE), Regional Water Quality Control Board (RWQCB), and the CDFW. The proposed project would grade back both banks of Marsh Creek to an elevation just above the OHWM. The total length of channel to be altered is 4,000 feet. The impact on federal and state waters would be *potentially significant*. With the implementation of **Mitigation Measure BIO-4**, project impacts to jurisdictional waters would be reduced to a *less than significant* level.

Mitigation Measure BIO-4:

In order to avoid, minimize and compensate for unavoidable impacts on waters of the U.S./waters of the State, the measures outlined below shall be implemented.

⁷ Methods were in accordance with the procedures outlined in *Corps of Engineers Wetlands Delineation Manual* (Environmental Laboratory, 1987) and the *Regional Supplement to the Corps of Engineers Wetland Delineation Manual: Arid West Region* (USACE, 2008). Determination of the limits of the ordinary high water mark (OHWM) conformed to procedures outlined in USACE (2006).

- 1) Impacts on waters of the U.S. will be avoided by restricting grading to an elevation above the OHWM; avoidance of impacts to waters of the State is not feasible. Long-term impacts shall be minimized by limiting the use of hardened structures (e.g., grouted riprap) in preference of bio-engineering solutions as much as is practicable. Surface water connections must not be permanently blocked or interrupted and the installation of drop-structures or other features that create barriers to wildlife movement shall be avoided.
- 2) Prior to construction, the project proponent will need to secure authorization from the USACE, RWQCB, and CDFW in conformance to the Clean Water Act and Lake and Streambed Alteration Program.
- 3) Participation in the HCP/NCCP is expected to satisfy the requirements of the regulatory agencies for compensatory mitigation for unavoidable impacts on stream channels, wetlands and riparian habitat. A Planning Survey Report shall be completed and submitted to the East Contra Costa County Habitat Conservancy. The submittal shall include detailed drawings illustrating all temporary and permanent impacts.
- 4) Per the terms of the adopted HCP/NCCP, a wetland mitigation fee or on-site habitat restoration will mitigate the impacts. If accepted by the regulatory agencies, no additional mitigation for wetland impacts is typically required. HCP/NCCP fee payment will occur at project contract award.
- 5) For all work within and adjacent to the stream channel and riparian habitat, best management practices (BMPs) must be incorporated into the project design to minimize environmental effects. These include the following:
 - Construction in the active channels shall be restricted to the dry season (April 15-October 15).
 - Personnel conducting ground-disturbing activities within or adjacent to the buffer zone of wetlands, ponds, streams, or riparian woodland/scrub shall be trained by a qualified biologist in these avoidance and minimization measures and the permit obligations.
 - If dewatering is necessary, water released downstream of work areas must be as clean or cleaner than flows entering the work area. Sediment-laden water shall be either pumped onto upland sites for infiltration or into Baker tanks for settling, prior to being released back into the channel. Cofferdams shall consist of clean, silt-free sand or gravel in sand bags, or a comparable material. All cofferdam materials must be promptly removed when no longer needed.
 - High visibility temporary construction fencing should be erected between the outer edge of the limits of construction and adjacent streams or habitats to be preserved. Temporary construction fencing will be removed upon the completion of work.
 - Grading or construction near channels shall be isolated with silt fencing or other BMPs to prevent sedimentation. BMPs shall be regularly inspected.
 - Vehicles and equipment shall be parked on existing roads or previously disturbed areas.

- Equipment working in channels must be in good working order and free of leaks of fuel, oil, and hydraulic fluids. Drip pans shall be placed under vehicles and equipment over waterways and spill clean-up materials should be kept onsite at a convenient location.
- Equipment maintenance and refueling shall be performed well away from the top of bank of any channel; storm drain inlets shall be protected from an accidental release of contaminants.
- Concrete washings or other contaminants must not be permitted to enter the stream channel or any storm drain inlet.
- Any concrete structures or cured-in-place pipe linings shall be allowed to cure before coming in contact with surface flows.
- Construction debris and materials shall be stockpiled away from watercourses.
- Appropriate erosion-control measures (e.g., coconut coir matting, tackified hydroseeding, blown straw or other organic mulching material) shall be used on site to reduce siltation and runoff of contaminants into wetlands, ponds, streams, or riparian woodland/scrub. Plastic mono-filament netting (e.g., that used with erosion control matting) or similar material should not be used within the action area; wildlife can become entangled or trapped such non-biodegradable materials. Erosion-control measures shall be placed between the outer edge of the buffer and the project site.
- Fiber rolls used for erosion control shall be certified as free of noxious weed seed.
- Construction staging areas past the channel banks must be located away from any wetlands or other sensitive habitats as identified by a qualified biologist.
- Newly graded earthen channel slopes shall be revegetated with a native seed mix developed by a qualified restorationist. Seed mixtures applied for erosion control shall not contain invasive nonnative species, and be composed of native species or sterile nonnative species. Straw or mulch shall also be applied to all bare surfaces. The seed mix and mulch shall be applied prior to the onset of the first winter-season rains.
- Herbicide shall not be applied within 30 meters (100 feet) of wetlands, ponds, streams, or riparian habitat. However, where appropriate to control serious invasive plants, herbicides that have been approved by the U.S. EPA for use in or adjacent to aquatic habitats may be used as long as label instructions are followed and applications avoid or minimize impacts on covered species and their habitats. In seasonal or intermittent stream or wetland environments, appropriate herbicides may be applied during the dry season to control nonnative invasive species. Herbicide drift should be minimized by applying the herbicide as close to the target area as possible and by avoiding applying during windy days.
- Additional measures may be outlined in the conditions of the permits issued by the USACE, RWQCB, CDFW, and the Habitat Conservancy. All permit conditions must be conformed to.

- d. As mentioned above, limited construction work could occur in the low-flow channel and take of steelhead or Chinook could occur. To ensure there is no take of either of these species if work in the low-flow channel becomes necessary, **Mitigation Measure BIO-2** would be implemented to ensure temporary impacts to wildlife movement would be *less than significant*. Consultation with National Marine Fisheries Service (NMFS) would be conducted by the USACE during the USACE permit application process.

Marsh Creek is not part of an uninterrupted riparian corridor and although it is contiguous with extensive open shoreline lands downstream, it connects to the uppermost part of the watershed only after passing through commercial, industrial and residential development and numerous culvert outfalls. Much of the Lower Reach of Marsh Creek lacks significant riffles, pools, irregular bank features, and overhanging vegetation that provide suitable cover or refuge for resident or dispersing wildlife. Furthermore, the adjacent residential neighborhoods and commercial development bring predators such as pets, feral animals, and those attracted to human habitation. Increased human activity, noise, and lighting further inhibit the movements of wildlife species. For these reasons, the section of Marsh Creek that constitutes the project site is not expected to serve as a significant wildlife corridor. Although, construction activities would disturb wildlife that use the creek in the project area this disturbance would be temporary. Furthermore, the implementation of the proposed habitat restoration and enhancement project would serve to improve the quality of available habitat for wildlife use, including movement of fish species. Thus, *less than significant* impacts to wildlife movement would occur.

- e. The natural vegetation within the project area consists of annual grasses and forbs with a few scattered oaks. Project implementation would require removal of predominantly ruderal vegetation consisting of herbaceous annual and perennial grasses and forbs. Trees planned for removal include one valley oak (dbh⁸ estimated to be 40 inches), two live oaks (14-inch dbh), and 5-10 non-native trees (8-inch dbh). The City of Brentwood Oak Tree Preservation Ordinance requires that any healthy oak trees (4-inch dbh or greater) that are removed within Planned Development 20 (PD-20) areas shall be replaced with 48-inch box blue oak trees with a canopy width of 7 to 8 feet and a height of 17 feet. The ordinance requires that all trees shall be planted in public lands, the golf course, open space areas or view easements.

Although the proposed project is not subject to the City's tree ordinance, trees to be planted along the creek would still comply with tree replacement standards and would provide a greater number of trees than are currently on-site. A key component of the proposed project is to plant numerous trees alongside the creek to provide shade for pedestrians utilizing the Marsh Creek Trail and to shade waters within the creek to improve water quality. Thus, the impact would be *less than significant*.

- f. The East Contra Costa County HCP/NCCP was adopted in August of 2007. The HCP/NCCP provides a framework to protect natural resources in eastern Contra Costa County, while improving and streamlining the environmental permitting process for impacts on endangered species. Rather than individually surveying, negotiating, and securing mitigation, project proponents will receive required permits by paying a fee (and/or dedicating land) and adhering

⁸ Diameter of a tree measured at breast height or approximately 4.5 feet from the ground.

to Plan-required avoidance and minimization measures. Fees are paid into two separate reserves, a Development Fee and a Wetland Fee. The Development Fee requires payment based on a cost per acre for all acres converted to non-habitat with the cost per acre based on the HCP fee zone. The proposed project does not propose any building or structure development and would not convert any areas to non-habitat. Nonetheless, the project would temporarily disturb habitat and potentially affect covered species and payment of the Development Fee would be required. The Wetland Fee requires payment based on the amount and type of wetland or waters affected. The proposed project would comply with the HCP/NCCP and project impacts to species, habitat, and wetlands would be mitigated through the payment of Wetland Impact fees to the HCP/NCCP (or on-site habitat restoration). Therefore, the proposed project would not conflict with the provisions of an adopted HCP/NCCP and there would be *no impact*.

THIS PAGE INTENTIONALLY LEFT BLANK

5.5 Cultural Resources

5.5.1 Background

The project area is situated on the western margin of California's Central Valley, one of two principal grassland communities that exist in California. The combination of the climate and arable soils has produced rich farmland leading to extensive agricultural use of the region, which has resulted in the disappearance of much of the original marsh and grassland community. Annual precipitation in the region is 6 to 29 inches. The climate is Mediterranean and temperatures in the summer are high (WSA 2016). No standing structures are present on the project site.

On November 10, 2015, WSA conducted a records search for the project at the Northwest Information Center at Sonoma State University (NWIC) (File No. 15-0613). The records search included a review of cultural resource and excavation reports and recorded cultural resources within 1/4-mile radius of the project area. The records search also included a review of the Office of Historic Preservation Directory.

A total of two cultural resources studies have been conducted within the project area, and a total five cultural resources studies have been conducted within 1/4-mile radius of the project.

The records search indicated that no previously recorded resources are within the project area. One previously recorded resource, the Union⁹ Pacific Railroad (P-07-000813), is located within 1/4-mile of the project area. The resource is a segment of the historic Union Pacific Railroad⁶ whose alignment has been recorded in a number of different locations.

WSA Staff Archaeologist David Buckley conducted a field reconnaissance of the proposed project area on November 17, 2015. The survey began at the southeast corner of the project area at the intersection of Dainty Avenue and proceeded north along the eastern side of Marsh Creek. The survey proceeded around the north end of the project area and then continued south along the west side of Marsh Creek, terminating back at Dainty Avenue. No prehistoric or historic deposits were observed during the archaeological survey and no evidence of prehistoric cultural soils (midden) was observed during the archaeological survey (WSA 2016).

5.5.2 Environmental Checklist and Discussion

CULTURAL RESOURCES	Potentially Significant Impact	Less than Significant with Mitigation	Less than Significant Impact	No Impact
Would the project...				
a) Cause a substantial adverse change in the significance of a historical resource as defined in Section 15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

⁹ The railroad is listed as Union Pacific in the record but actually is currently known as Southern Pacific Railroad.

b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to Section 15064.5?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c) Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d) Disturb any human remains, including those interred outside of formal cemeteries?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e) Would the project cause a substantial adverse change in the significance of a tribal cultural resource as defined in Public Resources Code 21074?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

DISCUSSION:

- a. The project site consists of a section along Marsh Creek and the Marsh Creek Trail. The site does not contain buildings or structures that would qualify as historical resources. *No impact* on a structure or feature of the built environment that qualifies as a historical resource would occur.
- b.,d. As noted above, no recorded archaeological resources are known from the project area. No prehistoric or historic deposits were observed during the archaeological survey and no evidence of prehistoric cultural soils (midden) was observed during the archaeological survey. However, given that associated grave goods and human remains have been identified at various places along the banks of Marsh Creek at other locations, all of the areas immediately adjacent to Marsh Creek are considered sensitive for prehistoric archaeological deposits. Therefore, project impacts to unknown cultural resources or human remains would be potentially significant. **Mitigation Measure CUL-1** would reduce the impacts to unknown historic and prehistoric archaeological resources and human remains to a *less than significant* level.

Mitigation Measure CUL-1:

Crew training, initial monitoring by a qualified archaeologist to determine an appropriate level of monitoring for the duration of the project, and additional spot checks pending the results of the initial monitoring shall be conducted prior to and during ground disturbing activities.

A qualified archaeologist shall be present on the project site to monitor ground disturbing activities and inspect excavated soils to identify any cultural resources and human remains as deemed appropriate by the qualified archaeologist.

All construction crew workers shall attend a training session led by a qualified archaeologist that discusses (1) the reasons for archaeological resource monitoring; (2) regulatory policies protecting resources and human remains; (3) basic identification of archaeological resources; and (4) the protocol to follow in case of a discovery of such resources.

In accordance with CEQA Guideline §15064.5 (f), should any previously unknown historic or prehistoric resources, including but not limited to charcoal, obsidian or chert flakes, grinding bowls, shell fragments, bone, pockets of dark, friable soils, glass, metal, ceramics, wood, privies, trash deposits or similar debris, be discovered during ground disturbing activities, work within 25 feet of these materials should be stopped until a qualified professional archaeologist has an opportunity to evaluate the potential significance of the find and to consult with the lead agency about what appropriate mitigation would be appropriate to protect the resource.

In the event that human remains, or possible human remains, are encountered during project-related ground disturbance, in any location other than a dedicated cemetery, there shall be no further excavation or disturbance of the site or any nearby area reasonably suspected to overlie adjacent remains until the coroner of the county in which the human remains are discovered has determined, that the remains are not subject to the provisions of Section 27492 of the Government Code or any other related provisions of law concerning investigation of the circumstances, manner and cause of death, and the recommendations concerning treatment and disposition of the human remains have been made to the person responsible for the excavation, or to his or her authorized representative, in the manner provided in Section 5097.98 of the Public Resources Code.

The County Coroner, upon recognizing the remains as being of Native American origin, is responsible to contact the NAHC within 24 hours. The Commission has various powers and duties, including the appointment of a Most Likely Descendant (MLD) to the project. The MLD, or in lieu of the MLD, the NAHC, has the responsibility to provide guidance as to the ultimate disposition of any Native American remains.

- c. There are no known significant fossil deposits or paleontological resources located in the City of Brentwood (City of Brentwood 2014a). However, the geologic conditions within the city provide suitable conditions for the possibility of fossils to exist at depths of five to 10 feet below ground surface. The project site is mapped as Quaternary-aged alluvial deposits. Geologic formations, including various Quaternary subunits have a high to moderate potential for paleontological resources (City of Brentwood 2014a). Therefore, excavation on the project site could potentially inadvertently unearth and damage paleontological resources. Project impacts to paleontological resources would be *potentially significant*. **Mitigation Measure CUL-2** would be implemented to reduce the impact on paleontological resources to a *less than significant* level.

Mitigation Measure CUL-2:

Prior to project construction, construction personnel shall be informed of the potential for encountering significant paleontological resources. All construction personnel shall be informed of the need to stop work in the vicinity of a potential discovery until a qualified paleontologist has been provided the opportunity to assess the significance of the find and implement appropriate measures to protect or scientifically remove the find. Construction personnel shall also be informed of the requirements that unauthorized collection resources are prohibited.

- e. Assembly Bill (AB) 52, which came into effect on July 1, 2015, requires that lead agencies consider the effects of projects on tribal cultural resources and conduct consultation with federally and

non-federally recognized Native American tribes early in the environmental review process. According to AB 52, it is the responsibility of the tribes to formally request of a lead agency that they be notified of projects in the lead agency's jurisdiction so that they may request consultation. One tribe, Wilton Rancheria, has contacted the District¹⁰ requesting notification regarding projects proposed by the County. A letter was sent to Wilton Rancheria in October 2015 and no responses have been received to date. Although at this time, no other tribes have contacted the District requesting notification, the District proactively contacted the Native American Heritage Commission (NAHC) to obtain a list of Native American individuals and organizations that may have knowledge of or interest in tribal cultural resources in the project area. On February 1, 2016, WSA sent out letters to Native American tribes identified by NAHC notifying them of the proposed project and followed up with phone calls. Comments and recommendations were received from three Native American contacts. Ms. Zwierlein representing the Amah/Mutsun Tribal Band recommended construction to proceed with caution and call an archaeologist, if needed. Ms. Sayers representing the Indian Canyon Mutsun Band of Costanoan recommended archaeological and Native American monitoring during ground disturbance. Ms. Cambra representing the Muwekma Ohlone Indian Tribe of the SF Bay Area recommended consultation with the lead agency and asked for a report on how they responded to the archaeologist's recommendations. A record of the Native American consultation can be found in the 2016 Cultural Resources Assessment Report. The District has determined that with the mitigation measures outlined above, the proposed project would not affect any known tribal cultural resources in the area. The impact would be *less than significant*.

¹⁰ The District is coordinating with Native American tribes on behalf of the County.

5.6 Geology and Soils

5.6.1 Background

The project area is mapped as Quaternary-aged alluvial deposits. These soils are described as surficial sediments of alluvial clay and loam. Over the majority of the project site, soils encountered include clay with varying amounts of sand, silt, and gravel. The site is generally covered by seasonal grasses and weeds (ENGEO 2015). The existing Marsh Creek Trail consists of asphalt and landscaped gravels covering the surface.

5.6.2 Environmental Checklist and Discussion

GEOLOGY and SOILS Would the project...	Potentially Significant Impact	Less than Significant with Mitigation	Less than Significant Impact	No Impact
a) Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving:				
i) Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
ii) Strong seismic ground shaking?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
iii) Seismic-related ground failure, including liquefaction?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
iv) Landslides?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Result in substantial soil erosion or the loss of topsoil?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction or collapse?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d) Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
e) Have soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems where sewers are not available for the disposal of wastewater?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

DISCUSSION:

- a. i. The San Francisco Bay Area contains numerous active earthquake faults. Numerous small earthquakes occur every year in the San Francisco Bay Region, and larger earthquakes have been recorded and can be expected to occur in the future. The project site is not located within a currently designated Alquist-Priolo Earthquake Fault Zone and no known surface expression of active faults is believed to exist within the project site. The nearest active faults are the Greenville fault and Mount Diablo Thrust fault, located approximately 8 miles and 15 miles to the west, respectively. The two faults are considered capable of a moment magnitude earthquake of 7.0 and 6.7, respectively. Additionally, the Great Valley fault, a buried thrust fault, underlies the general Brentwood area. The location of the Great Valley fault is inferred from regional data; the fault does not extend to the ground surface and its location is not accurately known (ENGEO 2015).

Although the project site lies within a seismically active region, there are no known active faults crossing the project site and the site is not located within an Earthquake Fault Zone. Therefore, ground rupture is unlikely at the project site and the impact would be *less than significant*.

- a. ii. The project site could experience ground shaking due to an earthquake of moderate to high magnitude generated within the San Francisco Bay Region, similar to that which has occurred in the past. Therefore, if cut slopes to create the floodplain and flood benches are steeper than 3:1, they could become unstable or collapse as a result of ground shaking. The impact would be *potentially significant*. The proposed project would implement **Mitigation Measure GEO-1**, which requires the project to comply with all recommendations specified in Section 3.3 of the Geotechnical Report, including those pertaining to slope construction, to reduce the potential for slope deformation in the event of an earthquake. Compliance with **Mitigation Measure GEO-1** would ensure *less than significant* impacts from seismic ground shaking.

Mitigation Measure GEO-1:

The proposed project shall comply with all recommendations specified in Section 3.3 of the May 2015 Geotechnical Report prepared by ENGEO.

- a. iii. According to the Association of Bay Area Governments (ABAG), the liquefaction susceptibility of the project site ranges from moderate to very high. The liquefaction susceptibility is high along the northeastern portion of the site adjacent to the railroad and very high along Marsh Creek. However, during field explorations conducted by ENGEO on December 9, 2014, no materials that would be classified as susceptible to liquefaction that are situated above groundwater levels were encountered. Furthermore, the project does not include any structures that would be inhabited by people. Thus, the impact from liquefaction would be *less than significant*.
- a. iv. The proposed project site is relatively flat and not located in an area susceptible to landslides. Therefore, the proposed project would not be affected by landslides and *no impact* would occur.
- b. During construction activities, such as excavation of the creek channel, there could be potential for erosion and discharge of eroded sediment into Marsh Creek. Construction projects that involve disturbance of over 1.0 acre of land are required by law to seek coverage under the state's National Pollutant Discharge Elimination System (NPDES) General Permit for Discharge of

Storm Water Associated with Construction Activity. As part of this permit, construction projects disturbing over 1.0 acre (such as the proposed project) are required to file a notice of intent (NOI) with the State Water Resources Control Board and implement a site-specific Storm Water Pollution Prevention Plan (SWPPP), which would specify Best Management Practices (BMPs) to reduce the contribution of sediments, spilled and leaked liquids from construction equipment, and other construction-related pollutants to project site runoff. The District on behalf of the County would have oversight responsibility over the three reaches and would have the authority to stop construction in the event the SWPPP is improperly implemented. As a result of compliance with the law related to construction site runoff, the impact related to soil erosion during construction would be *less than significant*.

Upon project completion, implemented restoration activities would reduce flow velocities within the creek thereby reducing erosion potential. Replanting native riparian vegetation along the creek and wetland plants within the excavated floodplain benches would also prevent soil loss. Additionally, permanent slope protection would be installed on newly cut slopes to prevent long-term effects of erosion and weathering. Matting, armor, revegetation, or biotechnical methods would be installed at the completion of slope construction and selected erosion control material would provide soil stabilization and promote vegetation growth. Thus, impacts from soil erosion following project completion would be *less than significant*.

- c. As noted above, no liquefiable materials were observed on the project site. Lateral spreading is a failure within a nearly horizontal soil zone (possibly due to liquefaction) that causes the overlying soil mass to move toward a free face or down a gentle slope. Due to the lack of liquefiable materials encountered at the site, the potential for lateral spread is also low. Therefore, the project site is not underlain by unstable soils and impacts are *less than significant*.
- d. Near surface soils on the project site exhibit high expansion potential with a Plasticity Index (PI) value of 34 with a Liquid Limit of 51, as documented by Terrasearch in a boring just east of the Sand Creek confluence. Expansive soils shrink and swell as a result of moisture changes, which can cause soil heaving and cracking. No buildings are proposed as part of the project, and furthermore, the proposed project would implement **Mitigation Measure GEO-1**, which requires the project to comply with all recommendations specified in Section 3.3 of the Geotechnical Report. There would be a *less than significant impact* from expansive soils.
- e. No septic tanks or alternative wastewater disposal systems are included in the proposed project, and there would be *no impact*.

THIS PAGE INTENTIONALLY LEFT BLANK

5.7 Greenhouse Gas Emissions

5.7.1 Background

General

Global climate change refers to any significant change in climate measurements, such as temperature, precipitation, or wind, lasting for an extended period (i.e., decades or longer) (U.S. EPA 2014). Climate change may result from:

- natural factors, such as changes in the sun's intensity or slow changes in the Earth's orbit around the sun;
- natural processes within the climate system (e.g., changes in ocean circulation, reduction in sunlight from the addition of greenhouse gas (GHG) and other gases to the atmosphere from volcanic eruptions); and
- human activities that change the atmosphere's composition (e.g., through burning fossil fuels) and the land surface (e.g., deforestation, reforestation, urbanization, desertification).

The primary change in global climate has been a rise in the average global tropospheric temperature of 0.2 degree Celsius per decade, determined from meteorological measurements worldwide between 1990 and 2005. Climate change modeling using 2000 emission rates shows that further warming is likely to occur, which would induce further changes in the global climate system during the current century (IPCC 2007). Changes to the global climate system and ecosystems, and to California, could include declining sea ice and mountain snowpack levels, rising average global sea levels, and many other potentially severe problems (IPCC 2007).

The natural process through which heat is retained in the troposphere¹¹ is called the "greenhouse effect." The greenhouse effect traps heat in the troposphere through a threefold process as follows: (1) short-wave radiation in the form of visible light emitted by the Sun is absorbed by the Earth as heat; (2) long-wave radiation is re-emitted by the Earth; and (3) GHGs in the upper atmosphere absorb or trap the long-wave radiation and re-emit it back towards the Earth and into space. This third process is the focus of current climate change actions.

While water vapor and carbon dioxide (CO₂) are the most abundant GHGs, other trace GHGs have a greater ability to absorb and re-radiate long-wave radiation. To gauge the potency of GHGs, scientists have established a Global Warming Potential (GWP) for each GHG based on its ability to absorb and re-emit long-wave radiation over a specific period. The GWP of a gas is determined using CO₂ as the reference gas, which has a GWP of 1 over 100 years (IPCC 1996).¹² For example, a gas with a GWP of 10 is 10 times more potent than CO₂ over 100 years. The use of GWP allows GHG emissions to be reported using CO₂ as a baseline. The sum of each GHG

¹¹ The troposphere is the bottom layer of the atmosphere, which varies in height from the Earth's surface to 10 to 12 kilometers).

¹² All Global Warming Potentials are given as 100-year values.

multiplied by its associated GWP is referred to as “carbon dioxide equivalents” (CO₂e). This essentially means that 1 metric ton of a GHG with a GWP of 10 has the same climate change impacts as 10 metric tons of CO₂.

Regulatory Setting

In 2005, in recognition of California’s vulnerability to the effects of climate change, then-Governor Schwarzenegger established Executive Order S-3-05, which sets forth a series of target dates by which statewide emissions of GHGs would be progressively reduced, as follows: by 2010, reduce GHG emissions to 2000 levels (approximately 457 MMTCO₂e); by 2020, reduce emissions to 1990 levels (estimated at 427 MMTCO₂e); and by 2050 reduce statewide GHG emissions to 80 percent below 1990 levels (approximately 85 MMTCO₂e).

In response, the California legislature passed Assembly Bill No. 32 in 2006 (California Health and Safety Code Division 25.5, Sections 38500, et seq., or AB 32), also known as the Global Warming Solutions Act. AB 32 requires ARB to design and implement emission limits, regulations, and other measures, such that feasible and cost-effective statewide GHG emissions are reduced to 1990 levels by 2020 (representing a 25 percent reduction from forecast emission levels) (OPR 2008).

Pursuant to AB 32, ARB adopted a Scoping Plan in December 2008, outlining measures to meet the 2020 GHG reduction limits. Assembly Bill 32 (AB 32) *Climate Change Scoping Plan* indicates how reductions in significant GHG sources will be achieved through regulations, market mechanisms, and other actions. The AB 32 Scoping Plan recommendations are intended to curb projected business-as-usual growth in GHG emissions and reduce those emissions to 1990 levels.

5.7.2 Environmental Checklist and Discussion

GREENHOUSE GAS EMISSIONS	Potentially Significant Impact	Less than Significant with Mitigation	Less than Significant Impact	No Impact
Would the project...				
a) Generate greenhouse gas emissions, either directly or indirectly, that may have a significant impact on the environment?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b) Conflict with an applicable plan, policy, or regulation adopted for the purpose or reducing the emissions of greenhouse gases?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

DISCUSSION:

- a. Implementation of the proposed project would result in small increases of GHG emissions that are associated with global climate change. Estimated GHG emissions attributable to the proposed project would be primarily associated with increases of CO₂ from mobile sources including construction haul trucks (to off-haul excavated materials), and equipment used during the construction of the proposed project. There would be minimal operational GHG emissions for reasons presented below.

Construction

During implementation of creek restoration activities, GHGs would be emitted from the operation of construction equipment and from construction worker vehicles and haul truck trips to and from the project site. GHG emissions during construction were estimated using the CalEEMod model. Based on CalEEMod, construction activities on the project site would generate approximately 44.6 MTCO_{2e} in 2017. There are no quantitative thresholds put forth by the BAAQMD for the evaluation of the significance of a project's construction emissions. However, these estimated one-time emissions are lower than the 1,100 MTCO_{2e} threshold that is put forth by the BAAQMD for the evaluation of the impact from a project's operation emissions. Therefore, the emissions are considered too small to result in a significant change in global climate change. The impact from the construction phase GHG emissions associated with the proposed project would be *less than significant*.

Operation

A small number of periodic vehicle trips would be made to the project site initially for monitoring the success of the plantings and in the long run for creek maintenance. The number of vehicle trips to monitor the plantings would be minimal and would not substantially increase GHG emissions. The vehicle trips for creek maintenance would be about the same number as the trips currently made to the area by the District staff under current conditions. The impact from operational emissions would be *less than significant*.

- b. The proposed project would result in a minimal increase in GHG emissions, as described above. Therefore, the proposed project would not conflict with AB 32 or other state laws and regulations related to GHG emissions and the impact would be *less than significant*.

THIS PAGE INTENTIONALLY LEFT BLANK

5.8 Hazards and Hazardous Materials

5.8.1 Background

Nearby land uses are primarily residential subdivisions, Willow Wood School/Dainty Center, city parks, and vacant lands planned for residential development and city parks. Historically, Marsh Creek has been highly modified by the District and various agricultural activities. Pesticides may be present in soils due to historic agricultural use of the site and surrounding areas. However, a Phase I ESA analysis prepared in 2003 for the adjacent Pulte project site, determined that DDE and DDT chlorinated pesticide concentrations on the Pulte project site were less than 0.079 parts per million (ppm), and DDT concentrations were less than the detection limit of 0.010 ppm (City of Brentwood 2014b). Existing hazardous materials use in the creek area is limited to the use of certain herbicides to control invasive species and use of fuel in vehicles used to access the various portions of the creek.

5.8.2 Environmental Checklist and Discussion

HAZARDS & HAZARDOUS MATERIALS	Potentially Significant Impact	Less than Significant with Mitigation	Less than Significant Impact	No Impact
Would the project...				
a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in a safety hazard for people residing or working in the project area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

- | | | | | |
|--|--------------------------|--------------------------|-------------------------------------|-------------------------------------|
| f) For a project within the vicinity of a private airstrip, would the project result in a safety hazard for people residing or working in the project area? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| g) Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan? | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| h) Expose people or structures to a significant risk of loss, injury or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

DISCUSSION:

Project

- a., b.** There are no known environmental hazards on the project site. The proposed project would not involve routine use, storage, transport, and disposal of hazardous materials in any significant quantities. Small quantities of hazardous materials, including fuel for construction equipment would be used on-site during construction activities. All activities would comply with state and federal hazard and hazardous material regulations, thus the risk associated with the routine transport, use, and disposal of hazardous materials would be minimal. The impacts related to hazardous materials would be *less than significant*.
- c.** Willow Wood School/Dainty Center is the nearest school to the project site, located approximately 50 feet to the east of the Upper Reach between Central Boulevard and Dainty Avenue. However, the proposed project would not involve handling of hazardous or acutely hazardous materials, substances, or waste. Therefore, *less than significant* impacts would occur. .
- d.** According to CERCLIS, Geotracker, and EnviroStor database searches for known hazardous materials contamination, conducted on May 25, 2016, the project site is not located on a property associated with a hazardous site listed under Government Code Section 65962.5, also known as the Cortese List. As a result, the proposed project would not create a significant hazard to the public or the environment associated with a hazardous site listed under Government Code Section 65962.5. There would be *no impact*.
- e., f.** The project site is not located within 2 miles of a public or private airport. The closest airport is the Byron Airport-C83 located approximately 8 miles southeast of the project site. No structures are proposed as part of the project. There would be *no impact*.
- g.** Implementation of the proposed project would have no effect on emergency evacuation plans for the surrounding area. The project site is a 4,000 linear feet section of Marsh Creek. The surrounding area is primarily agricultural, residential, and vacant lands planned for residential development and city parks. Creek restoration activities would produce 24,000 cubic yards of excavated soils. About 4,000 cubic yards of the excavated soils would be used on-site as fill while the remaining 20,000 cubic yards would require haul trucks to transport and dispose of the

materials off-site. Due to the volume involved and the provision in the project to stockpile the excavated materials and remove when needed, a large number of vehicle trips would not be generated that could interfere with emergency access to or from the areas adjoining the project site during construction. Access to the site would be from Griffith Lane, a cul-de-sac connecting to Central Boulevard or from the soon-to-be constructed Bella Drive and Island Palm Way within the Pulte Development east of the project site. Construction work and associated vehicle trips would not restrict access to or block any public roads and would not interfere with an adopted emergency response or evacuation plan. Additionally, the project contractor would be required to notify emergency personnel with construction details and schedule prior to the start of construction. The impact would be *less than significant*.

- h.** The project site is located in a Non-Very High Fire Hazard Severity Zone area and is designated as a Local Responsibility Area (CalFire 2009). Implementation of the proposed restoration activities would not result in the construction of structures on the project site or increase the site's overall fire hazard severity. Therefore, implementation of the proposed project would not increase risks to the public from wildfires. There would be *no impact*.

THIS PAGE INTENTIONALLY LEFT BLANK

5.9 Hydrology and Water Quality

5.9.1 Background

At the project location, Marsh Creek is a perennial, 4th order stream.¹³ The watershed originates in the Morgan Territory on the north side of Mt. Diablo and covers some 128 miles². Marsh Creek flows for 30 miles and empties into the tidally influenced Dutch Slough, and then Big Break and the lower San Joaquin River (Wood 2016).

Marsh Creek Dam, located near Briones Valley and approximately 3.9 miles upstream of the project, was constructed in 1963 and impounds runoff from approximately 38 percent of the Marsh Creek watershed. The four major tributaries draining into Marsh Creek are Briones Creek, Dry Creek, Deer Creek and Sand Creek. The confluence of Briones and Marsh Creeks is at the Marsh Creek Reservoir; Dry Creek flows into Marsh Creek approximately 0.5 mile upstream of the project site; and Deer and Sand Creeks flow into Marsh Creek within the project site. Historically, much of the lower reaches of Marsh Creek were dry in the summer. Currently, flowing surface water is present from lower Marsh Creek to its mouth; these flows are made up primarily of water resulting from an elevated water table caused by runoff from agricultural and landscape irrigation and urban discharges (Wood 2016).

The project site is located in FEMA Flood Zone AE, an area subject to inundation with a 1.0 percent annual-chance of flood (FEMA 2016).

5.9.2 Environmental Checklist and Discussion

HYDROLOGY & WATER QUALITY		Potentially Significant Impact	Less than Significant with Mitigation	Less than Significant Impact	No Impact
Would the project...					
a)	Violate any water quality standards or waste discharge requirements?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b)	Substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

¹³ See http://en.wikipedia.org/wiki/Strahler_Stream_Order for descriptions of stream orders.

c) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner which would result in substantial erosion or siltation on- or off-site?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
d) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner which would result in flooding on- or off-site?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
e) Create or contribute runoff water which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
f) Otherwise substantially degrade water quality?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
g) Place housing within a 100-year flood hazard area as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
h) Place within a 100-year flood hazard area structures which would impede or redirect flood flows?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
i) Expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
j) Inundation by seiche, tsunami, or mudflow?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

DISCUSSION:

- a. During construction of the proposed project, there is a potential for increased erosion, sedimentation, and discharge of polluted runoff from the project site. As discussed in Response b in Section 5.6 above, NPDES requires that the proposed project develop and implement a SWPPP, including control measures (or Best Management Practices) to control erosion and release of sediment and other pollutants from the site. The SWPPP would ensure that construction activities would not cause an exceedance of the Central Valley Regional Water Quality Control Board's (RWQCB) water quality standards. As a result, the project's construction activities would not result in an exceedance of a water quality standard and the impact would be *less than significant*.

Operation of the proposed project would decrease creek flow velocities and erosion potential while improving water quality. The project would reduce the potential for erosion and sediment transport by lowering the water stage, reducing the velocity by widening the cross-sectional velocity of the channel, and establishing native riparian vegetation where compatible with the

flood management objectives. The planting of vegetation such as trees along the widened creek channel would provide shade for surface waters, thereby decreasing water temperatures and increasing the currently low dissolved oxygen levels. Thus, the proposed project would reduce erosion and improve water quality on the project site as compared to existing conditions. As a result, the project would not involve any activity that would result in an exceedance of a water quality standard and the impact would be *less than significant*.

- b. Implementation of the proposed project would not result in any groundwater extraction. Additionally, the restoration activities would not increase impervious surfaces on the project site, and therefore would not interfere with groundwater recharge. There would be *no impact*.
- c. Channel widening would reduce flow velocity and thereby reduce the potential for scour and erosion, although as noted in the Project Description, detailed hydraulic modeling may indicate that some bank armoring is necessary where the expanded channel will taper down to the existing channel at the downstream project boundary or in other locations. By including appropriate erosion and scour control measures, lowering the water stage, reducing flow velocity by widening the creek channel, and establishing native riparian vegetation, the proposed project would reduce erosion potential of the creek section. The impact related to soil erosion would be *less than significant*.
- d. Implementation of the proposed project would not negatively impact Marsh Creek, its tributaries or alter drainage patterns of the surrounding area to cause excess runoff or floods. No impervious development would occur as part of the project that would increase the volume of storm water runoff. The project site is located in FEMA Flood Zone AE, an area subject to inundation with a 1.0 percent annual-chance of flood. The proposed project is an innovative non-structural approach to flood management that focuses on giving the creek more room to safely convey flood waters. Restoration activities would entail increasing the cross-sectional area of the stream channel by excavating earth along both banks of the Upper Reach and Middle Reach to create new floodplain benches and along the east bank of the Lower Reach to create a new 10 to 40 foot floodplain. The purpose of the channel widening is to create enough conveyance capacity to safely convey large flood flows known to Marsh Creek. The newly created flood benches and floodplain would be inundated when flows in the creek rise during typical storm that reoccur nearly annually. Thus, the proposed project would improve creek flow to reduce impacts from flood hazards. Impacts would be *less than significant*.
- e. As previously mentioned, the proposed project would be required to implement a SWPPP, which will include erosion and water pollution control measures, to control off-site sediment delivery during construction. As a result, the proposed project would not provide substantial additional sources of polluted runoff. Operational impacts to polluted runoff are discussed in Response a above. This impact is considered *less than significant*.
- f. Currently, poor water quality within the creek from urban run-off is made worse by the lack of wetlands, shade, and microbial activity. Relatively high temperatures combined with low dissolved oxygen levels have caused four major fish kills on Marsh Creek over the last nine years. As mentioned above, the proposed project would plant trees along the creek section to provide shade thereby decreasing water temperatures. Planting native riparian vegetation within the

widened creek would also help increase dissolved oxygen levels and improve water quality. Therefore, impacts would be beneficial and *less than significant*.

- g.-j.** The project site is located within a federally designated 100-year flood hazard area. However, no housing or structures are proposed as part of the planned channel widening and restoration activities. The project site is not in an area that could be inundated by a seiche, tsunami, or mudflow. There would be *no impact*.

5.10 Land Use and Planning

5.10.1 Background

The project is located along Marsh Creek in the City of Brentwood. Lands surrounding the project area are developed with residences and city parks, and vacant lands are planned for residential development and city parks.

5.10.2 Environmental Checklist and Discussion

LAND USE & PLANNING	Potentially Significant Impact	Less than Significant with Mitigation	Less than Significant Impact	No Impact
Would the project...				
a) Physically divide an established community?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Conflict with any applicable land use plan, policy, or regulation of an agency with jurisdiction over the project (including, but not limited to the general plan, specific plan, local coastal program, or zoning ordinance) adopted for the purpose of avoiding or mitigating an environmental effect?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Conflict with any applicable habitat conservation plan or natural community conservation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

DISCUSSION:

- a. Residential subdivisions are present on both sides of the creek and an approved subdivision is planned for the vacant land to the east of the Lower Reach. However, there is no established community located on the project site and due to the nature of the creek restoration project, *no impact* would occur.
- b. The project site is mapped as a waterway in the General Plan. The City's General Plan is not applicable to the project. Furthermore, the project would not change the land use of the parcels that contain the creek. Therefore, there would be *no impact*.
- c. The proposed project is within the ECCC HCP/NCCP, and anticipated project impacts would be mitigated through the payment of a Development Fee and Wetland Impact fee (or on-site restoration) to the East Contra Costa County Habitat Conservancy. Therefore, the proposed project would not conflict with the provisions of an adopted HCP or NCCP and there would be *no impact*.

THIS PAGE INTENTIONALLY LEFT BLANK

5.11 Mineral Resources

5.11.1 Background

Within the City of Brentwood, mineral resources include sand, gravel, coal, oil, and gas. In general, sand is likely the most significant economic mineral deposit found. It is possible that significant deposits of coal and specialty sand remain in the western portion of Brentwood, within the Domengine sandstone. Oil and gas have been sporadically produced in the region since 1864 and are recovered from sands mostly of the Eocene age, at depths of approximately 4,000 feet. The potential for additional oil and gas reserves exists within the city. Dry gas is presently being produced in the northeast portion of Brentwood, and the potential for additional reserves exists throughout the area (City of Brentwood 2014a). Aggregate resource areas within the City of Brentwood are classified as either MRZ-1 or MRZ-4 in SMARA Mineral Land Classification Maps.¹⁴ Mineral resource extraction is not permitted under the Resource Management Directives of the Department of Parks and Recreation.

There are no existing active oil or gas wells or mineral extraction on or in the vicinity of the project site.

5.11.2 Environmental Checklist and Discussion

MINERAL RESOURCES	Potentially Significant Impact	Less than Significant with Mitigation	Less than Significant Impact	No Impact
Would the project...				
a) Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Result in the loss of availability of a locally-important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

DISCUSSION:

- a. - b.** The project site is located along Marsh Creek. There are no mineral resources on the project site and no mineral extraction occurs or is known to have occurred on the project site. There would be *no impact*.

¹⁴ MRZ-4 are areas where available information is inadequate for assignment to any other MRZ classification. MRZ-1 Areas where adequate information indicates that no significant mineral deposits are present, or where it is judged that little likelihood exists for their presence.

THIS PAGE INTENTIONALLY LEFT BLANK

5.12 Noise

5.12.1 Background

Noise-sensitive land uses generally include those uses where exposure to noise would result in adverse effects, as well as uses where quiet surroundings are an essential element of their intended purpose. Residential dwellings are of primary concern because of the potential for increased and prolonged exposure of individuals to both interior and exterior noise levels. Other noise-sensitive land uses include hospitals, convalescent facilities, parks, hotels, churches, libraries, and other uses where low interior noise levels are essential.

The project site is located along Marsh Creek where the surrounding areas are being rapidly urbanized with residential and commercial uses. The primary noise sources in the project area include traffic noise from local roadways. The Union Pacific Railroad, located approximately 175 feet north of the Lower Reach is currently inactive. The closest highway, SR-4 is located approximately 2.2 miles west of the project site. Residential homes, a daycare center, city parks, and vacant lands are adjacent to the project site.

