cc:

The parties now propose execution of Change Order No. 10 to the agreement, which provides for the implementation of a four user VPN connection into Contra County's section of the Master Site Unified Event Manager (UEM). This connection will allow for the virtual administration, servicing, monitoring and forensics of EBRCSA's Motorola Astro 25 radio system.

BACKGROUND: (CONT'D)

In accordance with Administrative Bulletin No 611.0, County Departments are required to obtain Board approval for single item purchases over \$100,000. The County Administrator's Office has reviewed this request and recommends approval.

CONSEQUENCE OF NEGATIVE ACTION:

If Change Order No.10 is not approved, County technicians will be unable to remotely access East Bay Regional Communications System Authority (EBRCSA) master site, causing additional delays in emergency situations.
