

# AD HOC COMMITTEE ON COVID-19 ECONOMIC IMPACT AND RECOVERY

THE RECORD OF ACTION FOR  
JULY 16, 2020

Supervisor Candace Andersen, Chair  
Supervisor Karen Mitchoff, Vice Chair

Present: Chair Candace Andersen  
Absent: Vice Chair Karen Mitchoff  
Staff Present: Chris Farnitano, M.D., County Health Officer  
Julie DiMaggio Enea, Senior Deputy County Administrator

## 1. Introductions

*Chair Andersen called the meeting to order at 1:30 p.m. and announced that Vice Chair Mitchoff would not be in attendance due to another commitment. She then introduced Dr. Chris Farnitano, County Health Director, who would be providing a status update of events that occurred during the prior week and fielding questions.*

## 2. Public comment on any item under the jurisdiction of the Committee and not on this agenda (speakers may be limited to two minutes).

*All public comment was taken under Agenda Item #4.*

## 3. RECEIVE update on most recent COVID-19 developments and on questions recently received from community members.

*Dr. Farnitano reviewed the many changes during the past week. He said we've been seeing, since late June-Early July, an acceleration in the positivity rate and hospitalizations. Contact tracing indicates indoor gatherings as the most common link to new cases. He said the positivity rate was 8.2% as of Saturday, indicating increasing community spread. As a result, we have placed additional local restrictions: when dining out or gathering with small social bubble, always wear a mask except when eating or drinking. Also, religious gatherings and protests are limited to outdoor only.*

*Due to higher numbers across the State, the Governor recently announced that he would be closing certain business sectors/activities across the State, such as indoor dining, cinemas, bowling alleys, zoos, and cardrooms. Contra Costa County hadn't opened these sectors yet. The State requires counties on the monitoring list to also close bars/breweries, fitness centers, indoor worship and protests, salons and barbershops, and other personal care services. As well, non-essential offices must*

*telecommute or work outside. Key impacts of the new State Order on our county include closure of non-essential offices, hair salons/barbershops and indoor malls, which had previously been permitted to operate. These sectors must close and cannot operate outdoors according to the agencies that regulate those sectors Statewide.*

*Contra Costa County is on the State monitoring list due to the increase in our number of new cases and in hospitalizations. 7/9 Bay Area counties are now on the monitoring list. The exceptions are San Francisco and San Mateo. Preliminarily, it appears that the messages about the importance of facial coverings, avoiding large gatherings, and inside gatherings, etc., are being heard. In the last week, the county's numbers appear to be stabilizing but they bear watching. New cases are countywide and not isolated. Hospitalizations were increasing gradually in June but accelerated in July. There are 84 today not counting West County residents who are hospitalized in Alameda County. There are 92 deaths as of today: 64 of which were living/working in congregate care facilities. Outbreaks in these facilities escalated from 9 a few weeks ago to 25 outbreaks currently. Key factors are age and chronic health conditions. There is a high mortality rate in the elderly nationwide. At least 11 of the 25 outbreaks involved 3 or more residents/staff. The County has an Outbreak Response Team to ensure testing, PPE, and adherence to infection control protocols to prevent further spread.*

*Testing continues to be important but the recent surge in cases has put a strain on testing and lab analysis capacity, so be prepared to wait for a result – average turnaround for all test results is 4 days, but about 10% of tests take 8 days or longer. The State has recognized this as a priority and is working for a solution. County public health is working to identify new lab resources but is in competition with other jurisdictions, so it is a challenging time. Call 1-844-421-0804 or visit [cchealth.org/coronavirus](http://cchealth.org/coronavirus) to schedule tests online.*

*He is seeing now a lot of household spread, and from extended family gatherings, airplane travel, workplaces, etc. He has not seen much spread linked to healthcare visits. There have been only three workplaces (outside of congregate living facilities) with more than 3 cases per workplace. The County has a Workplace Response Team to ensure testing, PPE, and adherence to infection control protocols to prevent further spread.*

*Dr. Farnitano reported that more younger people are being infected: 20-40 year olds, attributable possibly to their being more in the workforce. He is particularly concerned about gatherings involving eating and drinking, when face coverings are not being worn.*

*Dr. Farnitano responded to questions submitted during the previous week:*

*He said it is not clear yet whether we'll be able to open more sectors if we are able to get off the State's monitoring list. So far, the State just ordered that sectors are closed until further notice but provided no additional clarification.*

*He reported that more children under 18 are testing positive. They have often been tested not due to symptoms but following identification of a family outbreak.*

*He explained that local health orders regarding pools reference the State guidance, which says that face coverings must be worn when out of the water whenever 6-foot social distancing cannot be maintained, unless there is some other face covering exemption that applies. Lifeguards are not exempted from wearing masks; however, if they are up on a perch, presumably more than 6 feet away, then they are not required to don a mask.*

*He reported that 30% of those hospitalized with COVID are in the ICU, which is a lot lower than it was in the beginning of the pandemic in Mar/Apr, when it was running at about 50%. He suspects the reasons for the decrease in the ICU rate is that we are seeing more younger patients who don't get as sick, and we have learned how to treat COVID better, so fewer people are requiring intensive care.*

*He stated that Contra Costa County has 900 licensed and staffed non-ICU beds and 200 ICU beds totaling 1,100 beds. He said that 9-10% of these beds are currently occupied by COVID patients. He is most concerned about ICU bed capacity, which has the potential to become exhausted first. Some neighboring counties have gotten close to reaching capacity, so if our hospitals fill up, we may not be able to rely on neighboring counties for overflow capacity.*

*He said the Bay Area health officers had a highly coordinated response at the beginning of the pandemic, but the opening of sectors has been taken in phases based on data specific to each county, so the responses of the counties have diverged somewhat. In recognition that this approach is not really working, the State has stepped forward with a more unified approach. So basically, all Bay Area counties, except for San Mateo County, are either subject to or are voluntarily following the same rules as applicable to monitored counties. The Health Officers meet almost daily to exchange ideas and information.*

*He advised that the State Board of Barbering and Cosmetology has currently prohibited even outdoor services.*

*He discussed the UCSF study of the connection between viral load (the amount of virus to which one is exposed) and severity of symptoms/illness. The study points to the benefit of masks and their effectiveness in reducing viral load if not completely filtering out the virus, so he finds the study very encouraging and important research. It also supports the concept of isolating at home so that, if someone in the home is infected, then everyone in the home should wear masks to minimize the viral load.*

*At the suggestion that a process should be established to certify businesses as safe to operate during the pandemic, he stated that the County is expanding enforcement efforts – working with local law enforcement, the DA, code enforcement, and health inspectors – but the County simply does not have the resources amongst these agencies to conduct such inspections and issue such certifications for so many businesses prior to their reopening. Therefore, enforcement will be reliant on consumer complaints as well as observations during normal surveillance activities of these regulatory agencies.*

*He said the County Health Department has a policy group that regularly reviews new technology to keep abreast. There have been privacy concerns around COVID tracking applications. There has not been widespread adoption of these applications*

*in the United States. Ultraviolet light technology for ventilators is not there yet.*

4. DISCUSS the June 16 Health Order and any subsequent updates to the timeline for future resumption of business and community activities.

*Chair Andersen invited public comment.*

*Mike McDermott requested clarification of a discrepancy in bed capacity: 1,700 beds according to some articles vs. 1,100 beds, to which Dr. Farnitano clarified that 1,700 beds are licensed but only 1,100 beds countywide are licensed and staffed/funded. He explained that we look at both numbers with respect to surge plans. Mike requested more lead time in policy changes, e.g., effective on Mondays for church services, to which Dr. Farnitano responded that we are trying to balance the need for quick action with the need for predictability.*

*Tina Sherwin asked what the purpose of the State variance is since we did not open any business sectors, to which Dr. Farnitano responded that the original purpose of the variance changed over time to become a basis for verification of surge plans and outbreak management. The State has now shifted its focus to monitoring vs. non-monitoring counties. Tina also asked who determines policies for Higher Education, to which Dr. Farnitano responded that the State hasn't issued guidance for higher education yet. She asked why are we pushing asymptomatic people to be tested when testing resources are impacted? Are we prioritizing testing? To which Dr. Farnitano said the County is prioritizing which tests get sent to which labs, depending on the urgency. Tina referenced a CDC finding that masks work based on two COVID-positive hair stylists wearing masks not infecting over 100 clients to which Dr. Farnitano responded he was likewise encouraged by those results.*

*Shawna Garvin noted that community spread wasn't said to be happening at sports camps and by children, so why are more limitations being placed on these children's camps? To which Dr. Farnitano said a few cases had been linked to both settings but a lot of the evidence is showing that younger children are less likely to be symptomatic.*

*Kimba Joy Theurich expressed gratitude for the forum and work of the health officer and committee in such an untenable situation.*

*Barbara Csider observed that County residents are suffering financially due to our very restrictive policies as compared to neighboring counties. Yet despite our more restrictive policies, our numbers continue to worsen. Dr. Farnitano responded that our 8.2/100,000 rate was an average over 7 days. Barbara said the proposed administrative penalties for COVID rule violations and for a ½ cent sales tax add insult to injury of small struggling businesses.*

*Wisti Quenneville asked how an individual having multiple positive tests counts towards the positivity rate. Dr. Farnitano said we are reporting the number of positive tests and negative tests. Since we do not recommend retesting people who test positive, he does not believe the numbers to be skewed significantly. Wisti asked how many County beds are being used by other counties, and is our County being penalized by the State for assisting other counties. Dr. Farnitano said, on net, more County residents are being cared for outside of our county. Wisti asked if the cases/100,000 reported by city are cumulative or regularly adjusted downward to reflect people who have since recovered from the virus. Dr. Farnitano said the State monitoring list measures only the number of new cases in the last 14 days.*

*Jacqueline Halm, an educator, complained that community college students are having to educate themselves and their children at home in difficult living environments. Some of her students are ESL (English as a Second Language). She said the online education system is failing them, and this is not being addressed. She said she has only limited ability to assist students online.*

*Toni R asked, if we are following science/data, then are aren't we applying for a variance to open*

playgrounds? Why are we not allowed to attend funerals, but other jurisdictions can hold funerals 3,000 strong? Dr. Farnitano explained that funerals were previously allowed but are now categorized with other church services and may only be held outdoors. Toni suggested that the Health Officer was trying to justify the prohibition of indoor church services by marrying them with “indoor protests”; stating protests are nearly always outdoors. Dr. Farnitano responded that there is no size limit to outdoor church gatherings or protests, but masking and social distancing still apply. Toni asked about testing sites and HCQ as a treatment. Dr. Farnitano said the large studies on this drug have been stopped because no benefit has been shown. Toni asked why the County wasn’t pushing back on the early release of prisoners but is planning to penalize struggling law-abiding citizens who are simply trying to make a living. Toni noted that the County’s compliance with the health order is crucial in continuing to receive federal CARES stimulus funds and that realignment funding relies on the County accepting State prisoners into County jail. Dr. Farnitano said no San Quentin inmates had been hospitalized in our County.

Daryn Nabeta asked since the Trump Administration is instructing hospitals to bypass the CDC and report their COVID-19 data directly to the government, will this have any impact on the County’s dashboard or public information? Dr F. said he expected it would make no difference in the integrity of the data. It will be the same data but reported in a slightly different format.

Nicole Kannier asked if County numbers continue to increase, will we roll back further, or will we maintain the status quo and move only forward. Dr. Farnitano said it is not clear at this time. If Statewide numbers worsen, he expects the Governor might place additional restrictions on monitored counties.

Lori Moraca asked how often should workers in childcare centers be tested? She would like to have a regular testing schedule. Dr. Farnitano said the County doesn’t have resources to do onsite testing at facilities unless there has been an outbreak. But test sites are open throughout the county to anyone, except that we are currently having challenges with turnaround time. Higher risk persons are encouraged to get tested monthly. Lori asked if subsidies are available for private childcare programs, of which many are operating at a deficit? Fewer children, more staff, and more restrictions but less operating revenue, so deficit.

Lydia asked if the County gets compensated per COVID test. The County is bound by State guidelines but is the Health Officer advocating for the community using the variance process rather than hiding behind the State rules because it is easier? She thinks the restrictions on children’s parks are outrageous. She asked about HCQ treatment. Dr. Farnitano said it costs the County to run the tests and the County bills insurance providers, but otherwise receives no compensation thus far to do tests for people without insurance. The County hopes to get federal and/or State aid under an emergency declaration but such reimbursement could take years to be received. The County is certainly not profiting from providing testing if that is what is being asked. He reiterated that HCQ as a COVID treatment is no longer being pursued by the medical community.

Landi spoke about people who provide salon services to special needs clients. She cited what she sees as contradictions in County restrictions. She asked if landlords will be expected to go into foreclosure due to extended rent protections. Dr. Farnitano explained that the death rate from COVID continues to be much worse than a bad non-COVID flu year. Although hospitals are relatively safe in terms of COVID, hospitals are taking the precaution to do more via video appointments. He discussed the risks involved in crowded protests.

Chair Andersen invited attendees to submit questions to her or Supervisor Karen Mitchoff for response at

[SupervisorAndersen@bos.cccounty.us](mailto:SupervisorAndersen@bos.cccounty.us) or  
[SupervisorMitchoff@bos.cccounty.us](mailto:SupervisorMitchoff@bos.cccounty.us).

She addressed comments made by speakers about enforcement efforts and proposed administrative

*penalties, clarifying that the objective is education and compliance, citing issues of fairness and health risk. The proposed penalties are another tool, she said, in lieu of criminal proceedings, for law enforcement to use if education doesn't work.*

*She confirmed that the Board extended the rent moratorium, which also applies to small businesses. She clarified that it is not rent forgiveness but rather a forbearance. People will eventually have to pay their back rent. In order to obtain this forbearance, renters must prove that they cannot pay rent due specifically to COVID-19. They must also reach agreement with their landlord on repayment. She said we are doing this to avoid creating more homelessness, which would only exacerbate the pandemic. The economic impact of the pandemic from the beginning has been extremely serious and we are unable to resolve every situation, but we are trying to address these issues. She said she does not support the BOS-approved sales tax measure at this time, but the voters will have to decide, assuming the contingent legislative actions are accomplished.*

*Chair Andersen shared information about the Workforce Development Board supplied by Patience Odofo.*

5. RECEIVE and APPROVE the Record of Action for the July 9, 2020 meeting.

*Chair Andersen approved the Record of Action for the July 9, 2020 meeting as presented.*

AYE:                   Chair Candace Andersen  
Passed

6. The next meeting is currently scheduled for July 23, 2020.

*Chair Andersen confirmed the next meeting date of July 23 but announced that the start time would be moved up to 1:00 p.m. to accommodate another standing meeting commitment of the two Supervisors.*

7. Adjourn

*Chair Andersen invited attendees to email their questions to either her or Supervisor Mitchoff for response at the next meeting, and adjourned the meeting at 3:11 p.m.*

## Questions for Health Officer ahead of Ad Hoc Committee Meeting

Now that we are on the State's Watch List, and the State has ordered many things to be closed down, if we get off the list will we be able to resume the activities previously allowed?

We are seeing higher numbers in children under the age of 18. Are many of the asymptomatic, or are they being tested because of symptoms. Early on children weren't encouraged to be tested.

The new guidelines require face masks at pools. The Contra Costa health order was updated on July 5<sup>th</sup>, and they omitted to wear facemask at the pools. With Contra Costa on the County watch list, is something that should be added to the health order?

I was encouraged by the coordination between different Bay Area counties at the beginning of the pandemic and their commitment to making some joint decisions about the response to the pandemic. Why did this coordination loosen, and might local counties consider becoming more coordinated in their response again?

In general, what is the percentage of Covid-19 patients identified by the current round of tests that require intensive care beds?

What is the total number of hospital beds (minus intensive care) in the county and what percentage of those are currently occupied by Covid-19 and non-Covid-19 patients?

As testing reveals new infections, what percentage of those with newly identified infections require hospitalization?

To what extent are hospital beds available in contiguous counties?

It is my understanding that all cities are having their lifeguards wear masks on the lifeguard stand. Is this a requirement by the CDC or Health Department?

The State, not the County, mandated that Barbershops and Hair Salons be closed down. It is possible to come up with a guideline that would allow hair to be cut outside, where the chance of transmission would be lower?

## *California COVID-19 Closures Affect Some Contra Costa Businesses*

Like 463

Tweet

Monday, July 13, 2020

Due to a sharp rise in COVID-19 activity, California Governor Gavin Newsom today announced the temporary closure of several types of indoor businesses and activities.

Effective immediately, all counties must close dine-in restaurants, bars, wineries and tasting rooms, movie theaters, family entertainment centers such as bowling alleys and arcades, zoos and museums, and cardrooms.

None of these types of businesses had previously reopened under Contra Costa County's social distancing ordinance and must remain closed under the state order.

Additionally, Gov. Newsom required counties that have remained on the California Department of Public Health's county monitoring list for three or more consecutive days to close additional businesses and activities, effective immediately.

Contra Costa does meet the criteria, so this part of the governor's order does apply to the county. Some businesses and activities that had previously been permitted in the county are affected:

- Offices for "non-essential" business sectors, as determined by the state – visit

[covid19.ca.gov](https://covid19.ca.gov) for more information when it becomes available.

- Hair salons and barber shops
- Indoor malls

All of these businesses and activities are required by the state to close today unless their operation can be modified to be outside or by pickup.

Other businesses and activities required by the state to close in watch-list counties include indoor worship services and indoor protests, which Contra Costa also suspended with its own local order effective today.

Fitness centers and personal care services, such as nail salons and tattoo parlors, were also named in the state order but had not previously reopened in the county.

For more information about today's order from California, visit [covid19.ca.gov](https://covid19.ca.gov) (<https://covid19.ca.gov/>).

Contra Costa Health Services urges everyone to continue taking simple steps to protect themselves from COVID-19: Follow the social distancing order, and wear a face covering when you leave home or when you are near other people. Wash your hands thoroughly and frequently, and always stay home from work or school if you are not feeling well.

Visit [cchealth.org/coronavirus \(/coronavirus/\)](https://cchealth.org/coronavirus/) for local information about Contra Costa's response to the COVID-19 pandemic.

# Press Release

## *More than 8% of Contra Costa COVID-19 Tests Now Positive*

 Like 1.1K

 Tweet

Saturday, July 11, 2020

Due to a sharp rise in the percentage of COVID-19 tests returning positive in the community, Contra Costa County today amended its social distancing health order to temporarily tighten face-covering requirements and prohibit indoor gatherings where there is elevated risk of spreading the virus.

Local data show that 8.04 percent of COVID-19 tests administered over the past seven days were positive, a sign that the virus is spreading rapidly in the county and that the community must take immediate steps to reduce the spread of the coronavirus and prevent our healthcare system from becoming overwhelmed.

Contra Costa is especially concerned about the risk of COVID-19 transmission in indoor gatherings, and in gatherings that involve removing face coverings for eating and drinking.

When Contra Costa received authorization (variance) from the California Department of Public Health in June to allow the reopening of some businesses and activities, the plan we submitted indicated that an 8% testing positivity rate would trigger the review and reconsideration of reopening activities in the

### CONTACT

Joint Information Center  
Media Line,  
925-608-5463

### RELATED

- [Novel Coronavirus \(COVID-19\) Latest Local Information](#)

county.

Other indicators show COVID-19 is on the rise in Contra Costa communities. The seven-day average number of new cases identified in the county rose from 38 on June 8 to 146 on July 8, while the seven-day average number of hospitalized COVID-19 patients rose from 17 to 54 during the same period.

The 209 adult intensive care unit beds in Contra Costa County hospitals are on average a little more than half full on a given day, including COVID-19 patients and patients with other health concerns.

Given the rapid spread of local cases, Contra Costa Health Services (CCHS) is concerned that the number of patients needing intensive care could quickly exceed capacity.

According to the new health order, indoor worship services are temporarily prohibited, effective on Sunday at 11:59 p.m. Services held earlier on Sunday, July 12, are not subject to this change.