The nearest sensitive receptors to the Upper Reach are located within Willow Wood School/Dainty Center and residential neighborhoods less than 50 feet to the east. There are also residential neighborhoods located approximately 100 feet to the west of Central Boulevard and Marsh Creek up to Deer Creek.

Lands to the east of the Middle Reach are also developed with single-family residences and the nearest receptors are about 50 feet from the proposed construction activities.

The nearest sensitive receptors to the Lower Reach are single-family homes and Sungold Park located less than 50 feet to the west.

5.12.2 Environmental Checklist and Discussion

NOISE	Potentially Significant Impact	Less than Significant with Mitigation	Less than Significant Impact	No Impact
Would the project...				
a) Exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b) Exposure of persons to or generation of excessive groundborne vibration or groundborne noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c) A substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

- | | | | | |
|---|--------------------------|-------------------------------------|--------------------------|-------------------------------------|
| d) A substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project? | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project expose people residing or working in the project area to excessive noise levels? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| f) For a project within the vicinity of a private airstrip, would the project expose people residing or working in the project area to excessive noise levels? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
-

DISCUSSION:

- a. The potential for construction noise to exceed the City of Brentwood noise standards are detailed in Response d below. Once the project is constructed, there would be no increase in operational noise in the project area due to the project. Creek restoration may increase visitors utilizing the Marsh Creek Trail. However this increase would not be substantial enough to cause noise levels to increase above the City's noise standards. Thus, the impact would be *less than significant*.
- b. Channel widening and restoration activities would not require pile-driving, blasting, or other activities that could cause substantial groundborne vibration or noise. Project construction activities would include the use of tractors, loaders, excavators, graders, which are not sources of significant groundborne vibration or noise. Haul trucks could result in some level of vibration while hauling materials off-site. However, the vibrations would be the range that is experienced in urban areas from truck movement. The impact would be *less than significant*.
- c. Implementation of the proposed project would not add any new sources of noise to the project area. The creek section is currently maintained by the District and will continue to be upon project implementation, thereby not increasing vehicle trips for maintenance. In the first few years of project operation, monitoring of the restoration efforts would add a small number of vehicle trips to the project site. In addition, due to restoration of riparian vegetation along the creek banks and trail improvements, the project would improve the experience of the trail users as well as provide areas where trail users can stop in shade and enjoy the beauty of the creek. This may result in an increase in visitors to the creek and a resultant increase in vehicular traffic to parking facilities near Marsh Creek. However this increase would not be substantial compared to existing conditions. Therefore, there would not be a substantial permanent increase in noise levels related to mobile sources. The impact would be *less than significant*.
- d. Construction activities would require the use of tractors, loaders, excavators, graders, and haul trucks. The number of construction vehicle trips would increase, depending on the specific activity that is underway. Also the location of the construction activities would differ with each reach and all of the improvements may not be constructed within the same timeframe on all three reaches. Furthermore, sensitive receptors that are proximate to one reach would be affected by

the noise from construction on that reach and generally would not be affected by noise generated by the work on other reaches due to distance and attenuation.

The area to the east of the Upper Reach is developed with residential neighborhoods that are less than 50 feet away from the proposed widening. A school and daycare center is also located on the east bank of the creek just north of Dainty Avenue. Land to the west between Dainty Avenue and Central Boulevard is owned by the District and is vacant. Residential neighborhoods are present to the west of Central Boulevard and Marsh Creek up to Deer Creek (approximately 100 feet from the proposed activities). Construction activities in the Upper Reach would take place over the short timeframe of about 2 weeks.

Lands to the east of the Middle Reach are also developed with single-family residences and the nearest receptors are about 50 feet from the proposed construction activities. Lands to the west of the Middle Reach are vacant and no sensitive receptors are present in that area. Construction activities in the Middle Reach would take place over 1 to 2 weeks.

Lands to the east of the Lower Reach are undeveloped at this time although future city parks are planned adjacent to the creek and the remaining area is the site of the approved Pulte residential subdivision. Single-family homes and a city park (Sungold Park) are located to the west of the Lower Reach (less than 50 feet). Construction activities would take place over about 4 weeks.

Construction activities and traffic would cause temporary increases in noise due to site grading, use of construction equipment, and operation of construction vehicles. Construction equipment would be operated intermittently over the course of construction on each reach. Routine noise levels from conventional construction activities (with a typical mix and number of pieces of equipment operating on the site) range from 75 to 86 dB(A) equivalent continuous noise level (Leq) at a distance of 50 feet, from 69 to 80 dB(A) Leq at a distance of 100 feet, from 55 to 66 dB(A) Leq at a distance of 500 feet, and 48 to 60 dB(A) Leq at a distance of 1,000 feet. Noise levels at the nearest sensitive receptors are likely to be lower because the small size of the project would require only a few pieces of construction equipment and they would be operating for a relatively short time during the construction period.

Nonetheless, noise from channel widening and restoration activities could impact the surrounding residences, school and daycare center, and park facilities that are located less than 50 feet from various work areas along the creek section. However, with implementation of **Mitigation Measure NOISE-1**, which requires the project to comply with the Brentwood Noise Ordinance and limits construction activities to daytime hours, the impact would be *less than significant*.

Mitigation Measure NOISE-1

The project contractor shall ensure that construction activities shall be limited to the hours set forth in Brentwood Municipal Code Section 9.32.050, as follows:

Outside Heavy Construction:	Monday-Friday	8:00 AM to 5:00 PM
	Saturday	9:00 AM to 4:00 PM

- e., f. The project site is not located within 2 miles of a public or private airport. The closest airport is the Byron Airport-C83 located approximately 8 miles southeast of the project site. No structures are proposed as part of the project. There would be *no impact*.

5.13 Population and Housing

5.13.1 Background

The project site is surrounded by residential uses, a private elementary school and daycare center, city parks, vacant land planned for residential use and city parks, and vacant land. The project site does not include any housing.

5.13.2 Environmental Checklist and Discussion

POPULATION & HOUSING	Potentially Significant Impact	Less than Significant with Mitigation	Less than Significant Impact	No Impact
Would the project...				
a) Induce substantial population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of roads or other infrastructure)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Displace substantial numbers of existing housing, necessitating the construction of replacement housing elsewhere?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Displace substantial numbers of people, necessitating the construction of replacement housing elsewhere?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

DISCUSSION:

- a. The proposed project does not include the construction of homes and/or businesses. In addition, the proposed project would not construct any new roads or infrastructure that could support future development. As a result, the proposed project would not induce substantial population growth in the area, either directly or indirectly. There would be *no impact*.
- b.- c. There are no residences on the project site or people currently living on the site. Impacts from project implementation would not affect the existing residences adjacent to the creek section. As a result, the proposed project would not displace any housing or people. There would be *no impact*.

THIS PAGE INTENTIONALLY LEFT BLANK

5.14 Public Services

5.14.1 Background

The proposed project is the implementation of creek widening and restoration activities. There are no structures on the project site and implementation of the proposed project would not include the construction of any habitable structures.

5.14.2 Environmental Checklist and Discussion

PUBLIC SERVICES	Potentially Significant Impact	Less than Significant with Mitigation	Less than Significant Impact	No Impact
Would the project...				
a) Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:				
i) Fire protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
ii) Police protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
iii) Schools?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
iv) Parks?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
v) Other public facilities?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

DISCUSSION:

Project

- a.i. Fire protection services in the project vicinity are provided by the East Contra Costa Fire Protection District (ECCFPD). Implementation of the proposed project would not increase population growth in the area, and thus would not affect the ECCFPD services or response time.

The project site is located in a Non-Very High Fire Hazard Severity Zone area and is designated as a Local Responsibility Area.¹⁵ Implementation of the proposed project would not result in the construction of structures on the project site or increase the site's overall fire hazard severity.

¹⁵ CalFire Contra Costa County Fire Hazard Severity Zone Map, Local Responsibility Area, http://frap.fire.ca.gov/webdata/maps/contra_costa/fhszl_map.7.pdf, accessed June 1, 2016.

Therefore, implementation of the proposed project would have *no impact* on fire protection services.

- a.ii.-v.** Implementation of the proposed project would not indirectly or directly increase the population. Police services are provided by the City of Brentwood Police Department. Channel widening and restoration activities would not impact existing police services or response time. Further, implementation of the proposed project would not increase the need for school or park facilities, or other facilities such as public libraries. There would be *no impact*.

5.15 Recreation

5.15.1 Background

The project site is located along Marsh Creek and there are no structures on the project site. Sungold Park is located adjacent to the west of the Lower Reach. Additionally, a vacant City-owned parcel is located on the east side of the Upper Reach just south of Central Boulevard. There is a vacant strip of land to the west between the creek and Central Boulevard owned by the District and City of Brentwood.

5.15.2 Environmental Checklist and Discussion

RECREATION	Potentially Significant Impact	Less than Significant with Mitigation	Less than Significant Impact	No Impact
Would the project...				
a) Would the project increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Does the project include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

DISCUSSION:

- a., b. Due to the nature of the proposed project, its implementation would not induce population growth that would increase demand for recreational facilities. There would be no deterioration of recreational facilities (including the project site) due to implementation of the restoration activities, rather the creek restoration activities would improve the overall condition of the creek. The Marsh Creek Trail would be relocated as part of the proposed project in the Middle and Upper Reaches. The Pulte developer would relocate the trail section in the Lower Reach. The trail would be in the same general alignment and would be depressed in the area of Central Boulevard to pass under the roadway. The proposed project would enhance opportunities for strolling, hiking, and biking along Marsh Creek. Furthermore, the lower 1,600 feet of the project would be integrated into a new linear city park, which would provide passive recreation amenities and native landscaping consistent with creek restoration. There would be *no impact*.

THIS PAGE INTENTIONALLY LEFT BLANK

5.16 Transportation and Traffic

5.16.1 Background

Local access to the creek section is provided from the south via Central Boulevard and from the north via O'Hara Avenue and Sand Creek Road. SR-4 is located approximately 2.2 miles west of the project site and provides regional access to the project site.

5.16.3 Environmental Checklist and Discussion

TRANSPORTATION & TRAFFIC	Potentially Significant Impact	Less than Significant with Mitigation	Less than Significant Impact	No Impact
Would the project...				
a) Conflict with an applicable plan, ordinance, or policy establishing measures of effectiveness for the performance of the circulation system, taking into account all modes of transportation including mass transit and non-motorized travel and relevant components of the circulation system, including but not limited to intersections, streets, highways and freeways, pedestrian and bicycle paths, and mass transit?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b) Conflict with an applicable congestion management program, including, but not limited to level of service standards established by the county congestion management agency for designated roads and highways?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c) Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) Result in inadequate emergency access?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f) Conflict with adopted policies, plans, or programs regarding public transit, bicycle, or pedestrian facilities, or otherwise decrease the performance or safety of such facilities?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

DISCUSSION:

- a., b.** Implementation of the proposed project would not induce population growth on the project site or in its vicinity such that new vehicle trips would be generated. In addition, the proposed project

would not construct any new roads or infrastructure that could support future development. However, creek widening and restoration activities such as off-hauling of excavated fill material would require the use of construction haul trucks and would temporarily increase the number of vehicles accessing the project site. Construction vehicles would access the project site via local roadways and existing maintenance roads or the regional trail along the creek. However, construction activities on the Upper and Middle Reaches would involve no more than 2 weeks for each reach, and the Lower Reach work would at most involve up to 30 days. Due to the small scale and short duration of the project, project construction would not generate a large number of vehicle trips. Once construction is completed, the creek section will continue to be maintained by the District, thereby not increasing vehicle trips for maintenance. In the first few years of project operation, monitoring of the restoration efforts would add a small number of vehicle trips to the project site. In addition, due to restoration of riparian vegetation along the creek banks and trail improvements, the project would improve the experience of the trail users as well as provide areas where trail users can stop in shade and enjoy the beauty of the creek. This may result in an increase in visitors to the creek and a resultant increase in vehicular traffic to parking facilities near Marsh Creek. However this increase would not be substantial compared to existing conditions. Therefore, the project would not conflict with applicable transportation plans, congestion management program, policies, or ordinances or result in congestion on Central Boulevard, O'Hara Avenue, Sand Creek Road, or SR-4. The impact would be *less than significant*.

- c. Implementation of the proposed project would not result in the construction of permanent structures and would have no effect on air traffic patterns and existing air traffic safety. There would be *no impact*.
- d.-f. Implementation of the proposed project would not result in the construction of roads or infrastructure. As mentioned in **Section 2.4.6** above, the proposed project would route the regional trail under an existing road bridge thereby eliminating two dangerous intersections where the existing trail crosses busy roadways (Dainty Avenue and Central Boulevard). The proposed project would reduce the gradient of the steep slope between the creek and the trail and provide a new foot trail and a new pedestrian bridge that would allow additional access for people to cross the creek within the Middle Reach. Therefore the proposed project would improve pedestrian walkability and there would be *no impact*.

The proposed project would not adversely impact the nearby roadways. All creek restoration activities would take place on the project site. Emergency access to nearby residences as well as public transit, bicycle, and pedestrian facilities would not be impeded by implementation of the proposed project. There would be *no impact*.

5.17 Utilities and Service Systems

5.17.1 Background

There are no existing buildings on the project site. A City of Brentwood sewer main is located on the west side of the Upper Reach. For most of the length, the sewer is within the Central Boulevard right of way. However, a portion of this sewer is located within one of the District's parcels where flood control improvements would be constructed. The sewer line is over 15 feet deep, at least 4 feet below the flow line of the creek. However, the sewer line is below the maximum depth of excavation and would not be relocated.

Near Sand Creek confluence in the Middle and Lower Reach, the sewer main crosses under the creek and continues north along the east bank of the Lower Reach. In the Lower Reach, the sewer line is located within the area that would be excavated to create the easterly floodplain.

5.17.2 Environmental Checklist and Discussion

UTILITIES & SERVICE SYSTEMS		Potentially Significant Impact	Less than Significant with Mitigation	Less than Significant Impact	No Impact
Would the project...					
a)	Exceed wastewater treatment requirements of the applicable Regional Water Quality Control Board?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b)	Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c)	Require or result in the construction of new storm water drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d)	Have sufficient water supplies available to serve the project from existing entitlements and resources, or are new or expanded entitlements needed?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e)	Result in a determination by the wastewater treatment provider which serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the providers existing commitments?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f)	Be served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

- g) Comply with federal, state, and local statutes and regulations related to solid waste?

☐☐☐☒

DISCUSSION:

- a., e. Implementation of the proposed project would not generate any wastewater. Therefore, implementation of the proposed project would not result in any exceedances of any wastewater requirements. There would be *no impact*.
- b. The proposed project would not increase demand for water or generate wastewater. It would be the responsibility of the construction contractor to obtain water that would be used for dust control during construction activities. The contractor would obtain water from an off-site source and truck it to the construction sites. Reintroduced native vegetation and proposed trees may require irrigation for the first few years. Irrigation practices may include the use of Dri-Water time release gel packs and if necessary, piped water, which would be available from adjacent subdivisions and city parks. Upon successful establishment, the new vegetation and trees would rely upon precipitation, storm water runoff from the surrounding areas, and creek inundation. Implementation of the proposed project would not require irrigated water or generate wastewater. Therefore, the proposed project would not require the expansion of existing water or wastewater facilities or construction of a new water or wastewater facility. There would be *no impact*.

With respect to the sewer line in the project area, the proposed project would not relocate the sewer line. In the Lower Reach, minor modifications to sewer manholes may be required to accommodate changes in ground elevation. In all cases, grading would be performed around manholes so that potential spills from manholes would initially drain away from Marsh Creek.

- c. Implementation of the proposed project would not increase impervious surfaces on the project site that would generate additional storm water. The existing Marsh Creek Trail is paved. While that pavement will be removed, the same amount of pavement would be placed to create the relocated trail. Additionally, pervious pavement is being considered for use on the relocated trail and if utilized would reduce runoff. Therefore, there would be *no impact* related to construction of new storm water facilities to handle project runoff.
- d. Implementation of the project activities would not require potable water. There would be *no impact* to existing water supplies.
- f., g. The proposed project would not create any additional solid waste. There would be *no impact* to solid waste facilities or regulations relating to solid waste.

5.18 Mandatory Findings of Significance

MANDATORY FINDINGS OF SIGNIFICANCE	Potentially Significant Impact	Less than Significant with Mitigation	Less than Significant Impact	No Impact
Would the project...				
a) Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b) Does the project have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects)?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c) Does the project have environmental effects that will cause substantial adverse effects on human beings, either directly or indirectly?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

DISCUSSION:

- a. Please refer to responses under Biological Resources items (a) through (f), and Cultural Resources items (a) through (e), above. Future development on the project site would not significantly affect fish or wildlife habitat, nor would it eliminate examples of California history or prehistory. With the implementation of **Mitigation Measures BIO-1** through **BIO-4** and **Mitigation Measures CUL-1** and **CUL-2**, identified above in this Initial Study, all impacts would be reduced to a less than significant level and the proposed project would not degrade the quality of the environment. Impacts under this criterion would be *less than significant*.
- b. Implementation of the proposed restoration project would not result in cumulative impacts. Creek restoration activities would manage flows, restore native vegetation, improve water quality within Marsh Creek, and improve walkability of the existing Marsh Creek Trail. No structures are proposed for the project and creek restoration activities would not directly or indirectly induce population growth. Therefore *less than significant* cumulative impacts from the proposed project have been identified.
- c. The proposed project would not directly or indirectly cause substantial adverse effects on human beings. Air emissions and noise from construction activities would be the only impacts through which the proposed project could have an effect on human beings; however, all construction-

related air quality and noise impacts would be mitigated to less than significant levels by implementation of **Mitigation Measures AIR-1, AIR-2, and Mitigation Measure NOISE-1** and would therefore avoid causing substantial adverse effects on human beings. Further, compliance with **Mitigation Measure GEO-1** would ensure a stabilized design for a flood conveyance zone. For all other resource areas, the proposed project would either have *less than significant* impacts, or, impacts that would not affect human beings.

MITIGATION MONITORING AND REPORTING PROGRAM

The California Environmental Quality Act (CEQA) requires that a Lead Agency establish a program to monitor and report on mitigation measures adopted as part of the environmental review process to avoid or reduce the severity and magnitude of potentially significant environmental impacts associated with project implementation. CEQA (Public Resources Code Section 21081.6 (a) (1)) requires that a Mitigation Monitoring and Reporting Program (MMRP) be adopted at the time that the public agency determines to approve a project for which an EIR or a Negative Declaration (ND) has been prepared, to ensure that mitigation measures identified in the EIR or ND are fully implemented.

The MMRP for the Three Creeks Parkway Restoration project is presented in **Table 4.0-1, Mitigation and Monitoring Reporting Program**. **Table 4.0-1** includes the full text of project-specific mitigation measures identified in the Initial Study/Mitigated Negative Declaration. The MMRP describes implementation and monitoring procedures, responsibilities, and timing for each mitigation measure, including:

Number: Identifies the number of the mitigation measure.

Mitigation Measure: Provides full text of the mitigation measure as provided in the final Initial Study/Mitigated Negative Declaration.

Monitoring/Reporting Action(s): Designates responsibility for implementation of the mitigation measure and when appropriate, summarizes the steps to be taken to implement the measure.

Mitigation Timing: Identifies the stage of the project during which the mitigation action will be taken.

Monitoring Schedule: Specifies procedures for documenting and reporting mitigation implementation.

The Contra Cost County Flood Control and Water Conservation District and American Rivers may modify the means by which a mitigation measure will be implemented, as long as the alternative means ensure compliance during project implementation. The responsibilities of mitigation implementation, monitoring, and reporting extend to several district departments and offices. The manager or department lead of the identified unit or department will be directly responsible for ensuring the responsible party complies with the mitigation. The Contra Costa County Flood Control and Water Conservation District is responsible for the overall administration of the program and for assisting relevant departments and project managers in their oversight and reporting responsibilities. The Contra Costa County Flood Control and Water Conservation District is also responsible for ensuring the relevant parties understand their charge and complete the required procedures accurately and on schedule.

THIS PAGE INTENTIONALLY LEFT BLANK

Table 1
Mitigation Monitoring and Reporting Program

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
AIR QUALITY				
AIR-1:	<p>The construction contractor(s) shall implement the following BMPs during project construction:</p> <ul style="list-style-type: none"> • All exposed surfaces (e.g., parking areas, staging areas, soil stockpiles, graded areas, and unpaved access roads) shall be watered two times per day. • All haul trucks transporting soil, sand, or other loose material off-site shall be covered. • All visible mud or dirt track-out onto adjacent public roads shall be removed using wet power vacuum street sweepers at least once per day. The use of dry power sweeping is prohibited. • All vehicle speeds on unpaved roads shall be limited to 15 mph. • All roadways, driveways, and sidewalks to be paved shall be completed as soon as possible and feasible. • Idling times shall be minimized either by shutting equipment off when not in use or reducing the maximum idling time to five minutes (as required by the California airborne toxics control measure Title 13, Section 2485 of California Code of Regulations [CCR]). Clear signage shall be provided for construction workers at all access points. • All construction equipment shall be maintained and properly tuned in accordance with manufacturer's specifications. All equipment shall be checked by a certified mechanic and determined to be 	<p>Contra Costa County Flood Control and Water Conservation District</p> <p>Include in construction contract(s)</p>	Monitor compliance during construction	Confirm and document during construction

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<p>running in proper condition prior to operation.</p> <ul style="list-style-type: none"> Post a publicly visible sign with the telephone number and person to contact at the Lead Agency regarding dust complaints. This person shall respond and take corrective action within 48 hours. The Air District's phone number shall also be visible to ensure compliance with applicable regulations. 			
AIR-2:	All diesel-powered off-road equipment larger than 50 horsepower and operating on the site for more than two days continuously during the duration of construction shall, at a minimum, meet U.S. EPA emissions standards for Tier 2 engines or equivalent.	<p>Contra Costa County Flood Control and Water Conservation District</p> <p>Include requirement in construction contract(s)</p>	During construction	Confirm and document during construction
BIOLOGICAL RESOURCES				
BIO-1:	<p>To avoid and minimize impacts to California red-legged frog, Pacific (Western) pond turtle, and silvery legless lizard during construction activities, the project will implement the following measures:</p> <ol style="list-style-type: none"> <u>Coverage under the HCP/NCCP.</u> The project proponent shall apply for coverage under the HCP/NCCP. Participation in the HCP/NCCP, including implementation of appropriate avoidance and minimization measures and payment of applicable fees would provide the project proponent with incidental take coverage for California red-legged frog, Pacific (Western) pond turtle, and silvery legless lizard. <u>Seasonal Avoidance.</u> If required by the Streambed Alteration Agreement or Water Quality Certification, work shall be limited to the dry season, from April 15 to October 15. <u>Minimize Nighttime Work.</u> If required by the Streambed Alteration Agreement or Water Quality Certification, nighttime construction shall be restricted to avoid effects on nocturnally active species such as California red-legged frog. 	<p>Contra Costa County Flood Control and Water Conservation District</p> <p>File application, obtain HCP/NCCP coverage, and implement measures by including them in the construction contract(s)</p>	Prior to start and during construction	Confirm and document during construction

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<p>4. <u>Environmental Awareness Program</u>. Prior to the commencement of construction activities, a qualified biologist shall present an environmental awareness program to all construction personnel working on site. At a minimum the training should include a description of special-status species that could be encountered, their habitats, regulatory status, protective measures, work boundaries, lines of communication, reporting requirements, and the implications of violations of applicable laws.</p> <p>5. <u>Wildlife Exclusion Fencing</u>. Prior to the start of construction, wildlife exclusion fencing (WEF) shall be installed as warranted and consistent with the HCP/NCCP to isolate the work area from any habitats potentially supporting special-status animals or through which such species may move. The final project plans shall indicate where and how the WEF is to be installed. The bid solicitation package special provisions shall provide further instructions to the contractor about acceptable fencing locations and materials. The fencing shall remain throughout the duration of the work activities, be regularly inspected and properly maintained by the contractor. Fencing and stakes shall be completely removed following project completion.</p> <p>6. <u>Best Management Practices (BMPs)</u>. Prior to the initiation of work, BMPs shall be in place to prevent the release of any pollutants or sediment into the creek, storm drains, or tributaries; all BMPs shall be properly maintained. Leaks, drips, and spills of hydraulic fluid, oil, or fuel from construction equipment shall be promptly cleaned up to prevent contamination of water ways. All workers shall be properly trained regarding the importance of preventing and cleaning up spills of contaminants. Protective measures should include, at a minimum: No discharge of pollutants from vehicle and equipment cleaning should be allowed into any storm drains or watercourses.</p> <p style="padding-left: 40px;">a. Spill containment kits should be maintained onsite at all times during construction operations and/or</p>			

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<p>staging or fueling of equipment.</p> <p>b. Coir rolls or straw wattles should be installed along or at the base of slopes during construction to capture sediment.</p> <p>7. <u>Erosion Control</u>. Graded areas shall be protected from erosion using a combination of silt fences, fiber rolls along toes of slopes or along edges of designated staging areas, and erosion control netting (such as jute or coir) as appropriate on sloped areas.</p> <p>8. <u>Construction Site Restrictions</u>. The following site restrictions shall be implemented to avoid adversely affecting sensitive habitats and harm or harassment to listed species:</p> <p>a. Any fill material shall be certified to be non-toxic and weed free.</p> <p>b. All food and food-related trash items shall be enclosed in sealed trash containers and removed completely from the site at the end of each day.</p> <p>c. No pets from project personnel shall be allowed anywhere in the project site during construction.</p> <p>d. No firearms shall be allowed on the project site except for those carried by authorized security personnel, or local, State or Federal law enforcement officials.</p> <p>e. All equipment shall be maintained such that there are no leaks of automotive fluids such as gasoline, oils or solvents and a Spill Response Plan shall be prepared. Hazardous materials such as fuels, oils, solvents, etc. shall be stored in sealable containers in a designated location that is isolated from wetlands and aquatic habitats.</p> <p>f. Servicing of vehicles and construction equipment including fueling, cleaning, and maintenance should occur only at sites isolated from any aquatic habitat</p>			

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<p>unless separated by topographic or drainage barrier or unless it is an already existing gas station. Staging areas may occur closer to the project activities as required.</p> <p>9. <u>Proper Use of Erosion Control Devices</u>. Plastic mono-filament netting (e.g., that used with erosion control matting) or similar material shall not be used within the project area; wildlife can become entangled or trapped in such non-biodegradable materials. Acceptable substitutes include coconut coir matting, tackified hydroseeding, blown straw, or other organic mulching material.</p> <p>10. <u>Protocol for Species Observation – Pacific (Western) pond turtle and silvery legless lizard</u>. If a Pacific (Western) pond turtle or silvery legless lizard is encountered in the project site, work in the area of the finding must cease immediately until the animal either moves out of harm's way of its own accord or is safely relocated well upstream or downstream of the project site. Only a qualified biologist with a scientific collection permit issued by the CDFW may handle and relocate Pacific (Western) pond turtle or silvery legless lizard. Any sightings and relocation of Pacific (Western) pond turtle and silvery legless lizard should be reported to the CDFW and the CNDDDB.</p>			
BIO-2:	<p>To minimize and avoid impacts to Chinook salmon and steelhead, the following measures will be implemented:</p> <p>1. <u>Seasonal Avoidance</u>. In-stream work shall be limited to June 1 to October 31.</p> <p>2. <u>In-Stream Activities</u>: If in-stream construction or dewatering is required, the following precautionary measures should be implemented:</p> <p>a. A preconstruction survey of the aquatic environment</p>	<p>Contra Costa County Flood Control and Water Conservation District</p> <p>Retain qualified biologist to implement the measures.</p>	Prior to start and during construction	Confirm and document during construction

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<p>shall be performed by a qualified biologist.</p> <p>b. A qualified biologist shall present an environmental awareness program working on site.</p> <p>c. A qualified biologist should monitor all in-stream activities.</p> <p>d. If dewatering is proposed, a qualified biologist should monitor the installation of coffer dams. During dewatering, a qualified biologist should check for stranded aquatic wildlife. Dewatering pumps must be fitted with intake screens with a mesh no greater than 5 mm (0.2 in) and BMPs will be installed to minimize sediment transport during installation of coffer dams.</p> <p>e. Native species (non-special-status fish species) should be relocated upstream or downstream of the cofferdams by a permitted biologist. Non-native species should be euthanized in accordance with the guidance of the CDFW. All wildlife encounters should be documented and reported to the CDFW. If listed salmonids are present, the NMFS shall be consulted to determine the appropriate measures to ensure conformance with ESA.</p>			
BIO-3:	<p>In order to avoid impacts to nesting Swainson's hawk, white-tailed kite, burrowing owl, loggerhead shrike, and other bird species protected under the MBTA and CFGC during project implementation, the measures outlined below shall be implemented.</p> <p>1. <u>Environmental Awareness Program.</u> Prior to the commencement of construction activities, a qualified biologist shall present an environmental awareness program to all construction personnel working on site. At a minimum the training shall include a description of special-status species that could be encountered, their habitats, regulatory status,</p>	<p>Contra Costa County Flood Control and Water Conservation District</p> <p>Retain qualified biologist to implement the measures.</p>	Prior to start and during construction	Confirm and document during construction

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<p>protective measures, work boundaries, lines of communication, reporting requirements, and the implications of violations of applicable laws.</p> <p>2. <u>Swainson's hawk</u> is a federally listed threatened species and is covered under the HCP/NCCP. Nonetheless, every effort should be made to ensure that no take of Swainson's hawk occurs. Therefore, the measures outlined below should be implemented.</p> <ol style="list-style-type: none"> The project proponent should apply for coverage under the HCP/NCCP. Participation in the HCP/NCCP would provide the applicant with incidental take coverage for Swainson's hawk and satisfy any requirements for mitigation for loss of habitat. Prior to any ground disturbance during the nesting season (March 15-September 15), a qualified biologist shall conduct a preconstruction survey no more than one month prior to construction to determine if there are any active Swainson's hawk nests within 305 meters (1,000 feet) of the project site. If there are no occupied nests within this buffer, no further action is needed. If an active nest is present within this buffer, the measures outlined below shall be followed. <ul style="list-style-type: none"> Construction activities are not permitted within 305 meters (1,000 feet) of an occupied nest to prevent nest abandonment. However, if site-specific conditions or the nature of the activity warrant a small buffer, a qualified biologist should coordinate with CDFW and USFWS to determine the appropriate buffer size. Construction activities may proceed prior to 			

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<p>September 15 if the young Swainson's hawks have fledged, as determined by a qualified biologist.</p> <p>3. White-tailed kite is a state-listed fully protected species; it is not covered under the HCP/NCCP and incidental take of the species is not allowed. To ensure that no take of white-tailed kite or other migratory raptors occurs, the measures outlined below shall be implemented.</p> <ul style="list-style-type: none"> a. Prior to any ground disturbance during the nesting season (February 1-August 31), a qualified biologist shall conduct a preconstruction survey no more than two weeks prior to construction to determine if there are any active nests of white-tailed kite or other migratory raptors within 76 meters (250 feet) of the project site. b. Prior to the removal or significant pruning of any trees, they shall be inspected by a qualified biologist for the presence of raptor nests. This is required during both the breeding season and non-breeding season. If a suspected raptor nest is discovered, the CDFW shall be notified. Pursuant to CFGC Section 3503.5, raptor nests, whether or not they are occupied, may not be removed until approval is granted by the CDFW. c. If there are no occupied nests within this buffer, no further action is needed. d. If an active nest is present within this buffer, the measures outlined below shall be implemented. <ul style="list-style-type: none"> • Construction activities are not permitted within 76 meter (250 feet) of an occupied nest to prevent nest abandonment. However, if site-specific conditions or the nature of the activity warrant a small buffer, a qualified biologist should 			

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<p>coordinate with the CDFW and/or USFWS to determine the appropriate buffer size. Nest monitoring may be warranted for activities that would occur within a smaller buffer.</p> <ul style="list-style-type: none"> • Construction activities may proceed prior to August 31 if the young white-tailed kites or other raptor species have fledged, as determined by a qualified biologist. <p>4. Burrowing owl is a State species of special concern and a covered species under the HCP/NCCP. To ensure that no take of burrowing owl occurs, the measures outlined below shall be implemented.</p> <ol style="list-style-type: none"> a. Prior to any ground disturbance during the nesting season (February 1-August 31), a CDFW-approved biologist shall conduct a preconstruction survey of all suitable burrowing owl habitat that would be affected by the project. The survey shall be performed no more than 30 days prior to construction to determine if there are any active nests of burrowing owl within 153 m (500 ft) of the project site, access permitting. b. If there are no occupied nests within this buffer, no further action is needed. c. If an active nest is present within this buffer, the measures outlined below shall be implemented. <ul style="list-style-type: none"> • If an occupied burrowing owl nest site is present within the limits of work, construction may not proceed. The taking of burrowing owls or occupied nests is prohibited under CFGC. Nest sites must be flagged and protected by a designated disturbance-free buffer zone of at least 76 meters (250 feet). • Construction activities are not permitted within 			

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<p>76 meters (250 feet) of an occupied nest to prevent nest abandonment.</p> <ul style="list-style-type: none"> • Construction may proceed if a qualified biologist monitors the nest and determines that the adults have not begun egg-laying and incubation or that the juveniles have fledged. • Burrowing owls may be passively excluded from occupied burrows outside of the breeding season (i.e., September 1-January 31), in consultation with the CDFW. All owls should be passively excluded from burrows within 49 meters (160 feet) of the work site. Passive exclusion is achieved by installing one-way doors in the burrow entrances. Doors should be in place for at least 48 hours and the site should be monitored daily for at least one week to confirm that the burrow has been abandoned. <p>5. Loggerhead shrike is a state species of special concern; it is not covered under the HCP/NCCP and incidental take of the species is not allowed. To ensure that no take of loggerhead shrike or any other migratory passerines occurs, the measures outlined below shall be implemented.</p> <ol style="list-style-type: none"> a. If ground-disturbing activities (i.e., site clearing, disking, grading, etc.) can be performed outside of the nesting season (i.e., between September 1 and January 31), no additional surveys are warranted. b. Prior to any ground disturbance during the nesting season (February 1-August 31), a qualified biologist should conduct a preconstruction survey no more than two weeks prior to construction to determine if there are any active nests of loggerhead shrike or any other migratory passerines nests within 30 meters (100 feet) of the project site. 			

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<ul style="list-style-type: none"> c. If there are no occupied nests within this buffer, no further action is needed. d. If an active nest is present within this buffer, the following measures shall be implemented. <ul style="list-style-type: none"> • Construction activities are not permitted within 30 meters (100 feet) of an occupied nest to prevent nest abandonment. However, if site-specific conditions or the nature of the activity warrant a smaller buffer, a qualified biologist should coordinate with the CDFW and USFWS to determine the appropriate buffer size. Nest monitoring may be warranted for activities that would occur within a smaller buffer. • Construction activities may proceed prior to August 31 if the young birds have fledged, as determined by a qualified biologist. 			
BIO-4:	<p>In order to avoid, minimize and compensate for unavoidable impacts on waters of the U.S./waters of the State, the measures outlined below shall be implemented.</p> <ol style="list-style-type: none"> 1. Impacts on waters of the U.S. will be avoided by restricting grading to an elevation above the OHWM; avoidance of impacts to waters of the State is not feasible. Long-term impacts shall be minimized by limiting the use of hardened structures (e.g., grouted riprap) in preference of bio-engineering solutions as much as is practicable. Surface water connections must not be permanently blocked or interrupted and the installation of drop-structures or other features that create barriers to wildlife movement shall be avoided. 2. Prior to construction, the project proponent will need to secure authorization from the USACE, RWQCB, and CDFW in conformance to the Clean Water Act and Lake and Streambed Alteration Program. 	<p>Contra Costa County Flood Control and Water Conservation District</p> <p>Obtain permits; obtain coverage under HCP/NCCP; include BMPs in construction contract (s)</p>	Prior to start and during construction	Confirm and document during construction

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<p>3. Participation in the HCP/NCCP is expected to satisfy the requirements of the regulatory agencies for compensatory mitigation for unavoidable impacts on stream channels, wetlands and riparian habitat. A Planning Survey Report shall be completed and submitted to the East Contra Costa County Habitat Conservancy. The submittal shall include detailed drawings illustrating all temporary and permanent impacts.</p> <p>4. Per the terms of the adopted HCP/NCCP, a wetland mitigation fee or on-site habitat restoration will mitigate the impacts. If accepted by the regulatory agencies, no additional mitigation for wetland impacts is typically required. HCP/NCCP fee payment will occur at project contract award.</p> <p>5. For all work within and adjacent to the stream channel and riparian habitat, best management practices (BMPs) must be incorporated into the project design to minimize environmental effects. These include the following:</p> <ul style="list-style-type: none"> • Construction in the active channels shall be restricted to the dry season (April 15-October 15). • Personnel conducting ground-disturbing activities within or adjacent to the buffer zone of wetlands, ponds, streams, or riparian woodland/scrub shall be trained by a qualified biologist in these avoidance and minimization measures and the permit obligations. • If dewatering is necessary, water released downstream of work areas must be as clean or cleaner than flows entering the work area. Sediment-laden water shall be either pumped onto upland sites for infiltration or into Baker tanks for settling, prior to being released back into the channel. Cofferdams shall consist of clean, silt-free sand or gravel in sand bags, or a comparable material. All coffer dam materials 			

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<p>must be promptly removed when no longer needed.</p> <ul style="list-style-type: none"> • High visibility temporary construction fencing should be erected between the outer edge of the limits of construction and adjacent streams or habitats to be preserved. Temporary construction fencing will be removed upon the completion of work. • Grading or construction near channels shall be isolated with silt fencing or other BMPs to prevent sedimentation. BMPs shall be regularly inspected. • Vehicles and equipment shall be parked on existing roads or previously disturbed areas. • Equipment working in channels must be in good working order and free of leaks of fuel, oil, and hydraulic fluids. Drip pans shall be placed under vehicles and equipment over waterways and spill clean-up materials should be kept onsite at a convenient location. • Equipment maintenance and refueling shall be performed well away from the top of bank of any channel; storm drain inlets shall be protected from an accidental release of contaminants. • Concrete washings or other contaminants must not be permitted to enter the stream channel or any storm drain inlet. • Any concrete structures or cured-in-place pipe linings shall be allowed to cure before coming in contact with surface flows. • Construction debris and materials shall be stockpiled away from watercourses. 			

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<ul style="list-style-type: none"> • Appropriate erosion-control measures (e.g., coconut coir matting, tackified hydroseeding, blown straw or other organic mulching material) shall be used on site to reduce siltation and runoff of contaminants into wetlands, ponds, streams, or riparian woodland/scrub. Plastic mono-filament netting (e.g., that used with erosion control matting) or similar material should not be used within the action area; wildlife can become entangled or trapped such non-biodegradable materials. Erosion-control measures shall be placed between the outer edge of the buffer and the project site. • Fiber rolls used for erosion control shall be certified as free of noxious weed seed. • Construction staging areas past the channel banks must be located away from any wetlands or other sensitive habitats as identified by a qualified biologist. • Newly graded earthen channel slopes shall be revegetated with a native seed mix developed by a qualified restorationist. Seed mixtures applied for erosion control shall not contain invasive nonnative species, and be composed of native species or sterile nonnative species. Straw or mulch shall also be applied to all bare surfaces. The seed mix and mulch shall be applied prior to the onset of the first winter-season rains. • Herbicide shall not be applied within 30 meters (100 feet) of wetlands, ponds, streams, or riparian habitat. However, where appropriate to control serious invasive plants, herbicides that have been approved by the U.S. EPA for use in or adjacent to aquatic habitats may be used as long as label 			

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<p>instructions are followed and applications avoid or minimize impacts on covered species and their habitats. In seasonal or intermittent stream or wetland environments, appropriate herbicides may be applied during the dry season to control nonnative invasive species. Herbicide drift should be minimized by applying the herbicide as close to the target area as possible and by avoiding applying during windy days.</p> <ul style="list-style-type: none"> Additional measures may be outlined in the conditions of the permits issued by the USACE, RWQCB, CDFW, and the Habitat Conservancy. All permit conditions must be conformed to. 			
CULTURAL RESOURCES				
CUL-1:	<ul style="list-style-type: none"> Crew training, initial monitoring by a qualified archaeologist to determine an appropriate level of monitoring for the duration of the project, and additional spot checks pending the results of the initial monitoring shall be conducted prior to and during ground disturbing activities. A qualified archaeologist shall be present on the project site to monitor ground disturbing activities and inspect excavated soils to identify any cultural resources and human remains as deemed appropriate by the qualified archaeologist. All construction crew workers shall attend a training session led by a qualified archaeologist that discusses (1) the reasons for archaeological resource monitoring; (2) regulatory policies protecting resources and human remains; (3) basic identification of archaeological resources; and (4) the protocol to follow in case of a discovery of such resources. In accordance with CEQA Guideline §15064.5 (f), should any previously unknown historic or prehistoric resources, including but 	<p>Contra Costa County Flood Control and Water Conservation District</p> <p>Retain qualified archaeologist to implement identified measures; also include in construction contract(s)</p>	Prior to start and during construction	Confirm and document during construction

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	<p>not limited to charcoal, obsidian or chert flakes, grinding bowls, shell fragments, bone, pockets of dark, friable soils, glass, metal, ceramics, wood, privies, trash deposits or similar debris, be discovered during ground disturbing activities, work within 25 feet of these materials should be stopped until a qualified professional archaeologist has an opportunity to evaluate the potential significance of the find and to consult with the lead agency about what appropriate mitigation would be appropriate to protect the resource.</p> <ul style="list-style-type: none"> • In the event that human remains, or possible human remains, are encountered during project-related ground disturbance, in any location other than a dedicated cemetery, there shall be no further excavation or disturbance of the site or any nearby area reasonably suspected to overlie adjacent remains until the coroner of the county in which the human remains are discovered has determined, that the remains are not subject to the provisions of Section 27492 of the Government Code or any other related provisions of law concerning investigation of the circumstances, manner and cause of death, and the recommendations concerning treatment and disposition of the human remains have been made to the person responsible for the excavation, or to his or her authorized representative, in the manner provided in Section 5097.98 of the Public Resources Code. • The County Coroner, upon recognizing the remains as being of Native American origin, is responsible to contact the NAHC within 24 hours. The Commission has various powers and duties, including the appointment of a Most Likely Descendant (MLD) to the project. The MLD, or in lieu of the MLD, the NAHC, has the responsibility to provide guidance as to the ultimate disposition of any Native American remains. 			
CUL-2:	Prior to project construction, construction personnel shall be informed of the potential for encountering significant paleontological resources. All construction personnel shall be informed of the need to stop work in the	Contra Costa County Flood Control and Water Conservation District	Prior to start of construction	Confirm and document during construction

Number	Mitigation Measure	Monitoring/Reporting Action(s)	Mitigation Timing	Monitoring Schedule
	vicinity of a potential discovery until a qualified paleontologist has been provided the opportunity to assess the significance of the find and implement appropriate measures to protect or scientifically remove the find. Construction personnel shall also be informed of the requirements that unauthorized collection resources are prohibited.	Include in construction contract(s)		
GEOLOGY AND SOILS				
GEO-1	The proposed project shall comply with all recommendations specified in Section 3.3 of the May 2015 Geotechnical Report prepared by ENGEO.	Contra Costa County Flood Control and Water Conservation District Follow recommendations of geotechnical report	During project design, prior to start of excavation, and during construction	Document compliance upon completion of construction
NOISE				
NOISE-1	The project contractor shall ensure that construction activities shall be limited to the hours set forth in Brentwood Municipal Code Section 9.32.050, as follows: Outside Heavy Construction: Monday-Friday 8:00 AM to 5:00 PM Saturday 9:00 AM to 4:00 PM	Contra Costa County Flood Control and Water Conservation District Include in construction contract(s)	During construction	Document compliance during construction

COMMENT LETTER #1. CONTRA COSTA HEALTH SERVICES (August 4, 2016)

Comment 1-1: Contra Costa Health Services notes that permits will be required for well or soil boring activities prior to commencing drilling activities and abandoned wells and septic tanks must be destroyed under permit.

