BACKGROUND:

Head Start is a federal program that promotes the school readiness of children ages birth through five from low-income families by enhancing their cognitive, social and emotional development. Head Start programs provide a learning environment that supports children's growth in the following domains: language and literacy; cognition and general knowledge; physical development and health; social and emotional development; and approaches to learning. Early Head Start provide services to pregnant women and children ages birth to three.

Head Start/Early Head Start also provides comprehensive services which include health, nutrition, social and other services determined as necessary via family needs assessments. Services are designed to be responsive to each child and family's ethnic, cultural, and linguistic heritage. Services are provided through a variety of service models including: centers or schools that children attend part or full day, family childcare homes and/or the children's own homes wherein a Head Start staff visit once per week to provide in-home services. Children who receive home-based services gather periodically with other enrolled families for group learning experiences facilitated by Head Start staff.

Contra Costa County submits an application annually to U.S. Health and Human Services Department, Administration for Children and Families as the Head Start grantee. The annual application includes newly identified goals and objectives for the program. This application will be reviewed and approved by the Head Start Policy Council on September 24, 2016. Approval of this board order will allow the continued provision of Early Head Start services to program eligible children and families.

CONSEQUENCE OF NEGATIVE ACTION:

If not approved, County will not receive funding to operate Early Head Start childcare centers.

CHILDREN'S IMPACT STATEMENT:

The Community Services Bureau of the Employment & Human Services Department's Early Head Start program supports three of Contra Costa County's community outcomes - Outcome 1: "Children Ready for and Succeeding in School," Outcome 3: "Families that are Economically Self-sufficient," and, Outcome 4: "Families that are Safe, Stable, and Nurturing." These outcomes are achieved by offering comprehensive services, including high quality early childhood education, nutrition, and health services to low-income children throughout Contra Costa County.
