

**Contra
Costa
County**

To: Contra Costa County Fire Protection District Board of Directors
 From: Jeff Carman, Chief, Contra Costa County Fire Protection District
 Date: October 25, 2016

Subject: FY 2016 Assistance to Firefighters (AFG) Grant

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Fire Chief, or designee, to apply for and accept grant funding from the U.S. Department of Homeland Security, Federal Emergency Management Agency, Assistance to Firefighters Grants Program in an amount not to exceed \$700,000 for the purchase of two three water tenders.

FISCAL IMPACT:

90% Federal funds. There is a 10% local agency cost sharing requirement. The grant award(s) may be lower than the amount requested and will be for a period of one year from the effective date of award(s).

BACKGROUND:

The purpose of the Assistance to Firefighters Grants (AFG) Program is to enhance, through direct financial assistance, the health and safety of the public and firefighting personnel and to provide a continuum of support for emergency responders regarding fire, medical, and all-hazard events. FY 2015 AFG Programs play an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of

cc:

a secure and resilient nation.

BACKGROUND: (CONT'D)

Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government.

This grant will request funding to replace two aging water tenders. Water tenders are used for vegetation fire responses and other fire incidents where fire hydrants are limited or non-existent. They carry 1500-2500 gallons of water depending on their configuration, as compared to 500 gallons of water carried on the typical fire engine. The District, at one time, had a fleet of six water tenders, but has been reduced to three due to the age and reliability of these units. Of the three water tenders owned by the District, only one is reliable enough to place in daily service. Two of these water tenders are 33 years old and one is 23 years old. This grant would provide two “tactical” water tenders, each carrying 1950 gallons of water and 20-50 gallons of foam. The cost of each water tender, including sales tax, is approximately \$350,000. The total grant budget is \$700,000. There is a 10% local agency match requirement. If the District's application is approved at the amount requested, the local agency match would be \$70,000.

CONSEQUENCE OF NEGATIVE ACTION:

Contra Costa County is home to major industry, railroads, local and state roadways, and dense population and commercial centers built on four major earthquake faults. It is imperative that the District has state-of-the-art firefighting and rescue equipment available at all times and our personnel are trained to the highest standards in order to provide the best possible emergency response to its customers. Failure to approve this grant request would cause the District to forego the purchase of the much needed equipment and provide the specialized training until additional fiscal resources are available.
