BACKGROUND: (CONT'D)

statistically sound national estimates of crime, the NCS-X program will support the transition to NIBRIs reporting of a scientifically selected sample of 400 LE agencies nationwide. The Office of the Sheriff's current system is compliant with the NIBRS for direct reporting to the FBI, however it does not comply with the State and Federal state-specific incident based crime reporting model that is being implemented and mandated for compliance by the January 1, 2021 implementation date. The State of California Department of Justice has released the additional 196 data elements that will be required for reporting to the state. This grant will provide funding for the programming costs required to add California specific reporting requirements.

CONSEQUENCE OF NEGATIVE ACTION:

If the Board of Supervisors fail to approve the Office of the Sheriff will be required to use general fund monies to complete the upgrades to meet mandated State and Federal requirements.

CHILDREN'S IMPACT STATEMENT:

None.
