FISCAL IMPACT:

100% East Bay Regional Park District Measure WW funds.

BACKGROUND:

The purpose of the Project is to install landscape improvements (approximately 1,400 linear feet) along a section of the Iron Horse Corridor at Hookston Station, between Hookston Road and Mayhew Way in the Pleasant Hill area.

The Project consists of installing irrigation piping systems, tree and shrubbery plantings, and other landscaping improvements. The Project also includes installing approximately 1,000 linear feet of asphalt concrete on an existing earthen path that roughly parallels this section of the Iron Horse Trail for alternative pedestrian use. Pedestrians will be able to use the alternative pedestrian paved path, allowing bicycles to utilize the adjacent Iron Horse Trail.

CONSEQUENCE OF NEGATIVE ACTION:

Delay in approving the project may result in a delay of design, construction, and may jeopardize funding.