Certain categories of outdoor gatherings, including worship services and social protests, are permitted at any size in Contra Costa so long as state health guidelines are followed, including physical distancing and appropriate use of face coverings.

In outdoor dining settings, staff and customers must now observe face covering requirements at all times, except when putting food or drink in the mouth. The new order also increases guidance for businesses that serve alcohol with meals to better align with state guidelines.

Members of extended family “social bubbles” must now always use face coverings when together, except when putting food or drink in the mouth.

Contra Costa County hopes to ease these enhanced, extraordinary safety measures as soon as possible, and will review available health system data daily to determine when it

is safe to do so.

CCHS urges everyone to continue taking simple steps to protect themselves from COVID-19: Follow the social distancing order, and wear a face covering when you leave home or when you are near other people. Wash your hands thoroughly and frequently, and always stay home from work or school if you are not feeling well.

Visit [cchealth.org/coronavirus \(/coronavirus/\)](https://cchealth.org/coronavirus (/coronavirus/)) to read the new health order, and for local information about Contra Costa's response to the COVID-19 pandemic.

###

**ORDER OF THE HEALTH OFFICER OF THE COUNTY OF CONTRA COSTA**

**AMENDMENTS TO THE SOCIAL DISTANCING ORDER TO INCREASE RESTRICTIONS ON CERTAIN HIGH-RISK BUSINESSES AND ACTIVITIES IN RESPONSE TO INCREASING COMMUNITY TRANSMISSION OF THE VIRUS CAUSING COVID-19, HOSPITALIZATIONS AND ILLNESS, AND INCREASING SEVEN-DAY AVERAGE COVID-19 TESTING POSITIVITY RATE**

**ORDER NO. HO-COVID19-24**

**DATE OF ORDER: JULY 11, 2020**

**Summary of the Order**

This Order of the County of Contra Costa Health Officer imposes additional restrictions on certain businesses and activities in response to rising rates of infection of persons within Contra Costa County (“County”) with the virus that causes Coronavirus Disease 2019 (“COVID-19”). The County is experiencing a significant increase in community transmission and illness from COVID-19. The rate of occurrence of new cases per day has been steadily rising since June 3, 2020. Hospitalization rates have been steadily rising since June 4, 2020. The percentage of test results positive for the virus that causes COVID-19 has been steadily rising since June 20, 2020. As of July 11, 2020, there are 1327 active cases and 77 individuals currently hospitalized with COVID-19 in the County, and the seven-day average test positivity rate is 8.0 percent.

Based on our current understanding of transmission of the COVID-19 virus, local case investigations, and knowledge gained from case investigations and outbreaks across the region and the state, there is a heightened concern about settings where people from multiple households gather. Gatherings where people are together for a prolonged period of time, especially indoors, and settings where people remove their masks to eat and drink, appear to pose the highest risk for transmission at this time. In a scientific brief issued on July 9, 2020, the World Health Organization (WHO) advises that based on what is currently known, transmission of COVID-19 is primarily occurring when people are in close proximity to each other for prolonged periods of time. While the virus appears to spread primarily through contact and respiratory droplets, WHO reports that airborne transmission may also be occurring, particularly in indoor settings with poor ventilation, via aerosols exhaled by infected persons.

For the above reasons, to slow the spread of COVID-19, this Order modifies a June 16, 2020, Order of the Health Officer (“Social Distancing Order”) by increasing restrictions on certain businesses and activities that were previously cleared for operation, because they present a high

risk for disease transmission due to the prolonged contact between persons who come together in these businesses and engage in these activities. The following summarizes these restrictions:

- **Restaurants and other food facilities:** Specific face covering requirements are imposed at establishments that are open for outdoor dining only. Indoor dining remains prohibited under the Social Distancing Order.
- **Providers of religious services and cultural ceremonies:** Indoor religious services and cultural ceremonies are prohibited. Outdoor religious services and cultural ceremonies may be held in accordance with applicable State guidance.
- **Protests:** Indoor protests are prohibited. Outdoor protests may take place in accordance with applicable State guidance.
- **Social Bubble gatherings:** Persons over age 2 are required to wear face coverings except when eating or drinking. Under the Social Distancing Order, all gatherings of Social Bubbles must take place outdoors.

Specific restrictions are set forth in Appendices C-1 and C-2 attached hereto.

The Order also clarifies the categories of construction projects for the purpose of determining the applicability of certain jobsite safety protocols, and eliminates a requirement to have COVID-19 jobsite safety accountability supervisors at large construction project jobsites be from third-parties, as set forth in Appendices B-1 and B-2 attached hereto.

UNDER THE AUTHORITY OF CALIFORNIA HEALTH AND SAFETY CODE SECTIONS 101040 and 120175, THE HEALTH OFFICER OF THE COUNTY OF CONTRA COSTA (“HEALTH OFFICER”) ORDERS:

**1. Amendment No. 1.** Page 17 of Health Officer Order No. HO-COVID19-18 (the “Social Distancing Order”) is hereby amended by deleting the list of attachments and replacing it with the following:

Attachments:

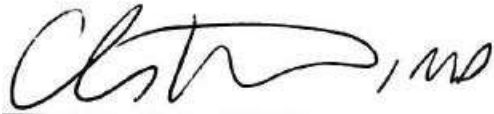

- Appendix A – Social Distancing Protocol
- Appendix B-1 – Small Construction Project Safety Protocol
- Appendix B-2 – Large Construction Project Safety Protocol
- Appendix C-1 – Additional Businesses Permitted to Operate
- Appendix C-2 – Additional Activities

2. **Amendment No. 2:** Appendices A, B-1, B-2, C-1 and C-2 attached hereto are hereby incorporated into the Social Distancing Order and supersede Appendices A, B-1, B-2, C-1 and C-2 previously attached thereto.

3. **Effective Date and Time:** This order takes effect at 11:59 p.m. on July 12, 2020.

**IT IS SO ORDERED:**

July 11, 2020

---

Chris Farnitano, M.D.  
Health Officer of the County of Contra Costa

- Appendix C-2

## **Appendix B-1: Small Construction Project Safety Protocol**

1. Any construction project meeting any of the following specifications is subject to this Small Construction Project Safety Protocol (“SCP Protocol”), including public works projects unless otherwise specified by the Health Officer:
  - a. For residential construction projects, any single-family, multi-family, senior, student, or other residential construction, renovation, or remodel project consisting of 10 units or less. This SCP Protocol does not apply to construction projects where a person is performing construction on their current residence either alone or solely with members of their own household.
  - b. For non-residential construction projects, any construction, renovation, or tenant improvement project that (1) consists of 20,000 square feet of building floor area or less and (2) requires fewer than 12 workers at the jobsite at any one time.
  - c. For mixed-use construction projects, any project that includes a residential construction component that meets the specifications in subsection 1.a. and a non-residential construction component that meets the specifications in subsection 1.b.
2. The general contractor or other contractor(s) responsible for construction work in projects subject to this SCP Protocol shall comply with the following restrictions and requirements:
  - a. Comply with all applicable and current laws and regulations including but not limited to OSHA and Cal-OSHA. If there is any conflict, difference, or discrepancy between or among applicable laws and regulations and/or this SCP Protocol, the stricter standard shall apply.
  - b. Designate a site-specific COVID-19 supervisor or supervisors to enforce this guidance. A designated COVID-19 supervisor must be present at the job site at all times during construction activities. A COVID-19 supervisor may be an on-site worker who is designated to serve in this role.
  - c. The COVID-19 supervisor must review this SCP Protocol with all workers and visitors to the construction site.
  - d. Establish a daily screening protocol for arriving staff to ensure that potentially infected staff do not enter the construction site. If workers leave the jobsite and return the same day, establish a cleaning and decontamination protocol prior to entry and exit of the jobsite. Post the daily screening protocol at all entrances and exits to the jobsite. More information on screening can be found online at: <https://www.cdc.gov/coronavirus/2019-ncov/community/index.html>.
  - e. Practice social distancing by maintaining a minimum six-foot distance between workers at all times, except as strictly necessary to carry out a task associated with the construction project.

## **Appendix B-1: Small Construction Project Safety Protocol**

- f. Where construction work occurs within an occupied residential unit, separate work areas must be sealed off from the remainder of the unit with physical barriers such as plastic sheeting or closed doors sealed with tape to the extent feasible. If possible, workers must access the work area from an alternative entry/exit door to the entry/exit door used by residents. Available windows and exhaust fans must be used to ventilate the work area. If residents have access to the work area between workdays, the work area must be cleaned and sanitized at the beginning and at the end of workdays. Every effort must be taken to minimize contact between workers and residents, including maintaining a minimum of six feet of social distancing at all times.
- g. Where construction work occurs within common areas of an occupied building in use by on-site employees or residents, separate work areas must be sealed off from the rest of the common areas with physical barriers such as plastic sheeting or closed doors sealed with tape to the extent feasible. If possible, workers must access the work area from an alternative building entry/exit door to the building entry/exit door used by residents or other users of the building. Every effort must be taken to minimize contact between worker and building residents and users, including maintaining a minimum of six feet of social distancing at all times.
- h. Prohibit gatherings of any size on the jobsite, including gatherings for breaks or eating, except for meetings regarding compliance with this protocol or as strictly necessary to carry out a task associated with the construction project.
- i. Cal-OSHA requires employers to provide water, which should be provided in single-serve containers. Sharing of any of any food or beverage is strictly prohibited and if sharing is observed, the worker must be sent home for the day.
- j. Provide personal protective equipment (PPE) specifically for use in construction, including gloves, goggles, face shields, and face coverings as appropriate for the activity being performed. At no time may a contractor secure or use medical-grade PPE unless required due to the medical nature of a jobsite. Face coverings must be worn in compliance with Health Officer Order No. HO-COVID19-22 or any subsequently issued or amended face covering order.
- k. Strictly control “choke points” and “high-risk areas” where workers are unable to maintain six-foot social distancing and prohibit or limit use to ensure that six-foot distance can easily be maintained between individuals.
- l. Minimize interactions and maintain social distancing with all site visitors, including delivery workers, design professional and other project consultants, government agency representatives, including building and fire inspectors, and residents at residential construction sites.
- m. Stagger trades as necessary to reduce density and allow for easy maintenance of minimum six-foot separation.

## **Appendix B-1: Small Construction Project Safety Protocol**

- n. Discourage workers from using others' desks, work tools, and equipment. If more than one worker uses these items, the items must be cleaned and disinfected with disinfectants that are effective against COVID-19 in between use by each new worker. Prohibit sharing of PPE.
- o. If hand washing facilities are not available at the jobsite, place portable wash stations or hand sanitizers that are effective against COVID-19 at entrances to the jobsite and in multiple locations dispersed throughout the jobsite as warranted.
- p. Clean and sanitize any hand washing facilities, portable wash stations, jobsite restroom areas, or other enclosed spaces daily with disinfectants that are effective against COVID-19. Frequently clean and disinfect all high touch areas, including entry and exit areas, high traffic areas, rest rooms, hand washing areas, high touch surfaces, tools, and equipment
- q. Maintain a daily attendance log of all workers and visitors that includes contact information, including name, phone number, address, and email.
- r. Post a notice in an area visible to all workers and visitors instructing workers and visitors to do the following:
  - i. Do not touch your face with unwashed hands or with gloves.
  - ii. Frequently wash your hands with soap and water for at least 20 seconds or use hand sanitizer with at least 60% alcohol.
  - iii. Clean and disinfect frequently touched objects and surfaces such as work stations, keyboards, telephones, handrails, machines, shared tools, elevator control buttons, and doorknobs.
  - iv. Cover your mouth and nose when coughing or sneezing, or cough or sneeze into the crook of your arm at your elbow/sleeve.
  - v. Do not enter the jobsite if you have a fever, cough, or other COVID-19 symptoms. If you feel sick, or have been exposed to anyone who is sick, stay at home.
  - vi. Constantly observe your work distances in relation to other staff. Maintain the recommended minimum six feet at all times when not wearing the necessary PPE for working in close proximity to another person.
  - vii. Do not carpool to and from the jobsite with anyone except members of your own household unit, or as necessary for workers who have no alternative means of transportation.
  - viii. Do not share phones or PPE.

**(Updated July 11, 2020)**

## **Appendix B-2: Large Construction Project Safety Protocol**

1. Any construction project meeting any of the following specifications is subject to this Large Construction Project Safety Protocol (“LCP Protocol”), including public works projects unless otherwise specified by the Health Officer:
  - a. For residential construction projects, any single-family, multi-family, senior, student, or other residential construction, renovation, or remodel project consisting of more than 10 units.
  - b. For non-residential commercial construction projects, any construction, renovation, or tenant improvement project that (1) consists of more than 20,000 square feet of building floor area or (2) requires 12 or more workers at the jobsite at any one time.
  - c. For mixed use construction projects, any project that includes a residential construction component that meets the specifications of subsection 1.a. or a non-residential construction component that meets the specifications of subsection 1.b.
  
2. The general contractor or other contractor(s) responsible for construction work in projects subject to this LCP Protocol shall comply with the following restrictions and requirements:
  - a. Comply with all applicable and current laws and regulations including but not limited to OSHA and Cal-OSHA. If there is any conflict, difference or discrepancy between or among applicable laws and regulations and/or this LCP Protocol, the stricter standard will apply.
  - b. Prepare a new or updated Site-Specific Health and Safety Plan to address COVID-19-related issues, post the Plan at the job site at all entrances and exits, and produce a copy of the Plan to County governmental authorities upon request. The Plan must be translated as necessary to ensure that all non-English speaking workers are able to understand the Plan.
  - c. Provide personal protective equipment (PPE) specifically for use in construction, including gloves, goggles, face shields, and face coverings as appropriate for the activity being performed. At no time may a contractor secure or use medical-grade PPE, unless required due to the medical nature of a job site. Face coverings must be worn in compliance with Health Officer Order No. HO-COVID19-22 or any subsequently issued or amended face covering order.
  - d. Ensure that employees are trained in the use of PPE. Maintain and make available a log of all PPE training provided to employees and monitor all employees to ensure proper use of the PPE.
  - e. Prohibit sharing of PPE.

## **Appendix B-2: Large Construction Project Safety Protocol**

- f. Implement social distancing requirements including, at minimum:
- i. Stagger stop- and start-times for shift schedules to reduce the quantity of workers at the jobsite at any one time to the extent feasible.
  - ii. Stagger trade-specific work to minimize the quantity of workers at the jobsite at any one time.
  - iii. Require social distancing by maintaining a minimum six-foot distance between workers at all times, except as strictly necessary to carry out a task associated with the project.
  - iv. Prohibit gatherings of any size on the jobsite, except for safety meetings or as strictly necessary to carry out a task associated with the project.
  - v. Strictly control “choke points” and “high-risk areas” where workers are unable to maintain minimum six-foot social distancing and prohibit or limit use to ensure that minimum six-foot distancing can easily be maintained between workers.
  - vi. Minimize interactions and maintain social distancing with all site visitors, including delivery workers, design professional and other project consultants, government agency representatives, including building and fire inspectors, and residents at residential construction sites.
  - vii. Prohibit workers from using others’ phones or desks. Any work tools or equipment that must be used by more than one worker must be cleaned with disinfectants that are effective against COVID-19 before use by a new worker.
  - viii. Place wash stations or hand sanitizers that are effective against COVID-19 at entrances to the jobsite and in multiple locations dispersed throughout the jobsite as warranted.
  - ix. Maintain a daily attendance log of all workers and visitors that includes contact information, including name, address, phone number, and email.
  - x. Post a notice in an area visible to all workers and visitors instructing workers and visitors to do the following:
    1. Do not touch your face with unwashed hands or with gloves.
    2. Frequently wash your hands with soap and water for at least 20 seconds or use hand sanitizer with at least 60% alcohol.
    3. Clean and disinfect frequently touched objects and surfaces such as workstations, keyboards, telephones, handrails, machines, shared tools, elevator control buttons, and doorknobs.
    4. Cover your mouth and nose when coughing or sneezing or cough or sneeze into the crook of your arm at your elbow/sleeve.
    5. Do not enter the jobsite if you have a fever, cough, or other COVID-19 symptoms. If you feel sick, or have been exposed to anyone who is sick, stay at home.
    6. Constantly observe your work distances in relation to other staff. Maintain the recommended minimum six-foot distancing at all times when not wearing the necessary PPE for working in close proximity to another person.
    7. Do not share phones or PPE.

## **Appendix B-2: Large Construction Project Safety Protocol**

- xi. The notice in section 2.f.x must be translated as necessary to ensure that all non-English speaking workers are able to understand the notice.
  
- g. Implement cleaning and sanitization practices in accordance with the following:
  - i. Frequently clean and sanitize, in accordance with CDC guidelines, all high-traffic and high-touch areas including, at a minimum: meeting areas, jobsite lunch and break areas, entrances and exits to the jobsite, jobsite trailers, hand-washing areas, tools, equipment, jobsite restroom areas, stairs, elevators, and lifts.
  - ii. Establish a cleaning and decontamination protocol prior to entry and exit of the jobsite and post the protocol at entrances and exits of jobsite.
  - iii. Supply all personnel performing cleaning and sanitization with proper PPE to prevent them from contracting COVID-19. Employees must not share PPE.
  - iv. Establish adequate time in the workday to allow for proper cleaning and decontamination including prior to starting at or leaving the jobsite for the day.
  
- h. Implement a COVID-19 community spread reduction plan as part of the Site-Specific Health and Safety Plan that includes, at minimum, the following restrictions and requirements:
  - i. Prohibit all carpooling to and from the jobsite except by workers living within the same household unit, or as necessary for workers who have no alternative means of transportation.
  - ii. Cal-OSHA requires employers to provide water, which should be provided in single-serve containers. Prohibit any sharing of any food or beverage and if sharing is observed, the worker must be sent home for the day.
  - iii. Prohibit use of microwaves, water coolers, and other similar shared equipment.
  
- i. Assign a COVID-19 Safety Compliance Officer (SCO) to the jobsite and ensure the SCO's name is posted on the Site-Specific Health and Safety Plan. The SCO must:
  - i. Ensure implementation of all recommended safety and sanitation requirements regarding the COVID-19 virus at the jobsite.
  - ii. Compile daily written verification that each jobsite is compliant with the components of this LCP Protocol. Each written verification form must be copied, stored, and made immediately available upon request by any County official.
  - iii. Establish a daily screening protocol for arriving staff, to ensure that potentially infected staff do not enter the construction site. If workers leave the jobsite and return the same day, establish a cleaning and decontamination protocol prior to entry and exit of the jobsite. Post the daily screening protocol at all entrances and exit to the jobsite. More information on screening can be found online at: <https://www.cdc.gov/coronavirus/2019-ncov/community/index.html>.
  - iv. Conduct daily briefings in person or by teleconference that must cover the following topics:
    - 1. New jobsite rules and pre-job site travel restrictions for the prevention of COVID-19 community spread.
    - 2. Review of sanitation and hygiene procedures.
    - 3. Solicitation of worker feedback on improving safety and sanitation.
    - 4. Coordination of construction site daily cleaning/sanitation requirements.

## **Appendix B-2: Large Construction Project Safety Protocol**

5. Conveying updated information regarding COVID-19.
  6. Emergency protocols in the event of an exposure or suspected exposure to COVID-19.
- v. Develop and ensure implementation of a remediation plan to address any non-compliance with this LCP Protocol and post remediation plan at entrance and exit of jobsite during remediation period. The remediation plan must be translated as necessary to ensure that all non-English speaking workers are able to understand the document.
  - vi. The SCO must not permit any construction activity to continue without bringing such activity into compliance with these requirements.
  - vii. Report repeated non-compliance with this LCP Protocol to the appropriate jobsite supervisors and a designated County official.
- j. In the event of a confirmed case of COVID-19 at any jobsite, the following must take place:
    - i. Immediately remove the infected individual from the jobsite with directions to seek medical care.
    - ii. Each location the infected worker was at must be decontaminated and sanitized. Work in these locations must cease until decontamination and sanitization is complete.
    - iii. The County Public Health Department must be notified immediately and any additional requirements per the County health officials must be completed, including full compliance with any tracing efforts by the County.
  - k. Where construction work occurs within an occupied residential unit, any separate work area must be sealed off from the remainder of the unit with physical barriers such as plastic sheeting or closed doors sealed with tape to the extent feasible. If possible, workers must access the work area from an alternative entry/exit door to the entry/exit door used by residents. Available windows and exhaust fans must be used to ventilate the work area. If residents have access to the work area between workdays, the work area must be cleaned and sanitized at the beginning and at the end of workdays. Every effort must be taken to minimize contact between workers and residents, including maintaining a minimum of six feet of social distancing at all times.
  - l. Where construction work occurs within common areas of an occupied building in use by on-site employees or residents, any separate work area must be sealed off from the rest of the common areas with physical barriers such as plastic sheeting or closed doors sealed with tape to the extent feasible. If possible, workers must access the work area from an alternative building entry/exit door to the building entry/exit door used by residents or other users of the building. Every effort must be taken to minimize contact between worker and building residents and users, including maintaining a minimum of six feet of social distancing at all times.

