enforcement authority from California Food and Agriculture Code Section 2281, and the U.S. Environmental Protection Agency (EPA) through a three-party Cooperative Agreement between the EPA, DPR and the County Agricultural Commissioners and Sealers Association. The EEIP activities include:

BACKGROUND: (CONT'D)

1. The collection of complete compliance and enforcement data from the CAC for the purpose of evaluating individuals and businesses licensed by the state to determine if enforcement action is warranted;
2. The evaluation of compliance and enforcement data to ensure statewide consistency with DPR policies, regulations and law, and identify trends that will be used to improve outreach and education to licensees; and
3. The improvement of communication and collaboration between DPR and the CAC in tracking, development and preparation of enforcement responses as needed to establish and implement county agricultural commissioner enforcement.

CONSEQUENCE OF NEGATIVE ACTION:

Failure to accept Agreement #17-C0010 will result in insufficient revenue for the Department to perform enforcement activities on behalf of Department of Pesticide Regulation and the loss of the associated administrative overhead that benefits the Department's operational budget.
