## Petition to Contra Costa County Board of Supervisors

May 17, 2018

To the County of Contra Costa

We, THE UNDERSIGNED, HEREBY PETITION the Contra Costa Board of Supervisors to add Contra Costa County to the growing number of California Counties and cities who oppose Senate Bill 54 (the "Sanctuary State" bill) and who advocate its repeal.

WE STATE OR BELIEVE

- 1) That U.S. citizens residing in Contra Costa County need protection against the flood of undocumented felons overwhelming the borders of our state, and county.
- 2) That the Contra Costa County Board of Supervisors by the authority granted to them must guard our state and federal resources allocated for law enforcement, fire services, educational, medical and social services for U.S. citizens residing in Contra Costa County. Currently, the foreign nationals and illegal aliens are being pushed to the head of the line for priority, for example, in receiving acceptance into the courses offered by our county's three Community Colleges, with the result that our children as citizens are turned away.
- 3) That our police departments and incarceration facilities are being overwhelmed by the large numbers of illegal immigrants. They line the streets of cities and counties shooting up in plain sight on the sidewalks and in public and private bathrooms, threatening our youth and making it very difficult to keep a small restaurant business, for example, profitable. Many restaurant owners and workers are afraid to deny access to non-customers for fear of being cited, fined, or shut down for "racial discrimination".

That our Law Enforcement agencies' hands are tied with regard to prosecuting the law against the many thousands of illegal immigrants. These individuals, consequently, have great disdain for our government and no respect for our legal system. This in turn encourages both newly arrived immigrants as well as our own citizens to illegal acts because they see their own government afraid to do its job and make arrests.

That the Contra Costa County Law Enforcement agencies should operate in compliance with federal immigration laws to hold criminals until they can be turned over to Federal Immigration authorities to be deported. We further petition our county agencies to publish the names of all undocumented immigrants a minimum of 3 days before their release so that ICE can pick them up and process them for deportation.

That the Contra Costa County Board of Supervisors should join the Federal Law suit against the unconstitutional Senate Bill SB54.