**(Updated July 11, 2020)**

## Appendix C-1: Additional Businesses Permitted to Operate

### General Requirements

The “Additional Businesses” listed below may operate, subject to the requirements set forth in the Order and to any additional requirements set forth below or in separate industry-specific guidance by the Health Officer. These businesses were selected based on guidance issued by the State of California and to implement a measured expansion of commercial activity based on health-related considerations, including the risks of COVID-19 transmission associated with types and modes of business operations, the ability to substantially mitigate transmission risks associated with the operations, and related factors, such as the following:

- **Increase in mobility and volume of activity**—the overall impact the reopening will have on the number of people leaving their homes and traveling to work at or access the business;
- **Contact intensity**—the type (close or distant) and duration (brief or prolonged) of the contact involved in the business;
- **Number of contacts**—the approximate number of people that will be in the setting at the same time;
- **Modification potential**—the degree to which mitigation measures can decrease the risk of transmission.

To mitigate the risk of transmission to the greatest extent possible, before resuming or commencing operations, each Additional Business must:

- a. Prepare, post, implement, and distribute to their Personnel, as defined below, a Social Distancing Protocol as specified in Section 15.h. of the Order for each of its facilities in the County frequented by their Personnel or members of the public; and
- b. Prepare, post, implement, and distribute to its Personnel a written health and safety plan that addresses all applicable best practices set forth in relevant Health Officer directives.

As used in this Appendix C-1, “Personnel” means the following people who provide goods or services associated with the Additional Business: Employees; contractors and sub-contractors (such as those who sell goods or perform services onsite or who deliver goods for the business); independent contractors (such as “gig workers” who perform work via the Additional Business’ app or other online interface); vendors who are permitted to sell goods onsite; volunteers; and other individuals who provide services onsite at the request of the Additional Business.

Each Additional Business must comply with Social Distancing Requirements, described in Section 15.k. of the Order, as well as all applicable industry-specific guidance issued by the State of California related to COVID-19, set forth at <https://covid19.ca.gov/industry-guidance/>.

## Appendix C-1: Additional Businesses Permitted to Operate

### List of Additional Businesses

For purposes of the Order, Additional Businesses include all of the following:

#### (1) Retail Stores and Retail Supply Chain Businesses

- a. Basis for Addition. The State of California has determined that retail businesses, and manufacturing and logistics and warehousing businesses that support retail businesses, may resume operation, subject to more restrictive local public health measures. Retail stores to which this provision applies includes, but is not limited to, bookstores, jewelry stores, toy stores, clothing and shoe stores, home and furnishing stores, sporting goods stores and florists. For clarity, this provision does not apply to personal service businesses such as beauty salons.
- b. Description and Conditions to Operate.
  1. Curbside/Outside Pickup. All retail stores may operate for curbside or other outdoor pickup, subject to applicable industry guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-retail.pdf>) and all of the following conditions:
    - (a) If a store is not open for indoor shopping, it may not display merchandise for sale on tables or otherwise outside the store, and customers may not enter the store.
    - (b) The store must have access to an area or areas outside the store for customer pickups. Subject to local requirements, a pickup area may be curbside, on a sidewalk, in a parking lot, or in any other area that is suitable for customer pickups and not in an enclosed space.
    - (c) The store must employ reasonable measures to require customers to comply with Social Distancing Requirements at the pickup areas, including but not limited to marking locations at six-foot intervals for customers to stand while waiting in line.
    - (d) The store must limit the number of Personnel in enclosed areas so that Personnel can comply with Social Distancing Requirements.
    - (e) The store must employ reasonable measures to prevent pedestrian or vehicle congestion in the vicinity of the pickup area.
  2. Indoor Retail. All retail businesses may operate for indoor shopping, subject to applicable industry guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-retail.pdf>). The number of Personnel and customers inside the store or other enclosed space must be limited so that Personnel and customers can comply with Social Distancing Requirements.

## **Appendix C-1: Additional Businesses Permitted to Operate**

3. **Shopping Malls, Shopping Centers and Swap Meets.** Shopping malls, shopping centers and swap meets may resume operations subject to applicable industry guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-shopping-centers.pdf>). Prior to opening, the operator of an indoor shopping mall must prepare and obtain the Health Officer's approval of a COVID-19 prevention plan. The plan must address and describe with particularity how the facility will implement the preventive measures described in the guidance document. The plan must be submitted to the Health Officer at the Office of the Director of Contra Costa Health Services, 1220 Morello Avenue, Suite 200, Martinez, CA 94553.
4. **Manufacturing.** Manufacturing businesses permitted to operate under the state Resilience Roadmap (<https://covid19.ca.gov/roadmap/>), as it is amended from time to time, may operate, subject to applicable guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-manufacturing.pdf>). Manufacturers must also limit the number of Personnel in enclosed areas so that Personnel can comply with Social Distancing Requirements.
5. **Logistics and Warehousing Facilities.** Logistics and warehousing facilities permitted to operate under the State of California Resilience Roadmap (<https://covid19.ca.gov/roadmap/>), as it is amended from time to time, may operate, subject to applicable guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-logistics-warehousing.pdf>). Logistics and warehousing facilities must also limit the number of Personnel in enclosed areas so that Personnel can comply with Social Distancing Requirements.

### **(2) Limited Services That Do Not Generally Require Close Customer Contact**

- a. **Basis for Addition:** The State of California has determined that businesses providing limited services that do not generally require close customer contract may resume operation, subject to more restrictive local health measures.
- b. **Description and Conditions to Operate:** Businesses that offer limited services that do not require close customer contact include, by way of example and without limitation, car washes, pet groomers and dog walkers, and businesses that provide services inside residences and community facilities where social distancing can be maintained, such as residential and janitorial cleaning services, heating, ventilation and air conditioning services, appliance repair persons, electricians, plumbers, other mechanical tradespersons, and general contractors. These businesses may operate subject to applicable industry guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-limited-services.pdf>).

## **Appendix C-1: Additional Businesses Permitted to Operate**

### **(3) Places of Worship and Providers of Religious Services and Cultural Ceremonies**

- a. **Basis for Addition:** The State of California has determined that places of worship and providers of religious services and cultural ceremonies may resume specified in-person activities under certain limitations.
- b. **Description and Conditions to Operate:** Places of worship and providers of religious services and cultural ceremonies may hold in-person religious services and cultural ceremonies, subject to applicable guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-places-of-worship.pdf>), provided that these events are held outdoors only.

It is strongly recommended that individuals wear face coverings while participating in religious services and cultural ceremonies, even if they can maintain a 6 foot distance from persons not in their household. Face coverings are also strongly recommended while engaged in activities such as singing and chanting.

Because in-person events, including in-person religious services and cultural ceremonies, can involve extended periods of close contact, increasing the risk of transmission of COVID-19, it is recommended that event organizers consider maintaining contact information of attendees at services or ceremonies and that this information be kept by the event's organizer for at least 14 days after the event. The purpose of this recommendation is to assist Contra Costa Health Services with effective contact tracing in case of an outbreak that may have affected people attending the event.

### **(4) Office Workplaces**

- a. **Basis for Addition:** The State of California has determined that office workplaces may resume operation.
- b. **Description and Conditions to Operate:** All office workplaces may open for business, subject to restrictions in applicable industry guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-office-workspaces.pdf>).

### **(5) Outdoor Museums and Other Outdoor Exhibit Spaces**

- a. **Basis for Addition:** The State of California has determined that outdoor museums, open air galleries, botanical gardens, and other outdoor exhibit spaces (collectively "Outdoor Museums") may resume limited operation.
- b. **Description and Conditions to Operate:** Outdoor Museums may operate subject to applicable industry guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-outdoor-museums.pdf>). Outdoor Museums do not include zoos or amusement parks. Associated indoor areas such as cafes, restaurants and convention spaces must remain closed until full operations are authorized.

## Appendix C-1: Additional Businesses Permitted to Operate

### (6) Libraries

- a. Basis for Addition: The State of California has determined that libraries may operate for curbside pickup.
- b. Description and Conditions to Operate: Libraries that have not been determined by a government entity to be providing Essential Government Functions may operate for curbside pickup only, subject to applicable industry guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-retail.pdf>).

### (7) Drive-in Theaters

- a. Basis for Addition: The State of California has determined that drive-in theaters may operate.
- b. Description and Conditions to Operate: Drive-in theaters may operate subject to applicable industry guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-retail.pdf>).

### (8) Employers of Essential Critical Infrastructure Workers

- a. Basis for Addition: The State of California has identified a list of “Essential Critical Infrastructure Workers” in 13 sectors that perform functions critical to public health and safety, as well as economic and national security. Because these workers have been determined to be essential, it is necessary to categorize their employers as Additional Businesses, to the extent they are not Essential Businesses as defined by the Order, for the purposes of authorizing these workers to carry out their essential work.
- b. Description and Conditions to Operate: Any business that employs Essential Critical Infrastructure Workers, as defined by the State of California (<https://covid19.ca.gov/essential-workforce/>), may resume operations carried out by its essential workforce, subject to applicable industry guidance issued by the State of California (<https://covid19.ca.gov/industry-guidance/>).

### (9) Outdoor Dining

- a. Basis for Addition: Outdoor dining provides access to freshly prepared meals at a relatively low risk of transmission. Because food service will be limited to outdoor areas, the overall volume of increased activity will be modest. In addition, interactions and activities that occur outdoors carry a lower risk of transmission than most indoor interactions and activities. Risks associated with these operations can be substantially mitigated through measures that provide for adequate social distancing.
- b. Description and Conditions to Operate: Restaurants and other food facilities that provide sit-down food service may provide outdoor, sit-down meals, subject to the following limitations:

## Appendix C-1: Additional Businesses Permitted to Operate

1. Alcohol may be sold to patrons in conjunction with a meal, but it may not be sold separately. For purposes of this Order, a “meal” means food that is prepared and served to a person at a customary, regular time for eating during the day, such as lunch or dinner. Snack fare, whether reheated or served cold, does not constitute a meal.
2. Bar areas must remain closed to customers.
3. Customers may remove face coverings to eat or drink while seated at a table outdoors. However, customers must wear face coverings in all of the following circumstances:
  - While waiting in line;
  - While going to or from their table;
  - When ordering their meals or otherwise interacting with employees;
  - While seated at a table and waiting for food, drinks or checks to arrive;
  - After meals and beverages have been consumed;
  - While inside a facility to use a restroom or to order or pick up food from a quick-service operation; and
  - At other times that a facility requires face coverings to be worn.
4. All food facilities authorized to open under this provision must comply with applicable industry guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-dine-in-restaurants.pdf>). The State requires the following:
  - Brewpubs, breweries, bars, pubs, craft distilleries, and wineries should remain closed until those establishments are allowed to resume modified or full operation **unless they are offering sit-down, dine-in meals. Alcohol can only be sold in the same transaction as a meal.**
  - Dine-in restaurants, brewpubs, breweries, bars, pubs, craft distilleries, and wineries that provide sit-down meals should follow the restaurant guidance below and should continue to **encourage takeout and delivery service whenever possible.**
  - Brewpubs, breweries, bars, pubs, craft distilleries, and wineries that do not provide sit-down meals themselves, but can contract with another vendor to do so, can serve dine-in meals provided both businesses follow the guidance below and alcohol is only sold in the same transaction as a meal.

## Appendix C-1: Additional Businesses Permitted to Operate

### **(10) Campgrounds, Recreational Vehicle Parks and Outdoor Recreation Facilities**

- a. Basis for Addition: Current conditions in the County allow for the opening of sectors of the economy considered to present a moderate risk of transmission with the mitigation steps set forth in State guidance documents. Activities at campgrounds, recreational vehicle parks and outdoor recreation facilities all present a moderate risk of transmission because the activities take place outside.
- b. Description and Conditions to Operate: Campgrounds, recreational vehicle parks and outdoor recreation facilities may operate subject to the applicable industry guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-campgrounds.pdf>). Outdoor pools are also subject to the following conditions:
  1. The maximum occupancy of the pool must be limited to a number that is less than or equal to the number of square feet of shared pool space divided by 75.
  2. The pool operator must post a sign at or near the entrance to the pool facility that sets forth the maximum allowable occupancy of the pool based on the above limitation.
  3. At least one person, separate from a lifeguard, paid or unpaid, shall be on duty at all times to ensure that the social distancing protocol applicable to the facility and all limitations herein are followed. The person performing this function may not be one of the swimmers in the pool.

### **Hair Salons and Barbershops**

- a. Basis for Addition: Current conditions in the County allow for the further opening of sectors of the economy considered to present a moderate risk of transmission with the mitigation steps set forth in State guidance documents. These sectors include hair salons and barbershops.
- b. Description and Conditions to Operate: Hair salons and barbershops may operate subject to applicable industry guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-hair-salons.pdf>).

**(Updated July 11, 2020)**

## Appendix C-2: Additional Activities

### General Requirements

The “Additional Activities” listed below may resume, subject to the requirements set forth in the Order and to any additional requirements set forth below or in separate guidance by the Health Officer. These activities were selected to implement a measured expansion of activity based on health-related considerations including the risks of COVID-19 transmission associated with types and modes of activity, the ability to substantially mitigate transmission risks associated with the operations, and related factors, such as the following:

- **Increase in mobility and volume of activity**—the overall impact resumption of the activity will have on the number of people leaving their homes and interacting with others in the community;
- **Contact intensity**—the type (close or distant) and duration (brief or prolonged) of the contact involved in the activity;
- **Number of contacts**—the approximate number of people that will be in the setting at the same time;
- **Modification potential**—the degree to which mitigation measures can decrease the risk of transmission.

### List of Additional Activities

For purposes of the Order, Additional Activities include all of the following:

#### (1) Small Social Gatherings

- a. Basis for Addition. Social gatherings of small groups of people who engage in support and recreational activities typical within households present a low risk for transmission of the virus that causes COVID-19 if the gatherings take place outdoors.
- b. Description and Conditions: Social gatherings of persons in a Social Bubble, as defined below, may take place if:
  1. The gathering takes place outside only, and
  2. The participants comply with all other applicable requirements under this Order.

Notwithstanding Section 15.k. of the Order, persons in Social Bubbles are not required to strictly adhere to Social Distancing Requirements while participating in social gatherings authorized under this section. However, persons in Social Bubbles who are over 12 years of age are required to:

1. Maintain six-foot social distancing from each other; and
2. Wear face coverings except when eating or drinking, in accordance with Health Officer Order No. COVID19-22 (the “Face Covering Order”).

## Appendix C-2: Additional Activities

### c. Definitions.

1. “Social Bubble” means a Stable Group of 12 that forms either a Household Support Unit, a Childcare Unit, or a Children’s Extracurricular Activity Unit, for the purpose of engaging in activities allowed under this Order.
2. “Stable Group of 12” means a group of not more than 12 individuals over a three-week time period that is a Household Support Unit, a Childcare Unit, or a Children’s Extracurricular Activity Unit.
3. “Household Support Unit” means a Stable Group of 12 that is formed for the purpose of engaging in the sort of support and activities that are typical of members of the same household (e.g., childcare, family recreation, etc.), regardless of whether they physically occupy the same dwelling. Each person may be part of only one Household Support Unit, and every resident of a single dwelling unit must be part of the same Household Support Unit, except that a child who resides in more than one dwelling unit as part of a court-ordered shared custody arrangement may be part of the Household Support Unit of each of the child’s custodians.
4. “Childcare Unit” means a Stable Group of 12 (typically 10 children and 1-2 adults) that is formed for the purposes of the Essential Business of childcare under Section 15.f.xxvi. of the Order. Each person (adult or child) may be a part of only a single Childcare Unit, but children in the same household may be part of separate, age-appropriate Childcare Units.
5. “Children’s Extracurricular Activity Unit” means a Stable Group of 12 (typically 10 children and 1-2 adults) that is formed for the purpose of organized recreation under 15.a.iii. Each person (adult or child) may be part of only one Children’s Extracurricular Activity Unit, but children in the same household may be part of separate, age-appropriate Extracurricular Activity Units.

### (2) Protests

- a. Basis for Addition: The State of California has issued guidance for participation in in-person protests.
- b. Description and Conditions: Subject to requirements and restrictions of the local jurisdiction in which the protest takes place, persons may participate in protests held outdoors. Such participation is subject to applicable guidance issued by the State of California  
(<https://covid19.ca.gov/search/?q=protests#gsc.tab=0&gsc.q=protests&gsc.page=1>).

It is strongly recommended that individuals wear face coverings while participating in protests, even if they can maintain a 6 foot distance from persons not in their household. Face coverings are also strongly recommended while engaged in activities such as singing and chanting.

## **Appendix C-2: Additional Activities**

### **(3) Use of Dog Parks**

- a. **Basis for Addition:** Dog parks are located outdoors, where the risk of transmission is low, and typically provide ample space for people to distance from one another. Risks associated with the use of dog parks can be mitigated through measures that provide for adequate social distancing.
- b. **Description and Conditions:** People may use dog parks subject to the following limitations:
  1. An individual must not enter a dog park if it is not possible at that time, within the park, to easily maintain at least six feet of separation from all other persons.
  2. Face coverings must be worn at all times, except by persons to which an exception under the Face Covering Order applies.

### **(4) Use of Picnic and Barbecue Areas**

- a. **Basis for Addition:** Picnic and barbecue areas are located outdoors, where the risk of transmission is low, and typically provide ample space for groups to distance from each other. Risks associated with the use of these facilities can be mitigated by restricting the use of these facilities.
- b. **Description and Conditions:** People may use picnic areas and barbecue areas subject to the following limitations:
  1. Picnic areas and barbecue areas may be used only by households or living units.
  2. Each picnic table may be occupied by only one household or living unit at a time.
  3. Each barbecue pit or grill may be used by only household or living unit at a time.
  4. Each member of a household or living unit must maintain at least six feet of separation from all members of other households or living units in the area. For clarity, members of the same household or living unit do not need to be six feet apart from each other.

## County variance info

Last updated July 14, 2020 at 3:35 PM

### County data monitoring

California is [monitoring COVID-19 closely](#) in each local community and keeping the public informed. We're teaming up with counties to fight it with every tool we have: [current local data](#), testing, contact tracing, infection control, emergency supplies, containment measures, and more.

Counties should be ready to restore limitations if outbreaks increase. The State Public Health Officer may take action if needed.

Effective July 13, 2020, ALL counties must close indoor operations in these sectors:

- Dine-in restaurants
- Wineries and tasting rooms
- Movie theaters
- Family entertainment centers (for example: bowling alleys, miniature golf,

[County alerts](#)

[Search](#)

[Back to top](#)

- Cardrooms

Additionally, bars, brewpubs, breweries, and pubs must close all operations both indoor and outdoor statewide, unless they are offering sit-down, outdoor dine-in meals. Alcohol can only be sold in the same transaction as a meal.

Counties that have remained on the County Monitoring List for 3 consecutive days will be required to shut down the following industries or activities unless they can be modified to operate outside or by pick-up.

- Fitness centers
- Worship services
- Protests
- Offices for non-essential sectors
- Personal care services, like nail salons, body waxing and tattoo parlors
- Hair salons and barbershops
- Malls

The following counties have remained on the County Monitoring List for 3 consecutive days:

### Affected counties as of 7/13/20

The State Public Health Officer may take additional action if needed.

