prevalence, and its consequences, and ultimately selected these two communities for the SPFSIG project. Through an established partnership with local law enforcement and elected officials in each of those communities, the County Alcohol and Other Drugs (AOD) prevention services engaged an existing system of care providers and residents through a Countywide Strategic Prevention Framework to develop a logic model that could assist in identifying priorities and build capacity based on specific cultural and AOD needs. The primary goal of the California's Strategic Prevention Framework State Incentive Grant will be to reduce underage and excessive drinking among youth and young adults' ages 12 to 25 years old, in the cities of Antioch and Walnut Creek, by implementing the County's Strategic Prevention Framework State Incentive Grant Project.

Approval of this Standard Agreement #29-532-2 will allow continuous funding to support the County's Strategic Prevention Framework State Incentive Grant (SPF SIG) Project, through May 31, 2016, including agreeing to indemnify and hold harmless the State for claims arising out of County's performance under this Agreement.

CONSEQUENCE OF NEGATIVE ACTION:

If this agreement is not approved, the County will not receive funding to support the County's Strategic Prevention Framework State Incentive Grant (SPF SIG) Project.
