

Contra
Costa
County

To: Board of Supervisors
From: Julia R. Bueren, Public Works Director/Chief Engineer
Date: March 8, 2016

Subject: Approve an amended Contract with Larry Walker Associates for General Technical Support Services

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Chief Engineer, Flood Control & Water Conservation District, or designee, to execute, on behalf of the Contra Costa Clean Water Program, a contract amendment with Larry Walker Associates, Inc., to increase the payment limit by \$62,843, to a new payment limit not to exceed \$202,843, for general technical support services necessary to comply with federal and state stormwater rules contained in National Pollutant Discharge Elimination System Permits issued by the San Francisco Bay and Central Valley Regional Water Quality Control Boards. Countywide. (100% Cities and County Stormwater Utility Fee Assessments) Project No. 7519-6x7616.

FISCAL IMPACT:

The cost is estimated to be \$62,843; and, shall be funded by stormwater utility fee assessments collected by the Cities/Towns and County, proportional to their respective populations.

BACKGROUND:

The Contra Costa Clean Water Program (the "CCCWP") consists of Contra Costa County,

BACKGROUND: (CONT'D)

cities/towns and the Contra Costa County Flood Control & Water Conservation District (hereinafter referred to collectively as "Permittees"). The CCCWP was established in 1991 through a Program Agreement in response to the 1987 amendments to the federal Clean Water Act (the "CWA"), which established a framework for regulating municipal stormwater discharges under the National Pollutant Discharge Elimination System ("NPDES") Permit Program. The United States Environmental Protection Agency (the "USEPA") published final rules implementing the 1987 CWA amendments in November 1990. The rules mandate that Permittees obtain and implement stormwater permits designed to reduce and eliminate the discharge of pollutants into and from Municipal Separate Storm Sewer Systems (the "MS4s") they own and operate. Through the CCCWP, Permittees conduct many of the mandated activities collectively (referred to as "Group Activities"), such as water quality monitoring, special studies, and public education. The roles and responsibilities of the CCCWP and Permittees are outlined in the Program Agreement, which was last updated and adopted by all Permittees in June 2010.

The CCCWP's stormwater monitoring programs are designed to identify and evaluate sources, pathways, loadings and impacts of pollutants, such as mercury and PCBs, that reach local creeks and streams, and eventually into the San Francisco Bay/Delta; and, to investigate the effectiveness of stormwater treatment control technologies. Technical support services provided by Larry Walker Associates, Inc. ("Larry Walker") are necessary to assist the CCCWP with compliance of these mandates.

In order to help continue to maintain permit compliance, CCCWP staff, on behalf of the Permittees, respectfully requests approval of this amendment to increase the payment limit for this contract with Larry Walker for general technical support services.

CONSEQUENCE OF NEGATIVE ACTION:

If the Contract with Larry Walker Associates is not approved, the CCCWP would not be able to fulfill the permit mandates, and municipalities could be found in non-compliance with the NPDES permits issued by the Water Boards. Fines totaling \$10,000 per day and \$10 per gallon of stormwater discharge could potentially be imposed.