## County attestation process

Local health jurisdictions that meet the criteria set forth by the California Department of Public Health and follow the process in the [county guidance](#) may move further ahead in the [Resilience Roadmap](#).

If a county decides to pursue a variance to move further ahead in the Resilience Roadmap, the local public health officer must:

1. Notify the California Department of Public Health (CDPH).
2. Certify through submission of a written attestation to CDPH that the county has met the readiness criteria (outlined below), including guidance to be issued by the county and detailed plans, and that the county is designed to mitigate the spread of COVID-19.

See the [list of counties](#) that have met the criteria.

## Guide to Safer Social Interactions

The best way to not get yourself or others sick is to stay home. But seeing loved ones and friends can be important for your mental health. If you do meet with others, you can reduce your risk for getting or spreading COVID-19.

### Think About the Risk of Meeting in Person

Every time you meet with others, you increase your risk of getting and spreading COVID-19. Consider the risk to yourself, the people you live with, and the people you will see.

- Older adults and people with pre-existing health conditions are most in danger if they get COVID-19. The safest way to see them is to talk on the phone or online.
- Consider the number of COVID-19 positive cases in your area. Is it increasing, staying flat, or decreasing in your community? [See cases in Contra Costa County.](#)
- If you feel sick, stay home. [Click for steps to help prevent spread if you are sick.](#)
- People can spread COVID-19 without knowing that they are sick. Protect your family, friends and neighbors by getting tested. [Click here to quickly schedule a no-cost test.](#)

### Plan How to See People Safely

Make a plan with your household and the people you are going to see. Consider creating a "social bubble" and gather outdoors only. A social bubble is a stable group of 12 people or less who have collectively agreed to limit their in-person social activities to only each other for at least three weeks.

#### Outdoor Activities are Safest

- If you are outside, you should still stay 6 feet apart and wear face coverings if you are around people you don't live with.
- Meeting people indoors is much riskier. If you meet people indoors, you must always wear a face covering. Make sure you are in a room with open windows or good ventilation. Try not to touch surfaces inside.
- Have cleaning supplies ready, so surfaces can be wiped down often.
- Try to avoid using other people's bathrooms, if possible.

#### Plan Activities to Minimize Contact

- Hang out with as few people as possible. Try to only spend time with the same people.
- Remember who you meet. If someone in your group feels sick later, the County can help them get tested.
- Avoid sharing food, drinks or utensils. Each person should have their own, if possible.
- Avoid sharing toys, bats, balls or objects passed back and forth. Bring disinfecting wipes to sanitize anything that might be shared.
- Avoid singing, chanting, or shouting.

[View more prevention tips for staying healthy during the pandemic.](#)

### After Your Meeting

#### Consider Getting Test

- People can spread COVID-19 without knowing that they are sick. Protect your family, friends and neighbors by [getting tested](#).
- You do not need to have symptoms or a doctor's note to schedule a test, but you must [make an appointment](#). [Read frequently asked questions about testing.](#)
- If you test positive for COVID-19, follow [isolation instructions](#) to keep others from getting sick. If you test negative but still feel sick, stay home for at least 10 days since you started feeling sick.

#### What to do if Someone you met Tests Positive for COVID-19

- We advise people that have been in contact with someone who tests positive to [self-isolate at home for 14 days](#) since your last exposure to that person.
- Monitor yourself for symptoms. [If you start to feel sick](#), please contact your healthcare provider and let them know you are a contact to someone who has tested positive for COVID-19. If you do not have a healthcare provider, call the Contra Costa Health Services Advice Nurse at [1-877-661-6230](tel:1-877-661-6230) option 1.
- People can spread COVID-19 without knowing that they are sick. Protect your family, friends and neighbors by [getting tested](#).

# Contra Costa County Board of Supervisors

## Subcommittee Report

### AD HOC COMMITTEE ON COVID-19 ECONOMIC IMPACT AND RECOVERY

**Meeting Date:** 07/16/2020  
**Subject:** COVID-19 Recovery Road Map: Continuing Discussion of  
Current Local Health Orders and Timeline for Reopening  
**Submitted For:** David Twa, County Administrator  
**Department:** County Administrator  
**Referral No.:**  
**Referral Name:**  
**Presenter:** **Contact:**

---

#### **Referral History:**

Although the Board of Supervisors has authority over County issues, under State law, when an emergency of this nature is declared and there is a pandemic of this magnitude, the Health Officer of each County has the legal authority to impose whatever orders she or he deem necessary to protect the public.

On Tuesday, April 21, the Board of Supervisors formed this ad hoc committee to advise the Health Department on COVID19 impacts. The goal of the committee is to work toward having a sustainable COVID-19 mitigation and recovery plan. The committee will be working with the community and industry on issues of concern, advising the Board of Supervisors and the Health Officer on possible ways to interpret and apply Health Orders so they will continue to keep the community safe, but allow more businesses to re-open and provide common-sense applications to outdoor activities.

The Committee has so far conducted ten public meetings on May 7, 14, 21 and 28; June 4, 11, 18, and 25; July 2 and 9, 2020, covering recreation and lifestyle services, in-home and other personal services, small businesses, religious gatherings; a plan to move to fully to Stage 2 and, regrettably, the second surge that required postponement of many planned Phase 2 reopenings. A record of those meetings is posted on the County website at this [link](#). The committee plans to continue meeting weekly, taking up issues relating to different business/community sectors at each meeting.

The Committee and the Health Officer also discuss updates to the State and County Health Orders and projected timeline for reopening business and community activities and answer questions received each week via the Supervisors' offices.

#### **Referral Update:**

As of the date of publication of this packet, no new orders or announcements have been released. Attached are the current health orders and announcements as of July 9, 2020.

You can spread COVID-19 even if you don't feel that sick. You can pass the disease to someone else before you have symptoms, and even if you never develop any symptoms at all. When infected people come in contact with others who are high-risk, there can be deadly consequences.

That is why Bay Area health officers recommend people who are not members of the same household remain physically distant. The best ways to protect yourself and slow the spread of COVID-19 include:

- Continuing to stay home as much as possible
- Practicing physical distancing outside the home
- Wearing face coverings or masks when outside your home
- Avoiding gatherings with people outside your immediate household
- Washing your hands thoroughly and frequently
- Staying home from work, school or daycare if you feel sick

All Bay Area residents are also encouraged to get tested for COVID-19, and to do so immediately if they have symptoms. Check with your local health department for more information about testing and about efforts in your community to fight the COVID-19 pandemic. For more information, please visit [cchealth.org/coronavirus](http://cchealth.org/coronavirus) to read the latest health order and its appendices, and for local information about Contra Costa's response to the COVID-19 pandemic. Here is a link to the updated FAQs (Frequently Asked Questions): [FAQs](#)

**Recommendation(s)/Next Step(s):**

DISCUSS the June 16 Health Order and any subsequent updates to the timeline for future resumption of business and community activities.

**Fiscal Impact (if any):**

No fiscal impact. The Committee's meetings facilitate the exchange of information and ideas.

**ORDER OF THE HEALTH OFFICER OF THE COUNTY OF CONTRA COSTA  
SUPERSEDING HEALTH OFFICER ORDER NO. HO-COVID19-08, GENERALLY  
REQUIRING MEMBERS OF THE PUBLIC AND WORKERS TO WEAR FACE  
COVERINGS**

**ORDER NO. HO-COVID19-22**

**DATE OF ORDER: JULY 5, 2020**

**Summary and Basis of the Order**

This Order requires that all individuals in Contra Costa County (“County”) wear face coverings in accordance with guidance issued by the State of California. This Order is issued in light of the existence in the County, as of July 4, 2020, of 3,564 confirmed cases of infection by the virus that causes Coronavirus Disease 2019 (“COVID-19”), including a significant and increasing number of cases of community transmission. This Order is necessary to slow the rate of spread. This Order supersedes the Order of the Health Officer of the County of Contra Costa issued on April 17, 2020, which imposed a requirement that members of the public and workers wear face coverings in specified situations.

A key transmission method for the virus that causes COVID-19 is respiratory droplets that people expel when they breathe or sneeze. People can be infected with the virus that causes COVID-19 and not have any symptoms, meaning they are asymptomatic, but can still be contagious. People can also be infected and contagious 48 hours before developing symptoms, the time when they are pre-symptomatic. Many people who have been infected with the COVID-19 virus have mild symptoms and do not recognize they are infected and contagious, and they can unintentionally infect others. Therefore, the U.S. Centers for Disease Control and Prevention (CDC), the California Department of Public Health (CDPH) and the Contra Costa County Health Services Department believe that wearing a face covering, when combined with physical distancing of at least 6 feet and frequent hand washing, may reduce the risk of transmitting the COVID-19 virus when engaged in activities in public when others are nearby.

UNDER THE AUTHORITY OF CALIFORNIA HEALTH AND SAFETY CODE SECTIONS 101040 and 120175, THE HEALTH OFFICER OF THE COUNTY OF CONTRA COSTA (“HEALTH OFFICER”) ORDERS:

1. **Past Order.** This Order supersedes Health Officer Order No. HO-COVID19-08, which is referred to as the “Face Covering Order” in other orders of the Health Officer. Requirements in other Health Officer orders to comply with the Face Covering Order will be interpreted as requirements to comply with this Order.

2. **Compliance with State Guidance.** All individuals in the County shall comply with the applicable face covering requirements set forth in the June 18, 2020, CDPH Guidance for the Use of Face Coverings (“State Face Covering Guidance”), a copy of which is attached hereto, as may be amended from time to time.

3. **Face Coverings.** The term “face covering” in the State Face Covering Guidance (“Face Covering”) means a covering made of cloth, fabric, or other soft or permeable material, without holes, that covers the nose and mouth, but does not hide or obscure the wearer’s eyes or forehead. The Face Covering should be comfortable, so that the wearer can breathe comfortably through the nose and does not have to adjust it frequently, so as to avoid touching the face. A video showing how to make a Face Covering and additional information about how to wear and clean Face Coverings may be found at the website of the Centers for Disease Control and Prevention at <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/diy-cloth-face-coverings.html>. Any mask that incorporates a one-way valve (typically a raised plastic cylinder about the size of a quarter on the front or side of the mask) that is designed to facilitate easy exhaling is not a Face Covering and may not be used to comply with this Order. Even when not required by this Order, people are strongly encouraged to wear Face Coverings when in public.

4. **Local Requirements.** Subject to the exemptions set forth in the State Face Covering Guidance, including but not limited to exemptions in industry guidance documents issued by the State of California, individuals and businesses in the County must comply with the following local requirements, as applicable:

a. Individuals shall wear Face Coverings when less than 6 feet away from any person who is not a member of the individual’s household or living unit.

b. Individuals must wear Face Coverings when inside or on the grounds of, or waiting in line to enter, any business.

c. Businesses must take all reasonable steps to prohibit an individual who is not wearing a Face Covering from entering. If those efforts are not successful, the business must not serve that individual, and must seek to remove the individual from the premises.

5. **Incorporation of Emergency Proclamations.** This Order is issued in accordance with, and incorporates by reference, the March 4, 2020, Proclamation of a State of Emergency issued by Governor Gavin Newsom and the March 10, 2020, Proclamation by the Contra Costa County Board of Supervisors declaring the existence of a local emergency.

**6. Enforcement.** Pursuant to Government Code sections 26602 and 41601 and Health and Safety Code section 101029, the Health Officer requests that the Sheriff and all chiefs of police in the County ensure compliance with and enforce this Order. The violation of any provision of this Order constitutes an imminent threat and menace to public health, constitutes a public nuisance, and is punishable by fine, imprisonment, or both.

**7. Effective Date and Time.** This Order shall become effective at 12:01 a.m. on July 6, 2020, and will continue to be in effect until it is extended, rescinded, superseded, or amended in writing by the Health Officer.

**8. Copies; Contact Information.** Copies of this Order shall promptly be: (1) made available at the Office of the Director of Contra Costa Health Services, 1220 Morello Avenue, Suite 200, Martinez, CA 94553; (2) posted on the Contra Costa Health Services website (<https://www.cchealth.org>); and (3) provided to any member of the public requesting a copy of this Order. Questions or comments regarding this Order may be directed to Contra Costa Health Services at (844) 729-8410.

**IT IS SO ORDERED:**

## *Contra Costa County Releases Updated Public Guidance for Face Coverings*

Like 2

Tweet

Tuesday, July 7, 2020

Contra Costa County today updated its health order about when and where members of the public should wear face coverings during the COVID-19 pandemic to align it with current state guidance.

Local data indicate that COVID-19 is spreading rapidly in Contra Costa County. The county is currently on the California Department of Public Health's monitoring list because of increasing numbers of COVID-19 patients in local hospitals. Today Contra Costa reports 209 new confirmed cases.

The updated order specifies that face coverings should be worn in businesses and in areas where people wait in line to enter businesses, and that everyone should wear a mask or face covering whenever they are within six feet of another person who is not a member of their household, except in very limited, industry-specific situations.

People who have certain health conditions are exempt from wearing masks that fit snugly over the mouth and nose but must instead wear plastic face shields with cloth draping beneath to contain coughs and sneezes.

The order also requires businesses that are open during the pandemic to ensure their

### RELATED

- [Novel Coronavirus \(COVID-19\) Latest Local Information](#)

workers and volunteers wear face coverings, and to not serve or allow entry to anyone not wearing face coverings.

"We recognize there is a lot of detailed health guidance coming from state and local sources, and that can be confusing," said Candace Andersen, chair of the Contra Costa Board of Supervisors. "With COVID-19 spreading more in our community, it is more important than ever to follow the state health guidance and wear a face covering whenever you go out."

Face coverings, even if just cloth bandanas, help reduce the spread of COVID-19 by blocking virus-containing droplets that come out of our mouths and noses when we breath, speak, cough or sneeze. Face coverings are one of the simplest and most effective ways to slow the virus spread and allow for further re-opening of the economy. The World Health Organization, the Centers for Disease Control and the California Department of Public Health all recommend face coverings due to overwhelming evidence of benefit ([https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/cloth-face-cover-guidance.html?CDC\\_AA\\_refVal=https%3A%2F%2Fwww.cdc.gov%2Fcoronavirus%2F2019-ncov%2Fprevent-getting-sick%2Fcloth-face-cover.html](https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/cloth-face-cover-guidance.html?CDC_AA_refVal=https%3A%2F%2Fwww.cdc.gov%2Fcoronavirus%2F2019-ncov%2Fprevent-getting-sick%2Fcloth-face-cover.html)) in reducing the spread of COVID-19.

CCHS encourages everyone to take simple steps to protect themselves from COVID-19: Follow the shelter-in-place order, and wear a face covering when you go out or are near other people. Wash your hands thoroughly and frequently, and always stay home from work or school if you are not feeling well.

Visit [cchealth.org/coronavirus](https://cchealth.org/coronavirus) (/coronavirus/) to read the new health order, and for local information about Contra Costa's response to the COVID-19 pandemic.

###

**ORDER OF THE HEALTH OFFICER OF THE COUNTY OF CONTRA COSTA**

**No. HO-COVID19-23**

**UPDATED MASS QUARANTINE ORDER**

DATE OF ORDER: July 5, 2020

**Please read this Order carefully. Violation of or failure to comply with this Order is a misdemeanor punishable by fine, imprisonment, or both. (California Health and Saf. Code, § 120295.)**

**SUMMARY OF THE ORDER**

**California is in a State of Emergency because of the Coronavirus Disease 2019 (COVID-19) pandemic.** The spread of the novel coronavirus that causes COVID-19 is a substantial danger to the health of the public within the County of Contra Costa (“County”). COVID-19 can easily spread between people who are in close contact with one another. This Order is issued based on scientific evidence and best practices as currently known and available to protect vulnerable members of the public from avoidable risk of serious illness or death resulting from exposure to COVID-19. The age, condition, and health of a significant portion of the population of the County place it at risk for serious health complications, including death, from COVID-19. There is growing evidence of transmission risk from infected persons before the onset of symptoms. Thus, all individuals who contract COVID-19, regardless of their level of symptoms (none, mild or severe), may place other vulnerable members of the public at significant risk. Currently, there is no vaccine available to protect against COVID-19 and no specific treatment.

To help slow COVID-19’s spread, protect vulnerable individuals, and prevent the healthcare system in the County from being overwhelmed, it is necessary for the Health Officer of the County of Contra Costa to require the quarantine of persons exposed to a person diagnosed with COVID-19. Quarantine separates individuals who were exposed to COVID-19 from others, until it is determined that they are not at risk for spreading the disease.

This Order supersedes the May 13, 2020, Order of the Health Officer of the County of Contra Costa, No. HO-COVID19-12, directing close contacts of persons diagnosed with COVID-19 to quarantine themselves. This Order updates the description of close contacts to include all persons who have been within six feet of the person diagnosed with COVID-19 during the infectious period as defined.

UNDER THE AUTHORITY OF SECTIONS 101040 AND 120175 OF THE CALIFORNIA HEALTH AND SAFETY CODE, THE HEALTH OFFICER OF THE COUNTY OF CONTRA COSTA (“HEALTH OFFICER”) ORDERS:

1. All persons who have had close contact with a person with COVID-19 (“Case), as described below in Section 2, must quarantine themselves. These persons are required to follow all instructions in this Order and the Public Health guidance documents referenced in this Order.
2. For the purposes of this Order, a person is considered to have had close contact with a Case if, during the Case’s infectious period, the person was within six feet of the Case for 15 minutes or longer. Examples may include persons who:
  - a. Live in, have visited, or have stayed overnight at the Case’s residence; or
  - b. Are intimate sexual partners of the Case; or
  - c. Worked within six feet of the Case; or
  - d. Provide or provided care to the Case without wearing a mask, a face shield or goggles, gown, and gloves; or
  - e. Have been identified as close contacts by the Contra Costa County Health Services Department.
  - f. Have been released from a California Department of Corrections and Rehabilitation Facility where a Case was reported among staff or detainees within 30 days before the person’s release.

For purposes of this Order, a Case is infectious from 48 hours before his or her symptoms began (or, in the absence of symptoms, from 48 hours before the date of administration of a positive test for the presence of COVID-19) and until he or she is released from isolation.

3. Instructions. All persons who have had close contact with a Case must immediately take the following actions:
  - a. Stay in their home or another residence through 14 days from the last date that they were in contact with the person infected or likely to be infected with COVID-19. Persons are

required to quarantine themselves for the entirety of the 14-day incubation period because they are at high risk for developing and spreading COVID-19.

b. Quarantined persons may not leave their place of quarantine or enter any other public or private place except to receive necessary medical care or during an emergency that requires evacuation to protect the health and safety of the person.

c. Carefully review and closely follow all requirements listed in the “Home Quarantine Instructions,” posted at <https://www.coronavirus.cchealth.org/if-you-are-sick>.

d. If a quarantined person becomes sick with fever, cough, or shortness of breath (even if their symptoms are very mild), he or she shall isolate themselves at home and away from other people and follow the “Home Isolation Instructions,” posted at <https://www.coronavirus.cchealth.org/if-you-are-sick>. This is because the person is likely to have COVID-19 and if so, can spread it to vulnerable individuals. If a medical professional examines a quarantined person and determines that his or her symptoms are not due to COVID-19, the person may discontinue home isolation but shall continue to follow the home quarantine order and instructions.

4. Exception. Notwithstanding the foregoing, health care workers and first responder agency workers who are household members, intimate partners, or caregivers of a person with COVID-19 are not subject to this Order under the following circumstances:

a. The worker informs his or her employer about the worker’s close contact to a lab-confirmed Case;

b. The worker is asymptomatic, and the worker’s employer determines, based on staffing needs, that the worker needs to report to work; AND

c. The worker returns to work.

5. The Health Officer may take additional action(s), which may include civil detention or requiring one to stay at a health facility or other location, to protect the public’s health if an individual who is subject to this Order violates or fails to comply with this Order.

6. This Order shall become effective at 12:01 a.m. on July 6, 2020, and will continue to be in effect until it is extended, rescinded, superseded, or amended in writing by the Health Officer.