Response: Comments have been noted and forwarded to the project design team. No further response is necessary.

RE: Three Creeks Parkway Restoration (CP 16-39)
Marsh Creek Channel
APN Various

Dear Ms. Gemberling:

The Contra Costa Environmental Health Division (CCEHD) has received a request for agency comments for the above referenced project. The following are our comments:

1. A permit from CCEHD is required for any well or soil boring prior to commencing drilling activities, including those associated with water supply, environmental investigation and cleanup, or geotechnical investigation.
2. Any abandoned wells (water, environmental, or geotechnical) and septic tanks must be destroyed under permit from CCEHD. If the existence of such wells or septic tanks are known in advance or discovered during construction or other activities, these must be clearly marked, kept secure, and destroyed pursuant to CCEHD requirements.

1-1

These comments do not limit an applicant's obligation to comply with all applicable laws and regulations. If you should have any questions, please feel free to call me at (925) 692-2535.

Sincerely

Joseph G. Doser, R.E.H.S.
Supervising Environmental Health Specialist

JGD:tf

COMMENT LETTER #2. ANN KENNEDY (August 12, 2016)

Comment 2-1: Ms. Kennedy notes that she lives next to Marsh Creek between Deer Creek and Sand Creek and endorses the restoration project and offers citizen volunteers if needed; also suggested to plant milkweed for the monarch butterflies.

Response: Letter in support of this project is acknowledged. Plant suggestion has been noted and forwarded to the project design team for consideration. No further response is necessary.

Claudia Gemberling

From: Ann Kennedy <annwkennedy@att.net>

Subject: Three Creeks Parkway Restoration

Follow Up Flag: Follow up
Flag Status: Flagged

Dear Ms. Gemberling

I wholeheartedly endorse this restoration. Living next to Marsh Creek between Deer Creek and Sand Creek makes us sensitive to the need to restore the natural beauty to this area. If there is anything to be done by citizen volunteers don't hesitate to call on us. Also don't forget to plant milkweed for the monarch butterflies.

Thanks. Ann Kennedy

**COMMENT LETTER #3. EAST CONTRA COSTA COUNTY HABITAT
CONSERVANCY** (August 15, 2016)

Comment 3-1: The East Contra Costa County Habitat Conservancy notes that the East Contra Costa County HCP/NCCP take coverage should be listed in Section 2.7 Permits and Approvals Required and pointed out that the East Contra Costa County Habitat Conservancy is first abbreviated as ECCCHC on page 4 but then called out differently on page 34 (as the Conservancy) and 37 (as the Habitat Conservancy).

Response: Comments noted and included in this CEQA record for the final IS/MND. No further response is necessary.

Thank you for your comments Joanne. Mike Wood has not started the PSR application. Anticipating he will do that in October. The IS/MND discusses the habitat assessment/surveys conducted in support of CEQA. Let me know if you have any other questions.

Thanks.

Subject: RE: CEQA - Three Creeks Parkway Restoration Project, Brentwood

Hi Claudia,

I have fairly minor comments.

- Page 19, Section 2.7 Permits and Approvals Required, should include ECCC HCP/NCCP take coverage, as discussed in the bio section.
- The East Contra Costa County Habitat Conservancy is first abbreviated as ECCCHC on p. 4 but then called out differently on p. 34 (as the Conservancy) and 37 (as the Habitat Conservancy). Not a big deal but a consistency thing.

3-1

Has Mike Wood completed the HCP/NCCP PSR application? The IS/MND discusses planning surveys that were performed by Wood Biological Consulting in 2015 and 2016. Is the application ready for review?

Thank you,
Joanne

Subject: CEQA - Three Creeks Parkway Restoration Project, Brentwood

Hi Abby, the CEQA document for the Three Creeks Parkway Restoration project along Marsh Creek in Brentwood is out for public review. The 30-day review period is August 3 – September 2. The CEQA document is posted at the PWD link: <http://ca-contracostacounty2.civicplus.com/4841/Public-Input> and DCD link: <http://www.co.contra-costa.ca.us/4841/Public-Input>. Let me know if you have any questions. Otherwise, provide any comments you may have. Thanks!

COMMENT LETTER #4. CENTRAL VALLEY REGIONAL WATER QUALITY CONTROL BOARD (August 25, 2016)

Comment 4-1: The Central Valley Regional Water Quality Control Board (Central Valley Water Board) states that their agency is delegated with the responsibility of protecting the quality of surface and ground waters of the state and as such their comments will address concerns surrounding those issues. The Central Valley Water Board is required to formulate and adopt Basin Plans for all areas within the Central Valley region under Section 13240 of the Porter-Cologne Water Quality Control Act which requires each Basin Plan contain water quality objectives to ensure reasonable protection of beneficial uses as well as a program of implementation for achieving water quality objectives. The Central Valley Water Board further notes that all wastewater discharges must comply with the Antidegradation Policy contained in the Basin Plan. The Central Valley Water Board offers links for more information.

Response: Comments noted. No further response is necessary.

Comment 4-2: The Central Valley Water Board notes various permits that may be required for the project if applicable (Construction Storm Water General Permit, Phase I and II Municipal Separate Storm Sewer System (MS4) Permits, Industrial Storm Water General Permit, Clean Water Act Section 404 Permit, Clean Water Act Section 401 Permit – Water Quality Certification, Waste Discharge Requirements – Discharges to Waters of the State, Dewatering Permit, Regulatory Compliance for Commercially Irrigated Agriculture, Low or Limited Threat General National Discharge Elimination System (NPDES) Permit, NPDES Permit).

Response: As noted in Section 2.7 “Permits and Approvals Required” the project will require a Clean Water Act Section 404 permit from the U.S. Army Corps of Engineers and Section 401 permit - Water Quality Certification from the Central Valley Water Board, and **Section 2.9 “Hydrology and Water Quality” notes** that a NPDES *General Permit for Storm Water Discharges Associated with Construction and Land Disturbances* will be obtained. Other permits noted will be considered and obtained if applicable to the project.

**COMMENTS TO REQUEST FOR REVIEW FOR THE MITIGATED NEGATIVE
DECLARATION, THREE CREEKS PARKWAY RESTORATION PROJECT,
SCH# 2016082008, CONTRA COSTA COUNTY**

Pursuant to the State Clearinghouse's 3 August 2016 request, the Central Valley Regional Water Quality Control Board (Central Valley Water Board) has reviewed the *Request for Review for the Mitigated Negative Declaration* for the Three Creeks Parkway Restoration Project, located in Contra Costa County.

Our agency is delegated with the responsibility of protecting the quality of surface and groundwaters of the state; therefore our comments will address concerns surrounding those issues.

I. Regulatory Setting

Basin Plan

The Central Valley Water Board is required to formulate and adopt Basin Plans for all areas within the Central Valley region under Section 13240 of the Porter-Cologne Water Quality Control Act. Each Basin Plan must contain water quality objectives to ensure the reasonable protection of beneficial uses, as well as a program of implementation for achieving water quality objectives with the Basin Plans. Federal regulations require each state to adopt water quality standards to protect the public health or welfare, enhance the quality of water and serve the purposes of the Clean Water Act. In California, the beneficial uses, water quality objectives, and the Antidegradation Policy are the State's water quality standards. Water quality standards are also contained in the National Toxics Rule, 40 CFR Section 131.36, and the California Toxics Rule, 40 CFR Section 131.38.

The Basin Plan is subject to modification as necessary, considering applicable laws, policies, technologies, water quality conditions and priorities. The original Basin Plans were adopted in 1975, and have been updated and revised periodically as required, using Basin Plan amendments. Once the Central Valley Water Board has adopted a Basin Plan amendment in noticed public hearings, it must be approved by the State Water Resources

Control Board (State Water Board), Office of Administrative Law (OAL) and in some cases, the United States Environmental Protection Agency (USEPA). Basin Plan amendments only become effective after they have been approved by the OAL and in some cases, the USEPA. Every three (3) years, a review of the Basin Plan is completed that assesses the appropriateness of existing standards and evaluates and prioritizes Basin Planning issues.

For more information on the *Water Quality Control Plan for the Sacramento and San Joaquin River Basins*, please visit our website:
http://www.waterboards.ca.gov/centralvalley/water_issues/basin_plans/.

Antidegradation Considerations

All wastewater discharges must comply with the Antidegradation Policy (State Water Board Resolution 68-16) and the Antidegradation Implementation Policy contained in the Basin Plan. The Antidegradation Policy is available on page IV-15.01 at:
http://www.waterboards.ca.gov/centralvalleywater_issues/basin_plans/sacsjr.pdf

In part it states:

Any discharge of waste to high quality waters must apply best practicable treatment or control not only to prevent a condition of pollution or nuisance from occurring, but also to maintain the highest water quality possible consistent with the maximum benefit to the people of the State.

This information must be presented as an analysis of the impacts and potential impacts of the discharge on water quality, as measured by background concentrations and applicable water quality objectives.

The antidegradation analysis is a mandatory element in the National Pollutant Discharge Elimination System and land discharge Waste Discharge Requirements (WDRs) permitting processes. The environmental review document should evaluate potential impacts to both surface and groundwater quality.

II. Permitting Requirements

Construction Storm Water General Permit

Dischargers whose project disturb one or more acres of soil or where projects disturb less than one acre but are part of a larger common plan of development that in total disturbs one or more acres, are required to obtain coverage under the General Permit for Storm Water Discharges Associated with Construction Activities (Construction General Permit), Construction General Permit Order No. 2009-009-DWQ. Construction activity subject to this permit includes clearing, grading, grubbing, disturbances to the ground, such as stockpiling, or excavation, but does not include regular maintenance activities performed to restore the original line, grade, or capacity of the facility. The Construction General Permit requires the development and implementation of a Storm Water Pollution Prevention Plan

4-1

4-2

(SWPPP).

For more information on the Construction General Permit, visit the State Water Resources Control Board website at:

http://www.waterboards.ca.gov/water_issues/programs/stormwater/constpermits.shtml.

Phase I and II Municipal Separate Storm Sewer System (MS4) Permits¹

The Phase I and II MS4 permits require the Permittees reduce pollutants and runoff flows from new development and redevelopment using Best Management Practices (BMPs) to the maximum extent practicable (MEP). MS4 Permittees have their own development standards, also known as Low Impact Development (LID)/post-construction standards that include a hydromodification component. The MS4 permits also require specific design concepts for LID/post-construction BMPs in the early stages of a project during the entitlement and CEQA process and the development plan review process.

For more information on which Phase I MS4 Permit this project applies to, visit the Central Valley Water Board website at:

http://www.waterboards.ca.gov/centralvalley/water_issues/storm_water/municipal_permits/.

For more information on the Phase II MS4 permit and who it applies to, visit the State Water Resources Control Board at:

http://www.waterboards.ca.gov/water_issues/programs/stormwater/phase_ii_municipal.shtml

Industrial Storm Water General Permit

Storm water discharges associated with industrial sites must comply with the regulations contained in the Industrial Storm Water General Permit Order No. 2014-0057-DWQ.

For more information on the Industrial Storm Water General Permit, visit the Central Valley Water Board website at:

http://www.waterboards.ca.gov/centralvalley/water_issues/storm_water/industrial_general_permits/index.shtml.

Clean Water Act Section 404 Permit

If the project will involve the discharge of dredged or fill material in navigable waters or wetlands, a permit pursuant to Section 404 of the Clean Water Act may be needed from the United States Army Corps of Engineers (USACOE). If a Section 404 permit is required by the USACOE, the Central Valley Water Board will review the permit application to ensure that discharge will not violate water quality standards. If the project requires surface water

¹ Municipal Permits = The Phase I Municipal Separate Storm Water System (MS4) Permit covers medium sized Municipalities (serving between 100,000 and 250,000 people) and large sized municipalities (serving over 250,000 people). The Phase II MS4 provides coverage for small municipalities, including non-traditional Small MS4s, which include military bases, public campuses, prisons and hospitals.

drainage realignment, the applicant is advised to contact the Department of Fish and Game for information on Streambed Alteration Permit requirements.

If you have any questions regarding the Clean Water Act Section 404 permits, please contact the Regulatory Division of the Sacramento District of USACOE at (916) 557-5250.

Clean Water Act Section 401 Permit – Water Quality Certification

If an USACOE permit (e.g., Non-Reporting Nationwide Permit, Nationwide Permit, Letter of Permission, Individual Permit, Regional General Permit, Programmatic General Permit), or any other federal permit (e.g., Section 10 of the Rivers and Harbors Act or Section 9 from the United States Coast Guard), is required for this project due to the disturbance of waters of the United States (such as streams and wetlands), then a Water Quality Certification must be obtained from the Central Valley Water Board prior to initiation of project activities. There are no waivers for 401 Water Quality Certifications.

Waste Discharge Requirements – Discharges to Waters of the State

If USACOE determines that only non-jurisdictional waters of the State (i.e., "non-federal" waters of the State) are present in the proposed project area, the proposed project may require a Waste Discharge Requirement (WDR) permit to be issued by Central Valley Water Board. Under the California Porter-Cologne Water Quality Control Act, discharges to all waters of the State, including all wetlands and other waters of the State including, but not limited to, isolated wetlands, are subject to State regulation.

For more information on the Water Quality Certification and WDR processes, visit the Central Valley Water Board website at:

http://www.waterboards.ca.gov/centralvalley/help/business_help/permit2.shtml.

Dewatering Permit

If the proposed project includes construction or groundwater dewatering to be discharged to land, the proponent may apply for coverage under State Water Board General Water Quality Order (Low Risk General Order) 2003-0003 or the Central Valley Water Board's Waiver of Report of Waste Discharge and Waste Discharge Requirements (Low Risk Waiver) R5-2013-0145. Small temporary construction dewatering projects are projects that discharge groundwater to land from excavation activities or dewatering of underground utility vaults. Dischargers seeking coverage under the General Order or Waiver must file a Notice of Intent with the Central Valley Water Board prior to beginning discharge.

For more information regarding the Low Risk General Order and the application process, visit the Central Valley Water Board website at:

http://www.waterboards.ca.gov/board_decisions/adopted_orders/water_quality/2003/wqo/wqo2003-0003.pdf

For more information regarding the Low Risk Waiver and the application process, visit the Central Valley Water Board website at:

http://www.waterboards.ca.gov/centralvalley/board_decisions/adopted_orders/waivers/r5-2013-0145_res.pdf

Regulatory Compliance for Commercially Irrigated Agriculture

If the property will be used for commercial irrigated agricultural, the discharger will be required to obtain regulatory coverage under the Irrigated Lands Regulatory Program. There are two options to comply:

1. **Obtain Coverage Under a Coalition Group.** Join the local Coalition Group that supports land owners with the implementation of the Irrigated Lands Regulatory Program. The Coalition Group conducts water quality monitoring and reporting to the Central Valley Water Board on behalf of its growers. The Coalition Groups charge an annual membership fee, which varies by Coalition Group. To find the Coalition Group in your area, visit the Central Valley Water Board's website at: http://www.waterboards.ca.gov/centralvalley/water_issues/irrigated_lands/app_approval/index.shtml; or contact water board staff at (916) 464-4611 or via email at IrrLands@waterboards.ca.gov.
2. **Obtain Coverage Under the General Waste Discharge Requirements for Individual Growers, General Order R5-2013-0100.** Dischargers not participating in a third-party group (Coalition) are regulated individually. Depending on the specific site conditions, growers may be required to monitor runoff from their property, install monitoring wells, and submit a notice of intent, farm plan, and other action plans regarding their actions to comply with their General Order. Yearly costs would include State administrative fees (for example, annual fees for farm sizes from 10-100 acres are currently \$1,084 + \$6.70/Acre); the cost to prepare annual monitoring reports; and water quality monitoring costs. To enroll as an Individual Discharger under the Irrigated Lands Regulatory Program, call the Central Valley Water Board phone line at (916) 464-4611 or e-mail board staff at IrrLands@waterboards.ca.gov.

4-2

Low or Limited Threat General NPDES Permit

If the proposed project includes construction dewatering and it is necessary to discharge the groundwater to waters of the United States, the proposed project will require coverage under a National Pollutant Discharge Elimination System (NPDES) permit. Dewatering discharges are typically considered a low or limited threat to water quality and may be covered under the General Order for *Dewatering and Other Low Threat Discharges to Surface Waters* (Low Threat General Order) or the General Order for *Limited Threat Discharges of Treated/Untreated Groundwater from Cleanup Sites, Wastewater from Superchlorination Projects, and Other Limited Threat Wastewaters to Surface Water* (Limited Threat General Order). A complete application must be submitted to the Central Valley Water Board to obtain coverage under these General NPDES permits.

For more information regarding the Low Threat General Order and the application process, visit the Central Valley Water Board website at:

http://www.waterboards.ca.gov/centralvalley/board_decisions/adopted_orders/general_orders/r5-2013-0074.pdf

For more information regarding the Limited Threat General Order and the application process, visit the Central Valley Water Board website at:

http://www.waterboards.ca.gov/centralvalley/board_decisions/adopted_orders/general_orders/r5-2013-0073.pdf

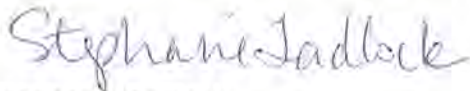

NPDES Permit

If the proposed project discharges waste that could affect the quality of the waters of the State, other than into a community sewer system, the proposed project will require coverage under a National Pollutant Discharge Elimination System (NPDES) permit. A complete Report of Waste Discharge must be submitted with the Central Valley Water Board to obtain a NPDES Permit.

For more information regarding the NPDES Permit and the application process, visit the Central Valley Water Board website at:

http://www.waterboards.ca.gov/centralvalley/help/business_help/permit3.shtml

If you have questions regarding these comments, please contact me at (916) 464-4644 or Stephanie.Tadlock@waterboards.ca.gov.

Stephanie Tadlock

COMMENT LETTER #5. DELTA STEWARDSHIP COUNCIL (August 30, 2016)

Comment 5-1: Delta Plan Policies: Delta Stewardship Council (Council) notes that the Delta Plan includes 14 regulatory policies that are applicable to all covered actions and provides a few key regulatory policies that may be applicable to the project and provides staff contact information for guidance.

Response: The project proponents will consult with the Council to ensure the project is consistent with the Delta Plan regulatory policies as applicable to the project.

Comment 5-2: Best Available Science and Adaptive Management: Delta Plan Policy G P1 “Detailed Findings to Establish Consistency with the Delta Plan” calls for covered actions to document use of best available science which should be consistent with criteria listed in Appendix 1A “Best Available Science” of the Delta Plan regulations such as relevance, inclusiveness, and objectivity.

Delta Plan Policy G P1 also calls for ecosystem restoration projects to include adequate provisions for continued implementation of adaptive management, appropriate to the scope of the action; this requirement can be satisfied through development of an adaptive management plan that is consistent with the framework described in Appendix 1B “Adaptive Management” of the Delta Plan along with documentation of adequate resources to implement the proposed adaptive management process.

The Council provided the Delta Science Program contact information for consultation to assist in document preparation for use of best available science and adaptive management.

Response: The project will ensure consistency with Delta Plan Policy G P1 as well as implement the Best Available Science criteria listed in Table 1A-1 of Appendix 1A (Relevance, Inclusiveness, Objectivity, Transparency and Openness, Timeliness, Peer Review) and an Adaptive Management plan described in Appendix 1B which provides a framework to plan, implement, evaluate and respond as applicable to the project.

Comment 5-3: Mitigation Measures: Delta Plan Policy GP 1 also requires that actions not exempt from CEQA and subject to Delta Plan regulations must include applicable feasible mitigation measures consistent with those identified in the Delta Plan Program Environmental Impact Report (PEIR) or substitute mitigation measures that are equally or more effective. The Council also notes that the Delta Plan Mitigation and Monitoring Reporting Program (MMRP) should be used to ensure compliance with the Delta Plan mitigation measures and provided a link to the document.

Response: Comments noted. The Delta Plan PEIR MMRP was reviewed and determined that the project MMRP is consistent with the Delta Plan PEIR MMRP as applicable to the project. Nevertheless, the Delta Plan PEIR will be referenced should other applicable mitigation measures become warranted that is not already included in the project MMRP.

Comment 5-4: Habitat Restoration: The Council notes that Delta Plan Policy ER P2 “Restore Habitats at Appropriate Elevations” states that habitat restoration must occur at appropriate elevations and be consistent with Appendix 3 “Habitat Restoration” of the Delta Plan regulations, which is an excerpt from the 2011 Draft Ecosystem Restoration Program Conservation Strategy. Appendix 3 describes many ecosystem benefits related to restoring floodplains, however it cautions that such restoration should include investigation and implementation of Best Management Practices (BMPs) to control methylmercury production and transport since periodic wetting and drying makes these areas prone to methylation of mercury. Marsh Creek is currently cited as exceeding water quality standards for mercury on the Central Valley Regional Water Quality Control Board’s 303(d) list of impaired water bodies, making management of mercury issues relevant to the Parkway Project. The Council recommends that the MND specifically address the potential impact of the project to contribute to methylation of legacy mercury in the Marsh Creek watershed and explain how the project either is designed to minimize this impact or includes appropriate mercury related BMPs.

Response: Comments noted. Marsh Creek is listed as impaired for mercury due to an abandoned mercury mine in the upper watershed, but bio-sentinel and chemical surveys over the last two decades have found relatively low levels of mercury and methylmercury in the watershed below Marsh Creek Reservoir, which appears to act as a mercury trap (John Cain, American Rivers, personal communication). Nevertheless, the Central Valley Regional Water Quality Control Board (Central Valley Water Board) has established methylmercury waste load allocations for all dischargers to the Delta through the Sacramento-San Joaquin Delta Estuary Total Maximum Daily Load (TMDL) (Delta Mercury TMDL) with intentions of reducing the mercury concentrations in fish down to levels considered to be protective of people and wildlife who consume fish from the Delta. The Delta Mercury TMDL translates reduced levels of mercury in fish to a water column target of 0.06 nanograms unfiltered methylmercury per liter (ng/L). If the average total methylmercury concentration in a water body exceeds 0.06 ng/L, follow-up actions are required to investigate causes and determine reasonable and foreseeable means of attaining a 0.06 ng/L.

The Contra Costa Clean Water Program (CCCWP) began implementation of a Methylmercury Control Study in 2012 to fulfill requirements of the Central Valley Municipal Regional Stormwater Discharge Permit (Order No. R5-2010-010). A Methylmercury Control Study Work Plan (Amec 2013) was prepared to 1) evaluate the

effectiveness of existing Best Management Practices (BMPs) for the control of methylmercury; 2) evaluate additional or enhanced BMPs, as needed, to reduce mercury and methylmercury discharges to the Delta; and 3) determine the feasibility of meeting methylmercury waste load allocations. Wet year and dry year samples were obtained at several locations along Marsh Creek within the project vicinity from spring 2012 through spring 2015: just upstream and downstream of the City of Brentwood Wastewater Treatment Plant (downstream of the project site), and at the confluences of Sand Creek, Deer Creek, and Dry Creek (all tributaries to Marsh Creek); Sand and Deer Creek confluences occur within the project segment, and Dry Creek is upstream of the project site. Methylmercury concentrations ranged between non-detect to 1.2 ng/L (Contra Costa Clean Water Program, Methylmercury Control Study Progress Report, October 2015).

Creating an intermittently flooded floodplain on Marsh Creek could create a methylated environment resulting in an increased level of methylmercury if there is elemental mercury present. However, based on the hydrology in Marsh Creek, the inundation events have a very short duration and are infrequent, which would presumably limit mercury export into Marsh Creek and the Delta. Further monitoring will be conducted to compare post-project levels to the pre-project data gathered from 2012 to 2015 to help determine whether implementation of this project will have any effect on methylation. Project construction will incorporate applicable BMPs to avoid or minimize off-site sediment transport.

Comment 5-5: Invasive Species: The Council notes that Delta Plan Policy ER P5 states “The potential for new introductions of or improved habitat conditions for nonnative invasive species, striped bass, or bass must be fully considered and avoided or mitigated in a way that appropriately protects the ecosystem.” **Nonnative species,** such as terrestrial and aquatic weeds, are a major obstacle to successful restoration because they affect the survival, health, and distribution of native wildlife and plant species. Although there is little chance of eradicating most established nonnative species, management can be designed to reduced their abundance.

The Council suggests **consideration of incorporating the Delta Plan’s PEIR Biological Resources Mitigation Measure 4-1** which calls for an invasive species management plan to be developed and implemented for any projects that could lead to introduction or facilitation of invasive species establishment. The mitigation requirement also calls for the plan to include nonnative species eradication methods (if eradication is feasible), nonnative species management methods, early detection methods, notification requirements, BMPs for preconstruction, construction, and post construction periods, monitoring, remedial actions and reporting requirements, and provisions for updating the target species list over the lifetime of the project as new invasive species become potential threats to the integrity of the local ecosystems.

Response: Comments noted. The project will implement an invasive species management plan consistent with the Delta Plan's recommendation as applicable to the project.

Comment 5-6: Respect Local Land Use: The Council notes that Delta Plan Policy DP P2 calls for habitat restoration projects to avoid or reduce conflicts with existing uses and to consider comments from local agencies and the Delta Protection Commission. The Council also notes that the MND states the project is consistent with the City of Brentwood General Plan and would not affect any land use of adjoining parcels to the project area, which is primarily designated residential. The MND also describes how the Parkway Project would protect East Bay Regional Park District's Marsh Creek trail by relocating it to new top of the eastern bank under the proposed project.

Response: Comments noted. No further response necessary.

Comment 5-7: Inconsistencies with the Delta Plan: The Council notes that the MND should discuss any inconsistencies between the proposed plan and the Delta Plan and that according to the CEQA Guidelines Appendix G a project that is inconsistent with any applicable land use plan, policy, or regulations may result in a finding of significant impact on the environment.

Response: Comments noted. The project is consistent with the Delta Plan as it is a multi-benefit project that will reduce flood risk associated with a changing climate, improve Delta water quality, restore denuded stream-side habitat, and enhance the Delta as a place. Further, the project will advance water quality recommendations of the Delta Plan to improve environmental water quality by reducing several pollutants conveyed to the Delta by urban and stormwater run-off including nitrates, pathogens, and contaminants with development of new floodplain wetlands and riparian vegetation along the channel that will cleanse polluted run-off that drain to Marsh Creek, Dutch Slough, and eventually to the Delta and Bay. Improving environmental water quality in Marsh Creek is particularly important to further the Delta Plan's goal of protecting Dutch Slough – a priority habitat restoration area.

Comment 5-8: Delta Plan Recommendations: *Protect and Enhance Recreational Opportunities:* The Council notes that the Delta Plan recommends protecting and improving existing recreation opportunities while seeking ways of providing new and better coordinated opportunities. Delta Plan Recommendation DP R11 calls for providing new and protecting existing recreational opportunities in the Delta and Suisun Marsh. Additionally, Recommendation DP R16 states that public agencies owning land should increase opportunities, where feasible, for bank fishing, hunting, levee-top trails, and environmental education.

INITIAL STUDY/MITIGATED NEGATIVE DECLARATION
CONTRA COSTA COUNTY PUBLIC WORKS DEPARTMENT
THREE CREEKS PARKWAY RESTORATION PROJECT (SCH# 2016082008)
COUNTY FLOOD CONTROL DISTRICT #7562-6D8176; COUNTY CEQA FILE #: CP 16-39

The Council also notes that they appreciate that the MND describes how the project would relocate the Marsh Creek trail and how the lower 1,600 feet of the project would be integrated into a new city park and include interpretive signs.

Response: Comments noted. The project is consistent with DP R11 “Provide New and Protect Existing Recreation Opportunities” and DP R16 “Encourage Recreation on Public Lands” as the project will protect and improve the existing creek trail and provide interpretive aides for environmental education for visitors.

Comment 5-9: Final Remarks: The Council notes that they overall support this project and look forward to working with and providing guidance to County staff on the requirements of filing a Delta Plan Certification of Consistency.

Response: Letter in support of this project is acknowledged. No further response necessary.

RE: Three Creeks Parkway Restoration Project Initial Study and Mitigated Negative Declaration, SCH# 2016082008

Dear Ms. Gemberling:

We appreciate the opportunity to comment on the Initial Study and Mitigated Negative Declaration (MND) for the Three Creeks Parkway Restoration Project (hereafter referred to as the "Parkway Project"). The non-profit American Rivers and the Contra Costa County Flood Control and Water Conservation District will implement a project in the City of Brentwood to restore approximately 4,000 linear feet of Marsh Creek and adjacent floodplain and riparian habitat.

As you may know, the Delta Stewardship Council (Council) through the Delta Reform Act was granted specific regulatory and appellate authority over certain actions that take place in whole or in part in the Delta and Suisun Marsh; the Council exercises this authority through the development and implementation of the Delta Plan. The Delta Plan applies a common sense approach based on the best available science to achieve the coequal goals of protecting and enhancing the Delta ecosystem and providing for a more reliable water supply for California, while protecting and enhancing the unique cultural, recreational, and agricultural values of the Delta as an evolving place.

According to the Delta Reform Act, it is the state or local agency approving, funding, or carrying out the project that must determine if that project is a "covered action" subject to Delta Plan regulations, and if so, to file a certification of consistency with the Delta Plan.

"Coequal goals" means the two goals of providing a more reliable water supply for California and protecting, restoring, and enhancing the Delta ecosystem. The coequal goals shall be achieved in a manner that protects and enhances the unique cultural, recreational, natural resource, and agricultural values of the Delta as an evolving place."

Delta Plan Policies

The Delta Plan includes 14 regulatory policies that are applicable to all covered actions. Below we have highlighted a few key regulatory policies from the Delta Plan that may be relevant to the Parkway Project.

5-1

Best Available Science and Adaptive Management

Delta Plan Policy **G P1** (23 California Code of Regulations [CCR] Section 5002) calls for covered actions to document use of best available science. This documentation should be consistent with the criteria listed in Appendix 1A of the Delta Plan regulations (available at <http://deltacouncil.ca.gov/docs/appendix-1a>), which include relevance, inclusiveness, and objectivity.

Additionally, Policy **G P1** calls for ecosystem restoration projects to include adequate provisions for continued implementation of adaptive management, appropriate to the scope of the action; this requirement can be satisfied through the development of an adaptive management plan that is consistent with the framework described in Appendix 1B of the Delta Plan (<http://deltacouncil.ca.gov/docs/appendix-1b>), along with documentation of adequate resources to implement the proposed adaptive management process.

5-2

Staff from the Delta Science Program can provide consultation to assist in preparation of documentation of use of best available science and adaptive management. Please contact Darcy Austin (darcy.austin@deltacouncil.ca.gov) of the Delta Science Program to arrange those discussions.

Mitigation Measures

Delta Plan Policy **G P1** (23 CCR Section 5002) also requires that actions not exempt from the California Environmental Quality Act (CEQA) and subject to Delta Plan regulations must include applicable feasible mitigation measures consistent with those identified in the Delta Plan Program Environmental Impact Report (PEIR) or substitute mitigation measures that are equally or more effective. The Delta Plan Mitigation and Monitoring Reporting Program is to be used to ensure compliance with the Delta Plan mitigation measures and this document is available at http://deltacouncil.ca.gov/sites/default/files/documents/files/Agenda%20Item%206a_attach%202.pdf

5-3

Council staff can provide a slightly reformatted Microsoft Word document version of the MMRP document which may help Contra Costa County staff with the process of cross-referencing between Delta Plan mitigation measures with those in the project's MND.

Habitat Restoration

Delta Plan Policy **ER P2** (23 CCR Section 5006) states that habitat restoration must occur at appropriate elevations and be consistent with Appendix 3 of the Delta Plan regulations, which is an excerpt from the 2011 Draft Ecosystem Restoration Program Conservation Strategy. Appendix 3 describes the many ecosystem benefits related to restoring floodplains, however it also cautions that such restoration should include investigation and implementation of Best Management Practices (BMPs) to control methylmercury production and transport since periodic wetting and drying makes these areas prone to methylation of mercury. Marsh Creek is currently cited as exceeding water quality standards for mercury on the Central Valley Regional Water Quality Control Board's 303(d) list of impaired water bodies, making management of mercury issues relevant to the Parkway Project. We recommend that the MND specifically address the potential impact of the project to contribute to methylation of legacy mercury in the Marsh Creek watershed and explain how the project either is designed to minimize this impact or includes appropriate mercury related BMPs.

5-4

Invasive Species

Delta Plan Policy **ER P5** (23 CCR Section 5009) states, "The potential for new introductions of or improved habitat conditions for nonnative invasive species, striped bass, or bass must be fully considered and avoided or mitigated in a way that appropriately protects the ecosystem." Nonnative species, such as terrestrial and aquatic weeds, are a major obstacle to successful restoration because they affect the survival, health, and distribution of native wildlife and plant species. Although there is little chance of eradicating most established nonnative species, management can be designed to reduce their abundance.

We suggest you consider incorporating into the MND Delta Plan PEIR's **Biological Resources Mitigation Measure 4-1** which calls for an invasive species management plan to be developed and implemented for any projects that could lead to introduction or facilitation of invasive species establishment. The plan must ensure that invasive plant species and populations are kept below preconstruction abundance and distribution levels and be based on best available science and developed in consultation with Department of Fish and Wildlife and local experts (e.g., UC Davis, California Invasive Plant Council). This mitigation requirement also calls for the plan to include the following elements:

5-5

- Nonnative species eradication methods (if eradication is feasible)
- Nonnative species management methods
- Early detection methods
- Notification requirements
- Best management practices for preconstruction, construction, and post construction periods
- Monitoring, remedial actions and reporting requirements

- Provisions for updating the target species list over the lifetime of the project as new invasive species become potential threats to the integrity of the local ecosystems

Respect Local Land Use

Delta Plan Policy **DP P2** (23 CCR Section 5011) calls for habitat restoration projects to avoid or reduce conflicts with existing uses and to consider comments from local agencies and the Delta Protection Commission. The MND states that the project is consistent with the City of Brentwood General Plan and would not affect any land use of adjoining parcels to the project area, which is primarily designated residential. The MND also describes how the Parkway Project would protect East Bay Regional Park District's Marsh Creek trail by relocating it to new top of the eastern bank under the proposed project.

5-6

Inconsistencies with the Delta Plan

The MND should discuss any inconsistencies between the proposed plan and the Delta Plan, as required by section 15125(d) of the CEQA Guidelines. Please note that the CEQA guidelines' Appendix G states that a project that is inconsistent with any applicable land use plan, policy, or regulations may result in a finding of significant impact on the environment.

5-7

Delta Plan Recommendations

The Delta Plan contains 74 recommendations, which we encourage project proponents to consider as they design and implement their projects and programs. Although these recommendations are non-regulatory in nature, progress towards their implementation will help with achieving the coequal goals in a manner that protects and enhances the unique values of the Delta.

Protect and Enhance Recreational Opportunities

The Delta Plan recommends protecting and improving existing recreation opportunities while seeking ways of providing new and better coordinated opportunities. Delta Plan Recommendation **DP R11** calls for providing new and protecting existing recreational opportunities in the Delta and Suisun Marsh. Additionally, Recommendation **DP R16** states that public agencies owning land should increase opportunities, where feasible, for bank fishing, hunting, levee-top trails, and environmental education. We appreciate how the MND describes how the project would relocate the Marsh Creek trail and how the lower 1,600 feet of the project would be integrated into a new city park and include interpretive signs.

Final Remarks

Overall we support Contra Costa County and American Rivers in this initiative to restore habitat along a stretch of urbanized creek in the City of Brentwood. We look forward to working with County staff on this project and, if necessary, provide early consultation to County staff on the requirements of filing a Delta Plan certification of consistency. I encourage you to contact Daniel Huang at Daniel.Huang@deltacouncil.ca.gov for any questions you have regarding issues raised in this comment letter.

Delta Stewardship Council

COMMENT LETTER #6. EAST BAY REGIONAL PARK DISTRICT (September 1, 2016)

Comment 6-1: The East Bay Regional Park District (Park District) appreciates that the Marsh Creek Trail within the project area will be located above the 100-year flood plain zone which will avoid increased maintenance costs and potential trail closures. The project is considering a pervious surface for the trail as part of the proposal required by the East Contra Costa County Habitat Conservancy. The Park District comments that they maintain a portion of the Marsh Creek Trail and requests that a local funding mechanism be established to accommodate additional maintenance required for this type of surface.

Response: The Contra Costa County Flood Control District has been having discussions with the City of Brentwood Parks and Recreation Department about the local funding mechanism and the City has agreed they'll provide additional funding for the additional maintenance required for this type of surface.

Comment 6-2: The City of Brentwood is proposing to widen Central Blvd. to four (4) lanes by adding a new bridge. The Park District comments safety concerns regarding the increased distance trail users would have to travel across Central Blvd. once additional lanes are added. The Park District supports the trail passing under the bridge(s) and elimination of at grade crossing which is a much safer experience for trail users and may improve traffic flow on Central Blvd. Additional structures required to protect the bridge abutments and trail alignment under the bridge will need to be included in the CEQA analysis.

Response: The project will include armoring under the bridge to protect the bridge and proposed trail undercrossing. The armoring will be a combination of concrete and riprap. The riprap will be vegetated where accessible to sunlight. The MND points out that other locations within the project segment will need to be armored to stabilize slopes which will minimize erosion and provide stabilized slopes for the trail relocation as noted in the Biological Resources, Geology and Soil, and Hydrology and Water Quality sections. No additional structures will be necessary to protect the bridge abutments or trail.

Comment 6-3: The Park District requests that the Contra Costa County Flood Control District design the trail undercrossing to Caltrans Chapter 1000 Class I bikeway standards, which calls for at least ten (10) feet of overhead clearance if possible which will also allow enough clearance for equestrians, emergency vehicles and overhead signage if necessary. The Park District will still need to preserve emergency vehicle and maintenance access through the current on street trail entrances for operational purposes.

INITIAL STUDY/MITIGATED NEGATIVE DECLARATION
CONTRA COSTA COUNTY PUBLIC WORKS DEPARTMENT
THREE CREEKS PARKWAY RESTORATION PROJECT (SCH# 2016082008)
COUNTY FLOOD CONTROL DISTRICT #7562-6D8176; COUNTY CEQA FILE #: CP 16-39

Response: The trail will be designed to the Class I Bikeway standards with the exception that the 10-ft recommended clearance is not achievable under the existing bridge. The design can achieve 8-ft minimum clearance as specified by the Caltrans standards. The Federal Highway Administration standards for equestrians recommends a 12-ft clearance. It is our expectation that equestrians will need to use the Central Blvd. at-grade crossing. Emergency vehicle and maintenance access (EVMA) will be maintained at street level as well.

COMMENT LETTER #6

Claudia Gemberling, Environmental Analyst II
Contra Cost County Public Works Department
255 Glacier Drive
Martinez, CA 94553

RE: Notice of Public Review and Intent to Adopt a Proposed Mitigated Negative Declaration

Dear Ms. Gemberling,

The East Bay Regional Park District (Park District) has reviewed the Initial Study/Mitigated Negative Declaration (IS/MND) for the Three Creeks Parkway Restoration (the project), proposed by the Contra Costa County Flood Control District (CCCFCFCD). The Park District has a long term commitment to protecting and maintaining open space in Contra Costa County and providing safe non-motorized public transportation and recreational opportunities by way of our Regional Trail Network. The District operates and maintains the Marsh Creek Regional Trail (the Trail) on the east side of Marsh Creek, which is within the project's scope.

The project proposes to relocate the trail for approximately 0.8 mile as part of the restoration effort of Marsh Creek. The Park District appreciates the CCCFCFCD's willingness to relocate the existing trail above the 100 year flood plain to avoid increased maintenance costs and potential trail closures. The CCCFCFCD is considering a pervious surface for the trail as part of the proposal required by the East Contra Costa Habitat Conservancy. The Park District maintains this portion of the Marsh Creek Trail and requests that a local funding mechanism be established to accommodate additional maintenance required for this type of surface.

6-1

The City of Brentwood is proposing to widen Central Blvd to four (4) lanes by adding a new bridge. The Park District has safety concerns regarding the increased distance trail users would have to travel across Central Blvd. once additional lanes are added. The Park District supports the trail passing under the bridge(s) on Central Blvd. and the elimination of the existing at grade crossing; which is a much safer experience for trail users and may improve traffic flow on Central Blvd. There are several schools within .5 mile of the project, and students and parents will be able to walk/bike to school on a safer route with this improvement. Additional structures required to protect the bridge abutments and trail alignment under the bridge, which may encroach into the creek channel, will need to be included in your CEQA analysis.

6-2

The Park District requests that CCCFCFCD design the trail undercrossing to Caltrans Chapter 1000 Class I bikeway standards, which calls for at least ten (10) feet of overhead clearance if possible. This also allows enough clearance for equestrians, emergency vehicles and overhead signage if necessary. The Park District will still need to preserve emergency vehicle and maintenance access (EVMA) through the current on street trail entrances for operational purposes.

6-3

The Park District appreciates the opportunity to review the IS/MND and provide comments. We look forward to working with the CCCFCFCD on this project. Please provide any future information and design plans for Park District review. If you have any questions or concerns, please contact me at (510) 544-2609, or by e-mail at swilson@ebparks.org.

