BACKGROUND:

The purpose of this Project is to provide fire, life, safety, and accessibility improvements to public and secure areas of the Martinez Detention Facility.

The Project consists of accessibility improvements within public accessed spaces of the lobby, including public toilet room upgrades, transaction window accessibility compliance improvements, and ADA compliant facility signage. Within secure areas of the facility, existing handwash stations and casework within the inmate visit rooms will be replaced with new accessible, detention grade handwash sinks. A seismic gas shutoff will be installed on the existing gas main. All work shall be performed at the existing facility.

On November 13, 2018, the Board of Supervisors awarded a job order contract (JOC) for repair, remodeling, and other repetitive work to be performed pursuant to the Construction Task Catalog to each of Mark Scott Construction, Inc., Aztec Consultants, and Staples Construction Company, Inc., each in the amount of \$2,500,000. This project is expected to be performed by one of the three JOC contractors. A task order catalogue has been prepared for the JOC contractor to complete this Project. In the event that the Project is not performed by the JOC contractor, the Public Works Department will return to the Board for approval of plans and specifications and authorization to advertise and solicit bids.

CONSEQUENCE OF NEGATIVE ACTION:

Delay in approving the project may result in a delay of design, construction, and may jeopardize funding.