7. Copies of this Order shall promptly be: (1) made available at the Office of the Director of Contra Costa Health Services, 1220 Morello Avenue, Suite 200, Martinez, CA 94553; (2) posted on the Contra Costa Health Services website (<https://www.cchealth.org>); and (3) provided to any member of the public requesting a copy.

8. If any provision of this Order or its application to any person or circumstance is held to be invalid, then the remainder of the Order, including the application of such part or provision to

other persons or circumstances, shall not be affected and shall continue in full force and effect. To this end, the provisions of this Order are severable.

9. Questions or comments regarding this Order may be directed to Contra Costa Health Services at (844) 729-8410.

**IT IS SO ORDERED:**

Dated: July 5, 2020

Chris Farnitano, M.D.  
Health Officer of the County of Contra Costa

# Summary of COVID-19 Community Outreach Activities 2020

## Proactive Outreach Task Force

- Created COVID-19 Rapid Response Playbook
- Developed Coronavirus Vulnerability Index that identified 7,000 individuals at high-risk.
- Social needs assessment completed by more than 3,300 individuals

## Pharmacy Outreach

- Campaign to encourage patients and providers to increase refills by mail and encourage 90-day supplies on refills
- Approx. 2600 prescriptions switched from 30 to 90 day supplies; saving an estimated 7,000 trips to the pharmacy over the course of a year.

March

## Historically Marginalized Communities Task Force

- Developed community resource guide for undocumented immigrants Translated in 7 languages.
- Focus areas expanded to youth, Latinx and African-American, and Asian/Pacific Islander communities

## Food + Pilot Project

- Project delivers weekly supplemental nutrition boxes to individuals at risk of COVID-19 who are under 60 years old, have an expressed food need and consent to services.
- Today, more than 75 food boxes delivered per week
  - More than 9000 meals have been provided

April

## Congregate Living Facilities Task Force

- Conducted almost 300 surveys with Skilled Nursing Facilities, Mental Health and Substance Use Disorder residential treatment and recovery facilities.
- Created and distributed 200 tool kits for smaller facilities with 6 beds and less
- Congregate Living Facilities task force was moved to the Care and Treatment branch. in late May.

## Prevention Outreach Branch

- Prevention/Outreach branch was created as part of new ICS structure.
- Proactive Outreach, Historically Marginalized Communities, and Congregate Living Task forces brought into branch.

May

## Latinx Focused Workgroup

- Convening a series of rapid cycle work groups to help create messaging for Latinx communities about COVID-19 testing and prevention.

## Proactive Outreach Branch Redesign

- Developed partnership with EHSD to drive integrated service response efforts and co-sponsor coordinating body.

## African-American Focused Workgroup

- Created culturally-specific graphics around testing and 4 principles.
- HSD co-sponsored a Juneteenth Holistic Health virtual event to educate community on testing and other COVID-19 resources and supports.

June

## Coming Soon

- LGBTQ+ focused workgroup
- Coronavirus Vulnerability Index 2.0
- COVID-19 Community Social Needs Assessment Survey 2.0

## Youth Focused Workgroup

- Convening a series of rapid cycle work groups to help create messaging for youth campaign about COVID testing and prevention .

## Food ++ Redesign

- New community partnership being established to create a sustainable emergency food program

## Asian-American/Pacific Islander focus group

- Convening a series of rapid cycle work groups to help create messaging for AAPI communities about COVID-19 testing and prevention.

July

**ORDER OF THE HEALTH OFFICER  
OF THE COUNTY OF CONTRA COSTA DIRECTING  
ALL INDIVIDUALS IN THE COUNTY TO CONTINUE TO COMPLY WITH SOCIAL  
DISTANCING REQUIREMENTS, TRAVEL RESTRICTIONS AND OTHER  
MEASURES NECESSARY TO SLOW THE SPREAD OF NOVEL CORONAVIRUS  
DISEASE 2019**

**Order No. HO-COVID19-18**

**DATE OF ORDER: JUNE 16, 2020**

**Please read this Order carefully. Violation of or failure to comply with this Order is a misdemeanor punishable by fine, imprisonment, or both. (California Health and Safety Code § 120295.)**

**Summary of the Order**

This Order of the County of Contra Costa Health Officer eases certain restrictions set forth in the Health Officer's June 5, 2020, Shelter in Place Order ("Prior Order"). In light of further progress to slow the spread of Novel Coronavirus Disease 2019 ("COVID-19") within the County of Contra Costa and neighboring jurisdictions, and in conformance with State guidelines, as of the effective date set forth in Section 18, this Order:

- Allows recreational vehicle parks, outdoor recreation facilities, hair salons and barbershops to operate; and
- Modifies restrictions on outdoor recreation activities, childcare facilities, providers of religious services and cultural ceremonies, outdoor dining, campgrounds and outdoor pools.

**UNDER THE AUTHORITY OF CALIFORNIA HEALTH AND SAFETY CODE SECTIONS 101040 AND 120175, THE HEALTH OFFICER OF THE COUNTY OF CONTRA COSTA ("HEALTH OFFICER") ORDERS:**

1. This Order supersedes the Prior Order. This Order amends, clarifies, and continues certain terms of the Prior Order to ensure continued social distancing and limit person-to-person contact to reduce the rate of transmission of COVID-19. This Order continues to restrict activities, travel, governmental and business functions. But in light of progress

achieved in slowing the spread of COVID-19 in the County of Contra Costa (the “County”), and in accordance with a variance obtained by the County from the State of California on June 9, 2020, which allows the County to move more quickly, or in a different order, through Stage 2 of the State of California’s COVID-19 roadmap to recovery, this Order eases restrictions to allow additional businesses to resume or begin operating, subject to conditions set forth in applicable industry guidelines issued by the State. This Order also modifies restrictions that applied to outdoor recreation activities, childcare facilities, outdoor dining, campgrounds and outdoor pools. The gradual and measured easing of restrictions is designed to manage the overall volume, duration, and intensity of person-to-person contact to prevent a surge in COVID-19 cases in the County and neighboring counties. As further provided in Section 11 below, the Health Officer will continue to monitor the risks of the activities and businesses allowed under this Order based on the COVID-19 Indicators (as defined in Section 11) and other data, and may, as conditions support doing so, ease more restrictions and add to the list of Additional Businesses and Additional Activities. The activities allowed by this Order will be assessed on an ongoing basis and these activities and others allowed by the Order may need to be modified (including, without limitation, temporarily restricted or prohibited) if the risk associated with COVID-19 increases in the future. As of the effective date and time of this Order set forth in Section 18 below, all individuals, businesses, and government agencies in the County are required to follow the provisions of this Order.

2. The primary intent of this Order is to slow the spread of COVID-19 in the County and mitigate the impact on delivery of critical healthcare services. All provisions of this Order must be interpreted to effectuate this intent. Failure to comply with any of the provisions of this Order constitutes an imminent threat and menace to public health, constitutes a public nuisance, and is punishable by fine, imprisonment, or both.
3. Individuals living within the County may leave their residences only for the purposes specified in Section 15 of this Order. Individuals in the County who do not reside in the County must comply with all applicable requirements of this Order. Individuals experiencing homelessness are exempt from this Section, but are strongly urged to obtain shelter, and governmental and other entities are strongly urged, as soon as possible, to make such shelter available and provide handwashing or hand sanitation facilities to persons who continue experiencing homelessness.
4. When people leave their place of residence for the limited purposes allowed in this Order, they must strictly comply with Social Distancing Requirements as defined in Section 15.k, except as expressly provided in this Order, and must wear face coverings as provided in, and subject to the limited exceptions in, Health Officer Order No. HO-COVID19-08 (the “Face Covering Order”).
5. Gatherings.
  - a. Health Officer Order No. HO-COVID19-01, which prohibited mass gatherings of 100 or more persons, is rescinded. Except as set forth elsewhere in this Order, all

public and private gatherings of individuals who are not members of the same household or living unit are prohibited. Nothing in this Order prohibits members of a single household or living unit from engaging together in the activities authorized by this Order.

- b. Public and private gatherings of persons in a “Social Bubble,” as defined below, may take place if the gathering takes place outside and participants comply with all other requirements of this Order. Persons in Social Bubbles are not required to strictly adhere to Social Distancing Requirements while participating in gatherings authorized under this section; however, participants over 12 years of age are strongly encouraged to maintain six-foot social distancing from each other and wear face coverings. The following definitions apply to this subsection:
  - i. “Social Bubble” means a Stable Group of 12 that forms either a Household Support Unit, a Childcare Unit, or a Children’s Extracurricular Activity Unit, for the purpose of engaging in activities allowed under this Order.
  - ii. “Stable Group of 12” means a group of not more than 12 individuals over a three-week time period that is a Household Support Unit, a Childcare Unit, or a Children’s Extracurricular Activity Unit.
  - iii. “Household Support Unit” means a Stable Group of 12 that is formed for the purpose of engaging in the sort of support and activities that are typical of members of the same household (e.g., childcare, family recreation, etc.), regardless of whether they physically occupy the same dwelling. Each person may be part of only one Household Support Unit, and every resident of a single dwelling unit must be part of the same Household Support Unit, except that a child who resides in more than one dwelling unit as part of a court-ordered shared custody arrangement may be part of the Household Support Unit of each of the child’s custodians.
  - iv. “Childcare Unit” means a Stable Group of 12 (typically 10 children and 1-2 adults) that is formed for the purposes of the Essential Business of childcare under Section 15.f.xxvi. of the Order. Each person (adult or child) may be a part of only a single Childcare Unit, but children in the same household may be part of separate, age-appropriate Childcare Units.
  - v. “Children’s Extracurricular Activity Unit” means a Stable Group of 12 (typically 10 children and 1-2 adults) that is formed for the purpose of organized recreation under 15.a.iii. Each person (adult or child) may be part of only one Children’s Extracurricular Activity Unit, but children in the same household may be part of separate, age-appropriate Extracurricular Activity Units.

6. Businesses with a facility in the County may operate if they are Essential Businesses as defined in Section 15.f, Outdoor Businesses as defined in Section 15.l, or Additional Businesses as defined in Section 15.n. Outdoor Businesses must conduct all business and transactions involving members of the public outdoors. Businesses that are not Essential Businesses, Outdoor Businesses or Additional Businesses may not operate, except as follows:
  - a. All businesses may conduct Minimum Basic Operations, as described in Section 15.g of this Order.
  - b. All businesses may continue operations consisting exclusively of owners, personnel, volunteers, or contractors performing activities at their own residences (i.e., working from home).

All Essential Businesses are strongly encouraged to remain open. Telework is strongly encouraged at all businesses.

7. As a condition of continued or resumed operations, business operators must prepare or update, post, implement, and distribute to their personnel a Social Distancing Protocol for each of their facilities in the County frequented by personnel or members of the public, as specified in Section 15.h. In addition to the Social Distancing Protocol, all businesses allowed to operate under this Order must follow applicable industry-specific guidance issued by the State of California related to COVID-19, set forth at <https://covid19.ca.gov/industry-guidance/>, and any conditions on operation specified in this Order, including, with regard to Additional Businesses, those specified in Appendix C-1. Except as allowed in Appendix C-1, businesses that include an Essential Business or Outdoor Business component at their facilities alongside other components must, to the extent feasible, scale down their operations to the Essential Business and Outdoor Business components only; provided, however, mixed retail businesses that are otherwise allowed to operate under this Order may continue to stock and sell non-essential products.
8. All travel, except Essential Travel, as defined below in Section 15.i, is prohibited. People may use public transit only for purposes of performing activities permitted under this Order. Transit agencies and people riding on public transit must comply with Social Distancing Requirements, as defined in Section 15.k, to the greatest extent feasible, and personnel and passengers must wear Face Coverings as required by the Face Covering Order. Any travel into or out of the County not expressly permitted by this Order is prohibited.
9. This Order is issued based on evidence of continued significant community transmission of COVID-19 within the County; continued uncertainty regarding the degree of undetected asymptomatic transmission; scientific evidence and best practices regarding the most effective approaches to slow the transmission of communicable diseases generally and COVID-19 specifically; evidence that the age, condition, and health of a significant portion of the population of the County places it at risk for serious health

complications, including death, from COVID-19; and further evidence that others, including younger and otherwise healthy people, are also at risk for serious outcomes. Due to the outbreak of the COVID-19 disease in the general public, which is a pandemic according to the World Health Organization, there is a public health emergency throughout the County. Making the problem worse, some individuals who contract the virus causing COVID-19 have no symptoms or have mild symptoms, which means they may not be aware they carry the virus and are transmitting it to others. Further, evidence shows that the virus can survive for hours to days on surfaces and be indirectly transmitted between individuals. Because even people without symptoms can transmit the infection, and because evidence shows the infection is easily spread, gatherings and other direct or indirect interpersonal interactions can result in preventable transmission of the virus.

10. Efforts taken to date regarding this public health emergency have slowed the virus' trajectory, but the emergency and the attendant risk to public health remain significant. As of June 15, 2020, a total of 1,983 confirmed cases of COVID-19 in the County have been reported (up from 34 on March 15, 2020, just before the first shelter-in-place order). The cumulative number of confirmed cases continues to increase, though the rate of increase has slowed in the weeks leading up to this Order. Evidence suggests that the restrictions on mobility and social distancing requirements imposed by the Prior Order (and the orders that preceded it) are slowing the rate of increase in community transmission and confirmed cases by limiting interactions among people, consistent with scientific evidence of the efficacy of similar measures in other parts of the country and world.
11. The Health Officer is monitoring several key indicators ("COVID-19 Indicators"), which are among the many factors informing decisions whether to modify restrictions imposed to slow the spread of COVID-19. Progress on all of these COVID-19 Indicators — specifically related to case numbers, hospital utilization and capacity, supply of personal protective equipment, and contact tracing — makes it appropriate, at this time, to allow more Additional Businesses to resume operations and ease some other restrictions. But the continued prevalence of the virus that causes COVID-19 requires many activities and business functions to remain restricted, and those activities that are allowed to occur must do so subject to social distancing and other infection control practices identified by the Health Officer. Evaluation of the COVID-19 Indicators will be critical to determinations by the local health officers regarding whether the restrictions imposed by this Order will be further modified to ease or tighten the restrictions imposed by this Order and augment, limit, or prohibit the Additional Businesses and Additional Activities allowed to resume. The Health Officer will continually review whether modifications to the Order are warranted based on (1) progress on the COVID-19 Indicators; (2) developments in epidemiological and diagnostic methods for tracing, diagnosing, treating, or testing for COVID-19; and (3) scientific understanding of the transmission dynamics and clinical impact of COVID-19. The COVID-19 Indicators include, but are not limited to, the following:

- a. The trend of the number of new COVID-19 cases and hospitalizations per day.
  - b. The capacity of hospitals and the health system in the County and region, including acute care beds and Intensive Care Unit beds, to provide care for COVID-19 patients and other patients, including during a surge in COVID-19 cases.
  - c. The supply of personal protective equipment (PPE) available for hospital staff and other healthcare providers and personnel who need PPE to safely respond to and treat COVID-19 patients.
  - d. The ability and capacity to quickly and accurately test persons to determine whether they are COVID-19 positive, especially those in vulnerable populations or high-risk settings or occupations.
  - e. The ability to conduct case investigation and contact tracing for the volume of cases and associated contacts that will continue to occur, isolating confirmed cases and quarantining persons who have had contact with confirmed cases.
12. Scientific evidence shows that at this stage of the emergency, it remains essential to continue to slow virus transmission to help (a) protect the most vulnerable; (b) prevent the health care system from being overwhelmed; (c) prevent long-term chronic health conditions, such as cardiovascular, kidney, and respiratory damage and loss of limbs from blood clotting; and (d) prevent deaths. This Order is necessary to slow the spread of COVID-19, preserving critical and limited healthcare capacity in the County and advancing toward a point in the public health emergency where transmission can be controlled. At the same time, since the Prior Order was issued, the County has continued to make progress in expanding health system capacity and healthcare resources and in slowing community transmission of COVID-19. In light of progress on these indicators, and subject to continued monitoring and potential public health-based responses, in addition to those already allowed to operate under the Prior Order as Essential Businesses, Outdoor Businesses and Additional Businesses, it is appropriate at this time to allow the operation of more Additional Businesses. These businesses are identified based on health-related considerations and transmission risk factors including, but not limited to, the intensity and quantity of contacts and the ability to substantially mitigate transmission risks associated with the operations, and guidance issued by the State of California.
13. This Order is issued in accordance with, and incorporates by reference, the March 4, 2020, Proclamation of a State of Emergency issued by Governor Gavin Newsom and the March 10, 2020, Proclamation by the Contra Costa County Board of Supervisors declaring the existence of a local emergency.

14. This Order is also issued in light of the March 19, 2020, Order of the State Public Health Officer (the “State Shelter Order”), which set baseline statewide restrictions on non-residential business activities, effective until further notice, and the Governor’s March 19, 2020, Executive Order N-33-20 directing California residents to follow the State Shelter Order. The May 4, 2020, Executive Order issued by Governor Newsom and May 7, 2020, Order of the State Public Health Officer permit certain businesses to reopen if a local health officer believes the conditions in that jurisdictions warrant it, but expressly acknowledge the authority of local health officers to establish and implement public health measures within their respective jurisdictions that are more restrictive than those implemented by the State Public Health Officer. This Order adopts in certain respects more stringent restrictions addressing the particular facts and circumstances in this County, which are necessary to control the public health emergency as it is evolving within the County and the Bay Area. Without this tailored set of restrictions that further reduces the number of interactions between persons, scientific evidence indicates that the public health crisis in the County will worsen to the point at which it may overtake available health care resources within the County and increase the death rate. Also, this Order enumerates additional restrictions on non-work-related travel not covered by the State Shelter Order; sets forth mandatory Social Distancing Requirements for all individuals in the County when engaged in activities outside their residences; and sets forth a mechanism to ensure that all businesses with facilities that are allowed to operate under the Order comply with the Social Distancing Requirements. Where this Order is more restrictive than a state public health order related to the COVID-19 pandemic, this Order controls. To the extent any federal guidelines allow activities that are not allowed by this Order, this Order controls and those activities are not allowed.

15. Requirements and Exemptions. Individuals may leave their residence to do the following:

- a. Individuals may leave their residence to perform the following “Essential Activities.” But people at high risk of severe illness from COVID-19 and people who are sick are strongly urged to stay in their residence to the extent possible, except as necessary to seek or provide medical care or Essential Governmental Functions. Essential Activities are:
  - i. To engage in activities or perform tasks important to their health and safety, or to the health and safety of their family or household members (including pets), such as, by way of example only and without limitation, obtaining medical supplies or medication, or visiting a health care professional.
  - ii. To obtain necessary services or supplies for themselves and their family or household members, or to deliver those services or supplies to others, such as, by way of example only and without limitation, canned food, dry goods, fresh fruits and vegetables, pet supply, fresh meats, fish, and poultry, and any other household consumer products, or products

necessary to maintain the habitability, sanitation, and operation of residences.

- iii. To engage in outdoor recreation activity, including, by way of example and without limitation, walking, hiking, bicycling, and running, in compliance with Social Distancing Requirements and subject to restrictions in applicable industry guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-campgrounds.pdf>).
  - iv. To perform work for or access an Essential Business, Outdoor Business, or Additional Business; or to otherwise carry out activities specifically permitted in this Order, including Minimum Basic Operations, as defined in this Section.
  - v. To provide necessary care for a family member or pet in another household who has no other source of care.
  - vi. To attend a funeral.
  - vii. To move residences. When moving into or out of the Bay Area region, individuals are strongly urged to quarantine for 14 days. To quarantine, individuals should follow the guidance of the United States Centers for Disease Control and Prevention.
  - viii. To engage in Outdoor Activities or Additional Activities.
- b. Individuals may leave their residence to work for, volunteer at, or obtain services at “Healthcare Operations,” including, without limitation, hospitals, clinics, COVID-19 testing locations, dentists, pharmacies, blood banks and blood drives, pharmaceutical and biotechnology companies, other healthcare facilities, healthcare suppliers, home healthcare services providers, mental health providers, or any related and/or ancillary healthcare services. “Healthcare Operations” also include veterinary care and all healthcare services provided to animals. This exemption for Healthcare Operations shall be construed broadly to avoid any interference with the delivery of healthcare, broadly defined. “Healthcare Operations” excludes fitness and exercise gyms and similar facilities.
- c. Individuals may leave their residence to provide any services or perform any work necessary to the operation and maintenance of “Essential Infrastructure,” including airports, utilities (including water, sewer, gas, and electrical), oil refining, roads and highways, public transportation, solid waste facilities (including collection, removal, disposal, recycling, and processing facilities), cemeteries, mortuaries, crematoriums, and telecommunications systems (including the provision of essential global, national, and local infrastructure for internet, computing services, business infrastructure, communications, and web-based services).