COMMENT LETTER #7. CHEVRON (September 1, 2016)

Comment 7-1: Leidos Engineering LLC, on behalf of Chevron Environmental Management Company (CEMC), describes the background of inactive, historic crude-oil pipelines within the project vicinity and identifies the approximate location of the former Old Valley Pipeline (OVP) and Tidewater Associated Oil Company (TAOC) alignments **with respect to the project's layout. Leidos further states that CEMC conducted risk** assessments at numerous locations within known historical crude-oil release points along the former OVP and TAOC pipelines and analytical results have indicated that the crude-contaminated soil was non-hazardous. If soil affected by the historical release of crude oil from these former pipelines is encountered during construction activities it may be reused as backfill on site. Parties conducting construction activities in the vicinity of these former pipeline rights-of-way may wish to use the information provided in the letter to help prepare for the possibility of encountering pipelines and pipeline-related asbestos-containing materials ACM during the course of their work.

Response: Comments have been noted and forwarded to the project design team. No further response is necessary.

Stakeholder Communication – Contra Costa County

Ms. Claudia Gemberling
Environmental Analyst II
Contra Costa County Public Works Department
255 Glacier Drive
Martinez, California 94553

**Subject: Comments on the Initial Study and Proposed Mitigated Negative Declaration for the
Three Creeks Parkway Restoration Project**
Chevron Environmental Management Company
Historical Pipeline Portfolio–Bakersfield to Richmond

Dear Ms. Gemberling:

On behalf of Chevron Environmental Management Company (CEMC), Leidos, Inc. (Leidos; CEMC contract consultant) recently reviewed the Initial Study and Proposed Mitigated Negative Declaration for the Three Creeks Parkway Restoration Project (proposed project). The information contained in this letter may help you to understand something about Chevron's former pipeline operations in the City of Brentwood, as residual weathered crude oil, abandoned pipeline, and asbestos-containing materials (ACM) could potentially be encountered during subsurface construction activities in the vicinity of these former pipeline locations within the existing former pipeline rights of way (ROW).

Portions of the former Old Valley Pipeline (OVP) and Tidewater Associated Oil Company (TAOC) pipelines existed in the vicinity of the proposed project area. These formerly active pipelines were constructed in the early 1900s and carried crude oil from the southern San Joaquin Valley to the San Francisco Bay Area. Pipeline operations for the OVP ceased in the 1940s, and in the 1970s for the TAOC pipelines. When pipeline operations ceased, the pipelines were taken out of commission. The degree and method of decommissioning varied: in some instances the pipelines were removed, while in others they remained in place. Because these pipelines have been decommissioned, with the majority of pipelines having been removed, they are not readily identified as underground utilities through the Underground Service Alert North System or utility surveys. Figure 1 illustrates the locations of the former OVP and TAOC ROWs with respect to the proposed project area. The location of the pipelines shown on Figure 1 is based on historical as-built drawings and the approximated positional accuracy of the alignments is generally +/- 50 feet. The OVP and TAOC pipelines were installed at depths of up to 10 feet below ground surface. The steel pipelines were typically encased in a protective coating composed of coal tar and ACM.

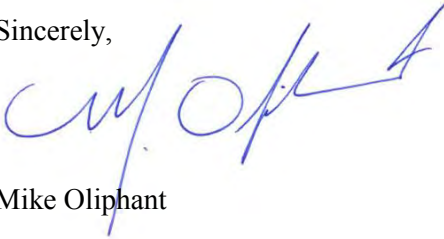

Working under the direction of State regulatory agencies, CEMC conducted risk assessments at numerous locations with known historical crude-oil release points along the former OVP and TAOC pipelines. Analytical results from these risk assessments indicated that the crude-contaminated soil was non-hazardous. Accordingly, it is likely that

if soil affected by the historical release of crude oil from these former pipelines is encountered during construction activities it may be reused as backfill on site. Properly abandoned crude-oil pipeline may be left in the ground. Parties conducting construction activities in the vicinity of these former pipeline ROWs may wish to use the information provided in this letter to help prepare for the possibility of encountering abandoned pipelines and pipeline-related ACM during the course of their work.

6-1

For more information regarding these historic pipelines, please visit <http://www.hppinfo.com/>. If you would like additional information, or would like to request more detailed maps, please contact Leidos consultants Mike Hurd (michael.t.hurd@leidos.com) at (510) 466-7161 or Tan Hoang (tan.t.hoang@leidos.com) at (916) 979-3742.

Sincerely,

Mike Oliphant

COMMENT LETTER #8. CITY OF BRENTWOOD PUBLIC WORKS DEPARTMENT

(September 2, 2016)

Comment 8-1: The City of Brentwood Public Works Department (City) suggested to include in the last paragraph of Section 2.2 "Project Location and Surrounding Land Uses" on page 8 that the planned linear city park part of the Pulte development is planned to be under construction during the spring and/or summer of 2017.

Response: Comment noted and is included in this CEQA record for the final IS/MND. No further response is necessary.

Comment 8-2: The City notes that the footnotes to Table 1 in Section 2.4 "Project Components" on page 10 indicate that the parcel numbers and ownership information are shown on Figures 4, 6, and 8, but the information is not shown.

Response: Comment noted. The figures have been updated and included in this CEQA record for the final IS/MND. No further response is necessary.

Comment 8-3: The City commented that Section 2.4.1 "Middle Reach" does not address the "Phase II Design Alternative" widening shown in blue and noted on Figure 7.

Response: The intent was to have an alternative if the sewer line could be relocated in accordance with City requirements.

Comment 8-4: The City recommends not using the term "relocation" in Section 2.4.3 Sewer Line Relocation on page 17 (page number not shown) because the sewer line will remain in place and suggested revising to "Existing Sewer Main".

Response: Comment noted and is included in this CEQA record for the final IS/MND. No further response is necessary.

Comment 8-5: The City recommends changing the wording to "City of Brentwood Encroachment and/or Grading Permit" in Section 2.7 "Permits and Approvals Required" in the last line on page 19 as the City will want to review items such as construction plans, haul truck routes, traffic control, bonds, working hours, and possibly impose conditions such as repair of improvements damaged during construction, periodic coordination with City staff, and potential need for settlement monitoring.

Response: Comment noted and is included in this CEQA record for the final IS/MND. No further response is necessary.

Comment 8-6: The City of Brentwood PWD comments on Section 5.8.2 “Hazards and Hazardous Materials” discussion item g on page 60 that if APN 017-110-011 “DLT Ventures (Griffith)” is not made available for soil stockpiling, it does not appear that the project has adequate space at other locations to stockpile a significant amount of excavated material based on the other parcels identified in Section 2.4, Table 1. This could result in a frequency of haul truck traffic that is worthy of further consideration. **The City’s permit process will help identify the haul routes and traffic control that will be needed to mitigate impacts.**

The City recommends considering less precise language that would leave open the possibility of access from alternative locations. Construction staging may require cycling earthmoving trucks through the project if turn-around space is limited. The City comments that it should be stipulated that access and haul routes will be agreed upon during the design process, prior to construction.

Response: Comments noted. The MND analyzed potential stockpile locations and haul routes. Feasible stockpile locations and haul routes will be finalized during the permit process prior to start of construction.

Comment 8-7: The City comments that while the statement in the “Background” of Section 5.16.1 “Transportation and Traffic” is true for access directly to the creek, other possible access points as shown in Figure 3 should be mentioned and evaluated. The City also comments that it should be noted that some of the streets mentioned may be under developer control, or may be deemed not suitable for haul truck traffic, and therefore not allowed for construction access.

Response: Comments noted. Some of the access points shown in Figure 3 are for public access to existing and planned city parks part of the Pulte Development (i.e., Bella Drive, Island Palm Way) which may not be accessible upon project completion as noted by the City but will be determined during the design process. As noted in discussion items a, b of Section 5.16, construction vehicles would access the project site via local roadways and existing maintenance roads or the regional trail along the creek. Central Blvd. and Dainty Avenue are local roadways that provide access to the project site and trail; the County Flood Control District maintenance road at Sungold Park within the Carmel Estates development is another access point.

Comment 8-8: The City comments that discussion items “a” and “b” in Section 5.16.3 “Transportation and Traffic” on page 75 discusses the duration of construction and construction traffic and suggests noting the number of trips per day that would be needed to achieve those durations. The City also comments that traffic control measures for hauling trucks would likely be justified, and required, as part of an encroachment permit. And, notes that if parcel 017-110-011 would be used for

INITIAL STUDY/MITIGATED NEGATIVE DECLARATION
CONTRA COSTA COUNTY PUBLIC WORKS DEPARTMENT
THREE CREEKS PARKWAY RESTORATION PROJECT (SCH# 2016082008)
COUNTY FLOOD CONTROL DISTRICT #7562-6D8176; COUNTY CEQA FILE #: CP 16-39

stockpiling, and subsequent trucking away from the site, the access to that property for trucking would be Minnesota Avenue.

Response: Comments noted. The exact number of trips per day needed to achieve the construction and construction traffic durations will be determined when the contractor obtains the encroachment permit as well as traffic control measures for haul trucks.

Comment 8-9: The City comments on Section 5.17 "Utilities and Service Systems" that even though a conflict or interaction with the existing sewer system, other than adjustments to manhole lids, is extremely unlikely, a response protocol should be created that identifies what actions need to be taken in the event of damage to existing facilities.

The City also comments that the City requires vehicular access over the sanitary sewer main that is not subject to the 100 year flood event and proposed widening near 371+00 would appear to impact that requirement, but widening may have already been accomplished at that location. No typical section for 371+00 is provided to clarify. Relocation of the sanitary sewer main may be necessary to ensure the aforementioned requirement is met.

Response: Comments noted. A response protocol will be prepared prior to construction **to address necessary actions in the event of damage to the City's existing facilities.**

The existing sewer line location is below the existing top of bank at station 371+00 and is currently below the 100-year flood event. The proposed project will not affect this condition. The proposed project grading begins immediately downstream of station 371+00 and transitions to a widened left bank. The City will have an opportunity to review project plans to ensure an acceptable design.

Re: Three Creeks Parkway Restoration
Initial Study – Mitigated Negative Declaration

Dear Ms. Gemberling:

Thank you very much for the opportunity to review the Initial Study – Mitigated Negative Declaration for this important project. City staff has reviewed it and offers the following comments for your consideration:

1. Section 2.2 “Project Location and Surrounding Land Uses,” Page 8: In the last paragraph of the section, it may be worth noting that the park is planned to be under construction during the spring and/or summer of 2017. **8-1**
2. Section 2.4 “Project Components”, Page 10: The footnotes to Table 1 indicate that the parcel numbers and ownership information are shown on Figures 4, 6, and 8, but the information is not shown. **8-2**
3. Section 2.4.1 “Middle Reach”: This section does not address the “Phase II Design Alternative” widening shown in blue and noted on Figure 7. **8-3**
4. Section 2.4.3 “Sewer Line Relocation”, Page 17 (page number not shown): I would recommend not using the term “relocation” because the sewer line will remain in place. Maybe something more general like “Existing Sewer Main” would be more appropriate. **8-4**
5. Section 2.7 “Permits and Approvals Required”, Page 19, last line: I would recommend changing the wording to “City of Brentwood Encroachment and/or Grading Permit”. With the encroachment permit application process, the city will want to review items such as construction plans, haul truck routes, traffic control, bonds, working hours, and possibly impose conditions such as repair of improvements damaged during construction, periodic coordination with city staff, and potential need for settlement monitoring. **8-5**
6. Section 5.8.2, discussion item g, Page 60:
 - a. If APN 017-110-011 “DLT Ventures (Griffith)” is not made available for stockpiling, It does not appear that the project has adequate space at other locations to stockpile a significant amount of excavated material, based on the other parcels identified in the Section 2.4, Table 1. This could result in a frequency of haul truck traffic that is worthy of further consideration. The City’s permit process will help identify the haul routes and traffic control that will be needed to mitigate impacts. **8-6**

- b. I recommend considering less precise language that would leave open the possibility of access from alternative locations. Construction staging may require cycling earthmoving trucks through the project if turn-around space is limited. It should be stipulated that access and haul routes will be agreed upon during the design process, prior to construction. 8-6
7. Section 5.16.1, "Background" – While the statement is true for access directly to the creek, what if other access points are possible? Shouldn't those be mentioned and evaluated also? Other access points are shown on the exhibit for Figure 3, but not discussed anywhere else. However, it should also be noted that some of the streets mentioned above may be under developer control, or may be deemed not suitable for haul truck traffic, and therefore not allowed for construction access. 8-7
8. Section 5.16.3 (.2 was skipped), discussion items "a" and "b", Page 75: In the discussion of duration of construction and construction traffic, it might be useful to see the number of trips per day that would be needed to achieve those durations. Traffic control measures for hauling trucks would likely be justified, and required, as part of an encroachment permit. Also, if parcel017-110-011 would be used for stockpiling, and subsequent trucking away from the site, the access to that property for trucking would be Minnesota Ave. 8-8
9. Section 5.17, Utilities and Service Systems: Even though a conflict or interaction with the existing sewer system, other than adjustments to manhole lids, is extremely unlikely, a response protocol should be created that identifies what actions need to be taken in the event of damage to the existing facilities. 8-9

The City of Brentwood requires vehicular access over the sanitary sewer main that is not subject to the 100 yr flood event. Proposed channel widening near 371+00 would appear to impact that requirement, but widening may have already been accomplished at that location. No typical section for 371+00 is provided to clarify. Relocation of the sanitary sewer main may be necessary to ensure the aforementioned requirement is met.

Thank you again for the opportunity to review and comment on the IS/MND. If you have any questions, please feel free to contact me by phone (925-516-5420) or by e-mail (shunn@brentwoodca.gov). The City looks forward to construction of the project.

Very truly yours,

Subject: Three Creeks Parkway Restoration, IS/MND review

Claudia,

Thank you for the opportunity to review the IS/MND for the proposed Three Creeks Parkway Restoration project, County File No. CP 16-39. Please find attached my letter of review and comment on the IS/MND document. Please feel free to call me with any questions.

Sincerely,
Steve H

COMMENT LETTER #9. STATE CLEARINGHOUSE (September 2, 2016)

Comment 9-1: The Governor's Office of Planning and Research, State Clearinghouse and Planning Unit noted that the IS/MND was submitted to selected state agencies for review and provided the list of those agencies and comments letters received. The Central Valley Regional Water Quality Control Board was the only agency that submitted a comment letter to the State Clearinghouse.

Response: The Central Valley Regional Water Quality Control Board comment letter is addressed in Comment Letter #4 of this package. No further response is necessary.

EDMUND G. BROWN JR.

Subject: Three Creeks Parkway Restoration
SCH#: 2016082008

Dear Claudia Gemberling:

The State Clearinghouse submitted the above named Mitigated Negative Declaration to selected state agencies for review. On the enclosed Document Details Report please note that the Clearinghouse has listed the state agencies that reviewed your document. The review period closed on September 1, 2016, and the comments from the responding agency (ies) is (are) enclosed. If this comment package is not in order, please notify the State Clearinghouse immediately. Please refer to the project's ten-digit State Clearinghouse number in future correspondence so that we may respond promptly.

9-1

Please note that Section 21104(c) of the California Public Resources Code states that:

"A responsible or other public agency shall only make substantive comments regarding those activities involved in a project which are within an area of expertise of the agency or which are required to be carried out or approved by the agency. Those comments shall be supported by specific documentation."

These comments are forwarded for use in preparing your final environmental document. Should you need more information or clarification of the enclosed comments, we recommend that you contact the commenting agency directly.

This letter acknowledges that you have complied with the State Clearinghouse review requirements for draft environmental documents, pursuant to the California Environmental Quality Act. Please contact the State Clearinghouse at (916) 445-0613 if you have any questions regarding the environmental review process.

Sincerely,

Scott Morgan
Director, State Clearinghouse

Project Title Three Creeks Parkway Restoration
Lead Agency Contra Costa County

Type MND Mitigated Negative Declaration

Description The County Flood Control and Water Conservation District, in partnership with American Rivers, a non-profit organization that protects rivers and restores damaged rivers, proposes to widen approximately 4,000 lf of the Marsh Creek channel from Dainty Ave to an existing pedestrian bridge just before the UPRR tracks with floodplain benches, which will meet the District's standards for 100-year flood protection, and native riparian vegetation that will enhance habitat and recreation. Some work may occur within the flow line of the creek to create in stream habitat by placing boulders and large woody debris, and the placement of rock slope protection. The project will also include a slight relocation of the existing East Bay Regional Park District Marsh Creek trail along the eastern bank to the new grade.

STATE CLEARINGHOUSE

CERTIFIED MAIL

7199 9991 7035 8360 9782

COMMENTS TO REQUEST FOR REVIEW FOR THE MITIGATED NEGATIVE DECLARATION, THREE CREEKS PARKWAY RESTORATION PROJECT, SCH# 2016082008, CONTRA COSTA COUNTY

Pursuant to the State Clearinghouse's 3 August 2016 request, the Central Valley Regional Water Quality Control Board (Central Valley Water Board) has reviewed the *Request for Review for the Mitigated Negative Declaration* for the Three Creeks Parkway Restoration Project, located in Contra Costa County.

Our agency is delegated with the responsibility of protecting the quality of surface and groundwaters of the state; therefore our comments will address concerns surrounding those issues.

I. Regulatory Setting

Basin Plan

The Central Valley Water Board is required to formulate and adopt Basin Plans for all areas within the Central Valley region under Section 13240 of the Porter-Cologne Water Quality Control Act. Each Basin Plan must contain water quality objectives to ensure the reasonable protection of beneficial uses, as well as a program of implementation for achieving water quality objectives with the Basin Plans. Federal regulations require each state to adopt water quality standards to protect the public health or welfare, enhance the quality of water and serve the purposes of the Clean Water Act. In California, the beneficial uses, water quality objectives, and the Antidegradation Policy are the State's water quality standards. Water quality standards are also contained in the National Toxics Rule, 40 CFR Section 131.36, and the California Toxics Rule, 40 CFR Section 131.38.

The Basin Plan is subject to modification as necessary, considering applicable laws, policies, technologies, water quality conditions and priorities. The original Basin Plans were adopted in 1975, and have been updated and revised periodically as required, using Basin Plan amendments. Once the Central Valley Water Board has adopted a Basin Plan amendment in noticed public hearings, it must be approved by the State Water Resources

KARL E. LONGLEY ScD, P.E., CHAIR | PAMELA C. CREEDON P.E., BCCE, EXECUTIVE OFFICER

11020 Sun Center Drive #200, Rancho Cordova, CA 95670 | www.waterboards.ca.gov/centralvalley

Control Board (State Water Board), Office of Administrative Law (OAL) and in some cases, the United States Environmental Protection Agency (USEPA). Basin Plan amendments only become effective after they have been approved by the OAL and in some cases, the USEPA. Every three (3) years, a review of the Basin Plan is completed that assesses the appropriateness of existing standards and evaluates and prioritizes Basin Planning issues.

For more information on the *Water Quality Control Plan for the Sacramento and San Joaquin River Basins*, please visit our website:
http://www.waterboards.ca.gov/centralvalley/water_issues/basin_plans/.

Antidegradation Considerations

All wastewater discharges must comply with the Antidegradation Policy (State Water Board Resolution 68-16) and the Antidegradation Implementation Policy contained in the Basin Plan. The Antidegradation Policy is available on page IV-15.01 at:
http://www.waterboards.ca.gov/centralvalleywater_issues/basin_plans/sacsjr.pdf

In part it states:

Any discharge of waste to high quality waters must apply best practicable treatment or control not only to prevent a condition of pollution or nuisance from occurring, but also to maintain the highest water quality possible consistent with the maximum benefit to the people of the State.

This information must be presented as an analysis of the impacts and potential impacts of the discharge on water quality, as measured by background concentrations and applicable water quality objectives.

The antidegradation analysis is a mandatory element in the National Pollutant Discharge Elimination System and land discharge Waste Discharge Requirements (WDRs) permitting processes. The environmental review document should evaluate potential impacts to both surface and groundwater quality.

II. Permitting Requirements

Construction Storm Water General Permit

Dischargers whose project disturb one or more acres of soil or where projects disturb less than one acre but are part of a larger common plan of development that in total disturbs one or more acres, are required to obtain coverage under the General Permit for Storm Water Discharges Associated with Construction Activities (Construction General Permit), Construction General Permit Order No. 2009-009-DWQ. Construction activity subject to this permit includes clearing, grading, grubbing, disturbances to the ground, such as stockpiling, or excavation, but does not include regular maintenance activities performed to restore the original line, grade, or capacity of the facility. The Construction General Permit requires the development and implementation of a Storm Water Pollution Prevention Plan

(SWPPP).

For more information on the Construction General Permit, visit the State Water Resources Control Board website at:

http://www.waterboards.ca.gov/water_issues/programs/stormwater/constpermits.shtml.

Phase I and II Municipal Separate Storm Sewer System (MS4) Permits¹

The Phase I and II MS4 permits require the Permittees reduce pollutants and runoff flows from new development and redevelopment using Best Management Practices (BMPs) to the maximum extent practicable (MEP). MS4 Permittees have their own development standards, also known as Low Impact Development (LID)/post-construction standards that include a hydromodification component. The MS4 permits also require specific design concepts for LID/post-construction BMPs in the early stages of a project during the entitlement and CEQA process and the development plan review process.

For more information on which Phase I MS4 Permit this project applies to, visit the Central Valley Water Board website at:

http://www.waterboards.ca.gov/centralvalley/water_issues/storm_water/municipal_permits/.

For more information on the Phase II MS4 permit and who it applies to, visit the State Water Resources Control Board at:

http://www.waterboards.ca.gov/water_issues/programs/stormwater/phase_ii_municipal.shtml

Industrial Storm Water General Permit

Storm water discharges associated with industrial sites must comply with the regulations contained in the Industrial Storm Water General Permit Order No. 2014-0057-DWQ.

For more information on the Industrial Storm Water General Permit, visit the Central Valley Water Board website at:

http://www.waterboards.ca.gov/centralvalley/water_issues/storm_water/industrial_general_permits/index.shtml.

Clean Water Act Section 404 Permit

If the project will involve the discharge of dredged or fill material in navigable waters or wetlands, a permit pursuant to Section 404 of the Clean Water Act may be needed from the United States Army Corps of Engineers (USACOE). If a Section 404 permit is required by the USACOE, the Central Valley Water Board will review the permit application to ensure that discharge will not violate water quality standards. If the project requires surface water

¹ Municipal Permits = The Phase I Municipal Separate Storm Water System (MS4) Permit covers medium sized Municipalities (serving between 100,000 and 250,000 people) and large sized municipalities (serving over 250,000 people). The Phase II MS4 provides coverage for small municipalities, including non-traditional Small MS4s, which include military bases, public campuses, prisons and hospitals.

drainage realignment, the applicant is advised to contact the Department of Fish and Game for information on Streambed Alteration Permit requirements.

If you have any questions regarding the Clean Water Act Section 404 permits, please contact the Regulatory Division of the Sacramento District of USACOE at (916) 557-5250.

Clean Water Act Section 401 Permit – Water Quality Certification

If an USACOE permit (e.g., Non-Reporting Nationwide Permit, Nationwide Permit, Letter of Permission, Individual Permit, Regional General Permit, Programmatic General Permit), or any other federal permit (e.g., Section 10 of the Rivers and Harbors Act or Section 9 from the United States Coast Guard), is required for this project due to the disturbance of waters of the United States (such as streams and wetlands), then a Water Quality Certification must be obtained from the Central Valley Water Board prior to initiation of project activities. There are no waivers for 401 Water Quality Certifications.

Waste Discharge Requirements – Discharges to Waters of the State

If USACOE determines that only non-jurisdictional waters of the State (i.e., "non-federal" waters of the State) are present in the proposed project area, the proposed project may require a Waste Discharge Requirement (WDR) permit to be issued by Central Valley Water Board. Under the California Porter-Cologne Water Quality Control Act, discharges to all waters of the State, including all wetlands and other waters of the State including, but not limited to, isolated wetlands, are subject to State regulation.

For more information on the Water Quality Certification and WDR processes, visit the Central Valley Water Board website at:

http://www.waterboards.ca.gov/centralvalley/help/business_help/permit2.shtml

Dewatering Permit

If the proposed project includes construction or groundwater dewatering to be discharged to land, the proponent may apply for coverage under State Water Board General Water Quality Order (Low Risk General Order) 2003-0003 or the Central Valley Water Board's Waiver of Report of Waste Discharge and Waste Discharge Requirements (Low Risk Waiver) R5-2013-0145. Small temporary construction dewatering projects are projects that discharge groundwater to land from excavation activities or dewatering of underground utility vaults. Dischargers seeking coverage under the General Order or Waiver must file a Notice of Intent with the Central Valley Water Board prior to beginning discharge.

For more information regarding the Low Risk General Order and the application process, visit the Central Valley Water Board website at:

http://www.waterboards.ca.gov/board_decisions/adopted_orders/water_quality/2003/wqo/wqo2003-0003.pdf

For more information regarding the Low Risk Waiver and the application process, visit the Central Valley Water Board website at:

http://www.waterboards.ca.gov/centralvalley/board_decisions/adopted_orders/waivers/r5-2013-0145_res.pdf

Regulatory Compliance for Commercially Irrigated Agriculture

If the property will be used for commercial irrigated agricultural, the discharger will be required to obtain regulatory coverage under the Irrigated Lands Regulatory Program. There are two options to comply:

1. **Obtain Coverage Under a Coalition Group.** Join the local Coalition Group that supports land owners with the implementation of the Irrigated Lands Regulatory Program. The Coalition Group conducts water quality monitoring and reporting to the Central Valley Water Board on behalf of its growers. The Coalition Groups charge an annual membership fee, which varies by Coalition Group. To find the Coalition Group in your area, visit the Central Valley Water Board's website at: http://www.waterboards.ca.gov/centralvalley/water_issues/irrigated_lands/app_appoval/index.shtml; or contact water board staff at (916) 464-4611 or via email at IrrLands@waterboards.ca.gov.
2. **Obtain Coverage Under the General Waste Discharge Requirements for Individual Growers, General Order R5-2013-0100.** Dischargers not participating in a third-party group (Coalition) are regulated individually. Depending on the specific site conditions, growers may be required to monitor runoff from their property, install monitoring wells, and submit a notice of intent, farm plan, and other action plans regarding their actions to comply with their General Order. Yearly costs would include State administrative fees (for example, annual fees for farm sizes from 10-100 acres are currently \$1,084 + \$6.70/Acre); the cost to prepare annual monitoring reports; and water quality monitoring costs. To enroll as an Individual Discharger under the Irrigated Lands Regulatory Program, call the Central Valley Water Board phone line at (916) 464-4611 or e-mail board staff at IrrLands@waterboards.ca.gov.

Low or Limited Threat General NPDES Permit

If the proposed project includes construction dewatering and it is necessary to discharge the groundwater to waters of the United States, the proposed project will require coverage under a National Pollutant Discharge Elimination System (NPDES) permit. Dewatering discharges are typically considered a low or limited threat to water quality and may be covered under the General Order for *Dewatering and Other Low Threat Discharges to Surface Waters* (Low Threat General Order) or the General Order for *Limited Threat Discharges of Treated/Untreated Groundwater from Cleanup Sites, Wastewater from Superchlorination Projects, and Other Limited Threat Wastewaters to Surface Water* (Limited Threat General Order). A complete application must be submitted to the Central Valley Water Board to obtain coverage under these General NPDES permits.

For more information regarding the Low Threat General Order and the application process, visit the Central Valley Water Board website at:

http://www.waterboards.ca.gov/centralvalley/board_decisions/adopted_orders/general_orders/r5-2013-0074.pdf

For more information regarding the Limited Threat General Order and the application process, visit the Central Valley Water Board website at:

http://www.waterboards.ca.gov/centralvalley/board_decisions/adopted_orders/general_orders/r5-2013-0073.pdf

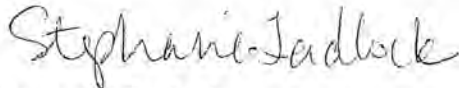

NPDES Permit

If the proposed project discharges waste that could affect the quality of the waters of the State, other than into a community sewer system, the proposed project will require coverage under a National Pollutant Discharge Elimination System (NPDES) permit. A complete Report of Waste Discharge must be submitted with the Central Valley Water Board to obtain a NPDES Permit.

For more information regarding the NPDES Permit and the application process, visit the Central Valley Water Board website at:

http://www.waterboards.ca.gov/centralvalley/help/business_help/permit3.shtml

If you have questions regarding these comments, please contact me at (916) 464-4644 or Stephanie.Tadlock@waterboards.ca.gov.

**Contra
Costa
County**

To: Board of Supervisors
From: Keith Freitas, Airports Director
Date: March 27, 2018

Subject: APPROVE AND AUTHORIZE TERMINATION OF TIEDOWN PERMIT WITH WALTER LYALL, PACHECO AREA

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Director of Airports to terminate Tiedown Permit for space H-15 with Walter Lyall; and AUTHORIZE County Counsel to pursue legal action.

FISCAL IMPACT:

The Airport Enterprise Fund will cover the cost of any legal action.

BACKGROUND:

Walter Lyall has been a long time tenant at Buchanan Field. There have been default issues with the tenant as early as 2009, with hangar F-5. The Board of Supervisors approved Airport's terminating the hangar agreement in August 2009. Airport staff agreed to set aside the termination with the agreement that the tenant pay past due rents, and make all future payment within the grace period allowed by the lease.

David J. Twa, County Administrator and Clerk of the Board of Supervisors

By: Stacey M. Boyd, Deputy

Contact: Beth Lee, (925)
681-4200

BACKGROUND: (CONT'D)

>

In May 2016, the tenant was again in default and Airport staff agreed to work with the tenant to resolve the issue on the hangar rent. Tenant agreed to make payment and set up payment arrangements; Airport staff suggested that the tenant move to a tiedown space. Airport staff was notified at this time that the aircraft was being put up for sale.

In September 2016, the tenant moved the aircraft to tiedown H-15 and made a verbal agreement to make \$160.00 a month payments until either the balance was paid in full or the remaining balance was paid from the sale of the aircraft. Upon inspection of the hangar, tenant was notified that remaining items would need to be removed; tenant authorized Airport staff to finish the cleanout. Airport incurred cleanout costs of \$1,901.75 and the hangar deposit, for \$1,334.89, was transferred to the account and applied to these costs.

In October 2017, tenant again stopped making payments. A Notice of Default was sent to the tenant and in accordance with airport policies their gate access card was deactivated. A second Notice of Default was sent in December 2017. A follow-up phone call was made and the tenant promised a payment would be dropped off within the week. A few weeks later, a second phone call was made and again, the tenant promised a payment.

On March 5, 2018, the tenant was sent a final Notice of Delinquency requesting payment of \$4,073.86 for all outstanding charges. Airport staff is now requesting authority to terminate the Tiedown Permit and to pursue legal action against Tenant through County Counsel to regain possession of tiedown and for the total outstanding charges. Such actions are consistent with adopted Airport policies.

CONSEQUENCE OF NEGATIVE ACTION:

Failure to terminate the Agreement and pursue legal action against Tenant would result in the Airport being unable to enforce adopted Airport policies and procedures

**Contra
Costa
County**

To: Board of Supervisors
From: Brian M. Balbas, Public Works Director/Chief Engineer
Date: March 27, 2018

Subject: APPROVE the Conveyance of Real Property to Discovery Bay Community Services District, Discovery Bay area.

RECOMMENDATION(S):

APPROVE the conveyance of real property owned by Contra Costa County (County), located at 505 Discovery Bay Boulevard in Discovery Bay and identified as Assessor's Parcel Number 004-200-013 (Property) to Discovery Bay Community Services District (District), pursuant to Government Code Section 25365. (Project No.: 4500-6G5875)

DECLARE that on March 13, 2018, this Board approved a Notice of Intention fixing March 27, 2018 at 9:00 a.m., or thereafter, in its Chambers, County Administration Building, 651 Pine Street, Martinez, California, as the time and place where it would meet to convey the real property described therein to the District. Said Notice was duly published in the East Contra Costa Times in compliance with Govt. Code Section 6061.

On March 13, 2018, the Board of Supervisors determined that the Property is no longer necessary for County purposes. The District requires the Property for park purposes.

AUTHORIZE the Chair, Board of Supervisors to execute a Grant Deed on behalf of the County.

By: Stacey M. Boyd, Deputy

Contact: Angela Bell, 925.
313-2337

cc:

RECOMMENDATION(S): (CONT'D)

DIRECT the Real Estate Division of the Public Works Department to cause said Grant Deed to be delivered to the District for accepting and recording in the office of the County Clerk-Recorder.

FISCAL IMPACT:

No fiscal impact.

BACKGROUND:

In March 1985, the County accepted an Offer of Dedication in order to satisfy the Park Land Dedication Ordinance requirements for Subdivision 4205 in Discovery Bay.

In 1988, Assessor's Parcel Number 004-200-013, which consists of approximately 9.90 acres of vacant land, was quitclaimed to the County. It has been determined that the Property is no longer required for County use, but is required by the Discovery Bay Community Services District. The subdivision process only allows the land to be dedicated to the County and not the District, therefore, the County intends to convey the Property to the District as it is currently maintaining the property.

On February 6, 2018, a Notice of Exemption was filed. (CP# 17-34)

CONSEQUENCE OF NEGATIVE ACTION:

The County would continue to own and be liable for maintenance of the property.

CLERK'S ADDENDUM

CORRECTED TO READ: APPROVE and AUTHORIZE the Chair, Board of Supervisors, to execute on behalf of the County, a Grant Deed conveying County property located at 505 Discovery Bay Boulevard in Discovery Bay, identified as Assessor's Parcel Number ~~009-200-013~~, 004-200-013 to Discovery Bay Community Services District, as recommended by the Public Works Director, Discovery Bay area. FISCAL IMPACT:

The cost of the improvement project is expected to be at least \$496,500. The cost is expected to increase by \$192,000 if we include replacing the roof as part of the project. If we add installation of gutters, the cost is expected to increase by an additional \$18,000. The project will be entirely funded by the Airport Enterprise Fund.

BACKGROUND:

The Contra Costa County Public Works Airports Division is in process of improving F Row of the East Ramp hangars at Buchanan Field. The hangar row reverted to the County around 2007, after a long-term lease had expired. The hangar siding is in poor condition and the cost to repaint is comparable to the cost of fully replacing the material. In addition, the doors have become difficult for many of our tenants to operate and it is more cost effective to replace them when the siding has been removed.

Plans and specifications have been prepared for the Airports Division by an experienced airport engineering firm. The project consists of replacing the existing hangar siding and doors with new materials. There are seven rows of hangars and the intent is to improve all of them over time. The East Ramp F Row hangars will be the first as it is the most visible from the surrounding community.

The Department of Conservation and Development has determined that this project is a Categorical Exemption under Section 15302(c) (Class 2) of the California Environmental Quality Act. The Notice of Exemption (County file CP #18- 06) was administratively approved on March 13, 2018. While a Categorical Exemption has been determined, our department requires that the Board of Supervisors authorize the Public Works Director, or designee, to advertise a project for bids.

The project is consistent with the Buchanan Field Airport Master Plan adopted by the Board of Supervisors on October 28, 2008, plus governing FAA grant assurances and policies.

CONSEQUENCE OF NEGATIVE ACTION:

The hangar row will not be improved, which could compromise the long-term viability of the facility and result in losing tenants if the doors cannot be operated easily.

PUBLIC WORKS DEPARTMENT
INITIAL STUDY OF
ENVIRONMENTAL SIGNIFICANCE

PROJECT NUMBER: WO5309
CP# 18-06

PROJECT NAME: Buchanan Field Airport East Ramp "F" Row Hangar Improvement (Project)

PREPARED BY: Laura Cremin *LC* DATE: February 14, 2018

APPROVED BY: *MB* DATE: March 13, 2018

RECOMMENDATIONS:

- ☒ Categorical Exemption: 15302(c) [Class 2] ☐ Negative Declaration
☐ Environmental Impact Report Required ☐ Conditional Negative Declaration

The Project will not have a significant effect on the environment. The recommendation is based on the following: The project consists of replacement or reconstruction of existing facilities involving negligible or no expansion of capacity, pursuant to section 15302(c) of the CEQA guidelines.

What changes to the Project would mitigate the identified impacts: N/A

USGS Quad Sheet: Walnut Creek	Base Map Sheet #: H-14	Parcel #: 125-010-023
-------------------------------	------------------------	-----------------------

GENERAL CONSIDERATIONS:

- Location:** The Project is located at the Buchanan Field Airport in an unincorporated area of Concord [Figures 1-3].
- Project Description:** The purpose of this Project is to preserve the capacity of the aircraft hangars at the Buchanan Field Airport, and to enhance their operational use and safety.

The Project consists of replacing the doors and exterior siding of a row of hangars (F-Row) on the East Ramp Hangars (Figures 4 -5). The hangar row is over 40 years old and the exterior siding has degraded, which will impair the long-term viability of the building. For any doors that are sliding, the concrete base and metal tracks will also be replaced (Figure 6). For the exterior, the lighting, gutters, and fire extinguishers will be replaced; the roof may be replaced. These improvements will not result in expansion of the existing use.

Construction equipment will be staged on the adjacent developed area, within the airport parcel (Figure 4). Materials removed from the Project area will be properly disposed of off-site.

The Project is consistent with the Airport Master Plan for Buchanan Field Airport. No tree removal will be necessary. The Project will maintain the existing drainage pattern and will not create new impervious areas.

3. Does it appear that any feature of the project will generate significant public concern?

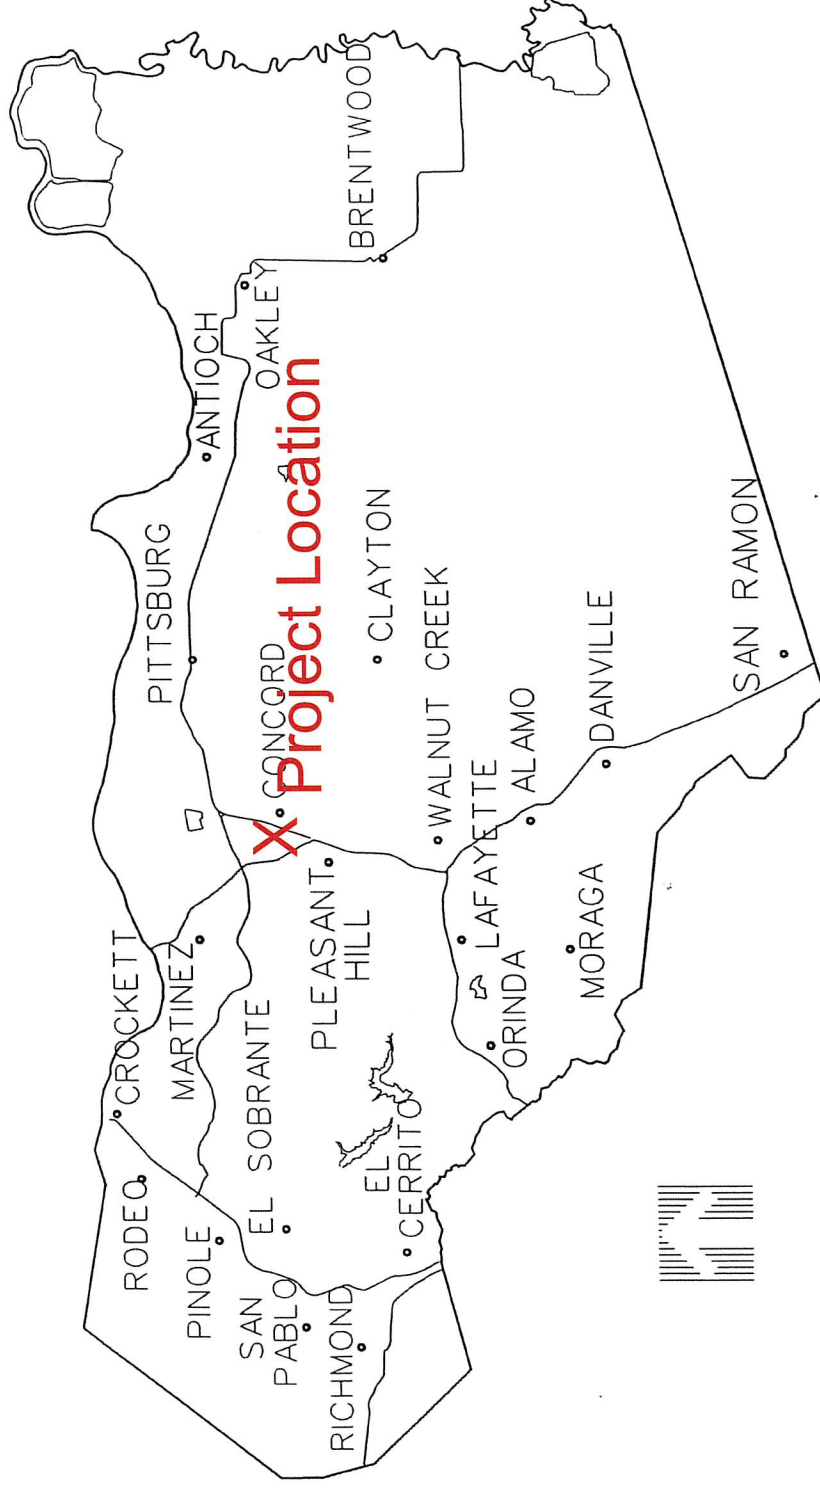

☐ Yes ☒ No ☐ maybe (Nature of concern):

4. Will the project require approval or permits by other than a County agency?

☐ Yes ☒ No

5. Is the project within the Sphere of Influence of any city? Concord

Subject: Final Settlements of Claim, LeRhonda Birden vs. Contra Costa County

RECOMMENDATION(S):

RECEIVE this report concerning the final settlements of LeRhonda Birden and AUTHORIZE payment from the Workers' Compensation Internal Service Fund in an amount not to exceed \$145,000, less disability advances.

FISCAL IMPACT:

Workers' Compensation Internal Service Fund payment of \$145,000, less permanent disability payments.

BACKGROUND:

Attorney Mark A Cartier, defense counsel for the County, has advised the County Administrator that within authorization an agreement has been reached settling the workers' compensation claims of LeRhonda Birden v. Contra Costa County. The Board's March 13, 2018 vote was: Supervisors Gioia, Andersen, Burgis, Mithoff and Glover - Yes. This action is taken so that the terms of the final settlements and the earlier March 13, 2018 closed session vote of this Board authorizing its negotiated settlements are known publicly.

Signed Resolution No.

2018/98

*The Board of Supervisors of
Contra Costa County, California*

In the matter of:

Resolution No. 2018/98

recognizing Don Jenkins as the 2018 Lafayette Citizen of the Year.

