Due to unanticipated requirements received from the Centers for Medicare and Medicaid Services (CMS) coupled with untimely delays from CMS in responding

BACKGROUND: (CONT'D)

to requests for clarification and information, Contra Costa Health Plan required guidance and assistance from the Contractor on the CMS Cost Sharing Reduction (CSR) Reconciliation for the period January 1, 2016 through June 30, 2016. As the reconciliation was more involved than expected, the services provided by Contractor were quite extensive and needed to meet Health Services' reporting obligations.

The provider is entitled to payment for the reasonable value of its services under the equitable relief theory of quantum meruit. That theory provides that where a contractor has been asked to provide services without a valid contract, and the contractor does so to the benefit of the County, the Contractor is entitled to recover the reasonable value of those services. Healthcare Technology Management Services, LLC provided services at the request of the department after the contract expired. The Department is requesting that the Contractor be paid the amount owing of \$12,390.

CONSEQUENCE OF NEGATIVE ACTION:

If this contract is not approved, Contractor will not be paid for services provided outside of the contract.
