BACKGROUND: (CONT'D)

to NIBRIs reporting of a scientifically selected sample of 400 LE agencies nationwide. The Office of the Sheriff's current system is compliant with the NIBRS for direct reporting to the FBI; however, it does not comply with the State and Federal state-specific incident-based crime reporting model that is being implemented and mandated for compliance by the January 1, 2021 implementation date. The State of California Department of Justice has released the additional 196 data elements that are required for reporting to the state. This grant will provide funding for the programming costs required to add California specific reporting requirements.

CONSEQUENCE OF NEGATIVE ACTION:

If the Board of Supervisors fails to approve, the Office of the Sheriff would not meet mandated State and Federal requirements.