Whereas, Don holds a B.A. in Economics from UC Berkeley and a Master's degree in Financial Planning from American College. He is a Chartered Life Underwriter and is the retired past president of Lafayette Square Insurance Services, Inc.; and

Whereas, Don's community service includes serving as founding board member on three prior charitable organizations: the Lamorinda Village, the Lafayette Community Foundation, and the Lafayette-Orinda Presbyterian Church; he has served as President of the Local chapter of the Chartered Life Underwriters Society, the Berkeley Yacht Club, the Lafayette Chamber of Commerce, and the Lafayette Community Foundation; and

Whereas, Don's career as an insurance agent has covered 41 years. In 1991 while his practice focus was on employee benefits, he was designated a Certified Employee Benefit Specialist by the Wharton School of Business at the University of Pennsylvania. He was a 33-year member of Life Insurance's Million Dollar Round Table and 34 years a member of The Leading Life Producers of Northern California; and

Whereas, Don is committed to his community, having served as President of the Lafayette Chamber of Commerce in 1995, and he was designated Lafayette's Business Person of the Year in 1996. He is an active member of the Mt. Diablo Estate Planners Council and the Planned Giving Council of Northern California; and

Whereas, Don is currently serving as a National Advisor to the Rotary Foundation and as a founding trustee for the Lafayette-Orinda Presbyterian Church Foundation and the Lafayette Community Foundation.

Now, Therefore, Be It Resolved that the Board of Supervisors of Contra Costa County does hereby honor Don Jenkins for his dedication to Lafayette and its citizens.

Subject: Prop 68 - Clean Water & Safe Parks Act

RECOMMENDATION(S):

ADOPT Resolution No. 2018/111 to SUPPORT Proposition 68: The California Clean Water & Safe Parts Act. This measure will allow for direct funding that is made available for fairground improvements, park improvements and flood control and storm water projects.

FISCAL IMPACT:

No impact to the County's General Fund.

BACKGROUND:

Proposition 68 is a \$4 billion parks, environment and water bond that will appear on the June 2018 ballot. The Proposition was put on the ballot by the passage of SB 5 (Chapters 582, 2017). If Proposition 68 is enacted by a majority "yes" vote it would provide significant funding for parks, water and wildlife conservation through the issuance of \$4 billion in general obligation bonds. There is significant focus in the proposed allocations of this bond to provide funding to park-poor and disadvantaged communities. The Bond defines "Disadvantaged community" as a community with a median household income less than 80 percent of the statewide average. This bond includes several allocations that will be of interest to counties including \$18 million for improvements to county fairgrounds and \$30 million for counties and regional park districts to make park improvements. It also allocates \$200 million for a per capita park improvements grant program with 40% of the \$200 million made available to counties, regional parks and open

cc:

BACKGROUND: (CONT'D)

space districts. In addition, there is significant funding for water infrastructure improvement projects; providing up to \$100 million for stormwater flood protection and \$100 million for multi-benefit flood control projects.

SB 5 passed both houses of the Legislature on the final day of the legislative session and was signed by Governor Brown on October 15th, 2017. The passage of SB 5 was a top legislative priority of Senate Leader Kevin DeLeon. SB 5 was DeLeon's second bond to come before the voters. Senator De Leon also authored the last parks and water bond to appear before the voters, Proposition 84 on the 2006 ballot. Proposition 84 passed by 53.9% and authorized \$5.4 billion in general obligation bonds to improve parks, protect natural resources, and improve water supply, quality and safety. Despite this investment, the need continues to grow. The California Park & Recreation Society conducted a survey of local and regional park districts to assess unmet need. 45 out of 500 agencies responded and estimated a total unmet need of \$1.8 B for local parks. In addition, the Department of Parks and Recreation estimates that there is over

\$1.2 billion in deferred maintenance cost throughout California's state park system.

Proposition Summary: Proposition 68 includes allocations in four major categories:

- Park improvement – \$1.2 billion in proposed allocations
- Flood protection – \$550 million in proposed allocations
- Drinking water and groundwater improvements – \$1 billion in proposed allocations
- Funding for climate resiliency and state conservancies – \$1.3 billion in allocations

Proposition 68 also focuses on park deficient communities. The measure would require that between 15 and 20 percent of the bond's funds, depending on the type of project, be dedicated to projects in communities with median household incomes less than 60 percent of the statewide average.

The monies allocated for flood protection are focused mainly in the Central Valley and Delta, but also include \$100 million for storm water flood prevention projects and \$100 million for multibenefit flood projects across the state. The allocations for water projects include funding for drinking water improvements and groundwater protection in the San Joaquin Valley, San Gabriel, Orange County, and San Fernando Valley. Finally, the allocations for conservancies and resiliency programs provide funds to all the state conservancies and fund forest adaptation, fire resiliency, and other various fish and wildlife projects. For a more detailed description of the bond and its chapters see attachment three.

CONSEQUENCE OF NEGATIVE ACTION:

The County will not have an official position on this measure from which to advocate.

Resolution in Support of Proposition 68: *The California Clean Water & Safe Parks Act*

WHEREAS, California faces frequent and intense droughts, devastating wildfires, and growing challenges from climate change that threaten our water, parks, coastline, access to the outdoors, and natural resources; and

WHEREAS, our water, parks, and outdoors are what makes California special, and we must safeguard our open spaces, access to our coast, natural areas, forests, and beautiful places where families hike, camp, swim and play; and

WHEREAS, families in some underserved communities in California have water that is so contaminated that they cannot turn on the tap and get clean water to drink; and

WHEREAS, many communities lack access to safe neighborhood parks for children to play and exercise; and

WHEREAS, a clean, reliable water supply is essential to the health of our families and strength of our economy, and supports an \$87 billion outdoor recreation and tourism industry that provides over 700,000 jobs; and

WHEREAS, it has been 15 years since California passed a bond to provide funding for natural resources; and

WHEREAS, Proposition 68 is a general obligation bond that invests \$4.1 billion in the coming years for some of California's most pressing water, parks, and natural resource needs; and

WHEREAS, Proposition 68 provides \$1.7 billion to ensure clean drinking water, prepare for the next drought, clean up groundwater, capture and

recycle more water, and keep toxic pollutants out of California's river, lakes and streams that supply clean water; and

WHEREAS, Proposition 68 dedicates \$1.3 billion to create safe parks for every child, improve parks in neighborhoods with the greatest need, repair local and state park facilities, and restore and expand access to outdoor recreation throughout California; and

WHEREAS, Proposition 68 invests \$1.1 billion to protect California's natural resources to prevent wildfires, restore rivers, lakes, streams and natural areas, prevent toxic air pollution, address climate change, and protect our coastline to increase access to our coast and beaches; and

WHEREAS, all regions of the state will benefit from these investments with strict accountability to ensure funds will be spent efficiently and for intended purposes.

THEREFORE BE IT RESOLVED, that the Contra Costa County Board of Supervisors does hereby support and endorse Proposition 68 on the June 5, 2018 statewide ballot, and hereby adopts this resolution the 27th day of March, 2018.

I hereby certify that this is a true and correct copy of an action taken and entered on the minutes of the Board of Supervisors on the date shown.

Resolution No. 2018/111

Resolution in Support of Proposition 68: *The California Clean Water & Safe Parks Act*

WHEREAS, California faces frequent and intense droughts, devastating wildfires, and growing challenges from climate change that threaten our water, parks, coastline, access to the outdoors, and natural resources; and

WHEREAS, our water, parks, and outdoors are what makes California special, and we must safeguard our open spaces, access to our coast, natural areas, forests, and beautiful places where families hike, camp, swim and play; and

WHEREAS, families in some underserved communities in California have water that is so contaminated that they cannot turn on the tap and get clean water to drink; and

WHEREAS, many communities lack access to safe neighborhood parks for children to play and exercise; and

WHEREAS, a clean, reliable water supply is essential to the health of our families and strength of our economy, and supports an \$87 billion outdoor recreation and tourism industry that provides over 700,000 jobs; and

WHEREAS, it has been 15 years since California passed a bond to provide funding for natural resources; and

WHEREAS, Proposition 68 is a general obligation bond that invests \$4.1 billion in the coming years for some of California's most pressing water, parks, and natural resource needs; and

WHEREAS, Proposition 68 provides \$1.7 billion to ensure clean drinking water, prepare for the next drought, clean up groundwater, capture and

recycle more water, and keep toxic pollutants out of California's river, lakes and streams that supply clean water; and

WHEREAS, Proposition 68 dedicates \$1.3 billion to create safe parks for every child, improve parks in neighborhoods with the greatest need, repair local and state park facilities, and restore and expand access to outdoor recreation throughout California; and

Signed Resolution No.

2018/113

*The Board of Supervisors of
Contra Costa County, California*

In the matter of:

Resolution No. 2018/113

Recognizing Contra Costa County's Tobacco Prevention Program Manager, Denice A. Dennis, for her 20 years of public service upon her retirement.

WHEREAS, in 1998 Denice A. Dennis began her service working to raise awareness of, and protect the community from, the adverse effects of tobacco exposure and usage, as the Tobacco Prevention Program Manager within the Public Health Division of Contra Costa County; and

WHEREAS, in 1998 she worked to fully implement AB 13, which created smoke-free bars; and

WHEREAS, in 1998 her extensive efforts led to the adoption of the Tobacco-Free Youth Ordinance in Contra Costa County, which restricted tobacco advertising and promotions, banned self-service displays, and included a licensing provision to sell tobacco. By 2004 her efforts resulted in adoption of the Tobacco-Free Youth Ordinance in 17 cities throughout the county; and

WHEREAS, in 2002 Denice provided training to the Office of the Sheriff, which was able to reduce the illegal sales of tobacco to minors from 37% to 2% within six months of implementing undercover buying operations; and

WHEREAS, in 2003 her efforts led to the first suspension of a tobacco retailer license in the state for an illegal sale to a minor; and

WHEREAS, in 2006 she worked with the Board of Supervisors in leading Contra Costa County to become the fifth jurisdiction in the state to adopt a model Comprehensive Secondhand Smoke Protections Ordinance that strengthened indoor protections and prohibited smoking in outdoor areas; and

WHEREAS, in 2006 she collaborated with the city of Richmond to become the first city in Contra Costa County to adopt a 100% Smoke-Free Multi-Unit Housing Ordinance, one of the strongest in the nation; and

WHEREAS, in 2014 Denice partnered with the Contra Costa County Board of Supervisors to create a policy declaring all county owned and leased properties as 100% smoke-free; and

WHEREAS, in 2017 she supported the Contra Costa County Board of Supervisors in adopting a comprehensive tobacco control law that banned the sale of flavored tobacco products in youth sensitive areas; and

WHEREAS, in 2018 she was instrumental in supporting the Contra Costa County Board of Supervisors in adopting a 100% Smoke-Free Multi-Unit Housing Policy – a model in the state;

NOW, THEREFORE, BE IT RESOLVED that the Contra Costa County Board of Supervisors hereby recognizes and honors Tobacco Prevention Program Manager, Denice A. Dennis, for her 20 years of dedicated public service to Contra Costa County, and gives its full appreciation for her commitment to the people of Contra Costa County upon her retirement.

Resolution No. 2018/107

MINUTES ATTACHMENTS

Signed Resolution No.

2018/107

*The Board of Supervisors of
Contra Costa County, California*

In the matter of:

Resolution No. 2018/107

Recognizing Deputy Fire Chief Derek Krause upon his retirement from the San Ramon Valley Fire Protection District.

Whereas, Chief Krause has served for over 25 years in the fire service with the San Ramon Fire Protection District, from November 1992 through his retirement on March 31, 2018; and

Whereas, Chief Krause has taken on many difficult assignments and challenges throughout his career with the San Ramon Valley Fire Protection District, Chief Krause maintained as a guiding principle what was in the best interest of his fellow firefighters and the community they serve; and

Whereas, Chief Krause served with honor and distinction in the following capacities throughout his career with the San Ramon Valley Fire Protection District:

- November 1992: Hired as a Firefighter
-
- January 2002- March 2005: Captain, Training Division
-
- April 2005-October 2005: Captain, Suppression
-
- November 2005-June 2010: Division Chief, Training
-
- July 2010-November 2012: Battalion Chief, Special Operations
-
- December 2012-June 2013: Shift Battalion Chief, Suppression
-
- July 2013-November 2013: Interim Assistant Chief, Operations/Support Services
-
- December 2013-July 2014: Shift Battalion Chief, Suppression
-
- August 2014-March 2018: Deputy Chief

Whereas, while serving as Deputy Chief, Chief Krause was responsible for the overall effectiveness and operational readiness of the District's emergency response vehicles and facilities; and

Whereas, during the last several years of his tenure with San Ramon Valley Fire Protection District, Chief Krause was assigned responsibility for the Fire & Life Safety Division overseeing such critical function as building plan review, commercial fire inspections, fire hazard abatement and public education.

Now, Therefore, Be It Resolved that the Board of Supervisors of Contra Costa County does hereby honor and thank Deputy Chief Derek Krause for his dedication to the San Ramon Valley Fire Protection District and residents of Contra Costa County. PASSED by a vote of the Board of Supervisors this March 27, 2018.

DAVID TWA, Clerk of the Board of Supervisors and County Administrator

By  Deputy

Contra
Costa
County

To: Board of Supervisors
From: John Kopchik, Director, Conservation & Development Department
Date: March 27, 2018

Subject: Declare a Vacancy on the Sustainability Commission

RECOMMENDATION(S):

ACCEPT the resignation of Scott Warfe, DECLARE a vacancy in the Education/Research seat on the Sustainability Commission, and DIRECT the Clerk of the Board to post the vacancy.

FISCAL IMPACT:

None.

BACKGROUND:

On March 14, 2017, the Board of Supervisors appointed Scott Warfe to the Education/Research seat on the County's Sustainability Commission. On February 27, 2018, Mr. Warfe notified the County Sustainability Coordinator that he is no longer able to serve on the Sustainability Commission. Consistent with the Sustainability Commission Bylaws, the Sustainability Coordinator shared this information with the Clerk of the Board and the Chair of the Sustainability Commission.

The term of the Education/Research member expires on March 31, 2021. Consistent with the Sustainability Commission Bylaws, "A vacancy during the term of any member will be filled by the Board of Supervisors for the remainder of the then-current term."

Subject: Accept the resignation of Arthur Walenta from the Assessment Appeals Board District 1 seat

RECOMMENDATION(S):

ACCEPT the resignation of Arthur Walenta, DECLARE a vacancy in the District 1 seat on the Assessment Appeals Board, and DIRECT the Clerk of the Board to post the vacancy.

FISCAL IMPACT:

None.

BACKGROUND:

The Assessment Appeals Board is established to assess and equalize the valuation of the taxable property in the County for the purpose of taxation; and to perform all duties required by the State Board of Equalization and State law.

Mr. Walenta has been successfully serving on the Assessment Appeals Board and now wishes to resign for personal reasons.

Emily Struthers
Deputy Clerk

Contra
Costa
County

To: Board of Supervisors
From: Anna Roth, Health Services Director
Date: March 27, 2018

Subject: Medical Staff Appointments and Reappointments – February 2018

RECOMMENDATION(S):

APPROVE the medical staff appointments and reappointments, additional privileges, advancements, voluntary resignations and prenatal care privileges as recommend by the Medical Staff Executive Committee, at their February 26, 2018 meeting, and by the Health Services Director.

FISCAL IMPACT:

Not applicable.

BACKGROUND:

The Joint Commission on Accreditation of Healthcare Organizations has requested that evidence of Board of Supervisors' approval for each medical staff member will be placed in his or her credentials file. The above recommendations for appointments/reappointments were reviewed by the Credentials Committee and approved by the Medical Executive Committee.

CONSEQUENCE OF NEGATIVE ACTION:

If this action is not approved, the Contra Costa Regional Medical and Contra Costa Health Centers' medical staff will not be appropriately credentialed and in compliance with the Joint Commission on Accreditation of Healthcare Organizations.

cc: District 2 Supervisor, Maddy Book, APSAC, Appointees

RECOMMENDATION(S): (CONT'D)

APPOINT the following individual to the Appointee 9 Seat on the Alamo Police Services Advisory Committee for a two-year term with an expiration date of December 31, 2019, as recommended by Supervisor Candace Andersen:

Clark Johnson
Alamo, CA 94507

FISCAL IMPACT:

None.

BACKGROUND:

Established on November 18, 1969, by Board Resolution 69/765, the purpose of the County Service Area P-2B Citizens Advisory Committee is to advise the Board of Supervisors and the Sheriff's Department on the needs of the Alamo community for extended police services which shall include, but not be limited to, enforcement of the State Vehicle Code, crime prevention, and litter control.

On March 19, 2013, the Board of Supervisors approved a Board Order that retitled the County Service Area P-2B Citizens Advisory Committee to the "Alamo Police Services Advisory Committee".

Alamo Police Services Advisory Committee is comprised of nine regular members and two alternates who each serve a two year term.

CONSEQUENCE OF NEGATIVE ACTION:

The committee will not be able to meet due to quorum issues.

Subject: APPOINTMENTS TO THE COUNTY SERVICE AREA P-5 CITIZENS ADVISORY COMMITTEE

RECOMMENDATION(S):

APPOINT the following individual to the 1st Alternate seat on the County Service Area P-5 Citizens Advisory Committee for a term with an expiration date of December 31, 2018, as recommended by Supervisor Candace Andersen:

Ally Fattore
Alamo, CA 94507

FISCAL IMPACT:

None.

BACKGROUND:

Established on April 18, 1972, by Resolution Number 72/257, the purpose of the County Service Area P-5 Citizen Advisory Committee is to act as a liaison between the citizens of the P-5 Police District and the Office of the Sheriff of Contra Costa County by: Advising the Board of Supervisors and the Office of the Sheriff of the community's needs and desires regarding police protection; Promoting public safety in the areas of home safety, traffic safety, vacation security and crime prevention through the neighborhood watch program; and maintaining oversight of expenditures of the public funds accruing in the P-5 Police District.

CONSEQUENCE OF NEGATIVE ACTION:

The seat will remain vacant.

From: Kathy Gallagher, Employment & Human Services Director
Date: March 27, 2018

Subject: APPOINT Marjorie Hanson to Private/Non-Profit Sector Seat No. 2 of the Economic Opportunity Council

RECOMMENDATION(S):

APPOINT Marjorie Hanson to the Private/Non-Profit Sector 2 seat on the Economic Opportunity Council, with term end date of June 30, 2019, as recommended by the Employment and Human Services Director.

FISCAL IMPACT:

None

BACKGROUND:

This board order seeks to appoint Marjorie Hanson to the vacancy in Private/Non-Profit Sector 2 seat on the Economic Opportunity Council (EOC) for the remainder of the current term that ends on June 30, 2019. The seat was vacated on January 23, 2018 (agenda item C.8) upon the resignation of Bhupen Amin. The EOC approved Ms. Hansen's appointment at it's meeting on March 8, 2018. Ms. Hanson lives in Clayton, California 94517.

CONSEQUENCE OF NEGATIVE ACTION:

If not approved, the Economic Opportunity Council will be unable to conduct routine business.

**THE BOARD OF SUPERVISORS OF CONTRA COSTA COUNTY, CALIFORNIA and for
Special Districts, Agencies and Authorities Governed by the Board Adopted Resolution
no. 2011/55 on 2/08/2011 as follows:**

IN THE MATTER OF ADOPTING A POLICY MAKING FAMILY MEMBERS OF THE BOARD OF SUPERVISORS INELIGIBLE FOR APPOINTMENT TO BOARDS, COMMITTEES OR COMMISSIONS FOR WHICH THE BOARD OF SUPERVISORS IS THE APPOINTING AUTHORITY

WHEREAS the Board of Supervisors wishes to avoid the reality or appearance of improper influence or favoritism;

NOW, THEREFORE, BE IT RESOLVED THAT the following policy is hereby adopted:

I. SCOPE: This policy applies to appointments to any seats on boards, committees or commissions for which the Contra Costa County Board of Supervisors is the appointing authority.

II. POLICY: A person will not be eligible for appointment if he/she is related to a Board of Supervisors' Member in any of the following relationships:

1. Mother, father, son, and daughter;
2. Brother, sister, grandmother, grandfather, grandson, and granddaughter;
3. Great-grandfather, great-grandmother, aunt, uncle, nephew, niece, great-grandson, and great-granddaughter;
4. First cousin;
5. Husband, wife, father-in-law, mother-in-law, son-in-law, daughter-in-law, stepson, and stepdaughter;
6. Sister-in-law (brother's spouse or spouse's sister), brother-in-law (sister's spouse or spouse's brother), spouse's grandmother, spouse's grandfather, spouse's granddaughter, and spouse's grandson;
7. Registered domestic partner, pursuant to California Family Code section 297.
8. The relatives, as defined in 5 and 6 above, for a registered domestic partner.
9. Any person with whom a Board Member shares a financial interest as defined in the Political Reform Act (Gov't Code §87103, Financial Interest), such as a business partner or business associate.

Subject: Appropriation Adjustment - State Home Security Grant Program (SHSGP) 2017

RECOMMENDATION(S):

APPROVE Appropriation and Revenue Adjustment No. 5059 authorizing new revenue in the amount of \$105,000 in the Sheriff's Office - Emergency Services Division (0362) and app appropriating it for the purchase of cybersecurity hardware and software.

FISCAL IMPACT:

This action increases revenue and appropriations by \$105,000 with no change in Net County Cost. The new revenue is from the 2017 State Homeland Security Grant Program (SHSGP).

BACKGROUND:

The California Governor's Office of Emergency Services (Cal OES) is responsible for designing and implementing homeland security initiatives and ensuring that the State is ready to protect lives and property by effectively preparing for, preventing, responding to, and recovering from all threats, crimes, hazards, and emergencies. To help fulfill this mission, Cal OES administers a pass-through program of federal homeland security grant funds to local public agencies through California. This program is critical to maintaining the quality and quantity of homeland

Subject: Amendments to the Adopted 2018 State Legislative Platform related to CalWORKs

RECOMMENDATION(S):

1. ADOPT the following amendments to the adopted 2018 State Legislative Platform:

- OPPOSE legislative and budgetary actions that result in reduced level of services to families, children, vulnerable adults and seniors, or that lead to preemption of local control.
- SUPPORT an Increase to the CalWORKS Maximum Aid Payment (MAP) and the annual funding of a CalWORKS cost of living adjustment (COLA).
- SUPPORT a revision of the budgeting methodology for the CalWORKS Single Allocation. *The current methodology ties funding heavily to caseload, which can expand and contract quickly with economic changes. This can result in large variations of funding levels, and inability to respond to changing economic conditions in a timely manner.*

2. AUTHORIZE the Chair of the Board to send advocacy letters aligned with these proposed amendments, including **Attachment A**.

ATTESTED: March 27, 2018

David J. Twa, County Administrator and Clerk of the Board of Supervisors

By: June McHuen, Deputy

Contact: L. DeLaney,
925-335-1097

FISCAL IMPACT:

With respect to the Single Allocation, Contra Costa County expects to experience a \$1.5 million decrease in funding, from \$47.7 million to \$46.2 million in FY 2018-2019. Advocating for an increase in funding may address this situation.

BACKGROUND:

The CalWORKs program is a critical component of California's safety net for families with low incomes, providing families with modest monthly cash grants while helping parents overcome barriers to employment and find work. A number of cuts were made to CalWORKs during and after the Great Recession, including reducing grant levels and eliminating the annual state cost-of-living adjustment (COLA). Recent years' budgets have incrementally increased CalWORKs grant levels, but this has not been adequate to restore cuts made in prior years.

The Governor's January budget proposal includes a one-time augmentation of \$187 million for the California Work Opportunity and Responsibility to Kids (CalWORKs) program Single Allocation, which is what the state provides to counties to administer the CalWORKs program. **The overall funding for the Single Allocation is \$31.8 million lower than in 2017-18**; with the additional legislative requirements imposed in FY 2017-18, the total reduction in funding is \$56.5 million. The 2017-18 budget required the Administration to work with the County Welfare Directors Association to revise the methodology for the Single Allocation. The revised methodology is needed to insulate counties and beneficiaries from experiencing huge swings in year-to-year funding levels for the single allocation. The conversations about the revised methodology are ongoing.

With respect to the Single Allocation, the cuts will affect direct services and staffing related to eligibility activities, employment and supportive services, and child care for CalWORKs families. Contra Costa County expects to experience a \$1.5 million decrease in funding, from \$47.7 million to \$46.2 million in FY 2018-2019.

Furthermore, the Governor's proposed budget for FY 2018-19 does not increase CalWORKs grants or reinstate the COLA. According to the California Budget & Policy Center, if grant levels remain frozen, the proposed maximum monthly grant for a family of three in a high cost county (such as ours) would be \$9 lower than in 2007-08, without adjusting for inflation. If grant levels had been adjusted for inflation each year beginning 2007-2008, the maximum grant in 2018-19 would be \$963, which is \$269 higher than the proposed value of \$714. Absent a significant grant increase in the 2018-19 fiscal year, this grant will equal just 41.2% of the federal poverty line, leaving it below the deep-poverty line for the eleventh calendar year.

Given the timing of the legislative hearings by the Budget Subcommittees on these issues and the cancellation of the March meeting of the County's Legislation Committee, this matter is being brought forward to the full Board of Supervisors for action so that advocacy by the County may be aligned with the Board's adopted position on these matters.

The Honorable Dr. Joaquin Arambula
Chair, Assembly Budget Subcommittee No. 1 on Health and Human Services
State Capitol, Room 6026
Sacramento, CA 95814

RE: OPPOSE Proposed Reduction in Funding for CalWORKs

Dear Chair Arambula and Committee Members:

The Contra Costa County Board of Supervisors opposes the cuts to the CalWORKs Single Allocation proposed in the Governor's 2018/2019 state budget and supports an increase in CalWORKs grant levels for program participants.

The CalWORKs program is a critical component of California's safety net for families with low incomes, providing families with modest monthly cash grants while helping parents overcome barriers to employment and find work. A number of cuts were made to CalWORKs during and after the Great Recession, including reducing grant levels and eliminating the annual state cost-of-living adjustment (COLA). Recent years' budgets have incrementally increased CalWORKs grant levels, but this has not been adequate to restore cuts made in prior years.

The Governor's proposed budget for 2018-19 does not increase CalWORKs grants or reinstate the COLA. According to the California Budget & Policy Center, if grant levels remain frozen, the proposed maximum monthly grant for a family of three in a high cost county (such as ours) would be \$9 lower than in 2007-08, without adjusting for inflation. If grant levels had been adjusted for inflation each year beginning 2007-2008, the maximum grant in 2018-19 would be \$963, which is \$269 higher than the proposed value of \$714. Absent a significant grant increase in the 2018-19 fiscal year, this grant will equal just 41.2% of the federal poverty line, leaving it below the deep-poverty line for the eleventh calendar year.

With respect to the Single Allocation, the cuts will affect direct services and staffing related to eligibility activities, employment and supportive services, and child care for CalWORKs families. Contra Costa County expects to experience a \$1.5 million decrease in funding, from \$47.7 million to \$46.2 million in FY 2018/2019.

We understand the cuts are based on a projected 6% decrease in caseloads. However, due to the lack of COLA and inflation adjustments since the Great Recession, we are already in a diminished funding position. In addition, there will be further pressure on resources as we roll out new CalWORKs mandates and initiatives such as CalWORKs 2.0 and CalOAR.

In Contra Costa County, we work with close to 8,000 families who access CalWORKs services. A reduction in the allocation our county receives will have a direct negative impact on our ability to support these families, with children being the most heavily impacted of all.

Contra Costa County strongly urges you to maintain level Single Allocation funding for 2018/2019 so that we may continue to serve our neediest families at the intensity level they require for successful outcomes. We also support an increase in the CalWORKs grant levels for participating families.

Sincerely,

A handwritten signature in black ink, reading "Karen Mitchoff". The signature is fluid and cursive, with the first name "Karen" written in a larger, more prominent script than the last name "Mitchoff".

To: Board of Supervisors
From: Anna Roth, Health Services
Date: March 27, 2018

Subject: Add Account Clerk Supervisor Position and Cancel Administrative Analyst Position in the Health Services Department

RECOMMENDATION(S):

ADOPT Position Adjustment Resolution No. 22189 to add one (1) Account Clerk Supervisor (JDHD) (represented) at salary plan and grade K6X 1340 (\$4,482 - \$5,723) position, and cancel one (1) vacant Administrative Analyst (APWA) (represented) position #17000 at salary plan and grad ZB5 1277 (\$4,222 - \$5,131) position in the Health Services Department.

FISCAL IMPACT:

Upon approval, this action has an annual cost of approximately \$10,443 with \$2,522 in pension costs already included. The cost is entirely offset by Hospital Enterprise Fund I.

BACKGROUND:

The volume and nature of the work has increased in the Materials Management Unit. There are currently 11 clerks in this unit using multiple computer programs. A supervisor is needed who can answer questions, problem solve, is well versed in accounting procedures, and whose scope of work includes training.

CONSEQUENCE OF NEGATIVE ACTION:

If this action is not approved, the Materials Management Unit of the Health Services Department will not have adequate leadership to supervise the staff who were hired to meet the demands of an increased volume of work.

APPROVAL OF THIS ADJUSTMENT CONSTITUTES A PERSONNEL / SALARY RESOLUTION AMENDMENT

POSITION ADJUSTMENT ACTION TO BE COMPLETED BY HUMAN RESOURCES DEPARTMENT FOLLOWING BOARD ACTION

Adjust class(es) / position(s) as follows:

**Contra
Costa
County**

To: Board of Supervisors
From: Anna Roth, Health Services Director
Date: March 27, 2018

Subject: Add Clerk – Experienced Level position and Cancel Intermediate Typist Clerk - Project position in the Health Services Department

RECOMMENDATION(S):

ADOPT Position Adjustment Resolution No. 22249 to add one (1) Clerk – Experienced Level (JWXB) (represented) position at salary plan and grade 3RH 0750 (\$2,993 - \$3,713) and cancel one (1) Intermediate Typist Clerk - Project (JWV1) (represented) position #13182 at salary plan and grade 3RH 0753 (\$3,084 - \$3,827) in the Health Services Department.

FISCAL IMPACT:

Upon approval, this action has an annual savings of approximately \$2,004 with pension savings of \$484 already included.

BACKGROUND:

The Health Services Department is requesting to add a full time Clerk-Experienced Level and cancel one full time Intermediate Typist Clerk-Project position for Behavioral Health Division's Care Management Unit. The State of California has extended and expanded the funding for the Mental Health Services Act ensuring the funding stream for this position justifying the conversion from a project position to a permanent position. Health Services Department has determined the more appropriate classification to perform the duties associated with the administrative support for the Care Management Unit would be better suited with the classification of Clerk – Experienced Level.

Contra
Costa
County

To: Board of Supervisors
From: Anna Roth, Health Services
Date: March 27, 2018

Subject: Add and Cancel Positions in the Health Services Department

RECOMMENDATION(S):

ADOPT Position Adjustment Resolution No. 22255 to add three permanent full-time permanent Public Health Nutritionist (V9WB) positions at salary plan and grade TC5-1430 (\$4,912 - \$5,971) and cancel three (3) vacant full-time Senior Public Health Nutritionist (V9TE) positions (#8627, #8982, and #9473) at salary plan and grade TC5-1526 (\$5,402 - \$6,566) in the Health Services Department. (Represented)

FISCAL IMPACT:

Upon approval, this action has an approximate annual cost savings of \$29,045 with pension cost savings of \$7,609 already included. These positions are funded through a Federal allocation provided to the State of California.

BACKGROUND:

Contra Costa County Health Services' Public Health (PH) Division is requesting to add three Public Health Nutritionist positions and cancel three Senior Public Health Nutritionist positions (#8627, #8982, and #9473). The shifting of the included positions from Senior Public Health Nutritionists to Public Health Nutritionists represents both a cost savings in coming recruitments and is closer in line with the current

BACKGROUND: (CONT'D)

needs of the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) Program in serving the community. Furthermore, this action enables the program to continue work in creating a career pathway that enables incumbent employees within the Nutrition Assistant classification the ability to work towards certification as a Registered Dietitian through an accepted internship program. Finally, the Public Health program has attempted to fill the existing Senior Public Health Nutritionist positions but has been unsuccessful due to current minimum qualifications associated with the classification. Shifting these three positions into the Public Health Nutritionist classification will better enable the program to fill essential positions.

CONSEQUENCE OF NEGATIVE ACTION:

If this action is not approved, the Public Health Department will not have adequate support to fill positions essential to achieving the State of California's contracted deliverables.

Date: March 27, 2018

Subject: Abolish nine (9) positions in the EHSD Workforce Services Development Board effective July 1, 2018, and initiate the layoff process

RECOMMENDATION(S):

ADOPT Resolution No. 2018/120 to abolish nine (9) positions, as listed in Attachment A, and lay off employees in the Employment and Human Services Department (EHSD) effective July 1, 2018, resulting from a reduction in funding in the Workforce Development Board in EHSD and activate the Tactical Employment Team Program (TETP) on March 28, 2018 to mitigate the number of employees laid off.

FISCAL IMPACT:

Upon approval, this action will have no net county cost increase. The position deletions have been submitted as part of the fiscal year 2018/2019 budget.

BACKGROUND:

Beginning in 2000, the Workforce Development Board (WDB) has provided career services for unemployed adults through One-Stop Career Centers under the administrative authority of the Employment and Human Services Department (EHSD). With the reduction of both Workforce Innovation and Opportunity Act (WIOA) and CalWorks funding, EHSD is no longer able to provide these services, and the WDB approved the recommendation to procure a contract for professional services for Adult and Dislocated Worker Career Services on November 7, 2017.

BACKGROUND: (CONT'D)

>

A request for proposal was released in November 2017, and submissions were accepted through February 5, 2018. The WDB Executive Committee approved the recommendation to award a contract to Rubicon to provide these services. The new contracts are expected to be effective July 1, 2018.

EHSD is requesting to activate Tactical Employment Team Program (TETP) in an effort to mitigate the impact of layoff and displacement for the WDB One-Stop Career Centers. Effective July 1, 2018, the One-Stop Career Center services will be contracted out impacting nine (9) positions at three One-Stop Career Centers. EHSD has been proactively searching for potential placements within the department, however, given classifications and EHSD's budgetary constraints, we are not confident that we will be able to secure placement for all displaced employees within the department. The Human Resources Department will prepare a formal seniority list for each class and the least senior employees in each class will be notified.

Affected Classifications:

- One-Stop Career Center Case Manager (2 positions)
- Career Center Coordinator (3 positions)
- One-Stop Operator Consortium Assistant Administrator (1 position)
- Social Service Employment Placement Counselor (3 positions)

Tactical Employment Team Program (TETP) - Attached for reference is a copy of Resolution No. 2008/299, adopted May 6, 2008, which authorized implementation of the Tactical Employment Team Program. The TETP was reinstated in 2008 and is still in operation. The objective of this program is to mitigate the negative impact that anticipated layoffs will have on the County's workforce. The team is up and running and will continue to work towards finding employment for as many laid-off individuals as possible.

CONSEQUENCE OF NEGATIVE ACTION:

If this action is not approved, we will not be able to mitigate the remaining number of employees laid off from the County.

Resolution No. 2018/120

In The Matter Of: Abolishing positions and laying off certain County Employees in the Employment and Human Services Department, Workforce Services Development Board

WHEREAS, the Board has considered the financial impact of the county department of reduced funding, and has considered the position and staff reduction/retention plans submitted by departments; and,

WHEREAS, the department will close three One-Stop Career Centers effective July 1, 2018, and abolish all positions listed in Attachment A; and,

WHEREAS, the Department Head will issue layoff or displacement notices, as the case may be, and has begun giving notice to the affected employees of the Board's action; and,

WHEREAS, to the extent that the subjects of this Resolution are within the scope of representation pursuant to the Meyers-Milias-Brown Act (Government Code Section 3500 et seq.), this Board has offered to meet with recognized employee organizations upon request concerning this resolution.

Now, Therefore, Be It Resolved that:

1. The positions set forth in Attachment A of this Resolution will be abolished and the least senior employees in those classifications will be laid-off as of July 1, 2018. Attachment A is incorporated herein by reference, and said positions are hereby abolished, effective July 1, 2018;
2. The Employees Relations Officer shall give notice of this Resolution to all recognized employee organizations representing employees impacted by this action; and
3. Recognized employee organizations may submit to the Employee Relations Officer written request to meet and confer on the impacts of this Resolution and/or resulting layoffs. This authorization and direction is given without prejudice to the Board's right to reduce or terminate the operations and services of the County and districts governed by this Board and to eliminate classes of employees or positions, as these decisions involve the merits, necessity, or organization of services or activities of the County and districts governed by the Board and are not subject within the scope of representation.

I hereby certify that this is a true and correct copy of an action taken and entered on the minutes of the Board of Supervisors on the date shown.

THE BOARD OF SUPERVISORS OF CONTRA COSTA COUNTY, CALIFORNIA

Adopted this Resolution on May 6, 2008, by the following vote:

AYES: I, II, III, IV, V

NOES: NONE

ABSENT: NONE

ABSTAIN: NONE

RESOLUTION NO. 2008/299

THE CONTRA COSTA COUNTY BOARD OF SUPERVISORS in its capacity as governing Board of the County of Contra Costa and all districts of which it is ex-officio governing Board RESOLVES THAT:

- A. The Human Resources Department is authorized to implement the Tactical Employment Team Program (TETP). The objective of this program is to mitigate the negative impact that anticipated layoffs will have on the County's workforce. The main components of the program are as follows:
1. Finding Alternate Placements within the County. Preference shall be given to employees separated through layoff when filling vacant, project, temporary, and contract positions. The Department shall freeze vacancies in other departments for possible placement of laid off employees who possess the required knowledge, skills and abilities for the position.
 2. Outplacement. The Human Resources Department will be available to provide the following services as requested: career counseling, resume preparation, interview tips, job search resources and tools, retraining opportunities, and registration with temporary employment agencies.
 3. Personal Support. In cooperation with the Employee Assistance Program and other professional organizations, personal support services shall be made available to laid off employees, including financial planning, crisis intervention counseling, stress management, and retirement planning.
- B. Contra Costa County serves a large, diverse population which is reflected in the diversity of the County's workforce and that of its dependent districts. It is the policy of Contra Costa County to comply with all applicable local, state and federal laws governing equal employment.
- C. The County Administrator shall forward a copy of this resolution to all department heads emphasizing the importance of cooperating with the TETP in order to ensure that employees who are laid off are given every opportunity to continue their employment with the County in another capacity or to be placed in appropriate employment elsewhere.

I hereby certify that this is a true and correct copy of an action taken and entered on the minutes of the Board of Supervisors on the date shown:

**Contra
Costa
County**

To: Board of Supervisors
From: Kathy Gallagher, Employment & Human Services
Date: March 27, 2018

Subject: 2017 Low Income Home Energy Assistance Program Funding, Amendment 4

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute a contract amendment with the California Department of Community Services and Development to extend the term end date from March 31, 2018 to December 31, 2018 for the Low Income Home Energy Assistance Program with no change to the payment limit of \$4,315,658.

FISCAL IMPACT:

No fiscal impact. The amendment extends the term of the contract.

BACKGROUND:

Contra Costa County (County) has received funding from the California Department of Community Services and Development for 25 years wherein the County provides energy bill assistance payments and weatherization services to County residents who are income-eligible to receive said services. The funding sources include Low Income Home Energy Assistance Program (LIHEAP), the Energy Crisis Intervention Program (ECIP), the Department of Energy (DOE), Low Income Weatherization Program (LIWP) and the Toilet Retrofit Program (TRP).

The Employment and Human Services Department (EHSD) partners with the County Department of Conservation and Development to provide energy saving home improvements to low-income

cc: Nelly Ige, Sam Mendoza

BACKGROUND: (CONT'D)

families throughout unincorporated Contra Costa County, as well as the County's nineteen cities.

The energy saving measures may be the provision of hot water heaters, furnaces, refrigerators, microwaves, doors, windows, fluorescent light bulbs, weather stripping, ceiling fans, and attic insulation. A blower door test (a diagnostic tool to locate and correct air infiltration) is conducted on homes, and combustion appliance safety tests are conducted on homes with gas appliances to check for carbon monoxide gas leakage. Homes with gas appliances are provided with a carbon monoxide alarm.

The Home Energy Assistance Program (HEAP) funding allows low income County residents to qualify for a credit on their energy bills.

Once eligibility is determined, the top priority is clients with no hot water, no heat, or are in danger of having their power shut off, then clients are prioritized by those with the lowest income, highest energy burden and families with at least one resident who is considered to be a member of a vulnerable population.

The Board approved receipt of funds for the 2016-17 program year on October 18, 2016 (C.53). Since then, the Board has approved the following three amendments to the agreement: 1) March 21, 2017 (C.37) to include additional funds and provisions for installing and replacing solar water heaters in homes; 2) September 12, 2017 (C.59) to receive additional funds; and 3) November 7, 2017 (C.44) to receive additional funds. This action is to approve a fourth amendment to extend the term end date by nine months to December 31, 2018.

CONSEQUENCE OF NEGATIVE ACTION:

If not approved, the operation of the LIHEAP program will end on March 31, 2018.

CHILDREN'S IMPACT STATEMENT:

The Employment and Human Services Department, Community Services Bureau energy program supports one Contra Costa County community outcome - Outcome #4: Families that are Safe, Stable and Nurturing. This outcome is supported by the provision of home energy assistance to keep households warm in winter and to increase household energy efficiency.

**Contra
Costa
County**

To: Board of Supervisors
From: Kathy Gallagher, Employment & Human Services Director
Date: March 27, 2018

Subject: Head Start Program Improvement Grant

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Employment and Human Services Department director, or designee, to submit an application to and accept funding from the U.S. Department of Health and Human Services, Administration for Children and Families, Office of Head Start, in an amount not to exceed \$85,800 for a supplemental, one-time grant to provide quality enhancement improvements at Head Start program centers.

FISCAL IMPACT:

The County will receive a one-time federal grant in an amount not to exceed \$85,800. As Grantee, the County is required to generate a 20% non-federal match, however the Department will seek a waiver of the match requirement. The match is usually achieved through collaboration with State Child Development programs and the volunteer hours accrued by Head Start parents and community partners. With this grant, there will be no community or parent involvement. Historically, the Department has been successful in receiving match waivers for similar grant programs.

Federal Amount (80%): \$85,800
Match Amount (20%, seeking waiver): \$17,160
Total (100%): \$102,960

Supervisor

By: June McHuen, Deputy

Contact: CSB (925) 681-6389

cc: Nasim Eghlima, Christina Reich, Haydee Ilan

BACKGROUND:

Contra Costa County submits an application annually to the U.S. Department of Health and Human Services, Administration for Children and Families, Office of Head Start, as the Head Start grantee. This board order presents an opportunity for the County to apply for a supplemental, one-time grant to support health and safety quality improvements at County Head Start and Early Head Start programs. The funding term will be for a one year project period, July 1, 2017 through June 30, 2018. The grant will be reviewed for approval by the Policy Council on March 21, 2018.

If the grant is received, the funds are proposed to be utilized for supplies and other expenses for childcare partner COCOKIDS, Inc., and Head Start delegate agency, First Baptist Head Start, to ensure successful implementation of the Early Head Start Childcare Partnership program.

