ensure Probation clients are in compliance with their Probation terms. Whenever

BACKGROUND: (CONT'D)

Probation needs to extract data from these devices, we must rely on local jurisdictions (Sheriff, Concord PD) to complete this task for us which is inconvenient to Probation and the Probation clients.

The Cellebrite hardware and software will allow the Probation Department to search cell phones and other electronic devices to ensure Probation clients are in compliance with their Probation terms. The Cellebrite terms and conditions accompanying the hardware and software require County to indemnify and hold Cellebrite harmless from any claim arising from any use of the software in a manner that violates any third party's rights.

A purchase order is being used for this transaction instead of a contract since Cellebrite will only permit the purchase of its software and services if its terms and conditions govern the purchase in connection with the issuance of a purchase order.

CONSEQUENCE OF NEGATIVE ACTION:

The Probation Department will continue to rely on other local jurisdictions to extract data from electronic devices.

CHILDREN'S IMPACT STATEMENT:

Not applicable.
