### BACKGROUND: (CONT'D)

EBP; and strategies to support positive outcomes for youth, their families, and communities. The legislative mandates associated with the BSCC also direct the Board to support statewide efforts in implementing evidence-based practices.

On April 22, 2013 to support the Three-Year plan, the SACJJDPA approved \$250,000 in discretionary JABG funds (CDFA 16.523) to develop the EBP priority area. In May 2014, the BSCC Board authorized the establishment of an Executive Steering Committee (ESC) to oversee the development of a Request for Application (RFA) process to identify probation departments that were prepared to receive training that would assist them in implementing or expanding the use of evidence-based practices within their local juvenile justice communities. This competitive process resulted in grant awards to nine projects which began on May 1, 2015 and concluded on June 30, 2016.

On June 9, 2016 the BSCC Board approved a recommendation from the SACJJDPA that approximately \$190,000 in additional JABG funding be extended to the nine EBP Training grantees for a second round of project funding. This reapplication process is in response to the BSCC Boards authorization of this funding.

The Probation Department will be ineligible to receive funding from the Board of State and Community Corrections.

This program supports the following Board of Supervisors' community outcomes: "Children are Healthy and Ready for School", "Youth Are Healthy and Preparing for Adulthood", and "Families and Communities Are Safe."
