

The Board of Supervisors of Contra Costa County, California

In the matter of Proclaiming National Health Center Week (October 7-13, 2022).

Resolution No. 2022/342

WHEREAS, for over 50 years, Community Health Centers have provided high-quality, affordable, comprehensive primary and preventive health care in our nation's underserved communities, delivering value to, and having a significant impact on America's health care system, and

WHEREAS, as the country's largest primary care network, Community Health Centers are the health care home for 30 million Americans in over 14,000 communities, across the nation. One in every twelve people in the United States gets their care in a Community Health Center, and

WHEREAS, Community Health Centers are a critical element of the health system, serving both rural and urban communities, and often providing the only accessible and dependable source of primary care in their communities. Nationwide, Community Health Centers serve one in every five residents of rural areas, and

WHEREAS, Community Health Centers serve as beacons of essential resources and support in testing and treatment in the face of the global coronavirus pandemic, and will continue to offer reliable, affordable, high-quality care against COVID-19 for America's most vulnerable and underserved communities, and

WHEREAS, every day, Community Health Centers develop new approaches to integrating a wide range of services beyond primary care, including oral health, vision, behavioral health, and pharmacy services, to meet the needs and challenges of their communities, and

WHEREAS, Community Health Centers are governed by patient-majority boards, ensuring that the patients of each health center are engaged in their own health care decisions, and

WHEREAS, Community Health Centers are locally owned and operated small businesses that serve as critical economic engines, helping to power local economies by generating \$63.4 billion in economic activity in some of the country's most economically-deprived communities, and

WHEREAS, Community Health Centers nationally employ more than 253,000 people, including physicians, nurse practitioners, physician assistants, and certified nurse-midwives who work as part of multi-disciplinary clinical teams designed to treat the whole patient, and

WHEREAS, the Community Health Center model continues to prove an effective means of overcoming barriers to healthcare access, including geography, income, and insurance status - improving healthcare outcomes and reducing healthcare system costs, and

WHEREAS, Community Health Centers reduce overall costs of care by helping manage patients' chronic conditions, which keeps them out of costlier healthcare settings like hospital emergency rooms, and

WHEREAS, Community Health Centers are on the front lines of emerging health care crises, providing access to care for our nation's veterans, addressing the opioid epidemic, and responding to public health threats in the wake of natural disasters, and

WHEREAS, National Health Center Week offers the opportunity to celebrate America's over 1,400 health center organizations with over 12,000 service delivery sites, their dedicated staff, board members, patients, and all those responsible for their continued success and growth since the first health centers opened their doors more than 50 years ago, and

WHEREAS, during National Health Center Week, we celebrate the legacy of America's Community Health Centers, and their vital role in shaping the past, present, and future of America's health care system; and

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Contra Costa County does hereby proclaim October 7-13, 2022 as National Health Center Week and encourage all Americans to take part in this week by visiting their local Health Center and celebrating the important partnership between America's Community Health Centers and the communities they serve.

PASSED by a unanimous vote of the Board of Supervisors members present this 4th day of October 2022.