CONSEQUENCE OF NEGATIVE ACTION:

If not approved, the County will be unable to apply for a grant to cover the cost of implementing facility and safety improvements.

CHILDREN'S IMPACT STATEMENT:

The Community Services Bureau of the Employment & Human Services Department's Head Start program supports three of Contra Costa County's community outcomes - Outcome 1: Children Ready for and Succeeding in School, Outcome 3: Families that are Economically Self-sufficient, and Outcome 4: Families that are Safe, Stable, and Nurturing. These outcomes are achieved by offering comprehensive services, including high quality early childhood education, nutrition, and health services to low-income children throughout Contra Costa County.

1. Remarks

26. REMARKS (Continued from previous page)

This grant action awards operations funds for Supplies (\$53,050), Contractual (\$13,200), and Other (\$19,550) for three EHS-CCP partners, Coco Kids, First Baptist East Leland, and First Baptist Fairgrounds.

The request to waive the non-federal share requirement is under review by the Office of Head Start.

Early Head Start population: 72 infants and toddlers.

Designated Early Head Start service area: Contra Costa County, CA

Approved program options: Center-based, Family Child Care.

REQUEST FOR PROGRAM IMPROVEMENT GRANT BUDGET
EARLY HEAD START CHILD CARE PARTNERSHIP PROGRAM – 09HP0012

Community Services Bureau (CSB) is submitting this request for supplemental funding under the Early Head Start Child Care Partnership Program in the amount of \$85,800 in order to carry out the Early Head Start Child Care Partnership Program effectively and to comply with federal rating requirements. CSB made a review and assessment of the safety of physical environments of our Partners' centers, namely Cocokids and First Baptist, in order that this program will holistically support and provide safe learning environments for our children. Our program staff identified the need to purchase educational and classroom materials, as well as provide tooth brushing materials, step stool, changing table, locking cabinet, cot sheets, safety mirrors, and room dividers for our Partners' Family Child Care Homes. Likewise, training requirements were identified for our Partners' Early Head Start teaching staff for them to be at par with the skills of our CSB staff and with Early Head Start standard for child care. In addition, new computers and tablets as well as training in technology will be provided to our Partners so that they will be able to comply with the requirements of our Child Location Observation Utilization Data (CLOUD) system. In addition, our Licensed Certified Playground Safety Inspector (CPSI) has identified the need to provide safe sand, wood shade structure, shed and playhouse for the outdoor facilities to improve the quality of health and safety of children in our Partners' Family Child Care Homes.

The supplemental funding of \$85,500 being requested will be for the Early Head Start Child Care Partnership program, identified as EHS-CCP #1 (09HP0012). A separate schedule is attached for the breakdown of projected expenditures.

Early Head Start Child Care Partnership #1 (09HP0012)	\$85,800
--	-----------------

(6e) Supplies	\$53,050
---------------	----------

CSB is requesting funding for new and additional education/classroom materials for our Partners' Family Child Care Homes (\$35,550) as well as purchase new personal computers and tablets and training for staff in technology (\$17,500) so that our partners' operation will be at par with CSB's standard in running our programs.

Coco Kids	\$40,150
First Baptist East Leland	3,450
First Baptist Fairgrounds	9,450

(6f) Contractual (Training and Technical Assistance)	\$13,200
---	-----------------

CSB is requesting funding to send our Partners' teaching staff to Early Head Start boot camp and to PITC /IT trainings.

(6h) Other (Health and Safety/Facilities)	\$19,550
--	-----------------

CSB is requesting funding to provide health and safety materials such as tooth brushing materials, posters, wood shade structure, step stool, changing table, locking cabinet, teachers chair, cot sheets, safety mirror, and room dividers (\$5,950) as well as upgrade

outdoor facilities such as playground structure with new safe sand, shed and play house for Cocokids and First Baptist Family Child Care Homes (\$13,600).

Coco Kids	\$13,400

Contra
Costa
County

To: Board of Supervisors
From: Kathy Gallagher, Employment & Human Services
Date: March 27, 2018

Subject: 2018 Low Income Home Energy Assistance Program Funding, Amendment 1

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute a contract amendment with the California Department of Community Services and Development to increase the payment limit by \$1,401,999 to a new payment limit of \$3,321,891 for Low Income Home Energy Assistance Programs with no change to the term of October 1, 2017 through December 31, 2018.

FISCAL IMPACT:

This contract will increase revenue in an amount not to exceed \$3,321,891 from the U.S. Department of Health and Human Services via the California Department of Community Services and Development. 100% federal funds with no County match requirement.

CFDA # 93.568

State: 18B-4005, Amend 1 / CCC:39-854-6

BACKGROUND:

Contra Costa County has received funding from the State Department of Community Services and Development for 25 years wherein the County provides energy bill assistance payments and weatherization services for income-eligible County residents. The funding sources for these programs include Low Income Home Energy Assistance Program (LIHEAP), the Energy Crisis Intervention Program (ECIP),

cc: Nelly Ige, Sam Mendoza

BACKGROUND: (CONT'D)

and the Department of Energy (DOE), the Low Income Weatherization Program (LIWP) and the Toilet Retrofit Program (TRP).

The Employment & Human Services Department (EHSD) partners with the Department of Conservation and Development to provide energy-saving home improvements for low-income families throughout unincorporated Contra Costa County, as well as the County's nineteen cities. The energy saving measures may include the provision of hot water heaters, furnaces, refrigerators, microwaves, doors, windows, fluorescent light bulbs, weather stripping, ceiling fans, and/or attic insulation. Blower door tests (a diagnostic tool to locate and correct air infiltration) are conducted on homes, and combustion appliance safety tests are conducted on homes with gas appliances to check for carbon monoxide gas leakage. Carbon monoxide alarms are provided to homeowners with gas appliances.

The Home Energy Assistance Program (HEAP) allows eligible County residents to qualify for a credit on their energy bills.

Both programs use income based eligibility. Once eligibility is determined, top priority is given to clients with no hot water, no heat, or are in danger of having their power shut off. Priority of service is then based on clients with the lowest income, highest energy burden and families with at least one resident who is considered to be a member of a vulnerable population.

CONSEQUENCE OF NEGATIVE ACTION:

If not approved, County will forego funding to continue operating LIHEAP.

CHILDREN'S IMPACT STATEMENT:

The Employment & Human Services Department, Community Services Bureau energy programs supports Outcome #4: Families that are Safe, Stable and Nurturing. This outcome is supported by the provision of home energy assistance to keep households warm in winter and to increase household energy efficiency.

**Contra
Costa
County**

To: Board of Supervisors
From: Kathy Gallagher, Employment & Human Services Director
Date: March 27, 2018

Subject: Criminal Justice Responses to Sexual Assault, Domestic Violence, Dating Violence, and Stalking Grant

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to apply for and accept grant funding in the amount of not to exceed \$900,000 from the U.S. Department of Justice, Office of Violence Against Women's Improving Criminal Justice Responses to Sexual Assault, Domestic Violence, Dating Violence, and Stalking Grant to work collaboratively with the community to identify problems and share ideas that will result in effective responses that ensure victim safety and offender accountability for the period October 1, 2018 through September 30, 2021.

FISCAL IMPACT:

County to receive grant funds in an amount not to exceed \$900,000. (100% Federal) (No County match)

BACKGROUND:

The Improving Criminal Justice Responses to Sexual Assault, Domestic Violence, Dating Violence, and Stalking Grant, formerly known as Grants to Encourage Arrest Policies and Enforcement of Protection Orders Program, is designed to encourage partnerships among state, local, and tribal governments, courts, victim service providers, coalitions, and rape crisis centers to ensure that sexual assault, domestic violence, dating violence, and stalking are treated seriously by requiring the coordinated involvement of the entire criminal justice system and community-based victim service providers.

Costa
County

To: Board of Supervisors
From: David O. Livingston, Sheriff-Coroner
Date: March 27, 2018

Subject: Agreement with the State of California for law enforcement services at the County Fair

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Sheriff-Coroner, or designee, to execute a contract with the State of California, 23rd District Agricultural Association, including full indemnification of the State of California, to pay the County an amount not to exceed \$35,000 to provide law enforcement services at the Contra Costa County Fair for the period of May 16, 2017 through May 20, 2017.

FISCAL IMPACT:

\$35,000; 100% State of California reimbursement revenue.

BACKGROUND:

Each year the State of California provides funding to the Office of the Sheriff to provide law enforcement services at the County Fair. This contract will enable the Sheriff's Office to augment regular deputies with reserve deputies during the event at no cost to the County.

CONSEQUENCE OF NEGATIVE ACTION:

The Sheriff's Office will not be authorized to enter into the contract.

CHILDREN'S IMPACT STATEMENT:

No impact.

Contra
Costa
County

To: Board of Supervisors
From: Anna Roth, Health Services Director
Date: March 27, 2018

Subject: Agreement #29-391-16 with the California Department of Public Health Office of AIDS

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Health Services Director, or designee, to execute Agreement #29-391-16 (State #17-10797) with the California Department of Public Health, Office of AIDS, to pay County an amount not to exceed \$25,727 per client, per calendar year, for the AIDS Medi-Cal Waiver Program for the period January 1, 2018 through December 31, 2020.

FISCAL IMPACT:

The maximum amount payable per eligible client per year served under this agreement shall not exceed \$25,727. Payment is provided for specific services at established Medi-Cal rates. The total funded amount will be determined by the number of "slots" awarded and services provided. (No County match required)

BACKGROUND:

The Department's Public Health Division, AIDS Program staff is experienced in providing case management services for people with HIV Disease. The AIDS Medi-Cal Waiver Program goals are to lessen the financial cost of care which, for people with AIDS and AIDS Related Complex (ARC), are historically driven by hospital-iza-tions and other institution-based care, and to provide the most humane and appropriate levels of care in the most appropriate setting for the client. Participation in the program allows the Department's AIDS Program to offer case-managed home and community-based care to

To: Board of Supervisors
From: Kathy Gallagher, Employment & Human Services Director
Date: March 27, 2018

Subject: City of Richmond, Richmond Police Department, Children's Interview Center Funding

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to accept funding in an amount not to exceed \$17,978 from the City of Richmond, Richmond Police Department, for the provision of a trained forensic interviewer at the Children's Interview Center for the period July 1, 2018 through June 30, 2019.

FISCAL IMPACT:

County to receive funds in an amount not to exceed \$17,978 from the City of Richmond, Richmond Police Department for the Children's Interview Center.

BACKGROUND:

The Employment and Human Services Department provides a trained forensic interviewer during investigations at the Children's Interview Center, where non-acute exams are given to children who have been sexually abused, physically abused and/or otherwise neglected.

CONSEQUENCE OF NEGATIVE ACTION:

Without funding, the Children's Interview Center services would be curtailed.

Date: March 27, 2018

Subject: California Department of Rehabilitation, Employment Training Panel Grant

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, on behalf of the Workforce Development Board, to apply for and accept Title V Vocational Rehabilitation grant funding in an amount not to exceed \$250,000 from the California Department of Rehabilitation, Employment Training Panel to design, develop, and implement work experience and job preparation training for students with disabilities, ages 16-21 years, for the period April 1, 2018 through March 30, 2019.

FISCAL IMPACT:

County to receive an amount not to exceed \$250,000 in federal Workforce Innovation and Opportunity Act, Title V Vocational Rehabilitation funding. (No County match)

BACKGROUND:

The California Department of Rehabilitation Employment Training Panel, Summer Training & Employment Program for Students (STEPS) funding will be used to provide job preparation training, including job exploration, workplace readiness skills training, and work-based learning experiences, as well as summer work experience, to students with disabilities. A minimum of 20 students, ages 16-21 years old, will receive training services in STEPS.

County

To: Board of Supervisors
From: Anna Roth, Health Services Director
Date: March 27, 2018

Subject: Standard Agreement #29-791 with the California Department of Health Care Services

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Health Services Director, or designee, to execute Standard Agreement #29-791 (State #17-94494) with the California Department of Health Care Services (DHCS), to pay the County an amount not to exceed \$50,000, for the development of policies and procedures for palliative care services for Medi-Cal beneficiaries, for the period from February 1, 2018 through June 30, 2018.

FISCAL IMPACT:

This agreement will result in an amount not to exceed \$50,000 from the California Department of Health Care Services to fund the Palliative Care Program. No County match required.

BACKGROUND:

In accordance with Senate Bill (SB) 1004 (Chapter 574, Statutes of 2014) established Welfare and Institutions Code (WIC) Sections 14132.75, which require DHCS to establish standards for and provide technical assistance to Medi-Cal managed care plans for delivery of palliative care services. DHCS released a palliative care policy document in September 2016. The purpose of this agreement is for the Health Services Department's Contra Costa Health Plan (CCHP) to develop a comprehensive policy and procedure for the implementation of palliative care services for its Medi-Cal beneficiaries.

Subject: Grant Agreement #28-368 with California Department of Public Health

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Health Services Director, or designee, to execute Grant Agreement #28-368 with the California Department of Public Health (CDPH), to pay the County an amount not to exceed \$1,609,085, for the Local Oral Health Program, for the period from January 1, 2018 through June 30, 2022.

FISCAL IMPACT:

Approval of this grant agreement will allow the County to receive funding from the California Department of Public Health through June 30, 2022. No County match is required.

BACKGROUND:

The CDPH Oral Health Program is a collaboration to build capacity at the local level to address oral health which is essential for overall health. Tooth decay is the number one chronic disease of childhood. The activities will address problems identified by local needs assessments and will reflect the California Oral Health Plan priorities.

Approval of Grant Agreement #28-368 will allow the County to participate in the Local Oral Health Program to provide oral health services for the low-income population in Contra Costa County, through June 30, 2022. This agreement includes agreeing to indemnify the State for any claims arising out of the County's performance under the agreement.

CONSEQUENCE OF NEGATIVE ACTION:

If this agreement is not approved, the County will not receive funding to support the Local Oral Health Program for Contra Costa County residents.

**Contra
Costa
County**

To: Board of Supervisors
From: Anna Roth, Health Services Director
Date: March 27, 2018

Subject: Agreement #29-208-83 with the California Department of Public Health, Immunization Program

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Health Services Director, or designee, to execute Standard Agreement #29-208-83 (State #17-10316) with the California Department of Public Health, Immunization Program to pay County an amount not to exceed \$1,593,320, to implement the Immunization Program, for the period from July 1, 2017 through June 30, 2022.

FISCAL IMPACT:

Approval of this agreement will result in an amount not to exceed \$1,593,320 in funds from the California Department of Public Health, for the County's Immunization Program. No County match required.

BACKGROUND:

The County's Immunization Program will implement the Project including making immunizations available to all persons in need of such service in order to prevent the occurrence and transmission of childhood diseases. The Program monitors the compliance of preschools, elementary schools, and secondary schools in meeting State-mandated immunization requirements through in-service programs and limited technical assistance. An adverse reaction monitoring system and outbreak control team are also included in the Program.

Contact: Dan Peddycord,
925-313-6712

BACKGROUND: (CONT'D)

Approval of this Standard Agreement #29-208-83 will allow the County to continue providing services, through June 30, 2022. This agreement includes agreeing to indemnify the State for any claims arising out of the County's performance under the agreement.

CONSEQUENCE OF NEGATIVE ACTION:

If this agreement is not approved, County would lose funding to support and monitor the compliance of preschools, elementary schools, and secondary schools in meeting State-mandated immunization requirements through in-service programs to prevent the occurrence and transmission of childhood diseases. Further, the County would no longer receive free vaccine from the State.

Contra
Costa
County

To: Board of Supervisors
From: Anna Roth, Health Services Director
Date: March 27, 2018

Subject: Standard Agreement #28-300-6 with the California Department of Health Care Services

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Health Services Director, or designee, to execute Standard Agreement #28-300-6 (State #18-95004) with the California Department of Health Care Services (DHCS), to pay the County an amount not to exceed \$21,000,000, for the Medi-Cal Administrative Activities (MAA) Program, for the period from July 1, 2018 through June 30, 2021.

FISCAL IMPACT:

This agreement will result in an amount not to exceed \$21,000,000 from the California Department of Health Care Services to fund the MAA Program. No County match is required.

BACKGROUND:

The DHCS is responsible for administering the California MAA Program, which is authorized by Title 42, United States Code Section 1396 and Welfare and Institutions Code Division 9, Part 3, Chapter 7 (commencing with Section 14000) and Chapter 8 (commencing with Section 14200). The Federal Social Security Act mandates cooperative arrangements between the single state agency and participating local government agencies (LGA's) responsible for providing health related administrative activities. The goal of this agreement is to ensure that Contra Costa County Medi-Cal potentially eligible individuals and their families are appropriately informed of the Medi-Cal Program and how to access it, and assisted in accessing

David J. Twa, County Administrator and Clerk of the Board of Supervisors

By: , Deputy

cc: Ave Brown, Environmental Services, Claudia Gemberling, Environmental Services

BACKGROUND:

Contra Costa County Public Works Department (County) plans to replace the Marsh Drive Bridge over the Walnut Creek Channel (Bridge No. 28C-0442) to meet current California Department of Transportation (Caltrans) design standards as it has reached the end of its design life and will also improve channel hydraulics (the "Project"). The Project is located in the Concord area. The bridge is jointly owned by the City of Concord and Contra Costa County and is approximately 800 feet west of Solano Way.

The Project requires environmental technical studies to support Project impact analysis. Caltrans, acting as the lead agency under the assigned authority of the Federal Highway Administration (FHWA), is providing Project oversight as federal funds are involved. Therefore, LSA Associates, Inc. will provide environmental services to comply with the National Environmental Policy Act (NEPA), in accordance with FHWA and Caltrans requirements, as well as with the California Environmental Quality Act (CEQA) under this Contract.

CONSEQUENCE OF NEGATIVE ACTION:

If the contract is not approved by the Board of Supervisors, it may jeopardize funding and delay construction.

CLERK'S ADDENDUM

RELISTED to a future date uncertain.

Contra
Costa
County

To: Board of Supervisors
From: Brian M. Balbas, Public Works Director/Chief Engineer
Date: March 27, 2018

Subject: APPROVE a contract with Agurto Corporation (dba Pestec Exterminator Co.)

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Public Works Director, or designee, to execute a contract with Agurto Corporation (dba Pestec Exterminator Co.) in an amount not to exceed \$1,400,000 for structural integrated pest management services, for the period April 1, 2018 through March 31, 2021 Countywide. (100% General Fund)

FISCAL IMPACT:

This cost is to be funded through Facilities Services maintenance budget. (100% General Fund)

BACKGROUND:

Public Works Facilities Services is responsible for managing the County's structural integrated pest management program. This program monitors the County's efforts to control pests while not endangering the environment. As bid on Bidsync #1405-082, Pestec Exterminator Co. was the lowest responsible and responsive vendor, and has become the primary vendor for structural integrated pest management services. This request is for a three year contract.

Contra
Costa
County

To: Board of Supervisors
From: Brian M. Balbas, Public Works Director/Chief Engineer
Date: March 27, 2018

Subject: APPROVE a Purchase Order Amendment with Royal Wholesale Electric Co.

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Purchasing Agent, or designee, to execute, on behalf of the Public Works Director, a purchase order amendment with Royal Wholesale Electric Co. to increase the payment limit by \$200,000 to a new payment limit of \$390,000 for will call electrical parts and supplies and to extend the term from April 30, 2018 to April 30, 2020, Countywide. (100% General Fund)

FISCAL IMPACT:

This cost is to be funded through the Public Works Facilities Services budget. (100% General Fund)

BACKGROUND:

Public Works Materials Management is responsible for acquiring electrical maintenance supplies. Electrical supply items not stocked at the Waterbird facility are available to the electrical staff at several electrical parts houses in the area. As bid on Bidsync # "1604-178, Electrical Will Call Purchases", Royal Electrical Wholesale was awarded this commodity. This commodity was originally bid for one year with four possible one year extensions. This request represents the fourth possible one year extension.

CONSEQUENCE OF NEGATIVE ACTION:

If this agreement is not approved, then purchasing will call electrical parts through Royal Electrical Wholesale will discontinue.

Subject: Teleosoft Contract

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Sheriff-Coroner, or designee, to continue a Software License Maintenance Agreement with Teleosoft, Inc., increasing the payment limit by \$215,000 from \$177,140 to a new amount of \$392,140 to provide civil case processing software for the Sheriff's Office - Civil Unit.

FISCAL IMPACT:

\$332,140.00, 100% General Fund; Budgeted

BACKGROUND:

Teleosoft, Inc., provides civil case process software called CountySuite Sheriff for Sheriff Offices. CountySuite Sheriff completely and accurately manages the entirety of the Sheriff civil process. CountySuite Sheriff will provide functionality to the Contra Costa County Sheriff's Office to quickly find and update case information, eliminate redundant data entry, fully manage and verify the earnings withholding orders, generate and capture all documents and forms, and add an unlimited number of cases, contacts, and instructions. The integrated accounting system tracks all costs, keeps all case ledgers current, and supplies accounting reports for the office and auditor. Software features for the Sheriff's Office include case management for civil actions (complaint, summons, orders, subpoena, etc.), personal property (levies, possession, seizure, eviction, etc.), scanning, temporary restraining orders, services public portal, attorney portal, and witness fee processing.

cc:

FISCAL IMPACT:

No General Fund Impact. Funds in the total amount of \$85,000 (\$75,000 for the Newell Avenue Pathway project and \$10,000 for the Tri-Valley Rising Report) are from the District II allocation of deposits into the Livable Communities Trust Fund (Fund). On December 3, 2013, the Board of Supervisors determined that revenue from the Fund should be spent equally among supervisorial districts. At build-out of the development projects contributing revenue to the Fund, deposits will total \$8,448,000. As of March 9, 2018, the fund balance was \$7,612,137. The account has earned approximately \$457,574 in interest to date. There have been \$671,037 in expenditures. Previously approved allocations are shown in Attachment A.

BACKGROUND:

The Livable Communities Trust Fund (Fund) is a Special Revenue Mitigation Fund established by the Board of Supervisors on November 15, 2005, following the approval of the Camino Tassajara Combined General Plan Amendment Project, also known as the Alamo Creek and Intervening Property residential projects, to implement a condition of approval. The Fund was established to implement the County's Smart Growth Action Plan. The residential developers pay an \$8,000 per unit fee (excluding affordable housing portions of the projects) into the Fund. The Department of Conservation and Development administers the Fund.

The Newell Avenue Pathway Project

The project is located along Newell Avenue in unincorporated Walnut Creek, from Olympic Boulevard to Circle Drive. The overall purpose of the project is to repair the existing decomposed granite path and raise meter boxes to grade, along the southern side of Newell Avenue. The scope of work varies between segments of the path. From Olympic Boulevard to Magnolia Avenue and from 1813 Newell Avenue to Circle Drive, the work includes the installation of decomposed granite mixed with an organic binder to level the path, the installation of pressure treated borders, and the installation and raising of new meter boxes to be level with the finished path. From Magnolia Avenue to 1813 Newell Avenue, the work includes the installation of decomposed granite mixed with an organic binder to depressed areas, as needed, and the installation and raising of new meter boxes to be level with the finished surfaces.

The Landscape Company, an on-call contractor with the Public Works Department, will be utilized to complete the repair of the Newell Avenue Pathway project prior to a scheduled surface treatment along Newell Avenue in Summer 2018. An Authorization to Proceed will be provided to the Landscape Company following Board approval with the project commencing in April 2018.

The project supports goal five of the Smart Growth Action Plan to help fund transit and transportation improvements which foster smart growth principles. The Public Works Director, or designee, will engage with The Landscape Company through an existing on-call contract, to conduct the Newell Avenue Pathway Project. A map of the proposed project is shown in Attachment B.

Tri-Valley Rising Report

The Innovation Tri-Valley Leadership group in partnership with the Bay Area Council Economic Institute, proposes the 2018 Tri-Valley Rising Report, an update to the 2013 Tri-Valley Rising report. The 2013 report on the Tri-Valley focused specifically on its economic and physical interconnectedness to the broader Bay Area. The 2018 update to the report will dive deeper into the elements of the Tri-Valley economy that make it one of the most economically prosperous parts of the Bay Area region. It is an essential and unique document that measures, advances, and markets the Tri-Valley today. It provides a compelling narrative of the economic strength of the five cities and two counties, but also points out the challenges faced.

The report supports goal three of the Smart Growth Action Plan to promote innovative land use planning and design principles that encourage mixed use and infill development and goal four to promote economic revitalization in urban infill communities. The 2018 report will be divided into four main points of analysis including the economic overview of the Tri-Valley, the indicators of entrepreneurialism in the Tri-Valley, the relationship of land use and transportation planning to economic success, and the vision for the future of the Tri-Valley.

The Department of Conservation and Development Director, or designee, will execute a contract on behalf of the County, with the Innovation Tri-Valley Leadership Group to fund the report \$10,000 to assist the 2018 Tri-Valley Rising Report finalization and publication. Other sources of financing include funding from the Cities of Dublin, Livermore, Pleasanton, San Ramon, and the Town of Danville. In addition, Alameda County Supervisors from District 1 and 4 are contributing to the updated report.

CONSEQUENCE OF NEGATIVE ACTION:

The Newell Avenue Pathway project would not receive the subject funds, and the ability to complete the project would be compromised. The Tri-Valley Rising project would not receive the subject funds, and the ability to publish the report would be compromised.

CHILDREN'S IMPACT STATEMENT:

The Newell Avenue Pathway project supports outcome 5: Communities are Safe and Provide a High Quality of Life for Children and Families. The Children's Impact Statement is not applicable for the Tri-Valley Rising Report.

Newell Avenue Path Repair

Olympic Boulevard to Circle Drive

 Repair path per complete project scope and specifications.

 Raise meter boxes and level path to grade.

Deposit spoils at bus stop on Lilac Drive

PROJECT NUMBER: 0662-6R4071
CP# 18-13

PROJECT NAME: Newell Avenue Path Repair

PREPARED BY: Sandeep Singh

DATE: March 20, 2018

APPROVED BY: [Signature]

DATE: 3/20/18

RECOMMENDATIONS:

☒ Categorical Exemption: 15301 [Class 1(c)]

☐ Negative Declaration

☐ Environmental Impact Report Required

☐ Conditional Negative Declaration

The project will not have a significant effect on the environment. The recommendation is based on the following: The project consists of the repair of existing facilities involving no expansion of use, pursuant to section 15301(c) of the CEQA guidelines.

What changes to the project would mitigate the identified impacts: N/A

USGS Quad Sheet: Walnut Creek	Base Map Sheet #: P 14	Parcel #: N/A
-------------------------------	------------------------	---------------

GENERAL CONSIDERATIONS:

- Location:** The project is located along Newell Avenue from Olympic Boulevard to Circle Drive in unincorporated Walnut Creek [Figures 1-2].
- Project Description:** The purpose of this Project is to repair the existing decomposed granite path and raise meter boxes to grade, along the southern side of Newell Avenue.
On Newell Avenue from Olympic Boulevard to Magnolia Avenue and from 1813 Newell Avenue to Circle Drive (approximately 1500 feet), the project consists of the installation of decomposed granite mixed with an organic binder to level the path, the installation of pressure treated borders, and the installation and raising of new meter boxes to be level with the finished path.
On Newell Avenue from Magnolia Avenue to 1813 Newell Avenue (approximately 1100 feet), the project consists of the installation of decomposed granite mixed with an organic binder to depressed areas, as needed, and the installation and raising of new meter boxes to be level with the finished path.
Excavations will remain above an existing underlying filter fabric and will not exceed a depth of 2.5". The target scheduling date for the work is from April 2nd to April 7th, because there will be less traffic when the local schools are off for spring break.
No tree removal will be necessary. Tree and shrubbery trimming may be necessary throughout the project area. In order to minimize damage to trees, any roots exposed during construction activities will be clean cut.
The Project will maintain the existing drainage pattern and will not create new impervious areas. Appropriate Best Management Practices (BMPs) will be implemented to protect storm drain inlets.
Utility adjustments or relocation may be necessary in support of the project.
One lane will be open during construction activities. Emergency vehicles will have access at all times.

3. Does it appear that any feature of the project will generate significant public concern?

☐ Yes ☒ No ☐ maybe (Nature of concern):

4. Will the project require approval or permits by other than a County agency?

☐ Yes ☒ No

5. Is the project within the Sphere of Influence of any city? No

Project Title: Newell Avenue Path Repair Project
Proj. No. 0662-6R4071 CP#18-13

Project Applicant: **Contra Costa County Public Works Department**

Project Location – **Specific:** Newell Avenue from Olympic Boulevard to Circle Drive

Project Location: Unincorporated Walnut Creek

Project Location – County: Contra Costa

Description of Nature, Purpose and Beneficiaries of Project:

The project is located along Newell Avenue from Olympic Boulevard to Circle Drive in unincorporated Walnut Creek [Figures 1-2].

The purpose of this Project is to repair the existing decomposed granite path and raise meter boxes to grade, along the southern side of Newell Avenue.

On Newell Avenue from Olympic Boulevard to Magnolia Avenue and from 1813 Newell Avenue to Circle Drive (approximately 1500 feet), the project consists of the installation of decomposed granite mixed with an organic binder to level the path, the installation of pressure treated borders, and the installation and raising of new meter boxes to be level with the finished path.

On Newell Avenue from Magnolia Avenue to 1813 Newell Avenue (approximately 1100 feet), the project consists of the installation of decomposed granite mixed with an organic binder to depressed areas, as needed, and the installation and raising of new meter boxes to be level with the finished path.

Excavations will remain above an existing underlying filter fabric and will not exceed a depth of 2.5". The target scheduling date for the work is from April 2nd to April 7th, because there will be less traffic when the local schools are off for spring break.

The project will maintain the existing drainage pattern and will not create new impervious areas. Appropriate Best Management Practices (BMPs) will be implemented to protect storm drain inlets. Utility adjustments or relocation may be necessary in support of the project.

No tree removal will be necessary. Tree and shrubbery trimming may be necessary throughout the project area. In order to minimize damage to trees, any roots exposed during construction activities will be clean cut.

One lane will be open during construction activities. Emergency vehicles will have access at all times.

BACKGROUND: (CONT'D)

pedestrian safety improvement, traffic calming improvements, traffic signal design, specifications and modifications, preparation of studies to update or establish a mitigation fee program, and preparation of studies and implementation of transportation demand management programs.

After a solicitation process, this firm was selected as one of five firms to provide on-call transportation engineering services and is pre-qualified so Public Works may solicit and contract with the firm for anticipated project-specific contracts to assist Public Works Transportation Engineering staff with completing transportation engineering tasks. The original on-call transportation engineering services contracts will terminate on April 1, 2018.

This contract was amended administratively, effective October 1, 2016, to modify language regarding subcontracting of work. No Board action was required for this administrative amendment.

Approval of the Contract Amendment No. 2 will allow this firm to continue to provide the above-mentioned services for an additional year and complete any existing tasks.

CONSEQUENCE OF NEGATIVE ACTION:

If the Contract is not approved, necessary transportation projects may not be completed in a timely manner which may jeopardize funding and delay design and construction of various road projects.

BACKGROUND: (CONT'D)

Approval of Contract Amendment Agreement #26-715-8 will add clinical support services and reduce the Medical Physician Resource Based Relative Value Scales (RBRVS) fee for required surgical assists at CCRMC as agreed to by the parties, through December 31, 2018.

CONSEQUENCE OF NEGATIVE ACTION:

If this amendment is not approved, the contractor will not be able to provide clinical support services and the RBRVS fee will remain incorrect.

Contra
Costa
County

To: Board of Supervisors
From: Anna Roth, Health Services Director
Date: March 27, 2018

Subject: Purchase Order for Integrated Commercialization Solutions, LLC

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Purchasing Agent to execute, on behalf of the Health Services Director, an amendment to Purchase Order #F07999 with Integrated Commercialization Solutions, LLC to increase the payment limit by \$100,000 for a new payment limit of \$199,000 for various clinical medical supplies including the T380 Intrauterine Copper Contraceptive for Contra Costa Regional Medical Center (CCRMC) and Health Centers, with no change in the original term of December 1, 2016 through November 30, 2018.

FISCAL IMPACT:

Funded 100% by the Hospital Enterprise Fund I.

BACKGROUND:

CCRMC and Contra Costa Health Centers are required to provide patients with birth control of their choice. This type of intrauterine device lasts for up to 10 years and contains no hormones, which is convenient and ideal to some patients.

CONSEQUENCE OF NEGATIVE ACTION:

If this purchase order is not approved, CCRMC and Health Centers will not be able provide patients with this birth control device and will impact patient safety and care.

ATTESTED: March 27, 2018

David J. Twa, County Administrator and Clerk of the Board of Supervisors

By: June McHuen, Deputy

Contact: Jaspreet Benepal,
925-370-5101

Contra Costa County

To: Board of Supervisors

From: Dianne Dinsmore, Human Resources Director

Date: March 27, 2018

Subject: Approve one-year extension to the Administrative Services Agreement with Massachusetts Mutual Life Insurance Company

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Human Resources Director, or designee, to execute the second of two possible one-year extensions to the Administrative Services Agreement with the Massachusetts Mutual Life Insurance Company (MassMutual), effective April 1, 2018, to extend the term from April 1, 2018 to March 31, 2019 to continue to provide plan administration for the 457 Deferred Compensation Plan.

FISCAL IMPACT:

The program is funded through plan participant fees. There is no fiscal impact beyond overhead administration support costs, which are reimbursed annually by the plan.

BACKGROUND:

Effective April 1, 2014 the Board of Supervisors authorized the Human Resources Department to negotiate a new three-year contract with Massachusetts Mutual Life Insurance Company ("MassMutual"), with regards to the administration of the Contra Costa County 457 Deferred Compensation Plan. This agreement allowed for two (2) one-year extensions. MassMutual provides the recordkeeping and other administrative services required to maintain compliance for this type of plan as well as a platform for employees to access information on their current investments and plan performance.

County

To: Board of Supervisors
From: Anna Roth, Health Services Director
Date: March 27, 2018

Subject: Contract #74-355-9 with Lisa Wang, M.D.

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Health Services Director, or designee, to execute Contract #74-355-9 with Lisa Wang, M.D., an individual, in an amount not to exceed \$174,720, to provide outpatient psychiatric services to County patients in West County, for the period from July 1, 2018 through June 30, 2019.

FISCAL IMPACT:

This contract is funded 100% by Mental Health Realignment. (No rate increase)

BACKGROUND:

On April 18, 2017, the Board of Supervisors approved Contract #74-355-8 with Lisa Wang, M.D., to provide outpatient psychiatric services, including diagnosing, counseling, evaluating, and providing medical and therapeutic treatment to County patients in West County, for the period from July 1, 2017 through June 30, 2018.

Approval of Contract #74-355-9 will allow the contractor to continue providing outpatient psychiatric services in West County through June 30, 2019.

Costa
County

To: Board of Supervisors
From: Anna Roth, Health Services Director
Date: March 27, 2018

Subject: Contract #26-206-23 with Discharge Resource Group

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Health Services Director, or designee, to execute Contract #26-206-23 with Discharge Resource Group, a corporation, in an amount not to exceed \$420,000, to provide temporary medical social workers at Contra Costa Regional Medical Center (CCRMC) and Health Centers for the period March 1, 2018 through February 28, 2019.

FISCAL IMPACT:

This contract is funded 100% by Hospital Enterprise Fund I.

BACKGROUND:

Under Contract #26-206-23, the contractor will provide temporary medical social workers at CCRMC and Health Centers during peak loads, temporary absences and emergencies, for the period March 1, 2018 through February 28, 2019.

CONSEQUENCE OF NEGATIVE ACTION:

If this contract is not approved, patients requiring medical social worker's services will not have access to the contractor's services.

Subject: Community Services Monthly Report
Date: February 2018

News /Accomplishments

Camilla Rand, M.S.
Director

- Two representatives from Region IX Office of Head Start, Maureen Burns-Vermette and Rosie Xu, visited two (2) new Early Head Start Partnership sites, KinderCare in Antioch and the YMCA – 8th Street Center in Richmond, and were able to see the new funding at work in the form of major facility improvements. They also gave us federal updates, guidance on new facility acquisition, and an orientation to the new Head Start grant application guidelines.
- CSB's Education Team met with Sonja LaCaze, Region IX Early Childhood Specialist (ECS) to review CSB's Practice Based Coaching (PBC) and Teaching, Learning and Collaborative (TLC) plan which also includes partner sites. Sonja provided feedback and complimented us on the comprehensive coaching plan we have implemented.
- The annual and nationally recognized Give Kids a Smile Day was a huge success at CSB! A total of 378 children received dental exams and fluoride varnish. The success of this event is a result of the teamwork of the Contra Costa Dental Society, local volunteer dentists, the DVC Dental Hygiene Program and CSB's own dedicated staff. Six (6) volunteer dentists at five (5) sites provided dental exams, while DVC students assisted dentists, applied fluoride varnish and provided oral health education. Some DVC students went the extra mile to dress up as the tooth fairy, wear Minnie Mouse ears or bring a singing teddy bear to promote oral health education.
- CSB Director, Camilla Rand, and nine (9) CSB staff members attended the California Head Start Association (CHSA) Conference on February 5-9. Staff included Janissa Rowley, Magda Bedros, Amy Wells, Julia Kittle-White, Shawn Powers, Chantal Atwood, Ayana McLeod, and two teachers; Blanca Torres, pre-school teacher and Ruby Kaur, infant teacher from Contra Costa College. Participants received updates from CHSA's director and had an opportunity to attend several education workshops and exhibit halls. The teachers were interested in learning strategies for implementing CLASS, Project Approach, Best Practices, and staff wellness.
- Assistant Directors, Pam Arrington, Carolyn Johnson, Isabel Renggenathen and ASA III, Sarah Reich, have been selected to participate in the 2018 EHSD Leadership Academy. The Leadership Academy is a uniquely designed leadership program that is customized especially for the leaders in EHSD.
- All sites and unit staff celebrated "Pride in Food Service Week" during the week of February 5-9. CSB's Child Nutrition Unit staff enjoyed and appreciated the variety of recognition gestures they received throughout the week. The weeklong celebration concluded with a special luncheon for the Child Nutrition staff which was sponsored by Kinder's.

- The CSB Child Care Partner Until will be hosting its first ever Education Manager Meeting for our child care partners on March 8th, which will focus on child assessment, child outcomes and school readiness data.
- Magda Bedros, Child Care Unit Assistant Director-TU, presented a workshop at the recent California Head Start Association Conference called, “The Impact of Trauma on Young Children.”
- Make Parenting A Pleasure (MPAP) workshops were recently held at GMIII and GMC. All Head Start and Early Head Start families are welcome to attend regardless of which center their child attends. During the sessions, parents reviewed the importance of taking care of themselves and being mindful, so that they will be available and ready to engage and relate to their children.
- CSB in collaboration with the Community Financial Resources (CFR) is providing financial literacy opportunities for all staff. Monthly workshops began in January and will continue until March 2018. We have received great responses from our staff, and the registration actually exceeded the limit capacity of training participants. 37 staff signed up for these workshops. Staff evaluation forms reflect that staff greatly appreciates the opportunity to participate in these trainings.

I. Status Updates:

a. Caseloads, workload (all programs)

- o Head Start enrollment: 100.30%
- o Early Head Start enrollment: 100%
- o Early Head Start Child Care Partnership enrollment: 100%
- o Early Head Start Child Care Partnership #2 enrollment (*Start-up year*): 56.84% (100% to capacity/adjusted for open rooms and staffing)
- o Head Start Average Daily Attendance: 81%
- o Early Head Start Average Daily Attendance: 82.55%
- o Early Head Start Child Care Partnership Attendance: 82.55%
- o Stage 2: 379 families and 603 children
- o CAPP: 146 families and 248 children
 - In total: 525 families and 851 children
 - Incoming transfers from Stage 1: 26 families and 40 children
- o LIHEAP: 433 households have been assisted
- o Weatherization: 12 units

b. Staffing:

- o During the month of February, CSB hired a Teacher and Master Teacher. The bureau is in the process of conducting interviews to fill vacant positions within all teaching classifications. Additionally, interviews will be scheduled to fill two (2) Assistant Director-Project and one (1) Business Systems Analyst vacancies.

cc: Policy Council Chair

c. Union Issues:

- CSB is in the process of conducting Meet and Confer sessions with PEU, Local 1 to reach an agreement on a temporary contract with Child Care Career (Temp Agency supplying teaching staff). The contract will allow the Bureau to use temporary teaching staff provided by the agency to ensure adequate teacher-child ratios in the CSB's child care centers as needed.

II. Emerging Issues and Hot Topics:

- Community Services Block Grant (CSBG), Weatherization Assistance Program (WAP) and Low Income Home Energy Assistance Program (LIHEAP) funding are once again slated for elimination from the Federal Budget this year. On March 19, the Economic Opportunity Council is hosting a CSBG Subcontractor Roundtable Event that will function as a call to action. Participants will be bringing clients along to share their stories so that we can send them to the National Community Action Partnership Office as part of an advocacy effort. Such an effort was very successful in 2017.

Community Services Bureau Monitoring Report Summary February 2018

Description: Community Services Bureau implements a process of ongoing monitoring of its operations and services that includes: (1) using measures, tools, or procedures to implement the system of ongoing monitoring; (2) assigning staff and consultants to the ongoing monitoring of each service; (3) collecting, analyzing and reporting on the program's progress towards its own goals for quality; and (4) following-up on and correcting any weaknesses identified through ongoing monitoring.

This summary report reflects the compiled results of the monitoring conducted for the period of August 2017 through December 2017.

Summary of Monitoring Activities:

Monitoring was conducted for directly operated CSB centers, partner agency centers, and the Delegate Agency, First Baptist Head Start. This report highlights the monitoring results in the areas of Center Monitoring, Need and Eligibility, Comprehensive Services, Education, and Classroom Assessment Scoring System (CLASS) for preschool classrooms.

Data sources utilized by the team included: child and family files, classroom observations, CLOUDS database reports, and parent and staff interviews.

