### BACKGROUND: (CONT'D)

in two phases - an assessment phase ("Phase I") and an implementation phase ("Phase II"). OVW completed Phase I in September 2014 and selected ZTDVI as one of four sites to participate in Phase II of the Project and implement the Lethality Assessment Program (LAP), a recognized promising practice. ZTDVI is engaging the Contractor to assist in carrying out activities consistent with the funding application.

ZTDVI also applied for and received funds from the US Department of Justice, Office of Victims of Crime (OVC), Services for Victims of Human Trafficking Program ("HT Project"). ZTDVI is engaging the Contractor to assist in carrying out activities consistent with the funding application. The primary purpose of the HT Project is to enhance the social service field's response to victims of human trafficking as defined by the Trafficking Victims Protection Act (TVPA) of 2000 (22 U.S.C. § 7101 et. seq.) as amended.

The goals and objectives of the HT Project are: 1) To provide timely and high-quality comprehensive services for all victims of human trafficking; 2) To enhance interagency coordination in the provision of services to trafficking victims; and 3) To provide training to service providers and allied professionals within the targeted community to improve community collaboration and increase awareness of the needs and rights of trafficking victims and survivors.