- d. All first responders, emergency management personnel, emergency dispatchers, court personnel, and law enforcement personnel, and others who need to perform essential services are categorically exempt from this Order to the extent they are performing those essential services. Further, nothing in this Order shall prohibit any individual from performing or accessing “Essential Governmental Functions,” as determined by the governmental entity performing those functions. Each governmental entity shall identify and designate appropriate personnel, volunteers, or contractors to continue providing and carrying out any Essential Governmental Functions, including the hiring or retention of new personnel or contractors to perform such functions. Each governmental entity and its contractors must employ all necessary emergency protective measures to prevent, mitigate, respond to, and recover from the COVID-19 pandemic, and all Essential Governmental Functions shall be performed in compliance with Social Distancing Requirements to the greatest extent feasible.
- e. A “business” includes any for-profit, non-profit, or educational entity, whether a corporate entity, organization, partnership or sole proprietorship, and regardless of the nature of the service, the function it performs, or its corporate or entity structure.
- f. “Essential Businesses” are:
  - i. Healthcare Operations and businesses that operate, maintain, or repair Essential Infrastructure;
  - ii. Grocery stores, certified farmers’ markets, farm and produce stands, supermarkets, food banks, convenience stores, and other establishments engaged in the retail sale of unprepared food, canned food, dry goods, non-alcoholic beverages, fresh fruits and vegetables, pet supply, fresh meats, fish, and poultry, as well as hygienic products and household consumer products necessary for personal hygiene or the habitability, sanitation, or operation of residences. The businesses included in this subparagraph (ii) include establishments that sell multiple categories of products provided that they sell a significant amount of essential products identified in this subparagraph, such as liquor stores that also sell a significant amount of food.
  - iii. Food cultivation, including farming, livestock, and fishing;
  - iv. Businesses that provide food, shelter, and social services, and other necessities of life for economically disadvantaged or otherwise needy individuals;
  - v. Construction, but only pursuant to the Construction Safety Protocols listed in Appendix B-1 or Appendix B-2, whichever is applicable. Public works

projects shall also be subject to Appendix B-1 or Appendix B-2, whichever is applicable, except if other protocols are specified by the Health Officer. Appendix B-1 and Appendix B-2 are incorporated into this Order by this reference;

- vi. Newspapers, television, radio, and other media services;
- vii. Gas stations and auto-supply, auto-repair (including, but not limited to, for cars, trucks, motorcycles and motorized scooters), and automotive dealerships, but only for the purpose of providing auto-supply and auto-repair services. This subparagraph (vii) does not restrict the on-line purchase of automobiles if they are delivered to a residence or Essential Business;
- viii. Bicycle repair and supply shops;
- ix. Banks and related financial institutions;
- x. Service providers that enable real estate transactions (including rentals, leases, and home sales), including, but not limited to, real estate agents, escrow agents, notaries, and title companies, provided that appointments and other residential real estate viewings must only occur virtually or, if a virtual viewing is not feasible, by appointment with no more than two visitors at a time residing within the same household or living unit and one individual showing the unit (except that in person visits are not allowed when the occupant is present in the residence);
- xi. Hardware stores;
- xii. Plumbers, electricians, exterminators, and other service providers who provide services that are necessary to maintaining the habitability, sanitation, or operation of residences and Essential Businesses;
- xiii. Businesses providing mailing and shipping services, including post office boxes;
- xiv. Educational institutions—including public and private K-12 schools, colleges, and universities—for purposes of facilitating distance learning or performing essential functions, or as allowed under subparagraph xxvi, provided that social distancing of six-feet per person is maintained to the greatest extent possible;
- xv. Laundromats, drycleaners, and laundry service providers;
- xvi. Restaurants and other facilities that prepare and serve food, but only for delivery or carry out. Schools and other entities that typically provide free

food services to students or members of the public may continue to do so under this Order on the condition that the food is provided to students or members of the public on a pick-up and take-away basis only. Schools and other entities that provide food services under this exemption shall not permit the food to be eaten at the site where it is provided, or at any other gathering site;

- xvii. Funeral home providers, mortuaries, cemeteries, and crematoriums, to the extent necessary for the transport, preparation, or processing of bodies or remains;
- xviii. Businesses that supply other Essential Businesses, Outdoor Businesses or Additional Businesses with the support or supplies necessary to operate, but only to the extent that they support or supply these businesses. This exemption shall not be used as a basis for engaging in sales to the general public from retail storefronts;
- xix. Businesses that have the primary function of shipping or delivering groceries, food, or other goods directly to residences or businesses. This exemption shall not be used to allow for manufacturing or assembly of non-essential products or for other functions besides those necessary to the delivery operation;
- xx. Airlines, taxis, rental car companies, rideshare services (including shared bicycles and scooters), and other private transportation providers providing transportation services necessary for Essential Activities and other purposes expressly authorized in this Order;
- xxi. Home-based care for seniors, adults, children, and pets;
- xxii. Residential facilities and shelters for seniors, adults, and children;
- xxiii. Professional services, such as legal, notary, or accounting services, when necessary to assist in compliance with non-elective, legally required activities or in relation to death or incapacity;
- xxiv. Services to assist individuals in finding employment with Essential Businesses;
- xxv. Moving services that facilitate residential or commercial moves that are allowed under this Order; and
- xxvi. Childcare establishments, summer camps, and other educational or recreational institutions or programs providing care or supervision for children of all ages. These operations must comply with industry guidance issued by the State of California, including updated guidance for

child care programs and providers (<https://covid19.ca.gov/pdf/guidance-childcare.pdf>) and guidance for day camps (<https://covid19.ca.gov/pdf/guidance-daycamps.pdf>), to the extent applicable. It is recommended that children remain in groups as small as possible, preferably stable groups of 12 or less.

- g. “Minimum Basic Operations” means the following activities for businesses, provided that owners, personnel, and contractors comply with Social Distancing Requirements as defined this Section, to the extent possible, while carrying out such operations:
  - i. The minimum necessary activities to maintain and protect the value of the business’s inventory and facilities; ensure security, safety, and sanitation; process payroll and employee benefits; provide for the delivery of existing inventory directly to residences or businesses; and related functions. For clarity, this section does not permit businesses to provide curbside pickup to customers.
  - ii. The minimum necessary activities to facilitate owners, personnel, and contractors of the business being able to continue to work remotely from their residences, and to ensure that the business can deliver its service remotely.
- h. All businesses that are operating at facilities in the County visited or used by the public or personnel must, as a condition of such operation, prepare and post a “Social Distancing Protocol” for each of these facilities; provided, however, that construction activities shall instead comply with the Construction Project Safety Protocols set forth in Appendix B-1 or Appendix B-2, whichever is applicable, and not the Social Distancing Protocol. The Social Distancing Protocol must be substantially in the form attached to this Order as Appendix A, incorporated into this Order by reference, and it must be updated from prior versions to address new requirements listed in this Order or in related guidance or directives from the Health Officer. The Social Distancing Protocol must be posted at or near the entrance of the relevant facility, and shall be easily viewable by the public and personnel. A copy of the Social Distancing Protocol must also be provided to each person performing work at the facility. All businesses subject to this paragraph shall implement the Social Distancing Protocol and provide evidence of its implementation to any authority enforcing this Order upon demand. The Social Distancing Protocol must explain how the business is achieving the following, as applicable:
  - i. Limiting the number of people who can enter into the facility at any one time to ensure that people in the facility can easily maintain a minimum six-foot distance from one another at all times, except as required to complete Essential Business activity;

- ii. Requiring face coverings to be worn by all persons entering the facility, other than those exempted from face covering requirements (e.g. young children);
  - iii. Where lines may form at a facility, marking six-foot increments at a minimum, establishing where individuals should stand to maintain adequate social distancing;
  - iv. Providing hand sanitizer, soap and water, or effective disinfectant at or near the entrance of the facility and in other appropriate areas for use by the public and personnel, and in locations where there is high-frequency employee interaction with members of the public (e.g. cashiers);
  - v. Providing for contactless payment systems or, if not feasible to do so, the providing for disinfecting all payment portals, pens, and styluses after each use;
  - vi. Regularly disinfecting other high-touch surfaces;
  - vii. Posting a sign at the entrance of the facility informing all personnel and customers that they should: avoid entering the facility if they have any COVID-19 symptoms; maintain a minimum six-foot distance from one another; sneeze and cough into one's elbow; not shake hands or engage in any unnecessary physical contact; and
  - viii. Any additional social distancing measures being implemented (see the Centers for Disease Control and Prevention's guidance at: <https://www.cdc.gov/coronavirus/2019-ncov/community/guidance-business-response.html>).
- i. Individuals may leave their residence to engage in "Essential Travel." Essential Travel means travel for any of the following purposes:
- i. Travel related to the provision of or access to Essential Activities, Essential Governmental Functions, Essential Businesses, Minimum Basic Operations, Outdoor Activities, Outdoor Businesses, Additional Activities, and Additional Businesses.
  - ii. Travel to care for any elderly, minors, dependents, or persons with disabilities.
  - iii. Travel to or from educational institutions for purposes of receiving materials for distance learning, for receiving meals, and any other related services.
  - iv. Travel to return to a place of residence from outside the County.

- v. Travel required by law enforcement or court order.
  - vi. Travel required for non-residents to return to their place of residence outside the County. Individuals are strongly encouraged to verify that their transportation out of the County remains available and functional prior to commencing such travel.
  - vii. Travel to manage after-death arrangements and burial.
  - viii. Travel to arrange for shelter or avoid homelessness.
  - ix. Travel to avoid domestic violence or child abuse.
  - x. Travel for parental custody arrangements.
  - xi. Travel to a place to temporarily reside in a residence or other facility to avoid potentially exposing others to COVID-19, such as a hotel or other facility provided by a governmental authority for such purposes.
- j. “Residences” include hotels, motels, shared rental units and similar facilities. Residences also include living structures and outdoor spaces associated with those living structures, such as patios, porches, backyards, and front yards that are only accessible to a single family or household unit.
- k. “Social Distancing Requirements” means:
- i. Maintaining at least six-foot social distancing from individuals who are not part of the same household, living unit or Social Bubble;
  - ii. Frequently washing hands with soap and water for at least 20 seconds, or using hand sanitizer that is recognized by the Centers for Disease Control and Prevention as effective in combatting COVID-19;
  - iii. Covering coughs and sneezes with a tissue or fabric or, if not possible, into the sleeve or elbow (but not into hands);
  - iv. Wearing a face covering when out in public, consistent with the orders or guidance of the Health Officer; and
  - v. Avoiding all social interaction outside the household when sick with a fever, cough, or other COVID-19 symptoms.

All individuals must strictly comply with Social Distancing Requirements, except to the limited extent necessary to provide care (including childcare, adult or senior care, care to individuals with special needs, and patient care); as necessary to

carry out the work of Essential Businesses, Essential Governmental Functions, or provide for Minimum Basic Operations; or as otherwise expressly provided in this Order. Outdoor Activities, Outdoor Businesses, Additional Activities and Additional Businesses must strictly adhere to these Social Distancing Requirements.

l. “Outdoor Businesses” means:

- i. The following businesses that normally operated primarily outdoors prior to March 16, 2020, and where there is the ability to fully maintain social distancing of at least six feet between all persons:
  1. Businesses primarily operated outdoors, such as wholesale and retail plant nurseries, agricultural operations, and garden centers.
  2. Service providers that primarily provide outdoor services, such as landscaping and gardening services, and environmental site remediation services.

For clarity, “Outdoor Businesses” do not include outdoor restaurants, cafes, or bars, or businesses that promote large, coordinated, and prolonged gatherings, such as outdoor concert venues and amusement parks.

m. “Outdoor Activities” means:

- i. To obtain goods, services, or supplies from, or perform work for, an Outdoor Business.
- ii. To engage in outdoor recreation as permitted in Section 15.a.

n. “Additional Business” means any business, entity, or other organization identified as an Additional Business in Appendix C-1, which will be updated as warranted based on the Health Officer’s ongoing evaluation of the COVID-19 Indicators and other data. In addition to the other requirements in this Order, operation of those Additional Businesses is subject to any conditions and health and safety requirements set forth in Appendix C-1 and in applicable industry-specific guidance issued by the State of California. Appendix C-1 is incorporated into this Order by this reference.

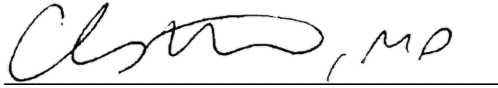

- o. “Additional Activities” means:
  - i. To obtain goods, services, or supplies from, or perform work for, Additional Businesses identified in Appendix C-1, subject to any conditions and health and safety requirements set forth in this Order and any applicable industry-specific guidance issued by the State of California.
  - ii. To engage in activities set forth in Appendix C-2, which will be updated as warranted based on the Health Officer’s ongoing evaluation of the COVID-19 Indicators and other data. Engagement in Additional Activities is subject to applicable conditions and health and safety requirements set forth in this Order and Appendix C-2. Appendix C-2 is incorporated into this Order by this reference.
- 16. Government agencies and other entities operating shelters and other facilities that house or provide meals or other necessities of life for individuals experiencing homelessness must take appropriate steps to help ensure compliance with Social Distancing Requirements, including adequate provision of hand sanitizer. Also, individuals experiencing homelessness who are unsheltered and living in encampments should, to the maximum extent feasible, abide by 12 foot by 12 foot distancing for the placement of tents, and government agencies should provide restroom and hand washing facilities for individuals in such encampments as set forth in Centers for Disease Control and Prevention Interim Guidance Responding to Coronavirus 2019 (COVID-19) Among People Experiencing Unsheltered Homelessness (<https://www.cdc.gov/coronavirus/2019-ncov/need-extra-precautions/unsheltered-homelessness.html>).
- 17. Pursuant to Government Code sections 26602 and 41601 and Health and Safety Code section 101029, the Health Officer requests that the Sheriff and all chiefs of police in the County ensure compliance with and enforce this Order. The violation of any provision of this Order constitutes an imminent threat and menace to public health, constitutes a public nuisance, and is punishable by fine, imprisonment, or both.
- 18. This Order shall become effective at 6 a.m. on June 17, 2020, and will continue to be in effect until it is extended, rescinded, superseded, or amended in writing by the Health Officer.
- 19. Copies of this Order shall promptly be: (1) made available at the Office of the Director of Contra Costa Health Services, 1220 Morello Avenue, Suite 200, Martinez, CA 94553; (2) posted on the Contra Costa Health Services website (<https://www.cchealth.org>); and (3) provided to any member of the public requesting a copy of this Order. Questions or comments regarding this Order may be directed to Contra Costa Health Services at (844) 729-8410.

20. If any provision of this Order or its application to any person or circumstance is held to be invalid, the remainder of the Order, including the application of such part or provision to other persons or circumstances, shall not be affected and shall continue in full force and effect. To this end, the provisions of this Order are severable.

**IT IS SO ORDERED:**

Dated: June 16, 2020

Chris Farnitano, M.D.  
Health Officer of the County of Contra Costa

Attachments:

- Appendix A – Social Distancing Protocol (updated June 16, 2020)
- Appendix B-1 – Small Construction Project Safety Protocol
- Appendix B-2 – Large Construction Project Safety Protocol (updated June 16, 2020)
- Appendix C-1 – Additional Businesses (updated June 16, 2020)
- Appendix C-2 – Additional Activities (updated June 5, 2020)

**Appendix A: Social Distancing Protocol (Updated June 16, 2020)**

Business name:

Facility Address:

Approximate gross square footage of space open to the public:

**Businesses must implement all applicable measures listed below, and be prepared to explain why any measure that is not implemented is inapplicable to the business.**

---

**Signage:**

Signage at each public entrance of the facility to inform all employees and customers that they should: avoid entering the facility if they have COVID-19 symptoms; maintain a minimum six-foot distance from one another; sneeze and cough into a cloth or tissue or, if not available, into one's elbow; wear face coverings, as appropriate; and not shake hands or engage in any unnecessary physical contact.

Signage posting a copy of the Social Distancing Protocol at each public entrance to the facility.

---

**Measures To Protect Employee Health (check all that apply to the facility):**

Everyone who can carry out their work duties from home has been directed to do so.

All employees have been told not to come to work if sick.

Symptom checks are being conducted before employees may enter the work space.

Employees are required to wear face coverings, as appropriate.

All desks or individual work stations are separated by at least six feet.

Break rooms, bathrooms, and other common areas are being disinfected frequently, on the following schedule:

Break rooms:

Bathrooms:

Other ( ):

Disinfectant and related supplies are available to all employees at the following location(s):

Hand sanitizer effective against COVID-19 is available to all employees at the following location(s):

Soap and water are available to all employees at the following location(s):

Copies of this Protocol have been distributed to all employees.

Optional—Describe other measures:

## **Appendix A: Social Distancing Protocol (Updated June 16, 2020)**

---

### **Measures To Prevent Crowds From Gathering (check all that apply to the facility):**

- Limit the number of customers in the store at any one time to \_\_\_\_\_, which allows for customers and employees to easily maintain at least six-foot distance from one another at all practicable times.
- Post an employee at the door to ensure that the maximum number of customers in the facility set forth above is not exceeded.
- Placing per-person limits on goods that are selling out quickly to reduce crowds and lines. Explain:
- Optional—Describe other measures:

---

### **Measures To Keep People At Least Six Feet Apart (check all that apply to the facility)**

- Placing signs outside the store reminding people to be at least six feet apart, including when in line.
- Placing tape or other markings at least six feet apart in customer line areas inside the store and on sidewalks at public entrances with signs directing customers to use the markings to maintain distance.
- Separate order areas from delivery areas to prevent customers from gathering.
- All employees have been instructed to maintain at least six feet distance from customers and from each other, except employees may momentarily come closer when necessary to accept payment, deliver goods or services, or as otherwise necessary.
- Optional—Describe other measures:

---

### **Measures To Prevent Unnecessary Contact (check all that apply to the facility):**

- Preventing people from self-serving any items that are food-related.
- Lids for cups and food-bar type items are provided by staff; not to customers to grab.
- Bulk-item food bins are not available for customer self-service use.
- Not permitting customers to bring their own bags, mugs, or other reusable items from home that must be handled by employees. Customers bringing their own reusable items that do not require handling by employees is permissible.
- Providing for contactless payment systems or, if not feasible, sanitizing payment systems regularly. Describe:
- Optional—Describe other measures (e.g. providing senior-only hours):

**Appendix A: Social Distancing Protocol (Updated June 16, 2020)**

---

***Measures To Increase Sanitization (check all that apply to the facility):***

- Disinfecting wipes that are effective against COVID-19 are available near shopping carts and shopping baskets.
- Employee(s) assigned to disinfect carts and baskets regularly.
- Hand sanitizer, soap and water, or effective disinfectant is available to the public at or near the entrance of the facility, at checkout counters, and anywhere else where people have direct interactions.
- Disinfecting all payment portals, pens, and styluses after each use.
- Disinfecting all high-contact surfaces frequently.
- Optional—Describe other measures:

\* Any additional measures not included here should be listed on separate pages and attached to this document.