- **671** child and family files reviewed
- **16** classrooms sampled for center monitoring
- **62** directly operated, partner and delegate agency infant, toddler, and preschool classroom environments observed
- **31** classrooms received CLASS Observations completed between November-December

Center Monitoring
Top 3 Strengths: <ul style="list-style-type: none"> ➤ Head counts are completed, current and accurate; counts in binder are complete. ➤ Surveillance monitor shows clear, unobstructed views of classrooms, entrances and playgrounds. ➤ All staff and children in attendance are signed into CLOUDS
Areas Needing Improvement: <ul style="list-style-type: none"> ➤ Current emergency cards are readily available in one place. ➤ Toothbrushes are sorted in covered holders, not touching each other and are handled in a sanitary manner. ➤ Required emergency drills are conducted monthly.
Corrective Actions: Corrective actions were taken and validated.
NEED AND ELIGIBILITY
Top 3 Strengths: <ul style="list-style-type: none"> ➤ Child and Family Files are locked to ensure confidentiality. ➤ Child meets eligibility criteria established by the funding source(s). ➤ Files are organized in accordance with cover sheets.
Areas Needing Improvement: <ul style="list-style-type: none"> ➤ Income eligibility is current, correct, verified and matches CLOUDS. ➤ Admission Agreement is complete, signed, updated, and hours match CLOUDS, (S) NOA, and CD 9600/9600S. ➤ Eligible income snapshot in CLOUDS reflects income and family size.
Corrective Actions: Corrective actions were taken and validated.
COMPREHENSIVE SERVICES
Top 3 Strengths: <ul style="list-style-type: none"> ➤ Copy of the goals and objectives of IEP/IFSP is provided to the teacher. ➤ Positive Guidance Policy Step Letter to Parents (CSB521), and Positive Guidance Plan (CSB134B) are followed and in file. ➤ All subsequent sensory screenings for returning children are completed per the EPSDT Schedule.
Areas Needing Improvement: <ul style="list-style-type: none"> ➤ Ensure up-to-date child health status. Health Examination - Well Child Check (CSB207) is current, completed, signed, date stamped with the date received/reviewed and entered in CLOUDS. ➤ CLOUDS Health History including the consents section is completed. ➤ (F, P/S) Dental exam is current, completed, signed, date stamped with the date received/reviewed and entered in CLOUDS.
Corrective Actions: Corrective actions were taken and validated.

EDUCATION FILE	
Top 3 Strengths:	<ul style="list-style-type: none"> ➤ Education referrals, family meetings, and re-screenings are documented in file and CLOUDS. ➤ Kindergarten Transition Meeting, if applicable. ➤ Toddler Transition Plan: IFSP information is included
Areas Needing Improvement:	<ul style="list-style-type: none"> ➤ ASQ-3 Screening is conducted for newly enrolled children only within 45 days and form is completed, scored, signed, and in file and CLOUDS. ➤ (ASQ-SE) is conducted for newly enrolled children within 45 days during home visit with parent and completed in file and on CLOUDS. ➤ Initial Home Visit completed and in file. (First 45 Days)
Corrective Actions:	Corrective actions were taken and validated.
FCC ENVIRONMENT & EDUCATION	
Top 3 Strengths:	<ul style="list-style-type: none"> ➤ All areas under Learning Environment/Room Organization ➤ All areas under Outdoor Area ➤ All areas under Provider-Child Interactions
Areas Needing Improvement:	<ul style="list-style-type: none"> ➤ Child individualization is evident on lesson plans. ➤ Health, safety, nutrition social environment and mental health activities and discussions are reflected on the weekly lesson plans. ➤ Language and literacy, math, art, science, writing, music and movement, gross motor, and fine motor activities are reflected on the lesson plan.
PRESCHOOL EDUCATION ENVIRONMENT	
Top 3 Strengths:	<ul style="list-style-type: none"> ➤ Personal Care Routines: Greeting/Departing ➤ Interaction: General supervision of children ➤ Program Structure: Provisions for children with disabilities
Areas Needing Improvement:	<ul style="list-style-type: none"> ➤ Space and Furnishing: Child-related display ➤ Personal Care Routines: Health practices ➤ Language Reasoning: Using language to develop reasoning skills.
Corrective Actions:	Corrective action plans were developed and validated.
INFANT/TODDLER EDUCATION ENVIRONMENT	
Top 3 Strengths:	<ul style="list-style-type: none"> ➤ Space and Furnishing: Indoor Space ➤ Listening and Talking: Helping children use language ➤ Program Structure: Provisions for children with disabilities
Areas Needing Improvement:	<ul style="list-style-type: none"> ➤ Interaction: Discipline
Corrective Actions:	Corrective action plans were developed and validated.
CLASS	

Domain	CSB Average Score	CSB Threshold	Federal Threshold Based on lowest 10% of CLASS Scores of programs reviewed in 2017.
Emotional Support	6.50	6	5.7024
Classroom Organization	6.17	6	5.3264
Instructional Support	3.25	3	2.3095

CSB average scores exceed current Designation Renewal System threshold.

**Contra
Costa
County**

To: Board of Supervisors
From: John Kopchik, Director, Conservation & Development Department
Date: March 27, 2018

Subject: Annual Update on Implementation of the County General Plan

RECOMMENDATION(S):

1. ACCEPT the annual progress report by the Department of Conservation and Development (DCD) on implementation of the Contra Costa County General Plan 2005-2020, as required under California Government Code Section 65400.
2. DIRECT DCD staff to forward the General Plan annual progress report to the Governor's Office of Planning and Research (OPR) and the California Department of Housing and Community Development (HCD), as required under California Government Code Section 65400.

FISCAL IMPACT:

No impact to the General Fund. The report on the County's progress in implementing its General Plan is funded 100% from the Land Development Fund, FY 2017/2018.

BACKGROUND:

California Government Code Section 65400 requires the planning agency for certain cities and all 58 counties to submit an annual report to their legislative body (city council or board of supervisors, respectively), OPR, and HCD on the status of their General Plan and progress on its implementation. The annual report provides the local legislative body with information regarding the status of its General Plan

cc:

BACKGROUND: (CONT'D)

and gives OPR the opportunity to identify statewide trends in land use decision making, including how local planning and development activities relate to statewide planning goals and policies. Additionally, it enables OPR to track progress on a local jurisdiction's General Plan in terms of its comprehensiveness and consistency with the current OPR General Plan Guidelines and other State mandates.

There is no standardized form or format for preparation of the General Plan annual progress report. OPR leaves it up to each jurisdiction to determine which locally-relevant issues are important to include, but they do suggest general content to cover within the report. The attached report covering calendar year 2017 follows the general guidance of OPR in terms of content.

Staff notes that under a separate section of the Government Code, all local jurisdictions are required to submit a report to HCD on certain housing information, including the jurisdiction's progress in meeting its share of regional housing needs and local efforts to remove governmental constraints to development of housing. On March 27, 2018, the Board is scheduled to consider accepting the County's General Plan Housing Element implementation report for 2017. Information in that report is incorporated into the attached General Plan annual progress report.

Staff calls to the Board's attention the County's progress in meeting its share of regional housing needs. Current data indicates that through calendar year 2017, the third year of the current eight-year Housing Element cycle, the County has issued building permits for 62.6 percent of its allocated share of the region's housing needs. While the County has already made significant progress in achieving gross housing production goals, production of new housing units available to households in the low- and very low-income categories continues to stagnate. In 2017, the County issued three permits for new units available to low- and very low-income households. Through the first three years of the current housing cycle only 11 such permits have been issued, constituting 1.2 percent of the total building permits issued for new units.

CONSEQUENCE OF NEGATIVE ACTION:

State law requires DCD to submit this report to the Board of Supervisors prior to submitting it to OPR and HCD. The purpose of this report is to provide an update to the Board of Supervisors on General Plan implementation.

I. INTRODUCTION/PURPOSE OF ANNUAL REPORT

Purpose of this report is to comply with California Government Code section 65400(b)(1), which mandates that all cities and counties submit to their legislative bodies an annual report on the status of their General Plan and progress in its implementation. A copy of this report will, as required under the statute, be provided to the Governor's Office of Planning and Research (OPR) and California Department of Housing and Community Development (HCD). The County will provide a separate report to HCD in fulfillment of a statutory requirement to report certain housing information, including the County's progress in meeting its share of regional housing needs and local efforts to remove governmental constraints to maintenance, improvement, and development of housing, as defined in Government Code sections 65584 and 65583.

In compliance with Government Code Section 65400(b)(1), this General Plan Annual Progress covering calendar year 2017 has been prepared for the Contra Costa County Board of Supervisors' consideration and acceptance. This report:

1. Summarizes the status of the Contra Costa County General Plan and describes steps taken to implement General Plan policies in 2017;
2. Provides a summary of General Plan Amendments (GPAs) adopted by the Board of Supervisors in 2017;
3. Describes Housing Element implementation pursuant to Government Code sections 65584 and 65583(c)(3); and
4. Concludes with a discussion on goals, objectives, and work activities related to General Plan implementation for calendar years 2018 and 2019.

II. GENERAL PLAN STATUS AND IMPLEMENTATION

A. GENERAL PLAN BACKGROUND

The Contra Costa County Department of Conservation and Development (DCD) is a division of the planning agency for the unincorporated area of Contra Costa County and is responsible for proper preparation and administration of the County General Plan (County Ordinance Code section 26-2.808[1]). The Board of Supervisors adopted a comprehensive General Plan in January 1991 following an extensive public outreach and participation process initiated in 1986. This updated General Plan superseded the County's prior General Plan (and each of the previously adopted elements), and consolidated several area-specific General Plans into one comprehensive document.

The General Plan was re-adopted by the Board of Supervisors in July 1996 to consolidate General Plan Amendments approved between 1991 to 1995 and correct minor errors and omissions discovered in the original 1991 General Plan text. This reconsolidated General Plan covered the period from 1995 through 2010. The General Plan was re-adopted again in January 2005 to consolidate General Plan Amendments adopted between 1995 and 2004, revise text and maps to reflect the 1999 incorporation of the City of Oakley (formerly an unincorporated community covered under the County General Plan), and incorporate the 2001 Housing Element update. The second County General Plan "reconsolidation" covers the period from 2005 through 2020.

Government Code section 65302 specifies the seven mandatory General Plan elements. Each mandatory element of the County General Plan was prepared or updated in compliance with the *State of California General Plan Guidelines* published by OPR. Local jurisdictions may also include optional elements as they see fit. The County General Plan includes two such elements. Table 1 indicates the status of each General Plan element, including the year it was originally adopted and the year it was most recently revised.

TABLE 1: STATUS OF GENERAL PLAN ELEMENTS

Element	First Adopted	Last Revised
Land Use	1963	2005
Transportation/Circulation	1963	2005
Housing	1970	2014
Conservation	1973	2005
Open Space	1973	2005
Safety	1975	2005
Noise	1975	2005
Growth Management (optional)	1991	2005
Public Facilities/Services (optional)	1972	2005

B. ADOPTED GENERAL PLAN AMENDMENTS FOR CALENDAR YEAR 2017

Pursuant to Government Code section 65358(b), the County may amend the mandatory General Plan elements up to four times per calendar year. However, each amendment may include more than one change to the General Plan. DCD refers to amendments to the mandatory elements as “consolidated” because each may consolidate multiple changes in one action. The Board of Supervisors, acting in its capacity as the legislative body for the unincorporated areas of Contra Costa County, adopted four amendments to the County General Plan during calendar year 2017, which are summarized as follows:

▪ **1st Consolidated General Plan Amendment**

Saranap Village Mixed-Use Project (County File GP#13-0003): Amended the Land Use Element Map, Transportation and Circulation Element text, and Roadway Network Map to allow a mixed-use infill project consisting of 198 multi-family units and approximately 22,000 square feet of neighborhood-serving commercial uses. Adopted by the Board of Supervisors on August 15, 2017. Initiated by the private sector.

▪ **2nd Consolidated General Plan Amendment**

Olympic Boulevard Five-Lot Subdivision (County File GP#15-0002): Amended the Land Use Element Map to increase the allowed density at an infill site. Adopted by the Board of Supervisors on December 5, 2017. Initiated by the private sector.

▪ **3rd Consolidated General Plan Amendment**

Land Use Element Map Update (County File #GP17-0005): Amended the Land Use Element Map to reflect land acquisitions and use by public agencies. Adopted by the Board of Supervisors on December 19, 2017. Initiated by the County.

Commercial Solar Energy Amendment (County File #GP17-0006): Amended the text of the Land Use Element to allow commercial/distribution-scale solar energy generating facilities in areas designated Commercial, Light Industry, and Heavy Industry on the Land Use Element Map. Adopted by the Board of Supervisors on December 19, 2017. Initiated by the County.

C. GENERAL PLAN AMENDMENTS AND OTHER ACTIVITIES RELATED TO GENERAL PLAN IMPLEMENTATION INITIATED IN 2017

Proposals to amend the General Plan, whether submitted from the private sector or County-initiated, must be preliminarily reviewed by the Board of Supervisors before DCD may begin the full GPA process. In 2017 the Board of Supervisors preliminarily reviewed the following proposals:

- Bixler Road Mini-Storage GPA (County File GP#17-0001): A request to amend the Land Use Element Map to redesignate a 6.6-acre site from Office to Commercial to allow development of a mini-storage facility. Initiated by the private sector.
- Discovery Bay Mixed-Use GPA (County File: GP#17-0003): A request to amend the Land Use Element Map to redesignate a 7.2-acre infill site from Commercial to Multiple-Family Residential – Medium Density to allow development of a multi-family residential project. Initiated by the private sector.

D. COMPLIANCE WITH OFFICE OF PLANNING AND RESEARCH GENERAL PLAN GUIDELINES AND ASSOCIATED DIRECTIVES

Government Code section 65400 requires jurisdictions to discuss the degree to which the adopted General Plan complies with the *General Plan Guidelines*. The *Guidelines* provide a definitive interpretation of State statutes and case law as they relate to the General Plan. Additionally, the *Guidelines* outline the general framework for preparation and revision of a General Plan, Attorney General Opinions, and the relationship of the General Plan to the requirements of the California Environmental Quality Act (CEQA). The *Guidelines* are advisory in nature rather than prescriptive, and thereby preserve opportunities for a local jurisdiction to address contemporary planning topics in a locally appropriate manner. DCD staff has determined that the County General Plan is consistent with the 2003 version of the *Guidelines*.

OPR issued a comprehensive update to the *Guidelines* in August 2017. This new version includes topics and issues not currently addressed in the County General Plan, such as climate change, environmental justice, and community health. The County will address these and other topics as part of the upcoming General Plan update (see discussion below).

In addition to the *General Plan Guidelines*, OPR has issued other advisories and guidance related to State planning law requirements for cities and counties. DCD has endeavored to incorporate these advisories into the County's planning process. For example, in November 2005 OPR issued a supplement to the *Guidelines* providing advisory guidance on the process for consulting with California Native American tribes during adoption or amendment of local General Plans or Specific Plans in order to protect Traditional Tribal Cultural Places (also known as SB 18 Tribal Consultation). DCD has established a protocol for SB 18 Tribal Consultation on General Plan Amendments and Specific Plans in accordance with the November 2005 guidance.

In December 2010 OPR provided guidance on amending circulation elements in response to AB 1358 (Leno), The California Complete Streets Act, which requires cities and counties to plan for development of multi-modal transportation networks. In 2008, the Board of Supervisors amended the Land Use, Transportation and Circulation, and Open Space Elements of the General Plan to include language supporting the Complete Streets philosophy. Then in July 2016 the Board adopted the *Complete Streets Policy of Contra Costa County*, which builds upon the 2008 amendments. Pursuant to AB 1358, Complete Streets/multi-modal transportation planning will be fully integrated into the Transportation and Circulation Element upon its next substantial revision, which is anticipated to occur in 2020 (see below).

In May 2015 OPR issued a technical advisory on fire hazard planning which among other things, provides guidance on amending safety elements pursuant to SB 1241 (Kehoe). DCD is in the process of amending the County General Plan Safety Element to comply with SB 1241 (see below).

OPR has also worked to improve communication and encourage collaboration between local governments and the United States military on land use planning and development issues in response to passage in 2002 of SB 1468 (Knight) and SB 1462 (Kuehl) in 2004. DCD has established a protocol to determine whether notification to the U.S. military is necessary if a project is located within 1,000 feet of a military installation or within special airspace as defined in the Public Resources Code section 21098. DCD uses the California Military Land Use Compatibility Analyst, which was prepared by the State Resources Agency in conjunction with OPR to help cities and counties find the location of military installations and training facilities within their jurisdiction and to determine whether a project triggers notification to the U.S. military.

III. HOUSING ELEMENT IMPLEMENTATION AND PROGRESS IN MEETING SHARE OF REGIONAL HOUSING NEEDS

The County General Plan Housing Element was preliminarily approved by the Board of Supervisors in 1970, approximately one year after State law established the element as one of the mandatory General Plan elements. The Housing Element was formally adopted by the Board in December 1980 following new mandates established in the mid-1970s, and has been updated several times as part of the mandated cycle of Housing Element updates adopted by the State Legislature beginning in 1985. The current Housing Element, which was certified by HCD on March 11, 2015, sets forth the County's housing goals, objectives, policies, and implementation measures.

The attached tables listed as A, A3, B, and C are from Contra Costa County's Annual Housing Element Progress Report for 2017. These tables contain detailed information pertaining to progress and implementation activities for the 5th Cycle Housing Element planning period, which began January 31, 2015, and ends in 2023.

A. SHARE OF REGIONAL HOUSING NEED

Table 2 summarizes the County's share of projected regional housing needs in the San Francisco Bay Area over the 5th Cycle Housing Element planning period.

TABLE 2: SHARE OF REGIONAL HOUSING NEEDS

Regional Housing Needs Allocation (RHNA)
by Income Category for San Francisco Bay Area and Contra Costa County, 2015-2023

State Affordability - Income Category	SF Bay Area Total RHNA	Contra Costa County RHNA	
		Unincorporated + Cities	Unincorporated only
Very-Low Income	46,680	5,264	374
Low Income	28,940	3,086	218
Moderate Income	33,420	3,496	243
Above-Moderate Income	78,950	8,784	532
TOTAL Housing Need	187,990	20,630	1,367

The RHNA for the 5th Cycle was adopted by the Association of Bay Area Governments (ABAG) in July 2013.¹

B. HOUSING PRODUCTION

Table 3 provides a breakdown by income level of the County's housing production for 2017 along with a running total for the current Housing Element cycle.

TABLE 3: UNIT COUNT - UNINCORPORATED COUNTY HOUSING PRODUCTION

Income Level		RHNA by Income Level	Units Built in 2017 (Percentage) ²	Total 5 th Cycle Units Built (Percentage) ³	Total Remaining RHNA Units
Very-Low	Deed Restricted	374	0 (0.0%)	0 (0.0%)	374
	Non-Restricted		0 (0.0%)	0 (0.0%)	
Low	Deed Restricted	218	3 (0.01%)	3 (0.01%)	207
	Non-Restricted		0 (0.0%)	8 (0.03%)	
Moderate		243	31 (12.7%)	124 (51.0%)	119
Above-Moderate		532	244 (45.9%)	721 (135.5%)	0
TOTAL		1,367	278 (20.3%)	856 (62.6%)	700

The County issued 278 permits for new residential units in 2017, equaling 20.3 percent of the entire eight-year 5th Cycle RHNA. This represents a 3.6 percent annual increase from 2016. Through 2017, the third year of the 5th Cycle, the County has issued permits for 62.6 percent of its RHNA share and has already exceeded its share of above-moderate income units. The County is on pace to exceed its share of moderate-income units as well. However, only 3 permits were issued in 2017 for units which would be affordable to very low- or low-income households (income at 51 to 80 percent of the area median income [AMI] for Contra Costa County). While the County is well on its way toward meeting its total

¹ Source: ABAG Website, *Regional Housing Need Plan for the San Francisco Bay Area: 2014-2022*

² Indicates percentage of units constructed during the current reporting year relative to the total RHNA for each income category.

³ Indicates cumulative percentage of units constructed for the 5th Cycle relative to the total RHNA for each income category.

RHNA share, 84.2 percent of new housing production has been in the above-moderate income category and less than 1 percent has been in the very-low and low-income categories.

C. BARRIERS TO HOUSING DEVELOPMENT AND AFFORDABLE HOUSING ACTIVITY IN CALENDAR YEAR 2017

Market factors such as the high cost of land suitable for residential development and high construction costs continue to be the most significant constraints on development of affordable housing in Contra Costa County. The County attempts to counter these factors with strategies and subsidy programs, which are identified in the General Plan Housing Element, aimed at developing affordable rental housing and expanding homeownership opportunities. The key funding sources the County utilizes include Community Development Block Grant (CDBG), HOME Investment Partnerships Act, Emergency Solutions Grant Funds, Housing Opportunities for Persons with AIDS (HOPWA), Mental Health Services Act, Housing Successor (former Redevelopment Set-Aside) Funds, bond financing, Mortgage Credit Certificates, low-income housing tax credits, and Section 8 Assistance.

Table C, attached, briefly outlines the housing programs contained in the Housing Element and describes their 2017 performance. Some notable County actions include:

- Issuing \$146.79 million in tax-exempt bonds for construction of 376 new units in the unincorporated community of North Richmond and cities of El Cerrito and Richmond.
- Issuing \$19.50 million in tax-exempt bonds for rehabilitation of 114 units in the unincorporated community of Bay Point and City of Concord.
- Providing \$625,000 in HOME funds to support rehabilitation of a 14-unit apartment complex in the community of Bay Point.
- Issuing \$100,000 in CDBG funds for an 82-unit senior housing project in the City of Pleasant Hill.
- Weatherizing 348 residential units (273 extremely-low income and 75 very-low income).
- Providing 24 Mortgage Credit Certificates worth \$1.89 million for first-time homebuyers.
- Approving a 193-unit apartment project in the community of Bay Point, which included a density bonus.
- Issuing 28 building permits for Accessory Dwelling Units (ADUs).
- Amending the ADU Ordinance to streamline approval of internal conversions.
- Adopting the Farmworker Housing Ordinance.

A barrier to affordable housing also exists in the form of discrimination. Contra Costa County affirmatively furthers fair housing through the ongoing support of fair housing counseling, education, and outreach activities. In addition, all housing projects funded by the County are required to undertake broad marketing activities in a manner consistent with federal and State fair housing laws, including outreach to underserved populations. The Analysis of Impediments to Fair Housing (AI) was adopted by the Board of Supervisors in 2010 and updated April 2017.

IV. **GOALS, OBJECTIVES, AND WORK ACTIVITIES RELATED TO GENERAL PLAN IMPLEMENTATION FOR CALENDAR YEARS 2018 AND 2019**

In 2018 and 2019 DCD will continue a significant work effort associated with General Plan implementation in response to the following State mandates:

Safety Element

Fire Hazard Severity Map – As required under SB 1241, the Fire Hazard Severity Map in the Safety Element will be updated to reflect new mapping by the California Department of Forestry and Fire Protection (Cal Fire) of wildland fire hazards and risks, and to identify State responsibility areas and very-high fire hazard severity zones in Contra Costa County. Accordingly, the Safety Element's goals, policies, and implementation measures related to wildland fire hazards will be reviewed and updated, as necessary.

Land Use Element

Disadvantaged Unincorporated Communities – SB 244 (Wolk, 2011) requires cities and counties to address the infrastructure and service needs of unincorporated disadvantaged communities (DUCs) in their respective General Plans. DUCs are defined under SB 244 as:

- Containing 10 or more dwelling units in close proximity to one another;
- Within a city Sphere of Influence (SOI), or is an island surrounded by a city, or is geographically isolated and has existed for more than 50 years; and,
- Having a median household income that is 80 percent or less than the statewide median household income.

SB 244 requires that the Land Use Element be updated to identify DUCs and analyze the water, wastewater, stormwater drainage, and structural fire protection deficiencies and needs for each. Funding alternatives for extension of services to the DUCs must also be identified.

General Plan Update

The term of the County General Plan extends through calendar year 2020. In December 2017, the Board of Supervisors formally directed DCD staff to begin an update of the General Plan and provided direction regarding the document's content. Among other improvements, the updated General Plan will address economic development, community health, climate change, and environmental justice; include a fully rewritten Transportation and Circulation Element to address SB 743; and incorporate the most recent version of numerous planning documents such as *Plan Bay Area 2040*, the Bay Area Air Quality Management District's *2017 Clean Air Plan*, the Delta Protection Commission's updated *Land Use and Resource Management Plan for the Primary Zone of the Delta*, the *Contra Costa County Community Climate Action Plan*, and the *Contra Costa County Hazard Mitigation Plan*. Work on the General Plan update will begin in earnest in 2018 and extend through 2020.

Reporting Period 01/01/2017 - 12/31/2017

Table C

Program Implementation Status

Program Description (By Housing Element Program Names)		Housing Programs Progress Report - Government Code Section 65583. Describe progress of all programs including local efforts to remove governmental constraints to the maintenance, improvement, and development of housing as identified in the housing element.	
Name of Program	Objective	Timeframe in H.E.	Status of Program Implementation
Review of Zoning & Subdivision Ordinance	Periodically review subdivision ordinance to ensure it does not unduly constrain housing development. Revise zoning code to allow emergency shelters by right, single room occupancy housing, transitional and permanent supportive housing, and agricultural worker housing.	Ongoing	The agricultural worker housing, permanent supportive housing, and transitional housing zoning ordinances were adopted on September 19, 2017.
Coordinated County Department Review of Development Applications	Expedite application review through a better coordinated process with other County departments	Ongoing	The County strives to coordinate and reach-out to other County departments and agencies when processing new applications.
Anti-Discrimination Program	Promote fair housing.	Complete update to the AI after promulgation of new regulations	The Analysis of Impediments to Fair Housing (AI) was adopted by the Board of Supervisors on May 25, 2010. An update to the AI was completed April 12, 2017. The County is currently working on a County-wide Assessment of Fair Housing report and has entered into contract with a consultant to prepare this document.

Residential Displacement Program	Limit number of households being displaced or relocated because of County sponsored programs or projects.	Ongoing	There are no updates to report this period within the unincorporated County.
Residential Energy Conservation Program	Participate in Bay Area regional efforts to reduce energy consumption.	Ongoing	Solar permits for roof-mounted residential PV systems are available on-line under the Application and Permit Center web page. Instructions for in-person and on-line submittal for expedited review is posted on the County's web page. The number of solar permits issued is 1,515. The County also participates in BayREN a regional energy network, which is a collaboration of the nine counties that make up the San Francisco Bay Area. This program is led by the Association of Bay Area Governments, and is an incentive and rebate program for owners and property managers for Homeowner's Associations for single-family and multi-family units for energy efficiency retrofits. There were 482 upgrades County-wide, with 27 upgrades in the unincorporated County.
Neighborhood Preservation Program	Improve the quality of existing housing & neighborhoods.	Ongoing	There were seven homes within the unincorporated county that were rehabilitated. Of those seven projects, two households were extremely low income (30% AMI), one household was very low-income (50% AMI), and two households were low-income (80% AMI).
Weatherization Program	Assist homeowners and renters with minor home repairs.	Ongoing	348 units have been weatherized in County cities, towns, and communities. 273 units were extremely low income and 75 units were very low income.
Code Enforcement	Maintain & improve the quality of existing housing & neighborhoods.	Ongoing	There were a total of 838 cases opened and 738 cases closed. Approximately 99% of all cases were residential.
Preservation of Affordable Housing Assisted with Public Funds	Preserve the existing stock of affordable housing.	Ongoing	The County awarded \$280,000 to RNHS in CDBG funds for a scattered sites rehabilitation of three single-family rental homes in Richmond. The County also closed financing and issued \$19,500,000 in tax-exempt bonds on rehabilitation projects, which includes Elaine Null a 14-unit apartment in Bay Point, Camara Circle a 52-unit apartment in Concord, and Riley Court a 48-unit apartment in Concord. The County previously allocated HOME and CDBG funds to Elaine Null and Riley Court. In addition, there were two rehabilitation projects where the county provided CDBG and HOME funds in a prior year completed construction. This includes Virginia Lane, a 91-unit project in Concord and East Bluff, a 144-unit project in Pinole.
New Construction of Affordable Housing	Increase the supply of affordable housing, including units affordable to extremely low income households.	Annual: Award HOME, CDBG, and HOPWA funds to experienced housing developers	The County awarded CDBG and HOME funds for various projects within the county and cities. The County provided \$2,750,000 in CDBG funding and \$15,790,000 in tax-exempt bonds to Heritage Point, a 42-unit rental project in North Richmond. The County previously allocated CDBG and Former Redevelopment Area funds to this project. Additionally, the County issued \$21,000,000 tax-exempt bonds to Hana Gardens a 63-unit senior rental project in El Cerrito, which was previously funded with HOME and CDBG. The County also awarded \$1,000,000 in CDBG funds, \$1,200,000 in HOME funds to St.

		(fun	Paul's Commons a 45-unit rental project in Walnut Creek. In addition, the County awarded \$100,000 in CDBG funds for Aging in Place, an 82-unit senior project in Pleasant Hill and \$110,000,000 in tax-exempt bonds for 21 and 23 Nevin a 271-unit apartment in Richmond.
Housing Successor to the former Redevelopment Agency	Utilize County owned property (former redevelopment agency) to develop affordable housing	Disposition agreements by 2020	The Rodeo Senior Housing Extension project in Rodeo is under an Exclusive Negotiating Agreement, which was approved in January 2017. The County also entered into an Exclusive Negotiating Agreement with a developer for a 325-unit multi-family housing development, Orbisonia Heights in Bay Point.
Inclusionary Housing	Integrate affordable housing within market-rate developments.	Ongoing	There were no in-lieu fees collected during this reporting period.
Acquisition/ Rehabilitation	Improve existing housing and increase supply of affordable housing.	Ongoing	The County awarded \$625,000 in HOME funds for the rehabilitation of the Elaine Null Apartments an existing 14-unit rental development in Bay Point.
Second Units	Facilitate the development of second units.	Ongoing	There were 28 building permits issued for second units.
Affordability by Design	Develop affordability by design program to promote creative solutions to building design and construction.	2017	There is nothing to report for this reporting period.
New Initiatives Program	Develop new programs or policies to fund or incentivize affordable housing development	2017	The County updated the Accessory Dwelling Unit Ordinance to streamline internal conversions.
Special Needs Housing	Increase the supply of special needs housing.	Annually: Include a priority for special needs housing in CDBG, HOME, HOPWA NOFA	There were no projects in this reporting period within the unincorporated County.
Developmental Disabled Housing	Increase the supply of housing available to persons with developmental disabilities	Annually: Include a priority for special needs housing in CDBG, HOME, HOPWA NOFA	There were no projects this reporting period in the unincorporated County.

Accessible Housing	Increase the supply of accessible housing.	Ongoing	The County continues to require accessible units in all new construction projects that received HOME or CDBG funding. Accessible units are included in rehabilitation projects when feasible where five percent of the units must be accessible to the physically impaired and an additional two percent of the units must be accessible to the hearing/vision impaired. (See New Construction and Affordable Housing Program)
Reasonable Accommodation	Increase the supply of special needs and accessible housing.	Ongoing	Through the NPP program, the County assisted in the funding of 2 projects that included accessibility improvements for accessible bathroom renovations.
Contra Costa Interagency Council on Homelessness	Meet the housing & supportive services needs of the homeless	Ongoing	This program is currently known as the Council on Homelessness. They continue to support the development of permanent supportive housing. Hearth Act funds are used for the support of existing permanent supportive housing units or placement of people into permanent supportive housing.
Farmworker Housing	Increase the supply of farmworker housing	Annually: Include farmworker housing in CDBG, HOME NOFA (See #5 above)	There were none built this reporting period. The County's Farmworker Housing Ordinance was adopted in September 2017.
First-Time Homebuyer Opportunities	Provide additional homeownership opportunities.	Ongoing	The County provided 24 households with Mortgage Credit Certificate Program (MCC) funds throughout the county and cities with a total of \$1,890,150 in MCC funds.
Extremely Low Income Housing	Promote development of housing affordable to extremely low income households.	Annually: Include a priority for extremely-low income housing in CDBG, HOME, HOP	The County continues to provide funding preferences to developers who include units that are affordable to extremely-low income households. There were a total of 275 extremely low income housing projects during this reporting period (See Neighborhood Preservation Program and Weatherization Program).
Sites Inventory	Provide for adequate housing sites, including 'as-right development' sites for homeless facilities	Ongoing maintenance of site inventory.	There are no changes or updates for this reporting period.
Mixed-Use Developments	Encourage mixed-use developments.	2016/2017: Draft outline of revised ordinance and meet with	The Saranap Village project in the Saranap community was granted planning entitlements for retail with 70 for-sale condominiums, 6 for-sale townhomes, and 122 rental apartment units.

		stakeholder groups	
Density Bonus & Other Development Incentives	Support affordable housing development.	Ongoing	The Bay Point Family Apartments project in Bay Point was granted planning entitlements for a 193-unit apartment building, which included a density bonus.
Infill Development	Facilitate infill development.	Biennially: Review site inventory and adjust for planned and completed developme	The County continues to use the Small Lot Review process to assist applicants in developing infill single-family residences on substandard-size lots and streamline the administrative review process for infill housing in the former redevelopment areas.
Planned Unit District	Provide flexibility in design for residential projects.	Ongoing	The County began drafting a revised ordinance to remove the minimum lot size requirements for Planned-Unit Development projects.
Development Fees	Reduce the cost of development	Ongoing	There are no updates to report during this period.
Quick Turn-around Program	Develop program to expedite review of small projects, and conditions of approval	2017	This program continues to be utilized for ensuring expedited review of infill projects and various planning applications including tree permits, variances, and design reviews.

**Contra
Costa
County**

To: Board of Supervisors
From: Kathy Gallagher, Employment & Human Services Director
Date: March 27, 2018

Subject: Acknowledgement of Emergency Closures of Childcare Sites During Fiscal Year 2017-18

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to seek reimbursement from the California Department of Education in an amount not to exceed \$2,096, to maintain Child Days of Enrollment during emergency closures at one of its partner sites, We Care Services for Children, during FY 2017-18.

FISCAL IMPACT:

Approval of this action will allow the County to maintain Child Days of Enrollment for FY 2017-18, preserving revenue of \$2,096 from the California Department of Education.

BACKGROUND:

During FY 2017-18, two emergency closures occurred at one of the County's childcare partner sites, We Care Services for Children. The closure affected 61 children in total. On December 14-15, 2017, the center could not operate due to a broken heater. On February 6, 2018, the center could not operate due to interrupted electric service all day during PG&E performing maintenance.

In order to prevent a loss of funds during this period, the County has the option to submit a Board Order to the State in order to maintain childcare fund reimbursement for the impacted days of closure.

ATTESTED: March 27, 2018

David J. Twa, County Administrator and Clerk of the Board of Supervisors

ABSENT: John Gioia, District I
Supervisor

By: June McHuen, Deputy

Contact: CSB (925) 681-6334

cc: Nelly Ige, Ressie Dayco

BACKGROUND: (CONT'D)

This option is allowable per California Department of Education, Child Development Management Bulletin 10-09 "Reduced Days of Operation or Attendance Due to Emergency Conditions."

CONSEQUENCE OF NEGATIVE ACTION:

If not approved, the County will forego \$2,096 in potential revenue.

CHILDREN'S IMPACT STATEMENT:

The Employment and Human Services Department, Community Services Bureau supports three of Contra Costa County's community outcomes - Outcome 1: Children Ready for and Succeeding in School, Outcome 3: Families that are Economically Self-sufficient, and Outcome 4: Families that are Safe, Stable, and Nurturing. These outcomes are achieved by offering comprehensive services, including high quality early childhood education, nutrition, and health services to low-income children throughout Contra Costa County.

Management Bulletin

December closure report

February closure report

Home / Specialized Programs / Child Development / Contractor Information

Management Bulletin 10-09

Early Education and Support Division

Subject: Reduced Days of Operation or Attendance Due to Emergency Conditions

Number: 10-09

Date: October 2010

Expires: Until Rescinded

Authority: California *Education Code* Section 8271

Attention: Executive Officers and Program Directors of all Child Care and Development Programs

Purpose

The purpose of this Management Bulletin, which supersedes Management Bulletin 09–16, is to remind agencies that California *Education Code (EC)* Section 8271 provides against loss of funds due to circumstances that are beyond control of the contractor.

Background

This Management Bulletin, which supersedes Management Bulletin 09–16, is to remind agencies that *EC* Section 8271 provides against loss of funds due to circumstances that are beyond control of the contractor. It states:

In the event that operating agencies are unable to operate due to incomplete renovations authorized by administering state agencies, or due to circumstances beyond the control of the operating agency, including earthquakes, floods, or fires, such programs shall not be penalized for incurred program expenses nor in subsequent annual budget allocations.

Circumstances beyond the control of operating contractors include, but are not necessarily limited to:

1. Earthquakes
2. Floods
3. Fires
4. Epidemics

5. Impassable roads
6. The imminence of a major health or safety hazard, as determined by the local health department or law enforcement agency
7. A strike affecting transportation services for children provided by a non-agency entity
8. Incomplete facility renovations authorized by the California Department of Education, pursuant to California *Education Code* sections 8277.1 and 8277.2
9. State of California budget impasse

Policy

Whenever a contractor's days of operation are reduced for any of the above reasons, and the reduction in days of operation did not require the contractor to reduce staff through layoffs or unpaid furloughs, the contractor's governing board, or the executive office for contractors not having a governing board, must adopt a resolution that clearly and fully describes the nature of the emergency condition as well as the specific effect on program operations. The resolution should include:

- Dates program operation was necessarily suspended or substantially reduced
- Daily attendance for both certified and non-certified children for the week prior to the date operation was suspended or reduced

Whenever the contractor's days of operation are reduced because of a state budget impasse and this reduction requires the contractor to reduce staff through layoffs or unpaid furloughs, the contractor may request reimbursement for ongoing administrative and operational expenses that occurred during the emergency closure. The contractor's governing board, or the executive office for contractors not having a governing board, must adopt a resolution that clearly and fully describes the nature of the emergency condition as well as the specific effect on program operation. The resolution should include:

- Dates program operation was suspended
- A detailed list of actual program expenses incurred during the period of closure

Application Submission Requirements

The resolution should be faxed, e-mailed, or mailed to the appropriate Field Services Office Consultant in the Early Education and Support Division (EESD). Upon receiving the resolution, the EESD will jointly review the information with Child Development Fiscal Services to determine the amount of reimbursement for actual program expense incurred during the period of closure or reduced operation. Funding in subsequent fiscal years will not be affected by the above, contingent upon the availability of funds appropriated in the Annual Budget Act.

If you have any questions, please contact your assigned EESD Field Services Consultant at <http://www.cde.ca.gov/sp/cd/ci/assignments.asp> or by phone at 916-322-6233.

This Management Bulletin is mandatory only to the extent that it cites a specific statutory and/or regulatory requirement. Any portion of this Management Bulletin that is not supported by a specific statutory and/or regulatory requirement is not prescriptive pursuant to California Education Code Section 33308.5.

Memo

To: LL Preschool Families

From: Darcie Azzolini

Date: December 13, 2017

Re: Classroom Closure

Hello Families,

Our heating/air conditioning unit that supports your child's classroom has had a motor stop working. The part has been ordered and we anticipate the unit will be fixed and running by Monday December 18, 2017. The program will be closed on Thursday December 14 and Friday December 15, 2017 due to no heating unit. We will see you again on Monday December 18th. Please don't hesitate to contact me if you have questions. Thank you for your patience.

Darcie Azzolini Paiva

WE CARE SOCIETY INC
DBA WE CARE CENTER
2191 KIRKER PASS RD
CONCORD, CA, 94521-1629

Dear Valued Customer,

PG&E will be temporarily interrupting your electric service in order to safely perform the following work in your area:

Replace Electric Pole

The planned electric service interruption affects the following vicinity or property address:

Kirker Pass Road - City of Concord
Meter#: 1008844961

Although we will do our best to minimize the length of the service interruption, please be prepared to be without electric service on the following date(s) and **estimated timeframe(s)**:

Tuesday, February 6, 2018 from 8:30 AM to 4:00 PM

We will make every effort to complete the work as scheduled, however, unsafe weather conditions or an unforeseen emergency may force us to cancel the work on the scheduled day. In such a case, we may be unable to notify you in advance of the cancellation.

We greatly appreciate your cooperation and thank you for your patience. If you have any questions or concerns, please contact me at the number below. For general questions about your PG&E service, call our customer service center at 1-800-743-5000.

County

To: Board of Supervisors
From: John Kopchik, Director, Conservation & Development Department
Date: March 27, 2018

Subject: Annual Housing Element Progress Report for Calendar Year 2017

RECOMMENDATION(S):

ACCEPT the 2017 Annual Housing Element Progress Report, in accordance with Government Code Section 65400.

FISCAL IMPACT:

There is no fiscal impact.

BACKGROUND:

The Housing Element is one of seven mandatory elements that every jurisdiction must include in its General Plan. State law mandates that all local governments adequately plan to meet the existing and projected housing needs of all economic segments of the community. The Association of Bay Area Governments allocates the Bay Area regional housing need to all the cities and counties in the Bay Area. Pursuant to Government Code Section 65400, the County is required to submit an annual report to the State Department of Housing and Community Development and the State Office of Planning and Research by April 1st of each year.

BACKGROUND: (CONT'D)

Jurisdictions are also required to submit the annual report to their legislative bodies for review and comment. Attached to this Board Order is the County's 2017 Annual Housing Element Progress Report.

The County's Housing Element (Fifth Cycle) covers the planning period from 2015 to 2023 and plans for the provision of 1,367 units of housing in the unincorporated County. This is the third report for the Fifth Cycle Housing Element.

In 2017, the County issued 278 building permits for single-family dwellings, 28 building permits were issued for accessory dwelling units, or second units, and 3 building permits were issued for mobile homes. Of these issued building permits, a total of 31 units were determined to be moderate-income housing units based on the location of the units and the type of dwelling (e.g. accessory dwelling units), and three units were lower-income units with density bonus deed restrictions. The number of building permits issued for above-moderate income housing was 244 units. During this reporting period, the County issued building permits for a total of 333 units.

Staff calls to the Board's attention the County's progress in meeting its share of regional housing needs. Current data indicates that through calendar year 2017, the third year of the current eight-year Housing Element cycle, the County has issued building permits for 62.6 percent of its allocated share of the region's housing needs. Through the first three years of the current housing cycle, the total number of units for which the County has issued building permits is 856 units, which includes 11 low-income units, 124 moderate-income units, and 721 above-moderate income units. While the County has already made significant progress in achieving gross housing production goals, production of new housing units available to households in the low- and very low-income categories continues to stagnate. In 2017, the County issued three permits for new units available to low- and very low-income households. Through the first three years of the current housing cycle only 11 such permits have been issued, constituting 1.2 percent of the total building permits issued for new units.

The County continues to implement 31 housing related programs, including programs designed to remove governmental constraints to maintaining, improving, and developing housing. A summary of the programs and recent accomplishments are included as Table C in the attached report.

CONSEQUENCE OF NEGATIVE ACTION:

There is no consequence of a negative action. The County is required to provide the annual Housing Element Progress Report to the Board of Supervisors in a public meeting to allow the public an opportunity to review and comment on the report.

