

Contra  
Costa  
County

To: Board of Supervisors  
From: William Walker, M.D., Health Services Director  
Date: March 31, 2015  
Subject: Qiagen, Inc. Purchase Order

---

**RECOMMENDATION(S):**

Approve and authorize the Purchasing Agent, on behalf of Health Services Department, to execute a blanket Purchase Order #34719 with Qiagen, Inc. in the amount of \$200,000 for Quantiferon collection blood tubes and test kits for the period of March 1, 2015 to February 29, 2016

**FISCAL IMPACT:**

100% funding is included in the Enterprise Fund I Budget and includes a \$65,000 contract with Chevron Corp. to perform this testing for their employees.

**BACKGROUND:**

Qiagen Inc. has been used by the Health Services Department for over ten (10) years. Qiagen, Inc. provides the reagents required for use with testing instruments in our Public Health Laboratory. The reagents are necessary for specimens to be tested for tuberculosis, both active and latent infections. The Quantiferon test is a specific blood test that detects TB antigen in the blood of patients who have been exposed to the tuberculosis organism. A positive test would alert the provider to provide treatment and alleviate disease in later years.

CONSEQUENCE OF NEGATIVE ACTION:

The consequences of negative actions would be that the health care system would not be able to detect TB antigen in those patients who have been exposed, resulting in higher health care cost when they develop disease in later years. The tests would then need to be conducted by outside labs at a greater cost to the county. Public Heath Lab also uses the reagents purchased from Qiagen to conduct similar testing for the Chevron Corporation which generates revenue for CCC. Without the reagents we would not be able to conduct the tests.

CHILDREN'S IMPACT STATEMENT:

Not applicable.