**You may contact the following person with any questions or comments about this protocol:**

**Name:**

**Phone number:**

## Appendix B-2

### Large Construction Project Safety Protocol (Updated June 16, 2020)

1. Any construction project meeting any of the following specifications is subject to this Large Construction Project Safety Protocol (“LCP Protocol”), including public works projects unless otherwise specified by the Health Officer:
  - a. For residential construction projects, any single-family, multi-family, senior, student, or other residential construction, renovation, or remodel project consisting of more than 10 units.
  - b. For commercial construction projects, any construction, renovation, or tenant improvement project consisting of more than 20,000 square feet of floor area.
  - c. For construction of Essential Infrastructure, as defined in section 16.c of the Order, any project that requires five or more workers at the jobsite at any one time.
2. The following restrictions and requirements must be in place at all construction job sites subject to this LCP Protocol:
  - a. Comply with all applicable and current laws and regulations including but not limited to OSHA and Cal-OSHA. If there is any conflict, difference or discrepancy between or among applicable laws and regulations and/or this LCP Protocol, the stricter standard will apply.
  - b. Prepare a new or updated Site-Specific Health and Safety Plan to address COVID-19-related issues, post the Plan on-site at all entrances and exits, and produce a copy of the Plan to County governmental authorities upon request. The Plan must be translated as necessary to ensure that all non-English speaking workers are able to understand the Plan.
  - c. Provide personal protective equipment (PPE) specifically for use in construction, including gloves, goggles, face shields, and face coverings as appropriate for the activity being performed. At no time may a contractor secure or use medical-grade PPE, unless required due to the medical nature of a job site. Face Coverings must be worn in compliance with Section 5 of the Health Officer’s Order No. HO-COVID19-08, dated April 17, 2020, or any subsequently issued or amended order.
  - d. Ensure that employees are trained in the use of PPE. Maintain and make available a log of all PPE training provided to employees and monitor all employees to ensure proper use of the PPE.
  - e. Prohibit sharing of PPE.

## Appendix B-2

- f. Implement social distancing requirements including, at minimum:
- i. Stagger stop- and start-times for shift schedules to reduce the quantity of workers at the jobsite at any one time to the extent feasible.
  - ii. Stagger trade-specific work to minimize the quantity of workers at the jobsite at any one time.
  - iii. Require social distancing by maintaining a minimum six-foot distance between workers at all times, except as strictly necessary to carry out a task associated with the project.
  - iv. Prohibit gatherings of any size on the jobsite, except for safety meetings or as strictly necessary to carry out a task associated with the project.
  - v. Strictly control “choke points” and “high-risk areas” where workers are unable to maintain minimum six-foot social distancing and prohibit or limit use to ensure that minimum six-foot distancing can easily be maintained between workers.
  - vi. Minimize interactions and maintain social distancing with all site visitors, including delivery workers, design professional and other project consultants, government agency representatives, including building and fire inspectors, and residents at residential construction sites.
  - vii. Prohibit workers from using others’ phones or desks. Any work tools or equipment that must be used by more than one worker must be cleaned with disinfectants that are effective against COVID-19 before use by a new worker.
  - viii. Place wash stations or hand sanitizers that are effective against COVID-19 at entrances to the jobsite and in multiple locations dispersed throughout the jobsite as warranted.
  - ix. Maintain a daily attendance log of all workers and visitors that includes contact information, including name, address, phone number, and email.
  - x. Post a notice in an area visible to all workers and visitors instructing workers and visitors to do the following:
    1. Do not touch your face with unwashed hands or with gloves.
    2. Frequently wash your hands with soap and water for at least 20 seconds or use hand sanitizer with at least 60% alcohol.
    3. Clean and disinfect frequently touched objects and surfaces such as workstations, keyboards, telephones, handrails, machines, shared tools, elevator control buttons, and doorknobs.
    4. Cover your mouth and nose when coughing or sneezing or cough or sneeze into the crook of your arm at your elbow/sleeve.
    5. Do not enter the jobsite if you have a fever, cough, or other COVID-19 symptoms. If you feel sick, or have been exposed to anyone who is sick, stay at home.
    6. Constantly observe your work distances in relation to other staff. Maintain the recommended minimum six-foot distancing at all times when not wearing the necessary PPE for working in close proximity to another person.
    7. Do not share phones or PPE.

## Appendix B-2

- xi. The notice in section 2.f.x must be translated as necessary to ensure that all non-English speaking workers are able to understand the notice.
- g. Implement cleaning and sanitization practices in accordance with the following:
  - i. Frequently clean and sanitize, in accordance with CDC guidelines, all high-traffic and high-touch areas including, at a minimum: meeting areas, jobsite lunch and break areas, entrances and exits to the jobsite, jobsite trailers, hand-washing areas, tools, equipment, jobsite restroom areas, stairs, elevators, and lifts.
  - ii. Establish a cleaning and decontamination protocol prior to entry and exit of the jobsite and post the protocol at entrances and exits of jobsite.
  - iii. Supply all personnel performing cleaning and sanitization with proper PPE to prevent them from contracting COVID-19. Employees must not share PPE.
  - iv. Establish adequate time in the workday to allow for proper cleaning and decontamination including prior to starting at or leaving the jobsite for the day.
- h. Implement a COVID-19 community spread reduction plan as part of the Site-Specific Health and Safety Plan that includes, at minimum, the following restrictions and requirements:
  - i. Prohibit all carpooling to and from the jobsite except by workers living within the same household unit, or as necessary for workers who have no alternative means of transportation.
  - ii. Cal-OSHA requires employers to provide water, which should be provided in single-serve containers. Prohibit any sharing of any food or beverage and if sharing is observed, the worker must be sent home for the day.
  - iii. Prohibit use of microwaves, water coolers, and other similar shared equipment.
- i. Assign a COVID-19 Safety Compliance Officer (SCO) to the jobsite and ensure the SCO's name is posted on the Site-Specific Health and Safety Plan. The SCO must:
  - i. Ensure implementation of all recommended safety and sanitation requirements regarding the COVID-19 virus at the jobsite.
  - ii. Compile daily written verification that each jobsite is compliant with the components of this LCP Protocol. Each written verification form must be copied, stored, and made immediately available upon request by any County official.
  - iii. Establish a daily screening protocol for arriving staff, to ensure that potentially infected staff do not enter the construction site. If workers leave the jobsite and return the same day, establish a cleaning and decontamination protocol prior to entry and exit of the jobsite. Post the daily screening protocol at all entrances and exit to the jobsite. More information on screening can be found online at: <https://www.cdc.gov/coronavirus/2019-ncov/community/index.html>.
  - iv. Conduct daily briefings in person or by teleconference that must cover the following topics:
    - 1. New jobsite rules and pre-job site travel restrictions for the prevention of COVID-19 community spread.
    - 2. Review of sanitation and hygiene procedures.
    - 3. Solicitation of worker feedback on improving safety and sanitation.
    - 4. Coordination of construction site daily cleaning/sanitation requirements.
    - 5. Conveying updated information regarding COVID-19.

## Appendix B-2

6. Emergency protocols in the event of an exposure or suspected exposure to COVID-19.
  - v. Develop and ensure implementation of a remediation plan to address any non-compliance with this LCP Protocol and post remediation plan at entrance and exit of jobsite during remediation period. The remediation plan must be translated as necessary to ensure that all non-English speaking workers are able to understand the document.
  - vi. The SCO must not permit any construction activity to continue without bringing such activity into compliance with these requirements.
  - vii. Report repeated non-compliance with this LCP Protocol to the appropriate jobsite supervisors and a designated County official.
- j. Assign a COVID-19 Third-Party Jobsite Safety Accountability Supervisor (JSAS) for the jobsite, who at a minimum holds an OSHA-30 certificate and first-aid training within the past two years, who must be trained in the protocols herein and verify compliance, including by visual inspection and random interviews with workers, with this LCP Protocol.
  - i. Within seven calendar days of each jobsite visit, the JSAS must complete a written assessment identifying any failure to comply with this LCP Protocol. The written assessment must be copied, stored, and, upon request by the County, sent to a designated County official.
  - ii. If the JSAS discovers that a jobsite is not in compliance with this LCP Protocol, the JSAS must work with the SCO to develop and implement a remediation plan.
  - iii. The JSAS must coordinate with the SCO to prohibit continuation of any work activity not in compliance with rules stated herein until addressed and the continuing work is compliant.
  - iv. The remediation plan must be sent to a designated County official within five calendar days of the JSAS's discovery of the failure to comply.
- k. In the event of a confirmed case of COVID-19 at any jobsite, the following must take place:
  - i. Immediately remove the infected individual from the jobsite with directions to seek medical care.
  - ii. Each location the infected worker was at must be decontaminated and sanitized. Work in these locations must cease until decontamination and sanitization is complete.
  - iii. The County Public Health Department must be notified immediately and any additional requirements per the County health officials must be completed, including full compliance with any tracing efforts by the County.
- l. Where construction work occurs within an occupied residential unit, any separate work area must be sealed off from the remainder of the unit with physical barriers such as plastic sheeting or closed doors sealed with tape to the extent feasible. If possible, workers must access the work area from an alternative entry/exit door to the entry/exit door used by residents. Available windows and exhaust fans must be used to ventilate the work area. If residents have access to the work area between workdays, the work area must be cleaned and

## Appendix B-2

sanitized at the beginning and at the end of workdays. Every effort must be taken to minimize contact between workers and residents, including maintaining a minimum of six feet of social distancing at all times.

- m. Where construction work occurs within common areas of an occupied residential or commercial building or a mixed-use building in use by on-site employees or residents, any separate work area must be sealed off from the rest of the common areas with physical barriers such as plastic sheeting or closed doors sealed with tape to the extent feasible. If possible, workers must access the work area from an alternative building entry/exit door to the building entry/exit door used by residents or other users of the building. Every effort must be taken to minimize contact between worker and building residents and users, including maintaining a minimum of six feet of social distancing at all times.

## Appendix C-1

### Appendix C-1: Additional Businesses Permitted to Operate (Updated June 16, 2020)

#### General Requirements

The “Additional Businesses” listed below may operate, subject to the requirements set forth in the Order and to any additional requirements set forth below or in separate industry-specific guidance by the Health Officer. These businesses were selected based on guidance issued by the State of California and to implement a measured expansion of commercial activity based on health-related considerations, including the risks of COVID-19 transmission associated with types and modes of business operations, the ability to substantially mitigate transmission risks associated with the operations, and related factors, such as the following:

- **Increase in mobility and volume of activity**—the overall impact the reopening will have on the number of people leaving their homes and traveling to work at or access the business;
- **Contact intensity**—the type (close or distant) and duration (brief or prolonged) of the contact involved in the business;
- **Number of contacts**—the approximate number of people that will be in the setting at the same time;
- **Modification potential**—the degree to which mitigation measures can decrease the risk of transmission.

To mitigate the risk of transmission to the greatest extent possible, before resuming or commencing operations, each Additional Business must:

- a. Prepare, post, implement, and distribute to their Personnel, as defined below, a Social Distancing Protocol as specified in Section 15.h. of the Order for each of its facilities in the County frequented by their Personnel or members of the public; and
- b. Prepare, post, implement, and distribute to its Personnel a written health and safety plan that addresses all applicable best practices set forth in relevant Health Officer directives.

As used in this Appendix C-1, “Personnel” means the following people who provide goods or services associated with the Additional Business: Employees; contractors and sub-contractors (such as those who sell goods or perform services onsite or who deliver goods for the business); independent contractors (such as “gig workers” who perform work via the Additional Business’ app or other online interface); vendors who are permitted to sell goods onsite; volunteers; and other individuals who provide services onsite at the request of the Additional Business.

Each Additional Business must comply with Social Distancing Requirements, described in Section 15.k. of the Order, as well as all applicable industry-specific guidance issued by the State of California related to COVID-19, set forth at <https://covid19.ca.gov/industry-guidance/>. Additionally, each Additional Business must comply with Section 5 of the Face Covering Order.

#### List of Additional Businesses

For purposes of the Order, Additional Businesses include all of the following:

## Appendix C-1

### (1) Retail Stores and Retail Supply Chain Businesses

- a. Basis for Addition. The State of California has determined that retail businesses, and manufacturing and logistics and warehousing businesses that support retail businesses, may resume operation, subject to more restrictive local public health measures. Retail stores to which this provision applies includes, but is not limited to, bookstores, jewelry stores, toy stores, clothing and shoe stores, home and furnishing stores, sporting goods stores and florists. For clarity, this provision does not apply to personal service businesses such as beauty salons.
- b. Description and Conditions to Operate.
  1. Curbside/Outside Pickup. All retail stores may operate for curbside or other outdoor pickup, subject to applicable industry guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-retail.pdf>) and all of the following conditions:
    - (a) If a store is not open for indoor shopping, it may not display merchandise for sale on tables or otherwise outside the store, and customers may not enter the store.
    - (b) The store must have access to an area or areas outside the store for customer pickups. Subject to local requirements, a pickup area may be curbside, on a sidewalk, in a parking lot, or in any other area that is suitable for customer pickups and not in an enclosed space.
    - (c) The store must employ reasonable measures to require customers to comply with Social Distancing Requirements at the pickup areas, including but not limited to marking locations at six-foot intervals for customers to stand while waiting in line.
    - (d) The store must limit the number of Personnel in enclosed areas so that Personnel can comply with Social Distancing Requirements.
    - (e) The store must employ reasonable measures to prevent pedestrian or vehicle congestion in the vicinity of the pickup area.
  2. Indoor Retail. All retail businesses may operate for indoor shopping, subject to applicable industry guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-retail.pdf>). The number of Personnel and customers inside the store or other enclosed space must be limited so that Personnel and customers can comply with Social Distancing Requirements.
  3. Shopping Malls, Shopping Centers and Swap Meets. Shopping malls, shopping centers and swap meets may resume operations subject to applicable industry guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-shopping-centers.pdf>). Prior to opening, the operator of an indoor shopping mall must prepare and obtain the Health Officer's approval of a COVID-19 prevention

## Appendix C-1

plan. The plan must address and describe with particularity how the facility will implement the preventive measures described in the guidance document. The plan must be submitted to the Health Officer at the Office of the Director of Contra Costa Health Services, 1220 Morello Avenue, Suite 200, Martinez, CA 94553.

4. Manufacturing. Manufacturing businesses permitted to operate under the state Resilience Roadmap (<https://covid19.ca.gov/roadmap/>), as it is amended from time to time, may operate, subject to applicable guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-manufacturing.pdf>). Manufacturers must also limit the number of Personnel in enclosed areas so that Personnel can comply with Social Distancing Requirements.
5. Logistics and Warehousing Facilities. Logistics and warehousing facilities permitted to operate under the State of California Resilience Roadmap (<https://covid19.ca.gov/roadmap/>), as it is amended from time to time, may operate, subject to applicable guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-logistics-warehousing.pdf>). Logistics and warehousing facilities must also limit the number of Personnel in enclosed areas so that Personnel can comply with Social Distancing Requirements.

### (2) Limited Services That Do Not Generally Require Close Customer Contact

- a. Basis for Addition: The State of California has determined that businesses providing limited services that do not generally require close customer contact may resume operation, subject to more restrictive local health measures.
- b. Description and Conditions to Operate: Businesses that offer limited services that do not require close customer contact include, by way of example and without limitation, car washes, pet groomers and dog walkers, and businesses that provide services inside residences and community facilities where social distancing can be maintained, such as residential and janitorial cleaning services, heating, ventilation and air conditioning services, appliance repair persons, electricians, plumbers, other mechanical tradespersons, and general contractors. These businesses may operate subject to applicable industry guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-limited-services.pdf>).

### (3) Providers of Religious Services and Cultural Ceremonies

- a. Basis for Addition: The State of California has determined that places of worship and providers of religious services and cultural ceremonies may resume specified in-person activities under certain limitations.
- b. Description and Conditions to Operate: Places of worship and cultural ceremonies and providers of religious services and cultural ceremonies may hold in-person religious services and cultural ceremonies, subject to applicable guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-places-of-worship.pdf>). Because in-person events, including in-person religious services and cultural ceremonies, can involve extended periods of close contact, increasing the risk of transmission of

## Appendix C-1

COVID-19, it is recommended that event organizers consider maintaining contact information of attendees at services or ceremonies and that this information be kept by the event's organizer for at least 14 days after the event. The purpose of this recommendation is to assist Contra Costa Health Services with effective contact tracing in case of an outbreak that may have affected people attending the event.

### (4) Office Workplaces

- a. Basis for Addition: The State of California has determined that office workplaces may resume operation.
- b. Description and Conditions to Operate: All office workplaces may open for business, subject to restrictions in applicable industry guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-office-workspaces.pdf>).

### (5) Outdoor Museums and Other Outdoor Exhibit Spaces

- a. Basis for Addition: The State of California has determined that outdoor museums, open air galleries, botanical gardens, and other outdoor exhibit spaces (collectively "Outdoor Museums") may resume limited operation.
- b. Description and Conditions to Operate: Outdoor Museums may operate subject to applicable industry guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-outdoor-museums.pdf>). Outdoor Museums do not include zoos or amusement parks. Associated indoor areas such as cafes, restaurants and convention spaces must remain closed until full operations are authorized.

### (6) Libraries

- a. Basis for Addition: The State of California has determined that libraries may operate for curbside pickup.
- b. Description and Conditions to Operate: Libraries that have not been determined by a government entity to be providing Essential Government Functions may operate for curbside pickup only, subject to applicable industry guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-retail.pdf>).

### (7) Drive-in Theaters

- a. Basis for Addition: The State of California has determined that drive-in theaters may operate.
- b. Description and Conditions to Operate: Drive-in theaters may operate subject to applicable industry guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-retail.pdf>).

## Appendix C-1

### (8) Employers of Essential Critical Infrastructure Workers

- a. Basis for Addition: The State of California has identified a list of “Essential Critical Infrastructure Workers” in 13 sectors that perform functions critical to public health and safety, as well as economic and national security. Because these workers have been determined to be essential, it is necessary to categorize their employers as Additional Businesses, to the extent they are not Essential Businesses as defined by the Order, for the purposes of authorizing these workers to carry out their essential work.
- b. Description and Conditions to Operate: Any business that employs Essential Critical Infrastructure Workers, as defined by the State of California (<https://covid19.ca.gov/essential-workforce/>), may resume operations carried out by its essential workforce, subject to applicable industry guidance issued by the State of California (<https://covid19.ca.gov/industry-guidance/>).

### (9) Outdoor Dining

- a. Basis for Addition: Outdoor dining provides access to freshly prepared meals at a relatively low risk of transmission. Because food service will be limited to outdoor areas, the overall volume of increased activity will be modest. In addition, interactions and activities that occur outdoors carry a lower risk of transmission than most indoor interactions and activities. Risks associated with these operations can be substantially mitigated through measures that provide for adequate social distancing.
- b. Description and Conditions to Operate: Restaurants and other food facilities that provide sit-down food service may provide outdoor, sit-down meals, subject to the following limitations:
  1. Alcohol may be sold to patrons in conjunction with a meal, but it may not be sold separately.
  2. Bar areas must remain closed to customers.
  3. All food facilities authorized to open under this provision must comply with applicable industry guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-dine-in-restaurants.pdf>). The State requires the following:
    - Brewpubs, breweries, bars, pubs, craft distilleries, and wineries should remain closed until those establishments are allowed to resume modified or full operation **unless they are offering sit-down, dine-in meals. Alcohol can only be sold in the same transaction as a meal.**
    - Dine-in restaurants, brewpubs, breweries, bars, pubs, craft distilleries, and wineries that provide sit-down meals should follow the restaurant guidance below and should continue to **encourage takeout and delivery service whenever possible.**

## Appendix C-1

- Brewpubs, breweries, bars, pubs, craft distilleries, and wineries that do not provide sit-down meals themselves, but can contract with another vendor to do so, can serve dine-in meals provided both businesses follow the guidance below and alcohol is only sold in the same transaction as a meal.

