# Keller Canyon Landfill

Screening Process and Waste Approval Protocol

#### Overview

- Republic is committed to an open dialogue to address concerns raised
- We have been providing information to your staff for review and analysis
- We believe it is essential to consider accurate and reliable information
- The facts are that no radiological waste has been received at Keller Canyon
- We have effective controls in place at facility to prevent acceptance, including monitors to detect such waste material
- We have extensive required processes for acceptance of materials from special projects
- These processes and protocols were followed for receipt of non-hazardous materials from Hunters Point

### Screening Process

Signs posted at entrance to gatehouse

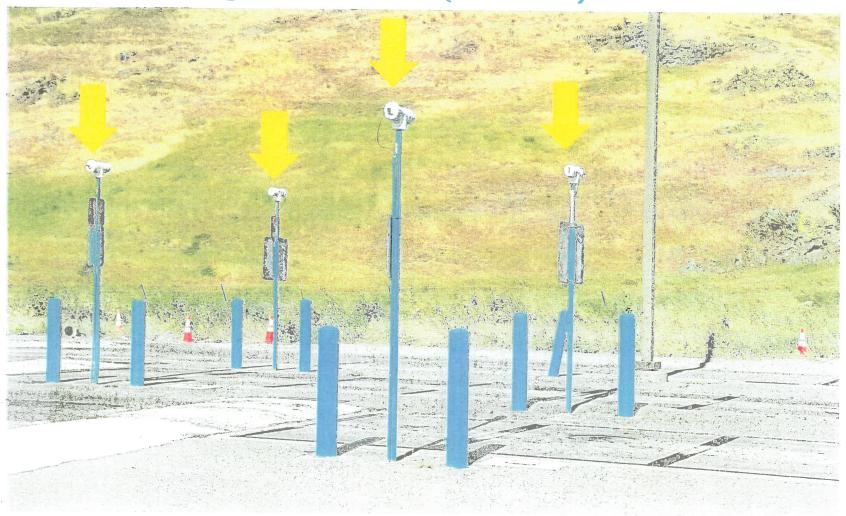

### Screening Process (con't.)

- Every load must pass through set of radiation monitors
- Monitors are certified and calibrated annually
- Monitors are tested and logged weekly
- Load turned away if radiation alarm goes off and State of California Radiological Health Branch notified

## Screening Process (con't.)

Radiation Monitors

### Waste Approval Protocol

- Generator requests soil or debris come to facility
- Additional information requested
- Generator receives profile package
- Package requires material to be fully identified, analyzed, characterized and certified as to truth and accuracy by Generator
- Package must include all analytical data
- Entire package and data sent to corporate office
- If approved, package sent to site

- Profile of data entered in scale computer system
- Required manifests sent to Generator
- Each load must have manifest with profile number.
- Each load compared to profile, inspected and unloaded.

### Summary

- Extensive screening and waste approval process
- Has not received any radiological material from Hunters Point or any other location
- Did not receive material from Hunters Point after hours of operation
- Only accepted loads of material during our operating hours when the radiation monitors were operational and scale house personnel were present