Table C

Program Implementation Status

Program Description (By Housing Element Program Names)		Housing Programs Progress Report - Government Code Section 65583. Describe progress of all programs including local efforts to remove governmental constraints to the maintenance, improvement, and development of housing as identified in the housing element.	
Name of Program	Objective	Timeframe in H.E.	Status of Program Implementation
Review of Zoning & Subdivision Ordinance	Periodically review subdivision ordinance to ensure it does not unduly constrain housing development. Revise zoning code to allow emergency shelters by right, single room occupancy housing, transitional and permanent supportive housing, and agricultural worker housing.	Ongoing	The agricultural worker housing, permanent supportive housing, and transitional housing zoning ordinances were adopted on September 19, 2017.
Coordinated County Department Review of Development Applications	Expedite application review through a better coordinated process with other County departments	Ongoing	The County strives to coordinate and reach-out to other County departments and agencies when processing new applications.
Anti-Discrimination Program	Promote fair housing.	Complete update to the AI after promulgation of new regulations	The Analysis of Impediments to Fair Housing (AI) was adopted by the Board of Supervisors on May 25, 2010. An update to the AI was completed April 12, 2017. The County is currently working on a County-wide Assessment of Fair Housing report and has entered into contract with a consultant to prepare this document.

Residential Displacement Program	Limit number of households being displaced or relocated because of County sponsored programs or projects.	Ongoing	There are no updates to report this period within the unincorporated County.
Residential Energy Conservation Program	Participate in Bay Area regional efforts to reduce energy consumption.	Ongoing	Solar permits for roof-mounted residential PV systems are available on-line under the Application and Permit Center web page. Instructions for in-person and on-line submittal for expedited review is posted on the County's web page. The number of solar permits issued is 1,515. The County also participates in BayREN a regional energy network, which is a collaboration of the nine counties that make up the San Francisco Bay Area. This program is led by the Association of Bay Area Governments, and is an incentive and rebate program for owners and property managers for Homeowner's Associations for single-family and multi-family units for energy efficiency retrofits. There were 482 upgrades County-wide, with 27 upgrades in the unincorporated County.
Neighborhood Preservation Program	Improve the quality of existing housing & neighborhoods.	Ongoing	There were seven homes within the unincorporated county that were rehabilitated. Of those seven projects, two households were extremely low income (30% AMI), one household was very low-income (50% AMI), and two households were low-income (80% AMI).
Weatherization Program	Assist homeowners and renters with minor home repairs.	Ongoing	348 units have been weatherized in County cities, towns, and communities. 273 units were extremely low income and 75 units were very low income.
Code Enforcement	Maintain & improve the quality of existing housing & neighborhoods.	Ongoing	There were a total of 838 cases opened and 738 cases closed. Approximately 99% of all cases were residential.
Preservation of Affordable Housing Assisted with Public Funds	Preserve the existing stock of affordable housing.	Ongoing	The County awarded \$280,000 to RNHS in CDBG funds for a scattered sites rehabilitation of three single-family rental homes in Richmond. The County also closed financing and issued \$19,500,000 in tax-exempt bonds on rehabilitation projects, which includes Elaine Null a 14-unit apartment in Bay Point, Camara Circle a 52-unit apartment in Concord, and Riley Court a 48-unit apartment in Concord. The County previously allocated HOME and CDBG funds to Elaine Null and Riley Court. In addition, there were two rehabilitation projects where the County provided CDBG and HOME funds in a prior year completed construction. This includes Virginia Lane, a 91-unit project in Concord and East Bluff, a 144-unit project in Pinole.
New Construction of Affordable Housing	Increase the supply of affordable housing, including units affordable to extremely low income households.	Annual: Award HOME, CDBG, and HOPWA funds to experienced housing developers	The County awarded CDBG and HOME funds for various projects within the County and cities. The County provided \$2,750,000 in CDBG funding and \$15,790,000 in tax-exempt bonds to Heritage Point, a 42-unit rental project in North Richmond. The County previously allocated CDBG and Former Redevelopment Area funds to this project. Additionally, the County issued \$21,000,000 tax-exempt bonds to Hana Gardens a 63-unit senior rental project in El Cerrito, which was previously funded with HOME and CDBG. The County also awarded \$1,000,000 in CDBG funds, \$1,200,000 in HOME funds to St.

		(fun	Paul's Commons a 45-unit rental project in Walnut Creek. In addition, the County awarded \$100,000 in CDBG funds for Aging in Place, an 82-unit senior project in Pleasant Hill and \$110,000,000 in tax-exempt bonds for 21 and 23 Nevin a 271-unit apartment in Richmond.
Housing Successor to the former Redevelopment Agency	Utilize County owned property (former redevelopment agency) to develop affordable housing	Disposition agreements by 2020	The Rodeo Senior Housing Extension project in Rodeo is under an Exclusive Negotiating Agreement, which was approved in January 2017. The County also entered into an Exclusive Negotiating Agreement with a developer for a 325-unit multi-family housing development, Orbisonia Heights in Bay Point.
Inclusionary Housing	Integrate affordable housing within market-rate developments.	Ongoing	There were no in-lieu fees collected during this reporting period.
Acquisition/ Rehabilitation	Improve existing housing and increase supply of affordable housing.	Ongoing	The County awarded \$625,000 in HOME funds for the rehabilitation of the Elaine Null Apartments an existing 14-unit rental development in Bay Point.
Second Units	Facilitate the development of second units.	Ongoing	There were 28 building permits issued for second units.
Affordability by Design	Develop affordability by design program to promote creative solutions to building design and construction.	2017	There is nothing to report for this reporting period.
New Initiatives Program	Develop new programs or policies to fund or incentivize affordable housing development	2017	The County updated the Accessory Dwelling Unit Ordinance to streamline internal conversions.
Special Needs Housing	Increase the supply of special needs housing.	Annually: Include a priority for special needs housing in CDBG, HOME, HOPWA NOFA	There were no projects in this reporting period within the unincorporated County.
Developmental Disabled Housing	Increase the supply of housing available to persons with developmental disabilities	Annually: Include a priority for special needs housing in CDBG, HOME, HOPWA NOFA	There were no projects this reporting period in the unincorporated County.

Accessible Housing	Increase the supply of accessible housing.	Ongoing	The County continues to require accessible units in all new construction projects that received HOME or CDBG funding. Accessible units are included in rehabilitation projects when feasible where five percent of the units must be accessible to the physically impaired and an additional two percent of the units must be accessible to the hearing/vision impaired. (See New Construction and Affordable Housing Program)
Reasonable Accommodation	Increase the supply of special needs and accessible housing.	Ongoing	Through the NPP program, the County assisted in the funding of 2 projects that included accessibility improvements for accessible bathroom renovations.
Contra Costa Interagency Council on Homelessness	Meet the housing & supportive services needs of the homeless	Ongoing	This program is currently known as the Council on Homelessness. They continue to support the development of permanent supportive housing. Hearth Act funds are used for the support of existing permanent supportive housing units or placement of people into permanent supportive housing.
Farmworker Housing	Increase the supply of farmworker housing	Annually: Include farmworker housing in CDBG, HOME NOFA (See #5 above)	There were none built this reporting period. The County's Farmworker Housing Ordinance was adopted in September 2017.
First-Time Homebuyer Opportunities	Provide additional homeownership opportunities.	Ongoing	The County provided 24 households with Mortgage Credit Certificate Program (MCC) funds throughout the county and cities with a total of \$1,890,150 in MCC funds.
Extremely Low Income Housing	Promote development of housing affordable to extremely low income households.	Annually: Include a priority for extremely-low income housing in CDBG, HOME, HOP	The County continues to provide funding preferences to developers who include units that are affordable to extremely-low income households. There were a total of 275 extremely low income housing projects during this reporting period (See Neighborhood Preservation Program and Weatherization Program).
Sites Inventory	Provide for adequate housing sites, including 'as-right development' sites for homeless facilities	Ongoing maintenance of site inventory.	There are no changes or updates for this reporting period.
Mixed-Use Developments	Encourage mixed-use developments.	2016/2017: Draft outline of revised ordinance and meet with	The Saranap Village project in the Saranap community was granted planning entitlements for retail with 70 for-sale condominiums, 6 for-sale townhomes, and 122 rental apartment units.

		stakeholder groups	
Density Bonus & Other Development Incentives	Support affordable housing development.	Ongoing	The Bay Point Family Apartments project in Bay Point was granted planning entitlements for a 193-unit apartment building, which included a density bonus.
Infill Development	Facilitate infill development.	Biennially: Review site inventory and adjust for planned and completed developme	The County continues to use the Small Lot Review process to assist applicants in developing infill single-family residences on substandard-size lots and streamline the administrative review process for infill housing in the former redevelopment areas.
Planned Unit District	Provide flexibility in design for residential projects.	Ongoing	The County began drafting a revised ordinance to remove the minimum lot size requirements for Planned-Unit Development projects.
Development Fees	Reduce the cost of development	Ongoing	There are no updates to report during this period.
Quick Turn-around Program	Develop program to expedite review of small projects, and conditions of approval	2017	This program continues to be utilized for ensuring expedited review of infill projects and various planning applications including tree permits, variances, and design reviews.

ANNUAL ELEMENT PROGRESS REPORT

Housing Element Implementation

(CCR Title 25 §6202)

Jurisdiction CONTRA COSTA COUNTY

Reporting Period 01/01/2017 - 12/31/2017

General Comments:

In addition to supporting important affordable housing developments in the unincorporated County, such as the 48 unit Heritage Point apartments in North Richmond and the 193 unit Bay Point Family apartments in Bay Point, the County is an active junior lender and issuer of multi-family mortgage revenue bonds (MF MRB) for developments in Contra Costa cities.

The County loans Community Development Block Grant (CDBG), HOME Investment Partnerships Act (HOME), and Housing Opportunities for Persons with HIV/AIDs (HOPWA) funds to affordable housing developers. These funds support both preservation of existing affordable housing and new construction.

Over the past year, the County awarded \$3.3 million in CDBG and HOME funds to development in Antioch, Pleasant Hill, Pittsburg, Richmond, and Walnut Creek; and issued \$167 million in MF MRB to support developments in Concord, El Cerrito, Pinole, Richmond, and Walnut Creek.

See Table C for additional information.

Contra
Costa
County

To: Board of Supervisors
From: David O. Livingston, Sheriff-Coroner
Date: March 27, 2018

Subject: Purchase Order - Optiv Security, Inc.

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Purchasing Agent, or designee, to execute a purchase order on behalf of the Sheriff-Coroner with Optiv Security, Inc. in the amount of \$135,000 for the purchase of a Palo Alto Networks Firewall for the Office of the Sheriff.

FISCAL IMPACT:

\$105,000 - 78% Homeland Security Grant 2017 (Y7A) funded
\$30,000 - 22% General Fund, Budgeted

BACKGROUND:

A firewall is a network device used to prevent access into and out of the Sheriff's Office secure network. It is a requirement to have a firewall in place between the network and the internet to meet the Criminal Justice Information Services (CJIS) security. Without this, no law enforcement agencies in the County can access the California Law Enforcement Telecommunications System (CLETS). The Sheriff's Office Tech Services Division uses the Palo Alto firewalls to filter users from going to inappropriate websites and prevent potential hackers from accessing critical data. The firewalls currently in place are over five years old. It is the County standard to replace this equipment every three years, no more than five years.

Costa
County

To: Board of Supervisors
From: John Kopchik, Director, Conservation & Development Department
Date: March 27, 2018

Subject: Participation in the Bay Area Urban Manufacturing Initiative

RECOMMENDATION(S):

AUTHORIZE the County to participate as a member in the Bay Area Urban Manufacturing Initiative to support the manufacturing sector in Contra Costa County.

FISCAL IMPACT:

There is no direct cost to join as a member at this time. There will be options to participate in special events and projects in the future at additional cost.

BACKGROUND:

The Bay Area Urban Manufacturing Initiative (BAUM) is a regional public-private effort to support existing manufacturers and their middle-income employment sector. BAUM provides training for public agency staff to help their manufacturing sector, such as specialized survey techniques and cannabis' impact on industrial real estate values. BAUM also organizes Bay Area-wide events to bring together public agencies and manufacturing businesses. The Initiative's signature event is an annual Manufacturing Summit, which will take place later this year. Cities, counties and other agencies may join BAUM at no cost, indicating support for the manufacturing sector within their jurisdictions. Further levels of participation in BAUM's collaborative programs are possibilities, such as organizing a local event on BAUM's regional Manufacturing Day (October 5).

By: June McHuen, Deputy

cc:

BACKGROUND: (CONT'D)

Contra Costa cities Antioch, Concord, Oakley, and Pittsburg are already BAUM members. Other public sector members are agencies with industrial real estate with which the county's unincorporated areas compete, such as Hayward, Fairfield, and San Leandro. The County's participation is consistent with policy in the Northern Waterfront Economic Development Initiative to support and expand middle-income employment opportunities in the County's industrial areas. BAUM is a productive vehicle to leverage regional support for growing more jobs in the industrial/advanced manufacturing sector. The BAUM registration form provides some additional information on membership benefits and expectations and is included as Attachment A.

CONSEQUENCE OF NEGATIVE ACTION:

If the County does not join the regional initiative, it will continue its independent efforts to support and promote industrial and advanced manufacturing uses within its boundaries without the benefit of the collaborative training and events, potentially becoming less competitive with the member cities that are participating.

CHILDREN'S IMPACT STATEMENT:

There is no impact on children.

ATTACHMENTS

BAUM Registration Form

Bay Area Urban Manufacturing Initiative City Participation

Launched in May of 2016, the **Bay Area Urban Manufacturing Initiative** is a three-year, multicity public-private partnership to catalyze a **powerful and interconnected regional manufacturing ecosystem**. By participating in the Bay Area Urban Manufacturing Initiative you will elevate the importance of local manufacturing and make a public commitment to your manufacturing community. The Initiative creates opportunities for your city to collaborate across the region on a sector specific strategy for equitable job sustainability and creation. **We must seize this opportunity to retain and create middle-class jobs for a more equitable Bay Area.**

Partner cities will receive:

- Complimentary invitations (2) to the Summer Shares Event
- Recognition as a partner at the Bay Area Urban Manufacturing Summit, in the *Bay Area State of Urban Manufacturing* report, and at www.bayareamfg.org
- Complimentary invitations (2) to the Bay Area Urban Manufacturing Summit
- Access to manufacturing resources and technical assistance around direct surveying techniques for manufacturers, collaborative policy initiatives, and industrial real estate
- Opportunities to promote your manufacturing sector throughout the Bay Area and the nation

Partner cities will:

- Hosting at least one event for Manufacturing Day
- Attending the Bay Area Urban Manufacturing Summit and Summer Shares Event
- Introducing the Initiative to a local manufacturer for the regional PR campaign
- Participating in the Initiative to the fullest extent possible

Partner cities will amplify the Initiative by allocating staff time to the above tasks. If you are unable to support staff participation, we would appreciate alternative assistance to enable the Initiative to support promotion and related efforts in your city.

To: Board of Supervisors
From: Anna Roth, Health Services Director
Date: March 27, 2018

Subject: Approve New and Recredentialing Providers in Contra Costa Health Plan's Community Provider Network

RECOMMENDATION(S):

APPROVE the list of providers recommended by Contra Costa Health Plan's Medical Director on February 21, 2018, and by the Health Services Director, as required by the State Departments of Health Care Services and Managed Health Care, and the Centers for Medicare and Medicaid Services.

FISCAL IMPACT:

No fiscal impact.

BACKGROUND:

The National Committee on Quality Assurance (NCQA) requires that evidence of Board of Supervisors' approval must be contained within each Contra Costa Health Plan (CCHP) provider's credentials file. Approval of this list of providers as recommended by the CCHP Medical Director will enable the CCHP to comply with this requirement.

CONSEQUENCE OF NEGATIVE ACTION:

If this action is not approved, CCHP's providers will not be appropriately credentialed and in compliance with the NCQA.

**Contra
Costa
County**

To: Board of Supervisors
From: David Twa, County Administrator
Date: March 27, 2018

Subject: FY 2017/18 CERTIFICATION OF PROPOSITION 172 PUBLIC SAFETY SALES TAX MAINTENANCE OF EFFORT

RECOMMENDATION(S):

APPROVE and AUTHORIZE the County Administrator, or designee, to execute the Maintenance of Effort Certification Form for Fiscal Year 2017/18 as required by Chapter 886, Statutes of 1994 to receive Proposition 172 (public safety sales tax increment) funds, and to submit the Certificate to the County Auditor-Controller.

FISCAL IMPACT:

This Certificate of Maintenance of Effort is required by State statute as implemented by guidelines issued by the California State Controller. Failure to submit the required certification form would result in the loss of more than \$80.1 million in State Proposition 172 funds for the current fiscal year.

BACKGROUND:

This ½ cent sales tax was authorized in 1994 as a result of the 1993/94 state budget process. Proposition 172 (Senate Bill 509) designated that the ½ cent sales tax be deposited to newly-created state and local public safety trust funds and allocated to local agencies to fund public safety activities such as police, sheriff, fire, district attorney, county corrections, and ocean lifeguards. Court operations were explicitly excluded.

To prevent supplantation of local revenues that would have otherwise been allocated to public safety functions with Proposition 172 sales tax, the Legislature enacted Assembly Bill 2788 as Chapter 886, Statutes of 1994. AB 2733 requires a local agency to commit at least the same resources as were committed

cc:

in FY 1992/93 (minus certain exclusions), adjusted each year by any growth in its Proposition 172 revenue, as maintenance of effort (MOE) in order to qualify to receive Proposition 172 (Public Safety Sales Tax).

BACKGROUND: (CONT'D)

> AB 2733 does not specifically define what is meant by “public safety services” and allows each county to make its own computation. In implementing the MOE section of Assembly Bill 2788 on May 16, 1995, as indicated in the Certification Form, it was most advantageous for this County to define public safety as follows: District Attorney (Department 0242), Probation (Departments (0308, 0309, 0310), Public Defender (Department 0243), Sheriff-Coroner (Departments 0255, 0277, 0300, and 0359), and Inmate Medical Care (Department 0301). It should be noted that the definition of “public safety services” for computation of the MOE obligation does not in any way detract from the Board’s authority to designate those funds to whatever public safety department or service it chooses.

The Board of Supervisors, in 1993, directed that all public safety sales tax proceeds will be allocated to the District Attorney and Sheriff departments. Due to the downturn in the California economy, public safety sales taxes received by Contra Costa County has gradually declined since FY 2005/06, by more than 10% over that five-year period. For the 2017/18 fiscal year, it is estimated that Proposition 172 funds will provide \$66.1 million to fund operations in the Sheriff’s Office and \$14.0 million to fund operations in the District Attorney’s Office.

2005/06 Actual	\$69,281,424
2006/07 Actual	\$67,318,904
2007/08 Actual	\$65,314,410
2008/09 Actual	\$57,641,994
2009/10 Actual	\$55,379,148
2010/11 Actual	\$60,388,430
2011/12 Actual	\$63,922,867
2012/13 Actual	\$67,178,163
2013/14 Actual	\$72,053,360
2014/15 Actual	\$74,736,241
2015/16 Actual	\$74,141,898
2016/17 Actual	\$77,499,977
2017/18 Budgeted	\$80,053,422

We have determined that for FY 2017/18, the adopted budget for the County-defined public safety services exceeded the County’s MOE obligation by more than \$188.2 million. In computing the MOE, we followed the Public Safety MOE Requirement Uniform Guidelines for California Counties and Cities approved by the State Association of County Auditors. By authorizing the County Administrator to execute and submit the MOE Certification Form to the County Auditor-Controller, the Board will assure that the County will receive its full allotment of Proposition 172 funds for the current year.

CONSEQUENCE OF NEGATIVE ACTION:

Failure to file the required certification will jeopardize the County's eligibility to receive public safety sales tax revenue.

Auditor-Controller
CONTRA COSTA COUNTY
AB2788 (Chapter 866/94)
Maintenance of Effort Certification Form

Name of County: Contra Costa

Fiscal Year of Certification: 2017/18

AB2788 Maintenance of Effort (MOE) Calculation:

Line 1: Total Public Safety Adopted Budget (Amount of Line 4.1 from Form A)	<u>317,500,203.00</u>
Line 2: Public Safety MOE (Amount of Line 3.2 from Form A)	<u>129,213,695.53</u>
Line 3: Difference (Amount of Line 1 minus Line 2) Over/(Under) AB2788 MOE Requirements	<u><u>188,286,507.47</u></u>

(*Enter this amount below.)

Certification Statement:

I hereby certify that the County of Contra Costa is over
/under (please circle one) the AB2788 Maintenance of Effort requirements
concerning the use of Proposition 172 revenues in the amount of
* 188,286,507.47 . Forms A and C are submitted in support of this
calculation. Detailed records concerning this calculation are available
upon request and will be retained.

Signature of County Official: 

Date Signed: 3/21/2018

Form A: AB2788 MOE Calculation Worksheet

Contra Costa
2017/18Step #1: Public Safety Services as Previously Defined

In 1994/95, the County established their definition of public safety services consistent with Government Code Section 30052. Listed below are all departments included in this definition.

District Attorney
Public Defender

Health Detention-Inmates
Sheriff (including Coroner)

Probation

Step #2: Growth Adjusted Base Year

The County determined the AB2788 base year amount in 1994/95 on Form B by using the 1992/93 adopted budget for all defined public safety departments.

Line 2.1: Total Base Year Forward	125,855,616.41
(Adjusted AB2788 Base Amount from Prior Year Form A, Line 3.2)	

Step #3: New Base Amount for Local Agency

AB2788 includes a growth factor provision equal to the previous years' growth in Proposition 172 revenues. The Auditor-Controller's Office will provide cities and counties with this amount. If appropriate, this amount should be added to the AB2788 Base Year.

Line 3.1: Growth Amount	3,358,079.12
-------------------------	--------------

Line 3.2: Total Base Amount for Local Agency	129,213,695.53
(Total of lines 2.1 and 3.1)	

Step #4: Determine AB2788 Public Safety Budget for Certification Year

The County should determine the AB2788 Public Safety Budget for the Certification year. The same departments and adjustments that were included in the AB2788 base year calculation have been entered on Form C. Please complete Form C to provide the following:

Line 4.1: Total AB2788 Public Safety Budget	317,500,203.00
---	----------------

Step #5: AB2788 Maintenance of Effort (MOE) Calculation

Please complete the AB2788 Certification Form using the above information. The calculation would be as follows:

Line 1 of the Certification Form	Take the amount of Line 4.1, Form A
Line 2 of the Certification Form	Less the amount of Line 3.2, Form A
Line 3 of the Certification Form	Equals the amount over/(under) AB2788 MOE requirement.

CONTRA COSTA COUNTY

Please complete the following Form to calculate the AB2788 MOE base year. Describe all AB2788 adjustments in the space provided below.

Public Safety Department	Certification Year Adopted Budget	AB 2788 Adjustments										Adjusted AB2788 Certification Year
		(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	
District Attorney (0242)	41,576,422		10,000	6,066,000	960,813		260,000		810,000			33,469,609
Probation (0308)	33,333,780			8,415,182						149,361		24,769,237
Probation (0309)	32,531,226			5,958,132								26,573,094
Probation (0310)	11,427,015							4,000,000				7,427,015
Public Defender (0243)	25,323,975			2,721,416								22,602,559
Sheriff (0255)	122,146,984	1,264,865	150,000	1,463,906			17,854,514					101,413,699

TWIC 2017 Referral
Report

Status Report: Referrals to the Transportation, Water, and Infrastructure Committee - 2017

Approved: December 11, 2017 TWIC Meeting

Referral	Status
1. Review legislative matters on transportation, water, and infrastructure.	<ul style="list-style-type: none"> Recommended the Board of Supervisors (BOS) ADOPT positions of various state transportation bills as follows (Various Dates): <ul style="list-style-type: none"> Received a report on Senate Bill 595 (Bridge Tolls) and forwarded a “consider” recommendation to the BOS July, August 2017 Received reports regarding the status of the Iron Horse Corridor relative to legacy obligations to the State. The County’s legislative advocate met with Caltrans, California State Transportation Agency (CalSTA), and California Transportation Commission (CTC) leadership, and provided documentation, communication and reports to the Committee. Various Dates. Activities also relate to Referral #s 12 & 15. Monitored and provided direction to staff and consultants, and made recommendations to the full BOS regarding the efforts by the State Legislature and Governor’s office to reform the state transportation funding system. Various Dates. Coordinated a visit to Senator Glazer to discuss school siting, transportation funding, and Delta issues. February 2017 Monitored SB 1 activities in compliance with new requirements. August 2017 In the context of reports of declining state transportation revenues, the Committee provided direction to staff on project prioritization in light of reduced available funding. February 2017 The Committee provided recommendations to the full BOS for revisions to the County’s state and federal legislative platforms. October 2017
2. Review applications for transportation, water and infrastructure grants to be prepared by the Public Works and Conservation and Development Departments.	<ul style="list-style-type: none"> The Committee reviewed a joint CC County/CCTA grant to Caltrans under the SB1 Sustainable Transportation Planning Grant program. August 2017 Directed staff to develop a grant reporting/tracking system. July 2017 Received a report on efforts to pursue the Marsh Creek Trail concept including grants in support of a corridor plan. October, November 2017 Received a report on a grant for a plan to develop a bicycle superhighway system in the Iron Horse Corridor. The Committee approved grants to be submitted to CCTA under the OBAG Program. December 2016

Referral	Status
3. Monitor the Contra Costa Transportation Authority (CCTA) including efforts to implement Measure J.	<ul style="list-style-type: none"> • Provided input and direction to staff on initiating an accessible transit study. Various Dates. Also relates to referral #17,
4. Monitor EBMUD and Contra Costa Water District projects and activities.	
5. Review projects, plans and legislative matters that may affect the health of the San Francisco Bay and Delta, including but not limited to conveyance, flood control, dredging, climate change, habitat conservation, governance, water storage, development of an ordinance regarding polystyrene foam food containers, water quality, supply and reliability, consistent with the Board of Supervisors adopted Delta Water Platform.	<ul style="list-style-type: none"> • Monitored the implementation and implications of Municipal Regional Permit 2.0, provided direction to staff, initiated communication with the State Water Resources Control Board. April, July 2017 • Received a report on the Lower Walnut Creek Restoration Project. October 2017
6. Review and monitor the establishment of Groundwater Sustainability Agencies and Groundwater Sustainability Plans for the three medium priority groundwater basins within Contra Costa County as required by the Sustainable Groundwater Management Act.	<ul style="list-style-type: none"> • Monitored, received reports, and provided direction to staff on the response to the Sustainable Groundwater Management Act of 2014 (SGMA) April, December 2017
7. Review issues associated with County flood control facilities.	
8. Monitor creek and watershed issues and seek funding for improvement projects related to these issues.	Related items in #5
9. Monitor the implementation of the Integrated Pest Management (IPM) policy.	<ul style="list-style-type: none"> • Received reports and provided direction to IPM staff on the program and interaction with the public, and forwarded reports to the full BOS. February, December 2017

Referral	Status
10. Monitor the status of county park maintenance issues including, but not limited to, transfer of some County park maintenance responsibilities to other agencies and implementation of Measure WW grants and expenditure plan.	
11. Monitor and report on the East Contra Costa County Habitat Conservation Plan (HCP).	<i>The Board of Supervisors received a report on the HCP, referred by TWIC, in September 2017.</i>
12. Monitor the implementation of the County Complete Streets Policy.	<ul style="list-style-type: none"> Received report on the San Pablo Avenue Complete Streets Study December 2017 Received report on complete streets/vision zero implementation. October 2017
13. Monitor and report on the Underground Utilities Program.	<ul style="list-style-type: none"> Received report on revisions to the 20a general agreement and considered a letter to the Public Utilities Commission on the same. December 2017- Activities also relate to Referral #15
14. Monitor implementation of the Letter of Understanding (LOU) with PG&E for the maintenance of PG&E streetlights in Contra Costa.	<ul style="list-style-type: none"> Received updates on the status of streetlight maintenance and the LOU. December 2017
15. Freight transportation issues, including but not limited to potential increases in rail traffic such as that proposed by the Port of Oakland and other possible service increases, safety of freight trains, rail corridors, and trucks that transport hazardous materials, the planned truck route for North Richmond; and the deepening of the San Francisco-to-Stockton Ship Channel.	<ul style="list-style-type: none"> Reviewed and approved a grant application for a shoreline freight rail study in the Northern Waterfront area to the federal Economic Development Administration. Also relevant to referral #1. December 2017
16. Monitor the Iron Horse Corridor Management Program.	See referral #1for related activities.
17. Monitor and report on the eBART Project.	

Referral	Status
18. Review transportation plans and services for specific populations, including but not limited to County Low Income Transportation Action Plan, Coordinated Human Services Transportation Plan for the Bay Area, Priorities for Senior Mobility, Bay Point Community Based Transportation Plan, Contra Costa County Mobility Management Plan, and the work of Contra Costans for Every Generation.	<ul style="list-style-type: none"> • See Referrals #2, 3 for related actions. • The Committee reviewed and provided direction to staff regarding implementing an Accessible Transit Study in cooperation with CCTA. Various Dates
19. Monitor issues of interest in the provision of general transportation services, including but not limited to public transportation and taxicab, transportation network companies.	<ul style="list-style-type: none"> • Monitored staff's effort in implementing a regional taxicab permitting process, received reports, provided direction to staff, and kept the full BOS apprised of progress. December 2017 • Related, Assembly Bill 1069 (Low) Local Government: Taxicab Transportation Services came before TWIC but was ultimately taken up by the County Administrator's Office.
20. Monitor the statewide infrastructure bond programs.	
21. Monitor implementation and ensure compliance with the single-use carryout bag ban consistent with Public Resources Code, Chapter 5.3 (resulting from Senate Bill 270 [Padilla – 2014]).	<i>No update in 2017</i>

Contra
Costa
County

To: Board of Supervisors
From: Anna Roth, Health Services Director
Date: March 27, 2018

Subject: Amendment Agreement #26-338-20 with American Red Cross

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Health Services Director, or designee, to execute Contract Amendment Agreement #26-338-20 with American Red Cross, a non-profit corporation, effective March 20, 2018, to amend Contract #26-338-19 to include additional blood services at Contra Costa Regional Medical Center (CCRMC) with no change in the original payment limit of \$1,500,000 or term April 1, 2017 through March 31, 2020.

FISCAL IMPACT:

This amendment is 100% funded by Hospital Enterprise Fund I.

BACKGROUND:

On March 21, 2017, the Board of Supervisors approved Contract #26-338-19 with American Red Cross to provide total blood and blood component products and associated services as needed for patients at the CCRMC for the period from April 1, 2017 through March 31, 2020.

The Contractor has taken a proactive approach to enhance safety of their blood supply by making reduced pathogen platelets available to hospitals. Reduced pathogen platelets can significantly reduce the risk of viruses, bacteria and parasites that may be present in blood products, which is the most significant risk in blood transfusions.

AYE: Candace Andersen, District II Supervisor
Diane Burgis, District III Supervisor
Karen Mitchoff, District IV Supervisor
Federal D. Glover, District V Supervisor

ABSENT: John Gioia, District I Supervisor

I hereby certify that this is a true and correct copy of an action taken and entered on the minutes of the Board of Supervisors on the date shown.

ATTESTED: March 27, 2018

David J. Twa, County Administrator and Clerk of the Board of Supervisors

By: June McHuen, Deputy

Contact: Jaspreet Benepal,
925-370-5741

BACKGROUND: (CONT'D)

Approval of Contract Amendment Agreement #26-338-20 will allow Contractor to provide pathogen reduced platelet blood services to CCRMC through March 31, 2020.

CONSEQUENCE OF NEGATIVE ACTION:

If this amendment is not approved, the contractor will not be able to provide additional blood services benefiting patients who need pathogen reduced platelets, which may increase the risk of infections during blood transfusions.

**Contra
Costa
County**

To: Board of Supervisors
From: Joseph E. Canciamilla, Clerk-Recorder
Date: March 27, 2018

Subject: Accept and Declare Results of the Special Mail Election Conducted March 6, 2018

RECOMMENDATION(S):

Accept and declare the results of the Special Mail Election conducted on March 6, 2018 as on file in the Contra Costa Elections Division for the East Contra Costa Fire Protection District Measure A and Diablo Community Services District Measure B.

FISCAL IMPACT:

None.

BACKGROUND:

Elections Code 15372 requires the Elections Official to prepare a certified statement of the results of the election and submit it to the governing body within 28 days of the election.

A certified Statement of Votes is attached to this Board Order.

CONSEQUENCE OF NEGATIVE ACTION:

The following list of local jurisdiction measures will not receive official approval and authorization to declare and accept the results.

Completion of One Percent Manual Count

3/9/2018

Pursuant to Elections Code 15360, Contra Costa County Elections Division conducted a one percent manual tally of precinct results for the March 6, 2018 Special Mail Ballot Election.

The random selection of precincts was conducted at the Elections Division on Wednesday, March 7th at 10:00 AM. Two precincts were drawn and counted in the one percent manual tally:

Precincts Selected – Results

Brentwood122 – Manual tally matches voting system tally

Diablo101 – Manual tally matches voting system tally

*The Board of Supervisors of
Contra Costa County, California*

In the matter of:

Resolution No. 2018/112

Recognition of Thirty-Eight Years of Service to Contra Costa County by Janissa Rowley on the Occasion of her Retirement

Whereas, Janissa Rowley has been an employee of Contra Costa County Community Services since 1991; and with Contra Costa County since 1979; and

Whereas, Janissa has been a leader in the field of early care and education for over fifty years; and

Whereas Janissa has been an assistant teacher, teacher, home visitor, education manager and assistant director throughout her career; and

Whereas Janissa has devoted her career to ensuring that disadvantaged children and their families have access to affordable, quality care; and

Whereas Janissa has embodied the belief that every child and their family has the right to be treated with dignity and respect; and

Whereas Janissa was instrumental in developing the very first childcare partnership in Contra Costa County in the 1990s; and

Whereas Janissa has devoted her career to advocating for equitable pay for early care teachers; and

Whereas Janissa has represented Community Services throughout her career on the Contra Costa Community College District Board, The Local Planning Council for Early Care and Education, Contra Costa Association for the Education of Young Children, California Childcare Director's Association and numerous task forces; and Whereas Janissa has developed several sustainable programs to support and encourage teacher development and education such as the Teacher Assistant Trainee and Teacher Apprenticeship Programs; and

Whereas Janissa has built strong relationships with the community colleges to ensure early care and education teachers have access to quality and affordable education and that there are avenues for higher education; and

Whereas Janissa has led the Community Services Education Team over the past seven years to bring numerous quality initiatives into the classrooms; and

Whereas Janissa's legacy of nurturing staff, children and families and her advocacy and commitment to the field will long be remembered throughout Contra Costa County and the State of California;

Now, Therefore, Be It Resolved that the Board of Supervisors of Contra Costa County congratulates Janissa Rowley on the occasion of her retirement.

ATTESTED: , 2018

DAVID TWA, Clerk of the Board of Supervisors and County Administrator

By  Deputy

**Contra
Costa
County**

To: Board of Supervisors
From: David Twa, County Administrator
Date: March 27, 2018

Subject: CONTINUE EXTENSION OF EMERGENCY DECLARATION REGARDING HOMELESSNESS

RECOMMENDATION(S):

CONTINUE the emergency action originally taken by the Board of Supervisors on November 16, 1999 regarding the issue of homelessness in Contra Costa County.

FISCAL IMPACT:

None.

BACKGROUND:

On November 16, 1999, the Board of Supervisors declared a local emergency, pursuant to the provisions of Government Code Section 8630 on homelessness in Contra Costa County.

Government Code Section 8630 requires that, for a body that meets weekly, the need to continue the emergency declaration be reviewed at least every 14 days until the local emergency is terminated. In no event is the review to take place more than 21 days after the previous review. On March 13, 2018, the Board of Supervisors reviewed and approved the emergency declaration.

With the continuing high number of homeless individuals and insufficient funding available to assist in sheltering all homeless individuals and families, it is appropriate for the Board to continue the declaration of a local emergency regarding homelessness.

Subject: Conflict of Interest Code for the Central Contra Costa Transit Authority

RECOMMENDATION(S):

APPROVE amended Conflict of Interest Code for the Central Contra Costa Transit Authority ("County Connection"), including the list of designated positions.

FISCAL IMPACT:

None.

BACKGROUND:

County Connection has amended its Conflict of Interest Code and submitted the revised code, attached as Exhibit A, to the Board for approval pursuant to Government Code section 87306 and 87306.5.

The changes include an updated list of positions designated to file conflict of interest statements. These changes will ensure that the Conflict of Interest Code accurately reflects the current positions and organizational structure in use by County Connection. A strike-out version of the Conflict of Interest Code is attached as Exhibit B.

CONSEQUENCE OF NEGATIVE ACTION:

None.

RESOLUTION NO. 2018-010

BOARD OF DIRECTORS, CENTRAL CONTRA COSTA TRANSIT AUTHORITY
STATE OF CALIFORNIA

* * *

ADOPTING AMENDED CONFLICT OF INTEREST CODE

WHEREAS, the County of Contra Costa and the Cities of Clayton, Concord, the Town of Danville, Lafayette, Martinez, the Town of Moraga, Orinda, Pleasant Hill, San Ramon and Walnut Creek (hereinafter "Member Jurisdictions") have formed the Central Contra Costa Transit Authority ("County Connection"), a joint exercise of powers agency created under California Government Code Section 6500 *et seq.*, for the joint exercise of certain powers to provide coordinated and integrated public transportation services within the area of its Member Jurisdictions;

WHEREAS, California Government Code Section 87306.5 requires that County Connection review its Conflict of Interest Code every other year, and revise it if necessary;

WHEREAS, Legal Counsel and the General Manager have reviewed the current Conflict of Interest Code and have determined that the Code should be updated to reflect current job titles and responsibilities; and

WHEREAS, Legal Counsel and the General Manager recommend adopting the attached Conflict of Interest Code.

NOW, THEREFORE, BE IT RESOLVED by the Central Contra Costa Transit Authority Board of Directors that the revised Conflict of Interest Code hereby is adopted; and

BE IT FURTHER RESOLVED that the Board Clerk is directed to transmit a copy of the revised Code to the Board of Supervisors of Contra Costa County.

**CONFLICT OF INTEREST CODE FOR THE
CENTRAL CONTRA COSTA TRANSIT AUTHORITY (County Connection)**

The Political Reform Act of 1974, Government Code Sections 81000, *et seq.*, requires State and local government agencies to adopt and promulgate Conflict of Interest Codes. The Fair Political Practices Commission has adopted a regulation, 2 California Code of Regulations Section 18730, which contains the terms of a standard Conflict of Interest Code which can be incorporated by reference, and which may be amended by the Fair Political Practices Commission to conform to amendments by the Fair Political Practices Commission in the Political Reform Act after public notice and hearings. Therefore, the terms of 2 California Code of Regulations Section 18730 and any amendments to it duly adopted by the Fair Political Practices Commission, along with the attached Appendices, designating positions and establishing disclosure categories, shall constitute the Conflict of Interest Code of the Central Contra Costa Transit Authority (County Connection).

Individuals holding designated positions shall file their statements of economic interests with County Connection, which will make the statements available for public inspection and reproduction. (Gov. Code Sec. 81008.) County Connection will retain a copy of each statement and forward the originals to the Contra Costa County Board of Supervisors, which shall be the filing officer.

APPENDIX A

DESIGNATED POSITIONS

<u>Designated Positions</u>	<u>Disclosure Category(ies)</u>
Assistant General Manager of Administration	1, 2, 3
Chief Operating Officer & Safety/EOC	1, 2, 3
Director of Human Resources	2, 3
Director of Innovation and Mobility	1, 2, 3
Director of IT	2
Director of Planning and Marketing	1, 2
Director of Recruitment & Employee Development/DBE Officer	2
Director of Transportation	1, 2, 3
Manager of Accounting	2, 3
Manager of Accessible Services	1, 2
Manager of Customer Service and Public Outreach	2
Manager of Facilities & Grants	1, 2
Manager of Marketing & Customer Service	2
Manager of Planning	1, 2
Manager of Transportation	1, 2
Buyer	1, 2, 3
Legal Counsel	1, 2, 3
Consultants/New Positions	*

*Pursuant to Title 2, Division 6, California Code of Regulations, section 18734, Consultants/New Positions that make or participate in the making of decisions that may foreseeably have a material effect on any financial interest are included in the list of designated positions and shall disclose pursuant to the broadest disclosure category in the Code, subject to the following limitation:

The General Manager may determine in writing that a particular consultant or a new position, is hired to perform a range of duties that are limited in scope and thus not required to comply with the disclosure requirements described in this section. Such determination shall include a statement of the consultant's or a new position's duties, and, based upon that description, a statement of the extent of disclosure requirements. The determination is a public record and shall be retained for public inspection in the same manner and location as this Conflict of Interest Code. (Gov. Code Section 81008.) Nothing herein excuses any such consultant from any other provision of this Conflict of Interest Code.

The positions listed below are NOT covered by the Conflict of Interest Code because they must file a statement of economic interests pursuant to Government Code Section 87200 and, therefore, are listed for information purposes only:

Members of the County Connection Board of Directors
Alternate Members of the County Connection Board of Directors
Chief Financial Officer
General Manager

An individual holding one of the above-listed positions may contact the Fair Political Practices Commission for assistance or written advice regarding their filing obligations if they believe their position has been categorized incorrectly. The Fair Political Practices Commission makes the determination whether a position is covered by Section 87200.

APPENDIX B

DISCLOSURE CATEGORIES

Category 1: Interests in real property located within or not more than two miles outside the boundaries of the jurisdiction of or within a two mile radius of any land owned or used by County Connection.

Category 2: Investments and business positions in business entities, and income, including receipt of gifts, loans, and travel payments, from sources that provide products, services, supplies, materials, machinery, or equipment of the type utilized by County Connection or in projects funded by County Connection, including buses, insurance, information technology, telecommunications, public utilities, consultants, transportation companies, and manufacturers.

Category 3: Investments and business positions in business entities, and income, including receipt of gifts, loans, and travel payments, from, sources that filed a claim with or against County Connection during the previous two years, or have a claim pending with or against County Connection.

To: Board of Supervisors
From: David Twa, County Administrator
Date: March 27, 2018

Subject: Resolution No. 2018/122 - California Nurses Association Side Letter Extending Duration of Agreement

RECOMMENDATION(S):

ADOPT Resolution No. 2018/122 approving the Side Letter between Contra Costa County and the California Nurses Association (CNA) modifying the Preamble and Section 64 Duration of Agreement of the Memorandum of Understanding to extend the contract from March 31, 2018 through May 31, 2018.

FISCAL IMPACT:

No fiscal impact.

BACKGROUND:

This Side Letter extends the current memorandum of understanding from March 31, 2018 through May 31, 2018, to allow both parties to work together to negotiate an agreement. Both the Preamble and Section 64 - Duration of Agreement are modified. The effect of this Side Letter is that all other terms and conditions of the MOU, specifically including Section 60 and 62, are extended accordingly for the new term of the MOU between the County and CNA (August 1, 2014 – May 31, 2018).

CONSEQUENCE OF NEGATIVE ACTION:

Members will continue working under an expired contract.
