SUBJECT MATTER TO BE PRESENTED:

Speaker Project

☒ *I do not want to speak but would like to leave comments for the Board to consider (Use the back of this form)

Please write comment here if you wish not to speak.

My name is Eliza I'm in 8th grade I will not feel safe with buildings
towering down on me. The dust and pollution won't be good for 4
years. This should not be about money this should be about
community.

As an alumni of seven hills school I am against the spiker project. I think the isolation and privacy of the seven hills school is a key factor in the development of the students. The nature and quietness of the seven hills campus is one thing that makes the school special. Four years of construction is a large distraction for students. Not to mention the people doing construction of in the building will get a view straight down upon the school, taking away from the privacy aspect, while the large buildings will block out the sun from the playground and campus. Being towered over by large building literally takes away from the name of the buildings "The Sun-Shine wing".
Thank you for your time, Kyle Ettinger - class of 2021.

I'm in Mrs. Dueñas' 3rd grade class at Sacra Hills.

I am concerned about the animals, the loud noises,
and making it hard to learn.

My youngest child will graduate Seven Hills this year
and I do not live in Walnut Creek so the personal
impact will be minimal for me. However - the role of
the supervisors as to look at the community. This project doesn't
benefit the community. It only benefits the developer and
a small portion of the community - which can be benefited
by a project redesign. Please vote No on the general
plan. It is not good for the school, neighbors + community

SUBJECT MATTER TO BE PRESENTED:

Spieker Development

☒ I do not want to speak but would like to leave comments for the Board to consider (Use the back of this form)

Please write comment here if you wish not to speak.

The Spieker Development will leave a negative
long-lasting impact on our town, on our school (Seven
Hills) and our environment. In the current plans, this
development is not reasonable. Ygnacio Valley Rd
is already congested. Adding 500+ units with workers,
construction vehicles, deliveries, etc will have a
significant disruption.

The planning commission 5-1 vote to deny this
project is the right decision. Please consider the
community @ large, the environment and most
importantly our children!

As homeowners in Contra Costa County for more than 20 years, our family is strongly opposed to the Speaker Development project as currently proposed. As a parent of two Seven Hills alumni and a member of the Administration for more than 10 years, we have serious concerns about the impact on students, proximity to the school, environmental impact, TRAFFIC, and the lack of good will/negotiation with the Speaker Developers. Thank you.

Retirement Community is the safest type of
housing that a community can have. Retirees
use less resources. The community is self-sufficient.
It allows seniors to live with respect in the
last phase of their lives and die with dignity.
Seniors are also a great resource for the community.
They have money to spend and talents to share.
They drive less and the subdivision gives them
what they need while providing a safe secure environment.
