

**Contra
Costa
County**

To: Board of Supervisors

From: Kathy Gallagher, Employment & Human Services Director

Date: December 6, 2016

Subject: Contract amendment with One Solution Technology

RECOMMENDATION(S):

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute a contract amendment, effective July 1, 2016, with One Solution Technology to increase the payment limit by \$401,000 to a new payment limit of \$869,000 for Child Location of Utilization Database System (CLOUDS) software for managing County's child and family eligibility determination, enrollment, assessment data, and attendance management solutions with no change to term July 1, 2015 through June 30, 2018.

FISCAL IMPACT:

\$401,000: 50% State Funding and 50% Federal Funding (CFDA# 93.600).

BACKGROUND:

Contractor was selected as a sole source provider based upon on-going relationship with department. The board approved the original contract on June 16, 2015. This board order is to approve a contract amendment to add more training and customized software services with funding from an Early Head Start partnership grant received by the County on March 29, 2016.

CLOUDS (Child Location Observation Utilization Data System) is a management information system designed to provide increased safety for children and to enhance staff productivity in the childcare centers. Through the use of CLOUDS technology, teachers are able to ensure the optimum safety and visibility of the young children in their care at all times. The system works on Secure technology which ensures confidentiality and features remote access through a secure web-based program limited to the county's computer system and a three digit encrypted central database which requires an authenticated profile. The department utilized a federal quality improvement grant as seed funding to work with One Solution Technology to custom create the system to provide the following:

-

BACKGROUND: (CONT'D)

Enhanced security and safety for all children in the classrooms

- Facilitation of enrollment process
- Automation of attendance management, meal count and staffing
- Increased efficiency in food service management
- Monitor the location of all children by providing an audible alarm
- Real time monitoring of teacher to child ratios

The system is capable of further enhancement to keep abreast and incorporate changing Federal, State, and Local regulations and added Programs.

CONSEQUENCE OF NEGATIVE ACTION:

The department will be unable to acquire additional training and customized software services from this vendor.

CHILDREN'S IMPACT STATEMENT:
