**Resolution No. 2019/455**

In The Matter Of: Approving and Authorizing the Chief Engineer, Flood Control and Water Conservation District, or designee, to impose the Annual Benefit Assessments for Fiscal Year 2019-2020 for Drainage Area 67A (Walnut Creek), Drainage Area 75A (San Ramon), Drainage Area 76A (Alamo), Drainage Area 520 (Oakley), Drainage Area 910 (Danville), Drainage Area 1010 (Danville), and Drainage Area 1010A (Danville), Walnut Creek, San Ramon, Alamo, Oakley, and Danville areas. (100% Drainage Area Benefit Assessment Funds) Project No. 7505-6F8167, CP# 99-54

The Board of Supervisors of Contra Costa County, as the governing body of the Flood Control and Water Conservation District (referred to as the "FC District"), RESOLVES as follows:

The FC District has previously established Drainage Areas 67A, 75A, 76A, 520, 910, 1010, and 1010A pursuant to the provisions of Contra Costa County Flood Control and Water Conservation District Act (West's Water Code–Appendix, Ch. 63);

The FC District has previously determined and proposed for adoption within said drainage areas annual benefit assessments pursuant to the Benefit Assessment Act of 1982 (Gov. Code, Sections 54701-54718), which assessments were subsequently approved by the vote required by law;

Once benefit assessments have been approved by the voters, Government Code Section 54717 (c) authorizes the Board annually to determine the cost of the services provided to the affected areas of benefit and to determine and impose the assessments; and

The Board has before it the report (see attached Exhibit A), prepared by the Chief Engineer, which describes the cost of providing drainage and flood control services to the above-numbered drainage areas for Fiscal Year 2019-2020. Also attached are lists indicating the annual benefit assessments proposed to be levied against the parcels within the drainage areas to cover the cost of such services; and

The proposed assessment rate amounts indicated do not exceed the maximum rates established for each of the Drainage Areas;

The Board DETERMINES that the costs of the services financed by the benefit assessments for each drainage area are as shown on Table 1.

The Board IMPOSES the annual benefit assessments set forth in the above-described report, attached hereto as Exhibit A and made a part hereof by reference, and DIRECTS that said benefit assessments be levied against the parcels within Drainage Areas 67A, 75A, 76A, 520, 910, 1010, and 1010A and collected in the same manner, and subject to the same penalties and priority of lien, as other charges and taxes fixed and collected by the County, as provided by Government Code Section 54718.