### (10) **Campgrounds, Recreational Vehicle Parks and Outdoor Recreation Facilities**

- a. **Basis for Addition:** Current conditions in the County allow for the opening of sectors of the economy considered to present a moderate risk of transmission with the mitigation steps set forth in State guidance documents. Activities at campgrounds, recreational vehicle parks and outdoor recreation facilities all present a moderate risk of transmission because the activities take place outside.
- b. **Description and Conditions to Operate:** Campgrounds, recreational vehicle parks and outdoor recreation facilities may operate subject to the applicable industry guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-campgrounds.pdf>). Outdoor pools are also subject to the following conditions:
  1. The maximum occupancy of the pool must be limited to a number that is less than or equal to the number of square feet of shared pool space divided by 75.
  2. The pool operator must post a sign at or near the entrance to the pool facility that sets forth the maximum allowable occupancy of the pool based on the above limitation.
  3. At least one person, separate from a lifeguard, paid or unpaid, shall be on duty at all times to ensure that the social distancing protocol applicable to the facility and all limitations herein are followed. The person performing this function may not be one of the swimmers in the pool.

### (11) **Hair Salons and Barbershops**

- a. **Basis for Addition:** Current conditions in the County allow for the further opening of sectors of the economy considered to present a moderate risk of transmission with the mitigation steps set forth in State guidance documents. These sectors include hair salons and barbershops.
- b. **Description and Conditions to Operate:** Hair salons and barbershops may operate subject to applicable industry guidance issued by the State of California (<https://covid19.ca.gov/pdf/guidance-hair-salons.pdf>).

HOME • NEWSROOM • PRESS RELEASES • CONTRA COSTA RECEIVES STATE VARIANCE TO CONTINUE REOPENING PLAN

## Press Release

### *Contra Costa Receives State Variance to Continue Reopening Plan*

 Like 55

 Tweet

Thursday, June 11, 2020

The State of California this week granted Contra Costa County a variance that allows more local control over when some activities restricted by the COVID-19 pandemic may resume.

The variance allows Contra Costa to move ahead with its roadmap for reopening at a pace that is appropriate for local conditions, which includes hair salons, indoor dining, gyms and schools in coming weeks.

"We are able to reopen more businesses and activities because the people of Contra Costa have diligently followed the health orders restricting our activities for many months," said Candace Andersen, chair of the Contra Costa County Board of Supervisors. "We remain committed to a safe and careful reopening for our county."

In an attestation filed to the state this week, Contra Costa Health Services (CCHS) outlined the progress at managing the spread of COVID-19 locally and how the local healthcare system is preparing in the event of a new surge in cases.

If safe to do so, hair salons and barber shops can reopen for business on June 17, according to a [timeline](#)

released by CCHS. Indoor dining, bars, gyms and fitness centers, hotels and some indoor entertainment venues may follow July 1.

The county's timeline could change if [community health indicators](https://www.coronavirus.cchealth.org/indicators-dashboard) (<https://www.coronavirus.cchealth.org/indicators-dashboard>) worsen, such as an increase in the number of new cases or patients hospitalized with COVID-19.

Contra Costa is the first of six counties in the lower Bay Area to seek or receive a variance from the state COVID-19 health order, joining the North Bay counties of Napa, Solano and Sonoma.

Visit [cchealth.org/coronavirus](https://cchealth.org/coronavirus) ([/coronavirus/](https://cchealth.org/coronavirus/)) for more information about Contra Costa's response to the COVID-19 pandemic.

Hello Julie,

Just saw this tweet from your office. Like everything else the Health Department has done to avoid facts and context, sadly your office avoid answering this persons question. Question had nothing to do with some random answer given (which your answer, by the way makes no sense as it contradicts itself). Question was why close to 70% have died in SNF? Can't say I'm surprised by this though. Truly unfortunate.

**Contra Costa Health Services**  
@CoCoHealth

[@RaRa2010](#) [@CCCounty](#) LTCFs were one of the first to quarantine. That means infections in these high-risk settings are coming in from the community. There is less risk of community spread when dining outside than if restaurants serve indoors. But, wearing masks even when seated outside reduces risk.

**Subject:** [BULK] Video with powerful presentation of findings about masking and viral load

**Follow Up Flag:** Follow up  
**Flag Status:** Flagged

Hi, Julie.

Have you guys seen this presentation of preliminary findings by researchers at UCSF about the connection between viral load and severity of symptoms (link below - appropriate section starts at 24 minutes in)? In it, the researcher describes how they looked at past research and data and found that when people have exposure to a small amount of virus, their symptoms are usually more mild and if they have exposure to a larger dose of the virus - due to length of exposure, lack of masking, etc - their symptoms tend to be more severe.

This research gives another compelling reason for people to take masking seriously. Not only can you potentially reduce the transmission of the virus by wearing a mask but you can help your symptoms to be lighter if you do contract the virus by wearing a mask.

I'm already very committed to mask wearing and social distancing but this informs me even more about the benefits of it and enhances my strategy of when to wear a mask. If someone in my household were to get the virus, for example, I can see how I might protect myself from getting severe symptoms by taking precautions within the house.

Also, I have a question...I see guidelines put in place for certain kinds of businesses to open or close but often they seem sweeping. All gyms must close, all dog parks must close, etc. I know this would require more money and staffing, but might it not be a good idea to have an extensive process in place to review or certify businesses on a case by case basis to determine if they have enough precautions in place to open?

Also, there are many technological aids out there for reducing the spread of the virus such as opt-in tracking apps or the use of UV lights in vents. I know it would take extra money, but could the county have a task force dedicated to studying and staying abreast of these technologies?

Thanks for the work you are doing.

Geri

**Subject:** Question for ad hoc coronavirus meeting next week

**Follow Up Flag:** Follow up  
**Flag Status:** Flagged

I just wrote but I have one more question for next week's ad hoc coronavirus meeting.

I was encouraged by the coordination between different Bay Area counties at the beginning of the pandemic and their commitment to making some joint decisions about the response to the pandemic. Why did this coordination loosen and might local counties consider becoming more coordinated in their response again?

Thank you for the work you are doing.

Geri Engberg

From Anonymous Contra Costa County Resident via Voice Mail to District IV\_7/16/2020:

“Hi, I'm a resident here in Contra Costa County for my entire life. Just heard on the news that you guys are trying to fine people for not wearing masks, even for walking around. Um, do you understand the lawsuits that are going to come your way for doing this? You'll be the first place in the country to do this.

The federal government will get involved, and I have connections, and nobody's happy about this. And you want to send your County staff to give tickets? Do you know the dangers that you would put them in? Do you think people are going to give IDs and comply with them? Please reconsider your decision before you make a foolish, foolish thing here, that's going to cause so many problems for your staff, and not just them, but other people are going to resist.

And they're not police officers that you're sending out here. So you need to reconsider what you're doing. You know, think about what you're doing, because this is going to make national headlines. And if you want the pain of the law to come your way, 'cause we will sue you, you better reconsider.”

# AD HOC COMMITTEE ON COVID-19 ECONOMIC IMPACTS AND RECOVERY

THE RECORD OF ACTION FOR  
JULY 9, 2020

Supervisor Candace Andersen, Chair  
Supervisor Karen Mitchoff, Vice Chair

Present: Chair Candace Andersen  
Vice Chair Karen Mitchoff

Staff Present: Thomas Warne, M.D., Deputy County Health Officer  
Julie DiMaggio Enea, Senior Deputy County Administrator

## 1. Introductions

*Chair Andersen welcomed the attendees, introduced the Committee and the Deputy Health Officer, and provided a brief summary of the current status of the virus.*

## 2. Public comment on any item under the jurisdiction of the Committee and not on this agenda (speakers may be limited to two minutes).

*All public comment was taken under Agenda Item 4.*

## 3. RECEIVE update on most recent COVID-19 developments and on questions recently received from community members.

*Dr. Warne summarized the county's current situation, saying the county has had more than 4,300 cases since the original outbreak of the virus, had 105 new cases on July 8, and a 7-day average of 146 new cases per day. He reported a positivity rate (the number of tests positive for the virus) of 6.9%, noting that our goal is to not exceed a rate of 8%. He reported an average hospitalization rate of 54, noting that we have suffered 88 deaths since the beginning.*

*He said that in comparison to the seasonal flu that on average infects between 0.8 and 4.2 per 100,000 in population annually, COVID-19 currently has a 7.7 per 100,000 infection rate (not for the full year but just since the first outbreak). Thus, COVID is much more serious than the seasonal flu.*

*The County is pausing its recovery plan because increases in new case and hospitalization rates are too high. Dr. Warne stressed the importance of testing of even asymptomatic people. The County is targeting county hotspots with outreach and testing. The community is doing a good job following protocols. The younger population is more mobile and social and are experiencing a higher rate of infection.*

*People in their 30s are 13% of the population but 19% of those infected. We are seeing more hospitalizations of younger adults but, thankfully, not many deaths in that age group. He said that children with COVID don't generally have a severe course of illness and don't seem to play a big role in transmission.*

*Dr. Warne then addressed questions submitted during the prior week.*

- *Local schools and higher education:* *He explained that the County was coordinating with the local schools but policy decisions are made by the State Office of Education and local school districts. The County is not in an authoritative role to schools but a supportive advisory role. The State has not provided guidance for opening higher education, so the County is in a waiting mode. Colleges are planning reopening strategies but are waiting for guidance from the State.*
- *County's current timeline for reopening:* *He noted that we need to pause at least three weeks and watch the numbers before planning any next steps. We are exceeding the State's expectations in terms of the number of tests completed. The business sectors to be opened next will be determined by the risk profile of different activities and the pattern of new cases. We have not yet rolled back any previously allowed activities.*
- *State monitoring list:* *23 counties in the State are on the monitoring list because something about their numbers are causing concern. For Contra Costa County, it is the increase in the number of new cases and hospitalizations. Fortunately, we have not had to roll back business sectors but just had to pause.*
- *Contact tracing, particularly in high-risk living environments:* *He said we are working to mitigate and prevent these outbreaks. High risk environments include social gatherings – graduations, holidays, etc., people from multiple households, indoors, and removing face coverings for eating and drinking.*
- *Out of 56 people in the hospital, 10 were from long term care facilities, so about 18%.*
- *Based on the Stanford model, he estimated we prevented around 4,000 deaths and 21,000 hospitalizations as a result of control measures put into place.*
- *Massachusetts:* *He noted that Boston was hit hard early on, almost as severely as New York. Overall, MA's death rate is 120/100,000 as compared to Contra Costa County's 7.7/100,000. We made different decisions at different times and CA/MA is not an apples to apples comparison.*
- *Swimming/swim lessons:* *Allowed for social bubbles, stable groups of 12, in a pool setting following the County's guidance.*
- *Hospital capacity:* *Hospital capacity can be stressed if people cannot be discharged to nursing homes, but the County works closely with nursing homes to make these transitions as seamless as possible. There are placement alternatives, if necessary.*

4. DISCUSS the June 16 Health Order and any subsequent updates to the timeline for future resumption of business and community activities.

*Chair Andersen invited public comment:*

- *Jared Thomson thanked Supervisor Mitchoff and Supervisor Andersen's office for responding to him directly via email. He asked if singing is prohibited at outdoor religious services.*
- *Tina Sherwin asked how many out of county patients in County hospitals; why monthly testing vs. 14 days for nursing staff testing, if new cases correlate with hospitalizations, if we know the rate of positive cases with symptoms vs. asymptomatic; for the ratio of COVID ICU patients to COVID non-ICU patients; if contract tracing is performed for protests; and if we are considering the psychological toll of COVID.*
- *Barbara Csider asked if the Jun/Jul deaths had been from nursing home outbreaks; how can we build herd immunity if we are on lockdown; is it possible for someone to test positive if they have antibodies; if the County gets remuneration for testing; why, if masks work, is singing banned; are we worried about people who are asymptomatic with the flu; if the work of a dentist more essential than the work of anyone else who must earn a living; and who are we to make such decisions when a client can choose for him/herself.*
- *Elias Mandalaris noted that indoor fitness has reopened in several counties, and that his business sector operates in a controlled environment and is prepared to insure a safe environment.*
- *Shawna Garvin asked about comorbidities for teens, and people in their 20s and 30s. She asked if the percentage of younger people with COVID is any higher than other age groups.*
- *Mike McDermott noted the two new testing facilities in Concord and suggested mobile sites in busy shopping centers would be more effective than in remote locations by appointment only. He also asked why kids' playgrounds are not open.*
- *Susan Morgan commented that the County's press release on facial masking is in error: all individuals in the County shall comply with the June 14 State order. The State order says that only people with medical exemptions who work in a high contact job need to wear a face shield or equivalent, whereas the County order says that any person with a medical exemption must wear a face covering or alternative face covering. She suggested corrections to the press release.*
- *Ellen Mossman asked what to tell people who are afraid to get tested at a test site for fear of exposure to the virus.*
- *Dylan Snow asked for more evidence of a cost/benefit analysis, contrasting 88 deaths from COVID compared to deaths due to unemployment and other economic and social factors. He commented that half of people with cancer are not receiving treatment, half of children not getting immunized, etc. He asked if we could open schools since most teachers are under 41. He said many students are not logging into online classes.*
- *Allison Snow appreciated the new online data. She requested data on mortality of COVID patients vs. someone admitted for something else and COVID was a secondary diagnosis. She wanted to know the rate of COVID in incarcerated persons, in reference to the early release of prisoners.*
- *Pete Sarna commented on the risk to seniors due to lack of access to health care and fitness facilities. He stressed the importance of fitness and mobility for seniors, how hard they work to attain fitness and how that fits into the COVID*

*balance.*

- *Francesca Schuler, CEO of InShape, said their gyms have been open since mid-June, 350,000 people check in and they have had not one case of COVID, due to implementation of strict hygiene standards. A survey of 12,000 indicated that members feel safe. Mask are required at all times. She predicted emerging physical and mental health crises if we don't let people get back to their routines. She said we might manage the COVID surge but trade it for a physical and mental health crisis afterward.*
- *Sandra Lee, InShape employee, read letters submitted by members who want the gym to reopen.*
- *ToniR asked if she must suspend disbelief that family gatherings spread the virus but a massive protest in Martinez will not. She complained about restricting kids from seeing grandparents and the effect of cooping people up on their immune systems. She asked how many young children have contracted the virus in the County and in the State? She said there is a disparity of opinions among medical doctors regarding mask wearing and wondered how the general population can be expected to wear a mask properly when even doctors cannot seem to do so. She asked if the medical community ever encouraged healthy people to wear masks during other flu outbreaks.*
- *Doug Cervantes, InShape GM, Concord, commented the agency was founded by a physician to reduce the number of his patients. He said the national health crisis preceded COVID-19 and that health clubs can directly mitigate 8 of the top 10 causes of death that account for 75% of deaths in the county, e.g., cancer and heart disease. He opined that fitness, belonging and human connection (6 feet) can improve survival rate for COVID 19.*
- *Jude Mary asked about the survival rate of this virus in our county? She discussed the negative psychological effects of couching these statistics negatively (i.e., death rate vs. survival rate) especially on the older, more vulnerable population. She asked if the Health Officer agreed with CDC that this virus is unlikely to be transmitted by healthy adults and children. She requested a distinction be made between those hospitalized due to COVID vs. those hospitalized for another reason but test positive for COVID. She asked why the County has not emphasized self-care to boost immunity (a good offense for protection).*
- *Sean Butler, InShape GM, Antioch, offered to serve as an ambassador of the County's COVID safety message and invited County officials to take a tour of the club and its sanitizing program.*
- *Joe Shillace, InShape Area Manager, commented that fitness helps to fight disease and cited specific examples of club members who overcame serious disease through improved fitness.*
- *Eric Skow, InShape Director of Safety and Risk Management, read supportive letters from a County Supervisor in Tulare County.*
- *Lydia expressed concern about depriving children of basic humanity, human touch and interaction with other children and adult family members.*
- *Landi contrasted numerous social restrictions with allowing protests to proceed. She said that long-term care facilities should have been closed a long time ago. She said COVID tests are not accurate and that people's health is deteriorating due to COVID restrictions.*
- *Omar Rahman, In Shape employee, spoke about how the health club is*

*proactive, helping to mitigate health problems upstream to avoid more health issues downstream.*

- *Jonathan Katayanagi requested guidance on how the new mask order impacts childcare, day care. He noted the potential for cross-contamination with very young children sharing or touching their masks.*

*Dr. Warne thanked callers for their thoughtful questions and input.*

*Regarding church services, he clarified that outdoor singing is allowed with masks but not allowed indoors. Social distancing and stable groups of no more than 12 apply to youth groups. He said the claim that church gatherings are increasing the spread of the virus is a national not local claim.*

*Regarding hospitalizations of non-County residents, he said the number varies but, on net, there are more County residents hospitalized outside the County. The current recommendation for high-risk professions to be COVID tested monthly instead of bi-weekly considered testing capacity and feasibility for the individuals. There is a correlation between infections and hospitalizations, mitigated by good home care guidance. Of those hospitalized, COVID is an illness that disproportionately puts people into the ICU due primarily to the need for ventilation.*

*Regarding impacts on mental health, he acknowledged that we cannot sustain a dramatic SIP for a long period due to the deleterious effects on physical and mental health. But the original SIP provided the needed time to develop policies, supply chains, inventories of PPE, and to set up testing and contact tracing capacity – all the strategies designed to protect public health.*

*He reported that the majority of County deaths (62/88 or 70%) were in skilled nursing facilities. The County focuses on PCR rather than antibody tests. It is possible to be positive for both. Antibody tests will have a role someday, but they are not the County's primary focus right now. We prioritize high-risk individuals, but testing is open to everyone and free of charge. He acknowledged the value of mobile testing sites. Testing sites offer low risk of exposure due to the many precautions put in place and availability of drive-up testing. Testing is important to avoid a further chain of transmission, particularly within families.*

*He said we are trying to gain a better understanding about the increase in infections in 20/30 year olds. It might be that they are out socializing more, out working more, or both.*

*He understands the sentiments about children being restricted from playing at playgrounds but explained that this is a State restriction and the County cannot be more lenient than the State. He said the basis is likely the difficulty in regulating playgrounds for social distancing and hygiene protocols.*

*Regarding the County's face coverings press release, it has been corrected to indicate that it is recommended that people who have medical conditions that prevent the wearing of a tight-fitting mask instead wear a face shield with cloth extension, consistent with State guidance.*

*Regarding a cost/benefit analysis of the COVID shutdown, he said the Bay Area reacted more quickly and so avoided the level of severity that impacted New York and Europe. A crystal ball wasn't available when early decisions were made, and they were made based on public health urgency. Doubtless, those decisions will be analyzed in hindsight. However, Sweden's economy still suffered in the end despite their different path. He said, of course, we are concerned about delaying preventative care, cancer care, mental health care. Those services are still available as well as vital clinic services.*

*Dr. Warne recognized the great value of fitness centers to people's overall health and wellbeing, but said we are in a pause on any further openings. Some counties have allowed reopening but while we encourage fitness and made exceptions for outdoor recreation, we are currently in a three-week hold. Any new openings must be indicated by our data.*

*He said there is clear guidance by the State on what deaths get counted or attributed to Corona virus. Only those cases where the virus was the critical factor in the death are counted as COVID deaths.*

*He said that Contra Costa County is now, and has long been, part of the regional response to COVID but county hospitals currently have no admissions of prisoners released due to prison overflow.*

*He said there is COVID guidance around protests. Organizers are encouraged to follow social distancing and masking guidelines to keep safe in that setting. People have speculated that recent protests have led to increased spread of the virus, which is certainly possible, but the tracing data thus far hasn't indicated that.*

*Regarding the contrast of COVID with other flus, he said that for other flus, we ask people to get vaccinated. We're looking forward to an effective vaccine for the Corona virus. In the meantime, we must stress the importance of facial coverings and other precautionary measures.*

5. RECEIVE and APPROVE the Record of Action for the July 2, 2020 meeting.

*The Committee approved the July 2, 2020 Record of Action as presented.*

AYE: Chair Candace Andersen, Vice Chair Karen Mitchoff  
Passed

6. The next meeting is currently scheduled for July 16, 2020.

*The Committee confirmed the next meeting date of July 16, 2020. Vice Chair Mitchoff indicated will not be in attendance due to a prior commitment.*

7. Adjourn

*Chair Andersen adjourned the meeting at 3:41 p.m.*
